ELECTRONIC COPIES OF TRANSPORTATION PERMITS AND REQUIRED ACCOMPANIMENTS--UPDATE

The California Highway Patrol Information Bulletin titled "Electronic Copies of Transportation Permits and Required Accompaniments," published on September 10, 2019, described how the California Department of Transportation implemented a Web-based permit application system for carriers to obtain a single-trip oversize/overweight transportation permit.

Annual transportation permits and pilot car maps, which had not been included previously, will now be issued electronically. Carriers may display an electronic version of an annual transportation permit, a single-trip transportation permit, or repetitive transportation permit; required accompaniments; and pilot car maps on an electronic device.

Carriers will be provided electronic documents which may be downloaded, printed, or faxed prior to a permitted extralegal movement. The requirement to possess an electronic permit and required accompaniments shall follow existing requirements for carrying paper permits. Carriers not in possession of a paper version of the permit and required accompaniments, or unable to produce an electronic version due to cellular telephone coverage, electronic damage, or other reasons, are deemed not in compliance.

Questions regarding this Information Bulletin may be directed to Commercial Vehicle Section, at (916) 843-3400.
