Dear Fellow Californian:

This year marks the 100th anniversary of the California DMV, which was created in 1915 under legislation drafted by California State Senator Ernest Stratton Birdsall. California registered 191,000 vehicles that year, quite large for that era but miniscule compared to 32 million currently registered vehicles in California today.

As the DMV moves into its second century of serving the motoring public, customer service and public safety remain its top priorities. The written driver license exam is now offered in an automated, touch screen version that reduces test time and wait time at DMV offices. DMV has also opened new field offices and extended office hours to serve more new drivers than ever before.

California is safer when all motorists pass written and driving tests and obtain proof of insurance and a driver license. Your decision to commit to safe driving is making California a better place for everyone.

Sincerely,

Brian P. Kelly
Secretary
California State Transportation Agency
The California Department of Motor Vehicles is directed to publish and sell the California Vehicle Code, also referred to as the Vehicle Code, pursuant to Vehicle Code section 1656.

Prior to 1967 the Legislature met every other year (in odd-numbered years) to consider matters of general legislation. Special sessions were also conducted in even-numbered years to consider budgetary items and matters placed before the Legislature by special request of the Governor. The Vehicle Code was published every other year, following the full sessions of the Legislature.

Commencing in 1967, the Legislature met every year.

In 1973, the two-year Legislative Session began. This was the result of Proposition 4, Assembly Constitutional Amendment (ACA) 95 of 1972.

The two-year session formally commences at noon on the first Monday in December of even-numbered years and adjourns sine die on midnight of November 30 of the succeeding even-numbered year. There is a mid-session recess from September 15 to January 6.

Generally statutes will take effect on January 1 of each year provided they were enacted 90 days prior to that date and were not urgency measures or bills enacted in Special Session. Urgency statutes take effect upon their enactment and bills enacted at Special Sessions take effect 91 days after adjournment of the Special Session.

An Appendix contains “other laws relating to the use of highways or the operation of motor vehicles,” as specified in Section 1656.

A List of Violations of the Vehicle Code, revised and brought up to date every year, is also included in the State Edition. This list is provided as an informational guide only and is not intended to supplant sections of the vehicle code enacted into law. The list has not been codified and does not carry the force or effect of statute. Boldface italics are used to indicate new provisions not contained in former editions. Parentheses in the text — ( ) — indicate that material has been deleted by amendment. Material deleted from the Vehicle Code is printed in seven-point type in the footnotes and is removed from subsequent editions. Deleted material is not shown for the related codes in the appendix.

History lines are included in the code denoting the last ten years of legislative history of the sections. If the last legislative action on a section occurred more than ten years ago, that single action line is retained. In most cases, history is confined to noting the number and section of the statutory chapter affecting the code section, the year of the statutory action, and the effective and/or operative date(s). Vehicle Code sections with no history line remain unchanged since the 1959 recodification.

For legislative history of the Vehicle Code as enacted in Chapter 27, Statutes of 1935, and of its sections prior to the 1959 recodification, reference may be made to the 1957 or earlier printings of the Vehicle Code in the State Edition, or to an annotated edition. Most editions of the code published in 1959 and 1961 contain Tables of Derivation and Disposition of the sections renumbered in the 1959 recodification. For purposes of the State Edition, these tables were deemed to be of diminishing reference value effective with the 1963 edition, and have not been included in subsequent issues.

The people of the State of California do enact as follows:

GENERAL PROVISIONS

1. This act shall be known as the Vehicle Code.

CONSTRUCTION OF EXISTING LAW

2. The provisions of this code, insofar as they are substantially the same as existing provisions relating to the same subject matter, shall be construed as restatements and continuations thereof and not as new enactments.

3. All persons who, at the time this code goes into effect, hold office under the code repealed by this code, which offices are continued by this code, continue to hold them according to their former tenure.

4. No action or proceeding commenced before this code takes effect, and no right accrued, is affected by the provisions of this code, but all procedure thereafter taken therein shall conform to the provisions of this code so far as possible.

5. If any portion of this code is held unconstitutional, such decision shall not affect the validity of any other portion of this code.

6. Unless the provision or the context otherwise requires, these general provisions and rules of construction shall govern the construction of this code.

7. Division, chapter, and Article headings do not in any manner affect the scope, meaning, or intent of the provisions of this code.

DELEGATION OF POWERS AND DUTIES

8. Whenever, by the provisions of this code, a power is granted to a public officer or a duty imposed upon such an officer, the power may be exercised or the duty performed by a deputy of the officer or by a person authorized pursuant to law by the officer.

9. Whenever any notice, report, statement, or record is required by this code, it shall be made in writing in the English language.

10. Whenever any reference is made to any portion of this code or of any other law, such reference shall apply to all amendments and additions heretofore or hereafter made.

11. “Section” means a section of this code unless some other statute is specifically mentioned and “subdivision” means a subdivision of the section in which that term occurs unless some other section is expressly mentioned.

12. The present tense includes the past and future tenses; and the future, the present.

13. The masculine gender includes the feminine and neuter.

14. The singular number includes the plural, and the plural the singular.

15. “Shall” is mandatory and “may” is permissive.

17. Officers and employees of the Department of Motor Vehicles and the Department of the California Highway Patrol are, for the purposes of this code, authorized to administer oaths and acknowledge signatures, for which no fee shall be charged.

18. Whenever the acknowledgment of any document is required by this code or any regulation of either department, the signature of the applicant attested to in his presence by a subscribing witness is sufficient.

19. It is unlawful to use a false or fictitious name, or to knowingly make any false statement or knowingly conceal any material fact in any document filed with the Department of Motor Vehicles or the Department of the California Highway Patrol.

20. Except as otherwise expressly provided, the provisions of this code are applicable and uniform throughout the state and in all counties and municipalities therein, and a local authority shall not enact or enforce any ordinance or resolution on the matters covered by this code, including ordinances or resolutions that establish regulations or procedures for, or assess a fine, penalty, assessment, or fee for a violation of, matters covered by this code, unless expressly authorized by this code.
§22

(b) To the extent permitted by current state law, this section does not impair the current lawful authority of the Mountains Recreation and Conservation Authority, a joint powers authority, or any member agency constituted therein as of July 1, 2010, to enforce an ordinance or resolution relating to the management of public lands within its jurisdiction.

Amended Sec. 1, Ch. 616, Stats. 2010. Effective July 1, 2011.

(b) This section shall become operative on July 1, 2011.

Added Sec. 1.7, Ch. 599, Stats. 2010. Effective July 1, 2011.

Form of Abstract

1804. (a) The abstract shall be made upon a form furnished or approved by the department and shall contain all necessary information to identify the defendant, including, but not limited to, the person’s driver’s license number, name, and date of birth, the date and nature of the offense, the vessel number, if any, of the vessel involved in the offense, the license plate number of the vessel involved in the offense, the date of hearing, and the judgment, except that in the case of infractions where the court has not directed the department to suspend or restrict the defendant’s driver’s license, only the conviction and not the judgment need be set forth in the abstract. The abstract shall also indicate whether the vehicle involved in the offense is a commercial motor vehicle, as defined in subdivision (b) of Section 15210, whether the vehicle was of a type requiring the driver to have a certificate issued pursuant to Section 2512, 12517, 12519, 12523, or 12523.5 or any endorsement issued pursuant to paragraph (2) or (5) of subdivision (a) of Section 15278, and whether the vehicle was transporting hazardous material at the time of the offense, or whether the vessel involved in the offense was a recreational vessel, as defined in subdivision (bb) of Section 651 of the Harbors and Navigation Code.

(b) As to any abstract for which the original arrest and final conviction was for a violation of subdivision (b), (c), (d), (e), or (f) of Section 655 of the Harbors and Navigation Code or Section 23152 or 23153 of this code, the abstract shall contain a statement indicating the percentage of alcohol, by weight, in the person’s blood whenever that percentage was determined...
by a chemical test. The information regarding the chemical test shall be compiled if it is available to the clerk of the court. All information required to be compiled pursuant to this subdivision shall be kept confidential in the records of the department pursuant to Section 1808.5. The department may use the information for research and statistical purposes and for determining the eligibility of any person to operate a motor vehicle on the highways of this state. The information shall not be released to any other public or private agency, except for research and statistical summary purposes and, for those purposes, the name and address of the person and any other identifying information shall not be disclosed.

(c) The Legislature finds and declares that blood-alcohol percentages have valuable research potential in providing statistical summary information on impaired drivers but that a specific blood-alcohol percentage is only an item of evidence for purposes of criminal and licensing sanctions imposed by law. The Legislature recognizes that the accuracy of the determination of a specific blood-alcohol percentage is not the critical determination in a conviction for driving under the influence of an alcoholic beverage if the blood-alcohol percentage exceeds the statutory amount.

Amended Sec. 1, Ch. 630, Stats. 2007. Effective January 1, 2008.

Failure to Comply

Report of Accident or Conviction

1806. (a) The department shall file all accident reports and abstracts of court records of convictions received under this code, and in connection therewith, shall maintain convenient records or make suitable notations in order that an individual record of each license showing the convictions of the licensee and all traffic accidents in which the individual was involved, except those where, in the opinion of a reporting officer, another individual was at fault, are readily ascertainable. At its discretion the department may file and maintain these accident reports and abstracts by electronic recording and storage media and after transcribing electronically all available data from the accident reports and abstracts of conviction may destroy the original documents. Notwithstanding any other provisions of law, the recorded facts from any electronic recording and storage device maintained by the department shall constitute evidence of the facts in any administrative actions instituted by the department.

(b) When the department receives notification pursuant to subdivision (c) of Section 1872.45 of the Insurance Code, the department shall remove from the license record of each victim any record of his or her involvement in the accident which is the subject of the criminal complaint.

Amended Sec. 9, Ch. 885, Stats. 1999. Effective January 1, 2000.

1806.5. Notwithstanding Section 1808, the department shall not furnish information filed pursuant to Section 1806 to any person if the furnishing of that information would violate the federal Fair Credit Reporting Act (15 U.S.C. Sec. 1681 et seq.).

Destruction of Records

1807. (a) The department is not required to maintain records relating to drivers of motor vehicles after the records are, in the opinion of the director, no longer necessary, except as follows:

(1) Records of convictions shall be maintained so long as they may form the basis of license suspensions or revocations as prior convictions or with other records of conviction constitute a person a “negligent driver.”

(2) Records of convictions of violating Section 38301.3 shall be maintained for seven years.

(b) Records that are not required to be maintained may be destroyed with the approval of the Department of General Services.

These reports shall be presented upon request to an authorized representative of the Department of the California Highway Patrol during regular business hours.

(b) The employer of a driver who drives a vehicle specified in subdivision (k) shall participate in a pull-notice system, which is a process for the purpose of providing the employer with a report showing the driver's current public record as recorded by the department, and any subsequent convictions, failures to appear, accidents, driver's license suspensions, driver's license revocations, or any other actions taken against the driving privilege or certificate, added to the driver's record while the employer's notification request remains valid and uncanceled. As used in this section, participation in the pull-notice system means obtaining a requester code and enrolling all employed drivers who drive a vehicle specified in subdivision (k) under that requester code.

(c) The employer of a driver of a vehicle specified in subdivision (k) shall, additionally, obtain a periodic report from the department at least every 12 months. The employer shall verify that each employee's driver's license has not been suspended or revoked, the employee's traffic violation point count, and whether the employee has been convicted of a violation of Section 23152 or 23153. The report shall be signed and dated by the employer and maintained at the employer's principal place of business. (g) As part of its inspection of bus maintenance facilities and terminals required at least once every 13 months pursuant to subdivision (c) of Section 34501, the Department of the California Highway Patrol shall determine whether each transit operator, as defined in Section 99210 of the Public Utilities Code, is then in compliance with this section and Section 12804.6, and shall certify each operator found to be in compliance. Funds shall not be allocated pursuant to Chapter 4 (commencing with Section 99200) of Part 11 of Division 10 of the Public Utilities Code to a transit operator that the Department of the California Highway Patrol has not certified pursuant to this section.

(h) (1) A request to participate in the pull-notice system established by this section shall be accompanied by a fee determined by the department to be sufficient to defray the entire actual cost to the department for the notification service.
For the receipt of subsequent reports, the employer shall also be charged a fee established by the department pursuant to Section 1811. An employer who qualifies pursuant to Section 1812 shall be exempt from any fee required pursuant to this section. (i) The department, as soon as feasible, may establish an automatic procedure to provide the periodic reports to an employer by mail or via an electronic delivery method, as required by subdivision (c), on a regular basis without the need for individual requests.

(j) (1) The employer of a driver who is employed as a casual driver is not required to enter that driver’s name in the pull-notice system, as otherwise required by subdivision (a). However, the employer of a casual driver shall be in possession of a report of the driver’s current public record as recorded by the department, prior to allowing a casual driver to drive a vehicle specified in subdivision (k). A report is current if it was issued less than six months prior to the date the employer employs the driver.

(2) For the purposes of this subdivision, a driver is employed as a casual driver when the employer has employed the driver less than 30 days during the preceding six months. “Casual driver” does not include a driver who operates a vehicle that requires a passenger transportation endorsement.

(l) This section shall not be construed to change the definition of “employer,” “employee,” or “independent contractor” for any purpose.

(m) A motor carrier who contracts with a person to drive a vehicle described in subdivision (k) that is owned by, or leased to, that motor carrier, shall be subject to subdivisions (a), (b), (c), (d), (f), (j), (k), and (l) and the employer obligations in those subdivisions.

(n) Reports issued pursuant to this section, but only those for a driver of a taxicab engaged in transportation services as described in subdivision (a) of Section 53075.5 of the Government Code, shall be presented upon request, during regular business hours, to an authorized representative of the administrative agency responsible for issuing permits to taxicab transportation services pursuant to Section 53075.5 of the Government Code.

Amended Sec. 5, Ch. 311, Stats. 2006. Effective January 1, 2007.

Legislative Intent: Considerations Determining Compensation for Communications Operator with California Highway Patrol

2266. (a) The Legislature finds and declares all of the following:

1. The ( ) public safety dispatchers and public safety operators of the Department of the California Highway Patrol are among the lowest paid when compared to operators employed by other law enforcement agencies in the state. The department’s communication centers suffer from significant staff shortages and high turnover rates. Increasing the wages paid to these ( ) public safety dispatchers and public safety operators will increase their professionalism while reducing their rate of turnover.
(2) The recruitment and retention problem is especially evident in the classifications of ( ) 1 public safety dispatchers and public safety operator.

(3) In order for the state to recruit and retain the highest qualified and capable ( ) 1 public safety dispatchers and public safety operators, those employees should be compensated in an amount equal to the estimated average total compensation for the classifications corresponding to ( ) 2 Public Safety Dispatcher and Public Safety Operator within the police departments in the Cities of Los Angeles, Oakland, San Diego, and San Jose and the City and County of San Francisco.

( ) 3

(4) This section is not in violation of the Ralph C. Dills Act (Chapter 10.3 (commencing with Section 3512) of Division 4 of Title 1 of the Government Code), which requires that changes for salaries and benefits be collectively bargained between representatives of the state and the employee’s union. This section does not circumvent that process. This section simply authorizes the Department of Human Resources, when determining compensation for ( ) 1 public safety dispatchers and public safety operators in the Department of the California Highway Patrol, to consider the total compensation for ( ) 1 public safety dispatchers and public safety operators in other jurisdictions.

(b) When determining compensation for ( ) 1 public safety dispatchers and public safety operators in the Department of the California Highway Patrol, the Department of Human Resources may consider the total compensation for ( ) 1 public safety dispatchers and public safety operators in comparable positions in the police departments specified in paragraph (3) of subdivision (a).

(5) (4) This section does not circumvent that process. This section simply authorizes the Department of Human Resources, when determining compensation for ( ) 1 public safety dispatchers and public safety operators in the Department of the California Highway Patrol, to consider the total compensation for ( ) 1 public safety dispatchers and public safety operators in comparable positions in the police departments specified in paragraph (3) of subdivision (a).

(6) (5) This section does not circumvent that process. This section simply authorizes the Department of Human Resources, when determining compensation for ( ) 1 public safety dispatchers and public safety operators in the Department of the California Highway Patrol, to consider the total compensation for ( ) 1 public safety dispatchers and public safety operators in comparable positions in the police departments specified in paragraph (3) of subdivision (a).

(b) When determining compensation for ( ) 1 public safety dispatchers and public safety operators in the Department of the California Highway Patrol, the Department of Human Resources may consider the total compensation for ( ) 1 public safety dispatchers and public safety operators in comparable positions in the police departments specified in paragraph (3) of subdivision (a).

(7) The recruitment and retention problem is especially evident in the classifications of ( ) 1 public safety dispatchers and public safety operators.

(c) Nothing in subdivision (a) entitles a member of the California Highway Patrol to, or precludes a member from receiving, an industrial disability retirement.

Safety and Aviation Boots

2269. (a) The commissioner shall provide, as safety equipment, boots to each member of the California Highway Patrol who is assigned to ride motorcycles. This safety equipment shall remain the property of the state. Items lost or damaged because of the negligence of the officer shall be replaced by the officer at his or her expense.

(b) The commission shall pay the cost of aviation boots to each member of the California Highway Patrol who is assigned to aircraft operations and shall make aviation boots directly available for purchase by those members.

general law enforcement duties may incidentally enforce state and local traffic laws and ordinances on toll highways and state freeways within incorporated areas of the state. In any city having either a population in excess of 2,000,000 or an area of more than 300 square miles, city police officers shall have full responsibility and primary jurisdiction for the administration and enforcement of those laws and ordinances, unless the city council of the city by resolution requests administration and enforcement of those laws by the commissioner.

(e) The commissioner shall have full responsibility and primary jurisdiction for the administration and enforcement of the laws, and for the investigation of traffic accidents, on all highways within a city and county with a population of less than 25,000, if, at the time the city and county government is established, the county contains no municipal corporations.

(f) The commissioner may enter into any interagency agreement with the State Board of Equalization for the purpose of enforcement of statutes requiring commercial vehicles from foreign jurisdictions to have a diesel fuel tax permit and to make payments to the board as required.

(g) The commissioner shall assume those duties and responsibilities of providing protection to state property and employees actually being performed by the California State Police Division on and before July 1, 1995.

(h) The commissioner may provide for the physical security of any current or former constitutional officer of the state and current or former legislator of the state.

(i) Upon request of the Chief Justice of the California Supreme Court, the commissioner may provide appropriate protective services to any current or former member of the State Court of Appeal or the California Supreme Court.

(b) The contract shall require affected cities or the County of Santa Clara, or both, as the case may be, to pay to the commissioner, for deposit in the Motor Vehicle Account in the State Transportation Fund, an amount that is equal to the costs incurred by the department for services provided under the contract.

Patrol of Highways

2401. The commissioner shall make adequate provision for patrol of the highways at all times of the day and night.

(a) The authority for incident command at the scene of an on-highway hazardous substance incident is vested in the appropriate law enforcement agency having primary traffic investigative authority on the highway where the incident occurs. Responsibility for incident command at the scene of an on-highway hazardous substance incident shall continue until all emergency operations at the scene have been completed and order has been restored.

(b) Notwithstanding subdivision (a), the local governing body of a city, whether general law or chartered, which has jurisdiction over the location where an on-highway hazardous substance incident occurs may assign the authority for incident command at the scene of an on-highway hazardous substance incident on local streets and roads, other than freeways, to either the local law enforcement agency or the local fire protection agency. However, the department is responsible for incident command at the scene of an on-highway hazardous substance incident on all highways where the department has primary traffic investigative authority. Any law enforcement agency having primary traffic investigative authority may enter into written agreements with other public agencies to facilitate incident command at the scene of an on-highway hazardous substance incident on local streets and roads other than freeways.

(c) For purposes of this section, incident command at the scene of an on-highway hazardous substance incident means coordination of operations which occur at the location of a hazardous substance incident. This coordinating function does not include how the specialized functions provided by the various other responding agencies are to be performed. The incident commander at the scene of an on-highway hazardous substance incident shall consult with other response agencies at the scene to ensure that all appropriate resources are properly utilized, and shall perform his or her coordinating function in a manner designed to minimize the risk of death or injury to other persons.

CHAPTER 2.5. LICENSES ISSUED BY CALIFORNIA HIGHWAY PATROL

(Added Ch. 1309, Stats. 1968. Operative January 1, 1969)

Application of Chapter

2500. The provisions of this Chapter shall apply to all licenses issued by the Department of the California Highway Patrol unless the particular provisions applicable to each license otherwise provide.

Licenses

2501. The Commissioner of the California Highway Patrol may issue licenses for the operation of privately owned or operated ambulances used to respond to emergency calls, armored cars, fleet owner inspection and maintenance stations, and for the transportation of hazardous material, including the transportation of explosives. Such licenses shall be issued in accordance with the provisions of this Chapter and regulations adopted by the commissioner pursuant thereto. All licenses issued by the commissioner shall expire one year from the date of issue. Licenses may be renewed upon application and payment of the renewal fees if the application for renewal is made within the 30-day period prior to the date of expiration. Persons whose licenses have expired shall immediately cease the activity requiring a license, but the commissioner shall accept applications for renewal during the 30-day period following the date of expiration if they are accompanied by the new license fee. In no case shall a license be renewed where the application is received more than 30 days after the date of expiration.

Form of Application; Fee

2502. (a) Except as otherwise provided in this section, each application for a new or renewal license shall be accompanied by a fee of ten dollars ($10) for a new license or five dollars ($5) for a renewal license. This subdivision does not apply to licenses for transportation of hazardous material or operation of ambulances.

(b) Each application for a new or renewal license for the operation of ambulances shall be accompanied by a fee not to exceed two hundred dollars ($200) for a new license or one hundred fifty dollars ($150) for a renewal license.

(c) Each application for a new or renewal license to transport hazardous material shall be accompanied by a fee of not to exceed one hundred dollars ($100) for a new license and not to exceed seventy-five dollars ($75) for a renewal license.

(d) Each application shall be made upon a form furnished by the commissioner. It shall contain information concerning the applicant’s background and experience which the commissioner may prescribe, in addition to other information required by law.

Transfer or Replacement of License

2503. (a) Licenses issued by the commissioner shall not be transferable. A change in ownership or control of the licensed activity shall render the existing license null and void and a new license shall be required. A change in ownership or control includes, but is not limited to, a change in corporate status, or a stock transfer of shares possessing more than 50 percent of the voting power of the corporation. A change in ownership or control does not include the addition or deletion of partners, officers, directors, or board members comprising 50 percent or less ownership or control of the licensed activity if both of the following are complied with:

(1) The new partners, officers, directors, or board members have not committed any acts described in Section 2541.

(2) An amended license application form indicating the changes and any other information required pursuant to subdivision (d) of Section 2502 is submitted to the commissioner within 10 days of the change.

(b) In the event of a change of name, not involving a change of ownership or control, the license shall be returned to the commissioner for cancellation, and a new license application form shall be submitted. The commissioner shall cancel the returned license and issue a new license for the unexpired term without a fee.

(c) In the event of loss, destruction, or mutilation of a license issued by the commissioner, the person to whom it was issued may obtain a duplicate upon paying a fee of five dollars ($5). Any person who loses a license issued by the commissioner and who, after obtaining a duplicate, finds the original license, shall immediately surrender the original license to the commissioner.

(d) Any change of address or relocation of a licensed service shall be reported to the commissioner within 10 days.

Violation of Regulations

2504. It is unlawful to violate any regulation adopted by the commissioner pursuant to this chapter.

Term of License

2505. Notwithstanding Sections 2501 and 2502, for the purpose of staggering license renewals subject to this chapter, the commissioner may, during any 12-month period, issue licenses that expire 6 to 18 months from the date of issue. Subsequent renewal of these licenses shall be for a period of 12 months. Fees with respect to these licenses for more or less than one year shall be prorated accordingly.

This section applies only to licenses for the transportation of hazardous materials established on or after January 1, 1982.

Article 2. Privately Owned and Operated Ambulances and Armored Cars

License for Ambulance or Armored Car

2510. (a) A person applying for a license to operate ambulances or armored cars shall provide separate identification data and reports of inspection for each vehicle as prescribed by the commissioner.

(b) No person shall operate a privately owned emergency ambulance or armored car until the California Highway Patrol has determined that the vehicle is in compliance with this code and regulations adopted by the commissioner. Ambulances licensed by the department shall be inspected by the department not less often than once annually.

Eligibility for License

2511. Licenses for the operation of ambulances may be issued only to those persons or entities which operate ambulances designed and operated exclusively as such and which are used to respond to emergency calls.

Regulations Governing Ambulance Service: Handbook

2512. (a) The commissioner, after consultation with, and pursuant to the recommendations of, the Emergency Medical Service Authority and the department, shall adopt and enforce reasonable regulations as the commissioner determines are necessary for the public health and safety regarding the operation, equipment, and certification of drivers of all ambulances used for emergency services. The regulations shall not conflict with standards established by the Emergency Medical Service Authority pursuant to Section 1797.170 of the Health and Safety Code. The commissioner shall exempt, upon request of the county board of supervisors that an exemption is necessary for public health and safety, noncommercial ambulances operated within the county from the regulations adopted under this section as are specified in the board of supervisors’ request. The Emergency Medical Service Authority shall be notified by the county boards of supervisors of any exemptions.

(b) The department, in cooperation with the Department of the California Highway Patrol and the Emergency Medical Service Authority, may adopt and administer regulations relating to the issuance, suspension, or revocation of ambulance driver’s certificates. In addition to the fee authorized in Section 2427, the department shall charge a fee of twenty-five dollars ($25) for the issuance of an original certificate and twelve dollars ($12) for the renewal of that certificate, and, in the administration thereof, to exercise the powers granted to the commissioner by this section.

(c) This section shall not preclude the adoption of more restrictive regulations by local authorities, except that inspection of ambulances pursuant to subdivision (b) of Section 2510 shall not be duplicated by local authorities. It is the intent of the Legislature that regulations adopted by the commissioner pursuant to this section shall be the minimum necessary to protect public health and safety, and shall not be so restrictive as to preclude compliance by ambulances operated in sparsely populated areas. This subdivision does not relieve the owner or driver of any ambulance from compliance with Section 21055.

(d) The Department of the California Highway Patrol after consultation with the department and the Emergency Medical Service Authority shall prepare, and make available for purchase, an ambulance driver’s handbook.

Article 4. Transportation of Hazardous Material
(Repealed and Added, Ch. 860, Stats. 1981. Effective January 1, 1982)

License Denial, Suspension, or Revocation
2531. In addition to taking action pursuant to Article 5 (commencing with Section 2540), the commissioner may deny, suspend, or revoke a license to transport hazardous material when it is evident that the applicant or licensee or his or her employees have repeatedly violated any provision of law to such an extent as to demonstrate that it would be unsafe and not in the public interest to permit the applicant or licensee to operate or permit the operation of any vehicle owned or controlled by him or her for the transportation of hazardous material upon the public highways.

Regulations
2532. The commissioner may adopt such regulations as are necessary to administer the provisions of this article.

Article 5. Denial, Suspension and Revocation

Denial, Suspension or Revocation of License
2540. Any license issued may be suspended or revoked by the commissioner. The commissioner may refuse to issue a license to any applicant for the reasons set forth in Section 2531 or 2541. The proceedings under this Article shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the commissioner shall have all the powers granted therein.

Grounds for Denial of License

(1) Fails to meet the qualifications established by the department pursuant to this Chapter for the issuance of the license applied for.
(2) Was previously the holder of a license issued under this Chapter which license has been revoked and never reissued or which license was suspended and the terms of the suspension have not been fulfilled.
(3) Has committed any act which, if committed by any licensee, would be grounds for the suspension or revocation of a license issued pursuant to this chapter.

(4) Has committed any act involving dishonesty, fraud, or deceit whereby another is injured or whereby the applicant has benefited.

(5) Has acted in the capacity of a licensed person or firm under this Chapter without having a license therefor.

(6) Has entered a plea of guilty or no contest to, or been found guilty of, or been convicted of, a felony, or a crime involving moral turpitude, and the time for appeal has elapsed or the judgment of conviction has been affirmed on appeal, irrespective of an order granting probation following such conviction, suspending the imposition of sentence, or of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the plea or verdict of guilty, or dismissing the accusation or information.

(b) The commissioner may also deny a license if a corporation is the applicant and the policy or activities of the corporation are or will be directed, controlled, or managed by individuals or shareholders who are ineligible for a license, and the licensing of that corporation would likely defeat the purpose of this section.

Amended Ch. 16, Stats. 1982. Effective January 1, 1983.

Grounds for Disciplinary Action

2542. The commissioner may suspend, revoke, or take other disciplinary action against a licensee as provided in this Article if the licensee or any partner, officer, director, controlling shareholder, or manager thereof:

(i) Violates or attempts to violate this Chapter relating to the particular activity for which he is licensed.

(j) Fails to equip or maintain his or her vehicles, as required by this code or by the regulations adopted pursuant to this code.

Convictions

2543. A plea or verdict of guilty or a conviction following a plea of nolo contendere is deemed to be a conviction within the meaning of this article. The commissioner may order the license suspended or revoked, or may decline to issue a license, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information or indictment.

2544. The commissioner may take disciplinary action against any license after a hearing as provided in this Chapter by any of the following:

Surrender of License

2545. Upon the effective date of any order of suspension or revocation of any license governed by this chapter, the licensee shall surrender the license to the commissioner.

Continuing Jurisdiction

2546. The expiration or suspension of a license by operation of law or by order or decision of the commissioner or a court of law, or the voluntary surrender of a license by a licensee shall not deprive the commissioner of jurisdiction to proceed with any investigation of or action or disciplinary proceedings against such licensee, or to render a decision suspending or revoking such license.

Period for Filing Accusations

2547. All accusations against licensees shall be filed within three years after the act or omission alleged as the ground for disciplinary action, except that with respect to an accusation alleging a violation of subdivision (f) of Section 2542, the accusation may be filed within two years after the discovery by the California Highway Patrol of the alleged facts constituting the fraud or misrepresentation prohibited by said section.

Revocation or Suspension of Additional Licenses

2548. When any license has been revoked or suspended following a hearing under the provisions of this chapter, any additional license issued under this Chapter in the name of the licensee may be likewise revoked or suspended by the commissioner.

Reinstatement of License

2549. After suspension of the license upon any of the grounds set forth in this article, the commissioner may reinstate the license upon proof of compliance by the applicant with all provisions of the decision as to reinstatement. After revocation of a license upon any of the grounds set forth in this article, the license shall not be reinstated or reissued within a period of one year after the effective date of revocation.

Private Schoolbuses Contractors: Licensing

2570. It is the intent of the Legislature, in enacting this chapter, that the public be provided additional protection through the licensing of private schoolbus contractors transporting school pupils under contracts with school districts, and that the Department of the California Highway Patrol be authorized to inspect and license the contractors described in subdivision (a), giving special attention directed to negligent operators or repeat violators.

License Fees

2571. Every private schoolbus contractor who contracts with a school district for the transportation of school pupils shall be licensed in accordance with regulations adopted by the commissioner. The license fee shall be one hundred dollars ($100) for an initial license and seventy-five dollars ($75) for each annual renewal.

Regulations: Violations

2572. (a) The commissioner may adopt whatever regulations are necessary to administer this chapter. The regulations shall be consistent with regulations regarding schoolbuses and schoolbus drivers adopted by the commissioner pursuant to other provisions of law.

(b) In addition to any other requirements, it is unlawful for the private schoolbus contractor or the person who directs the driver to operate a vehicle transporting school pupils, when that transportation requires a license, to knowingly cause the operation of the vehicle unless the private schoolbus contractor holds a valid license for the transportation of school pupils. A violation of this subdivision shall be punished by a fine of not more than two thousand dollars ($2,000).

License Suspension

2573. (a) The commissioner may temporarily suspend a license to transport school pupils under contract with a school district, subject to a hearing conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, when, in the commissioner’s opinion, the action is necessary to prevent an imminent and substantial danger to the public health.

(b) The commissioner may, following a hearing, suspend a license to transport school pupils under contract with a school district, for a period of at least 30 days but not more than 90 days, if the holder of the license knowingly permits the transportation of school pupils by a person who does not possess the appropriate driver’s license and driver’s certificate.

If the stipulated decision and order provides for the termination of the franchise, conditioned upon the failure of a party to comply with specified conditions, the franchise may be terminated upon a determination, according to the terms of the stipulated decision and order, that the conditions have not been met. If the stipulated decision and order provides for the termination of the franchise conditioned upon the occurrence of specified conditions, the franchise may be terminated upon a determination, according to the terms of the stipulated decision and order, that the stipulated conditions have occurred.

“NOTICE TO DEALER: You have the right to file a protest with the NEW MOTOR VEHICLE BOARD in Sacramento and have a hearing in which you may protest the termination of your franchise under provisions of the California Vehicle Code.

You must file your protest with the board within 10 calendar days after receiving this notice or within 10 days after the end of any appeal procedure provided by the franchisor or your protest right will be waived.”

(2) Except as provided in Section 3050.7, the board finds that there is good cause for termination or refusal to continue, following a hearing called pursuant to Section 3066. The franchisee may file a protest with the board within 30 days after receiving a 60-day notice, satisfying the requirements of this section, or within 30 days after the end of any appeal procedure provided by the franchisor, or within 10 days after receiving a 15-day notice, satisfying the requirements of this section, or within 10 days after the end of any appeal procedure provided by the franchisor. When a protest is filed, the board shall advise the franchisor that a timely protest has been filed, that a hearing is required pursuant to Section 3066, and that the franchisor may not terminate or refuse to continue until the board makes its findings.

3. The franchisor has received the written consent of the franchisee, or the appropriate period for filing a protest has elapsed.

b. (1) Notwithstanding Section 20999.1 of the Business and Professions Code or the terms of any franchise, no franchisor shall modify or replace a franchise with a succeeding franchise if the modification or replacement would substantially affect the franchisee’s sales or service obligations or investment, unless the franchisor has first given the board and each affected franchisee written notice thereof at least 60 days in advance of the modification or replacement. Within 30 days of receipt of the notice, satisfying the requirements of this section, or within 30 days after the end of any appeal procedure provided by the franchisor, a franchisee may file a protest with the board and the modification or replacement does not become effective until there is a finding by the board that there is good cause for the modification or replacement. If, however, a replacement franchise is the successor franchise to an expiring or expired term franchise, the prior franchise shall continue in effect until resolution of the protest by the board. In the event of multiple protests, hearings shall be consolidated to expedite the disposition of the issue.

(2) The written notice shall contain, on the first page thereof, in at least 12-point bold type and circumscribed by a line to segregate it from the rest of the text, the following statement:

“NOTICE TO DEALER: Your franchise agreement is being modified or replaced. If the modification or replacement will substantially affect your sales or service obligations or investment, you have the right to file a protest with the NEW MOTOR VEHICLE BOARD in Sacramento and have a hearing in which you may protest the proposed modification or
replacement of your franchise under provisions of the California Vehicle Code. You must file your protest with the board within 30 calendar days of your receipt of this notice or within 30 days after the end of any appeal procedure provided by the franchisor or your protest rights will be waivered.”

**Good Cause**

3061. In determining whether good cause has been established for modifying, replacing, terminating, or refusing to continue a franchise, the board shall take into consideration the existing circumstances, including, but not limited to, all of the following:

(a) Amount of business transacted by the franchisee, as compared to the business available to the franchisee.
(b) Investment necessarily made and obligations incurred by the franchisee to perform its part of the franchise.
(c) Permanency of the investment.
(d) Whether it is injurious or beneficial to the public welfare for the franchise to be modified or replaced or the business of the franchisee disrupted.
(e) Whether the franchisee has adequate motor vehicle sales and service facilities, equipment, vehicle parts, and qualified service personnel to reasonably provide for the needs of the consumers for the motor vehicles handled by the franchisee and has been and is rendering adequate services to the public.
(f) Whether the franchisee fails to fulfill the warranty obligations of the franchisor to be performed by the franchisee.
(g) Extent of franchisee’s failure to comply with the terms of the franchise.

**Establishing or Relocating Dealerships**

3062. (a) (1) Except as otherwise provided in subdivision (b), if a franchisor seeks to enter into a franchise establishing an additional motor vehicle dealership, or seeks to relocate an existing motor vehicle dealership, that has a relevant market area within which the same line-make is represented, the franchisor shall, in writing, first notify the board and each franchisee in that line-make in the relevant market area of the franchisor’s intention to establish an additional dealership or to relocate an existing dealership. Within 20 days of receiving the notice, satisfying the requirements of this section, or within 20 days after the end of an appeal procedure provided by the franchisor, a franchisee required to be given the notice may file with the board a protest to the proposed dealership establishment or relocation described in the franchisor’s notice. If, within this time, a franchisee files with the board a request for additional time to file a protest, the board or its executive director, upon a showing of good cause, may grant an additional 10 days to file the protest. When a protest is filed, the board shall inform the franchisor that a timely protest has been filed, that a hearing is required pursuant to Section 3066, and that the franchisor may not establish or relocate the proposed dealership until the board has held a hearing as provided in Section 3066, nor thereafter, if the board has determined that there is good cause for not permitting the establishment of the proposed dealership or relocation of the existing dealership. In the event of multiple protests, hearings may be consolidated to expedite the disposition of the issue.

(2) If a franchisor seeks to enter into a franchise that authorizes a satellite warranty facility to be established at, or relocated to, a proposed location that is within two miles of a dealership of the same line-make, the franchisor shall first give notice in writing of the franchisor’s intention to establish or relocate a satellite warranty facility at the proposed location to the board and each franchisee operating a dealership of the same line-make within two miles of the proposed location. Within 20 days of receiving the notice satisfying the requirements of this section, or within 20 days after the end of an appeal procedure provided by the franchisor, a franchisee required to be given the notice may file with the board a protest to the establishment or relocating of the satellite warranty facility. If, within this time, a franchisee files with the board a request for additional time to file a protest, the board or its executive director, upon a showing of good cause, may grant an additional 10 days to file the protest. When a protest is filed, the board shall inform the franchisor that a timely protest has been filed, that a hearing is required pursuant to Section 3066, and that the franchisor may not establish or relocate the proposed satellite warranty facility until the board has held a hearing as provided in Section 3066, nor thereafter, if the board has determined that there is good cause for not permitting the satellite warranty facility. In the event of multiple protests, hearings may be consolidated to expedite the disposition of the issue.

(3) The written notice shall contain, on the first page thereof in at least 12-point bold type and circumscribed by a line to segregate it from the rest of the text, the following statement:

“NOTICE TO DEALER: You have the right to file a protest with the NEW MOTOR VEHICLE BOARD in Sacramento and have a hearing on your protest under the terms of the California Vehicle Code if you oppose this action. You must file your protest with the board within 20 days of your receipt of this notice, or within 20 days after the end of any appeal procedure that is provided by us to you. If within this time you file with the board a request for additional time to file a protest, the board or its executive director, upon a showing of good cause, may grant you an additional 10 days to file the protest.”

(b) Subdivision (a) does not apply to either of the following:

(1) The relocation of an existing dealership to a location that is both within the same city as, and within one mile from, the existing dealership location.

(2) The establishment at a location that is both within the same city as, and within one-quarter mile from, the location of a dealership of the same line-make that has been out of operation for less than 90 days.

(c) Subdivision (a) does not apply to a display of vehicles at a fair, exposition, or similar exhibit if actual sales are not made at the event and the display does not exceed 30 days. This subdivision may not be construed to prohibit a new vehicle dealer from establishing a branch office for the purpose of selling vehicles at the fair, exposition, or similar exhibit, even though the event is sponsored by a financial institution, as defined in Section 31041 of the Financial Code or by a financial institution and a licensed dealer. The establishment of these branch offices, however, shall be in accordance with subdivision (a) where applicable.
(d) For the purposes of this section, the reopening of a dealership that has not been in operation for one year or more shall be deemed the establishment of an additional motor vehicle dealership.

(e) As used in this section, the following definitions apply:
(1) “Motor vehicle dealership” or “dealership” means an authorized facility at which a franchisee offers for sale or lease, displays for sale or lease, or sells or leases new motor vehicles.
(2) “Satellite warranty facility” means a facility operated by a franchisee where authorized warranty repairs and service are performed and the offer for sale or lease, the display for sale or lease, or the sale or lease of new motor vehicles is not authorized to take place.

Good Cause

3063. In determining whether good cause has been established for not entering into a franchise or relocating an existing dealership of the same line-make, the board shall take into consideration the existing circumstances, including, but not limited to, all of the following:
(a) Permanency of the investment.
(b) Effect on the retail motor vehicle business and the consuming public in the relevant market area.
(c) Whether it is injurious to the public welfare for an additional franchise to be established or an existing dealership to be relocated.
(d) Whether the franchisees of the same line-make in the relevant market area are providing adequate competition and convenient consumer care for the motor vehicles of the line-make in the market area, which shall include the adequacy of motor vehicle sales and service facilities, equipment, supply of vehicle parts, and qualified service personnel.
(e) Whether the establishment of an additional franchise would increase competition and therefore be in the public interest.
(f) For purposes of this section, the terms “motor vehicle dealership” and “dealership” shall have the same meaning as defined in Section 3062.

Delivery and Preparation Obligations

3064. (a) Every franchisor shall specify to its franchisees the delivery and preparation obligations of the franchisees prior to delivery of new motor vehicles to retail buyers. A copy of the delivery and preparation obligations, which shall constitute the franchisee’s only responsibility for product liability between the franchisee and the franchisor but shall not in any way affect the franchisee’s responsibility for product liability between the purchaser and either the franchisee or the franchisor, and a schedule of compensation to be paid to franchisees for the work and services they shall be required to perform in connection with those delivery and preparation obligations shall be filed with the board by franchisees, and shall constitute the compensation as set forth on the schedule. The schedule of compensation shall be reasonable, with the reasonableness thereof being subject to the approval of the board, if a franchisee files a notice of protest with the board. In determining the reasonableness of the schedules, the board shall consider all relevant circumstances, including, but not limited to, the time required to perform each function that the dealer is obligated to perform and the appropriate labor rate.
(b) Upon delivery of the vehicle, the franchisee shall give a copy of the delivery and preparation obligations to the purchaser and a written certification that the franchisee has fulfilled these obligations.

Warranty Reimbursement

3065. (a) Every franchisor shall properly fulfill every warranty agreement made by it and adequately and fairly compensate each of its franchisees for labor and parts used to fulfill that warranty when the franchisee has fulfilled warranty obligations of diagnostics, repair, and servicing and shall file a copy of its warranty reimbursement schedule or formula with the board. The warranty reimbursement schedule or formula shall be reasonable with respect to the time and compensation allowed to the franchisee for the warranty diagnostics, repair, and servicing, and all other conditions of the obligation. The reasonableness of the warranty reimbursement schedule or formula shall be determined by the board if a franchisee files a protest with the board. A franchisor shall not replace, modify, or supplement the warranty reimbursement schedule to impose a fixed percentage or other reduction in the time and compensation allowed to the franchisee for warranty repairs not attributable to a specific repair. A franchisor may reduce the allowed time and compensation applicable to a specific warranty repair only upon 15 days’ prior written notice to the franchisee. Any protest challenging a reduction in time and compensation applicable to specific parts or labor operations shall be filed within six months following the franchisee’s receipt of notice of the reduction, and the franchisor shall have the burden of establishing the reasonableness of the reduction and adequacy and fairness of the resulting compensation.
(b) In determining the adequacy and fairness of the compensation, the franchisee’s effective labor rate charged to its various retail customers may be considered together with other relevant criteria. If in a protest permitted by this section filed by any franchisee the board determines that the warranty reimbursement schedule or formula fails to provide adequate and fair compensation or fails to conform with the other requirements of this section, within 30 days after receipt of the board’s order, the franchisor shall correct the failure by amending or replacing the warranty reimbursement schedule or formula and implementing the correction as to all franchisees of the franchisor that are located in this state.
(c) If any franchisor disallows a franchisee’s claim for a defective part, alleging that the part, in fact, is not defective, the franchisor shall return the part alleged not to be defective to the franchisee at the expense of the franchisor, or the franchisee shall be reimbursed for the franchisee’s cost of the part, at the franchisor’s option.
(d) (1) All claims made by franchisees pursuant to this section shall be either approved or disapproved within 30 days after their receipt by the franchisor. Any claim not specifically disapproved in writing within 30 days from receipt by the franchisor shall be deemed approved on the 30th day. All claims made by franchisees under this section and Section 3064 for labor and parts shall be paid within 30 days after approval.
§3065.1

(2) A franchisor shall not disapprove a claim unless the claim is false or fraudulent, repairs were not properly made, repairs were inappropriate to correct a nonconformity with the written warranty due to an improper act or omission of the franchisee, or for material noncompliance with reasonable and nondiscriminatory documentation and administrative claims submission requirements.

(3) When any claim is disapproved, the franchisee who submits it shall be notified in writing of its disapproval within the required period, and each notice shall state the specific grounds upon which the disapproval is based. The franchisor shall provide for a reasonable appeal process allowing the franchisee at least 30 days after receipt of the written disapproval notice to provide additional supporting documentation or information rebutting the disapproval. If disapproval is based upon noncompliance with documentation or administrative claims submission requirements, the franchisor shall allow the franchisee at least 30 days from the date of receipt of the notice to cure any material noncompliance. If the disapproval is rebutted, and material noncompliance is cured before the applicable deadline, the franchisor shall approve the claim.

(4) If the franchisee provides additional supporting documentation or information purporting to rebut the disapproval, attempts to cure noncompliance relating to the claim, or otherwise appeals denial of the claim and the franchisor continues to deny the claim, the franchisor shall provide the franchisee with a written notification of the final denial within 30 days of completion of the appeal process, which shall conspicuously state “Final Denial” on the first page.

(5) Failure to approve or pay within the above specified time limits, in individual instances for reasons beyond the reasonable control of the franchisor, shall not constitute a violation of this article.

(6) Within six months after either receipt of the written notice described in paragraph (3) or paragraph (4), whichever is later, a franchisee may file a protest with the board for determination of whether the franchisor complied with the requirements of this subdivision. In any protest pursuant to this subdivision, the franchisor shall have the burden of proof.

(e) (1) Audits of franchisee warranty records may be conducted by the franchisor on a reasonable basis for a period of nine months after a claim is paid or credit issued. A franchisor shall not select a franchisee for an audit, or perform an audit, in a punitive, retaliatory, or unfairly discriminatory manner. A franchisor may conduct no more than one random audit of a franchisee in a nine-month period. The franchisor’s notification to the franchisee of any additional audit within a nine-month period shall be accompanied by written disclosure of the basis for that additional audit.

(2) Previously approved claims shall not be disapproved or charged back to the franchisee unless the claim is false or fraudulent, repairs were not properly made, repairs were inappropriate to correct a nonconformity with the written warranty due to an improper act or omission of the franchisee, or for material noncompliance with reasonable and nondiscriminatory documentation and administrative claims submission requirements. A franchisor shall not disapprove or chargeback a claim based upon an extrapolation from a sample of claims, unless the sample of claims is selected randomly and the extrapolation is performed in a reasonable and statistically valid manner.

(3) If the franchisor disapproves of a previously approved claim following an audit, the franchisor shall provide to the franchisee, within 30 days after the audit, a written disapproval notice stating the specific grounds upon which the claim is disapproved. The franchisor shall provide a reasonable appeal process allowing the franchisee a reasonable period of not less than 30 days after receipt of the written disapproval notice to respond to any disapproval with additional supporting documentation or information rebutting the disapproval and to cure noncompliance, with the period to be commensurate with the volume of claims under consideration. If the franchisee rebuts any disapproval and cures any material noncompliance relating to a claim before the applicable deadline, the franchisor shall not chargeback the franchisee for that claim.

(4) If the franchisee provides additional supporting documentation or information purporting to rebut the disapproval, attempts to cure noncompliance relating to the claim, or otherwise appeals denial of the claim and the franchisor continues to deny the claim, the franchisor shall provide the franchisee with a written notification of the final denial within 30 days of completion of the appeal process, which shall conspicuously state “Final Denial” on the first page.

(5) The franchisor shall not chargeback the franchisee until 45 days after receipt of the written notice described in paragraph (3) or paragraph (4), whichever is later. Any chargeback to a franchisee for warranty parts or service compensation shall be made within 90 days of receipt of that written notice. If the franchisee files a protest pursuant to this subdivision prior to the franchisor’s chargeback for denied claims, the franchisor shall not offset or otherwise undertake to collect the chargeback until the board issues a final order on the protest. If the board sustains the chargeback or the protest is dismissed, the franchisor shall have 90 days following issuance of the final order or the dismissal to make the chargeback, unless otherwise provided in a settlement agreement.

(6) Within six months after either receipt of the written disapproval notice or completion of the franchisor’s appeal process, whichever is later, a franchisee may file a protest with the board for determination of whether the franchisor complied with this subdivision. In any protest pursuant to this subdivision, the franchisor shall have the burden of proof.

(f) If a false claim was submitted by a franchisee with the intent to defraud the franchisor, a longer period for audit and any resulting chargeback may be permitted if the franchisor obtains an order from the board.

Amended Sec. 3065, Ch. 512, Stats. 2013. Effective January 1, 2014.

**Franchisor Incentive Program**

3065.1. (a) All claims made by a franchisee for payment under the terms of a franchisor incentive program shall be either approved or disapproved within 30 days after receipt by the franchisor. When any claim is disapproved, the franchisee who submits it shall be notified in writing of its disapproval within the required period, and each notice shall state the specific grounds upon which the disapproval is based. Any
claim not specifically disapproved in writing within 30 days from receipt shall be deemed approved on the 30th day.

(b) Franchisee claims for incentive program compensation shall not be disapproved unless the claim is false or fraudulent, the claim is ineligible under the terms of the incentive program as previously communicated to the franchisee, or for material noncompliance with reasonable and nondiscriminatory documentation and administrative claims submission requirements.

c) The franchisor shall provide for a reasonable appeal process allowing the franchisee at least 30 days after receipt of the written disapproval notice to respond to any disapproval with additional supporting documentation or information rebutting the disapproval. If disapproval is based upon noncompliance with documentation or administrative claims submission requirements, the franchisor shall allow the franchisee at least 30 days from the date of receipt of the written disapproval notice to cure any material noncompliance. If the disapproval is rebutted, and material noncompliance is cured before the applicable deadline, the franchisor shall approve the claim.

(d) If the franchisee provides additional supporting documentation or information purporting to rebut the disapproval, attempts to cure noncompliance relating to the claim, or otherwise appeals denial of the claim, and the franchisor continues to deny the claim, the franchisor shall provide the franchisee with a written notification of the final denial within 30 days of completion of the appeal process, which shall conspicuously state “Final Denial” on the first page.

e) Following the disapproval of a claim, a franchisee shall have six months from receipt of the written notice described in either subdivision (a) or (d), whichever is later, to file a protest with the board for determination of whether the franchisor complied with subdivisions (a), (b), (c), and (d). In any hearing pursuant to this subdivision or subdivision (a), (b), (c), or (d), the franchisor shall have the burden of proof.

(f) All claims made by franchisees under this section shall be paid within 30 days following approval. Failure to approve or pay within the above specified time limits, in individual instances for reasons beyond the reasonable control of the franchisor, do not constitute a violation of this article.

(g) (1) Audits of franchisee incentive records may be conducted by the franchisor on a reasonable basis, and for a period of nine months after a claim is paid or credit issued. A franchisor shall not select a franchisee for an audit, or perform an audit, in a punitive, retaliatory, or unfairly discriminatory manner. A franchisor may conduct no more than one random audit of a franchisee in a nine-month period. The franchisor’s notification to the franchisee of any additional audit within a nine-month period shall be accompanied by written disclosure of the basis for that additional audit.

(2) Previously approved claims shall not be disapproved and charged back unless the claim is false or fraudulent, the claim is ineligible under the terms of the incentive program as previously communicated to the franchisee, or for material noncompliance with reasonable and nondiscriminatory documentation and administrative claims submission requirements. A franchisor shall not disapprove a claim or chargeback a claim based upon an extrapolation from a sample of claims, unless the sample of claims is selected randomly and the extrapolation is performed in a reasonable and statistically valid manner.

(3) If the franchisor disapproves of a previously approved claim following an audit, the franchisor shall provide to the franchisee, within 30 days after the audit, a written disapproval notice stating the specific grounds upon which the claim is disapproved. The franchisor shall provide a reasonable appeal process allowing the franchisee a reasonable period of not less than 30 days after receipt of the written disapproval notice to respond to any disapproval with additional supporting documentation or information rebutting the disapproval and to cure any material noncompliance, with the period to be commensurate with the volume of claims under consideration. If the franchisee rebuts any disapproval and cures any material noncompliance relating to a claim before the applicable deadline, the franchisor shall not chargeback the franchisee for that claim.

(4) If the franchisee provides additional supporting documentation or information purporting to rebut the disapproval, attempts to cure noncompliance relating to the claim, or otherwise appeals denial of the claim, and the franchisor continues to deny the claim, the franchisor shall provide the franchisee with a written notification of the final denial within 30 days of completion of the appeal process, which shall conspicuously state “Final Denial” on the first page.

(5) The franchisor shall not chargeback the franchisee until 45 days after the franchisee receives the written notice described in paragraph (3) or (4), whichever is later. If the franchisee cures any material noncompliance relating to a claim, the franchisor shall not chargeback the dealer for that claim. Any chargeback to a franchisee for incentive program compensation shall be made within 90 days after the franchisee receives that written notice. If the board sustains the chargeback or the protest is dismissed, the franchisor shall have 90 days following issuance of the final order or the dismissal to make the chargeback, unless otherwise provided in a settlement agreement.

(6) Within six months after either receipt of the written notice described in paragraph (3) or (4), a franchisee may file a protest with the board for determination of whether the franchisor complied with this subdivision. If the franchisee files a protest pursuant to this subdivision prior to the franchisor’s chargeback for denied claims, the franchisor shall not offset or otherwise undertake to collect the chargeback until the board issues a final order on the protest. In any protest pursuant to this subdivision, the franchisor shall have the burden of proof.

(b) If a false claim was submitted by a franchisee with the intent to defraud the franchisor, a longer period for audit and any resulting chargeback may be permitted if the franchisor obtains an order from the board. Amended Sec. 14, Ch. 312, Stats. 2013, Effective January 1, 2014.

Hearings on Protests

3066. (a) Upon receiving a protest pursuant to Section 3060, 3062, 3064, 3065, 3065.1, 3070, 3072, 3074, 3075, or 3076, the board shall fix a time within 60 days of the order, and place of hearing, and shall send by registered mail a copy of the order to the franchisor, the protesting franchisee, and all
§3067. (a) The decision of the board shall be in writing and shall contain findings of fact and a determination of the issues presented. The decision shall sustain, conditionally sustain, overrule, or conditionally overrule the protest. Conditions imposed by the board shall be for the purpose of assuring performance of binding contractual agreements between franchisees and franchisors or otherwise serving the purposes of this article or Article 5 (commencing with Section 3070). If the board fails to act within 30 days after the hearing, within 30 days after the board receives a proposed decision where the case is heard before an administrative law judge alone, or within a period necessitated by Section 11517 of the Government Code, or as may be mutually agreed upon by the parties, then the proposed action shall be deemed to be approved. Copies of the board’s decision shall be delivered to the parties personally or sent to them by registered mail, as well as to all individuals and groups that have requested notification by the board of protests and decisions by the board.

The board’s decision shall be final upon its delivery or mailing and a reconsideration or rehearing is not permitted.

(b) Notwithstanding subdivision (c) of Section 11517 of the Government Code, if a protest is heard by an administrative law judge alone, 10 days after receipt by the board of the administrative law judge’s proposed decision, a copy of the proposed decision shall be filed by the board as a public record and a copy shall be served by the board on each party and his or her attorney.

Amended Sec. 16, Ch. 512, Stats. 2013. Effective January 1, 2014.

Judicial Review

3068. Either party may seek judicial review of final decisions of the board. Time for filing for such review shall not be more than 45 days from the date on which the final order of the board is made public and is delivered to the parties personally or is sent them by registered mail.

Application of Article

3069. The provisions of this Article shall be applicable to all franchises existing between dealers and manufacturers, manufacturer branches, distributors and distributor branches at the time of its enactment and to all such future franchises.

Exemption

3069.1. Sections 3060 to 3065.1, inclusive, do not apply to a franchise authorizing a dealership, as defined in subdivision (d) of Section 3072.

Amended Sec. 17, Ch. 512, Stats. 2013. Effective January 1, 2014.

Article 5. Hearings on Recreational Vehicle Franchise Modification, Replacement, Termination, Refusal to Continue, Establishment, and Relocation, and Consumer Complaints

Termination of Franchise

3070. (a) Notwithstanding Section 20999.1 of the Business and Professions Code or the terms of any franchise, a franchisor of a dealer of new recreational vehicles, as defined in subdivision (a) of Section 18010 of the Health and Safety Code, except a dealer who deals exclusively in truck campers, may not terminate or refuse to continue a franchise unless all of the following conditions are met:

(i) The franchisee and the board have received written notice from the franchisor as follows:

(A) Sixty days before the effective date thereof setting forth the specific grounds for termination or refusal to continue.

(B) Fifteen days before the effective date thereof setting forth the specific grounds with respect to any of the following:

(i) Transfer of any ownership or interest in the franchise without the consent of the franchisor, which consent may not be unreasonably withheld.

(ii) Misrepresentation by the franchisee in applying for the franchise.

(iii) Insolvency of the franchisee, or filing of any petition by or against the franchisee under any bankruptcy or receivership law.

(iv) Any unfair business practice after written warning thereof.

(v) Failure of the dealer to conduct its customary sales and service operations during its customary hours of business for seven consecutive business days, giving rise to a good faith belief on the part of the franchisor that the recreational vehicle
dealer is in fact going out of business, except for circumstances beyond the direct control of the recreational vehicle dealer or by order of the department.

(C) The written notice shall contain, on the first page thereof in at least 12-point bold type and circumscribed by a line to segregate it from the rest of the text, one of the following statements, whichever is applicable:

(i) To be inserted when a 60-day notice of termination is given:

“NOTICE TO DEALER: You have the right to file a protest with the NEW MOTOR VEHICLE BOARD in Sacramento and have a hearing in which you may protest the termination of your franchise under provisions of the California Vehicle Code. You must file your protest with the board within 10 calendar days after receiving this notice or within 10 days after the end of any appeal procedure provided by the franchisor or your protest right will be waived.”

(ii) To be inserted when a 15-day notice of termination is given:

“NOTICE TO DEALER: You have the right to file a protest with the NEW MOTOR VEHICLE BOARD in Sacramento and have a hearing in which you may protest the termination of your franchise under provisions of the California Vehicle Code. You must file your protest with the board within 10 calendar days after receiving this notice or within 10 days after the end of any appeal procedure provided by the franchisor or your protest right will be waived.”

(2) Except as provided in Section 3050.7, the board finds that there is good cause for termination or refusal to continue, following a hearing called pursuant to Section 3066. The franchisee may file a protest with the board within 30 days after receiving a 60-day notice, satisfying the requirements of this section, or within 30 days after the end of any appeal procedure provided by the franchisor, or within 10 days after receiving a 15-day notice, satisfying the requirements of this section, or within 10 days after the end of any appeal procedure provided by the franchisor. When a protest is filed, the board shall advise the franchisor that a timely protest has been filed, that a hearing is required pursuant to Section 3066, and that the franchisor may not terminate or refuse to continue until the board makes its findings.

(3) The franchisor has received the written consent of the franchisee, or the appropriate period for filing a protest has elapsed.

(b) (1) Notwithstanding Section 20999.1 of the Business and Professions Code or the terms of any franchise, a franchisor of a dealer of recreational vehicles may not modify or replace a franchise with a succeeding franchise if the modification or replacement would substantially affect the franchisee’s sales or service obligations or investment, unless the franchisor has first given the board and each affected franchisee written notice thereof at least 60 days in advance of the modification or replacement. Within 30 days of receipt of a notice satisfying the requirements of this section, or within 30 days after the end of any appeal procedure provided by the franchisor, a franchisee may file a protest with the board and the modification or replacement does not become effective until there is a finding by the board that there is good cause for the modification or replacement. If, however, a replacement franchise is the successor franchise to an expiring or expired term franchise, the prior franchise shall continue in effect until resolution of the protest by the board. In the event of multiple protests, hearings shall be consolidated to expedite the disposition of the issue.

(2) The written notice shall contain, on the first page thereof in at least 12-point bold type and circumscribed by a line to segregate it from the rest of the text, the following statement:

“NOTICE TO DEALER: Your franchise agreement is being modified or replaced. If the modification or replacement will substantially affect your sales or service obligations or investment, you have the right to file a protest with the NEW MOTOR VEHICLE BOARD in Sacramento and have a hearing in which you may protest the proposed modification or replacement of your franchise under provisions of the California Vehicle Code. You must file your protest with the board within 30 calendar days of your receipt of this notice or within 30 days after the end of any appeal procedure provided by the franchisor or your protest rights will be waived.”

Good Cause

3071. In determining whether good cause has been established for modifying, replacing, terminating, or refusing to continue a franchise of a dealer of new recreational vehicles, the board shall take into consideration the existing circumstances, including, but not limited to, all of the following:

(a) The amount of business transacted by the franchisee, as compared to the business available to the franchisee.

(b) The investment necessarily made and obligations incurred by the franchisee to perform its part of the franchise.

(c) The permanency of the investment.

(d) Whether it is injurious or beneficial to the public welfare for the franchise to be modified or replaced or the business of the franchisee disrupted.

(e) Whether the franchisee has adequate new recreational vehicle sales and, if required by the franchise, service facilities, equipment, vehicle parts, and qualified service personnel, to reasonably provide for the needs of the consumers of the recreational vehicles handled by the franchisee and has been and is rendering adequate services to the public.

(f) Whether the franchisee fails to fulfill the warranty obligations agreed to be performed by the franchisee in the franchise.

(g) The extent of franchisee’s failure to comply with the terms of the franchise.

Establishing or Relocating Recreational Vehicle Dealerships

3072. (a) (1) Except as otherwise provided in subdivision (b), if a franchisor seeks to enter into a franchise establishing an additional motor vehicle dealership within a relevant market area where the same recreational vehicle line-make is then represented, or seeks to relocate an existing motor vehicle dealership, the franchisor shall, in writing, first notify the board and each franchisee in that recreational vehicle line-make in the relevant market area of the franchisor’s intention to establish an additional dealership or to relocate an existing dealership within or into that market area. Within
20 days of receiving the notice, satisfying the requirements of this section, or within 20 days after the end of any appeal procedure provided by the franchisor, any franchisee required to be given the notice may file with the board a protest to establishing or relocating the dealership. If, within this time, a franchisee files with the board a request for additional time to file a protest, the board or its secretary, upon a showing of good cause, may grant an additional 10 days to file the protest. When a protest is filed, the board shall inform the franchisee that a timely protest has been filed, that a hearing is required pursuant to Section 3066, and that the franchisor shall not establish or relocate the proposed dealership until the board has held a hearing as provided in Section 3066, nor thereafter, if the board has determined that there is good cause for not permitting the dealership. In the event of multiple protests, hearings may be consolidated to expedite the disposition of the issue.

(2) The written notice shall contain, on the first page thereof in at least 12-point bold type and circumscribed by a line to segregate it from the rest of the text, the following statement:

“NOTICE TO DEALER: You have the right to file a protest with the NEW MOTOR VEHICLE BOARD in Sacramento and have a hearing on your protest under the terms of the California Vehicle Code if you oppose this action. You must file your protest with the board within 20 days of your receipt of this notice, or within 20 days after the end of any appeal procedure that is provided by us to you. If, within this time, you file with the board a request for additional time to file a protest, the board or its secretary, upon a showing of good cause, may grant you an additional 10 days to file the protest.”

(b) Subdivision (a) does not apply to any of the following:

(1) The relocation of an existing dealership to any location that is both within the same city as, and within one mile of, the existing dealership location.

(2) The establishment at any location that is both within the same city as, and within one-quarter mile of, the location of a dealership of the same recreational vehicle line-make that has been out of operation for less than 90 days.

(3) A display of vehicles at a fair, exposition, or similar exhibit if no actual sales are made at the event and the display does not exceed 30 days. This paragraph may not be construed to prohibit a new vehicle dealer from establishing a branch office for the purpose of selling vehicles at the fair, exposition, or similar exhibit, even though that event is sponsored by a financial institution, as defined in Section 31041 of the Financial Code, or by a financial institution and a licensed dealer. The establishment of these branch offices, however, shall be in accordance with subdivision (a) where applicable.

(4) An annual show sponsored by a national trade association of recreational vehicle manufacturers that complies with all of the requirements of subdivision (d) of Section 11713.15.

(5) A motor vehicle dealership protesting the location of another dealership with the same recreational vehicle line-make within its relevant market area, if the dealership location subject to the protest was established on or before January 1, 2004.

(c) For the purposes of this section, the reopening of a dealership that has not been in operation for one year or more shall be deemed the establishment of an additional motor vehicle dealership.

(d) For the purposes of this section and Section 3073, a “motor vehicle dealership” or “dealership” is any authorized facility at which a franchisee offers for sale or lease, displays for sale or lease, or sells or leases new recreational vehicles, as defined in subdivision (a) of Section 18010 of the Health and Safety Code. A “motor vehicle dealership” or “dealership” does not include a dealer who deals exclusively in truck campers.

Recreational Vehicle Line-Make

3072.5. For the purposes of this article, a “recreational vehicle line-make” is a group or groups of recreational vehicles defined by the terms of a written agreement that complies with Section 331.

Good Cause

3073. In determining whether good cause has been established for not entering into or relocating an additional franchise for the same recreational vehicle line-make, the board shall take into consideration the existing circumstances, including, but not limited to, all of the following:

(a) The permanency of the investment.

(b) The effect on the retail recreational vehicle business and the consuming public in the relevant market area.

(c) Whether it is injurious to the public welfare for an additional franchise to be established.

(d) Whether the franchisees of the same recreational vehicle line-make in that relevant market area are providing adequate competition and convenient consumer care for the motor vehicles of the recreational vehicle line-make in the market area. In making this determination, the board shall consider the adequacy of recreational vehicle sales and, if required by the franchise, service facilities, equipment, supply of vehicle parts, and qualified service personnel.

(e) Whether the establishment of an additional franchise would increase competition and therefore be in the public interest.

Delivery and Preparation Obligations

3074. (a) A franchisor shall specify to its franchisees the delivery and preparation obligations of the franchisees prior to delivery of new recreational vehicles to retail buyers. A copy of the delivery and preparation obligations, which shall constitute the franchisee’s only responsibility for product liability between the franchisee and the franchisor but which shall not in any way affect the franchisee’s responsibility for product liability between the purchaser and either the franchisee or the franchisor, and a schedule of compensation to be paid franchisees for the work and services they shall be required to perform in connection with the delivery and preparation obligations shall be filed with the board by franchisors, and shall constitute the compensation as set forth on the schedule. The schedule of compensation shall be reasonable, with the reasonableness thereof being subject to the approval of the board, providing a franchisee files a notice of protest with the board. In determining the reasonableness of the schedules, the board shall consider all relevant circumstances, including, but not limited to, the time required

3072.5. For the purposes of this article, a “recreational vehicle line-make” is a group or groups of recreational vehicles defined by the terms of a written agreement that complies with Section 331.
to perform each function that the dealer is obligated to perform and the appropriate labor rate.

(b) Upon delivery of the vehicle, the franchisee shall give a copy of the delivery and preparation obligations to the purchaser and a written certification that he or she has fulfilled these obligations.

Warranty Reimbursement

3075. (a) A franchisor shall properly fulfill every warranty agreement made by it and adequately and fairly compensate each of its franchisees for labor and parts used to fulfill that warranty when the franchisee has fulfilled warranty obligations of repair and servicing and shall file a copy of its warranty reimbursement schedule or formula with the board. The warranty reimbursement schedule or formula shall be reasonable with respect to the time and compensation allowed the franchisee for the warranty work and all other conditions of the obligation. The reasonableness of the warranty reimbursement schedule or formula shall be determined by the board if a franchisee files a notice of protest with the board.

(b) In determining the adequacy and fairness of the compensation, the franchisee’s effective labor rate charged to its various retail customers may be considered together with other relevant criteria.

(c) If a franchisor disallows a franchisee’s claim for a defective part, alleging that the part, in fact, is not defective, the franchisor shall return the part alleged not to be defective to the franchisee at the expense of the franchisor, or the franchisee shall be reimbursed for the franchisee’s cost of the part, at the franchisor’s option.

(d) All claims made by franchisees pursuant to this section shall be either approved or disapproved within 30 days after their receipt by the franchisor. A claim not specifically disapproved in writing within 30 days from receipt by the franchisor shall be deemed approved on the 30th day. When a claim is disapproved, the franchisee who submits it shall be notified in writing of its disapproval within the required period, and the notice shall state the specific grounds upon which the disapproval is based. All claims made by franchisees under this section shall be paid within 30 days following approval. Failure to approve or pay within the above specified time limits, in individual instances for reasons beyond the reasonable control of the franchisor, do not constitute a violation of this article.

(b) Audits of franchisee incentive records may be conducted by the franchisor on a reasonable basis, and for a period of 18 months after a claim is paid or credit issued. Franchisee claims for incentive program compensation shall not be disapproved except for good cause, such as ineligibility under the terms of the incentive program, lack of material documentation, or fraud. Any chargeback to a franchisee for incentive program compensation shall be made within 90 days of the completion of the audit. If a false claim was submitted by a franchisee with the intent to defraud the franchisor, a longer period for audit and any resulting chargeback may be permitted if the franchisor obtains an order from the board.

Additional Fee

3077. (a) In addition to fees imposed under Sections 3016 and 11723, the department shall impose a one-time additional fee on those dealers subject to this Article for the issuance or renewal of a license, in an amount determined by the department to be sufficient to cover the costs incurred by the department and the board in the implementation of this Article for the first year, or in an amount sufficient to cover costs of not more than three hundred fifty thousand dollars ($350,000), whichever amount is less.

(b) The fee authorized under subdivision (a) may not be imposed on and after January 1, 2005.

(c) All funds derived from the imposition of the fee required under subdivision (a) shall be deposited in the Motor Vehicle Account in the State Transportation Fund and shall be available, upon appropriation, for expenditure to cover the costs incurred by the department and the board in the initial implementation of this article.

Consumer Complaints: Referral to Department of Consumer Affairs

3078. (a) If the board receives a complaint from a member of the public seeking a refund involving the sale or lease of, or a replacement of, a recreational vehicle, as defined in subdivision (a) of Section 18010 of the Health and Safety Code, from a motor vehicle dealership, as defined in paragraph (1) of subdivision (e) of Section 3072, the board shall recommend
that the complainant consult with the Department of Consumer Affairs.

(b) Nothing in this Chapter affects a person’s rights regarding a transaction involving a recreational vehicle as defined in subdivision (a), to maintain an action under any other statute, including, but not limited to, applicable provisions of Title 1.7 (commencing with Section 1790) of Part 4 of Division 3 of the Civil Code.

Application of Article

3079. This Article applies only to a franchise entered into or renewed on or after January 1, 2004.

Special Interest License Plates Criteria

5060. (a) An organization may apply to the department for participation in a special interest license plate program and the department shall issue special license plates for that program if the issuance of those plates is required by this article, the sponsoring organization complies with the requirements of this section, and the organization meets all of the following criteria:

1) Qualifies for tax-exempt status under Section 501(c)(3) of the Internal Revenue Code and Section 23701d of the Revenue and Taxation Code.

2) Submits a financial plan describing the purposes for which the revenues described in paragraph (2) of subdivision (e) will be used.

3) Submits a design of the organization’s proposed special interest license plate that, among other things, provides for the placement of the number and letter characters in a manner that allows for law enforcement to readily identify those characters.

(b) Any person described in Section 5101 may apply for special interest license plates, in lieu of the regular license plates.

(c) The design criteria for a special interest license plate are as follows:

1) The license plate for a passenger vehicle, commercial vehicle, or trailer shall provide a space not larger than 2 inches by 3 inches to the left of the numerical series and a space not larger than five-eighths of an inch in height below the numerical series for a distinctive design, decal, or descriptive message as authorized by this article. The plates shall be issued in sequential numerical order or, pursuant to Section 5103, in a combination of numbers or letters.

2) Special interest license plates authorized under this Article may be issued for use on a motorcycle. That license plate shall contain a five digit configuration issued in sequential numerical order or, pursuant to Section 5103, in a combination of numbers or letters. There shall be a space to the left of the numerical series for a distinctive design or decal and the characters shall contrast sharply with the uniform background color. No motorcycle plate containing a full plate graphic design is authorized. Those particular special interest license plates that were issued prior to the discontinuation provided by this paragraph may continue to be used and attached to the vehicle for which they were issued and may be renewed, retained, or transferred pursuant to this code.

(d) (1) No organization may be included in the program until not less than 7,500 applications for the particular special interest license plates are received. Each organization shall collect and hold applications for the plates. Once the organization has received at least 7,500 applications, it shall submit the applications, along with the necessary fees, to the department. The department shall not issue any special interest license plate until an organization has received and submitted to the department not less than 7,500 applications for that particular special interest license plate within the time period prescribed in this section. Advanced payment to the department by an organization representing the department’s estimated or actual administrative costs associated with the issuance of a particular special interest license plate shall not constitute compliance with this requirement. The organization shall have 12 months, following the effective date of the enactment of the specific legislation enabling the organization to participate in this program, to receive the required number of applications. If, after that 12 months, 7,500 applications have not been received, the organization shall immediately do either of the following:

A) Refund to all applicants any fees or deposits that have been collected.

B) Contact the department to indicate the organization’s intent to undertake collection of additional applications and fees or deposits for an additional period, not to exceed 12 months, in order to obtain the minimum 7,500 applications. If an organization elects to exercise the option under this paragraph, it shall contact each applicant who has submitted an application with the appropriate fees or deposits to determine if the applicant wishes a refund of fees or deposits or requests the continuance of the holding of the application and fees or deposits until that time that the organization has received 7,500 applications. The organization shall refund the fees or deposits to any applicant so requesting. In no event shall an organization collect and hold applications for a period exceeding 24 months following the date of authorization as described in paragraph (2) of subdivision (a).

C) Sequential plate fees shall be paid for the original issuance, renewal, retention, replacement, or transfer of the special interest license plate as determined by the organization and authorized by department’s regulations. Those plates containing a personalized message are subject to the fees...
required pursuant to Sections 5106 and 5108 in addition to any fees required by the special interest license plate program.

(2) (A) If the number of currently outstanding and valid special interest license plates in any particular program provided for in this Article is less than 7,500, the department shall notify the sponsoring organization of that fact and shall inform the organization that if that number is less than 7,500 one year from the date of that notification, the department will no longer issue or replace those special interest license plates.

(B) Those particular special interest license plates that were issued prior to the discontinuation provided by subparagraph (A) may continue to be used and attached to the vehicle for which they were issued and may be renewed, retained, or transferred pursuant to this code.

(e) (1) The department shall deduct its costs to develop and administer the special interest license plate program from the revenues collected for the plates.

(2) The department shall deposit the remaining revenues from the original issuance, renewal, retention, replacement, or transfer of the special interest license plate in a fund which shall be established by the Controller.

(f) When payment of renewal fees is not required as specified in Section 4000, or when a person determines to retain the special interest license plate upon a sale, trade, or other release of the vehicle upon which the plate has been displayed, the person shall notify the department and the person may retain and use the plate as authorized by department regulations.

(g) An organization that is eligible to participate in a special interest license plate program pursuant to this Article and receives funds from the additional fees collected from the sale of special license plates shall not expend annually more than 25 percent of those funds on administrative costs, marketing, or other promotional activities associated with encouraging application for, or renewal of, the special license plates.

(h) (1) Every organization authorized under this Article to offer special interest license plates shall prepare and submit an annual accounting report to the department by June 30. The report shall include an accounting of all revenues and expenditures associated with the special interest license plate program.

(2) If an organization submits a report pursuant to paragraph (1) indicating that the organization violated the expenditure restriction set forth in subdivision (g), the department shall immediately cease depositing fees in the fund created by the Controller for that organization under paragraph (2) of subdivision (e) and, instead, shall deposit those fees that would have otherwise been deposited in that fund in a separate fund created by the Controller, which fund is subject to appropriation by the Legislature. The department shall immediately notify the organization of this course of action. The depositing of funds in the account established pursuant to this paragraph shall continue until the organization demonstrates to the satisfaction of the department that the organization is in compliance or will comply with the requirements of subdivision (g). If one year from the date that the organization receives the notice described in this paragraph, the organization is still unable to satisfactorily demonstrate to the department that it is in compliance or will comply with the requirements of subdivision (g), the department shall no longer issue or replace those special interest license plates associated with that organization. Those particular special interest license plates that were issued prior to the discontinuation provided by this paragraph may continue to be used and attached to the vehicle for which they were issued and may be renewed, retained, or transferred pursuant to this code.

Annual Accounting Report

5160. (a) A state agency authorized under this Article to offer specialized license plates shall prepare and submit an annual accounting report to the department by June 30. The report shall include an accounting of all revenues and expenditures associated with the specialized license plate program.

(b) If a state agency submits a report pursuant to subdivision (a) indicating that the agency violated the expenditure restriction set forth in Section 5159, the department shall immediately cease depositing fees for that agency’s specialized license plate program in the Specialized License Plate Fund established under Section 5157 and, instead, shall deposit those fees that would have otherwise been deposited in that fund in a separate fund created by the Controller, which fund is subject to appropriation by the Legislature. The department shall immediately notify the agency of this course of action. The depositing of funds in the account established pursuant to this subdivision shall continue until the agency demonstrates to the satisfaction of the department that the agency is in compliance or will comply with the requirements of Section 5159. If one year from the date that the agency receives the notice described in this subdivision, the agency is still unable to satisfactorily demonstrate to the department that it is in compliance or will comply with Section 5159, the department shall no longer issue or replace those specialized license plates associated with that agency. Those particular specialized license plates that were issued prior to the discontinuation provided by this subdivision may continue to be used and attached to the vehicle for which they were issued and may be renewed, retained, or transferred pursuant to this code.

Notwithstanding Section 5155, the special state parks environmental design license plates shall bear a full-plate graphic design that the department determines, in consultation with the Department of the California Highway Patrol, does not obscure the readability of the license plate depicting a California redwood tree design as an iconic feature of California’s state park system, as approved by the Department of Parks and Recreation. The Department of Parks and Recreation may accept and use donated artwork from California artists for purposes of this requirement. Any person described in Section 5101 may, upon payment of the additional fees set forth in subdivision (b), apply for and be issued a set of special state parks environmental design license plates. The special state parks environmental design license plates may be issued as environmental license plates, as defined in Section 5103.

Upon appropriation by the Legislature, the money in the account shall be allocated by the Controller to the Department of Parks and Recreation for expenditure for the exclusive trust purposes of preservation and restoration of California state parks.

(d) The Department of Parks and Recreation shall collect and hold applications for the special state parks environmental license plates described in this section. The department shall not be required to make the special state parks environmental license plates available for issuance pursuant to this section until the Department of Parks and Recreation has submitted not less than 7,500 applications for the plates to the department.

(b) When only one license plate is issued for use upon a vehicle, it shall be attached to the rear thereof, unless the license plate is issued for use upon a truck tractor, in which case the license plate shall be displayed in accordance with Section 4850.5.

5201. (a) License plates shall at all times be securely fastened to the vehicle for which they are issued so as to prevent the plates from swinging, shall be mounted in a position so as to be clearly visible, and so that the characters are upright and display from left to right, and shall be maintained in a condition so as to be clearly legible. The rear license plate shall be mounted not less than 12 inches nor more than 60 inches from the ground, and the front license plate shall be mounted not more than 60 inches from the ground, except as follows:

Current month and year tabs shall be attached to the rear license plate assigned to the vehicle for the last preceding registration year in which license plates were issued, and, when so attached, the license plate with the tabs shall, for the purposes of this code, be deemed to be the license plate, except that truck tractors, and commercial motor vehicles having a declared gross vehicle weight of 10,001 pounds or more, shall display the current month and year tabs upon the front license plate assigned to the truck tractor or commercial motor vehicle. Vehicles that fail to display current month and year tabs or display expired tabs are in violation of this section.

of the Commercial Vehicle Registration Act of 2001 shall not
affect those participants who were lawfully participating in
the permanent fleet registration program on December 31,

Termination of Permanent Fleet Registration

5307. (a) A fleet vehicle registered under this Article
may be deleted from the identified fleet when the fleet operator
notifies the department of the proposed deletion on a form
approved by the department and the distinguishing license
plate or decal and registration card issued for the vehicle are
surrendered to the department.

(b) Failure to comply with subdivision (a) will require that
the payment of fees due for the registration of the vehicle shall
be the responsibility of the fleet owner as though the vehicle
remained part of the fleet.

(c) The fees determined to be due and owing under this
Article shall be a lien upon all vehicles of the applicant of a type

Article 6 (commencing with Section 9800) of Chapter 6 shall

(a) A vehicle may be registered in the names of two (or more) persons as coowners in the alternative by the use of the word “or.” A vehicle so registered in the alternative shall be deemed to be held in joint tenancy. Each coowner shall be deemed to have granted to the other coowners the absolute right to dispose of the title and interest in the vehicle. Upon the death of a coowner the interest of the decedent shall pass to the survivor as though title or interest in the vehicle was held in joint tenancy unless a contrary intention is set forth in writing upon the request for transfer of registration.

(a) Every dealer who, upon transferring by sale, lease, or otherwise, any new or used vehicle of a type subject to registration, requires the transferee to insure the motor vehicle shall, if the required insurance policy is obtained by the dealer or lending agency and the policy does not insure the transferee or obligor against damages resulting from ownership or operation of the vehicle arising by reason of personal injury or death of any person, or from injury to property, notify the transferee or obligor of that fact in writing on a document other than the insurance policy. The document shall be in duplicate and signed by the transferee or obligor.

If the required insurance policy is obtained by the dealer or lending agency because of the failure or refusal of the transferee or obligor to furnish or renew insurance in accordance with the terms of the contract of sale or the security agreement, and the policy does not insure the transferee or obligor against damages resulting from ownership or operation of the vehicle arising by reason of personal injury or death of any person, or from injury to property, the dealer or lending agency shall notify the transferee or obligor that the policy obtained does not insure the transferee or obligor for liability from any claims. The notice shall be made in writing on a document other than the insurance policy, or the declaration page attached to the policy, and shall be mailed, with postage paid and properly addressed, to the transferee or obligor within 30 days of obtaining the policy.

If you drive this or any other motor vehicle without liability insurance or a bond, a police officer may request evidence of liability insurance or a bond at the time of a traffic stop. If you do not have evidence of liability insurance or a bond during a traffic stop, the fines can be from several hundreds of dollars to an amount that exceeds $1,000. If you get into an accident and do not have liability insurance or a bond, you will lose your driver’s license for one year. If you cause the accident and do not have liability insurance or a bond, you may have to pay the injured person yourself and these costs may be substantial.

Liability insurance as well as the insurance needed to obtain a loan for your motor vehicle may be purchased through

The transferor shall keep a duplicate copy of the statement delivered to the transferee pursuant to this section.

The department shall prescribe and make available to transferors the necessary forms to comply with this subdivision.

However, at present, you may be purchasing a vehicle that may not be in compliance with specified emission standards.

“By signing this statement, you acknowledge that the seller is not required to provide you with an additional certificate of compliance prior to the completion of this transaction.

“You may have this vehicle tested at a licensed smog check station prior to completion of this transaction to verify compliance. The transferor shall write his or her signature and address in the appropriate spaces provided upon the application and file the same together with the proper fees for duplicate certificate of ownership and transfer. The application shall also include, if applicable, the notarized signature of the lienholder.

(b) An insurance company or its agent is exempt from the notarized signature requirement of subdivision (a) and may apply, upon a form provided by the department, for a duplicate certificate of ownership and transfer of ownership to the insurance company, if all of the following occur:

(3) A lienholder is indicated on the department’s records.

(4) The certificate of ownership is lost, stolen, damaged, or mutilated.

Delivery of Certificate and Card

5753. (a) It is unlawful for any person to fail or neglect properly to endorse, date, and deliver the certificate of ownership and, when having possession, to deliver the registration card to a transferee who is lawfully entitled to a transfer of registration.

(2) If a lease provides a lessee with the option to purchase the leased vehicle, within 15 business days after receiving payment in full for the purchase, and all documents necessary to effect the transfer, the lessor shall mail, transmit, or deliver the vehicle’s certificate of ownership to the transferee, who, due to purchase of the vehicle, is lawfully entitled to the transfer of legal ownership.

(d) The certificate of ownership delivered pursuant to subdivision (c) shall be signed by the legal owner or lessor to reflect release of the legal owner’s interest or transfer of the lessor’s interest in the vehicle or accompanied by a form provided by the department to accomplish the same result and signed by the legal owner or lessor. If the legal owner or lessor is not in possession or control of the certificate of ownership, the legal owner or lessor shall, within the time provided in subdivision (c) for the mailing, transmittal, or delivery of the certificate of ownership, take any action required by the department to release the legal owner’s security interest or transfer the lessor’s interest in the vehicle and within that time shall mail, transmit, or deliver written notice of its taking that action to the transferee.

(e) A legal owner or lessor that fails to satisfy the requirements of subdivisions (c) and (d), shall, without offset or reduction, pay the transferee twenty-five dollars ($25) per day for each day that the requirements of subdivisions (c) and (d) remain unsatisfied, not to exceed a maximum payment of two thousand five hundred dollars ($2,500). If the legal owner or lessor fails to pay this amount within 60 days following written demand by the transferee, the amount shall be trebled, not to exceed a maximum payment of seven thousand five hundred dollars ($7,500), and the transferee shall be entitled to costs and reasonable attorneys fees incurred in any court action brought to collect the payment. Article 3. Notice and Application

Notice of Sale or Transfer and Mileage

5900. (a) Whenever the owner of a vehicle registered under this code sells or transfers his or her title or interest in, and delivers the possession of, the vehicle to another, the owner shall, within five calendar days, notify the department of the sale or transfer giving the date thereof, the name and address of the owner and of the transferee, and the description of the vehicle that is required in the appropriate form provided for that purpose by the department.

However, if the vehicle owner has knowledge that the mileage displayed on the odometer is incorrect, the owner shall indicate on the appropriate form the true mileage, if known, of the vehicle at the time of sale or transfer.

A vehicle dealer or lessor-retailer need not give the notice when selling or transferring a new unregistered vehicle to a dealer or lessor retailer.

(c) When the dealer or lessor-retailer is not in possession of the vehicle that is sold or transferred, the person in physical possession of the vehicle shall give the information required by subdivision (b).

(d) A sale is deemed completed and consummated when the purchaser of the vehicle has paid the purchase price, or, in lieu thereof, has signed a purchase contract or security agreement, and has taken physical possession or delivery of the vehicle.

§5902. Whenever any person has received as transferee a properly endorsed certificate of ownership, that person shall, within 10 days thereafter, forward the certificate with the proper transfer fee to the department and thereby make application for a transfer of registration. The certificate of ownership shall contain a space for the applicant’s driver’s license or identification card number, and the applicant shall furnish that number, if any, in the space provided.

(b) The requirements of subdivision (a) shall not apply if the expiration of registration occurs on or after July 1, 2011. This subdivision shall become inoperative on January 1, 2012.

Application for Vehicles Not Registered

§5904. Whenever the ownership of any vehicle for which a certificate of ownership has been issued without registration under Section 4452 is transferred, an application for transfer shall be made as provided in this chapter.

Amended Ch. 28, Stats. 1963.

Continuation of Security Interests

§5905. When a security interest upon a registered vehicle is satisfied, canceled, or released by the parties thereto duly registered as owner and legal owner respectively and thereafter within a period of 10 days a new security agreement covering the vehicle is executed between the same parties, no application for transfer of registration by reason thereof shall be made and no new certificate of ownership or registration card shall be issued, and all provisions of this code relating to transfers of any title or interest in a vehicle and the registration of the transfers shall be deemed to have been fully complied with, and the new security agreement shall be deemed perfected at the time the new security agreement is executed.

§5906.5. (a) Except as otherwise provided in subdivision (b), in the case of any transfer, including, but not limited to, a transfer resulting from a sale, lease, gift, or auction, of a vehicle under 6,001 pounds, manufacturer’s maximum gross weight rating, where no application for transfer is required, the person making such transfer, or his authorized representative shall sign and shall record on the document evidencing the transfer of the vehicle the actual mileage of the vehicle as indicated by the vehicle’s odometer at the time of the transfer. However, if the person making the transfer, or his authorized representative, has knowledge that the mileage displayed on the odometer is incorrect, such person shall record on the document the true mileage, if known, of the vehicle at the time of transfer.

(b) Whenever the person making such transfer is not in possession of the vehicle that is transferred, the person in physical possession of such vehicle shall provide the information required by subdivision (a).

Security Interest in Dealer’s Inventory

§5907. A secured party who holds a security interest in a registered vehicle that constitutes inventory as defined in the Uniform Commercial Code, who has possession of the certificate of ownership issued for that vehicle, if the certificate of ownership has been issued, need not make application for a transfer of registration and the Uniform Commercial Code shall exclusively control the validity and perfection of that security interest. §5908. The transferee of a security interest in a registered vehicle need not make application for a transfer of registration when the interest of such transferee arises from a transfer of a security agreement or a lease agreement by the legal owner to the transferee. The legal owner of a registered vehicle that constitutes inventory as defined in the Uniform Commercial Code shall exclusively control the validity and perfection of such a security interest.

Involuntary Transfers

§5909. (a) Whenever the title or interest of any owner or legal owner in or to a vehicle registered under this code passes to another otherwise than by voluntary transfer the new owner or legal owner may obtain a transfer of registration upon application therefor and upon presentation of the last certificate of ownership and registration card issued for the vehicle, if available, and any instruments or documents of authority or certified copies thereof as may be required by the department, or required by law, to evidence or effect a transfer of title or interest in or to chattels in such case.

(b) The department when satisfied of the genuineness and regularity of the transfer shall give notice by mail to the owner...

(1) The sole person or all of the persons who succeeded to the property of the decedent under Sections 6401 and 6402 of the Probate Code unless the vehicle is, by will, otherwise bequeathed.

(2) The sole beneficiary or all of the beneficiaries who succeeded to the vehicle under the will of the decedent where the vehicle is, by will, so bequeathed.

(D) There are no unsecured creditors of the decedent or, if there are, the unsecured creditors of the decedent have been paid in full or their claims have been otherwise discharged.

(3) If required by the department, a certificate of the death of the decedent.

(4) If required by the department, the names and addresses of any other heirs or beneficiaries.

(c) Except as provided in subdivision (b), designation of a beneficiary in a certificate of ownership issued in beneficiary form may not be changed or revoked by will, by any other instrument, by a change of circumstances, or otherwise.

The transferee may secure a transfer of ownership upon presenting to the department (1) the certificate of ownership signed by the beneficiary, (2) the certificate described in paragraph (2) of subdivision (e) executed by the beneficiary under penalty of perjury; and (3) if required by the department, a certificate of death of the owner.

(g) A transfer at death pursuant to this section is effective by reason of this section, and shall not be deemed to be a testamentary disposition of property. (h) A transfer at death pursuant to this section is subject to Section 9653 of the Probate Code.

(i) If there is no surviving beneficiary, the person or persons described in Section 5910 may secure transfer of the vehicle as provided in that section.
The department may prescribe forms for use pursuant to this section.

**Liability Discharge upon Transfer**

5910.7. (a) If the department makes a transfer pursuant to Section 5910.5, the department is discharged from all liability, whether or not the transfer is consistent with the beneficiary ownership of the vehicle transferred.

(b) The protection provided by subdivision (a) does not extend to a transfer made after the department has been served with a court order restraining the transfer. No other notice or information shown to have been available to the department shall affect its right to the protection afforded by subdivision (a).

(c) The protection provided by this section has no bearing on the rights of parties in disputes between themselves or their successors concerning the beneficial ownership of the vehicle.

(d) The protection provided by this section is in addition to, and not exclusive of, any other protection provided to the department by any other provision of law.

**Transfer When Certificate Unavailable**

5911. Whenever application is made to the department for a transfer of registration of a vehicle to a new owner or legal owner and the applicant is unable to present the certificate of ownership issued for the vehicle by reason of the same being lost or otherwise not available, the department may receive the application and examine into the circumstances of the case and may require the filing of certifications or other information, and when the department is satisfied that the applicant is entitled to a transfer of registration the department may transfer the registration of the vehicle, or reregister the vehicle under a new registration number, and issue a new certificate of ownership and registration card to the person or persons found to be entitled thereto. The department, however, shall not issue a new certificate of ownership and registration card to the applicant if the department has received notice by registered or certified mail in which it is indicated that the existing ownership certificate is being held for nonpayment of the vehicle. The notice may be forwarded by the registered owner, recorded lienholder, or by a person exempted from recording ownership by Section 5906.

**Card Held by Department**

5912. Whenever application is made to the department for a transfer of registration of a vehicle to a new owner or legal owner and the applicant is unable to present the registration card issued for the vehicle by reason of the same being in the possession of the department upon an application for renewal of registration, the department may transfer the registration of such vehicle upon production of the properly endorsed certificate of ownership to the vehicle and a temporary receipt upon a form prescribed by the department and containing such information as the department shall deem necessary, including, but not limited to, the license number assigned to the vehicle for the ensuing registration year, the amount of the fees payable upon renewal of registration, and the vehicle identification number of the vehicle.

Article 4. Transfer by Department

**Transfer of Registration**

6050. (a) The department upon receipt of a properly endorsed certificate of ownership and the required fee shall reregister the vehicle under its registration number in the name of the new owner and new legal owner, if any, and shall issue a new registration card and certificate of ownership as provided upon an original registration.

(b) The department shall not issue a new registration card and certificate of ownership pursuant to subdivision (a) on a vehicle that has been issued a nonrepairable vehicle certificate pursuant to Section 11515.2.

**Transfer Under Regular Application**

6051. If the application for a transfer is made in the manner provided in this code the department shall not be required to withhold the transfer of any right, title, or interest in or to a vehicle if the application on its face appears to be genuine and regular and the department has received neither a request from any law enforcement agency that action on the application be deferred nor an order of a court of the United States or of the State of California restraining the transfer within two years prior thereto.

**Transfer of Vehicle Not Registered**

6052. When application is made for transfer of the ownership of a vehicle for which a certificate of ownership has been issued without registration, upon payment of registration, transfer, and other fees required by law, the department shall issue the usual certificate of ownership and registration card unless the vehicle is not to be operated on the highways and the new owner submits an affidavit satisfactory to the department as to those facts required by subdivision (b) of Section 4452, in which case the new certificate of title and facsimile thereof may be issued as provided for in that section.

Article 5. Transfers Through Wholesale Auctions

(Added Ch. 745, Stats. 1992. Effective January 1, 1993.)

**Wholesale Motor Vehicle Auctions: Certificate of Title**

6100. A dealer who conducts a wholesale motor vehicle auction and who uses the form prescribed in subdivision (b) of Section 4456 shall include the phrase “SOLD THROUGH [name of dealer conducting the auction]” and the date of the auction on the certificate of title of every vehicle sold, in a manner prescribed by the department.

**Retention of Documents**

6102. For each vehicle sold pursuant to this article, the dealer who conducts the auction shall maintain a copy of the following documents for a period of not less than five years:

(a) The form required by subdivision (b) of Section 4456.

(b) A copy of the auction sales agreement.

(c) A copy of the odometer statement required by Section 5900.

**Rights of Purchasing Dealers**

6104. Notwithstanding any other provision of law, a dealer who purchases a vehicle pursuant to this Article has the same rights and remedies against the dealer who conducts the
auction sale as if that dealer were an owner and seller of the auctioned vehicle. The purchaser dealer’s rights and remedies are in addition to any right or remedy he or she may have against the seller of a vehicle sold at a wholesale motor vehicle auction. The provisions of this section may not be waived or modified by agreement, or by recharacterization of the transaction.

Operative Date

6105. This Article shall become operative on July 1, 1993.

Chapter 2.5 Miscellaneous Title Provisions

(Added Ch. 1247, Stats. 1994. Effective January 1, 1995.)

Article 1. Certificate of Title as Evidence

Evidence of Ownership

6150. In any criminal proceeding in which ownership, possession, or use of a motor vehicle is an issue, a copy certified by the department as its record of title on file, or with the official custodian of those documents of another state, shall be admissible as evidence of ownership of the motor vehicle. Upon the introduction of evidence that the legal owner of a motor vehicle is not named in the certificate of title or that use or possession was with the consent or authority of the owner, a reasonable continuance shall be granted any party to enable the owner of the vehicle to be brought into court to testify.

Testimony of Vehicle Owner

6151. A party to a proceeding described in Section 6150 may provide notice to the opposing party that a showing of need will be made at the arraignment or at any other pretrial hearing, and upon the proof of that notice and the showing of need, the court shall take testimony from the owner or person in control of the motor vehicle which shall be admissible at trial.

Continuance of Testimony

6152. At any hearing, including, but not limited to, a scheduled trial date, involving a proceeding described in Section 6150, upon a showing of need, the court shall order as a condition of granting a continuance that the testimony of a witness then present in court be taken and preserved for subsequent use at a trial or any other stage of the proceeding.

Testimony and Cross Examination

6153. Where testimony is taken and preserved for use at trial or other stage of the proceeding pursuant to Sections 6151 and 6152, the witness shall be examined in open court by the party on whose behalf he or she is present, and the adverse party shall have the right of cross-examination.

Invalid Provisions of This Act

6154. If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Article 2. Inspection and Cancellation of Titles for Exported Vehicles

Vehicle Title Marked for Export

6160. The Legislature finds and declares that when vehicles are exported and their title records are not amended to reflect exportation, it is conducive to vehicle theft and insurance fraud. The certificates of title issued by this state are used in insurance frauds in which a claimant falsely states that a vehicle has been stolen or uses that certificate to fraudulently procure insurance when in fact the vehicle has previously been exported from the United States. In the interest of the general welfare of the people of this state, and in order to combat vehicle theft and insurance fraud, it is necessary that the department’s record of title reflect the fact that a vehicle is being exported either temporarily or permanently, based upon the true owner’s declaration prior to exportation.

Miscellaneous Title Provisions: Definitions

6161. For the purposes of this act, the term:
(a) “Certified record of permanent exportation” shall include the following:
(1) Titled owners name and address.
(2) Description of the vehicle, including year, make, body type, vehicle identification number, license registration number, and state registration.
(3) Destination of vehicle.
(4) Purpose of export, whether sale, lease, or personal use.
(b) “Declaration that the vehicle will not be permanently located outside the United States” shall include the items specified in paragraphs (1) to (3), inclusive, of subdivision (a), and shall also state the period of time for which it is anticipated that the vehicle will be outside the United States.
(c) “Export” means the shipping or transporting of a vehicle out of the United States by means other than its own power or that of a vehicle drawing or towing it.
(d) “Owner” means the owner of record indicated in a certificate of title issued by this state and includes an agent of that owner acting under a valid power of attorney executed by an owner.
(e) “Title” means the certificate of ownership issued by the department pursuant to Section 4450, but excludes a salvage certificate as described in Section 11515 and an acquisition bill of sale as described in Section 11519.
(f) “Vehicle” means every device designed for transportation of persons or property upon land, for which a certificate of title is required.

Owner Certification Requirement Involving Foreign Vehicle Exportation

6162. An owner of a vehicle who seeks to export a vehicle titled in this state shall appear at the department with the certificate of title to ascertain whether there are any liens of record outstanding and whether the person exporting the vehicle is the lawful owner. If the certificate of title is found to
be in proper order and no unsatisfied lien appears, the department shall enter into its record of title that the vehicle is intended for permanent exportation from the United States. If the owner certifies by filing a declaration with the department that the vehicle will not be permanently located outside the United States, and that he or she intends to return the vehicle to the United States, the department shall enter into its record of title a declaration that the vehicle will not be permanently located outside the United States until notification by the owner that the vehicle has been returned.

Amended Sec. 173, Ch. 91, Stats. 1995. Effective January 1, 1996.

Article 3. Return of Stolen Motor Vehicle Retained as Evidence

Custody and Examination of Stolen Motor Vehicle Retained as Evidence

6171. When criminal charges have been filed involving a motor vehicle alleged to have been stolen and the vehicle is in the custody of a peace officer for evidentiary purposes, it shall be held in custody or, if a request for its release from custody is made, until the prosecutor has notified the defendant or his or her attorney of that request and both the prosecution and defense have been afforded a reasonable opportunity for an examination of the motor vehicle to determine its true value and to produce or reproduce, by photographs or other identifying techniques, legally sufficient evidence for introduction at trial or other criminal proceedings.

Return or Continued Retention of Stolen Motor Vehicle

6172. Upon expiration of a reasonable time for the completion of the examination, which in no event shall exceed 30 days from the date of service of the notice of request or return of the motor vehicle as provided in Section 6171, the property shall be released to the person making that request after satisfactory proof of the persons entitlement to the possession. Notwithstanding the foregoing, upon ex parte application by either party with notice to the other, the court may grant additional time for the examination or order retention of the motor vehicle if it determines that either is necessary to further the interests of justice; however, this provision shall not be construed to require a noticed hearing.

CHAPTER 3. FILING INSTRUMENTS EVIDENCING LIENS OR ENCUMBRANCES

Recording of Security Interest

6300. Except as provided in Sections 5905, 5907, and 5908, no security interest in any vehicle registered under this code, irrespective of whether the registration was effected prior or subsequent to the creation of the security interest, is perfected until the secured party or his or her successor or assignee has deposited, either physically or by electronic transmission pursuant to Section 1801.1, with the department, at its office in Sacramento, or at any other office as may be designated by the director, a properly endorsed certificate of ownership to the vehicle subject to the security interest showing the secured party as legal owner if the vehicle is then registered under this code, or, if the vehicle is not so registered, an application in usual form for an original registration, together with an application for registration of the secured party as legal owner, and upon payment of the fees as provided in this code.

Amended Sec. 6, Ch. 440, Stats. 1996. Effective January 1, 1997.

Perfection of Security Interest

6301. When the secured party, his or her successor, or his or her assignee, has deposited, either physically or by electronic transmission pursuant to Section 1801.1, with the department a properly endorsed certificate of ownership showing the secured party as legal owner or an application in usual form for an original registration, together with an application for registration of the secured party as legal owner, the deposit constitutes perfection of the security interest and the rights of all persons in the vehicle shall be subject to the provisions of the Uniform Commercial Code, but the vehicle subject to the security interest shall be subject to a lien for services and materials as provided in Chapter 6.5 (commencing with Section 3068) of Title 14 of Part 4 of Division 3 of the Civil Code.

Secured Party as Legal Owner

6302. Upon the deposit of an application for registration of a secured party as legal owner and upon the payment of the fees as provided in this code, the department shall register the secured party, his successor or assignee as legal owner in the manner provided for the registration of motor vehicles under the provisions of this chapter.

Method Is Exclusive

6303. Except as provided in Sections 5905, 5907 and 5908, the method provided in this Chapter for perfecting a security interest on a vehicle registered under this code is exclusive, but the effect of such perfection, and the creation, attachment, priority and validity of such security interest shall be governed by the Uniform Commercial Code.

CHAPTER 4. PERMITS TO NONRESIDENT OWNERS

Article 1. Exemption of Nonresidents

Use of Foreign License Plates: Limitation

6700. (a) Except as provided in Section 6700.2, the owner of any vehicle of a type otherwise subject to registration under this code, other than a commercial vehicle registered in a foreign jurisdiction, may operate the vehicle in this state until gainful employment is accepted in this state or until residency is established in this state, whichever occurs first, if the vehicle displays valid license plates and has a valid registration issued to the owner, and the owner was a resident of that state at the time of issuance. Application to register the vehicle shall be made within 20 days after gainful employment is accepted in this state or residency is established in this state.

(b) A nonresident owner of a vehicle, otherwise exempt from registration pursuant to this section or Section 6700.2, may operate or permit operation of the vehicle in this state without registering the vehicle in this state if the vehicle is registered in the place of residence of the owner and displays upon it valid license plates issued by that place. This exemption does not apply if the nonresident owner rents, leases, lends, or...
otherwise furnishes the vehicle to a California resident for regular use on the highways of this state, as defined in subdivision (b) of Section 4000.4.

(c) Any resident who operates upon a highway of this state a vehicle owned by a nonresident who furnished the vehicle to the resident operator for his or her regular use within this state, as defined in subdivision (b) of Section 4000.4, shall cause the vehicle to be registered in California within 20 days after its first operation within this state by the resident.

In-Transit Permit

6700.1. (a) Notwithstanding any other provision of law, the department may issue an in-transit permit to a resident of a foreign country not more than 30 days before or after the foreign resident purchases a new motor vehicle in California which was manufactured in the United States. The permit authorizes the operation of the vehicle for which it is purchased for up to 30 consecutive days after the first date of operation, and is in lieu of any other registration requirements, including, but not limited to, fees or taxes required by this code or the Revenue and Taxation Code. The seller shall ship or drive the vehicle out of this country before or at the end of 30 consecutive days from the first date of operation, or thereafter shall be subject to, and shall be required to pay, all charges and registration requirements for vehicles subject to registration in this state. In addition, if the vehicle is not so removed from this country, the department shall assess, and the seller shall be required to pay, a penalty of 20 percent of the vehicle registration and license fees and sales tax due upon the vehicle becoming subject to registration.

(b) Subdivision (a) does not apply to commercial vehicles.

(c) Proof of residency in a foreign country for purposes of this section shall be established through the presentation of a valid visa, passport, or other suitable documentation, as determined by the department.

(d) A fee of sixty dollars ($60) shall be paid to the department for each in-transit permit issued.

(e) A permit issued under this section shall be displayed in the manner permitted by paragraph (3) of subdivision (b) of Section 26708.

(f) The permit issued by the department shall clearly and prominently indicate the date of expiration of the authorized in-transit driving privilege.

(g) No California certificate of ownership shall be issued.

(h) Notwithstanding Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code, the manufacturer of a new motor vehicle sold to a foreign purchaser under the conditions specified in Section 6366.2 of the Revenue and Taxation Code shall reimburse the retailer for an amount equal to the sales tax and all registration charges and fees, and a penalty of 20 percent of those taxes, charges, and fees if the conditions of the in-transit permit are not met, as specified in this section.

Exemption for Nonresident Daily Commuters

6700.2. (a) Notwithstanding Section 4000.4, subdivision (a) of Section 6700, or Section 6702, a nonresident daily commuter may operate a motor vehicle on the highways of this state only if all of the following conditions are met:

(1) The motor vehicle is a passenger vehicle or a commercial vehicle of less than 8,001 pounds unladen weight with not more than two axles of the type commonly referred to as a pickup truck.

(2) The motor vehicle is used regularly to transport passengers on the highways of this state principally between, and to and from, the place of residence in a contiguous state and the place of employment in this state by the owner of the motor vehicle and for no other business purpose.

(3) The motor vehicle is not used in the course of a business within this state, including the transportation of property other than incidental personal property between, and to or from, the place of residence in a contiguous state and the place of employment of the motor vehicle owner in this state.

(4) Nothing in paragraphs (2) and (3) prohibits a nonresident daily commuter operating a motor vehicle that displays currently valid external vehicle identification indicia and who possess a corresponding identification card issued pursuant to Section 6700.25 from using that vehicle for other lawful purposes.

(b) The exception to registration of a motor vehicle under the conditions specified in this section does not supersede any other exception to registration under other conditions provided by law.

(c) This section does not apply to a resident of a foreign country.

Nonresident Commuter Indicia

6700.25. (a) The department shall provide a nonresident daily commuter with external vehicle identification indicia and a corresponding identification card, upon application therefor and completion of the form required by Section 6700.3, which indicia and card shall be valid for a period of two years. A vehicle shall be exempt from Sections 4000.4 and 6700 when operated with the requisite indicia and otherwise in accordance with this chapter.

(b) Subdivision (a) applies only to residents and vehicles of residents of a contiguous state which has enacted laws that provide reciprocal privileges to California residents who are employed in the contiguous state. Subdivision (a) does not apply to residents of foreign countries.

(c) Subdivision (a) applies only to the vehicles specified in paragraph (1) of subdivision (a) of Section 6700.2.

(d) Subdivision (a) applies only to vehicles which are licensed in a foreign jurisdiction that are used to commute into California to a destination within a corridor in this state that parallels the border between California and the contiguous state and extends not more than 35 air miles into California from the border at any point. The privilege accorded by subdivision (a) shall be revoked by operation of the vehicle for commuter purposes beyond that 35-mile corridor.

(e) The department shall charge a service fee of fifteen dollars ($15) for each vehicle.

Publisher's Note - Fees described in this section are subject to change pursuant to Section 1678.

Application Requirements

(b) The department shall prescribe a form to be completed by the applicant which shall include all of the following information:

1. The vehicle license number and the vehicle identification number (VIN) of the vehicle that will display the nonresident daily commuter indicia.
2. The name of the registered owner of the vehicle that will display the indicia.
3. A statement that the applicant is a nonresident daily commuter as defined in Section 435.5.
4. A statement that the indicia will be displayed upon a qualified vehicle as specified in Section 6700.4.
5. A statement that the place of employment of the nonresident daily commuter is within the 35-mile corridor specified in subdivision (d) of Section 6700.25.

Display of Indicia

6700.4. A nonresident daily commuter indicia shall be displayed in a location on the vehicle which is clearly visible and adjacent to the rear license plate. The corresponding nonresident daily commuter identification card shall be carried at all times in the assigned vehicle and shall be presented to any California peace officer upon demand. 

Exemption of Person in Military Service and Spouse

6701. (a) Any nonresident owner of a vehicle registered in a foreign state who is a member or spouse of a member of the armed forces of the United States on active duty within this state, and any resident owner of a vehicle registered in a foreign state who is a member or spouse of a member of the armed forces of the United States returning from active duty in a foreign state, may operate the vehicle in this state without securing California registration after satisfying all of the following requirements:

1. The license plates displayed on the vehicle are valid plates issued by a foreign jurisdiction.
2. The vehicle registration and license plates are issued to the military person or spouse of the military person.
3. The vehicle registration and license plates were issued by the foreign jurisdiction where the military person was last regularly assigned and stationed for duty by military orders or a jurisdiction claimed by the nonresident military person as the permanent state of residence.
4. If the vehicle is a motor vehicle, the owner or driver has in force one of the forms of financial responsibility specified in Section 16021.

(b) For purposes of paragraph (3) of subdivision (a), military orders do not include military orders for leave, for temporary duty, or for any other assignment of any nature requiring the military person's presence outside the foreign jurisdiction where the owner was regularly assigned and stationed for duty.

(c) This section applies to all vehicles owned by the military person or spouse except any commercial vehicle used in any business manner wherein the military person or spouse receives compensation.

Use of Foreign License Plates By Resident Business

6702. Every nonresident, including any foreign corporation, having an established place of business within this state, and regularly using a vehicle of a type subject to registration under this code, shall immediately register the vehicle upon entry into this state.

Use of Foreign License Discharge From Military

6703. Any person entering California following discharge from the armed forces of the United States is exempted from registration of passenger vehicles, trailer coaches, and utility trailers only, as provided for and under the conditions prescribed in Section 6700.

Reciprocity

6850. A nonresident owner of any foreign commercial vehicle shall register the vehicle in this state and pay the fees applicable thereto under this code, except as provided in this Article and Article 3 (commencing with Section 8000), and except in the event the vehicle is lawfully registered as a private passenger vehicle in the foreign jurisdiction in which the owner has residence, in which case Section 6700 shall apply.

Vehicles Leased for Use in This State

6853. Any vehicle owned by a nonresident owner not registered under this code, which vehicle is leased or rented to a user having an established place of business or residence in this state, for use on the highways of this state shall be subject to registration either by the owner or lessee of the vehicle, unless the vehicle is exempted from registration by the provisions of this division or under any agreement, arrangement, or declaration made pursuant to Article 3, commencing at Section 8000.

No Reciprocity: Proof of Financial Responsibility

6854. (a) Any owner or lessor of a commercial vehicle with primary registration and plates issued in a foreign jurisdiction which does not grant reciprocal privileges to California owners of commercial vehicles shall submit to the department proof of financial responsibility issued by an insurance company authorized to do business in California. This section shall apply only to commercial vehicles having an unladen weight of over 7,000 pounds that are used in the transportation of property in the conduct of a business.
§8000

(b) As an alternative to the requirements of subdivision (a), proof of financial responsibility may be met by submitting to the department either of the following:

(1) A certificate of registration as a foreign motor carrier or foreign motor private carrier issued by the Interstate Commerce Commission under Part 1171 of Title 49 of the Code of Federal Regulations.

(2) Contractual documents showing to the satisfaction of the department that a trailer or semitrailer subject to registration under Part 1171 of Title 49 of the Code of Federal Regulations will be towed by a truck or truck tractor operated by a motor carrier having highway carrier operating authority issued by the Public Utilities Commission.

Article 3. Reciprocity Agreements

Reciprocity Agreements

§8000. The director, or his or her designee, may enter into agreements with foreign jurisdictions that provide for the exemption of fees for commercial vehicles if the foreign jurisdictions provide equivalent exemptions to vehicles registered in this state. The agreements shall be applicable to vehicles that are properly licensed and registered in the foreign jurisdictions. The director, or his or her designee, may also enter into agreements that provide for the exemption of regulatory fees which are, or may be, imposed, by the Public Utilities Code or the department.

Determination of Reciprocity

§8001. The director, or his or her designee, is authorized to examine the legal requirements of commercial vehicle registration fee statutes of foreign jurisdictions which grant reciprocal privileges to out-of-state vehicles, but which do not authorize negotiations or execution of agreements. After examination of the statutes, the director, or his or her designee, may declare the exemptions, benefits, and privileges that commercial vehicles registered in foreign jurisdictions shall be entitled to in this state.

Article 4. Apportioned Registration

Legislative Declaration: Tax Apportionment

§8050. The Legislature declares that in enacting this article, it adheres to the principle that each state should have the freedom to develop the kind of highway user tax structure that it determines to be most appropriate to itself, that the method of taxation of interstate vehicles should not be a determining factor in developing its user tax structure and that annual taxes or other taxes of the fixed fee type which are not imposed on a basis that reflects the amount of highway use should be apportioned among the states on the basis of vehicle miles traveled within each of the states. If the department determines that apportionment of the taxes on the basis of vehicle miles for a particular fleet of vehicles is impractical, the department may require the taxes on the fleet to be apportioned on an equivalent basis other than miles, as determined by the department.

International Registration Plan

§8052. (a) The director, or his or her designee, may, on behalf of the state, enter into, and become, a member of the International Registration Plan Agreement developed by the American Association of Motor Vehicle Administrators. The director, or his or her designee, may adopt rules and regulations necessary to carry out the provisions of the International Registration Plan or other apportioned registration agreements entered into under the authority of this article.

(b) In administering the International Registration Plan, the state may collect all appropriate registration and license fees due other jurisdictions. Foreign jurisdictions that are members of the agreement shall be authorized to collect all appropriate registration and license fees due to the State of California, and remit the fees to this state pursuant to the terms of the agreement.

Code Application to Article

§8053. Provisions of this code which specify and govern application filing, fee assignment, penalty assessment, and issuance of license plates and registration certificates, shall be applicable to vehicles registered pursuant to this article.

Transfer of Fleet Ownership

§8054. (a) Upon the application for transfer of ownership of a fleet of vehicles apportionately registered pursuant to this article, the department shall permit registration in the new owners name without reassessing the registration and vehicle license fees, if the application of the new ownership is for the same fleet interstate operation as the previous owner.

(b) The new owner, lessee, or their designee, shall certify the declared gross vehicle weight of the vehicle or vehicles on a single form for all commercial motor vehicles registered in the fleet owner’s or lessee’s name. The department shall reassess the weight fees if the declared gross vehicle weight is increased. The weight fees will be assessed at a prorated rate.

Reciprocity Exclusion

§8055. This Article does not apply to any owner or lessee of a commercial vehicle with primary registration and license plates issued in a foreign jurisdiction which does not grant reciprocity or apportioned registration to residents of this state owning commercial vehicles while operating within that foreign jurisdiction.

Application Content: Diesel Fuel Tax Permit

§8056. Any application filed pursuant to this Article which contains vehicles powered by diesel fuel shall include information concerning any diesel fuel tax permit issued by the Board of Equalization.

Fleet Records

§8057. Any person issued fleet registration pursuant to Article 9.5 (commencing with Section 5301) of Chapter 1 or this Article shall:

(a) Maintain fleet records that support the reported mileage, cost, and declared gross or combined gross vehicle
weight of all vehicles. Any registrant whose application for apportioned registration has been accepted shall preserve the mileage records on which the application is based, including copies of all permits, for a period of three years after the close of the registration year. Vehicle cost and declared gross or combined gross weight records shall be retained for four years after the close of the registration year in which the vehicle was deleted.

(b) Make fleet records available to the department at its request for audit to verify the accuracy of the records. In the event the records are not made available within 30 days of the request, the department may assess full California fees and penalties and may suspend or cancel apportioned registration privileges. The registrant may be required to reimburse the department auditor per diem and travel expenses under certain conditions as determined by the director.

Underpaid Fees: Interest and Penalty

§8058. (a) The department shall charge interest on any underpaid fees due under this article, at the rate of 1 percent per month of the underpaid portion of the fees, commencing on the date the underpaid portion of the fees were originally due and accruing monthly until paid.

(b) Interest charged under subdivision (a) shall continue to accumulate during any disputation of the underpaid fees or any hearing regarding the underpaid fees. During any disputation or hearing, the registrant may pay the underpaid fees and other charges to avoid additional interest charges and may request a refund of any overpaid fees after final review.

(c) For any underpaid fees, the department may impose a penalty of fifty dollars ($50) or 10 percent of the underpaid fees, whichever is greater, commencing on the date the underpaid fees were determined to be due.

(d) For the purposes of this section, “underpaid fees” include additional vehicle registration, weight, and license fees found to be due to this state.

(e) The director shall have discretion to apply subdivision (b) of Section 9562 instead of subdivision (c) of this section.

(f) The penalty structure set forth in Sections 9554 and 9554.5 shall apply in place of the provisions of this section in those cases where there is a violation of Section 4000, 4000.4, 4002, 4003, 4004, 4004.5, or 4156 for commercial registration that is not apportioned pursuant to Section 8050.

Article 5. Federal Motor Vehicle Safety Program
(Added Sec. 3, Ch. 169, Stats. 2006. Effective January 1, 2007.)

Apportioned Registration: Application Requirements

§8100. An application for apportioned registration received on and after January 1, 2008, and filed pursuant to Article 4 (commencing with Section 8050) shall contain the following information:

(a) The United States Department of Transportation Number issued to the person responsible for the safe operation of each vehicle being registered.

(b) The taxpayer identification number corresponding to the United States Department of Transportation number provided in the apportioned registration application. The taxpayer identification number may consist of the federal employer identification number or the social security number, as applicable.

(c) Notwithstanding any other provision of law, the taxpayer identification number provided pursuant to this section is confidential and shall not be disclosed by the department except to law enforcement or a federal agency, or as required by law.

Grounds for Refusal of Application

§8101. In addition to the reasons specified in Section 4750 or 4751, the department shall refuse an application for apportioned registration for the following grounds:

(a) The applicant has failed to furnish the department with information required in the application under Section 8100.

(b) The person responsible for the safety of the vehicle or fleet is prohibited from operating in interstate commerce by a federal agency.

(c) Whenever the department suspends the apportioned registration of a vehicle or a fleet pursuant to subdivision (a), the department may refuse the issuance of vehicle registration as authorized pursuant to Section 4751.

(d) When an apportioned registration is suspended pursuant to this section, and that suspension is based wholly or in part on the failure of the person to maintain a vehicle or a fleet in safe operating condition, the person to whom the registration was issued shall not lease, or otherwise allow, another person to operate a vehicle that is subject to the suspension during the period of the suspension.

(e) A person shall not knowingly lease, operate, dispatch, or otherwise utilize a vehicle from another person whose apportioned registration is suspended, when that suspension is based wholly or in part on the failure of the person to maintain a vehicle or a fleet in safe operating condition.

(f) The apportioned registration of a vehicle or a fleet, that was suspended because the vehicle or fleet is prohibited from operating in interstate commerce by a federal agency may be reinstated upon notification from the federal agency that the prohibition has been lifted.

(g) Notwithstanding any other provision of this code, before an apportioned registration may be reissued after a suspension is terminated, there shall, in addition to other fees required by this code, be paid to the department a fee of one hundred fifty dollars ($150). This fee shall be deposited in the Motor Vehicle Account to cover the department’s cost of administering this program.

§8103

Suspension Based on Prohibited Interstate Operation

8103. Notwithstanding any other provision of this code, a hearing shall not be provided when the suspension is based solely on notification by a federal agency that interstate operation is prohibited.

Suspension or Cancellation of Operating Privileges: Vehicle or Fleet Operation by Another Person

8104. Except as provided in subdivision (e), a vehicle or a fleet for which the apportioned registration has been suspended pursuant to this Article shall not be operated in interstate or intrastate commerce unless evidence is provided to the department that the vehicle or the fleet is to be operated by a person whose apportioned registration is not subject to a suspension pursuant to this Article and who has a valid apportioned registration pursuant to Article 4 (commencing with Section 8050) or Division 14.85.

Article 6. Enforcement of Liens on Apportioned Fleet Vehicles

Registrant

8200. “Registrant,” for purposes of this article, means any person issued apportioned registration pursuant to Article 4 (commencing with Section 8050), Amended Sec. 120, Ch. 124, Stats. 1996. Effective January 1, 1997.

Lien

8201. (a) Fees determined to be due, including penalties and service fees, for the operation of a fleet apportionately registered vehicle shall be a lien upon all vehicles operated as part of the fleet and on any other fleet vehicles operated by the registrant. The department may collect the amount of the lien, plus costs, not to exceed two hundred fifty dollars ($250), in an appropriate civil action and by seizure and sale of the vehicle.

(b) Liens arising as the result of an audit expire four years from the date the registration fees first become due unless the lien is perfected pursuant to subdivision (d).

(c) Any lien arising under this section that is not subject to subdivision (b) expires three years from the date the fee or penalty first became due unless the lien is perfected pursuant to subdivision (d).

(d) A lien shall be perfected when a notice is mailed to the registrant at the address shown on the department’s records and the lien is recorded on the electronic vehicle registration records of the department. A perfected lien shall expire five years from the date of perfection.

(e) Prior to the expiration of the statute of limitations, the registrant may consent to a waiver which would allow the assessment of fees and penalties past the statute of limitations.

Contesting Lien

8202. (a) Within 30 days of the date the notice is mailed pursuant to Section 8201, the registrant may submit documentation not previously available or may request a hearing to contest the existence or the amount of the lien. If no additional documentation is submitted, or if no hearing is requested, the operating privileges of the fleet may be suspended or canceled and a sufficient number of vehicles may be seized and sold to satisfy the lien.

(b) If additional documentation is submitted, the department shall review the documentation and issue its findings to the registrant. Within 30 days of the date the findings are mailed, the registrant may request a hearing.

(c) If a hearing is requested, 10 days’ notice shall be given of the time and place of the hearing, which shall be held within the county of residence of the person requesting the hearing or within the county of the established place of business of the registrant. The hearing shall be conducted by a referee who shall submit findings and recommendations to the director or his or her authorized representative, who shall decide the matter. The decision shall be effective on notice thereof to the interested parties. However, the director, or his or her authorized representative, may rescind the decision and reconsider the matter for good cause shown at any time within three years after the date the disputed fee or penalty first became due, or one year from the hearing whichever is later.

(d) Upon final completion of all administrative appeals, the department shall give written notice to the registrant of the right to a review of the decision by a court of competent jurisdiction. Any action brought in court shall be commenced within 90 days from the date notice of the decision is mailed.

Amended Sec. 10, Ch. 478, Stats. 2010. Effective January 1, 2011.

Suspension or Cancellation of Operating Privileges: Seizure and Sale of Vehicles

8203. (a) When a lien is perfected pursuant to Section 8200 and the opportunity to submit additional documentation or to request a hearing has passed, the department may suspend or cancel the operating privileges of the fleet. When the suspension takes effect, the department may seize a sufficient number of vehicles to satisfy the lien without further notice, upon obtaining authorization for the seizure and sale from the director or his or her authorized representative.

(b) Members of the California Highway Patrol, and peace officers employed by local authorities, are agents of the department for the purposes of this section.

(c) In all cases, prior to the sale, a notice of the lien and intent to sell the vehicle shall be given by the department to the registrant, the known legal and registered owners, and to any other person known to be claiming an interest in the vehicle. The department shall also give public notice of the lien by placing an advertisement in a newspaper of general circulation published in the county in which the registrant’s place of business is located.

(d) At any time before seizure and sale, any person claiming an interest in the vehicle may pay the department the amount of the lien, plus costs. In that event, the seizure and sale shall not be held, and the vehicle, shall be returned by the department to the person entitled to its possession.

(e) Any property found by the department in any vehicle seized under the provisions of this Article shall be handled by the department in the manner provided in Section 2414 and 2415.

(f) The sale shall be conducted and proceeds distributed pursuant to Section 9802.

Waiver of Fees and Penalties

8204. (a) When a transferee or purchaser of an apportionedly registered fleet vehicle applies to the department for transfer of ownership and it is determined by the department that there is an outstanding lien against the fleet in which the vehicle was operated, that fees became due prior to the transfer or purchase of the vehicle, and that the transferee or the purchaser was not cognizant of the fact that a lien existed, the department may waive apportioned registration fees and any penalties that are due.

(b) When fees and penalties are waived pursuant to subdivision (a), the apportioned registration fees and penalties shall become the liability of the registrant who failed to pay the fees and penalties when they became due. The fees and penalties may be collected by the department in an appropriate civil action.

(B) Except as provided in paragraph (3), or when subparagraph (A) applies pursuant to a Treasurer’s certification, upon the first issuance of designated bonds, as defined in subdivision (c) of Section 16773 of the Government Code, starting in the month following that first issuance, all weight fee revenues received by the Controller from the first day through the 14th day of every month shall be transferred from the State Highway Account to the Transportation Debt Service Fund.

(C) All funds transferred pursuant to subparagraphs (A) and (B) are hereby appropriated for transfer to the General Fund by the Controller as reimbursement for debt service costs paid with respect to eligible bonds described in subparagraph (A) of paragraph (2) of subdivision (a) of Section 16965 of the Government Code, until all debt service that the
Director of Finance indicates qualifies for reimbursement as provided for in subdivision (d), (e), or (f) of Section 16965 of the Government Code has been reimbursed, or to redeem or retire bonds, pursuant to Section 16774 of the Government Code, as referenced in subdivision (d), (e), or (f) of Section 16965 of the Government Code, that are maturing in a subsequent year. After the Director of Finance has notified the Controller that all debt service costs for the fiscal year have been reimbursed, the Controller shall transfer any remaining revenue generated from weight fees subject to this section for that fiscal year in the State Highway Account to the General Fund as a loan. The Director of Finance may repay any portion of the balance of this loan in any year in which the Director of Finance determines that the funds are needed to reimburse the General Fund for current year transportation bond debt service or to redeem or retire those bonds pursuant to Section 16774 of the Government Code, maturing in a future fiscal year, provided that the loans shall be repaid no later than June 30, 2021. All funds loaned pursuant to this section, upon repayment to the State Highway Account, shall be immediately transferred by the Controller to the Transportation Debt Service Fund for use pursuant to Section 16965 of the Government Code. By June 15 of each year, the Director of Finance, in consultation with the Treasurer, shall notify the Controller regarding the final amount of debt service paid from the General Fund during that fiscal year pursuant to subdivision (d), (e), or (f) of Section 16965 of the Government Code and shall direct the Controller to reverse or adjust any transfers made as debt service reimbursements or loans so that a maximum amount of transfers are made for debt service reimbursements and with any loan amounts limited to the difference between this amount and the total amount of revenue for that fiscal year generated from weight fees, as determined by Sections 9400.1 and 42205. The total amount of weight fee revenues transferred from the State Highway Account in any fiscal year shall not be greater than the total amount of weight fee revenues deposited into the State Highway Account in that year.

(2) Starting in the month following the first issuance of any designated bonds, unless a Treasurer’s certification pursuant to subparagraph (B) of paragraph (3) of subdivision (a) of Section 16965 of the Government Code applies, all weight fee revenues subject to this section that are received by the Controller from the 15th day of every month, or the first business day thereafter if not a business day, through the last day of the month shall be deposited directly in the Transportation Debt Service Fund and are hereby appropriated for transfer as follows: (A) First, to the Transportation Bond Direct Payment Account as set forth in subdivision (b) of Section 16965 of the Government Code, to provide for payment of debt service with respect to designated bonds.

(B) Thereafter, as provided in subparagraph (C) of paragraph (1).

(3) Notwithstanding paragraphs (1) and (2), if by the last day of a month the transfer for that month relating to designated bonds required by the Treasurer’s certificate described in subdivision (b) of Section 16965 of the Government Code has not been made due to insufficient weight fee revenue, weight fee revenue shall continue to be transferred pursuant to paragraph (2) beginning with the first day of the subsequent month and continuing every day until such time as sufficient revenue for full compliance with the certificate has been transferred.

(4) Except as otherwise provided in paragraph (1), (2), or (3), with respect to any transfers or portions of transfers that cannot be made in any given month if weight fee revenues are insufficient, the first weight fee revenues available in the following month or months shall be used to complete the transfers for the previous months or months prior to making additional transfers for later months.

(b) If an inconsistency in access occurs between cities and counties, the inconsistent access provisions of the congestion management plan may be appealed to the California Transportation Commission. The commission shall review the inconsistent access plan and make a finding within 90 days of the appeal being filed. If the commission fails to make a finding within 90 days, the Director of Transportation shall review the issue and make a finding within 30 days.

Application for Partial Year Registration or Renewal

9706. (a) Application for partial year registration in conjunction with an application for original California registration shall be made by the owner within 20 days of the date the vehicle first becomes subject to California registration. Any application for partial year registration submitted after that 20-day period shall be denied registration for a partial year, and the vehicle shall be subject to payment of the fees for the entire registration year. In addition to the fee for the registration year, a penalty, as specified in Section 9554, shall be added to the fee for registration.

(b) Any application to renew registration for a part of the remainder of the registration year or for the entire remainder of the registration year shall be made prior to midnight of the expiration date of the last issued registration certificate. Application shall be made upon presentation of the last issued registration card or of a potential registration issued by the department for use at the time of renewal and by payment of the required partial year fees, or, if renewal is for the remainder of the registration year, by payment of the annual fee required by Section 9400 or 9400.1, as reduced pursuant to Section 9407.

(c) Notwithstanding any other provision of law, an owner who registers a vehicle pursuant to this article during a calendar year shall, if the vehicle was not operated, moved, or left standing upon a highway, file a certificate of nonoperation prior to the date of the first operation of the vehicle on the highways in a manner which requires that registration and shall, by December 31 of each calendar year thereafter, file a certification pursuant to subdivisions (a) and (b) of Section 4604 when the vehicle is not registered for operation on the highways for the succeeding calendar year.

(d) Notwithstanding subdivision (c), the owner of any vehicle being moved or operated for the purpose of providing support to firefighting operations while the vehicle or owner is under contract to the United States Forestry Service, the United States Department of the Interior, the Bureau of Land Management, the Department of Forestry and Fire Protection, or the Office of Emergency Services may obtain partial year registration if application is made within 20 days of the date the vehicle is first operated, moved, or left standing on the highway and the owner has obtained a letter of authorization from the department prior to the date that the vehicle is first operated, moved, or left standing on the highway.

Unavailable Registration Card

9706.1. If the registration card or potential registration card is unavailable, payment of the fee prescribed by Section 9265 for the issuance of a duplicate registration shall not be required in addition to the other fees prescribed by subdivision (b) of Section 9706.

Temporary Use of Prior Registration

9710. When an application for renewal of registration of a vehicle has been made as required by Section 9706, the vehicle may be operated on the highways until the new certificate or insignia of current registration has been received from the department if there is displayed on the vehicle, in addition to the license plates or validating devices issued to the vehicle for the previous year, the certificate or insignia issued to the vehicle for the previous partial year.

Exception: Foreign Jurisdictions

9711. This Article does not apply to any owner or lessor of a commercial vehicle based in a foreign jurisdiction which does not grant reciprocity or proportionate registration to residents of this state while operating within that jurisdiction.

Lien for Fees, Taxes, and Penalties: Sale of Trip Permits

9800. (a) Payments for any of the following, and any interest, penalties, or service fees added thereto, required to register or transfer the registration of a vehicle, constitute a lien on the vehicle on which they are due or which was involved in the offense, and on any other vehicle owned by the owner of that vehicle:

(1) Registration fees.
(2) Transfer fees.
(3) License fees.
(4) Use taxes.
(5) Penalties for offenses relating to the standing or parking of a vehicle for which a notice of parking violation has been served on the owner, and any administrative service fee added to the penalty.
(6) Any court-imposed fine or penalty assessment, and any administrative service fee added thereto, which is subject to collection by the department.

(b) Notwithstanding subdivision (a), if a person is cited for a foreign registered auxiliary dolly, semitrailer, or trailer having been operated without current year registration or valid California permits or registration, an amount equal to the minimum registration fees or transfer fees, and any penalty added thereto, from the date they became due, shall, by election of the power unit operator, constitute a lien upon the California registered power unit which was pulling the dolly, semitrailer, or trailer. However, this subdivision is not applicable if the citation is issued at a scale operated by the Department of the California Highway Patrol and registration for the vehicle can be issued there immediately upon payment of the fees due.

(c) Every lien arising under this section expires three years from the date the fee, tax, or parking penalty first became due unless the lien is perfected pursuant to subdivision (d).

(d) A lien is perfected when a notice is mailed to the registered and legal owners at the addresses shown in the department’s records and the lien is recorded on the electronic vehicle registration records of the department. A perfected lien shall expire five years from the date of perfection.

(e) Employees and members of the Department of the California Highway Patrol assigned to commercial vehicle scale facilities may possess and sell trip permits approved by the Department of Motor Vehicles.

§9801

Certificate Requesting Judgment or Civil Action and Seizure and Sale: Hearings

9801. (a) (1) When the payment required for the registration or transfer of a vehicle is delinquent pursuant to subdivision (a) of Section 9800, the department may collect the amount of the lien on the vehicle plus costs, not to exceed two hundred fifty dollars ($250), by the filing of a certificate requesting judgment pursuant to Section 9805, or by appropriate civil action and by the seizure and sale of the vehicle or any other vehicle owned by the owner of the unregistered vehicle.

(2) In the case of a leased vehicle, the authority provided in paragraph (1) to seize and sell the vehicle or any other vehicle owned by the owner of that vehicle shall not apply to a lien for any delinquency for which only the lessee is liable pursuant to paragraph (1) of subdivision (a) of Section 10879 of the Revenue and Taxation Code.

(b) At least 10 days before the seizure, notice of the lien and of the intent to seize and sell the vehicle shall be given by the department to the registered owner, and to any other person known to be claiming an interest in the vehicle, by registered mail addressed to those persons at the last known addresses appearing on the records of the department.

(c) Any person receiving the notice of the lien and the intent to seize and sell the vehicle may request a hearing to contest the existence or amount of the lien. If no hearing is requested, the vehicle shall be seized and sold.

(d) If a hearing is requested, 10 days’ notice shall be given of the time and place of the hearing, which shall be held within the county of residence of the person requesting the hearing or of the registered owner. The hearing shall be conducted by a referee who shall submit findings and recommendations to the director or his or her authorized representative, who shall decide the matter. The decision shall be effective on notice thereof to the interested parties. However, the director or his or her authorized representative may rescind the decision and reconsider the matter for good cause shown at any time within three years after the date the disputed fee or tax first became due, or within one year from the hearing, whichever is later.

(e) At any time before seizure or sale, any registered owner, legal owner, or person claiming an interest in the vehicle may pay the department the amount of the lien, plus costs. In that event, the seizure or sale shall not be held and the vehicle, if seized, shall be returned by the department to the person entitled to its possession. This payment shall not constitute a waiver of the right to a hearing.

(f) When the department or an authorized agent has reasonable cause to believe that the lien may be jeopardized within the 10-day notice-of-intent period, the vehicle may be seized without prior notice to the registered or legal owner, upon obtaining authorization for the seizure from the Registrar of Vehicles or authorized representative. In all those cases, a notice of the lien and the intent to sell the vehicle shall be given by the department to the legal and registered owner, and to any other person known to be claiming an interest in the vehicle, within 48 hours after seizure excluding Saturdays, Sundays, and holidays specified in Section 6700 of the Government Code. Any hearing to contest the lien and the seizure shall be requested within 10 days following transmittal of that notice.

(g) When a lien exists against one or more vehicles owned by the same person or persons, the department may seize and sell a sufficient number of the vehicles to pay the lien, plus costs, on one or more of the vehicles in accordance with subdivision (a).

(h) The Department of the California Highway Patrol shall assist with the seizure and impounding of the vehicle. Any municipality or county law enforcement agency may assist with the seizure and impounding of the vehicle.

(i) Any property found by the department in any vehicle seized under the provisions of this Article shall be handled by the department in the same manner as is provided in Sections 2414 and 2415.

Conduct of Sale: Distribution of Proceeds

9802. (a) The Registrar of Vehicles or authorized representative shall conduct the sale in the same manner as provided by law for the seizure and sale of personal property by the assessor for the collection of taxes due on personal property.

(b) The department may bid for the vehicle an amount equal to the lien held by the department for registration, transfer, and license fees, use taxes, parking penalties, and any interest, penalties, and costs added thereto. In all cases where the vehicle becomes the property of the department, it shall be reduced to junk and sold.

(c) The proceeds of any sale shall be allocated by the department for the following purposes and in the following order:

1. Costs incurred by the department.
2. Registration and transfer fees and any penalty added thereto.
3. License fees and any penalty added thereto.
4. Use taxes and any interest or penalty added thereto.
5. Perfected mechanics’ liens.
6. Perfected security interests.
7. Penalties for offenses relating to the standing or parking of a vehicle and any administrative service fee added thereto. Any other court-induced liability, and any administrative service fee added thereto, which is subject to collection by the department.
8. All other fees due the department.
9. Any remainder to the person whose claim of interest in the vehicle is approved by the department.

(d) Notwithstanding Section 42270, the proceeds of the sale allocated pursuant to paragraphs (4) to (9), inclusive, of subdivision (c) shall not be transmitted to the Treasurer for deposit in the Motor Vehicle Account in the State Transportation Fund.

(e) The department shall transmit to the State Board of Equalization all use taxes, interest, and penalties collected under this Article within 60 days after receipt thereof in the form which may be prescribed and approved jointly by the department and the board.

Departmental Action: Court Review

9803. Nothing in this code prevents a review or other action as may be permitted by the Constitution and laws of this state by a court of competent jurisdiction of any order of the department to seize and sell a vehicle.

Statute of Limitations: Court Review

9804. (a) Any action brought in a court of competent jurisdiction to review any order of the department to seize and sell a vehicle shall be commenced within 90 days from the date notice is given of the order.
(b) Upon final completion of all administrative appeals, the department shall give written notice to the owner of a vehicle ordered for seizure and sale of his or her right to a review of the order by a court pursuant to subdivision (a).

Certificate Requesting Judgment for Payment of Lien

9805. (a) The department may file in the office of the Clerk of the Superior Court of Sacramento County, or any other county, a certificate specifying the amount of any fee, tax, penalty, and collection cost due, the name and last known address of the individual, company, or corporation liable for the amount due, and the fact that the department has complied with all the provisions of this division in the computation of the amount due, and a request that judgment be entered against the individual, company, or corporation in the amount of the fee, tax, penalty, and collection cost set forth in the certificate if the fee, tax, penalty, or collection cost constitutes either of the following:
   (1) A lien under this division on the vehicle on which it is due is not paid when due, and there is evidence that the vehicle has been operated in violation of this code or any regulations adopted pursuant to this code.
   (2) A lessee liability as provided in Section 10879 of the Revenue and Taxation Code.
(b) Prior to the filing of the certificate, the department shall, by mail, notify the individual, company, or corporation of the amount which is due and of the opportunity for a hearing as provided in this subdivision. At the request of the individual, company, or corporation, the department shall conduct a hearing pursuant to Section 9801, at which it shall be determined whether the claimed fee, tax, penalty, or collection cost in the amount claimed by the department is due and constitutes a lien on the vehicle, and whether the individual, company, or corporation is liable therefor.
(c) If no hearing is requested within 15 days after mailing the notice required by subdivision (b), the certificate required by subdivision (b) may be filed.

Payment: Courts Entry of Registration Judgment

9806. The clerk of the court, immediately upon the filing of the certificate specified in Section 9805, shall enter a judgment for the people of the State of California against the individual, company, or corporation in the amount of any fee, tax, penalty, and collection cost set forth in the certificate. The clerk may file the judgment in a looseleaf book entitled “Department of Motor Vehicles Registration Judgments.”

Execution Upon the Judgment

9808. Execution shall issue upon the judgment specified in Section 9806 upon request of the department in the same manner as execution may issue upon other judgments, and sales shall be held under the execution as prescribed in the Code of Civil Procedure, except that attachment may not issue against any real property.

The authority to inspect pursuant to this section does not extend to any enclosed living area aboard a vessel.

CHAPTER 2. REGISTRATION

Numbering of Undocumented Vessels
§9850. Every undocumented vessel using the waters or on the waters of this state shall be currently numbered. No person shall operate nor shall any county, city, or political subdivision give permission for the operation of any undocumented vessel on those waters unless the undocumented vessel is numbered in accordance with this chapter, or in accordance with applicable federal law, or in accordance with a federally approved numbering system of another state, and unless (1) the certificate of number issued to such undocumented vessel is in full force and effect, and (2) the identifying number set forth in the certificate of number is displayed on each side of the bow of the undocumented vessel for which the identifying number was issued.

Registration of Public Undocumented Vessels
§9851. The department may adopt rules and regulations for the registration of undocumented vessels belonging to the state, local public agencies, or to the United States without payment of fees specified in this code, except fees for duplicate certificates of ownership, duplicate certificates of number, or substitute current year registration stickers. Any vessel owned by the Department of Boating and Waterways is exempt from any fees specified in this division.

Proof of Ownership
§9852. The department shall promulgate rules and regulations setting forth requirements relative to establishing proof of ownership to be submitted by the owner at the time of filing initial application for a certificate of number and a certificate of ownership. The issuance of a certificate of ownership or certificate of number under this Chapter shall not in any way be construed that the department is warranting or guaranteeing the title of the vessel as it appears on such certificates.

Coownership
§9852.5. Ownership of an undocumented vessel subject to registration may be held by two or more coowners as follows:
(a) A vessel may be registered in the names of two or more persons as coowners in the alternative by the use of the word “or.” A vessel so registered in the alternative shall be deemed to be held in joint tenancy. Each coowner shall be deemed to
have granted to the other coowners the absolute right to dispose of the title and interest in the vessel. Upon the death of a coowner the interest of the decedent shall pass to the survivor as though title or interest in the vessel was held in joint tenancy unless a contrary intention is set forth in writing upon the application for registration.

(b) A vessel may be registered in the names of two or more persons as coowners in the alternative by the use of the word "or" and if declared in writing upon the application for registration by the applicants to be community property, or tenancy in common, shall grant to each coowner the absolute power to transfer the title or interest of the other coowners only during the lifetime of such coowners.

(c) A vessel may be registered in the names of two or more persons as coowners in the conjunctive by the use of the word "and" and shall thereafter require the signature of each coowner or his personal representative to transfer title to the vessel, except where title to the vessel is set forth in joint tenancy, the signature of each coowner or his or her personal representative shall be required only during the lifetime of the coowners, and upon death of a coowner title shall pass to the surviving coowner.

(d) The department may adopt suitable abbreviations to appear upon the certificate of ownership and certificate of number to designate the manner in which title to the vessel is held if set forth by the coowners upon the application for registration.

Transfer of Vessels on Death

9852.7. (a) Ownership of an undocumented vessel subject to registration may be held in beneficiary form that includes a direction to transfer ownership of the vessel to a designated beneficiary on death of the owner if both of the following requirements are satisfied:

(1) Only one owner is designated.

(2) Only one TOD beneficiary is designated.

(b) Ownership registration and title issued in beneficiary form shall include, after the name of the owner, the words “transfer on death to” or the abbreviation “TOD” followed by the name of the beneficiary.

(c) During the lifetime of the owner, the signature or consent of the beneficiary is not required for any transaction relating to the vessel for which a certificate of ownership in beneficiary form has been issued.

(d) The fee for registering ownership of a vessel in a beneficiary form is ten dollars ($10).

Application for Number: Form Requirements

9852.9. (a) On and after July 1, 2008, the form for an initial application for a number prepared by the department pursuant to Section 9853 shall include both of the following:

(1) Checkoff boxes or line alternatives for the retail seller of an undocumented vessel to certify that a sterndrive or inboard vessel that contains a spark-ignition marine engine below 373 kW (500 hp) rated power output that was manufactured on or after January 1, 2008, and a sterndrive or inboard vessel that contains a spark-ignition marine engine with any rated power output that was manufactured on or after January 1, 2009, has a permanently affixed label indicating that the engine meets or exceeds the 2008 California emissions standards required by Section 2442 of Title 13 of the California Code of Regulations.

(2) A line requiring that an initial application for a vessel described in paragraph (1) be accompanied by the hang tag required by Section 2443.3 of Title 13 of the California Code of Regulations for the engine described in paragraph (1).

(b) As used in this section, “spark-ignition marine engine” has the same meaning as that term is defined in Section 9853.7.

Application for Number: Fees

9853. (a) The owner of each vessel requiring numbering by this state shall file an initial application for a number with the department or with an agent authorized by the department on forms approved by the department. The forms shall be prepared in cooperation with the Department of Boating and Waterways. The application shall contain the true name and address of the owner of the vessel, except that an owner of a vessel registered outside this state who is submitting an application for registration in this state shall pay a fee of thirty-seven dollars ($37), in addition to the fees required under subdivision (b).

(b) (1) Whenever the fee for original registration of a vessel becomes due between January 1 and December 31 of any even-numbered year, the application shall be accompanied by a fee of ten dollars ($10), in addition to any other fees that are then due and payable.

(2) Whenever the fee for original registration of a vessel becomes due, or is filed with the department, between January 1 and December 31 of any odd-numbered year, the application shall be accompanied by a fee of twenty dollars ($20) in addition to any other fees that are then due and payable.

(c) The department shall additionally collect a quagga and zebra mussel infestation prevention fee in an amount established by the Department of Boating and Waterways pursuant to Section 675 of the Harbors and Navigation Code.

(d) The department shall provide documentation of its administrative costs pursuant to this section to the Department of Boating and Waterways.

Issuance of Certificate of Ownership and Certificate of Number

9853.1. Upon receipt of the application in approved form, the department shall issue a certificate of ownership to the legal owner and a certificate of number to the owner, or both to the owner if there is no legal owner, stating the number issued to the vessel and the name and address of the owner.

Display of Number

9853.2. The owner shall paint on or attach to each side of the forward half of the vessel the identification number in such manner as may be prescribed by rules and regulations of the department in order that it may be clearly visible. Any such rules and regulations shall be developed in cooperation
with the Department of Boating and Waterways. The number shall be maintained in a legible condition. The certificate of number shall be pocket size and shall be available at all times for inspection on the vessel for which issued, whenever the vessel is in use, except as to those vessels subject to Section 9853.3.

Retention of Certificate of Number for Leased or Rented Vessels

9853.3. The certificate of number for vessels less than 26 feet in length and leased or rented to another for the latter’s noncommercial use of less than 24 hours may be retained on shore by the vessel’s owner or his representative at the place from which the vessel departs or returns to the possession of the owner or his representative. A copy of the lease or rental agreement signed by the owner or his authorized representative and by the person leasing or renting the vessel shall be carried aboard the vessel at all times during use.

Stickers, Tabs or Other Devices

9853.4. (a) The department may issue one or more stickers, tabs, or other suitable devices to identify vessels as being currently registered. The size, shape, and color of the sticker, tab, or other device and the positioning of the sticker, tab, or other device on the vessel shall be as determined by the department after consultation with the Department of Boating and Waterways, such consultation to consider the responsibilities and duties of the Department of Boating and Waterways as prescribed in the Harbors and Navigation Code.
(b) Whenever the department issues a sticker, tab, or other device pursuant to subdivision (a), the sticker, tab, or device shall only be displayed on the vessel for which it was issued.

Vessels of Historic Value

9853.5. Upon request, the department shall issue for any power-driven pleasure craft which is constructed of wood and which was constructed prior to December 31, 1942, a special plaque which identifies the craft as a vessel of historical interest. The provisions of this section shall apply to documented as well as undocumented vessels. The size, shape, and content of such plaque and its positioning on the vessel shall be determined by the department after consultation with the Department of Boating and Waterways; provided, that such plaque shall be of a durable material and shall be no smaller than six inches in height and six inches in width. A reasonable fee, as determined by the department, sufficient to support the administration of such program, shall be charged for issuance of the plaque. The plaque shall be valid for the life of the vessel.

Vessel Registration Fee: Increase

9853.6. (a) (1) Beginning July 1, 2008, the fee described in paragraph (2) of subdivision (b) of Section 9853 shall be increased by twenty dollars ($20).
(b) (2) Ten dollars ($10) of the increase shall be deposited into the Alternative and Renewable Fuel and Vehicle Technology Fund created by Section 44273 of the Health and Safety Code and ten dollars ($10) shall be deposited into the Air Quality Improvement Fund created by Section 44274.5 of the Health and Safety Code.
(c) This section shall remain in effect only until January 1, 2024, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2024, deletes or extends that date.
Added Sec. 8, Ch. 750, Stats. 2007. Effective January 1, 2008.

NOTE: The preceding section shall remain in effect only until January 1, 2024, and as of that date is repealed.

Application for Number: Retail Sale Requirements

9853.7. (a) (1) When the retail seller of an undocumented sterndrive or inboard vessel, that contains a spark-ignition marine engine below 373 kW (500 hp) rated power output that was manufactured on or after January 1, 2008, or contains a spark-ignition marine engine with any rated power output that was manufactured on or after January 1, 2009, files for the purchaser of the vessel the initial application for a number for the vessel, the retail seller shall do both of the following:
(A) Certify on that application, by marking in indelible ink the affirmative checkoff boxes or line alternatives described in subdivision (a) of Section 9852.9, that the spark-ignition marine engine has a permanently affixed label indicating that the engine meets or exceeds the 2008 California emissions standards required by Section 2442 of Title 13 of the California Code of Regulations. The retail seller shall make that certification only after examining the permanently affixed label for the engine and only if the label indicates compliance with Section 2442 of Title 13 of the California Code of Regulations.
(B) Submit with the application, the hang tag required by Section 2443.3 of Title 13 of the California Code of Regulations for the engine, after including on the reserved white space of the hang tag, the engine family name, from the permanently affixed engine label, and the serial number of the engine.
(2) If the retail seller does not file for the purchaser of a vessel described in paragraph (1) the initial application for a number for the vessel, the applicant, upon filing an initial application for a number, shall submit the hang tag required by Section 2443.3 of Title 13 of the California Code of Regulations for the engine. The hang tag shall contain the engine family name, from the permanently affixed engine label, and the serial number of the engine, as inserted by the retail seller of the vessel.
(b) Subdivision (a) does not apply to a vessel originally purchased in another state by a resident of that state who subsequently establishes residence in this state and who provides satisfactory evidence to the department, or the department’s agent authorized pursuant to Section 9858, of the previous residence.
(c) The department, and the department’s agent authorized pursuant to Section 9858, shall not number a vessel subject to subdivision (a), unless the retail seller certifies on the initial
application for a number filed for the purchaser of the vessel that the spark-ignition marine engine has the label described in paragraph (1) of subdivision (a) permanently affixed to the engine, or the applicant submits an application that is accompanied by the hang tag required by subdivision (a).

(d) For the purposes of this section, “spark-ignition marine engine” has the same meaning as that term is defined in paragraph (48) of subdivision (a) of Section 2441 of Title 13 of the California Code of Regulations.

Penalty: Failure to Comply with Numbering and Emission Requirements

9853.8. (a) This section applies only to a sterndrive or inboard vessel that contains a spark-ignition marine engine below 373 kW (500 hp) rated power output that was manufactured on or after January 1, 2009, or contains a spark-ignition marine engine with any rated power output that was manufactured on or after January 1, 2009.

(b) It is an infraction, punishable by a fine of two hundred fifty dollars ($250), for a person to operate an undocumented vessel, requiring numbering by the state, that is not currently numbered by the state, and that does not comply with the emissions standards required by Section 2442 of Title 13 of the California Code of Regulations.

(c) As used in this section, “spark-ignition marine engine” has the same meaning as that term is defined in Section 9853.7.

Federal or Out-of-State Registration

9854. The owner of any vessel already covered by a number in full force and effect which has been issued to it pursuant to then operative federal law or a federally approved numbering system of another state shall make application within 30 days after the 90-day reciprocity period provided for in Section 9873. Such application shall be in a manner and pursuant to the procedure required for the issuance of a number under Section 9853.

Change of Ownership: Fees

9855. If the ownership of an undocumented vessel changes, the existing certificate of ownership and a new application form accompanied by a fee of fifteen dollars ($15) shall be filed with the department and a new certificate of ownership and a new certificate of number shall be issued in the same manner as provided for in the initial issuance of number and the number shall be reassigned to the new owner.

Transfer to Dealer

9856. (a) It is not required that the department issue, or that an application be made for a new certificate of ownership or a new certificate of number, or that the fee prescribed in Section 9855 be paid on transfer of an undocumented vessel to a dealer in the course of his business as is otherwise provided in this division, if both of the following conditions are satisfied:

1. The vessel is held and operated by the dealer only for the purpose of resale in the course of his business.
2. The dealer has been issued a sales permit by the Board of Equalization covering sale of such property.

(b) The certificate of ownership bearing the endorsement of the transferor to the dealer of a vessel registered pursuant to this section and the certificate of number thereof shall be retained by the dealer until a transfer of the vessel by him. During that time the certificates shall be subject to inspection by the department or other authorized agency. Upon transfer of the vessel by the dealer the certificate of ownership shall be endorsed by the dealer and transfer further accomplished as otherwise provided in this division.

Conformity With Federal System

9857. If an agency of the United States government shall have in force an overall system of identification numbering for undocumented vessels within the United States, the numbering system employed pursuant to this Chapter shall be in conformity therewith.

Issuance of Certificates: Department or Agent

9858. The department may issue any certificate of ownership and certificate of number or temporary certificate of number directly or the department may authorize any person to act as agent for the issuance of a certificate of number or temporary certificate of number. If a person accepts such authorization, he may be assigned a block of numbers which upon issuance, in conformity with this Chapter and with any rules and regulations of the department, shall be valid as if issued directly by the department. Registration of vessels pursuant to the provisions of this code shall be conducted by the department or by any agent authorized by the department to conduct such registration.

Funds Received by Agent

9859. All money received by an agent from the sale of certificates of number or temporary certificates of number and use tax shall be kept separate and apart from any other funds of the agent, and shall at all times belong to the state.

In case of an assignment for the benefit of creditors, receivership, or bankruptcy, the state shall have a preferred claim against the assignee, receiver, or trustee for all moneys owing the state for the sale of certificates as provided in this code and any use tax, and shall not be estopped from asserting such claim by reason of the commingling of funds or otherwise.
Renewal of Certificates of Number: Fee for Renewal

§9860. (a) Certificates of number shall be renewed before midnight of the expiration date by presentation of the certificate of number last issued for the vessel or by presentation of a potential registration card issued by the department.

(b) The fee for renewal shall be twenty dollars ($20) for each two-year period, and shall accompany the request for renewal.

(c) If the certificate of number and potential registration card are unavailable, the fee specified in Section 9867 shall not be paid.

(d) The department shall additionally collect a quagga and zebra mussel infestation prevention fee in an amount established by the Department of Boating and Waterways pursuant to Section 675 of the Harbors and Navigation Code.

Harbors and Watercraft Fund

§9863. (a) Except as required under subdivisions (b) and (c), and except moneys collected under Section 9875, fees received pursuant to this chapter shall be deposited in the Harbors and Watercraft Revolving Fund and, notwithstanding Section 13340 of the Government Code, are continuously appropriated, without regard to fiscal years, for the administration of this chapter by the department. Funds in the Harbors and Watercraft Revolving Fund derived pursuant to this chapter in excess of the amount determined by the Director of Finance, from time to time, to be necessary for expenditure for the administration of this chapter, notwithstanding Section 13340 of the Government Code, are continuously appropriated to the Department of Boating and Waterways, without regard to fiscal years, for expenditure in accordance with Section 663.7 of the Harbors and Navigation Code.

Wrecked, Dismantled, Destroyed, or Abandoned Undocumented Vessels

§9864. The owner shall furnish the department notice of the wrecking or dismantling, or the destruction or abandonment of an undocumented vessel within 15 days thereof. The wrecking, dismantling, destruction or abandonment shall terminate the certificate of ownership and certificate of number of such undocumented vessel which if in existence shall be surrendered to the department.

The department, upon receiving notice of the abandonment of an undocumented vessel, or upon an official determination that an undocumented vessel has been abandoned, may order the destruction of such vessel at the expiration of 30 days if an investigation by the department has disclosed that no owner, legal owner, or lienholder claims an interest in the vessel, or if those persons have waived their interest. Nothing in this section shall be construed to deny the legal rights, otherwise provided for by law, of any person claiming an interest in an abandoned vessel if that person notifies the department within the time specified therefor.

Change of Address

§9865. Any holder of a certificate of number shall notify the department within 15 days, if his address no longer conforms to the address appearing on the certificate and shall, as part of such notification, furnish the department with his new address. The department may provide for the surrender of the certificate bearing the former address and its replacement with a certificate bearing the new address or for the alteration of an outstanding certificate to show the new address of the holder.

Display of Other Numbers on Bow

Fee: Unavailable Vessel Certificate of Ownership or Certificate of Number

9867.5. Upon application for transfer of registration pursuant to Section 9917, a fee as specified in Section 9867 shall be paid to the department in addition to the regular transfer fee.

Refunds

9868. Fees received pursuant to this Chapter are appropriated for payment of refunds of money received or collected in the payment of fees, permits, or services whenever the fee, permit or service cannot lawfully be issued or rendered to the applicant, and in cases where the payment in whole or in part represents overpayment or payment in duplicate.

Information to Be Transmitted County Assessor

9869. The department shall transmit information from each initial application and each transfer application or renewal application to the county assessor in the county of residence of the owner of the vessel and to the county assessor in the county in which the vessel is principally kept if other than the county of residence of the owner, if such other county is known to the department. If an application shows that the owner of the vessel has changed his residence from one county to another county or shows that there has been a change in the county in which the vessel is principally kept, the department shall transmit information of the change to the assessor of the county in which the owner of the vessel formerly resided or to the assessor of the county in which the vessel formerly was principally kept. After the department receives a notice pursuant to Section 9864, the department shall transmit information of the destruction or abandonment to the assessor of the county in which the owner of the vessel resides and to the assessor of the county in which the vessel is or was principally kept, if other than the county of residence of the owner, if such other county was known to the department.

Nonprofit Public Benefit Corporation Exemption

9870. A nonprofit public benefit corporation governed by the Nonprofit Public Benefit Corporation Law (Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code), which purposes relate to promoting the ability of boys and girls to do things for themselves, to train them in scouting and camping, and to teach them patriotism, courage, self-reliance and kindred virtues, shall not be required to pay the fees provided for in Sections 9853, 9855, and 9860.

Assignment and Marking of Hull Identification Number

9871. Upon application for original registration or transfer of registration of an undocumented vessel, the department may assign an appropriate hull identification number to such vessel whenever there is no hull identification number thereon, or when a hull identification number thereon has been destroyed or obliterated; and such hull identification number shall be permanently marked in an integral part of the hull which is accessible for inspection.

Registration Renewal: Hull Identification Number

9871.5. Upon application for renewal of registration of an undocumented vessel, the applicant is required to furnish the hull identification number if the records of the department do not contain such number. If the vessel does not have a hull number, the department may assign an appropriate hull identification number.

Defacing, Destroying or Altering Hull Identification Number

9872. No person shall intentionally deface, destroy, or alter the hull identification number of a vessel required to be numbered under this Chapter without written authorization from the department; nor shall any person place or stamp any serial or other number or mark upon an undocumented vessel which might interfere with identification of the hull identification number. This does not prohibit the restoration by an owner of an original number or mark when the restoration is authorized by the department, nor prevent any manufacturer from placing, in the ordinary course of business, numbers or marks upon new vessels or new parts thereof.

Hull Identification Number: Violations

9872.1. (a) No person shall knowingly buy, sell, offer for sale, receive, or have in his or her possession any vessel, or component part thereof, from which the hull identification number has been removed, defaced, altered, or destroyed, unless the vessel or component part has attached thereto a hull identification number assigned or approved by the department in lieu of the manufacturer's number.
(b) Whenever a vessel, or component part thereof, from which the hull identification number has been removed, defaced, altered, or destroyed, and which does not have attached thereto an assigned or approved number as described in subdivision (a), comes into the custody of a peace officer, the seized vessel or component part is subject, in accordance with the procedures specified in this section, to impoundment and to such disposition as may be provided by order of a court having jurisdiction. This subdivision does not apply with respect to a seized vessel or component part used as evidence in any criminal action or proceeding.
(c) Whenever a vessel or component part described in subdivision (a) comes into the custody of a peace officer, any person from whom the property was seized, and all claimants to the property whose interest or title is on registration records in the department, shall be notified within five days, excluding Saturdays, Sundays, and holidays, after the seizure, of the date, time, and place of the hearing required in subdivision (e). The notice shall contain the information specified in subdivision (d).
(d) Whenever a peace officer seizes a vessel or component part as provided in subdivision (b), any person from whom the property was seized shall be provided a notice of impoundment of the vessel or component part which shall serve as a receipt and contain the following information:
   (1) Name and address of person from whom the property was seized.
   (2) A statement that the vessel or component part seized has been impounded for investigation of a violation of this section and that the property will be released upon a...
determination that the hull identification number has not been removed, defaced, altered, or destroyed, or upon the presentation of satisfactory evidence of ownership of the vessel or component part, provided that no other person claims an interest in the property; otherwise, a hearing regarding the disposition of the vessel or component part shall take place in the proper court.

(3) A statement that any person from whom the property was seized, and all claimants to the property whose interest or title is on registration records in the department, will receive written notification of the date, time, and place of the hearing within five days, excluding Saturdays, Sundays, and holidays, after the seizure.

(4) Name and address of the law enforcement agency where evidence of ownership of the vessel or component part may be presented.

(5) A statement of the contents of this section.

(e) A hearing on the disposition of the property shall be held by the superior court within 60 days after the seizure. The hearing shall be before the court without a jury. A proceeding under this section is a limited civil case.

(1) If the evidence reveals either that the hull identification number has not been removed, altered, or destroyed or that the hull identification number has been removed, altered, or destroyed but satisfactory evidence of ownership has been presented to the seizing agency or court, the property shall be released to the person entitled thereto.

(2) If the evidence reveals that the hull identification number has been removed, altered, or destroyed, and satisfactory evidence of ownership has not been presented, the property shall be destroyed, sold, or otherwise disposed of as provided by court order.

(3) At the hearing, the seizing agency shall have the burden of establishing that the hull identification number has been removed, defaced, altered, or destroyed and that no satisfactory evidence of ownership has been presented.

(f) Nothing in this section precludes the return of a seized vessel or component part to the owner by the seizing agency following presentation of satisfactory evidence of ownership and, if determined necessary, upon the assignment of an identification number to the vessel or component part by the department.

Amphibious Vehicle

9872.5. No certificate of ownership shall be issued under this Chapter for any “amphibious vehicle” for which a certificate of ownership may be issued by the department under other provisions of this code.

For the purposes of this section, an “amphibious vehicle” is a device by which any person or property may be propelled, moved, or drawn, both upon water and upon a highway on land.

Undocumented Vessels Not Required to Be Numbered

9873. An undocumented vessel shall not be required to be numbered under this Chapter if it is:

(a) Already covered by a number in full force and effect which has been issued to it pursuant to federal law or a federally approved numbering system of another state; provided, that such undocumented vessel shall be subject to the numbering requirements of this Chapter if it has changed its state of principal use and has been within this state for a period in excess of 90 consecutive days.

(b) A vessel from a country other than the United States temporarily using the waters of this state.

(c) A public vessel of the United States, another state or subdivision thereof or municipality of such other state.

(d) A ship’s lifeboat.

(e) Any vessel belonging to a class of boats which has been exempted from numbering by the department after the department has found that the numbering of vessels of such class will not materially aid in their identification; and, if any agency of the federal government has a numbering system applicable to the class of vessels to which the vessel in question belongs, after the department has further found that the vessel would also be exempt from numbering if it were subject to the federal law. An undocumented vessel propelled solely by oars or paddles and an undocumented vessel eight feet or less propelled solely by sail are exempt from the provisions of this chapter.

Suspension, Cancellation, Revocation

9874. The department may suspend, cancel, or revoke the registration of a vessel, a certificate of number, sticker, certificate of ownership, or temporary certificate of number in any of the following cases:

(a) When the department is satisfied that the registration or the certificate of number, sticker, certificate of ownership, or temporary certificate of number was fraudulently obtained or erroneously issued.

(b) When the department determines that the required fee has not been paid and the same is not paid upon reasonable notice and demand.

Penalties

9875. Except as provided in Section 40000.8, any person who violates any provision of this Chapter or any rule or regulation of the department adopted pursuant to this Chapter is guilty of an infraction, punishable under Section 42001.

Notice of Delinquent Taxes

9880. (a) The department shall not renew the certificate of number of, or allow a transfer of any title to or interest in, a vessel if the county tax collector has notified the department pursuant to Section 3205 of the Revenue and Taxation Code, that taxes are delinquent upon the vessel, and the department shall not subsequently issue a certificate of number for, or a new certificate of ownership reflecting a transfer of title or interest in, that vessel until the department receives a certificate of clearance from the county tax collector that the delinquent taxes have been paid on that vessel or until the county tax collector has provided notice to the department that the delinquency has been satisfied.

(b) The department shall record the notice of delinquent taxes on the vessel. If the department is notified by the county tax collector that the delinquency has been satisfied, the department shall, if all other requirements are satisfied, issue a certificate of number for, or a new certificate of ownership
reflecting a transfer of title to or interest in, the vessel. The department shall assess a fee upon each county tax collector in an amount that is sufficient to reimburse the department for its actual costs of administering this section.

(c) Whenever a vessel subject to this section is transferred, or not renewed for two renewal periods, the department shall notify the county tax collector of that fact.

CHAPTER 3. TRANSFER OF TITLE OR INTEREST IN UNDOCUMENTED VESSEL

Requirements for Transfer

§9900. No transfer of the title or any interest in or to an undocumented vessel numbered under this code shall pass, and any attempted transfer shall not be effective, until the parties thereto have paid any delinquent property taxes with respect to that vessel and fulfilled either of the following requirements:

(a) The transferor has made proper endorsement and delivery of the certificate of ownership to the transferee as provided in this code and the transferee has delivered to the department or has placed the certificates in the United States mail addressed to the department when and as required under this code with the proper transfer fee and thereby makes application for a new certificate of ownership and a new certificate of number.

(b) The transferor has delivered to the department or has placed in the United States mail addressed to the department the appropriate documents for the transfer of ownership of the vessel pursuant to the sale or transfer except as otherwise provided.

Application by Transferee for Certificates of Ownership and Numbering: Fee

§9901. Whenever any person has received as transferee a properly endorsed certificate of ownership, he or she shall, within 10 days thereafter, forward the certificates with the transfer fee specified in Section 9855 to the department, and thereby make application for a new certificate of ownership and certificate of number.

Amended Sec. 7, Ch. 766, Stats. 1995. Effective January 1, 1996.

Issuance of New Certificates of Ownership and Number

§9902. The department, upon receipt of a properly endorsed certificate of ownership and a new application form and the required fee, shall issue a new certificate of ownership and a new certificate of number in the same manner as provided for in the initial issuance of number and the number may be reissued to the new owner, provided, however, in the case of a transfer of a part interest which does not affect the owner's right to operate such undocumented vessel the transfer shall not terminate the certificate of number.

Statement by Transferee or Transferor: Information to Be Transmitted to State Board of Equalization

§9903. (a) Prior to the issuance of any certificate of ownership the department shall obtain a statement in writing, signed by the transferee or transferor, showing:

(1) The date of the sale or other transfer of ownership of the vessel.

(2) The name and address of the seller or transferor.

(3) The name and address of the buyer or transferee.

(4) The total consideration (valued in money) given for the sale or other transfer of the vessel, including any motor or other component part of the vessel included in the sale or other transfer.

(b) Upon the transfer of ownership of a vessel the department shall forward to the State Board of Equalization information from its records identifying the vessel together with the data required by subdivision (a). The information shall be transmitted as promptly as feasible and in such form and manner as shall be agreed between the department and the board.

Requirements for Releasing Liability

§9905. An owner who has made a bona fide sale or transfer of an undocumented vessel and has delivered possession of the vessel to a purchaser shall not by reason of any of the provisions of this code or the Harbors and Navigation Code be deemed the owner of the vessel so as to be subject to civil liability for the operation of the vessel thereafter by another when the owner, in addition to the foregoing, has fulfilled either of the following requirements:

(a) Made proper endorsement and delivery of the certificate of ownership as provided in this code.

(b) Delivered to the department or placed in the United States mail, addressed to the department, either the notice as provided in Sections 9911 and 9912 or appropriate documents for transfer of the vessel pursuant to the sale or transfer.

Transfer by Legal Owner

§9906. A legal owner may assign his title or interest in or to an undocumented vessel numbered under this code to a person other than the owner without the consent of and without affecting the interest of the owner.

Endorsement of Certificate of Ownership Upon Transfer by Legal Owner

§9907. Upon transfer of the title or any interest of the legal owner or legal owners in an undocumented vessel numbered under this code, the transferor shall write his signature, and the transferee shall write his signature and address, in the appropriate spaces provided upon the reverse side of the certificate of ownership issued for the vessel.

Transfer by Registered Owner

§9908. Upon transfer of the title or interest or any part thereof of the registered owner only in an undocumented vessel numbered under this code, the registered owner shall write his signature and address and the transferee shall write his signature and address in the appropriate spaces provided on the reverse side of the certificate of ownership for the vessel, and the legal owner shall write his signature in the space provided for the new legal owner indicating that he is to retain his legal title and interest.

Endorsement When Certificate of Ownership Unavailable

§9909. When the required certificate of ownership is lost, stolen, damaged, or mutilated, application for transfer may be made upon a form provided by the department for a duplicate certificate of ownership. The transferor shall write his signature and address in the appropriate spaces provided upon the application and file the same together with the proper fees for a duplicate certificate of ownership and transfer.

Delivery of Certificates

§9910. It is unlawful for any person to fail or neglect to deliver the certificate of number and, when having possession, to properly endorse, date, and deliver the certificate of ownership to a transferee who is lawfully entitled to a transfer of ownership.

Notice by Owner of Sale or Transfer

§9911. Whenever the owner of an undocumented vessel numbered under this code sells or transfers his or her title or interest in, or any part thereof, and delivers the possession of, the vessel to another, the owner shall, within five calendar days, notify the department of the sale or transfer by giving the date thereof, the name and address of the owner and of the transferee and a description of the vessel as may be required in the appropriate form provided for the purpose by the department.

Notice by Dealers

§9912. Every dealer upon transferring by sale, lease or otherwise any undocumented vessel, whether new or used, required to be numbered under this code, shall, not later than the end of the next business day of the dealer, give written notice of the transfer to the department upon an appropriate form provided by it, but a dealer need not give the notice when selling or transferring a new unnumbered vessel to another dealer.

New Security Interest Executed by Parties to Prior Security Agreement

§9913. When a security interest upon a numbered vessel is satisfied, cancelled, or released by the parties thereto who are the registered owner and legal owner respectively of said vessel and thereafter within a period of 10 days a new security interest covering the vessel is executed between the same parties, no application for transfer of ownership by reason thereof shall be made, no new certificate of ownership or certificate of number shall be issued, and all provisions of this code relating to transfers of any title or interest in a vessel shall be deemed to have been fully complied with.

Pledge of Security Agreement by Legal Owner

§9914. The transferee of a security interest in the interest of a legal owner of a numbered vessel need not make application for a transfer of ownership when the security interest arises from a pledge of security agreement by the legal owner to the pledgee.

Involuntary Transfers

§9915. (a) Whenever the title or interest of any owner or legal owner in or to a vessel numbered under this code passes to another otherwise than by a voluntary transfer, the new owner or legal owner may obtain a transfer of ownership upon application therefor and upon presentation of the last certificate of ownership and certificate of number issued for the vessel, if available, and any instruments or documents of authority or certified copies thereof as may be required by the department, or required by law, to evidence or effect a transfer of title or interest in, or to chattels in such case.

(b) The department when satisfied of the genuineness and regularity of the transfer shall give notice by mail to the owner and legal owner of the vessel as shown by the records of the department, and five days after the giving of the notice, if still satisfied of the genuineness and regularity of such transfer, shall transfer the ownership of the vessel accordingly and issue a new certificate of ownership and certificate of number to the person or persons entitled thereto. Such notice shall not be required for an involuntary transfer when repossession involves a secured party.

Transfer Without Probate

§9916. (a) If 40 days have elapsed since the death of an owner or legal owner of any vessel numbered under this division without the decedent leaving other property necessitating probate, and irrespective of the value of the vessel, the following person may secure a transfer of ownership of the title or interest of the decedent:

(1) The sole person or all of the persons who succeeded to the property of the decedent under Sections 6401 and 6402 of the Probate Code unless the vessel is, by will, otherwise bequeathed.

(2) The sole beneficiary or all of the beneficiaries who succeeded to the vessel under the will of the decedent where the vessel is, by will, bequeathed.

(b) The person authorized by subdivision (a) may secure a transfer of ownership of the title or interest of the decedent upon presenting to the department all of the following:

(1) The appropriate certificate of ownership and certificate of number, if available.

(2) A certificate of the heir or beneficiary under penalty of perjury containing the following statements:

(A) The date and place of the decedent’s death.

(B) The decedent left no other property necessitating probate and no probate proceeding is now being or has been conducted in this state for the decedent’s estate.

(C) The declarant is entitled to the vessel either (i) as the sole person or all of the persons who succeeded to the property of the decedent under Sections 6401 and 6402 of the Probate Code if the decedent left no will or (ii) as the beneficiary or beneficiaries under the decedent’s last will if the decedent left a will, and no one has a right to the decedent’s vessel that is superior to that of the declarant.

(D) There are no unsecured creditors of the decedent or, if there are, the unsecured creditors of the decedent have been paid in full or their claims have been otherwise discharged.

(3) If required by the department, a certificate of the death of the decedent.
(4) If required by the department, the names and addresses of any other heirs or beneficiaries.

(c) If the department is presented with the documents specified in paragraphs (1) and (2) of subdivision (b), no liability shall be incurred by the department or any officer or employee of the department by reason of the transfer of registration of the vessel pursuant to this section. The department or officer or employee of the department may rely in good faith on the statements in the certificate specified in paragraph (2) of subdivision (b) and has no duty to inquire into the truth of any statement in the certificate. The person who secures the transfer of the vessel pursuant to this section is subject to the provisions of Section 13109 to 13113, inclusive, of the Probate Code to the same extent as a person to whom transfer of property is made under Chapter 3 (commencing with Section 13100) of Part 1 of Division 8 of the Probate Code.

**Vessels Owned in Beneficiary Form**

9916.5. (a) On death of the owner of a vessel numbered under this division and owned in beneficiary form, the vessel belongs to the surviving beneficiary, if any. If there is no surviving beneficiary, the vessel belongs to the estate of the deceased owner.

(b) A certificate of ownership in beneficiary form may be revoked or the beneficiary changed at any time before the death of the owner by either of the following methods:

1. By sale of the vessel with property assignment and delivery of the certificate of ownership to another person.
2. By application for a new certificate of ownership without designation of a beneficiary or with the designation of a different beneficiary.

(c) Except as provided in subdivision (b), designation of a beneficiary in a certificate of ownership issued in beneficiary form may not be changed or revoked by will, by any other instrument, by a change of circumstances, or otherwise.

(d) The beneficiary’s interest in the vessel at death of the owner is subject to any contract of sale, assignment, or security interest to which the owner was subject during his or her lifetime.

(e) The surviving beneficiary may secure a transfer of ownership for the vessel upon presenting to the department all of the following:

1. The appropriate certificate of ownership.
2. A certificate under penalty of perjury stating the date and place of the owner’s death and that the declarant is entitled to the vessel as the designated beneficiary.
3. If required by the department, a certificate of the death of the owner.

(f) After the death of the owner, the surviving beneficiary may transfer his or her interest in the vessel to another person without securing transfer of ownership into his or her own name by appropriately signing the certificate of ownership for the vessel and delivering the document to the transferee for forwarding to the department with appropriate fees. The transferee may secure a transfer of ownership upon presenting to the department (1) the certificate of title signed by the beneficiary, (2) the certificate described in paragraph (2) of subdivision (e) executed by the beneficiary under penalty of perjury, and (3) if required by the department, a certificate of death of the owner.

(g) A transfer at death pursuant to this section is effective by reason of this section, and shall not be deemed to be a testamentary disposition of property. The right of the designated beneficiary to the vessel shall not be denied, abridged, or affected on the grounds that the right has not been created by a writing executed in accordance with the laws of this state prescribing the requirements to effect a valid testamentary disposition of property.

(h) A transfer at death pursuant to this section is subject to Section 9653 of the Probate Code.

(i) If there is no surviving beneficiary, the person or persons described in Section 9916 may secure transfer of the vessel as provided in that section.

(j) The department may prescribe forms for use pursuant to this section.

**Liability Discharge upon Transfer**

9916.7. (a) If the department makes a transfer pursuant to Section 9916.5, the department is discharged from all liability, whether or not the transfer is consistent with the beneficial ownership of the vessel transferred.

(b) The protection provided by subdivision (a) does not extend to a transfer made after the department has been served with a court order restraining the transfer. No other notice or information shown to have been available to the department shall affect its right to the protection afforded by subdivision (a).

(c) The protection provided by this section has no bearing on the rights of parties in disputes between themselves or their successors concerning the beneficial ownership of the vessel.

(d) The protection provided by this section is in addition to, and not exclusive of, any other protection provided to the department by any other provision of law.

**Transfer When Certificates Unavailable**

9917. Whenever application is made to the department for a transfer of ownership of a vessel to a new owner or legal owner and the applicant is unable to present the certificate of ownership issued for the vessel by reason of the same being lost or otherwise not available, the department may receive the application and examine into the circumstances of the case and may require the filing of affidavits or other information, and when the department is satisfied that the applicant is entitled to a transfer of ownership, the department may transfer the ownership of the vessel, and issue a new certificate of ownership, and certificate of number to the person or persons found to be entitled thereto.

**Transfer Under Regular Application**

9918. If the application for a transfer is made in the manner provided in this code, the department shall not be required to withhold the transfer of any right, title or interest in or to a vessel if the application on its face appears to be genuine and regular and the department has received neither a request from any law enforcement agency that action on the application be deferred nor an order of a court of the United States or of the State of California restraining the transfer within two years prior thereto.

§9919

Recording of Security Interest

9919. No security interest in any vessel numbered under this code, irrespective of whether such number was effected prior or subsequent to the creation of such security interest, is perfected, until the secured party, or his successor or assignee, has deposited with the department a properly endorsed certificate of ownership to the vessel, subject to the security interest, showing the secured party as legal owner if the vessel is then numbered under this code; or if the vessel is not so numbered, the owner shall file an initial application for number as provided for in this code, and the certificate of ownership issued under said application shall contain the name and address of the legal owner.

Perfection of Security Interest

9920. When the secured party, his successor or assignee, has deposited with the department a properly endorsed certificate of ownership showing the secured party as legal owner, or if the vessel is not numbered when the owner shall file an initial application for number as provided for in this code, and the certificate of ownership issued under said application shows said secured party as the legal owner, and said certificate of ownership is deposited with the department, the deposit constitutes perfection of the security interest.

Secured Party as Legal Owner

9921. Upon the deposit with the department of the certificate of ownership showing the secured party as legal owner as provided in Section 9919 hereof, the department shall on its records show the secured party, his successor or assignee, as legal owner with respect to such vessel.

Method Is Exclusive

9922. The method provided in this Chapter for perfecting a security interest in a vessel numbered under this code is exclusive.

Undertaking or Bond

9923. In the absence of the regularly required supporting evidence of ownership upon application for registration or transfer of a vessel, the department may accept an undertaking or bond in the amount of the fair market value of the vessel at the time of the application, as determined by the department, which shall be conditioned to protect the department and all officers and employees thereof and any subsequent purchaser of the vessel, any person acquiring a lien or security interest thereon, or the successor in interest of such purchaser or person, against any loss or damage on account of any defect in or undisclosed claim upon the right, title, and interest of the applicant or other person in and to the vessel.

Return and Surrender of Bond or Undertaking

9924. In the event the vessel is no longer registered in this state and the currently valid certificate of ownership is surrendered to the department or the vessel has been destroyed or lost, the bond or undertaking shall be returned and surrendered after three years.

§9928

Withholding Certificate of Number: Collection of Use Tax

9928. The department shall withhold the certificate of number or the transfer of registration of any vessel sold at retail to any applicant by any person other than a person holding a seller’s permit pursuant to Section 6066 of the Revenue and Taxation Code, and regularly engaged in the business of selling vessels, until the applicant pays to the department the use tax measured by the sales price of the vessel as required by the Sales and Use Tax Law, together with penalty, if any, unless the State Board of Equalization finds that no use tax is due. If the applicant so desires, he may pay the use tax and penalty, if any, to the department so as to secure immediate action upon his application for registration or transfer of registration and thereafter he may apply through the Department of Motor Vehicles to the State Board of Equalization under the provisions of the Sales and Use Tax Law for a refund of the amount so paid.

(b) The department shall transmit to the State Board of Equalization all collections of the use tax and penalty made under this section. This transmittal shall be made at least monthly, accompanied by a schedule in such form as the department and board may prescribe.

(c) The State Board of Equalization shall reimburse the department for its costs incurred in carrying out the provisions of this section.

(d) In computing any use tax or penalty thereon under the provisions of the section, dollar fractions shall be disregarded in the manner specified in Section 9559. Payment of tax and penalty on this basis shall be deemed full compliance with the requirements of the Sales and Use Tax Law insofar as they are applicable to the use of vessels to which this section relates.

(e) The department and the State Board of Equalization shall enter into an agreement for the collection of the use tax pursuant to this section and Section 6294 of the Revenue and Taxation Code. The agreement shall specify the procedures agreed upon by the department and the board for collection of the tax and the reimbursement provided for in subdivision (c). The agreement shall be approved by the Department of Finance.

(a) No person shall knowingly buy, sell, offer for sale, receive, or have in his or her possession, any vehicle, or component part thereof, from which any serial or identification number, including, but not limited to, any number used for registration purposes, that is affixed by the manufacturer to the vehicle or component part, in whatever manner deemed proper by the manufacturer, has been removed, defaced, altered, or destroyed, unless the vehicle or component part has attached thereto an identification number assigned or approved by the department in lieu of the manufacturer's number.

(b) Whenever a vehicle described in subdivision (a), including a vehicle assembled with any component part which is in violation of subdivision (a), comes into the custody of a peace officer, it shall be destroyed, sold, or otherwise disposed of under the conditions as provided in an order by the court having jurisdiction. No court order providing for disposition shall be issued unless the person from whom the property was seized, and all claimants to the property whose interest or title is on registration records in the Department of Motor Vehicles, are provided a postseizure hearing by the court having jurisdiction within 90 days after the seizure. This subdivision shall not apply with respect to a seized vehicle or component part used as evidence in any criminal action or proceeding. Nothing in this section shall, however, preclude the return of a seized vehicle or a component part to the owner by the seizing agency following presentation of satisfactory evidence of ownership and, if determined necessary, upon the assignment of an identification number to the vehicle or component part by the department.

(c) Whenever a vehicle described in subdivision (a) comes into the custody of a peace officer, the person from whom the property was seized, and all claimants to the property whose interest or title is on registration records in the Department of Motor Vehicles, shall be notified within five days, excluding Saturdays, Sundays, and holidays, after the seizure, of the date, time, and place of the hearing required in subdivision (b). The notice shall contain the information specified in subdivision (d).

(d) Whenever a peace officer seizes a vehicle described in subdivision (a), the person from whom the property was seized shall be provided a notice of impoundment of the vehicle which shall serve as a receipt and contain the following information:

(1) Name and address of person from whom the property was seized.

(2) A statement that the vehicle seized has been impounded for investigation of a violation of Section 10751 of the California Vehicle Code and that the property will be released upon a determination that the serial or identification number has not been removed, defaced, altered, or destroyed, or upon the presentation of satisfactory evidence of ownership of the vehicle or a component part, if no other person claims an interest in the property; otherwise, a hearing regarding the disposition of the vehicle shall take place in the proper court.

(3) A statement that the person from whom the property was seized, and all claimants to the property whose interest or title is on registration records in the Department of Motor Vehicles, will receive written notification of the date, time, and place of the hearing within five days, excluding Saturdays, Sundays, and holidays, after the seizure.

(4) Name and address of the law enforcement agency where evidence of ownership of the vehicle or component part may be presented.

(5) A statement of the contents of Section 10751 of the Vehicle Code.
(e) A hearing on the disposition of the property shall be held by the superior court within 90 days after the seizure. The hearing shall be before the court without a jury. A proceeding under this section is a limited civil case.

(1) If the evidence reveals either that the serial or identification number has not been removed, defaced, altered, or destroyed or that the number has been removed, defaced, altered, or destroyed but satisfactory evidence of ownership has been presented to the seizing agency or court, the property shall be released to the person entitled thereto. Nothing in this section precludes the return of the vehicle or a component part to a good faith purchaser following presentation of satisfactory evidence of ownership thereof upon the assignment of an identification number to the vehicle or component part by the department.

(2) If the evidence reveals that the identification number has been removed, defaced, altered, or destroyed, and satisfactory evidence of ownership has not been presented, the vehicle shall be destroyed, sold, or otherwise disposed of as provided by court order.

(3) At the hearing, the seizing agency has the burden of establishing that the serial or identification number has been removed, defaced, altered, or destroyed and that no satisfactory evidence of ownership has been presented.

(f) This section does not apply to a scrap metal processor engaged primarily in the acquisition, processing, and shipment of ferrous and nonferrous scrap, and who receives dismantled vehicles from licensed dismantlers, licensed junk collectors, or licensed junk dealers as scrap metal for the purpose of recycling the dismantled vehicles for their metallic content, the end product of which is the production of material for recycling and remelting purposes for steel mills, foundries, smelters, and refiners.

(2) Satisfactory completion of an examination as provided in Section 11102.5 at least once during each succeeding three-year period after the initial issuance of a license certificate.

Professional education, as used in this subdivision, means satisfactory completion of courses related to traffic safety, teaching techniques, or the teaching of driver instruction acceptable to the department or participation in professional seminars approved by the department.

(c) The department may issue a probationary license and certificate subject to conditions to be observed by the licensee in the exercise of the privilege granted. The conditions to be attached to the exercise of the privilege shall not appear on the face of the license or certificate but shall be such as may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein.

(d) Upon notification of death of a driving school licensee the department may issue a certificate of convenience to the executor, executrix, administrator or administratrix of the estate of a deceased holder of a validly outstanding certificate to conduct a driving school, or if no executor, executrix, administrator or administratrix has been appointed, and until a certified copy of an order making such appointment is filed with the department, to the surviving spouse or other heir otherwise entitled to conduct the business of the deceased, permitting such person to conduct the driving school for a period of one year from and after the date of death, and necessary one-year renewals thereafter pending, but not later than, disposal of the business and qualification of the vendee of the business or such surviving spouse or heir for a license certificate to conduct a driving school under the provisions of this division. (2) Satisfactory completion of an examination as provided in Section 11104 or 11104.3, as applicable, at least once during each succeeding three-year period after the initial issuance of an instructor license certificate.

(4) The applicant has done any act or series of acts which would be a cause for suspension or revocation under Section 11110.

(5) If the applicant is a business, a business representative was the holder of a revoked or suspended license previously issued under this Chapter which was never reissued after revocation or which was never reinstated after suspension, or a business representative, though not previously the holder of a license, has done any act or series of acts which would be a cause for revocation or suspension under Section 11110.

(6) By reason of the facts and circumstances relating to the organization, control, and management of the business, it is likely that the policy or operation of the business will be directed, controlled, or managed by a business representative who, by reason of any act, series of acts, or conduct described in paragraph (4) or (5), would be ineligible for a license and

(1) The department finds and determines that the licensee fails to meet the requirements to receive or hold a license under this chapter.
(2) The licensee fails to keep the records required by this chapter.
(3) The licensee (A) permits fraud or engages in fraudulent practices either with reference to an applicant for a driver’s license or an all-terrain vehicle safety certificate from the department, or (B) induces or counsels fraud or fraudulent practices on the part of an applicant.
(4) The licensee fails to comply with this Chapter or regulation or requirement of the department adopted pursuant thereto.

(b) The department may order the revocation or suspension of a license or an all-terrain vehicle safety certificate from the department of any person who]

(5) The licensee represents himself or herself as an agent or employee of the department or uses advertising designed to create the impression, or that would reasonably have the effect of leading persons to believe, that the licensee is in fact an employee or representative of the department; or the licensee makes an advertisement, in any manner or by any means, that is untrue or misleading and that is known, or that by the exercise of reasonable care should be known, to be untrue or misleading.

(6) The licensee, or an employee or agent of the licensee, solicits driver training or instruction or all-terrain vehicle safety instruction in, or within 200 feet of, an office of the department.

(7) The licensee is convicted of violating Section 14606, 20001, 20002, 20003, 20004, 20006, 20008, 23103, 23104, 23105, 23152, or 23153 of this code or subdivision (b) of Section

(8) The licensee teaches, or permits a student to be taught, the specific tests administered by the department through use of the department’s forms or testing facilities.

(9) The licensee conducts training, or permits training by an employee, in an unsafe manner or contrary to safe driving practices.

(10) The licensed school owner or licensed driving school operator teaches, or permits an employee to teach, driving instruction or all-terrain vehicle safety instruction without a valid instructor’s license.

(11) The licensed school owner does not have in effect a bond as required by Section 11102.

(12) The licensee permits the use of the license by any other person for the purpose of permitting that person to engage in the ownership or operation of a school or in the giving of driving instruction or all-terrain vehicle safety instruction for compensation.

(13) The licensee holds a secondary teaching credential and explicitly or implicitly recruits or attempts to recruit a pupil who is enrolled in a junior or senior high school to be a customer for a business licensed pursuant to this Article that is owned by the licensee or for which the licensee is an employee.

(b) In the interest of the public’s safety, as determined by the department, the department may immediately suspend the license of a licensee for an alleged violation under this Chapter and shall conduct a hearing of the alleged violation within 30 days of the suspension.

Revocation or Suspension of License: Additional Causes

11110.1. Any of the causes specified in this Chapter as a cause for refusal to issue a license under this Chapter is cause to suspend or revoke a license under this chapter.

Cancellation of School Owner’s License

11110.2. The license issued to a school owner shall be automatically canceled upon the happening of any of the following:

(a) The abandonment of the established place of business or the change thereof without notice to the department pursuant to Section 11108.5.

(b) The failure to maintain an adequate bond or to procure and file another bond, as required by Section 11102, prior to the effective date of the termination by the surety of any existing bond.

(c) The voluntary or involuntary surrender of the license, except that a surrender or cessation of business by the licensee, or the suspension or revocation of the corporate status of the licensee, does not preclude the department from filing an accusation for revocation or suspension of the surrendered license, as provided in Section 11110, or affect the department’s decision to suspend or revoke the license.

(d) Notification to the department that the person designated as licensee has changed.

(e) Suspension or revocation of the corporate status of the licensee.

Cancellation of License When Issued in Error or Surrendered

11110.5. The department may cancel any license issued under this Chapter when that license has been issued in error or voluntarily surrendered to the department for cancellation. Whenever a driving school operator’s license or an instructor’s license is canceled, it shall be without prejudice and shall be surrendered to the department. Any person whose license has been canceled may immediately apply for a license, and the application may be accepted without additional fee or examination under rules and regulations adopted by the department.

This section shall become operative on July 1, 1988.

Interim Refusal to Issue or Suspension of License

11110.7. (a) The department, after notice and hearing, on an interim basis, may refuse to issue or may suspend a license issued under this Chapter when the applicant or licensee, or a business representative if the applicant or licensee is a business, has been convicted of a crime involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity, if an appeal of the conviction is pending or the conviction has otherwise not become final. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(b) If a conviction, upon which an interim refusal to issue or suspension under subdivision (a) is based, is affirmed on appeal or otherwise becomes final, the refusal to issue or the suspension shall automatically become effective as a denial or revocation, as the case may be, of the license. If the interim refusal to issue or the suspension was stayed under probationary terms and conditions, the subsequent automatic denial or revocation shall also be stayed under the same terms and conditions for a term not to exceed the original term of probation for the interim refusal to issue or suspension.

(c) If a conviction, upon which an interim refusal to issue or suspension under subdivision (a) is based, is reversed on appeal, the department shall set aside immediately that refusal or suspension.

Notice and Hearing Before Cancellation, Suspension or Revocation of License

11111. (a) Every licensee under this Chapter is entitled to notice and hearing prior to cancellation, suspension, or revocation of the license by the department, except that the department shall immediately cancel the license without a hearing for failure of the licensee to meet and maintain the requirements of paragraph (1), (3), or (4) of subdivision (a) of Section 11102, or Section 11103 or 11103.1, or paragraph (4), (5), or (6) of subdivision (a) of Section 11104, or paragraph (4), (5), or (6) of subdivision (a) of Section 11104.3, or Section 11110.2.

(b) The notice and hearings provided for in this Chapter shall be pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) Any action of the department in suspending, canceling, or revoking, or failing to renew a license may be reviewed by any court of competent jurisdiction.
(d) The department may, pending a hearing, temporarily suspend the license or permit of any person licensed under this Chapter for not more than 30 days if the director finds that the action is required in the public interest. In that case, a hearing shall be held and a decision issued within 30 days after notice of temporary suspension.

(e) The suspension, expiration, or cancellation of a license issued under this Chapter does not preclude the filing of an accusation for the revocation or suspension of the suspended, expired, or canceled license as provided in Section 11110, and does not invalidate or otherwise preclude a decision by the department to suspend or revoke the license. That determination may be considered in granting or refusing to grant any subsequent license authorized by this Chapter to the same licensee, or to any partner, officer, director, or stockholder of the same licensee.

Service of Process

11111.2. Any owner licensed under this Chapter who has closed his or her established place of business or any operator or instructor currently or previously licensed under this Chapter who no longer resides at the address last filed with the department, may be served with process issued pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code by registered mail at that place of business, in the case of an owner, or at that residence, in the case of an operator or instructor, unless the person has notified the department in writing of another address where service may be made.

Filing of Accusation: Compromise Settlement

11111.5. (a) After the filing of an accusation under this chapter, the director may enter into a stipulated compromise settlement agreement with the consent of the licensee on terms and conditions mutually agreeable to the director, the respondent licensee, and the accuser without further hearing or appeal. The agreement may include, but is not limited to, a period of probation or monetary penalties, or both. The monetary penalty shall not exceed one thousand dollars ($1,000) for driving school owners or for a principal in an all-terrain vehicle safety training organization or five hundred dollars ($500) for driving school operators or for driving instructors or all-terrain vehicle safety instructors for each violation, and the monetary penalty shall be based on the nature of the violation and the effect of the violation on the purposes of this chapter.

(b) A compromise settlement agreement may be entered before, during, or after the hearing, but is valid only if executed and filed pursuant to subdivision (d) before the proposed decision of the hearing officer, if any, is adopted or the case is decided.

(c) The department shall adopt, by regulation, a schedule of maximum and minimum amounts of monetary penalties, the payment of which may be included as a term or condition of a compromise settlement agreement entered under subdivision (a). Any monetary penalty included in a compromise settlement agreement shall be within the range of monetary penalties in that schedule.

(d) Any compromise settlement agreement entered under this section shall be signed by the director, the respondent licensee, and the accuser, or by their authorized representatives. The director shall file, or cause to be filed, the agreement with the Office of Administrative Hearings, together with the department’s notice of withdrawal of the accusation or statement of issues upon which the action was initiated.

(e) If the respondent licensee fails to perform all of the terms and conditions of the compromise settlement agreement, the agreement is void and the department may take any action authorized by law notwithstanding the agreement, including, but not limited to, refileing the accusation or imposing license sanctions.

(f) This section shall become operative on July 1, 1988.

Hearings: Refusal to Issue

11112. Upon refusal of the department to issue a license, the applicant shall be entitled to demand in writing a hearing before the director or his representative within 60 days after notice of refusal.

Conduct of Courses: Rules and Regulations

11113. (a) The director may prescribe rules and regulations for driving schools regarding the conduct of courses of driver education and driver training, including curriculum, facilities, and equipment. The rules and regulations regarding curriculum shall require both of the following:

(1) A component relating to the dangers involved in consuming alcohol or drugs in connection with the operation of a motor vehicle.

(2) A component examining driver attitude and motivation that focuses on the reduction of future driving violations, with particular emphasis on aggressive driving behavior and behavior commonly known as “road rage.”

(b) The director may also prescribe rules and regulations for the conduct of driving instructor training courses required by Sections 11102.5 and 11104, including curriculum, facilities, and equipment. The department shall monitor instruction given by driving schools.

Additional Curriculum Requirements

11113.3. The rules and regulations adopted pursuant to Section 11113 regarding the curriculum shall include, but are not limited to, the rights and duties of a motorist as they relate to traffic laws and traffic safety.

Standards For Licensing And Control: Rules and Regulations

11113.5. The department shall establish rules and regulations prescribing standards for the licensing and control, as provided in this chapter, of owners, operators, and instructors and the courses of driver education and driver training for driving schools providing training courses for class 1 and class 2 licensed drivers. The standards shall provide for requirements of licensing, training, and control to assure that the owners, operators, and instructors are qualified to provide the type of training needed by drivers for safe operation of large commercial vehicles on the highway.

Reexamination

11114. The department may require any person licensed under this Chapter to submit to a reexamination of his qualifications when there is reasonable cause to believe that the licensee does not have the ability to give driving instruction. If the licensee refuses or fails to submit to such reexamination, the department may peremptorily suspend his license until such time as the licensee shall have submitted to reexamination. The suspension shall be effective upon notice. 

CHAPTER 1.5  TRAFFIC VIOLATOR SCHOOLS

License Required

11200. (a) The department shall license schools for traffic violators for purposes of Section 41501 or 42005 and to provide traffic safety instruction to other persons who elect to attend. A person may not own or operate a traffic violator school or, except as provided in Section 11206, give instruction for compensation in a traffic violator school without a currently valid license issued by the department.

(b) (1) Any person who elects to attend a traffic violator school shall receive from the traffic violator school and shall sign a copy of the following consumer disclosure statement prior to the payment of the school fee and attending the school:

“Course content is limited to traffic violator curricula approved by the Department of Motor Vehicles. Students in the classroom include traffic offenders, repeat traffic offenders, adults, and teenagers, and those who have and those who have not been referred by a court. Instructor training, business regulatory standards, and Vehicle Code requirements of traffic violator schools are not equal to the training, standards, and Vehicle Code requirements of licensed driving schools (California Vehicle Code Section 11200(b)(1)).”

(2) In the case of a minor who elects to attend a traffic violator school, the minor’s parent or guardian shall sign the consumer disclosure statement.

(3) A copy of each signed disclosure statement shall be retained by the traffic violator school for a minimum of 36 months.

(c) New and modified departmental regulations necessitated by this section shall be adopted and effective no later than September 1, 2011.

(d) A licensed traffic violator school shall notify the court by posting on the department’s Web-based database established pursuant to subdivision (b) of Section 11205 information regarding successful course completions.

(e) A licensed traffic violator school shall give every person who attends the school for purposes of Sections 41501 or 42005, upon successful completion of the lesson plan and passage of the postlesson knowledge test, a receipt indicating successful completion. The receipt shall include contact information, including the name of the traffic violator school, address of the school’s business location, name of the course instructor if classroom-based, telephone number, e-mail address if appropriate, hours of operation, and any other information that may be used to confirm course completion.

(f) This section shall become operative on September 1, 2011.

Added Sec. 3.5, Ch. 599, Stats. 2010. Effective September 1, 2011.

Requirements For Traffic Violator School Owners

(1) Maintain an established place of business in this state that is open to the public. An office or place of business of a traffic violator school, including any traffic violator school branch or classroom location, shall not be situated within 500 feet of any court of law.

(2) Conform to standards established by regulation of the department. In adopting the standards, the department shall consider those practices and instructional programs that may reasonably foster the knowledge, skills, and judgment necessary for compliance with traffic laws. The department shall establish standards for each instructional modality, which may include requirements specific to each modality. The standards may include, but are not limited to, classroom facilities, school personnel, equipment, curriculum, procedures for the testing and evaluation of students, recordkeeping, and business practices.

(3) Procure and file with the department a bond of fifteen thousand dollars ($15,000) for home study schools and two thousand dollars ($2,000) for classroom-based schools executed by an admitted surety and conditioned upon the applicant not practicing fraud or making a fraudulent representation that will cause a monetary loss to a person taking instruction from the applicant or to the state or any local authority.

(4) Have the proper equipment necessary for giving instruction to traffic violators.

(5) Have a lesson plan approved by the department, except as provided for in paragraph (2) of subdivision (c), and provide not less than the minimum instructional time specified in the approved plan. The approved plan shall include a postlesson knowledge test. The lesson plan for each instructional modality shall require separate approval by the department.

(6) (A) Execute and file with the department an instrument designating the director as agent of the applicant for service of process, as provided in this paragraph, in any action commenced against the applicant arising out of a claim for damages suffered by a person by the applicant’s violation of a provision of this code committed in relation to the specifications of the applicant’s traffic violator school or a condition of the bond required by paragraph (3).

(B) The applicant shall stipulate in the instrument that a process directed to the applicant, when personal service cannot be made in this state after due diligence, may be served instead upon the director or, in the director’s absence from the department’s principal offices, upon an employee in charge of the office of the director, and this substituted service is of the same effect as personal service on the applicant. The instrument shall further stipulate that the agency created by the designation shall continue during the period covered by the license issued pursuant to this section and so long thereafter as the applicant may be made to answer in damages for a violation of this code for which the surety may be made liable or a condition of the bond.

(C) The instrument designating the director as agent for service of process shall be acknowledged by the applicant before a notary public.
(D) If the director or an employee of the department, in lieu of the director, is served with a summons and complaint on behalf of the licensee, one copy of the summons and complaint shall be left with the director or in the director’s office in Sacramento or mailed to the office of the director in Sacramento. A fee of five dollars ($5) shall also be paid to the director or employee at the time of service of the copy of the summons and complaint, or shall be included with a summons and complaint served by mail.

(E) The service on the director or department employee pursuant to this paragraph is sufficient service on the licensee if a notice of the service and a copy of the summons and complaint are, on the same day as the service or mailing of the summons and complaint, sent by registered mail by the plaintiff or his or her attorney to the licensee. A copy of the summons and complaint shall also be mailed by the plaintiff or plaintiff’s attorney to the surety on the licensee’s bond at the address of the surety given in the bond, postpaid and registered with request for return receipt.

(F) The director shall keep a record of all processes served pursuant to this paragraph showing the day and hour of service, and shall retain the documents served in the department’s files.

(G) If the licensee is served with process by service upon the director or a department employee in lieu of the director, the licensee has 30 days after that service within which to answer any complaint or other pleading filed in the cause. For purposes of venue, if the licensee is served with process by service upon the director or a department employee in lieu of the director, the service is considered to have been made upon the licensee in the county in which the licensee has or last had his or her established place of business.

(7) (A) Meet the requirements of Section 11202.5, relating to traffic violator school operators, if the owner is also the operator of the traffic violator school. If the owner is not the operator of the traffic violator school, the owner shall designate an employee as operator who shall meet the requirements of Section 11202.5.

(B) A person may be an operator for more than one traffic school if (i) the schools have a common owner or owners and (ii) the schools share a single established business address.

(C) A traffic violator school with multiple branch locations may designate a separate operator for each location, but shall designate one of the operators as the primary contact for the department.

(8) Have an instructor who meets the requirements of Section 11206. An owner who is designated as the operator for the school is authorized to act as an instructor without meeting the requirements of Section 11206. The owner license may also include authorization to act as an instructor if the owner is not designated as the operator but meets the requirements of Section 11206. The owner license shall specify if the owner is authorized to offer instruction. If the owner is not approved to act as an instructor, the school must employ an instructor licensed pursuant to Section 11206.

(9) Provide the department with a written assurance that the school will comply with the applicable provisions of Subchapter II or III of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.), and any other federal and state laws prohibiting discrimination against individuals with disabilities. Compliance may include providing sign language interpreters or other accommodations for students with disabilities.

(b) The qualifying requirements specified in subdivision (a) shall be met within one year from the date of application for a license, or a new application and fee are required.

(c) A court-approved program that was in operation prior to July 1, 2011, shall file an application for licensure as a traffic violator school by March 1, 2012. A court shall not approve a traffic violator school program after July 1, 2011.

(1) A court-approved program may continue to operate as approved by a court until the department makes a licensing decision.

(2) The department shall approve or deny all completed applications filed pursuant to this subdivision no later than December 31, 2012.

(3) A court-approved program shall be exempt from paragraph (5) of subdivision (a). The licensed program may continue to use the curriculum approved by the court until the department establishes curriculum standards in regulation. The court-approved program must comply with the new curriculum standards by the effective date established in regulation.

(d) Paragraphs (3) and (6) of subdivision (a) do not apply to public schools or other public agencies, which shall also not be required to post a cash deposit pursuant to Section 11203.

(e) Paragraph (7) of subdivision (a) does not apply to public schools or other public educational institutions.

(f) A notice approved by the department shall be posted in every traffic violator school, branch, and classroom location, and prominently displayed on a home study or Internet program, stating that any person involved in the offering of, or soliciting for, a completion certificate for attendance at a traffic violator school program in which the person does not attend or does not complete the minimum amount of instruction time may be guilty of violating Section 134 of the Penal Code.

(g) This section shall become operative on September 1, 2011.

Added Sec. 4.5, Ch. 599, Stats. 2010. Effective September 1, 2011.

Requirements for Traffic Violator School Operators

11202.5. (a) The department shall license traffic violator school operators. Every person, in order to qualify as a traffic violator school operator, shall meet all of the following criteria in order to be issued a traffic violator school operator’s license:

(1) Have not committed any act which, if the applicant were licensed as a traffic violator school operator, would be grounds for suspension or revocation of the license.

The director may order the deposit returned at the expiration of three years from the date a traffic violator school licensee has ceased to do business, or three years from the date a licensee has ceased to be licensed, if the director is satisfied that there are no outstanding claims against the deposit. A superior court may, upon petition, order the return of the deposit prior to the expiration of three years upon evidence satisfactory to the court that there are no outstanding claims against the deposit. If either the director, department, or state is a defendant in any civil action instituted to recover any or any part of the deposit, or any civil action is instituted by the director, department, or state to determine those entitled to any part of the deposit, the director, department, or state shall be paid reasonable attorney fees and costs from the deposit. Costs shall include those administrative costs incurred in processing claims against the licensee recoverable from the deposit.

Cause of Action Against Owner and Bond

11203.5. If the state or any of its political subdivisions suffers any loss or damage by reason of any fraudulent practice or representation or by reason of any violation of this division by a traffic violator school owner, the department may bring a cause of action against the traffic violator school owner and the surety upon the owner’s bond.

Issuance and Renewal of Licenses

11204. (a) The department shall issue a license certificate to each traffic violator school owner and each traffic violator school operator licensed pursuant to this chapter. The term of the license shall be for a period of one year from the date of issue unless canceled, suspended, or revoked by the department. The license shall be renewed annually. The department shall require compliance with Section 11202 for renewal of the license of a traffic violator school owner. The department shall require compliance with Section 11202.5 for renewal of the license of a traffic violator school operator.

(b) (1) In lieu of the examination required by Section 11202.5 for renewal of the license of a traffic violator school operator, the department may accept submission of evidence by the licensee of continuing professional education.

(2) “Professional education,” as used in paragraph (1), means the satisfactory completion of courses acceptable to the department related to traffic safety, teaching techniques, or the teaching of driver instruction, or the participation in professional seminars approved by the department.

(c) Whenever in its judgment the public interest so requires, the department may issue a probationary license subject to special conditions to be observed by the licensee in the conduct of the traffic violator school. The conditions to be attached to the license shall be any that may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein. The conditions may not appear on the license certificate.

(d) Upon notification of the death of a traffic violator school licensee, the department may issue a temporary license to the executor or administrator of the estate of a deceased holder of a validly outstanding license to conduct a traffic violator school, or if no executor or administrator has been appointed and until a certified copy of an order making an appointment is filed with the department, a temporary license may be issued to the surviving spouse or other heir entitled to conduct the business of the deceased. The temporary license shall permit the holder to conduct the traffic violator school for a period of one year from and after the date of the original licensee’s death, and necessary one-year extensions may be granted to permit disposal of the business and qualification for a license of a purchaser of the business or the surviving spouse or heir. The department may restrict or condition a temporary license and attach to the exercise of the privilege thereunder any terms and conditions that in the department’s judgment are required for the protection of the public.

11205. (a) The department shall provide a list of licensed traffic violator schools on its Internet Web site. For each licensed school, the list shall indicate the modalities of instruction offered and specify the cities where classroom instruction is offered. The sequential listing of licensed schools shall be randomized daily.

(b) When a court or traffic assistance program (TAP) provides a hard copy list of licensed traffic violator schools to a traffic violator, the court or TAP shall provide only a current date-stamped list downloaded from the department’s Internet Web site. The hard copy list shall be as current as practicable, but in no event shall a list be distributed with a date stamp that is more than 60 days old.

(c) The department shall, by April 1, 2012, develop a Web-based database that will enable the department, the courts, and traffic violator schools to monitor, report, and track participation and course completion. Traffic violator schools shall update course information within three business days of class completion and provide to the courts class completion information on a daily basis.

As used in this section, “services” means those services relating to the processing of traffic infraction cases at, and for, the court, including printing and providing to the court and traffic violators hard copy county-specific lists printed from the department’s Internet Web site, administratively assisting traffic violators, and any other lawful activity relating to the administration of the court’s traffic infraction caseload.

(c) The court may charge a traffic violator a fee to defray the costs incurred by a TAP for traffic case administration services provided to the court pursuant to subdivision (b). The court may delegate collection of the fee to the TAP. Fees shall be approved and regulated by the court. The fee shall not exceed the actual costs incurred by the TAP for the activities authorized under subdivision (b).

(d) This section shall become operative on January 1, 2013.

Cancellation of Licenses

11216. Any license issued to a traffic violator school owner under this Chapter shall be automatically canceled upon the happening of any of the following:

(a) The abandonment of the established place of business or the change thereof without notice to the department pursuant to Section 11213.

(b) The failure to maintain an adequate bond or to procure and file another bond, as required by Section 11202, prior to the effective date of the termination by the surety of any existing bond.

(c) The voluntary or involuntary surrender of the license, except that a surrender or cessation of business by the licensee, or the suspension or revocation of the corporate status of the licensee, does not preclude the department from filing an accusation for revocation or suspension of the surrendered license, as provided in Section 11215 or 11215.5, or affect the department’s decision to suspend or revoke the license.

(d) Notification to the department that the person designated as the licensee has changed.

(e) Suspension or cancellation of the corporate status of the licensee.

Automatic Suspension: Discrimination Against Individuals with Disabilities

11216.2. (a) Any license issued to the owner or operator of a traffic violator school under this Chapter shall be
automatically suspended for 30 days by the department if the department has been notified that more than one final determination has been made that the traffic violator school has violated a student’s rights under the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101, et seq.) or any other federal or state law prohibiting discrimination against individuals with disabilities. The final determination shall be made by a federal or state court of competent jurisdiction or an appropriate federal or state administrative agency, including, but not limited to, the Department of Fair Employment and Housing, or any combination thereof.

For the purpose of this subdivision, “final determination” means that no further appeal of a determination can be taken to any court because the time period for the appeal has expired.

(b) If a traffic violator school subject to suspension under this section is operated by a traffic school operator licensed pursuant to Section 11202.5 who is operating other traffic schools, the licenses of the owners of those traffic schools operated by that traffic school operator also shall be suspended for the 30-day period.

Amended Sec. 122, Ch. 124, Stats. 1996. Effective January 1, 1997.

Interim Refusal to Issue or Suspension of License

11216.5. (a) The department, after notice and hearing, on an interim basis, may refuse to issue or may suspend a license issued under this Chapter when the applicant or licensee, or a business representative if the applicant or licensee is a business, has been convicted of a crime involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity, if an appeal of the conviction is pending or the conviction has otherwise not become final. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(b) If a conviction, on which an interim refusal to issue or suspension under subdivision (a) is based, is affirmed on appeal or otherwise becomes final, the refusal to issue or the suspension shall automatically take effect as a denial or revocation, as the case may be, of the license.

(c) If a conviction, upon which an interim refusal to issue or suspension under subdivision (a) is based, is reversed on appeal, the refusal or suspension shall be set aside immediately by the department.

Notice and Hearing Before Suspension or Revocation

11217. (a) Every licensee under this Chapter is entitled to notice and hearing prior to suspension or revocation of the license by the department, except that the department shall immediately suspend the license pursuant to subdivision (e) for any act of fraud specified in subdivision (c) or (d) of Section 11215.

(b) Before reinstatement of any license suspended pursuant to subdivision (a) of Section 11215, the licensee shall pay the department a reinstatement fee of five dollars ($5).

(c) The notice and hearings provided for in this section shall be pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(d) Any action of the department in suspending, canceling, revoking, or failing to renew a license issued pursuant to this Chapter may be reviewed by any court of competent jurisdiction.

(e) The department may, pending a hearing, temporarily suspend the license or permit of any traffic violator school owner, operator, or instructor for a period of not more than 30 days if the director finds that the public interest so requires. In that case, a hearing shall be held and a decision issued within 30 days after issuance of the notice of temporary suspension.

(f) The suspension, expiration, or cancellation of a license issued pursuant to this Chapter does not preclude the filing of an accusation for the revocation or suspension of the suspended, expired, or canceled license, and does not invalidate or otherwise preclude a decision by the department to suspend or revoke the license and this determination may be considered by the department in granting or refusing to grant any subsequent license under this Chapter to the same licensee or to any business representative of the same licensee.

Compromise Settlement Agreement

11218. (a) After the filing of an accusation under this chapter, the director may enter into a stipulated compromise settlement agreement with the consent of the licensee on terms and conditions mutually agreeable to the director, the respondent licensee, and the accuser without further hearing or appeal. The agreement may include, but is not limited to, a period of probation or monetary penalties, or both. The monetary penalty shall not exceed one thousand dollars ($1,000) per violation for a traffic violator school owner or five hundred dollars ($500) per violation for a traffic violator school operators or instructors, and shall be based on the nature of the violation and the effect of the violation on the purposes of this chapter.

(b) A compromise settlement agreement may be entered before, during, or after the hearing, but is valid only if executed and filed pursuant to subdivision (d) before the proposed decision of the hearing officer, if any, is adopted or the case is decided.

(c) The department shall adopt, by regulation, a schedule of maximum and minimum amounts of monetary penalties, the payment of which may be included as a term or condition of a compromise settlement agreement entered under subdivision (a). Any monetary penalty included in a compromise settlement agreement shall be within the range of monetary penalties in that schedule.
(d) Any compromise settlement agreement entered under this section shall be signed by the director, the respondent licensee, the accuser, or by their authorized representatives. The director shall file, or cause to be filed, the agreement with the Office of Administrative Hearings, together with the department’s notice of withdrawal of the accusation or statement of issues upon which the action was initiated, unless that accusation or statement has not yet been forwarded to the Office of Administrative Hearings.

(e) If the respondent licensee fails to perform all of the terms and conditions of the compromise settlement agreement, the agreement is void and the department may take any action authorized by law notwithstanding the agreement, including, but not limited to, refiling the accusation or imposing license sanctions.

Conduct of Courses: Rules and Regulations

11219. The director may prescribe rules and regulations for traffic violator schools regarding the conduct of courses of education including curriculum, facilities, and equipment. The curriculum shall include, but is not limited to, the rights and duties of a motorist as they pertain to pedestrians and the rights and duties of a pedestrian as they relate to traffic laws and traffic safety. The director may also prescribe rules and regulations for the conduct of instructor training courses.

Additional Curriculum Requirements

11219.3. The curriculum prescribed pursuant to Section 11219 shall include, but is not limited to, the following:

(a) The rights and duties of a motorist as they pertain to pedestrians.

(b) The rights and duties of a pedestrian as they relate to traffic laws and traffic safety.

(c) Information that emphasizes respecting the right-of-way of others, particularly with respect to pedestrians, bicycle riders, and motorcycle riders.

Issuance of Receipts

11219.5. (a) A traffic violator school shall issue a receipt for a fee collected by the traffic violator school from a person who registers for, attends, or completes a program of instruction in traffic safety at the licensed traffic violator school.

(b) In the event of a cancellation of a scheduled class, a licensee under this Chapter shall not be required by the department to provide a program of instruction in traffic safety to a person for a fee that is less than the standard fee normally charged by the licensee for its program, if a notice of cancellation of a class is given to a student at least 72 hours prior to the start of the class, or if the class was canceled based upon exigent circumstances beyond the control of the licensee.

Amended Sec. 3, Ch. 396, Stats. 2007. Effective January 1, 2008.

Reexamination

11220. The department may require any person licensed under this Chapter to submit to a reexamination of his or her qualifications when there is reasonable cause to believe that the licensee does not have the ability to give instruction. If the licensee refuses or fails to submit to the reexamination, the department may, without a hearing, temporarily suspend his or her license until such time as the licensee submits to the reexamination. The suspension shall be effective upon receipt of notice by the licensee.

Contract with Nongovernmental Agency

11222. The department may contract with a nongovernmental entity to administer any part of this chapter, subject to limitations in other laws regarding contracting out for services. No contract shall exceed three years’ duration. The contracting entity, and any affiliate or subsidiary thereof monitoring traffic violator schools, shall conform to all of the following requirements:

(a) Engage in no other business activity with traffic violator schools or any of the principals of the traffic violator schools, including the provision of services or supplies.

(b) Provide reports in statistical form to the department and to the Legislature as instructed by the department. These reports shall be issued not less frequently than annually.

11300. It shall be unlawful for any person to act as a vehicle verifier without first having procured a vehicle verifier’s permit issued by the department, or when such permit has been canceled, suspended, revoked or invalidated.

Requirements for Application

11301. Every vehicle verifier shall make application to the department upon the appropriate form, accompanied by a good and sufficient bond, approved as to form by the Attorney General, in the amount of five thousand dollars ($5,000) with corporate surety thereon, duly licensed to do business within the State of California.

(a) The department shall prescribe and provide forms to be used for application for permits to be issued under the terms and provisions of this Chapter and require of applicants information including, but not limited to, residence address, fingerprints, and personal history statements touching on and concerning the applicant’s character, honesty, integrity, and reputation as it may consider necessary.

(b) Upon receipt of an application in proper form accompanied by the appropriate fee, the department shall within 120 days, make a thorough investigation of the information contained in the application.

Cash Deposit: Disposition

11301.5. If a deposit is given instead of the bond required by Section 11301:

(a) The Director of Motor Vehicles may order the refund of the deposit three years from the date a vehicle verifier has ceased to be licensed, if the director is satisfied that there are no outstanding claims against the deposit. A judge of a superior court may order the return of the deposit prior to the expiration of three years from the date a vehicle verifier has ceased to be licensed if there is evidence satisfactory to the court that there are no outstanding claims against the deposit.
(b) If the director, department, or state is a defendant in any action instituted to recover all or any part of the deposit, or any action is instituted by the director, department, or state to determine those entitled to any part of the deposit, the director, department, or state shall be paid reasonable attorney fees and costs from the deposit. Costs shall include those administrative costs incurred in processing claims against the deposit.

Issuance, Refusal to Issue, Suspension, Revocation

11302. (a) The department may issue, or for reasonable cause shown, refuse to issue, a vehicle verifier’s permit to any applicant, or may, after notice and hearing, suspend or revoke the permit when satisfied that the applicant or permittee:

(1) Has violated any of the provisions of this division or has committed any acts which are grounds for the refusal to issue, or the suspension or revocation of a permit or license issued under this division.

(2) Was previously the holder of an occupational license issued by another state, authorizing the same or similar activities of a license issued under this division; and that license was revoked or suspended for cause and was never reissued, or was suspended for cause, and the terms of suspension have not been fulfilled.

(3) Has purchased, sold, or otherwise acquired or disposed of, a vehicle which was stolen or embezzled or has performed or submitted to the department, or its authorized representative, documents purporting verification of a vehicle which was stolen or embezzled.

(4) Has, in the course of performing a vehicle verification, acted with negligence or incompetence in the reporting of erroneous information to the department, or its authorized representative, and has thereby caused the department to issue inaccurate certificates of ownership or registration, or any other documents or indices which it would not otherwise have issued.

(b) Every hearing as provided for in this Chapter shall be pursuant to the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Notification of Change of Address

11302.2. (a) Every person licensed under this Chapter shall report to the department every change of residence address within 10 days of the change.

(b) Any person currently or previously licensed under this Chapter who no longer resides at the address last filed with the department may be served with process issued pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code by registered mail at that residence, unless the person has notified the department in writing of another address where service may be made.

Compromise Settlement Agreement

11302.5. (a) After the filing of an accusation under this chapter, the director may enter into a stipulated compromise settlement agreement with the consent of the licensee on terms and conditions mutually agreeable to the director, the respondent licensee, and the accuser without further hearing or appeal. The agreement may include, but is not limited to, a period of probation or monetary penalties, or both. The monetary penalty shall not exceed five hundred dollars ($500) for each violation, and it shall be based on the nature of the violation and the effect of the violation on the purposes of this chapter.

(b) A compromise settlement agreement may be entered before, during, or after the hearing, but is valid only if executed and filed pursuant to subdivision (d) before the proposed decision of the hearing officer, if any, is adopted or the case is decided.

(c) The department shall adopt, by regulation, a schedule of maximum and minimum amounts of monetary penalties, the payment of which may be included as a term or condition of a compromise settlement agreement entered under subdivision (a). Any monetary penalty included in a compromise settlement agreement shall be within the range of monetary penalties in that schedule.

(d) Any compromise settlement agreement entered under this section shall be signed by the director, the respondent licensee, and the accuser, or by their authorized representatives. The director shall file, or cause to be filed, the agreement with the Office of Administrative Hearings, together with the department’s notice of withdrawal of the accusation or statement of issues upon which the action was initiated.

(e) If the respondent licensee fails to perform all of the terms and conditions of the compromise settlement agreement, the agreement is void and the department may take any action authorized by law notwithstanding the agreement, including, but not limited to, refiling the accusation or imposing license sanctions.

Unlawful Acts; Causes for Disciplinary Action

11305. It shall be unlawful and cause of disciplinary action for the holder of a vehicle verifier’s permit:

(a) To submit to the department, or its authorized representative, any document which purports to evidence the verification of any vehicle, without having actually physically inspected such vehicle to determine the existence of proper vehicle identification.

(b) To fail to report to the department, in a manner prescribed by the department, the absence, alteration, or obvious attempt to alter or obliterate any identifying number or number plate, or remove or attempt to remove such plate on any vehicle for which verification is performed.

(c) To fail to physically compare identifying numbers on a vehicle inspected to the information contained in any document of title, registration, or any other form describing such vehicle.

(d) To cause any person to suffer any loss or damage by reason of any fraud or deceit practiced upon such person in the course of the conducting of business under the vehicle verifier’s permit.

(e) To violate one or more terms and provisions of Section 20, or of Division 3 (commencing with Section 4000), or of this division of this code, or any rules or regulations adopted pursuant thereto, or of Part 5 (commencing with Section 10701) of Division 2 of the Revenue and Taxation Code.

§11306

Hearing; Probationary Permit; Reapplication

11306. (a) If the department issues or renews a vehicle verifier’s permit requiring conditions of probation, or if the department refuses to issue a vehicle verifier’s permit, the applicant shall be entitled to demand, in writing, a hearing as provided in this chapter, before the director, or his representative, within 60 days after notice of refusal or issuance of the probationary permit.

(b) Except where the provisions of this code require the refusal to issue a permit, the department may issue a probationary permit subject to conditions to be observed by the permittee in the exercise of the privilege granted. The conditions to be attached to the exercise of the privilege shall be such as may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein.

(c) The department may, pending a hearing, temporarily suspend the permit issued to a vehicle verifier for a period not to exceed 30 days if the director finds that such action is required in the public interest. In any such case, a hearing shall be held and a decision thereon issued within 30 days after notice of the temporary suspension.

(d) A person whose application for a permit has been denied may reapply for such permit after a period of not less than one year has elapsed from the date of filing of such denial.

Record Required

11307. (a) A vehicle verifier shall maintain a record of each verification made. The record shall contain all of the following:

(1) The name and address of the person requesting the verification and the fee charged for such verification.

(2) The year model, vehicle identification number, license plate number of the vehicle verified and the state in which the vehicle was last registered.

(b) All records maintained by a vehicle verifier shall be open to inspection by any peace officer.

Rules and Regulations

11308. The department may adopt rules and regulations concerning the issuance, use, and renewal of a vehicle verifier’s permit, and for determining the competence of an applicant therefore.

Fees

11309. (a) The following fees for a vehicle verifier’s permit shall be paid to the department:

(1) For the application and original permit, except as provided by Section 42231, a nonrefundable fee of fifty dollars ($50).

(2) For an application for renewal, fifteen dollars ($15).

(b) All permits shall be renewed on a biennial basis. All original permits shall be issued for a period of not less than two years, except in the case of a probationary license which, in the discretion of the department, may be issued for a shorter term.

Time for Compliance

11310. Any person who holds a vehicle verifier’s permit issued before the operative date of this Chapter shall comply with the provisions of this Chapter within three months after its operative date.

Filing of Accusation

11312. The suspension, expiration, or cancellation of a vehicle verifier’s permit provided for in this Chapter shall not prevent the filing of an accusation for the revocation or suspension of the suspended, expired, or canceled permit as provided in Section 11302 or 11305 or any rules or regulations adopted pursuant to Section 11308, and the department’s decision that the permit should be suspended or revoked. That determination may be considered in granting or refusing to grant any subsequent license or permit authorized by this division to that vehicle verifier or to a business representative of that prior vehicle verifier’s permit.

CHAPTER 2.5. REGISTRATION SERVICES

License or Temporary Permit Required

11400. No person shall act as a registration service, engage in the business of soliciting or receiving any application for the registration, renewal of registration, or transfer of registration or ownership of any vehicle of a type subject to registration under this code, or of soliciting or receiving an application for a motor carrier permit under Division 14.85 (commencing with Section 34600), or transmit or present any of those documents to the department, if any compensation is solicited or received for the service, without a license or temporary permit issued by the department pursuant to this chapter, or if that license or temporary permit has expired or been canceled, suspended, or revoked, or the terms and conditions of an agreement entered into pursuant to Section 11408 have not been fulfilled.

Application for License

11401. An applicant for a license to be a registration service shall submit an application to the department upon the appropriate form for a license and a distinguishing number. The applicant shall also include with the application any information as to the applicant’s character, honesty, integrity, and reputation which the department requires. The application shall include, but not be limited to, all of the following:

(a) The type of ownership, whether an individual, a partnership, or a corporation. If the applicant is a partnership, the names and titles of all partners, except limited partners, shall be furnished. If the applicant is a corporation, the names and titles of all controlling stockholders, directors, and officers who, by reason of the facts and circumstances, could direct, control, or manage the business of the registration service shall be furnished.

(b) The name and address of the business, including street, city, and postal zip code of the principal place of business and any branch location.
(c) A personal history statement and fingerprints from any person required to be identified in subdivision (a), containing the information the department requires.

(d) The name, address, driver’s license number, and a brief physical description of all persons employed or otherwise engaged by the registration service to perform registration work.

(e) A bond executed by an admitted surety insurer, approved as to form by the Attorney General, to cover any loss to the public or the State of California arising out of the operation of the registration service.

(f) A nonrefundable application fee, as specified in Section 11409.

§11402. (a) The amount of the bond required by subdivision (e) of Section 11401 for the issuance of a registration service license, or for the renewal of such a license is twenty-five thousand dollars ($25,000). Liability under the bond shall remain at that amount.

(b) If the amount of the liability under the bond is decreased, or there is outstanding a final court judgment arising out of a violation of any provision of this code for which the registration service is liable, the license of the registration service shall be automatically suspended. In order to reinstate the license, the registration service shall either file an additional bond or restore the bond on file to the original amount, or shall satisfy the outstanding judgment for which the registration service and surety are liable.

(c) The bond shall remain in effect for three years after cessation of business of the registration service.

§11403. (a) A license to conduct a registration service, or a renewal of that license, shall not be issued to any applicant unless the applicant files with the department an instrument, in writing, in which the applicant appoints the director as the agent of the applicant upon whom all process may be served in any action which may be commenced against the applicant arising out of any claim for damages by any person by reason of the violation by the applicant of any provision of this code in connection with the registration service or any condition of the registration service’s bond.

(b) The applicant shall agree in the instrument that any process directed to the applicant, when personal service of process upon the applicant cannot be made in this state after due diligence and, in that case, is served upon the director or, in the event of the director’s absence from the office, upon any employee in charge of the office of the director, is of the same force and effect as if served upon the applicant personally.

(c) The applicant shall further agree, in writing, that the agency created by the instrument shall continue during the period covered by any license that may be issued and so long thereafter as the applicant may be required to answer in damages for a violation of this code in connection with the registration service or any condition of the bond.

(d) The instrument appointing the director as the agent for the applicant for service of process shall be acknowledged by the applicant before a notary public.

(e) If the registration service is served with process by service upon the director, one copy of the summons and complaint shall be left with the director or in the director’s office in Sacramento or mailed to the office of the director in Sacramento. A fee of five dollars ($5) shall also be paid to the director at the time of service of the copy of the summons and complaint.

(f) Service on the director is a sufficient service on the registration service if a notice of service and a copy of the summons and complaint are immediately sent by registered mail by the plaintiff or the plaintiff’s attorney to the registration service. A copy of the summons and complaint shall also be mailed by the plaintiff or the plaintiff’s attorney to the surety on the registration service’s bond at the address of the surety given in the bond, postpaid and registered with request for return receipt.

(g) The director shall keep a record of all process served on the director pursuant to this section, which shall show the day and hour of service, and shall retain the summons and complaint so served on file.

(h) If the registration service is served with process by service upon the director, the registration service has 30 days from the date of that service within which to answer any complaint or other pleading which may be filed in the cause.

(i) For purposes of venue, if the registration service is served with process by service upon the director, the service is deemed to have been made upon the registration service in the county in which the registration service has, or last had, its principal place of business.

§11404. (a) Until the department determines that the applicant meets all the requirements of this chapter, it may issue a temporary permit to the person applying for a license as a registration service.

(b) The temporary permit shall permit the operation by the registration service or registration agent for not more than 120 days while the department is completing its investigation and determination of all facts relative to the qualifications of the applicant for the license. The department may cancel the temporary permit when it has determined that the application is incorrect or incomplete or that the temporary permit was issued in error.

(c) The temporary permit is invalid when canceled or when the license has been issued or refused.

§11405. The department may refuse to issue a license to, or may suspend, revoke, or cancel the license of, a person to act as a registration service for any of the following reasons:

(a) The person has been convicted of a felony or a crime involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity.

(b) The person is, or has been, the holder, or a managerial employee of the holder, of any occupational license issued by the department which has been suspended or revoked.
§11406

(c) The applicant was previously the holder of an occupational license issued by another state, authorizing the same or similar activities of a license issued under this division; and that license was revoked or suspended for cause and was never reissued, or was suspended for cause, and the terms of suspension have not been fulfilled.

(d) The person has used a false or fictitious name, knowingly made any false statement, or knowingly concealed any material fact, in the application for the license.

(e) The person has knowingly made, or acted with negligence or incompetence, or knowingly or negligently accepted or failed to inquire about any false, erroneous, or incorrect statement or information submitted to the registration service or the department in the course of the licensed activity.

(f) The person has knowingly or negligently permitted fraud, or willfully engaged in fraudulent practices, with reference to clients, vehicle registrants, applicants for motor carrier permits under Division 14.85 (commencing with Section 34600), or members of the public, or the department in the course of the licensed activity.

(g) The person has knowingly or negligently committed or was responsible for any violation, cause for license refusal, or cause for discipline under Section 20 or Division 3 (commencing with Section 34600), Division 3.5 (commencing with Section 9840), Division 4 (commencing with Section 10500), or Division 5 (commencing with Section 11100), or Division 14.85 (commencing with Section 34600), or any rules or regulations adopted under those provisions.

(h) The person has failed to obtain and maintain an established place of business in California.

(i) The person has failed to keep the business records required by Section 11406.

(j) The person has violated any term or condition of a restricted license to act as a registration service.

(k) The person has committed or was responsible for any other act, occurrence, or event in California or any foreign jurisdiction which would be cause to refuse to issue a license to, or to suspend, revoke, or cancel the license of, a person to act as a registration service.

Business Records

11406. (a) Every registration service shall keep accurate business records containing all of the following information:

(1) The name, address, and license number of the registration service and the name and address of every employee who performs registration work.

(2) The name and address of each client for whom registration work was performed.

(3) The identity of every vehicle by year, make, type, license number, and vehicle identification number on which registration work was performed.

(4) The amount of registration fees or payments collected for each vehicle on which registration work was performed, including the method of payment to the registration service.

(5) The amount of registration fees or payments submitted to the department for each vehicle on which registration work was performed, including the date and method of payment to the department.

(6) The amount of any refunds or additional charges on registration fees or payments collected for each vehicle on which registration work was performed, including the date and method of payment of the refund or additional charge by or to the client, the registration service, or the department.

(7) The name, signature, or initials of each employee performing work on each transaction and the date the work was done.

(8) The cost to each client for the registration work performed on each of the client’s vehicles or to obtain a motor carrier permit.

(9) For each motor carrier for which motor carrier permit work was performed, the carrier identification number, business type, business address, carrier type, activities, and number of vehicles.

(10) For each motor carrier for which motor carrier permit work was performed, the amount of fees or payment collected and the method of payment.

(11) For each motor carrier for which motor carrier permit work was performed, the amount of fees or payment submitted to the department, including the date submitted and the method of payment to the department.

(b) As an alternative to maintaining the records required by paragraphs (1) to (11), inclusive, of subdivision (a), a registration service may retain a copy of the listing sheet approved by the department for transmitting registration or motor carrier permit documents to the department.

(c) Every registration service shall provide each customer with a document containing all of the information required by subdivision (a), relative to that customer’s transaction, excluding paragraph (7) and excluding the addresses of employees and other customers’ names and addresses. This requirement does not apply to transactions for customers of a dealer or dismantler.

(d) Every registration service shall display prominently at its place of business a sign indicating that the service is not a branch of the department and shall inform each customer of that fact.

(e) Every registration service shall provide a disclosure to each customer that the services described in Section 11400 may be provided by the department without an additional fee. If a registration service is providing a service described in Section 11400 in person, the disclosure required pursuant to this subdivision shall be in writing. If a registration service is providing a service described in Section 11400 on an Internet Web site, the disclosure required pursuant to this subdivision shall be in a conspicuous place on the Internet Web site.

In the 2014 amendment added the italicized material.

Incomplete Transaction: Return of Records

11406.5. Whenever a customer fails to submit to a registration service any documents, compensation, or fees requested in writing by the registration service, the registration service shall return all documents pertaining to the incomplete transaction, including the department receipt evidencing any fees paid, within 60 days after the request was sent to the customer, to the last known address of the customer, by registered mail.

Maintenance and Inspection of Business Records

11407. The business records required by Section 11406 shall be maintained for at least four years and shall be open to inspection by the department during normal business hours. The department may duplicate or make a record of any information contained in any of those records, which shall be for the official use of the department.

All records shall be returned to the licensee not later than 30 days after receipt of the records by the department.

Issuance, Denial, Suspension, Revocation, or Cancellation of License

11408. (a) The director may issue an order to grant an unrestricted or a restricted license to act as a registration service, or an order to deny, suspend, revoke, or cancel a license to act as a registration service.

(b) The order shall become final 30 days from issuance, unless the denied or restricted applicant or licensee files with the department a request for a hearing. Hearings shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) Any registration service may be served with an accusation issued pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code by registered mail to the address of the principal place of business on file with the department, whether or not the business has been closed or terminated, unless the registration service has notified the department in writing of another address where service shall be made.

(d) The department may, pending a hearing, temporarily suspend the license issued to a registration service for not more than 30 days if the director finds that action is required in the public interest. In that case, a hearing shall be held and a decision issued within 30 days after the notice of the temporary suspension or cancellation.

(e) The director may, following the filing of a statement of issues or an accusation against an applicant or a registration service, enter into a compromise settlement agreement with a stipulated restriction or penalty whereby the applicant or licensee accepts the terms and conditions of the agreement without a hearing or appeal by any party thereto.

(1) The compromise settlement agreement may provide for a restricted license, special operating terms and conditions, a higher bond, a monetary penalty, or any other term or condition agreeable to the parties.

(2) The compromise settlement agreement shall be signed by the respondent applicant or licensee, the director, and the accuser, or their authorized representatives, and filed with the Office of Administrative Hearings, together with the department’s notice of withdrawal of the statement of issues or the accusation upon which the action was initiated.

(3) A failure of the respondent applicant or licensee to carry out a compromise settlement agreement entered into under this section is a separate cause to refuse to issue, or to suspend, revoke, or cancel, any license authorizing the respondent to act as a registration service.

(f) Any person whose license to act as a registration service was suspended for cause and the terms of the suspension are unfulfilled, or whose license was revoked for cause, may reapply for a license to act as a registration service after not less than one year from the effective date of the suspension or revocation action.

(g) The issuance of a new license to that person is within the sole discretion of the department, and a hearing regarding that issuance shall be held only upon the consent of the director.

Fees

11409. The fee for a license issued to a registration service is as follows:

(a) For the original license, or an ownership change which requires a new application, one hundred fifty dollars ($150), which is nonrefundable.

(b) For the annual renewal of a license, fifteen dollars ($15).

(c) For the alteration of an existing license required by a name change, address change, change in corporate officer structure, or the addition of a branch location, seventy dollars ($70).

Term of License: Renewal

11410. (a) Every license issued under this chapter is valid for a period of one year from the last day of the month of issuance. Except as provided in subdivision (c), renewal of the license for the ensuing year may be obtained by the person to whom the license was issued upon application to the department and payment of the fee required by Section 11409.

(b) An application for the renewal of a license shall be made by the licensee not more than 90 days prior to the expiration date and shall be made by presenting the completed application form provided by the department and by payment of the renewal fee.

(c) If the application for renewal of the license is not made by midnight of the expiration date, the application may be made within 30 days following expiration of the license by paying the annual renewal fee and a penalty fee equal to the amount of the original application fee for each license held.

(d) A licensee shall not renew the license after the expiration of the 30-day period specified in subdivision (c).

Ceasing Operations: Return of Records

11411. If a registration service ceases operation for any reason, the owner of the service immediately shall notify the department and, upon demand by the department, shall deliver to the department the registration service license, all records kept pursuant to Section 11406, and all customer transactions then in his or her possession, including any fees or receipts for fees due to the department or to the customer.

Filing of Accusation

11413. The suspension, expiration, or cancellation of a registration service license provided for in this Chapter shall not prevent the filing of an accusation for the revocation or suspension of the suspended, expired, or canceled license as provided in Section 11405 or 11408 or any related rules or regulations, and the department’s decision that the license should be suspended or revoked. That determination may be
§11500

considered in granting or refusing to grant any subsequent license authorized by this division to that licensee or to a business representative of that prior licensee.

CHAPTER 3. AUTOMOBILE DISMANTLERS

(Amended Ch. 1106, Stats. 1963. Effective September 20, 1963.)

Unlawful Acts

11500. It shall be unlawful for any person to act as an automobile dismantler without first having an established place of business which meets the requirements set forth in Section 11514 and without first having procured a license or temporary permit issued by the department, or when such license or temporary permit has been canceled, revoked, invalidated, expired, or the terms and conditions of an agreement effected pursuant to Section 11509.1 have not been fulfilled.

Application for License

11501. Every automobile dismantler shall make application to the department upon the appropriate form for a license containing a general distinguishing number. The applicant shall submit proof of his status as a bona fide automobile dismantler as may reasonably be required by the department.

Refusal to Issue

11502. The department shall have the power and duty to issue and for reasonable cause shown to refuse to issue a license. The department may refuse to any applicant therefor a license provided for herein, if such applicant does not meet the requirements of the terms and provisions of this code relating to the conduct of an automobile dismantling business.

Grounds for Refusal to Issue License

11503. The department may refuse to issue a license to an applicant when it determines any of the following:

(a) The applicant was previously the holder of a license issued under this Chapter when the applicant or licensee, or a business representative if the applicant or licensee is a business, has been convicted of a crime involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity, if an appeal of the conviction is pending or the conviction has otherwise not become final. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(b) When a conviction, upon which an interim refusal to issue or suspension under subdivision (a) is based, is reversed on appeal or otherwise becomes final, the refusal to issue or suspension shall automatically take effect as a denial or revocation, as the case may be, of the license. If the interim refusal to issue or suspension was stayed under probationary terms and conditions, the subsequent automatic denial or revocation shall also be stayed under the same terms and conditions for a term not to exceed the original term of probation for the interim refusal or suspension.

(c) If a conviction, upon which interim refusal to issue under subdivision (a) is based, is reversed on appeal, the refusal or suspension shall be set aside immediately by the department.

Interim Refusal to Issue or Suspension of License

11503.5. (a) The department, after notice and hearing, on an interim basis, may refuse to issue or may suspend a license issued under this Chapter when the applicant or licensee, or a business representative if the applicant or licensee is a business, has been convicted of a crime or has committed any act or engaged in conduct involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(b) The applicant, or a business representative if the applicant is a business, has been convicted of a crime or has committed any act or engaged in conduct involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(c) The department, after notice and hearing, on an interim basis, may refuse to issue or may suspend a license issued under this Chapter when the applicant or licensee, or a business representative if the applicant or licensee is a business, has been convicted of a crime involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(d) The department, after notice and hearing, on an interim basis, may refuse to issue or may suspend a license issued under this Chapter when the applicant or licensee, or a business representative if the applicant or licensee is a business, has been convicted of a crime or has committed any act or engaged in conduct involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(e) The applicant was previously the holder of an occupational license issued by another state, authorizing the same or similar activities of a license issued under this division; and that license was revoked or suspended for cause and was never reissued, or was suspended for cause, and the terms of suspension have not been fulfilled.

(f) The information contained in an application is incorrect.

(g) A decision of the department to cancel, suspend, or revoke a license has been made, and the applicant was a business representative of the business regulated under that license.

Additional Grounds for Refusal

11503.1. Any of the causes specified in this Chapter as a cause to suspend or revoke the license issued to an automobile dismantler, is cause to refuse to issue a license to an automobile dismantler.

Certificate of Convenience

11517. The department may issue a certificate of convenience to the executor, executrix, administrator or administratrix of the estate of a deceased holder of validly outstanding special plates and license issued under this chapter, or if no executor, executrix, administrator or administratrix had been appointed, and until a certified copy of an order making such appointment is filed with the department, to the widow or other heir otherwise entitled to conduct the business of the deceased, permitting such person to exercise the privileges granted by such special plates and license for a period of one year from and after the date of death, pending, but not later than, disposal of the business and qualifications of the vendor of the business or such surviving widow or heir for such special plates and license under the provisions of this chapter. The department may restrict or condition the license and special plates and attach to the exercise of the privileges thereunder such terms and conditions as in its judgment the protection of the public requires.

Automatic Cancellation of Special Plates and License

11518. The special plates and license provided for in this Chapter shall be automatically canceled if any of the following occurs:

(a) The abandonment of the established place of business of the automobile dismantler or the change thereof without notice to the department pursuant to Section 11513.

(b) The voluntary or involuntary surrender for any cause by the licensee of the special plates and license except that a surrender of the special plates and license, the cessation of business by the licensee, or the suspension or revocation of the corporate status of the licensee does not preclude the filing of an accusation for revocation or suspension of the surrendered license as provided in Section 11509, and does not affect the department’s decision to suspend or revoke the license. The department’s decision to suspend or revoke the license may be considered in issuing or refusing to issue any subsequent license authorized by this division to that licensee or any business representative of that licensee.

(c) When the person designated as the licensee has changed, except that the special plates issued to the original licensee may be transferred upon application as provided in Section 11501 and the newly designated licensee, as transferee, shall succeed to the privileges evidenced by the plates until their expiration.

(d) The suspension or revocation of the corporate status of the licensee.

(e) The suspension or revocation of the seller’s permit of the licensee by the State Board of Equalization.

(3) Official lamp and brake adjustment certificates issued by an official lamp and brake adjusting station licensed by the Director of Consumer Affairs, except that a fleet owner of motor trucks of three or more axles that are more than 6,000 pounds unladen weight, and a fleet owner of truck tractors, may instead submit an official lamp and brake certification for his or her rebuilt vehicle if the fleet owner operates an inspection and maintenance station licensed by the commissioner under subdivision (b) of Section 2525.

(4) With respect to a motor vehicle subject to Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, a valid certificate of compliance from a licensed motor vehicle pollution control device installation and inspection station indicating that the vehicle is properly equipped with a motor vehicle pollution control device that is in proper operating condition and is in compliance with Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code.

(5) Any other documents or fees required under law.

(b) The department may not register a vehicle that has been referred to the Department of the California Highway Patrol under subdivision (b) of Section 5505 or that has been selected for inspection by that department under subdivision (c) of that section, until the applicant for registration submits to the department a certification of inspection issued by the Department of the California Highway Patrol and all of the documents required under subdivision (a).
Notice of Acquisition; Transmittal of Documents

§ 11520. (a) A licensed automobile dismantler who acquired, for the purpose of dismantling, actual possession, as a transferee, of a vehicle of a type subject to registration under this code shall do all of the following:

Proof that a registered or certified letter of demand for the documents was sent within 90 days of the date of acquisition to the person from whom the vehicle was acquired may be substituted for documents that cannot otherwise be obtained. A certificate of license plate destruction, when authorized by the director, may be delivered in lieu of the license plates.
5. Maintain a business record of all vehicles acquired for dismantling. The record shall contain the name and address of the person from whom the vehicle was acquired; the date the vehicle was acquired; the license plate number last assigned to the vehicle; and a brief description of the vehicle, including its make, type, and the vehicle identification number used for registration purposes. The record required by this paragraph shall be a business record of the dismantler separate and distinct from the records maintained in those books and forms furnished by the department.
(b) Paragraphs (1), (2), (3), and (4) of subdivision (a) do not apply to vehicles acquired pursuant to Section 11515, 11515.2, 22851.2, or 22851.3 of this code or Section 3071, 3072, or 3073 of the Civil Code.
(c) Paragraphs (1), (2), (3), and (4) of subdivision (a) do not apply to a vehicle acquired from another person if the other person has already notified and cleared the vehicle for dismantling with the department pursuant to this code and a bill of sale has been executed to the dismantler that properly identifies the vehicle and contains evidence of clearance by the department, including, but not limited to, a dismantling report number, temporary receipt number, or other proof of compliance with this section.

Automobile Dismantler: Advertising

§ 11521. No person required to be licensed as an automobile dismantler under this code shall advertise the services of an automobile dismantler without indicating in the advertisement the occupational license or permit number of the automobile dismantler as issued by the department.

Local Regulation

§ 11522. The provisions of this Chapter shall not prevent the local authorities of any city, county and county or county by ordinance, within the exercise of the police power of such city, city and county or county, from imposing local regulations with respect to traffic in loose vehicle parts and vehicle accessories.

Salvage Pools: Records

§ 11540. (a) A salvage pool shall maintain an accurate record of every vehicle it acquires and every vehicle it disposes of, and shall notify the department of the disposition of any vehicle pursuant to Section 5900.
(b) Whenever a salvage pool acquires a total loss salvage vehicle, a nonrepairable vehicle, or a recovered stolen vehicle and the license plates on the vehicle have not been removed pursuant to subdivision (a) of Section 11515, subdivision (a) of Section 11515.2, or any other provision of law, the salvage pool shall, prior to disposing of that vehicle, remove and submit the license plates to the department. The salvage pool shall maintain an accurate record of every license plate it acquires and disposes of, which records shall be maintained for two years and be open for inspection by any peace officer during the regular business hours of that salvage pool.

Salvage Pools: Regulation

§ 11541. The department shall administer and enforce all provisions of this code pertaining to salvage pools.
This section shall become operative on July 1, 1987.

Chapter 3.5. Lessor-Retailers

License or Temporary Permit Required

§ 11600. It shall be unlawful for any lessor-retailer to make a retail sale of a vehicle of a type subject to registration without having first procured either a vehicle dealer license or a lessor-retailer license or temporary permit issued by the department or when such license or temporary permit issued by the department has been canceled, suspended, revoked, or invalidated or has expired.

Application for License

§ 11601. (a) Every lessor-retailer who sells at retail a vehicle of a type subject to registration shall make application to the department for a license. The applicant shall submit proof of his status as a bona fide lessor-retailer as may reasonably be required by the department.
(b) An application shall be made for the principal place of business, and a separate branch office application shall be made for each branch office location of the licensee as shall be operated and maintained by the applicant in conjunction with the retail sale or sales of vehicles.
(c) “Principal place of business,” for the purposes of this chapter, means the place designated by the lessor-retailer as the main business or office location in California whether or not retail sales are made from such location.

Contents of Application

§ 11602. (a) The department shall prescribe and provide forms to be used for application for licenses to be issued under the terms and provisions of this Chapter and require of such
applicants, where appropriate as a condition precedent to issuance of such license, such information, including but not limited to, fingerprints and personal history statements, touching on and concerning the applicant’s character, honesty, integrity and reputation as it may consider necessary; provided, however, that every application for a lessor-retailer license shall contain, in addition to such information that the department may require, a statement of the following facts:

(1) The name and residence address of the applicant and the trade name, if any, under which he intends to conduct his business; and if the applicant be a partnership, the name and residence address of each member thereof, whether a limited or general partner, and the name under which the partnership business is to be conducted; and if the applicant be a corporation, the name of the corporation and the name and address of each of its principal officers and directors.

(2) A complete description, including the city, town or village with the street and number, if any, of its principal place of business in California and such other and additional branch location or locations.

(b) Upon receipt of an application accompanied with the appropriate fee, the department shall make a thorough investigation of the information contained in the application.

Issuance or Refusal of License

11603. (a) The department may issue, or for reasonable cause shown, refuse to issue, a license to any applicant applying for a lessor-retailer license or branch office location.

(b) The license shall contain the applicant’s name, location address and the general distinguishing number assigned to the applicant.

Refusal to Issue: Grounds

11604. The department may refuse to issue a lessor-retailer license when it makes any of the following determinations:

(a) The applicant has outstanding an unsatisfied final court judgment rendered in connection with an activity licensed under the authority of this division.

(b) The applicant was previously the holder, or a managerial employee of the holder, of a license issued under this division which was revoked for cause and never reissued by the department, or which was suspended for cause and the terms of suspension have not been fulfilled.

(c) The applicant was previously a business representative whose license issued under this division was revoked for cause and never reissued or was suspended for cause and the terms of suspension have not been fulfilled.

(d) If the applicant is a business, a business representative was previously the holder of a license, or was a business representative of a business whose license, issued under this division, was revoked for cause and never reissued or was suspended for cause and the terms of suspension have not been fulfilled; or, by reason of the facts and circumstances related to the organization, control, and management of the business, the operation of that business will be directed, controlled, or managed by individuals who, by reason of their conviction of violations of this code, would be ineligible for a license and, by licensing that business, the purposes of this Chapter would be defeated.

(e) The applicant, or a business representative if the applicant is a business, has been convicted of a crime or committed any act or engaged in conduct involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(f) The applicant was previously the holder of an occupational license issued by another state, authorizing the same or similar activities of a license issued under this division; and that license was revoked or suspended for cause and was never reissued, or was suspended for cause, and the terms of suspension have not been fulfilled.

(g) The information contained in the application is incorrect.

(h) A decision of the department to cancel, suspend, or revoke a license has been made, and the applicant was a business representative of the business regulated under that license.

(i) The applicant does not have a principal place of business in California.

(j) The applicant has failed to pay the full amount of a claim paid by the Consumer Motor Vehicle Recovery Corporation, plus interest at the rate of 10 percent per annum, as described in subdivision (i) of Section 11703.

Amended Sec. 3, Ch. 437, Stats. 2007. Effective January 1, 2008.

Suspension, Revocation, or Refusal to Issue License: Additional Grounds

11604.1. Any cause specified in this Chapter as a cause to suspend or revoke the license issued to a lessor-retailer is a cause to refuse to issue a license to a lessor-retailer.

Interim Refusal to Issue or Suspension of License

11604.5. (a) The department, after notice and hearing, on an interim basis, may refuse to issue or may suspend a license issued under this Chapter when the applicant or licensee, or a business representative if the applicant or licensee is a business, has been convicted of a crime involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity, if an appeal of the conviction is pending or the conviction has otherwise not become final. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(b) When a conviction, upon which an interim refusal to issue or suspension under subdivision (a) is based, is affirmed on appeal or otherwise becomes final, the refusal to issue or suspension shall automatically take effect as a denial or revocation, as the case may be, of the license. If the interim refusal to issue or suspension was stayed under probationary terms and conditions, the subsequent automatic denial or revocation shall also be stayed under the same terms and conditions for a term not to exceed the original term of probation for the interim refusal to issue or suspension.

(c) If a conviction, upon which an interim refusal to issue or suspension under subdivision (a) is based, is reversed on appeal, the refusal or suspension shall be set aside immediately by the department.

§11605

Hearing Upon Refusal

11605. (a) Upon refusal of the department to issue a license to a lessor-retailer, the applicant shall be entitled to demand in writing a hearing before the director or his representative within 60 days after notice of refusal.

(b) The hearing shall be conducted pursuant to the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Probationary License

11606. Except where the provisions of this code require the refusal to issue a license, the department may issue a probationary license subject to conditions to be observed by the licensee in the exercise of the privilege granted. The conditions to be attached to the exercise of the privilege shall not appear on the face of the license but shall be such as may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein.

Temporary Permit

11607. Pending the satisfaction of the department that the applicant has met the requirements under this chapter, it may issue a temporary permit to any person applying for a lessor-retailer license or branch office location. The temporary permit shall permit the operation by the lessor-retailer while the department is completing its investigation and determination of all facts relative to the qualifications of the applicant to such license. The department may cancel such temporary permit when it has determined or has reasonable cause to believe that the application is incorrect or incomplete or the temporary permit was issued in error. Such temporary permit shall be invalid when canceled or when the applicant’s license has been issued or refused.

Certificate of Convenience

11608. The department may issue a certificate of convenience to the executor, executrix, administrator or administratrix of the estate of a deceased holder of a valid license issued under this chapter, or if no executor, executrix, administrator or administratrix has been appointed, and until a certified copy of an order making such appointment is filed with the department, to the widow or other heir otherwise entitled to conduct the business of the deceased, permitting such person to exercise the privileges granted by such license for a period of one year from and after the date of death and necessary one-year renewals thereafter, pending, but not later than, disposal of the business and qualification of the vendee of the business or such surviving widow, heir or other persons for such license under the provisions of this chapter. The department may restrict or condition the license and attach to the exercise of the privileges thereunder such terms and conditions as in its judgment the protection of the public requires.

Posting of License; Other Sign Requirements

11609. Each office location operated and maintained by a lessor-retailer in conjunction with its retail sale of a vehicle or vehicles shall have posted in a place conspicuous to the public the license issued by the department to the lessor, and shall have erected or posted thereon such signs or devices providing information relating to the lessor-retailer’s name, the office location and the office address, to enable any person doing business with such lessor to identify him properly.

Notice to Public: Inspection of Vehicle

11609.5. Every lessor-retailer who displays or offers one or more used vehicles for sale at retail shall post a notice not less than 8 inches high and 10 inches wide, in a place conspicuous to the public, which states the following:

“The prospective purchaser of a vehicle may, at his or her own expense and with the approval of the lessor-retailer, have the vehicle inspected by an independent third party either on or off these premises.”

Change of Principal Place of Business or Branch Office

11610. (a) If the lessor-retailer changes the location of its principal place of business or any branch office location in California, the lessor-retailer shall immediately upon making the change notify the department.

(b) If a lessor-retailer, for any reason, ceases to be in possession of its principal place of business or any branch office location, the lessor-retailer shall immediately notify the department, and shall deliver to the department the lessor-retailer license issued for the location, and, upon demand, all report of sale books in his or her possession.

(c) Any person licensed under this Chapter who has closed his or her principal place of business may be served with process issued pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code by registered mail at that place of business, unless the person has notified the department in writing of another address where service may be made.

Bond

11612. (a) Before any lessor-retailer license shall be issued or renewed by the department to any applicant therefor, the applicant shall procure and file with the department a bond meeting the same requirements as specified for a vehicle dealer’s license in Sections 11710 and 11710.2.

(b) Any cause of action or claim specified in Section 11711 against a vehicle dealer’s bond shall also be a cause of action or claim against a lessor-retailer’s bond.

Suspension or Revocation of License

11613. (a) The department, after notice and hearing, may suspend or revoke the license issued to a lessor-retailer upon determining that the person to whom the license was issued is not lawfully entitled thereto, or has done any of the following:

(1) Filed an application for the license using a false or fictitious name not registered with the proper authorities, or knowingly made any false statement or knowingly concealed any material fact, in the application for the license.

(2) Used a false or fictitious name, knowingly made any false statement or knowingly concealed any material fact in
natural of the violation and the effect of the violation on the
dollars ($1,000) for each violation, and it shall be based on the

further hearing or appeal. The agreement may include, but is
director, the respondent licensee, and the accuser without
licensee on terms and conditions mutually agreeable to the

Compromise Settlement Agreement

11613.5. (a) After the filing of an accusation under
this chapter, the director may enter into a stipulated
compromise settlement agreement with the consent of the
licensee on terms and conditions mutually agreeable to the
director, the respondent licensee, and the accuser without
further hearing or appeal. The agreement may include, but is
not limited to, a period of probation or monetary penalties, or
both. The monetary penalty shall not exceed one thousand
dollars ($1,000) for each violation, and it shall be based on the
nature of the violation and the effect of the violation on the
purposes of this chapter.

(b) A compromise settlement agreement may be entered
before, during, or after the hearing, but is valid only if executed
and filed pursuant to subdivision (d) before the proposed
decision of the hearing officer, if any, is adopted or the case is
decided.
(c) The department shall adopt, by regulation, a schedule
of maximum and minimum amounts of monetary penalties,
the payment of which may be included as a term or condition
of a compromise settlement agreement entered under
subdivision (a). Any monetary penalty included in a
compromise settlement agreement shall be within the range of
monetary penalties in that schedule.
(d) Any compromise settlement agreement entered under
this section shall be signed by the director, the respondent
licensee, and the accuser, or by their authorized representatives.
The director shall file, or cause to be filed, the agreement with
the Office of Administrative Hearings, together with the
department’s notice of withdrawal of the accusation or
statement of issues upon which the action was initiated.
(e) If the respondent licensee fails to perform all of the
terms and conditions of the compromise settlement agreement,
the agreement is void and the department may take any action
authorized by law notwithstanding the agreement, including,
but not limited to, refiling the accusation or imposing license
sanctions.

Unlawful Acts

11614. No lessor-retailer licensed under this Chapter
may do any of the following in connection with any activity for
which this license is required:

(a) Make or disseminate, or cause to be made or
disseminated, before the public in this state, in any newspaper
or other publication, or any advertising device, or by oral
representation, or in any other manner or means whatever,
any statement that is untrue or misleading and that is known,
or which by the exercise of reasonable care should be known,
to be untrue or misleading; or make or disseminate, or cause
to be made or disseminated, any statement as part of a plan or
scheme with the intent not to sell any vehicle, or service so
advertised, at the price stated therein, or as so advertised.

(b) Advertise, or offer for sale in any manner, any vehicle
not actually for sale at the premises of the lessor-retailer or
available within a reasonable time to the lessor-retailer at the
time of the advertisement or offer.

(c) Fail within 48 hours to give, in writing, notification to
withdraw any advertisement of a vehicle that has been sold or
withdrawn from sale.

(d) Advertise any specific vehicle for sale without
identifying the vehicle by its model, model year, and either its
license number or that portion of the vehicle identification
number that distinguishes the vehicle from all other vehicles
of the same make, model, and model-year. Model-year is not
required to be advertised for current model-year vehicles. Year
models are no longer current when ensuing year models are
available for purchase at retail in California.

(e) Advertise the total price of a vehicle without including
all costs to the purchaser at the time of delivery at the lessor-
retailer’s premises, except sales tax, vehicle registration fees,
finance charges, certificate of compliance or noncompliance
fees not exceeding thirty-five dollars ($35) pursuant to any
statute, and any dealer documentary preparation charge. The
dealer documentary charge shall not exceed thirty-five dollars
($35).

(f) (1) Fail to disclose, in an advertisement of a vehicle for
sale, that there will be added to the advertised total price, at
§11614.1. No lessor-retailer licensed under this Chapter may do any of the following in connection with any activity for which this license is required:

(a) Use a picture in connection with any advertisement of the price of a specific vehicle or class of vehicles, unless the picture is of the year, make, and model being offered for sale. The picture may not depict a vehicle with optional equipment that this license is required:

(b) Advertise a vehicle for sale that was used by the selling lessor-retailer in its business as a demonstrator, executive vehicle, service vehicle, rental, loaner, or lease vehicle, unless the advertisement clearly and conspicuously discloses the previous use made by that licensee of the vehicle. An advertisement may not describe any of those vehicles as “new.”

(c) Advertise any used vehicle of the current or prior model-year without expressly disclosing the vehicle as “used,” “previously owned,” or a similar term that indicates that the vehicle is used, as defined in this code.

(d) Use the terms “on approved credit” or “on credit approval” in an advertisement for the sale of a vehicle unless

Unlawful Activities

11614.1. No lessor-retailer licensed under this Chapter
those terms are clearly and conspicuously disclosed and unabbreviated.

(e) Advertise an amount described by terms such as “unpaid balance” or “balance can be financed” unless the total sale price is clearly and conspicuously disclosed and is in close proximity to the advertised balance.

(f) Advertise credit terms that fail to comply with the disclosure requirements of Section 226.24 of Title 12 of the Code of Federal Regulations. Advertisements of terms that include escalated payments, balloon payments, or deferred downpayments shall clearly and conspicuously identify those payments as to amounts and time due.

(g) Advertise claims such as “everyone financed,” “no credit rejected,” or similar claims unless the dealer is willing to extend credit to any person under any and all circumstances.

(h) Advertise the amount of any downpayment unless it represents the total payment required of a purchaser prior to delivery of the vehicle, including any payment for sales tax or license. A statement such as “$____ delivers,” is an example of an advertised downpayment.

(i) Fail to clearly and conspicuously disclose in an advertisement for the sale of a vehicle any disclosure required by this code or any qualifying term used in conjunction with advertised credit terms. Unless otherwise provided by statute, the specific size of disclosures or qualifying terms is not prescribed.

Additional Unlawful Acts

11615. It shall be unlawful and a violation of this code for a lessor-retailer licensed under this Chapter when selling at retail a vehicle in a transaction for which this license is required:

(a) To deliver, following sale, a vehicle for operation on California highways, if such vehicle does not meet all of the equipment requirements of Division 12 (commencing with Section 24000) of this code.

(b) To fail to deliver to a transferee lawfully entitled thereto a properly endorsed certificate of ownership.

(c) To violate any of the terms or provisions of Part 5 (commencing with Section 10701) of Division 2 of the Revenue and Taxation Code or rules and regulations adopted pursuant thereto or adopted pursuant to Section 1651 of this code.

(d) To take a vehicle in trade in part or total payment for a vehicle sold by the lessor-retailer.

(e) To sell a vehicle which has not been previously leased, bailed or rented or acquired or contracted for lease or rental by the lessor-retailer.

(f) To display a vehicle for sale at a location other than the principal place of business or branch office authorized by the department for that lessor-retailer.

Sales Tax Payment

11615.5. It is unlawful and a violation of this code for a person holding a license under this Chapter to make a retail sale of a motor vehicle, except to the lessee of such vehicle, required to be registered pursuant to Division 3 (commencing with Section 4000) or subject to identification pursuant to Division 16.5 (commencing with Section 38000) if such person files with the department a report of sale as provided in Section 4456 with respect to such retail sale, without making the return and payment of any sales tax due and required by Section 6451 of the Revenue and Taxation Code.

Amended Ch. 373, Stats. 1979. Effective January 1, 1980.

Refund of Excess Fees

11616. If a purchaser of a vehicle pays to the lessor-retailer an amount for the licensing or transfer of title of the vehicle, which amount is in excess of the actual fees due for such licensing or transfer, or which amount is in excess of the amount which has been paid, prior to the sale, by the lessor-retailer to the state in order to avoid penalties that would have accrued because of late payment of such fees, the lessor-retailer shall return such excess amount to the purchaser, whether or not such purchaser requests the return of the excess amount.

Automatic Cancellation of License

11617. (a) The license provided for in this Chapter shall be automatically canceled upon the happening of any of the following:

(1) The abandonment of the principal place of business of the lessor-retailer or the change thereof without notice to the department as provided in Section 11610.

(2) The failure of the licensee to maintain an adequate bond or to procure and file another bond as required by Section 11612 prior to the effective date of the termination by the surety of any existing bond.

(3) The voluntary or involuntary surrender for any cause by the licensee of the license, except that a surrender of the license, or cessation of business by the licensee, or the suspension or revocation of the corporate status of the licensee does not preclude the filing of an accusation for revocation or suspension of the surrendered license as provided in Section 11613, and does not affect the department’s decision to suspend or revoke the license. The department’s determination to suspend or revoke the license may be considered in issuing or refusing to issue any subsequent license authorized by this division to that licensee, or any business representative of that licensee.

(4) Notification to the department that the person designated as licensee has changed.

(5) The suspension or cancellation of the corporate status of the licensee.

(6) The suspension or revocation of the seller’s permit of the licensee by the State Board of Equalization.

(b) The branch office location license provided for in this Chapter shall be automatically canceled upon the abandonment of the branch office location of the lessor-retailer or the change of that branch office location without notice to the department as provided in Section 11610.

Temporary Suspension

11618. The department may, pending a hearing, temporarily suspend the license issued to a lessor-retailer for a period not to exceed 30 days, if the director finds that such action is required in the public interest. In any such case a hearing shall be held and a decision thereof issued within 30 days after notice of the temporary suspension.

Every hearing as provided for in this section shall be pursuant to the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Expiration and Renewal

11620. (a) Every occupational license issued under this Chapter shall be valid for a period of one year from midnight of the last day of the month of issuance. Except as provided in subdivision (c), renewal of an occupational license for the ensuing year may be obtained upon application to the department and payment of the fee provided in this code.

(b) Every application for the renewal of an occupational license which expires pursuant to this section shall be made by the person to whom issued not more than 90 days prior to the expiration date, and shall be made by presenting the completed application form provided by the department and by payment of the full annual renewal fee for the occupational license.

(c) If the application for renewal of the occupational license is not made by midnight of the expiration date, the application may be made within 30 days following expiration of the license by paying the annual renewal fee and a penalty fee equal to the amount of the original application fee for each occupational license held.

(d) In no event may the licensee renew the occupational license after the expiration of the 30-day period authorized in subdivision (c).

The former licensee shall give the purchasing dealer a statement of facts stating that the seller is not a licensed dealer. Any vehicle on consignment with the dealer when the dealer ceased to be licensed may be sold at wholesale to a licensed dealer. Notice to Public: Inspection of Vehicle

“The prospective purchaser of a vehicle may, at his or her own expense and with the approval of the dealer, have the vehicle inspected by an independent third party either on or off these premises.”

Notice to Public: Contract Cancellation Option

11709.2. Every dealer shall conspicuously display a notice, not less than 8 inches high and 10 inches wide, in each sales office and sales cubicle of a dealer’s established place of business where written terms of specific sale or lease transactions are discussed with prospective purchasers or lessees, and in each room of a dealer’s established place of business where sale and lease contracts are regularly executed, which states the following:

“THERE IS NO COOLING-OFF PERIOD UNLESS YOU OBTAIN A CONTRACT CANCELLATION OPTION

California law does not provide for a ‘cooling-off’ or other cancellation period for vehicle lease or purchase contracts. Therefore, you cannot later cancel such a contract simply because you change your mind, decide the vehicle costs too much, or wish you had acquired a different vehicle. After you sign a motor vehicle purchase or lease contract, it may only be canceled with the agreement of the seller or lessor or for legal cause, such as fraud.

However, California law does require a seller to offer a 2-day contract cancellation option on used vehicles with a purchase price of less than $40,000, subject to certain statutory conditions. This contract cancellation option requirement does not apply to the sale of a recreational vehicle, a motorcycle, or an off-highway motor vehicle subject to identification under California law. See the vehicle contract cancellation option agreement for details.”

Advertising Requirements: Vehicles for Sale

11709.3. (a) Every dealer shall clearly and conspicuously display in its showroom at its established place of business, in a place that is easily accessible to prospective purchasers, a clear and conspicuous listing of each vehicle that the dealer has advertised for sale if the vehicle meets all of the following requirements:

(2) The vehicle is advertised at a specific price and is required pursuant to subdivision (a) of Section 11713.1 to be identified in the advertisement by its vehicle identification number or license number.

(3) The vehicle has not been sold or leased during the time that the advertised price is valid.

(4) The vehicle does not clearly and conspicuously have displayed on or in it the advertised price.

(b) The listing required by subdivision (a) may be satisfied by clearly and conspicuously posting in the showroom a complete copy of any print advertisement that includes vehicles currently advertised for sale or by clearly and conspicuously displaying in the showroom a list of currently advertised vehicles described by make, model, model-year, vehicle identification number, or license number, and the advertised price.

(4) A dealer shall not sell, consign for sale, or transfer any ownership interest in the vehicle purchased or obtained in trade until an amount necessary to discharge the prior credit or lease balance owing on the vehicle has been tendered to the lessor registered in accordance with Section 4453.5, or to the legal owner reflected on the ownership certificate, or to the designee of that lessor or legal owner of the vehicle purchased or obtained in trade.

(b) A dealer does not violate this section if the dealer reasonably and in good faith gives notice of rescission of the contract promptly, but no later than 21 days after the date on which the vehicle was purchased or obtained in trade, and the contract is thereafter rescinded on any of the grounds in Section 1689 of the Civil Code.

(4) A dealer shall not sell, consign for sale, or transfer any ownership interest in the vehicle purchased or obtained in trade until an amount necessary to discharge the prior credit or lease balance owing on the vehicle has been tendered to the lessor registered in accordance with Section 4453.5, or to the legal owner reflected on the ownership certificate, or to the designee of that lessor or legal owner of the vehicle purchased or obtained in trade.

(c) Liability under the bond is to remain at full value. If the amount of liability under the bond is decreased or there is outstanding a final court judgment for which the dealer or remanufacturer and sureties are liable, the dealer’s or remanufacturer’s license shall be automatically suspended. In order to reinstate the license and special plates, the licensee shall either file an additional bond or restore the bond on file to the original amount, or shall terminate the outstanding judgment for which the dealer or remanufacturer and sureties are liable.

(d) A dealer’s or remanufacturer’s license, or renewal of the license, shall not be issued to any applicant therefor, unless and until the applicant files with the department a good and sufficient instrument, in writing, in which the applicant appoints the director as the true and lawful agent of the applicant upon whom all process may be served in any action, or actions, which may thereafter be commenced against the applicant, arising out of any claim for damages suffered by any firm, person, association, or corporation, by reason of the violation of the applicant of any of the terms and provisions of this code or any condition of the dealer’s or remanufacturer’s bond. The applicant shall stipulate and agree in the appointment that any process directed to the applicant, when personal service of process upon the applicant cannot be made in this state after due diligence and, in that case, is served upon the director or, in the event of the director’s absence from the office, upon any employee in charge of the office of the director, shall be of the same legal force and effect as if served upon the applicant personally. The applicant shall further stipulate and agree, in writing, that the agency created by the appointment shall continue for and during the period covered by any license that may be issued and so long thereafter as the applicant may be made to answer in damages for a violation of this code or any condition of the bond. In any case where the licensees is served with process by service upon the director, one copy of the summons and complaint shall be left with the director or in the director’s office in Sacramento or mailed to the office of the director in Sacramento. A copy of the summons and complaint shall also be mailed by the plaintiff or the plaintiff’s attorney to the surety on the applicant’s bond at the address of the surety given in the bond, postpaid and registered with request for return receipt. The director shall keep a record of all process so served upon the director, which record shall show the day and hour of service and shall retain the summons and complaint so served on file. Where the licensees is served with process by service upon the director, the licensee shall have and be allowed 30 days from and after the service within which to answer any complaint or other pleading which may be filed in the cause. However, for purposes of venue, where the licensees is served with process by service upon the director, the service is deemed to have been made upon the licensee in the county in which the licensees has or last had an established place of business.

11712. (a) The department shall not issue a dealer’s license to any applicant therefor who has not an established place of business as defined in this code. Should the dealer change the site or location of his established place of business, he or she shall, immediately upon making that change, so notify the department. Should a dealer for any reason whatsoever, cease to be in possession of an established place of business from and on which he or she conducts the business for which he or she is licensed, he or she shall immediately notify the department and, upon demand by the department, shall deliver to the department the dealer’s license, dealer’s special plate or plates, and all report of sale books in his or her possession.
(b) Should the dealer change to, or add another franchise for the sale of new vehicles, or cancel or, for any cause whatever, otherwise lose a franchise for the sale of new vehicles, he or she shall immediately so notify the department.
(c) Any person licensed under this Article who has closed his or her established place of business may be served with process issued pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code by registered mail at that place of business or at the mailing address of record if different from the established place of business, unless the person has notified the department in writing of another address where service may be made.

Unlawful Acts

11713. (a) A holder of a license issued under this article shall not do any of the following:

(a) Make or disseminate, or cause to be made or disseminated, before the public in this state, in a newspaper or other publication, or in an advertising device, or by public outcry or proclamation, or in any other manner or means whatever, a statement that is untrue or misleading and is known, or by the exercise of reasonable care should be known, to be untrue or misleading; or to make or disseminate, or cause to be so disseminated, a statement as part of a plan or scheme with the intent not to sell a vehicle or service so advertised at the price stated therein, or as so advertised.

(b) (1) (A) Advertise or offer for sale or exchange in any manner, a vehicle not actually for sale at the premises of the dealer or available to the dealer directly from the manufacturer or distributor of the vehicle at the time of the advertisement or offer. However, a dealer who has been issued an autobroker’s endorsement to his or her dealer’s license may advertise his or her service of arranging or negotiating the purchase of a new motor vehicle from a franchised new motor vehicle dealer and may specify the line-makes and models of those new vehicles. Autobrokering service advertisements may not advertise the price or payment terms of a vehicle and shall disclose that the advertiser is an autobroker or auto buying service, and shall clearly and conspicuously state the downpayment by a loan in addition to any other loan or trade-in.

(B) As to printed advertisements, the disclosure statement required by subparagraph (A) shall be printed in not less than 10-point bold type size and shall be textually segregated from the other portions of the printed advertisement.

(2) Notwithstanding subparagraph (A), classified advertisements for autobrokering services that measure two column inches or less are exempt from the disclosure statement required in subparagraph (A).

(3) Radio advertisements of a duration of less than 11 seconds that do not reference specific line-makes or models of motor vehicles are exempt from the disclosure statement required in subparagraph (A).

(c) Fail, within 48 hours, to withdraw in writing an advertisement of a vehicle that has been sold or withdrawn from sale.

(g) Include, as an added cost to the selling price of a vehicle, an amount for licensing or transfer of title of the vehicle, which is not due to the state unless, prior to the sale, that amount has been paid by a dealer to the state in order to avoid penalties that would have accrued because of late payment of the fees. However, a dealer may collect from the second purchaser of a vehicle a prorated fee based upon the number of months remaining in the registration year for that vehicle, if the vehicle had been previously sold by the dealer and the sale was subsequently rescinded and all the fees that were paid, as required by this code and Chapter 2 (commencing with Section 10751) of Part 5 of Division 2 of the Revenue and Taxation Code, were returned to the first purchaser of the vehicle.

(h) Employ a person as a salesperson who has not been licensed pursuant to Article 2 (commencing with Section 11800), and whose license is not displayed on the premises of the dealer as required by Section 11812, or willfully fail to notify the department by mail within 10 days of the employment or termination of employment of a salesperson.

(i) Deliver, following the sale, a vehicle for operation on California highways, if the vehicle does not meet all of the equipment requirements of Division 12 (commencing with Section 24000). This subdivision does not apply to the sale of a leased vehicle to the lessee if the lessee is in possession of the vehicle immediately prior to the time of the sale and the vehicle is registered in this state.

(j) Use, or permit the use of, the special plates assigned to him or her for any purpose other than as permitted by Section 11715.

(k) Advertise or otherwise represent, or knowingly allow to be advertised or represented on behalf of, or at the place of business of, the licenseholder that no downpayment is required in connection with the sale of a vehicle when a downpayment is in fact required and the buyer is advised or induced to finance the downpayment by a loan in addition to any other loan financing the remainder of the purchase price of the vehicle. The terms “no downpayment,” “zero down delivers,” or similar terms shall not be advertised unless the vehicle will be sold to a qualified purchaser without a prior payment of any kind or trade-in.

(l) Participate in the sale of a vehicle required to be reported to the Department of Motor Vehicles under Section 5900 or 5901 without making the return and payment of the full sales tax due and required by Section 6451 of the Revenue and Taxation Code.

(m) Permit the use of the dealer’s license, supplies, or books by any other person for the purpose of permitting that person to engage in the purchase or sale of vehicles required to be registered under this code, or permit the use of the dealer’s license, supplies, or books to operate a branch location to be used by any other person, whether or not the licensee has any financial or equitable interest or investment in the vehicles purchased or sold by, or the business of, or branch location used by, the other person.

(n) Violate any provision of Article 10 (commencing with Section 28050) of Chapter 5 of Division 12.

(o) Sell a previously unregistered vehicle without disclosing in writing to the purchaser the date on which a manufacturer’s or distributor’s warranty commenced.

(b) Advertise the total price of a vehicle without including all costs to the purchaser at time of sale, except taxes, vehicle registration fees, the California tire fee, as defined in Section 42885 of the Public Resources Code, emission testing charges not exceeding fifty dollars ($50), actual fees charged for certificates pursuant to Section 44060 of the Health and Safety Code, finance charges, and any dealer document processing charge or charge to electronically register or transfer the vehicle.

(c) (1) Exclude from an advertisement of a vehicle for sale that there will be added to the advertised total price at the time of sale, or the California tire fee, the fee charged by the state for the issuance of a certificate of compliance or noncompliance pursuant to a statute, finance charges, a charge to electronically register or transfer the vehicle, and a dealer document processing charge.

(d) Represent the dealer document processing charge, electronic registration or transfer charge, or emission testing charge, as a governmental fee.

(e) Fail to sell a vehicle to a person at the advertised total price, exclusive of taxes, vehicle registration fees, the California tire fee, the fee charged by the state for the issuance of a certificate of compliance or noncompliance pursuant to a statute, finance charges, mobilehome escrow fees, the amount of a city, county, or city and county imposed fee or tax for a mobilehome, a dealer document processing charge, an electronic registration or transfer charge, and a charge for emission testing not to exceed fifty dollars ($50) plus the actual fees charged for certificates pursuant to Section 44060 of the Health and Safety Code, while the vehicle remains unsold, unless the advertisement states the advertised total price is good only for a specified time and the time has elapsed.

Advertised vehicles shall be sold at or below the advertised total price, with statutorily permitted exclusions, regardless of whether the purchaser has knowledge of the advertised total price.

(f) (1) Advertise for sale, sell, or purchase for resale a new vehicle of a line-make for which the dealer does not hold a franchise.

(2) This subdivision does not apply to a transaction involving the following:

(A) A mobilehome.

(B) A recreational vehicle as defined in Section 18010 of the Health and Safety Code.

(C) A commercial coach, as defined in Section 18001.8 of the Health and Safety Code.

(D) A manufactured home.

(E) A new vehicle that will be substantially altered or modified by a converter prior to resale.

(F) A vehicle purchased for export and imported outside the territorial limits of the United States without being registered with the department.
(i) A vehicle acquired in the ordinary course of business as a new vehicle by a dealer franchised to sell that vehicle, if all of the following apply:

(ii) The manufacturer or distributor of the vehicle files a bankruptcy petition.

(iii) The vehicle is held in the inventory of the dealer on the date the bankruptcy petition is filed.

(iv) The vehicle is sold by the dealer within six months of the date the bankruptcy petition is filed.

(3) Subparagraph (1) of paragraph (2) does not entitle a dealer whose franchise agreement has been terminated, canceled, or rejected to continue to perform warranty service repairs or continue to be eligible to offer or receive consumer or dealer incentives offered by the manufacturer or distributor.

(g) Sell a park trailer, as specified in Section 18009.3 of the Health and Safety Code, without disclosing in writing to the purchaser that a park trailer is required to be moved by a transporter or a licensed manufacturer or dealer under a permit issued by the Department of Transportation or a local authority with respect to highways under their respective jurisdictions.

(h) Advertise free merchandise, gifts, or services provided by a dealer contingent on the purchase of a vehicle. “Free” includes merchandise or services offered for sale at a price less than the seller’s cost of the merchandise or services.

(i) (1) Advertise vehicles, and related goods or services, at a specified dealer price, with the intent not to supply reasonably expectable demand, unless the advertisement discloses the number of vehicles in stock at the advertised price. In addition, whether or not there are sufficient vehicles in stock to supply a reasonably expectable demand, when phrases such as “starting at,” “from,” “beginning as low as,” or words of similar import are used in reference to an advertised price, the advertisement shall disclose the number of vehicles available at that advertised price.

(2) For purposes of this subdivision, in a newspaper advertisement for a vehicle that is two model-years old or newer, the actual phrase that states the number of vehicles in stock at the advertised price shall be printed in a type size that is at least equal to one-quarter of the type size, and in the same style and color of type, used for the advertised price. However, in no case shall the phrase be printed in less than 8-point type size, and the phrase shall be disclosed immediately above, below, or beside the advertised price without intervening words, pictures, marks, or symbols.

(3) The disclosure required by this subdivision is in addition to any other disclosure required by this code or any regulation regarding identifying vehicles advertised for sale.

(j) Use “rebate” or similar words, including, but not limited to, “cash back,” in advertising the sale of a vehicle unless the rebate is expressed in a specific dollar amount and is in fact a rebate offered by the vehicle manufacturer or distributor, a finance company affiliated with a vehicle manufacturer or distributor, a regulated utility, or a governmental entity directly to the retail purchaser of the vehicle or to the assignee of the retail purchaser.

(k) Require a person to pay a higher price for a vehicle and related goods or services for receiving advertised credit terms than the cash price the same person would have to pay to purchase the same vehicle and related goods or services. For the purpose of this subdivision, “cash price” has the same meaning as defined in subdivision (e) of Section 2981 of the Civil Code.

(l) Advertise a guaranteed trade-in allowance.

(m) Misrepresent the authority of a salesperson, representative, or agent to negotiate the final terms of a transaction.

(n) (1) Use “invoice,” “dealer’s invoice,” “wholesale price,” or similar terms that refer to a dealer’s cost for a vehicle in an advertisement for the sale of a vehicle or advertise that the selling price of a vehicle is above, below, or at either of the following:

(A) The manufacturer’s or distributor’s invoice price to a dealer.

(B) A dealer’s cost.

(2) This subdivision does not apply to either of the following:

(A) A communication occurring during face-to-face negotiations for the purchase of a specific vehicle if the prospective purchaser initiates a discussion of the vehicle’s invoice price or the dealer’s cost for that vehicle.

(B) A communication between a dealer and a prospective commercial purchaser that is not disseminated to the general public. For purposes of this subparagraph, a “commercial purchaser” means a dealer, lessor, lessor-retailer, manufacturer, remanufacturer, distributor, financial institution, governmental entity, or person who purchases 10 or more vehicles during a year.

(o) Violate a law prohibiting bait and switch advertising, including, but not limited to, the guides against bait advertising set forth in Part 238 (commencing with Section 238) of Title 16 of the Code of Federal Regulations, as those regulations read on January 1, 1988.

(p) Make an untrue or misleading statement indicating that a vehicle is equipped with all the factory-installed optional equipment the manufacturer offers, including, but not limited to, a false statement that a vehicle is “fully factory equipped.”

(q) Affix on a new vehicle a supplemental price sticker containing a price that represents the dealer’s asking price that exceeds the manufacturer’s suggested retail price unless all of the following occur:

(1) The supplemental sticker clearly and conspicuously discloses in the largest print appearing on the sticker, other than the print size used for the dealer’s name, that the supplemental sticker price is the dealer’s asking price, or words of similar import, and that it is not the manufacturer’s suggested retail price.

(2) The supplemental sticker clearly and conspicuously discloses the manufacturer’s suggested retail price.

(3) The supplemental sticker lists each item that is not included in the manufacturer’s suggested retail price, and discloses the additional price of each item. If the supplemental sticker price is greater than the sum of the manufacturer’s suggested retail price and the price of the items added by the dealer, the supplemental sticker price shall set forth that difference and describe it as “added mark-up.”
Advertise an underselling claim, including, but not limited to, “we have the lowest prices” or “we will beat any dealer’s price,” unless the dealer has conducted a recent survey showing that the dealer sells its vehicles at lower prices than another licensee in its trade area and maintains records to adequately substantiate the claims. The substantiating records shall be made available to the department upon request.

(s) (1) Advertise an incentive offered by the manufacturer or distributor if the dealer is required to contribute to the cost of the incentive as a condition of participating in the incentive program, unless the dealer discloses in a clear and conspicuous manner that dealer participation may affect consumer cost.

(2) For purposes of this subdivision, “incentive” means anything of value offered to induce people to purchase a vehicle, including, but not limited to, discounts, savings claims, rebates, below-market finance rates, and free merchandise or services.

(t) Display or offer for sale a used vehicle unless there is affixed to the vehicle the Federal Trade Commission’s Buyer’s Guide as required by Part 455 of Title 16 of the Code of Federal Regulations.

(u) Fail to disclose in writing to the franchisor of a new motor vehicle dealer the name of the purchaser, date of sale, and the vehicle identification number of each new motor vehicle sold of the line-make of that franchisor, or intentionally submit to that franchisor a false name for the purchaser or false date for the date of sale.

(v) Enter into a contract for the retail sale of a motor vehicle unless the contract clearly and conspicuously discloses whether the vehicle is being sold as a new vehicle or a used vehicle, as defined in this code.

(w) Use a simulated check, as defined in subdivision (a) of Section 22433 of the Business and Professions Code, in an advertisement for the sale or lease of a vehicle.

(x) Fail to disclose, in a clear and conspicuous manner in at least 10-point boldface type on the face of a contract for the retail sale of a new motor vehicle that this transaction is, or is not, subject to a fee received by an autobroker from the selling new motor vehicle dealer, and the name of the autobroker, if applicable.

(y) Sell or lease a new motor vehicle after October 1, 2012, unless the dealer has a contractual agreement with the department to be a private industry partner pursuant to Section 1685. This subdivision does not apply to the sale or lease of a motorcycle or off-highway motor vehicle subject to identification under Section 38010 or a recreational vehicle as defined in Section 38010 of the Health and Safety Code.

(z) As used in this section, “make” and “model” have the same meaning as is provided in Section (1) of Title 49 of the Code of Federal Regulations.

11713.2. It shall be unlawful and a violation of this code for any manufacturer, manufacturer branch, distributor, or distributor branch licensed under this code to coerce or attempt to coerce any dealer in this state:

(a) To order or accept delivery of any motor vehicle, part or accessory thereof, appliance, equipment or any other commodity not required by law which shall not have been voluntarily ordered by the dealer.

(d) To participate in an advertising campaign or contest, any promotional campaign, promotional materials, training materials, showroom or other display decorations or materials at the expense of the dealer.

(e) To enter into any agreement with the manufacturer, manufacturer branch, distributor, or distributor branch, or to do any other act prejudicial to the dealer by threatening to cancel a franchise or any contractual agreement existing between the dealer and manufacturer, manufacturer branch, distributor, or distributor branch. Notice in good faith to any dealer of the dealer’s violation of any terms or provisions of such franchise or contractual agreement shall not constitute a violation of this article.

Amended and renumbered Ch. 943, Stats. 1979. Effective January 1, 1980. Supersedes Ch. 373.

Additional Unlawful Acts; Vehicle Manufacturers and Distributors

11713.3. It is unlawful and a violation of this code for a manufacturer, manufacturer branch, distributor, or distributor branch licensed pursuant to this code to do, directly or indirectly through an affiliate, any of the following:

(a) To refuse or fail to deliver in reasonable quantities and within a reasonable time after receipt of an order from a dealer having a franchise for the retail sale of a new vehicle sold or distributed by the manufacturer or distributor, a new vehicle or parts or accessories to new vehicles as are covered by the franchise, if the vehicle, parts, or accessories are publicly advertised as being available for delivery or actually being delivered. This subdivision is not violated, however, if the failure is caused by acts or causes beyond the control of the manufacturer, manufacturer branch, distributor, or distributor branch.

(b) To prevent or require, or attempt to prevent or require, by contract or otherwise, a change in the capital structure of a dealership or the means by or through which the dealer finances the operation of the dealership, if the dealer at all times meets reasonable capital standards agreed to by the dealer and the manufacturer or distributor, and if a change in capital structure does not cause a change in the principal management or have the effect of a sale of the franchise without the consent of the manufacturer or distributor.

(c) To prevent or require, or attempt to prevent or require, a dealer to change the executive management of a dealership, other than the principal dealership operator or operators, if the franchise was granted to the dealer in reliance upon the personal qualifications of that person.
(d) (1) Except as provided in subdivision (t), to prevent or require, or attempt to prevent or require, by contract or otherwise, a dealer, an officer, partner, or stockholder of a dealership, the sale or transfer of a part of the interest of any of them to another person. A dealer, officer, partner, or stockholder shall not, however, have the right to sell, transfer, or assign the franchise, or a right thereunder, without the consent of the manufacturer or distributor except that the consent shall not be unreasonably withheld.

(2) (A) For the transferring franchisee to fail, prior to the sale, transfer, or assignment of a franchisee or the sale, assignment, or transfer of all, or substantially all, of the assets of the franchised business or a controlling interest in the franchised business to another person, to notify the manufacturer or distributor of the franchisee’s decision to sell, transfer, or assign the franchise. The notice shall be in writing and shall include all of the following:

(i) The proposed transferee’s name and address.

(ii) A copy of all of the agreements relating to the sale, assignment, or transfer of the franchised business or its assets.

(iii) The proposed transferee’s application for approval to become the successor franchisee. The application shall include forms and related information generally utilized by the manufacturer or distributor in reviewing prospective franchisees, if those forms are readily made available to existing franchisees. As soon as practicable after receipt of the proposed transferee’s application, the manufacturer or distributor shall notify the franchisee and the proposed transferee of information needed to make the application complete.

(B) For the manufacturer or distributor to fail, on or before 60 days after the receipt of all of the information required pursuant to subparagraph (A), or as extended by a written agreement between the manufacturer or distributor and the franchisee, to notify the franchisee of the approval or the disapproval of the sale, transfer, or assignment of the franchise. The notice shall be in writing and shall be personally served or sent by certified mail, return receipt requested, or by guaranteed overnight delivery service that provides verification of delivery and shall be directed to the franchisee. A proposed sale, assignment, or transfer shall be deemed approved, unless disapproved by the franchisor in the manner provided by this subdivision. If the proposed sale, assignment, or transfer is disapproved, the franchisor shall include in the notice of disapproval a statement setting forth the reasons for the disapproval.

(3) In an action in which the manufacturer’s or distributor’s withholding of consent under this subdivision or subdivision (e) is an issue, whether the withholding of consent was unreasonable is a question of fact requiring consideration of all the existing circumstances.

(e) To prevent, or attempt to prevent, a dealer from receiving fair and reasonable compensation for the value of the franchised business. There shall not be a transfer or assignment of the dealer’s franchise without the consent of the manufacturer or distributor, which consent shall not be unreasonably withheld or conditioned upon the release, assignment, novation, waiver, estoppel, or modification of a claim or defense by the dealer.

(f) To obtain money, goods, services, or another benefit from a person with whom the dealer does business, on account of, or in relation to, the transaction between the dealer and that other person, other than for compensation for services rendered, unless the benefit is promptly accounted for, and transmitted to, the dealer.

(g) (1) Except as provided in paragraph (3), to obtain from a dealer or enforce against a dealer an agreement, provision, release, assignment, novation, waiver, or estoppel that does any of the following:

(A) Modifies or disclaims a duty or obligation of a manufacturer, manufacturer branch, distributor, distributor branch, or representative, or a right or privilege of a dealer, pursuant to Chapter 4 (commencing with Section 11700) of Division 5 or Chapter 6 (commencing with Section 3000) of Division 2.

(B) Limits or constrains the right of a dealer to file, pursue, or submit evidence in connection with a protest before the board.

(C) Requires a dealer to terminate a franchise.

(D) Requires a controversy between a manufacturer, manufacturer branch, distributor, distributor branch, or representative and a dealer to be referred to a person for a binding determination. However, this subparagraph does not prohibit arbitration before an independent arbitrator, provided that whenever a motor vehicle franchise contract provides for the use of arbitration to resolve a controversy arising out of, or relating to, that contract, arbitration may be used to settle the controversy only if, after the controversy arises, all parties to the controversy consent in writing to use arbitration to settle the controversy. For the purpose of this subparagraph, the terms “motor vehicle” and “motor vehicle franchise contract” shall have the same meaning as defined in Section 1226 of Title 15 of the United States Code. If arbitration is elected to settle a dispute under a motor vehicle franchise contract, the arbitrator shall provide the parties to the arbitration with a written explanation of the factual and legal basis for the award.

(2) An agreement, provision, release, assignment, novation, waiver, or estoppel prohibited by this subdivision shall be unenforceable and void.

(3) This subdivision does not do any of the following:

(A) Limit or restrict the terms upon which parties to a protest before the board, civil action, or other proceeding can settle or resolve, or stipulate to evidentiary or procedural matters during the course of, a protest, civil action, or other proceeding.

(B) Affect the enforceability of any stipulated order or other order entered by the board.

(C) Affect the enforceability of any provision in a contract if the provision is not prohibited under this subdivision or any other law.

(D) Affect the enforceability of a provision in any contract entered into on or before December 31, 2011.

(E) Prohibit a dealer from waiving its right to file a protest pursuant to Section 3065.1 if the waiver agreement is entered into after a franchisor incentive program claim has been disapproved by the franchisor and the waiver is voluntarily given as part of an agreement to settle that claim.
§11713.3

(F) Prohibit a voluntary agreement supported by valuable consideration, other than granting or renewing a franchise, that does both of the following:

(i) Provides that a dealer establish or maintain exclusive facilities, personnel, or display space or provides that a dealer make a material alteration, expansion, or addition to a dealership facility.

(ii) Contains no waiver or other provision prohibited by subparagraph (A), (B), (C), or (D) of paragraph (1).

(G) Prohibit an agreement separate from the franchise agreement that implements a dealer’s election to terminate the franchise if the agreement is conditioned only on a specified time for termination or payment of consideration to the dealer.

(H)(i) Prohibit a voluntary waiver agreement, supported by valuable consideration, other than the consideration of renewing a franchise, to waive the right of a dealer to file a protest under Section 3062 for the proposed establishment or relocation of a specific proposed dealership, if the waiver agreement provides all of the following:

(I) The approximate address at which the proposed dealership will be located.

(II) The planning potential used to establish the proposed dealership’s facility, personnel, and capital requirements.

(III) An approximation of projected vehicle and parts sales, and number of vehicles to be serviced at the proposed dealership.

(IV) Whether the franchisor or affiliate will hold an ownership interest in the proposed dealership or real property of the proposed dealership, and the approximate percentage of any franchisor or affiliate ownership interest in the proposed dealership.

(V) The line-makes to be operated at the proposed dealership.

(VI) If known at the time the waiver agreement is executed, the identity of the dealer who will operate the proposed dealership.

(VII) The date the waiver agreement is to expire, which may not be more than 30 months after the date of execution of the waiver agreement.

(ii) Notwithstanding the provisions of a waiver agreement entered into pursuant to the provisions of this subparagraph, a dealer may file a protest under Section 3062 if any of the information provided pursuant to clause (i) has become materially inaccurate since the waiver agreement was executed. Any determination of the enforceability of a waiver agreement shall be determined by the board and the franchisor shall have the burden of proof.

(h) To increase prices of motor vehicles that the dealer had ordered for private retail consumers prior to the dealer’s receipt of the written official price increase notification. A sales contract signed by a private retail consumer is evidence of the order. In the event of manufacturer price reductions, the amount of the reduction received by a dealer shall be passed on to the private retail consumer by the dealer if the retail price was negotiated on the basis of the previous higher price to the dealer. Price reductions apply to all vehicles in the dealer’s inventory that were subject to the price reduction. Price differences applicable to new model or series motor vehicles at the time of the introduction of new models or series shall not be considered a price increase or price decrease. This subdivision does not apply to price changes caused by either of the following:

(1) The addition to a motor vehicle of required or optional equipment pursuant to state or federal law.

(2) Revaluation of the United States dollar in the case of a foreign-make vehicle.

(i) To fail to pay to a dealer, within a reasonable time following receipt of a valid claim by a dealer thereof, a payment agreed to be made by the manufacturer or distributor to the dealer by reason of the fact that a new vehicle of a prior year model is in the dealer’s inventory at the time of introduction of new model vehicles.

(j) To deny the widow, widower, or heirs designated by a deceased owner of a dealership the opportunity to participate in the ownership of the dealership or successor dealership under a valid franchise for a reasonable time after the death of the owner.

(k) To offer refunds or other types of inducements to a person for the purchase of new motor vehicles of a certain line-make to be sold to the state or a political subdivision of the state without making the same offer to all other dealers in the same line-make within the relevant market area.

(l) To modify, replace, enter into, relocate, terminate, or refuse to renew a franchise in violation of Article 4 (commencing with Section 3060) of Chapter 6 of Division 2.

(m) To employ a person as a representative who has not been licensed pursuant to Article 3 (commencing with Section 11900) of Chapter 4 of Division 5.

(n) To deny a dealer the right of free association with another dealer for a lawful purpose.

(o) (1) To compete with a dealer in the same line-make operating under an agreement or franchise from a manufacturer or distributor in the relevant market area.

(2) A manufacturer, branch, or distributor or an entity that controls or is controlled by, a manufacturer, branch, or distributor, shall not, however, be deemed to be competing in the following limited circumstances:

(A) Owning or operating a dealership for a temporary period, not to exceed one year at the location of a former dealership of the same line-make that has been out of operation for less than six months. However, after a showing of good cause by a manufacturer, branch, or distributor that it needs additional time to operate a dealership in preparation for sale to a successor independent franchisee, the board may extend the time period.

(B) Owning an interest in a dealer as part of a bona fide dealer development program that satisfies all of the following requirements:

(i) The sole purpose of the program is to make franchises available to persons lacking capital, training, business experience, or other qualities ordinarily required of prospective franchisees and the dealer development candidate is an individual who is unable to acquire the franchise without assistance of the program.

(ii) The dealer development candidate has made a significant investment subject to loss in the franchised business of the dealer.

(iii) The program requires the dealer development candidate to manage the day-to-day operations and business affairs of the dealer and to acquire, within a reasonable time and on
reasonable terms and conditions, beneficial ownership and control of a majority interest in the dealer and disassociation of any direct or indirect ownership or control by the manufacturer, branch, or distributor.

(C) Owning a wholly owned subsidiary corporation of a distributor that sells motor vehicles at retail, if, for at least three years prior to January 1, 1973, the subsidiary corporation has been a wholly owned subsidiary of the distributor and engaged in the sale of vehicles at retail.

(3) (A) A manufacturer, branch, and distributor that owns or operates a dealership in the manner described in subparagraph (A) of paragraph (2) shall give written notice to the board, within 10 days, each time it commences or terminates operation of a dealership and each time it acquires, changes, or divests itself of an ownership interest.

(t) To exercise a right of first refusal or other right requiring a franchisee or an owner of the franchise to sell, transfer, or assign to the franchisor, or to a nominee of the franchisor, all the terms and conditions of the agreement or agreements to sell, transfer, or assign the franchised business.

(4) The proposed transferee is neither a family member of an owner of the franchised business, nor a managerial employee of the franchisee owning 15 percent or more of the franchised business, nor a corporation, partnership, or other legal entity owned by the existing owners of the franchised business. For purposes of this paragraph, a “family member” means the spouse of an owner of the franchised business, the child, grandchild, brother, sister, or parent of an owner, or a spouse of one of those family members. This paragraph does not limit the rights of the franchisor to disapprove a proposed transferee as provided in subdivision (d).

(5) Upon the franchisor’s exercise of the right of first refusal, the consideration paid by the franchisor to the franchisee and owners of the franchised business shall equal or exceed all consideration that each of them were to have received under the terms of, or in connection with, the proposed sale, assignment, or transfer, and the franchisor shall comply with all the terms and conditions of the agreement or agreements to sell, transfer, or assign the franchised business.

These expenses include, but are not limited to, legal and accounting expenses, and expenses incurred for title reports and environmental or other investigations of real property on which the franchisee’s operations are conducted. The proposed transferee shall provide the franchisor a written itemization of those expenses, and a copy of all nonprivileged reports and studies for which expenses were incurred, if any, within 30 days of the proposed transferee’s receipt of a written request from the franchisor for that accounting. The franchisor shall make payment within 30 days of exercising the right of first refusal.

(ii) A vehicle, part, or accessory that is not made available to each franchisee on comparable delivery terms, including the time of delivery after the placement of an order. Differences in delivery terms due to geographic distances or other factors beyond the control of the manufacturer, branch, or distributor shall not constitute unfair competition.

(iii) Information obtained from a franchisee by the manufacturer, branch, or distributor concerning the business affairs or operations of a franchisee in which the manufacturer, branch, or distributor does not have an ownership interest. The information includes, but is not limited to, information

This clause does not apply if the information is provided pursuant to a subpoena or court order, or to aggregated information made available to all franchisees.

(v) Sales or service incentives, discounts, or promotional programs that are not made available to all California franchises of the same line-make on an equal basis.

(ii) Monitor specific data accessed from or written to the dealer’s computer system.

(2) Paragraph (1) does not limit a duty that a dealer may have to safeguard the security and privacy of records maintained by the dealer.

(x) (1) To unfairly discriminate against a franchisee selling a service contract, debt cancellation agreement, maintenance agreement, or similar product not approved, endorsed, sponsored, or offered by the manufacturer, manufacturer branch, distributor, or distributor branch or affiliate. (A) Express or implied statements that the dealer is under an obligation to exclusively sell or offer to sell service contracts, debt cancellation agreements, or similar products approved, endorsed, sponsored, or offered by the manufacturer, manufacturer branch, distributor, or distributor branch or affiliate.

(B) Express or implied statements that selling or offering to sell service contracts, debt cancellation agreements, maintenance agreements, or similar products not approved, endorsed, sponsored, or offered by the manufacturer, manufacturer branch, distributor, or distributor branch or affiliate, would give that franchisee or dealer a competitive advantage. (D) Referring a prospective purchaser or lessee to a dealer in which a manufacturer, branch, or distributor has an ownership interest, unless the prospective purchaser or lessee resides in the area of responsibility assigned to that dealer or the prospective purchaser or lessee requests to be referred to that dealer.

If the dealer causes the vehicle to be registered in this or any other state, and collects or causes to be collected any applicable sales or use tax due to this state, a rebuttable presumption is established that the dealer did not have reason to know of the customer’s intent to export or resell the vehicle.

(c) As used in this section, “area of responsibility” is a geographic area specified in a franchise that is used by the franchisor for the purpose of evaluating the franchisee’s performance of its sales and service obligations.

The licensee shall retain a copy of the form, which shall be signed by the purchaser prior to entering into any sales contract, indicating that the purchaser has received a copy of the form.

(a) Prevent, or attempt to prevent, by contract or otherwise, a dealer from acquiring, adding, or maintaining a sales or service operation for another line-make of motor vehicles at the same or expanded facility at which the dealer currently operates a dealership if the dealer complies with any reasonable facilities and capital requirements of the manufacturer or distributor.

(b) Require a dealer to establish or maintain exclusive facilities, personnel, or display space if the imposition of the requirement would be unreasonable in light of all existing circumstances, including economic conditions. In any proceeding in which the reasonableness of a facility or capital requirement is an issue, the manufacturer or distributor shall have the burden of proof.

(c) Require, by contract or otherwise, a dealer to make a material alteration, expansion, or addition to any dealership facility, unless the required alteration, expansion, or addition is reasonable in light of all existing circumstances, including economic conditions and advancements in vehicular technology. This subdivision does not limit the obligation of a dealer to comply with any applicable health or safety laws.

(1) A required facility alteration, expansion, or addition shall not be deemed reasonable if it requires that the dealer purchase goods or services from a specific vendor when goods or services of substantially similar kind, quality, and general design concept are available from another vendor. Notwithstanding the prohibitions in this paragraph, a manufacturer, manufacturer branch, distributor, or distributor branch may require the dealer to request approval for the use of alternative goods or services in writing. Approval for these requests shall not be unreasonably withheld, and the request shall be deemed approved if not specifically denied in writing within 20 business days of receipt of the dealer's written request. This paragraph only applies to new and unused recreational vehicles that do not currently have or have had in the past, material damage, as defined in Section 9990, and that the dealer acquired from the manufacturer, distributor, or another new motor vehicle dealer franchised to sell recreational vehicles of the same line-make in the ordinary course of business within 12 months of the termination, cancellation, or nonrenewal of the franchise.

(B) For those recreational vehicles with odometers, paragraph (1) shall apply to only those vehicles that have no more than 1,500 miles on the odometer, in addition to the number of miles incurred while delivering the vehicle from the manufacturer’s facility that produced the vehicle for delivery to the dealer’s retail location.

(C) Damaged recreational vehicles shall be repurchased by the manufacturer provided there is an offset in value for damages, except recreational vehicles that have or had material damage, as defined in Section 9990, may be repurchased at the manufacturer’s option provided there is an offset in value for damages.

(B) The fair market value of each undamaged sign owned by the motor vehicle dealer and bearing a common name, trade name, or trademark of the manufacturer or distributor if acquisition of the sign was required or made a condition of participation in an incentive program by the manufacturer or distributor.

(C) The fair market value of all special tools, computer systems, and equipment that were required or made a condition of participation in an incentive program by the manufacturer or distributor that are in usable condition, excluding normal wear and tear.

(D) The dealer costs of handling, packing, loading, and transporting any items or inventory for repurchase by the manufacturer or distributor.

(f) (1) Fail, upon demand, to indemnify any existing or former franchisee and the franchisee’s successors and assigns from any and all damages sustained and attorney’s fees and other expenses reasonably incurred by the franchisee that result from or relate to any claim made or asserted by a third party against the franchisee to the extent the claim results from any of the following:

(A) The condition, characteristics, manufacture, assembly, or design of any vehicle, parts, accessories, tools, or equipment, or the selection or combination of parts or components manufactured or distributed by the manufacturer or distributor.

(B) Service systems, procedures, or methods the franchisor required or recommended the franchisee to use if the franchisee properly uses the system, procedure, or method.

(C) Improper use or disclosure by a manufacturer or distributor of nonpublic personal information obtained from a franchisee concerning any consumer, customer, or employee of the franchisee.

(D) Any act or omission of the manufacturer or distributor for which the franchisee would have a claim for contribution or indemnity under applicable law or under the franchise, irrespective of and without regard to any prior termination or expiration of the franchise.

(2) This subdivision does not limit, in any way, the existing rights, remedies, or recourses available to any person who purchases or leases vehicles at retail.

(g) (1) Establish or maintain a performance standard, sales objective, or program for measuring a dealer’s sales, service, or customer service performance that may materially affect the dealer, including, but not limited to, the dealer’s right to payment under any incentive or reimbursement program or establishment of working capital requirements, unless both of the following requirements are satisfied:

(ii) Geographical and market characteristics in the dealer’s area of responsibility.

(iii) The availability and allocation of vehicles and parts inventory.

(iv) Local and statewide economic circumstances.

(v) Historical sales, service, and customer service performance of the line-make within the dealer’s area of responsibility, including vehicle brand preferences of consumers in the dealer’s area of responsibility.

(B) Within 30 days after a request by the dealer, the manufacturer, manufacturer branch, distributor, distributor branch, or affiliate provides a written summary of the methodology and data used in establishing the performance standard, sales objective, or program for measuring dealership sales or service performance. The summary shall be in detail sufficient to permit the dealer to determine how the standard was established and applied to the dealer.

(2) In any proceeding in which the reasonableness of a performance standard, sales objective, or program for measuring dealership sales, service, or customer service performance is an issue, the manufacturer, manufacturer branch, distributor, distributor branch, or affiliate shall have the burden of proof.

(3) As used in this subdivision, “area of responsibility” shall have the same meaning as defined in subdivision (x) of Section 11713.3.

(C) Not less than 10 days prior to the conduct of the show, the department receives at least 10 applications for temporary branch licenses together at one of the department’s field offices.

(b) (1) Any advertising and promotional materials designed to attract the public to attend a show of recreational vehicles where there are nine or fewer dealers participating shall include the business name of each participating dealer and that dealer’s established place of business in a type size that is equivalent to the second largest type used in the advertisement or promotional materials. This information shall be placed at the top of any advertisement or promotional materials.

(2) If the recreational vehicles being offered for sale are used, the word “used” shall immediately precede the identification of the make of the vehicle or be immediately adjacent to the depiction of any used vehicles.

(3) In addition, the promoters of the show shall cause a sign to be conspicuously displayed at the major, public entrance to the show, printed in 50 point type, containing the information required in paragraph (1).

(c) A recreational vehicle dealer participating in a show for which a temporary branch license is required shall provide each buyer, prior to the sale of any vehicle at the show, a written statement disclosing the identity and the established business location of the dealer that has agreed to render service or warranty work with respect to the vehicle being purchased by the buyer, and if there is no agreement with any dealer to render the service or warranty, to state that fact.

(d) Paragraphs (2) and (3) of subdivision (a) and subdivision (b) do not apply to a dealer participating in an annual show sponsored by a national trade association of recreational vehicle manufacturers, the show is located in a county with a population of 6,000,000 or more persons, and at least 25 manufacturers are participating in the show, and, if the dealer is otherwise eligible to participate in the show, the department shall issue a temporary branch license if all the following occur:

Vehicle Sales: Unlawful Advertising

§11713.16. It is a violation of this code for the holder of any dealer’s license issued under this () article to do any of the following:

(a) Advertise any used vehicle of the current or prior model-year without expressly disclosing the vehicle as “used,” “previously owned,” or a similar term that indicates that the vehicle is used, as defined in this code.

(b) Use the terms “on approved credit” or “on credit approval” in an advertisement for the sale of a vehicle unless those terms are clearly and conspicuously disclosed and unabbreviated.

(c) Advertise an amount described by terms such as “unpaid balance” or “balance can be financed” unless the total sale price is clearly and conspicuously disclosed and in close proximity to the advertised balance.

(d) Advertise credit terms that fail to comply with the disclosure requirements of Section 226.24 of Title 12 of the Code of Federal Regulations. Advertisements of terms that include escalated payments, balloon payments, or deferred downpayments shall clearly and conspicuously identify those payments as to amounts and time due.

(e) Advertise as the total sales price of a vehicle an amount that includes a deduction for a rebate. However, a dealer may advertise a separate amount that includes a deduction for a
rebate provided that the advertisement clearly and conspicuously discloses, in close proximity to the amount advertised, the price of the vehicle before the rebate deduction and the amount of the rebate, each so identified. **A dealer may not advertise a rebate deduction that conflicts with another advertised rebate deduction.**

(f) Advertise claims such as “everyone financed,” “no credit rejected,” or similar claims unless the dealer is willing to extend credit to any person under any and all circumstances.

(g) Advertise the amount of any downpayment unless it represents the total payment required of a purchaser prior to delivery of the vehicle, including any payment for sales tax or license. Statements such as “$______ delivers,” “$______ puts you in a new car” are examples of advertised downpayments.

(h) Advertise the price of a new vehicle or class of new vehicles unless the vehicle or vehicles have all of the equipment listed as standard by the manufacturer or distributor or the dealer has replaced the standard equipment with equipment of higher value.

(i) Fail to clearly and conspicuously disclose in an advertisement for the sale of a vehicle any disclosure required by this code or any qualifying term used in conjunction with advertised credit terms. Unless otherwise provided by statute, the specific size of disclosures or qualifying terms is not prescribed.

(4) The vehicle has sustained damage in an impact, fire, or flood, that after repair prior to sale substantially impairs the use or safety of the vehicle.

(5) The dealer knows or should have known that the vehicle has sustained frame damage.

(6) Prior to sale, the dealer fails to provide the buyer with a completed inspection report indicating all the components inspected.

(7) The dealer disclaims any warranties of merchantability on the vehicle.

(b) Subdivision (a) does not apply to the sale or lease of a motorcycle or an off-highway motor vehicle subject to identification under Section 38010.

7. The date the credit score was created.
8. The name of the consumer reporting agency or other person that provided each credit score obtained and used by the dealer.
9. A statement that the consumer is encouraged to verify the accuracy of the information contained in the consumer report and has the right to dispute any inaccurate information in the report.

Amended Sec. 3, Ch. 483, Stats. 2010. Effective January 1, 2011.

Used Vehicle Sale: Contract Cancellation Option

11713.21. (a) (1) A dealer shall not sell a used vehicle, as defined in Section 665 and subject to registration under this code, at retail to an individual for personal, family, or household use without offering the buyer a contract cancellation option agreement that allows the buyer to return the vehicle without cause. This section does not apply to a used vehicle having a purchase price of forty thousand dollars ($40,000) or more, a motorcycle, as defined in Section 400, or a recreational vehicle, as defined in Section 665 and subject to registration under this code, at retail to an individual for personal, family, or household use.

(2) The purchase price for the contract cancellation option shall not exceed the following:

A. Seventy-five dollars ($75) for a vehicle with a cash price of five thousand dollars ($5,000) or less.
B. One hundred fifty dollars ($150) for a vehicle with a cash price of more than five thousand dollars ($5,000), but not more than ten thousand dollars ($10,000).
C. Two hundred fifty dollars ($250) for a vehicle with a cash price of more than ten thousand dollars ($10,000), but not more than thirty thousand dollars ($30,000).
D. One percent of the purchase price for a vehicle with a cash price of more than thirty thousand dollars ($30,000), but less than forty thousand dollars ($40,000).

The term “cash price” as used in this paragraph has the same meaning as described in subparagraph (A) of paragraph (1) of subdivision (a) of Section 2982 of the Civil Code. “Cash price” also excludes registration, transfer, titling, and license fees, the California tire fee, and any charge to electronically register or transfer the vehicle.

(b) To comply with subdivision (a), and notwithstanding Section 2981.9 of the Civil Code, a contract cancellation option agreement shall be contained in a document separate from the conditional sales contract or other vehicle purchase agreement and shall contain, at a minimum, the following:

1. The name of the seller and the buyer.
2. A description and the Vehicle Identification Number of the vehicle purchased.
§11713.21
—260—

(3) A statement specifying the time within which the buyer must exercise the right to cancel the purchase under the contract cancellation option and return the vehicle to the dealer. The dealer shall not specify a time that is earlier than the dealer’s close of business on the second day following the day on which the vehicle was originally delivered to the buyer by the dealer.

(4) A statement that clearly and conspicuously specifies the dollar amount of any restocking fee the buyer must pay to the dealer to exercise the right to cancel the purchase under the contract cancellation option. The restocking fee shall not exceed one hundred seventy-five dollars ($175) if the vehicle’s cash price is five thousand dollars ($5,000) or less, three hundred fifty dollars ($350) if the vehicle’s cash price is less than ten thousand dollars ($10,000), and five hundred dollars ($500) if the vehicle’s cash price is ten thousand dollars ($10,000) or more. The dealer shall apply toward the restocking fee the price paid by the buyer for the contract cancellation option. The price for the purchase of the contract cancellation option is not otherwise subject to setoff or refund.

(5) Notwithstanding paragraph (4), when a buyer, who leased the purchased vehicle immediately preceding the dealer’s sale of the vehicle to the buyer, exercises the contract cancellation option, the limit on the amount of a restocking fee required to be paid by the buyer shall be increased. That increased amount shall be the amount the buyer would have been obligated to pay the lessor, at the time of the termination of the lease, for the following charges, as specified in the lease, and as if the buyer had not purchased the contract cancellation option:

(A) Excess mileage.

(B) Unrepaired damage.

(C) Excess wear and tear.

(6) A statement specifying the maximum number of miles that the vehicle may be driven after its original delivery by the dealer to the buyer to remain eligible for cancellation under the contract cancellation option. A dealer shall not specify fewer than 250 miles in the contract cancellation option agreement.

(7) A statement that the contract cancellation option gives the buyer the right to cancel the purchase and obtain a full refund, minus the purchase price for the contract cancellation option agreement; and that the right to cancel will apply only if, within the time specified in the contract cancellation option agreement, the following are personally delivered to the selling dealer by the buyer: a written notice exercising the right to cancel the purchase signed by the buyer; any restocking fee specified in the contract cancellation option agreement minus the purchase price for the contract cancellation option agreement; the original contract cancellation option agreement and vehicle purchase contract and related documents, if the seller gave those original documents to the buyer; all original vehicle titling and registration documents, if the seller gave those original documents to the buyer; and the vehicle, free of all liens and encumbrances, other than any lien or encumbrance created by or incidental to the conditional sales contract, any loan arranged by the dealer, or any purchase money loan obtained by the buyer from a third party, and in the same condition as when it was delivered by the dealer to the buyer, reasonable wear and tear and any defect or mechanical problem that manifests or becomes evident after delivery that was not caused by the buyer excepted, and which must not have been driven beyond the mileage limit specified in the contract cancellation option agreement. The agreement may also provide that the buyer will execute documents reasonably necessary to effectuate the cancellation and refund and as reasonably required to comply with applicable law.

(8) At the bottom of the contract cancellation option agreement, a statement that may be signed by the buyer to indicate the buyer’s election to exercise the right to cancel the purchase under the terms of the contract cancellation option agreement, and the last date and time by which the option to cancel may be exercised, followed by a line for the buyer’s signature. A particular form of statement is not required, but the following statement is sufficient: “By signing below, I elect to exercise my right to cancel the purchase of the vehicle described in this agreement.” The buyer’s delivery of the purchase cancellation agreement to the dealer with the buyer’s signature following this statement shall constitute sufficient written notice exercising the right to cancel the purchase pursuant to paragraph (6). The dealer shall provide the buyer with the statement required by this paragraph in duplicate to enable the buyer to return the signed cancellation notice and retain a copy of the cancellation agreement.

(9) If, pursuant to paragraph (5), the limit on the restocking fee is increased by the amount the buyer, who exercises a contract cancellation option would have been obligated to pay the lessor, upon termination of the lease, for charges for excess mileage, unrepaired damage, or excess wear and tear, as specified in the lease, the dealer shall provide the buyer with a notice of the contents of paragraph (5), including a statement regarding the increased restocking fee.

(c) (1) No later than the second day following the day on which the buyer exercises the right to cancel the purchase in compliance with the contract cancellation option agreement, the dealer shall cancel the contract and provide the buyer with a full refund, including that portion of the sales tax attributable to amounts excluded pursuant to Section 6012.3 of the Revenue and Taxation Code.

(2) If the buyer was not charged for the contract cancellation option agreement, the dealer shall return to the buyer, no later than the day following the day on which the buyer exercises the right to cancel the purchase, any motor vehicle the buyer left with the seller as a downpayment or trade-in. If the dealer has sold or otherwise transferred title to the motor vehicle that was left as a downpayment or trade-in, the full refund described in paragraph (1) shall include the fair market value of the motor vehicle left as a downpayment or trade-in, or its value as stated in the contract or purchase order, whichever is greater.

(3) If the buyer was charged for the contract cancellation option agreement, the dealer shall retain any motor vehicle the buyer left with the dealer as a downpayment or trade-in until the buyer exercises the right to cancel the purchase, or until the right to cancel expires. If the buyer exercises the right to cancel the purchase, the dealer shall return to the buyer, no later than the day following the day on which the buyer exercises the right to cancel the purchase, any motor vehicle the buyer left with the seller as a downpayment or trade-in. If the dealer has inadvertently sold or otherwise transferred title to the motor vehicle as the result of a bona fide error, notwithstanding
reasonable procedures designed to avoid that error, the inadvertent sale or transfer of title shall not be deemed a violation of this paragraph, and the full refund described in paragraph (1) shall include the retail market value of the motor vehicle left as a downpayment or trade-in, or its value as stated in the contract or purchase order, whichever is greater.

(d) If the dealer received a portion of the purchase price by credit card, or other third-party payer on the buyer’s account, the dealer may refund that portion of the purchase price to the credit card issuer or third-party payer for credit to the buyer’s account.

(e) Notwithstanding subdivision (a), a dealer is not required to offer a contract cancellation option agreement to an individual who exercised his or her right to cancel the purchase of a vehicle from the dealer pursuant to a contract cancellation option agreement during the immediately preceding 30 days. A dealer is not required to give notice to a subsequent buyer of the return of a vehicle pursuant to this section. This subdivision does not abrogate or limit any disclosure obligation imposed by any other law.

(f) This section does not affect or alter the legal rights, duties, obligations, or liabilities of the buyer, the dealer, or the dealer’s agents or assigns, that would exist in the absence of a contract cancellation option agreement. The buyer is the owner of a vehicle when he or she takes delivery of a vehicle until the vehicle is returned to the dealer pursuant to a contract cancellation option agreement, and the existence of a contract cancellation option agreement shall not impose permissive user liability on the dealer, or the dealer’s agents or assigns, under Section 460 or 17150 or otherwise.

(g) This section does not affect the ability of a buyer to rescind the contract or revoke acceptance under any other law.

(h) This section shall become operative on July 1, 2012.

(b) Notwithstanding Section 331.3, a recreational vehicle franchise described in this section shall include, but not be limited to, provisions regarding dealership transfer, dealership termination, sales territory, and reimbursement for costs incurred by the dealer for work related to the manufacturer’s warranty for each line-make of recreational vehicle covered by the agreement.

(c) This section applies only to a dealer and manufacturer agreement involving recreational vehicles, as defined in subdivision (a) of Section 18010 of the Health and Safety Code, but does not include an agreement with a dealer who deals exclusively in truck campers.

(a) A recreational vehicle manufacturer, manufacturer branch, distributor, or distributor branch licensed under this code shall not sell a new recreational vehicle in this state to or through a recreational vehicle dealer without having first entered into a written recreational vehicle franchise with that recreational vehicle dealer, that complies with the requirements of Section 331.3 and that has been signed by both parties.

(b) A recreational vehicle dealer shall not sell a new recreational vehicle in this state without having first entered into a written recreational vehicle franchise, that complies with the requirements of Section 331.3, with a recreational vehicle manufacturer, manufacturer branch, distributor, or distributor branch licensed under this code, that has been signed by both parties.

(c) (1) A recreational vehicle manufacturer, manufacturer branch, distributor, or distributor branch shall not ship a new recreational vehicle to a recreational dealer on or after January 1, 2009, without a recreational vehicle franchise that has been signed by both parties.

(2) A recreational vehicle dealer shall not receive a new recreational vehicle from a recreational vehicle manufacturer, manufacturer branch, distributor, or distributor branch on or after January 1, 2009, without a recreational vehicle franchise that has been signed by both parties.

(d) Any new recreational vehicle inventory that has been purchased by a recreational vehicle dealer, or shipped by a manufacturer, manufacturer branch, distributor, or distributor branch, before January 1, 2009, may be sold at any time without a recreational vehicle franchise.

(e) This section applies only to a dealer and manufacturer agreement involving recreational vehicles, as defined in subdivision (a) of Section 18010 of the Health and Safety Code, but does not include an agreement with a dealer who deals exclusively in truck campers.

11713.25. (a) A computer vendor shall not do any of the following:

(1) Access, modify, or extract information from a confidential dealer computer record or personally identifiable consumer data from a dealer without first obtaining express written consent from the dealer and without maintaining administrative, technical, and physical safeguards to protect the security, confidentiality, and integrity of the information.

(2) (A) Except as provided in subparagraph (B), require a dealer as a condition of doing or continuing to do business, to give express consent to perform the activities specified in paragraph (1).

(a) Use electronic, contractual, or other means to prevent or interfere with the lawful efforts of a dealer to comply with federal and state data security and privacy laws and to maintain the security, integrity, and confidentiality of confidential dealer computer records, including, but not limited to, the ability of a dealer to monitor specific data accessed from or written to the dealer computer system. Waiver of this subdivision or purported consents authorizing the activities proscribed by the subdivision is void.

(b) A dealer shall have the right to prospectively revoke an express consent by providing a 10-day written notice to the computer vendor to whom the consent was provided or on any shorter period of notice agreed to by the computer vendor and the dealer. §11713.26. (a) A dealer shall not display or offer for sale at retail a used vehicle, as defined in Section 665 and subject to registration under this code, unless the dealer first obtains a NMVTIS vehicle history report from a NMVTIS data provider for the vehicle identification number of the vehicle.

(b) If a NMVTIS vehicle history report for a used vehicle indicates that the vehicle is or has been a junk automobile or a salvage automobile or the vehicle has been reported as a junk automobile or a salvage automobile by a junk yard, salvage yard, or insurance carrier pursuant to Section 30504 of Title 49 of the United States Code, or the certificate of title contains a brand, a dealer shall do both of the following:

Because of its history as a junk, salvage, or title-branded vehicle, the manufacturer’s warranty or service contract on this vehicle may be affected. Ask the dealer to see a copy of the NMVTIS vehicle history report. You may independently obtain the report by checking NMVTIS online at www.vehiclehistory.gov.”

(2) Provide the retail purchaser with a copy of the NMVTIS vehicle history report upon request prior to sale.

(c) Subdivisions (a) and (b) do not apply to a used vehicle for which NMVTIS does not have a record if the dealer attempts to obtain a NMVTIS vehicle history report for the vehicle.

(d) As used in this section the following terms have the following meanings:

(1) “NMVTIS” means the National Motor Vehicle Title Information System established pursuant to Section 30501 et seq. of Title 49 of the United States Code.

(e) Nothing in this section shall prohibit a NMVTIS data provider from including, in a NMVTIS vehicle history report containing the information required by paragraph (2) of subdivision (d), additional vehicle history information obtained from resources other than NMVTIS.

(f) This section shall not create any legal duty upon the dealer related to the accuracy, errors, or omissions contained in a NMVTIS vehicle history report that is obtained from a NMVTIS data provider or any legal duty to provide information added to NMVTIS after the dealer obtained the NMVTIS vehicle history report pursuant to subdivision (a).

(g) (1) In the event that all NMVTIS data providers cease to make NMVTIS vehicle history reports available to the public, this section shall become inoperative.

(2) In the event that all NMVTIS data providers cease to make NMVTIS vehicle history reports available to the public, it is the intent of the Legislature that the United States Department of Justice notify the Legislature and the department.

License Fees: Exception

11723. The board may require that fees shall be paid to the department for the issuance or renewal of a license to do business as a new motor vehicle dealer, dealer branch, manufacturer, manufacturer branch, distributor, distributor branch, or representative. (c) The applicant or licensee has failed to surrender possession of, or failed to return, a vehicle to a dealer lawfully entitled thereto upon termination of employment.

(d) A cause for refusal, suspension, or revocation exists under any provision of Sections 11302 to 11909, inclusive.

(e) The applicant was previously the holder of an occupational license issued by another state authorizing the same or similar activities of a license issued under this division and that license was revoked or suspended for cause and was never reissued, or was suspended for cause, and the terms of suspension have not been fulfilled.

(f) The applicant or licensee has acted as a dealer by purchasing or selling vehicles while employed by a licensed dealer without reporting that fact to the dealer or without utilizing the report of sale documents issued to the dealer.

(g) The applicant or licensee has concurrently acted as a vehicle salesperson and engaged in that activity for, or on behalf of, more than one licensed dealer unless all of the licensed dealers for whom that salesperson works have common controlling ownership. Nothing in this section restricts the number of dealerships of which a person may be an owner, officer, or director, or precludes a vehicle salesperson from working for more than one dealer, provided that all of the licensed dealers for whom that salesperson works have common controlling ownership. For purposes of this subdivision, dealers have common controlling ownership when more than 50 percent of the ownership interests in each dealer are held by the same person or persons, either directly or through one or more wholly owned subsidiary entities.

(h) The applicant or licensee has acted as a vehicle salesperson without having first complied with Section 11812.

(i) The applicant or licensee was a managerial employee of a dealer during the time a person under the direction or control of the managerial employee committed wrongful acts which resulted in the suspension or revocation of the dealer’s license.

(j) The applicant or licensee has acted as a dealer by purchasing or selling any vehicle and using the license, report of sale books, purchase drafts, financial institution accounts, or other supplies of a dealer to facilitate that purchase or sale, when the applicant or licensee is not acting on behalf of that dealer.

Compromise Settlement Agreement

11808.5. (a) After the filing of an accusation under this article, the director may enter into a stipulated compromise settlement agreement with the consent of the licensee on terms and conditions mutually agreeable to the director, the respondent licensee, and the accuser without further hearing or appeal. The agreement may include, but is not limited to, a period of probation or monetary penalties, or both. Except as provided in Section 11728, the monetary penalty shall not exceed five hundred dollars ($500) for each violation, and it shall be based on the nature of the violation and the effect of the violation on the purposes of this article.

(b) A compromise settlement agreement may be entered before, during, or after the hearing, but is valid only if executed and filed pursuant to subdivision (d) before the proposed decision of the hearing officer, if any, is adopted or the case is decided.

(c) The department shall adopt, by regulation, a schedule of maximum and minimum amounts of monetary penalties, the payment of which may be included as a term or condition of a compromise settlement agreement entered under subdivision (a). Any monetary penalty included in a compromise settlement agreement shall be within the range of monetary penalties in that schedule.

(d) Any compromise settlement agreement entered under this section shall be signed by the director, the respondent licensee, and the accuser, or by their authorized representatives. The director shall file, or cause to be filed, the agreement with the Office of Administrative Hearings, together with the department’s notice of withdrawal of the accusation or statement of issues upon which the action was initiated.

(e) If the respondent licensee fails to perform all of the terms and conditions of the compromise settlement agreement, the agreement is void and the department may take any action authorized by law, notwithstanding the agreement, including,
§11810

but not limited to, refiling the accusation or imposing license sanctions.
Amended Ch. 90, Stats. 1990. Effective May 9, 1990.

Temporary Suspension, Probation, and Reapplication
11810. (a) The department may, pending a hearing, temporarily suspend the license issued to a vehicle salesperson for a period of not more than 30 days if the director finds that action to be required in the public interest. In that case, a hearing shall be held and a decision thereon issued within 30 days after notice of the temporary suspension.

(b) Except where the provisions of this code require the refusal to issue a license, the department may issue a probationary license subject to conditions to be observed by the licensee in the exercise of the privilege granted. The conditions to be attached to the exercise of the privilege shall be those which may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained in the application.

(c) If the department issues or renews a vehicle salesperson’s license requiring conditions of probation or if the department refuses to issue a vehicle salesperson’s license, the applicant may demand in writing a hearing before the director or the director’s representative within 60 days after notice of refusal to issue or issuance of the probationary license.

(d) A person whose license has been revoked or whose application for a license has been denied may reapply for a license after not less than one year has elapsed from the effective date of the decision revoking the license or denying the application, except that if the decision was based upon subdivision (a) of Section 11806, an earlier reapplication may be made accompanied by evidence satisfactory to the department that those grounds for revocation or denial of the license no longer exist.

Display of License
11812. (a) A vehicle salesperson licensed under this article shall, at the time of employment, deliver his or her salesperson’s license to his or her employing dealer for the posting of the salesperson’s license or a true and exact copy of the salesperson’s license in a place conspicuous to the public at each location where he or she is actually engaged in the selling of vehicles for the employing dealer.

(b) The license, or a true and exact copy of the license, shall be displayed continuously at each location where he or she is actually engaged in the selling of vehicles during the employment. If a vehicle salesperson’s employment is terminated, the license shall be returned to the salesperson and all copies of the license used by the dealer for posting or display shall be destroyed by the dealer.

(c) A vehicle salesperson licensed pursuant to this article shall report in writing to the department every change of residence address within five days of the change.

(d) A person currently or previously licensed under this article who no longer resides at the address last filed with the department may be served with process issued pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code by registered mail at that residence, unless the person has notified the department in writing of another address where service may be made.
Amended Sec. 5, Ch. 483, Stats. 2010. Effective January 1, 2011.

Term of License: Renewal
11814. (a) Every original vehicle salesperson’s license issued, and every vehicle salesperson’s license renewed pursuant to subdivision (b), shall be valid for a period of three years from the date of issuance unless canceled, suspended, or revoked by the department.

(b) Renewal of a vehicle salesperson’s license may be made prior to the expiration date. In no event may a vehicle salesperson renew his or her license after the date of expiration.

(c) A salesperson’s license may be renewed by mail if that license was not renewed by mail for the immediately preceding period.

(d) A salesperson shall obtain a duplicate license when the original is either lost or mutilated.

(c) To fail or refuse to surrender to the department, upon lawful demand, a salesperson’s license that has been suspended, revoked, or canceled.

(d) To permit any unlawful use of a salesperson’s license issued to him or her.

(e) To photograph, photostat, duplicate, or in any way reproduce a salesperson’s license or facsimile thereof in a manner that it could be mistaken for a valid license, or to display or have in possession a photograph, photostat, duplicate, reproduction, or facsimile unless for display by a dealer, or as authorized by this code.
Amended Ch. 90, Stats. 1990. Effective May 9, 1990.

Amended Ch. 90, Stats. 1990. Effective May 9, 1990.

Automatic Cancellation
11822. The vehicle salesperson’s license or any permit provided in this Article shall be automatically canceled upon the failure of a licensee to pay the required fees or to file an application for renewal of the license or permit before the date of expiration of the current license or permit.

Department’s Authority After Suspension, Expiration, or Cancellation of License
11824. The suspension, expiration, or cancellation of a vehicle salesperson’s license issued under this Article does not prevent the filing of an accusation for the revocation or suspension of the suspended, expired, or cancelled license as provided in Section 11806, and the department’s decision that the license should be suspended or revoked. That determination
may be considered in granting or refusing to grant any subsequent license authorized by this division to that licensee.

Article 3. Representatives
(Added Ch. 996, Stats. 1973. Operative July 1, 1974)

License or Temporary Permit Required
11900. It shall be unlawful for any person to act as a representative on or after January 1, 1974,* without having first procured a license or temporary permit issued by the department or when such license or temporary permit has been canceled, suspended, revoked, or invalidated or has expired.

NOTE: “This must be interpreted to mean “July 5, 1974” since a statute cannot become operative prior to its effective date.

Application Forms
11901. The department shall prescribe and provide forms to be used for application for licenses to be issued under the terms and provisions of this Chapter and require of such applicants, as a condition precedent to issuance of such license, such information touching on and concerning the applicant’s character, honesty, integrity and reputation as it may consider necessary. Every application for a representative’s license shall contain, in addition to such information as the department may require, a statement of the following facts:

(a) Name and address of the applicant.

(b) Whether the applicant has ever had a court judgment rendered for which he has been liable as a result of his activity in connection with an occupation licensed under this Chapter and whether such judgment remains unpaid or unsatisfied.

(c) Whether the applicant ever had a license, issued under the authority of this chapter, revoked, suspended, or subjected to other disciplinary action and whether the applicant was ever a partner in a partnership or an officer, director, or stockholder in a corporation licensed under the authority of this chapter, the license of which was revoked, suspended, or subjected to other disciplinary action.

(d) Name, address, and license number of the manufacturer, manufacturer branch, distributor, or distributor branch employing the applicant.

Authority to Issue, Refuse to Issue, Suspend, or Revoke License or Temporary Permit
11902. (a) The department shall issue a representative’s license when it finds and determines that the applicant has furnished the required information, and that the applicant intends in good faith to act as a representative and has paid the fees required by Sections 9262 and 11723.

(b) The department may refuse to issue, or may suspend or revoke, a license for any of the following reasons:

(1) The information in the application is incorrect.

(2) The applicant or licensee has been convicted of a crime or committed any act or engaged in any conduct involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity. A conviction after a plea of nolo contendere is a conviction within the meaning of this section.

(3) The applicant or licensee has outstanding an unpaid final court judgment rendered in connection with an activity licensed under this chapter.

(4) The applicant or licensee was previously the holder of, or was a business representative of a business which was the holder of, a license and certificate issued under this Chapter which were revoked for cause and not reissued by the department or which were suspended for cause and the terms of suspension have not been fulfilled.

(5) The applicant was previously the holder of an occupational license issued by another state, authorizing the same or similar activities of license issued under this division; and that license was revoked or suspended for cause and was never reissued, or was suspended for cause, and the terms of suspension have not been fulfilled.

(6) The applicant or licensee has committed any act prohibited by Section 11713.2 or 11713.3.

(c) Pending the determination of the department that the applicant has met the requirements of this chapter, it may issue a temporary permit to any person applying for a representative’s license. The temporary permit shall permit the operation by the representative for a period not to exceed 120 days while the department is completing its investigation and determination of all facts relative to the qualifications of the applicant for a license. The temporary permit is invalid after the applicant’s license has been issued or refused.

(d) The department may issue a probationary representative’s license based upon the existence of any circumstance set forth in subdivision (b), subject to conditions to be observed in the exercise of the privilege granted, either upon application for the issuance of a license or upon application for the renewal of a license. The conditions to be attached to the exercise of the privilege shall not appear on the face of the license but shall be those which, in the judgment of the department, are in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein.

Amended Sec. 52, Ch. 877, Stats. 1998. Effective January 1, 1999.

Interim Refusal to Issue or Suspension of License
11902.5. (a) The department, after notice and hearing, on an interim basis, may refuse to issue or may suspend a license issued under this Chapter when the applicant or licensee, has been convicted of a crime involving moral turpitude which is substantially related to the qualifications, functions, or duties of the licensed activity, if an appeal of the conviction is pending or the conviction has otherwise not become final. A conviction after a plea of nolo contendere is a conviction with the meaning of this section.

(b) If a conviction, upon which an interim refusal to issue or suspension under subdivision (a) is based, is affirmed on appeal or otherwise becomes final, the refusal to issue or suspension shall automatically take effect as a denial or revocation, as the case may be, of the license. If the interim refusal to issue or suspension was stayed under probationary terms and conditions, the subsequent automatic denial or revocation shall also be stayed under the same terms and conditions for a term not to exceed the original term of probation for the interim refusal or suspension.
§11903

(c) If a conviction, upon which an interim refusal to issue or suspension under subdivision (a) is based, is reversed on appeal, the refusal or suspension shall be set aside immediately by the department.

Suspenion, Revocation, Refusal to Issue—Hearings, Reaplication

11903. (a) If the department suspends or revokes a representative’s license, the licensee shall be entitled to an appropriate hearing. Such hearing shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(b) If the department issues or renews a representative’s license requiring conditions of probation or if the department refuses to issue such license, the applicant shall be entitled to demand in writing a hearing as hereinabove provided before the director or his representative within 60 days after notice of refusal or issuance of the probationary license.

(c) A person whose representative’s license has been revoked or whose application for a license has been denied may reapply for such license after a period of not less than one year has elapsed from the effective date of the decision revoking the license or denying the application; provided, however, that if such decision was based upon paragraph (3) or (4) of subdivision (b) of Section 11902, an earlier reaplication may be made accompanied by evidence satisfactory to the department that such grounds no longer exist.

Compromise Settlement Agreement

11903.5. (a) After the filing of an accusation under this article, the director may enter into a stipulated compromise settlement agreement with the consent of the licensee on terms and conditions mutually agreeable to the director, the respondent licensee, and the accuser without further hearing or appeal. The agreement may include, but is not limited to, a suspension of the suspended, expired, or canceled license as provided in Section 11903, and the department’s decision that such license should be suspended or revoked. Such determination may be considered in granting or refusing to grant any subsequent license authorized by Division 5 (commencing with Section 11100) to such licensee.

(b) A compromise settlement agreement may be entered before, during, or after the hearing, but is valid only if executed and filed pursuant to subdivision (d) before the proposed decision of the hearing officer, if any, is adopted or the case is decided.

(c) The department shall adopt, by regulation, a schedule of maximum and minimum amounts of monetary penalties, the payment of which may be included as a term or condition of a compromise settlement agreement entered under subdivision (a). Any monetary penalty included in a compromise settlement agreement shall be within the range of monetary penalties in that schedule.

(d) Any compromise settlement agreement entered under this section shall be signed by the director, the respondent licensee, and the accuser, or by their authorized representatives. The director shall file, or cause to be filed, the agreement with the Office of Administrative Hearings, together with the department’s notice of withdrawal of the accusation or statement of issues upon which the action was initiated.

(e) If the respondent licensee fails to perform all of the terms and conditions of the compromise settlement agreement, the agreement is void and the department may take any action authorized by law notwithstanding the agreement, including, but not limited to, refiling the accusation or imposing license sanctions.

Automatic Cancellation

11907. The representative’s license, or any permit provided for in this chapter, shall be automatically canceled upon the failure of the licensee to file an application for renewal of the license or permit before July 1st following the expiration date of the current license or permit.

Department’s Authority After Suspension, Expiration or Cancellation of License

11908. The suspension, expiration, or cancellation of the representative’s license provided for in this Chapter shall not prevent the filing of an accusation for revocation or suspension of the suspended, expired, or canceled license as provided in Section 11903, and the department’s decision that such license should be suspended or revoked. Such determination may be considered in granting or refusing to grant any subsequent license authorized by Division 5 (commencing with Section 11100) to such licensee.

Posting of License

11909. Upon issuance by the department to the license, the license provided in this Article shall be immediately delivered to and posted in a place conspicuous to the public at the place of business of the manufacturer, manufacturer’s branch, distributor, distributor’s branch from which the representative is directly supervised and shall be continuously exhibited in such place while the representative is employed by such employer.

As used in this section, “arranging” does not include the activities of employees or principals of a provider of towing services in responding to a request for towing services.

(b) Subdivision (a) does not preclude a public entity otherwise authorized by law from requiring a fee in connection with the award of a franchise for towing vehicles on behalf of that public entity. The recovery corporation shall receive funds from the department as provided in Section 4456.3 and shall promptly notify the department when the recovery fund balance reaches the amounts specified in subdivision (b) of Section 4456.3.

(b) The recovery corporation shall establish and maintain an operations account within the recovery fund for the payment of costs of operations and administration. The recovery corporation shall prepare, prior to its fiscal year end, an estimated annual operational budget projecting the costs of operations and administration for the succeeding fiscal year, excluding the amount paid for claims. The recovery corporation shall not expend more than two hundred fifty thousand dollars ($250,000) each fiscal year from the operations account for the administration of this chapter.

(c) The recovery corporation shall invest all funds received from the department pursuant to Section 4456.3, and interest earned on those funds, deposited in the recovery fund, in a federally insured account or in federally insured certificates of deposit at a California state or federally chartered bank or savings bank.

(d) The recovery corporation holds all money in the recovery fund in trust for the purposes provided in this Chapter and shall disburse funds only as provided in this chapter.

(e) The recovery corporation shall separately account for disbursements and collections. Quarterly reports shall be provided to the office of the Attorney General, Consumer Law Section, commencing on or before October 31, 2008, and within 30 days after the end of each quarter thereafter.

(f) The recovery corporation may adopt reasonable written bylaws, rules, and procedures to carry out the purposes of this chapter. The representative of the Attorney General may vote on the adoption of bylaws, rules, and procedures notwithstanding paragraph (2) of subdivision (a) of Section 12202.

Consumer Application Filing

12204. (a) A consumer may file an application with the recovery corporation for the payment of the consumer’s eligible claim if a dealer or lessor-retailer against whom the claim is asserted has ceased selling and leasing motor vehicles to the general public or has become subject to a petition in bankruptcy.

(b) (1) The application shall be verified and shall set forth all of the following information:

(A) The consumer’s name, address, and telephone number.

(B) The amount of the eligible claim.

(C) A description of the circumstances demonstrating an eligible claim.
(D) A statement indicating the consumer’s belief that the dealer or lessor-retailer has ceased selling and leasing motor vehicles to the general public or has become subject to a petition in bankruptcy and the reasons for this belief.

(E) A statement indicating what action, if any, the applicant has taken to recover the amount of the eligible claim.

(F) A statement indicating that the consumer’s application for payment does not include any amount for which the consumer has obtained recovery under the dealer’s bond required by Section 11710.

(2) Nothing in this chapter shall be construed to require a consumer to bring a civil action to obtain recovery, file a bankruptcy claim, or file a crimereport with a law enforcement agency in order to obtain payment of an eligible claim submitted to the recovery corporation.

(c) The application shall be accompanied by a copy of the agreement between the consumer and the dealer or lessor-retailer, unless the agreement is unnecessary to the recovery corporation’s determination of the validity of the claim.

(d) If the eligible claim is based on the failure to remit license or registration fees, the application shall be accompanied by evidence demonstrating that the consumer paid money or other consideration for the fees, or became obligated to pay the fees, and that the fees had not been remitted. The eligible claim shall be limited to the dollar amount of the license or registration fees not remitted and a late charge or penalty.

(e) If the eligible claim is based on the failure to pay the proceeds of a consignment sale, the application shall be accompanied by the consignment agreement, evidence that the consigned vehicle was sold, and by the consumer’s verified statement that the consumer did not receive the portion of the proceeds of the sale to which the consumer was entitled. The eligible claim is limited to the dollar amount specified in a written consignment agreement to be paid to the consignor.

(f) If the eligible claim is based on the failure to pay the legal owner of the consumer’s trade-in vehicle, the application shall be accompanied by a statement from the legal owner of the amount, if any, that he or she received from the dealer or lessor-retailer. The eligible claim is limited to the dollar amount necessary to discharge the credit balance owing on the trade-in vehicle.

(g) If the eligible claim is based on the failure to pay the lessor of the consumer’s trade-in vehicle, the application shall be accompanied by a statement from the lessor of the amount, if any, that he or she received from the dealer or lessor-retailer. The eligible claim is limited to the dollar amount necessary to pay the lessor the total amount that the dealer or lessor-retailer agreed with the consumer to pay the lessor.

(h) If the eligible claim is based on the failure to provide good title, the application shall be accompanied by a statement from the legal owner or other claimant of the amount, if any, that he or she received from the dealer or lessor-retailer. The eligible claim is limited to the remaining dollar amount necessary to discharge the valid security interest, lien, encumbrance, or other claim clouding title to the vehicle.

(i) If the eligible claim is based on the failure to pay third parties for insurance, service contracts, or goods or services, the application shall be accompanied by a statement from the third party of the amount, if any, that he or she received from the dealer or lessor-retailer. The eligible claim is limited to the difference between the dollar amount the consumer paid or was contractually obligated to pay to the dealer or lessor-retailer for the insurance, service contracts, or goods or services purchased through the dealer or lessor-retailer and to be provided by the third party and the dollar amount actually received by the third party from the dealer or lessor-retailer for the insurance, service contracts, or goods or services.

(j) The recovery corporation may require reasonable additional information designed to facilitate payment of eligible claims.

(k) (1) For claims that have accrued on or after July 1, 2008, and before January 1, 2009, the application shall be filed within 18 months of the date upon which the dealer or lessor-retailer ceased selling or leasing motor vehicles to the general public or became subject to a petition in bankruptcy.

(2) For claims that have accrued on or after January 1, 2009, the application shall be filed within one year of the date upon which the dealer or lessor-retailer ceased selling or leasing motor vehicles to the general public or became subject to a petition in bankruptcy.

A claim shall be deemed granted unless the directors affirmatively vote to deny the claim.

(c) A director shall not be involved in the decision of a claim if the director has a financial interest in the outcome of the decision; has a financial interest in or is employed by the participant that is the subject of the claim; or has a familial or close personal relationship with the claimant or an owner, officer, director, or manager of the participant.

The allegations stated in the attached application may constitute grounds on which disciplinary action may be taken to suspend or revoke your license. In addition, the Department of Motor Vehicles may suspend your license until you have repaid in full the amount paid by the Consumer Motor Vehicle Recovery Corporation on the attached application, plus interest at the rate of 10 percent per annum.”

(b) The notice prescribed by subdivision (a), a copy of the application for payment, and a copy of this Chapter shall be served on the dealer or lessor-retailer by personal service or certified mail, return receipt requested, at the department’s mailing address of record for that licensee.

Added Sec. 6, Ch. 437, Stats. 2007. Effective January 1, 2008.

If the recovery corporation denies the claim, the recovery corporation shall notify the applicant in writing of the denial, the legal and factual bases for the denial, and the applicant’s right to contest the denial in writing within 60 days or any longer period permitted by the recovery corporation. If the applicant does not contest the denial within 60 days or an additional period reasonably requested by the consumer, the decision shall be final. The recovery corporation shall act on the applicant’s objection within 30 days. If the claim is denied in whole or in part, the applicant may seek review in the superior court of any of the following counties in which the office of the Attorney General maintains an office: Sacramento, San Francisco, Los Angeles, or San Diego. Review shall be limited to the written record before the recovery corporation and any relevant evidence that could not have been previously presented to the recovery corporation despite the applicant’s reasonable diligence. Nonresident Minors

12504.  (a) Sections 12502 and 12503 apply to any nonresident over the age of 16 years but under the age of 18 years. (f) Subject to Section 12504, a person over the age of 16 years who is a resident of a foreign jurisdiction other than a state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or Canada, having a valid driver’s license issued to him or her by any other foreign jurisdiction may operate a motor vehicle in this state without obtaining a license from the department, unless the department determines that the foreign jurisdiction does not meet the licensing standards imposed by this code.

(g) A person who is 18 years of age or older and in possession of a valid commercial learner’s permit or commercial driver’s license issued by any state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or a foreign jurisdiction that meets the licensing standards contained in subparts F, G, and H of Part 383 of Title 49 of the Code of Federal Regulations shall be granted reciprocity to operate vehicles of the appropriate class on the highways of this state.

(b) Any person from a foreign jurisdiction that does not meet the licensing standards contained in subparts F, G, and H of Part 383 of Title 49 of the Code of Federal Regulations shall obtain a commercial learner’s permit or commercial driver’s license from the department before operating on the highways a motor vehicle for which a commercial driver’s license is required, as described in Section 12804.9. The medical examination form required for issuance of a commercial driver’s license shall be completed by a health care professional, as defined in paragraph (2) of subdivision (a) of Section 12804.9, who is licensed, certified, or registered to perform physical examinations in the United States of America. Notwithstanding subdivision (b) of Section 12805, the department issues to a nonresident minor who holds a valid driver’s license issued to him or her by any other state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada, notwithstanding that the applicant has failed the written examination on the person’s first attempt.

A temporary license permits the operation of a motor vehicle upon the highways for a period of 60 days, if the licensee has the temporary license in his or her immediate possession, and while the department is completing its investigation and determination of all facts relative to the applicant’s right to
receive a license. The temporary license is invalid when the applicant’s license has been issued or refused.

**Limited Term License**

§12508. 12508. When in the opinion of the department it would be in the interest of safety, the department may issue, in individual cases, to any applicant for a driver’s license, a license limited in duration to less than the regular term. Upon the expiration of a limited term license the department may extend its duration for an additional period without fee but the duration of the license and extensions shall not exceed the term of a regular license.

(d) Except as provided in Section 12814.6, a person, while having in his or her immediate possession a valid permit issued pursuant to paragraphs (1) to (3), inclusive, of subdivision (a), may operate a motor vehicle, other than a motorcycle, motorized scooter, or a motorized bicycle, when accompanied by, and under the immediate supervision of, a California-licensed driver with a valid license of the appropriate class who is 18 years of age or over and whose driving privilege is not subject to probation. An accompanying licensed driver at all times shall occupy a position within the driver’s compartment that would enable the accompanying licensed driver to assist the person in controlling the vehicle as may be necessary to avoid a collision and to provide immediate guidance in the safe operation of the vehicle.

**Grounds Permitting Refusal of License**

12806. The department may refuse to issue to, or renew a driver’s license of, any person: (a) Who is rendered incapable of safely operating a motor vehicle because of alcoholism, excessive and chronic use of alcoholic beverages, or addiction to, or habitual use of, any drug.

(b) Who is addicted to the use of narcotic drugs unless the person is participating in a narcotic treatment program approved pursuant to Article 3 (commencing with Section 11875) of Chapter 1 of Part 3 of Division 10.5 of the Health and Safety Code, in which case the person may be issued a probationary license, subject to reasonable terms and conditions, if that drug usage does not affect the person’s ability to exercise reasonable and ordinary control in operating a motor vehicle on the highway.

(c) Who has a disorder characterized by lapses of consciousness or who has experienced, within the last three years, either a lapse of consciousness or an episode of marked confusion caused by any condition which may bring about recurrent lapses, or who has any physical or mental disability, disease, or disorder which could affect the safe operation of a motor vehicle unless the department has medical information which indicates the person may safely operate a motor vehicle. In making its determination, the department may rely on any relevant information available to the department.

**Suspension or Revocation: Driver Certificates**

12806.5. The department may adopt regulations specifying, in addition to any cause provided by statute, the circumstances which are grounds for the suspension or revocation of a schoolbus, school pupil activity, youth bus, driver, farm labor vehicle, or general public paratransit vehicle certificate.

**Additional Grounds for Refusal**

12807. The department shall not issue or renew a driver’s license to any person:

(a) When a license previously issued to the person under this code has been suspended until the expiration of the period of the suspension, unless cause for suspension has been removed.

(b) When a license previously issued to the person under this code has been revoked until the expiration of one year after the date of the revocation, except where a different period of revocation is prescribed by this code, or unless the cause for revocation has been removed.

(c) When the department has received a notice pursuant to Section 40509 or 40509.5, unless the department has received a certificate as provided in those sections.

**Record of Applicant**

12808. (a) The department shall, before issuing or renewing any license, check the record of the applicant for conviction of traffic violations and traffic accidents.

(b) The department shall, before issuing or renewing any license, check the record of the applicant for notices of failure to appear in court filed with it and shall withhold or shall not issue a license to any applicant who has violated his or her written promise to appear in court unless the department has received a certificate issued by the magistrate or clerk of the court hearing the case in which the promise was given showing that the case has been adjudicated or unless the applicant’s record is cleared as provided in Chapter 6 (commencing with Section 41500) of Division 17. In lieu of the certificate of adjudication, a notice from the court stating that the original records have been lost or destroyed shall permit the department to issue a license.

(c) (1) Any notice received by the department pursuant to Section 40509, 40509.1, or 40509.5, except subdivision (c) of Section 40509.5, that has been on file five years may be removed from the department records and destroyed at the discretion of the department.

(2) Any notice received by the department under subdivision (c) of Section 40509.5 that has been on file 10 years may be removed from the department records and destroyed at the discretion of the department.

(d) This section shall become operative on January 1, 2011.

**Refusal of License**

12808.1. The department shall refuse to issue or renew any license if the applicant has been mailed a notice of delinquent parking violation relating to standing or parking, the processing agency has filed or electronically transmitted to the department an itemization of unpaid parking penalties, including administrative fees pursuant to Section 40220, and the applicant has not paid the parking penalty and administrative fee pursuant to Section 40220, unless he or she pays to the department, at the time of application, the full amount of all outstanding parking penalties and administrative fees, as shown by records of the department.

**Grounds Permitting Refusal**

12809. The department may refuse to issue or renew a driver’s license to any person:

(a) If the department is satisfied that the applicant is not entitled to the license under this code.
(b) If the applicant has failed to furnish the department the information required in the application or reasonable additional information requested by the department.

(c) If the department determines that the applicant has made or permitted unlawful use of any driver’s license.

(d) If the department determines that the person has knowingly used a false or fictitious name in any application for a license or has impersonated another in making application or in taking any test, or has knowingly made a false statement or knowingly concealed a material fact, or otherwise committed any fraud in any application.

(e) If the department determines that the applicant is a negligent or incompetent operator of a motor vehicle.

(f) If the applicant is convicted of any offense involving the transportation for purpose of sale, or the transportation for compensation, of a controlled substance under Division 10 (commencing with Section 11000) of the Health and Safety Code, and the commission of the offense involved the use or operation of a motor vehicle.

If, however, the driving privilege of the applicant is on probation for a cause related to the use or possession of a narcotic controlled substance, the department may refuse to issue or renew a driver’s license to the applicant if the applicant is subsequently convicted of any offense involving the use or possession of a narcotic controlled substance, whether or not the commission of the offense involved the use or operation of a motor vehicle.

The maximum period of time for which the department may refuse to issue or renew a driver’s license to any person pursuant to this subdivision shall be three years from the date of conviction.

(g) If the applicant fails or refuses to surrender to the department, upon its lawful demand, a nonresident minor’s certificate which has been canceled.

(h) If the applicant has failed to appear regarding a citation issued for vehicle abandonment as specified in Section 22523.

(i) This section shall become operative on July 1, 1989.

**Violation Point Count**

12810. In determining the violation point count, the following shall apply:

(b) A conviction of a violation of Section 23152 or 23153 shall be given a value of two points.

(c) A conviction of reckless driving shall be given a value of two points.

(d) (1) A conviction of a violation of subdivision (b) of Section 191.5 or subdivision (c) of Section 192 of the Penal Code, or of Section 2800.2 or 2800.3, subdivision (b) of Section 21651, subdivision (b) of Section 22348, subdivision (a) or (c) of Section 23109, Section 23109.1, or Section 31602 of this code, shall be given a value of two points.

(f) Except as provided in subdivision (i), any other traffic conviction involving the safe operation of a motor vehicle upon the highway shall be given a value of one point.

(g) A traffic accident in which the operator is deemed by the department to be responsible shall be given a value of one point.

(h) A conviction of a violation of Section 27360 or 27360.5 shall be given a value of one point.

(i) (1) A violation of paragraph (1), (2), (3), or (5) of subdivision (b) of Section 40001 shall not result in a violation point count being given to the driver if the driver is not the owner of the vehicle.

(2) A conviction of a violation of paragraph (1) or (2) of subdivision (b) of Section 12814.6, subdivision (a) of Section 21116, Section 21207.5, 21708, 21710, 21716, 23120, 24800, or 26707 shall not be given a violation point count.

(3) A violation of subdivision (d) of Section 21712 shall not result in a violation point count.

(4) A violation of Section 23136 shall not result in a violation point count.

(5) A violation of Section 38301, 38301.3, 38301.5, 38304.1, or 38504.1 shall not result in a violation point count.

(j) A conviction for only one violation arising from one occasion of arrest or citation shall be counted in determining the violation point count for the purposes of this section.

**Violation Point Count: Exception**

12810.2. Notwithstanding subdivision(e) of Section 12810, no violation point count shall be given for a conviction of a violation of Section 27315.

**Violation Point: Wireless Telephone and Communications Device Use**

12810.3. Notwithstanding subdivision (f) of Section 12810, a violation point shall not be given for a conviction of a violation of subdivision (a) of Section 23123, subdivision (a) of Section 23123.5, or subdivision (b) of Section 23124.

Amended Sec. 1, Ch. 214, Stats. 2007. Effective January 1, 2008.

**Violation Point Count: Gridlock**

12810.4. Notwithstanding any other provision of law, no violation point shall be given for a conviction of a violation of Section 22526.

**Negligent Operator: Violation Points**

12810.5. (a) Except as otherwise provided in subdivision (b), a person whose driving record shows a violation point count of four or more points in 12 months, six or more points in 24 months, or eight or more points in 36 months shall be prima facie presumed to be a negligent operator of a motor vehicle. In applying this subdivision to a driver, if the person requests and appears at a hearing conducted by the department, the department shall give due consideration to the amount of use or mileage traveled in the operation of a motor vehicle.

(b) (1) A class A or class B licensed driver, except persons holding certificates pursuant to Section 12517, 12519, 12523,
12523.5, or 12527, or an endorsement issued pursuant to paragraph (2) or (5) of subdivision (a) of Section 125278, who is presumed to be a negligent operator pursuant to subdivision (a), and who requests and appears at a hearing and is found to have a driving record violation point count of six or more points in 12 months, eight or more points in 24 months, or 10 or more points in 36 months is presumed to be a prima facie negligent operator. However, the higher point count does not apply if the department reasonably determines that four or more points in 12 months, six or more points in 24 months, or eight or more points in 36 months are attributable to the driver’s operation of a vehicle requiring only a class C license, and not requiring a certificate or endorsement, or a class M license.

(2) For purposes of this subdivision, each point assigned pursuant to Section 12810 shall be valued at one and one-half times the value otherwise required by that section for each violation reasonably determined by the department to be attributable to the driver’s operation of a vehicle requiring a class A or class B license, or requiring a certificate or endorsement described in this section.

(c) The department may require a negligent operator whose driving privilege is suspended or revoked pursuant to this section to submit proof of financial responsibility, as defined in Section 16430, on or before the date of reinstatement following the suspension or revocation. The proof of financial responsibility shall be maintained with the department for three years following that date of reinstatement.

Amended Sec. 4, Ch. 630, Stats. 2007. Effective January 1, 2008.

Issuance and Contents of License

12811. (a) (1) (A) When the department determines that the applicant is lawfully entitled to a license, it shall issue to the person a driver’s license as applied for. The license shall state the class of license for which the licensee has qualified and shall contain the distinguishing number assigned to the applicant, the date of expiration, the true full name, age, and mailing address of the licensee, a brief description and engraved picture or photograph of the licensee for the purpose of identification, and space for the signature of the licensee.

(B) Each license shall also contain a space for the endorsement of a record of each suspension or revocation ( ) 1 of the license.

(C) The department shall use whatever process or processes, in the issuance of engraved or colored licenses, that prohibit, as near as possible, the ability to alter or reproduce the license, or prohibit the ability to superimpose a picture or photograph on the license without ready detection.

(2) In addition to the requirements of paragraph (1), a license issued to a person under 18 years of age shall display the words “provisional until age 18.”

(b) (1) On and after July 1, 2011, an application for an original or renewal driver’s license or identification card shall contain a space for the applicant to enroll in the Donate Life California Organ and Tissue Donor Registry. The application shall include check boxes for an applicant to mark either (A) Yes, add my name to the donor registry or (B) I do not wish to register at this time.

(2) The department shall inquire verbally of an applicant applying for an original or renewal driver’s license or identification card at a department office as to whether the applicant wishes to enroll in the Donate Life California Organ and Tissue Donor Registry. Failure or refusal to answer this question or check a box on the application form shall not be a basis for the department to deny an applicant a driver’s license or identification card.

(3) The following language shall be included with the question required by paragraph (1):

“Marking ‘Yes’ adds your name to the Donate Life California Organ and Tissue Donor Registry and a pink ‘donor’ dot will appear on your license. If you wish to remove your name from the registry you must contact Donate Life California (see back); DMV can remove the pink dot from your licenses but cannot remove you from the registry.”

(4) The back of the application shall contain the following statement:

“If, on the front of this form, you marked ‘Yes’ to register as an organ and tissue donor you are legally authorizing the recovery of organs and tissues in the event of your death. Registering as a donor will not affect your medical treatment in any way. As outlined in the California Anatomical Gift Act, your authorization is legally binding and, unless the donor is under 18 years of age, your decision does not require the consent of any other person. For registered donors under 18 years of age, the legal guardian shall make the final donation decision. You may limit your donation to specific organs or tissues, place usage restrictions, for example transplantation or research, obtain more information about donation, or remove your name from the registry on the Internet Web site of Donate Life California: www.donateLIFEcalifornia.org.”

(5) Notwithstanding any other ( ) 2 law, a person under 18 years of age may register as a donor. However, the legal guardian of that person shall make the final decision regarding the donation.

(6) The department shall collect donor designation information on all applications for an original or renewal driver’s license or identification card.

(7) The department shall print the word “DONOR” or another appropriate designation on the face of a driver’s license or identification card to a person who has indicated on the application his or her intent to enroll in the organ donation program pursuant to this section.

(8) On a weekly basis, the department shall electronically transmit to Donate Life California, a nonprofit organization established and designated as the California Organ and Tissue Donor Registrar pursuant to Section 7150.90 of the Health and Safety Code, all of the following information from every application that indicates the applicant’s decision to enroll in the organ donation program:

(A) His or her true full name.
(B) His or her residence or mailing address.
(C) His or her year of birth.
(D) His or her California driver’s license number or identification card number.

(9) (A) A person who applies for an original or renewal driver’s license or identification card may designate a voluntary contribution of two dollars ($2) for the purpose of promoting and supporting organ and tissue donation. This contribution shall be collected by the department, and treated as a voluntary contribution to Donate Life California and not as a fee for the issuance of a driver’s license or identification card.
§12811

(B) The department may use the donations collected pursuant to this paragraph to cover its actual administrative costs incurred pursuant to paragraphs (6) to (8), inclusive. The department shall deposit all revenue derived pursuant to this paragraph and remaining after the department's deduction for administrative costs in the Donate Life California Trust Subaccount, that is hereby created in the Motor Vehicle Account in the State Transportation Fund. Notwithstanding Section 13340 of the Government Code, all revenue in this subaccount is continuously appropriated, without regard to fiscal years, to the Controller for allocation to Donate Life California and shall be expended for the purpose of increasing participation in organ donation programs.

(C) The department shall transmit to the Donate Life California Organ and Tissue Donor Registry and the appropriate policy and fiscal committees of the Legislature an annual report, and shall make available quarterly updates, detailing funds collected through voluntary contributions as well as a summary of applicants, including all of the following nonidentifiable information:

(i) Date of application.
(ii) Method of application (field office, online, or mail).
(iii) Donor registration status.
(iv) ZIP ( ) 3
(v) Gender.
(vi) Year of birth.

(D) (i) The annual report to be submitted to the appropriate policy and fiscal committees of the Legislature pursuant to subparagraph (C) shall be submitted in compliance with Section 9795 of the Government Code.

(ii) Pursuant to Section 10231.5 of the Government Code, the requirement for submitting the annual report to the appropriate policy and fiscal committees of the Legislature imposed under subparagraph (C) is inoperative four years after the date the first annual report is due.

(10) The enrollment form shall be posted on the Internet Web sites for the department and the California Health and Human Services Agency.

(11) The enrollment shall constitute a legal document pursuant to the Uniform Anatomical Gift Act (Chapter 3.5 (commencing with Section 7150) of Part 1 of Division 7 of the Health and Safety Code) and shall remain binding after the donor’s death despite any express desires of next of kin opposed to the donation. Except as provided in paragraph (5) of subdivision (b), the donation does not require the consent of any other person.

(12) Donate Life California shall ensure that all additions and deletions to the California Organ and Tissue Donor Registry, established pursuant to Section 7150.90 of the Health and Safety Code, shall occur within 30 days of receipt.

(13) Information obtained by Donate Life California for the purposes of this subdivision shall be used for these purposes only and shall not be disseminated further by Donate Life California.

(e) (1) All applications for a driver’s license or identification card shall contain a space for an applicant to indicate whether he or she has served in the Armed Forces of the United States and to give his or her consent to be contacted regarding eligibility to receive state or federal veterans benefits. The application shall contain the following statement:

“By marking the veteran box on this application, I certify that I am a veteran of the United States Armed Forces and that I want to receive veterans benefits information from the California Department of Veterans Affairs. By marking the veteran box on this application, I also consent to DMV transmitting my name and mailing address to the California Department of Veterans Affairs for this purpose only, and I certify that I have been notified that this transmittal will occur.”

(2) The department shall collect the information obtained pursuant to paragraph (1).

(3) As mutually agreed between the department and the Department of Veterans Affairs, the department shall electronically transmit to the Department of Veterans Affairs the following information on each applicant who has identified that he or she has served in the Armed Forces of the United States since the last data transfer and has consented to be contacted about veterans benefits:

(A) His or her true full name.
(B) His or her mailing address.

(4) Information obtained by the Department of Veterans Affairs for the purposes of this subdivision shall be used for the purpose of assisting individuals to access veterans benefits and shall not be disseminated except as needed for this purpose.

(5) Commencing November 11, 2013, an in-person application for a driver’s license or identification card shall allow an applicant to request the word “VETERAN” be printed on the face of the driver’s license or identification card. A verification form shall be developed by the Department of Veterans Affairs in consultation with the Department of Motor Vehicles and the California Association of County Veterans Service Officers to acknowledge verification of veteran status. A county veterans service office shall verify the veteran’s status as a veteran, sign the verification form, and return it to the veteran. The Department of Motor Vehicles shall accept the signed verification form as proof of veteran status. Upon payment of the fee required pursuant to Section 14901.1, the word “VETERAN” shall be printed on the face of a driver’s license or identification card, in a location determined by the department, and issued to a person who makes this request and presents the verification form to the department.

(d) A public entity or employee shall not be liable for loss, detriment, or injury resulting directly or indirectly from false or inaccurate information contained in the form provided pursuant to subdivision (b).

(e) A contract shall not be awarded to a nongovernmental entity for the processing of driver’s licenses, unless the contract conforms to all applicable state contracting laws and all applicable procedures set forth in the State Contracting Manual.

Medical Information Card

12811.1. (a) Upon the applicant’s request, the department shall issue an adhesive-backed medical information card which contains a format permitting the licensee to specify blood type, allergies, past or present medical problems, any medication being taken, the name of the licensee’s doctor, the person to notify in case of an emergency, and whether the licensee is under a doctor’s care.

(b) The medical information card, which shall be a different color than the anatomical gift card authorized by Section 12811, shall be the same size as a driver’s license.

This section shall become operative on January 1, 1981.

Course of Employment Restricted License

12812. If a driver with a class C or M license, who is not required to have a certificate under any provision of this code, is presumed to be a negligent operator pursuant to Section 12810.5, the department may, as a condition of probation, issue a restricted driver’s license to permit driving of a vehicle while in the course of the driver’s employment during specified hours of employment or any other restrictions as determined by the department. The restrictions shall be noted on the driver’s license.

Restricted Licenses

12813. (a) The department may, upon issuing a driver’s license or after issuance whenever good cause appears, impose restrictions suitable to the licensee’s driving ability with respect to the type of, or special mechanical control devices required on, a motor vehicle which the licensee may operate or impose other restrictions applicable to the licensee that the department may determine to be appropriate to assure the safe operation of a motor vehicle by the licensee.

(b) The department may issue either a special restricted license or may set forth the restrictions upon the usual license form.

(c) The authority of the department to issue restricted licenses under this section is subject to Sections 12812, 13352, 13353.3, and 13352.5.

Driver License Renewal: Examination by Department

12814. (a) Application for renewal of a license shall be made at an office of the department by the person to whom the license was issued. The department may in its discretion require an examination of the applicant as upon an original application, or an examination deemed by the department to be appropriate considering the licensee’s record of convictions and accidents, or an examination deemed by the department to be appropriate in relation to evidence of a condition which may affect the ability of the applicant to safely operate a motor vehicle. The age of a licensee, by itself, may not constitute evidence of a condition requiring an examination of the driving ability. If the department finds any evidence, the department shall disclose the evidence to the applicant or licensee. If the person is absent from the state at the time the license expires, the director may extend the license for a period of one year from the expiration date of the license.

(b) Renewal of a driver’s license shall be under terms and conditions prescribed by the department.

(c) The department may adopt and administer those regulations as shall be deemed necessary for the public safety in the implementation of a program of selective testing of applicants, and, with reference to this section, the department may waive tests for purposes of evaluation of selective testing procedures.

(d) This section shall become operative on January 1, 2011.

License Extension: Renewal by Mail Programs

12814.5. (a) The director may establish a program to evaluate the traffic safety and other effects of renewing driver’s licenses by mail. Pursuant to that program, the department may renew by mail driver’s licenses for licensees not holding a probationary license, and whose records, for the two years immediately preceding the determination of eligibility for the renewal, show no notification of a violation of subdivision (a) of Section 40509, a total violation point count not greater than one as determined in accordance with Section 12810, no suspension of the driving privilege pursuant to Section 13353.2, and no refusal to submit to or complete chemical testing pursuant to Section 13353 or 13353.1.

(b) The director may terminate the renewal by mail program authorized by this section at any time the department determines that the program has an adverse impact on traffic safety.

(c) No renewal by mail shall be granted to any person who is 70 years of age or older.

(d) The department shall notify each licensee granted a renewal by mail pursuant to this section of major changes to the Vehicle Code affecting traffic laws occurring during the prior five-year period.

(e) The department shall not renew a driver’s license by mail if the license has been previously renewed by mail two consecutive times for five-year periods.

Provisional License for Minors: Distinctive Driver’s License

12814.6. (a) Except as provided in Section 12814.7, a driver’s license issued to a person at least 16 years of age but under 18 years of age shall be issued pursuant to the provisional licensing program contained in this section. The program shall consist of all of the following components:

(1) Upon application for an original license, the applicant shall be issued an instruction permit pursuant to Section 12509. A person who has in his or her immediate possession a valid permit issued pursuant to Section 12509 may operate a motor vehicle, other than a motorcycle or motorized bicycle, only when the person is either taking the driver training instruction referred to in paragraph (3) or practicing that instruction, provided the person is accompanied by, and is under the immediate supervision of, a California licensed driver 25 years of age or older whose driving privilege is not on probation. The age requirement of this paragraph does not apply if the licensed driver is the parent, spouse, or guardian of the permitholder or is a licensed or certified driving instructor.
§12814.6

(2) The person shall hold an instruction permit for not less than six months prior to applying for a provisional driver's license.

(3) The person shall have completed driver education and training pursuant to provisions of the Education Code in any secondary school of California, or equivalent instruction in a secondary school of another state.

(B) Satisfactory completion of an integrated driver education and training program that is approved by the department and conducted by a driving instructor licensed under Chapter 1 (commencing with Section 11100) of Division 5. The program shall utilize segmented modules, whereby a portion of the educational instruction is provided by, and then reinforced through, specific behind-the-wheel training before moving to the next phase of driver education and training. The program shall contain a minimum of 30 hours of classroom instruction and six hours of behind-the-wheel training.

(C) Satisfactory completion of six hours or more of behind-the-wheel instruction by a driving school or an independent driving instructor licensed under Chapter 1 (commencing with Section 11100) of Division 5 and either an accredited course in automobile driver education in any secondary school of California pursuant to provisions of the Education Code or satisfactory completion of equivalent professional instruction acceptable to the department. To be acceptable to the department, the professional instruction shall meet minimum standards to be prescribed by the department, and the standards shall be at least equal to the requirements for driver education and driver training contained in the rules and regulations adopted by the State Board of Education pursuant to the Education Code. A person who has complied with this subdivision shall not be required by the governing board of a school district to comply with subparagraph (A) in order to graduate from high school.

(D) Except as provided under subparagraph (B), a student may not take driver training instruction, unless he or she has successfully completed driver education.

(4) The person shall complete 50 hours of supervised driving practice prior to the issuance of a provisional license, which is in addition to any other driving instruction required by law. Not less than 10 of the required practice hours shall include driving during darkness, as defined in Section 280. Upon application for a provisional license, the person shall submit to the department the certification of a parent, spouse, guardian, or licensed or certified driving instructor that the applicant has completed the required amount of driving practice and is prepared to take the department's driving test. A person without a parent, spouse, guardian, or who is an emancipated minor, may have a licensed driver 25 years of age or older or a licensed or certified driving instructor complete the certification. This requirement does not apply to motorcycle practice.

(5) The person shall successfully complete an examination required by the department. Before retaking a test, the person shall wait for not less than one week after failure of the written test and for not less than two weeks after failure of the driving test.

(b) Except as provided in Section 12814.7, the provisional driver's license shall be subject to all of the following restrictions:

(1) Except as specified in paragraph (2), during the first 12 months after issuance of a provisional license the licensee may not do any of the following unless accompanied and supervised by a licensed driver who is the licensee's parent or guardian, a licensed driver who is 25 years of age or older, or a licensed or certified driving instructor:

(A) Drive between the hours of 11 p.m. and 5 a.m.

(B) Transport passengers who are under 20 years of age.

(2) A licensee may drive between the hours of 11 p.m. and 5 a.m. or transport an immediate family member without being accompanied and supervised by a licensed driver who is the licensee's parent or guardian, a licensed driver who is 25 years of age or older, or a licensed or certified driving instructor, in the following circumstances:

(A) Medical necessity of the licensee when reasonable transportation facilities are inadequate and operation of a vehicle by a minor is necessary. The licensee shall keep in his or her possession a signed statement from a physician familiar with the condition, containing a diagnosis and probable date when sufficient recovery will have been made to terminate the necessity.

(B) Schooling or school-authorized activities of the licensee when reasonable transportation facilities are inadequate and operation of a vehicle by a minor is necessary. The licensee shall keep in his or her possession a signed statement from the school principal, dean, or school staff member designated by the principal or dean, containing a probable date that the schooling or school-authorized activity will have been completed.

(C) Employment necessity of the licensee when reasonable transportation facilities are inadequate and operation of a vehicle by a minor is necessary. The licensee shall keep in his or her possession a signed statement from the employer, verifying employment and containing a probable date that the employment will have been completed.

(D) Necessity of the licensee or the licensee's immediate family member when reasonable transportation facilities are inadequate and operation of a vehicle by a minor is necessary to transport the licensee or the licensee's immediate family member. The licensee shall keep in his or her possession a signed statement from a parent or legal guardian verifying the reason and containing a probable date that the necessity will have ceased.

(E) The licensee is an emancipated minor.

(c) A law enforcement officer shall not stop a vehicle for the sole purpose of determining whether the driver is in violation of the restrictions imposed under subdivision (b).

CHAPTER 2. SUSPENSION OR REVOCATION OF LICENSES

Cancellation

13100. When used in reference to a driver’s license, “cancellation” means that a driver’s license certificate is terminated without prejudice and must be surrendered. Any person whose license has been canceled may immediately apply for a license. Cancellation of license may be made only when specifically authorized in this code, when application is made for a license to operate vehicles of a higher class, or when a license has been issued through error or voluntarily surrendered to the department.

Revocation

13101. When used in reference to a driver’s license, “revocation” means that the person’s privilege to drive a motor
vehicle is terminated and a new driver's license may be obtained after the period of revocation.

**Suspension**

13102. When used in reference to a driver's license, "suspension" means that the person's privilege to drive a motor vehicle is temporarily withdrawn. The department may, before terminating any suspension based upon a physical or mental condition of the licensee, require such examination of the licensee as deemed appropriate in relation to evidence of any condition which may affect the ability of the licensee to safely operate a motor vehicle.

**Equivalents of Conviction**

13103. For purposes of this division, a plea of nolo contendere or a plea of guilty or judgment of guilty, whether probation is granted or not, a forfeiture of bail, or a finding reported under Section 1816, constitutes a conviction of any offense prescribed by this code, other than offenses relating to the unlawful parking of vehicles.

**Conviction of a Juvenile**

13105. For the purposes of this chapter, "convicted" or "conviction" includes a finding by a judge of a juvenile court, a juvenile hearing officer, or referee of a juvenile court that a person has committed an offense, and "court" includes a juvenile court except as otherwise specifically provided.

**Service of Suspension or Revocation Notification**

13106. (a) When the privilege of a person to operate a motor vehicle is suspended or revoked, the department shall notify the person by first-class mail, of the action taken and of the effective date thereof, except for those persons personally given notice by the department or a court, by a peace officer pursuant to Section 13388 or 13382, or otherwise pursuant to this code. It shall be a rebuttable presumption, affecting the burden of proof, that a person has knowledge of the suspension or revocation if notice has been sent by first-class mail to the person's last known address or any other address of the person given to the department. If notice has not been returned to the department as undeliverable or unclaimed. It is the responsibility of every holder of a driver's license to report changes of address to the department pursuant to Section 14600.

(b) The department may utilize alternative methods for determining the whereabouts of a driver, whose driving privilege has been suspended or revoked under this code, for the purpose of providing the driver with notice of suspension or revocation. Alternative methods may include, but are not limited to, cooperating with other state agencies that maintain more current address information than the department's driver's license files.

**Article 2. Suspension or Revocation by Court**

**Speeding or Reckless Driving**

13200. Whenever any person licensed under this code is convicted of a violation of any provision of this code relating to the speed of vehicles or a violation of Section 23103 the court may, unless this code makes mandatory a revocation by the department, suspend the privilege of the person to operate a motor vehicle for a period of not to exceed 30 days upon a first conviction, for a period of not to exceed 60 days upon a second conviction, and for a period of not to exceed six months upon a third or any subsequent conviction.

**Driving In Excess of 100 Miles Per Hour**

13200.5. Whenever any person licensed under this code is convicted of a violation of subdivision (b) of Section 22348, the court may, unless this code makes mandatory a revocation by the department, suspend the privilege of the person to operate a motor vehicle for a period of not to exceed 30 days.

**Certain Offenses**

13201. A court may suspend, for not more than six months, the privilege of a person to operate a motor vehicle upon conviction of any of the following offenses:

(c) Failure of the driver of a vehicle to stop at a railway grade crossing as required by Section 22452.

(d) Evading a peace officer in violation of Section 2800.1 or 2800.2, or in violation of Section 2800.3 if the person's license is not revoked for that violation pursuant to paragraph (3) of subdivision (a) of Section 13351.

(1) Knowingly causing or participating in a vehicular collision, or any other vehicular accident, for the purpose of presenting or causing to be presented any false or fraudulent insurance claim.

(2) In lieu of suspending a person's driving privilege pursuant to paragraph (1), the court may order the privilege to operate a motor vehicle restricted to necessary travel to and from that person's place of employment for not more than six months. If driving a motor vehicle is necessary to perform the duties of the person's employment, the court may restrict the driving privilege to allow driving in that person's scope of employment. Whenever a person's driving privilege is restricted pursuant to this paragraph, the person shall be required to maintain proof of financial responsibility.

If the person convicted does not yet have the privilege to drive, the court shall order the department to delay issuing the privilege to drive for not less than one year nor more than three years subsequent to the time the person becomes legally eligible to drive. However, if there is no further conviction for violating Section 594, 594.3, or 594.4 of the Penal Code in a 12-month period after the conviction, the court, upon petition of the person affected, may modify the order imposing the delay of the privilege. For each successive time the minor is found to be an habitual truant, the court may suspend the minor’s driving privilege for a minor possessing a driver’s license, or delay the eligibility for the driving privilege for those not in possession of a driver’s license, for one additional year.

(b) Whenever the juvenile court suspends a minor’s driving privilege pursuant to subdivision (a), the court may require all driver’s licenses held by the minor to be surrendered to the court. The court shall, within 10 days following the surrender of the license, transmit a certified abstract of the findings, together with any driver’s licenses surrendered, to the department.

(c) When the juvenile court is considering suspending or delaying a minor’s driving privilege pursuant to subdivision (a), the court shall consider whether a personal or family hardship exists that requires the minor to have a driver’s license for his or her own, or a member of his or her family’s, employment or for medically related purposes.

In making the recommendation, the court shall state the basis for the belief that the condition exists and whether the defendant relied upon the condition as a part of his or her defense. The department may provide a form for the court’s convenience.

Record of Prior Convictions

13209. Before sentencing a person upon a conviction of a violation of Section 23152 or 23153, the court shall obtain from the department a record of any prior convictions of that person for traffic violations. The department shall furnish that record upon the written request of the court.

Notwithstanding the provisions of Section 1449 of the Penal Code, in any such criminal action the time for pronouncement of judgment shall not commence to run until the time that the court receives the record of prior convictions from the department.

13353.2. (a) The department shall immediately suspend the privilege of a person to operate a motor vehicle for any one of the following reasons:

1) The person was driving a motor vehicle when the person had 0.08 percent or more, by weight, of alcohol in his or her blood.

2) The person was under 21 years of age and had a blood-alcohol concentration of 0.01 percent or greater, as measured by a preliminary alcohol screening test, or other chemical test.

3) The person was driving a vehicle that requires a commercial driver’s license when the person had 0.04 percent or more, by weight, of alcohol in his or her blood.

4) The person was driving a motor vehicle when both of the following applied:

• The person was on probation for a violation of Section 23152 or 23153.

• The person had 0.01 percent or more, by weight, of alcohol in his or her blood, as measured by a preliminary alcohol screening test or other chemical test.

(b) The notice of the order of suspension under this section shall be served on the person by a peace officer pursuant to Section 13382 or 13388. The notice of the order of suspension shall be on a form provided by the department. If the notice of the order of suspension has not been served upon the person by the peace officer pursuant to Section 13382 or 13388, upon the receipt of the report of a peace officer submitted pursuant to Section 13380, the department shall mail written notice of the order of suspension to the person at the last known address shown on the department’s records and, if the address of the person provided by the peace officer’s report differs from the address of record, to that address.

(c) The notice of the order of suspension shall specify clearly the reason and statutory grounds for the suspension, the effective date of the suspension, the right of the person to request an administrative hearing, and the date by which requesting an administrative hearing, and the date by which a request for an administrative hearing shall be made in order to receive a determination prior to the effective date of the suspension.

(d) The department shall make a determination of the facts in subdivision (a) on the basis of the report of a peace officer submitted pursuant to Section 13380. The determination of the facts, after administrative review pursuant to Section 13557, by the department is final, unless an administrative hearing is held pursuant to Section 13558 and any judicial review of the administrative determination after the hearing pursuant to Section 13559 is final.

(e) The determination of the facts in subdivision (a) is a civil matter that is independent of the determination of the person’s guilt or innocence, shall have no collateral estoppel effect on a subsequent criminal prosecution, and shall not preclude the litigation of the same or similar facts in the criminal proceeding. If a person is acquitted of criminal charges relating to a determination of facts under subdivision (a), or if the person’s driver’s license was suspended pursuant to Section 13388 and the department finds no basis for a suspension pursuant to that section, the department shall immediately reinstate the person’s privilege to operate a motor vehicle if the department has suspended it administratively pursuant to subdivision (a), and the department shall return or reissue for the remaining term any driver’s license that has been taken from the person pursuant to Section 13382 or otherwise. Notwithstanding subdivision (b) of Section 13558, if criminal charges under Section 23140, 23152, or 23153 are not filed by the district attorney because of a lack of evidence, or if those charges are filed but are subsequently dismissed by the court because of an insufficiency of evidence, the person has a renewed right to request an administrative hearing before the department. The request for a hearing shall be made within one year from the date of arrest.

(f) The department shall furnish a form that requires a detailed explanation specifying which evidence was defective or lacking and detailing why that evidence was defective or lacking. The form shall be made available to the person to provide to the district attorney. The department shall hold an administrative hearing, and the hearing officer shall consider the reasons for the failure to prosecute given by the district attorney on the form provided by the department. If applicable, the hearing officer shall consider the reasons stated on the record by a judge who dismisses the charges. A fee shall not be imposed pursuant to Section 14905 for the return or reissuing of a driver’s license pursuant to this subdivision. The disposition of a suspension action under this section does not affect an action to suspend or revoke the person’s privilege to operate a motor vehicle under another provision of this code, including, but not limited to, Section 13352 or 13353, or Chapter 3 (commencing with Section 13800).

(2) (A) If the person has been convicted of one or more separate violations of Section 23103, as specified in Section 23103.5, or Section 23140, 23152, or 23153, or Section 191.5 or subdivision (a) of Section 192.5 of the Penal Code, the person has been administratively determined to have refused chemical testing pursuant to Section 13353 or 13353.1, or the person has been administratively determined to have been driving with an excessive concentration of alcohol pursuant to Section 13353.2 on a separate occasion, which offense or occurrence occurred within 10 years of the occasion in question, the person’s privilege to operate a motor vehicle shall be suspended for one year, except as provided in subparagraphs (B) and (C).

(B) The one-year suspension pursuant to subparagraph (A) shall terminate if the person has been convicted of a violation arising out of the same occurrence and all of the following conditions are met:

(i) The person is eligible for a restricted driver’s license pursuant to Section 13352.

(ii) The person installs an ignition interlock device as required in Section 13352 for that restricted driver’s license.

(iii) The person complies with all other applicable conditions of Section 13352 for a restricted driver’s license.

(C) The one-year suspension pursuant to subparagraph (A) shall terminate after completion of a 90-day suspension period, and the person shall be eligible for a restricted license if the person has been convicted of a violation of Section 23103, as specified in Section 23103.5, arising out of the same occurrence, has no more than two prior alcohol-related convictions within 10 years, as specified pursuant to subparagraph (A), and all of the following conditions are met:

(i) The person satisfactorily provides, subsequent to the underlying violation date, proof satisfactory to the department of enrollment in a nine-month driving-under-the-influence program licensed pursuant to Chapter 9 (commencing with Section 11836) of Part 2 of Division 10.5 of the Health and Safety Code that consists of at least 60 hours of program activities, including education, group counseling, and individual interview sessions.

(ii) The person agrees, as a condition of the restriction, to continue satisfactory participation in the program described in clause (i).

(iii) The person installs an ignition interlock device and submits the “Verification of Installation” form described in paragraph (2) of subdivision (b) of Section 13386.

(iv) The person agrees to maintain the ignition interlock device as required pursuant to subdivision (g) of Section 23575.

(v) The person provides proof of financial responsibility, as defined in Section 16430.

(vi) The person pays all license fees and any restriction fee required by the department.

(vii) The person pays to the department a fee sufficient to cover the costs of administration of this paragraph, as determined by the department.

(D) The department shall advise those persons that are eligible under subparagraph (C) that after completion of 90 days of the suspension period, the person may apply to the department for a restricted driver’s license, subject to the conditions set forth in subparagraph (C).

(E) The restricted driving privilege shall become effective when the department receives all of the documents and fees required under subparagraph (C) and remain in effect for at least the remaining period of the original suspension and until the person provides satisfactory proof to the department of successful completion of a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code. The restricted driving privilege shall be subject to the following conditions:

(i) If the driving privilege is restricted under this section, proof of financial responsibility, as described in Section 16430, shall be maintained for three years. If the person does not maintain that proof of financial responsibility at any time during the restriction, the driving privilege shall be suspended until the proof required pursuant to Section 16484 is received by the department.

(ii) For the purposes of this section, enrollment, participation, and completion of an approved program shall be subsequent to the date of the current violation. Credit may not be given to a program activity completed prior to the date of the current violation.

(iii) The department shall terminate the restriction issued pursuant to this section and shall suspend the privilege to operate a motor vehicle pursuant to subparagraph (A) immediately upon receipt of notification from the driving-under-the-influence program that the person has failed to comply with the program requirements. The privilege shall remain suspended until the final day of the original suspension imposed pursuant to subparagraph (A).

(iv) The department shall terminate the restriction issued pursuant to this section and shall immediately suspend the privilege to operate a motor vehicle pursuant to subparagraph (A) immediately upon receipt of notification from the installer that a person has attempted to remove, bypass, or tamper with the ignition interlock device, has removed the device prior to the termination date of the restriction, or fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device ordered pursuant to this section. The privilege shall remain suspended for the remaining period of the original suspension imposed pursuant to subparagraph (A).

(3) Notwithstanding any other law, if a person has been administratively determined to have been driving in violation
of Section 23136 or to have refused chemical testing pursuant to Section 13353.1, the period of suspension shall not be for less than one year.

(c) If a person’s privilege to operate a motor vehicle is suspended pursuant to Section 13353.2 and the person is convicted of a violation of Section 23152 or 23153, including, but not limited to, a violation described in Section 23620, arising out of the same occurrence, both the suspension under Section 13353.2 and the suspension or revocation under Section 13352 shall be imposed, except that the periods of suspension or revocation shall run concurrently, and the total period of suspension or revocation shall not exceed the longer of the two suspension or revocation periods.

(d) For the purposes of this section, a conviction of an offense in any state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada that, if committed in this state, would be a violation of Section 23103, as specified in Section 23103.5, or Section 23140, 23152, or 23153, or Section 191.5 or subdivision (a) of Section 192.5 of the Penal Code, is a conviction of that particular section of the Vehicle Code or Penal Code.

(e) The holder of a commercial driver’s license who was operating a commercial motor vehicle, as defined in Section 15210, at the time of a violation that resulted in a suspension or revocation of the person’s noncommercial driving privilege is not eligible for the restricted driver’s license authorized pursuant to this section.

§13353.7

Prohibitions: Restoration or Restricted Driving Privilege

13353.4. (a) Except as provided in Section 13353.3, 13353.7, or 13353.8, the driving privilege shall not be restored, and a restricted or hardship permit to operate a motor vehicle shall not be issued, to a person during the suspension or revocation period specified in Section 13353, 13353.1, or 13353.3.

(b) The privilege to operate a motor vehicle shall not be restored after a suspension or revocation pursuant to Section 13352, 13353, 13353.1, or 13353.2 until all applicable fees, including the fees prescribed in Section 14905, have been paid and the person gives proof of financial responsibility, as defined in Section 16430, to the department.

13353.5. (a) If a person whose driving privilege is suspended or revoked under Section 13352, former Section 13353.2, Section 13352.4, 13352.6, paragraph (1) of subdivision (g) of Section 23247, or paragraph (2) of subdivision (f) of Section 23575 is a resident of another state at the time the mandatory period of suspension or revocation expires, the department may terminate the suspension or revocation, upon written application of the person, for the purpose of allowing the person to apply for a license in his or her state of residence. The application shall include, but need not be limited to, evidence satisfactory to the department that the applicant now resides in another state.

(b) If the person submits an application for a California driver’s license within three years after the date of the action to terminate suspension or revocation pursuant to subdivision (a), a license shall not be issued until evidence satisfactory to the department establishes that the person is qualified for reinstatement and no grounds exist including, but not limited to, one or more subsequent convictions for driving under the influence of alcohol or other drugs that would support a refusal to issue a license. The department may waive the three-year requirement if the person provides the department with proof of financial responsibility, as defined in Section 16430, and proof satisfactory to the department of successful completion of a driving-under-the-influence program described in Section 13352, and the driving-under-the-influence program is of the length required under paragraphs (1) to (7), inclusive, of subdivision (a) of Section 13352.

(c) For the purposes of this section, “state” includes a foreign province or country.

(d) This section shall become operative on September 20, 2005.

§13353.7

Restricted Noncommercial Driver’s License

13353.7. (a) Subject to subdivision (c), if the person whose driving privilege has been suspended under Section 13353.2 has not been convicted of, or found to have committed, a separate violation of Section 23103, as specified in Section 23103.5, or Section 23140, 23152, or 23153 of this code, or Section 191.5 or subdivision (a) of Section 192.5 of the Penal Code, and if the person’s privilege to operate a motor vehicle has not been suspended or revoked pursuant to Section 13353 or 13353.2 for an offense that occurred on a separate occasion within 10 years of the occasion in question and, if the person subsequently enrolls in a driving-under-the-influence program licensed under Section 11836 of the Health and Safety Code, as described in subdivision (b) of Section 23578, that person, if 21 years of age or older at the time the offense occurred, may apply to the department for a restricted driver’s license limited to travel to and from the activities required by the program and to and from in the course of the person’s employment. After receiving proof of enrollment in the program, and if the person has not been arrested subsequent to the offense for which the person’s driving privilege has been suspended under Section 13353.2 for a violation of Section 23103, as specified in Section 23103.5, or Section 23140, 23152, or 23153 of this code, or Section 191.5 or subdivision (a) of Section 192.5 of the Penal Code, and if the person’s privilege to operate a motor vehicle
has not been suspended or revoked pursuant to Section 13353 or 13353.2 for an offense that occurred on a separate occasion, notwithstanding Section 13551, the department shall, after review pursuant to Section 13557, suspend the person’s privilege to operate a motor vehicle for 30 days and then issue the person a restricted driver’s license under the following conditions:

(1) The program shall report any failure to participate in the program to the department and shall certify successful completion of the program to the department.

(2) The person was 21 years of age or older at the time the offense occurred and gives proof of financial responsibility as defined in Section 16430.

(3) The restriction shall be imposed for a period of five months.

(4) If a person who has been issued a restricted license under this section fails at any time to participate in the program, the department shall suspend the restricted license immediately. The department shall give notice of the suspension under this paragraph in the same manner as prescribed in subdivision (b) of Section 13353.2 for the period specified in Section 13353.3, that is effective upon receipt by the person.

(b) Notwithstanding subdivision (a), and upon a conviction of Section 23152 or 23153, the department shall suspend or revoke the person’s privilege to operate a motor vehicle under Section 13352.

(c) If the driver was operating a commercial vehicle, as defined in Section 15210, at the time of the violation that resulted in the suspension of that person’s driving privilege under Section 13353.2, the department shall, pursuant to this section, if the person is otherwise eligible, issue the person a class C or class M driver’s license restricted in the same manner and subject to the same conditions as specified in subdivision (a), except that the license may not allow travel to and from or in the course of the person’s employment.

(d) If the holder of a commercial driver’s license was operating a motor vehicle, other than a commercial vehicle as defined in Section 15210, at the time of the violation that resulted in the suspension of that person’s driving privilege pursuant to Section 13353.2, the department shall, pursuant to this section, if the person is otherwise eligible, issue the person a class C or class M driver’s license restricted in the same manner and subject to the same conditions as specified in subdivision (a).

(e) This section does not apply to a person whose driving privilege has been suspended or revoked pursuant to Section 13353 or 13353.2 for an offense that occurred on a separate occasion, or as a result of a conviction of a separate violation of Section 23103, as specified in Section 23103.5, or Section 23140, 23152, or 23153, when that violation occurred within 10 years of the offense in question. This subdivision shall be operative only so long as a one-year suspension of the driving privilege for a second or subsequent occurrence or offense, with no restricted or hardship licenses permitted, is required by Section 408 or 410 of Title 23 of the United States Code.

§13353.8

Restricted License: Persons Under 21

13353.8. (a) After the department has issued an order suspending or delaying driving privileges as a result of a violation of subdivision (a) of Section 23136, the department, upon the petition of the person affected, may review the order and may impose restrictions on the person’s privilege to drive based upon a showing of a critical need to drive, if the department determines that, within 10 years of the current violation of Section 23136, the person has not violated Section 23136 or been convicted of a separate violation of Section 23140, 23152, or 23153, or of Section 23103, with a plea of guilty under Section 23103.5, or of Section 191.5 or subdivision (a) of Section 192.5 of, the Penal Code, and that the person’s driving privilege has not been suspended or revoked under Section 13353, 13353.1, or 13353.2 within that 10-year period.

(b) For purposes of this section, a conviction of an offense in a state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada that, if committed in this state, would be a violation of Section 23103, as specified in Section 23103.5, or Section 23140, 23152, 23153, or Section 191.5 or subdivision (a) of Section 192.5 of the Penal Code, is a conviction of that particular section of the Vehicle Code or Penal Code.

(c) As used in this section, “critical need to drive” means the circumstances that are required to be shown for the issuance of a junior permit pursuant to Section 12513.

(d) The restriction shall be imposed not earlier than the 31st day after the date the order of suspension became effective and shall remain in effect for the balance of the period of suspension or restriction in this section.

(2) After a hearing, the board shall review the findings and recommendations of the hearing officer, and any statement of exception, and make a decision concerning disposition of the action taken by the department, which decision shall be final. At this stage, no evidence shall be heard that was not presented at the hearing, unless the person wishing to present the new evidence establishes, to the satisfaction of the board, that it could not have been obtained with due diligence prior to the hearing.

Denial, Suspension, or Revocation of Ambulance Driver Certificate

13372. (a) The department shall refuse to issue or renew, or shall suspend or revoke an ambulance driver certificate if any of the following apply to the applicant or certificate holder:

(11) Has violated any provision of this code or any rule or regulation adopted by the Commissioner of the California Highway Patrol relating to the operation of emergency vehicles within one year.

(12) Has committed any act that warrants dismissal, as provided in Section 13373.

gain or conduct contrary to justice, honesty, modesty, or good morals, may be sufficient cause for the dismissal of any ambulance driver or attendant. Dismissal of a driver or attendant under this section shall be reported by the employer to the Department of Motor Vehicles at Sacramento within 10 days.

Refusal to Issue or Renew, Suspension, or Revocation of Ambulance Driver Certificate: Hearings

13374. (a) An applicant for, or the holder of, an ambulance driver certificate who has received a notice of refusal, suspension, or revocation, may submit, within 15 days after the notice has been mailed by the department, a written request for a hearing. Upon receipt of the request, the department shall appoint a referee who shall conduct an informal hearing in accordance with Section 14104. Failure to request a hearing within 15 days after the notice has been mailed by the department is a waiver of the right to a hearing. A request for a hearing shall not operate to stay the action for which notice is given.

(b) Upon conclusion of an informal hearing, the referee shall prepare and submit findings and recommendations through the department to a committee of three members each appointed by the Director of the Emergency Medical Service Authority, the director, and the Commissioner of the California Highway Patrol with the appointee of the Commissioner of the California Highway Patrol serving as chairperson. After review of the findings and recommendations, the committee shall render a final decision on the action taken, and the department shall notify the person involved of the decision.

Definition of Conviction

13375. For the purpose of this article, any plea or verdict of guilty, plea of nolo contendere, or court finding of guilt in a trial without a jury, or forfeiture of bail, is deemed a conviction, notwithstanding subsequent action under Section 1203.4 or 1203.4a of the Penal Code allowing withdrawal of the plea of guilty and entering a plea of not guilty, setting aside the verdict of guilty, or dismissing the accusation or information.

However, the department shall not revoke a certificate under this paragraph if the certificate holder is in compliance with any rehabilitation or return to duty program that is imposed by the employer that meets the controlled substances and alcohol use and testing requirements set forth in Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations. The driver shall be allowed to participate in a rehabilitation or return to duty program only once within a three-year period. The employer or program shall report any subsequent positive test result or drop from the program to the department on a form approved by the department.

(2) If an applicant refuses to submit to a test for, fails to comply with the testing requirements for, or receives a positive test for a controlled substance, the department shall refuse the application for a certificate listed in subdivision (a) for three years from the date of the confirmed positive test result.

(3) The carrier that requested the test shall report the refusal, failure to comply, or positive test result to the department not later than five days after receiving notification of the test result on a form approved by the department.

(4) The department shall maintain a record of any action taken for a refusal, failure to comply, or positive test result in the driving record of the applicant or certificate holder for three years from the date of the refusal, failure to comply, or positive test result.

(c) (1) The department may temporarily suspend a schoolbus, school pupil activity bus, youth bus, or general public paratransit driver certificate, or temporarily withhold issuance of a certificate to an applicant, if the holder or applicant is arrested for or charged with any sex offense, as defined in Section 44010 of the Education Code.

(2) Upon receipt of a notice of temporary suspension, or of the department’s intent to withhold issuance, of a certificate, the certificate holder or applicant may request a hearing within 10 days of the effective date of the department’s action.

(3) The department shall, upon request of the holder of, or applicant for, a certificate, within 10 working days of the receipt of the request, conduct a hearing on whether the public interest requires suspension or withholding of the certificate pursuant to paragraph (1).

(4) If the charge is dismissed or results in a finding of not guilty, the department shall immediately terminate the suspension or resume the application process, and shall expunge the suspension action taken pursuant to this subdivision from the record of the applicant or certificate holder.

(d) An applicant or holder of a certificate may reapply for a certificate whenever a felony or misdemeanor conviction is reversed or dismissed. A termination of probation and dismissal of charges pursuant to Section 1203.4 of the Penal Code or a dismissal of charges pursuant to Section 1203.4a of the Penal Code is not a dismissal for purposes of this section.

(e) The determination of the facts pursuant to this section is a civil matter which is independent of the determination of the person’s guilt or innocence, has no collateral estoppel effect on a subsequent criminal prosecution, and does not preclude the litigation of the same or similar facts in a criminal proceeding.

§13377

(b) For purposes of this section, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. For purposes of this section, the record of a conviction, or a copy thereof certified by the clerk of the court or by a judge of the court in which the conviction occurred, is conclusive evidence of the conviction.

(c) Whenever the department receives information from the Department of Justice, or the Federal Bureau of Investigation, that a tow truck driver has been convicted of an offense specified in paragraph (1), (2), (3), or (4) of subdivision (a), the department shall immediately notify the employer and the Department of the California Highway Patrol.

(d) An applicant or holder of a tow truck driver certificate, whose certificate was denied or revoked, may reapply for a certificate whenever the applicable felony or misdemeanor conviction is reversed or dismissed. If the cause for the denial or revocation was based on the suspension or revocation of the applicant’s or holder’s driving privilege, he or she may reapply for a certificate upon restoration of his or her driving privilege. A termination of probation and dismissal of charges pursuant to Section 1203.4 of the Penal Code or a dismissal of charges pursuant to Section 1203.4a of the Penal Code is not a dismissal for purposes of this section.

(b) Upon receipt by the department of the hearing request, the department may stay the action until a hearing is conducted and the final decision is made by the hearing officer. The department shall not stay the action when there is reasonable cause to believe that the stay would pose a threat to a member of the motoring public who may require the services of the tow truck driver in question.

(c) An applicant for, or a holder of, a tow truck driver certificate, whose certificate has been refused or revoked, is not entitled to a hearing whenever the action by the department is made mandatory by this Article or any other applicable law or regulation.

(d) Upon receipt of a request for a hearing, and when the requesting party is entitled to a hearing under this article, the department shall appoint a hearing officer to conduct a hearing in accordance with Section 14112.

(b) All application forms for driver's licenses or driver's license renewal notices shall include a requirement that the applicant sign the following declaration as a condition of licensure:

Therefore, it is extremely dangerous to human life to drive while under the influence of alcohol or drugs, or both. If I drive while under the influence of alcohol or drugs, or both, and as a result, a person is killed, I can be charged with murder.”

(b) On all application forms for driver's licenses or driver's license renewal notices printed by the department, in English or a language other than English, the department shall include the declaration in the same language as the application or renewal notice.

(2) (A) The Department of Motor Vehicles shall ensure that ignition interlock devices that have been certified according to the requirements of this section continue to meet certification requirements. The department may periodically require manufacturers to indicate in writing whether the devices continue to meet certification requirements.

(B) The department may use denial of certification, suspension or revocation of certification, or decertification of an ignition interlock device in another state as an indication that the certification requirements are not met, if either of the following apply:

(i) The denial of certification, suspension or revocation of certification, or decertification in another state constitutes a violation by the manufacturer of Article 2.55 (commencing with Section 125.00) of Chapter 1 of Division 1 of Title 13 of the California Code of Regulations.

(ii) The denial of certification for an ignition interlock device in another state was due to a failure of an ignition interlock device to meet the standards adopted by the regulation set forth in clause (i), specifically Sections 1 and 2 of the model specification for breath alcohol ignition interlock devices, as published by notice in the Federal Register, Vol. 57, No. 67, Tuesday, April 7, 1992, on pages 11774 to 11787, inclusive.

(C) Failure to continue to meet certification requirements shall result in suspension or revocation of certification of ignition interlock devices.

(b) (1) A manufacturer shall not furnish an installer, service center, technician, or consumer with technology or information that allows a device to be used in a manner that is contrary to the purpose for which it is certified.

(2) Upon a violation of paragraph (1), the department shall suspend or revoke the certification of the ignition interlock device that is the subject of that violation.

(c) An installer, service center, or technician shall not tamper with, change, or alter the functionality of the device from its certified criteria.

(d) The department shall utilize information from an independent laboratory to certify ignition interlock devices on or off the premises of the manufacturer or manufacturer's agent, in accordance with the guidelines. The cost of certification shall be borne by the manufacturers of ignition interlock devices. If the certification of a device is suspended or revoked, the manufacturer of the device shall be responsible for, and shall bear the cost of, the removal of the device and the replacement of a certified device of the manufacturer or another manufacturer.

(e) No model of ignition interlock device shall be certified unless it meets the accuracy requirements and specifications provided in the guidelines adopted by the National Highway Traffic Safety Administration.

(f) All manufacturers of ignition interlock devices that meet the requirements of subdivision (e) and are certified in a manner approved by the Department of Motor Vehicles, who intend to market the devices in this state, first shall apply to the Department of Motor Vehicles on forms provided by that department. The application shall be accompanied by a fee in an amount not to exceed the amount necessary to cover the costs incurred by the department in carrying out this section.

(g) A manufacturer and a manufacturer's agent certified by the department to provide ignition interlock devices shall
§13388  —334—  Div. 6

provide each year to the department information on the number of false positives and the time to reset the device. The department shall use this information in evaluating the continued certification of an ignition interlock device.

(h) The department shall ensure that standard forms and procedures are developed for documenting decisions and compliance and communicating results to relevant agencies. These forms shall include all of the following:

(1) An “Option to Install,” to be sent by the Department of Motor Vehicles to repeat offenders along with the mandatory order of suspension or revocation. This shall include the alternatives available for early license reinstatement with the installation of an ignition interlock device and shall be accompanied by a toll-free telephone number for each manufacturer of a certified ignition interlock device. Information regarding approved installation locations shall be provided to drivers by manufacturers with ignition interlock devices that have been certified in accordance with this section.

(2) A “Verification of Installation” to be returned to the department by the reinstating offender upon application for reinstatement. Copies shall be provided for the manufacturer or the manufacturer’s agent.

(3) A “Notice of Noncompliance” and procedures to ensure continued use of the ignition interlock device during the restriction period and to ensure compliance with maintenance requirements. The maintenance period shall be standardized at 60 days to maximize monitoring checks for equipment tampering.

(i) Every manufacturer and manufacturer’s agent certified by the department to provide ignition interlock devices shall adopt fee schedules that provide for the payment of the costs of the device by applicants in amounts commensurate with the applicant’s ability to pay.

Amended Sec. 229, Ch. 328, Stats. 2010. Effective January 1, 2011.

Preliminary Alcohol Screening Test or Other Chemical Testing: Persons Under 21

13388. (a) If a peace officer lawfully detains a person under 21 years of age who is driving a motor vehicle, and the officer has reasonable cause to believe that the person is in violation of Section 23136, the officer shall request that the person take a preliminary alcohol screening test to determine the presence of alcohol in the person, if a preliminary alcohol screening test device is immediately available. If a preliminary alcohol screening test device is not immediately available, the officer may request the person to submit to chemical testing of his or her blood, breath, or urine, conducted pursuant to Section 23612.

(b) If the person refuses to take, or fails to complete, the preliminary alcohol screening test or refuses to take or fails to complete a chemical test if a preliminary alcohol device is not immediately available, or if the person takes the preliminary alcohol screening test and that test reveals a blood-alcohol concentration of 0.01 percent or greater, the officer shall proceed as follows:

(1) The officer, acting on behalf of the department, shall serve the person with a notice of an order of suspension of the person’s driving privilege.

(2) The officer shall take possession of any driver’s license issued by this state which is held by the person. When the officer takes possession of a valid driver’s license, the officer shall issue, on behalf of the department, a temporary driver’s license. The temporary driver’s license shall be an endorsement on the notice of the order of suspension and shall be valid for 30 days from the date of issuance, or until receipt of the order of suspension from the department, whichever occurs first.

(3) The officer immediately shall forward a copy of the completed notice of order of suspension form, and any driver’s license taken into possession under paragraph (2), with the report required by Section 13380, to the department. For the purposes of this paragraph, “immediately” means on or before the end of the fifth ordinary business day after the notice of order of suspension was served.

(c) For the purposes of this section, a preliminary alcohol screening test device is an instrument designed and used to measure the presence of alcohol in a person based on a breath sample.

Preliminary Alcohol Screening or Other Chemical Test: Persons on Probation for Prior DUI

13389. (a) If a peace officer lawfully detains a person previously convicted of Section 23152 or 23153 who is driving a motor vehicle, while the person is on probation for a violation of Section 23152 or 23153, and the officer has reasonable cause to believe that the person is in violation of Section 23154, the officer shall request that the person take a preliminary alcohol screening test to determine the presence of alcohol in the person, if a preliminary alcohol screening test device is immediately available. If a preliminary alcohol screening test device is not immediately available, the officer may request the person to submit to chemical testing of his or her blood, breath, or urine, conducted pursuant to Section 23612.

(b) If the person refuses to take, or fails to complete, the preliminary alcohol screening test or refuses to take or fails to complete a chemical test if a preliminary alcohol device is not immediately available, or if the person takes the preliminary alcohol screening test and that test reveals a blood-alcohol concentration of 0.01 percent or greater, the officer shall proceed as follows:

(1) The officer, acting on behalf of the department, shall serve the person with a notice of an order of suspension of the person’s driving privilege.

(2) (A) The officer shall take possession of any driver’s license issued by this state which is held by the person. When the officer takes possession of a valid driver’s license, the officer shall issue, on behalf of the department, a temporary driver’s license. The temporary driver’s license shall be an endorsement on the notice of the order of suspension and shall be valid for 30 days from the date of issuance, or until receipt of the order of suspension from the department, whichever occurs first.

(B) The temporary driver’s license shall be an endorsement on the notice of the order of suspension and shall be valid for 30 days from the date of issuance, or until receipt of the order of suspension from the department, whichever occurs first.

(3) (A) The officer shall immediately forward a copy of the completed notice of order of suspension form, and any driver’s license taken into possession under paragraph (2), with the report required by Section 13380, to the department.
(B) For the purposes of subparagraph (A), “immediately” means on or before the end of the fifth ordinary business day after the notice of order of suspension was served.

(c) For the purposes of this section, a preliminary alcohol screening test device is an instrument designed and used to measure the presence of alcohol in a person based on a breath sample.

**Fees for Reissuance, Return, or Issuance of License**

13392. Any person whose license is suspended or delayed issuance pursuant to Section 13388 shall pay to the department, in addition to any other fees required for the reissuance, return, or issuance of a driver’s license, one hundred dollars ($100) for the reissuance, return, or issuance of his or her driver’s license.

**Surrender of License to Court**

13550. Whenever any person is convicted of any offense for which this code makes mandatory the revocation or suspension by the department of the privilege of the person to operate a motor vehicle, the privilege of the person to operate a motor vehicle is suspended or revoked until the department takes the action required by this code, and the court in which the conviction is had shall require the surrender to it of the driver’s license or temporary permit issued to the person convicted and the court shall within 10 days after the conviction forward the same with the required report of the conviction to the department.

**Surrender of Licenses to Department**

13551. (a) Whenever the department revokes or suspends the privilege of any person to operate a motor vehicle, the revocation or suspension shall apply to all driver’s licenses held by that person, and, unless previously surrendered to the court, all of those licenses shall be surrendered to the department, or, pursuant to Section 13388, 23612, or 13382, to a peace officer on behalf of the department. Whenever the department cancels a driver’s license, the license shall be surrendered to the department. All suspended licenses shall be retained by the department. The department shall return the license to the licensee, or may issue the person a new license upon the expiration of the period of suspension or revocation, if the person is otherwise eligible for a driver’s license.

(b) The department shall return the license to the licensee, or may issue the person a new license, whenever the department determines that the grounds for suspension, revocation, or cancellation did not exist at the time the action was taken, if the person is otherwise eligible for a driver’s license.

**Nonresidents**

13552. (a) The privileges of a nonresident to operate vehicles in this state may be suspended or revoked under the provisions of this Chapter in the same manner and to the same extent as the privileges of a resident driver.

(b) Any nonresident, whether or not licensed to drive in a foreign jurisdiction, who operates a motor vehicle upon a highway after his privilege of operating a motor vehicle in this state has been suspended or revoked is in violation of Section 14601 or 14601.1.

(c) Whenever the department revokes or suspends the privileges of a nonresident to operate vehicles in this state, it shall send a certified copy of the order to the proper authorities in the state wherein the person is a resident.

**Unlicensed Persons**

13553. Whenever a court or the department suspends or revokes the privilege of any person to operate a motor vehicle and the person does not hold a valid driver’s license, or has never applied for or received a driver’s license in this state, the person shall be subject to any and all penalties and disabilities provided in this code for a violation of the terms and conditions of a suspension or revocation of the privilege to operate a motor vehicle.

**Termination of Probation and Dismissal of Charges**

13555. A termination of probation and dismissal of charges pursuant to Section 1203.4 or a dismissal of charges pursuant to Section 1203.4 (a) of the Penal Code does not affect any revocation or suspension of the privilege of the person convicted to drive a motor vehicle under this chapter. Such person’s prior conviction shall be considered a conviction for the purpose of revoking or suspending or otherwise limiting such privilege on the ground of two or more convictions.

**Duration of Suspension**

13556. (a) Unless otherwise specifically provided in this chapter, no suspension of a license by the department shall be for a longer period than six months, except that the department may suspend a license for a maximum period of 12 months in those cases when a discretionary revocation would otherwise be authorized pursuant to this chapter.

(b) Any discretionary suspension, the ending of which is dependent upon an action by the person suspended and which has been in effect for eight years, may be ended at the election of the department.

(c) Notwithstanding any other provisions of this code, a suspension based upon a physical or mental condition shall continue until evidence satisfactory to the department establishes that the cause for which the action was taken has been removed or no longer renders the person incapable of operating a motor vehicle safely.

**Administrative Review of Order of Suspension or Revocation**

13557. (a) The department shall review the determination made pursuant to Section 13353, 13353.1, or 13353.2 relating to a person who has received a notice of an order of suspension or revocation of the person’s privilege to operate a motor vehicle pursuant to Section 13353, 13353.1, 13353.2, 13382, or 23612. The department shall consider the sworn report submitted by the peace officer pursuant to Section 23612 or 13380 and any other evidence accompanying the report.

(b) (1) If the department determines in the review of a determination made under Section 13353 or 13353.1, by a
§13558

Suspension or Revocation: Request and Scope of Hearing

13558. (a) Any person, who has received a notice of an order of suspension or revocation of the person’s privilege to operate a motor vehicle pursuant to Section 13353, 13353.1, 13353.2, 13388, 23612, or 13382 or a notice pursuant to Section 13557, may request a hearing on the matter pursuant to Article 3 (commencing with Section 14100) of Chapter 3, except as otherwise provided in this section.

(b) If the person wishes to have a hearing before the effective date of the order of suspension or revocation, the request for a hearing shall be made within 10 days of the receipt of the notice of the order of suspension or revocation. The hearing shall be held at a place designated by the department as close as practicable to the place where the arrest occurred, unless the parties agree to a different location. Any evidence at the hearing shall not be limited to the evidence presented at an administrative review pursuant to Section 13557.

(c) (1) The only issues at the hearing on an order of suspension or revocation pursuant to Section 13353 or 13353.1 shall be those facts listed in paragraph (1) of subdivision (b) of Section 13357. Notwithstanding Section 14106, the period of suspension or revocation specified in Section 13353 or 13353.1 paragraph (3) is final unless a hearing is requested within 10 days of the determination, which hearing shall be conducted according to Section 13558. For persons over 21 years of age, the determination of the department upon administrative review is final unless a hearing is requested pursuant to Section 13558.

(d) The administrative review does not stay the suspension or revocation of a person’s privilege to operate a motor vehicle. If the department is unable to make a determination on administrative review within the time limit in subdivision (c), the department shall stay the effective date of the order of suspension or revocation pending the determination and, if the person’s driver’s license has been taken by the peace officer pursuant to Section 13382, 13388, 13389, or 23612, the department shall notify the person before the expiration date of the temporary permit issued pursuant to Section 13382, 13388, 13389, or 23612, or the expiration date of any previous extension issued pursuant to this subdivision, in a form that permits the person to establish to any peace officer that his or her privilege to operate a motor vehicle is not suspended or revoked.

(e) A person may request and be granted a hearing pursuant to Section 13558 without first receiving the results of an administrative review pursuant to this section. After receiving a request for a hearing, the department is not required to conduct an administrative review of the same matter pursuant to this section.

(f) A determination of facts by the department under this section has no collateral estoppel effect on a subsequent criminal prosecution and does not preclude litigation of those same facts in the criminal proceeding.
shall not be reduced and, notwithstanding Section 14105.5, the effective date of the order of suspension or revocation shall not be stayed pending review at a hearing pursuant to this section.

(2) The only issues at the hearing on an order of suspension pursuant to Section 13553.2 shall be those facts listed in paragraph (2) of subdivision (b) of Section 13557. Notwithstanding Section 14106, the period of suspension specified in Section 13553.3 shall not be reduced.

(d) The department shall hold the administrative hearing before the effective date of the order of suspension or revocation if the request for the hearing is postmarked or received by the department on or before 10 days after the person’s receipt of the service of the notice of the order of suspension or revocation pursuant to Section 13553.2, 13388, 23612, or 13382.

(e) A request for an administrative hearing does not stay the suspension or revocation of a person’s privilege to operate a motor vehicle. If the department does not conduct an administrative hearing and make a determination after an administrative hearing within the time limit in subdivision (d), the department shall stay the effective date of the order of suspension or revocation pending the determination and, if the person’s driver’s license has been taken by the peace officer pursuant to Section 13388, 23612, or 13382, the department shall notify the person before the expiration date of the temporary permit issued pursuant to Section 13388, 23612, or 13382, or the expiration date of any previous extension issued pursuant to this subdivision, provided the person is otherwise eligible, in a form that permits the person to establish to any peace officer that his or her privilege to operate a motor vehicle is not suspended or revoked.

(f) The department shall give written notice of its determination pursuant to Section 14105. If the department determines, upon a hearing of the matter, to suspend or revoke the person’s privilege to operate a motor vehicle, notwithstanding the term of any temporary permit issued pursuant to Section 13388, 23612, or 13382, the temporary permit shall be revoked and the suspension or revocation of the person’s privilege to operate a motor vehicle shall become effective five days after notice is given. If the department sustains the order of suspension or revocation, the department shall include notice that the person has a right to review by the court pursuant to Section 13559.

(g) A determination of facts by the department upon a hearing pursuant to this section has no collateral estoppel effect on a subsequent criminal prosecution and does not preclude litigation of those same facts in the criminal proceeding.

Judicial Review

13559. (a) Notwithstanding Section 14400 or 14401, within 30 days of the issuance of the notice of determination of the department sustaining an order of suspension or revocation of the person’s privilege to operate a motor vehicle after the hearing pursuant to Section 13558, the person may file a petition for review of the order in the court of competent jurisdiction in the person’s county of residence. The filing of a petition for judicial review shall not stay the order of suspension or revocation. The review shall be on the record of the hearing and the court shall not consider other evidence. If the court finds that the department exceeded its constitutional or statutory authority, made an erroneous interpretation of the law, acted in an arbitrary and capricious manner, or made a determination which is not supported by the evidence in the record, the court may order the department to rescind the order of suspension or revocation and return, or reissue a new license to, the person.

(b) A finding by the court after a review pursuant to this section shall have no collateral estoppel effect on a subsequent criminal prosecution and does not preclude litigation of those same facts in the criminal proceeding.

CHAPTER 3. INVESTIGATION AND HEARING

Article 1. Investigation and Re-examination

Investigations by the Department

13800. The department may conduct an investigation to determine whether the privilege of any person to operate a motor vehicle should be suspended or revoked or whether terms or conditions of probation should be imposed upon receiving information or upon a showing by its records:

(a) That the licensee has been involved in an accident causing death or personal injury or serious damage to property.

(b) That the licensee has been involved in three or more accidents within a period of 12 consecutive months.

(c) That the person in three consecutive years has committed three or more offenses which have resulted in convictions involving the consumption of an alcoholic beverage or drug, or both, while operating a motor vehicle, including, but not limited to, offenses under Section 23103.5, 23152, 23153, 23222, or 23224; has been involved in three or more accidents in which the accident reports show that the person was driving and had consumed alcoholic beverages or drugs, or both; or had any combination of three or more of those offenses and accidents.

(d) That the licensee is a reckless, negligent, or incompetent driver of a motor vehicle.

(e) That the licensee has permitted an unlawful or fraudulent use of his driver’s license.

(f) That any ground exists for which a license might be refused. The receipt by the department of an abstract of the record of conviction of any offense involving the use or possession of narcotic controlled substances under Division 10 (commencing with Section 11000) of the Health and Safety Code shall be a sufficient basis for an investigation by the department to determine whether grounds exist for which a license might be refused.

Re-examination by Department

13801. In addition to the investigation, the department may require the re-examination of the licensee, and shall give 10 days’ written notice of the time and place thereof. If the licensee refuses or fails to submit to the re-examination, the department may peremptorily suspend the driving privilege of the person until such time as the licensee shall have submitted to re-examination. The suspension shall be effective upon notice.
Special Consideration for Amount of Use

13802. In applying the provisions of Section 13800 the department shall give due consideration to the amount of use or mileage traveled in the operation of a motor vehicle.

Article 2. Notice

Notice Required

13950. Whenever the department determines upon investigation or re-examination that any of the grounds for re-examination are true, or that the safety of the person investigated or re-examined or other persons upon the highways requires such action, and it proposes to revoke or suspend the driving privilege of the person or proposes to impose terms of probation on his driving privilege, notice and an opportunity to be heard shall be given before taking the action.

Notice Upon Refusal of License

13951. Whenever the department proposes to refuse to issue or renew a driver's license, it shall notify the applicant of such fact and give him an opportunity to be heard.

Contents of Notice

13952. The notice shall contain a statement setting forth the proposed action and the grounds therefor, and notify the person of his right to a hearing as provided in this chapter, or the department, at the time it gives notice of its intention to act may set the date of hearing, giving 10 days' notice thereof.

Alternative Action

13953. In the alternative to the procedure under Sections 13950, 13951, and 13952 and in the event the department determines upon investigation or reexamination that the safety of the person subject to investigation or reexamination or other persons upon the highways require such action, the department shall forthwith and without hearing suspend or revoke the privilege of the person to operate a motor vehicle or impose reasonable terms and conditions of probation which shall be relative to the safe operation of a motor vehicle. No order of suspension or revocation or the imposition of terms or conditions of probation shall become effective until 30 days after the giving of written notice thereof to the person affected, except that the department shall have authority to make any such order effective immediately upon the giving of notice when in its opinion because of the mental or physical condition of the person such immediate action is required for the safety of the driver or other persons upon the highways.

Required Suspension or Revocation

13954. (a) Notwithstanding any other provision of this code, the department immediately shall suspend or revoke the driving privilege of a person who the department has reasonable cause to believe was in some manner involved in an accident while operating a motor vehicle under the following circumstances at the time of the accident:

1. The person had 0.08 percent or more, by weight, of alcohol in his or her blood.
2. He or she proximately caused the accident as a result of an act prohibited, or the neglect of any duty imposed, by law.
3. The accident occurred within five years of the date of a violation of subdivision (b) of Section 191.5 of the Penal Code that resulted in a conviction.
4. If an accident described in subdivision (a) does not result in a conviction or finding of a violation of Section 23152 or 23153, the department shall suspend the driving privilege under this section for one year from the date of commencement of the original suspension. After the one-year suspension period, the driving privilege may be reinstated if evidence establishes to the satisfaction of the department that no grounds exist that would authorize the refusal to issue a license and that reinstatement of the driving privilege would not jeopardize the safety of the person or other persons upon the highways, and if the person gives proof of financial responsibility, as defined in Section 16430.
5. If an accident described in subdivision (a) does result in a conviction or finding of a violation of Section 23152 or 23153, the department shall revoke the driving privilege under this section for three years from the date of commencement of the original revocation. After the three-year revocation period, the driving privilege may be reinstated if evidence establishes to the satisfaction of the department that no grounds exist that would authorize the refusal to issue a license and that reinstatement of the driving privilege would not jeopardize the safety of the person or other persons upon the highways, and if the person gives proof of financial responsibility.
6. Any revocation action under subdivision (c) shall be imposed as follows:
   1. If the accident results in a first conviction of a violation of Section 23152 or 23153, or if the person was convicted of a separate violation of Section 23152 or 23153 that occurred within five years of the accident, the period of revocation under subdivision (c) shall be concurrent with any period of restriction, suspension, or revocation imposed under Section 13352, 13352.4, or 13352.5.
   2. If the person was convicted of two or more separate violations of Section 23152 or 23153, or both, that occurred within five years of the accident, the period of revocation under subdivision (c) shall be cumulative and shall be imposed consecutively with any period of restriction, suspension, or revocation imposed under Section 13352 or 13352.5.
   3. The department immediately shall notify the person in writing of the action taken and, upon the person's request in writing and within 15 days from the date of receipt of that request, shall grant the person an opportunity for a hearing in the same manner and under the same conditions as provided in Article 3 (commencing with Section 14100) of Chapter 3, except as otherwise provided in this section. For purposes of this section, the scope of the hearing shall cover the following issues:
      1. Whether the peace officer had reasonable cause to believe the person had been driving a motor vehicle in violation of Section 23152 or 23153.
      2. Whether the person had been placed under lawful arrest.
      3. Whether a chemical test of the person's blood, breath, or urine indicated that the blood-alcohol level was 0.08 percent or more, by weight, at the time of testing.

If the department determines, upon a hearing of the matter, that the person had not been placed under lawful arrest, or that a chemical test of the person's blood, breath, or urine did not indicate a blood-alcohol level of 0.08 percent or more, by weight, at the time of testing, the suspension or revocation shall be terminated immediately.

(f) This section applies if the accident occurred on or after January 1, 1990, without regard for the dates of the violations referred to in subdivisions (a) and (d).

(g) Notwithstanding subdivision (f), if a person's privilege to operate a motor vehicle is required to be suspended or revoked pursuant to this section as it read before January 1, 1990, as a result of an accident that occurred before January 1, 1990, the privilege shall be suspended or revoked pursuant to this section as it read before January 1, 1990.

Article 3. Hearing

Demand for Hearing

14100. (a) Whenever the department has given notice, or has taken or proposes to take action under Section 12804.15, 13353, 13353.2, 13950, 13951, 13952, or 13953, the person receiving the notice or subject to the action may, within 10 days, demand a hearing which shall be granted, except as provided in Section 14101.

(b) An application for a hearing does not stay the action by the department for which the notice is given.

(c) The fact that a person has the right to request an administrative hearing within 10 days after receipt of the notice of the order of suspension under this section and Section 16070, and that the request is required to be made within 10 days in order to receive a determination prior to the effective date of the suspension shall be made prominent on the notice.

(d) The department shall make available notices, to accompany the notice provided pursuant to this section, that provide the information required pursuant to subdivision (c) in all non-English languages spoken by a substantial number of the public served by the department, and shall distribute the notices as it determines is appropriate.

(e) The department shall implement the provisions of subdivisions (c) and (d) as soon as practicable, but not later than January 1, 1994.

Hearing Procedure

14100.1. Hearings granted on refusal, suspension, or revocation of a passenger transportation vehicle or hazardous materials endorsement, or farm labor vehicle certificate shall be conducted according to Chapter 3 (commencing with Section 13800) of Division 6.

No Hearing

14101. A person is not entitled to a hearing in either of the following cases:

(a) If the action by the department is made mandatory by this code.

(b) If the person has previously been given an opportunity with appropriate notice for a hearing and failed to request a hearing within the time specified by law.

Waiver of Hearing

14103. Failure to respond to a notice given under this Chapter within 10 days is a waiver of the right to a hearing, and the department may take action without a hearing or may, upon request of the person whose privilege of driving is in question, or at its own option, reopen the question, take evidence, change, or set aside any order previously made, or grant a hearing.

Notice of Hearing

14104. If the department grants a hearing as provided in this chapter, it shall fix a time and place for the hearing and shall give 10 days’ notice of the hearing to the applicant or licensee. The notice of hearing shall also include a statement of the discovery rights of the applicant or licensee to review the department’s records prior to the hearing.

Person Conducting Hearing: Recording of Hearing

14104.2. (a) Any hearing shall be conducted by the director or by a hearing officer or hearing board appointed by him or her from officers or employees of the department.

(b) The entire proceedings at any hearing may be recorded by a phonographic recorder or by mechanical, electronic, or other means capable of reproduction or transcription.

Issuance of Subpoenas

14104.5. (a) Before a hearing has commenced, the department, or the hearing officer or hearing board, shall issue subpoenas or subpoenas duces tecum, or both, at the request of any party, for attendance or production of documents at the hearing. After the hearing has commenced, the department, if it is hearing the case, or the hearing officer sitting alone, or the hearing board, may issue subpoenas or subpoenas duces tecum, or both.

(b) Notwithstanding Section 11450.20 of the Government Code, subpoenas and subpoenas duces tecum issued in conjunction with the hearings may be served by first-class mail.

Evidence at Hearing

14104.7. At any hearing, the department shall consider its official records and may receive sworn testimony. At the hearing, or subsequent to the hearing with the consent of the applicant or licensee, any or all of the following may be submitted as evidence concerning any fact relating to the ability of the applicant or licensee to safely operate a motor vehicle:

(a) Reports of attending or examining physicians and surgeons.

(b) Reports of special investigators appointed by the department to investigate and report upon any facts relating to the ability of the person to operate a vehicle safely.

(c) Properly authenticated reports of hospital records, excerpts from expert testimony received by the department or a hearing board upon similar issues of scientific fact in other cases, and the prior decision of the director upon those issues.

Decision: Notice

14105. (a) Upon the conclusion of a hearing, the hearing officer or hearing board shall make findings and render a decision on behalf of the department and shall notify the person involved. Notice of the decision shall include a statement of the person’s right to a review. The decision shall take effect as stated in the notice, but not less than four nor more than 15 days after the notice is mailed.

(b) The decision may be modified at any time after issuance to correct mistakes or clerical errors.

Department Review

14105.5. (a) The person subject to a hearing may request a review of the decision taken under Section 14105 within 15 days of the effective date of the decision.

(b) On receipt of a request for review, the department shall stay the action pending a decision on review, unless the hearing officer or hearing board conducting the original hearing may not participate in the review process.

(c) Following the review, a written notice of the department’s decision shall be mailed to the person involved. If the action has been stayed pending review, the department’s decision shall take effect as stated in the notice, but not less than four nor more than 15 days after the notice is mailed.

(d) The decision may be modified at any time after issuance to correct mistakes or clerical errors.

Amended Sec. 34, Ch. 724, Stats. 1999. Effective January 1, 2000.

Authorized Action by Department

14106. Following the mailing of the notice of the department’s decision pursuant to Section 14105.5, the department, at its own option or upon the request of the person whose privilege of driving is in question, may reopen the question, take further evidence, or change or set aside any order previously made.

Administrative Adjudication

14112. (a) All matters in a hearing not covered by this Chapter shall be governed, as far as applicable, by Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(b) Subdivision (a) of Section 11425.30 of the Government Code does not apply to a proceeding for issuance, denial, revocation, or suspension of a driver’s license pursuant to this division.

Article 4. Probation

Probation

14250. Whenever by any provision of this code the department has discretionary authority to suspend or revoke the privilege of a person to operate a motor vehicle, the department may in lieu of suspension or revocation place the person on probation, the terms of which may include a suspension as a condition of probation, issuing a probationary license with such reasonable terms and conditions as shall be deemed by the department to be appropriate.

Driver Training Requirement

14250.5. The department, as a condition of probation, may require a person whose privilege to operate a motor vehicle is subject to suspension or revocation to attend, for not to exceed 24 hours, the program authorized by the provisions of Section 1659.

Termination or Modification of Probation

14251. The department shall have authority to terminate or to modify the terms or conditions of any order of probation whenever good cause appears therefor.

Withdrawal of Probationary License

14252. The department upon receiving satisfactory evidence of a violation of any of the terms or conditions of probation imposed under this code, may withdraw the probationary license and order the suspension or revocation of the privilege to operate a motor vehicle.

Termination of Probation
