

Case Exercise

This is a hypothetical accident for illustrative purposes only.

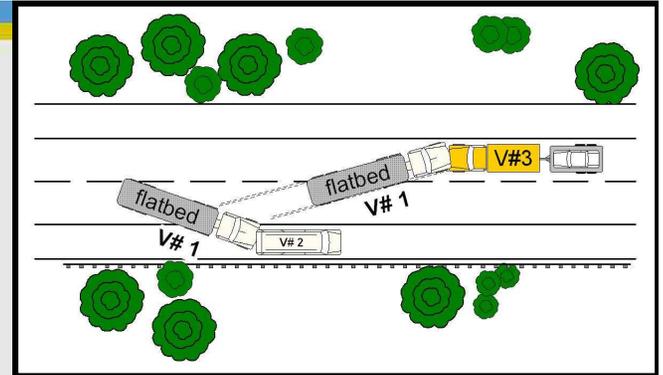

Narrative:

Unit 2, a Ford E-Series tour bus with 25 passengers, had stopped on the right shoulder to check his vehicle. The driver of Unit 2 had returned to the driver's seat when Unit 1, a Peterbilt flatbed carrying pipes, drifted onto the right shoulder and struck Unit 2. Unit 1 then struck Unit 3, a Penske rental truck with an auto trailer.

Unit 3 was being driven by Harry Homeowner a California resident with a Basic class C license. He was moving his belongings to his new home. Driver of Unit 3 was killed and transported to the local morgue by the L.A. county coroner.

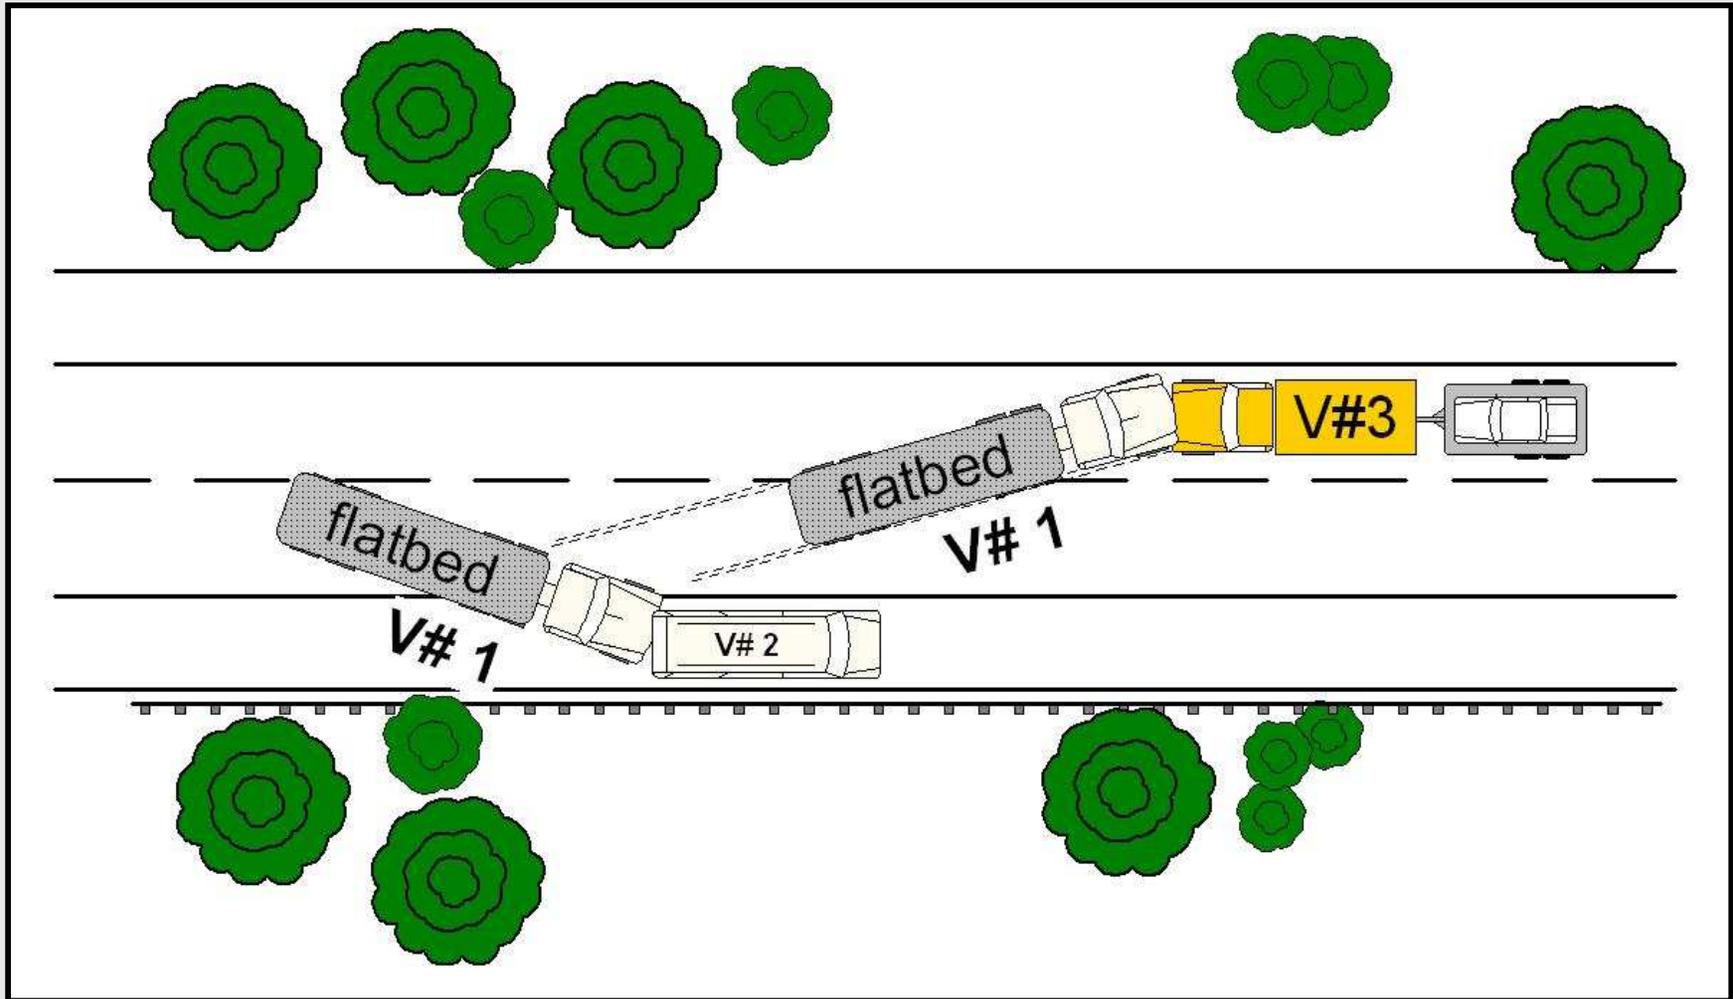

Narrative: continued

Five occupants and the driver of Unit 2 received incapacitating injuries and were transported by Collins EMS Service to Mercy Hospital. The driver of Unit 2 had a commercial class “C” license with a “P” endorsement.

Unit 1 sustained damage to the front and the hood was buckled, preventing it from opening, but the vehicle was driveable. He was uninjured and had a class “A” license with no endorsements or restrictions. Unit 1 was towed by Bob’s Towing because the driver was prohibited from driving it from the scene. Units 2 & 3 were disabled and towed due to damage by RJ’s Towing.
