14253. Unless probation was imposed for a cause which is continuing, the probationer, after not less than one year, may request in writing the termination of the probation and the return of his regular license. Upon a showing that there has been no violation of the terms or conditions of the probation for a period of one year immediately preceding the request, the department shall terminate the probation and either restore to the person his driver’s license or require an application for a new license.

Article 5. Review of Orders

Court Review

14400. Nothing in this code shall be deemed to prevent a review or other action as may be permitted by the Constitution and laws of this State by a court of competent jurisdiction of any order of the department refusing, canceling, suspending, or revoking the privilege of a person to operate a motor vehicle.

Requirements Regarding Court Review

14401. (a) Any action brought in a court of competent jurisdiction to review any order of the department refusing, canceling, placing on probation, suspending, or revoking the privilege of a person to operate a motor vehicle shall be commenced within 90 days from the date the order is noticed.

(b) Upon final completion of all administrative appeals, the person whose driving privilege was refused, canceled, placed on probation, suspended, or revoked shall be given written notice by the department of his or her right to a review by a court pursuant to subdivision (a).

Chapter 4. Violation of License Provisions

Change of Address

14600. (a) Whenever any person after applying for or receiving a driver’s license moves to a new residence, or acquires a new mailing address different from the address shown in the application or in the license as issued, he or she shall within 10 days thereafter notify the department of both the old and new address. The department may issue a document
to accompany the driver's license reflecting the new address of
the holder of the license.

(b) When, pursuant to subdivision (b) of Section 12951, a
driver presents his or her driver's license to a peace officer, he
or she shall, if applicable, also present the document issued
pursuant to subdivision (a) if the driver's license does not
reflect the driver's current residence or mailing address.

Driving When Privilege Suspended or Revoked

14601. (a) No person shall drive a motor vehicle at
any time when that person's driving privilege is suspended or
revoked for reckless driving in violation of Section 23103,
23104, or 23105, any reason listed in subdivision (a) or (c)
of Section 12806 authorizing the department to refuse to issue a
license, negligent or incompetent operation of a motor vehicle
as prescribed in subdivision (e) of Section 12809, or negligent
operation as prescribed in Section 2810.5, if the person so
driving has knowledge of the suspension or revocation.
Knowledge shall be conclusively presumed if mailed notice has
been given by the department to the person pursuant to Section
13106. The presumption established by this subdivision is a
presumption affecting the burden of proof.

(b) A person convicted under this section shall be punished as
follows:

(1) Upon a first conviction, by imprisonment in a county
jail for not more than six months or by a fine of not less than
three hundred dollars ($300) or more than one
thousand dollars ($1,000).

(2) If the offense occurred within five years of a prior offense
that resulted in a conviction of a violation of this section or
Section 14601.1, 14601.2, or 14601.5, by imprisonment in a
county jail for not less than 10 days or more than one year and
by a fine of not less than five hundred dollars ($500) or more
than two thousand dollars ($2,000).

(c) If the offense occurred within five years of a prior offense
that resulted in a conviction of a violation of this section or
Section 14601.1, 14601.2, or 14601.5, and is granted
probation, the court shall impose as a condition of probation
that the person be confined in a county jail for at least 10 days.

(d) Nothing in this section prohibits a person from driving
a motor vehicle, that is owned or utilized by the person's
employer, during the course of employment on private property
that is owned or utilized by the employer, except an offstreet
parking facility as defined in subdivision (d) of Section 12500.

(e) This section also applies to the operation of an off-
highway motor vehicle on those lands to which the Chappie-
Z'berg Off-Highway Motor Vehicle Law of 1971 (Division 16.5
(commencing with Section 38000)) applies as to off-highway
motor vehicles, as described in Section 38001.

Driving When Privilege Suspended or Revoked for
Other Reasons

14601.1. (a) No person shall drive a motor vehicle
when his or her driving privilege is suspended or revoked for
any reason other than those listed in Section 14601, 14601.2,
or 14601.5, if the person so driving has knowledge of the
suspension or revocation. Knowledge shall be conclusively
presumed if mailed notice has been given by the department to
the person pursuant to Section 13106. The presumption
established by this subdivision is a presumption affecting the
burden of proof.

(b) Any person convicted under this section shall be
punished as follows:

(1) Upon a first conviction, by imprisonment in the county
jail for not more than six months or by a fine of not less than
three hundred dollars ($300) or more than one thousand
dollars ($1,000), or by both that fine and imprisonment.

(2) If the offense occurred within five years of a prior offense
which resulted in a conviction of a violation of this section or
Section 14601, 14601.2, or 14601.5, by imprisonment in the
county jail for not less than five days or more than one year and
by a fine of not less than five hundred dollars ($500) or more
than two thousand dollars ($2,000).

(c) Nothing in this section prohibits a person from driving
a motor vehicle, which is owned or utilized by the person's
employer, during the course of employment on private property
which is owned or utilized by the employer, except an offstreet
parking facility as defined in subdivision (d) of Section 12500.

Driving When Privilege Suspended or Revoked for
Driving Under the Influence, With Excessive Blood
Alcohol, or When Addicted

14601.2. (a) A person shall not drive a motor vehicle at
any time when that person's driving privilege is suspended or
revoked for a conviction of a violation of Section 23152 or 23153
if the person so driving has knowledge of the suspension or
revocation.

(b) Except in full compliance with the restriction, a person
shall not drive a motor vehicle at any time when that person's
driving privilege is restricted if the person so driving has
knowledge of the restriction.

(c) Knowledge of the suspension or revocation of the driving
privilege shall be conclusively presumed if mailed notice has
been given by the department to the person pursuant to Section
13106. Knowledge of the restriction of the driving privilege
shall be presumed if notice has been given by the court to the person. The presumption established by this subdivision is a presumption affecting the burden of proof.

(d) A person convicted of a violation of this section shall be punished as follows:

(1) Upon a first conviction, by imprisonment in the county jail for not less than 10 days or more than six months and by a fine of not less than three hundred dollars ($300) or more than one thousand dollars ($1,000), unless the person has been designated a habitual traffic offender under subdivision (b) of Section 23546, subdivision (b) of Section 23550, or subdivision (d) of Section 23550.5, in which case the person, in addition, shall be sentenced as provided in paragraph (3) of subdivision (e) of Section 14601.3.

(2) If the offense occurred within five years of a prior offense that resulted in a conviction of a violation of this section or Section 14601, 14601.1, or 14601.5, by imprisonment in the county jail for not less than 30 days or more than one year and by a fine of not less than five hundred dollars ($500) or more than two thousand dollars ($2,000), unless the person has been designated a habitual traffic offender under subdivision (b) of Section 23546, subdivision (b) of Section 23550, or subdivision (d) of Section 23550.5, in which case the person, in addition, shall be sentenced as provided in paragraph (3) of subdivision (e) of Section 14601.3.

(e) If a person is convicted of a first offense under this section and is granted probation, the court shall impose as a condition of probation that the person be confined in the county jail for at least 10 days.

(f) If the offense occurred within five years of a prior offense that resulted in a conviction of a violation of this section or Section 14601, 14601.1, or 14601.5 and is granted probation, the court shall impose as a condition of probation that the person be confined in the county jail for at least 30 days.

(g) If a person is convicted of a second or subsequent offense that results in a conviction of this section within seven years, but over five years, of a prior offense that resulted in a conviction of a violation of this section or Section 14601, 14601.1, or 14601.5 and is granted probation, the court shall impose as a condition of probation that the person be confined in the county jail for at least 10 days.

(h) Pursuant to Section 23575, the court shall require a person convicted of a violation of this section to install a certified ignition interlock device on a vehicle the person owns or operates. Upon receipt of the abstract of a conviction under this section, the department shall not reinstate the privilege to operate a motor vehicle until the department receives proof of either the “Verification of Installation” form as described in paragraph (2) of subdivision (h) of Section 13386 or the Judicial Council Form I.D. 100.

(i) This section does not prohibit a person who is participating in, or has completed, an alcohol or drug rehabilitation program from driving a motor vehicle that is owned or utilized by the person’s employer, during the course of employment on private property that is owned or utilized by the employer, except an offstreet parking facility, as defined in subdivision (c) of Section 12500.

(j) This section also applies to the operation of an off-highway motor vehicle on those lands that the Chappie-Z’berg Off-Highway Motor Vehicle Law of 1971 (Division 16.5 (commencing with Section 38000)) applies as to off-highway motor vehicles, as described in Section 38001.

(k) If Section 23573 is applicable, then subdivision (h) is not applicable.

(1) Upon a first conviction, by imprisonment in the county jail for 30 days and by a fine of one thousand dollars ($1,000).

(2) Upon a second or any subsequent offense within seven years of a prior conviction under this section, by imprisonment in the county jail for 180 days and by a fine of two thousand dollars ($2,000).

Habitual Traffic Offender

§14601.3

14601.3. (a) It is unlawful for a person whose driving privilege has been suspended or revoked to accumulate a driving record history which results from driving during the period of suspension or revocation. A person who violates this subdivision is designated an habitual traffic offender.

For purposes of this section, a driving record history means any of the following, if the driving occurred during any period of suspension or revocation:

(1) Two or more convictions within a 12-month period of an offense given a violation point count of two pursuant to Section 12810.

(2) Three or more convictions within a 12-month period of an offense given a violation point count of one pursuant to Section 12810.

(3) Three or more accidents within a 12-month period that are subject to the reporting requirements of Section 16000.

(4) Any combination of convictions or accidents, as specified in paragraphs (1) to (3), inclusive, which results during any 12-month period in a violation point count of three or more pursuant to Section 12810.

(b) Knowledge of suspension or revocation of the driving privilege shall be conclusively presumed if mailed notice has been given by the department to the person pursuant to Section 13106. The presumption established by this subdivision is a presumption affecting the burden of proof.

(c) The department, within 30 days of receipt of a duly certified abstract of the record of any court or accident report which results in a person being designated an habitual traffic offender, may execute and transmit by mail a notice of that designation to the office of the district attorney having jurisdiction over the location of the person’s last known address as contained in the department’s records.

(d) (1) The district attorney, within 30 days of receiving the notice required in subdivision (c), shall inform the department of whether or not the person will be prosecuted for being an habitual traffic offender.

(2) Notwithstanding any other provision of this section, any habitual traffic offender designated under subdivision (b) of Section 23546, subdivision (b) of Section 23550, or subdivision (b) of Section 23550.5, who is convicted of violating Section 14601.2 shall be sentenced as provided in paragraph (3) of subdivision (e).

(e) Any person convicted under this section of being an habitual traffic offender shall be punished as follows:

(1) Upon a first conviction, by imprisonment in the county jail for 30 days and by a fine of one thousand dollars ($1,000).

(2) Upon a second or any subsequent offense within seven years of a prior conviction under this section, by imprisonment in the county jail for 180 days and by a fine of two thousand dollars ($2,000).
(3) Any habitual traffic offender designated under Section 193.7 of the Penal Code or under subdivision (b) of Section 23546, subdivision (b) of Section 23550, subdivision (b) of Section 23550.5, or subdivision (d) of Section 23566 who is convicted of a violation of Section 14601.2 shall be punished by imprisonment in the county jail for 180 days and by a fine of two thousand dollars ($2,000). The penalty in this paragraph shall be consecutive to that imposed for the violation of any other law.

(f) This section also applies to the operation of an off-highway motor vehicle on those lands to which the Chappie-Z'berg Off-Highway Motor Vehicle Law of 1971 (Division 16.5 (commencing with Section 38000)) applies as to off-highway motor vehicles, as described in Section 38001.

Driving When Privilege Suspended or Revoked Causing Injury: Special Penalties

14601.4. (a) It is unlawful for a person, while driving a vehicle with a license suspended or revoked pursuant to Section 14601.2 to do an act forbidden by law or neglect a duty imposed by law in the driving of the vehicle, which act or neglect proximately causes bodily injury to a person other than the driver. In proving the person neglected a duty imposed by law in the driving of the vehicle, it is not necessary to prove that a specific section of this code was violated.

(b) A person convicted under this section shall be imprisoned in the county jail and shall not be released upon work release, community service, or other release program before the minimum period of imprisonment, prescribed in Section 14601.2, is served. If a person is convicted of that offense and is granted probation, the court shall require that the person convicted serve at least the minimum time of imprisonment, as specified in those sections, as a term or condition of probation.

(c) When the prosecution agrees to a plea of guilty or nolo contendere to a charge of a violation of this section in satisfaction of, or as a substitute for, an original charge of a violation of Section 14601.2, and the court accepts that plea, except in the interest of justice, when the court finds it should be inappropriate, the court shall, pursuant to Section 23575, require the person convicted, in addition to other requirements, to install a certified ignition interlock device on a vehicle that the person owns or operates for a period not to exceed three years.

(d) This section also applies to the operation of an off-highway motor vehicle on those lands that the Chappie-Z'berg Off-Highway Motor Vehicle Law of 1971 (Division 16.5 (commencing with Section 38000)) applies as to off-highway motor vehicles, as described in Section 38001.

(e) Upon receipt of the abstract of a conviction under this section, the department shall not reinstate the privilege to operate a motor vehicle until the department receives proof of either the “Verification of Installation” form as described in paragraph (2) of subdivision (g) of Section 13386 or the Judicial Council Form I.D. 100.

(f) If Section 23573 is applicable, then subdivisions (c) and (e) are not applicable.

Amended Sec. 4 Ch. 835, Stats. 2006. Effective January 1, 2007.

§14601.5

Driving When Privilege Suspended or Revoked for Refusing Chemical Test or Driving with Excessive Blood Alcohol

14601.5. (a) A person shall not drive a motor vehicle at any time when that person’s driving privilege is suspended or revoked pursuant to Section 13353, 13353.1, or 13353.2 and that person has knowledge of the suspension or revocation.

(b) Except in full compliance with the restriction, a person shall not drive a motor vehicle at any time when that person’s driving privilege is restricted pursuant to Section 13353.7 or 13353.8 and that person has knowledge of the restriction.

(c) Knowledge of suspension, revocation, or restriction of the driving privilege shall be conclusively presumed if notice has been given by the department to the person pursuant to Section 13106. The presumption established by this subdivision is a presumption affecting the burden of proof.

(d) A person convicted of a violation of this section is punishable, as follows:

(1) Upon a first conviction, by imprisonment in the county jail for not more than six months or by a fine of not less than three hundred dollars ($300) or more than one thousand dollars ($1,000), or by both that fine and imprisonment.

(2) If the offense occurred within five years of a prior offense that resulted in a conviction for a violation of this section or Section 14601, 14601.1, 14601.2, or 14601.3, by imprisonment in the county jail for not less than 10 days or more than one year, and by a fine of not less than five hundred dollars ($500) or more than two thousand dollars ($2,000).

(e) In imposing the minimum fine required by subdivision (d), the court shall take into consideration the defendant’s ability to pay the fine and may, in the interest of justice, and for reasons stated in the record, reduce the amount of that minimum fine to less than the amount otherwise imposed.

(f) This section does not prohibit a person who is participating in, or has completed, an alcohol or drug rehabilitation program from driving a motor vehicle, that is owned or utilized by the person’s employer, during the course of employment on private property that is owned or utilized by the employer, except an offstreet parking facility as defined in subdivision (c) of Section 12500.

(g) When the prosecution agrees to a plea of guilty or nolo contendere to a charge of a violation of this section in satisfaction of, or as a substitute for, an original charge of a violation of Section 14601.2, and the court accepts that plea, except in the interest of justice, when the court finds it would be inappropriate, the court shall, pursuant to Section 23575, require the person convicted, in addition to other requirements, to install a certified ignition interlock device on a vehicle that the person owns or operates for a period not to exceed three years.

(h) This section also applies to the operation of an off-highway motor vehicle on those lands that the Chappie-Z'berg Off-Highway Motor Vehicle Law of 1971 (Division 16.5 (commencing with Section 38000)) applies as to off-highway motor vehicles, as described in Section 38001.

(i) Upon receipt of the abstract of a conviction under this section, the department shall not reinstate the privilege to operate a motor vehicle until the department receives proof of either the “Verification of Installation” form as described in
§14601.8 —344— Div. 6
paragraph (2) of subdivision (g) of Section 13386 or the Judicial Council Form I.D. 100.

(j) If Section 23573 is applicable, then subdivisions (g) and (i) are not applicable.

Service of Sentence
§14601.8. The judge may, in his or her discretion, allow any person convicted of a violation of Section 14601 or 14601.1 to serve his or her sentence on a sufficient number of consecutive weekend days to complete the sentence.

Vehicle Impoundment: Sobriety Checkpoints
§14602. In accordance with subdivision (p) of Section 22651, a vehicle removed pursuant to subdivision (c) of Section 2814.2 shall be released to the registered owner or his or her agent at any time the facility to which the vehicle has been removed is open upon presentation of the registered owner’s or his or her agent’s currently valid driver’s license to operate the vehicle and proof of current vehicle registration.

(b) Effective January 1, 2006, the form shall require the reporting of all motor vehicle pursuit data, which shall include, but not be limited to, all of the following:
(1) Whether any person involved in a pursuit or a subsequent arrest was injured, specifying the nature of that injury. For all purposes of this section, the form shall differentiate between the suspect driver, a suspect passenger, and the peace officers involved.
(2) The violations that caused the pursuit to be initiated.
(3) The identity of the peace officers involved in the pursuit.
(4) The means or methods used to stop the suspect being pursued.
(5) All charges filed with the court by the district attorney.
(6) The conditions of the pursuit, including, but not limited to, all of the following:
(A) Duration.
(B) Mileage.
(C) Number of peace officers involved.
(D) Maximum number of law enforcement vehicles involved.
(E) Time of day.
(F) Weather conditions.
(G) Maximum speeds.
(7) Whether a pursuit resulted in a collision, and a resulting injury or fatality to an uninvolved third party, and the corresponding number of persons involved.
(8) Whether the pursuit involved multiple law enforcement agencies.
(9) How the pursuit was terminated.
(c) In order to minimize costs, the department, upon updating the form, shall update the corresponding database to include all of the reporting requirements specified in subdivision (b).
(d) All motor vehicle pursuit data obtained pursuant to subdivision (b) shall be submitted to the Department of the California Highway Patrol no later than 30 days following a motor vehicle pursuit.
(e) The Department of the California Highway Patrol shall submit annually to the Legislature a report that includes, but is not limited to, the following information:
(1) The number of motor vehicle pursuits reported to the Department of the California Highway Patrol during that year.
(2) The number of those motor vehicle pursuits that reportedly resulted in a collision in which an injury or fatality to an uninvolved third party occurred.
(3) The total number of uninvolved third parties who were injured or killed as a result of those collisions during that year.

Vehicle Impound: Class M1 or M2.
§14602.5. (a) Whenever a person is convicted for driving any class M1 or M2 motor vehicle, while his or her driving privilege has been suspended or revoked, of which vehicle he or she is the owner, or of which the owner permitted the operation, knowing the person’s driving privilege was suspended or revoked, the court may, at the time sentence is imposed on the person, order the motor vehicle impounded in any manner as the court may determine, for a period not to exceed six months for a first conviction, and not to exceed 12 months for a second or subsequent conviction. For the purposes of this section, a “second or subsequent conviction” includes a conviction for any offense described in this section. The cost of keeping the vehicle shall be a lien on the vehicle, pursuant to Chapter 6.5 (commencing with Section 3067) of Title 14 of Part 4 of Division 3 of the Civil Code.
(b) Notwithstanding subdivision (a), any motor vehicle impounded pursuant to this section which is subject to a chattel mortgage, conditional sale contract, or lease contract shall, upon the filing of an affidavit by the legal owner that the chattel mortgage, conditional sale contract, or lease contract is in default, be released by the court to the legal owner, and shall be delivered to him or her upon payment of the accrued cost of keeping the motor vehicle.

Vehicle Impoundment: Suspended, Revoked, or Unlicensed Driver: Hearing
§14602.6. (a) (1) Whenever a peace officer determines that a person was driving a vehicle while his or her driving privilege was suspended or revoked, driving a vehicle while his or her driving privilege is restricted pursuant to Section 13352 or 23575 and the vehicle is not equipped with a functioning, certified interlock device, or driving a vehicle without ever having been issued a driver’s license, the peace officer may either immediately arrest that person and cause the removal and seizure of that vehicle or, if the vehicle is involved in a traffic collision, cause the removal and seizure of the vehicle without the necessity of arresting the person in accordance with Chapter 10 (commencing with Section 22650) of Division 11. A vehicle so impounded shall be impounded for 30 days.
(2) The impounding agency, within two working days of impoundment, shall send a notice by certified mail, return
receipt requested, to the legal owner of the vehicle, at the address obtained from the department, informing the owner that the vehicle has been impounded. Failure to notify the legal owner within two working days shall prohibit the impounding agency from charging for more than 15 days’ impoundment when the legal owner redeems the impounded vehicle. The impounding agency shall maintain a published telephone number that provides information 24 hours a day regarding the impoundment of vehicles and the rights of a registered owner to request a hearing. The law enforcement agency shall be open to issue a release to the registered owner or legal owner, or the agent of either, whenever the agency is open to serve the public for regular, nonemergency business.  

(b) The registered and legal owner of a vehicle that is removed and seized under subdivision (a) or their agents shall be provided the opportunity for a storage hearing to determine the validity of, or consider any mitigating circumstances attendant to, the storage, in accordance with Section 22852.  

c) Any period in which a vehicle is subjected to storage under this section shall be included as part of the period of impoundment ordered by the court under subdivision (a) of Section 14602.5.  

(d) (1) An impounding agency shall release a vehicle to the registered owner or his or her agent prior to the end of 30 days’ impoundment under any of the following circumstances:  

(A) When the vehicle is a stolen vehicle.  

(B) When the vehicle is subject to bailment and is driven by an unlicensed employee of a business establishment, including a parking service or repair garage.  

(C) When the license of the driver was suspended or revoked for an offense other than those included in Article 2 (commencing with Section 13200) of Chapter 2 of Division 6 or Article 3 (commencing with Section 13350) of Chapter 2 of Division 6.  

(D) When the vehicle was seized under this section for an offense that does not authorize the seizure of the vehicle.  

(E) When the driver reinstates his or her driver’s license or acquires a driver’s license and proper insurance.  

(2) No vehicle shall be released pursuant to this subdivision without presentation of the registered owner’s or agent’s currently valid driver’s license to operate the vehicle and proof of current vehicle registration, or upon order of a court.  

(e) The registered owner or his or her agent is responsible for all towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5.  

(f) A vehicle removed and seized under subdivision (a) shall be released to the legal owner of the vehicle or the legal owner’s agent prior to the end of 30 days’ impoundment if all of the following conditions are met:  

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state or is another person, not the registered owner, holding a security interest in the vehicle.  

(2) (A) The legal owner or the legal owner’s agent pays all towing and storage fees related to the seizure of the vehicle. No lien sale processing fees shall be charged to the legal owner who redeems the vehicle prior to the 15th day of impoundment. Neither the impounding authority nor any person having possession of the vehicle shall collect from the legal owner of the type specified in paragraph (1), or the legal owner’s agent any administrative charges imposed pursuant to Section 22850.5 unless the legal owner voluntarily requested a poststorage hearing.  

(B) A person operating or in charge of a storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing, storage, and related fees by a legal or registered owner or the owner’s agent claiming the vehicle. A credit card shall be in the name of the person presenting the card. “Credit card” means “credit card” as defined in subdivision (a) of Section 1747.02 of the Civil Code, except, for the purposes of this section, credit card does not include a credit card issued by a retail seller.  

(C) A person operating or in charge of a storage facility described in subparagraph (B) who violates subparagraph (B) shall be civilly liable to the owner of the vehicle or to the person who tendered the fees for four times the amount of the towing, storage, and related fees, but not to exceed five hundred dollars ($500).  

(D) A person operating or in charge of a storage facility described in subparagraph (B) shall have sufficient funds on the premises of the primary storage facility during normal business hours to accommodate, and make change in, a reasonable monetary transaction.  

(E) Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies on rates.  

(3) The legal owner or the legal owner’s agent presents a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following, as determined by the legal owner or the legal owner’s agent: a certificate of repossession for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. Any documents presented may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The law enforcement agency, impounding agency, or any other governmental agency, or any person acting on behalf of those agencies, shall not require any documents to be notarized. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies may require the agent of the legal owner to produce a photocopy or facsimile copy of its repossession agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or to demonstrate, to the satisfaction of the law enforcement agency, impounding agency, or any person acting on behalf of those agencies, that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.  

No administrative costs authorized under subdivision (a) of Section 22850.5 shall be charged to the legal owner of the type specified in paragraph (1), who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. No city, county, city and county, or state agency shall require a
§14602.7  

Vehicle Impoundment: Fleeing a Peace Officer

§14602.7. (a) A magistrate presented with the affidavit of a peace officer establishing reasonable cause to believe that a vehicle, described by vehicle type and license number, was an instrumentality used in the peace officer's presence in violation of Section 2800.1, 2800.2, 2800.3, or 23103, shall issue a warrant or order authorizing any peace officer to immediately seize and cause the removal of the vehicle. The warrant or court order may be entered into a computerized database. A vehicle so impounded may be impounded for a period not to exceed 30 days.

The impounding agency, within two working days of impoundment, shall send a notice by certified mail, return receipt requested, to the legal owner of the vehicle, at the address obtained from the department, informing the owner that the vehicle has been impounded and providing the owner with a copy of the warrant or court order. Failure to notify the legal owner within two working days shall prohibit the impounding agency from charging for more than 15 days impoundment when a legal owner redeems the impounded vehicle. The law enforcement agency shall be open to issue a

(h) (1) A vehicle removed and seized under subdivision (a) shall be released to a rental car agency prior to the end of 30 days' impoundment if the agency is either the legal owner or registered owner of the vehicle and the agency pays all towing and storage fees related to the seizure of the vehicle.

(2) The owner of a rental vehicle that was seized under this section may continue to rent the vehicle upon recovery of the vehicle. However, the rental car agency may not rent another vehicle to the driver of the vehicle that was seized until 30 days after the date that the vehicle was seized.

(3) The rental car agency may require the person to whom the vehicle was rented to pay all towing and storage charges related to the impoundment and any administrative charges authorized under Section 22850.5 that were incurred by the rental car agency in connection with obtaining custody of the vehicle.

(i) Notwithstanding any other provision of this section, the registered owner and not the legal owner shall remain responsible for any towing and storage charges related to the impoundment, any administrative charges authorized under Section 22850.5, and any parking fines, penalties, and administrative fees incurred by the registered owner.

(j) The law enforcement agency and the impounding agency, including any storage facility acting on behalf of the law enforcement agency or impounding agency, shall comply with this section and shall not be liable to the registered owner for the improper release of the vehicle to the legal owner or the legal owner's agent provided the release complies with the provisions of this section. The legal owner shall indemnify and hold harmless a storage facility from any claims arising out of the release of the vehicle to the legal owner or the legal owner’s agent and from any damage to the vehicle after its release, including the reasonable costs associated with defending any such claims. A law enforcement agency shall not refuse to issue a release to a legal owner or the agent of a legal owner on the grounds that it previously issued a release.

Amended Sec. 7, Ch. 418, Stats. 2006. Effective January 1, 2007.
Amended Sec. 7, Ch. 418, Stats. 2006. Effective January 1, 2007.
release to the registered owner or legal owner, or the agent of either, whenever the agency is open to serve the public for regular, nonemergency business.

(b) (1) An impounding agency shall release a vehicle to the registered owner or his or her agent prior to the end of the impoundment period and without the permission of the magistrate authorizing the vehicle’s seizure under any of the following circumstances:

(A) When the vehicle is a stolen vehicle.

(B) When the vehicle is subject to bailment and is driven by an unlicensed employee of the business establishment, including a parking service or repair garage.

(C) When the registered owner of the vehicle causes a peace officer to reasonably believe, based on the totality of the circumstances, that the registered owner was not the driver who violated Section 2800.1, 2800.2, or 2800.3, the agency shall immediately release the vehicle to the registered owner or his or her agent.

(2) No vehicle shall be released pursuant to this subdivision, except upon presentation of the registered owner’s or agent’s currently valid driver’s license to operate the vehicle and proof of current vehicle registration, or upon order of the court.

(c) (1) Whenever a vehicle is impounded under this section, the magistrate authorizing the storage shall provide the vehicle’s registered and legal owners of record, or their agents, with the opportunity for a poststorage hearing to determine the validity of the storage.

(2) A notice of the storage shall be mailed or personally delivered to the registered and legal owners within 48 hours after issuance of the warrant or court order, excluding weekends and holidays, by the person or agency executing the warrant or court order, and shall include all of the following information:

(A) The name, address, and telephone number of the agency providing the notice.

(B) The location of the place of storage and a description of the vehicle, which shall include, if available, the name or make, the manufacturer, the license plate number, and the mileage of the vehicle.

(C) A copy of the warrant or court order and the peace officer’s affidavit, as described in subdivision (a).

(D) A statement that, in order to receive their poststorage hearing, the owners, or their agents, are required to request the hearing from the magistrate issuing the warrant or court order in person, in writing, or by telephone, within 10 days of the date of the notice.

(3) The poststorage hearing shall be conducted within two court days after receipt of the request for the hearing.

(4) At the hearing, the magistrate may order the vehicle released if he or she finds any of the circumstances described in subdivision (b) or (e) that allow release of a vehicle by the impounding agency. The magistrate may also consider releasing the vehicle when the continued impoundment will cause undue hardship to persons dependent upon the vehicle for employment or to a person with a community property interest in the vehicle.

(5) Failure of either the registered or legal owner, or his or her agent, to request, or to attend, a scheduled hearing satisfies the poststorage hearing requirement.

(6) The agency employing the peace officer who caused the magistrate to issue the warrant or court order shall be responsible for the costs incurred for towing and storage if it is determined in the poststorage hearing that reasonable grounds for the storage are not established.

(d) The registered owner or his or her agent is responsible for all towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5.

(e) A vehicle removed and seized under subdivision (a) shall be released to the legal owner of the vehicle or the legal owner’s agent prior to the end of the impoundment period and without the permission of the magistrate authorizing the seizure of the vehicle if all of the following conditions are met:

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptor, corporation, or other licensed financial institution legally operating in this state or is another person, not the registered owner, holding a financial interest in the vehicle.

(2) (A) The legal owner or the legal owner’s agent pays all towing and storage fees related to the seizure of the vehicle. No lien sale processing fees shall be charged to the legal owner who redeems the vehicle prior to the 15th day of impoundment. Neither the impounding authority nor any person having possession of the vehicle shall collect from the legal owner of the type specified in paragraph (1), or the legal owner’s agent any administrative charges imposed pursuant to Section 22850.5 unless the legal owner voluntarily requested a poststorage hearing.

(B) A person operating or in charge of a storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing, storage, and related fees by a legal or registered owner or the owner’s agent claiming the vehicle. A credit card shall be in the name of the person presenting the card. “Credit card” means “credit card” as defined in subdivision (a) of Section 1747.02 of the Civil Code, except, for the purposes of this section, credit card does not include a credit card issued by a retail seller.

(C) A person operating or in charge of a storage facility described in subparagraph (B) who violates subparagraph (B) shall be civilly liable to the owner of the vehicle or to the person who tendered the fees for four times the amount of the towing, storage and related fees, but not to exceed five hundred dollars ($500).

(D) A person operating or in charge of a storage facility described in subparagraph (B) shall have sufficient funds on the premises of the primary storage facility during normal business hours to accommodate, and make change in, a reasonable monetary transaction.

(E) Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies on rates.

(3) The legal owner or the legal owner’s agent presents, to the law enforcement agency, impounding agency, person in possession of the vehicle, or any person acting on behalf of those agencies, a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency,
only if required by the agency; a government-issued photographic identification card; and any one of the following, as determined by the legal owner or the legal owner’s agent: a certificate of repossess action for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. Any documents presented may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The law enforcement agency, impounding agency, or any other governmental agency, or any person acting on behalf of those agencies, shall not require any documents to be notarized. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies, may require the agent of the legal owner to produce a photocopy or facsimile copy of its repossess agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or to demonstrate, to the satisfaction of the law enforcement agency, impounding agency, or any person acting on behalf of those agencies, that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

No administrative costs authorized under subdivision (a) of Section 22850.5 shall be charged to the legal owner of the type specified in paragraph (1), who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. No city, county, city and county, or state agency shall require a legal owner or a legal owner’s agent to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner’s agent. The law enforcement agency, impounding agency, or other governmental agency, or any person acting on behalf of those agencies, shall not require any documents other than those specified in this paragraph. The law enforcement agency, impounding agency, or other governmental agency, or any person acting on behalf of those agencies, shall not require any documents to be notarized. The legal owner or the legal owner’s agent shall be given a copy of any documents he or she is required to sign, except for a vehicle evidentiary hold logbook. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies, may require the agent of the legal owner to produce a photocopy and retain the copies of any documents presented in connection with obtaining custody of the vehicle.

The legal owner or the legal owner’s agent shall make every reasonable effort to ensure that the license presented is valid and possession of the vehicle will not be given to the driver who was involved in the original impoundment proceeding until the expiration of the impoundment period.

(3) Prior to relinquishing the vehicle, the legal owner may require the registered owner to pay all towing and storage charges related to the impoundment and the administrative charges authorized under Section 22850.5 that were incurred by the legal owner in connection with obtaining the custody of the vehicle.

(4) Any legal owner who knowingly releases or causes the release of a vehicle to a registered owner or the person in possession of the vehicle at the time of the impoundment or any agent of the registered owner in violation of this subdivision shall be guilty of a misdemeanor and subject to a fine in the amount of two thousand dollars ($2,000) in addition to any other penalties established by law.

(5) The legal owner, registered owner, or person in possession of the vehicle shall not change or attempt to change the name of the legal owner or the registered owner on the records of the department until the vehicle is released from the impoundment.

(g) (1) A vehicle impounded and seized under subdivision (a) shall be released to a rental car agency prior to the end of the impoundment period if the agency is either the legal owner or registered owner of the vehicle and the agency pays all towing and storage fees related to the seizure of the vehicle.

(2) The owner of a rental vehicle that was seized under this section may continue to rent the vehicle upon recovery of the vehicle. However, the rental car agency shall not rent another vehicle to the driver who used the vehicle that was seized to evade a police officer until 30 days after the date that the vehicle was seized.

(3) The rental car agency may require the person to whom the vehicle was rented and who evaded the peace officer to pay all towing and storage charges related to the impoundment and any administrative charges authorized under Section 22850.5 that were incurred by the rental car agency in connection with obtaining custody of the vehicle.

(h) Notwithstanding any other provision of this section, the registered owner and not the legal owner shall remain responsible for any towing and storage charges related to the impoundment and the administrative charges authorized under Section 22850.5 and any parking fines, penalties, and administrative fees incurred by the registered owner.

(i) (1) This section does not apply to vehicles abated under the Abandoned Vehicle Abatement Program pursuant to Sections 22660 to 22668, inclusive, and Section 22710, or to vehicles impounded for investigation pursuant to Section 22655, or to vehicles removed from private property pursuant to Section 22658.

(2) This section does not apply to abandoned vehicles removed pursuant to Section 22669 that are determined by the public agency to have an estimated value of three hundred dollars ($300) or less.

(j) The law enforcement agency and the impounding agency, including any storage facility acting on behalf of the law enforcement agency or impounding agency, shall comply
with this section and shall not be liable to the registered owner for the improper release of the vehicle to the legal owner or the legal owner’s agent provided the release complies with the provisions of this section. The legal owner shall indemnify and hold harmless a storage facility from any claims arising out of the release of the vehicle to the legal owner or the legal owner’s agent and from any damage to the vehicle after its release, including the reasonable costs associated with defending any such claims. A law enforcement agency shall not refuse to issue a release to a legal owner or the agent of a legal owner on the grounds that it previously issued a release.

Amended Sec. 8, Ch. 418, Stats. 2006. Effective January 1, 2007.
Amended Sec. 11, Ch. 192, Stats. 2007. Effective September 7, 2007.
Amended Sec. 6, Ch. 322, Stats. 2009. Effective January 1, 2010.

**Vehicles: DUI: Impoundment**

14602.8. (a) (1) If a peace officer determines that a person has been convicted of a violation of Section 23140, 23152, or 23153, that the violation occurred within the preceding 10 years, and that one or more of the following circumstances applies to that person, the officer may immediately cause the removal and seizure of the vehicle that the person was driving, under either of the following circumstances:

(A) The person was driving a vehicle when the person had 0.10 percent or more, by weight, of alcohol in his or her blood.

(B) The person driving the vehicle refused to submit to or complete a chemical test requested by the peace officer.

(2) A vehicle impounded pursuant to paragraph (1) shall be impounded for the following period of time:

(A) Five days, if the person has been convicted once of violating Section 23140, 23152, or 23153, and the violation occurred within the preceding 10 years.

(B) Fifteen days, if the person has been convicted two or more times of violating Section 23140, 23152, or 23153, or any combination thereof, and the violations occurred within the preceding 10 years.

(3) Within two working days after impoundment, the impounding agency shall send a notice by certified mail, return receipt requested, to the legal owner of the vehicle, at the address obtained from the department, informing the owner that the vehicle has been impounded. Failure to notify the legal owner within two working days shall prohibit the impounding agency from charging for more than five days’ impoundment when the legal owner redeems the impounded vehicle. The impounding agency shall maintain a published telephone number that provides information 24 hours a day regarding the impoundment of vehicles and the rights of a registered owner to request a hearing. The law enforcement agency shall be open to issue a release to the registered owner or legal owner, or the agent of either, whenever the agency is open to serve the public for regular, nonemergency business.

(b) The registered and legal owner of a vehicle that is removed and seized under subdivision (a) or his or her agent shall be provided the opportunity for a storage hearing to determine the validity of, or consider any mitigating circumstances attendant to, the storage, in accordance with Section 22852.

(c) Any period during which a vehicle is subjected to storage under this section shall be included as part of the period of impoundment ordered by the court under Section 23594.

(d) (1) The impounding agency shall release the vehicle to the registered owner or his or her agent prior to the end of the impoundment period under any of the following circumstances:

(A) When the vehicle is a stolen vehicle.

(B) When the vehicle is subject to bailment and is driven by an unlicensed employee of a business establishment, including a parking service or repair garage.

(C) When the driver of the vehicle is not the sole registered owner of the vehicle and the vehicle is being released to another registered owner of the vehicle who agrees not to allow the driver to use the vehicle until after the end of the impoundment period.

(2) A vehicle shall not be released pursuant to this subdivision without presentation of the registered owner’s or agent’s currently valid driver’s license to operate the vehicle and proof of current vehicle registration, or upon order of a court.

(e) The registered owner or his or her agent is responsible for all towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5.

(f) A vehicle removed and seized under subdivision (a) shall be released to the legal owner of the vehicle or the legal owner’s agent prior to the end of the impoundment period if all of the following conditions are met:

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state, or is another person who is not the registered owner and holds a security interest in the vehicle.

(2) (A) The legal owner or the legal owner’s agent pays all towing and storage fees related to the seizure of the vehicle. A lien sale processing fee shall not be charged to the legal owner who redeems the vehicle prior to the 10th day of impoundment, and any administrative charges imposed pursuant to Section 22850.5 unless the legal owner voluntarily requested a poststorage hearing.

(B) A person operating or in charge of a storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing, storage, and related fees by a legal or registered owner or the owner’s agent claiming the vehicle. A credit card shall be in the name of the person presenting the card. “Credit card” means “credit card” as defined in subdivision (a) of Section 1747.02 of the Civil Code, except, for the purposes of this section, credit card does not include a credit card issued by a retail seller.

(C) A person operating or in charge of a storage facility described in subparagraph (B) who violates subparagraph (B) shall be civilly liable to the owner of the vehicle or to the person who tendered the fees for four times the amount of the towing, storage, and other related fees, but not to exceed five hundred dollars ($500).

(D) A person operating or in charge of a storage facility described in subparagraph (B) shall have sufficient funds on the premises of the primary storage facility during normal business hours to accommodate, and make change in, a reasonable monetary transaction.
§14602.8

(E) Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies on rates.

(3) (A) The legal owner or the legal owner’s agent presents to the law enforcement agency or impounding agency, or any person acting on behalf of those agencies, a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of reposition for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. The law enforcement agency, impounding agency, or any other governmental agency, or any person acting on behalf of those agencies, shall not require the presentation of any other documents.

(B) The legal owner or the legal owner’s agent presents to the person in possession of the vehicle, or any person acting on behalf of the person in possession, a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of reposition for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. The person in possession of the vehicle, or any person acting on behalf of the person in possession, shall not require the presentation of any other documents.

(C) All presented documents may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The law enforcement agency, impounding agency, or any person acting on behalf of them, shall not require a document to be notarized. The law enforcement agency, impounding agency, or any person in possession of the vehicle, or anyone acting on behalf of those agencies may require the agent of the legal owner to produce a photocopy or facsimile copy of its reposition agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code; or to demonstrate, to the satisfaction of the law enforcement agency, the impounding agency, any other governmental agency, or any person in possession of the vehicle, or anyone acting on behalf of those agencies may require the agent of the legal owner to produce a photocopy or facsimile copy of its reposition agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code.

(D) Administrative costs authorized under subdivision (a) of Section 22850.5 shall not be charged to the legal owner of the type specified in paragraph (1) who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. A city, county, city and county, or state agency shall not require a legal owner or a legal owner’s agent to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner’s agent. The law enforcement agency, the impounding agency, any governmental agency, or any person acting on behalf of those agencies shall not require any documents other than those specified in this paragraph. The law enforcement agency, impounding agency, or other governmental agency, or any person acting on behalf of those agencies, shall not require any documents to be notarized. The legal owner or the legal owner’s agent shall be given a copy of any documents he or she is required to sign, except for a vehicle evidentiary hold logbook. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies, or any person in possession of the vehicle, may photocopy and retain the copies of any documents presented by the legal owner or legal owner’s agent.

(4) A failure by a storage facility to comply with any applicable conditions set forth in this subdivision shall not affect the right of the legal owner or the legal owner’s agent to retrieve the vehicle, provided all conditions required of the legal owner or legal owner’s agent under this subdivision are satisfied.

(g) (1) A legal owner or the legal owner’s agent who obtains release of the vehicle pursuant to subdivision (f) shall not release the vehicle to the registered owner of the vehicle or the person who was listed as the registered owner when the vehicle was impounded or any agents of the registered owner unless the registered owner is a rental car agency, until after the termination of the impoundment period.

(2) The legal owner or the legal owner’s agent shall not relinquish the vehicle to the registered owner or the person who was listed as the registered owner when the vehicle was impounded until the registered owner or that owner’s agent presents his or her valid driver’s license or valid temporary driver’s license to the legal owner or the legal owner’s agent.

(3) Prior to relinquishing the vehicle, the legal owner may require the registered owner to pay all towing and storage charges related to the impoundment and any administrative charges authorized under Section 22850.5 that were incurred by the legal owner in connection with obtaining custody of the vehicle.

(4) A legal owner who knowingly releases or causes the release of a vehicle to a registered owner or the person in possession of the vehicle at the time of the impoundment or an agent of the registered owner in violation of this subdivision is guilty of a misdemeanor and subject to a fine in the amount of two thousand dollars ($2,000) in addition to any other penalties established by law.

(5) The legal owner, registered owner, or person in possession of the vehicle shall not change or attempt to change the name of the legal owner or the registered owner on the records of the department until the vehicle is released from the impoundment.

(h) (1) A vehicle removed and seized under subdivision (a) shall be released to a rental car agency prior to the end of the impoundment period if the agency is either the legal owner or registered owner of the vehicle and the agency pays all towing and storage fees related to the seizure of the vehicle.
(2) The owner of a rental vehicle that was seized under this section may continue to rent the vehicle upon recovery of the vehicle. However, the rental car agency shall not rent another vehicle to the driver of the vehicle that was seized until the impoundment period has expired.

(3) The rental car agency may require the person to whom the vehicle was rented to pay all towing and storage charges related to the impoundment and any administrative charges authorized under Section 22850.5 that were incurred by the rental car agency in connection with obtaining custody of the vehicle.

(i) Notwithstanding any other provision of this section, the registered owner, and not the legal owner, shall remain responsible for any towing and storage charges related to the impoundment, any administrative charges authorized under Section 22850.5, and any parking fines, penalties, and administrative fees incurred by the registered owner.

(j) The law enforcement agency and the impounding agency, including any storage facility acting on behalf of the law enforcement agency or impounding agency, shall comply with this section and shall not be liable to the registered owner for the improper release of the vehicle to the legal owner or the legal owner’s agent provided the release complies with the provisions of this section. The legal owner shall indemnify and hold harmless a storage facility from any claims arising out of the release of the vehicle to the legal owner or the legal owner’s agent and from any damage to the vehicle after its release, including the reasonable costs associated with defending any such claims. A law enforcement agency shall not refuse to issue a release to a legal owner or the agent of a legal owner on the grounds that it previously issued a release.

Vehicle Impoundment: Charter-Party Carriers

§14602.9. (a) An officer of the Department of the California Highway Patrol may impound a bus of a charter-party carrier for 30 days if the officer determines that any of the following violations occurred while the bus driver was operating the bus of a charter-party carrier:

(1) The driver was operating the bus of a charter-party carrier when the charter-party carrier did not have a permit or certificate issued by the Public Utilities Commission, pursuant to Section 5375 of the Public Utilities Code.

(2) The driver was operating the bus of a charter-party carrier when the charter-party carrier was operating the bus with a suspended permit or certificate from the Public Utilities Commission.

(3) The driver was operating the bus of a charter-party carrier without having a current and valid driver’s license of the proper class, a passenger vehicle endorsement, or the required certificate.

(b) Within two working days after impoundment, the impounding agency shall send a notice by certified mail, return receipt requested, to the legal owner of the vehicle, at the address obtained from the department, informing the owner that the vehicle has been impounded. Failure to notify the legal owner within two working days shall prohibit the impounding agency from charging for more than 15 day’s impoundment when the legal owner redeems the impounded vehicle. The impounding agency shall maintain a published telephone number that provides information 24 hours a day regarding the impoundment of vehicles and the rights of a registered owner to request a hearing.

(c) The registered and legal owner of a vehicle that is removed and seized under subdivision (a) or his or her agent shall be provided the opportunity for a storage hearing to determine the validity of, or consider any mitigating circumstances attendant to, the storage, in accordance with Section 22852.

(d) (1) The impounding agency shall release the vehicle to the registered owner or his or her agent prior to the end of the impoundment period under any of the following circumstances:

(A) When the vehicle is a stolen vehicle.

(B) When the vehicle is subject to bailment and is driven by an unlicensed employee of a business establishment, including a parking service or repair garage.

(C) When the driver of the vehicle is not the sole registered owner of the vehicle and the vehicle is being released to another registered owner of the vehicle who agrees not to allow the driver to use the vehicle until after the end of the impoundment period and the charter-party carrier has been issued a valid permit from the Public Utilities Commission, pursuant to Section 5375 of the Public Utilities Code.

(2) A vehicle shall not be released pursuant to this subdivision without presentation of the registered owner’s or agent’s currently valid driver’s license to operate the vehicle and proof of current vehicle registration, or upon order of a court.

(e) The registered owner or his or her agent is responsible for all towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5.

(f) A vehicle removed and seized under subdivision (a) shall be released to the legal owner of the vehicle or the legal owner’s agent prior to the end of the impoundment period if all of the following conditions are met:

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state, or is another person who is not the registered owner and holds a security interest in the vehicle.

(2) The legal owner or the legal owner’s agent pays all towing and storage fees related to the seizure of the vehicle. A lien sale processing fee shall not be charged to the legal owner who redeems the vehicle prior to the 10th day of impoundment. The impounding authority or any person having possession of the vehicle shall not collect from the legal owner of the type specified in paragraph (1), or the legal owner’s agent, any administrative charges imposed pursuant to Section 22850.5 unless the legal owner voluntarily requested a poststorage hearing.

(3) (A) The legal owner or the legal owner’s agent presents either lawful foreclosure documents or an affidavit of repossession for the vehicle, and a security agreement or title showing proof of legal ownership for the vehicle. All presented documents may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The impounding agency shall not require a document to be notarized. The impounding agency may require the agent of the legal owner to produce a...
photocopy or facsimile copy of its repossession agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or to demonstrate, to the satisfaction of the impounding agency, that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

(B) Administrative costs authorized under subdivision (a) of Section 22850.5 shall not be charged to the legal owner of the type specified in paragraph (1), who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. A city, county, or state agency shall not require a legal owner or a legal owner’s agent to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner’s agent. The impounding agency shall not require any documents other than those specified in this paragraph. The impounding agency shall not require any documents to be notarized.

(C) As used in this paragraph, “foreclosure documents” means an “assignment” as that term is defined in subdivision (o) of Section 7500.1 of the Business and Professions Code.

(g) (1) A legal owner or the legal owner’s agent who obtains release of the vehicle pursuant to subdivision (f) may not release the vehicle to the registered owner of the vehicle or any agents of the registered owner, unless the registered owner is a rental car agency, until after the termination of the impoundment period.

(2) The legal owner or the legal owner’s agent shall not relinquish the vehicle to the registered owner until the registered owner or that owner’s agent presents his or her valid driver’s license or valid temporary driver’s license to the legal owner or the legal owner’s agent. The legal owner or the legal owner’s agent shall make every reasonable effort to ensure that the license presented is valid.

(3) Prior to relinquishing the vehicle, the legal owner may require the registered owner to pay all towing and storage charges related to the impoundment and any administrative charges authorized under Section 22850.5 that were incurred by the legal owner in connection with obtaining custody of the vehicle.

(h) (1) A vehicle removed and seized under subdivision (a) shall be released to a rental agency prior to the end of the impoundment period if the agency is either the legal owner or registered owner of the vehicle and the agency pays all towing and storage fees related to the seizure of the vehicle.

(2) The owner of a rental vehicle that was seized under this section may continue to rent the vehicle upon recovery of the vehicle. However, the rental agency shall not rent another vehicle to the driver of the vehicle that was seized until the impoundment period has expired.

(3) The rental agency may require the person to whom the vehicle was rented to pay all towing and storage charges related to the impoundment and any administrative charges authorized under Section 22850.5 that were incurred by the rental agency in connection with obtaining custody of the vehicle.

(i) Notwithstanding any other provision of this section, the registered owner, and not the legal owner, shall remain responsible for any towing and storage charges related to the impoundment, any administrative charges authorized under Section 22850.5, and any parking fines, penalties, and administrative fees incurred by the registered owner.

(j) The impounding agency is not liable to the registered owner for the improper release of the vehicle to the legal owner or the legal owner’s agent provided the release complies with this section.

(k) For the purposes of this section, a “bus” means a bus as defined by Section 233 or a tour bus as defined by Section 612.

(l) For the purposes of this section, a “charter-party carrier” means a charter-party carrier as defined by Section 5360 of the Public Utilities Code.

Violation of License Restrictions

14603. No person shall operate a vehicle in violation of the provisions of a restricted license issued to him.

Use of a Vehicle by an Unlicensed Driver: Owner’s Duty

14604. (a) No owner of a motor vehicle may knowingly allow another person to drive the vehicle upon a highway unless the owner determines that the person possesses a valid driver’s license that authorizes the person to operate the vehicle. For the purposes of this section, an owner is required only to make a reasonable effort or inquiry to determine whether the prospective driver possesses a valid driver’s license before allowing him or her to operate the owner’s vehicle. An owner is not required to inquire of the department whether the prospective driver possesses a valid driver’s license.

(b) A rental company is deemed to be in compliance with subdivision (a) if the company rents the vehicle in accordance with Sections 14608 and 14609.

Amended Sec. 3.5, Ch. 922, Stats. 1995. Effective January 1, 1996.

Operation of Motor Vehicles in Parking Facility

14605. (a) No person who owns or is in control of a motor vehicle shall cause or permit another person to operate the vehicle within or upon an offstreet parking facility if the person has knowledge that the driver does not have a driver’s license of the appropriate class or certification to operate the vehicle.

(b) No operator of an offstreet parking facility shall hire or retain in his employment an attendant whose duties involve the operating of motor vehicles unless such attendant, at all times during such employment, is licensed as a driver under the provisions of this code.

(c) As used in this section, “offstreet parking facility” means any offstreet facility held open for use by the public for parking vehicles and includes all publicly owned facilities for offstreet parking, and privately owned facilities for offstreet parking where no fee is charged for the privilege to park and which are held open for the common public use of retail customers.

Employment of Person to Drive Motor Vehicle: License and Medical Certificate

14606. (a) A person shall not employ, hire, knowingly permit, or authorize any person to drive a motor vehicle owned by him or her or under his or her control upon the highways unless that person is licensed for the appropriate class of vehicle to be driven.
(b) Whenever a person fails to qualify, on reexamination, to operate a commercial motor vehicle, an employer shall report that failure to the department within 10 days.

(c) An employer shall obtain from a driver required to have a commercial driver’s license or commercial endorsement a copy of the driver’s medical certification before allowing the driver to operate a commercial motor vehicle. The employer shall retain the certification as part of a driver qualification file.

(d) This section shall become operative on January 30, 2014.

Permitting Unlicensed Minor to Drive

14607. No person shall cause or knowingly permit his child, ward, or employee under the age of 18 years to drive a motor vehicle upon the highways unless such child, ward, or employee is then licensed under this code.

Legislative Findings

14607.4. The Legislature finds and declares all of the following:

(a) Driving a motor vehicle on the public streets and highways is a privilege, not a right.

(b) Of all drivers involved in fatal accidents, more than 20 percent are not licensed to drive. A driver with a suspended license is four times as likely to be involved in a fatal accident as a properly licensed driver.

(c) At any given time, it is estimated by the Department of Motor Vehicles that of some 20 million driver’s licenses issued to Californians, 720,000 are suspended or revoked. Furthermore, 1,000,000 persons are estimated to be driving without ever having been licensed at all.

(d) Over 4,000 persons are killed in traffic accidents in California annually, and another 330,000 persons suffer injuries.

(e) Californians who comply with the law are frequently victims of traffic accidents caused by unlicensed drivers. These innocent victims suffer considerable pain and property loss at the hands of people who flaunt the law. The Department of Motor Vehicles estimates that 75 percent of all drivers whose driving privilege has been withdrawn continue to drive regardless of the law.

(f) It is necessary and appropriate to take additional steps to prevent unlicensed drivers from driving, including the civil forfeiture of vehicles used by unlicensed drivers. The state has a critical interest in enforcing its traffic laws and in keeping unlicensed drivers from illegally driving. Seizing the vehicles used by unlicensed drivers serves a significant governmental and public interest, namely the protection of the health, safety, and welfare of Californians from the harm of unlicensed drivers, who are involved in a disproportionate number of traffic incidents, and the avoidance of the associated destruction and damage to lives and property.

(g) The Safe Streets Act of 1994 is consistent with the due process requirements of the United States Constitution and the holding of the Supreme Court of the United States in Calero-Toledo v. Pearson Yacht Leasing Co., 40 L. Ed. 2d 452.

§14607.6

Impoundment and Forfeiture of Motor Vehicles

14607.6. (a) Notwithstanding any other provision of law, and except as provided in this section, a motor vehicle is subject to forfeiture as a nuisance if it is driven on a highway in this state by a driver with a suspended or revoked license, or by an unlicensed driver, who is a registered owner of the vehicle at the time of impoundment and has a previous misdemeanor conviction for a violation of subdivision (a) of Section 12500 or Section 14601, 14601.1, 14601.2, 14601.3, 14601.4, or 14601.5.

(b) A peace officer shall not stop a vehicle for the sole reason of determining whether the driver is properly licensed.

(c) (1) If a driver is unable to produce a valid driver’s license on the demand of a peace officer enforcing the provisions of this code, as required by subdivision (b) of Section 12951, the vehicle shall be impounded regardless of ownership, unless the peace officer is reasonably able, by other means, to verify that the driver is properly licensed. Prior to impounding a vehicle, a peace officer shall attempt to verify the license status of a driver who claims to be properly licensed but is unable to produce the license on demand of the peace officer.

(2) A peace officer shall not impound a vehicle pursuant to this subdivision if the license of the driver expired within the preceding 30 days and the driver would otherwise have been properly licensed.

(3) A peace officer may exercise discretion in a situation where the driver without a valid license is an employee driving a vehicle registered to the employer in the course of employment. A peace officer may also exercise discretion in a situation where the driver without a valid license is the employee of a bona fide business establishment or is a person otherwise controlled by such an establishment and it reasonably appears that an owner of the vehicle, or an agent of the owner, relinquished possession of the vehicle to the business establishment solely for servicing or parking of the vehicle or other reasonably similar situations, and where the vehicle was not to be driven except as directly necessary to accomplish that business purpose. In this event, if the vehicle can be returned to or be retrieved by the business establishment or registered owner, the peace officer may release and not impound the vehicle.

(4) A registered or legal owner of record at the time of impoundment may request a hearing to determine the validity of the impoundment pursuant to subdivision (n).

(5) If the driver of a vehicle impounded pursuant to this subdivision was not a registered owner of the vehicle at the time of impoundment, or if the driver of the vehicle was a registered owner of the vehicle at the time of impoundment but the driver does not have a previous conviction for a violation of subdivision (a) of Section 12500 or Section 14601, 14601.1, 14601.2, 14601.3, 14601.4, or 14601.5, the vehicle shall be released pursuant to this code and is not subject to forfeiture.

(d) (1) This subdivision applies only if the driver of the vehicle is a registered owner of the vehicle at the time of impoundment. Except as provided in paragraph (5) of subdivision (c), if the driver of a vehicle impounded pursuant to subdivision (c) was a registered owner of the vehicle at the time of impoundment, the impounding agency shall authorize release of the vehicle if, within three days of impoundment, the driver of the vehicle at the time of impoundment presents his
or her valid driver’s license, including a valid temporary California driver’s license or permit, to the impounding agency. The vehicle shall then be released to a registered owner of record at the time of impoundment, or an agent of that owner authorized in writing, upon payment of towing and storage charges related to the impoundment, and any administrative charges authorized by Section 22850.5, providing that the person claiming the vehicle is properly licensed and the vehicle is properly registered. A vehicle impounded pursuant to the circumstances described in paragraph (3) of subdivision (c) shall be released to a registered owner whether or not the driver of the vehicle at the time of impoundment presents a valid driver’s license.

(2) If there is a community property interest in the vehicle impounded pursuant to subdivision (c), owned at the time of impoundment by a person other than the driver, and the vehicle is the only vehicle available to the driver’s immediate family that may be operated with a class C driver’s license, the vehicle shall be released to a registered owner or to the community property interest owner upon compliance with all of the following requirements:

(A) The registered owner or the community property interest owner requests release of the vehicle and the owner of the community property interest submits proof of that interest.

(B) The registered owner or the community property interest owner submits proof that he or she, or an authorized driver, is properly licensed and that the impounded vehicle is properly registered pursuant to this code.

(C) All towing and storage charges related to the impoundment and any administrative charges authorized pursuant to Section 22850.5 are paid.

(D) The registered owner or the community property interest owner signs a stipulated vehicle release agreement, as described in paragraph (3), in consideration for the nonforfeiture of the vehicle. This requirement applies only if the driver requests release of the vehicle.

(3) A stipulated vehicle release agreement shall provide for the consent of the signatory to the automatic future forfeiture and transfer of title to the state of any vehicle registered to that person, if the vehicle is driven by a driver with a suspended or revoked license, or by an unlicensed driver. The agreement shall be in effect for only as long as it is noted on a driving record maintained by the department pursuant to Section 1806.1.

(4) The stipulated vehicle release agreement described in paragraph (3) shall be reported by the impounding agency to the department not later than 10 days after the day the agreement is signed.

(5) No vehicle shall be released pursuant to paragraph (2) if the driving record of a registered owner indicates that a prior stipulated vehicle release agreement was signed by that person.

(e) (1) The impounding agency, in the case of a vehicle that has not been redeemed pursuant to subdivision (d), or that has not been otherwise released, shall promptly ascertain from the department the names and addresses of all legal and registered owners of the vehicle.

(2) The impounding agency, within two days of impoundment, shall send a notice by certified mail, return receipt requested, to all legal and registered owners of the vehicle, at the addresses obtained from the department, informing them that the vehicle is subject to forfeiture and will be sold or otherwise disposed of pursuant to this section. The notice shall also include instructions for filing a claim with the district attorney, and the time limits for filing a claim. The notice shall also inform any legal owner of its right to conduct the sale pursuant to subdivision (g). If a registered owner was personally served at the time of impoundment with a notice containing all the information required to be provided by this paragraph, no further notice is required to be sent to a registered owner. However, a notice shall still be sent to the legal owners of the vehicle, if any. If notice was not sent to the legal owner within two working days, the impounding agency shall not charge the legal owner for more than 15-days’ impoundment when the legal owner redeems the impounded vehicle.

(3) No processing charges shall be imposed on a legal owner who redeems an impounded vehicle within 15 days of the impoundment of that vehicle. If no claims are filed and served within 15 days after the mailing of the notice in paragraph (2), or if no claims are filed and served within five days of personal service of the notice specified in paragraph (2), when no other mailed notice is required pursuant to paragraph (2), the district attorney shall prepare a written declaration of forfeiture of the vehicle to the state. A written declaration of forfeiture signed by the district attorney under this subdivision shall be deemed to provide good and sufficient title to the forfeited vehicle. A copy of the declaration shall be provided on request to any person informed of the pending forfeiture pursuant to paragraph (2). A claim that is filed and is later withdrawn by the claimant shall be deemed not to have been filed.

(4) If a claim is timely filed and served, then the district attorney shall file a petition of forfeiture with the appropriate juvenile or superior court within 10 days of the receipt of the claim. The district attorney shall establish an expedited hearing date in accordance with instructions from the court, and the court shall hear the matter without delay. The court filing fee of one hundred dollars ($100) shall be paid by the claimant, but shall be reimbursed by the impounding agency if the claimant prevails. To the extent practicable, the civil and criminal cases shall be heard at the same time in an expedited, consolidated proceeding. A proceeding in the civil case is a limited civil case.

(5) The burden of proof in the civil case shall be on the prosecuting agency, by a preponderance of the evidence. All questions that may arise shall be decided and all other proceedings shall be conducted as in an ordinary civil action. A judgment of forfeiture does not require as a condition precedent the conviction of a defendant of an offense which made the vehicle subject to forfeiture. The filing of a claim within the time limits specified in paragraph (3) is considered a jurisdictional prerequisite for the availing of the action authorized by that paragraph.

(6) All right, title, and interest in the vehicle shall vest in the state upon commission of the act giving rise to the forfeiture.

(7) The filing fee in paragraph (4) shall be distributed as follows:

(A) To the county law library fund as provided in Section 6320 of the Business and Professions Code, the amount
specified in Sections 6321 and 6322.1 of the Business and Professions Code.

(B) To the Trial Court Trust Fund, the remainder of the fee.

(f) Any vehicle impounded that is not redeemed pursuant to subdivision (d) and is subsequently forfeited pursuant to this section shall be sold once an order of forfeiture is issued by the district attorney of the county of the impounding agency or a court, as the case may be, pursuant to subdivision (e).

(g) Any legal owner who is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state, or the agent of that legal owner, may take possession and conduct the sale of the forfeited vehicle if the legal owner or agent notifies the agency impounding the vehicle of its intent to conduct the sale within 15 days of the mailing of the notice pursuant to subdivision (e). Sale of the vehicle after forfeiture pursuant to this subdivision may be conducted at the time, in the manner, and on the notice usually given for the sale of repossessed or surrendered vehicles. The proceeds of any sale conducted by or on behalf of the legal owner shall be disposed of as provided in subdivision (i). A notice pursuant to this subdivision may be presented in person, by certified mail, by facsimile transmission, or by electronic mail.

(h) If the legal owner or agent of the owner does not notify the agency impounding the vehicle of its intent to conduct the sale as provided in subdivision (g), the agency shall offer the forfeited vehicle for sale at public auction within 60 days of receiving title to the vehicle. Low value vehicles shall be disposed of pursuant to subdivision (k).

(i) The proceeds of a sale of a forfeited vehicle shall be disposed of in the following priority:

1. To satisfy the towing and storage costs following impoundment, the costs of providing notice pursuant to subdivision (e), the costs of sale, and the unfunded costs of judicial proceedings, if any.

2. To the legal owner in an amount to satisfy the indebtedness owed to the legal owner remaining as of the date of sale, including accrued interest or finance charges and delinquency charges, providing that the principal indebtedness was incurred prior to the date of impoundment.

3. To the holder of any subordinate lien or encumbrance on the vehicle, other than a registered or legal owner, to satisfy any indebtedness so secured if written notification of demand is received before distribution of the proceeds is completed. The holder of a subordinate lien or encumbrance, if requested, shall furnish reasonable proof of its interest and, unless it does so upon request, is not entitled to distribution pursuant to this paragraph.

4. To any other person, other than a registered or legal owner, who can reasonably establish an interest in the vehicle, including a community property interest, to the extent of his or her provable interest, if written notification is received before distribution of the proceeds is completed.

5. Of the remaining proceeds, funds shall be made available to pay any local agency and court costs, that are reasonably related to the implementation of this section, that remain unsatisfied.

6. Of the remaining proceeds, half shall be transferred to the Controller for deposit in the Vehicle Inspection and Repair Fund for the high-polluter repair assistance and removal program created by Article 9 (commencing with Section 44090) of Chapter 5 of Part 5 of Division 26 of the Health and Safety Code, and half shall be transferred to the general fund of the city or county of the impounding agency, or the city or county where the impoundment occurred. A portion of the local funds may be used to establish a reward fund for persons coming forward with information leading to the arrest and conviction of hit-and-run drivers and to publicize the availability of the reward fund.

(j) The person conducting the sale shall disburse the proceeds of the sale as provided in subdivision (i) and shall provide a written accounting regarding the disposition to the impounding agency and, on request, to any person entitled to or claiming a share of the proceeds, within 15 days after the sale is conducted.

(k) If the vehicle to be sold pursuant to this section is not of the type that can readily be sold to the public generally, the vehicle shall be conveyed to a licensed dismantler or donated to an eleemosynary institution. License plates shall be removed from any vehicle conveyed to a dismantler pursuant to this subdivision.

(l) No vehicle shall be sold pursuant to this section if the impounding agency determines the vehicle to have been stolen. In this event, the vehicle may be claimed by the registered owner at any time after impoundment, providing the vehicle registration is current and the registered owner has no outstanding traffic violations or parking penalties on his or her driving record or on the registration record of any vehicle registered to the person. If the identity of the legal and registered owners of the vehicle cannot be reasonably ascertained, the vehicle may be sold.

(m) Any owner of a vehicle who suffers any loss due to the impoundment or forfeiture of any vehicle pursuant to this section may recover the amount of the loss from the unlicensed, suspended, or revoked driver. If possession of a vehicle has been tendered to a business establishment in good faith, and an unlicensed driver employed or otherwise directed by the business establishment is the cause of the impoundment of the vehicle, a registered owner of the impounded vehicle may recover damages for the loss of use of the vehicle from the business establishment.

(n) (1) The impounding agency, if requested to do so not later than 10 days after the date the vehicle was impounded, shall provide the opportunity for a poststorage hearing to determine the validity of the storage to the persons who were the registered and legal owners of the vehicle at the time of impoundment, except that the hearing shall be requested within three days after the date the vehicle was impounded if personal service was provided to a registered owner pursuant to paragraph (2) of subdivision (e) and no mailed notice is required.

(2) The poststorage hearing shall be conducted not later than two days after the date it was requested. The impounding agency may authorize its own officer or employee to conduct the hearing if the hearing officer is not the same person who directed the storage of the vehicle. Failure of either the registered or legal owner to request a hearing as provided in paragraph (1) or to attend a scheduled hearing shall satisfy the poststorage hearing requirement.
§14607.8

(3) The agency employing the person who directed the storage is responsible for the costs incurred for towing and storage if it is determined that the driver at the time of impoundment had a valid driver’s license.

(o) As used in this section, “days” means workdays not including weekends and holidays.

(p) Charges for towing and storage for any vehicle impounded pursuant to this section shall not exceed the normal towing and storage rates for other vehicle towing and storage conducted by the impounding agency in the normal course of business.

(q) The Judicial Council and the Department of Justice may prescribe standard forms and procedures for implementation of this section to be used by all jurisdictions throughout the state.

(r) The impounding agency may act as the agent of the state in carrying out this section.

(s) No vehicle shall be impounded pursuant to this section if the driver has a valid license but the license is for a class of vehicle other than the vehicle operated by the driver.

(t) This section does not apply to vehicles subject to Sections 14608 and 14609, if there has been compliance with the procedures in those sections.

(u) As used in this section, “district attorney” includes a city attorney charged with the duty of prosecuting misdemeanor offenses.

(v) The agent of a legal owner acting pursuant to subdivision (g) shall be licensed, or exempt from licensure, pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code.

Notification by Court: Motor Vehicle Subject to Forfeiture

14607.8. Upon a first misdemeanor conviction of a violation of subdivision (a) of Section 12500 or Section 14601, 14601.1, 14601.2, 14601.3, 14601.4, or 14601.5, the court shall inform the defendant that, pursuant to Section 14607.6, a motor vehicle is subject to forfeiture as a nuisance if it is driven on a highway in this state by a driver with a suspended or revoked license, or by an unlicensed driver, who is a registered owner of the vehicle and has a previous misdemeanor conviction for a violation of subdivision (a) of Section 12500 or Section 14601, 14601.1, 14601.2, 14601.3, 14601.4, or 14601.5.

Rental of Vehicles

14608. (a) A person shall not rent a motor vehicle to another person unless both of the following requirements have been met:

(1) The person to whom the vehicle is rented is licensed under this code or is a nonresident who is licensed under the laws of the state or country of his or her residence.

(2) The person renting to another person has inspected the driver’s license of the person to whom the vehicle is to be rented and compared either the signature thereon with that of the person to whom the vehicle is to be rented or the photograph thereon with the person to whom the vehicle is to be rented.

(b) This section does not prohibit a blind or disabled person who is a nondriver from renting a motor vehicle if both of the following conditions exist at the time of rental:

(1) The blind or disabled person either holds an identification card issued pursuant to this code or is not a resident of this state.

(2) The blind or disabled person has a driver present who is either licensed to drive a vehicle pursuant to this code or is a nonresident licensed to drive a vehicle pursuant to the laws of the state or country of the driver’s residence.

Amended Sec. 4, Ch. 862, Stats. 2012. Effective January 1, 2013.

Records of Rental

14609. (a) Every person renting a motor vehicle to another person shall keep a record of the registration number of the motor vehicle rented, the name and address of the person to whom the vehicle is rented, his or her driver’s license number, the jurisdiction that issued the driver’s license, and the expiration date of the driver’s license.

(b) If the person renting the vehicle is a nondriver pursuant to subdivision (c) of Section 14608, the record maintained pursuant to this section shall include the name and address of the person renting the vehicle and, if applicable, his or her identification card number, the jurisdiction that issued the identification card, and the expiration date of the identification card. The record shall also include the name and address of the licensed driver, his or her driver’s license number, and the expiration date of his or her driver’s license.

Unlawful Use of License

14610. (a) It is unlawful for any person:

(1) To display or cause or permit to be displayed or have in his possession any canceled, revoked, suspended, fictitious, fraudulently altered, or fraudulently obtained driver’s license.

(2) To lend his driver’s license to any other person or knowingly permit the use thereof by another.

(3) To display or represent any driver’s license not issued to him as being his license.

(4) To fail or refuse to surrender to the department upon its lawful demand any driver’s license which has been suspended, revoked or canceled.

(5) To permit any unlawful use of a driver’s license issued to him.

(6) To do any act forbidden or fail to perform any act required by this division.

(7) To photograph, photostat, duplicate, or in any way reproduce any driver’s license or facsimile thereof in such a manner that it could be mistaken for a valid license, or to display or have in his possession any such photograph, photostat, duplicate, reproduction, or facsimile unless authorized by the provisions of this code.

(8) To alter any driver’s license in any manner not authorized by this code.

Identification Documents: Prohibited

14610.1. (a) A person shall not manufacture or sell an identification document of a size and form substantially similar to, or that purports to confer the same privileges as, the drivers’ licenses issued by the department.

(b) A violation of this section is a misdemeanor punishable as follows:
the following:

(1) The court shall impose a fine of not less than two hundred fifty dollars ($250) and not more than one thousand dollars ($1,000), and 24 hours of community service, to be served when the person is not employed or is not attending school. No part of the fine or community service shall be suspended or waived.

(2) In lieu of the penalties imposed under paragraph (1), the court, in its discretion, may impose a jail term of up to one year and a fine of up to one thousand dollars ($1,000). In exercising its discretion the court shall consider the extent of the defendant’s commercial motivation for the offense.

(c) Prosecution under this section shall not preclude prosecution under any other applicable provision of law.

Unlawful Examination Aids

14610.5. (a) It is unlawful for any person to do any of the following:

(1) Sell, offer for sale, distribute, or use any crib sheet or cribbing device that contains the answers to any examination administered by the department for any class of driver’s license, permit, or certificate.

(2) Impersonate or allow the impersonation of an applicant for any class of driver’s license, permit, or certificate for the purpose of fraudulently qualifying the applicant for any class of driver’s license, permit, or certificate.

(b) A first conviction under this section is punishable as either an infraction or a misdemeanor; a second or subsequent conviction is punishable as a misdemeanor.

Unlawful Issuance of License or Identification Card

14610.7. It is a misdemeanor for any person to knowingly assist in obtaining a driver’s license or identification card for any person whose presence in the United States is not authorized under federal law.

Unlawful Direction of Vehicle With Radioactive Materials

14611. (a) A person shall not knowingly direct the operation of a vehicle transporting a highway route controlled quantity of Class 7 radioactive materials, as defined in Section 173.403 of Title 49 of the Code of Federal Regulations, by a person who does not possess a training certificate pursuant to subdivision (b) of Section 12524 and a valid driver’s license of the appropriate class.

(b) A person convicted under this section shall be punished by a fine of not less than five thousand dollars ($5,000) nor more than ten thousand dollars ($10,000).

1990.1. (a) Except as provided in Sections 15250.6 and 15255.1, upon application for the renewal of a driver’s license or for a license to operate a different class of vehicle, a fee of twenty-four dollars ($24), and on and after January 1, 2010, a fee of thirty dollars ($30), shall be paid to the department for a license that will expire on the fifth birthday of the applicant following the date of the application. The payment of the fee entitles the person paying the fee to apply for a driver’s license and to take three examinations within a period of 12 months from the date of the application or during the period that an instruction permit is valid, as provided in Section 12509.

(b) In addition to the application fee specified in subdivision (a), a person who fails to successfully complete the driving skill test on the first attempt shall be required to pay an additional fee of five dollars ($5) for each additional driving skill test administered under that application.

Additional Fee - Fees described in this section are subject to change pursuant to Section 1678.

Additional Fee

14900.1. (a) Except as provided in Sections 15250.6 and 15255.1, upon application for the renewal of a driver’s license or for a license to operate a different class of vehicle, a fee of twenty-four dollars ($24), and on and after January 1, 2010, a fee of thirty dollars ($30), shall be paid to the department for a license that will expire on the fifth birthday of the applicant following the date of the application. The payment of the fee entitles the person paying the fee to apply for a driver’s license and to take three examinations within a period of 12 months from the date of the application or during the period that an instruction permit is valid, as provided in Section 12509.

(b) In addition to the application fee specified in subdivision (a), a person who fails to successfully complete the driving skill test on the first attempt shall be required to pay an additional fee of five dollars ($5) for each additional driving skill test administered under that application.

Publisher’s Note - Fees described in this section are subject to change pursuant to Section 1678.

Fee for Duplicate License or Change of Name

14901. Upon application and payment of the fees for a driver’s license pursuant to Section 14900, an identification card may be issued to the applicant if it is determined that a driver’s license cannot be issued due to the applicant’s physical or mental condition. The identification card, unless canceled earlier, shall expire on the applicant’s sixth birthday following the date of application.

Fee for Duplicate License or Change of Name

14901. Upon application and payment of the fees for a driver’s license pursuant to Section 14900, an identification card may be issued to the applicant if it is determined that a driver’s license cannot be issued due to the applicant’s physical or mental condition. The identification card, unless canceled earlier, shall expire on the applicant’s sixth birthday following the date of application.

Publisher’s Note - Fees described in this section are subject to change pursuant to Section 1678.

Additional Fee: Veterans

14901.1. In addition to the fees required by Section 14900, 14900.1, or 14902, the department shall charge a one-time fee of five dollars ($5) to any person who requests, pursuant to paragraph (5) of subdivision (c) of Section 12511, that the person’s driver’s license or identification card be printed with the word “VETERAN” to indicate that the person has served in the United States Armed Forces. The department may increase the fee by regulation, in an amount not to exceed fifteen
§14902

$15, to reimburse the department for its reasonable costs in processing and issuing a request for a license or card issued pursuant to paragraph (5) of subdivision (c) of Section 12811.

Added Sec. 2, Ch. 644, Stats. 2014. Effective January 1, 2015.

Fee for Identification Cards

14902. (a) Except as otherwise provided in subdivisions (b), (c), and (d) of this section, subdivision (c) of Section 13002, and subdivision (c) of Section 14900, upon an application for an identification card a fee of twenty dollars ($20), and on and after January 1, 2010, a fee of twenty-six dollars ($26), shall be paid to the department.

(b) An original or replacement senior citizen identification card issued pursuant to subdivision (b) of Section 13000 shall be issued free of charge.

(c) The fee for an original or replacement identification card issued to a person who has been determined to have a current income level that meets the eligibility requirements for assistance programs under Chapter 2 (commencing with Section 11200) or Chapter 3 (commencing with Section 12000) of Part 3 of, or Part 5 (commencing with Section 17000) of, or Article 9 (commencing with Section 18900) of Chapter 10 of Part 6 of, or Chapter 10.1 (commencing with Section 18930) of Chapter 10.3 (commencing with Section 18937) of Part 6 of, Division 9 of the Welfare and Institutions Code shall be six dollars ($6). The determination of eligibility under this subdivision shall be made by a governmental or nonprofit entity, which shall be subject to regulations adopted by the department.

(d) On and after January 1, 2016, a fee shall not be charged for an original or replacement identification card issued to any person who can verify his or her status as a homeless person or homeless child or youth. A homeless services provider that has knowledge of the person’s housing status may verify the person’s status for purposes of this subdivision. A determination of eligibility pursuant to this subdivision shall be subject to regulations adopted by the department. A person applying for an identification card under this subdivision shall not be charged a fee for verification of his or her eligibility.

(f) For purposes of this section, the following definitions apply:

(1) A “homeless child or youth” has the same meaning as the definition of “homeless children and youths” as set forth in the federal McKinney-Vento Homeless Assistance Act (42 U.S.C. Sec. 11301 et seq.).

(2) A “homeless person” has the same meaning as the definition set forth in the federal McKinney-Vento Homeless Assistance Act (42 U.S.C. Sec. 11301 et seq.).

(3) A “homeless services provider” includes:

(A) A governmental or nonprofit agency receiving federal, state, or county or municipal funding to provide services to a “homeless person” or “homeless child or youth,” or that is otherwise sanctioned to provide those services by a local homeless continuum of care organization.

(B) An attorney licensed to practice law in this state.

(C) A local educational agency liaison for homeless children and youth designated as such pursuant to Section 11432 (g)(1)(J)(ii) of Title 42 of the United States Code, or a school social worker.

(D) A human services provider or public social services provider funded by the State of California to provide homeless children or youth services, health services, mental or behavioral health services, substance use disorder services, or public assistance or employment services.

(E) A law enforcement officer designated as a liaison to the homeless population by a local police department or sheriff’s department within the state.

(F) Any other homeless services provider that is qualified to verify an individual’s housing status, as determined by the department.

The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following:

1. “(c)"
2. “(d)”

Publisher’s Note - Fees described in this section are subject to change pursuant to Section 1678.

Fee for Termination or Reinstatement After Suspension or Revocation of Driving Privilege

14904. (a) Notwithstanding any other provision of this code, before a driver’s license may be issued, reissued, or returned to the licensee after a suspension or a revocation of a person’s driving privilege ordered by the department has been terminated, there shall, in addition to any other fees required by this code, be paid to the department a fee sufficient to pay the actual costs of the issuance, reissuance, or return as determined by the department.

(b) This section shall not apply to any suspension or revocation that is set aside by the department or a court.

(c) This section shall not apply to any suspension or revocation based upon a physical or mental condition.

Fee After Suspension or Revocation

14905. (a) Notwithstanding any other provision of this code, in lieu of the fees in Section 14904, before a driver’s license may be issued, reissued, or returned to a person after suspension or revocation of the person’s privilege to operate a motor vehicle pursuant to Section 13353 or 13353.2, there shall be paid to the department a fee in an amount of one hundred twenty-five dollars ($125) to pay the costs of the administration of the administrative suspension and revocation programs for persons who refuse or fail to complete chemical testing, as provided in Section 13353, or who drive with an excessive amount of alcohol in their blood, as provided in Section 13353.2, any costs of the Department of the California Highway Patrol related to the payment of compensation for overtime for attending any administrative hearings pursuant to Article 3 (commencing with Section 14100) of Chapter 3 and Section 13382, and any reimbursement for costs mandated by the state pursuant to subdivisions (f) and (g) of Section 23612.

(b) This section does not apply to a suspension or revocation that is set aside by the department or a court.

Fee for Giving Notice of Sanction

14906. (a) In addition to the fees required by Section 14904, the department may require payment of a fee sufficient to pay the actual costs, as determined by the department, for giving any notices in connection with suspensions or revocations in accordance with Sections 22, 29, and 13106.

(b) This section does not apply to any suspension or revocation that is set aside by the department or a court.

Fee for Departmental Review After Hearing

14907. In addition to the fees required pursuant to Section 14904, there shall be paid to the department a fee of one hundred twenty dollars ($120) to pay the costs of a departmental review when requested pursuant to Section 14105.5, following a hearing conducted pursuant to Section 13353 or 13353.2. The fee authorized under this section shall be collected in conjunction with any request for a departmental review received on or after January 1, 2003.

Article 2. Collection of Fees
(Added Ch. 15, Stats. 1991. Effective July 1, 1992.)

Collection of Fees, Penalties, and Bail

14910. (a) The department shall, with the consent of the applicant, collect the amounts which it has been notified are due pursuant to Sections 40509 and 40509.5, and any service fees added to those amounts, at the time it collects from the applicant any fees and penalties required to issue or renew a driver’s license or identification card.

(b) Except as provided in subdivision (c), the department shall remit all amounts collected pursuant to subdivision (a), after deducting the administrative fee authorized in subdivision (c), to each jurisdiction in the amounts due to each jurisdiction according to its notices filed with the department. Within 45 days from the time payment is received by the department, the department shall inform each jurisdiction which of its notices of failure to appear or failure to pay have been discharged.

(c) The department shall assess a fee for posting the bail on each notice of failure to appear or failure to pay which is given to the department pursuant to Section 40509 or 40509.5, in an amount, as determined by the department, that is sufficient to provide a sum equal to its actual costs of administering this section, not to exceed one dollar ($1) per notice. The fees shall be assessed to each jurisdiction on a regular basis by deducting the amount due to the department pursuant to this subdivision from the fines collected pursuant to subdivision (a), prior to remitting the balance to each jurisdiction pursuant to subdivision (b).

(d) Except as provided in subdivision (e) of Section 13364, if bail is collected under this section for the violation of any provisions of this code, the person shall be deemed to be convicted of those sections violated.

(e) Any amounts collected by the department under this section are nonrefundable by the department.

(f) Notwithstanding Section 42003, payment of bail to the department in accordance with this section shall be paid in full and not in installments.
Amended Sec. 61, Ch. 877, Stats. 1998. Effective January 1, 1999.

FTA and FTP Vehicle Liens

14911. (a) When a notice of failure to appear or failure to pay a fine is recorded on the department records pursuant to Sections 40509 and 40509.5, the fine and any penalty assessments shall be a lien upon all vehicles of the defendant of a type subject to registration under this code.

(b) For every lien arising pursuant to subdivision (a) which is due and not paid, the department may collect the amount of the lien plus costs, and Article 6 (commencing with Section 9800) of Chapter 6 of Division 3.5 shall apply.

CHAPTER 6. DRIVER LICENSE COMPACT
(Added Ch. 237, Stats. 1963. Effective September 20, 1963.)

Article 1. Generally

Compact Enacted

15000. The Driver License Compact is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially contained in Article 2 (commencing with Section 15020), of Chapter 6, Division 6 of this code.

Licensing Authority

15001. As used in the compact, the term “licensing authority” with reference to this State shall mean the Department of Motor Vehicles. That department shall furnish to the appropriate authorities of any other party state any information or documents reasonably necessary to facilitate the administration of Sections 15022, 15023, and 15024 of the compact.

Expenses of Administrator

15002. The compact administrator provided for in Section 15026 of this compact shall not be entitled to any additional compensation on account of his service as such administrator, but shall be entitled to expenses incurred in connection with his duties and responsibilities as such administrator, in the same manner as for expenses incurred in connection with any other duties or responsibilities of his office or employment.

Executive Head

15003. As used in the compact, with reference to this State, the term “executive head” shall mean the Governor.

Article 2. Compact Terms

Findings and Policy Statement

15020. (a) The party states find that:

(1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.

(2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.

(3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.
§15021

(b) It is the policy of the party states to:

(1) Promote compliance with the laws, ordinances and administrative rules and regulations relating to the operation of motor vehicles by their drivers in each of the jurisdictions where such drivers operate motor vehicles.

(2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

Compact Definitions

15021. As used in the compact:

(a) “State” means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(b) “Home state” means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle.

(c) “Conviction” means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance or administrative rule or regulation, or a forfeiture of bail, bond or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

Reports of Convictions

15022. The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code, or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

Effect of Conviction in Party State

15023. (a) The licensing authority in the home state, for the purposes of suspending, revoking, or limiting the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to Section 15022, of this compact, as it would if such conduct had occurred in the home state, in the case of a conviction for:

(1) Manslaughter or negligent homicide resulting from the operation of a motor vehicle;

(2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;

(3) Any felony in the commission of which a motor vehicle is used;

(4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(b) As to any other conviction, reported pursuant to Section 15022, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.

(c) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (a) of this section, such party state shall construe the denominations and descriptions appearing in subdivision (a) hereof as being applicable to and identifying those offenses or violations of a substantially similar nature, and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this section.

Grounds Requiring Refusal to Issue License

15024. Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:

(1) The applicant has held such a license, but the license has been suspended by reason, in whole or in part, of a violation, and if such suspension period has not terminated.

(2) The applicant has held such a license, but the license has been revoked by reason, in whole or in part, of a violation, and if such revocation has not terminated; except that after the expiration of one year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.

(3) The applicant is the holder of a license to drive issued by another party state and currently in force, unless the applicant surrenders such license.

Application of Other State Laws

15025. Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance, nor to invalidate or prevent any driver license agreement or other co-operative arrangement between a party state and a nonparty state.

Administrator of Compact

15026. (a) The head of the licensing authority of each party state shall be the administrator of this compact for his state. The administrators of all party states, acting jointly, shall have the power to formulate all necessary and proper procedures for the exchange of information under this compact.

(b) The administrator of each party state shall furnish to the administrator of each other party state any information or documents reasonably necessary to facilitate the administration of this compact.

Compact As Law—Withdrawal Procedure

15027. (a) This compact shall become effective as to any state in which this compact becomes effective as the law of that state.

(b) Any party state may withdraw from this compact by enacting a statute repealing this compact as the law of that state, but no such withdrawal shall take effect until six months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

Construction and Validity—Severability

15028. The compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of the compact shall be severable and if any phrase, clause, sentence, or provisions of the compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If the compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

Chapter 7. Commercial Motor Vehicle Safety Program

Article 1. Intent

Legislative Intent

15200. It is the intent of the Legislature, in enacting this chapter, to adopt those standards required of drivers by the Federal Motor Carrier Safety Administration of the United States Department of Transportation, as set forth in the federal Motor Carrier Safety Improvement Act of 1999 (Public Law 106-159) and to reduce or prevent commercial motor vehicle accidents, fatalities, and injuries by permitting drivers to hold only one license, disqualifying drivers for certain criminal offenses and serious traffic violations, and strengthening licensing and testing standards. This act is a remedial law and shall be liberally construed to promote the public health, safety and welfare. To the extent that this chapter conflicts with general driver licensing provisions, this chapter shall prevail. Where this chapter is silent, the general driver licensing provisions shall apply. It is the further intent of the Legislature that this program be fee supported, and that the department fully recoup its costs within four years of the program’s enactment.

Amended Sec. 3, Ch. 216, Stats. 2010. Effective January 1, 2011.

Definitions

15210. Notwithstanding any other provision of this code, as used in this chapter, the following terms have the following meanings:

(a) “Commercial driver’s license” means a driver’s license issued by a state or other jurisdiction, in accordance with the standards contained in Part 383 of Title 49 of the Code of Federal Regulations, which authorizes the licenseholder to operate a class A or B license, or a class C license with an endorsement issued pursuant to paragraph (2), (3), (4), or (5) of subdivision (a) of Section 15278.

(b) (1) “Commercial motor vehicle” means any vehicle or combination of vehicles that requires a class A or B license, or a class C license with an endorsement issued pursuant to paragraph (2), (3), (4), or (5) of subdivision (a) of Section 15278.

(b) (2) “Commercial motor vehicle” does not include any of the following:

(A) A recreational vehicle, as defined in Section 18010 of the Health and Safety Code.

(B) An implement of husbandry operated by a person who is not required to obtain a driver’s license under this code.

(C) Vehicles operated by persons exempted pursuant to Section 25163 of the Health and Safety Code or a vehicle operated in an emergency situation at the direction of a peace officer pursuant to Section 2800.

(c) “Controlled substance” has the same meaning as defined by the federal Controlled Substances Act (21 U.S.C. Sec. 802).

(d) “Conviction” means an unvacated adjudication of guilt, or a determination that a person has violated or failed to comply with the law in a court of original jurisdiction or by an authorized administrative tribunal, an unvacated forfeiture of bail or collateral deposited to secure the person’s appearance in court, a plea of guilty or nolo contendere accepted by the court, the payment of a fine or court costs, or violation of a condition of release without bail, regardless of whether or not the penalty is rebated, suspended, or probated.

(e) “Disqualification” means a prohibition against driving a commercial motor vehicle.

(f) “Driving a commercial vehicle under the influence” means committing any one or more of the following unlawful acts in a commercial motor vehicle:

(1) Driving a commercial motor vehicle while the operator’s blood-alcohol concentration level is 0.04 percent or more, by weight in violation of subdivision (d) of Section 23152.

(2) Driving under the influence of alcohol, as prescribed in subdivision (a) or (b) of Section 23152.

(3) Refusal to undergo testing as required under this code in the enforcement of Subpart D of Part 383 or Subpart A of Part 392 of Title 49 of the Code of Federal Regulations.

(g) “Employer” means any person, including the United States, a state, or political subdivision of a state, who owns or leases a commercial motor vehicle or assigns drivers to operate that vehicle. A person who employs himself or herself as a commercial vehicle driver is considered to be both an employer and a driver for purposes of this chapter.

(h) “Fatality” means the death of a person as a result of a motor vehicle accident.
§15215

(i) “Felony” means an offense under state or federal law that is punishable by death or imprisonment for a term exceeding one year.

(j) “Gross combination weight rating” means the value specified by the manufacturer as the maximum loaded weight of a combination or articulated vehicle. In the absence of a value specified by the manufacturer, gross vehicle weight rating will be determined by adding the gross vehicle weight rating of the power unit and the total weight of the towed units and any load thereon.

(k) “Gross vehicle weight rating” means the value specified by the manufacturer as the maximum loaded weight of a single vehicle, as defined in Section 3.50.

(l) “Imminent hazard” means the existence of a condition that presents a substantial likelihood that death, serious illness, severe personal injury, or substantial endangerment to health, property, or the environment may occur before the reasonable foreseeable completion date of a formal proceeding begun to lessen the risk of death, illness, injury, or endangerment.

(m) “Noncommercial motor vehicle” means a motor vehicle or combination of motor vehicles that is not included within the definition in subdivision (b).

(n) “Nonresident commercial driver’s license” means a commercial driver’s license issued to an individual by a state under one of the following provisions:

(1) The individual is domiciled in a foreign country.
(2) The individual is domiciled in another state.

(o) “Schoolbus” is a commercial motor vehicle, as defined in Section 545.

(p) “Serious traffic violation” includes any of the following:

(1) Excessive speeding, as defined pursuant to the federal Commercial Motor Vehicle Safety Act (P.L. 99-570) involving any single offense for any speed of 15 miles an hour or more above the posted speed limit.

(2) Reckless driving, as defined pursuant to the federal Commercial Motor Vehicle Safety Act (P.L. 99-570), and driving in the manner described under Section 2800.1, 2800.2, or 2800.3, including, but not limited to, the offense of driving a commercial motor vehicle in willful or wanton disregard for the safety of persons or property.

(3) A violation of a state or local law involving the safe operation of a motor vehicle, arising in connection with a fatal traffic accident.

(4) A similar violation of a state or local law involving the safe operation of a motor vehicle, as defined pursuant to the Commercial Motor Vehicle Safety Act (Title XII of P.L. 99-570).

(5) Driving a commercial motor vehicle without a commercial driver’s license.

(6) Driving a commercial motor vehicle without the driver having in his or her possession a commercial driver’s license, unless the driver provides proof at the subsequent court appearance that he or she held a valid commercial driver’s license on the date of the violation.

(7) Driving a commercial motor vehicle when the driver has not met the minimum testing standards for that vehicle as to the class or type of cargo the vehicle is carrying.

(8) Driving a commercial motor vehicle while using an electronic wireless communication device to write, send, or read a text-based communication, as defined in Section 23123.5.

In the absence of a federal definition, existing definitions under this code shall apply.

(q) “State” means a state of the United States or the District of Columbia.

(r) “Tank vehicle” means a commercial motor vehicle that is designed to transport any liquid or gaseous material within a tank or tanks having an individual rated capacity of more than 119 gallons and an aggregate rated capacity of at least 1,000 gallons that is permanently or temporarily attached to the vehicle or the chassis, including, but not limited to, cargo tanks and portable tanks, as defined in Part 171 of Title 49 of the Code of Federal Regulations. A commercial motor vehicle transporting an empty storage container tank not designed for transportation, with a rated capacity of at least 1,000 gallons that is temporarily attached to a flatbed trailer, is not a tank vehicle.

Amended Sec. 12, Ch. 574, Stats. 2006. Effective January 1, 2007.
Amended Sec. 7, Ch. 630, Stats. 2007. Effective January 1, 2008.
Amended Sec. 8, Ch. 670, Stats. 2012. Effective January 1, 2013.
Amended Sec. 14, Ch. 345, Stats. 2014. Effective January 1, 2015.

The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following "390".

Article 3. Driver Notification Requirements

Out-of-State Conviction: Notice to Department

15220. Any driver of a commercial motor vehicle who has a driver’s license issued by the department, and who is convicted of any offense involving the safe operation of a motor vehicle in any other state, shall notify the department, in the manner provided by the department, of the conviction within 30 days of the date of conviction.

Conviction: Notice to Employer

15222. Any driver of a commercial motor vehicle, who has a driver’s license issued by the department, and who is convicted of any offense involving the safe operation of a motor vehicle, shall notify his or her employer of the conviction, within 30 days of the date of conviction.

Sanctions Against Driving Privilege: Notice to Employer

15224. Any person who has a driver’s license or privilege suspended, revoked, or canceled by any state for any period, or who is disqualified from driving a commercial motor vehicle for any period, shall notify his or her employer of the suspension, revocation, cancellation, or disqualification, before the end of the business day following the action.

Federal Out-of-Service Order: Notice to Employer

15226. Any driver who is issued an out-of-service order under the federal Motor Carrier Safety Regulations of the United States Department of Transportation (49 C.F.R. 392.5) shall report the issuance to his or her employer within 24 hours.

Out-of-Service Order: Notice to Department

15228. The driver shall also report the issuance of an out-of-service order described in Section 15226 to the department in the manner provided by the department within 30 days unless the driver requests a review of the order by the United States Department of Transportation. If so, the driver shall report the order to the department within 30 days of an affirmation of the order.

Employment Application Requirements

15230. Each person who applies for employment as a driver of a commercial motor vehicle shall provide the employer, at the time of the application, with the following information for the 10 years preceding the date of application:
(a) A list of the names and addresses of the applicant’s previous employers for which the applicant was a driver of a commercial motor vehicle.
(b) The dates the applicant was employed by each employer.
(c) The reason for leaving that employment.
The applicant shall certify that all information furnished is true and complete. An employer may require an applicant to provide additional information.

Article 4. Employer Responsibilities

Employer: Prohibited Acts

15240. No employer shall knowingly allow, permit, require, or authorize a driver to drive a commercial motor vehicle under any of the following conditions:
(a) The driver has a driver’s license or privilege suspended, revoked, or canceled by any state or has been disqualified from operating a commercial motor vehicle.
(b) The driver has more than one driver’s license.
(c) The driver or the commercial motor vehicle or motor carrier operation is subject to an out-of-service order as described in subdivision (b) of Section 2800.
(d) In violation of any law or regulation pertaining to a railroad-highway grade crossing.

Self-Employed Driver: Motor Carrier Responsibility

15242. (a) A person who is self-employed as a commercial motor vehicle driver shall comply with both the requirements of this Chapter pertaining to employers and those pertaining to employees.
(b) Notwithstanding subdivision (a), a motor carrier that engages a person who owns, leases, or otherwise operates not more than one motor vehicle listed in Section 34500 to provide transportation services under the direction and control of that motor carrier is responsible for the compliance of that person with this Chapter and for purposes of the regulations adopted by the department pursuant to Section 34501 during the period of that direction and control.
(c) For the purposes of subdivision (b), “direction and control” means either of the following:
(1) The person is operating under the motor carrier’s interstate operating authority issued by the United States Department of Transportation.
(2) The person is operating under a subcontract with the motor carrier that require the person to operate in intrastate commerce and the person has performed transportation services for a minimum of 60 calendar days within the past 90 calendar days for the motor carrier and has been on duty for that carrier for no less than 36 hours within any week in which transportation services were provided.
(d) Subdivision (b) shall not be construed to change the definition of “employer,” “employee,” or “independent contractor” for any purpose.
Amended Sec. 609, Ch. 538, Stats. 2006. Effective January 1, 2007.

Article 5. Commercial Driver’s License

Commercial Driver’s License Requirements

15250. (a) (1) A person shall not operate a commercial motor vehicle unless that person has in his or her immediate possession a valid commercial driver’s license of the appropriate class.
(2) A person shall not operate a commercial motor vehicle while transporting hazardous materials unless that person has in his or her possession a valid commercial driver’s license with a hazardous materials endorsement. An instruction permit does not authorize the operation of a vehicle transporting hazardous materials.
(b) (1) Before an application for an original or renewal of a commercial driver’s license with a hazardous materials endorsement is submitted to the United States Transportation Security Administration for the processing of a security threat assessment, as required under Part 1572 of Title 49 of the Code of Federal Regulations, the department shall complete a check of the applicant’s driving record to ensure that the person is not subject to a disqualification under Part 383.51 of Title 49 of the Code of Federal Regulations.
(2) (A) A person shall not be issued a commercial driver’s license until he or she has passed a written and driving test for the operation of a commercial motor vehicle that complies with the minimum federal standards established by the federal Commercial Motor Vehicle Safety Act of 1986 (Public Law 99-570) and Part 383 of Title 49 of the Code of Federal Regulations, and has satisfied all other requirements of that act as well as any other requirements imposed by this code.
(B) The driving skills test as specified in Section 383.113 of Title 49 of the Code of Federal Regulations may be waived for a commercial motor vehicle driver with military commercial motor vehicle experience who is currently licensed with the United States Armed Forces at the time of his or her application.
§15250.3

for a commercial driver’s license, and whose driving record in combination with his or her driving experience meets, at a minimum, the conditions required by Section 383.77(a) and (b) of Title 49 of the Code of Federal Regulations.

(c) The tests shall be prescribed and conducted by or under the direction of the department. The department may allow a third-party tester to administer the driving test part of the examination required under this section and Section 15275 if all of the following conditions are met:

(1) The tests given by the third party are the same as those that would otherwise be given by the department.

(2) The third party has an agreement with the department that includes, but is not limited to, the following provisions:

(A) Authorization for the United States Secretary of Transportation, or his or her representative, and the department, or its representative, to conduct random examinations, inspections, and audits without prior notice.

(B) Permission for the department, or its representative, to conduct onsite inspections at least annually.

(C) A requirement that all third-party testers meet the same qualification and training standards as the department’s examiners, to the extent necessary to conduct the driving skill tests in compliance with the requirements of Part 383 of Title 49 of the Code of Federal Regulations.

(D) The department may cancel, suspend, or revoke the agreement with a third-party tester if the third-party tester fails to comply with the standards for the commercial driver’s license testing program, or with any other term of the third-party agreement, upon 15 days’ prior written notice of the action to cancel, suspend, or revoke the agreement by the department to the third party. Any action to appeal or review any order of the department canceling, suspending, or revoking a third-party testing agreement shall be brought in a court of competent jurisdiction under Section 1085 of the Code of Civil Procedure, or as otherwise permitted by the laws of this state. The action shall be commenced within 90 days from the effective date of the order.

(E) Any third-party tester whose agreement has been canceled pursuant to subparagraph (D) may immediately apply for a third-party testing agreement.

(F) A suspension of a third-party testing agreement pursuant to subparagraph (D) shall be for a term of less than 12 months as determined by the department. After the period of suspension, the agreement shall be reinstated upon request of the third-party tester.

(G) A revocation of a third-party testing agreement pursuant to subparagraph (D) shall be for a term of not less than one year. A third-party tester may apply for a new third-party testing agreement after the period of revocation and upon submission of proof of correction of the circumstances causing the revocation.

(H) Authorization for the department to charge the third-party tester a fee, as determined by the department, that is sufficient to defray the actual costs incurred by the department for administering and evaluating the third-party testing program, and for carrying out any other activities deemed necessary by the department to ensure sufficient training for the drivers participating in the program.

(3) Except as provided in Section 15250.3, the tests given by the third party shall not be accepted in lieu of tests prescribed and conducted by the department for applicants for a passenger vehicle endorsement specified in paragraph (2) of subdivision (a) of Section 15278, if the applicant operates or will operate a tour bus.

(d) Commercial driver’s license applicants who take and pass driving tests administered by a third party shall provide the department with certificates of driving skill satisfactory to the department that the applicant has successfully passed the driving tests administered by the third party.

(e) If a driving test is administered to a commercial driver’s license applicant who is to be licensed in another state pursuant to Section 383.79 of Subpart E of Part 383 of Title 49 of the Code of Federal Regulations when operating motor vehicles for military purposes. This exception shall not apply to United States Armed Forces reserve technicians.

(f) Implementation dates for the issuance of a commercial driver’s license pursuant to this chapter may be established by the department as it determines is necessary to accomplish an orderly commercial driver’s license program.

(g) Active duty members of the United States Armed Forces, members of the military reserves, members of the National Guard who are on active duty, including personnel on full-time National Guard duty, personnel on part-time National Guard training, and National Guard military technicians (civilians who are required to wear military uniforms), and active duty personnel of the United States Coast Guard are exempt from all commercial driver’s license requirements and sanctions, as provided in Section 383.3(c) of Subpart A of Part 383 of Title 49 of the Code of Federal Regulations when operating motor vehicles for military purposes. This exception shall not apply to United States Armed Forces reserve technicians.

Amended Sec. 4, Ch. 649, Stats. 2013. Effective January 1, 2014.

Amended Sec. 9.5, Ch. 670, Stats. 2012. Effective January 1, 2013.

Amended Sec. 4, Ch. 649, Stats. 2013. Effective January 1, 2014.

Tour Bus Testing

15250.3. The department may allow any employee of an organized camp, as defined in Section 18897 of the Health and Safety Code, regulated by the Public Utilities Commission pursuant to Chapter 8 (commencing with Section 5351) of Division 2 of the Public Utilities Code to operate a tour bus pursuant to employment by the operator of that organized camp, if that employee satisfies the requirements for a class B license and a passenger vehicle endorsement by passing a test administered by a third party in accordance with subdivisions (c), (d), and (e) of Section 15250.

Commercial Driver’s License Fees

15255.1. (a) Except as otherwise specified in subdivisions (b) and (c), upon an application for an original commercial driver’s license, a fee of sixty-four dollars ($64), and on and after January 1, 2010, a fee of sixty-six dollars ($66), shall be paid to the department for a license that will expire on the fifth birthday of the applicant following the date of the application. A fee of sixty-four dollars ($64), and on and after January 1, 2010, a fee of sixty-six dollars ($66), shall also be paid to the department upon an application to change a license classification or to remove a restriction if the change or removal requires a driving-skill test and the license will expire
on the fifth birthday of the applicant following the date of the application.

(b) Upon application for an original commercial driver’s license or for the renewal of commercial driver’s license by a currently licensed class A or class B, or class A or class B, driver who meets the driver record requirements and all other requirements established by Section 383.77 of Title 49 of the Code of Federal Regulations, a fee of thirty-four dollars ($34), and on and after January 1, 2010, a fee of thirty-nine dollars ($39), shall be paid to the department for a license that will expire on the fifth birthday of the applicant following the date of the application.

(c) Upon application for an original class C commercial driver’s license or for the renewal of a class C commercial driver’s license which requires an endorsement as provided in Section 15278, a fee of thirty-four dollars ($34), and on and after January 1, 2010, a fee of thirty-nine dollars ($39), shall be paid to the department for a license that will expire on the fifth birthday of the applicant following the date of the application.

(d) Following failure in taking a driving-skill test, a fee of thirty dollars ($30) shall be paid to the department for each subsequent administration of the driving-skill test required by the application.

Publisher’s Note - Fees described in this section are subject to change pursuant to Section 1678.

Commercial Driver’s License: Duplicate: Fee

15255.2. Upon application for a duplicate commercial driver’s license by a currently licensed class A or class B driver, or a class C commercial driver’s license which requires an endorsement as provided in Section 15278, from an applicant who meets the driver record requirements and all other requirements established by Section 383.77 of Title 49 of the Code of Federal Regulations, a fee of twenty-seven dollars ($27), on and after January 1, 2010, a fee of twenty-nine dollars ($29), shall be paid to the department.

Publisher’s Note - Fees described in this section are subject to change pursuant to Section 1678.

Air Brakes: Restriction

15260. (a) Any applicant for a commercial driver’s license who does not successfully complete the air-brake component of the knowledge test, or who does not successfully complete the driving-skill test in a vehicle or combination of vehicles equipped with air brakes, shall, if otherwise qualified, receive a commercial driver’s license that restricts the licenseholder from operating a commercial motor vehicle equipped with air brakes.

(b) To remove the restriction described in subdivision (a) from a commercial driver’s license, the driver is required to make a new application for a commercial driver’s license, and, in addition to any other requirements specified in this code, successfully complete the driving-skill test in a vehicle or combination of vehicles equipped with air brakes.

(c) For the purposes of the driving-skill test and the restriction described in this section, air brakes shall include any braking system operating fully or partially on the air-brake principle.

Restriction to Automatic Transmissions

15263. (a) Any applicant for a commercial driver’s license who successfully completes the driving-skill test in a vehicle or combination of vehicles equipped with an automatic transmission, shall, if otherwise qualified, receive a commercial driver’s license that restricts the licenseholder from operating a commercial motor vehicle or combination of vehicles equipped with a manual transmission.

(b) To remove the restriction described in subdivision (a) from a commercial driver’s license, the driver is required to make a new application for a commercial driver’s license, and, in addition to any other requirements specified in this code, successfully complete the driving-skill test in a vehicle or combination of vehicles equipped with a manual transmission.

Article 6. Endorsements

Commercial Driver’s License: Endorsements

15275. (a) A person may not operate a commercial motor vehicle described in this Chapter unless that person has in his or her possession a valid commercial driver’s license for the appropriate class, and an endorsement issued by the department to permit the operation of the vehicle unless exempt from the requirement to obtain an endorsement pursuant to subdivision (b) of Section 15278.

(b) (1) An endorsement to drive vehicles specified in this Article shall be issued only to applicants who are qualified by examinations prescribed by the department and who meet the minimum standards established in Part 383 of Title 49 of the Code of Federal Regulations.

(2) A hazardous materials endorsement shall be issued only to applicants who comply with paragraph (1) and the requirements set forth in Part 1572 of Title 49 of the Code of Federal Regulations.

(c) The department may deny, suspend, revoke, or cancel an endorsement to drive vehicles specified in this Article when the applicant does not meet the qualifications for the issuance or retention of the endorsement.

(d) If the department denies, suspends, revokes, or cancels a hazardous materials endorsement because the department received notification that the applicant poses a security threat pursuant to Part 1572 of Title 49 of the Code of Federal Regulations, and, upon appeal by the United States Transportation Security Administration, that endorsement is ordered reinstated, the department shall issue or restore the hazardous materials endorsement to the applicant within the period specified under those federal regulations.

Schoolbus Endorsement

15275.1. (a) Except as provided in subdivision (b), a schoolbus endorsement is valid only when the operator possesses or qualifies for a valid commercial driver’s license with a passenger endorsement and possesses a schoolbus driver’s certificate issued pursuant to Section 12517.

(b) A schoolbus endorsement is valid without a schoolbus driver’s certificate for an operator who is employed as a mechanic or a schoolbus driver-trainee if the schoolbus
**Required Endorsement Classifications**

15278. (a) A driver is required to obtain an endorsement issued by the department to operate any commercial motor vehicle that is any of the following:

1. A double trailer.
2. A passenger transportation vehicle, which includes, but is not limited to, a bus, farm labor vehicle, or general public paratransit vehicle when designed, used, or maintained to carry more than 10 persons including the driver.
3. A schoolbus.
4. A tank vehicle.
5. A vehicle carrying hazardous materials, as defined in Section 353, that is required to display placards pursuant to Section 27903, unless the driver is exempt from the endorsement requirement as provided in subdivision (b). This paragraph does not apply to any person operating an implement of husbandry who is not required to obtain a driver's license under this code.

(b) This section does not apply to any person operating a vehicle in an emergency situation at the direction of a peace officer pursuant to Section 2800.

Amended Sec. 7, Ch. 360, Stats. 2010. Effective January 1, 2011.

### Article 7. Sanctions

#### Penalty: First Conviction

15300. (a) A driver shall not operate a commercial motor vehicle for a period of one year if the driver is convicted of a first violation of any of the following:

1. Subdivision (a), (b), or (c) of Section 23152 while operating a motor vehicle.
2. Subdivision (d) of Section 23152.
3. Subdivision (a) or (b) of Section 23153 while operating a motor vehicle.
4. Subdivision (d) of Section 23153.
5. Leaving the scene of an accident involving a motor vehicle operated by the driver.
6. Using a motor vehicle to commit a felony, other than a felony described in Section 15304.
7. Driving a commercial motor vehicle when the driver's commercial driver's license is revoked, suspended, or canceled based on the driver's operation of a commercial motor vehicle or when the driver is disqualified from operating a commercial motor vehicle based on the driver's operation of a commercial motor vehicle.
8. Causing a fatality involving conduct defined pursuant to Section 191.5 of the Penal Code or in subdivision (c) of Section 192 of the Penal Code.
9. While operating a motor vehicle, refuses to submit to, or fails to complete, a chemical test or tests in violation of Section 23612.
10. A violation of Section 2800.1, 2800.2, or 2800.3 that involves a commercial motor vehicle.
11. If a violation listed in subdivision (a), or a violation listed in paragraph (2) of subdivision (a) of Section 13350 or Section 13352 or 13357, occurred while transporting a hazardous material, the period specified in subdivision (a) shall be three years.

#### Penalty: Subsequent Conviction

15302. A driver shall not operate a commercial motor vehicle for the rest of his or her life if convicted of more than one violation of any of the following:

1. Subdivision (a), (b), or (c) of Section 23152 while operating a motor vehicle.
2. Subdivision (d) of Section 23152.
3. Subdivision (a) or (b) of Section 23153 while operating a motor vehicle.
4. Subdivision (d) of Section 23153.
5. Leaving the scene of an accident involving a motor vehicle operated by the driver.
6. Using a motor vehicle to commit a felony, other than a felony described in Section 15304.
7. Driving a commercial motor vehicle when the driver's commercial driver's license is revoked, suspended, or canceled based on the driver's operation of a commercial motor vehicle or when the driver is disqualified from operating a commercial motor vehicle based on the driver's operation of a commercial motor vehicle.
8. Causing a fatality involving conduct defined pursuant to Section 191.5 of the Penal Code or in subdivision (c) of Section 192 of the Penal Code.
9. While operating a motor vehicle, refuses to submit to, or fails to complete, a chemical test or tests in violation of Section 23612.
10. A violation of Section 2800.1, 2800.2, or 2800.3 that involves a commercial motor vehicle.
11. Any combination of the above violations or a violation listed in paragraph (2) of subdivision (a) of Section 13350 or Section 13352 or 13357 that occurred while transporting a hazardous material.

Amended Sec. 15, Ch. 574, Stats. 2006. Effective January 1, 2007.
Amended Sec. 29, Ch. 747, Stats. 2007. Effective January 1, 2008.
Amended Sec. 5, Ch. 216, Stats. 2010. Effective January 1, 2011.

#### Penalty: Controlled Substance Offense

15304. (a) A driver may not operate a commercial motor vehicle for the rest of his or her life who uses a motor vehicle in the commission of a felony involving manufacturing, distributing, or dispensing a controlled substance, or possession with intent to manufacture, distribute, or dispense a controlled substance.

(b) This section shall become operative on September 20, 2005.

Penalty: Second Offense Within Three Years

15306. A driver shall not operate a commercial motor vehicle for a period of 60 days if the person is convicted of a serious traffic violation involving a commercial or a noncommercial motor vehicle and the offense occurred within three years of a separate offense of a serious traffic violation that resulted in a conviction.

Amended Sec. 6, Ch. 216, Stats. 2010. Effective January 1, 2011.

Penalty: Third or Subsequent Offense Within Three Years

15308. (a) A driver shall not operate a commercial motor vehicle for a period of 120 days if the person is convicted of a serious traffic violation involving a commercial or noncommercial motor vehicle and the offense occurred within three years of two or more separate offenses of serious traffic violations that resulted in convictions.

(b) Notwithstanding Section 13366.5, the time period under subdivision (a) shall not commence until all existing suspensions or revocations of the commercial driving privilege have ended.

Amended Sec. 7, Ch. 216, Stats. 2010. Effective January 1, 2011.

Suspension for False Information on Application

15309. In addition to any other action taken under this code, no driver may operate a commercial motor vehicle for a period of 60 days if the person is found to have submitted false information on her or her application for a driver’s license in violation of the standards set forth in subpart J of part 383 or Section 383.71(a) of Title 49 of the Code of Federal Regulations.

Amended Sec. 35, 4, Ch. 72, Stats. 1999. Effective January 1, 2000.

Penalty: Use a Crib Sheet or Cribbing Device

15309.5. (a) It is unlawful for any person to do any of the following:

(1) Sell, offer for sale, distribute, or use a crib sheet or cribbing device, as defined in Section 273, that contains answers to any examination administered by the department for a commercial driver’s license or permit.

(2) Impersonate or allow the impersonation of an applicant for a commercial driver’s license or permit for the purpose of fraudulently qualifying the applicant for a commercial driver’s license or permit.

(3) Provide, or use, any unauthorized assistance during any examination administered by the department for a commercial driver’s license or permit.

(b) A first conviction under this section is punishable as either an infraction or a misdemeanor, and the driver shall not operate a commercial motor vehicle for a period of one year. A second or subsequent conviction is punishable as a misdemeanor, and the driver shall not operate a commercial motor vehicle for a period of one year.

Added Sec. 10, Ch. 216, Stats. 2010. Effective January 1, 2011.

Suspension for Violating Out-of-Service Order

15311. (a) A driver shall not operate a commercial motor vehicle for a period of 180 days if the person is convicted of a violation of subdivision (a) of Section 2800 or subdivision (b), (c), or (d) of Section 2800 during any 10-year period, arising from separate incidents.

(b) Not less than 120 days if that person is convicted of a violation of a railroad-highway grade crossing violation that resulted in a conviction.

(c) Not less than one year if that person is convicted of a violation of subdivision (a) of Section 2800 or subdivision (c) or (d) of Section 22451, or subdivision (c) or (d) of Section 22452, or subdivision (c) or (d) of Section 22526, involving a commercial motor vehicle, and that violation occurred at a railroad-highway crossing.

(b) Not less than 120 days if that person is convicted of a violation of subdivision (a) of Section 2800 or subdivision (c) or (d) of Section 22451, or subdivision (c) or (d) of Section 22452, or subdivision (c) or (d) of Section 22526, involving a commercial motor vehicle, and that violation occurred at a railroad-highway crossing, during any three-year period of two or more prior offenses of a railroad-highway grade crossing violation, that resulted in convictions.

Amended Sec. 8, Ch. 216, Stats. 2010. Effective January 1, 2011.

Suspension for Railroad-Highway Crossing Violations

15312. A driver may not operate a commercial motor vehicle for the following periods:

(a) Not less than 60 days if that person is convicted of a violation of subdivision (a) of Section 2800, or subdivision (b), (c), or (d) of Section 22451, or subdivision (c) or (d) of Section 22452, involving a commercial motor vehicle and the violation occurred at a railroad-highway crossing.

(b) Not less than 30 days if that person is convicted of a violation of subdivision (a) of Section 2800, or subdivision (b), (c), or (d) of Section 22451, or subdivision (c) or (d) of Section 22452, involving a commercial motor vehicle, and that violation occurred at a railroad-highway crossing, during any three-year period of two or more prior offenses of a railroad-highway grade crossing violation, that resulted in convictions.

Amended Sec. 9, Ch. 216, Stats. 2010. Effective January 1, 2011.

Suspension for False Information on Application

15309. In addition to any other action taken under this code, no driver may operate a commercial motor vehicle for a period of 60 days if the person is found to have submitted false information on her or her application for a driver’s license in violation of the standards set forth in subpart J of part 383 or Section 383.71(a) of Title 49 of the Code of Federal Regulations.

Amended Sec. 35, 4, Ch. 72, Stats. 1999. Effective January 1, 2000.
Employer: Penalty for Allowing Employee to Violate Railroad Crossing Laws

15312.1. (a) An employer that knowingly allows or requires an employee to operate a commercial motor vehicle in violation of a federal, state, or local law or regulation pertaining to railroad crossings, upon conviction, subject to a civil penalty of not more than ten thousand dollars ($10,000).

(b) This section shall become operative on September 20, 2005.

Grounds for Refusal to Issue License, Surrender of Out-of-State License

15315. (a) The department shall not issue a commercial driver's license to a person during a period in which the person is prohibited from operating a commercial motor vehicle, or the person's driving privilege is suspended, revoked, or canceled.

(b) No commercial driver's license may be issued to a person who has a commercial driver's license issued by any other state unless the person first surrenders the commercial driver's license issued by the other state, which license shall be returned to the issuing state.

Departmental Administration

15319. The department may execute or make agreements, arrangements, or declarations to carry out this chapter.

Department Action Upon Receipt of Court Abstract

15320. The department shall suspend, revoke, or cancel, the privilege of any person to operate a commercial motor vehicle for the periods specified in this Article upon receipt of a duly certified abstract of the record of any court that the person has been convicted of any of the offenses set forth in this article.

Driver Disqualification: Imminent Hazard

15325. (a) Pursuant to subpart D of Part 383 of Title 49 of the Code of Federal Regulations, a driver whose driving is determined to constitute an imminent hazard is disqualified from operating a commercial motor vehicle for the period specified by the Federal Motor Carrier Safety Administration.

(b) The disqualification action shall be made part of the driver's record.

(c) A driver who is simultaneously disqualified under this section and any other state law or regulation, shall serve those disqualification periods concurrently.

(d) This section shall become operative on September 20, 2005.

Out-of-State Actions

15326. Upon receiving notification of an administrative action or conviction of a commercial licenseholder in a state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada, the department shall impose a suspension, revocation, or disqualification action on that person's commercial driving privilege based upon violations that would result in an administrative action or a conviction pursuant to Section 383.51 of Subpart D of Part 383 and Sections 384.206(b) (3), 384.213, and 384.231 of Subpart B of Part 384 of Title 49 of the Federal Code of Regulations. Those violations include, but are not limited to, all of the following:

(a) Violations of Sections 15300, 15302, and 15304.

(b) Serious traffic violations, as defined in subdivision (p) of Section 15210 and subject to the penalties under Section 15306 or 15308.

(c) Providing false information under Section 15309.

(d) Out-of-service order violations under Section 15311.

(e) Railroad-highway crossing violations under Section 15312.

DIVISION 6.5. MOTOR VEHICLE TRANSACTIONS WITH MINORS

CHAPTER 1. DRIVER’S LICENSE REQUIREMENTS
(Added Ch. 1020, Stats. 1968. Effective November 13, 1968.)

Acquisition of Vehicle by Minor: Driver’s License Required

15500. It is unlawful for any minor who does not possess a valid driver’s license issued under this code to order, purchase or lease, attempt to purchase or lease, contract to purchase or lease, accept, or otherwise obtain, any vehicle of a type subject to registration.

Unlawful for Minor to Present False Driver’s License

15501. It is unlawful for any minor to present or offer to any person offering for sale or lease or to give or otherwise furnish thereto any motor vehicle of a type subject to registration, a driver’s license which is false, fraudulent, or not actually his own for the purpose of ordering, purchasing or leasing, attempting to purchase or lease, contracting to purchase or lease, accepting, or otherwise obtaining such a vehicle.

DIVISION 6.7. UNATTENDED CHILD IN MOTOR VEHICLE SAFETY ACT

CHAPTER 1. GENERAL PROVISIONS

“Kaitlyn’s Law”

§15600. This division shall be known and may be cited as “Kaitlyn's Law.”

Application of Division

§15602. This division applies to motor vehicles upon the highways and elsewhere throughout the state unless expressly provided otherwise.

Purpose of Division

§15603. The purpose of this division is to help prevent injuries to, and the death of, young children from the effects of being left alone in a motor vehicle, to help educate parents and caretakers about the dangers of leaving children alone in a motor vehicle, and to authorize a monetary fine to be imposed on a person for leaving a young child alone in a motor vehicle in circumstances that pose a life safety risk.

CHAPTER 2. OFFENSES

Prohibition Against Unattended Child in Vehicle

§15620. (a) A parent, legal guardian, or other person responsible for a child who is 6 years of age or younger may not leave that child inside a motor vehicle without being subject to the supervision of a person who is 12 years of age or older, under either of the following circumstances:
(1) Where there are conditions that present a significant risk to the child’s health or safety.
(2) When the vehicle’s engine is running or the vehicle’s keys are in the ignition, or both.
(b) A violation of subdivision (a) is an infraction punishable by a fine of one hundred dollars ($100), except that the court may reduce or waive the fine if the defendant establishes to the satisfaction of the court that he or she is economically disadvantaged and the court, instead, refers the defendant to a community education program that includes education on the dangers of leaving young children unattended in motor vehicles, and provides certification of completion of that program. Upon completion of that program, the defendant shall provide that certification to the court. The court may, at its discretion, require any defendant described in this section to attend an education program on the dangers of leaving young children unattended in motor vehicles.
(1) Nothing in this section shall preclude prosecution under both this section and Section 192 of the Penal Code, or Section 273a of that code, or any other provision of law.
(d) (1) Subdivision (b) and Section 40000.1 do not apply if an unattended child is injured or medical services are rendered on that child because of a violation described in subdivision (a).
(2) Nothing in this subdivision precludes prosecution under any other provision of law.

Dissemination of Information Concerning Prohibition Against Unattended Child in Vehicle

§15632. (a) The department shall include information concerning the dangers of leaving children unattended in motor vehicles, including, but not limited to, the effect of solar heat on the temperature of vehicle interiors and the penalties for noncompliance with Chapter 2 (commencing with Section 15620), in the following materials distributed by the department:
(1) The California Driver’s Handbook published under subdivision (b) of Section 1656.
(2) The driver’s license examination administered under Section 12804.9, by including, on a rotating basis, at least one question in one version of the driver’s license examination that is periodically administered to applicants.
(3) Any driver’s education materials certified by the department.
(4) Courses and examinations for traffic violator schools.
(5) Materials provided to secondary and post-secondary schools and educational institutions.
(6) Any materials provided to community education campaigns undertaken by the department and other state agencies, including, but not limited to, the Department of the California Highway Patrol and the Department of Transportation.
(b) The department shall not republish materials before existing supplies are exhausted, but shall arrange for compliance with this section in the next edition or publication of those materials in the normal course of business.
DIVISION 7. FINANCIAL RESPONSIBILITY LAWS

CHAPTER 1. COMPULSORY FINANCIAL RESPONSIBILITY

Article 1. Accident Reports

Accident Report

16000. (a) The driver of a motor vehicle who is in any manner involved in an accident originating from the operation of the motor vehicle on a street or highway, or is involved in a reportable off-highway accident, as defined in Section 16000.1, that has resulted in damage to the property of any one person in excess of seven hundred fifty dollars ($750), or in bodily injury, or in the death of any person shall report the accident, within 10 days after the accident, either personally or through an insurance agent, broker, or legal representative, on a form approved by the department, to the office of the department at Sacramento, subject to this chapter. The driver shall identify on the form, by name and current residence address, if available, any person involved in the accident complaining of bodily injury.

(b) A report is not required under subdivision (a) if the motor vehicle involved in the accident was owned or leased by, or under the direction of, the United States, this state, another state, or a local agency.

(c) If none of the parties involved in an accident has reported the accident to the department under this section within one year following the date of the accident, the department is not required to file a report on the accident and the driver’s license suspension requirements of Section 16004 or 16070 do not apply.

Reportable Off-Highway Accident

16000.1. (a) For purposes of this division, a “reportable off-highway accident” means an accident which includes all of the following:

(1) Occurs off the street or highway.

(2) Involves a vehicle that is subject to registration under this code.

(3) Results in damages to the property of any one person in excess of seven hundred fifty dollars ($750) or in bodily injury or in the death of any person.

(b) A “reportable off-highway accident” does not include any accident which occurs off-highway in which damage occurs only to the property of the driver or owner of the motor vehicle and no bodily injury or death of a person occurs.

Uninsured Motor Vehicle

16000.7. As used in this division an “uninsured motor vehicle” is a motor vehicle for which financial responsibility as provided in Section 16021 was not in effect at the time of the accident.

Evidence of Financial Responsibility: Failure to Provide Due to Acts of Insurance Agent or Broker

16000.8. (a) Notwithstanding any other provision of this chapter, if the failure of the driver of a motor vehicle involved in an accident to prove the existence of financial responsibility, as required by Section 16020, was due to the fraudulent acts of an insurance agent or broker, the department shall terminate any suspension action taken pursuant to Section 16070, when both of the following conditions are met:

(1) The driver provides documentation from the Department of Insurance that the insurance agent or broker has been found to have committed fraud in the transaction of automobile liability insurance, or provides documentation that criminal charges have been filed against the agent or broker due to fraud or theft related to the sale of automobile liability insurance.

(2) The driver furnishes proof to the department that financial responsibility meeting the requirements of Section 16021 is currently in effect.

(b) It is the intent of the Legislature in enacting this section that individuals who are the victims of insurance fraud not be penalized for violating the financial responsibility laws when that violation was due to the fraudulent acts of others. Persons with documented evidence of fraud involving their insurance coverage, such as where an insurance agent accepted the premium payment for coverage but willfully failed to obtain the coverage and led the customer to believe insurance was in effect, should retain their driving privileges provided they give evidence that valid liability insurance is currently in effect.

Added Sec. 6, Ch. 1155, Stats. 1996. Effective January 1, 1997.

Driverless Runaway Vehicle

16001. If the vehicle involved was a driverless runaway vehicle and was parked with the express or implied permission of the registered owner, the registered owner of the vehicle shall be construed to have been the driver of the vehicle for the purposes of this chapter.

Repealed and added Ch. 1409, Stats. 1974. Effective January 1, 1975, with no change in content.

Vehicle of Employer: Vehicle of Publicly Owned or Operated Transit System

16002. (a) If the driver at the time of the accident was driving a motor vehicle owned, operated, or leased by the employer of the driver and with the permission of the employer, then the driver shall within five days after the accident report the accident to his employer on a form approved by the employer. Within 10 days after receipt of the report the employer shall transmit a report on a form approved by the department to the office of the department at Sacramento, except that an employer need not transmit such report when the vehicle involved in the accident is owned or operated as described in Section 16051 or 16052, or is owned or operated by any person or corporation who has filed with the department a certificate of an insurance carrier or surety company that there is in effect a policy or bond meeting the requirements of Section 16056 and when such policy or bond is in force with respect to the vehicle at the time of the accident.

(b) The driver of a vehicle that is owned or operated by a publicly owned or operated transit system, or that is operated under contract with a publicly owned or operated transit system, and that is used to provide regularly scheduled transportation to the general public or for other official business of the system shall, within 10 days of the occurrence of the accident, report to the transit system any accident of a type otherwise required to be reported pursuant to subdivision (a) of Section 16000. The transit system shall maintain records of any report filed pursuant to this paragraph. Within 10 days
§16003  —372—  Div. 7

after receipt of the report, the transit system shall transmit a report on a form approved by the department to the office of the department in Sacramento, except that a transit system is not required to submit a report when the vehicle involved in the accident is owned or operated as described in subdivision (b) of Section 16000.

Driver Incapacity
16003. If any driver is physically incapable of making the report, and is not the owner of the motor vehicle involved in the accident, the owner shall, as soon as he learns of the accident, report the matter in writing to the department.

Mandatory Suspension of License
16004. (a) The department shall suspend the driving privilege of any person who fails, refuses, or neglects to make a report of an accident as required in this chapter.
(b) A suspension taken under this section shall remain in effect until terminated by receipt of the report of the accident or upon receipt of evidence that financial responsibility as provided in Section 16021 is in effect.
(c) The driving privilege shall not be suspended under this section, and, if a suspension has been imposed and is in effect under this section, that suspension shall be terminated, if the driving privilege is suspended under Section 16370 or 16381 as the result of a judgment arising out of the same accident for which the report of the accident is required by this section. The department may suspend or reimpose the suspension of the driving privilege of a person under this section if the suspension under Section 16370 or 16381 is later set aside for a reason other than that the person has satisfied the judgment in full or to the extent provided in Chapter 2 (commencing with Section 16250) and has given proof of financial responsibility as provided in Chapter 3 (commencing with Section 16430).

Use of Reports
16005. (a) All reports and supplemental reports required by this Chapter including insurance information forms shall be without prejudice to the individual so reporting and shall be for the confidential use of the department and any other state department requiring such information, except that the department shall upon request disclose from the reports:
(1) The names and addresses of persons involved in the accident.
(2) The registration numbers and descriptions of vehicles involved in the accident.
(3) The date, time, and location of the accident.
(4) Any suspension action taken by the department.
(5) The names and addresses of insurance carriers.
(b) The information specified in subdivision (a) may be given to any person having a proper interest therein, including:
(1) The driver or drivers involved, or the employer, parent, or legal guardian thereof.
(2) The authorized representative of any person involved in the accident.
(3) Any person injured in the accident.
(4) The owners of vehicles or property damaged in the accident.
(5) Any law enforcement agency.
(6) Any court of competent jurisdiction.

Article 2. Financial Responsibility

Evidence of Financial Responsibility
16020. (a) All drivers and all owners of a motor vehicle shall at all times be able to establish financial responsibility pursuant to Section 16021, and shall at all times carry in the vehicle evidence of the form of financial responsibility in effect for the vehicle.
(b) “Evidence of financial responsibility” means any of the following:
(1) A form issued by an insurance company or charitable risk pool, as specified by the department pursuant to Section 4000.37.
(2) If the owner is a self-insurer, as provided in Section 16052 or a depositor, as provided in Section 16054.2, the certificate of self-insurance or the assignment of deposit letter issued by the department.
(3) An insurance covering note or binder pursuant to Section 382 or 382.5 of the Insurance Code.
(4) A showing that the vehicle is owned or leased by, or under the direction of, the United States or a public entity, as defined in Section 811.2 of the Government Code.
(c) For purposes of this section, “evidence of financial responsibility” also may be obtained by a law enforcement officer and court personnel from an electronic reporting system when that system becomes available for use by law enforcement officers.
(d) For purposes of this section, “evidence of financial responsibility” also includes any of the following:
(1) The name of the insurance company and the number of an insurance policy or surety bond that was in effect at the time of the accident or at the time that evidence of financial responsibility is required to be provided pursuant to Section 16028, if that information is contained in the vehicle registration records of the department.
(2) The identifying motor carrier of property permit number issued by the Department of the California Highway Patrol to the motor carrier of property as defined in Section 34601, and displayed on the motor vehicle in the manner specified by the Department of the California Highway Patrol.
(3) The identifying number issued to the household goods carrier, passenger stage carrier, or transportation charter party carrier by the Public Utilities Commission and displayed on the motor vehicle in the manner specified by the commission.
(e) Evidence of financial responsibility does not include an identification number in paragraph (1), (2), or (3) of subdivision (d) if the carrier is currently suspended by the issuing agency for lack or lapse of insurance or other form of financial responsibility.

Lifeline Policies: Inapplicability of Certain Financial Responsibility Requirements to the County of Los Angeles
16020.1. (a) On and after January 1, 2016, Section 4000.37 does not apply to vehicle owners with a residence
(b) On and after January 1, 2016, subdivisions (a) and (b) of Section 16028 do not apply to a person who drives a motor vehicle upon a highway in the County of Los Angeles.
Amended Sec. 20, Ch. 435, Stats. 2005, Effective January 1, 2006.
Amended Sec. 6, Ch. 234, Stats. 2010, Effective January 1, 2011.

**Cost Policies: Inapplicability of Certain Financial Responsibility Requirements to the City and County of San Francisco**

16020.2. (a) On and after January 1, 2016, Section 4000.37 does not apply to vehicle owners with a residence address in the City and County of San Francisco at the time of registration renewal.
(b) On and after January 1, 2016, subdivisions (a) and (b) of Section 16028 do not apply to a person who drives a motor vehicle upon a highway in the City and County of San Francisco.
Amended Sec. 21, Ch. 435, Stats. 2005, Effective January 1, 2006.
Amended Sec. 7, Ch. 234, Stats. 2010, Effective January 1, 2011.

**Financial Responsibility: Vanpools**

16020.3. Notwithstanding any other provision of law, any employer that owns a vanpool vehicle, as described in paragraph (1) of subdivision (c) of Section 17149 of the Revenue and Taxation Code, shall maintain evidence of financial responsibility with respect to that vehicle in the same form and amount as described in Section 5391.2 of the Public Utilities Code.

**Establishing Financial Responsibility**

16021. Financial responsibility of the driver or owner is established if the driver or owner of the vehicle involved in an accident described in Section 16000 is:
(a) A self-insurer under the provisions of this division.
(b) An insured or obligee under a form of insurance or bond that complies with the requirements of this division and that covers the vehicle for the accident.
(c) The United States of America, this state, any municipality or subdivision thereof, or the lawful agent thereof.
(d) A depositor in compliance with subdivision (a) of Section 16054.2.
(e) An obligee under a policy issued by a charitable risk pool that complies with subdivision (b) of Section 16054.2.
(f) In compliance with the requirements authorized by the department by any other manner which effectuates the purposes of this chapter.
Amended Sec. 41, Ch. 594, Stats. 2003, Effective January 1, 2004.

**Mandatory Exchange of Information**

16025. (a) Every driver involved in the accident shall, unless rendered incapable, exchange with any other driver or property owner involved in the accident and present at the scene, all of the following information:
(1) Driver’s name and current residence address, driver’s license number, vehicle identification number, and current address of registered owner.
(2) Evidence of financial responsibility, as specified in Section 16020. If the financial responsibility of a person is a form of insurance, then that person shall supply the name and address of the insurance company and the number of the insurance policy.
(b) Any person failing to comply with all of the requirements of this section is guilty of an infraction punishable by a fine not to exceed two hundred fifty dollars ($250).

**Refund of Cash Deposit**

16027. (a) Whenever proof of financial responsibility has been established under subdivision (a) of Section 16054.2 and a period of four years has elapsed following the effective date of the suspension, the cash deposit, or any balance thereof remaining, shall be refunded to the person entitled thereto, if the director is satisfied that there are no outstanding or pending claims against the deposit.
(b) If the deposit, or any balance thereof, is refundable under this section but remains unclaimed by the depositor or any other person entitled thereto for a period of six years from the effective date of the suspension, the unclaimed deposit shall be transferred to the Motor Vehicle Account in the State Transportation Fund.

**Evidence of Financial Responsibility Upon Request**

16028. (a) Upon the demand of a peace officer pursuant to subdivision (b) or upon the demand of a peace officer or traffic collision investigator pursuant to subdivision (c), every person who drives a motor vehicle upon a highway shall provide evidence of financial responsibility for the vehicle that is in effect at the time the demand is made. The evidence of financial responsibility may be provided using a mobile electronic device. However, a peace officer shall not stop a vehicle for the sole purpose of determining whether the vehicle is being driven in violation of this subdivision.
(b) Any notice to appear is issued for any alleged violation of this code, except a violation specified in Chapter 9 (commencing with Section 22500) of Division 11 or any local ordinance adopted pursuant to that chapter, the cited driver shall furnish written evidence of financial responsibility or may provide electronic verification of evidence of financial responsibility using a mobile electronic device upon request of the peace officer issuing the citation. The peace officer shall request and write the driver’s evidence of financial responsibility on the notice to appear, except when the peace officer is unable to write the driver’s evidence of financial responsibility on the notice to appear due to an emergency that requires his or her presence elsewhere. If the cited driver fails to provide evidence of financial responsibility at the time the notice to appear is issued, the peace officer may issue the driver a notice to appear for violation of subdivision (a). The notice to appear for violation of subdivision (a) shall be written on the same citation form as the original violation.
(c) If a peace officer, or a regularly employed and salaried employee of a city or county who has been trained as a traffic collision investigator, is summoned to the scene of an accident described in Section 16000, the driver of a motor vehicle that is in any manner involved in the accident shall furnish written evidence of financial responsibility or may provide electronic verification of evidence of financial responsibility using a mobile electronic device upon request of the peace officer or traffic collision investigator. If the driver fails to provide evidence of financial responsibility when requested, the peace officer may issue the driver a notice to appear for violation of
this subdivision. A traffic collision investigator may cause a notice to appear to be issued for a violation of this subdivision, upon review of that citation by a peace officer.

(d) (1) If, at the time a notice to appear for a violation of subdivision (a) is issued, the person is driving a motor vehicle owned or leased by the driver’s employer, and the vehicle is being driven with the permission of the employer, this section shall apply to the employer rather than the driver. In that case, a notice to appear shall be issued to the employer rather than the driver, and the driver may sign the notice on behalf of the employer.

(2) The driver shall notify the employer of the receipt of the notice issued pursuant to paragraph (1) not later than five days after receipt.

(e) A person issued a notice to appear for a violation of subdivision (a) may personally appear before the clerk of the court, as designated in the notice to appear, and provide written evidence of financial responsibility in a form consistent with Section 16020, showing that the driver was in compliance with that section at the time the notice to appear for violating subdivision (a) was issued. In lieu of the personal appearance, the person may submit by mail to the court written evidence of having had financial responsibility at the time the notice to appear was issued. Upon receipt by the clerk of that written evidence of financial responsibility in a form consistent with Section 16020, further proceedings on the notice to appear for the violation of subdivision (a) shall be dismissed.

(f) For the purposes of this section, “mobile electronic device” means a portable computing and communication device that has a display screen with touch input or a miniature keyboard.

(g) For the purposes of this section, when a person provides evidence of financial responsibility using a mobile electronic device to a peace officer, the peace officer shall only view the evidence of financial responsibility and is prohibited from viewing any other content on the mobile electronic device.

(h) If a person presents a mobile electronic device pursuant to this section, that person assumes all liability for any damage to the mobile electronic device.

No Evidence of Financial Responsibility: Penalties

16029. Notwithstanding any other provision of law, a violation of subdivision (a) of Section 16028 is an infraction and shall be punished as follows:

(a) Upon a first conviction, by a fine of not less than one hundred dollars ($100) and not more than two hundred dollars ($200), plus penalty assessments.

(b) Upon a subsequent conviction, occurring within three years of a prior conviction, by a fine of not less than two hundred dollars ($200) and not more than five hundred dollars ($500), plus penalty assessments.

(c) (1) At the discretion of the court, for good cause, and in addition to the penalties specified in subdivisions (a) and (b), the court may order the impoundment of the vehicle for which the owner could not produce evidence of financial responsibility in violation of subdivision (a) of Section 16028.

(2) A vehicle impounded pursuant to paragraph (1) shall be released to the legal owner of the vehicle or the legal owner’s agent if all of the following conditions are met:

(A) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state.

(B) The legal owner or the legal owner’s agent pays all towing and storage fees related to the seizure of the vehicle.

(C) The legal owner or the legal owner’s agent presents foreclosure documents or an affidavit of repossession for the vehicle.

(3) (A) A legal owner or the legal owner’s agent that obtains release of the vehicle pursuant to paragraph (2) shall not release the vehicle to the registered owner of the vehicle or any agents of the registered owner, unless the registered owner is a rental car agency, except upon presentation of evidence of financial responsibility, as defined in Section 16020, for the vehicle. The legal owner or the legal owner’s agent shall make every reasonable effort to ensure that the evidence of financial responsibility that is presented is valid.

(B) Prior to relinquishing the vehicle, the legal owner may require the registered owner to pay all towing and storage charges related to impoundment and any administrative charges authorized under Section 22850.5 that were incurred by the legal owner in connection with obtaining custody of the vehicle.

(4) A vehicle impounded under paragraph (1) shall be released to a rental car agency if the agency is either the legal owner or the registered owner of the vehicle and the agency pays all towing and storage fees related to the seizure of the vehicle.

(5) A vehicle impounded under paragraph (1) shall be released to the registered owner of the vehicle only upon presentation of evidence of financial responsibility, as defined in Section 16020, for that vehicle, and evidence that all towing and storage fees related to the seizure of the vehicle are paid.

This paragraph does not apply to a person, entity, or agency who is entitled to release of a vehicle under paragraph (2) or (4) and is either:

(A) The registered and the legal owner and is described in subparagraph (A) of paragraph (2).

(B) The registered owner or legal owner and is described in paragraph (4).

(d) It is the intent of the Legislature that fines collected pursuant to this section be used to reduce the number of uninsured drivers and not be used to generate revenue for general purposes.

(e) (1) Except as provided in this subdivision, the court shall impose a fine that is greater than the minimum fine specified in subdivision (a) or (b), and may not reduce that fine to the minimum specified fine authorized under those provisions, unless the defendant has presented the court with evidence of financial responsibility, as defined in Section 16020, for the vehicle. In no event may the court impose a fine that is less than the minimum specified in subdivision (a) or (b), or impose a fine that exceeds the maximum specified fine authorized under those subdivisions. In addition to the fine authorized under subdivision (a) or (b), the court may issue an order directing the defendant to maintain insurance coverage satisfying the financial responsibility laws for at least one year from the date of the order.

(2) Notwithstanding any other provision of law, the imposition of the fine required under subdivision (a) or (b) is
mandatory upon conviction of a violation of subdivision (a) of Section 16028 and may not be waived, suspended, or reduced below the minimum fines, unless the court in its discretion reduces or waives the fine based on the defendant’s ability to pay. The court may direct that the fine and penalty assessments be paid within a limited time or in installments on specified dates. The Legislature hereby declares that it is in the interest of justice that the minimum fines set forth in subdivisions (a) and (b) for these offenses be enforced by the court, as provided in this subdivision.

Amended Sec. 12, Ch. 880, Stats. 1999. Effective January 1, 2000.

False Evidence of Financial Responsibility: Penalties

16030. (a) Except as provided in subdivision (c), any person who knowingly provides false evidence of financial responsibility (1) when requested by a peace officer pursuant to Section 16028 or (2) to the clerk of the court as permitted by subdivision (e) of Section 16028, including an expired or canceled insurance policy, bond, certificate of self-insurance, or assignment of deposit letter, is guilty of a misdemeanor punishable by a fine not exceeding seven hundred fifty dollars ($750) or imprisonment in the county jail not exceeding 30 days, or by both that fine and imprisonment. Upon receipt of the court’s abstract of conviction, the department shall suspend the driving privilege, effective upon the date of conviction, for a period of one year. The court shall impose an interim suspension of the person’s driving privileges pursuant to Section 13550, and shall notify the driver of the suspension pursuant to Section 13106, and all driver’s licenses in the possession of the driver shall be surrendered to the court pursuant to Section 13550. Any driver’s license surrendered to the court pursuant to this section shall be transmitted by the court, together with the required report of the conviction, to the department within 10 days of the conviction. The suspension may not be terminated until one year has elapsed from the date of the suspension and until the person files proof of financial responsibility, as provided in Chapter 3 (commencing with Section 16430) except that the suspension shall be reinstated if the person fails to maintain proof of financial responsibility for three years.

(b) However, in lieu of suspending a person’s driving privileges pursuant to subdivision (a), the court shall restrict the person’s driving privileges to driving that is required in the person’s course of employment, if driving of a motor vehicle is necessary in order to perform the duties of the person’s primary employment. The restriction shall remain in effect for the period of suspension otherwise required by subdivision (a). The court shall provide for endorsement of the restriction on the person’s driver’s license, and violation of the restriction constitutes a violation of Section 14603 and grounds for suspension or revocation of the license under Section 13360.

(c) This section does not apply to a driver who is driving a motor vehicle owned or leased by the employer of the driver and driven in the course of the driver’s employment with the permission of the employer.

Nonliability for False or Incorrect Financial Responsibility Information

16033. No public entity or employee, agent, or any person or organization authorized under Section 4610 to endorse receipts or validate registration cards or potential registration cards, is liable for any loss, detriment, or injury resulting, directly or indirectly, from any of the following:

(a) Failure to request evidence of financial responsibility.

(b) Failure to notify a vehicle owner that an insurance policy has been terminated.

(c) The discretionary failure to cancel, suspend, or revoke a vehicle registration when an insurance policy has been terminated.

(d) Inaccurately recording that evidence under Section 16028 or as a result of the driver producing false or inaccurate financial responsibility information.

Article 3. Evidence of Financial Responsibility

(Amended Sec. 11, Ch. 739, Stats. 2001. Effective January 1, 2002.)

Establishing Evidence of Financial Responsibility

16050. In order to establish evidence of financial responsibility, every driver or employer involved in an accident and required to report the accident under Section 16000 shall establish to the satisfaction of the department that the provisions of this Article are applicable to his or her responsibilities arising out of the accident.

Amended Sec. 12, Ch. 739, Stats. 2001. Effective January 1, 2002.

Financial Responsibility: Furnishing Information

16050.5. The owner of a vehicle, who has a liability insurance policy with respect to the vehicle, shall, upon request, furnish insurance information to a person who, while operating the vehicle with the owner’s permission, is involved in a reportable accident with the insured vehicle, or to the department whenever the department is required to establish whether the permitted driver meets the financial responsibility requirements of Section 16020.

Publicly Owned Vehicles

16051. (a) Evidence may be established by filing a report indicating that the motor vehicle involved in the accident was owned, rented, or leased by or under the direction of the United States, this state, or any political subdivision of this state or municipality thereof.

(b) Evidence may be established by filing a report indicating that the motor vehicle involved in the accident was owned and operated by a peace officer, member of the Department of the California Highway Patrol, or firefighter in the performance of his or her duty, and at the request of or under the direction of the United States, this state, or any political subdivision or municipality of this state.

Amended Sec. 2, Ch. 83, Stats. 2008. Effective January 1, 2009

Amended Sec. 4, Ch. 823, Stats. 2012. Effective January 1, 2013.

Self-Insurer

16052. Evidence may be established if the owner of the motor vehicle involved in the accident was a self-insurer. Any person in whose name more than 25 motor vehicles are registered may qualify as a self-insurer by obtaining a certificate of self-insurance issued by the department as provided in this article.

Certificate of Self-Insurance

16053. (a) The department may in its discretion, upon application, issue a certificate of self-insurance when it is satisfied that the applicant in whose name more than 25 motor
vehicles are registered is possessed and will continue to be possessed of ability to pay judgments obtained against him or her in amounts at least equal to the amounts provided in Section 16056. The certificate may be issued authorizing the applicant to act as a self-insurer for either property damage or bodily injury or both. Any person duly qualified under the laws or ordinances of any city or county to act as self-insurer and then acting as such, may upon filing with the department satisfactory evidence thereof, along with the application as may be required by the department, be entitled to receive a certificate of self-insurance.

(b) Upon not less than five days’ notice and a hearing pursuant to the notice, the department may upon reasonable grounds cancel a certificate of self-insurance. Failure to pay any judgment within 30 days after the judgment has become final and has not been stayed or satisfied shall constitute a reasonable ground for the cancellation of a certificate of self-insurance.

Insurance Policy or Bond

16054. (a) Evidence may be established by filing with the department satisfactory documentation:

(1) That the owner had an automobile liability policy, a motor vehicle liability policy, or bond in effect at the time of the accident with respect to the driver or the motor vehicle involved in the accident, unless it is established that at the time of the accident the motor vehicle was being operated without the owner’s permission, express or implied, or was parked by a driver who had been operating the vehicle without permission.

(2) That the driver of the motor vehicle involved in the accident, if he or she was not the owner of the motor vehicle, had in effect at the time of the accident an automobile liability policy or bond with respect to his or her operation of the motor vehicle not owned by him or her.

(3) That the liability as may arise from the driver’s operation of the motor vehicle involved in the accident is, in the judgment of the department, covered by some form of liability insurance or bond.

(4) That the owner or driver, if he or she is involved in an accident while operating a vehicle of less than four wheels, had in effect at the time of the accident with respect to the driver or vehicle a liability policy or bond that meets the requirements of Section 16056.

(b) Any automobile liability policy or bond referred to in this section shall comply with the requirements of Section 16056 and Sections 11580, 11580.011, 11580.1, and 11580.2 of the Insurance Code, but need not contain provisions other than those required by those sections, and shall not be governed by Chapter 3 (commencing with Section 16430).

Amended Sec. 15, Ch. 739, Stats. 2001. Effective January 1, 2002.

Other Forms of Financial Responsibility

16054.2. Evidence may also be established by any of the following:

(a) By depositing with the department cash in the amount specified in Section 16056.

(b) By providing documentation of a liability policy covering the operation of the vehicle that (A) is issued by a charitable risk pool operating under Section 5005.1 of the Corporations Code, if the registered owner of the vehicle is a nonprofit organization that is exempt from taxation under paragraph (3) of subsection (c) of Section 501 of the United States Internal Revenue Code and (B) the policy is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than fifteen thousand dollars ($15,000) because of bodily injury to or death of one person in any one accident and, subject to that limit for one person, to a limit of not less than thirty thousand dollars ($30,000) because of bodily injury to or death of two or more persons in any one accident, and, if the accident has resulted in injury to, or destruction of property, to a limit of not less than five thousand dollars ($5,000) because of injury to or destruction of property of others in any one accident.

(c) By any other manner authorized by the department which effectuates the purposes of this chapter.

Amended Sec. 16, Ch. 739, Stats. 2001. Effective January 1, 2002.

Evidence of Insurance or Bond Coverage

16055. Evidence of insurance or bond shall be submitted by the insurer or surety in conformance with the requirements of Section 16057. In the event of notice to the department by the company that issued one of the above stated policies or bonds that coverage was not in effect, then the policy or bond shall not operate to establish evidence as provided for by Section 16054.

Amended Sec. 17, Ch. 739, Stats. 2001. Effective January 1, 2002.

Requirements of Policy or Bond

16056. (a) No policy or bond shall be effective under Section 16054 unless issued by an insurance company or surety company admitted to do business in this state by the Insurance Commissioner, except as provided in subdivision (b) of this section, nor unless the policy or bond is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than fifteen thousand dollars ($15,000) because of bodily injury to or death of one person in any one accident and, subject to that limit for one person, to a limit of not less than thirty thousand dollars ($30,000) because of bodily injury to or death of two or more persons in any one accident, and, if the accident has resulted in injury to, or destruction of property, to a limit of not less than five thousand dollars ($5,000) because of injury to or destruction of property of others in any one accident.

(b) No policy or bond shall be effective under Section 16054 with respect to any vehicle which was not registered in this state or was a vehicle which was registered elsewhere than in this state at the effective date of the policy or bond or the most recent renewal thereof, unless the insurance company or surety company issuing the policy or bond is admitted to do business in this state, or if the company is not admitted to do business in this state, unless it executes a power of attorney authorizing the department to accept service on its behalf of notice or process in any action upon the policy or bond arising out of an accident mentioned in subdivision (a).

(c) Any nonresident driver whose driving privilege has been suspended or revoked based upon an action that requires proof of financial responsibility may, in lieu of providing a certificate of insurance from a company admitted to do business in California, provide a written certificate of proof of financial responsibility that is satisfactory to the department, covers the operation of a vehicle in this state, meets the liability requirements of this section, and is from a company that is admitted to do business in that person’s state of residence.

Low Cost Insurance Policies: Use as Proof

16056.1. Notwithstanding the coverage limits specified in Section 16056, an automobile insurance policy described in Section 11629.71 of the Insurance Code shall be effective under Section 16054 when issued by an insurance company admitted to do business in this state by the Insurance Commissioner and the policy is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than ten thousand dollars ($10,000) because of bodily injury to or death of one person in any one accident and, subject to that limit for one person, to a limit of not less than twenty thousand dollars ($20,000) because of bodily injury to or death of two or more persons in any one accident, and if the accident has resulted in injury to, or destruction of property, to a limit of not less than three thousand dollars ($3,000) because of injury to or destruction of property of others in any one accident.

Notice by Insurer to the Department

16057. Upon receipt of notice of an accident from the department, the insurance company or surety company named in the notice shall notify the department within such time and in such manner as the department may require whenever the policy or bond was not in effect at the time of the accident.

Mandatory Electronic Reporting of Liability Insurance Status

16058. (a) On or before July 1, 2005, each insurer that issues private passenger automobile liability insurance policies and coverages, or private passenger automobile policies and coverages issued by an automobile assigned risk plan, as those policies, coverages, and plans are described in paragraph (1) of subdivision (a) of Section 4000.37 shall advise the department of the electronic method to be used for reporting liability insurance information under subdivisions (b), (c), and (d). The department shall establish an electronic conversion schedule.

(b) On or before January 1, 2006, each insurer shall report all existing motor vehicle liability insurance policies or coverages described in subdivision (a) issued for vehicles registered in this state or to policyholders with a California address, to the department in a manner that preserves existing reporting relationships and that allows for smaller insurers and those with unusual circumstances to be accommodated, consistent with the intent of this section. Consistent with the intent of this section, a small insurer or those with unusual circumstances may be accommodated by, among other methods, an extension of the mandatory electronic reporting deadline set forth in this section to no later than July 1, 2006.

(c) On and after January 1, 2006, each insurer shall electronically report to the department all issued motor vehicle liability policies or coverages, as described in subdivision (a), within 30 days of the effective date of the coverage.

(d) On and after January 1, 2006, an insurer shall electronically report to the department the termination of a reported policy or any change of information previously reported under subdivision (b) or (c), as specified by the department, within 45 days of the date of termination or change. This report shall include the effective date of the termination, amendment, or cancellation and any other information that does not exceed that required under subdivision (c).

(e) (1) Those persons with alternative forms of financial responsibility pursuant to subdivision (a), (c), (d), or (e) of Section 16021 shall provide satisfactory evidence of that responsibility as determined by the department.

(2) In addition, the department shall establish an alternative procedure for establishment of satisfactory evidence of financial responsibility to permit the timely renewal of vehicle registration when the electronic data has not been updated due to circumstances beyond the vehicle owner's immediate control. Those circumstances may include, but are not limited to, a vehicle identification error in either the department's or the insurer's records or insurance purchased too recently to have been electronically transmitted to the department. Whenever this alternative procedure is used, the department shall, subsequent to the issuance of the registration certificate and indicia, contact the insurer to obtain electronic data pursuant to subdivision (c).

(f) The department shall adopt regulations for reporting insurance information, including, but not limited to, establishing acceptable timeframes and approved methods for reporting information.

Electronic Verification of Insurance Status by Law Enforcement

16058.1. The department shall develop a method by which law enforcement officers and court personnel, on and after July 1, 2006, may electronically verify that an insurance policy or bond for a motor vehicle has been issued.

Article 4. Suspensions

Suspension of Driving Privilege

16070. (a) Whenever a driver involved in an accident described in Section 16000 fails to provide evidence of financial responsibility, as required by Section 16020, at the time of the accident, the department shall, pursuant to subdivision (b), suspend the privilege of the driver or owner to drive a motor vehicle, including the driving privilege of a nonresident in this state.

(b) Whenever the department receives an accident report pursuant to this Article that alleges that any of the drivers involved in the accident was not in compliance with Section 16020 at the time of the accident, the department shall immediately mail to that driver a notice of intent to suspend the driving privilege of that driver. The department shall suspend the driving privilege 30 days after mailing the notice, unless the driver has, prior to that date, established evidence of financial responsibility at the time of the accident, as specified in Section 16021, with the department. The suspension notice shall notify the driver of the action taken and the right to a hearing under Section 16075.

Amended Sec. 18, Ch. 739, Stats. 2001. Effective January 1, 2002.

Suspension by Another State

16071. The department shall suspend the driving privilege of any person upon receiving notice from another state that the person’s driving privilege in that state has been suspended for failure to meet the financial responsibility
provisions of the law in that state, if the suspension in that state was taken on grounds that would have resulted in a suspension in this state.

(Amended Sec. 17, Ch. 880, Stats. 1999. Effective January 1, 2000.)

Period of Suspension: Restriction Alternative

16072. (a) The suspension of the driving privilege of a person as provided in Section 16070 shall not be terminated until one year has elapsed from the date of actual commencement of the suspension and until the person files proof of financial responsibility as provided in Chapter 3 (commencing with Section 16430), except that the suspension shall be reinstated if the person fails to maintain proof of financial responsibility for three years. However, in lieu of suspending a person’s driving privilege pursuant to this section, the department, upon application, if the person files and thereafter maintains proof of financial responsibility as provided in this section and pays a penalty fee to the department of two hundred fifty dollars ($250), may restrict the person’s driving privilege to any of the following situations:

(1) Necessary travel to and from that person’s place of employment.

(2) Driving that is required in the person’s course of employment, when driving a motor vehicle is necessary in order to perform the duties of the person’s primary employment.

(3) Necessary travel to transport a minor dependent in that person’s immediate family to and from an institute of primary or secondary instruction, if the chief administrative officer or principal of the educational institution certifies in writing to the department that the minor dependent is enrolled in the educational institution and no form of public transportation or schoolbus is available between the applicant’s place of residence and the educational institution.

The restriction shall remain in effect for the period of suspension required by this section, so long as proof of financial responsibility is maintained.

(b) If a suspension has been imposed under Section 16070 and one year has elapsed from the date the suspension actually commenced, that suspension shall be terminated if the driving privilege is suspended under Section 16370 or 16381 as the result of a judgment arising out of the accident for which proof of financial responsibility was required to be established. The department may reinstate the privilege of the driving privilege of a person under Section 16070 if the suspension under Section 16370 or 16381 is later set aside for a reason other than that the person has satisfied the judgment in full or to the extent provided in Chapter 2 (commencing with Section 16250) and has given proof of ability to respond in damages as provided in Chapter 3 (commencing with Section 16430).

(c) Notwithstanding Chapter 2 (commencing with Section 42200) of Division 18, all revenues derived from the penalty fees provided in subdivision (a) shall, after deduction by the department of the costs incurred by the department in administering this section, be deposited in the Financial Responsibility Penalty Account in the General Fund. The balance in this fund on each July 1, which is not subject to appropriation as provided in Section 12980 of the Insurance Code, shall revert to the General Fund.

(d) (1) Subdivision (a) does not apply to a commercial driver’s license holder.

(2) A commercial driver’s license holder whose driving privilege is otherwise suspended under this Chapter is not entitled to a restricted license, unless that person surrenders his or her commercial driver’s license and is issued a noncommercial class C or M driver’s license.

(Amended Sec. 16, Ch. 574, Stats. 2006. Effective January 1, 2007.)

Course of Employment: Exemption

16073. (a) The privilege of a person employed for the purpose of driving a motor vehicle for compensation whose occupation requires the use of a motor vehicle in the course of his or her employment to drive a motor vehicle not registered in his or her name and in the course of that person’s employment may not be suspended under this Chapter even though his or her privilege to drive is otherwise suspended under this chapter.

(b) Subdivision (a) does not apply to a commercial driver’s license holder. A commercial driver’s license holder whose driving privilege is otherwise suspended under this Chapter may not operate a commercial motor vehicle.

(c) This section shall become operative on September 20, 2005.

Correction of Errors

16074. Whenever the department has taken any action or has failed to take any action under this Chapter by reason of having received erroneous information, or by reason of having received no information, it shall take appropriate action to carry out the purposes and effect of this Chapter upon receiving correct information.

Notice and Hearing

16075. (a) The suspension provisions of this Article shall not apply to a driver or owner until 30 days after the department sends to the driver or owner notice of its intent to suspend his or her driving privilege, pursuant to subdivision (b) of Section 16070, and advises the driver or owner of his or her right to a hearing as hereinafter provided.

(b) If the driver or owner receiving the notice of intent to suspend wishes to have a hearing, the request for a hearing shall be in writing to the department within 10 days of the receipt of the notice. Failure to respond to a notice of intent within 10 days of receipt of the notice is a waiver of the person’s right to a hearing.

(c) If the driver or owner makes a timely request for a hearing, the department shall hold the hearing before the effective date of the suspension to determine the applicability of this Chapter to the driver or owner, including a determination of whether:

(1) The accident has resulted in property damage in excess of seven hundred fifty dollars ($750), or bodily injury, or death.

(2) The driver or owner has established financial responsibility, as provided in Article 3 (commencing with Section 16050), was in effect at the time of the accident.

(d) A request for a hearing does not stay the suspension of a person’s driving privilege. However, if the department does not conduct a hearing and make a determination pursuant thereto within the time limit provided in subdivision (b) of Section 16070, the department shall stay the effective date of the order of suspension pending a determination.
(e) The hearing provided for by this section shall be held in the county of residence of the person requesting the hearing. The hearing shall be conducted pursuant to Article 3 (commencing with Section 14100) of Chapter 3 of Division 6.

(f) The department shall render its decision within 15 days after conclusion of the hearing.

**Restriction Alternative: Notification**

16076. (a) The department shall notify every person whose driving privilege is suspended, pursuant to Section 16070, of that person’s right to apply for a restricted driving privilege authorized under Section 16072.

(b) For purposes of subdivision (a), the department shall prepare and publish a printed summary. The printed summary may contain, but is not limited to, the following wording:

“If your driving privilege is suspended due to involvement in an accident while you were uninsured, you may apply for a restricted license at any office of the Department of Motor Vehicles, accompanied with proof of financial responsibility, payment of a penalty fee of two hundred fifty dollars ($250), and, unless already paid, payment of a reissuance fee.

The Mello-McAlister Restricted Employment Driving Privilege Act allows you to apply for a driver’s license limiting you to driving to and from work, and during the course of your primary employment, during the one-year mandatory term of suspension. The restricted license will not be issued if any other suspension or revocation action has been taken against you.”

(c) This section shall be known and may be cited as the Mello-McAlister Restricted Employment Driving Privilege Act.

**Restricted License: Medical Treatment**

16077. (a) The department, upon application and payment of a fifty dollar ($50) fee and a penalty fee of two hundred dollars ($200), may issue a restricted license to an applicant with serious health problems, or to an applicant with an immediate family member with serious health problems, when the applicant’s privilege to drive is otherwise suspended under this chapter. The restricted license may be issued to enable the applicant to drive a motor vehicle for the purpose of receiving medical or mental health treatments of a prolonged and repetitive nature for the applicant or the member of the applicant’s immediate family with serious health problems, if the applicant files and maintains proof of financial responsibility on file with the department pursuant to Section 16021 and there is no other suitable means of transportation available.

(b) The application shall set forth the nature of the health problem, the nature of the treatments, the duration and location of the treatments, and the schedule for visits. The applicant shall submit documentation signed by the treating physician and surgeon or licensed psychotherapist, as defined in subdivisions (a), (b), (c), and (e) of Section 1010 of the Evidence Code, as necessary to assist the department in its decision to grant or deny the restricted license. Upon reviewing the application, the department may determine that an investigation as to the person’s fitness to operate a motor vehicle is warranted. If the department makes this determination, the department may conduct an investigation in a manner provided for in Chapter 3 (commencing with Section 13800) of Division 6.

(c) In reviewing the application, the department shall give due consideration to the circumstances set forth in the application and shall be guided by principles of fairness and humanity.

(d) Notwithstanding Chapter 2 (commencing with Section 42200) of Division 18, all revenues derived from the penalty fees provided in subdivision (a) shall, after deduction by the department of the costs incurred by the department in administering this section, be deposited in the Financial Responsibility Penalty Account in the General Fund.

(e) (1) Subdivision (a) does not apply to a commercial driver’s license holder.

(2) A commercial driver’s license holder whose driving privilege is otherwise suspended under this Chapter is not entitled to a restricted license unless that person surrenders his or her commercial driver’s license and is issued a noncommercial class C or M driver’s license.
Amended Sec. 17, Ch. 574, Stats. 2006. Effective January 1, 2007.

**Driver’s License Restriction: Alternative Application**

16078. Any person who has paid the penalty fee prescribed in subdivision (a) of Section 16072, whether or not the person has received the license restriction authorized by that section, may also apply for and receive a restricted license under Section 16077 without paying the fees prescribed in Section 16077. Any person who has paid the fees prescribed in subdivision (a) of Section 16077, whether or not the person has received the restricted license authorized by that section, may also apply for and receive the license restriction prescribed in Section 16072.

**CHAPTER 2. SUSPENSIONS FOLLOWING UNSATISFIED JUDGMENTS**

**Article 1. Definitions**

**Judgment Defined**

16250. As used in this Chapter and Chapter 3 (commencing with Section 16430), “judgment” means a final judgment of any court of competent jurisdiction in this or any other state or of the United States against a person as defendant upon a cause of action.

**Cause of Action Defined**

16251. As used in this Chapter and Chapter 3 (commencing with Section 16430), “cause of action” means any cause of action for damage to property in excess of seven hundred fifty dollars ($750) or for damage in any amount on account of bodily injury to or death of any person resulting from the operation by the defendant or any other person of any motor vehicle upon a highway in this state, except a cause of action based upon statutory liability by reason of signing application of a minor for a driver’s license.
Article 2. Suspension of Driving Privilege

Judgment Unsatisfied

16370. The department shall suspend the privilege of any person to operate a motor vehicle upon receiving a certified copy of a judgment, or a certified copy of the register of actions (or a comparable court record of another jurisdiction) in an action resulting in a judgment for damages, and a certificate of facts relative to the judgment, on a form provided by the department, indicating that the person has failed for a period of 30 days to satisfy a judgment rendered against him or her.

Small Claims Court Judgment

16370.5. The department shall suspend the privilege of any person to operate a motor vehicle as specified in Section 116.880 of the Code of Civil Procedure. Except as provided in this section, an action brought under Section 116.880 of the Code of Civil Procedure is not governed by Chapter 2 (commencing with Section 16250) of Division 7.

Fee

16370.7. Documents filed with the department pursuant to Section 16370 shall be accompanied by a fee of not to exceed twenty dollars ($20) to pay for processing the documents and issuing the suspension order.

Period of Suspension

16371. The suspension shall remain in effect, and no license shall be issued to the judgment debtor until the judgment debtor gives proof of financial responsibility as provided in Chapter 3 (commencing with Section 16430), and until either the judgment is satisfied in full or to the extent provided in this chapter, subject to the exemption provided in Section 16375.

Court Report of Judgments

16373. (a) The clerk of a court shall, subject to subdivision (b), issue upon the request of a judgment creditor a certified copy of any judgment or a certified copy of the register of actions in an action resulting in a judgment for damages, and a certificate of facts relative to the judgment on a form provided by the department.

(b) The judgment creditor may pay the required fees and request the documents specified in subdivision (a) upon the expiration of 30 days after the judgment has become final, if the judgment has not been stayed or satisfied within the amounts specified in this Chapter as shown by the records of the court. The court shall determine the required fees, which shall be commensurate with the cost incurred by the court in carrying out this section.

Amended Sec. 11, Ch. 44, Stats. 2001. Effective January 1, 2002.

Judgments Not Covered by Proof

16374. Whenever after a judgment is satisfied and proof of financial responsibility is given, another judgment is rendered against the same person for any accident occurring prior to the date of the giving of the proof and the person fails to satisfy the latter judgment within the amounts specified in this Chapter within 15 days after the latter judgment became final, then the department shall again suspend the driver's license of the judgment debtor and shall not issue to him or her any driver’s license while the latter judgment remains unsatisfied and subsisting within the amounts specified in this chapter.

Affidavit of Insurance

16375. Any person whose driver’s license has been suspended, or is about to be suspended or shall become subject to suspension under this chapter, may relieve himself from the effect of the judgment by filing with the department an affidavit stating that at the time of the accident upon which the judgment has been rendered he was insured, that the insurer is liable to pay such judgment, and the reason, if known, why the insurance company has not paid the judgment. He shall also file the original policy of insurance or a certified copy thereof, if available, and such other documents as the department may require to show that the loss, injury, or damage for which the judgment was rendered, was covered by the policy of insurance.

If the department is satisfied from such papers that the insurer was authorized to issue the policy of insurance in this State at the time of issuing the policy and that such insurer is liable to pay such judgment, at least to the extent and for the amounts provided in this chapter, the department shall not suspend the license, or if already suspended, shall reinstate it.

Action Against Nonresident

16376. (a) If the person against whom judgment is rendered is a nonresident and the person fails within the prescribed time to satisfy the judgment in full or to the extent specified in this chapter, all privileges of operating a motor vehicle in this state given to the person under this code shall be suspended while the judgment remains in effect and unsatisfied and until the nonresident gives proof of his or her financial responsibility in the manner and to the extent provided in Chapter 3 (commencing with Section 16430) for accidents occurring after the date of the giving of proof.

(b) The department shall forward a certified copy of the judgment of a court of record to the appropriate officer in charge of the licensing of drivers in the state of which the person is a resident.

Amended Sec. 12, Ch. 44, Stats. 2001. Effective January 1, 2002.

When Judgment Deemed Satisfied

16377. Every judgment shall for the purposes of this Chapter be deemed satisfied:

(a) When fifteen thousand dollars ($15,000) has been credited, upon any judgment in excess of that amount, or upon all judgments, collectively, which together total in excess of that amount, for personal injury to or death of one person as a result of any one accident.

(b) When, subject to the limit of fifteen thousand dollars ($15,000) as to one person, the sum of thirty thousand dollars ($30,000) has been credited, upon any judgment in excess of that amount, or upon all judgments, collectively, which together total in excess of that amount, for personal injury to or death of more than one person as a result of any one accident.

(c) When five thousand dollars ($5,000) has been credited, upon any judgment in excess of that amount, or upon all judgments, collectively, each of which is in excess of seven
hundred fifty dollars ($750), and which together total in excess of five thousand dollars ($5,000), for damage to property of others as a result of any one accident.

(d) When the judgment debtor or a person designated by him or her has deposited with the department a sum equal to the amount of the unsatisfied judgment for which the suspension action was taken and presents proof, satisfactory to the department, of inability to locate the judgment creditor.

Disposition of Money Deposited

16378. Money deposited pursuant to subdivision (d) of Section 16377 shall be:

(a) Deposited by the department in the special deposit fund with the State Treasurer.

(b) Payable to the judgment creditor upon presentation of a valid claim establishing that he is the judgment creditor for which the deposit was made and that the judgment remains unsatisfied.

(c) Refunded to the person making the deposit or to a person designated by him if the deposit remains unclaimed by the judgment creditor for a period of two years following the date of the deposit.

(d) The State Controller shall draw his warrant on the State Treasurer for any payment ordered pursuant to this section as ordered by the department.

Added Ch. 1525, Stats. 1965. Effective September 17, 1965.

Installment Payments of Judgments

16379. (a) The department shall not suspend a license and shall restore any suspended license following nonpayment of a final judgment when the judgment debtor gives proof of financial responsibility for future damages and when the trial court in which the judgment was rendered orders the payment of the judgment in installments and while the payment of any installment payment is not in default.

(b) Whenever the trial court orders the payment of a judgment in installments as provided in this section, upon payment of the required fees by the judgment creditor, it shall forward a certified copy of the order to the department, together with a certified copy of the judgment or a certified copy of the register of actions in an action resulting in a judgment for damages and a certificate of facts relative to the judgment on a form provided by the department.

(c) The court shall determine the required fees, which shall be commensurate with the cost incurred by the court in carrying out the provisions of this section.

Conditions for Installment Payment

16380. The trial court may order the payment of a judgment in installments only when the defendant is not insured or the insurance policy covering the automobile involved in the accident, for the ownership or operation of which the defendant is held liable, is not sufficient to pay the amount of the judgment, and then only as to such portion of the judgment not covered by the insurance policy. The order shall fix the amounts and times of payment of the installments and shall be without prejudice to any other legal remedies available to the judgment creditor.

Default in Payments

16381. In the event that it is made to appear to the court that the judgment debtor has failed to pay any installment as permitted by the order of the court, upon the payment of required fees by the judgment creditor, the court shall give notice of the default to the department and the department shall forthwith suspend the driving privilege of the judgment debtor until the judgment is satisfied as provided in this chapter. The court shall determine the required fees, which shall be commensurate with the cost incurred by the court in carrying out the provisions of this section.

Chapter 3. Proof of Financial Responsibility

Article 1. Proof Requirements

Proof Required

16430. Proof of financial responsibility when required by this code means proof of financial responsibility resulting from the ownership or operation of a motor vehicle and arising by reason of personal injury to, or death of, any one person, of at least fifteen thousand dollars ($15,000), and, subject to the limit of fifteen thousand dollars ($15,000) for each person injured or killed, of at least thirty thousand dollars ($30,000) for the injury to, or the death of, two or more persons in any one accident, and for damages to property (in excess of seven hundred fifty dollars ($750)), of at least five thousand dollars ($5,000) resulting from any one accident. Proof of financial responsibility may be given in any manner authorized in this chapter.

Proof by Certificate of Insurer

16431. (a) Proof of financial responsibility may be given by the written certificate or certificates of any insurance carrier duly authorized to do business within the state, that it has issued to or for the benefit of the person named therein a motor vehicle liability policy as defined in Section 16450, an automobile liability policy as defined in Section 16054, or any other liability policy issued for vehicles with less than four wheels that meets the requirements of Section 16056, which, at the date of the certificate or certificates, is in full force and effect. Except as provided in subdivision (b), the certificate or certificates issued under any liability policy set forth in this section shall be accepted by the department and satisfy the requirements of proof of financial responsibility of this chapter.

Nothing in this Chapter requires that an insurance carrier certify that there is coverage broader than that provided by the actual policy issued by the carrier.

(b) The department shall require that a person whose driver's license has been revoked, suspended, or restricted under Section 13350, 13351, 13352, 13353, 13353.2, 13353.3, 13353.7, or 16370, provide, as proof of financial responsibility, a certificate or certificates that covers all motor vehicles registered to the person before reinstatement of his or her driver's license.

(c) Subdivision (b) does not apply to vehicles in storage if the current license plates and registration cards are surrendered to the department in Sacramento.

(d) (1) A resident of another state may provide proof of financial responsibility when required to do so under this code.
from a company authorized to do business in that person’s state of residence, if that proof is satisfactory to the department, covers the operation of a vehicle in this state, and meets the minimum coverage limit requirements specified in Section 16056.

(2) If the person specified in paragraph (1) becomes a resident of this state during the period that the person is required to maintain proof of financial responsibility with the department, the department may not issue or return a driver’s license to that person until the person files a written certificate or certificates, as authorized under subdivision (a), that meets the minimum coverage limit requirements specified in Section 16056 and covers the period during which the person is required to maintain proof of financial responsibility.

(e) This section shall become operative on September 20, 2005.

Cancellation of Policy

16433. A certificate or certificates shall certify, if the liability policy therein cited has been canceled, that the department shall be notified in writing within 10 days after the cancellation of insurance becomes final.

Nothing in this section extends coverage beyond the date stated in the notice of cancellation.

Proof by Bond

16434. Proof of financial responsibility may be given by a bond. The bond shall be conditioned for the payment of the amount specified in Section 16430, and shall provide for the entry of judgment on motion of the state in favor of any holder of any final judgment on account of damages to property over seven hundred fifty dollars ($750) in amount, or injury to any person caused by the operation of the person’s motor vehicle.

Proof by Deposit of Money

16435. Proof of financial responsibility may be given by the deposit of thirty-five thousand dollars ($35,000), as provided in Section 16054.2. The department shall not accept a deposit where any judgment theretofore obtained against that person as a result of damages arising from the operation of any motor vehicle shall not have been paid in full.

Proof by Self-insurer

16436. Proof of financial responsibility may be given by the written certificate of a self-insurer holding a certificate of self-insurance for bodily injury and property damage issued by the department.

The certification shall name the employee in whose behalf it is filed and shall bind the self-insurer in a like manner and to the same amounts as provided for in Section 16430 for damages arising from the operation of a motor vehicle by the employee within the scope of his or her employment by the self-insurer. In that case, the department shall restrict any driver’s license issued to the employee to the operation of motor vehicles owned by the self-insurer within the scope of his or her employment by the self-insurer.

The certificate shall be canceled upon 10 days’ prior written notice to the department by the self-insurer.

property in charge of the assured or the assured’s employees or agents.

**Stored Vehicles**

16455. The provisions of Section 16451 shall not apply to vehicles in storage if the current license plates and registration cards are surrendered to the department in Sacramento.

**Violation of Proof**

16457. Whenever proof of financial responsibility is required to be filed pursuant to this chapter, no person of whom that proof is required shall drive any motor vehicle not covered by the certificate of proof of financial responsibility filed by him or her with the department, nor shall any applicant for that proof knowingly fail to disclose ownership of a motor vehicle in the application for proof of financial responsibility or to disclose any subsequently acquired motor vehicle.

**Release of Proof**

16480. (a) The department shall upon request or may at its own discretion cancel any bond or any certificate of insurance, or the department shall direct the return to the person entitled thereto of any money or securities deposited pursuant to this code as proof of financial responsibility, or the department shall waive the requirement of filing proof of financial responsibility in any of the following events:
(1) When the person is no longer required to maintain the proof under the provisions of this code.
(2) At any time after three years from the date the proof was required.
(3) Upon the death of the person on whose behalf the proof was filed.
(4) The permanent incapacity of the person to operate a motor vehicle if the person surrenders for cancellation his or her driver’s license to the department.
(b) The department shall not release proof filed by the bond of individual sureties as set forth in Section 16434, or if given in the manner prescribed by Section 16435, if any action for damages upon a liability referred to in this code is then pending or if any judgment upon any the liability is outstanding and unsatisfied. An affidavit of the applicant of the nonexistence of such facts shall be prima facie evidence thereof.

**Restoration of Privileges When Judgment Unsatisfied**

16482. (a) Any person whose privilege to operate a motor vehicle has been suspended because of failure to satisfy a judgment and the judgment has been outstanding for a period of three years or more, may be relieved of the penalties therein provided and the privilege of the person to operate a motor vehicle may be restored in the event the person files with the department and thereafter maintains proof of financial responsibility notwithstanding that the judgment which gave rise to the order of suspension has not been paid or fully satisfied.
(b) Any person who has filed proof of financial responsibility as required for three years, or who has been eligible to file that proof for three years, may be relieved of the requirement of filing proof as provided in paragraph (2) of subdivision (a) of Section 16480.

**Substitution of Proof**

16483. The department shall cancel any bond or any certificate of insurance or direct the return of any money or securities to the person entitled thereto, upon the substitution and acceptance of other adequate proof of financial responsibility pursuant to this code.

**Failure of Proof**

16484. Except when a nonresident minor’s certificate or minor’s license is canceled as required by Sections 12504 and 17704, respectively, whenever any evidence of proof of financial responsibility filed by any person under the provisions of this code no longer fulfills the purpose for which required, the department shall require other evidence of financial responsibility as required by Article 1 (commencing with Section 16430) and shall suspend the privilege of the person to operate a motor vehicle upon a highway. The suspension shall remain in effect until adequate proof of financial responsibility is filed with the department by the person.

**Chapter 4. Commercial Vehicles**

**Proof Required: Commercial Passenger Vehicles**

16500. Every owner of a vehicle used in the transportation of passengers for hire, including taxicabs, when the operation of the vehicle is not subject to regulation by the Public Utilities Commission, shall maintain, whenever he or she may be engaged in conducting those operations, proof of financial responsibility resulting from the ownership or operation of the vehicle and arising by reason of personal injury to, or death of, any one person, or of at least fifteen thousand dollars ($15,000), and, subject to the limit of fifteen thousand dollars ($15,000) for each person injured or killed, of at least thirty thousand dollars ($30,000) for such injury to, or the death of, two or more persons in any one accident, and for damages to property of at least five thousand dollars ($5,000) resulting from any one accident. Proof of financial responsibility may be maintained by either:
(a) Being insured under a motor vehicle liability policy against that liability.
(b) Obtaining a bond of the same kind, and containing the same provisions, as those bonds specified in Section 16434.
(c) By depositing with the department thirty-five thousand dollars ($35,000), which amount shall be deposited in a special deposit account with the Controller for the purpose of this section.
(d) Qualifying as a self-insurer under Section 16053.
The department shall return the deposit to the person entitled thereto when he or she is no longer required to maintain proof of financial responsibility as required by this section or upon his or her death.
Proof Required: Other Commercial Vehicles

16500.5. (a) Except as specified in subdivision (b), the owner of the following commercial vehicles shall maintain proof of financial responsibility in the amount required by the director:

1. A vehicle used to carry passengers for hire, except taxicabs as defined in subdivision (c) of Section 27908.
2. A vehicle having an unladen weight of over 7,000 pounds which is used in the transportation of property in the conduct of a business.
3. A schoolbus.
4. A motor vehicle used by a farmer exclusively in the transportation of his or her livestock, implements of husbandry, and agricultural commodities or in the transportation of supplies to his or her farm.
5. A motor vehicle used by a resident farmer of this state to occasionally transport from the place of production to a warehouse, regular market, place of storage, or place of shipment the farm products of neighboring farmers in exchange for like services, farm products, or other compensation.
6. A vehicle used in for-hire transportation which is subject to regulation by the Public Utilities Commission.
7. A rented vehicle used for noncommercial transportation of property.
8. A vehicle used in for-hire transportation which is subject to regulation by the Public Utilities Commission.
9. A vehicle used in the conduct of a business, except vehicles subject to regulation by the Public Utilities Commission, which are registered in the name of any person convicted of violating subdivision (c).
10. A vehicle used in the transportation of persons or property in the conduct of a business, without maintaining proof of financial responsibility as required by this section.

(b) Subdivision (a) does not apply to the following vehicles:

1. A vehicle having an unladen weight of over 7,000 pounds which is used in the transportation of property in the conduct of a business.
2. A schoolbus.
3. A motor vehicle used by a farmer exclusively in the transportation of his or her livestock, implements of husbandry, and agricultural commodities or in the transportation of supplies to his or her farm.
4. A motor vehicle used by a resident farmer of this state to occasionally transport from the place of production to a warehouse, regular market, place of storage, or place of shipment the farm products of neighboring farmers in exchange for like services, farm products, or other compensation.
5. A vehicle used in for-hire transportation which is subject to regulation by the Public Utilities Commission.
6. A rented vehicle used for noncommercial transportation of property.
7. A motor vehicle used in the conduct of a business, except vehicles subject to regulation by the Public Utilities Commission, which are registered in the name of any person convicted of violating subdivision (c).
8. A vehicle used in the transportation of persons or property in the conduct of a business, without maintaining proof of financial responsibility as required by this section.

(c) The director shall establish the amounts which are determined adequate to cover damages resulting from the operation of a commercial vehicle or vehicles subject to this section arising by reason of personal injury to, or death of, any person or damage to property, or both. The director shall establish the amounts at levels equal to those prescribed by the Public Utilities Commission for owners and operators of for-hire vehicles subject to its jurisdiction and control.

(d) Proof of financial responsibility may be maintained by any of the following:

1. Being insured under one or more motor vehicle liability policies against that liability.
2. Obtaining a bond of the same kind, and containing the same provisions, as those bonds specified in Section 16434.
3. By depositing with the department five hundred thousand dollars ($500,000), which amount shall be deposited in a special deposit account with the Controller for the purpose of this section.
4. Qualifying as a self-insurer under Section 16053.
5. The department shall return the deposit made pursuant to paragraph (3) of subdivision (d) to the person entitled thereto when the owner is no longer required to maintain proof of financial responsibility as required by this section or upon the owner’s death.
6. An insurer, agent, or broker who has been incorrectly informed by an owner of a vehicle or his or her representative that the vehicle is 7,000 pounds or less unladen weight, or is incorrectly informed by the owner or his or her representative that the vehicle is exempt from the requirements of subdivisions (a) and (c) pursuant to the exemptions set forth in subdivision (b), may issue a policy of motor vehicle liability insurance in any amount less than that required by the director but not less than the amounts required under Section 16451. The policy of motor vehicle liability insurance when issued shall not be deemed to provide liability coverage amounts greater than that specifically set forth in the policy notwithstanding that the vehicle weighs in excess of 7,000 pounds unladen weight or is subsequently used in a manner which would have required the vehicle to be insured in the amounts established by the director pursuant to subdivision (c).

Power of Local Authorities

16501. The provisions of this Chapter shall not prevent local authorities, within the reasonable exercise of the police power, from adopting rules and regulations, by ordinance or resolution, licensing and regulating the operation of any vehicle for hire and the drivers of passenger vehicles for hire.

Prohibited Use

16502. (a) An owner shall not use, or with his or her consent permit the use of, a vehicle used in the transportation of persons or property in the conduct of a business, without maintaining proof of financial responsibility as required by this chapter.

(b) A motor vehicle from another country in which there is no evidence of financial responsibility required pursuant to this Chapter or Part 387 (commencing with Section 387.1) of Title 49 of the Code of Federal Regulations shall be denied entry into the state.

Suspension of Registration

16503. The department shall suspend the registration of all vehicles used in the transportation of persons or property in the conduct of a business, except vehicles subject to regulation by the Public Utilities Commission, which are registered in the name of any person convicted of violating Section 16502 immediately upon receipt of a duly certified abstract of the record of the court in which the person was convicted.

The suspension shall remain in effect and no such vehicle shall be registered in the name of the person until he or she gives the department proof of his or her proof of financial responsibility as required in Section 16500.

Chapter 6. Interstate Highway Carriers

(Added Ch. 1279, Stats. 1969. Effective November 10, 1969.)

Interstate Highway Carriers

16560. (a) Any person or corporation who operates or causes to be operated on the highways of this state any motor vehicle in the interstate or foreign transportation of property, other than household goods, for compensation without having first complied with the requirements of paragraph (1) of subdivision (g) of Section 7232 of the Revenue and Taxation Code is guilty of a misdemeanor, and is punishable by a fine of not more than one thousand dollars ($1,000), or by imprisonment in the county jail for not more than three months, or by both that fine and imprisonment.

(b) Any person or corporation who operates or causes to be operated on the highways of this state any motor vehicle in the interstate or foreign transportation of household goods or passengers for compensation without having first complied
with the requirements of Chapter 1 (commencing with Section 3901) of Division 2 of the Public Utilities Code is guilty of a misdemeanor, and is punishable by a fine of not more than one thousand dollars ($1,000), or by imprisonment in the county jail for not more than three months.

DIVISION 9. CIVIL LIABILITY

CHAPTER 1. CIVIL LIABILITY OF OWNERS AND OPERATORS OF VEHICLES

Article 1. Public Agencies

Definitions

17000. As used in this chapter:
(a) “Employee” includes an officer, employee, or servant, whether or not compensated, but does not include an independent contractor.
(b) “Employment” includes office or employment.
(c) “Public entity” includes the state, the Regents of the University of California, a county, city, district, public authority, public agency, and any other political subdivision or public corporation in the state.

Liability of a Public Entity

17001. A public entity is liable for death or injury to person or property proximately caused by a negligent or wrongful act or omission in the operation of any motor vehicle by an employee of the public entity acting within the scope of his employment.

Extent of Liability

17002. Subject to Article 4 (commencing with Section 825) of Chapter 1 of Part 2 of Division 3.6 of Title 1 of the Government Code, a public entity is liable for death or injury to person or property to the same extent as a private person under the provisions of Article 2 (commencing with Section 17150) of this chapter.

Authorized Emergency Vehicles

17004. A public employee is not liable for civil damages on account of personal injury to or death of any person or damage to property resulting from the operation, in the line of duty, of an authorized emergency vehicle while responding to an emergency call or when in the immediate pursuit of an actual or suspected violator of the law, or when responding to but not upon returning from a fire alarm or other emergency call.

Liability of Private Fire Department

17004.5. Any private firm or corporation, or employee thereof, which maintains a fire department and has entered into a mutual aid agreement pursuant to Section 13855, 14095, or 14455.5 of the Health and Safety Code shall have the same immunity from liability for civil damages on account of personal injury to or death of any person or damage to property resulting from the operation of an authorized emergency vehicle while responding to, but not upon returning from, a fire alarm or other emergency call as is provided by law for the district and its employees with which the firm or corporation has entered into a mutual aid agreement, except when the act or omission causing the personal injury to or death of any person or damage to property occurs on property under the control of such firm or corporation.

Public Agency Immunity

17004.7. (a) The immunity provided by this section is in addition to any other immunity provided by law. The adoption of a vehicle pursuit policy by a public agency pursuant to this section is discretionary.

(b) (1) A public agency employing peace officers that adopts and promulgates a written policy on, and provides regular and periodic training on an annual basis for, vehicular pursuits complying with subdivisions (c) and (d) is immune from liability for civil damages for personal injury to or death of any person or damage to property resulting from the collision of a vehicle being operated by an actual or suspected violator of the law who is being, has been, or believes he or she is being or has been, pursued in a motor vehicle by a peace officer employed by the public entity.

(2) Promulgation of the written policy under paragraph (1) shall include, but is not limited to, a requirement that all peace officers of the public agency certify in writing that they have received, read, and understand the policy. The failure of an individual officer to sign a certification shall not be used to impose liability on an individual officer or a public entity.

(c) A policy for the safe conduct of motor vehicle pursuits by peace officers shall meet all of the following minimum standards:

(1) Determine under what circumstances to initiate a pursuit. The policy shall define a “pursuit,” articulate the reasons for which a pursuit is authorized, and identify the issues that should be considered in reaching the decision to pursue. It should also address the importance of protecting the public and balancing the known or reasonably suspected offense, and the apparent need for immediate capture against the risks to peace officers, innocent motorists, and others to protect the public.

(2) Determine the total number of law enforcement vehicles authorized to participate in a pursuit. Establish the authorized number of law enforcement units and supervisors who may be involved in a pursuit, describe the responsibility of each authorized unit and the role of each peace officer and supervisor, and specify if and when additional units are authorized.

(3) Determine the communication procedures to be followed during a pursuit. Specify pursuit coordination and control procedures and determine assignment of communications responsibility by unit and organizational entity.

(4) Determine the role of the supervisor in managing and controlling a pursuit. Supervisory responsibility shall include management and control of a pursuit, assessment of risk factors associated with a pursuit, and when to terminate a pursuit.

(5) Determine driving tactics and the circumstances under which the tactics may be appropriate.

(6) Determine authorized pursuit intervention tactics. Pursuit intervention tactics include, but are not limited to, blocking, ramming, boxing, and roadblock procedures. The policy shall specify under what circumstances and conditions each approved tactic is authorized to be used.

(7) Determine the factors to be considered by a peace officer and supervisor in determining speeds throughout a pursuit. Evaluation shall take into consideration public safety, peace officer safety, and safety of the occupants in a fleeing vehicle.
(8) Determine the role of air support, where available. Air support shall include coordinating the activities of resources on the ground, reporting on the progress of a pursuit, and providing peace officers and supervisors with information to evaluate whether or not to continue the pursuit.

(9) Determine when to terminate or discontinue a pursuit. Factors to be considered include, but are not limited to, all of the following:
(A) Ongoing evaluation of risk to the public or pursuing peace officer.
(B) The protection of the public, given the known or reasonably suspected offense and apparent need for immediate capture against the risks to the public and peace officers.
(C) Vehicular or pedestrian traffic safety and volume.
(D) Weather conditions.
(E) Traffic conditions.
(F) Speeds.
(G) Availability of air support.
(H) Procedures when an offender is identified and may be apprehended at a later time or when the location of the pursuit vehicle is no longer known.

(10) Determine procedures for apprehending an offender following a pursuit. Safety of the public and peace officers during the law enforcement effort to capture an offender shall be an important factor.

(11) Determine effective coordination, management, and control of interjurisdictional pursuits. The policy shall include, but shall not be limited to, all of the following:
(A) Supervisory control and management of a pursuit that enters another jurisdiction.
(B) Communications and notifications among the agencies involved.
(C) Involvement in another jurisdiction’s pursuit.
(D) Roles and responsibilities of units and coordination, management, and control at the termination of an interjurisdictional pursuit.

(12) Reporting and postpursuit analysis as required by Section 14602.1. Establish the level and procedures of postpursuit analysis, review, and feedback. Establish procedures for written postpursuit review and followup.

(d) “Regular and periodic training” under this section means annual training that shall include, at a minimum, coverage of each of the subjects and elements set forth in subdivision (c) and that shall comply, at a minimum, with the training guidelines established pursuant to Section 13519.8 of the Penal Code.

(e) The requirements of subdivision (c) represent minimum policy standards and do not limit an agency from adopting additional policy requirements. The requirements in subdivision (c) are consistent with the 1995 California Law Enforcement Vehicle Pursuit Guidelines developed by the Commission on Peace Officer Standards and Training pursuant to Section 13519.8 of the Penal Code that will assist agencies in the development of their pursuit policies. Nothing in this section precludes the adoption of a policy that limits or restricts pursuits.

(f) A determination of whether a public agency has complied with subdivisions (c) and (d) is a question of law for the court.

(g) This section shall become operative on July 1, 2007.

§17153

Article 2. Private Owners

Liability of Private Owners

17150. Every owner of a motor vehicle is liable and responsible for death or injury to person or property resulting from a negligent or wrongful act or omission in the operation of the motor vehicle, in the business of the owner or otherwise, by any person using or operating the same with the permission, express or implied, of the owner.

Limitation on Civil Code Presumptions

17150.5. The presumptions created by Section 803 of the Family Code as to the acquisition of property by a married woman by an instrument in writing shall not apply in an action based on Section 17150 with respect to the acquisition of a motor vehicle by a married woman and her husband.

Limitation of Liability of Owner, Bailee or Representative

17151. (a) The liability of an owner, bailee of an owner, or personal representative of a decedent imposed by this Chapter and not arising through the relationship of principal and agent or master and servant is limited to the amount of fifteen thousand dollars ($15,000) for the death of or injury to one person in any one accident and, subject to the limit as to one person, is limited to the amount of thirty thousand dollars ($30,000) for the death of or injury to more than one person in any one accident and is limited to the amount of five thousand dollars ($5,000) for damage to property of others in any one accident.

(b) An owner, bailee of an owner, or personal representative of a decedent is not liable under this Chapter for damages imposed for the sake of example and by way of punishing the operator of the vehicle. Nothing in this subdivision makes an owner, bailee of an owner, or personal representative immune from liability for damages imposed for the sake of example and by way of punishing him for his own wrongful conduct.

Liability of Operator

17152. In any action against an owner, bailee of an owner, or personal representative of a decedent on account of liability imposed by Sections 17150, 17154, or 17159 for the negligent or wrongful act or omission of the operator of a vehicle, the operator shall be made a party defendant if service of process can be made in a manner sufficient to secure personal jurisdiction over the operator. Upon recovery of judgment, recourse shall first be had against the property of the operator so served.

Subrogation of Owner

17153. If there is recovery under this Chapter against an owner, bailee of an owner, or personal representative of a decedent, the owner, bailee of an owner, or personal representative of a decedent is subrogated to all the rights of the person injured or whose property has been injured and may recover from the operator the total amount of any judgment and costs recovered against the owner, bailee of an owner, or personal representative of a decedent.

§17154

Bailee as Operator

17154. If the bailee of an owner with the permission, express or implied, of the owner permits another to operate the motor vehicle of the owner, then the bailee and the driver shall both be deemed operators of the vehicle of the owner within the meaning of Sections 17152 and 17153.

Every bailee of a motor vehicle is liable and responsible for death or injury to person or property resulting from a negligent or wrongful act or omission in the operation of the motor vehicle, in the business of the bailee or otherwise, by any person using or operating the same with the permission, express or implied, of the bailee.

Settlement of Claims

17155. If two or more persons are injured or killed in one accident, the owner, bailee of an owner, or personal representative of a decedent may settle and pay any bona fide claims for damages arising out of personal injuries or death, whether reduced by judgment or not, and the payments shall diminish, to the extent of those payments, the person’s total liability on account of the accident. Payments aggregating the full sum of thirty thousand dollars ($30,000) shall extinguish all liability of the owner, bailee of an owner, or personal representative of a decedent for death or personal injury arising out of the accident that exists pursuant to this chapter, and did not arise through the negligent or wrongful act or omission of the owner, bailee of an owner, or personal representative of a decedent nor through the relationship of principal and agent or master and servant.

Amended Sec. 660, Ch. 538, Stats. 2006. Effective January 1, 2007.

Vendee as Owner

17156. If a motor vehicle is sold under a contract of conditional sale whereby the title to such motor vehicle remains in the vendor, such vendor or his assignee shall not be deemed an owner within the provisions of this chapter, but the vendee or his assignee shall be deemed the owner notwithstanding the terms of such contract, until the vendor or his assignee retake possession of the motor vehicle. A chattel mortgagee of a motor vehicle out of possession is not an owner within the provisions of this chapter.

School District Bailee as Owner

17157. If a motor vehicle is gratuitously loaned to a school district, the bailee and not the bailor shall be deemed to be the owner within the provisions of this Chapter notwithstanding the terms of any contract, until the bailor retakes possession of the motor vehicle.

Owner as Passenger: Liability

17158. No person riding in or occupying a vehicle owned by him and driven by another person with his permission, has any right of action for civil damages against the driver of the vehicle or against any other person legally liable for the conduct of the driver on account of personal injury to or the death of the owner during the ride, unless the plaintiff in any such action establishes that the injury or death proximately resulted from the intoxication or willful misconduct of the driver.

Liability of Personal Representative

17159. Every person who is a personal representative of a decedent who has control or possession of a motor vehicle subject to administration for the purpose of administration of an estate is, during the period of such administration, or until the vehicle has been distributed under order of the court or he has complied with the requirements of subdivision (a) or (b) of Section 5602, liable and responsible for death or injury to person or property resulting from a negligent or wrongful act or omission in the operation of the motor vehicle by any person using or operating the same with the permission, express or implied, of the personal representative.

Article 2.5. Uninsured Owners

Uninsured Owner or Operator: Reduction of Judgment or Settlement

17200. Where an uninsured owner or operator has obtained a judgment against or agreed to a settlement with the owner or operator of an insured motor vehicle based on the negligence of the insured owner or operator, the amount of the judgment or settlement payable by the insured or his or her insurer shall be reduced by the amount paid or payable to the uninsured owner or operator or occupants of the insured motor vehicles or their heirs or legal representatives from coverage provided by an uninsured motorist endorsement where the claim of the insured, the owner, or occupants of the insured motor vehicle and the uninsured motorist arise out of the same accident. If the insured or his or her insurer becomes entitled to a reduction, the reduction shall not exceed the amount of the settlement or judgment awarded the uninsured owner or operator.

Payment of Settlement

17201. The payment of any settlement with an uninsured owner or operator or the payment of any final judgment for damages obtained by an uninsured owner or operator in a civil action against an insured owner or operator shall not be made until the claims of the owner, the operator, or the occupants of the insured motor vehicle, if any, or their heirs or legal representatives for benefits under the uninsured motorist endorsement are settled by the insurer and the claimants under the uninsured motorist endorsement or are determined by the arbitrator in arbitration proceedings conducted pursuant to Section 11580.2 of the Insurance Code.

Limitation of Provisions

17202. This Article is not intended to affect the rights granted pursuant to subdivision (g) of Section 11580.2 of the Insurance Code.

Article 3. Liability for Damage to Highway

Willful or Negligent Damage

17300. (a) A person who willfully or negligently damages a street or highway, or its appurtenances, including, but not limited to, guardrails, signs, traffic signals, snow poles, and similar facilities, is liable for the reasonable cost of repair or replacement thereof.
(b) A person who willfully damages or destroys a memorial sign placed by the Department of Transportation, including, but not limited to, a sign memorializing a victim under Section 101.10 of the Streets and Highways Code, is liable for that damage or destruction for the highest of the following amounts:

1. One thousand five hundred dollars ($1,500).
2. The actual repair cost or replacement cost, whichever is applicable.
3. A person who willfully or negligently causes or permits the contents of a vehicle to be deposited upon a street or highway, or its appurtenances, is liable for the reasonable costs of removing those contents from the street or highway or its appurtenances.
4. The liability stated in this section also applies to an owner of a vehicle operated with the owner’s permission, as provided in Article 2 (commencing with Section 17150), and includes liability for the reasonable cost of necessary safety precautions, including, but not limited to, warning traffic, the removal of debris resulting from accidents, the removal of any materials, or providing detours.
5. The Department of Transportation and local authorities, with respect to highways under their respective jurisdictions, may present claims for liability under this section, bring actions for recovery thereon, and settle and compromise, in their discretion, claims arising under this section.
6. If the Department of Transportation or a local authority provides services on a highway outside its jurisdiction, at the request of the department or the local authority that has jurisdiction over that highway, the department or the local authority may present a claim for liability for rendering this service under this section, bring actions for recovery thereon, and, in its discretion, settle and compromise the claim.

Amended Sec. 3, Ch. 419, Stats. 2006. Effective January 1, 2007.

**Damage by Illegal Operation of Vehicle**

17301. (a) Any person driving any vehicle, object, or contrivance over a highway or bridge is liable for all damages which the highway or bridge may sustain as a result of any illegal operation, driving or moving of the vehicle, object, or contrivance, or as a result of operating, driving, or moving any vehicle, object, or contrivance weighing in excess of the maximum weight specified in this code which is operated under a special permit issued by the Department of Transportation.

(b) Whenever the driver is not the owner of the vehicle, object, or contrivance but is operating, driving, or moving the same with the express or implied permission of the owner, the owner and driver are jointly and severally liable for the damage.

**Damage From Weight or Size**

17302. The driver, or the owner and driver, jointly, as the case may be, are also liable for all damages that any highway or bridge sustains as the result of any operation, driving, or moving of any vehicle that exceeds any of the limitations imposed by Division 15 (commencing with Section 35000), Chapter 1 (commencing with Section 29000) of Division 13, Section 21461 with respect to a sign erected under Section 35655, and Sections 21712 and 23114 even though the vehicle is exempted from the limitations by Section 35001, 35104, 35105, 35106, 35108, 35250, 35400, 35414, or 36615.

**Recovery of Damages**

17303. Damages under Sections 17301 and 17302 may be recovered in a civil action brought by the authorities in control of the highway or bridge.

Article 4. Service of Process

**Nonresident Defined**

17450. As used in this chapter, “nonresident” means a person who is not a resident of this State at the time the accident or collision occurs.

**Service of Process on Nonresident**

17451. The acceptance by a nonresident of the rights and privileges conferred upon him by this code or any operation by himself or agent of a motor vehicle anywhere within this state, or in the event the nonresident is the owner of a motor vehicle then by the operation of the vehicle anywhere within this state by any person with his express or implied permission, is equivalent to an appointment by the nonresident of the director or his successor in office to be his true and lawful attorney upon whom may be served all lawful processes in any action or proceeding against the nonresident operator or nonresident owner growing out of any accident or collision resulting from the operation of any motor vehicle anywhere within this state by himself or agent, which appointment shall also be irrevocable and binding upon his executor or administrator.

**Service on Personal Representative**

17452. Where the nonresident has died prior to the commencement of an action brought pursuant to this article, service of process shall be made on the executor or administrator of the nonresident in the same manner and on the same notice as is provided in the case of the nonresident. Where an action has been duly commenced under the provisions of this Article by service upon a defendant who dies thereafter, the court shall allow the action to be continued against his executor or administrator upon motion with such notice as the court deems proper.

**Agreement of Validity of Process**

17453. The acceptance of rights and privileges under this code or any operation of a motor vehicle anywhere within this state as specified in Section 17451 shall be a signification of the irrevocable agreement of the nonresident, binding as well upon his executor or administrator, that process against him which is served in the manner provided in this Article shall be of the same legal force and validity as if served on him personally in this state.

**Service of Process**

17454. Service of process shall be made by leaving one copy of the summons and complaint in the hands of the director or in his office at Sacramento or by mailing either by certified or registered mail, addressee only, return receipt requested, the copy of the summons and complaint to the office of the director in Sacramento. Service shall be effective as of the day...
§17455

17455. A notice of service and a copy of the summons and complaint shall be forthwith sent by registered mail by the plaintiff or his attorney to the defendant. Personal service of the notice and a copy of the summons and complaint upon the defendant wherever found outside this State shall be the equivalent of service by mail.

Proof of Service

17456. Proof of compliance with Section 17455 shall be made in the event of service by mail by affidavit of the plaintiff or his attorney showing said mailing, together with the return receipt of the United States post office bearing the signature of the defendant. The affidavit and receipt shall be appended to the original summons which shall be filed with the court from out of which the summons issued within such time as the court may allow for the return of the summons.

In the event of personal service outside this State, compliance with Section 17455 may be proved by the return of any duly constituted public officer, qualified to serve like process of and in the state or jurisdiction where the defendant is found, showing such service to have been made. The return shall be appended to the original summons which shall be filed as aforesaid.

Continuance

17457. The court in which the action is pending may order such continuances as may be necessary to afford the defendant reasonable opportunity to defend the action.

Records of Process Served

17458. The director shall keep a record of all process served upon him under this Article which record shall show the day and hour of service.

Resident Accepting Certificate of Ownership or Registration

17459. The acceptance by a resident of this state of a certificate of ownership or a certificate of registration of any motor vehicle or any renewal thereof, issued under the provisions of this code, shall constitute the consent by the person that service of summons may be made upon him within or without this state, whether or not he is then a resident of this state, in any action brought in the courts of this state upon a cause of action arising in this state out of his operation of a motor vehicle anywhere within this state.

Manner of Serving Process

17461. In the event summons is served outside of this state, pursuant to Sections 17454 and 17460, it may be served and proof of service shall be made, in the manner provided by Sections 17454, 17455, and 17456 for service of summons upon a nonresident, or it may be served pursuant to Chapter 4 (commencing with Section 413.10) of Title 5 of Part 2 of the Code of Civil Procedure.

Time to Appear

17462. In the event of service outside the State, the person so served shall have 60 days in which to appear in the action in which the summons is issued.

Effect on Statutes of Limitation

17463. Notwithstanding any provisions of Section 351 of the Code of Civil Procedure to the contrary, when summons may be personally served upon a person as provided in Sections 17459 and 17460, the time of his absence from this State is part of the time limited for the commencement of the action described in those sections, except when he is out of this State and cannot be located through the exercise of reasonable diligence, except this section in no event shall be applicable in any action or proceeding commenced on or before September 7, 1956.

Chapter 2. Civil Liability of Persons Signing License Applications of Minors

Minor Defined

17700. For the purposes of this chapter, all persons under 18 years of age are minors.

Signature and Verification for Minor

17701. No application for a driver’s license shall be granted by the department to any minor unless it is signed and verified by the father and mother of such minor, if both father and mother are living and have custody of the minor.

If only one parent is living or has custody, the application shall be signed and verified by such parent.

If neither parent is living or has custody, the application shall be signed and verified by the guardian, or if there is no guardian, by a person having custody of the minor.

If the minor is a dependent or ward of the court, the application may be signed by a grandparent, sibling over the age of 18 years, aunt, uncle, or foster parent with whom the minor resides. The probation officer or child protective services worker acting as an officer of the court, on behalf of a child, may also sign and verify the application of a minor who is a dependent or ward of the court, if the minor files proof of financial responsibility as provided in Article 1 (commencing with Section 16430) of Chapter 3 of Division 7 at the time of application. Prior to signing the application, the probation officer or child protective services worker shall notify the foster parents or other responsible party of his or her intent to sign and verify the application.

Liability for Minor’s Negligence

17702. If a minor under the age of 18 years is married, the application may be signed and verified by the adult spouse of the minor or by the parents of either spouse or in lieu of the signature, the minor may file proof of financial responsibility, as defined in Section 16430.

Nonresident Signers

17703. If the person or persons required to sign and verify the application of a minor are not residents of this state, the application shall be signed and verified by a person residing within this state who has custody of the minor, or the department may accept an application signed and verified by the minor and accompanied by proof of financial responsibility, as defined in Section 16430.

Failure of Proof

17704. If, at any time during the minority of the person who has given proof of financial responsibility, as defined in Section 16430, the proof fails, the department shall immediately cancel the license until proof of the licensee’s continued financial responsibility has been given or until the minor has otherwise complied with the requirements of this code relative to the issuance of a driver’s license.

Application Verified by Minor Only

17705. If the person who is required to sign and verify the application of a minor gives his or her written consent, or the minor is emancipated other than by marriage, the department may accept an application signed and verified only by the minor and accompanied by proof of financial responsibility, as defined in Section 16430. The person giving the consent to but not signing or verifying the application shall not be subject to the civil liability specified in Sections 17707 and 17708 merely by reason of having given consent.

Minor’s Negligence Imputed to Employer

17706. (a) If the person who is required by the provisions of this code to sign and verify the application of a minor gives his written consent, the department may accept an application signed and verified by the minor and his employer, but in such case the department shall issue to the minor only a driver’s license restricted to the operation of vehicles by the minor within the scope of his employment by the employer, unless the employer in writing authorizes the issuance of an unrestricted driver’s license.

(b) The person giving his consent to, but not signing or verifying, the application as provided in this section shall not be subject to the civil liability specified in Sections 17707 and 17708 merely by reason of having given such consent.

Liability for Minor’s Negligence

17707. Any civil liability of a minor arising out of his driving a motor vehicle upon a highway during his minority is hereby imposed upon the person who signed and verified the application of the minor for a license and the person shall be jointly and severally liable with the minor for any damages proximately resulting from the negligent or wrongful act or omission of the minor in driving a motor vehicle, except that an employer signing the application shall be subject to the provisions of this section only if an unrestricted driver’s license has been issued to the minor pursuant to the employer’s written authorization.

No liability may be imposed under this section or under Section 17708 on the state or county, or on a probation officer or child protective services worker acting as an officer of the court for damages caused solely by the negligence or willful misconduct of a minor driver whose application for a driver’s license was signed by the child protective services worker or probation officer while the minor was a dependent or ward of the court.

Liability of Parent or Guardian

17708. Any civil liability of a minor, whether licensed or not under this code, arising out of his driving a motor vehicle upon a highway with the express or implied permission of the parents or the person or guardian having custody of the minor is hereby imposed upon the parents, person, or guardian and the parents, person, or guardian shall be jointly and severally liable with the minor for any damages proximately resulting from the negligent or wrongful act or omission of the minor in driving a motor vehicle.

Limit of Liability

17709. (a) No person, or group of persons collectively, shall incur liability for a minor’s negligent or wrongful act or omission under Sections 17707 and 17708 in any amount exceeding fifteen thousand dollars ($15,000) for injury to or death of one person as a result of any one accident or, subject to the limit as to one person, exceeding thirty thousand dollars ($30,000) for injury to or death of all persons as a result of any one accident or exceeding five thousand dollars ($5,000) for damage to property of others as a result of any one accident.

(b) No person is liable under Section 17707 and 17708 for damages imposed for the sake of example and by way of punishing the minor. Nothing in this subdivision makes any person immune from liability for damages imposed for the sake of example and by way of punishing him for his own wrongful conduct.

Minor Agent or Servant

17710. The person signing a minor’s application for a license is not liable under this Chapter for a negligent or wrongful act or omission of the minor committed when the minor is acting as the agent or servant of any person.

Release From Liability

17711. Any person who has signed and verified the application of a minor for a driver’s license or any employer who has authorized the issuance of a license to a minor and who desires to be relieved from the joint and several liability imposed by reason of having signed and verified such application, may file a verified application with the department requesting that the license of the minor be canceled. The department shall cancel the license, except as provided in subdivision (e) of Section 17712. Thereafter, the person shall be relieved from the liability imposed under this Chapter by reason of having signed and verified the original application.
on account of any subsequent willful misconduct or negligent operation of a motor vehicle by the minor.

Cancellation of License; Transfer of Liability

17712. (a) The department, upon receipt of satisfactory evidence of the death of the father and mother or the person or guardian who signed and verified the application of any minor under Section 17701 or any employer who signed and verified the application of any minor under subdivision (a) of Section 17706, shall cancel the license, except as provided in subdivision (e).

(b) The department, upon receipt of the verified application of a person who has given written consent to the issuance of a license to a minor as prescribed in Sections 17705 and 17706, for the cancellation of such minor's license, shall cancel the license, except as provided in subdivision (e).

(c) The department, upon receipt of satisfactory evidence that there has been a change of custody of a minor licensed under Chapter 1 (commencing with Section 12500) of Division 6, and upon written request by the person to whom custody has been transferred, shall cancel the license.

(d) The department, upon receipt of satisfactory evidence showing that any minor to whom was issued a license pursuant to Section 17706, has left the employ of the employer who signed and verified the application for the license, shall cancel the license, except as provided in subdivision (e).

(e) The department, upon written request by the person to whom custody of a minor has been transferred, shall transfer the liability imposed under this Chapter to such person upon receipt of such person’s written verified application for acceptance of liability. Upon receipt, by the department, of such application for acceptance of liability, the person who had signed and verified the application of the minor for the driver’s license presently held by the minor shall be relieved from the liability imposed under this chapter. If such application for acceptance of liability is on file with the department prior to the receipt of a request for cancellation by the person who had signed the application of the minor for a driver’s license, the license issued under such application shall not be canceled so long as the license is otherwise valid. If, however, such application for acceptance of liability is not on file with the department prior to the receipt of a request for cancellation by the person who had signed the application of the minor for a driver’s license, the license issued under such application shall be canceled.

Limitation of Double Liability

17714. In the event, in one or more actions, judgment is rendered against a defendant under this Chapter based upon negligent or wrongful act or omission of a minor in the operation of a vehicle, and also by reason of such act or omission rendered against such defendant under Article 2 (commencing with Section 17150) of Chapter 1 of Division 9, then such judgment or judgments shall not be cumulative but recovery shall be limited to the amount specified in Section 17709.
DIVISION 10. ACCIDENTS AND ACCIDENT REPORTS

CHAPTER 1. ACCIDENTS AND ACCIDENT REPORTS

APPLICATION OF DIVISION

20000. The provisions of this division apply upon highways and elsewhere throughout the State, unless expressly provided otherwise.

DUTY TO STOP AT SCENE OF ACCIDENT

20001. (a) The driver of a vehicle involved in an accident resulting in injury to a person, other than himself or herself, or in the death of a person shall immediately stop the vehicle at the scene of the accident and shall fulfill the requirements of Sections 20003 and 20004.

(b) (1) Except as provided in paragraph (2), a person who violates subdivision (a) shall be punished by imprisonment in the state prison, or in a county jail for not more than one year, or by a fine of not less than one thousand dollars ($1,000) nor more than ten thousand dollars ($10,000), or by both that imprisonment and fine.

(2) If the accident described in subdivision (a) results in death or permanent, serious injury, a person who violates subdivision (a) shall be punished by imprisonment in the state prison for two, three, or four years, or in a county jail for not less than 90 days nor more than one year, or by a fine of not less than one thousand dollars ($1,000) nor more than ten thousand dollars ($10,000), or by both that imprisonment and fine. However, the court, in the interests of justice and for reasons stated in the record, may reduce or eliminate the minimum imprisonment required by this paragraph.

(3) In imposing the minimum fine required by this subdivision, the court shall take into consideration the defendant’s ability to pay the fine and, in the interests of justice and for reasons stated in the record, may reduce the amount of that minimum fine to less than the amount otherwise required by this subdivision.

(c) A person who flees the scene of the crime after committing a violation of Section 191.5 of, or paragraph (1) of subdivision (c) of Section 192 of the Penal Code, upon conviction of any of those sections, in addition and consecutive to the punishment prescribed, shall be punished by an additional term of imprisonment of five years in the state prison. This additional term shall not be imposed unless the allegation is charged in the accusatory pleading and admitted by the defendant or found to be true by the trier of fact. The court shall not strike a finding that brings a person within the provisions of this subdivision or an allegation made pursuant to this subdivision.

(d) As used in this section, “permanent, serious injury” means the loss or permanent impairment of function of a bodily member or organ.

PERMISSIBLE ACTION: DUTY WHERE PROPERTY DAMAGED

20002. (a) The driver of any vehicle involved in an accident resulting only in damage to any property, including vehicles, shall immediately stop the vehicle at the nearest location that will not impede traffic or otherwise jeopardize the safety of other motorists. Moving the vehicle in accordance with this subdivision does not affect the question of fault. The driver shall also immediately do either of the following:

(1) Locate and notify the owner or person in charge of that property of the name and address of the driver and owner of the vehicle involved and, upon locating the driver of any other vehicle involved or the owner or person in charge of any damaged property, upon being requested, present his or her driver’s license, and vehicle registration, to the other driver, property owner, or person in charge of that property. The information presented shall include the current residence address of the driver and of the registered owner. If the registered owner of an involved vehicle is present at the scene, he or she shall also, upon request, present his or her driver’s license information, if available, or other valid identification to the other involved parties.

(2) Leave in a conspicuous place on the vehicle or other property damaged a written notice giving the name and address of the driver and of the owner of the vehicle involved and a statement of the circumstances thereof and shall without unnecessary delay notify the police department of the city wherein the collision occurred or, if the collision occurred in unincorporated territory, the local headquarters of the Department of the California Highway Patrol.

(b) Any person who parks a vehicle which, prior to the vehicle again being driven, becomes a runaway vehicle and is involved in an accident resulting in damage to any property, attended or unattended, shall comply with the requirements of this section relating to notification and reporting and shall, upon conviction thereof, be liable to the penalties of this section for failure to comply with the requirements.

(c) Any person failing to comply with all the requirements of this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished by imprisonment in the county jail not exceeding six months, or by a fine not exceeding one thousand dollars ($1,000), or by both that imprisonment and fine.

DUTY UPON INJURY OR DEATH

20003. (a) The driver of any vehicle involved in an accident resulting in injury to or death of any person shall also give his or her name, current residence address, the names and current residence addresses of any occupant of the driver’s vehicle injured in the accident, the registration number of the vehicle he or she is driving, and the name and current residence address of the owner to the person struck or the driver or occupants of any vehicle collided with, and shall give the information to any traffic or police officer at the scene of the accident. The driver also shall render to any person injured in the accident reasonable assistance, including transporting, or making arrangements for transporting, any injured person to a physician, surgeon, or hospital for medical or surgical treatment if it is apparent that treatment is necessary or if that transportation is requested by any injured person.

(b) Any driver or injured occupant of a driver’s vehicle subject to the provisions of subdivision (a) shall also, upon being requested, exhibit his or her driver’s license, if available, or, in the case of an injured occupant, any other available identification, to the person struck or to the driver or occupants of any vehicle collided with, and to any traffic or police officer at the scene of the accident.

§20004
—394—

Duty Upon Death

20004. In the event of death of any person resulting from an accident, the driver of any vehicle involved after fulfilling the requirements of this division, and if there be no traffic or police officer at the scene of the accident to whom to give the information required by Section 20003, shall, without delay, report the accident to the nearest office of the Department of the California Highway Patrol or office of a duly authorized police authority and submit with the report the information required by Section 20003.

Driver Without License

20006. If the driver does not have his driver’s license in his possession, he shall exhibit other valid evidences of identification to the occupants of a vehicle with which he collided.

Duty to Report Accidents

20008. (a) The driver of a vehicle, other than a common carrier vehicle, involved in any accident resulting in injuries to or death of any person shall within 24 hours after the accident make or cause to be made a written report of the accident to the Department of the California Highway Patrol or, if the accident occurred within a city, to either the Department of the California Highway Patrol or the police department of the city in which the accident occurred. If the agency which receives the report is not responsible for investigating the accident, it shall immediately forward the report to the law enforcement agency which is responsible for investigating the accident.

On or before the fifth day of each month, every police department which received a report during the previous calendar month of an accident which it is responsible for investigating shall forward the report or a copy thereof to the main office of the Department of the California Highway Patrol at Sacramento.

(b) The owner or driver of a common carrier vehicle involved in any such accident shall make a like report to the Department of California Highway Patrol on or before the 10th day of the month following the accident.

Supplemental Reports

20009. The Department of the California Highway Patrol may require any driver, or the owner of a common carrier vehicle, involved in any accident of which a report must be made as provided in Section 20008 to file supplemental reports and may require witnesses of accidents to render reports to it whenever the original report is insufficient in the opinion of such department.

Driver Unable to Report

20010. Whenever the driver of a vehicle is physically incapable of making a required accident report, any occupant in the vehicle at the time of the accident shall make the report or cause it to be made.

Coroner’s Report

20011. Every coroner shall on or before the tenth day of each month report in writing to the Department of the California Highway Patrol the death of any person during the preceding calendar month as the result of an accident involving a motor vehicle and the circumstances of the accident.

Reports Confidential: Exceptions

20012. All required accident reports, and supplemental reports, shall be without prejudice to the individual so reporting and shall be for the confidential use of the Department of Motor Vehicles and the Department of the California Highway Patrol, except that the Department of the California Highway Patrol or the law enforcement agency to whom the accident was reported shall disclose the entire contents of the reports, including, but not limited to, the names and addresses of persons involved or injured in, or witnesses to, an accident, the registration numbers and descriptions of vehicles involved, the date, time and location of an accident, all diagrams, statements of the drivers involved or occupants injured in the accident and the statements of all witnesses, to any person who may have a proper interest therein, including, but not limited to, the driver or drivers involved, or the guardian or conservator thereof, the parent of a minor driver, the authorized representative of a driver, or to any named person injured therein, the owners of vehicles or property damaged thereby, persons who may incur civil liability, including liability based upon a breach of warranty arising out of the accident, and any attorney who declares under penalty of perjury that he or she represents any of the above persons.

A request for a copy of an accident report shall be accompanied by payment of a fee, provided such fee shall not exceed the actual cost of providing the copy.

Reports as Evidence

20013. No such accident report shall be used as evidence in any trial, civil or criminal, arising out of an accident, except that the department shall furnish upon demand of any person who has, or claims to have, made such a report or upon demand of any court, a certificate showing that a specified accident report has or has not been made to the department solely to prove a compliance or failure to comply with the requirement that such a report be made to the department.

Use of Reports

20014. All required accident reports and supplemental reports and all reports made to the Department of the California Highway Patrol by any peace officer, member of the Department of the California Highway Patrol, or other employee of the Department of Motor Vehicles and the Department of the California Highway Patrol, shall be immediately available for the confidential use of any division in the department needing the same, for confidential use of the Department of Transportation, and, with respect to accidents occurring on highways other than state highways, for the confidential use of the local authority having jurisdiction over the highway.

Counter Reports: No Determination of Fault

20015. (a) No traffic or police officer shall include in any counter report of a property-damage accident, as defined in this section, any determination by the peace officer of fault of the reporting person, including, but not limited to, inattentiveness. This section does not apply to a determination which is the result of an examination of the physical evidence.
of the accident at the site of the accident by the traffic or police officer or the result of an express, knowing admission of the reporting person if the basis for the determination is also included in the report.

(b) As used in this section, “counter report of a property-damage accident” means any report of an accident involving one or more vehicles which meets the following criteria:

(1) The accident reported caused damage to property, but did not cause personal injury to or the death of any person.
(2) The report is prepared at an office of the California Highway Patrol or local law enforcement agency.
(3) The report is written or recorded by, or with the assistance of, a peace officer.

**Persons Injured on Highways**

20016. Any peace officer, any member of an organized fire department or fire protection district, any employee of the Department of Transportation assigned to maintenance operations, or any member of the California Highway Patrol may transport or arrange for the transportation of any person injured in an accident upon any highway to a physician and surgeon or hospital, if the injured person does not object to such transportation. Any officer, member, or employee exercising ordinary care and precaution shall not be liable for any damages due to any further injury or for any medical, ambulance, or hospital bills incurred in behalf of the injured party.

**Pesticide Spills**

20017. Any peace officer who knows, or has reasonable cause to believe, that a pesticide has been spilled or otherwise accidentally released, shall report the spill as required in Section 105215 of the Health and Safety Code.

Amended Sec. 425, Ch. 1023, Stats. 1996. Effective September 29, 1996.

**Assistance to Motorists**

20018. Every law enforcement agency having traffic law enforcement responsibility as specified in subdivision (a) of Section 830.1 and in subdivision (a) of Section 830.2 of the Penal Code may develop, adopt, and implement a written policy for its officers to provide assistance to disabled motorists on highways within its primary jurisdiction. A copy of the policy, if adopted, shall be available to the public upon request.

DIVISION 11. RULES OF THE ROAD

CHAPTER 1. OBEDIENCE TO AND EFFECT OF TRAFFIC LAWS

Article 1. Definitions

Department

21000. Wherever in this division “department” occurs, it means the Department of the California Highway Patrol.

Scope of Division

21001. The provisions of this division refer exclusively to the operation of vehicles upon the highways, unless a different place is specifically referred to.

Article 2. Effect of Traffic Laws

Riding or Driving of Animal

21050. Every person riding or driving an animal upon a highway has all of the rights and is subject to all of the duties applicable to the driver of a vehicle by this division and Division 10 (commencing with Section 20000), except those provisions which by their very nature can have no application.

21051. The following sections apply to trolley coaches:

(a) Sections 1800, 4000, 4001, 4002, 4003, 4006, 4009, 4150, 4151, 4152, 4153, 4155, 4156, 4158, 4166, 4300 to 4309, inclusive, 4450 to 4454, inclusive, 4457, 4458, 4459, 4460, 4600 to 4610, inclusive, 4750, 4751, 4850, 4851, 4852, 4853, 5000, 5200 to 5205, inclusive, 5904, 6052, 8801, 9254, and 40001 with respect to 4000, relating to original and renewal of registration.

(b) Sections 9250, 9265, 9400, 9406, 9407, 9408, 9550, 9552, 9553, 9554, 9800 to 9808, inclusive, 14901, 42230 to 42233, inclusive, relating to registration and other fees.

(c) Sections 2800, 10851, 10852, 10853, 20001 to 20009, inclusive, 21052, 21053, 21054, 21450 to 21457, inclusive, 21461, 21650, 21651, 21658, 21659, 21700, 21701, 21702, 21703, 21709, 21712, 21750, 21753, 21754, 21755, 21800, 21801, 21802, 21803, 21804, 21950, 21951, 22106, 22107, 22108, 22109, 22350, 22351, 22352, 22400, 22450 to 22453, inclusive, 23103, 23104, 23105, 23110, 23112, 23152, 23153, 40831, 42002 with respect to 10852 and 10853, and 42004, relating to traffic laws.

(d) Sections 26706, 26707, and 26708, relating to equipment.

(e) Sections 17301, 17302, 17303, 21461, 35000, 35100, 35101, 35105, 35106, 35111, 35550, 35551, 35750, 35751, 35753, 40000.1 to 40000.25, inclusive, 40001, 40003, and 42031, relating to the size, weight, and loading of vehicles.

Public Officers and Employees

21052. The provisions of this code applicable to the drivers of vehicles upon the highways apply to the drivers of all vehicles while engaged in the course of employment by this State, any political subdivision thereof, any municipal corporation, or any district, including authorized emergency vehicles subject to those exemptions granted such authorized emergency vehicles in this code.

Public Employees Working on Highway

21053. This code, except Chapter 1 (commencing with Section 20000) of Division 10, Article 2 (commencing with Section 23152) of Chapter 12 of Division 11, and Sections 25268 and 25269, does not apply to public employees and publicly owned teams, motor vehicles, and other equipment while actually engaged in work upon the surface of a highway, or work of installation, removal, repairing, or maintaining official traffic control devices. This code does apply to those persons and vehicles when traveling to or from their work.

Representative of Public Agency

21054. The provisions of this division do not apply to the duly authorized representatives of any public agency while actually engaged in performing any of the work described in Section 21053 but apply to such persons when traveling to and from such work.

Exemption of Authorized Emergency Vehicles

21055. The driver of an authorized emergency vehicle is exempt from Chapter 2 (commencing with Section 21350), Chapter 3 (commencing with Section 21650), Chapter 4 (commencing with Section 21800), Chapter 5 (commencing with Section 21950), Chapter 6 (commencing with 22100), Chapter 7 (commencing with Section 22348), Chapter 8 (commencing with Section 22450), Chapter 9 (commencing with Section 22500), and Chapter 10 (commencing with Section 22650) of this division, and Article 3 (commencing with Section 38305) and Article 4 (commencing with Section 38312) of Chapter 5 of Division 16.5, under all of the following conditions:

(a) If the vehicle is being driven in response to an emergency call or while engaged in rescue operations or is being used in the immediate pursuit of an actual or suspected violator of the law or is responding to, but not returning from, a fire alarm, except that fire department vehicles are exempt whether directly responding to an emergency call or operated from one place to another as rendered desirable or necessary by reason of an emergency call and operated to the scene of the emergency or operated from one fire station to another or to some other location by reason of the emergency call.

(b) If the driver of the vehicle sounds a siren as may be reasonably necessary and the vehicle displays a lighted red lamp visible from the front as a warning to other drivers and pedestrians.

A siren shall not be sounded by an authorized emergency vehicle except when required under this section.

Effect of Exemption

21056. Section 21055 does not relieve the driver of a vehicle from the duty to drive with due regard for the safety of all persons using the highway, nor protect him from the consequences of an arbitrary exercise of the privileges granted in that section.

Sirens and Illegal Speed of Escorts

21057. Every police and traffic officer is hereby expressly prohibited from using a siren or driving at an illegal speed when serving as an escort of any vehicle, except when the escort or conveyance is furnished for the preservation of
life or when expediting movements of supplies and personnel for any federal, state, or local governmental agency during a national emergency, or state of war emergency, or state of emergency, or local emergency as defined in Section 8558 of the Government Code.

Vehicles Owned by Physicians

21058. A physician traveling in response to an emergency call shall be exempt from the provisions of Sections 22351 and 22352 if the vehicle so used by him displays an insignia approved by the department indicating that the vehicle is owned by a licensed physician. The provisions of this section do not relieve the driver of the vehicle from the duty to drive with due regard for the safety of all persons using the highway, nor protect the driver from the consequences of an arbitrary exercise of the privileges of this section.

Exemption of Rubbish and Garbage Vehicles

21059. Sections 21211, 21650, 21660, 22502, 22504, and subdivision (b) of Section 22500 do not apply to the operation of a rubbish or garbage truck while actually engaged in the collection of rubbish or garbage within a business or residence district, if the front turn signal lamps at each side of the vehicle are being flashed simultaneously and the rear turn signal lamps at each side of the vehicle are being flashed simultaneously.

This provision does not apply when the vehicle is being driven to and from work, and it does not relieve the driver of the vehicle from the duty to drive with due regard for the safety of all persons using the highway or protect him or her from the consequences of an arbitrary exercise of the privilege granted.

Exemption of Streetsweeping or Watering Vehicle

21060. Between the hours of 1 a.m. and 5 a.m., Sections 21650, 21660, 22502, 22504, and subdivision (b) of Section 22500 do not apply to the operation of a streetsweeper vehicle or watering vehicle, operated by a local authority, while the vehicle is actually sweeping streets or watering landscaping or vegetation within a business or residence district. The exemption is not applicable unless the turn signal lamps at each side of the vehicle are being flashed simultaneously.

This provision shall not apply when the vehicle is being driven to and from work, nor does it relieve the driver of such a vehicle from the duty to drive with due regard for the safety of all persons using the highway or protect the driver from the consequences of an arbitrary exercise of the privilege granted.

Notice of Reexamination

21061. (a) In addition to any action prescribed in Division 17 (commencing with Section 40000.1), a traffic officer may issue a notice of reexamination to any person who violates any provision of this division and who, at the time of the violation, exhibits evidence of incapacity to the traffic officer which leads the traffic officer to reasonably believe that the person is incapable of operating a motor vehicle in a manner so as not to present a clear or potential danger of risk of injury to that person or others if that person is permitted to resume operation of a motor vehicle.

(b) For purposes of this section, “evidence of incapacity” means evidence, other than violations of this division, of serious physical injury or illness or mental impairment or disorientation which is apparent to the traffic officer and which presents a clear or potential danger or risk of injury to the person or others if that person is permitted to resume operation of a motor vehicle.

Submission of Reexamination Notice

21062. The arresting officer shall, before the end of the next working day, transmit, or cause to be transmitted, a legible copy of the notice of reexamination to the Department of Motor Vehicles, and the department shall enter the record of the notice in the driver’s license record maintained by electronic recording and storage media by the department within five working days of its receipt.

Public Offense: Unsafe Operation of Motor Vehicle

21070. Notwithstanding any other provision of law, a driver who violates any provision of this division, that is punishable as an infraction, and as a result of that violation proximately causes bodily injury or great bodily injury, as defined in Section 12022.7 of the Penal Code, to another person is guilty of the public offense of unsafe operation of a motor vehicle with bodily injury or great bodily injury. That violation is punishable as an infraction pursuant to Section 42001.19.

Article 3. Local Regulation

Rules and Regulations: Subject Matter

21100. Local authorities may adopt rules and regulations by ordinance or resolution regarding all of the following matters:

(a) Regulating or prohibiting processions or assemblages on the highways.

(b) Licensing and regulating the operation of vehicles for hire and drivers of passenger vehicles for hire.

(c) Regulating traffic by means of traffic officers.

(d) Regulating traffic by means of official traffic control devices meeting the requirements of Section 21400.

(e) (1) Regulating traffic by means of a person given temporary or permanent appointment for that duty by the local authority when official traffic control devices are disabled or otherwise inoperable, at the scenes of accidents or disasters, or at locations as may require traffic direction for orderly traffic flow.

(2) A person shall not be appointed pursuant to this subdivision unless and until the local authority has submitted to the commissioner or to the chief law enforcement officer exercising jurisdiction in the enforcement of traffic laws within the area in which the person is to perform the duty, for review, a proposed program of instruction for the training of a person for that duty, and unless and until the commissioner or other chief law enforcement officer approves the proposed program. The commissioner or other chief law enforcement officer shall approve a proposed program if he or she reasonably determines that the program will provide sufficient training for persons assigned to perform the duty described in this subdivision.
(f) Regulating traffic at the site of road or street construction or maintenance by persons authorized for that duty by the local authority.

(g) (1) Licensing and regulating the operation of tow truck service or tow truck drivers whose principal place of business or employment is within the jurisdiction of the local authority, excepting the operation and operators of any auto dismantlers’ tow vehicle licensed under Section 11505 or any tow truck operated by a repossessing agency licensed under Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code and its registered employees.

(2) The Legislature finds that the safety and welfare of the general public is promoted by permitting local authorities to regulate tow truck service companies and operators by requiring licensure, insurance, and proper training in the safe operation of towing equipment, thereby ensuring against towing mistakes that may lead to violent confrontation, stranding motorists in dangerous situations, impeding the expedited vehicle recovery, and wasting state and local law enforcement’s limited resources.

(3) This subdivision does not limit the authority of a city or city and county pursuant to Section 12111.

(h) Operation of bicycles, and, as specified in Section 21114.5, electric carts by physically disabled persons, or persons 50 years of age or older, on public sidewalks.

(i) Providing for the appointment of nonstudent school crossing guards for the protection of persons who are crossing a street or highway in the vicinity of a school or while returning thereafter to a place of safety.

(j) Regulating the methods of deposit of garbage and refuse in streets and highways for collection by the local authority or by any person authorized by the local authority.

(k) (1) Regulating cruising.

(2) The ordinance or resolution adopted pursuant to this subdivision shall regulate cruising, which is the repetitive driving of a motor vehicle past a traffic control point in traffic that is congested at or near the traffic control point, as determined by the ranking peace officer on duty within the affected area, within a specified time period and after the vehicle operator has been given an adequate written notice that further driving past the control point will be a violation of the ordinance or resolution.

(3) A person is not in violation of an ordinance or resolution adopted pursuant to this subdivision unless both of the following apply:

(A) That person has been given the written notice on a previous driving trip past the control point and then again passes the control point in that same time interval.

(B) The beginning and end of the portion of the street subject to cruising controls are clearly identified by signs that briefly and clearly state the appropriate provisions of this subdivision and the local ordinance or resolution on cruising.

(l) Regulating or authorizing the removal by peace officers of vehicles unlawfully parked in a fire lane, as described in Section 22500.1, on private property. A removal pursuant to this subdivision shall be consistent, to the extent possible, with the procedures for removal and storage set forth in Chapter 10 (commencing with Section 22650).

(m) Regulating mobile billboard advertising displays, as defined in Section 395.5, including the establishment of penalties, which may include, but are not limited to, removal of the mobile billboard advertising display, civil penalties, and misdemeanor criminal penalties, for a violation of the ordinance or resolution. The ordinance or resolution may establish a minimum distance that a mobile billboard advertising display shall be moved after a specified time period.

(n) Licensing and regulating the operation of pedicabs for hire, as defined in Section 467.5, and operators of pedicabs for hire, including requiring one or more of the following documents:

(1) A valid California driver’s license.

(2) Proof of successful completion of a bicycle safety training course certified by the League of American Bicyclists or an equivalent organization as determined by the local authority.

(3) A valid California identification card and proof of successful completion of the written portion of the California driver’s license examination administered by the department. The department shall administer, without charging a fee, the original driver’s license written examination on traffic laws and signs to a person who states that he or she is, or intends to become, a pedicab operator, and who holds a valid California identification card or has successfully completed an application for a California identification card. If the person achieves a passing score on the examination, the department shall issue a certificate of successful completion of the examination, bearing the person’s name and identification card number. The certificate shall not serve in lieu of successful completion of the required examination administered as part of any subsequent application for a driver’s license. The department is not required to enter the results of the examination into the computerized record of the person’s identification card or otherwise retain a record of the examination or results.

(o) (1) This section does not authorize a local authority to enact or enforce an ordinance or resolution that establishes a violation if a violation for the same or similar conduct is provided in this code, nor does it authorize a local authority to enact or enforce an ordinance or resolution that assesses a fine, penalty, assessment, or fee for a violation if a fine, penalty, assessment, or fee for a violation involving the same or similar conduct is provided in this code.

(2) This section does not preclude a local authority from enacting parking ordinances pursuant to existing authority in Chapter 9 (commencing with Section 22500) of Division 11.

(p) (1) Regulating advertising signs on motor vehicles parked or left standing upon a public street. The ordinance or resolution may establish a minimum distance that the advertising sign shall be moved after a specified time period.

(2) Paragraph (1) does not apply to any of the following:

(A) Advertising signs that are permanently affixed to the body of, an integral part of, or a fixture of a motor vehicle for permanent decoration, identification, or display and that do not extend beyond the overall length, width, or height of the vehicle.

(B) If the license plate frame is installed in compliance with Section 5201, paper advertisements issued by a dealer contained within that license plate frame or any advertisements on that license plate frame.

(3) As used in paragraph (2), “permanently affixed” means any of the following:
(A) Painted directly on the body of a motor vehicle.
(B) Applied as a decal on the body of a motor vehicle.
(C) Placed in a location on the body of a motor vehicle that was specifically designed by a vehicle manufacturer as defined in Section 672 and licensed pursuant to Section 11701, in compliance with both state and federal law or guidelines, for the express purpose of containing an advertising sign.

Amended Sec. 1, Ch. 510, Stats. 2006. Effective January 1, 2007.
Amended Sec. 1, Ch. 373, Stats. 2012. Effective January 1, 2013.
Amended Sec. 1, Ch. 652, Stats. 2013. Effective January 1, 2014.

Traffic Control Devices: Uniform Standards

21100.1. Whenever any city or county, by ordinance or resolution, permits, restricts, or prohibits the use of public or private highways pursuant to this article, any traffic control device erected by it on or after January 1, 1981, shall conform to the uniform standards and specifications adopted by the Department of Transportation pursuant to Section 21400.

Local Regulation of Traffic

21100.3. It is unlawful for any person to disobey the traffic directions of a person appointed or authorized by a local authority to regulate traffic pursuant to subdivision (e) of Section 21100 when such appointee is wearing an official insignia issued by the local authority and is acting in the course of his appointed duties.

Taxicabs: Violation of Licensing Requirements: Impoundment

21100.4. (a) (1) A magistrate presented with the affidavit of a peace officer or a designated local transportation officer establishing reasonable cause to believe that a vehicle, described by vehicle type and license number, is being operated as a taxicab or other passenger vehicle for hire in violation of licensing requirements adopted by a local authority under subdivision (b) of Section 21100 shall issue a warrant or order authorizing the peace officer or designated local transportation officer to immediately seize and cause the removal of the vehicle. Asused in this section, “designated local transportation officer” means any local public officer employed by a local authority to investigate and enforce local taxicab and vehicle for hire laws and regulations.

(2) The warrant or court order may be entered into a computerized database.

(3) A vehicle so impounded may be impounded for a period not to exceed 30 days.

(4) The impounding agency, within two working days of impoundment, shall send a notice by certified mail, return receipt requested, to the legal owner of the vehicle, at an address obtained from the department, informing the owner that the vehicle has been impounded and providing the owner with a copy of the warrant or court order. Failure to notify the legal owner within two working days shall prohibit the impounding agency from charging for more than 15 days’ impoundment when a legal owner redeems the impounded vehicle. The law enforcement agency shall be open to issue a release to the registered owner or legal owner, or the agent of either, whenever the agency is open to serve the public for regular, nonemergency business.

(b) (1) An impounding agency shall release a vehicle to the registered owner or his or her agent prior to the end of the impoundment period and without the permission of the magistrate authorizing the vehicle’s seizure under any of the following circumstances:

(A) When the vehicle is a stolen vehicle.
(B) When the vehicle was seized under this section for an offense that does not authorize the seizure of the vehicle.
(C) When the vehicle is a rental car.

(2) A vehicle may not be released under this subdivision, except upon presentation of the registered owner’s or agent’s currently valid license to operate the vehicle under the licensing requirements adopted by the local authority under subdivision (b) of Section 21100, and proof of current vehicle registration, or upon order of the court.

(c) (1) Whenever a vehicle is impounded under this section, the magistrate ordering the storage shall provide the vehicle’s registered and legal owners of record, or their agents, with the opportunity for a poststorage hearing to determine the validity of the storage.

(2) A notice of the storage shall be mailed or personally delivered to the registered and legal owners within 48 hours after issuance of the warrant or court order, excluding weekends and holidays, by the person or agency executing the warrant or court order, and shall include all of the following information:

(A) The name, address, and telephone number of the agency providing the notice.
(B) The location of the place of storage and a description of the vehicle, which shall include, if available, the name or make, the manufacturer, the license plate number, and the mileage of the vehicle.
(C) A copy of the warrant or court order and the peace officer’s affidavit, as described in subdivision (a).
(D) A statement that, in order to receive their poststorage hearing, the owners, or their agents, are required to request the hearing from the magistrate issuing the warrant or court order in person, in writing, or by telephone, within 10 days of the date of the notice.

(3) The poststorage hearing shall be conducted within two court days after receipt of the request for the hearing.

(4) At the hearing, the magistrate may order the vehicle released if he or she finds any of the circumstances described in subdivision (b) or (e) that allow release of a vehicle by the impounding agency.

(5) Failure of either the registered or legal owner, or his or her agent, to request, or to attend, a scheduled hearing satisfies the poststorage hearing requirement.

(6) The agency employing the peace officer or designated local transportation officer who caused the magistrate to issue the warrant or court order shall be responsible for the costs incurred for towing and storage if it is determined in the poststorage hearing that reasonable grounds for the storage are not established.

(d) The registered owner or his or her agent is responsible for all towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5.
(e) A vehicle removed and seized under subdivision (a) shall be released to the legal owner of the vehicle or the legal owner's agent prior to the end of the impoundment period and without the permission of the magistrate authorizing the seizure of the vehicle if all of the following conditions are met:

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state or is another person, not the registered owner, holding a security interest in the vehicle.

(2) (A) The legal owner or the legal owner's agent pays all towing and storage fees related to the seizure of the vehicle. A lien sale processing fee shall not be charged to the legal owner who redeems the vehicle prior to the 15th day of impoundment. Neither the impounding authority nor any person having possession of the vehicle shall collect from the legal owner of the type specified in paragraph (1), or the legal owner's agent, any administrative charges imposed pursuant to Section 22850.5 unless the legal owner voluntarily requested a poststorage hearing.

(B) A person operating or in charge of a storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing, storage, and related fees by a legal or registered owner or the owner's agent claiming the vehicle. A credit card shall be in the name of the person presenting the card. “Credit card” means “credit card” as defined in subdivision (a) of Section 1747.02 of the Civil Code, except, for the purposes of this section, credit card does not include a credit card issued by a retail seller.

(C) A person operating or in charge of a storage facility described in subparagraph (B) who violates subparagraph (B) shall be civilly liable to the owner of the vehicle or to the person who tendered the fees for four times the amount of the towing, storage, and related fees, but not to exceed five hundred dollars ($500).

(D) A person operating or in charge of a storage facility described in subparagraph (B) shall have sufficient funds on the premises of the primary storage facility during normal business hours to accommodate, and make change in, a reasonable monetary transaction.

(E) Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies on rates.

(3) (A) The legal owner or the legal owner's agent presents to the law enforcement agency or impounding agency, or any person acting on behalf of those agencies, a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of repossession for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. The law enforcement agency, impounding agency, or any other governmental agency, or any person acting on behalf of those agencies, shall not require the presentation of any other documents.

(B) The legal owner or the legal owner’s agent presents to the person in possession of the vehicle, or any person acting on behalf of the person in possession, a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of repossession for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. The person in possession of the vehicle, or any person acting on behalf of the person in possession, shall not require the presentation of any other documents.

(C) All presented documents may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The law enforcement agency, impounding agency, or any person in possession of the vehicle, or anyone acting on behalf of them, shall not require any documents to be notarized. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies, may require the agent of the legal owner to produce a photocopy or facsimile copy of its reposssession agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or to demonstrate, to the satisfaction of the law enforcement agency, impounding agency, or any person in possession of the vehicle, or anyone acting on behalf of them, that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

(D) An administrative cost authorized under subdivision (a) of Section 22850.5 shall not be charged to the legal owner of the type specified in paragraph (1) who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. A city, county, city and county, or state agency shall not require a legal owner or a legal owner’s agent to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner’s agent. The law enforcement agency, impounding agency, or any other governmental agency, or any person acting on behalf of those agencies, shall not require any documents other than those specified in this paragraph. The law enforcement agency, impounding agency, or other governmental agency, or any person acting on behalf of those agencies, may not require any documents to be notarized. The legal owner or the legal owner’s agent shall be given a copy of any documents he or she is required to sign, except for a vehicle evidentiary hold logbook. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies, or any person in possession of the vehicle, may photocopy and retain the copies of any documents presented by the legal owner or legal owner’s agent.

(4) A failure by a storage facility to comply with any applicable conditions set forth in this subdivision shall not affect the right of the legal owner or the legal owner’s agent to retrieve the vehicle, provided all conditions required of the legal owner or legal owner’s agent under this subdivision are satisfied.

(f) (1) A legal owner or the legal owner’s agent that obtains release of the vehicle pursuant to subdivision (e) shall not...
release the vehicle to the registered owner of the vehicle or the person who was listed as the registered owner when the vehicle was impounded or any agents of the registered owner until the termination of the impoundment period.

(2) The legal owner or the legal owner's agent shall not relinquish the vehicle to the registered owner or the person who was listed as the registered owner when the vehicle was impounded until the registered owner or that owner's agent presents his or her valid driver's license or valid temporary driver's license, and an operator's license that is in compliance with the licensing requirements adopted by the local authority under subdivision (b) of Section 21100, to the legal owner or the legal owner's agent. The legal owner or the legal owner's agent or the person in possession of the vehicle shall make every reasonable effort to ensure that the licenses presented are valid and possession of the vehicle will not be given to the driver who was involved in the original impoundment proceeding until the expiration of the impoundment period.

(3) Prior to relinquishing the vehicle, the legal owner may require the registered owner to pay all towing and storage charges related to the impoundment and the administrative charges authorized under Section 22850.5 that were incurred by the legal owner in connection with obtaining the custody of the vehicle.

(4) Any legal owner who knowingly releases or causes the release of a vehicle to a registered owner or the person in possession of the vehicle at the time of the impoundment or any agent of the registered owner in violation of this subdivision shall be guilty of a misdemeanor and subject to a civil penalty in the amount of two thousand dollars ($2,000).

(5) The legal owner, registered owner, or person in possession of the vehicle shall not change or attempt to change the name of the legal owner or the registered owner on the records of the department until the vehicle is released from the impoundment.

(g) Notwithstanding any other provision of this section, the registered owner and not the legal owner shall remain responsible for any towing and storage charges related to the impoundment and the administrative charges authorized under Section 22850.5 and any parking fines, penalties, and administrative fees incurred by the registered owner.

(h) The law enforcement agency and the impounding agency, including any storage facility acting on behalf of the law enforcement agency or impounding agency, shall comply with this section and shall not be liable to the registered owner for the improper release of the vehicle to the legal owner or the legal owner's agent if the release complies with this section. The legal owner shall indemnify and hold harmless a storage facility from any claims arising out of the release of the vehicle to the legal owner or the legal owner's agent and from any damage to the vehicle after its release, including the reasonable costs associated with defending any such claims. A law enforcement agency shall not refuse to issue a release to a legal owner or the agent of a legal owner on the grounds that it previously issued a release.

Amended Sec. 1, Ch. 32, Stats. 2008. Effective January 1, 2009.
Amended Sec. 8, Ch. 322, Stats. 2009. Effective January 1, 2010.

Island City Vehicle Regulation

21100.5. Notwithstanding any other provisions of law, local authorities of any city which is on a natural island with an area in excess of 20,000 acres and which is within a county having a population in excess of 4,000,000, may, if they determine such rules and regulations to be necessary in view of the special problem existing thereon with respect to the size and nature of the streets of the city and with respect to the characteristics and nature of the city itself, adopt rules and regulations by ordinance or resolution on the following matters:

(a) Regulating the size of vehicles used on streets under their jurisdiction.

(b) Regulating the number of vehicles permitted on streets under their jurisdiction.

(c) Prohibiting the operation, on streets under their jurisdiction, of designated classes of vehicles.

(d) Establishing noise limits, which are different from those prescribed by this code, for vehicles operated on streets under their jurisdiction and prohibiting the operation of vehicles which exceed such limits.

(e) Establishing a maximum speed limit lower than that which the local authority otherwise permitted by this code to establish.

This section shall not apply to vehicles of utilities which are under the jurisdiction of the Public Utilities Commission while engaged in maintenance and construction type service work.

Regulation of Highways

21101. Local authorities, for those highways under their jurisdiction, may adopt rules and regulations by ordinance or resolution on the following matters:

(a) Closing any highway to vehicular traffic when, in the opinion of the legislative body having jurisdiction, the highway is either of the following:

(1) No longer needed for vehicular traffic.

(2) The closure is in the interests of public safety and all of the following conditions and requirements are met:

(A) The street proposed for closure is located in a county with a population of 6,000,000 or more.

(B) The street has an unsafe volume of traffic and a significant incidence of crime.

(C) The affected local authority conducts a public hearing on the proposed street closure.

(D) Notice of the hearing is provided to residents and owners of property adjacent to the street proposed for closure.

(E) The local authority makes a finding that closure of the street likely would result in a reduced rate of crime.

(b) Designating any highway as a through highway and requiring that all vehicles observe official traffic control devices before entering or crossing the highway or designating any intersection as a stop intersection and requiring all vehicles to stop at one or more entrances to the intersection.

(c) Prohibiting the use of particular highways by certain vehicles, except as otherwise provided by the Public Utilities Commission pursuant to Article 2 (commencing with Section 1031) of Chapter 5 of Part 1 of Division 1 of the Public Utilities Code.
§21101.2

(d) Closing particular streets during regular school hours for the purpose of conducting automobile driver training programs in the secondary schools and colleges of this state.

(e) Temporarily closing a portion of any street for celebrations, parades, local special events, and other purposes when, in the opinion of local authorities having jurisdiction or a public officer or employee that the local authority designates by resolution, the closing is necessary for the safety and protection of persons who are to use that portion of the street during the temporary closing.

(f) Prohibiting entry to, or exit from, or both, from any street by means of islands, curbs, traffic barriers, or other roadway design features to implement the circulation element of a general plan adopted pursuant to Article 6 (commencing with Section 65350) of Chapter 3 of Division 1 of Title 7 of the Government Code. The rules and regulations authorized by this subdivision shall be consistent with the responsibility of local government to provide for the health and safety of its citizens.

Local Authority to Divert Traffic

21101.2. Local authorities may adopt rules and regulations by ordinance or resolution to provide that if a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, determines that the traffic load on a particular street or highway, or a portion thereof, is such that little or no vehicular flow is occurring and, additionally, if the peace officer finds that a significant number of vehicles are not promptly moving when an opportunity arises to do so, then the peace officer may divert vehicles, excepting public safety or emergency vehicles, from that street or highway, or portion thereof, subject to traffic congestion until such time as reasonably flowing traffic is restored.

Local Authority to Temporarily Close Highway: Criminal Activity

21101.4. (a) A local authority may, by ordinance or resolution, adopt rules and regulations for temporarily closing to through traffic a highway under its jurisdiction when all of the following conditions are, after a public hearing, found to exist:

(1) The local authority finds and determines that there is serious and continual criminal activity in the portion of the highway recommended for temporary closure. This finding and determination shall be based upon the recommendation of the police department or, in the case of a highway in an unincorporated area, on the joint recommendation of the sheriff's department and the Department of the California Highway Patrol.

(2) The highway is not designated as a through highway or arterial street.

(3) Vehicular or pedestrian traffic on the highway contributes to the criminal activity.

(4) The closure will not substantially adversely affect traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services, or the delivery of freight by commercial vehicles in the area of the highway proposed to be temporarily closed.

(b) A highway may be temporarily closed pursuant to subdivision (a) for not more than 18 months, except that this period may be extended for not more than eight additional consecutive periods of not more than 18 months each if, prior to each of those extensions, the local authority holds a public hearing and finds, by ordinance or resolution, that all of the following conditions exist:

(1) Continuation of the temporary closure will assist in preventing the occurrence or reoccurrence of the serious and continual criminal activity found to exist when the immediately preceding temporary closure was authorized. This finding and determination shall be based upon the recommendation of the police department or, in the case of a highway in an unincorporated area, on the joint recommendation of the sheriff's department and the Department of the California Highway Patrol.

(2) The highway is not designated as a through highway or arterial street.

(3) Vehicular or pedestrian traffic on the highway contributes to the criminal activity.

(4) The immediately preceding closure has not substantially adversely affected traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services, or the delivery of freight by commercial vehicles in the area of the highway that was temporarily closed.

(c) The local authority shall mail written notice of the public hearing required under subdivision (a) or (b) to all residents and owners, as shown on the last equalized assessment roll, of property adjacent to the portion of highway where a temporary closure or extension of temporary closure is proposed.

Amended Sec. 9, Ch. 173, Stats. 2007. Effective August 24, 2007.

Local Authority: Placement of Gates

21101.6. Notwithstanding Section 21101, local authorities may not place gates or other selective devices on any street which deny or restrict the access of certain members of the public to the street, while permitting others unrestricted access to the street.

This section is not intended to make a change in the existing law, but is intended to codify the decision of the Court of Appeal in City of Lafayette v. County of Contra Costa (91 Cal. App. 3d 749).

Local Authority to Close Streets

21102. Local authorities may adopt rules and regulations by ordinance or resolution closing to vehicular traffic that portion of any street or highway crossing or dividing any school ground or grounds when in the opinion of the legislative body having jurisdiction such closing is necessary for the protection of persons attending such school or school grounds. The closing to vehicular traffic may be limited to such hours and days as the legislative body may specify. No such ordinance or resolution shall be effective until appropriate signs giving notice thereof are posted along the street or highway affected, nor in the case of state highways, until such
ordinance or resolution is approved by the Department of Transportation.

Local Authorities: Restricting Traffic in Alleys

21102.1. Notwithstanding any other provision of law, local authorities may, by ordinance or resolution, adopt rules and regulations restricting vehicular or pedestrian traffic through any alley by means of gates, barriers, or other control devices, when, in the opinion of the local authority having jurisdiction over the alley, the restriction is necessary for the protection or preservation of the public peace, safety, health, or welfare, subject to the following conditions:

(a) No ordinance or resolution adopted pursuant to this section shall be enforceable until appropriate signs giving notice of the restriction are posted at every entrance to the alley.

(b) In the coastal zone, as defined in subdivision (a) of Section 30103 of the Public Resources Code, where the alley provides direct access to any public beach or state waters, the local authority shall comply with Division 20 (commencing with Section 30000) of the Public Resources Code.

(c) In the area administered by the San Francisco Bay Conservation and Development Commission, where the alley provides direct access to any public beach, state waters, or wetlands, the local authority shall first obtain the concurrence by, or on behalf of, the San Francisco Bay Conservation and Development Commission. The concurrence or objection shall be based on the permits issued by the San Francisco Bay Conservation and Development Commission and in conformance with the policies contained in Title 7.2 (commencing with Section 66600) of the Government Code and Division 19 (commencing with Section 29000) of the Public Resources Code.

(d) The local authority shall provide access to utility vehicular or pedestrian traffic in order that the utility may maintain, operate, replace, remove, or renew existing and functioning utility facilities.

(e) No ordinance or resolution adopted pursuant to this section shall prohibit the delivery of freight by commercial vehicles.

(f) No ordinance or resolution adopted pursuant to this section shall be implemented in a manner that adversely affects the operation of emergency vehicles or the performance of municipal services.

(g) No ordinance or resolution adopted pursuant to this section shall restrict the access of certain members of the public to the alley, while permitting others unrestricted access to the alley.

Amended Sec. 1, Ch. 215, Stats. 1995. Effective January 1, 1996.

Signs Required

21103. No ordinance or resolution enacted under Section 21101 shall be effective until signs giving notice of the local traffic laws are posted at all entrances to the highway or part thereof affected.

Approval of Local Regulations

21104. No ordinance or resolution proposed to be enacted under Section 21101 or subdivision (d) of Section 21100 is effective as to any highway not under the exclusive jurisdiction of the local authority enacting the same, except that an ordinance or resolution which is submitted to the Department of Transportation by a local legislative body in complete draft form for approval prior to the enactment thereof is effective as to any state highway or part thereof specified in the written approval of the department.

This section does not preclude the application of an ordinance or resolution adopted under Section 21101 or subdivision (d) of Section 21100 to streets maintained by a community services district organized pursuant to Division 3 (commencing with Section 61000) of Title 6 of the Government Code. An ordinance or resolution enacted by a local authority pursuant to subdivision (c) of Section 21101 may impose a fine or penalty of up to one hundred dollars ($100) for a violation of this code.

Boundary Line Streets

21105. No rule or regulation adopted under Sections 21100 or 21101 shall be effective as to boundary line streets where portions thereof are within different jurisdictions unless all authorities having jurisdiction of such portions of the street concerned have approved the same.

Establishment of Crosswalks

21106. (a) Local authorities, by ordinance or resolution, may establish crosswalks between intersections.

(b) Local authorities may install signs at or adjacent to an intersection directing that pedestrians shall not cross in a crosswalk indicated at the intersection. It is unlawful for any pedestrian to cross at the crosswalk prohibited by a sign.
Amended Ch. 417, Stats. 1959. Effective September 18, 1859.

Private Roads

21107. The provisions of this code shall not prevent any city from adopting rules and regulations by ordinance or resolution, regulating vehicular traffic on privately owned and maintained roads located within the boundary of such city, except that no such ordinance or resolution shall be effective until signs giving notice thereof are posted on the roads affected. The provisions of this section shall not apply to any city in which there are publicly maintained city streets.

Private Roads Open for Public Use

21107.5. (a) Any city or county may, by ordinance or resolution, find and declare that there are privately owned and maintained roads as described in the ordinance or resolution within the city or county that are generally held open for use by the public for vehicular travel and which so connect with highways that the public cannot determine that the roads are not highways. Upon enactment by a city or county of the ordinance or resolution, this code shall apply to the privately owned and maintained road, except as provided in subdivision (b).

(b) No ordinance or resolution enacted under subdivision (a) shall apply to any road on which the owner has erected a notice of a size, shape and color as to be readily legible during daylight hours from a distance of 100 feet to the effect that the road is privately owned and maintained and that it is not subject to public traffic regulations or control.

(c) No ordinance or resolution shall be enacted under subdivision (a) without a public hearing after 10 days’ written
notice to the owner of the privately owned and maintained road involved.

(d) The department shall not be required to provide patrol or enforce any provision of this code on any privately owned and maintained road, except those provisions applicable to private property, other than pursuant to this section.

**Private Roads Serving Commercial Establishments**

21107.6. (a) Any city or county may, by ordinance, find and declare that there are privately owned and maintained roads as described in such ordinance within the city or county which are generally held open to the public for purposes of vehicular travel to serve commercial establishments. Upon enactment by a city or county of such an ordinance, the provisions of this code shall apply to any such privately owned and maintained road. No ordinance shall be enacted under this section without a public hearing thereon and 10 days' prior notice to the owner of the privately owned and maintained road involved.

(b) Notwithstanding the provisions of subdivision (a) no ordinance enacted thereunder shall apply to any road described therein on which the owner has caused to be erected a notice of such size, shape and color as to be readily legible during daylight hours from a distance of 100 feet, to the effect that the road is privately owned and maintained and that it is not subject to public traffic regulations or control.

(c) The department shall not be required to provide patrol or enforce any provisions of this code on any privately owned and maintained road subjected to the provisions of this code under this section, except those provisions applicable to private property other than by action under this section.

**Private Roads Not Open for Public Use**

21107.7. (a) Any city or county may, by ordinance or resolution, find and declare that there are privately owned and maintained roads as described in the ordinance or resolution within the city or county that are not generally held open for use of the public for purposes of vehicular travel but, by reason of their proximity to or connection with highways, the interests of any residents residing along the roads and the motoring public will best be served by application of the provisions of this code to those roads. No ordinance or resolution shall be enacted unless there is first filed with the city or county a petition requesting it by a majority of the owners of any privately owned and maintained road, or by at least a majority of the board of directors of a common interest development, as defined by Section 4100 or 6534 of the Civil Code, that is responsible for maintaining the road, and without a public hearing thereon and 10 days' prior written notice to all owners of the road or all of the owners in the development. Upon enactment of the ordinance or resolution, the provisions of this code shall apply to the privately owned and maintained road if appropriate signs are erected at the entrance to the road of the size, shape, and color as to be readily legible during daylight hours from a distance of 100 feet, to the effect that the road is subject to the provisions of this code. The city or county may impose reasonable conditions and may authorize the owners, or board of directors of the common interest development, to erect traffic signs, signals, markings, and devices which conform to the uniform standards and specifications adopted by the Department of Transportation.

(b) The department shall not be required to provide patrol or enforce any provisions of this code on any privately owned and maintained road subjected to the provisions of this code under this section, except those provisions applicable to private property other than by action under this section.

(c) As used in this section, “privately owned and maintained roads” includes roads owned and maintained by a city, county or district that are not dedicated to use by the public or are not generally held open for use of the public for purposes of vehicular travel.

Amended Sec. 80, Ch. 605, Stats. 2013. Effective January 1, 2014.

**Private Parking Facilities**

21107.8. (a) Any city or county may, by ordinance or resolution, find and declare that there are privately owned and maintained offstreet parking facilities as described in the ordinance or resolution within the city or county that are generally held open for use of the public for purposes of
vehicular parking. Upon enactment by a city or county of the ordinance or resolution, Sections 22350, 23103, and 23109 and the provisions of Division 16.5 (commencing with Section 38000) shall apply to privately owned and maintained offstreet parking facilities, except as provided in subdivision (b).

(b) Notwithstanding the provisions of subdivision (a), no ordinance or resolution enacted thereunder shall apply to any offstreet parking facility described therein unless the owner or operator has caused to be posted in a conspicuous place at each entrance to that offstreet parking facility a notice not less than 17 by 22 inches in size with lettering not less than one inch in height, to the effect that the offstreet parking facility is subject to public traffic regulations and control.

(c) No ordinance or resolution shall be enacted under subdivision (a) without a public hearing thereon and 10 days prior written notice to the owner and operator of the privately owned and maintained offstreet parking facility involved.

(d) Section 22507.8 may be enforced without enactment of an ordinance or resolution as required under subdivision (a) or the posting of a notice at each entrance to the offstreet parking facility as required under subdivision (b).

(e) The department shall not be required to provide patrol or enforce any provisions of this code on any privately owned and maintained offstreet parking facility subject to the provisions of this code under this section except those provisions applicable to private property other than by action under this section.

**Mobilehome Park: Roads: Local Regulations**

21107.9. (a) Any city or county, or city and county, may, by ordinance or resolution, find and declare that there are privately owned and maintained roads within a mobilehome park, as defined in Section 18214 of the Health and Safety Code, or within a manufactured housing community, as defined in Section 1 8801 of the Health and Safety Code, within the city or county, or city and county, that are generally not held open for use by the public for vehicular travel. Upon enactment of the ordinance or resolution, the provisions of this code shall apply to the privately owned and maintained roads within a mobilehome park or manufactured housing community if appropriate signs are erected at the entrance or entrances to the mobilehome park or manufactured housing community of the size, shape, and color as to be readily legible during daylight hours from a distance of 100 feet, to the effect that the roads within the park or community are subject to the provisions of this code. The city or county, or city and county, may impose reasonable conditions and may authorize the owners of the mobilehome park or manufactured housing community to erect traffic signs, markings, or devices which conform to the uniform standards and specifications adopted by the Department of Transportation.

(b) No ordinance or resolution shall be enacted unless there is first filed with the city or county a petition requested by the owner or owners of any privately owned and maintained roads within a mobilehome park or manufactured housing community, who are responsible for maintaining the roads.

(c) No ordinance or resolution shall be enacted without a public hearing thereon and 10 days’ prior written notice to all owners of the roads within a mobilehome park or manufactured housing community proposed to be subject to the ordinance or resolution. At least seven days prior to the public hearing, the owner or manager of the mobilehome park or manufactured housing community shall post a written notice about the hearing in a conspicuous area in the park or community clubhouse, or if no clubhouse exists, in a conspicuous public place in the park or community.

(d) For purposes of this section, the prima facie speed limit on any road within a mobilehome park or manufactured housing community shall be 15 miles per hour. This section does not preclude a mobilehome park or manufactured housing community from requesting a higher or lower speed limit if an engineering and traffic survey has been conducted within the community supporting that request.

(e) The department is not required to provide patrol or enforce any provision of this code on any privately owned and maintained road within a mobilehome park or manufactured housing community, except those provisions applicable to private property other than by action under this section.

**Private Roads Leading to Airports**

21108. Local authorities may adopt rules and regulations by ordinance or resolution regulating vehicular traffic on privately owned and maintained roads or ways within the boundaries of a privately owned airport, when the roads or ways are expressly open to the general public for purposes of vehicular traffic.

The rules or regulations shall not be effective until appropriate signs giving notice thereof are posted along the roads or ways affected.

**Tunnels, Bridges, and Viaducts**

21109. (a) Local authorities may adopt rules and regulations by ordinance or resolution regulating vehicular and pedestrian traffic in subways, tubes, and tunnels or upon bridges or viaducts.

(b) The proposed ordinance or resolution shall not be effective as to any state highway until approved in writing by the Department of Transportation. The Department of Transportation, in considering any proposed ordinance or resolution to prohibit or restrict the use by cargo tank vehicles displaying flammable liquids placards in tunnels of a length of 300 feet or greater, shall consult with the Department of the California Highway Patrol and hold a public hearing as provided in Section 21109.5 of the Vehicle Code. In evaluating the feasibility of prohibiting or restricting the use of the structure by cargo tank vehicles displaying flammable liquids placards, the Department of Transportation shall conduct a traffic and engineering survey which includes an analysis of the relative risks to public safety in determining the feasibility of reasonable alternative routes.

(c) The rules or regulations shall not be effective until appropriate signs have been posted giving notice thereof to drivers and pedestrians approaching the highway structures.

**Public Hearings**

21109.5. (a) No restriction or prohibition shall be effective pursuant to subdivision (b) of Section 21109 or Section 34020.5 except upon notice and hearing in the manner prescribed in this section.
§21110  

(b) Notice of hearing shall be published pursuant to Section 6064 of the Government Code. The notice shall advise all interested parties that they may submit written or oral objections to the proposed action and shall designate a time and place for presentation of the objections. The time for submission of objections shall not expire, and the hearings shall not be held, less than 60 days after the first publication of notice. The hearing shall be conducted by the Department of Transportation and interested parties shall be accorded an adequate opportunity to be heard with respect to their objections.

Added Ch. 1255, Stats. 1982. Effective July 1, 1983.

Railroad Crossings  

21110. Local authorities may adopt rules and regulations by ordinance or resolution to require that all vehicles stop before entering or crossing the tracks at any highway railroad grade crossing when signs are in place giving notice thereof, but no such ordinance shall be effective unless approved by an order of the Public Utilities Commission.

Housing Projects  

21111. Local authorities may adopt rules and regulations by ordinance or resolution regulating vehicular traffic on privately owned and maintained roads or ways within the boundaries of any housing project or within the site of any housing owned or operated by a housing authority created under and by virtue of the Housing Authorities Law, commencing at Section 34200 of the Health and Safety Code, on privately owned and maintained roads or ways within areas which would be a residence district if the road or way were a public highway, or, with the consent of the owner, on publicly owned and maintained roads and ways within areas which are not owned by such local authorities. The rules or regulations shall not be effective until appropriate signs giving notice thereof are posted along the roads or ways affected.

Taxicab and Bus Stands  

21112. Local authorities may by ordinance license and regulate the location of stands on streets and highways for use by taxicabs and other public carriers for hire in their respective jurisdictions. No such ordinance shall be effective as to any state highway until approved in writing by the Department of the California Highway Patrol, or any property under the possession or control of a housing authority formed pursuant to Part 2 of Division 24 of the Health and Safety Code, except with the permission of, and upon and subject to any condition or regulation that may be imposed by, the legislative body of the municipality, or the governing board or officer of the public school, state university, state college, county park, municipal airport, rapid transit district, transit development board, transit district, public transportation agency, county transportation commission, joint powers agency operating or managing a commuter rail system, or state, county, or hospital district institution or building, or educational institution, or harbor district, or a district organized pursuant to Part 3 (commencing with Section 27000) of Division 16 of the Streets and Highways Code, or housing authority, or the Director of Parks and Recreation regarding units of the state park system or the state agency with jurisdiction over the grounds served by the Department of the California Highway Patrol.

(b) A governing board, legislative body, or officer shall erect or place appropriate signs giving notice of any special conditions or regulations that are imposed under this section and the governing board, legislative body, or officer shall also prepare and keep available at the principal administrative office of the governing board, legislative body, or officer, for examination by all interested persons, a written statement of all those special conditions and regulations adopted pursuant to this section.

(c) When a governing board, legislative body, or officer permits public traffic upon the driveways, paths, parking facilities, or grounds under their control then, except for those conditions imposed or regulations enacted by the governing board, legislative body, or officer applicable to the traffic, all the provisions of this code relating to traffic upon the highways shall be applicable to the traffic upon the driveways, paths, parking facilities, or grounds.

(d) A public transportation agency that imposes any condition or regulation upon a person who parks or leaves standing a vehicle, pursuant to subdivision (a), is authorized to do either of the following:

(1) Enforce that condition or regulation in the manner provided in Article 3 (commencing with Section 40200) of Chapter 1 of Division 17 of this code. The public transportation agency shall be considered the issuing agency for that purpose.

(2) Designate regularly employed and salaried employees, who are engaged in directing traffic or enforcing parking laws and regulations, for the purpose of removing any vehicle in the same manner as a city, county, or jurisdiction of a state agency pursuant to Chapter 10 (commencing with Section 22650) of Division 11 of this code.

(e) With respect to the permitted use of vehicles or animals on property under the direct control of the legislative body of a
municipality, no change in the use of vehicles or animals on the property, that had been permitted on January 1, 1976, shall be effective unless and until the legislative body, at a meeting open to the general public, determines that the use of vehicles or animals on the property should be prohibited or regulated.

(f) A transit development board may adopt ordinances, rules, or regulations to restrict, or specify the conditions for, the use of bicycles, motorized bicycles, skateboards, and roller skates on property under the control of, or any portion of property used by, the board.

(g) A public agency, including, but not limited to, the Regents of the University of California and the Trustees of the California State University, may adopt rules or regulations to restrict, or specify the conditions for, the use of bicycles, motorized bicycles, skateboards, and roller skates on public property under the jurisdiction of that agency.

(h) “Housing authority,” for the purposes of this section, means a housing authority located within a county with a population of over six million people, and any other housing authority that complies with the requirements of this section.

(i) “Public transportation agency,” for purposes of this section, means a public agency that provides public transportation as defined in paragraph (1) of subdivision (f) of Section 1 of Article XIX of the California Constitution.

Amended Sec. 1, Ch. 192, Stats. 2012. Effective January 1, 2013.
Amended Sec. 1, Ch. 192, Stats. 2014. Effective January 1, 2015.
The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following “any”

**Aircraft on Local Roads**

21114. If a local authority finds that a city street or county road under its jurisdiction adjacent to an airport has been specifically designed and constructed, with the prior approval of the local authority, as so to safely permit the use thereof by regular vehicular traffic and also the taxing of aircraft thereon between the airport and the place where such aircraft are hangared or tied down, the local authority may by resolution or ordinance designate such street or road or portion thereof for such combined use and prescribe rules and regulations therefor which shall have the force of law. No such street or road shall be so designated for a distance of more than one-half mile from the airport, provided, the finding of the local authority in this respect shall be conclusive. Upon such designation becoming effective, it shall be the sole responsibility of the local authority to enforce the provisions of the Vehicle Code and all rules and regulations adopted by it upon such street or road. Upon such designation becoming effective it shall be lawful to taxi aircraft upon such street or road in accordance with the rules and regulations prescribed as aforesaid and said aircraft need not be licensed under this code or comply with other provisions thereof.

**Electric Carts on Sidewalks**

21114.5. Notwithstanding Section 21663 or any other provision of this code, local authorities may, by ordinance, authorize the operation of electric carts by physically disabled persons, by persons 50 years of age or older, or, while in the course of their employment, by employees of the United States Postal Service, state and local governmental agencies, or utility companies, on public sidewalks. Any ordinance shall, however, contain provisions requiring any disabled person or person 50 years of age or older who owns or leases an electric cart to apply to the local authority for a permit and an identification sticker to so operate the cart, and requiring the person to affix the sticker to the cart in order to operate it on the sidewalk. The permit and sticker shall become invalid if the person ceases to operate, own, or lease the cart.

This section does not apply to devices described in subdivision (b) of Section 415.
Amended Sec. 125, Ch. 124, Stats. 1996. Effective January 1, 1997.

**Golf Carts on Local Highways**

21115. (a) If a local authority finds that a highway under its jurisdiction is located adjacent to, or provides access to, a golf course and between the golf course and the place where golf carts are parked or stored or is within or bound by a real estate development offering golf facilities and is designed and constructed, so as to safely permit the use of regular vehicular traffic and also the driving of golf carts on the highway, the local authority may, by resolution or ordinance, designate the highway or portion of the highway for combined use and prescribe rules and regulations that shall have the force of law. No highway shall be so designated for a distance of more than one mile from the golf course if the highway is not located within a development or beyond the area of a development, provided, the finding of the local authority in this respect shall be conclusive. Upon the designation becoming effective it shall be lawful to drive golf carts upon the highway in accordance with the prescribed rules and regulations. The rules and regulations may establish crossing zones and speed limits and other operating standards but shall not require that the golf carts conform to any requirements of this code with respect to registration, licensing, or equipment, except that if operated during darkness the golf cart shall be subject to the provisions of Section 24001.5 regarding equipment.

The rules and regulations shall not be effective until appropriate signs giving notice thereof are posted along the highway affected.

A “real estate development offering golf facilities”, for purposes of this section, means an area of single-family or multiple-family residences, the owners or occupants of which are eligible for membership in, or the use of, one or more golf courses within the development by virtue of their ownership or occupancy of a residential dwelling unit in the development.

(b) For purposes of this section, a “golf cart” includes a low-speed vehicle.

**Golf Cart Crossing Zones**

21115.1. (a) Notwithstanding Section 21115, a local authority may, by ordinance or resolution, establish crossing zones, for use by golf carts at any time other than during darkness, on any street, other than a state highway, that has a posted speed limit of 45 miles per hour or less and that is immediately adjacent to a golf course. The crossing zones shall be at an angle of approximately 90 degrees to the direction of the roadway. The ordinance or resolution shall not become effective until submitted to the law enforcement agency having primary jurisdiction over the street, the law enforcement agency finds and determines that the conditions pertaining to that street, with the addition of proper signs, markers, or lighting, or any combination of those, will permit the establishment of a golf cart crossing with reasonable safety,
§21116 —408— Div. 11

and the signs, markers, or lighting specified by the law enforcement agency are in place.

(b) Subdivision (a) does not constitute precedent for the operation of golf carts on any street or highway other than in a crossing zone established pursuant to subdivision (a).

(c) For purposes of this section, a “golf cart” includes a low-speed vehicle.

Levees, Banks of Waterways, and Pipeline Rights-of-Way

21116. (a) No person shall drive any motor vehicle upon a roadway located on a levee, canal bank, natural watercourse bank, or pipeline right-of-way if the responsibility for maintenance of the levee, canal bank, natural watercourse bank, or pipeline right-of-way is vested in the state or in a reclamation, levee, drainage, water or irrigation district, or other local agency, unless such person has received permission to drive upon such roadway from the agency responsible for such maintenance, or unless such roadway has been dedicated as a public right-of-way.

(b) For this section to be applicable to a particular levee, canal bank, natural watercourse bank, or pipeline right-of-way, the state or other agency having responsibility for maintenance of the levee, canal bank, natural watercourse bank, or pipeline right-of-way, shall erect or place appropriate signs giving notice that permission is required to be obtained to drive a motor vehicle thereon and giving notice of any special conditions or regulations that are imposed pursuant to this section and shall prepare and keep available at the principal office of the state agency or other agency affected or of the board of such agency, for examination by all interested persons, a written statement, in conformity with the existing rights of such agency to control access to the roadway, describing the nature of the vehicles, if any, to which such permission might be granted and the conditions, regulations, and procedure for the acquisition of such permission adopted pursuant to this section.

(c) Nothing in this section prohibits the establishment of bicycle paths or routes as prescribed by Article 6.5 (commencing with Section 5078) of Chapter 1 of Division 5 of the Public Resources Code on levees, canal banks, natural watercourse banks, or pipeline rights-of-way.

Local Authorities: Transfer of Responsibilities: Ecological Reserves and Environmentally Sensitive Areas

21117. (a) Local authorities may, notwithstanding Section 21101 or 21101.6, by written agreement approved by their legislative bodies, transfer among themselves the responsibility for maintaining, operating, or controlling public access to any highway under their respective jurisdictions located in or adjacent to an ecological reserve or an environmentally sensitive area within their respective jurisdictions.

(b) An agreement entered into pursuant to subdivision (a) may authorize the local authority having responsibility for the highway under the agreement to do all of the following:

(1) Limit access by motor vehicles to the highway during certain hours of the day or certain days of the week.

(2) Prohibit access by motor vehicles during certain hours of the day or certain days of the week.

(3) Provide for the construction or erection of barricades or other devices designed or intended to separate pedestrians from vehicles or motor vehicles.

(4) Establish and operate a program by which vehicular access is permitted only in conjunction with specified educational programs or for disabled persons, or both.

(5) Issue temporary permits for special events valid for less than one day.

(c) As used in this section, the term “ecological reserve” has the same meaning as defined in Section 1584 of the Fish and Game Code, and “environmentally sensitive area” has the same meaning as defined in Section 30107.5 of the Public Resources Code.

Article 4. Operation of Bicycles

Laws Applicable to Bicycle Use: Peace Officer Exemption

21200. (a) A person riding a bicycle or operating a pedicab upon a highway has all the rights and is subject to all the provisions applicable to the driver of a vehicle by this division, including, but not limited to, provisions concerning driving under the influence of alcoholic beverages or drugs, and by Division 10 (commencing with Section 20000), Section 27400, Division 16.7 (commencing with Section 39000), Division 17 (commencing with Section 40000.1), and Division 18 (commencing with Section 42000), except those provisions which by their very nature can have no application.

(b) (1) A peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, operating a bicycle during the course of his or her duties is exempt from the requirements of subdivision (a), except as those requirements relate to driving under the influence of alcoholic beverages or drugs, if the bicycle is being operated under any of the following circumstances:

(A) In response to an emergency call.

(B) While engaged in rescue operations.

(C) In the immediate pursuit of an actual or suspected violator of the law.

(2) This subdivision does not relieve a peace officer from the duty to operate a bicycle with due regard for the safety of all persons using the highway.

Riding Bicycle Under Influence of Alcohol or Drugs

21200.5. Notwithstanding Section 21200, it is unlawful for any person to ride a bicycle upon a highway while under the influence of an alcoholic beverage or any drug, or under the combined influence of an alcoholic beverage and any drug. Any person arrested for a violation of this section may request to have a chemical test made of the person’s blood, breath, or urine for the purpose of determining the alcoholic or drug content of that person’s blood pursuant to Section 23612, and, if so requested, the arresting officer shall have the test performed. A conviction of a violation of this section shall be punished by a fine of not more than two hundred fifty dollars ($250). Violations of this section are subject to Section 13202.5.

Equipment Requirements

21201. (a) No person shall operate a bicycle on a roadway unless it is equipped with a brake which will enable the operator to make one braked wheel skid on dry, level, clean pavement.

(b) No person shall operate on the highway a bicycle equipped with handlebars so raised that the operator must elevate his hands above the level of his shoulders in order to grasp the normal steering grip area.

(c) No person shall operate upon a highway a bicycle that is of a size that prevents the operator from safely stopping the bicycle, supporting it in an upright position with at least one foot on the ground, and restarting it in a safe manner.

(d) A bicycle operated during darkness upon a highway, a sidewalk where bicycle operation is not prohibited by the local jurisdiction, or a bikeway, as defined in Section 890.4 of the Streets and Highways Code, shall be equipped with all of the following:

1. A lamp emitting a white light that, while the bicycle is in motion, illuminates the highway, sidewalk, or bikeway in front of the bicyclist and is visible from a distance of 300 feet in front and from the sides of the bicycle.

2. A red reflector on the rear that shall be visible from a distance of 500 feet to the rear when directly in front of lawful upper beams of headlamps on a motor vehicle.

3. A white or yellow reflector on each pedal, shoe, or ankle visible from the front and rear of the bicycle from a distance of 200 feet.

4. A white or yellow reflector on each side forward of the center of the bicycle, and a white or red reflector on each side to the rear of the center of the bicycle, except that bicycles that are equipped with reflectorized tires on the front and the rear need not be equipped with these side reflectors.

The reflectors and reflectorized tires shall be of a type meeting requirements established by the department.

(e) A lamp or lamp combination, emitting a white light, attached to the operator and visible from a distance of 300 feet in front and from the sides of the bicycle, may be used in lieu of the lamp required by paragraph (1) of subdivision (d).

Bicycle or Motorized Bicycle Lights

21201.3. (a) A bicycle or motorized bicycle used by a peace officer, as defined in Section 830.1 of, subdivision (a), (b), (c), (d), (e), (f), (g), or (i) of Section 830.2 of, subdivision (b) or (d) of Section 830.31 of, subdivision (a) or (b) of Section 830.32 of, Section 830.33 of, subdivision (a) of Section 830.36 of, subdivision (a) of Section 830.4 of, or Section 830.6 of, the Penal Code, in the performance of the peace officer’s duties, may display a steady or flashing blue warning light that is visible from the front, sides, or rear of the bicycle or motorized bicycle.

(b) No person shall display a steady or flashing blue warning light on a bicycle or motorized bicycle except as authorized under subdivision (a).

Reflectorized Equipment

21201.5. (a) No person shall sell, or offer for sale, a reflex reflector or reflectorized tire of a type required on a bicycle unless it meets requirements established by the department. If there exists a federal Consumer Product Safety Commission regulation applicable to bicycle reflectors, the provisions of that regulation shall prevail over provisions of this code or requirements established by the department pursuant to this code relative to bicycle reflectors.

(b) No person shall sell, or offer for sale, a new bicycle that is not equipped with a red reflector on the rear, a white or yellow reflector on each pedal visible from the front and rear of the bicycle, a white or yellow reflector on each side forward of the center of the bicycle, and a white or red reflector on each side to the rear of the center of the bicycle, except that bicycles which are equipped with reflectorized tires on the front and rear need not be equipped with these side reflectors.

(c) Area reflectorizing material meeting the requirements of Section 25500 may be used on a bicycle.

Operation on Roadway

21202. (a) Any person operating a bicycle upon a roadway at a speed less than the normal speed of traffic moving in the same direction at that time shall ride as close as practicable to the right-hand curb or edge of the roadway except under any of the following situations:

1. When overtaking and passing another bicycle or vehicle proceeding in the same direction.

2. When preparing for a left turn at an intersection or into a private road or driveway.

3. When reasonably necessary to avoid conditions (including, but not limited to, fixed or moving objects, vehicles, bicycles, pedestrians, animals, surface hazards, or substandard width lanes) that make it unsafe to continue along the right-hand curb or edge, subject to the provisions of Section 21656.

For purposes of this section, a “substandard width lane” is a lane that is too narrow for a bicycle and a vehicle to travel safely side by side within the lane.

4. When approaching a place where a right turn is authorized.

(b) Any person operating a bicycle upon a roadway of a highway carries traffic in one direction only and has two or more marked traffic lanes, may ride as near the left-hand curb or edge of that roadway as practicable.

Hitching Rides

21203. No person riding upon any motorcycle, motorized bicycle, bicycle, coaster, roller skates, sled, or toy vehicle shall attach the same or himself to any streetcar or vehicle on the roadway.

Riding on Bicycle

21204. (a) A person operating a bicycle upon a highway shall not ride other than upon or astride a permanent and regular seat attached thereto, unless the bicycle was designed by the manufacturer to be ridden without a seat.

(b) An operator shall not allow a person riding as a passenger, and a person shall not ride as a passenger, on a bicycle upon a highway other than upon or astride a separate seat attached thereto. If the passenger is four years of age or younger, or weighs 40 pounds or less, the seat shall have adequate provision for retaining the passenger in place and for protecting the passenger from the moving parts of the bicycle.
Carrying Articles

§21205. No person operating a bicycle shall carry any package, bundle or Article which prevents the operator from keeping at least one hand upon the handlebars.

Local Regulation

§21206. This Chapter does not prevent local authorities, by ordinance, from regulating the registration of bicycles and the parking and operation of bicycles on pedestrian or bicycle facilities, provided such regulation is not in conflict with the provisions of this code.

Bicycle Lanes

§21207. (a) This Chapter does not prohibit local authorities from establishing, by ordinance or resolution, bicycle lanes separated from any vehicular lanes upon highways, other than state highways as defined in Section 24 of the Streets and Highways Code and county highways established pursuant to Article 5 (commencing with Section 1720) of Chapter 9 of Division 2 of the Streets and Highways Code.

(b) Bicycle lanes established pursuant to this section shall be constructed in compliance with Section 891 of the Streets and Highways Code.

Motorized Bicycles: Prohibited Operation

§21207.5. Notwithstanding Sections 21207 and 23127 of this code, or any other provision of law, no motorized bicycle may be operated on a bicycle path or trail, bikeway, bicycle lane established pursuant to Section 21207, equestrian trail, or hiking or recreational trail, unless it is within or adjacent to a roadway or unless the local authority or the governing body of a public agency having jurisdiction over such path or trail permits, by ordinance, such operation.

Permitted Movements from Bicycle Lanes

§21208. (a) Whenever a bicycle lane has been established on a roadway pursuant to Section 21207, any person operating a bicycle upon the roadway at a speed less than the normal speed of traffic moving in the same direction at that time shall ride within the bicycle lane, except that the person may move out of the lane under any of the following situations:
(1) When overtaking and passing another bicycle, vehicle, or pedestrian within the lane or about to enter the lane if the overtaking and passing cannot be done safely within the lane.
(2) When preparing for a left turn at an intersection or into a private road or driveway.
(3) When reasonably necessary to leave the bicycle lane to avoid debris or other hazardous conditions.
(4) When approaching a place where a right turn is authorized.
(b) No person operating a bicycle shall leave a bicycle lane until the movement can be made with reasonable safety and then only after giving an appropriate signal in the manner provided in Chapter 6 (commencing with Section 22100) in the event that any vehicle may be affected by the movement.
Amended Sec. 5, Ch. 674, Stats. 1996. Effective January 1, 1997.

Motor Vehicles and Motorized Bicycles in Bicycle Lanes

§21209. (a) No person shall drive a motor vehicle in a bicycle lane established on a roadway pursuant to Section 21207 except as follows:
(1) To park where parking is permitted.
(2) To enter or leave the roadway.
(3) To prepare for a turn within a distance of 200 feet from the intersection.
(b) This section does not prohibit the use of a motorized bicycle in a bicycle lane, pursuant to Section 21207.5, at a speed no greater than is reasonable or prudent, having due regard for visibility, traffic conditions, and the condition of the roadway surface of the bicycle lane, and in a manner which does not endanger the safety of bicyclists.

Bicycle Parking

§21210. No person shall leave a bicycle lying on its side on any sidewalk, or shall park a bicycle on a sidewalk in any other position, so that there is not an adequate path for pedestrian traffic. Local authorities may, by ordinance or resolution, prohibit bicycle parking in designated areas of the public highway, provided that appropriate signs are erected.

Obstruction of Bikeways or Bicycle Paths or Trails

§21211. (a) No person may stop, stand, sit, or loiter upon any class I bikeway, as defined in subdivision (a) of Section 890.4 of the Streets and Highways Code, or any other public or private bicycle path or trail, if the stopping, standing, sitting, or loitering impedes or blocks the normal and reasonable movement of any bicyclist.
(b) No person may place or park any bicycle, vehicle, or any other object upon any bikeway or bicycle path or trail, as specified in subdivision (a), which impede or blocks the normal and reasonable movement of any bicyclist unless the placement or parking is necessary for safe operation or is otherwise in compliance with the law.
(c) This section does not apply to drivers or owners of utility or public utility vehicles, as provided in Section 22512.
(d) This section does not apply to owners or drivers of vehicles who make brief stops while engaged in the delivery of newspapers to customers along the person's route.
(e) This section does not apply to the driver or owner of a rubbish or garbage truck while actually engaged in the collection of rubbish or garbage within a business or residence district if the front turn signal lamps at each side of the vehicle are being flashed simultaneously and the rear turn signal lamps at each side of the vehicle are being flashed simultaneously.
(f) This section does not apply to the driver or owner of a tow vehicle while actually engaged in the towing of a vehicle if the front turn signal lamps at each side of the vehicle are being flashed simultaneously and the rear turn signal lamps at each side of the vehicle are being flashed simultaneously.

Youth Bicycle Helmets: Minors

§21212. (a) A person under 18 years of age shall not operate a bicycle, a nonmotorized scooter, or a skateboard, nor shall they wear in-line or roller skates, nor ride upon a bicycle, a nonmotorized scooter, or a skateboard as a passenger, upon...
§21223

Article 5. Operation of Motorized Scooters

(Amended Sec. 5, Ch. 722, Stats. 1999. Effective January 1, 2000.)

Motorized Scooters: Legislative Intent

21220. (a) The Legislature finds and declares both of the following:

(1) This state has severe traffic congestion and air pollution problems, particularly in its cities, and finding ways to reduce these problems is of paramount importance.

(2) Motorized scooters that meet the definition of Section 407.5 produce no emissions and, therefore, do not contribute to increased air pollution or increased traffic congestion.

(b) It is the intent of the Legislature in adding this Article to promote the use of alternative low-emission or no-emission transportation.

Motorized Scooters: Definition

21220.5. For the purposes of this article, a motorized scooter is defined in Section 407.5.

Operation of Motorized Scooters

21221. Every person operating a motorized scooter upon a highway has all the rights and is subject to all the provisions applicable to the driver of a vehicle by this division, including, but not limited to, provisions concerning driving under the influence of alcoholic beverages or drugs, and by Division 10 (commencing with Section 20000), Division 17 (commencing with Section 40000.1), and Division 18 (commencing with Section 42000), except those provisions which, by their very nature, can have no application.

Operation of Motorized Scooters: Driving Under the Influence

21221.5. Notwithstanding Section 21221, it is unlawful for any person to operate a motorized scooter upon a highway—while under the influence of an alcoholic beverage or any drug, or under the combined influence of an alcoholic beverage and any drug. Any person arrested for a violation of this section may request to have a chemical test made of the person’s blood or breath for the purpose of determining the alcoholic or drug content of that person’s blood pursuant to subdivision (d) of Section 23612, and, if so requested, the arresting officer shall have the test performed. A conviction of a violation of this section shall be punished by a fine of not more than two hundred fifty dollars ($250).

Operation of Motorized Scooters During Darkness: Equipment

21223. (a) Every motorized scooter operated upon any highway during darkness shall be equipped with the following:

(1) Except as provided in subdivision (b), a lamp emitting a white light which, while the motorized scooter is in motion, illuminates the highway in front of the operator and is visible from a distance of 300 feet in front and from the sides of the motorized scooter.

(2) Except as provided in subdivision (c), a red reflector on the rear that is visible from a distance of 500 feet to the rear when directly in front of lawful upper beams of headlamps on a motor vehicle.

(3) A white or yellow reflector on each side visible from the front and rear of the motorized scooter from a distance of 200 feet.

(b) A lamp or lamp combination, emitting a white light, attached to the operator and visible from a distance of 300 feet in front and from the sides of the motorized scooter, may be used in lieu of the reflector required by paragraph (1) of subdivision (a).

(c) A red reflector, or reflectorized material meeting the requirements of Section 25500, attached to the operator and visible from a distance of 500 feet to the rear when directly in front of lawful upper beams of headlights on a motor vehicle, may be used in lieu of the reflector required by paragraph (2) of subdivision (a).

Motorized Scooters: Not Defined As “Motor Vehicle”

21224. (a) A person operating a motorized scooter is not subject to the provisions of this code relating to financial responsibility, registration, and license plate requirements, and, for those purposes, a motorized scooter is not a motor vehicle.

(b) A motorized scooter is exempt from the equipment requirements in Division 12 (commencing with Section 24000), except for Sections 24003 and 27400, Article 4 (commencing with Section 27450) of Chapter 5 of Division 12, and Section 27602.

(c) Notwithstanding subdivision (b), any motorized scooter may be equipped with equipment authorized by Division 12 (commencing with Section 24000).

(d) Any motorized scooter equipped with lighting equipment that is authorized by Division 12 (commencing with Section 24000) shall meet the lighting requirements in Article 1 (commencing with Section 24250) of Chapter 2 of Division 12 for that equipment.

Motorized Scooters: Local Regulations

21225. This Article does not prevent a local authority, by ordinance, from regulating the registration of motorized scooters and the parking and operation of motorized scooters on pedestrian or bicycle facilities and local streets and highways, if that regulation is not in conflict with this code.

Amended Sec. 6, Ch. 755, Stats. 2004. Effective January 1, 2005.

Motorized Scooters: Maximum Noise Level

21226. (a) A person shall not sell or offer for sale a motorized scooter that produces a maximum noise level exceeding 80 dbA at a distance of 50 feet from the centerline of travel when tested in accordance with Society of Automotive Engineers (SAE) Recommended Practice J331 JAN00.

(b) A motorized scooter, as defined in subdivision (b) of Section 407.5, shall at all times be equipped with a muffler meeting the requirements of this section, in constant operation and properly maintained to prevent any excessive or unusual noise, and a muffler or exhaust system shall not be equipped with a cutout, bypass, or similar device.

(c) A motorized scooter, as defined in subdivision (b) of Section 407.5, operated off the highways shall at all times be equipped with a muffler meeting the requirements of this section, in constant operation and properly maintained to prevent any excessive or unusual noise, and a muffler or exhaust system shall not be equipped with a cutout, bypass, or similar device.

(d) A person shall not modify the exhaust system of a motorized scooter in a manner that will amplify or increase the noise level emitted by the motor of the scooter so that it is not in compliance with this section or exceeds the noise level limit established by subdivision (a). A person shall not operate a motorized scooter with an exhaust system so modified.

Motorized Scooters: Operation Requirements

21227. (a) A motorized scooter shall comply with one of the following:

1. Operate in a manner so that the electric motor is disengaged or ceases to function when the brakes are applied.

2. Operate in a manner so that the motor is engaged through a switch or mechanism that, when released, will cause the electric motor to disengage or cease to function.

(b) It is unlawful for a person to operate a motorized scooter that does not meet one of the requirements of subdivision (a).

Operation of Motorized Scooters: Driving At Less Than Normal Speed of Traffic

21228. Any person operating a motorized scooter upon a highway at a speed less than the normal speed of traffic moving in the same direction at that time shall ride as close as practicable to the right-hand curb or right edge of the roadway, except under the following situations:

(a) When overtaking and passing another vehicle proceeding in the same direction.

(b) When preparing for a left turn, the operator shall stop and dismount as close as practicable to the right-hand curb or right edge of the roadway and complete the turn by crossing the roadway on foot, subject to the restrictions placed on pedestrians in Chapter 5 (commencing with Section 21950).

(c) When reasonably necessary to avoid conditions, including, but not limited to, fixed or moving objects, vehicles, bicycles, pedestrians, animals, surface hazards, or substandard width lanes, which make it unsafe to continue along the right-hand curb or right edge of the roadway, subject to Section 21656.

(2) For the purposes of paragraph (1), a “substandard width lane” is a lane that is too narrow for a motorized scooter and another vehicle to travel safely side by side within the lane.

(d) Any person operating a motorized scooter upon a highway that carries traffic in one direction only and has two or more marked traffic lanes may operate the motorized scooter as near the left-hand curb or left edge of that roadway as practicable.

However, when preparing for a right turn, the operator shall stop and dismount as close as practicable to the left-hand curb or left edge of the highway and complete the turn by crossing the roadway on foot, subject to the restrictions placed on pedestrians in Chapter 5 (commencing with Section 21950).

Operation of Motorized Scooters: Bicycle Lanes

21229. (a) Whenever a class II bicycle lane has been established on a roadway, any person operating a motorized scooter upon the roadway shall ride within the bicycle lane,
except that the person may move out of the lane under any of the following situations:

1. When overtaking and passing another vehicle or pedestrian within the lane or when about to enter the lane if the overtaking and passing cannot be done safely within the lane.

2. When preparing for a left turn, the operator shall stop and dismount as close as practicable to the right-hand curb or right edge of the roadway and complete the turn by crossing the roadway on foot, subject to the restrictions placed on pedestrians in Chapter 5 (commencing with Section 21950).

3. When reasonably necessary to leave the bicycle lane to avoid debris or other hazardous conditions.

4. When approaching a place where a right turn is authorized.

(b) No person operating a motorized scooter shall leave a bicycle lane until the movement can be made with reasonable safety and then only after giving an appropriate signal in the manner provided in Chapter 6 (commencing with Section 22100) in the event that any vehicle may be affected by the movement.

Operation of Motorized Scooters: Local Regulation of Bicycle Paths, Trails, or Bikeways

21230. Notwithstanding any other provision of law, a motorized scooter may be operated on a bicycle path or trail or bikeway, unless the local authority or the governing body of a local agency having jurisdiction over that path, trail, or bikeway prohibits that operation by ordinance.

Operation of Motorized Scooters: Prohibitions

21235. The operator of a motorized scooter shall not do any of the following:

(a) Operate a motorized scooter unless it is equipped with a brake that will enable the operator to make a braked wheel skid on dry, level, clean pavement.

(b) Operate a motorized scooter on a highway with a speed limit in excess of 25 miles per hour unless the motorized scooter is operated within a class II bicycle lane.

(c) Operate a motorized scooter without wearing a properly fitted and fastened bicycle helmet that meets the standards described in Section 21212.

(d) Operate a motorized scooter without a valid driver's license or instruction permit.

(e) Operate a motorized scooter with any passengers in addition to the operator.

(f) Operate a motorized scooter carrying any package, bundle, or Article that prevents the operator from keeping at least one hand upon the handlebars.

(g) Operate a motorized scooter upon a sidewalk, except as may be necessary to enter or leave adjacent property.

(h) Operate a motorized scooter on the highway with the handlebars raised so that the operator must elevate his or her hands above the level of his or her shoulders in order to grasp the normal steering grip area.

(i) Leave a motorized scooter lying on its side on any sidewalk, or park a motorized scooter on a sidewalk in any other position, so that there is not an adequate path for pedestrian traffic.

(j) Attach the motorized scooter or himself or herself while on the roadway, by any means, to any other vehicle on the roadway.

Article 5.5. Operation of Low-Speed Vehicles

(Amended Sec. 179, Ch. 71, Stats. 2014. Effective January 1, 2015.)

Low-Speed Vehicles: Defined

21250. For the purposes of this article, a low-speed vehicle means a vehicle as defined in Section 585.5. A “low-speed vehicle” is also known as a “neighborhood electric vehicle.”

Low-Speed Vehicles: Subject to Motor Vehicle Provisions

21251. Except as provided in Chapter 6.2 (commencing with Section 1962), Chapter 7.1 (commencing with Section 1964), Chapter 8 (commencing with Section 1965), and Chapter 8.1 (commencing with Section 1966) of Division 2.5 of the Streets and Highways Code, and Sections 4023, 21115, and 21115.1, a low-speed vehicle is subject to all the provisions applicable to a motor vehicle, and the driver of a low-speed vehicle is subject to all the provisions applicable to the driver of a motor vehicle or other vehicle, when applicable, by this code or another code, with the exception of those provisions that, by their very nature, can have no application.

Amended Sec. 2, Ch. 442, Stats. 2007. Effective January 1, 2008.
Amended Sec. 176, Ch. 71, Stats. 2014. Effective January 1, 2015.

The 2014 amendment at the point(s) indicated, deleted the following “(commencing with Section 1963), Chapter.”

Low-Speed Vehicles: Vehicle Dealer Disclosure Statement

21252. A vehicle dealer, selling a low-speed vehicle, shall provide to the buyer a disclosure statement regarding the operation of the vehicle that is in compliance with existing provisions of the California Code of Regulations.

Added Sec. 6, Ch. 140, Stats. 1999. Effective January 1, 2000.

Low-Speed Vehicles

21253. A low-speed vehicle operated or parked on the roadway shall at all times meet federal Motor Vehicle Safety Standards established for low-speed vehicles in Section 571.500 of Title 49 of the Code of Federal Regulations.

Added Sec. 6, Ch. 140, Stats. 1999. Effective January 1, 2000.

Low-Speed Vehicles: Modified or Altered Vehicles

21254. A motor vehicle that was originally designated as a low-speed vehicle and that has been modified or altered to exceed 25 miles per hour shall not qualify for the relaxed federal Motor Vehicle Safety Standards established for low-speed vehicles and instead shall meet all federal Motor Vehicle Safety Standards for a passenger vehicle.

Added Sec. 6, Ch. 140, Stats. 1999. Effective January 1, 2000.

Low-Speed Vehicles: Prohibitions

21260. (a) Except as provided in paragraph (1) of subdivision (b), or in an area where a neighborhood electric vehicle transportation plan has been adopted pursuant to Chapter 6.2 (commencing with Section 1962), Chapter 7.1 (commencing with Section 1964), Chapter 8 (commencing with Section 1965), or Chapter 8.1 (commencing with Section 1966) of Division 2.5 of the Streets and Highways Code, the operator...
of a low-speed vehicle shall not operate the vehicle on any roadway with a speed limit in excess of 35 miles per hour.

(b) (1) The operator of a low-speed vehicle may cross a roadway with a speed limit in excess of 35 miles per hour if the crossing begins and ends on a roadway with a speed limit of 35 miles per hour or less and occurs at an intersection of approximately 90 degrees.

(2) Notwithstanding paragraph (1), the operator of a low-speed vehicle shall not traverse an uncontrolled intersection with any state highway unless that intersection has been approved and authorized by the agency having primary traffic enforcement responsibilities for that crossing by a low-speed vehicle.

Amended Sec. 3, Ch. 442, Stats. 2007. Effective January 1, 2008.
Amended Sec.3-5, Ch. 452, Stats. 2010. Effective January 1, 2011.
Amended Sec. 177, Ch. 71, Stats. 2014. Effective January 1, 2015.

The 2014 amendment at the point(s) indicated, deleted the following “7” (commencing with Section 1963), Chapter .

Low-Speed Vehicles: Restrictions and Prohibitions By Local Authorities or Department of the California Highway Patrol

21266. (a) Notwithstanding Section 21260, local authorities, by ordinance or resolution, may restrict or prohibit the use of low-speed vehicles.

(b) Notwithstanding Section 21260, a local law enforcement agency with primary traffic enforcement responsibilities or the Department of the California Highway Patrol may prohibit the operation of a low-speed vehicle on any roadway under that agency’s or department’s jurisdiction when the agency or the department deems the prohibition to be in the best interest of public safety. Any such prohibition shall become effective when appropriate signs giving notice thereof are erected upon the roadway.

Added Sec. 6, Ch. 140, Stats. 1999. Effective January 1, 2000.

Article 6. Electric Personal Assistive Mobility Devices
(Added and repealed Sec. 6, Ch. 979, Stats. 2002. Effective March 1, 2003. Repeal operative January 1, 2008.)

(b) (1) The Legislature finds and declares all of the following:

(1) This state has severe traffic congestion and air pollution problems, particularly in its cities, and finding ways to reduce these problems is of paramount importance.

(2) Reducing the millions of single passenger automobile trips of five miles or less that Californians take each year will significantly reduce the pollution caused by fuel emissions and aggravated by automobile congestion.

(3) Electric personal assistive mobility devices that meet the definition in Section 313 operate solely on electricity and employ advances in technology to safely integrate the user in pedestrian transportation.

(4) Electric personal assistive mobility devices enable California businesses, public officials, and individuals to travel farther and carry more without the use of traditional vehicles, thereby promoting gains in productivity, minimizing environmental impacts, and facilitating better use of public ways.

(b) The Legislature is adding this Article as part of its program to promote the use of no-emission transportation.

Amended Sec. 4, Ch. 106, Stats. 2007. Effective January 1, 2008.

Electric Personal Assistive Mobility Device: Definition

21280.5. For purposes of this article, an electric personal assistive mobility device is defined in Section 313.

Added and repealed Sec. 6, Ch. 979, Stats. 2002. Effective March 1, 2003.

Electric Personal Assistive Mobility Device: Safety Equipment

21281. Every electric personal assistive mobility device, or EPAMD, shall be equipped with the following safety mechanisms:

(a) Front, rear, and side reflectors.

(b) A system that enables the operator to bring the device to a controlled stop.

(c) If the EPAMD is operated between one-half hour after sunset and one-half hour before sunrise, a lamp emitting a white light that, while the EPAMD is in motion, illuminates the area in front of the operator and is visible from a distance of 300 feet in front of the EPAMD.

(d) A sound emitting device that can be activated from time to time by the operator, as appropriate, to alert nearby persons.

Added and repealed Sec. 6, Ch. 979, Stats. 2002. Effective March 1, 2003.

Electric Personal Assistive Mobility Device: Prohibitions on Use

21281.5. (a) A person shall not operate an EPAMD on a sidewalk, bike path, pathway, trail, bike lane, street, road, or highway at a speed greater than is reasonable and prudent having due regard for weather, visibility, pedestrians, and other conveyance traffic on, and the surface, width, and condition of, the sidewalk, bike path, pathway, trail, bike lane, street, road, or highway.

(b) A person shall not operate an EPAMD at a speed that endangers the safety of persons or property.

(c) A person shall not operate an EPAMD on a sidewalk, bike path, pathway, trail, bike lane, street, road, or highway with willful or wanton disregard for the safety of persons or property.

(d) A person operating an EPAMD on a sidewalk, bike path, pathway, trail, bike lane, street, road, or highway shall yield the right-of-way to all pedestrians on foot, including persons with disabilities using assistive devices and service animals that are close enough to constitute a hazard.

Electric Personal Assistive Mobility Device: Local Regulation

21282. Notwithstanding Section 21966, for the purpose of assuring the safety of pedestrians, including seniors, persons with disabilities, and others using sidewalks, bike paths, pathways, trails, bike lanes, streets, roads, and highways, a city, county, or city and county may, by ordinance, regulate the time, place, and manner of the operation of electric personal assistive mobility devices as defined in Section 313, and their use as a pedestrian pursuant to paragraph (2) of subdivision (a) of Section 467, including limiting, prohibiting entirely in the local jurisdiction, or prohibiting use in specified areas as determined to be appropriate by local entities. State agencies may limit or prohibit the time, place, and manner of use on state property.

Added and repealed Sec. 6, Ch. 979, Stats. 2002. Effective March 1, 2003.
CHAPTER 2. TRAFFIC SIGNS, SIGNALS, AND MARKINGS

Article 1. Erection and Maintenance

State Authority

21350. The Department of Transportation shall place and maintain, or cause to be placed and maintained, with respect to highways under its jurisdiction, appropriate signs, signals and other traffic control devices as required hereunder, and may place and maintain, or cause to be placed and maintained, such appropriate signs, signals or other traffic control devices as may be authorized hereunder, or as may be necessary properly to indicate and to carry out the provisions of this code, or to warn or guide traffic upon the highways. The Department of Transportation may, with the consent of the local authorities, also place and maintain, or cause to be placed and maintained, in or along city streets and county roads, appropriate signs, signals and other traffic control devices, or may perform, or cause to be performed, such other work on city streets and county roads, as may be necessary or desirable to control, or direct traffic, or to facilitate traffic flow, to or from or on state highways.

Local Authority

21351. Local authorities in their respective jurisdictions shall place and maintain or cause to be placed and maintained such traffic signs, signals and other traffic control devices upon streets and highways as required hereunder, and may place and maintain or cause to be placed and maintained, such appropriate signs, signals or other traffic control devices as may be authorized hereunder or as may be necessary properly to indicate and to carry out the provisions of this code or local traffic ordinances or to warn or guide traffic.

Use of Metric System Designations

21351.3. Local authorities in their respective jurisdictions may place and maintain, or cause to be placed and maintained, speed limit, speed advisory, and mileage signs, or suitable plates affixed to or near existing signs, which indicate speeds and distances both in common standards of measures, as specified in Section 12302 of the Business and Professions Code, and in measures of the metric system authorized by Congress.

Stop Signs at Railroad Crossings

21351.5. The Department of Transportation or local authorities, with respect to highways under their respective jurisdictions, may erect stop signs to require the traffic on a highway to stop before crossing any railroad grade crossing designated by the agency having jurisdiction of the highway as a major crossing with a demonstrated need for stop signs, except a railroad grade crossing which is controlled by automatic signals, gates, or other train-actuated control devices.

Deaf Child Warning Signs

21351.7. Local authorities in their respective jurisdictions may place and maintain, or cause to be placed and maintained, appropriate signs along city streets or county roads which indicate that a deaf child is near.

Traffic and Pedestrian Regulation on State Highways

21352. The Department of Transportation may erect stop signs at any entrance to any state highway and whenever the department determines that it is necessary for the public safety and the orderly and efficient use of the highways by the public, the department may erect and maintain, or cause to be erected and maintained, on any state highway any traffic control signal or any official traffic control device regulating or prohibiting the turning of vehicles upon the highway, allocating or restricting the use of specified lanes or portions of the highway by moving vehicular traffic, establishing crosswalks at or between intersections, or restricting use of the right-of-way by the public for other than highway purposes.

Local Regulation Affecting State Highway Traffic

21353. No local authority, except by permission of the Department of Transportation, shall erect or maintain any stop sign or traffic control signal in such manner as to require the traffic on any state highway to stop before entering or crossing any intersecting highway or any railroad grade crossing.

Stop Signs on Local Highways

21354. Subject to the provisions of Section 21353, a local authority may designate any highway under its jurisdiction as a through highway and may erect stop signs at entrances thereto or may designate any intersection under its exclusive jurisdiction as a stop intersection and erect stop signs at one or more entrances thereto.

Stop Signs

21355. (a) Stop signs erected under Section 21350, 21351, 21352, or 21354 may be erected either at or near the entrance to an intersection.

The Department of Transportation and local authorities in their respective jurisdictions may erect stop signs at any location so as to control traffic within an intersection. When a required stop is to apply at the entrance to an intersection from a one-way street with a roadway of 30 feet or more in width, stop signs shall be erected both on the left and the right sides of the one-way street at or near the entrance to the intersection.

Notwithstanding any other provision of this code, stop signs shall not be erected at any entrance to an intersection controlled by official traffic control signals, nor at any railroad grade crossing which is controlled by automatic signals, gates, or other train-actuated control devices except where a stop sign may be necessary to control traffic on intersecting highways adjacent to the grade crossing or when a local authority determines, with the approval of the Public Utilities Commission pursuant to Section 21110, that a railroad grade crossing under its jurisdiction presents a danger warranting a stop sign in addition to a train-activated control device.

(b) Notwithstanding subdivision (a), local authorities, with respect to streets under their jurisdiction, are not required to conform lawfully established intersection configurations
existing on January 1, 1985, to meet the requirements of subdivision (a) until January 1, 1990.

Yield Right-of-Way Signs

21356. The Department of Transportation or local authorities, with respect to highways under their respective jurisdictions, may erect yield right-of-way signs at the entrances to intersections or highways. Such yield right-of-way signs shall not be erected upon the approaches to more than one of the intersecting streets.
Yield right-of-way signs shall be located at or near the entrance to the intersection or highway where motorists are required to yield the right-of-way.

Vehicles: Local Authorities: Warning Signs: Alleys

21356.5. Local authorities may place signs, mirrors, or other visual or audible devices at exits from alleys that are under their jurisdiction to warn drivers to watch for pedestrians and bicyclists on the sidewalk prior to exiting the alley.

Speed Signs for Business or Residence Districts

21357. Speed restriction signs may, but need not, be erected upon any highway other than a state highway at the entrance thereof into a business or residence district unless required in this chapter.
Amended Ch. 11, Stats. 1959. Effective September 18, 1959.

Speed Signs at District Boundaries

21358. Where one or more business and residence districts are contiguous, or where, as authorized by this code, speed is to be restricted between two districts, either business or residence, or at the end of either thereof, speed restriction signs affecting traffic on other than state highways as required by Sections 21357 and 21359 need be erected and maintained only at the boundaries of the outside limits of the area in which speed is to be restricted.
Amended Ch. 11, Stats. 1959. Effective September 18, 1959.

Speed Signs for Special Areas

21359. Whenever the Department of Transportation or a local authority as authorized by this code determines and declares a speed limit different from the limit otherwise applicable under Sections 22349 and 22352, appropriate speed restriction signs shall be erected and maintained at the outside entrance of the highway or portion thereof upon which the special speed limit is applicable. The special speed limit is not effective until appropriate signs have been erected.

Traffic Devices on Private Road or Driveway

21360. Local authorities in their respective jurisdictions may, within the reasonable exercise of their police power and subject to Section 21353, place and maintain official traffic control devices to regulate traffic at the intersection of a highway and a private road or driveway. Official traffic control devices may be erected at or near such intersection, except no such device shall be erected upon a private road or driveway without consent of the owner thereof. When official traffic control devices are installed and in operation, the private road or driveway shall be deemed a highway only for the purpose of determining the existence and location of an intersection.

Closely Adjoining Intersections

21361. (a) When the outermost boundaries of two or more intersections are confined within a distance of 200 feet, the Department of Transportation in respect to state highways, and a local authority with respect to highways under its jurisdiction, shall have the power to designate a single intersection by the installation and operation of traffic signals which may be supplemented by signs or markings. When so designated, the single intersection shall be the legal intersection for the purposes of traffic movement and regulation.
(b) Whenever a single intersection has been designated by the Department of Transportation or by local authorities as set forth in subdivision (a), the department or such authorities may designate marked crosswalks at certain locations within the intersection or contiguous thereto, and when the marked crosswalks are established, they shall constitute the only crosswalks at the intersection. The department or the local authorities shall erect signs prohibiting pedestrian crossing at locations which, except for the provisions of this section, would constitute unmarked crosswalks.

Railroad Warning Approach Signs

21362. Railroad warning approach signs shall be erected by local authorities upon the right-hand side of each approach of every highway under their jurisdiction to a grade crossing of a railroad or electric interurban railway at a reasonable distance from the crossing.
Amended Ch. 450, Stats. 1959. Effective September 18, 1959.

Rail Grade Crossings: Automated Enforcement System

21362.5. (a) Railroad and rail transit grade crossings may be equipped with an automated rail crossing enforcement system if the system is identified by signs clearly indicating the systems presence and visible to traffic approaching from each direction.
(b) Notwithstanding Section 6253 of the Government Code, or any other provision of law, photographic records made by an automated rail crossing enforcement system shall be confidential, and shall be made available only to governmental agencies and law enforcement agencies for the purposes of this section.

Detour Signs

21363. Detour signs shall be erected at the nearest points of detour from that portion of a highway, or from any bridge, which is closed to traffic while under construction or repair.

Stock Crossings

21364. The Department of Transportation may authorize an owner of land adjacent to a state highway to erect and maintain signs to indicate the existence of those places where livestock regularly and frequently cross a state highway, and any sign so erected and maintained shall be an official sign. The department shall prescribe the size, shape and character of the signs, which shall be uniform.
Open Range Warning Signs

21365. The Department of Transportation, with respect to state highways in open range country, and the board of supervisors of each county, with respect to county highways under its jurisdiction, may place and maintain appropriate signs indicating that the territory traversed is open livestock range and warning against the danger of livestock on the highway.

Street Name Signs

21366. At each signal-controlled intersection on streets and highways, there shall be a street name sign clearly visible to traffic approaching from all directions. The cost of erecting and maintaining the street name signs may be paid out of funds derived from the Highway Users Tax Fund or the Motor Vehicle License Fee Fund.

Traffic Control: Highway Construction

21367. (a) As provided in Section 125 of the Streets and Highways Code and in Section 21100 of this code, respectively, the duly authorized representative of the Department of Transportation or local authorities, with respect to highways under their respective jurisdictions, including, but not limited to, persons contracting to perform construction, maintenance, or repair of a highway, may, with the approval of the department or local authority, as the case may be, and while engaged in the performance of that work, restrict the use of, and regulate the movement of traffic through or around, the affected area whenever the traffic would endanger the safety of workers or the work would interfere with or endanger the movement of traffic through the area. Traffic may be regulated by warning signs, lights, appropriate control devices, or by a person or persons controlling and directing the flow of traffic.

(b) It is unlawful to disobey the instructions of a person controlling and directing traffic pursuant to subdivision (a).

(c) It is unlawful to fail to comply with the directions of warning signs, lights, or other control devices provided for the regulation of traffic pursuant to subdivision (a).

Crosswalks Near Schools

21368. Whenever a marked pedestrian crosswalk has been established in a roadway contiguous to a school building or the grounds thereof, it shall be painted or marked in yellow as shall be all the marked pedestrian crosswalks at an intersection in case any one of the crosswalks is required to be marked in yellow. Other established marked pedestrian crosswalks may be painted or marked in yellow if either (a) the nearest point of the crosswalk is not more than 600 feet from a school building or the grounds thereof, or (b) the nearest point of the crosswalk is not more than 2,800 feet from a school building or the grounds thereof, there are no intervening crosswalks other than those contiguous to the school grounds, and it appears that the facts and circumstances require special painting or marking of the crosswalks for the protection and safety of persons attending the school. There shall be painted or marked in yellow on each side of the street in the lane or lanes leading to all yellow marked crosswalks the following words, “SLOW—SCHOOL XING,” except that such words shall not be painted or marked in any lane leading to a crosswalk at an intersection controlled by stop signs, traffic signals or yield right-of-way signs. A crosswalk shall not be painted or marked yellow at any location other than as required or permitted in this section.

Speed Signs Ratified

21369. All speed restriction signs in place on January 1, 1960, are hereby ratified and confirmed and shall establish the applicable prima facie speed limit unless and until changed pursuant to engineering and traffic surveys provided for by this code.

Amended Ch. 1317, Stats. 1959. Effective September 18, 1959.

Regulation of Traffic: Construction Zone

21370. The Department of Transportation, or its duly authorized representatives with the approval of the department, while engaged in the construction of a state highway upon new alignment may restrict the use of and regulate the movement of traffic upon any highway intersecting the project at or near the place of intersection whenever such work interferes with or endangers the safe movement of traffic through the work.

Guidelines for Traffic Control Devices Near Schools

21372. The Department of Transportation and local authorities shall, with respect to highways under their respective jurisdictions, establish and promulgate warrants to be used as guidelines for the placement of traffic control devices near schools for the purpose of protecting students going to and from school. Such devices may include flashing signals. Such warrants shall be based upon, but need not be limited to, the following items: pedestrian volumes, vehicle volumes, speed of vehicle traffic, width of the roadway, physical terrain, speed of vehicle traffic, horizontal and vertical alignment of the roadway, the distance to existing traffic control devices, proximity to the school, and the degree of urban or rural environment of the area.

School Board Request for Traffic Control Devices

21373. The governing board of any school district may request the appropriate city, county, city and county or state agency to install traffic control devices in accordance with the warrants established pursuant to Section 21372. Within 90 days thereafter, the city, county, city and county or state agency involved shall undertake an engineering and traffic survey to determine whether the requested crossing protection meets the warrants established pursuant to Section 21372. The city, county, city and county, or state agency involved may require the requesting school district to pay an amount not to exceed 50 percent of the cost of the survey. If it is determined that such requested protection is warranted, it shall be installed by the city, county, city and county or state agency involved.

Directional Markings for Tourists

21374. A local authority may mark or paint the surface of any street or highway under its jurisdiction, or of any state highway, with the approval of the Department of Transportation, with lines, arrows, or other suitable symbols for the purpose of directing visitors and tourists to local points
§21375. (a) The Department of Transportation shall place and maintain, or cause to be placed and maintained, directional signs on freeways indicating the location of the freeway off ramp which may be used to reach a public or private postsecondary education institution having an enrollment of either 1,000 or more full-time students or the equivalent in part-time students, at the request of the institution. No signs shall be erected pursuant to this subdivision until the department has received donations from private sources covering the costs of erecting the signs.

(b) The Department of Transportation shall place and maintain, or cause to be placed and maintained, freeway directional signs for any institution described in subdivision (a) for which freeway directional signs had previously been erected and which has, on or after January 1, 1980, moved to another location, if that move was done to contribute to the improvement of the institution, as determined by the department. Freeway directional signs erected pursuant to this subdivision shall be at no cost to the institution.

(c) Subdivision (a) applies to a public or private postsecondary institution which is located within two miles of the freeway in an urban area, or within five miles of the freeway in a rural area. Subdivision (b) applies to a public or private postsecondary education institution which has moved to another location, if that move was done to contribute to the improvement of the institution, as determined by the department. Freeway directional signs erected pursuant to this subdivision shall be at no cost to the institution.

The Department of Transportation shall, after notice and public hearing, determine and publicize the specifications for uniform types of warning signs, lights, and devices to be placed upon a highway by a person engaged in performing work that interferes with or endangers the safe movement of traffic upon that highway.

(3) Only those signs, lights, and devices as are provided for in this section shall be placed upon a highway to warn traffic of work that is being performed on the highway.

(4) Control devices or markings installed upon traffic barriers on or after January 1, 1984, shall conform to the uniform standards and specifications required by this section.

(b) The Department of Transportation shall revise the California Manual on Uniform Traffic Control Devices, as it read on January 1, 2012, to require the Department of Transportation or a local authority to round speed limits to the nearest five miles per hour of the 85th percentile of the free-flowing traffic. However, in cases in which the speed limit needs to be rounded up to the nearest five miles per hour increment of the 85th-percentile speed, the Department of Transportation or a local authority may decide to instead round down the speed limit to the lower five miles per hour increment, but then the Department of Transportation or a local authority shall not reduce the speed limit any further for any reason.

Conformity to Uniform Standards

21401. (a) Except as provided in Section 21374, only those official traffic control devices that conform to the uniform standards and specifications promulgated by the Department of Transportation shall be placed upon a street or highway.

(b) Any traffic signal controller that is newly installed or upgraded by the Department of Transportation shall be of a standard traffic signal communication protocol capable of two-way communications. A local authority may follow this requirement.

(c) In recognition of the state and local interests served by the action made optional for a local authority in subdivision (b), the Legislature encourages local agencies to continue taking the action formerly mandated by this section. However nothing in this subdivision may be construed to impose any liability on a local agency that does not continue to take the formerly mandated action.

Traffic-Actuated Signals: Detection of Motorcycles and Bicycles

21450.5. (a) A traffic-actuated signal is an official traffic control signal, as specified in Section 445, that displays one or more of its indications in response to the presence of
traffic detected by mechanical, visual, electrical, or other means.

(b) Upon the first placement of a traffic-actuated signal or replacement of the loop detector of a traffic-actuated signal, the traffic-actuated signal shall, to the extent feasible and in conformance with professional traffic engineering practice, be installed and maintained so as to detect lawful bicycle or motorcycle traffic on the roadway.

(c) Cities, counties, and cities and counties shall not be required to comply with the provisions contained in subdivision (b) until the Department of Transportation, in consultation with these entities, has established uniform standards, specifications, and guidelines for the detection of bicycles and motorcycles by traffic-actuated signals and related signal timing.

(d) This section shall remain in effect only until January 1, 2018, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2018, deletes or extends that date.

Amended and repealed Sec. 2, Ch. 337, Stats. 2007. Effective January 1, 2008.

NOTE: The preceding section shall remain in effect only until January 1, 2018, and as of that date is repealed.

Circular Green or Green Arrow

21451. (a) A driver facing a circular green signal shall proceed straight through or turn right or left or make a U-turn unless a sign prohibits a U-turn. Any driver, including one turning, shall yield the right-of-way to other traffic and to pedestrians lawfully within the intersection or an adjacent crosswalk.

(b) A driver facing a green arrow signal, shown alone or in combination with another indication, shall enter the intersection only to make the movement indicated by that green arrow or any other movement that is permitted by other indications shown at the same time. A driver facing a left green arrow may also make a U-turn unless prohibited by a sign. A driver shall yield the right-of-way to other traffic and to pedestrians lawfully within the intersection or an adjacent crosswalk.

(c) A pedestrian facing a circular green signal, unless prohibited by sign or otherwise directed by a pedestrian control signal as provided in Section 21456, may proceed across the roadway within any marked or unmarked crosswalk, but shall yield the right-of-way to vehicles lawfully within the intersection at the time that signal is first shown.

(d) A pedestrian facing a green arrow turn signal, unless otherwise directed by a pedestrian control signal as provided in Section 21456, shall stop at a clearly marked limit line, but if none, before entering the intersection, and shall remain stopped until an indication permitting movement is shown.

Circular Red or Red Arrow

21453. (a) A driver facing a steady circular red signal alone shall stop at a marked limit line, but if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection, and shall remain stopped until an indication to proceed is shown, except as provided in subdivision (b).

(b) Except when a sign is in place prohibiting a turn, a driver, after stopping as required by subdivision (a), facing a steady circular red signal, may turn right, or turn left from a one-way street onto a one-way street. A driver making that turn shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to any vehicle that has approached or is approaching so closely as to constitute an immediate hazard to the driver, and shall continue to yield the right-of-way to that vehicle until the driver can proceed with reasonable safety.

(c) A driver facing a steady red arrow signal shall not enter the intersection to make the movement indicated by the arrow and, unless entering the intersection to make a movement permitted by another signal, shall stop at a clearly marked limit line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection, and shall remain stopped until an indication permitting movement is shown.

(d) Unless otherwise directed by a pedestrian control signal as provided in Section 21456, a pedestrian facing a steady circular red or red arrow signal shall not enter the roadway.

Lane Use Control Signals

21454. When lane use control signals are placed over individual lanes, those signals shall indicate and apply to drivers of vehicles as follows:

(a) Green indication: A driver may travel in any lane over which a green signal is shown.

(b) Steady yellow indication: A driver is thereby warned that a lane control change is being made.

(c) Steady red indication: A driver shall not enter or travel in any lane over which a red signal is shown.

(d) Flashing yellow indication: A driver may use the lane only for the purpose of making a left turn to or from the highway.

Signal at Other Places

21455. When an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this Article shall be applicable except those provisions which by their nature can have no application. Any stop required shall be made at a sign or crosswalk or limit line indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

Traffic Signal Automated Enforcement: Photographic Records

21455.5. (a) The limit line, the intersection, or a place designated in Section 21455, where a driver is required to stop, may be equipped with an automated traffic enforcement
§21455.5  —420—  Div. 11

system if the governmental agency utilizing the system meets all of the following requirements:

(1) Identifies the system by signs posted within 200 feet of an intersection where a system is operating that clearly indicate the system’s presence and are visible to traffic approaching from all directions in which the automated traffic enforcement system is being utilized to issue citations. A governmental agency utilizing such a system does not need to post signs visible to traffic approaching the intersection from directions not subject to the automated traffic enforcement system. Automated traffic enforcement systems installed as of January 1, 2013, shall be identified no later than January 1, 2014.

(2) Locates the system at an intersection and ensures that the system meets the criteria specified in Section 21455.7.

(b) Prior to issuing citations under this section, a local jurisdiction utilizing an automated traffic enforcement system shall commence a program to issue only warning notices for 30 days. The local jurisdiction shall also make a public announcement of the automated traffic enforcement system at least 30 days prior to the commencement of the enforcement program.

(c) Only a governmental agency, in cooperation with a law enforcement agency, may operate an automated traffic enforcement system. A governmental agency that operates an automated traffic enforcement system shall do all of the following:

(1) Develop uniform guidelines for screening and issuing violations and for the processing and storage of confidential information, and establish procedures to ensure compliance with those guidelines. For systems installed as of January 1, 2013, a governmental agency that operates an automated traffic enforcement system shall establish those guidelines by January 1, 2014.

(2) Perform administrative functions and day-to-day functions, including, but not limited to, all of the following:

(A) Establishing guidelines for the selection of a location. Prior to installing an automated traffic enforcement system after January 1, 2013, the governmental agency shall make and adopt a finding of fact establishing that the system is needed at a specific location for reasons related to safety.

(B) Ensuring that the equipment is regularly inspected.

(C) Certifying that the equipment is properly installed and calibrated, and is operating properly.

(D) Regularly inspecting and maintaining warning signs placed under paragraph (1) of subdivision (a).

(E) Overseeing the establishment or change of signal phases and the timing thereof.

(F) Maintaining controls necessary to ensure that only those citations that have been reviewed and approved by law enforcement are delivered to violators.

(d) The activities listed in subdivision (c) that relate to the operation of the system may be contracted out by the governmental agency, if it maintains overall control and supervision of the system. However, the activities listed in paragraph (1) of, and subparagraphs (A), (D), (E), and (F) of paragraph (2) of, subdivision (c) shall not be contracted out to the manufacturer or supplier of the automated traffic enforcement system.

(e) The printed representation of computer-generated information, video, or photographic images stored by an automated traffic enforcement system does not constitute an out-of-court hearsay statement by a declarant under Division 10 (commencing with Section 1200) of the Evidence Code.

(f) (1) Notwithstanding Section 6253 of the Government Code, or any other law, photographic records made by an automated traffic enforcement system shall be confidential, and shall be made available only to governmental agencies and law enforcement agencies and only for the purposes of this article.

(2) Confidential information obtained from the Department of Motor Vehicles for the administration or enforcement of this article shall be held confidential, and shall not be used for any other purpose.

(3) Except for court records described in Section 68152 of the Government Code, the confidential records and information described in paragraphs (1) and (2) may be retained for up to six months from the date the information was first obtained, or until final disposition of the citation, whichever date is later, after which time the information shall be destroyed in a manner that will preserve the confidentiality of any person included in the record or information.

(g) Notwithstanding subdivision (f), the registered owner or any individual identified by the registered owner as the driver of the vehicle at the time of the alleged violation shall be permitted to review the photographic evidence of the alleged violation.

(h) (1) A contract between a governmental agency and a manufacturer or supplier of automated traffic enforcement equipment shall not include provision for the payment or compensation to the manufacturer or supplier based on the number of citations generated, or as a percentage of the revenue generated, as a result of the use of the equipment authorized under this section.

(2) Paragraph (1) does not apply to a contract that was entered into by a governmental agency and a manufacturer or supplier of automated traffic enforcement equipment before January 1, 2004, unless that contract is renewed, extended, or amended on or after January 1, 2004.

(3) A governmental agency that proposes to install or operate an automated traffic enforcement system shall not consider revenue generation, beyond recovering its actual costs of operating the system, as a factor when considering whether or not to install or operate a system within its local jurisdiction.

(i) A manufacturer or supplier that operates an automated traffic enforcement system pursuant to this section shall, in cooperation with the governmental agency, submit an annual report to the Judicial Council that includes, but is not limited to, all of the following information if this information is in the possession of, or readily available to, the manufacturer or supplier:

(1) The number of alleged violations captured by the systems they operate.

(2) The number of citations issued by a law enforcement agency based on information collected from the automated traffic enforcement system.
(3) For citations identified in paragraph (2), the number of violations that involved traveling straight through the intersection, turning right, and turning left.

(4) The number and percentage of citations that are dismissed by the court.

(5) The number of traffic collisions at each intersection that occurred prior to, and after the installation of, the automated traffic enforcement system.

(6) If a governmental agency utilizing an automated traffic enforcement system has posted signs on or before January 1, 2013, that met the requirements of paragraph (1) of subdivision (a) of this section, as it read on January 1, 2012, the governmental agency shall not remove those signs until signs are posted that meet the requirements specified in this section, as it reads on January 1, 2013.

Amended Sec. 230, Ch. 329, Stats. 2010. Effective January 1, 2011.
Amended Sec. 3, Ch. 735, Stats. 2012. Effective January 1, 2013.

Automated Enforcement Systems: Hearing: Prohibited Use

21455.6. (a) A city council or county board of supervisors shall conduct a public hearing on the proposed use of an automated enforcement system authorized under Section 21455.5 prior to authorizing the city or county to enter into a contract for the use of the system.

(b) (1) The activities listed in subdivision (c) of Section 21455.5 that relate to the operation of an automated enforcement system may be contracted out by the city or county, except that the activities listed in paragraph (1) of, and subparagraphs (A), (D), (E), or (F) of paragraph (2) of, subdivision (c) of Section 21455.5 may not be contracted out to the manufacturer or supplier of the automated enforcement system.

(2) Paragraph (1) does not apply to a contract that was entered into by a city or county and a manufacturer or supplier of automated enforcement equipment before January 1, 2004, unless that contract is renewed, extended, or amended on or after January 1, 2004.

(c) The authorization in Section 21455.5 to use automated enforcement systems does not authorize the use of photo radar for speed enforcement purposes by any jurisdiction.

Automated Enforcement Systems: Minimum Yellow Light Change Interval

21455.7. (a) At an intersection at which there is an automated enforcement system in operation, the minimum yellow light change interval shall be established in accordance with the Traffic Manual of the Department of Transportation.

(b) For purposes of subdivision (a), the minimum yellow light change intervals relating to designated approach speeds provided in the Traffic Manual of the Department of Transportation are mandatory minimum yellow light intervals.

(c) A yellow light change interval may exceed the minimum interval established pursuant to subdivision (a).

Walk, Wait, or Don’t Walk

21456. Whenever a pedestrian control signal showing the words “WALK” or “WAIT” or “DON’T WALK” or other approved symbol is in place, the signal shall indicate as follows:

(a) “WALK” or approved “Walking Person” symbol. A pedestrian facing the signal may proceed across the roadway in the direction of the signal, but shall yield the right-of-way to vehicles lawfully within the intersection at the time that signal is first shown.

(b) Flashing or steady “DON’T WALK” or “WAIT” or approved “Upraised Hand” symbol. No pedestrian shall start to cross the roadway in the direction of the signal, but any pedestrian who has partially completed crossing shall proceed to a sidewalk or safety zone or otherwise leave the roadway while the “WAIT” or “DON’T WALK” or approved “Upraised Hand” symbol is showing.

Pedestrian Traffic Control

21456.1. Whenever an official traffic control signal exhibiting an approved “Walking Person” symbol, an approved “Upraised Hand” symbol, or the words “WALK” or “WAIT” or “DON’T WALK” is shown concurrently with official traffic control signals exhibiting the words “GO” or “CAUTION” or “STOP” or exhibiting different colored lights successively, one at a time or with arrows, a pedestrian facing those traffic control signals shall obey the “Walking Person,” “Upraised Hand,” “WALK” or “WAIT” or “DON’T WALK” control signal as provided in Section 21456.

Transportation: Bicycles: Traffic Signals

21456.2. (a) Unless otherwise directed by a bicycle signal as provided in Section 21456.3, an operator of a bicycle shall obey the provisions of this Article applicable to the driver of a vehicle.

(b) Whenever an official traffic control signal exhibiting different colored bicycle symbols is shown concurrently with official traffic control signals exhibiting different colored lights or arrows, an operator of a bicycle facing those traffic control signals shall obey the bicycle signals as provided in Section 21456.3.

NOTE: The preceding section was amended after it had been repealed. It was the legislature’s intent that the amended text become part of statute and is therefore being considered “added” text.

Transportation: Bicycle Signals

21456.3. (a) An operator of a bicycle facing a green bicycle signal shall proceed straight through or turn right or left or make a U-turn unless a sign prohibits a U-turn. An operator of a bicycle, including one turning, shall yield the right-of-way to other traffic and to pedestrians lawfully within the intersection or an adjacent crosswalk.

(b) An operator of a bicycle facing a steady yellow bicycle signal is, by that signal, warned that the related green movement is ending or that a red indication will be shown immediately thereafter.

(c) Except as provided in subdivision (d), an operator of a bicycle facing a steady red bicycle signal shall stop at a marked limit line, but if none, before entering the crosswalk on the near side of the intersection, or, if none, then before entering the intersection, and shall remain stopped until an indication to proceed is shown.

(d) Except when a sign is in place prohibiting a turn, an operator of a bicycle, after stopping as required by subdivision...
(c), facing a steady red bicycle signal, may turn right, or turn left from a one-way street onto a one-way street. An operator of a bicycle making a turn shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to traffic lawfully using the intersection.

(e) A bicycle signal may be used only at those locations that meet geometric standards or traffic volume standards, or both, as adopted by the Department of Transportation.

NOTE: The preceding section was amended after it had been repealed. It was the legislature's intent that the amended text become part of statute and is therefore being considered “added” text.

Flashing Signals

§21457. Whenever an illuminated flashing red or yellow light is used in a traffic signal or with a traffic sign, it shall require obedience by drivers as follows:

(a) Flashing red (stop signal): When a red lens is illuminated with rapid intermittent flashes, a driver shall stop at a clearly marked limit line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it, and the driver may proceed subject to the rules applicable after making a stop at a stop sign.

(b) Flashing yellow (caution signal): When a yellow lens is illuminated with rapid intermittent flashes, a driver may proceed through the intersection or past the signal only with caution.

Curb Markings

§21458. (a) Whenever local authorities enact local parking regulations and indicate them by the use of paint upon curbs, the following colors only shall be used, and the colors indicate as follows:

(1) Red indicates no stopping, standing, or parking, whether the vehicle is attended or unattended, except that a bus may stop in a red zone marked or signposted as a bus loading zone.

(2) Yellow indicates stopping only for the purpose of loading or unloading passengers or freight for the time as may be specified by local ordinance.

(3) White indicates stopping for either of the following purposes:
   (A) Loading or unloading of passengers for the time as may be specified by local ordinance.
   (B) Depositing mail in an adjacent mailbox.

(b) The distinctive roadway markings shall be employed to designate any portion of a highway where the volume of traffic or the vertical or other curvature of the roadway renders it hazardous to drive on the left side of the marking or to indicate no driving to the left as provided in Section 21460, and shall not be employed for any other purpose.

(c) Any pavement marking other than as described in this section placed by the Department of Transportation or any local authority shall not be effective to indicate no driving over or to the left of the marking.

Double Lines

§21460. (a) If double parallel solid yellow lines are in place, a person driving a vehicle shall not drive to the left of the lines, except as permitted in this section.

(b) If double parallel solid white lines are in place, a person driving a vehicle shall not cross any part of those double solid white lines, except as permitted in this section or Section 21655.8.

(c) If the double parallel lines, one of which is broken, are in place, a person driving a vehicle shall not drive to the left of the lines, except as follows:

(1) If the driver is on the side of the roadway in which the broken line is in place, the driver may cross over the double lines or drive to the left of the double lines when overtaking or passing other vehicles.

(2) As provided in Section 21460.5.

(d) The markings as specified in subdivision (a), (b), or (c) do not prohibit a driver from crossing the marking if (1) turning to the left at an intersection or into or out of a driveway or private road, or (2) making a U-turn under the rules governing that turn, and the markings shall be disregarded when authorized signs have been erected designating offcenter traffic lanes as permitted pursuant to Section 21657.

(e) Raised pavement markers may be used to simulate painted lines described in this section if the markers are placed in accordance with standards established by the Department of Transportation.

Two-Way Left-Turn Lanes

§21460.5. (a) The Department of Transportation and local authorities in their respective jurisdictions may designate a two-way left-turn lane on a highway. A two-way left-turn lane is a lane near the center of the highway set aside for use by vehicles making left turns in both directions from or into the highway.

(b) Two-way left-turn lanes shall be designated by distinctive roadway markings consisting of parallel double yellow lines, interior line dashed and exterior line solid, on each side of the lane. The Department of Transportation may determine and prescribe standards and specifications governing length, width, and positioning of the distinctive pavement markings. All pavement markings designating a two-way left-turn lane shall conform to the Department of Transportation’s standards and specifications.

(c) A vehicle shall not be driven in a designated two-way left-turn lane except when preparing for or making a left turn from or into a highway or when preparing for or making a U-turn when otherwise permitted by law, and shall not be driven in that lane for more than 200 feet while preparing for
and making the turn or while preparing to merge into the adjacent lanes of travel. A left turn or U-turn shall not be made from any other lane where a two-way left-turn lane has been designated.

(d) This section shall not prohibit driving across a two-way left-turn lane.

(e) Raised pavement markers may be used to simulate painted lines described in this section when such markers are placed in accordance with standards established by the Department of Transportation.

Obedience by Driver to Official Traffic Control Devices

21461. (a) It is unlawful for a driver of a vehicle to fail to obey a sign or signal defined as regulatory in the federal Manual on Uniform Traffic Control Devices, or a Department of Transportation approved supplement to that manual of a regulatory nature erected or maintained to enhance traffic safety and operations or to indicate and carry out the provisions of this code or a local traffic ordinance or resolution adopted pursuant to a local traffic ordinance, or to fail to obey a device erected or maintained by lawful authority of a public body or official.

(b) Subdivision (a) does not apply to acts constituting violations under Chapter 9 (commencing with Section 22500) of this division or to acts constituting violations of a local traffic ordinance adopted pursuant to Chapter 9 (commencing with Section 22500).

Amended Sec. 1, Ch. 203, Stats. 2004. Effective January 1, 2005.

Obedience by Pedestrian to Official Traffic Control Devices

21461.5. It shall be unlawful for any pedestrian to fail to obey any sign or signal erected or maintained to indicate or carry out the provisions of this code or any local traffic ordinance or resolution adopted pursuant to a local traffic ordinance, or to fail to obey any device erected or maintained pursuant to Section 21352.

Obedience to Traffic Control Signals

21462. The driver of any vehicle, the person in charge of any animal, and the motorman of any streetcar shall obey the instructions of any official traffic signal applicable to him and placed as provided by law, unless otherwise directed by a police or traffic officer or when it is necessary for the purpose of avoiding a collision or in case of other emergency, subject to the exemptions granted by Section 21055.

Illegal Operation of Signals

21463. No person shall operate a manually or traffic actuated signal other than for the purpose of permitting a pedestrian or vehicle to cross a roadway.

Interference With Traffic Devices

21464. (a) A person, without lawful authority, may not deface, injure, attach any material or substance to, knock down, or remove, nor may a person shoot at, any official traffic control device, traffic guidepost, traffic signpost, motorist callbox, or historical marker placed or erected as authorized or required by law, nor may a person without lawful authority deface, injure, attach any material or substance to, or remove, nor may a person shoot at, any inscription, shield, or insignia on any device, guide, or marker.

(b) A person may not use, and a vehicle, other than an authorized emergency vehicle or a public transit passenger vehicle, may not be equipped with, any device, including, but not limited to, a mobile infrared transmitter, that is capable of sending a signal that interrupts or changes the sequence patterns of an official traffic control signal unless that device or use is authorized by the Department of Transportation pursuant to Section 21350 or by local authorities pursuant to Section 21351.

(c) A person may not buy, possess, manufacture, install, sell, offer for sale, or otherwise distribute a device described in subdivision (b), including, but not limited to, a mobile infrared transmitter (MIRT), unless the purchase, possession, manufacture, installation, sale, offer for sale, or distribution is for the use of the device by a peace officer or other person authorized to operate an authorized emergency vehicle or a public transit passenger vehicle, in the scope of his or her duties.

(d) Any willful violation of subdivision (a), (b), or (c) that results in injury to, or the death of, a person is punishable by imprisonment pursuant to subdivision (b) of Section 1170 of the Penal Code, or by imprisonment in a county jail for a period of not more than six months, and by a fine of not less than five thousand dollars ($5,000) nor more than ten thousand dollars ($10,000).

(e) Any willful violation of subdivision (a), (b), or (c) that does not result in injury to, or the death of, a person is punishable by a fine of not more than five thousand dollars ($5,000).

(f) The court shall allow the offender to perform community service designated by the court in lieu of all or part of any fine imposed under this section.

Amended Sec. 607, Ch. 15, Stats. 2011. Effective July 1, 2011.

Unauthorized Traffic Devices

21465. No person shall place, maintain, or display upon, or in view of, any highway any unofficial sign, signal, device, or marking, or any sign, signal, device, or marking which purports to be or is an imitation of, or resembles, an official traffic control device or which attempts to direct the movement of traffic or which hides from view any official traffic control device.

Light Preventing Recognition of Official Traffic Control Device

21466. No person shall place or maintain or display upon or in view of any highway any light in such position as to prevent the driver of a vehicle from readily recognizing any official traffic control device.

Light Impairing Driver’s Vision

21466.5. No person shall place or maintain or display, upon or in view of any highway, any light of any color of such brilliance as to impair the vision of drivers upon the highway. A light source shall be considered vision impairing when its brilliance exceeds the values listed below.

The brightness reading of an objectionable light source shall be measured with a 1/2 degree photoelectric brightness meter placed at the driver’s point of view. The maximum
measured brightness of the light source within 10 degrees from the driver’s normal line of sight shall not be more than 1,000 times the minimum measured brightness in the driver’s field of view, except that when the minimum measured brightness in the field of view is 10 foot-lamberts or less, the measured brightness of the light source in foot-lambert shall not exceed 500 plus 100 times the angle, in degrees, between the driver’s line of sight and the light source.

The provisions of this section shall not apply to railroads as defined in Section 229 of the Public Utilities Code.

Prohibited Signs and Devices

21467. Every prohibited sign, signal, device, or light is a public nuisance, and the Department of Transportation, members of the California Highway Patrol, and local authorities are hereby authorized and empowered without notice to remove the same, or cause the same to be removed, or the Director of Transportation, the commissioner, or local authorities may bring an action as provided by law to abate such nuisance.

Public Utilities

21468. This division does not modify or limit the authority of the Public Utilities Commission to erect or maintain, or cause to be erected and maintained, signs, signals or other traffic control devices as authorized by law.

CHAPTER 3. DRIVING, OVERTAKING, AND PASSING

Article 1. Driving on Right Side

Right Side of Roadway

21650. Upon all highways, a vehicle shall be driven upon the right half of the roadway, except as follows:
(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing that movement.
(b) When placing a vehicle in a lawful position for, and when the vehicle is lawfully making, a left turn.
(c) When the right half of a roadway is closed to traffic under construction or repair.
(d) Upon a roadway restricted to one-way traffic.
(e) When the roadway is not of sufficient width.
(f) When the vehicle is necessarily traveling so slowly as to impede the normal movement of traffic, that portion of the highway adjacent to the right edge of the roadway may be utilized temporarily when in a condition permitting safe operation.
(g) This section does not prohibit the operation of bicycles on any shoulder of a highway, on any sidewalk, on any bicycle path within a highway, or along any crosswalk or bicycle path crossing, where the operation is not otherwise prohibited by this code or local ordinance.
(h) This section does not prohibit the operation of a transit bus on the shoulder of a state highway in conjunction with the implementation of a program authorized pursuant to Section 148.1 of the Streets and Highways Code on state highways within the areas served by the transit services of the Monterey-Salinas Transit District or the Santa Cruz Metropolitan Transit District.

Bicycle Operated on Roadway or Highway Shoulder

21650.1. A bicycle operated on a roadway, or the shoulder of a highway, shall be operated in the same direction as vehicles are required to be driven upon the roadway.

Divided Highways

21651. (a) Whenever a highway has been divided into two or more roadways by means of intermittent barriers or by means of a dividing section of not less than two feet in width, either unpaved or delineated by curbs, double-parallel lines, or other markings on the roadway, it is unlawful to do either of the following:
(1) To drive any vehicle over, upon, or across the dividing section.
(2) To make any left, semicircular, or U-turn with the vehicle on the divided highway, except through an opening in the barrier designated and intended by public authorities for the use of vehicles or through a plainly marked opening in the dividing section.

(b) It is unlawful to drive any vehicle upon a highway, except to the right of an intermittent barrier or a dividing section which separates two or more opposing lanes of traffic. Except as otherwise provided in subdivision (c), a violation of this subdivision is a misdemeanor.

(c) Any willful violation of subdivision (b) which results in injury to, or death of, a person shall be punished by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code, or imprisonment in a county jail for a period of not more than six months.

Amended Sec. 608, Ch. 15, Stats. 2011. Effective July 1, 2011.

Entrance to Public Highway from Service Road

21652. When any service road has been constructed on or along any public highway and the main thoroughfare of the highway has been separated from the service road, it is unlawful for any person to drive any vehicle into the main thoroughfare from the service road or from the main thoroughfare into the service road except through an opening in the dividing curb, section, separation, or line.

Slow-Moving Vehicles

21654. (a) Notwithstanding the prima facie speed limits, any vehicle proceeding upon a highway at a speed less than the normal speed of traffic moving in the same direction at such time shall be driven in the right-hand lane for traffic or as close as practicable to the right-hand edge or curb, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(b) If a vehicle is being driven at a speed less than the normal speed of traffic moving in the same direction at such time, and is not being driven in the right-hand lane for traffic or as close as practicable to the right-hand edge or curb, it shall constitute prima facie evidence that the driver is operating the vehicle in violation of subdivision (a) of this section.

(c) The Department of Transportation, with respect to state highways, and local authorities, with respect to highways under their jurisdiction, may place and maintain upon highways official signs directing slow-moving traffic to use the right-hand traffic lane except when overtaking and passing another vehicle or preparing for a left turn.

Designated Lanes for Certain Vehicles

21655. (a) Whenever the Department of Transportation or local authorities with respect to highways under their respective jurisdictions determines upon the basis of an engineering and traffic investigation that the designation of a specific lane or lanes for the travel of vehicles required to travel at reduced speeds would facilitate the safe and orderly movement of traffic, the department or local authority may designate a specific lane or lanes for the travel of vehicles which are subject to the provisions of Section 22406 and shall erect signs at reasonable intervals giving notice thereof.

(b) Any trailer bus, except as provided in Section 21655.5, and any vehicle subject to the provisions of Section 22406 shall be driven in the lane or lanes designated pursuant to subdivision (a) whenever signs have been erected giving notice of that designation. Except as otherwise provided in this subdivision, when a specific lane or lanes have not been so designated, any of those vehicles shall be driven in the right-hand lane for traffic or as close as practicable to the right edge or curb. If, however, a specific lane or lanes have not been designated on a divided highway having four or more clearly marked lanes for traffic in one direction, any of those vehicles may also be driven in the lane to the immediate left of that right-hand lane, unless otherwise prohibited under this code. When overtaking and passing another vehicle proceeding in the same direction, the driver shall use either the designated lane, the lane to the immediate left of the right-hand lane, or the right-hand lane for traffic as permitted under this code.

This subdivision does not apply to a driver who is preparing for a left- or right-hand turn or who is entering into or exiting from a highway or to a driver who must necessarily drive in a lane other than the right-hand lane to continue on his or her intended route.

Exclusive- or Preferential-Use Lanes for High Occupancy Vehicles

21655.5. (a) The Department of Transportation and local authorities, with respect to highways under their respective jurisdictions, may authorize or permit exclusive or preferential use of highway lanes for high-occupancy vehicles. Prior to establishing the lanes, competent engineering estimates shall be made of the effect of the lanes on safety, congestion, and highway capacity.

(b) The Department of Transportation and local authorities, with respect to highways under their respective jurisdictions, shall place and maintain, or cause to be placed and maintained, signs and other official traffic control devices to designate the exclusive or preferential lanes, to advise motorists of the applicable vehicle occupancy levels, and, except where ramp metering and bypass lanes are regulated with the activation of traffic signals, to advise motorists of the hours of high-occupancy vehicle usage. No person shall drive a vehicle upon those lanes except in conformance with the instructions imparted by the official traffic control devices. A motorcycle, a mass transit vehicle, or a paratransit vehicle that is clearly and identifiably marked on all sides of the vehicle with the name of the paratransit provider may be operated upon those exclusive or preferential use lanes unless specifically prohibited by a traffic control device.

(c) When responding to an existing emergency or breakdown in which a mass transit vehicle is blocking an exclusive or preferential use lane, a clearly marked mass transit vehicle, mass transit supervisor’s vehicle, or mass transit maintenance vehicle that is responding to the emergency or breakdown may be operated in the segment of the exclusive or preferential use lane being blocked by the mass transit vehicle, regardless of the number of persons in the vehicle responding to the emergency or breakdown, if both vehicles are owned or operated by the same agency, and that agency provides public mass transit services.

(d) For purposes of this section, a “paratransit vehicle” is defined in Section 462.

(e) For purposes of this section, a “mass transit vehicle” means a transit bus regularly used to transport paying passengers in mass transit service.

(f) It is the intent of the Legislature, in amending this section, to stimulate and encourage the development of ways and means of relieving traffic congestion on California highways and, at the same time, to encourage individual citizens to pool their vehicular resources and thereby conserve fuel and lessen emission of air pollutants.

(g) The provisions of this section regarding mass transit vehicles and paratransit vehicles shall only apply if the Director of Transportation determines that the application will not subject the state to a reduction in the amount of federal aid for highways.

Approval of Transportation Planning Agency or County Transportation Commission

21655.6. (a) Whenever the Department of Transportation authorizes or permits exclusive or preferential use of highway lanes for high-occupancy vehicles on any highway located within the territory of a transportation planning agency, as defined in Section 99214 of the Public Utilities Code, or a county transportation commission, the department shall obtain the approval of the transportation planning agency or county transportation commission prior to establishing the exclusive or preferential use of the highway lanes.

(b) If the department authorizes or permits additional exclusive or preferential use of highway lanes for high-occupancy vehicles on that portion of State Highway Route 101 located within the boundaries of the City of Los Angeles, the department shall obtain the approval of the Los Angeles County Transportation Commission by at least a two-thirds majority vote of the entire membership eligible to vote prior to establishing the additional exclusive or preferential use of the highway lanes.

(c) If the department restricts or requires the restriction of the use of any lane on any federal-aid highway in the unincorporated areas of Alameda County to high-occupancy vehicles, the Metropolitan Transportation Commission shall review the use patterns of those lanes and shall determine if congestion relief is being efficiently achieved by the creation of the high-occupancy vehicle lanes. The commission shall report its findings and recommendations in its HOV Master Plan Update for the San Francisco Bay area no later than two years after those high-occupancy vehicle lanes become operational.

Amended Sec. 1, Ch. 653, Stats. 1998. Effective January 1, 1899.
Use of Highway: Public Mass Transit Guideway

21655.7. A local authority, with respect to any highway under its jurisdiction, may authorize or permit a portion of the highway to be used exclusively for a public mass transit guideway.

Entering or Exiting Exclusive or Preferential Use Lanes

21655.8. (a) Except as required under subdivision (b), when exclusive or preferential use lanes for high-occupancy vehicles are established pursuant to Section 21655.5 and double parallel solid lines are in place to the right thereof, no person driving a vehicle may cross over these double lines to enter into or exit from the exclusive or preferential use lanes, and entrance or exit may be made only in areas designated for these purposes or where a single broken line is in place to the right of the exclusive or preferential use lanes.

(b) Upon the approach of an authorized emergency vehicle displaying a red light or siren, as specified in Section 21806, a person driving a vehicle in an exclusive or preferential use lane shall exit that lane immediately upon determining that the exit can be accomplished with reasonable safety.

(c) Raised pavement markers may be used to simulate painted lines described in this section.

Amended Sec. 67, Ch. 1154, Stats. 1996. Effective September 30, 1996.

HOV Lanes: Use By Ultra-Low Emission Vehicles

21655.9. (a) (1) Whenever the Department of Transportation or a local authority authorizes or permits exclusive or preferential use of highway lanes or highway access ramps for high-occupancy vehicles pursuant to Section 21655.5, the use of those lanes or ramps shall also be extended to vehicles that are issued distinctive decals, labels, or other identifiers pursuant to Section 5205.5 regardless of vehicle occupancy or ownership.

(2) A local authority during periods of peak congestion shall suspend for a lane the access privileges extended pursuant to paragraph (1) for those vehicles issued distinctive decals, labels, or other identifiers pursuant to Section 5205.5, if a periodic review of lane performance by that local authority discloses both of the following factors regarding the lane:

(A) The lane, or a portion of the lane, exceeds a level of service C, as described in subdivision (b) of Section 65089 of the Government Code.

(B) The operation or projected operation of vehicles in the lane, or a portion of the lane, will significantly increase congestion.

(b) A person shall not drive a vehicle described in subdivision (a) of Section 5205.5 with a single occupant upon a high-occupancy vehicle lane pursuant to this section unless the decal, label, or other identifier issued pursuant to Section 5205.5 is properly displayed on the vehicle, and the vehicle registration described in Section 5205.5 is with the vehicle.

(c) A person shall not operate or own a vehicle displaying a decal, label, or other identifier, as described in Section 5205.5, if that decal, label, or identifier was not issued for that vehicle pursuant to Section 5205.5. A violation of this subdivision is a misdemeanor.

(d) If the provisions in Section 5205.5 authorizing the department to issue decals, labels, or other identifiers to hybrid and alternative fuel vehicles are repealed, vehicles displaying those decals, labels, or other identifiers shall not access high-occupancy vehicle lanes without meeting the occupancy requirements otherwise applicable to those lanes.

(e) This section shall become inoperative on January 1, 2019, or the date the federal authorization pursuant to Section 166 of Title 23 of the United States Code expires, or the date the Secretary of State receives the notice described in subdivision (i) of Section 5205.5, whichever occurs first, and, as of January 1, 2019, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2019, deletes or extends the dates on which it becomes inoperative and is repealed.

Amended and repealed Sec. 2 Ch. 215, Stats. 2010. Effective January 1, 2011 or as noted in section (e) above. Repeal operative January 1, 2015 or as noted in section (e) above.

Amended and repealed Sec. 3.5, Ch. 414, Stats. 2013. Effective January 1, 2014. Repeal operative by its own provisions or on January 1, 2019.

NOTE: The preceding section shall become inoperative by its own provisions or shall become inoperative on January 1, 2019, and as of January 1, 2019 is repealed.

Turning Out of Slow-Moving Vehicles

21656. On a two-lane highway where passing is unsafe because of traffic in the opposite direction or other conditions, a slow-moving vehicle, including a passenger vehicle, behind which five or more vehicles are formed in line, shall turn off the roadway at the nearest place designated as a turnout by signs erected by the authority having jurisdiction over the highway, or wherever sufficient area for a safe turnout exists, in order to permit the vehicles following it to proceed. As used in this section a slow-moving vehicle is one which is proceeding at a rate of speed less than the normal flow of traffic at the particular time and place.

Designated Traffic Direction

21657. The authorities in charge of any highway may designate any highway, roadway, part of a roadway, or specific lanes upon which vehicular traffic shall proceed in one direction at all or such times as shall be indicated by official traffic control devices. When a roadway has been so designated, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by traffic control devices.

Laned Roadways

21658. Whenever any roadway has been divided into two or more clearly marked lanes for traffic in one direction, the following rules apply:

(a) A vehicle shall be driven as nearly as practical entirely within a single lane and shall not be moved from the lane until such movement can be made with reasonable safety.

(b) Official signs may be erected directing slow-moving traffic to use a designated lane or allocating specified lanes to traffic moving in the same direction, and drivers of vehicles shall obey the directions of the traffic device.

Three-Lane Highways

21659. Upon a roadway which is divided into three lanes a vehicle shall not be driven in the extreme left lane at any time, nor in the center lane except when overtaking and passing another vehicle where the roadway ahead is clearly
visible and the center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where the center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is signposted to give notice of such allocation. This section does not apply upon a one-way roadway.

**Approaching Vehicles**

21660. Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and, except when a roadway has been divided into traffic lanes, each driver shall give to the other at least one-half of the main traveled portion of the roadway whenever possible.

**Narrow Roadways**

21661. Whenever upon any grade the width of the roadway is insufficient to permit the passing of vehicles approaching from opposite directions at the point of meeting, the driver of the vehicle descending the grade shall yield the right-of-way to the vehicle ascending the grade and shall, if necessary, back his vehicle to a place in the highway where it is possible for the vehicles to pass.

**Mountain Driving**

21662. The driver of a motor vehicle traveling through defiles or canyons or upon mountain highways shall hold the motor vehicle under control at all times and shall do the following when applicable:

(a) If the roadway has no marked centerline, the driver shall drive as near the right-hand edge of the roadway as is reasonably possible.

(b) If the roadway has insufficient width to permit a motor vehicle to be driven entirely to the right of the center of the roadway, the driver shall give audible warning with the horn of the motor vehicle upon approaching any curve where the view is obstructed within a distance of 200 feet along the highway.

**Driving on Sidewalk**

21663. Except as expressly permitted pursuant to this code, including Sections 21100. 4 and 21114.5, no person shall operate or move a motor vehicle upon a sidewalk except as may be necessary to enter or leave adjacent property.

Amended Sec. 120, Ch. 124, Stats. 1996. Effective January 1, 1997.

**Freeway Entry or Exit**

21664. It is unlawful for the driver of any vehicle to enter or exit any freeway which has full control of access and no crossings at grade, except upon a designated on ramp with respect to entering the freeway or a designated off ramp with respect to exiting the freeway.

**Article 2. Additional Driving Rules**

**Obstruction to Driving**

21700. No person shall drive a vehicle when it is so loaded, or when there are in the front seat such number of persons as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control over the driving mechanism of the vehicle.

Amended Ch. 1500, Stats. 1965. Effective September 17, 1965.

**Buses Transporting School Pupils in City of San Diego**

21700.5. No person shall knowingly drive a bus within the City of San Diego which is transporting any public or private school pupil who is enrolled in kindergarten or any of grades 1 to 12, inclusive, to or from a public or private school, unless every such pupil is seated in a seat.

**Interference With Driver or Mechanism**

21701. No person shall willfully interfere with the driver of a vehicle or with the mechanism thereof in such manner as to affect the driver's control of the vehicle.

The provisions of this section shall not apply to a drivers' license examiner or other employee of the Department of Motor Vehicles when conducting the road or driving test of an applicant for a driver's license nor to a person giving instruction as a part of a course in driver training conducted by a public school, educational institution or a driver training school licensed by the Department of Motor Vehicles.

**Limitation on Driving Hours**

21702. (a) No person shall drive upon any highway any vehicle designed or used for transporting persons for compensation for more than 10 consecutive hours nor for more than 10 hours spread over a total of 15 consecutive hours. Thereafter, such person shall not drive any such vehicle until eight consecutive hours have elapsed.

Regardless of aggregate driving time, no driver shall drive for more than 10 hours in any 24-hour period unless eight consecutive hours off duty have elapsed.

(b) No person shall drive upon any highway any vehicle designed or used for transporting merchandise, freight, materials or other property for more than 12 consecutive hours nor for more than 12 hours spread over a total of 15 consecutive hours. Thereafter, such person shall not drive any such vehicle until eight consecutive hours have elapsed.

Regardless of aggregate driving time, no driver shall drive for more than 12 hours in any 24-hour period unless eight consecutive hours off duty have elapsed.

(c) This section does not apply in any case of casualty or unavoidable accident or an act of God.

(d) In computing the number of hours under this section, any time spent by a person in driving such a vehicle outside this state shall, upon the vehicle entering this state, be included.

(e) Any person who violates any provision of this section is guilty of a misdemeanor and is punishable by a fine of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000) for each offense.

(f) This section shall not apply to the driver of a vehicle which is subject to the provisions of Section 34500.

**Following Too Closely**

21703. The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicle and the traffic upon, and the condition of, the roadway.
Distance Between Vehicles

21704. (a) The driver of any motor vehicle subject to the speed restriction of Section 22406 that is operated outside of a business or residence district, shall keep the vehicle he is driving at a distance of not less than 300 feet to the rear of any other motor vehicle subject to such speed restriction which is preceding it.

(b) The provisions of this section shall not prevent overtaking and passing nor shall they apply upon a highway with two or more lanes for traffic in the direction of travel.

Caravans

21705. Motor vehicles being driven outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space and in no event less than 100 feet between each vehicle or combination of vehicles so as to enable any other vehicle to overtake or pass.

Following Emergency Vehicles

21706. No motor vehicle, except an authorized emergency vehicle, shall follow within 300 feet of any authorized emergency vehicle being operated under the provisions of Section 21055.

This section shall not apply to a police or traffic officer when serving as an escort within the purview of Section 21057.

Definitions

21706.5. (a) For purposes of this section, the following terms have the following meanings:

(1) “Emergency incident zone” means an area on a freeway that is within 500 feet of, and in the direction of travel of, a stationary authorized emergency vehicle that has its emergency lights activated. Traffic in the opposite lanes of the freeway is not in an “emergency incident zone.”

(2) “Operate a vehicle in an unsafe manner” means operating a motor vehicle in violation of an act made unlawful under this division, except a violation of Section 21809.

(b) A person shall not operate a vehicle in an unsafe manner within an emergency incident zone.

Added Sec. 1, Ch. 375, Stats. 2006. Effective January 1, 2007.

Fire Areas

21707. No motor vehicle, except an authorized emergency vehicle or a vehicle of a duly authorized member of a fire or police department, shall be operated within the block wherein an emergency situation responded to by any fire department vehicle exists, except that in the event the nearest intersection to the emergency is more than 300 feet therefrom, this section shall prohibit operation of vehicles only within 300 feet of the emergency, unless directed to do so by a member of the fire department or police department, sheriff, deputy sheriff, or member of the California Highway Patrol. The emergency shall be deemed to have ceased to exist when the official of the fire department in charge at the scene of the emergency shall so indicate. Officials of the fire department or police department or the Department of the California Highway Patrol who are present shall make every effort to prevent the closing off entirely of congested highway traffic passing the scene of any such emergency.

Fire Hoses

21708. No person shall drive or propel any vehicle or conveyance upon, over, or across, or in any manner damage any fire hose or chemical hose used by or under the supervision and control of any organized fire department. However, any vehicle may cross a hose provided suitable jumpers or other appliances are installed to protect the hose.

Safety Zones

21709. No vehicle shall at any time be driven through or within a safety zone.

Coasting Prohibited

21710. The driver of a motor vehicle when traveling on down grade upon any highway shall not coast with the gears of such vehicle in neutral.

Towed Vehicles Swerving

21711. No person shall operate a train of vehicles when any vehicle being towed whips or swerves from side to side or fails to follow substantially in the path of the towing vehicle.

Amended Ch. 44, Stats. 1959. Effective September 18, 1959.

Unlawful Riding and Towing

21712. (a) A person driving a motor vehicle shall not knowingly permit a person to ride on a vehicle or upon a portion of a vehicle that is not designed or intended for the use of passengers.

(b) A person shall not ride on a vehicle or upon a portion of a vehicle that is not designed or intended for the use of passengers.

(c) A person driving a motor vehicle shall not knowingly permit a person to ride in the trunk of that motor vehicle.

(d) A person shall not ride in the trunk of a motor vehicle.

(e) A person violating subdivision (c) or (d) shall be punished as follows:

(1) By a fine of one hundred dollars ($100).

(2) For a second violation occurring within one year of a prior violation that resulted in a conviction, a fine of two hundred dollars ($200).

(3) For a third or a subsequent violation occurring within one year of two or more prior violations that resulted in convictions, a fine of two hundred fifty dollars ($250).

(f) Subdivisions (a) and (b) do not apply to an employee engaged in the necessary discharge of his or her duty or in the case of persons riding completely within or upon vehicle bodies in the space intended for a load on the vehicle.

(g) A person shall not drive a motor vehicle that is towing a person riding upon a motorcycle, motorized bicycle, bicycle, coaster, roller skates, sled, skis, or toy vehicle.

(h) A person shall not knowingly drive a motor vehicle that is towing a person riding upon a motorcycle, motorized bicycle, bicycle, coaster, roller skates, sled, skis, or toy vehicle.

(i) Subdivision (g) does not apply to a trailer coach that is towed with a fifth-wheel device if the trailer coach is equipped with safety glazing materials wherever glazing materials are used in windows or doors, with an audible or visual signaling device that a passenger inside the trailer coach can use to gain the attention of the motor vehicle driver, and with at least one
unobstructed exit capable of being opened from both the interior and exterior of the trailer coach.

**Armed Cars**

21713. No person shall operate on any highway any privately owned armored car unless a license to operate such car has first been obtained from the commissioner in accordance with Chapter 2.5 (commencing with Section 2500) of Division 2.

Violation of this section is a misdemeanor and upon conviction is punishable by a fine not exceeding one thousand dollars ($1,000) or by imprisonment in the county jail for not to exceed six months or by both such fine and imprisonment.

**Three-Wheeled Vehicles: Operation**

21714. The driver of a vehicle described in subdivision (f) of Section 27803 shall not operate the vehicle in either of the following areas:

(a) On, or immediately adjacent to, the striping or other markers designating adjacent traffic lanes.

(b) Between two or more vehicles that are traveling in adjacent traffic lanes.

**Passenger Vehicle Combinations: Number and Weight Limits**

21715. (a) No passenger vehicle regardless of weight, or any other motor vehicle under 4,000 pounds unladen, shall draw or tow more than one vehicle in combination, except that an auxiliary dolly or tow dolly may be used with the towed vehicle.

(b) No motor vehicle under 4,000 pounds unladen shall tow any vehicle weighing 6,000 pounds or more gross.

**Golf Cart Operation**

21716. Except as provided in Section 21115.1 and Chapter 6 (commencing with Section 1950) of Division 2.5 of the Streets and Highways Code, no person shall operate a golf cart on any highway except in a speed zone of 25 miles per hour or less.

**Turning Across Bicycle Lane**

21717. Whenever it is necessary for the driver of a motor vehicle to cross a bicycle lane that is adjacent to his lane of travel to make a turn, the driver shall drive the motor vehicle into the bicycle lane prior to making the turn and shall make the turn pursuant to Section 22100.

**Stop, Park, or Leave Standing Upon a Freeway**

21718. (a) No person shall stop, park, or leave standing any vehicle upon a freeway which has full control of access and no crossings at grade except:

1. When necessary to avoid injury or damage to persons or property.

2. When required by law or in obedience to a peace officer or official traffic control device.

3. When any person is actually engaged in maintenance or construction on freeway property or any employee of a public agency is actually engaged in the performance of official duties.

4. When any vehicle is so disabled that it is impossible to avoid temporarily stopping and another vehicle has been summoned to render assistance to the disabled vehicle or driver of the disabled vehicle. This paragraph applies when the vehicle summoned to render assistance is a vehicle owned by the donor of free emergency assistance that has been summoned by display upon or within a disabled vehicle of a placard or sign given to the driver of the disabled vehicle by the donor for the specific purpose of summoning assistance, other than towing service, from the donor.

5. Where stopping, standing, or parking is specifically permitted. However, buses may not stop on freeways unless sidewalks are provided with shoulders of sufficient width to permit stopping without interfering with the normal movement of traffic and without the possibility of crossing over fast lanes to reach the bus stop.

6. Where necessary for any person to report a traffic accident or other situation or incident to a peace officer or any person specified in paragraph (3), either directly or by means of an emergency telephone or similar device.

7. When necessary for the purpose of rapid removal of impediments to traffic by the owner or operator of a tow truck operating under an agreement with the Department of the California Highway Patrol.

(b) A conviction of a violation of this section is a conviction involving the safe operation of a motor vehicle upon the highway if a notice to appear for the violation was issued by a peace officer described in Section 830.1 or 830.2 of the Penal Code.

**Pocket Bike: Impoundment**

21721. (a) A peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may cause the removal and seizure of a pocket bike, upon the notice to appear for a violation of Section 21720. A pocket bike so seized shall be held for a minimum of 48 hours.

(b) A violator of this section shall be responsible for all costs associated with the removal, seizure, and storage of the pocket bike.

(c) A city, county, or city and county may adopt a regulation, ordinance, or resolution imposing charges equal to its administrative costs relating to the removal, seizure, and storage costs of a pocket bike. The charges shall not exceed the actual costs incurred for the expenses directly related to removing, seizing, and storing a pocket bike.

(d) An agency shall release a seized pocket bike to the owner, violator, or the violator’s agent after 48 hours, if all of the following conditions are met:

1. The violator or authorized agent’s request is made during normal business hours.

2. The applicable removal, seizure, and storage costs have been paid by the owner, or any other responsible party.

Article 3. Overtaking and Passing

Overtake and Pass to Left

21750. (a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left at a safe distance without interfering with the safe operation of the overtaken vehicle, subject to the limitations and exceptions set forth in this article.
(b) This section shall become operative on September 16, 2014.

Passing Without Sufficient Clearance

21751. On a two-lane highway, no vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless the left side is clearly visible and free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction.

When Driving on Left Prohibited

21752. No vehicle shall be driven to the left side of the roadway under the following conditions:
(a) When approaching or upon the crest of a grade or a curve in the highway where the driver’s view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction.
(b) When the view is obstructed upon approaching within 100 feet of any bridge, viaduct, or tunnel.
(c) When approaching within 100 feet of or when traversing any railroad grade crossing.
(d) When approaching within 100 feet of or when traversing any intersection.

This section shall not apply upon a one-way roadway.

Yielding for Passing

21753. Except when passing on the right is permitted, the driver of an overtaken vehicle shall safely move to the right-hand side of the highway in favor of the overtaking vehicle after an audible signal or a momentary flash of headlights by the overtaking vehicle, and shall not increase the speed of his or her vehicle until completely passed by the overtaking vehicle. This section does not require the driver of an overtaken vehicle to drive on the shoulder of the highway in order to allow the overtaking vehicle to pass.

Passing on the Right

21754. The driver of a vehicle may overtake and pass to the right of another vehicle only under the following conditions:
(a) When the vehicle overtaken is making or about to make a left turn.
(b) Upon a highway within a business or residence district with unobstructed pavement of sufficient width for two or more lines of moving vehicles in the direction of travel.
(c) Upon any highway outside of a business or residence district with unobstructed pavement of sufficient width and clearly marked for two or more lines of moving traffic in the direction of travel.
(d) Upon a one-way street.
(e) Upon a highway divided into two roadways where traffic is restricted to one direction upon each of such roadways.

The provisions of this section shall not relieve the driver of a slow moving vehicle from the duty to drive as closely as practicable to the right hand edge of the roadway.
Amended Sec. 39, Ch. 491, Stats. 2010. Effective January 1, 2011.

Pass on Right Safely

21755. (a) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting that movement in safety. In no event shall that movement be made by driving off the paved or main-traveled portion of the roadway.
(b) This section does not prohibit the use of a bicycle in a bicycle lane or on a shoulder.
Amended Sec. 40, Ch. 491, Stats. 2010. Effective January 1, 2011.

Passing Streetcar, Trolley Coach, or Bus

21756. (a) The driver of a vehicle overtaking any interurban electric or streetcar stopped or about to stop for the purpose of receiving or discharging any passenger shall stop the vehicle to the rear of the nearest running board or door of such car and thereupon remain standing until all passengers have boarded the car or upon alighting have reached a place of safety, except as provided in subdivision (b) hereof.
(b) Where a safety zone has been established or at an intersection where traffic is controlled by an officer or a traffic control signal device, a vehicle need not be brought to a stop before passing any interurban electric or streetcar but may proceed past such car at a speed not greater than 10 miles per hour and with due caution for the safety of pedestrians.
(c) Whenever any trolley coach or bus has stopped at a safety zone to receive or discharge passengers, a vehicle may proceed past such trolley coach or bus at a speed not greater than 10 miles per hour.
Amended Ch. 969, Stats. 1959. Effective September 18, 1959.

Passing Streetcar on Left

21757. The driver of a vehicle shall not overtake and pass upon the left, nor shall any driver of a vehicle drive upon the left side of, any interurban electric or streetcar proceeding in the same direction whether the street car is actually in motion or temporarily at rest, except:
(a) When so directed by a police or traffic officer.
(b) When upon a one-way street.
(c) When upon a street where the tracks are so located as to prevent compliance with this section.

Passing on Grades

21758. In the event any vehicle is being operated on any grade outside of a business or residence district at a speed of less than 20 miles per hour, no person operating any other motor vehicle shall attempt to overtake and pass such slow moving vehicle unless the overtaking vehicle is operated at a speed of at least 10 miles per hour in excess of the speed of the overtaken vehicle, nor unless the passing movement is completed within a total distance not greater than one-quarter of a mile.
Caution in Passing Animals

21759. The driver of any vehicle approaching any horse drawn vehicle, any ridden animal, or any livestock shall exercise proper control of his vehicle and shall reduce speed or stop as may appear necessary or as may be signalled or otherwise requested by any person driving, riding in charge of the animal or livestock in order to avoid frightening and to safeguard the animal or livestock and to insure the safety of any person driving or riding the animal or in charge of the livestock.

Three Feet for Safety Act

21760. (a) This section shall be known and may be cited as the Three Feet for Safety Act.
(b) The driver of a motor vehicle overtaking and passing a bicycle that is proceeding in the same direction on a highway shall pass in compliance with the requirements of this article applicable to overtaking and passing a vehicle, and shall do so at a safe distance that does not interfere with the safe operation of the overtaken bicycle, having due regard for the size and speed of the motor vehicle and the bicycle, traffic conditions, weather, visibility, and the surface and width of the highway.
(c) A driver of a motor vehicle shall not overtake or pass a bicycle proceeding in the same direction on a highway at a distance of less than three feet between any part of the motor vehicle and any part of the bicycle or its operator.
(d) If the driver of a motor vehicle is unable to comply with subdivision (c), due to traffic or roadway conditions, the driver shall slow to a speed that is reasonable and prudent, and may pass only when doing so would not endanger the safety of the operator of the bicycle, taking into account the size and speed of the motor vehicle and bicycle, traffic conditions, weather, visibility, and surface and width of the highway.
(e) (1) A violation of subdivision (b), (c), or (d) is an infraction punishable by a fine of thirty-five dollars ($35).
(2) If a collision occurs between a motor vehicle and a bicycle causing bodily injury to the operator of the bicycle, and the driver of the motor vehicle is found to be in violation of subdivision (b), (c), or (d), a two-hundred-twenty-dollar ($220) fine shall be imposed on that driver.
(f) This section shall become operative on September 16, 2014.

Chapter 4. Right-of-Way

Intersections

21800. (a) The driver of a vehicle approaching an intersection shall yield the right-of-way to any vehicle which has entered the intersection from a different highway.
(b) (1) When two vehicles enter an intersection from different highways at the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on his or her immediate right, except that the driver of any vehicle on a terminating highway shall yield the right-of-way to any vehicle on the intersecting continuing highway.
(2) For the purposes of this section, “terminating highway” means a highway which intersects, but does not continue beyond the intersection, with another highway which does continue beyond the intersection.
Yield Signs: Intersections

21803. (a) The driver of any vehicle approaching any intersection which is controlled by a yield right-of-way sign shall, upon arriving at the sign, yield the right-of-way to any vehicles which have entered the intersection, or which are approaching on the intersecting highway close enough to constitute an immediate hazard, and shall continue to yield the right-of-way to those vehicles until he or she can proceed with reasonable safety.

(b) A driver having yielded as prescribed in subdivision (a) may proceed to enter the intersection, and the drivers of all other approaching vehicles shall yield the right-of-way to the vehicle entering or crossing the intersection.

Entry Onto Highway

21804. (a) The driver of any vehicle about to enter or cross a highway from any public or private property, or from an alley, shall yield the right-of-way to all traffic, as defined in Section 260, approaching on the highway close enough to constitute an immediate hazard, and shall continue to yield the right-of-way to that traffic until he or she can proceed with reasonable safety.

(b) A driver having yielded as prescribed in subdivision (a) may proceed to enter or cross the highway, and the drivers of all other vehicles approaching on the highway shall yield the right-of-way to the vehicle entering or crossing the intersection.

Equestrian Crossings

21805. (a) The Department of Transportation, and local authorities with respect to highways under their jurisdiction, may designate any intersection of a highway as a bridle path or equestrian crossing by erecting appropriate signs. The signs shall be erected on the highway at or near the approach to the intersection, and shall be of a type approved by the Department of Transportation. The signs shall indicate the crossing and any crossmarks, safety devices, or signals the authorities deem necessary to safeguard vehicular and equestrian traffic at the intersection.

(b) The driver of any vehicle shall yield the right-of-way to any horseback rider who is crossing the highway at any designated equestrian crossing which is marked by signs as prescribed in subdivision (a).

(c) Subdivision (b) does not relieve any horseback rider from the duty of using due care for his or her own safety. No horseback rider shall leave a curb or other place of safety and proceed suddenly into the path of a vehicle which is close enough to constitute an immediate hazard.

Authorized Emergency Vehicles

21806. Upon the immediate approach of an authorized emergency vehicle which is sounding a siren and which has at least one lighted lamp exhibiting red light that is visible, under normal atmospheric conditions, from a distance of 1,000 feet to the front of the vehicle, the surrounding traffic shall, except as otherwise directed by a traffic officer, do the following:

(a) (1) Except as required under paragraph (2), the driver of every other vehicle shall yield the right-of-way and shall immediately drive to the right-hand edge or curb of the highway, clear of any intersection, and thereupon shall stop and remain stopped until the authorized emergency vehicle has passed.

(2) A person driving a vehicle in an exclusive or preferential use lane shall exit that lane immediately upon determining that the exit can be accomplished with reasonable safety.

(b) The operator of every street car shall immediately stop the street car, clear of any intersection, and remain stopped until the authorized emergency vehicle has passed.

(c) All pedestrians upon the highway shall proceed to the nearest curb or place of safety and remain there until the authorized emergency vehicle has passed.

Amended Sec. 68, Ch. 1154, Stats. 1996. Effective September 30, 1996.

Effect of Exemption

21807. The provisions of Section 21806 shall not operate to relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons and property.

Freeway: Stationary Vehicles Displaying Emergency or Warning Lights

21809. (a) A person driving a vehicle on a freeway approaching a stationary authorized emergency vehicle that is displaying emergency lights, a stationary tow truck that is displaying flashing amber warning lights, or a stationary marked Department of Transportation vehicle that is displaying flashing amber warning lights, shall approach with due caution and, before passing in a lane immediately adjacent to the authorized emergency vehicle, tow truck, or Department of Transportation vehicle, absent other direction by a peace officer, proceed to do one of the following:

(1) Make a lane change into an available lane not immediately adjacent to the authorized emergency vehicle, tow truck, or Department of Transportation vehicle, with due regard for safety and traffic conditions, if practicable and not prohibited by law.

(2) If the maneuver described in paragraph (1) would be unsafe or impracticable, slow to a reasonable and prudent speed that is safe for existing weather, road, and vehicular or pedestrian traffic conditions.

(b) A violation of subdivision (a) is an infraction, punishable by a fine of not more than fifty dollars ($50).

(c) The requirements of subdivision (a) do not apply if the stationary authorized emergency vehicle that is displaying emergency lights, the stationary tow truck that is displaying flashing amber warning lights, or the stationary marked Department of Transportation vehicle that is displaying flashing amber warning lights is not adjacent to the freeway or is separated from the freeway by a protective physical barrier.

Amended Sec. 1, Ch. 175, Stats. 2009. Effective January 1, 2010.

Chapter 5. Pedestrians' Rights and Duties

Legislative Declaration: Pedestrians

21949. (a) The Legislature hereby finds and declares that it is the policy of the State of California that safe and convenient pedestrian travel and access, whether by foot, wheelchair, walker, or stroller, be provided to the residents of the state.

(b) In accordance with the policy declared under subdivision (a), it is the intent of the Legislature that all levels of
government in the state, particularly the Department of Transportation, work to provide convenient and safe passage for pedestrians on and across all streets and highways, increase levels of walking and pedestrian travel, and reduce pedestrian fatalities and injuries.

**Right-of-Way at Crosswalks**

21950. (a) The driver of a vehicle shall yield the right-of-way to a pedestrian crossing the roadway within any marked crosswalk or within any unmarked crosswalk at an intersection, except as otherwise provided in this chapter.

(b) This section does not relieve a pedestrian from the duty of using due care for his or her safety. No pedestrian may suddenly leave a curb or other place of safety and walk or run into the path of a vehicle that is so close as to constitute an immediate hazard. No pedestrian may unnecessarily stop or delay traffic while in a marked or unmarked crosswalk.

(c) The driver of a vehicle approaching a pedestrian within any marked or unmarked crosswalk shall exercise all due care and shall reduce the speed of the vehicle or take any other action relating to the operation of the vehicle as necessary to safeguard the safety of the pedestrian.

(d) Subdivision (b) does not relieve a driver of a vehicle from the duty of exercising due care for the safety of any pedestrian within any marked crosswalk or within any unmarked crosswalk at an intersection.

**Removal of Marked Crosswalk: Notification**

21950.5. (a) An existing marked crosswalk may not be removed unless notice and opportunity to be heard is provided to the public not less than 30 days prior to the scheduled date of removal. In addition to any other public notice requirements, the notice of proposed removal shall be posted at the crosswalk identified for removal.

(b) The notice required by subdivision (a) shall include, but is not limited to, notification to the public of both of the following:

1. That the public may provide input relating to the scheduled removal.

2. The form and method of providing the input authorized by paragraph (1).

**Vehicles Stopped for Pedestrians**

21951. Whenever any vehicle has stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway the driver of any other vehicle approaching from the rear shall not overtake and pass the stopped vehicle.

**Right-of-Way on Sidewalk**

21952. The driver of any motor vehicle, prior to driving over or upon any sidewalk, shall yield the right-of-way to any pedestrian approaching thereon.

**Tunnel or Overhead Crossing**

21953. Whenever any pedestrian crosses a roadway other than by means of a pedestrian tunnel or overhead pedestrian crossing, if a pedestrian tunnel or overhead crossing serves the place where the pedestrian is crossing the roadway, such pedestrian shall yield the right-of-way to all vehicles on the highway so near as to constitute an immediate hazard.

This section shall not be construed to mean that a marked crosswalk, with or without a signal device, cannot be installed where a pedestrian tunnel or overhead crossing exists.

**Pedestrians Outside Crosswalks**

21954. (a) Every pedestrian upon a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway so near as to constitute an immediate hazard.

(b) The provisions of this section shall not relieve the driver of a vehicle from the duty to exercise due care for the safety of any pedestrian upon a roadway.

**Crossing Between Controlled Intersections**

21955. Between adjacent intersections controlled by traffic control signal devices or by police officers, pedestrians shall not cross the roadway at any place except in a crosswalk.

**Pedestrian on Roadway**

21956. (a) No pedestrian may walk upon any roadway outside of a business or residence district otherwise than close to his or her left-hand edge of the roadway.

(b) A pedestrian may walk close to his or her right-hand edge of the roadway if a crosswalk or other means of safely crossing the roadway is not available or if existing traffic or other conditions would compromise the safety of a pedestrian attempting to cross the road.

**Hitchhiking**

21957. No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any vehicle.

**Skiing or Tobogganing**

21958. It is unlawful for any person to ski or toboggan on or across any roadway in such manner as to interfere with the movement of vehicles thereon. A person on skis proceeding on or across a highway at a pace no greater than a walk is not within the prohibition of this section and shall be considered to be a pedestrian with all the rights and duties thereof as prescribed in this code.

**Freeways and Expressways: Use Restrictions**

21960. (a) The Department of Transportation and local authorities, by order, ordinance, or resolution, with respect to freeways, expressways, or designated portions thereof under their respective jurisdictions, to which vehicle access is completely or partially controlled, may prohibit or restrict the use of the freeways, expressways, or any portion thereof by pedestrians, bicycles or other nonmotorized traffic or by any person operating a motor-driven cycle, motorized bicycle, or motorized scooter. A prohibition or restriction pertaining to bicycles, motor-driven cycles, or motorized scooters shall be deemed to include motorized bicycles; and no person may operate a motorized bicycle wherever that prohibition or restriction is in force. Notwithstanding any provisions of any order, ordinance, or resolution to the contrary, the driver or passengers of a disabled vehicle stopped on a freeway or expressway may walk to the nearest exit, in either direction, on that side of the freeway or expressway upon...
which the vehicle is disabled, from which telephone or motor vehicle repair services are available.

(b) The prohibitory regulation authorized by subdivision (a) shall be effective when appropriate signs giving notice thereof are erected upon any freeway or expressway and the approaches thereto. If any portion of a county freeway or expressway is contained within the limits of a city within the county, the county may erect signs on that portion as required under this subdivision if the ordinance has been approved by the city pursuant to subdivision (b) of Section 1730 of the Streets and Highways Code.

(c) No ordinance or resolution of local authorities shall apply to any state highway until the proposed ordinance or resolution has been presented to, and approved in writing by, the Department of Transportation.

(d) An ordinance or resolution adopted under this section on or after January 1, 2005, to prohibit pedestrian access to a freeway or expressway shall not be effective unless it is supported by a finding by the local authority that the freeway or expressway does not have pedestrian facilities and pedestrian use would pose a safety risk to the pedestrian.

Local Regulation of Pedestrians

21961. This Chapter does not prevent local authorities from adopting ordinances prohibiting pedestrians from crossing roadways at other than crosswalks.

Pedestrian on Bridge

21962. Any peace officer having reasonable cause to believe that any pedestrian is stopped or standing on any bridge or overpass for the purpose of violating Section 23110, may lawfully order such person from the bridge or overpass.

Visually Handicapped Pedestrian

21963. A totally or partially blind pedestrian who is carrying a predominantly white cane (with or without a red tip), or using a guide dog, shall have the right-of-way, and the driver of any vehicle approaching this pedestrian, who fails to yield the right-of-way, or to take all reasonably necessary precautions to avoid injury to this blind pedestrian, is guilty of a misdemeanor, punishable by imprisonment in the county jail not exceeding six months, or by a fine of not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000), or both. This section shall not preclude prosecution under any other applicable provision of law.

White Canes

21964. No person, other than those totally or partially blind, shall carry or use on any highway or in any public building, public facility, or other public place, a predominantly white cane (with or without a red tip).

Definitions

21965. As used in Sections 21963 and 21964, “blind,” “totally blind,” and “partially blind,” mean having central visual acuity not to exceed 20/200 in the better eye, with corrected lenses, as measured by the Snellen test, or visual acuity greater than 20/200, but with a limitation in the field of vision such that the widest diameter of the visual field subtends an angle not greater than 20 degrees.

Pedestrian in Bicycle Lane

21966. No pedestrian shall proceed along a bicycle path or lane where there is an adjacent adequate pedestrian facility.

Skateboards: Prohibitions

21967. Except as provided in Section 21968, a local authority may adopt rules and regulations by ordinance or resolution prohibiting or restricting persons from riding or propelling skateboards on highways, sidewalks, or roadways.

Local Regulation of Roller Skating

21969. A local authority may adopt rules and regulations by ordinance regulating persons engaged in roller skating on a highway, sidewalk, or roadway.

Blocked Crosswalk: Prohibited

21970. (a) No person may stop a vehicle unnecessarily in a manner that causes the vehicle to block a marked or unmarked crosswalk or sidewalk.

(b) Subdivision (a) does not preclude the driver of a vehicle facing a steady circular red light from turning right or turning left from a one-way street onto a one-way street pursuant to subdivision (b) of Section 21453.

Right-of-Way Violations: Infractions

21971. Notwithstanding any other provision of law, any person who violates subdivision (a) or (b) of Section 21451, subdivision (b) of Section 21453, subdivision (a) of Section 21950, or Section 21952, and causes the bodily injury of anyone other than the driver is guilty of an infraction punishable under Section 42001.18.

Chapter 6. Turning and Stopping and Turning Signals

Turning Upon a Highway

22100. Except as provided in Section 22100.5 or 22101, the driver of any vehicle intending to turn upon a highway shall do so as follows:

(a) Right Turns. Both the approach for a right-hand turn and a right-hand turn shall be made as close as practicable to the right-hand curb or edge of the roadway except:

(1) Upon a highway having three marked lanes for traffic moving in one direction that terminates at an intersecting highway accommodating traffic in both directions, the driver of a vehicle in the middle lane may turn right into any lane lawfully available to traffic moving in that direction upon the roadway being entered.
§22110

(2) If a right-hand turn is made from a one-way highway at an intersection, a driver shall approach the turn as provided in this subdivision and shall complete the turn in any lane lawfully available to traffic moving in that direction upon the roadway being entered.

(3) Upon a highway having an additional lane or lanes marked for a right turn by appropriate signs or markings, the driver of a vehicle may turn right from any lane designated and marked for that turning movement.

(b) Left Turns. The approach for a left turn shall be made as close as practicable to the left-hand edge of the extreme left-hand lane or portion of the roadway lawfully available to traffic moving in the direction of travel of the vehicle and, when turning at an intersection, the left turn shall not be made before entering the intersection. After entering the intersection, the left turn shall be made so as to leave the intersection in a lane lawfully available to traffic moving in that direction upon the roadway being entered, except that upon a highway having three marked lanes for traffic moving in one direction that terminates at an intersecting highway accommodating traffic in both directions, the driver of a vehicle in the middle lane may turn left into any lane lawfully available to traffic moving in that direction upon the roadway being entered.

Regulation of Turns at Intersection

22101. (a) The Department of Transportation or local authorities in respect to highways under their respective jurisdictions, may cause official traffic control devices to be placed or erected within or adjacent to intersections to regulate or prohibit turning movements at such intersections.

(b) When turning movements are required at an intersection notice of such requirement shall be given by erection of a sign, unless an additional clearly marked traffic lane is provided for the approach to the turning movement, in which event notice as applicable to such additional traffic lane shall be given by any official traffic control device.

(c) When right- or left-hand turns are prohibited at an intersection notice of such prohibition shall be given by erection of a sign.

(d) When official traffic control devices are placed as required in subdivisions (b) or (c), it shall be unlawful for any driver of a vehicle to disobey the directions of such official traffic control devices.

U-Turn in Business District

22102. No person in a business district shall make a U-turn, except at an intersection, or on a divided highway where an opening has been provided in accordance with Section 21651. This turning movement shall be made as close as practicable to the extreme left-hand edge of the lanes moving in the driver's direction of travel immediately prior to the initiation of the turning movement, when more than one lane in the direction of travel is present.

U-Turn in Residence District

22103. No person in a residence district shall make a U-turn when any other vehicle is approaching from either direction within 200 feet, except at an intersection when the approaching vehicle is controlled by an official traffic control device.

Turning Near Fire Stations

22104. No person shall make a U-turn in front of the driveway entrance or approaches to a fire station. No person shall drive the driveway entrance or approaches to a fire station for the purpose of turning a vehicle so as to proceed in the opposite direction.

Unobstructed View Necessary for U-Turn

22105. No person shall make a U-turn upon any highway where the driver of such vehicle does not have an unobstructed view for 200 feet in both directions along the highway and of any traffic thereon.

Starting Parked Vehicles or Backing

22106. No person shall start a vehicle stopped, standing, or parked on a highway, nor shall any person back a vehicle on a highway until such movement can be made with reasonable safety.

Turning Movements and Required Signals

22107. No person shall turn a vehicle from a direct course or move right or left upon a roadway until such movement can be made with reasonable safety and then only after the giving of an appropriate signal in the manner provided in this Chapter in the event any other vehicle may be affected by the movement.

Amended Ch. 96, Stats. 1959. Effective September 18, 1959.

Duration of Signal

22108. Any signal of intention to turn right or left shall be given continuously during the last 100 feet traveled by the vehicle before turning.

Signal When Stopping

22109. No person shall stop or suddenly decrease the speed of a vehicle on a highway without first giving an appropriate signal in the manner provided in this Chapter to the driver of any vehicle immediately to the rear when there is opportunity to give the signal.

Method of Signaling

22110. (a) The signals required by this Chapter shall be given by signal lamp, unless a vehicle is not required to be and is not equipped with turn signals. Drivers of vehicles not required to be and not equipped with turn signals shall give a hand and arm signal when required by this chapter.
(b) In the event the signal lamps become inoperative while driving, hand and arm signals shall be used in the manner required in this chapter.

Amended Sec. 12, Ch. 1008, Stats. 1999. Effective January 1, 2000.

**Hand Signals**

§22111. All required signals given by hand and arm shall be given from the left side of a vehicle in the following manner:

(a) Left turn—hand and arm extended horizontally beyond the side of the vehicle.

(b) Right turn—hand and arm extended upward beyond the side of the vehicle, except that a bicyclist may extend the right hand and arm horizontally to the right side of the bicycle.

(c) Stop or sudden decrease of speed signal—hand and arm extended downward beyond the side of the vehicle.

**Schoolbus Signal and Schoolbus Stops**

§22112. (a) On approach to a schoolbus stop where pupils are loading or unloading from a schoolbus, the schoolbus driver shall activate an approved amber warning light system, if the schoolbus is so equipped, beginning 200 feet before the schoolbus stop. The schoolbus driver shall deactivate the amber warning light system after reaching the schoolbus stop. The schoolbus driver shall operate the flashing red light signal system and stop signal arm, as required on the schoolbus, at all times when the schoolbus is stopped for the purpose of loading or unloading pupils. The flashing red light signal system, amber warning lights system, and stop signal arm shall not be operated at any place where traffic is controlled by a traffic officer or official traffic control signal, at any location identified in subdivision (c) of this section. The schoolbus flashing red light signal system, amber warning lights system, and stop signal arm shall not be operated at any other time.

(b) The schoolbus driver shall stop to load or unload pupils only at a schoolbus stop designated for pupils by the school district superintendent or the head or principal of a private school, or authorized by any of those individuals for school activity trips.

(c) When a schoolbus is stopped on a highway or private road for the purpose of loading or unloading pupils, at a location where traffic is not controlled by a traffic officer, the driver shall, before opening the door, ensure that the flashing red light signal system and stop signal arm are activated, and that it is safe to enter or exit the schoolbus.

(d) When a schoolbus is stopped on a highway or private road for the purpose of loading or unloading pupils, at a location where traffic is not controlled by a traffic officer or official traffic control signal, the schoolbus driver shall do all of the following:

(1) Escort all pupils in prekindergarten, kindergarten, or any of grades 1 to 8, inclusive, who need to cross the highway or private road upon which the schoolbus is stopped. The driver shall use an approved hand-held “STOP” sign while escorting all pupils.

(2) Require all pupils who need to cross the highway or private road upon which the schoolbus is stopped to walk in front of the bus as they cross.

(3) Ensure that all pupils who need to cross the highway or private road upon which the schoolbus is stopped have crossed safely, and that all other pupils and pedestrians are a safe distance from the schoolbus before setting the schoolbus in motion.

(e) Except at a location where pupils are loading or unloading from a schoolbus and must cross a highway or private road upon which the schoolbus is stopped, the schoolbus driver may not activate the amber warning light system, the flashing red light signal system and stop signal arm at any of the following locations:

(1) Schoolbus loading zones on or adjacent to school grounds or during an activity trip, if the schoolbus is lawfully stopped or parked.

(2) Where the schoolbus is disabled due to mechanical breakdown. The driver of a relief bus that arrives at the scene to transport pupils from the disabled schoolbus shall not activate the amber warning light system, the flashing red light system, and stop signal arm.

(3) Where a pupil requires physical assistance from the driver or authorized attendant to board or leave the schoolbus and providing the assistance extends the length of time the schoolbus is stopped beyond the time required to load or unload a pupil that does not require physical assistance.

(4) Where the roadway surface on which the bus is stopped is partially or completely covered by snow or ice and requiring traffic to stop would pose a safety hazard as determined by the schoolbus motor carrier.

(5) On a state highway with a posted speed limit of 55 miles per hour or higher where the schoolbus is completely off the main traveled portion of the highway.

(6) Any location determined by a school district or a private school, with the approval of the Department of the California Highway Patrol, to present a traffic or safety hazard.

(f) Notwithstanding subdivisions (a) to (d), inclusive, the Department of the California Highway Patrol may require the activation of an approved flashing amber warning light system, if the schoolbus is so equipped, or the flashing red light signal system and stop signal arm, as required on the schoolbus, at any location where the department determines that the activation is necessary for the safety of school pupils loading or unloading from a schoolbus.

**Local Authorities**

22113. This Chapter does not prevent local authorities, by ordinance, from prohibiting the making of any turning movement by any vehicle at any intersection or between any designated intersections.

**CHAPTER 7. SPEED LAWS**

Article 1. Generally

**Excessive Speed and Designated Lane Use**

22348. (a) Notwithstanding subdivision (b) of Section 22351, a person shall not drive a vehicle upon a highway with a speed limit established pursuant to Section 22349 or 22356 at a speed greater than that speed limit.

(b) A person who drives a vehicle upon a highway at a speed greater than 100 miles per hour is guilty of an infraction punishable, as follows:

(1) Upon a first conviction of a violation of this subdivision, by a fine of not to exceed five hundred dollars ($500). The court may also suspend the privilege of the person to operate a motor
vehicle for a period not to exceed 30 days pursuant to Section 13200.5.

(2) Upon a conviction under this subdivision of an offense that occurred within three years of a prior offense resulting in a conviction of an offense under this subdivision, by a fine of not to exceed seven hundred fifty dollars ($750). The person’s privilege to operate a motor vehicle shall be suspended by the Department of Motor Vehicles pursuant to subdivision (a) of Section 13355.

(3) Upon a conviction under this subdivision of an offense that occurred within five years of two or more prior offenses resulting in convictions of offenses under this subdivision, by a fine of not to exceed one thousand dollars ($1,000). The person’s privilege to operate a motor vehicle shall be suspended by the Department of Motor Vehicles pursuant to subdivision (b) of Section 13355.

(c) A vehicle subject to Section 22406 shall be driven in a lane designated pursuant to Section 21655, or if a lane has not been so designated, in the right-hand lane for traffic or as close as practicable to the right-hand edge or curb. When overtaking and passing another vehicle proceeding in the same direction, the driver shall use either the designated lane, the lane to the immediate left of the right-hand lane, or the right-hand lane for traffic as permitted under this code. If, however, specific lane or lanes have not been designated on a divided highway having four or more clearly marked lanes for traffic in one direction, a vehicle may also be driven in the lane to the immediate left of the right-hand lane, unless otherwise prohibited under this code. This subdivision does not apply to a driver who is preparing for a left- or right-hand turn or who is in the process of entering into or exiting from a highway or to a driver who is required necessarily to drive in a lane other than the right-hand lane to continue on his or her intended route.

Amended Sec. 1, Ch. 300, Stats. 2004. Effective January 1, 2005.

**Maximum Speed Limit**

22349. (a) Except as provided in Section 22356, no person may drive a vehicle upon a highway at a speed greater than 65 miles per hour.

(b) Notwithstanding any other provision of law, no person may drive a vehicle upon a two-lane, undivided highway at a speed greater than 55 miles per hour unless that highway, or portion thereof, has been posted for a higher speed by the Department of Transportation or appropriate local agency upon the basis of an engineering and traffic survey. For purposes of this subdivision, the following apply:

(1) A two-lane, undivided highway is a highway with not more than one through lane of travel in each direction.

(2) Passing lanes may not be considered when determining the number of through lanes.

(c) It is the intent of the Legislature that there be reasonable signing on affected two-lane, undivided highways described in subdivision (b) in continuing the 55 miles-per-hour speed signing on affected two-lane, undivided highways described in

§22352

**Speed Law Violations**

22351. (a) The speed of any vehicle upon a highway not in excess of the limits specified in Section 22352 or established as authorized in this code is lawful unless clearly proved to be in violation of the basic speed law.

(b) The speed of any vehicle upon a highway in excess of the prima facie speed limits in Section 22352 or established as authorized in this code is prima facie unlawful unless the defendant establishes by competent evidence that the speed in excess of said limits did not constitute a violation of the basic speed law at the time, place and under the conditions then existing.

**Prima Facie Speed Limits**

22352. The prima facie limits are as follows and shall be applicable unless changed as authorized in this code and, if so changed, only when signs have been erected giving notice thereof:

(a) Fifteen miles per hour:

(1) When traversing a railway grade crossing, if during the last 100 feet of the approach to the crossing the driver does not have a clear and unobstructed view of the crossing and of any traffic on the railway for a distance of 400 feet in both directions along the railway. This subdivision does not apply in the case of any railway grade crossing where a human flagman is on duty or a clearly visible electrical or mechanical railway crossing signal device is installed but does not then indicate the immediate approach of a railway train or car.

(2) When traversing any intersection of highways if during the last 100 feet of the driver’s approach to the intersection the driver does not have a clear and unobstructed view of the intersection and of any traffic upon all of the highways entering the intersection for a distance of 100 feet along all those highways, except at an intersection protected by stop signs or yield right-of-way signs or controlled by official traffic control signals.

(3) On any alley.

(b) Twenty-five miles per hour:

(1) On any highway other than a state highway, in any business or residence district unless a different speed is determined by local authority under procedures set forth in this code.

(2) When approaching or passing a school building or the grounds thereof, contiguous to a highway and posted with a standard “SCHOOL” warning sign, while children are going to or leaving the school either during school hours or during the noon recess period. The prima facie limit shall also apply when approaching or passing any school grounds which are not separated from the highway by a fence, gate, or other physical barrier while the grounds are in use by children and the highway is posted with a standard “SCHOOL” warning sign. For purposes of this subparagraph, standard “SCHOOL” warning signs may be placed at any distance up to 500 feet away from school grounds.

(3) When passing a senior center or other facility primarily used by senior citizens, contiguous to a street other than a state highway and posted with a standard “SENIOR” warning sign.
sign. A local authority may erect a sign pursuant to this paragraph when the local agency makes a determination that the proposed signing should be implemented. A local authority may request grant funding from the Pedestrian Safety Account pursuant to Section 894.7 of the Streets and Highways Code, or any other grant funding available to it, and use that grant funding to pay for the erection of those signs, or may utilize any other funds available to it to pay for the erection of those signs, including, but not limited to, donations from private sources.  
Amended Sec. 1, Ch. 240, Stats. 2013. Effective January 1, 2014.

City of Norco: Equestrian Safety

22353. When conducting an engineering and traffic survey, the City of Norco, in addition to the factors set forth in Section 627, may also consider equestrian safety.  

City of Orange: Equestrian Safety

22353.5. When conducting an engineering and traffic survey of the public streets within the boundaries of the common interest development known as Orange Park Acres, in addition to the factors set forth in Section 627, the County of Orange may also consider equestrian safety.  
Added Sec. 1, Ch. 282, Stats. 2014. Effective January 1, 2015.

Decrease of State Highway Speed Limits

22354. (a) Whenever the Department of Transportation determines upon the basis of an engineering and traffic survey that the limit of 65 miles per hour is more than is reasonable or safe upon any portion of a state highway where the limit of 65 miles is applicable, the department may determine and declare a prima facie speed limit of 60, 55, 50, 45, 40, 35, 30 or 25 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon the highway.  
(b) This section shall become operative on the date specified in subdivision (c) of Section 22366.  

Speed Limit Change: Consultation and Consideration Requirements

22354.5. (a) Whenever the Department of Transportation determines, upon the basis of an engineering and traffic survey, to increase or decrease the existing speed limit on a particular portion of a state highway pursuant to Section 22354, it shall, prior to increasing or decreasing that speed limit, consult with, and take into consideration the recommendations of, the Department of the California Highway Patrol.  
(b) The city council or board of supervisors of a city or county through which any portion of a state highway subject to subdivision (a) extends may conduct a public hearing on the proposed increase or decrease at a convenient location as near as possible to that portion of state highway. The Department of Transportation shall take into consideration the results of the public hearing in determining whether to increase or decrease the speed limit.  

Variable Speed Limits

22355. Whenever the Department of Transportation determines upon the basis of an engineering and traffic survey that the safe and orderly movement of traffic upon any state highway which is a freeway will be facilitated by the establishment of variable speed limits, the department may erect, regulate, and control signs upon the state highway which is a freeway, or any portion thereof, which signs shall be so designed as to permit display of different speed limits at various times of the day or night. Such signs need not conform to the standards and specifications established by regulations of the Department of Transportation pursuant to Section 21400, but shall be of sufficient size and clarity to give adequate notice of the applicable speed limit. The speed limit upon the freeway at a particular time and place shall be that which is then and there displayed upon such sign.  

Increase of Freeway Speed Limit to 70 Miles Per Hour

22356. (a) Whenever the Department of Transportation, after consultation with the Department of the California Highway Patrol, determines upon the basis of an engineering and traffic survey on existing highway segments, or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highway segments, that a speed greater than 65 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any state highway, or portion thereof, that is otherwise subject to a maximum speed limit of 65 miles per hour, the Department of Transportation, with the approval of the Department of the California Highway Patrol, may declare a higher maximum speed of 70 miles per hour for vehicles not subject to Section 22406, and shall cause appropriate signs to be erected giving notice thereof. The Department of Transportation shall only make a determination under this section that is fully consistent with, and in full compliance with, federal law.  
(b) No person shall drive a vehicle upon that highway at a speed greater than 70 miles per hour, as posted.  
(c) This section shall become operative on the date specified in subdivision (c) of Section 22366.  

Increase of Local Speed Limits to 65 Miles Per Hour

22357. (a) Whenever a local authority determines upon the basis of an engineering and traffic survey that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any street other than a state highway otherwise subject to a prima facie limit of 25 miles per hour, the local authority may by ordinance determine and declare a prima facie speed limit of 30, 35, 40, 45, 50, 55, or 60 miles per hour or a maximum speed limit of 65 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe. The declared prima facie or maximum speed limit shall be effective when appropriate signs giving notice thereof are erected upon the street and shall not thereafter be revised except upon the basis of an engineering and traffic survey. This section does not apply to any 25-mile-per-hour prima facie limit which is applicable when passing a school building or the grounds thereof or when
passing a senior center or other facility primarily used by
senior citizens.

(b) This section shall become operative on the date specified
in subdivision (c) of Section 22366.

Added Sec. 29, Ch. 766, Stats. 1995. Effective January 1, 1996. Operative
March 31, 1996.

Decrease Near Children’s Playgrounds

22357.1. Notwithstanding Section 22357, a local
authority may, by ordinance or resolution, set a prima facie
speed limit of 25 miles per hour on any street, other than a
state highway, adjacent to any children’s playground in a
public park but only during particular hours or days when
children are expected to use the facilities. The 25 miles per
hour speed limit shall be effective when signs giving notice of
the speed limit are posted.

Decrease of Local Speed Limits

22358. (a) Whenever a local authority determines
upon the basis of an engineering and traffic survey that the
limit of 65 miles per hour is more than is reasonable or safe
upon any portion of any street other than a state highway
where the limit of 65 miles per hour is applicable, the local
authority may by ordinance determine and declare a prima
facie speed limit of 60, 55, 50, 45, 40, 35, 30, or 25 miles per
hour, whichever is found most appropriate to facilitate the
orderly movement of traffic and is reasonable and safe, which
declared prima facie limit shall be effective when appropriate
signs giving notice thereof are erected upon the street.

(b) This section shall become operative on the date specified
in subdivision (c) of Section 22366.

Added Sec. 31, Ch. 766, Stats. 1995. Effective January 1, 1996. Operative
March 31, 1996.

Decrease on Narrow Street

22358.3. Whenever a local authority determines upon
the basis of an engineering and traffic survey that the prima
facie speed limit of 25 miles per hour in a business or residence
district or in a public park on any street having a roadway not
exceeding 25 feet in width, other than a state highway, is more
than is reasonable or safe, the local authority may, by ordinance
or resolution determine and declare a prima facie speed limit
of 20 or 15 miles per hour, whichever is found most appropriate
and is reasonable and safe. The declared prima facie limit
shall be effective when appropriate signs giving notice thereof
are erected upon the street.

372.

Decrease of Local Limits Near Schools or Senior
Centers

22358.4. (a) (1) Whenever a local authority
determines upon the basis of an engineering and traffic survey
that the prima facie speed limit of 25 miles per hour established
by paragraph (2) of subdivision (a) of Section 22352 is more
than is reasonable or safe, the local authority may, by ordinance
or resolution, determine and declare a prima facie speed limit
of 20 or 15 miles per hour, whichever is justified as the
appropriate speed limit by that survey.

(2) An ordinance or resolution adopted under paragraph
(1) shall not be effective until appropriate signs giving notice
of the speed limit are erected upon the highway and, in the case
of a state highway, until the ordinance is approved by the
Department of Transportation and the appropriate signs are
erected upon the highway.

(b) (1) Notwithstanding subdivision (a) or any other
provision of law, a local authority may, by ordinance or
resolution, determine and declare prima facie speed limits as
follows:

(A) A 15 miles per hour prima facie limit in a residence
district, on a highway with a posted speed limit of 30 miles per
hour or slower, when approaching, at a distance of less than
500 feet from, or passing, a school building or the grounds of a
school building, contiguous to a highway and posted with a
school warning sign that indicates a speed limit of 15 miles per
hour, while children are going to or leaving the school, either
during school hours or during the noon recess period. The
prima facie limit shall also apply when approaching, at a
distance of less than 500 feet from, or passing, school grounds
that are not separated from the highway by a fence, gate, or
other physical barrier while the grounds are in use by children
and the highway is posted with a school warning sign that
indicates a speed limit of 15 miles per hour.

(B) A 25 miles per hour prima facie limit in a residence
district, on a highway with a posted speed limit of 30 miles per
hour or slower, when approaching, at a distance of 500 to 1,000
feet from, a school building or the grounds thereof, contiguous
to a highway and posted with a school warning sign that
indicates a speed limit of 25 miles per hour, while children are
going to or leaving the school, either during school hours or
during the noon recess period. The prima facie limit shall also
apply when approaching, at a distance of 500 to 1,000 feet from,
school grounds that are not separated from the highway
by a fence, gate, or other physical barrier while the grounds are
in use by children and the highway is posted with a school
warning sign that indicates a speed limit of 25 miles per hour.

(2) The prima facie limits established under paragraph (1)
apply only to highways that meet all of the following conditions:

(A) A maximum of two traffic lanes.

(B) A maximum posted 30 miles per hour prima facie speed
limit immediately prior to and after the school zone.

(3) The prima facie limits established under paragraph (1)
apply to all lanes of an affected highway, in both directions of
travel.

(4) When determining the need to lower the prima facie
speed limit, the local authority shall take the provisions of
Section 627 into consideration.

(5) (A) An ordinance or resolution adopted under
paragraph (1) shall not be effective until appropriate signs
giving notice of the speed limit are erected upon the highway
and, in the case of a state highway, until the ordinance is
approved by the Department of Transportation and the
appropriate signs are erected upon the highway.

(B) For purposes of subparagraph (A) of paragraph (1),
school warning signs indicating a speed limit of 15 miles per
hour may be placed at a distance up to 500 feet away from
school grounds.

(C) For purposes of subparagraph (B) of paragraph (1),
school warning signs indicating a speed limit of 25 miles per
hour may be placed at any distance between 500 and 1,000 feet
away from the school grounds.
(D) A local authority shall reimburse the Department of Transportation for all costs incurred by the department under this subdivision.
Amended Sec. 1, Ch. 384, Stats. 2007. Effective January 1, 2008.

Downward Speed Zoning

22358.5. It is the intent of the Legislature that physical conditions such as width, curvature, grade and surface conditions, or any other condition readily apparent to a driver, in the absence of other factors, would not require special downward speed zoning, as the basic rule of Section 22350 is sufficient regulation as to such conditions.
Added Ch. 11, Stats. 1959. Effective September 18, 1959.

Boundary Line Streets

22359. With respect to boundary line streets and highways where portions thereof are within different jurisdictions, no ordinance adopted under Sections 22357 and 22358 shall be effective as to any such portion until all authorities having jurisdiction of the portions of the street concerned have approved the same. This section shall not apply in the case of boundary line streets consisting of separate roadways within different jurisdictions.

Maximum Speed Limit on Local Highway Linking Districts

22360. (a) Whenever a local authority determines upon the basis of an engineering and traffic survey that the limit of 65 miles per hour is more than is reasonable or safe upon any portion of a highway other than a state highway for a distance of not exceeding 2,000 feet in length between districts, either business or residence, the local authority may determine and declare a reasonable and safe prima facie limit thereon lower than 65 miles per hour, but not less than 25 miles per hour, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon the street or highway.
(b) This section shall become operative on the date specified in subdivision (c) of Section 22366.

Multiple-Lane Highways

22361. On multiple-lane highways with two or more separate roadways different prima facie speed limits may be established for different roadways under any of the procedures specified in Sections 22354 to 22359, inclusive.

Speed Limit Where Persons at Work

22362. It is prima facie a violation of the basic speed law for any person to operate a vehicle in excess of the posted speed limit upon any portion of a highway where officers or employees of the agency having jurisdiction of the same, or any contractor of the agency or his employees, are at work on the roadway or within the right-of-way so close thereto as to be endangered by passing traffic. This section applies only when appropriate signs, indicating the limits of the restricted zone, and the speed limit applicable therein, are placed by such agency within 400 feet of each end of such zone. The signs shall display the figures indicating the applicable limit, which shall not be less than 25 miles per hour, and shall indicate the purpose of the speed restriction. Nothing in this section shall be deemed to relieve any operator of a vehicle from complying with the basic speed law.

Restrictions Because of Snow or Ice Conditions

22363. Notwithstanding any speed limit that may be in effect upon the highway, the Department of Transportation in respect to state highways, or a local authority with respect to highways under its jurisdiction, may determine and declare a prima facie speed limit of 40, 35, 30, or 25 miles per hour, whichever is found most appropriate and is reasonable and safe based on the prevailing snow or ice conditions upon such highway or any portion thereof. Signs may be placed and removed as snow or ice conditions vary.

Lane Speed Limits

22364. Whenever the Department of Transportation determines, upon the basis of an engineering and traffic survey, that the safe and orderly movement of traffic upon any state highway will be facilitated by the establishment of different speed limits for the various lanes of traffic, the department may place signs upon the state highway, or any portion thereof. The signs shall designate the speed limits for each of the lanes of traffic.

Prima Facie Speed Limit: South Coast Air Quality Management District: Local Ordinances

22365. Notwithstanding any other provision of law, any county or city, which is contained, in whole or in part, within the South Coast Air Quality Management District, may, if the county or city determines that it is necessary to achieve or maintain state or federal ambient air quality standards for particulate matter, determine and declare by ordinance a prima facie speed limit that is lower than that which the county or city is otherwise permitted by this code to establish, for any unpaved road under the jurisdiction of the county or city and within the district. That declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected along the road.

Notice of Authorization to Increase Maximum Speed Limit

22366. (a) Whenever the Director of Transportation determines the date upon which the state may establish a maximum speed limit of 65 miles per hour on highways without subjecting the state to a reduction in the amount of federal aid for highways, the director shall notify the Secretary of State of that determination.
(b) The notice required under subdivision (a) shall state that it is being made pursuant to this section.
(c) The notice shall specify a date which is either the date determined pursuant to subdivision (a), or a later date designated by the director.
Added Sec. 34, Ch. 766, Stats. 1995. Effective January 1, 1996.

Article 2. Other Speed Laws

Minimum Speed Law

22400. (a) No person shall drive upon a highway at such a slow speed as to impede or block the normal and
reasonable movement of traffic, unless the reduced speed is necessary for safe operation, because of a grade, or in compliance with law.

No person shall bring a vehicle to a complete stop upon a highway so as to impede or block the normal and reasonable movement of traffic unless the stop is necessary for safe operation or in compliance with law.

(b) Whenever the Department of Transportation determines on the basis of an engineering and traffic survey that slow speeds on any part of a state highway consistently impede the normal and reasonable movement of traffic, the department may determine and declare a minimum speed limit below which no person shall drive a vehicle, except when necessary for safe operation or in compliance with law, when appropriate signs giving notice thereof are erected along the part of the highway for which a minimum speed limit is established.

Subdivision (b) of this section shall apply only to vehicles subject to registration.

Traffic Signals

22401. Local authorities in timing traffic signals may so regulate the timing thereof as to permit the movement of traffic in an orderly and safe manner at speeds slightly at variance from the speed otherwise applicable under this code.

Bridges and Structures

22402. The Department of Transportation may, in the manner provided in Section 22404 determine the maximum speed, not less than five miles per hour, which can be maintained with safety to any bridge, elevated structure, tube, or tunnel on a state highway. Said department may also make a determination with reference to any other highway upon receiving a request therefor from the board of supervisors or road commissioner of the county, the governing body of the local authority having jurisdiction over the bridge, elevated structure, tube, or tunnel.

Local Bridges and Structures

22403. Any local authority may, in the manner provided in Section 22404, determine the maximum speed, not less than five miles per hour, which can be maintained with safety to any bridge, elevated structure, tube, or tunnel under its jurisdiction, or may request the Department of Transportation to make such determination.

Revision of Speed Limit on Bridges and Structures

22404. The Department of Transportation or local authority making a determination of the maximum safe speed upon a bridge, elevated structure, tube, or tunnel shall first make an engineering investigation and shall hold a public hearing.

Notice of the time and place of the public hearing shall be posted upon the bridge, elevated structure, tube, or tunnel at least five days before the date fixed for the hearing. Upon the basis of the investigation and all evidence presented at the hearing, the department or local authority shall determine by order in writing the maximum speed which can be maintained with safety to the bridge, elevated structure, tube or tunnel. Thereupon, the authority having jurisdiction over the bridge,
§22407

Stop Requirements
22450. (a) The driver of any vehicle approaching a stop sign at the entrance to, or within, an intersection shall stop at a limit line, if marked, otherwise before entering the crosswalk on the near side of the intersection.

If there is no limit line or crosswalk, the driver shall stop at the entrance to the intersecting roadway.

(b) The driver of a vehicle approaching a stop sign at a railroad grade crossing shall stop at a limit line, if marked, otherwise before crossing the first track or entrance to the railroad grade crossing.

(c) Notwithstanding any other provision of law, a local authority may adopt rules and regulations by ordinance or resolution providing for the placement of a stop sign at any location on a highway under its jurisdiction where the stop sign would enhance traffic safety.

Decreasing Truck Speed Limit
22407. Whenever the Department of Transportation or local authority determines upon the basis of engineering studies and a traffic survey that the speed of 55 miles per hour is more than is reasonable or safe for vehicles mentioned in subdivision (a) of Section 22406 which have a manufacturer’s gross vehicle weight rating of 10,000 pounds or more, in descending a grade upon any portion of a highway, the department or local authority, with respect to highways under their respective jurisdiction, may determine and declare a speed limit of 50, 45, 40, 35, 30, 25 or 20 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared speed limit shall be effective for such vehicles when appropriate signs giving notice thereof are erected upon the highway.

Solid Tire
22409. No person shall operate any vehicle equipped with any solid tire when such vehicle has a gross weight as set forth in the following table at any speed in excess of the speed set forth opposite such gross weight:

<table>
<thead>
<tr>
<th>Gross Weight</th>
<th>Maximum Speed</th>
</tr>
</thead>
<tbody>
<tr>
<td>10,000 lbs. or more but less than 16,000 lbs</td>
<td>25</td>
</tr>
<tr>
<td>16,000 lbs. or more but less than 22,000 lbs</td>
<td>15</td>
</tr>
<tr>
<td>22,000 lbs. or more</td>
<td>12</td>
</tr>
</tbody>
</table>

Metal Tires
22410. No person shall operate any vehicle equipped with any metal tire in contact with the surface of the highway at a speed in excess of six miles per hour.

Maximum Speed for Motorized Scooters
22411. No person shall operate a motorized scooter at a speed in excess of 15 miles per hour.

Decreasing Speed Limit on Grades
22413. Whenever a local authority determines upon the basis of an engineering and traffic survey that the prima facie limit of 25 miles per hour is more than is reasonable and safe for any portion of a street having a grade in excess of 10 percent, the local authority may by ordinance determine and declare a maximum limit of 20 or 15 miles per hour, whichever is found most appropriate and is reasonable and safe. The declared maximum speed shall be effective when appropriate signs giving notice thereof are erected upon the street.

Amended Ch. 318, Stats. 1959.

Chapter 8. Special Stops Required
Stop Requirements
22450. (a) The driver of any vehicle approaching a stop sign at the entrance to, or within, an intersection shall stop at a limit line, if marked, otherwise before entering the crosswalk on the near side of the intersection.

If there is no limit line or crosswalk, the driver shall stop at the entrance to the intersecting roadway.

(b) The driver of a vehicle approaching a stop sign at a railroad grade crossing shall stop at a limit line, if marked, otherwise before crossing the first track or entrance to the railroad grade crossing.

(c) Notwithstanding any other provision of law, a local authority may adopt rules and regulations by ordinance or resolution providing for the placement of a stop sign at any location on a highway under its jurisdiction where the stop sign would enhance traffic safety.

Amended Sec. 8, Ch. 630, Stats. 2007. Effective January 1, 2008.

Stops: Railroad or Rail Transit Grade Crossings
22451. (a) The driver of any vehicle or pedestrian approaching a railroad or rail transit grade crossing shall stop not less than 15 feet from the nearest rail and shall not proceed until he or she can do so safely, whenever the following conditions exist:

1. A clearly visible electric or mechanical signal device or a flagman gives warning of the approach or passage of a train or car.

2. An approaching train or car is plainly visible or is emitting an audible signal and, by reason of its speed or nearness, is an immediate hazard.

3. No driver or pedestrian shall proceed through, around, or under any railroad or rail transit crossing gate while the gate is closed.

4. When a railroad or rail transit crossing is equipped with an automated enforcement system, a notice of a violation of this section is subject to the procedures provided in Section 40518.

Railroad Crossings
22452. (a) Subdivisions (b) and (d) apply to the operation of the following vehicles:

1. A bus or farm labor vehicle carrying passengers.

2. A motortruck transporting employees in addition to those riding in the cab.

3. A schoolbus and a school pupil activity bus transporting school pupils, except as otherwise provided in paragraph (4) of subdivision (d).

4. A commercial motor vehicle transporting any quantity of a Division 2.3 chlorine, as classified by Title 49 of the Code of Federal Regulations.

5. A commercial motor vehicle that is required to be marked or placarded in accordance with the regulations of Title 49 of the Code of Federal Regulations with one of the following federal classifications:

A. Division 1.1.
B. Division 1.2, or Division 1.3.
C. Division 2.3 Poison gas.
D. Division 4.3.
E. Class 7.
F. Class 3 Flammable.
G. Division 5.1.
H. Division 2.2.
I. Division 2.3 Chlorine.
J. Division 6.1 Poison.
K. Division 2.2 Oxygen.
railroad corporations involved, and the operators involved and shall secure the permission of the Public Utilities Commission if a railroad corporation under the jurisdiction of the Public Utilities Commission is affected. Prior to permitting the placement of such signs, the Public Utilities Commission shall seek the concurrence of the Department of the California Highway Patrol.

Amended Ch. 373, Stats. 1979. Effective January 1, 1980.

Effect of Negligence on Passengers

22453. Failure of the driver of a motor vehicle carrying any passenger for hire to stop as required in Section 22452 shall not be imputed to any bona fide passenger for hire in such vehicle.

Schoolbus: Meeting and Passing

22454. (a) The driver of any vehicle, upon meeting or overtaking, from either direction, any schoolbus equipped with signs as required in this code, that is stopped for the purpose of loading or unloading any schoolchildren and displays a flashing red light signal and stop signal arm, as defined in paragraph (4) of subdivision (b) of Section 25257, if equipped with a stop signal arm, visible from front or rear, shall bring the vehicle to a stop immediately before passing the schoolbus and shall not proceed past the schoolbus until the flashing red light signal and stop signal arm, if equipped with a stop signal arm, cease operation.

(b) (1) The driver of a vehicle upon a divided highway or multiple-lane highway need not stop upon meeting or passing a schoolbus that is upon the other roadway.

(2) For the purposes of this subdivision, a multiple-lane highway is any highway that has two or more lanes of travel in each direction.

(c) (1) If a vehicle was observed overtaking a schoolbus in violation of subdivision (a), and the driver of the schoolbus witnessed the violation, the driver may, within 24 hours, report the violation and furnish the vehicle license plate number and description and the time and place of the violation to the local law enforcement agency having jurisdiction of the offense. That law enforcement agency shall issue a letter of warning prepared in accordance with paragraph (2) with respect to the alleged violation to the registered owner of the vehicle. The issuance of a warning letter under this paragraph shall not be entered on the driving record of the person to whom it is issued, but does not preclude the imposition of any other applicable penalty.

(2) The Attorney General shall prepare and furnish to every law enforcement agency in the state a form letter for purposes of paragraph (1), and the law enforcement agency may issue those letters in the exact form prepared by the Attorney General. The Attorney General may charge a fee to any law enforcement agency that requests a copy of the form letter to recover the costs of preparing and providing that copy.

(d) This section also applies to a roadway upon private property.

Unlawful Passing of Schoolbus: Penalties

22454.5. Notwithstanding Section 42001, a person convicted of a first violation of Section 22454 shall be punished by a fine of not less than one hundred fifty dollars ($150) or more than two hundred fifty dollars ($250). A person convicted
of a second separate violation of Section 22454 shall be punished by a fine of not less than five hundred dollars ($500) or more than one thousand dollars ($1,000). If a person is convicted of a third or subsequent violation of Section 22454 and the offense occurred within three years of two or more separate violations of Section 22454, the Department of Motor Vehicles shall suspend the person’s privilege to operate a motor vehicle for one year.

Vending from Vehicles

22455. (a) The driver of any commercial vehicle engaged in vending upon a street may vend products on a street in a residence district only after bringing the vehicle to a complete stop and lawfully parking adjacent to the curb, consistent with the requirements of Chapter 9 (commencing with Section 22500) and local ordinances adopted pursuant thereto.

(b) Notwithstanding subdivision (a) of Section 114315 of the Health and Safety Code or any other provision of law, a local authority may, by ordinance or resolution, adopt additional requirements for the public safety regulating the type of vending and the time, place, and manner of vending from vehicles upon any street.

Amended Sec. 3, Ch. 139, Stats. 2008. Effective January 1, 2009.

Vending from Ice Cream Trucks

22456. (a) This section shall be known and may be cited as the Destiny Nicole Stout Memorial Act.

(b) The Legislature finds and declares that motor vehicles engaged in vending ice cream and similar food items in residential neighborhoods can increase the danger to children, and it is necessary that these vehicles are clearly seen and noticed by motorists and pedestrians to protect public safety.

(c) As used in this section, the term “ice cream truck” means a motor vehicle engaged in the curbside vending or sale of frozen or refrigerated desserts, confections, or novelties commonly known as ice cream, or prepackaged candies, prepackaged snack foods, or soft drinks, primarily intended for the sale to children under 12 years of age.

(d) Any ice cream truck shall be equipped at all times, while engaged in vending in a residential area, with signs mounted on both the front and the rear and clearly legible from a distance of 100 feet under daylight conditions, incorporating the words “WARNING” and “CHILDREN CROSSING.” Each sign shall be at least 12 inches high by 48 inches wide, with letters of a dark color and at least four inches in height, and it is necessary that these vehicles are clearly seen and noticed by motorists and pedestrians to protect public safety.

Chapter 9. Stopping, Standing, and Parking

Prohibited Stopping, Standing, or Parking

22500. (a) No person shall stop, park, or leave standing any vehicle whether attended or unattended, except when necessary to avoid conflict with other traffic or in compliance with the directions of a peace officer or official traffic control device, in any of the following places:

(i) Within an intersection, except adjacent to curbs as may be permitted by local ordinance.

(ii) On a crosswalk, except that a bus engaged as a common carrier or a taxicab may stop in an unmarked crosswalk to load or unload passengers when authorized by the legislative body of any city pursuant to an ordinance.

(iii) Between a safety zone and the adjacent right-hand curb or within the area between the zone and the curb as may be indicated by a sign or red paint on the curb, which sign or paint was erected or placed by local authorities pursuant to an ordinance.

(iv) Within 15 feet of the driveway entrance to any fire station. This subdivision does not apply to any vehicle owned or operated by a fire department and clearly marked as a fire department vehicle.

(v) In front of a public or private driveway, except that a bus engaged as a common carrier, schoolbus, or a taxicab may stop to load or unload passengers when authorized by local authorities pursuant to an ordinance.

In unincorporated territory, where the entrance of a private road or driveway is not delineated by an opening in a curb or by other curb construction, so much of the surface of the ground as is paved, surfaced, or otherwise plainly marked by vehicle use as a private road or driveway entrance, shall constitute a driveway.

(vi) On any portion of a sidewalk, or with the body of the vehicle extending over any portion of a sidewalk, except electric carts when authorized by local ordinance, as specified in Section 21114.5. Lights, mirrors, or devices that are required to be mounted upon a vehicle under this code may extend from the body of the vehicle over the sidewalk to a distance of not more than 10 inches.

(vii) Alongside or opposite any street or highway excavation or obstruction when stopping, standing, or parking would obstruct traffic.

(viii) On the roadway side of any vehicle stopped, parked, or standing at the curb or edge of a highway, except for a schoolbus when stopped to load or unload pupils in a business or residence district where the speed limit is 25 miles per hour or less.

(ix) Except as provided under Section 22500.5, alongside curb space authorized for the loading and unloading of passengers of a bus engaged as a common carrier in local transportation when indicated by a sign or red paint on the curb erected or painted by local authorities pursuant to an ordinance.

(x) In a tube or tunnel, except vehicles of the authorities in charge, being used in the repair, maintenance, or inspection of the facility.

(xi) Upon a bridge, except vehicles of the authorities in charge, being used in the repair, maintenance, or inspection of the facility, and except that buses engaged as a common carrier in local transportation may stop to load or unload passengers
upon a bridge where sidewalks are provided, when authorized by local authorities pursuant to an ordinance, and except that local authorities pursuant to an ordinance or the Department of Transportation pursuant to an order, within their respective jurisdictions, may permit parking on bridges having sidewalks and shoulders of sufficient width to permit parking without interfering with the normal movement of traffic on the roadway. Local authorities, by ordinance or resolution, may permit parking on these bridges on state highways in their respective jurisdictions if the ordinance or resolution is first approved in writing by the Department of Transportation. Parking shall not be permitted unless there are signs in place, as may be necessary, to indicate the provisions of local ordinances or the order of the Department of Transportation.

(l) In front of or upon that portion of a curb that has been cut down, lowered, or constructed to provide wheelchair accessibility to the sidewalk.

Additional Prohibited Stopping, Standing, or Parking: Fire Lane

22500.1. In addition to Section 22500, no person shall stop, park, or leave standing any vehicle, whether attended or unattended, except when necessary to avoid conflict with other traffic or in compliance with the directions of a peace officer or official traffic control device along the edge of any highway, at any curb, or in any location in a publicly or privately owned or operated off-street parking facility, designated as a fire lane by the fire department or fire district with jurisdiction over the area in which the place is located.

The designation shall be indicated (1) by a sign posted immediately adjacent to, and visible from, the designated place clearly stating in letters not less than one inch in height that the place is a fire lane, (2) by outlining or painting the place in red and, in contrasting color, marking the place with the words “FIRE LANE”, which are clearly visible from a vehicle, or (3) by a red curb or red paint on the edge of the roadway upon which is clearly marked the words “FIRE LANE”.

Schoolbuses: Loading and Unloading of Passengers

22500.5. Upon agreement between a transit system operating buses engaged as common carriers in local transportation and a public school district or private school, local authorities may, by ordinance, permit schoolbuses owned by, or operated under contract for, that public school district or private school to stop for the loading or unloading of passengers alongside any or all curb spaces designated for the loading or unloading of passengers of the transit system buses.

Amended Sec. 36, Ch. 769, Stats. 2012. Effective January 1, 2013.

Local Regulation of State Highways

22501. No ordinance enacted by local authorities pursuant to subdivisions (e) and (k) of Section 22500 or Section 22507.2 shall become effective as to any state highway without prior submission to and approval by the Department of Transportation in the same manner as required by Section 21104. Nothing contained in this section and Section 22500 shall be construed as authorizing local authorities to enact legislation which is contrary to the provisions of Sections 22512 and 25301.

Curb Parking

22502. (a) Except as otherwise provided in this chapter, a vehicle stopped or parked upon a roadway where there are adjacent curbs shall be stopped or parked with the right-hand wheels of the vehicle parallel to and within 18 inches of the right-hand curb, except that a motorcycle shall be parked with at least one wheel or fender touching the right-hand curb. Where no curbs or barriers bound a two-way roadway, right-hand parallel parking is required unless otherwise indicated.

(b) (1) The provisions of subdivision (a) or (e) do not apply to a commercial vehicle if a variation from the requirements of subdivision (a) or (e) is reasonably necessary to accomplish the loading or unloading of merchandise or passengers on, or from, a vehicle and while anything connected with the loading, or unloading, is being executed.

(2) This subdivision does not permit a vehicle to stop or park upon a roadway in a direction opposite to that in which traffic normally moves upon that half of the roadway on which the vehicle is stopped or parked.

(c) Notwithstanding subdivision (b), a local authority may, by ordinance, prohibit a commercial vehicle from stopping, parking, or standing on one side of a roadway in a business district with the wheels of the vehicle more than 18 inches from the curb. The ordinance shall be effective only if signs are placed in the areas to which it is applicable clearly indicating the prohibition.

(d) This section does not apply to vehicles of a public utility when the vehicles are being used in connection with the operation, maintenance, or repair of facilities of the public utility or are being used in connection with providing public utility service.

(e) (1) Upon a one-way roadway, a vehicle may be stopped or parked as provided in subdivision (a) or with the left-hand wheels parallel to and within 18 inches of the left-hand curb, except that a motorcycle, if parked on the left-hand side, shall have either one wheel or one fender touching the curb. Where no curb or barriers bound a one-way roadway, parallel parking on either side is required unless otherwise indicated.

(2) This subdivision does not apply upon a roadway of a divided highway.

(f) (1) The City of Long Beach may, by ordinance or resolution, implement a pilot program to authorize vehicles to park on the left-hand side of the roadway parallel to and within 18 inches of the left-hand curb on two-way local residential streets that dead-end with no cul-de-sac or other designated area in which to turn around, if the City of Long Beach has first made a finding, supported by a professional engineering study, that the ordinance or resolution is justified by the need to facilitate the safe and orderly movement of vehicles on the roadways affected by the resolution or ordinance. The area covered by the ordinance or resolution shall be limited to the streets perpendicular to Ocean Boulevard beginning at Balboa Place and ending at 72nd Place, but shall not cover 62nd Place. The ordinance or resolution permitting that parking shall not apply until signs or markings giving adequate notice have been placed near the designated roadways. The city shall submit to the Legislature, two years from the date of the enactment of the ordinance or resolution that establishes the pilot program, a report that outlines the advantages and

disadvantages of the pilot program. The report submitted pursuant to this subdivision shall be submitted in compliance with Section 9795 of the Government Code.

(2) The pilot program authorized under this subdivision shall terminate, and this subdivision shall become inoperative, three years from the date of enactment of the ordinance or resolution that establishes the pilot program.

Amended Sec. 1, Ch. 135, Stats. 2010. Effective January 1, 2011.

Local Ordinance: Angle Parking

22503. Local authorities may by ordinance permit angle parking on any roadway, or left-hand parking upon one-way roadways of divided highways, except that no ordinance is effective with respect to any state highway until the proposed ordinance has been submitted to and approved in writing by the Department of Transportation.

Two-or Three-Wheeled Motor Vehicle Parking Regulations

22503.5. Notwithstanding any other provision of this code, any local authority may, by ordinance or resolution, establish special parking regulations for two-wheeled or three-wheeled motor vehicles.

Unincorporated Area Parking; School Bus Stops

22504. (a) Upon any highway in unincorporated areas, a person shall not stop, park, or leave standing any vehicle, whether attended or unattended, upon the roadway when it is practicable to stop, park, or leave the vehicle off such portion of the highway, but in every event an unobstructed width of the highway opposite a standing vehicle shall be left for the free passage of other vehicles and a clear view of the stopped vehicle shall be available from a distance of 200 feet in each direction upon the highway. This section shall not apply upon a highway where the roadway is bounded by adjacent curbs.

(b) This section does not apply to the driver of any vehicle which is disabled in such a manner and to such extent that it is impossible to avoid stopping and temporarily leaving the disabled vehicle on the roadway.

(c) (1) A schoolbus stop shall not be designated where there is not a clear view of a proposed or existing schoolbus stop from a distance of 200 feet in each direction along a highway, or upon the main traveled portion of a highway where there is not a clear view of the stop from 500 feet in each direction along the highway and the speed limit is more than 25 miles per hour, unless approved by the Department of the California Highway Patrol upon the request of the school district superintendent or the head or principal of a private school. If the schoolbus stop is approved by the Department of the California Highway Patrol, the Department of Transportation, in respect to state highways, and local authorities, in respect to highways under their jurisdiction, shall place sufficient signs along the highway to give adequate notice to motorists that they are approaching such bus stops.

(2) A school bus stop shall not be designated on any divided or multiple-lane highway where pupils must cross the highway to board or after exiting the bus, unless traffic is controlled by a traffic officer or official traffic control signal. For purposes of this section, a multiple-lane highway is defined as any highway having two or more lanes of travel in each direction.

Amended Sec. 37, Ch. 769, Stats. 2012. Effective January 1, 2013.

Stopping, Standing, or Parking on State Highway Segments

22505. (a) The Department of Transportation with respect to highways under its jurisdiction may place signs or markings prohibiting or restricting the stopping, standing, or parking of vehicles, including, but not limited to, vehicles which are six feet or more in height (including any load thereon), in any of the following areas and under the following conditions:

(1) In areas where, in its opinion, stopping, standing, or parking is dangerous to those using the highway or where the stopping, standing, or parking of vehicles would unduly interfere with the free movement of traffic thereon.

(2) In areas within one-half mile of the boundary of any unit of the state park system which the Director of Conservation has determined are unusually high fire hazard areas, upon notification of the Department of Transportation of such determination by the Director of Conservation.

(3) In areas within one-half mile of the boundary of any unit of the state park system which the county health officer has determined are areas where a substantial public health hazard would result if camping were allowed, upon notification of the Department of Transportation of such determination by the county health officer.

(b) No person shall stop, park, or leave standing any vehicle in violation of the restrictions stated on the signs or markings.

(c) This section does not apply to any of the following:

(1) Public utility vehicles while performing a work operation.

(2) The driver of any vehicle which is disabled in such a manner and to such an extent that it is impossible to avoid stopping, parking, or leaving the disabled vehicle standing on the roadway.

Local Regulation of State Highway: Stopping, Standing, or Parking

22506. Local authorities may by ordinance or resolution prohibit or restrict the stopping, standing, or parking of vehicles on a state highway, in their respective jurisdictions, if the ordinance or resolution is first submitted and approved in writing by the Department of Transportation, except that where maintenance of any state highway is delegated by the Department of Transportation to a city, the department may also delegate to the city the powers conferred on the department.

Local Regulations

22507. (a) Local authorities may, by ordinance or resolution, prohibit or restrict the stopping, parking, or standing of vehicles, including, but not limited to, vehicles that are six feet or more in height (including any load thereon) within 100 feet of any intersection, on certain streets or highways, or portions thereof, during all or certain hours of the day. The ordinance or resolution may include a designation of certain streets upon which preferential parking privileges are given to residents and merchants adjacent to the streets for their use and the use of their guests, under which the residents and merchants may be issued a permit or permits that exempt them from the prohibition or restriction of the ordinance or

Local Regulations: Parking Privileges: Car Share or Ridesharing Programs

22507.1. (a) A local authority may, by ordinance or resolution, designate certain streets or portions of streets for the exclusive parking privilege of motor vehicles participating in a car share vehicle program or ridesharing program. The ordinance or resolution shall establish the criteria for a public or private company or organization to participate in the program, and may limit the types of motor vehicles that may be included in the program. Under the car share vehicle program or ridesharing program, and may limit the types of motor vehicles that may be included in the program. The local authority may, by ordinance or resolution adopted pursuant to subdivision (a) does not apply until signs or markings giving adequate notice thereof have been placed.

(b) The ordinance or resolution described in subdivision (a) may contain provisions that are reasonable and necessary to ensure the effectiveness of a car share vehicle program or ridesharing program.

(c) For the purpose of implementing this section, each local authority may, by ordinance, define the term “residential district” in accordance with its zoning ordinance. The ordinance is not effective unless the legislative body of the local authority holds a public hearing on the proposed ordinance prior to its adoption, with notice of the public hearing given in accordance with Section 65090 of the Government Code.

Permit Parking: Private Driveway

22507.2. Notwithstanding subdivision (e) of Section 22500, a local authority may, by ordinance, authorize the owner or lessee of property to park a vehicle in front of the owner’s or lessee’s private driveway when the vehicle displays a permit issued pursuant to the ordinance authorizing such parking.

The local authority may charge a nonrefundable fee to defray the costs of issuing and administering the permits.

A local ordinance adopted pursuant to this section may not authorize parking on a sidewalk in violation of subdivision (f) of Section 22500.

Local Parking Regulations

22507.5. (a) Notwithstanding Section 22507, local authorities may, by ordinance or resolution, prohibit or restrict the parking or standing of vehicles on certain streets or highways, or portions thereof, between the hours of 2 a.m. and 6 a.m., and may, by ordinance or resolution, prohibit or restrict the parking or standing, on any street, or portion thereof, in a residential district, of commercial vehicles having a manufacturer’s gross vehicle weight rating of 10,000 pounds or more. The ordinance or resolution relating to parking between the hours of 2 a.m. and 6 a.m. may provide for a system of permits for the purpose of exempting from the prohibition or restriction of the ordinance or resolution, disabled persons, residents, and guests of residents of residential areas, including, but not limited to, high-density and multiple-family dwelling areas, lacking adequate offstreet parking facilities. The ordinance or resolution relating to the parking or standing of commercial vehicles in a residential district, however, shall not be effective with respect to any commercial vehicle, or trailer component thereof, making pickups or deliveries of goods, wares, and merchandise from or to any building or structure located on the restricted streets or highways for which a building permit has previously been obtained.

(b) For the purpose of implementing this section, each local authority may, by ordinance, define the term “residential district” in accordance with its zoning ordinance. The ordinance is not effective unless the legislative body of the local authority holds a public hearing on the proposed ordinance prior to its adoption, with notice of the public hearing given in accordance with Section 65090 of the Government Code.
Parking in Spaces for the Disabled

22507.8. (a) It is unlawful for any person to park or leave standing any vehicle in a stall or space designated for disabled persons and disabled veterans pursuant to Section 22511.7 or 22511.8 of this code or Section 14679 of the Government Code, unless the vehicle displays either a special identification license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55 or 22511.59.

(b) It is unlawful for any person to obstruct, block, or otherwise bar access to those parking stalls or spaces except as provided in subdivision (a).

(c) It is unlawful for any person to park or leave standing any vehicle, including a vehicle displaying a special identification license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55, in either of the following places:

(1) On the lines marking the boundaries of a parking stall or space designated for disabled persons or disabled veterans.

(2) In any area of the pavement adjacent to a parking stall or space designated for disabled persons or disabled veterans that is marked by crosshatched lines and is thereby designated, pursuant to any local ordinance, for the loading and unloading of vehicles parked in the stall or space.

(d) Subdivisions (a), (b), and (c) apply to all offstreet parking facilities owned or operated by the state, and to all offstreet parking facilities owned or operated by a local authority. Subdivisions (a), (b), and (c) also apply to any privately owned and maintained offstreet parking facility.

Local Authority: Enforcement of Disabled Persons Parking

22507.9. Local authorities may establish a special enforcement unit for the sole purpose of providing adequate enforcement of Section 22507.8 and local ordinances and resolutions adopted pursuant to Section 22511.7.

Local authorities may establish recruitment and employment guidelines that encourage and enable employment of qualified disabled persons in these special enforcement units.

Members of the special enforcement unit may issue notices of parking violation for violations of Section 22507.8 and local ordinances adopted pursuant to Section 22511.7. Members of the special enforcement unit shall not be peace officers and shall not make arrests in the course of their official duties, but shall wear distinctive uniforms and badges while on duty. A two-way radio unit, which may utilize police frequencies or citizens' band, may be issued by the local authority to each member of the special enforcement unit for use while on duty.

The local authority may pay the cost of uniforms and badges for the special enforcement unit, and may provide daily cleaning of the uniforms. Additionally, the local authority may provide motorized wheelchairs for use by members of the special unit while on duty, including batteries and necessary recharging thereof. Any motorized wheelchair used by a member of the special enforcement unit while on duty shall be equipped with a single headlamp in the front and a single stoplamp in the rear.

Members of the special enforcement unit may be paid an hourly wage without the compensatory benefits provided other permanent and temporary employees, but shall be entitled to applicable workers' compensation benefits as provided by law. Insurance provided by the local authority for disability or liability of a member of the special enforcement unit shall be the same as for other employees performing similar duties.

Nothing in this section precludes a local authority from using regular full-time employees to enforce this Chapter and ordinances adopted pursuant thereto.

This section applies to all counties and cities, including every charter city and city and county.

Parking Meter Zones

22508. (a) A local authority shall not establish parking meter zones or fix the rate of fees for those zones except by ordinance. The rate of fees may be variable, based upon criteria identified by the local authority in the ordinance. An ordinance establishing a parking meter zone shall describe the area that would be included within the zone.

(b) A local authority may by ordinance cause streets and highways to be marked with white lines designating parking spaces and require vehicles to park within the parking spaces.

(c) An ordinance adopted by a local authority pursuant to this section with respect to any state highway shall not become effective until the proposed ordinance has been submitted to and approved in writing by the Department of Transportation. The proposed ordinance shall be submitted to the department only by action of the local legislative body and the proposed ordinance shall be submitted in complete draft form.

(d) An ordinance adopted pursuant to this section establishing a parking meter zone or fixing rates of fees for that zone shall be subject to local referendum processes in the same manner as if the ordinance dealt with a matter of purely local concern.

(e) A local authority may accept but shall not require payment of parking meter fees by a mobile device.

Amended Sec. 1, Ch. 70, Stats. 2012. Effective January 1, 2013.

Inoperable Parking Meters

22508.5. (a) Except as provided in subdivision (b), a vehicle may park, for up to the posted time limit, in any parking space that is regulated by an inoperable parking meter or an inoperable parking payment center.

(b) A local authority may, by ordinance or resolution, prohibit or restrict the parking of vehicles in a parking space regulated by an inoperable parking meter or inoperable parking payment center. An ordinance or resolution adopted by a local authority pursuant to this section shall not become effective until signs or markings giving adequate notice of the restriction or prohibition on parking have been placed at parking locations, parking meters, or parking payment centers.

(c) For purposes of this section:

(1) “Inoperable parking meter” means a meter located next to and designated for an individual parking space, which has become inoperable and cannot accept payment in any form or cannot register that a payment in any form has been made.
§22508.5. (a) A vehicle may park, for up to the posted time limit, in any parking space that is regulated by an inoperable parking meter or an inoperable parking payment center.

(b) A local authority shall not, by ordinance or resolution, prohibit or restrict the parking of vehicles in a space that is regulated by an inoperable parking meter or inoperable parking payment center.

(c) For purposes of this section:

(1) “Inoperable parking meter” means a meter located next to and designated for an individual parking space, which has become inoperable and cannot accept payment in any form or cannot register that a payment in any form has been made.

(2) “Inoperable parking payment center” means an electronic parking meter or pay station serving one or more parking spaces that is closest to the space where a person has parked and that cannot accept payment in any form, cannot register that a payment in any form has been made, or cannot issue a receipt that is required to be displayed in a conspicuous location on or in the vehicle.

(d) This section shall remain in effect only until January 1, 2017, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2017, extends that date.

NOTE: The preceding section becomes inoperative on January 1, 2014, at which time the following section becomes operative. The preceding section shall remain inoperative until January 1, 2017.

§22511. (a) A local authority, by ordinance or resolution, and a person in lawful possession of an offstreet parking facility may designate stalls or spaces in an offstreet parking facility owned or operated by that local authority or person for the exclusive purpose of charging and parking a vehicle that is connected for electric charging purposes.

(b) If posted in accordance with subdivision (d) or (e), the owner or person in lawful possession of a privately owned or operated offstreet parking facility, after notifying the police or sheriff’s department, may cause the removal of a vehicle from a stall or space designated pursuant to subdivision (a) in the facility to the nearest public garage if the vehicle is not connected for electric charging purposes.

(c) If posted in accordance with subdivision (d), the local authority owning or operating an offstreet parking facility, after notifying the police or sheriff’s department, may cause the removal of a vehicle from a stall or space designated pursuant to subdivision (a) in the facility to the nearest garage, as defined in Section 340, that is owned, leased, or approved for use by a public agency if the vehicle is not connected for electric charging purposes.

(d) The posting required for an offstreet parking facility owned or operated either privately or by a local authority shall consist of a sign not less than 17 by 22 inches in size with lettering not less than one inch in height that clearly and conspicuously states the following: “Unauthorized vehicles not connected for electric charging purposes will be towed away at owner’s expense. Towed vehicles may be reclaimed at

(address)

or by telephoning

(Address)
Parking Space.

than 6,000 pounds gross weight, without charge, in a metered space. (Telephone number of local law enforcement agency)

The sign shall be posted in either of the following locations:

(1) Immediately adjacent to, and visible from, the stall or space.

(2) In a conspicuous place at each entrance to the offstreet parking facility.

(e) If the parking facility is privately owned and public parking is prohibited by the posting of a sign meeting the requirements of paragraph (1) of subdivision (a) of Section 22658, the requirements of subdivision (b) may be met by the posting of a sign immediately adjacent to, and visible from, each stall or space indicating that a vehicle not meeting the requirements of subdivision (a) will be removed at the owner’s expense and containing the telephone number of the local traffic law enforcement agency.

(f) This section does not interfere with existing law governing the ability of local authorities to adopt ordinances related to parking programs within their jurisdiction, such as programs that provide free parking in metered areas or municipal garages for electric vehicles.

Off-Street Parking: Electric Vehicles: Prohibitions

22511.1. (a) A person shall not park or leave standing a vehicle in a stall or space designated pursuant to Section 22511 unless the vehicle is connected for electric charging purposes.

(b) A person shall not obstruct, block, or otherwise bar access to parking stalls or spaces described in subdivision (a) except as provided in subdivision (a).

Veterans with Special License Plates: Parking in Metered Spaces

22511.3. (a) A veteran displaying special license plates issued under Section 5101.3, 5101.4, 5101.5, 5101.6, or 5101.8 may park his or her motor vehicle, weighing not more than 6,000 pounds gross weight, without charge, in a metered parking space.

(b) Nothing in this section restricts the rights of a person displaying either a special identification license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55 or 22511.59.

(c) (1) This section does not exempt a vehicle displaying special license plates issued under Section 5101.3, 5101.4, 5101.5, 5101.6, or 5101.8 from compliance with any other state law or ordinance, including, but not limited to, vehicle height restrictions, zones that prohibit stopping, parking, or standing of all vehicles, parking time limitations, street sweeping, restrictions of the parking space to a particular type of vehicle, or the parking of a vehicle that is involved in the operation of a street vending business.

(2) This section does not authorize a vehicle displaying special license plates issued under Section 5101.3, 5101.4, 5101.5, 5101.6, or 5101.8 to park in a state parking facility that is designated only for state employees.

(3) This section does not authorize a vehicle displaying special license plates issued under Section 5101.3, 5101.4, 5101.5, 5101.6, or 5101.8 to park during time periods other than the normal business hours of, or the maximum time allotted by, a state or local authority parking facility.

(d) A local authority’s compliance with subdivision (a) is solely contingent upon the approval of its governing body.

Amended Sec. 11, Ch. 478, Stats. 2010. Effective January 1, 2011.

Disabled Parking: Authorized Parking Zones

22511.5. (a) (1) A disabled person or disabled veteran displaying special license plates issued under Section 5007 or a distinguishing placard issued under Section 22511.55 or 22511.59 is allowed to park for unlimited periods in any of the following zones:

(A) In any restricted zone described in paragraph (5) of subdivision (a) of Section 21458 or on streets upon which preferential parking privileges and height limits have been given pursuant to Section 22507.

(B) In any parking zone that is restricted as to the length of time parking is permitted as indicated by a sign erected pursuant to a local ordinance.

(2) A disabled person or disabled veteran is allowed to park in any metered parking space without being required to pay parking meter fees.

(b) A disabled person or disabled veteran is allowed to park a motor vehicle displaying a special disabled person license plate or placard issued by a foreign jurisdiction with the same parking privileges authorized in this code for any motor vehicle displaying a special license plate or a distinguishing placard issued by the Department of Motor Vehicles.

Amended Sec. 11, Ch. 478, Stats. 2010. Effective January 1, 2011.

Placards: Issuance: Substitute

22511.55. (a) (1) A disabled person or disabled veteran may apply to the department for the issuance of a distinguishing placard. The placard may be used in lieu of the special license plate or plates issued under Section 5007 for parking purposes described in Section 22511.5 when (A) suspended from the rearview mirror, (B) if there is no rearview mirror, when displayed on the dashboard of a vehicle, or (C) inserted in a clip designated for a distinguishing placard and installed by the manufacturer on the driver’s side of the front window. It is the intent of the Legislature to encourage the use of distinguishing placards because they provide law enforcement officers with a more readily recognizable symbol for distinguishing vehicles qualified for the parking privilege. The placard shall be the size, shape, and color determined by the department and shall bear the International Symbol of Access adopted pursuant to Section 3 of Public Law 100-641, commonly known as the “wheelchair symbol.” The department shall incorporate instructions for the lawful use of a placard, and a summary of the penalties for the unlawful use of a placard, into the identification card issued to the placard owner.

(2) (A) The department may establish procedures for the issuance and renewal of the placards. The procedures shall

include, but are not limited to, advising an applicant in writing on the application for a placard of the procedure to apply for a special license plate or plates, as described in Section 5007, and the fee exemptions established pursuant to Section 9105 and in subdivision (a) of Section 10783 of the Revenue and Taxation Code. The placards shall have a fixed expiration date of June 30 every two years. A portion of the placard shall be printed in a contrasting color that shall be changed every two years.

(B) As used in this section, “year” means the period between the inclusive dates of July 1 through June 30.

(C) Prior to the end of each year, the department shall, for the most current three years available, compare its record of disability placards issued against the records of the Office of Vital Records of the State Department of Public Health, or its successor, and withhold any renewal notices that otherwise would have been sent for a placardholder identified as deceased.

(3) Except as provided in paragraph (4), a person shall not be eligible for more than one placard at a time.

(4) Organizations and agencies involved in the transportation of disabled persons or disabled veterans may apply for a placard for each vehicle used for the purpose of transporting disabled persons or disabled veterans.

(b) (1) Except as provided in paragraph (4), prior to issuing an original distinguishing placard to a disabled person or disabled veteran, the department shall require the submission of a certificate, in accordance with paragraph (2), signed by the physician and surgeon, or to the extent that it does not cause a reduction in the receipt of federal aid highway funds, by a nurse practitioner, certified nurse midwife, or physician assistant, substantiating the disability, unless the applicant’s disability is readily observable and uncontested. The disability of a person who has lost, or has lost use of, one or more lower extremities or one hand, for a disabled veteran, or both hands, for a disabled person, or who has significant limitation in the use of lower extremities, may also be certified by a licensed chiropractor. The blindness of an applicant shall be certified by a licensed physician and surgeon who specializes in diseases of the eye or a licensed optometrist. The physician and surgeon, nurse practitioner, certified nurse midwife, physician assistant, chiropractor, or optometrist certifying the qualifying disability shall provide a full description of the illness or disability on the form submitted to the department.

(2) The physician and surgeon, nurse practitioner, certified nurse midwife, physician assistant, chiropractor, or optometrist who signs a certificate submitted under this subdivision shall retain information sufficient to substantiate that certificate and, upon request of the department, shall make that information available for inspection by the Medical Board of California or the appropriate regulatory board.

(3) The department shall maintain in its records all information on an applicant’s certification of permanent disability and shall make that information available to eligible law enforcement or parking control agencies upon a request pursuant to Section 22511.58.

(4) For a disabled veteran, the department shall accept, in lieu of the certificate described in paragraph (1), a certificate from the United States Department of Veterans Affairs that certifies that the applicant is a disabled veteran as described in Section 295.7.

(c) A person who is issued a distinguishing placard pursuant to subdivision (a) may apply to the department for a substitute placard without recertification of eligibility, if that placard is lost or stolen.

(d) The distinguishing placard shall be returned to the department not later than 60 days after the death of the disabled person or disabled veteran to whom the placard was issued.

(e) The department shall print on any distinguishing placard issued on or after January 1, 2005, the maximum penalty that may be imposed for a violation of Section 4461. For purposes of this subdivision, the “maximum penalty” is the amount derived from adding all of the following:

1. The maximum fine that may be imposed under Section 4461.
2. The penalty required to be imposed under Section 70372 of the Government Code.
3. The penalty required to be levied under Section 76000 of the Government Code.
4. The penalty required to be levied under Section 1464 of the Penal Code.
5. The surcharge required to be levied under Section 1465.7 of the Penal Code.
6. The penalty authorized to be imposed under Section 4461.3.

Placards or Plates: Evidence of Issuance; Misuse

22511.56. (a) A person using a distinguishing placard issued under Section 22511.55 or 22511.59, or a special license plate issued under Section 5007, for parking as permitted by Section 22511.5 shall, upon request of a peace officer or person authorized to enforce parking laws, ordinances, or regulations, present identification and evidence of the issuance of that placard or plate to that person, or that vehicle if the plate was issued pursuant to paragraph (3) of subdivision (a) of Section 5007.

(b) Failure to present the requested identification and evidence of the issuance of that placard or plate shall be a rebuttable presumption that the placard or plate is being misused and that the associated vehicle has been parked in violation of Section 22507.8, or has exercised a disabled person’s parking privilege pursuant to Section 22511.5.

(c) In addition to any other applicable penalty for the misuse of a placard, the officer or parking enforcement person may confiscate a placard being used for parking purposes that benefit a person other than the person to whom the placard was issued by the Department of Motor Vehicles. A placard lawfully used by a person transporting a disabled person pursuant to subdivision (b) of Section 4461 may not be confiscated.

(d) In addition to any other applicable penalty for the misuse of a special license plate issued under Section 5007, a peace officer may confiscate the plate being used for parking purposes that benefit a person other than the person to whom the plate was issued by the Department of Motor Vehicles.
(e) After verification with the Department of Motor Vehicles that the user of the placard or plate is not the registered owner of the placard or plate, the appropriate agency that confiscated the placard or plate shall notify the department of the placard or plate number and the department shall cancel the placard or plate. A placard or plate canceled by the department pursuant to this subdivision may be destroyed by the agency that confiscated the placard or plate.

Amended Sec. 2, Ch. 203, Stats. 2006. Effective January 1, 2007.

Disabled Plates or Placards: Local Restrictions

22511.57. A local authority may, by ordinance or resolution, prohibit or restrict the parking or standing of a vehicle on streets or highways or in a parking stall or space in a privately or publicly owned or operated offstreet parking facility within its jurisdiction when the vehicle displays, in order to obtain special parking privileges, a distinguishing placard or special license plate, issued pursuant to Section 5007, 22511.55, or 22511.59, and any of the following conditions are met:

(a) The records of the Department of Motor Vehicles for the identification number assigned to the placard or license plate indicate that the placard or license plate has been reported as lost, stolen, surrendered, canceled, revoked, or expired, or was issued to a person who has been reported as deceased for a period exceeding 60 days.

(b) The placard or license plate is displayed on a vehicle that is not being used to transport, and is not in the reasonable proximity of, the person to whom the license plate or placard was issued or a person who is authorized to be transported in the vehicle displaying that placard or license plate.

(c) The placard or license plate is counterfeit, forged, altered, or mutilated.

Amended Sec. 4, Ch. 415, Stats. 2009. Effective January 1, 2010.

Disabled Parking Placards: Substantiating Information

22511.58. (a) Upon a request to the department by a local public law enforcement agency or local agency responsible for the administration or enforcement of parking regulations, the department shall make available to the requesting agency any information contained in a physician’s certificate submitted to the department as part of the application for a disabled person’s parking privileges, substantiating the disability of a person applying for or who has been issued a parking placard pursuant to Section 22511.55. The department shall not provide the information specified in this subdivision to any private or other third-party parking citation processing agency.

(b) Local authorities may establish a review board or panel, which shall include a qualified physician or medical authority, for purposes of reviewing information contained in the applications for special parking privileges and the certification of qualifying disabilities for persons residing within the jurisdiction of the local authority. Any findings or determinations by a review board or panel under this section indicating that an application or certification is fraudulent or lacks proper certification may be transmitted to the department or other appropriate authorities for further review and investigation.

Temporary Placards

22511.59. (a) Upon the receipt of the applications and documents required by subdivision (b), (c), or (d), the department shall issue a temporary distinguishing placard bearing the International Symbol of Access adopted pursuant to Section 3 of Public Law 100-641 commonly known as the “wheelchair symbol.” During the period for which it is valid, the temporary distinguishing placard may be used for the parking purposes described in Section 22511.5 in the same manner as a distinguishing placard issued pursuant to Section 22511.55.

(b) (1) A person who is temporarily disabled for a period of not more than six months may apply to the department for the issuance of the temporary distinguishing placard described in subdivision (a).

(2) Prior to issuing a placard pursuant to this subdivision, the department shall require the submission of a certificate signed by a physician and surgeon, or to the extent that it does not cause a reduction in the receipt of federal aid highway funds, by a nurse practitioner, certified nurse midwife, physician assistant, chiropractor, or optometrist, as described in subdivision (b) of Section 22511.55, substantiating the temporary disability and stating the date upon which the disability is expected to terminate.

(3) The physician and surgeon, nurse practitioner, certified nurse midwife, physician assistant, chiropractor, or optometrist who signs a certificate submitted under this subdivision shall maintain information sufficient to substantiate that certificate and, upon request of the department, shall make that information available for inspection by the Medical Board of California or the appropriate regulatory board.

(4) A placard issued pursuant to this subdivision shall expire not later than 180 days from the date of issuance or upon the expected termination date of the disability, as stated on the certificate required by paragraph (2), whichever is less.

(5) The fee for a temporary placard issued pursuant to this subdivision shall be six dollars ($6).

(6) A placard issued pursuant to this subdivision shall be renewed a maximum of six times consecutively.

(c) (1) A permanently disabled person or disabled veteran who is not a resident of this state and plans to travel within the state may apply to the department for the issuance of the temporary distinguishing placard described in subdivision (a).

(2) Prior to issuing a placard pursuant to this subdivision, the department shall require certification of the disability, as described in subdivision (b) of Section 22511.55.

(3) The physician and surgeon, nurse practitioner, certified nurse midwife, physician assistant, chiropractor, or optometrist who signs a certificate submitted under this subdivision shall maintain information sufficient to substantiate that certificate and, upon request of the department, shall make that information available for inspection by the Medical Board of California or the appropriate regulatory board.

(4) A placard issued pursuant to this subdivision shall expire not later than 90 days from the date of issuance.

(5) The department shall not charge a fee for issuance of a placard under this subdivision.
Parking for the Disabled

22511.7. (a) In addition to Section 22511.8 for offstreet parking, a local authority may, by ordinance or resolution, designate onstreet parking spaces for the exclusive use of a vehicle that displays a special identification license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55 or 22511.59.

(b) (1) Whenever a local authority so designates a parking space, it shall be indicated by blue paint on the curb or edge of the street adjacent to the space. In addition, the local authority shall post immediately adjacent to and visible from the space a sign consisting of a profile view of a wheelchair with occupant in white on a blue background.

(2) The sign required pursuant to paragraph (1) shall clearly and conspicuously state the following: “Minimum Fine $250.” This paragraph applies only to signs for parking spaces constructed on or after July 1, 2008, and signs that are replaced on or after July 1, 2008.

(3) If the loading and unloading area of the pavement adjacent to a parking stall or space designated for disabled persons or disabled veterans is to be marked by a border and hatched lines, the border shall be painted blue and the hatched lines shall be painted a suitable contrasting color to the parking space. Blue or white paint is preferred. In addition, within the border the words “No Parking” shall be painted in white letters no less than 12 inches high. This paragraph applies only to parking spaces constructed on or after July 1, 2008, and painting that is done on or after July 1, 2008.

(c) This section does not restrict the privilege granted to disabled persons and disabled veterans by Section 22511.5.

Amended Sec. 3, Ch. 413, Stats. 2007. Effective January 1, 2008.

Offstreet Parking for the Disabled: Removal of Vehicles

22511.8. (a) A local authority, by ordinance or resolution, and a person in lawful possession of an offstreet parking facility may designate stalls or spaces in an offstreet parking facility owned or operated by the local authority or person for the exclusive use of a vehicle that displays either a special license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55 or 22511.59. The designation shall be made by posting a sign as described in paragraph (1), and by either of the markings described in paragraph (2) or (3):

(1) (A) By posting immediately adjacent to, and visible from, each stall or space, a sign consisting of a profile view of a wheelchair with occupant in white on a blue background.

(B) The sign shall also clearly and conspicuously state the following: “Minimum Fine $250.” This subparagraph applies only to signs for parking spaces constructed on or after July 1, 2008, and signs that are replaced on or after July 1, 2008, or as the State Architect deems necessary when renovations, structural repair, alterations, and additions occur to existing buildings and facilities on or after July 1, 2008.

(2) (A) By outlining or painting the stall or space in blue and outlining on the ground in the stall or space in white or suitable contrasting color a profile view depicting a wheelchair with occupant.

(B) The loading and unloading area of the pavement adjacent to a parking stall or space designated for disabled persons or disabled veterans shall be marked by a border and...
hatched lines. The border shall be painted blue and the hatched lines shall be painted a suitable contrasting color to the parking space. Blue or white paint is preferred. In addition, within the border the words “No Parking” shall be painted in white letters no less than 12 inches high. This subparagraph applies only to parking spaces constructed on or after July 1, 2008, and painting that is done on or after July 1, 2008, or as the State Architect deems necessary when renovations, structural repair, alterations, and additions occur to existing buildings and facilities on or after July 1, 2008.

(3) By outlining a profile view of a wheelchair with occupant in white on a blue background, of the same dimensions as in paragraph (2). The profile view shall be located so that it is visible to a traffic enforcement officer when a vehicle is properly parked in the space.

(b) The Department of General Services under the Division of the State Architect shall develop pursuant to Section 4450 of the Government Code, as appropriate, conforming regulations to ensure compliance with subparagraph (B) of paragraph (1) of subdivision (a) and subparagraph (B) of paragraph (2) of subdivision (a). Initial regulations to implement these provisions shall be adopted as emergency regulations. The adoption of these regulations shall be considered by the Department of General Services to be an emergency necessary for the immediate preservation of the public peace, health and safety, or general welfare.

(c) If posted in accordance with subdivision (e) or (f), the owner or person in lawful possession of a privately owned or operated offstreet parking facility, after notifying the police or sheriff’s department, may cause the removal of a vehicle from a stall or space designated pursuant to subdivision (a) in the facility to the nearest public garage unless a special license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55 or 22511.59 is displayed on the vehicle.

(d) If posted in accordance with subdivision (e), the local authority owning or operating an offstreet parking facility, after notifying the police or sheriff’s department, may cause the removal of a vehicle from a stall or space designated pursuant to subdivision (a) in the facility to the nearest public garage unless a special license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55 or 22511.59 is displayed on the vehicle.

(e) Except as provided in Section 22511.9, the posting required for an offstreet parking facility owned or operated either privately or by a local authority shall consist of a sign not less than 17 by 22 inches in size with lettering not less than one inch in height which clearly and conspicuously states the following: “Unauthorized vehicles parked in designated accessible spaces not displaying distinguishing placards or special license plates issued for persons with disabilities will be towed away at the owner’s expense. Towed vehicles may be reclaimed at:

______________________
(Address)

(Telephone number of local law enforcement agency)“.

The sign shall be posted in either of the following locations:

(1) Immediately adjacent to, and visible from, the stall or space.

(2) In a conspicuous place at each entrance to the offstreet parking facility.

(f) If the parking facility is privately owned and public parking is prohibited by the posting of a sign meeting the requirements of paragraph (1) of subdivision (a) of Section 22658, the requirements of subdivision (c) may be met by the posting of a sign immediately adjacent to, and visible from, each stall or space indicating that a vehicle not meeting the requirements of subdivision (a) will be removed at the owner’s expense and containing the telephone number of the local traffic law enforcement agency.

(g) This section does not restrict the privilege granted to disabled persons and disabled veterans by Section 22511.5.

Amended Sec. 4, Ch. 413, Stats. 2007. Effective January 1, 2008.

Loading or Unloading Persons with Disabilities

22511.85. A vehicle, identified with a special license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55 or 22511.59, which is equipped with a lift, ramp, or assistive equipment that is used for the loading and unloading of a person with a disability may park in not more than two adjacent stalls or spaces on a street or highway or in a public or private off-street parking facility if the equipment has been or will be used for loading or unloading a person with a disability, and if there is no single parking space immediately available on the street or highway or within the facility that is suitable for that purpose, including, but not limited to, when there is not sufficient space to operate a vehicle lift, ramp, or assistive equipment, or there is not sufficient room for a person with a disability to exit the vehicle or maneuver once outside the vehicle.

Amended Sec. 1, Ch. 387, Stats. 2007. Effective January 1, 2008.

Amended Sec. 221, Ch. 179, Stats. 2008. Effective January 1, 2009.

Disabled Person Sign

22511.9. Every new or replacement sign installed on or after January 1, 1992, relating to parking privileges for disabled persons shall refer to “disabled persons” rather than “physically handicapped persons” or any other similar term, whenever such a reference is required on a sign.

Persons with Disability Sign

22511.95. All new or replacement signs installed on or after July 1, 2008, relating to parking privileges for disabled persons shall refer to “persons with disabilities” rather than “disabled persons” or any other similar term, whenever the reference is required on the sign.

Added Sec. 5, Ch. 413, Stats. 2007. Effective January 1, 2008.

Disabled Parking: Legislative Findings and Intent

22511.10. The Legislature hereby finds and declares all of the following:

(a) Two and one-half million Californians suffer from some form of chronic obstructive pulmonary disease. Those persons who are not in wheelchairs have difficulty walking long distances.

(b) Encouraging those with physical disabilities to engage in activities outside of the home promotes better health and self-esteem, thereby lowering health costs.
(c) Placing disabled person parking spaces closest to the main entrances of buildings does not cost taxpayers, but provides accessibility to the physically disabled.

(d) It is the intent of the Legislature, in enacting Section 22511.11, to direct the Office of the State Architect to propose regulations that require disabled person parking spaces to be located on the shortest accessible route of travel to an accessible entrance or exit of a building or parking facility.

**Disabled Parking: State Architect Regulations**

22511.11. (a) The Office of the State Architect shall propose regulations specifying the location of disabled person parking stalls or spaces designated pursuant to Section 22511.8, for parking facilities constructed or reconstructed pursuant to a building permit issued on or after October 1, 1993. In specifying the placement of those stalls or spaces near buildings or facilities and within parking structures, consideration shall be given to the special access needs of disabled persons.

(b) The Office of the State Architect shall submit the regulations proposed pursuant to subdivision (a) to the State Building Standards Commission on or before July 1, 1993, for approval, adoption, and publication in Title 24 of the California Code of Regulations.

**Utility Vehicles**

22512. Except as otherwise indicated in subdivision (b), none of the following provisions shall apply to the driver or owner of any service vehicle owned or operated by or for or operated under contract with a utility or public utility, whether privately, municipally, or publicly owned, used in the construction, operation, removal, or repair of utility or public utility property or facilities, if warning devices are displayed and when the vehicle is stopped, standing, or parked at the site of work involving the construction, operation, removal, or repair of utility or public utility property or facilities upon, in, over, under, or adjacent to a highway, bicycle lane, bikeway, or bicycle path or trail, or of a vehicle, whether privately, municipally, or publicly owned, if warning devices are displayed and when the vehicle is engaged in authorized work on the highway, bicycle lane, bikeway, or bicycle path or trail:

(a) Sections 21112, 21211, 21707, 21708, 22507.6, 24605, 25253, 25300, 27700, and 27907. (b) This chapter, except Sections 22507, 22509, 22515, and 22517.

(c) Chapter 10 (commencing with Section 22650).

Amended Sec. 128, Ch. 124, Stats. 1996. Effective January 1, 1997.

**Tow Trucks**

22513. (a) Except as provided in subdivision (b) or (c), the owner or operator of a tow truck who complies with the requirements of this code relating to tow trucks may stop or park the tow truck upon a highway for the purpose of rendering assistance to a disabled vehicle.

(b) It is a misdemeanor for the owner or operator of a tow truck to stop at the scene of an accident or near a disabled vehicle for the purpose of soliciting an engagement for towing services, either directly or indirectly, or to furnish any towing services, unless summoned to the scene, requested to stop, or flagged down by the owner or operator of a disabled vehicle or requested to perform the service by a law enforcement officer or public agency pursuant to that agency's procedures.

(c) It is a misdemeanor for the owner or operator of a tow truck to move any vehicle from a highway, street, or public property without the express authorization of the owner or operator of the vehicle or a law enforcement officer or public agency pursuant to that agency's procedures, when the vehicle has been left unattended or when there is an injury as the result of an accident.

(d) This section shall not apply to the following:

1. A vehicle owned or operated by, or under contract to, a motor club, as defined by Section 12142 of the Insurance Code, which stops to provide services for which compensation is neither requested nor received, provided that those services may not include towing other than that which may be necessary to remove the vehicle to the nearest safe shoulder. The owner or operator of such a vehicle may contact a law enforcement agency or other public agency on behalf of a motorist, but may not refer a motorist to a tow truck owner or operator, unless the motorist is a member of the motor club, the motorist is referred to a tow truck owner or operator under contract to the motor club, and, if there is a dispatch facility which services the area and is owned or operated by the motor club, the referral is made through that dispatch facility.

2. A tow truck operator employed by a law enforcement agency or other public agency.

3. A tow truck owner or operator acting under contract with a law enforcement or other public agency to abate abandoned vehicles, or to provide towing service or emergency road service to motorists while involved in freeway service patrol operations, to the extent authorized by law.

**Fire Hydrants**

22514. No person shall stop, park, or leave standing any vehicle within 15 feet of a fire hydrant except as follows:

(a) If the vehicle is attended by a licensed driver who is seated in the front seat and who can immediately move such vehicle in case of necessity.

(b) If the local authority adopts an ordinance or resolution reducing that distance. If the distance is less than 10 feet total length when measured along the curb or edge of the street, the distance shall be indicated by signs or markings.

(c) If the vehicle is owned or operated by a fire department and is clearly marked as a fire department vehicle.

**Unattended Vehicles**

22515. (a) No person driving, or in control of, or in charge of, a motor vehicle shall permit it to stand on any highway unattended without first effectively setting the brakes thereon and stopping the motor thereof.

(b) No person in control of, or in charge of, any vehicle, other than a motor vehicle, shall permit it to stand on any highway without first effectively setting the brakes thereon, or blocking the wheels thereof, to effectively prevent the movement of the vehicle.

**Locked Vehicle**

22516. No person shall leave standing a locked vehicle in which there is any person who cannot readily escape therefrom.
Opening and Closing Doors

22517. No person shall open the door of a vehicle on the side available to moving traffic unless it is reasonably safe to do so and can be done without interfering with the movement of such traffic, nor shall any person leave a door open upon the side of a vehicle available to moving traffic for a period of time longer than necessary to load or unload passengers. Amended Ch. 162, Stats. 1963. Effective September 20, 1963.

Use of Fringe and Transportation Corridor Parking Facilities

22518. (a) Fringe and transportation corridor parking facilities constructed, maintained, or operated by the Department of Transportation pursuant to Section 146.5 of the Streets and Highways Code shall be used only by persons using a bicycle or public transit, or engaged in ridesharing, including, but not limited to, carpools or vanpools. A person shall not park a vehicle 30 feet or more in length, engage in loitering or camping, or engage in vending or any other commercial activity on any fringe or transportation corridor parking facility.

(b) This section does not apply to alternatively fueled infrastructure programs in park-and-ride lots owned and operated by the Department of Transportation. Amended Sec. 3, Ch. 676, Stats. 2012. Effective January 1, 2013.

Regulation of Offstreet Parking

22519. Local authorities may by ordinance or resolution prohibit, restrict or regulate the parking, stopping or standing of vehicles on any offstreet parking facility which it owns or operates. No such ordinance or resolution shall apply until signs giving notice thereof have been erected. Amended Ch. 1486, Stats. 1959. Effective September 18, 1959.

Vending On or Near Freeways

22520.5. (a) No person shall solicit, display, sell, offer for sale, or otherwise vend or attempt to vend any merchandise or service while being wholly or partly within any of the following:

(1) The right-of-way of any freeway, including any on ramp, off ramp, or roadway shoulder which lies within the right-of-way of the freeway.

(2) Any roadway or adjacent shoulder within 500 feet of a freeway off ramp or on ramp.

(3) Any sidewalk within 500 feet of a freeway off ramp or on ramp, when vending or attempting to vend to vehicular traffic.

(b) Subdivision (a) does not apply to a roadside rest area or vista point located within a freeway right-of-way which is subject to Section 22520.6, to a tow truck or service vehicle rendering assistance to a disabled vehicle, or to a person issued a permit to vend upon the freeway pursuant to Section 670 of the Streets and Highways Code.

(c) A violation of this section is an infraction. A second or subsequent conviction of a violation of this section is a misdemeanor. Amended Ch. 924, Stats. 1988. Effective January 1, 1989.

Prohibited Activity: Roadside Rest or Vista Point

22520.6. (a) No person shall engage in any activity within a highway roadside rest area or vista point prohibited by rules and regulations adopted pursuant to Section 225 of the Streets and Highways Code.

(b) A violation of this section is an infraction. A second or subsequent conviction of a violation of this section is a misdemeanor. Amended Ch. 275, Stats. 1983. Effective July 14, 1983.

Parking Upon or Near Railroad Track

22521. No person shall park a vehicle upon any railroad track or within 71/2 feet of the nearest rail. Amended Ch. 625, Stats. 1968. Effective November 13, 1968.

Parking Near Designated Sidewalk Access Ramps

22522. No person shall park a vehicle within three feet of any sidewalk access ramp constructed at, or adjacent to, a crosswalk or at any other location on a sidewalk so as to be accessible to and usable by the physically disabled, if the area adjoining the ramp is designated by either a sign or red paint. Amended Sec. 22, Ch. 1007, Stats. 1999. Effective January 1, 2000.

Abandonment Prohibited

22523. (a) No person shall abandon a vehicle upon any highway.

(b) No person shall abandon a vehicle upon public or private property without the express or implied consent of the owner or person in lawful possession or control of the property.

(c) Any person convicted of a violation of this section shall be punished by a fine of not less than one hundred dollars ($100) and shall provide proof that the costs of removal and disposition of the vehicle have been paid. No part of any fine imposed shall be suspended. The fine may be paid in installments if the court determines that the defendant is unable to pay the entire amount in one payment.

(d) Proof that the costs of removal and disposition of the vehicle have been paid shall not be required if proof is provided to the court that the vehicle was stolen prior to abandonment. That proof may consist of a police report or other evidence acceptable to the court.

(e) The costs required to be paid for the removal and disposition of any vehicle determined to be abandoned pursuant to Section 22669 shall not exceed those for towing and seven days of storage. This subdivision does not apply if the registered owner or legal owner has completed and returned to the lienholder a “Declaration of Opposition” form within the time specified in Section 22851.8.

(f) (1) If a vehicle is abandoned in violation of subdivision (b) and is not redeemed after impound, the last registered owner is guilty of an infraction. In addition to any other penalty, the registered owner shall be liable for any deficiency remaining after disposal of the vehicle under Section 3071 or 3072 of the Civil Code or Section 22851.10 of this code.

(2) The filing of a report of sale or transfer of the vehicle pursuant to Section 5602, the filing of a vehicle theft report with a law enforcement agency, or the filing of a form or notice with the department pursuant to subdivision (b) of Section 4456 or Section 5900 or 5901 relieves the registered owner of liability under this subdivision. Amended Sec. 2, Ch. 676, Stats. 1996. Effective January 1, 1997.

Abandonment: Presumption

22524. (a) The abandonment of any vehicle in a manner as provided in Section 22523 shall constitute a prima facie presumption that the last registered owner of record is responsible for the abandonment and is thereby liable for the cost of removal and disposition of the vehicle.
(b) An owner who has made a bona fide sale or transfer of a vehicle and has delivered possession of the vehicle to a purchaser may overcome the presumption prescribed in subdivision (a) by demonstrating that he or she has complied with Section 5900 or providing other proof satisfactory to the court.

(c) This section shall become operative on July 1, 1989.

**Liability for Towing and Storage Charges**

22524.5. (a) Any insurer that is responsible for coverage for ordinary and reasonable towing and storage charges under an automobile insurance policy to an insured or on behalf of an insured to a valid claimant, is liable for those charges to the person performing those services when a vehicle is towed and stored as a result of an accident or stolen recovery. The insurer may discharge the obligation by making payment to the person performing the towing and storage services or to the insured or on behalf of the insured to the claimant.

(b) Any insured or claimant who has received payment, which includes towing and storage charges, from an insurer for a loss relating to a vehicle is liable for those charges to the person performing those services.

**Use of State Highway Bus Stops by Vanpool Vehicles**

22525. Local authorities may by ordinance or resolution authorize vanpool vehicles to utilize designated state highway bus stops.

The ordinance or resolution shall be submitted to the Department of Transportation for approval. No ordinance or resolution shall become effective until approved by the department. The department shall review the ordinance or resolution within 45 days after receipt.

**Entering Intersection, Rail Crossing, or Marked Crosswalk**

22526. (a) Notwithstanding any official traffic control signal indication to proceed, a driver of a vehicle shall not enter an intersection or marked crosswalk unless there is sufficient space on the other side of the intersection or marked crosswalk to accommodate the vehicle driven without obstructing the through passage of vehicles from either side.

(b) A driver of a vehicle which is making a turn at an intersection who is facing a steady circular yellow or yellow arrow signal shall not enter the intersection or marked crosswalk unless there is sufficient space on the other side of the intersection or marked crosswalk to accommodate the vehicle driven without obstructing the through passage of vehicles from either side.

(c) A driver of a vehicle shall not enter a railroad or rail transit crossing, notwithstanding any official traffic control device or signal indication to proceed, unless there is sufficient undercarriage clearance to cross the intersection without obstructing the through passage of a railway vehicle, including, but not limited to, a train, trolley, or city transit vehicle.

(d) A driver of a vehicle shall not enter a railroad or rail transit crossing, notwithstanding any official traffic control device or signal indication to proceed, unless there is sufficient space on the other side of the railroad or rail transit crossing to accommodate the vehicle driven and any railway vehicle, including, but not limited to, a train, trolley, or city transit vehicle.

(e) A local authority may post appropriate signs at the entrance to intersections indicating the prohibition in subdivisions (a), (b), and (c).

(f) A violation of this section is not a violation of a law relating to the safe operation of vehicles and is the following:

(1) A stopping violation when a notice to appear has been issued by a peace officer described in Section 830.1, 830.2, or 830.33 of the Penal Code.

(2) A parking violation when a notice of parking violation is issued by a person, other than a peace officer described in paragraph (1), who is authorized to enforce parking statutes and regulations.

(g) This section shall be known and may be cited as the Anti-Gridlock Act of 1987.

Amended Sec. 6, Ch. 716, Stats. 2005. Effective January 1, 2006.

Amended Sec. 11, Ch. 216, Stats. 2010. Effective January 1, 2011.

**CHAPTER 10. REMOVAL OF PARKED AND ABANDONED VEHICLES**

**Article 1. Authority to Remove Vehicles**

**Prohibition of Removal**

22650. It is unlawful for any peace officer or any unauthorized person to remove any unattended vehicle from a highway to a garage or to any other place, except as provided in this code.

(a) Those law enforcement and other agencies identified in this Chapter as having the authority to remove vehicles shall also have the authority to provide hearings in compliance with the provisions of Section 22852. During these hearings the storing agency shall have the burden of establishing the authority for, and the validity of, the removal.

(b) Nothing in this section shall be deemed to prevent a review or other action as may be permitted by the laws of this state by a court of competent jurisdiction.

**Circumstances Permitting Removal**

22651. A peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or a regularly employed and salaried employee, who is engaged in directing traffic or enforcing parking laws and regulations, of a city, county, or jurisdiction of a state agency in which a vehicle is located, may remove a vehicle located within the territorial limits in which the officer or employee may act, under the following circumstances:

(a) When a vehicle is left unattended upon a bridge, viaduct, or causeway or in a tube or tunnel where the vehicle constitutes an obstruction to traffic.

(b) When a vehicle is parked or left standing upon a highway in a position so as to obstruct the normal movement of traffic or in a condition so as to create a hazard to other traffic upon the highway.

(c) When a vehicle is found upon a highway or public land and a report has previously been made that the vehicle is stolen or a complaint has been filed and a warrant thereon is issued charging that the vehicle was embezzled.

(d) When a vehicle is illegally parked so as to block the entrance to a private driveway and it is impractical to move
§22651

the vehicle from in front of the driveway to another point on the highway.

(e) When a vehicle is illegally parked so as to prevent access by firefighting equipment to a fire hydrant and it is impracticable to move the vehicle from in front of the fire hydrant to another point on the highway.

(f) When a vehicle, except highway maintenance or construction equipment, is stopped, parked, or left standing for more than four hours upon the right-of-way of a freeway that has full control of access and no crossings at grade and the driver, if present, cannot move the vehicle under its own power.

(g) When the person in charge of a vehicle upon a highway or public land is, by reason of physical injuries or illness, incapacitated to an extent so as to be unable to provide for its custody or removal.

(h) (1) When an officer arrests a person driving or in control of a vehicle for an alleged offense and the officer is, by this code or other law, required or permitted to take, and does take, the person into custody.

(2) When an officer serves a notice of an order of suspension or revocation pursuant to Section 13388 or 13389.

(i) (1) When a vehicle, other than a rented vehicle, is found upon a highway or public land, or is removed pursuant to this code, and it is known that the vehicle has been issued five or more notices of parking violations to which the owner or person in control of the vehicle has not responded within 21 calendar days of notice of citation issuance or citation issuance or 14 calendar days of the mailing of a notice of delinquent parking violation to the agency responsible for processing notices of parking violations, or the registered owner of the vehicle is known to have been issued five or more notices for failure to pay or failure to appear in court for traffic violations for which a certificate has not been issued by the magistrate or clerk of the court hearing the case showing that the case has been adjudicated or concerning which the registered owner’s record has not been cleared pursuant to Chapter 6 (commencing with Section 41500) of Division 17, the vehicle may be impounded until that person furnishes to the impounding law enforcement agency all of the following:

(A) Evidence of his or her identity.

(B) An address within this state at which he or she can be located.

(C) Satisfactory evidence that all parking penalties due for the vehicle and all other vehicles registered to the registered owner of the impounded vehicle, and all traffic violations of the registered owner, have been cleared.

(2) The requirements in subparagraph (C) of paragraph (1) shall be fully enforced by the impounding law enforcement agency on and after the time that the Department of Motor Vehicles is able to provide access to the necessary records.

(3) A notice of parking violation issued for an unlawfully parked vehicle shall be accompanied by a warning that repeated violations may result in the impounding of the vehicle. In lieu of furnishing satisfactory evidence that the full amount of parking penalties or bail has been deposited, that person may demand to be taken without unnecessary delay before a magistrate, for traffic offenses, or a hearing examiner, for parking offenses, within the county in which the offenses charged are alleged to have been committed and who has jurisdiction of the offenses and is nearest or most accessible with reference to the place where the vehicle is impounded. Evidence of current registration shall be produced after a vehicle has been impounded, or, at the discretion of the impounding law enforcement agency, a notice to appear for violation of subdivision (a) of Section 4000 shall be issued to that person.

(4) A vehicle shall be released to the legal owner, as defined in Section 370, if the legal owner does all of the following:

(A) Pays the cost of towing and storing the vehicle.

(B) Submits evidence of payment of fees as provided in Section 9561.

(C) Completes an affidavit in a form acceptable to the impounding law enforcement agency stating that the vehicle was not in possession of the legal owner at the time of occurrence of the offenses relating to standing or parking. A vehicle released to a legal owner under this subdivision is a repossessed vehicle for purposes of disposition or sale. The impounding agency shall have a lien on any surplus that remains upon sale of the vehicle to which the registered owner is or may be entitled, as security for the full amount of the parking penalties for all notices of parking violations issued for the vehicle and for all local administrative charges imposed pursuant to Section 22850.5. The legal owner shall promptly remit to, and deposit with, the agency responsible for processing notices of parking violations from that surplus, on receipt of that surplus, the full amount of the parking penalties for all notices of parking violations issued for the vehicle and for all local administrative charges imposed pursuant to Section 22850.5.

(5) The impounding agency that has a lien on the surplus that remains upon the sale of a vehicle to which a registered owner is entitled pursuant to paragraph (4) has a deficiency claim against the registered owner for the full amount of the parking penalties for all notices of parking violations issued for the vehicle and for all local administrative charges imposed pursuant to Section 22850.5, less the amount received from the sale of the vehicle.

(j) When a vehicle is found illegally parked and there are no license plates or other evidence of registration displayed, the vehicle may be impounded until the owner or person in control of the vehicle furnishes the impounding law enforcement agency evidence of his or her identity and an address within this state at which he or she can be located.

(k) When a vehicle is parked or left standing upon a highway for 72 or more consecutive hours in violation of a local ordinance authorizing removal.

(I) When a vehicle is illegally parked on a highway in violation of a local ordinance forbidding standing or parking and the use of a highway, or a portion thereof, is necessary for the cleaning, repair, or construction of the highway, or for the installation of underground utilities, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by a local authority pursuant to the ordinance.

(m) When the use of the highway, or a portion of the highway, is authorized by a local authority for a purpose other than the normal flow of traffic or for the movement of equipment, articles, or structures of unusual size, and the parking of a vehicle would prohibit or interfere with that use or movement, and signs giving notice that the vehicle may be removed are
erected or placed at least 24 hours prior to the removal by a local authority pursuant to the ordinance.

(n) Whenever a vehicle is parked or left standing where local authorities, by resolution or ordinance, have prohibited parking and have authorized the removal of vehicles. Except as provided in subdivisions (v) and (w), a vehicle shall not be removed unless signs are posted giving notice of the removal.

(o) (1) When a vehicle is found or operated upon a highway, public land, or an offstreet parking facility under the following circumstances:

(A) With a registration expiration date in excess of six months before the date it is found or operated on the highway, public lands, or the offstreet parking facility.

(B) Displaying, in, or upon, the vehicle, a registration card, identification card, temporary receipt, license plate, special plate, registration sticker, device issued pursuant to Section 4853, or permit that was not issued for that vehicle, or is not otherwise lawfully used on that vehicle under this code.

(C) Displaying, in, or upon, the vehicle, an altered, forged, counterfeit, or falsified registration card, identification card, temporary receipt, license plate, special plate, registration sticker, device issued pursuant to Section 4853, or permit.

(2) When a vehicle described in paragraph (1) is occupied, only a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may remove the vehicle.

(3) For the purposes of this subdivision, the vehicle shall be released under either of the following circumstances:

(A) To the registered owner or person in control of the vehicle only after the owner or person furnishes the storing law enforcement agency with proof of current registration and a currently valid driver’s license to operate the vehicle.

(B) To the legal owner or the legal owner’s agency, without payment of any fees, fines, or penalties for parking tickets or registration and without proof of current registration, if the vehicle will only be transported pursuant to the exemption specified in Section 4022 and if the legal owner does all of the following:

(i) Pays the cost of towing and storing the vehicle.

(ii) Completes an affidavit in a form acceptable to the impounding law enforcement agency stating that the vehicle was not in possession of the legal owner at the time of occurrence of an offense relating to standing or parking. A vehicle released to a legal owner under this subdivision is a repossessed vehicle for purposes of disposition or sale. The impounding agency has a lien on any surplus that remains upon sale of the vehicle to which the registered owner is or may be entitled, as security for the full amount of parking penalties for any notices of parking violations issued for the vehicle and for all local administrative charges imposed pursuant to Section 22850.5. Upon receipt of any surplus, the legal owner shall promptly remit to, and deposit with, the agency responsible for processing notices of parking violations from that surplus, the full amount of the parking penalties for all notices of parking violations issued for the vehicle and for all local administrative charges imposed pursuant to Section 22850.5.

(4) The impounding agency that has a lien on the surplus that remains upon the sale of a vehicle to which a registered owner is entitled has a deficiency claim against the registered owner for the full amount of parking penalties for any notices of parking violations issued for the vehicle and for all local administrative charges imposed pursuant to Section 22850.5, less the amount received from the sale of the vehicle.

(p) When the peace officer issues the driver of a vehicle a notice to appear for a violation of Section 12500, 14601, 14601.1, 14601.2, 14601.3, 14601.4, 14601.5, or 14604 and the vehicle is not impounded pursuant to Section 22655.5. A vehicle so removed from the highway or public land, or from private property after having been on a highway or public land, shall not be released to the registered owner or his or her agent, except upon presentation of the registered owner’s or his or her agent’s currently valid driver’s license to operate the vehicle and proof of current vehicle registration, to the impounding law enforcement agency, or upon order of a court.

(q) When a vehicle is parked for more than 24 hours on a portion of highway that is located within the boundaries of a common interest development, as defined in Section 4100 or 6534 of the Civil Code, and signs, as required by paragraph (1) of subdivision (a) of Section 22658 of this code, have been posted on that portion of highway providing notice to drivers that vehicles parked thereon for more than 24 hours will be removed at the owner’s expense, pursuant to a resolution or ordinance adopted by the local authority.

(r) When a vehicle is illegally parked and blocks the movement of a legally parked vehicle.

(s) (1) When a vehicle, except highway maintenance or construction equipment, an authorized emergency vehicle, or a vehicle that is properly permitted or otherwise authorized by the Department of Transportation, is stopped, parked, or left standing for more than eight hours within a roadside rest area or viewpoint.

(2) Notwithstanding paragraph (1), when a commercial motor vehicle, as defined in paragraph (1) of subdivision (b) of Section 15210, is stopped, parked, or left standing for more than 10 hours within a roadside rest area or viewpoint.

(3) For purposes of this subdivision, a roadside rest area or viewpoint is a publically maintained vehicle parking area, adjacent to a highway, utilized for the convenient, safe stopping of a vehicle to enable motorists to rest or to view the scenery. If two or more roadside rest areas are located on opposite sides of the highway, or upon the center divider, within seven miles of each other, then that combination of rest areas is considered to be the same rest area.

(t) When a peace officer issues a notice to appear for a violation of Section 25279.

(u) When a peace officer issues a citation for a violation of Section 11700 and the vehicle is being offered for sale.

(v) (1) When a vehicle is a mobile billboard advertising display, as defined in Section 395.5, and is parked or left standing in violation of a local resolution or ordinance adopted pursuant to subdivision (m) of Section 21100, if the registered owner of the vehicle was previously issued a warning citation for the same offense, pursuant to paragraph (2).
(2) Notwithstanding subdivision (a) of Section 22507, a city or county, in lieu of posting signs noticing a local ordinance prohibiting mobile billboard advertising displays adopted pursuant to subdivision (m) of Section 21100, may provide notice by issuing a warning citation advising the registered owner of the vehicle that he or she may be subject to penalties upon a subsequent violation of the ordinance, that may include the removal of the vehicle as provided in paragraph (1). A city or county is not required to provide further notice for a subsequent violation prior to the enforcement of penalties for a violation of the ordinance.

(3) Wherever the use of the highway, or a portion thereof, is necessary for the cleaning, repair, or construction of the highway, or for the installation of underground utilities, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities, by resolution or ordinance, have prohibited parking and have authorized the removal of vehicles. A vehicle may not be removed unless signs are posted giving notice of the removal.

(4) Whenever a vehicle is parked or left standing where local authorities, by resolution or ordinance, have prohibited parking and have authorized the removal of vehicles. A vehicle may not be removed unless signs are posted giving notice of the removal.

(5) Whenever a vehicle is parked for more than 24 hours on a portion of highway that is located within the boundaries of a common interest development, as defined in subdivision (c) of Section 1351 of the Civil Code, and signs, as required by Section 22658.2, have been posted on that portion of highway providing notice to drivers that vehicles parked thereon for more than 24 hours will be removed at the owner’s expense, pursuant to a resolution or ordinance adopted by the local authority.

(2) Notwithstanding subdivision (a) of Section 22507, a city or county, in lieu of posting signs noticing a local ordinance regulating advertising signs adopted pursuant to subdivision (p) of Section 21100, may provide notice by issuing a warning citation advising the registered owner of the vehicle that he or she may be subject to penalties upon a subsequent violation of the ordinance that may include the removal of the vehicle as provided in paragraph (1). A city or county is not required to provide further notice for a subsequent violation prior to the enforcement of penalties for a violation of the ordinance.

Authority to Remove: Trained Volunteers

22651.05. (a) A trained volunteer of a state or local law enforcement agency, who is engaged in directing traffic or enforcing parking laws and regulations, of a city, county, or jurisdiction of a state agency in which a vehicle is located, may remove or authorize the removal of a vehicle located within the territorial limits in which an officer or employee of that agency may act, under any of the following circumstances:

(1) When a vehicle is parked or left standing upon a highway for 72 or more consecutive hours in violation of a local ordinance authorizing the removal.

(2) When a vehicle is illegally parked or left standing on a highway in violation of a local ordinance forbidding standing or parking and the use of a highway, or a portion thereof, is necessary for the cleaning, repair, or construction of the highway, or for the installation of underground utilities, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities pursuant to the ordinance.

(3) Wherever the use of the highway, or a portion thereof, is authorized by local authorities for a purpose other than the normal flow of traffic or for the movement of equipment, articles, or structures of unusual size, and the parking of a vehicle would prohibit or interfere with that use or movement, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities pursuant to the ordinance.

(4) Whenever a vehicle is parked or left standing where local authorities, by resolution or ordinance, have prohibited parking and have authorized the removal of vehicles. A vehicle may not be removed unless signs are posted giving notice of the removal.

(5) Whenever a vehicle is parked for more than 24 hours on a portion of highway that is located within the boundaries of a common interest development, as defined in Section 4100 or 6534 of the Civil Code, and signs, as required by Section 22658.2, have been posted on that portion of highway providing
notice to drivers that vehicles parked thereon for more than 24 hours will be removed at the owner’s expense, pursuant to a resolution or ordinance adopted by the local authority.

(b) The provisions of this chapter that apply to a vehicle removed pursuant to Section 22651 apply to a vehicle removed pursuant to subdivision (a).

(c) For purposes of subdivision (a), a “trained volunteer” is a person who, of his or her own free will, provides services, without any financial gain, to a local or state law enforcement agency, and who is duly trained and certified to remove a vehicle by a local or state law enforcement agency.

Amended Sec. 82, Ch. 181, Stats. 2012, Effective January 1, 2013.
Amended Sec. 51, Ch. 605, Stats. 2013, Effective January 1, 2014.

**Towing Fees and Access Notice: Vehicle Owner Rights**

22651.07. (a) A person that charges for towing or storage, or both, except for storage unrelated to a tow, shall do all of the following:

(1) (A) Except as provided in subparagraph (B), post in the office area of the storage facility, in plain view of the public, the Towing Fees and Access Notice and have copies readily available to the public.

(B) An automotive repair dealer, registered pursuant to Article 3 (commencing with Section 9884) of Chapter 20.3 of Division 3 of the Business and Professions Code, that does not provide towing services is exempt from the requirement to post the Towing Fees and Access Notice in the office area.

(2) Provide, upon request, a copy of the Towing Fees and Access Notice to any owner or operator of a towed or stored vehicle.

(3) Provide a distinct notice on an itemized invoice for any towing or storage, or both, charges stating: “Upon request, you are entitled to receive a copy of the Towing Fees and Access Notice.” This notice shall be contained within a bordered text box, printed in no less than 10-point type.

(b) Prior to receiving payment for any towing, recovery, or storage-related fees, a person that charges for towing or storage, or both, shall provide an itemized invoice of actual charges to the vehicle owner or his or her agent. If an automotive repair dealer, registered pursuant to Article 3 (commencing with Section 9884) of Chapter 20.3 of Division 3 of the Business and Professions Code, did not provide the tow, and passes along, from the tower to the consumer, any of the information required on the itemized invoice, pursuant to subdivision (e), the automotive repair dealer shall not be responsible for the accuracy of those items of information that remain unaltered.

(c) Prior to paying any towing, recovery, or storage-related fees, a vehicle owner or his or her agent shall have the right to all of the following:

(1) Receive his or her personal property, at no charge, during normal business hours. Normal business hours are Monday through Friday from 8:00 a.m. to 5:00 p.m., inclusive, except state holidays.

(2) Retrieve his or her vehicle during the first 72 hours of storage and not pay a lien fee.

(3) Request a copy of the Towing Fees and Access Notice.

(4) Be permitted to pay by cash or a valid bank credit card. Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when agreeing with a towing or storage provider on rates.

(d) The Towing Fees and Access Notice shall be a standardized document plainly printed in no less that 10-point type. A person may distribute the form using its own letterhead, but the language of the Towing Fees and Access Notice shall read as follows:

<table>
<thead>
<tr>
<th>Towing Fees and Access Notice</th>
</tr>
</thead>
<tbody>
<tr>
<td>Note: The following information is intended to serve as a general summary of some of the laws that provide vehicle owners certain rights when their vehicle is towed. It is not intended to summarize all of the laws that may be applicable nor is it intended to fully and completely state the entire law in any area listed. Please review the applicable California code for a definitive statement of the law in your particular situation.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>How much can a towing company charge?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rates for public tows and storage are generally established by an agreement between the law enforcement agency requesting the tow and the towing company (to confirm the approved rates, you may contact the law enforcement agency that initiated the tow; additionally, these rates are required to be posted at the storage facility).</td>
</tr>
</tbody>
</table>

| Rates for private property tows and storage cannot exceed the approved rates for the law enforcement agency that has primary jurisdiction for the property from which the vehicle was removed or the towing company’s approved CHP rate. |

<table>
<thead>
<tr>
<th>Where can you complain about a towing company?</th>
</tr>
</thead>
<tbody>
<tr>
<td>For public tows: Contact the law enforcement agency initiating the tow.</td>
</tr>
</tbody>
</table>

Your rights if your vehicle is towed:
Generally, prior to paying any towing and storage-related fees you have the right to:

- Receive an itemized invoice of actual charges.
- Receive your personal property, at no charge, during normal business hours.
- Retrieve your vehicle during the first 72 hours of storage and not pay a lien fee.
- Request a copy of the Towing Fees and Access Notice.
- Pay by cash or valid bank credit card.
- Inspect your vehicle or have your insurance carrier inspect your vehicle at the storage facility, at no charge, during normal business hours.

You have the right to have the vehicle released to you upon (1) payment of all towing and storage-related fees, (2) presentation of a valid photo identification, (3) presentation of reliable documentation showing that you are the owner of the vehicle or that the owner has authorized you to take possession of the vehicle, and (4), if applicable, presentation of any required police or law enforcement release documents.

Prior to your vehicle being repaired:

- You have the right to choose the repair facility and to have no repairs made to your vehicle unless you authorize them in writing.
- Any authorization you sign for towing and any authorization you sign for repair must be on separate forms.

What if I do not pay the towing and storage related fees or abandon my vehicle at the towing company?

Pursuant to Sections 3068.1 to 3074, inclusive, of the Civil Code, a towing company may sell your vehicle and any moneys received will be applied to towing and storage-related fees that have accumulated against your vehicle.

You are responsible for paying the towing company any outstanding balance due on any of these fees once the sale is complete.

Who is liable if my vehicle was damaged during towing or storage?

Generally the owner of a vehicle may recover for any damage to the vehicle resulting from any intentional or negligent act of a person causing the removal of, or removing, the vehicle.

<table>
<thead>
<tr>
<th>What happens if a towing company violates the law?</th>
</tr>
</thead>
<tbody>
<tr>
<td>If a tow company does not satisfactorily meet certain requirements detailed in this notice, you may bring a lawsuit in court, generally in small claims court. The tower may be civilly liable for damages up to two times the amount charged, not to exceed $500, and possibly more for certain violations.</td>
</tr>
</tbody>
</table>

(e) “Itemized invoice,” as used in this section, means a written document that contains the following information. Any document that substantially complies with this subdivision shall be deemed an “itemized invoice” for purposes of this section:

1. The name, address, telephone number, and carrier identification number as required by subdivision (a) of Section 34507.5 of the person that is charging for towing and storage.
2. If ascertainable, the registered owner or operator’s name, address, and telephone number.
3. The date service was initiated.
4. The location of the vehicle at the time service was initiated, including either the address or nearest intersecting roadways.
5. A vehicle description that includes, if ascertainable, the vehicle year, make, model, odometer reading, license plate number, or if a license plate number is unavailable, the vehicle identification number (VIN).
6. The service dispatch time, the service arrival time of the tow truck, and the service completion time.
7. A clear, itemized, and detailed explanation of any additional services that caused the total towing-related service time to exceed one hour between service dispatch time and service completion time.
8. The hourly rate or per item rate used to calculate the total towing and recovery-related fees. These fees shall be listed as separate line items.
9. If subject to storage fees, the daily storage rate and the total number of days stored. The storage fees shall be listed as a separate line item.
10. If subject to a gate fee, the date and time the vehicle was either accessed, for the purposes of returning personal property, or was released after normal business hours. Normal business hours are Monday through Friday from 8:00 a.m. to 5:00 p.m., inclusive, except state holidays. A gate fee shall be listed as a separate line item.
12. If the tow was not requested by the vehicle’s owner or driver, the identity of the person or governmental agency that directed the tow. This paragraph shall not apply to information otherwise required to be redacted under Section 22658.
13. A clear, itemized, and detailed explanation of any additional services or fees.

(f) “Person,” as used in this section, has the same meaning as described in Section 470.
(g) An insurer or insurer's agent shall be permitted to pay for towing and storage charges by bank draft.

(h) A person who violates this section is civilly liable to a registered or legal owner of the vehicle, or a registered owner's insurer, for up to two times the amount charged. For any action brought under this section, liability shall not exceed five hundred dollars ($500) per vehicle.

(i) This section shall not apply to the towing or storage of a repossessed vehicle by any person subject to, or exempt from, the Collateral Recovery Act (Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code).

(j) This section does not relieve a person from the obligation to comply with the provision of any other law.

Added Sec. 2, Ch. 566, Stats. 2010. Effective January 1, 2011.

**Towing or Storage Charges: Payment**

22651.1. Persons operating or in charge of any storage facility where vehicles are stored pursuant to Section 22651 shall accept a valid bank credit card or cash for payment of towing and storage by the registered owner, legal owner, or the owner's agent claiming the vehicle. A credit card shall be in the name of the person presenting the card. “Credit card” means “credit card” as defined in subdivision (a) of Section 1747.02 of the Civil Code, except, for the purposes of this section, credit card does not include a credit card issued by a retail seller. A person operating or in charge of any storage facility who refuses to accept a valid bank credit card shall be liable to the owner of the vehicle or to the person who tendered the fees for four times the amount of the towing and storage charges, but not to exceed five hundred dollars ($500). In addition, persons operating or in charge of the storage facility shall have sufficient funds on the premises to accommodate and make change in a reasonable monetary transaction.

Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when agreeing with a towing or storage provider on rates.

Amended Sec. 9, Ch. 322, Stats. 2009. Effective January 1, 2009.

**Vehicle Removal**

22651.2. (a) Any peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any regularly employed and salaried employee, who is engaged in directing traffic or enforcing parking laws and regulations of a city, county, or jurisdiction of a state agency in which any vehicle, other than a rented vehicle, is located may remove the vehicle from an offstreet public parking facility located within the territorial limits in which the officer or employee may act when the vehicle is known to have been issued five or more notices of parking violation over a period of five or more days, to which the owner or person in control of the vehicle has not responded or when any vehicle is illegally parked so as to prevent the movement of a legally parked vehicle.

A notice of parking violation issued to a vehicle which is registered in a foreign jurisdiction or is without current California registration and is known to have been issued five or more notices of parking violation over a period of five or more days shall be accompanied by a warning that repeated violations may result in the impounding of the vehicle.

(b) The vehicle may be impounded until the owner or person in control of the vehicle furnishes to the impounding law enforcement agency evidence of his or her identity and an address within this state at which he or she can be located and furnishes satisfactory evidence that bail has been deposited for all notices of parking violation issued for the vehicle. In lieu of requiring satisfactory evidence that the bail has been deposited, the impounding law enforcement agency may, in its discretion, issue a notice to appear for the offenses charged, as provided in Article 2 (commencing with Section 40500) of Chapter 2 of Division 17. In lieu of either furnishing satisfactory evidence that the bail has been deposited or accepting the notice to appear, the owner or person in control of the vehicle may demand to be taken without unnecessary delay before a magistrate within the county in which the offenses charged are alleged to have been committed and who has jurisdiction of the offenses and is nearest or most accessible with reference to the place where the vehicle is impounded.

(c) Evidence of current registration shall be produced after a vehicle has been impounded. At the discretion of the impounding law enforcement agency, a notice to appear for violation of subdivision (a) of Section 4000 may be issued to the owner or person in control of the vehicle, if the two days immediately following the day of impoundment are weekend days or holidays.

Amended Sec. 10, Ch. 1142, Stats. 1996. Effective September 30, 1996.
§22651.4  
Foreign Commercial Vehicles: Impoundment

22651.4. (a) A peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may impound a vehicle and its cargo pursuant to Section 34517.

(b) A member of the department may impound a vehicle and its cargo pursuant to Section 34518.

(c) A member of the department may store or impound a vehicle upon determination that the registrant of the vehicle or the driver of the vehicle has failed to pay registration, regulatory, fuel permit, or other fees, or has an outstanding warrant in a county in the state. The impoundment charges are the responsibility of the owner of the vehicle. The stored or impounded vehicle shall be released upon payment of those fees or fines or the posting of bail. The driver or owner of the vehicle may request a hearing to determine the validity of the seizure.

Amended Sec. 6, Ch. 288, Stats. 2006. Effective January 1, 2007.

Additional Circumstances Permitting Removal

22651.5. (a) Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any regularly employed and salaried employee who is engaged in directing traffic or enforcing parking laws or regulations, may, upon the complaint of any person, remove a vehicle parked within 500 feet of any occupied building of a school, community college, or university during normal hours of operation, or a vehicle parked within a residence or business district, from a highway or from public or private property, if an alarm device or horn has not been activated within the vehicle, whether continuously activated or intermittently and repeatedly activated, the peace officer or designated employee is unable to locate the owner of the vehicle within 20 minutes from the time of arrival at the vehicle’s location, and the alarm device or horn has not been completely silenced prior to removal.

(b) Upon removal of a vehicle from a highway or from public or private property pursuant to this section, the peace officer or designated employee ordering the removal shall immediately report the removal and the location to which the vehicle is removed to the Stolen Vehicle System of the Department of Justice.

Vehicle Removal: Speed Contests

22651.6. A peace officer or employee specified in Section 22651 may remove a vehicle located within the territorial limits in which the officer or employee may act when the vehicle was used by a person who was engaged in a motor vehicle speed contest, as described in subdivision (a) of Section 23109, and the person was arrested and taken into custody for the offense of directing traffic or enforcing parking laws and regulations, or a jurisdiction in which a vehicle is located may immobilize the vehicle with a device designed and manufactured for the immobilization of vehicles, on a highway or any public lands located within the territorial limits in which the officer or employee may act if the vehicle is found upon a highway or public lands and it is known to have been issued five or more notices of parking violations that are delinquent because the owner or person in control of the vehicle has not responded to the agency responsible for processing notices of parking violation within 21 calendar days of notice of citation issuance or citation issuance or 14 calendar days of the mailing of a notice of delinquent parking violation, or the registered owner of the vehicle is known to have been issued five or more notices for failure to pay or failure to appear in court for traffic violations for which no certificate has been issued by the magistrate or clerk of the court hearing the case showing that the case has been adjudicated or concerning which the registered owner’s record has not been cleared pursuant to Chapter 6 (commencing with Section 41500) of Division 17. The vehicle may be immobilized until that person furnishes to the immobilizing law enforcement agency all of the following:

(1) Evidence of his or her identity.

(2) An address within this state at which he or she can be located.

(3) Satisfactory evidence that the full amount of parking penalties has been deposited for all notices of parking violation issued for the vehicle and any other vehicle registered to the registered owner of the immobilized vehicle and that bail has been deposited for all traffic violations of the registered owner that have not been cleared. The requirements in this paragraph shall be fully enforced by the immobilizing law enforcement agency on and after the time that the Department of Motor Vehicles is able to provide access to the necessary records. A notice of parking violation issued to the vehicle shall be accompanied by a warning that repeated violations may result in the impounding or immobilization of the vehicle. In lieu of furnishing satisfactory evidence that the full amount of parking penalties or bail, or both, have been deposited that person may demand to be taken without unnecessary delay before a magistrate, for traffic offenses, or a hearing examiner, for parking offenses, within the county in which the offenses charged are alleged to have been committed and who has jurisdiction of the offenses and is nearest or most accessible with reference to the place where the vehicle is immobilized. Evidence of current registration shall be produced after a vehicle has been immobilized or, at the discretion of the immobilizing law enforcement agency, a notice to appear for violation of subdivision (a) of Section 4000 shall be issued to that person.

(b) A person, other than a person authorized under subdivision (a), shall not immobilize a vehicle.

Satisfactory Evidence

22651.8. For purposes of paragraph (1) of subdivision (i) of Section 22651 and Section 22651.7, “satisfactory evidence” includes, but is not limited to, a copy of a receipt issued by the department pursuant to subdivision (a) of Section 4760 for the payment of notices of parking violations appearing on the department’s records at the time of payment. The processing agency shall, within 72 hours of receiving that satisfactory evidence, update its records to reflect the payments made to the department. If the processing agency does not receive the
amount of the parking penalties and administrative fees from the department within four months of the date of issuance of that satisfactory evidence, the processing agency may revise its records to reflect that no payments were received for the notices of parking violation.

Removal of Vehicles for Sale

§22651.9. (a) Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any regularly employed and salaried employee, who is engaged in directing traffic or enforcing parking laws and regulations, of a city, county, or city and county in which a vehicle is located, may remove a vehicle located within the territorial limits in which the officer or employee may act when the vehicle is found upon a street or any public lands, if all of the following requirements are satisfied:

(1) Because of a sign or placard on the vehicle, it appears that the primary purpose of parking the vehicle at that location is to advertise to the public the private sale of that vehicle.

(2) Within the past 30 days, the vehicle is known to have been previously issued a notice of parking violation, under local ordinance, which was accompanied by a notice containing all of the following:

(A) A warning that an additional parking violation may result in the impoundment of the vehicle.

(B) A warning that the vehicle may be impounded pursuant to this section, even if moved to another street, so long as the signs or placards offering the vehicle for sale remain on the vehicle.

(C) A listing of the streets or public lands subject to the resolution or ordinance adopted pursuant to paragraph (4), or if all streets are covered, a statement to that effect.

(3) The notice of parking violation was issued at least 24 hours prior to the removal of the vehicle.

(4) The local authority of the city, county, or city and county has, by resolution or ordinance, authorized the removal of vehicles pursuant to this section from the street or public lands on which the vehicle is located.

(b) Section 22852 applies to the removal of any vehicle pursuant to this section.

Removal from Disabled Persons’ Parking Spaces

§22652. (a) A peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any regularly employed and salaried employee engaged in directing traffic or enforcing parking laws and regulations of a county, city, or city and county of a state agency may remove any vehicle from a stall or space designated for physically disabled persons pursuant to Section 22511.7 or 22511.8, located within the jurisdictional limits in which the officer or employee is authorized to act, if the vehicle is parked in violation of Section 22507.8 and if the peace officer or sheriff’s department or the Department of the California Highway Patrol is notified.

(b) Sections 22511.7 and 22511.8 have been complied with and if the stalls or spaces are clearly signed or marked.

Immunity From Liability

§22652.5. The owner or person in lawful possession of an offstreet parking facility, or any local authority owning or operating an offstreet parking facility, who causes a vehicle to be removed from the parking facility pursuant to Section 22511.8, or any state, city, or county employee, is not civilly liable for the removal if the police or sheriff’s department in whose jurisdiction the offstreet parking facility or the stall or space is located or the Department of the California Highway Patrol has been notified prior to the removal.

Additional Circumstances Permitting Removal

§22652.6. Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any regularly employed and salaried employee engaged in directing traffic or enforcing parking laws and regulations of a county or city, may remove any vehicle parked or standing on the streets or highways or from a stall or space of a privately or publicly owned or operated offstreet parking facility within the jurisdiction of the city or county when the vehicle is in violation of a local ordinance or resolution adopted pursuant to Section 22511.57.

Removal From Private Property

§22653. (a) Any peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, other than an employee directing traffic or enforcing parking laws and regulations, may remove a vehicle from private property located within the territorial limits in which the officer is empowered to act, when a report has previously been made that the vehicle has been stolen or a complaint has been filed and a warrant thereon issued charging that the vehicle has been embezzled.

(b) Any peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may, after a reasonable period of time, remove a vehicle from private property located within the territorial limits in which the officer is empowered to act, if the vehicle has been involved in, and left at the scene of, a traffic accident and no owner is available to grant permission to remove the vehicle. This subdivision does not authorize the removal of a vehicle where the owner has been contacted and has refused to grant permission to remove the vehicle.

(c) Any peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may, at the request of the property owner or person in lawful possession of any private property, remove a vehicle from private property located within the territorial limits in which the officer is empowered to act when an officer arrests any person driving or in control of a vehicle for an alleged offense and the officer is, by this code or other law, required or authorized to take, and does take the person arrested before a magistrate without unnecessary delay.

Authorization for Moving a Vehicle

§22654. (a) Whenever any peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or other employee directing traffic or enforcing parking laws and regulations, finds a vehicle
standing upon a highway, located within the territorial limits in which the officer or employee is empowered to act, in violation of Sections 22500 and 22504, the officer or employee may move the vehicle or require the driver or other person in charge of the vehicle to move it to the nearest available position off the roadway or to the nearest parking location, or may remove and store the vehicle if moving it off the roadway to a parking location is impracticable.

(b) Whenever the officer or employee finds a vehicle standing upon a street, located within the territorial limits in which the officer or employee is empowered to act, in violation of a traffic ordinance enacted by local authorities to prevent flooding of adjacent property, he or she may move the vehicle or require the driver or person in charge of the vehicle to move it to the nearest available location in the vicinity where parking is permitted.

(c) Any state, county, or city authority charged with the maintenance of any highway may move any vehicle which is disabled or abandoned or which constitutes an obstruction to traffic from the place where it is located on a highway to the nearest available position on the same highway as may be necessary to keep the highway open or safe for public travel. In addition, employees of the Department of Transportation may remove any disabled vehicle which constitutes an obstruction to traffic on a freeway from the place where it is located to the nearest available location where parking is permitted; and, if the vehicle is unoccupied, the department shall comply with the notice requirements of subdivision (d).

(d) Any state, county, or city authority charged with the maintenance or operation of any highway, highway facility, or public works facility, in cases necessitating the prompt performance of any work on or service to the highway, highway facility, or public works facility, may move to the nearest available location where parking is permitted, any unattended vehicle which obstructs or interferes with the performance of the work or service or may remove and store the vehicle if moving it off the roadway to a location where parking is permitted would be impracticable. If the vehicle is moved to another location where it is not readily visible from its former parked location or it is stored, the person causing the movement or storage of the vehicle shall immediately, by the most expeditious means, notify the owner of the vehicle of its location. If for any reason the vehicle owner cannot be so notified, the person causing the vehicle to be moved or stored shall immediately, by the most expeditious means, notify the police department of the city in which the vehicle was parked, or, if the vehicle had been parked in an unincorporated area of a county, notify the sheriff's department and nearest office of the California Highway Patrol in that county. No vehicle may be removed and stored pursuant to this subdivision unless signs indicating that no person shall stop, park, or leave standing any vehicle within the areas marked by the signs because the work or service would be done, were placed at least 24 hours prior to the movement or removal and storage.

(e) Whenever any peace officer finds a vehicle parked or standing upon a highway in a manner so as to obstruct necessary emergency services, or the routing of traffic at the scene of a disaster, the officer may move the vehicle or require the driver or other person in charge of the vehicle to move it to the nearest available parking location. If the vehicle is unoccupied, and moving the vehicle to a parking location is impracticable, the officer may store the vehicle pursuant to Sections 22850 and 22852 and subdivision (a) or (b) of Section 22853. If the vehicle so moved or stored was otherwise lawfully parked, no moving or storage charges shall be assessed against or collected from the driver or owner.

**Impounding Vehicle for Investigation**

22655. (a) When any peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code or any regularly employed and salaried employee who is engaged in directing traffic or enforcing parking statutes and regulations, has reasonable cause to believe that a motor vehicle on a highway or on private property open to the general public onto which the public is explicitly or implicitly invited, located within the territorial limits in which the officer is empowered to act, has been involved in a hit-and-run accident, and the operator of the vehicle has failed to stop and comply with Sections 20002 to 20006, inclusive, the officer may remove the vehicle from the highway or from public or private property for the purpose of inspection.

(b) Unless sooner released, the vehicle shall be released upon the expiration of 48 hours after the removal from the highway or private property upon demand of the owner. When determining the 48-hour period, weekends, and holidays shall not be included.

(c) Notwithstanding subdivision (b), when a motor vehicle to be inspected pursuant to subdivision (a) is a commercial vehicle, any cargo within the vehicle may be removed or transferred to another vehicle.

This section shall not be construed to authorize the removal of any vehicle from an enclosed structure on private property that is not open to the general public.

**Removal for Investigation**

22655.3. Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, pursuing a fleeing or evading person in a motor vehicle may remove and store, or cause to be removed and stored, any vehicle used in violation of Section 2800.1 or 2800.2 from property other than that of the registered owner of the vehicle for the purposes of investigation, identification, or apprehension of the driver if the driver of the vehicle abandons the vehicle and leaves it unattended. All towing and storage fees for a vehicle removed under this section shall be paid by the owner, unless the vehicle was stolen or taken without permission.

No vehicle shall be impounded under this section if the driver is arrested before arrival of the towing equipment or if the registered owner is in the vehicle.

As used in this section, “remove and store a vehicle” means that the peace officer may cause the removal of a vehicle to, and storage of a vehicle in, a private lot where the vehicle may be secured by the owner of the facility or by the owner’s representative.

This section is not intended to change current statute and case law governing searches and seizures.
Impounding for Evidence: Lien: Charges

22655.5. A peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may remove a motor vehicle from the highway or from public or private property within the territorial limits in which the officer may act under the following circumstances:

(a) When any vehicle is found upon a highway or public or private property and a peace officer has probable cause to believe that the vehicle was used as the means of committing a public offense.

(b) When any vehicle is found upon a highway or public or private property and a peace officer has probable cause to believe that the vehicle is itself evidence which tends to show that a crime has been committed or that the vehicle contains evidence, which cannot readily be removed, which tends to show that a crime has been committed.

(c) Notwithstanding Section 3068 of the Civil Code or Section 22851 of this code, no lien shall attach to a vehicle removed under this section unless the vehicle was used by the alleged perpetrator of the crime with the express or implied permission of the owner of the vehicle.

(d) In any prosecution of the crime for which a vehicle was impounded pursuant to this section, the prosecutor may request, and the court may order, the perpetrator of the crime, if convicted, to pay the costs of towing and storage of the vehicle, and any administrative charges imposed pursuant to Section 22850.5.

(e) This section shall become operative on January 1, 1993. Amended Sec. 12, Ch. 1142, Stats. 1996. Effective September 30, 1996.

Removal from Railroad Right-of-Way

22656. Any peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may remove a vehicle from the right-of-way of a railroad, street railway, or light rail line located within the territorial limits in which the officer is empowered to act if the vehicle is parked or abandoned upon any track or within 71/2 feet of the nearest rail. The officer may also remove a vehicle that is parked beyond 7 1/2 feet of the nearest rail but within the right-of-way of a railroad, street railway, or light rail if signs are posted giving notice that vehicles may be removed.

Removal From Private Property

22658. (a) The owner or person in lawful possession of private property, including an association of a common interest development as defined in Section 1351 of the Civil Code, may cause the removal of a vehicle parked on the property to a storage facility that meets the requirements of subdivision (n) under any of the following circumstances:

(1) There is displayed, in plain view at all entrances to the property, a sign not less than 17 inches by 22 inches in size, with lettering not less than one inch in height, prohibiting public parking and indicating that vehicles will be removed at the owner’s expense, and containing the telephone number of the local traffic law enforcement agency and the name and telephone number of each towing company that is a party to a written general towing authorization agreement with the owner or person in lawful possession of the property. The sign may also indicate that a citation may also be issued for the violation.

(2) The vehicle has been issued a notice of parking violation, and 96 hours have elapsed since the issuance of that notice.

(3) The vehicle is on private property and lacks an engine, transmission, wheels, tires, windshield, or any other major part or equipment necessary to operate safely on the highways, the owner or person in lawful possession of the private property has notified the local traffic law enforcement agency, and 24 hours have elapsed since that notification.

(4) The lot or parcel upon which the vehicle is parked is improved with a single-family dwelling.

(b) The tow truck operator removing the vehicle, if the operator knows or is able to ascertain from the property owner, person in lawful possession of the property, or the registration records of the Department of Motor Vehicles the name and address of the registered and legal owner of the vehicle, shall immediately give, or cause to be given, notice in writing to the registered and legal owner of the fact of the removal, the grounds for the removal, and indicate the place to which the vehicle has been removed. If the vehicle is stored in a storage facility, a copy of the notice shall be given to the proprietor of the storage facility. The notice provided for in this section shall include the amount of mileage on the vehicle at the time of removal and the time of the removal from the property. If the tow truck operator does not know and is not able to ascertain the name of the owner or for any other reason is unable to give the notice to the owner as provided in this section, the tow truck operator shall comply with the requirements of subdivision (c) of Section 22853 relating to notice in the same manner as applicable to an officer removing a vehicle from private property.

(c) This section does not limit or affect any right or remedy that the owner or person in lawful possession of private property may have by virtue of other provisions of law authorizing the removal of a vehicle parked upon private property.

(d) The owner of a vehicle removed from private property pursuant to subdivision (a) may recover for any damage to the vehicle resulting from any intentional or negligent act of a person causing the removal of, or removing, the vehicle.

(e) (1) An owner or person in lawful possession of private property, or an association of a common interest development, causing the removal of a vehicle parked on that property is liable for double the storage or towing charges whenever there has been a failure to comply with paragraph (1), (2), or (3) of subdivision (a) or to state the grounds for the removal of the vehicle if requested by the legal or registered owner of the vehicle as required by subdivision (f).

(2) A property owner or owner’s agent or lessee who causes the removal of a vehicle parked on that property pursuant to the exemption set forth in subparagraph (A) paragraph (1) of subdivision (f) and fails to comply with that subdivision is guilty of an infraction, punishable by a fine of one thousand dollars ($1,000).

(f) An owner or person in lawful possession of private property, or an association of a common interest development, causing the removal of a vehicle parked on that property shall notify by telephone or, if impractical, by the most expeditious means available, the local traffic law enforcement agency within one hour after authorizing the tow. An owner or person in lawful possession of private property, an association of a
common interest development, causing the removal of a vehicle parked on that property, or the tow truck operator who removes the vehicle, shall state the grounds for the removal of the vehicle if requested by the legal or registered owner of that vehicle. A towing company that removes a vehicle from private property in compliance with subdivision (1) is not responsible in a situation relating to the validity of the removal. A towing company that removes the vehicle under this section shall be responsible for the following:

(1) Damage to the vehicle in the transit and subsequent storage of the vehicle.

(2) The removal of a vehicle other than the vehicle specified by the owner or other person in lawful possession of the private property.

(g) (1) A Possession of a vehicle under this section shall be deemed to arise when a vehicle is removed from private property and is in transit.

(B) Upon the request of the owner of the vehicle or that owner's agent, the towing company or its driver shall immediately and unconditionally release a vehicle that is not yet removed from the private property and in transit.

(C) A Person failing to comply with subparagraph (B) is guilty of a misdemeanor.

(2) If a vehicle is released to a person in compliance with subparagraph (B) of paragraph (1), the vehicle owner or authorized agent shall immediately move that vehicle to a lawful location.

(h) A towing company may impose a charge of not more than one-half of the regular towing charge for the towing of a vehicle at the request of the owner, the owner's agent, or the person in lawful possession of the private property pursuant to this section if the owner of the vehicle or the vehicle owner's agent returns to the vehicle after the vehicle is coupled to the tow truck by means of a regular hitch, coupling device, drawbar, portable dolly, or is lifted off the ground by means of a conventional trailer, and before it is removed from the private property. The regular towing charge may only be imposed after the vehicle has been removed from the property and is in transit.

(i) (1) A A charge for towing or storage, or both, of a vehicle under this section is excessive if the charge exceeds the greater of the following:

(ii) That which would have been charged for that towing or storage, or both, made at the request of a law enforcement agency under an agreement between a towing company and the law enforcement agency that exercises primary jurisdiction in the city in which is located the private property from which the vehicle was, or was attempted to be, removed, or if the private property is not located within a city, then the law enforcement agency that exercises primary jurisdiction in the county in which the private property is located.

(ii) That which would have been charged for that towing or storage, or both, under the rate approved for that towing operator by the California Highway Patrol for the jurisdiction in which the private property is located and from which the vehicle was, or was attempted to be, removed.

(B) A towing operator shall make available for inspection and copying his or her rate approved by the California Highway Patrol, if any, within 24 hours of a request without a warrant to law enforcement, the Attorney General, district attorney, or city attorney.

(2) If a vehicle is released within 24 hours from the time the vehicle is brought into the storage facility, regardless of the calendar date, the storage charge shall be for only one day. Not more than one day’s storage charge may be required for a vehicle released the same day that it is stored.

(3) If a request to release a vehicle is made and the appropriate fees are tendered and documentation establishing that the person requesting release is entitled to possession of the vehicle, or is the owner’s insurance representative, is presented within the initial 24 hours of storage, and the storage facility fails to comply with the request to release the vehicle or is not open for business during normal business hours, then only one day’s storage charge may be required to be paid until after the first business day. A business day is any day in which the lienholder is open for business to the public for at least eight hours. If a request is made more than 24 hours after the vehicle is placed in storage, charges may be imposed on a full calendar day basis for each day, or part thereof, that the vehicle is in storage.

(j) (1) A A person who charges a vehicle owner a towing, service, or storage charge at an excessive rate, as described in subdivision (h) or (i), is civilly liable to the vehicle owner for four times the amount charged.

(2) A A person who knowingly charges a vehicle owner a towing, service, or storage charge at an excessive rate, as described in subdivision (h) or (i), or who fails to make available his or her rate as required in subparagraph (B) of paragraph (1) of subdivision (i), is guilty of a misdemeanor, punishable by a fine of not more than two thousand five hundred dollars ($2,500), or by imprisonment in the county jail for not more than three months, or by both that fine and imprisonment.

(k) (1) A person operating or in charge of a storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing and storage by a registered owner, the legal owner, or the owner’s agent claiming the vehicle. A credit card shall be in the name of the person presenting the card. “Credit card” means “credit card” as defined in subdivision (a) of Section 1747.02 of the Civil Code, except, for the purposes of this section, credit card does not include a credit card issued by a retail seller.

(2) A person described in paragraph (1) shall conspicuously display, in that portion of the storage facility office where business is conducted with the public, a notice advising that all valid credit cards and cash are acceptable means of payment.

(3) A person operating or in charge of a storage facility who refuses to accept a valid credit card or who fails to post the required notice under paragraph (2) is guilty of a misdemeanor, punishable by a fine of not more than two thousand five hundred dollars ($2,500), or by imprisonment in the county jail for not more than three months, or by both that fine and imprisonment.

(4) A person described in paragraph (1) who violates paragraph (1) or (2) is civilly liable to the registered owner of the vehicle or the person who tendered the fees for four times the amount of the towing and storage charges.

(5) A person operating or in charge of the storage facility shall have sufficient moneys on the premises of the primary
storage facility during normal business hours to accommodate, and make change in, a reasonable monetary transaction.

(6) Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies as described in subdivision (i).

(i) (1) (A) A towing company shall not remove or commence the removal of a vehicle from private property without first obtaining the written authorization from the property owner or lessee, including an association of a common interest development, or an employee or agent thereof, who shall be present at the time of removal and verify the alleged violation, except that presence and verification is not required if the person authorizing the tow is the property owner, or the owner’s agent who is not a tow operator, of a residential rental property of 15 or fewer units that does not have an onsite owner, owner’s agent or employee, and the tenant has verified the violation, requested the tow from that tenant’s assigned parking space, and provided a signed request or electronic mail, or has called and provided a signed request or electronic mail within 24 hours, to the property owner or owner’s agent, which the owner or agent shall provide to the towing company within 48 hours of authorizing the tow. The signed request or electronic mail shall contain the name and address of the tenant, and the date and time the tenant requested the tow. A towing company shall obtain, within 48 hours of receiving the written authorization to tow, a copy of a tenant request required pursuant to this subparagraph. For the purpose of this subparagraph, a person providing the written authorization who is required to be present on the private property at the time of the tow does not have to be physically present at the specified location of where the vehicle to be removed is located on the private property.

(B) The written authorization under subparagraph (A) shall include all of the following:

(i) The make, model, vehicle identification number, and license plate number of the removed vehicle.

(ii) The name, signature, job title, residential or business address and working telephone number of the person, described in subparagraph (A), authorizing the removal of the vehicle.

(iii) The grounds for the removal of the vehicle.

(iv) The time when the vehicle was first observed parked at the private property.

(v) The time that authorization to tow the vehicle was given.

(C) (i) When the vehicle owner or his or her agent claims the vehicle, the towing company prior to payment of a towing or storage charge shall provide a photocopy of the written authorization to the vehicle owner or the agent.

(ii) If the vehicle was towed from a residential property, the towing company shall redact the information specified in clause (ii) of subparagraph (B) in the photocopy of the written authorization provided to the vehicle owner or the agent pursuant to clause (i).

(iii) The towing company shall also provide to the vehicle owner or the agent a separate notice that provides the telephone number of the appropriate local law enforcement or prosecuting agency by stating "If you believe that you have been wrongfully towed, please contact the local law enforcement or prosecuting agency at [insert appropriate telephone number]." The notice shall be in English and in the most populous language, other than English, that is spoken in the jurisdiction.

(D) A towing company shall not remove or commence the removal of a vehicle from private property described in subdivision (a) of Section 22953 unless the towing company has made a good faith inquiry to determine that the owner or the property owner’s agent complied with Section 22953.

(E) (i) General authorization to remove or commence removal of a vehicle at the towing company’s discretion shall not be delegated to a towing company or its affiliates except in the case of a vehicle unlawfully parked within 15 feet of a fire hydrant or in a fire lane, or in a manner which interferes with an entrance to, or exit from, the private property.

(ii) In those cases in which general authorization is granted to a towing company or its affiliate to undertake the removal or commence the removal of a vehicle that is unlawfully parked within 15 feet of a fire hydrant or in a fire lane, or that interferes with an entrance to, or exit from, the private property, the towing company and the property owner, or owner’s agent, or person in lawful possession of the private property shall have a written agreement granting that general authorization.

(2) If a towing company removes a vehicle under a general authorization described in subparagraph (E) of paragraph (1) and that vehicle is unlawfully parked within 15 feet of a fire hydrant or in a fire lane, or in a manner that interferes with an entrance to, or exit from, the private property, the towing company shall take, prior to the removal of that vehicle, a photograph of the vehicle that clearly indicates that parking violation. Prior to accepting payment, the towing company shall keep one copy of the photograph taken pursuant to this paragraph, and shall present that photograph and provide, without charge, a photocopy to the owner or an agent of the owner, when that person claims the vehicle.

(3) A towing company shall maintain the original written authorization, or the general authorization described in subparagraph (E) of paragraph (1) and the photograph of the violation, required pursuant to this section, and any written requests from a tenant to the property owner or owner’s agent required by subparagraph (A) of paragraph (1), for a period of three years and shall make them available for inspection and copying within 24 hours of a request without a warrant to law enforcement, the Attorney General, district attorney, or city attorney.

(4) A person who violates this subdivision is guilty of a misdemeanor, punishable by a fine of not more than two thousand five hundred dollars ($2,500), or by imprisonment in the county jail for not more than three months, or by both that fine and imprisonment.

(5) A person who violates this subdivision is civilly liable to the owner of the vehicle or his or her agent for four times the amount of the towing and storage charges.

(m) (1) A towing company that removes a vehicle from private property under this section shall notify the local law enforcement agency of that tow after the vehicle is removed from the private property and is in transit.

(2) A towing company is guilty of a misdemeanor if the towing company fails to provide the notification required under paragraph (1) within 60 minutes after the vehicle is
removed from the private property and is in transit or 15 minutes after arriving at the storage facility, whichever time is less.

(3) A towing company that does not provide the notification under paragraph (1) within 30 minutes after the vehicle is removed from the private property and is in transit is civilly liable to the registered owner of the vehicle, or the person who tenders the fees, for three times the amount of the towing and storage charges.

(4) If notification is impracticable, the times for notification, as required pursuant to paragraphs (2) and (3), shall be tolled for the time period that notification is impracticable. This paragraph is an affirmative defense.

(n) A vehicle removed from private property pursuant to this section shall be stored in a facility that meets all of the following requirements:

(1) (A) Is located within a 10-mile radius of the property from where the vehicle was removed.

(B) The 10-mile radius requirement of subparagraph (A) does not apply if a towing company has prior general written approval from the law enforcement agency that exercises primary jurisdiction in the city in which is located the private property from which the vehicle was removed, or if the private property is not located within a city, then the law enforcement agency that exercises primary jurisdiction in the county in which is located the private property.

(2) (A) Remains open during normal business hours and releases vehicles after normal business hours.

(B) A gate fee may be charged for releasing a vehicle after normal business hours, weekends, and state holidays. However, the maximum hourly charge for releasing a vehicle after normal business hours shall be one-half of the hourly tow rate charged for initially towing the vehicle, or less.

(C) Notwithstanding any other provision of law and for purposes of this paragraph, “normal business hours” are Monday to Friday, inclusive, from 8 a.m. to 5 p.m., inclusive, except state holidays.

(3) Has a public pay telephone in the office area that is open and accessible to the public.

(o) (1) It is the intent of the Legislature in the adoption of subdivision (k) to assist vehicle owners or their agents by, among other things, allowing payment by credit cards for towing and storage services, thereby expediting the recovery of towed vehicles and concurrently promoting the safety and welfare of the public.

(2) It is the intent of the Legislature in the adoption of subdivision (l) to further the safety of the general public by ensuring that a private property owner or lessee has provided his or her authorization for the removal of a vehicle from his or her property, thereby promoting the safety of those persons involved in ordering the removal of the vehicle as well as those persons removing, towing, and storing the vehicle.

(3) It is the intent of the Legislature in the adoption of subdivision (g) to promote the safety of the general public by requiring towing companies to unconditionally release a vehicle that is not lawfully in their possession, thereby avoiding the likelihood of dangerous and violent confrontation and physical injury to vehicle owners and towing operators, the stranding of vehicle owners and their passengers at a dangerous time and location, and impeding expedited vehicle recovery, without wasting law enforcement's limited resources.

(p) The remedies, sanctions, restrictions, and procedures provided in this section are not exclusive and are in addition to other remedies, sanctions, restrictions, or procedures that may be provided in other provisions of law, including, but not limited to, those that are provided in Sections 12110 and 34660.

(q) A vehicle removed and stored pursuant to this section shall be released by the law enforcement agency, impounding agency, or person in possession of the vehicle, or any person acting on behalf of them, to the legal owner or the legal owner’s agent upon presentation of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of repossession for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. Any documents presented may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The storage facility shall not require any documents to be notarized. The storage facility may require the agent of the legal owner to produce a photocopy or facsimile copy of its repossession agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or to demonstrate, to the satisfaction of the storage facility, that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

22658. (a) The owner or person in lawful possession of private property, including an association of a common interest development as defined in Sections 4080 and 4100 or Sections 6528 and 6534 of the Civil Code, may cause the removal of a vehicle parked on the property to a storage facility that meets the requirements of subdivision (n) under any of the following circumstances:

(1) There is displayed, in plain view at all entrances to the property, a sign not less than 17 inches by 22 inches in size, with lettering not less than one inch in height, prohibiting public parking and indicating that vehicles will be removed at the owner’s expense, and containing the telephone number of the local traffic law enforcement agency and the name and telephone number of each towing company that is a party to a written general towing authorization agreement with the owner or person in lawful possession of the property. The sign may also indicate that a citation may also be issued for the violation.

(2) The vehicle has been issued a notice of parking violation, and 96 hours have elapsed since the issuance of that notice.

(3) The vehicle is on private property and lacks an engine, transmission, wheels, tires, doors, windshield, or any other major part or equipment necessary to operate safely on the highways, the owner or person in lawful possession of the private property has notified the local traffic law enforcement agency, and 24 hours have elapsed since that notification.
(4) The lot or parcel upon which the vehicle is parked is improved with a single-family dwelling.

(b) The tow truck operator removing the vehicle, if the operator knows or is able to ascertain from the property owner, person in lawful possession of the property, or the registration records of the Department of Motor Vehicles the name and address of the registered and legal owner of the vehicle, shall immediately give, or cause to be given, notice in writing to the registered and legal owner of the fact of the removal, the grounds for the removal, and indicate the place to which the vehicle has been removed. If the vehicle is stored in a storage facility, a copy of the notice shall be given to the proprietor of the storage facility. The notice provided for in this section shall include the amount of mileage on the vehicle at the time of removal and the time of the removal from the property. If the tow truck operator does not know and is not able to ascertain the name of the owner or for any other reason is unable to give the notice to the owner as provided in this section, the tow truck operator shall comply with the requirements of subdivision (c) of Section 22853 relating to notice in the same manner as applicable to an officer removing a vehicle from private property.

(c) This section does not limit or affect any right or remedy that the owner or person in lawful possession of private property may have by virtue of other provisions of law authorizing the removal of a vehicle parked upon private property.

(d) The owner of a vehicle removed from private property pursuant to subdivision (a) may recover for any damage to the vehicle resulting from any intentional or negligent act of a person causing the removal of, or removing, the vehicle.

(e) (1) An owner or person in lawful possession of private property, or an association of a common interest development, causing the removal of a vehicle parked on that property is liable for double the storage or towing charges whenever there has been a failure to comply with paragraph (1), (2), or (3) of subdivision (a) or to state the grounds for the removal of the vehicle if requested by the legal or registered owner of the vehicle as required by subdivision (f).

(2) A property owner or owner’s agent or lessee who causes the removal of a vehicle parked on that property pursuant to the exemption set forth in subparagraph (A) of paragraph (1), of subdivision (f) and fails to comply with that subdivision is guilty of an infraction, punishable by a fine of one thousand dollars ($1,000).

(f) An owner or person in lawful possession of private property, or an association of a common interest development, causing the removal of a vehicle parked on that property shall notify by telephone or, if impractical, by the most expeditious means available, the local traffic law enforcement agency within one hour after authorizing the tow. An owner or person in lawful possession of private property, an association of a common interest development, causing the removal of a vehicle parked on that property, or the tow truck operator who removes the vehicle, shall state the grounds for the removal of the vehicle if requested by the legal or registered owner of that vehicle. A towing company that removes a vehicle from private property in compliance with subdivision (f) is not responsible in a situation relating to the validity of the removal. A towing company that removes the vehicle under this section shall be responsible for the following:

(1) Damage to the vehicle in the transit and subsequent storage of the vehicle.

(2) The removal of a vehicle other than the vehicle specified by the owner or other person in lawful possession of the private property.

(g) (1) (A) Possession of a vehicle under this section shall be deemed to arise when a vehicle is removed from private property and is in transit.

(B) Upon the request of the owner of the vehicle or that owner’s agent, the towing company or its driver shall immediately and unconditionally release a vehicle that is not yet removed from the private property and in transit.

(C) A person failing to comply with subparagraph (B) is guilty of a misdemeanor.

(2) If a vehicle is released to a person in compliance with subparagraph (B) of paragraph (1), the vehicle owner or authorized agent shall immediately move that vehicle to a lawful location.

(h) A towing company may impose a charge of not more than one-half of the regular towing charge for the towing of a vehicle at the request of the owner, the owner’s agent, or the person in lawful possession of the private property pursuant to this section if the owner of the vehicle or the vehicle owner’s agent returns to the vehicle after the vehicle is coupled to the tow truck by means of a regular hitch, coupling device, drawbar, portable dolly, or is lifted off the ground by means of a conventional trailer, and before it is removed from the private property. The regular towing charge may only be imposed after the vehicle has been removed from the property and is in transit.

(i) (1) (A) A charge for towing or storage, or both, of a vehicle under this section is excessive if the charge exceeds the greater of the following:

(i) That which would have been charged for that towing or storage, or both, made at the request of a law enforcement agency under an agreement between a towing company and the law enforcement agency that exercises primary jurisdiction in the city in which is located the vehicle property from which the vehicle was, or was attempted to be, removed, or if the private property is not located within a city, then the law enforcement agency that exercises primary jurisdiction in the county in which the private property is located.

(ii) That which would have been charged for that towing or storage, or both, under the rate approved for that towing operator by the Department of the California Highway Patrol for the jurisdiction in which the private property is located and from which the vehicle was, or was attempted to be, removed.

(B) A towing operator shall make available for inspection and copying his or her rate approved by the Department of the California Highway Patrol, if any, within 24 hours of a request without a warrant to law enforcement, the Attorney General, district attorney, or city attorney.

(2) If a vehicle is released within 24 hours from the time the vehicle is brought into the storage facility, regardless of the calendar date, the storage charge shall be for only one day. Not more than one day’s storage charge may be required for a vehicle released the same day that it is stored.
(3) If a request to release a vehicle is made and the appropriate fees are tendered and documentation establishing that the person requesting release is entitled to possession of the vehicle, or is the owner’s insurance representative, is presented within the initial 24 hours of storage, and the storage facility fails to comply with the request to release the vehicle or is not open for business during normal business hours, then only one day’s storage charge may be required to be paid until after the first business day. A business day is any day in which the lienholder is open for business to the public for at least eight hours. If a request is made more than 24 hours after the vehicle is placed in storage, charges may be imposed on a full calendar day basis for each day, or part thereof, that the vehicle is in storage.

(i) (1) A person who charges a vehicle owner a towing, service, or storage charge at an excessive rate, as described in subdivision (h) or (i), is civilly liable to the vehicle owner for four times the amount charged.

(2) A person who knowingly charges a vehicle owner a towing, service, or storage charge at an excessive rate, as described in subdivision (h) or (i), or who fails to make available his or her rate as required in subparagraph (B) of paragraph (1) of subdivision (i), is guilty of a misdemeanor, punishable by a fine of not more than two thousand five hundred dollars ($2,500), or by imprisonment in a county jail for not more than three months, or by both that fine and imprisonment.

(k) (1) A person operating or in charge of a storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing and storage by a registered owner, the legal owner, or the owner’s agent claiming the vehicle. A credit card shall be in the name of the person presenting the card. “Credit card” means “credit card” as defined in subdivision (a) of Section 1747.02 of the Civil Code, except, for the purposes of this section, credit card does not include a credit card issued by a retail seller.

(2) A person described in paragraph (1) shall conspicuously display, in that portion of the storage facility office where business is conducted with the public, a notice advising that all valid credit cards and cash are acceptable means of payment.

(3) A person operating or in charge of a storage facility who refuses to accept a valid credit card or who fails to post the required notice under paragraph (2) is guilty of a misdemeanor, punishable by a fine of not more than two thousand five hundred dollars ($2,500), or by imprisonment in a county jail for not more than three months, or by both that fine and imprisonment.

(4) A person described in paragraph (1) who violates paragraph (1) or (2) is civilly liable to the registered owner of the vehicle or the person who tendered the fees for four times the amount of the towing and storage charges.

(5) A person operating or in charge of the storage facility shall have sufficient moneys on the premises of the primary storage facility during normal business hours to accommodate, and make change in, a reasonable monetary transaction.

(6) Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies as described in subdivision (i).

(l) (1) A towing company shall not remove or commence the removal of a vehicle from private property without first obtaining the written authorization from the property owner or lessee, including an association of a common interest development, or an employee or agent thereof, who shall be present at the time of removal and verify the alleged violation, except that presence and verification is not required if the person authorizing the tow is the property owner, or the owner’s agent who is not a tow operator, of a residential rental property of 15 or fewer units that does not have an onsite owner, owner’s agent or employee, and the tenant has verified the violation, requested the tow from that tenant’s assigned parking space, and provided a signed request or electronic mail, or has called and provides a signed request or electronic mail within 24 hours, to the property owner or owner’s agent, which the owner or agent shall provide to the towing company within 48 hours of authorizing the tow. The signed request or electronic mail shall contain the name and address of the tenant, and the date and time the tenant requested the tow. A towing company shall obtain, within 48 hours of receiving the written authorization to tow, a copy of a tenant request required pursuant to this subparagraph. For the purpose of this subparagraph, a person providing the written authorization who is required to be present on the private property at the time of the tow does not have to be physically present at the specified location of where the vehicle to be removed is located on the private property.

(B) The written authorization under subparagraph (A) shall include all of the following:

(i) The make, model, vehicle identification number, and license plate number of the removed vehicle.

(ii) The name, signature, job title, residential or business address, and working telephone number of the person, described in subparagraph (A), authorizing the removal of the vehicle.

(iii) The grounds for the removal of the vehicle.

(iv) The time when the vehicle was first observed parked at the private property.

(v) The time that authorization to tow the vehicle was given.

(C) (i) When the vehicle owner or his or her agent claims the vehicle, the towing company prior to payment of a towing or storage charge shall provide a photocopy of the written authorization to the vehicle owner or the agent.

(ii) If the vehicle was towed from a residential property, the towing company shall redact the information specified in clause (ii) of subparagraph (B) in the photocopy of the written authorization provided to the vehicle owner or the agent pursuant to clause (i).

(iii) The towing company shall also provide to the vehicle owner or the agent a separate notice that provides the telephone number of the appropriate local law enforcement or prosecuting agency by stating “If you believe that you have been wrongfully towed, please contact the local law enforcement or prosecuting agency at [insert appropriate telephone number].” The notice shall be in English and in the most populous language, other than English, that is spoken in the jurisdiction.

(D) A towing company shall not remove or commence the removal of a vehicle from private property described in subdivision (a) of Section 22953 unless the towing company
has made a good faith inquiry to determine that the owner or
the property owner’s agent complied with Section 22953.

(E) (i) General authorization to remove or commence
removal of a vehicle at the towing company’s discretion shall
not be delegated to a towing company or its affiliates except in
the case of a vehicle unlawfully parked within 15 feet of a fire
hydrant or in a fire lane, or in a manner which interferes with
an entrance to, or exit from, the private property.

(ii) In those cases in which general authorization is granted
to a towing company or its affiliate to undertake the removal
or commence the removal of a vehicle that is unlawfully parked
within 15 feet of a fire hydrant or in a fire lane, or that interferes
with an entrance to, or exit from, the private property, the towing
company and the property owner, or owner’s agent, or person
in lawful possession of the private property shall have a
written agreement granting that general authorization.

(2) If a towing company removes a vehicle under a general
authorization described in subparagraph (E) of paragraph (1)
and that vehicle is unlawfully parked within 15 feet of a fire
hydrant or in a fire lane, or in a manner that interferes with an
entrance to, or exit from, the private property, the towing
company shall take, prior to the removal of that vehicle, a
photograph of the vehicle that clearly indicates that parking
violation. Prior to accepting payment, the towing company
shall keep one copy of the photograph taken pursuant to this
paragraph, and shall present that photograph and provide,
without charge, a photocopy to the owner or an agent of the
owner, when that person claims the vehicle.

(3) A towing company shall maintain the original written
authorization, or the general authorization described in
subparagraph (E) of paragraph (1) and the photograph of the violation, required pursuant to this section, and any written
requests from a tenant to the property owner or owner’s agent
required by subparagraph (A) of paragraph (1), for a period of
three years and shall make them available for inspection and
copying within 24 hours of a request without a warrant to law
enforcement, the Attorney General, district attorney, or city
attorney.

(4) A person who violates this subdivision is guilty of a
misdemeanor, punishable by a fine of not more than two
thousand five hundred dollars ($2,500), or by imprisonment in
a county jail for not more than three months, or by both that
fine and imprisonment.

(5) A person who violates this subdivision is civilly liable to
the owner of the vehicle or his or her agent for four times the
amount of the towing and storage charges.

(m) (1) A towing company that removes a vehicle from
private property under this section shall notify the local law
enforcement agency of that tow after the vehicle is removed
from the private property and is in transit.

(2) A towing company is guilty of a misdemeanor if the
towing company fails to provide the notification required
under paragraph (1) within 60 minutes after the vehicle is
removed from the private property and is in transit or 15
minutes after arriving at the storage facility, whichever time
is less.

(3) A towing company that does not provide the notification
under paragraph (1) within 30 minutes after the vehicle is
removed from the private property and is in transit is civilly
liable to the registered owner of the vehicle, or the person who

(4) If notification is impracticable, the times for notification,
as required pursuant to paragraphs (2) and (3), shall be tolled
for the time period that notification is impracticable. This
paragraph is an affirmative defense.

(n) A vehicle removed from private property pursuant to
this section shall be stored in a facility that meets all of the
following requirements:

(1) (A) Is located within a 10-mile radius of the property
from where the vehicle was removed.

(B) The 10-mile radius requirement of subparagraph (A)
does not apply if a towing company has prior general written
approval from the law enforcement agency that exercises
primary jurisdiction in the county in which is located the private
property from which the vehicle was removed, or if the private
property is not located within a city, then the law enforcement
agency that exercises primary jurisdiction in the county in
which is located the private property.

(2) (A) Remains open during normal business hours and
releases vehicles after normal business hours.

(B) A gate fee may be charged for releasing a vehicle after
normal business hours, weekends, and state holidays.
However, the maximum hourly charge for releasing a vehicle
after normal business hours shall be one-half of the hourly tow
rate charged for initially towing the vehicle, or less.

(C) Notwithstanding any other provision of law and for
purposes of this paragraph, “normal business hours” are
Monday to Friday, inclusive, from 8 a.m. to 5 p.m., inclusive,
except state holidays.

(3) Has a public pay telephone in the office area that is open
and accessible to the public.

(o) (1) It is the intent of the Legislature in the adoption of
subdivision (k) to assist vehicle owners or their agents by,
among other things, allowing payment by credit cards for
towing and storage services, thereby expediting the recovery
of towed vehicles and concurrently promoting the safety and
welfare of the public.

(2) It is the intent of the Legislature in the adoption of
subdivision (l) to further the safety of the general public by
ensuring that a private property owner or lessee has provided
his or her authorization for the removal of a vehicle from his or
her property, thereby promoting the safety of those persons
involved in ordering the removal of the vehicle as well as those
persons removing, towing, and storing the vehicle.

(3) It is the intent of the Legislature in the adoption of
subdivision (g) to promote the safety of the general public by
requiring towing companies to unconditionally release a
vehicle that is not lawfully in their possession, thereby avoiding
the likelihood of dangerous and violent confrontation and
physical injury to vehicle owners and towing operators, the
stranding of vehicle owners and their passengers at a
dangerous time and location, and impeding expedited vehicle
recovery, without wasting law enforcement’s limited resources.

(p) The remedies, sanctions, restrictions, and procedures
provided in this section are not exclusive and are in addition to
other remedies, sanctions, restrictions, or procedures that
may be provided in other provisions of law, including, but not
limited to, those that are provided in Sections 12110 and
34660.
(q) A vehicle removed and stored pursuant to this section shall be released by the law enforcement agency, impounding agency, or person in possession of the vehicle, or any person acting on behalf of them, to the legal owner or the legal owner’s agent upon presentation of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of repossession for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. Any documents presented may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The storage facility shall not require any documents to be notarized. The storage facility may require the agent of the legal owner to produce a photocopy or facsimile copy of its repossession agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or to demonstrate, to the satisfaction of the storage facility, that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

Amended Sec. 52, Ch. 605, Stats. 2013. Effective January 1, 2014.

Notification: Damage to Fences

22658.1. (a) Any towing company that, in removing a vehicle, cuts, removes, otherwise damages, or leaves open a fence in a public place, or on the property of the damage or open condition of the fence, the name and address of the towing company, and the license, registration, or identification number of the vehicle being removed.

(2) Leave in a conspicuous place on the property the name and address of the towing company, and the license, registration, or identification number of the vehicle being removed, and shall without unnecessary delay, notify the police department of the city in which the property is located, if the property is located in unincorporated territory, either the sheriff or the local headquarters of the Department of the California Highway Patrol, of that information and the location of the damaged or opened fence.

(b) Any person failing to comply with all the requirements of this section is guilty of an infraction.

Amended Sec. 68, Ch. 834, Stats. 2001. Effective January 1, 2002.

Removal From State Property

22659. Any peace officer of the Department of the California Highway Patrol or any person duly authorized by the state agency in possession of property owned by the state, or rented or leased from others by the state and any peace officer of the Department of the California Highway Patrol providing policing services to property of a district agricultural association may, subsequent to giving notice to the city police or county sheriff, whichever is appropriate, cause the removal of a vehicle from the property to the nearest public garage, under any of the following circumstances:

(a) When the vehicle is illegally parked in locations where signs are posted giving notice of violation and removal.

(b) When an officer arrests any person driving or in control of a vehicle for an alleged offense and the officer is by this code or other law required to take the person arrested before a magistrate without unnecessary delay.

(c) When any vehicle is found upon the property and report has previously been made that the vehicle has been stolen or complaint has been filed and a warrant thereon issued charging that the vehicle has been embezzled.

(d) When the person or persons in charge of a vehicle upon the property are by reason of physical injuries or illness incapacitated to that extent as to be unable to provide for its custody or removal.

The person causing removal of the vehicle shall comply with the requirements of Sections 22852 and 22853 relating to notice.

Amended Sec. 70, Ch. 305, Stats. 1996. Effective January 1, 1997.

Impoundment of Vehicle Used in Commission of Act of Prostitution or Illegal Dumping of Commercial Quantities of Waste

22659.5. Notwithstanding any other provision of law, a city or a county may adopt an ordinance declaring a motor vehicle to be a public nuisance subject to seizure and an impoundment period of up to 30 days when the motor vehicle is used in the commission or attempted commission of an act that violates Section 266h or 266i of, subdivision (b) of Section 374.3 of, or subdivision (b) of Section 647 of, the Penal Code, if the owner or operator of the vehicle has had a prior conviction for the same offense within the past three years. An ordinance adopted pursuant to this section may incorporate any combination or all of these offenses. The vehicle may only be impounded pursuant to a valid arrest of the driver for a violation of one of these provisions. An ordinance adopted pursuant to this section shall, at a minimum, contain all of the following provisions:

(a) Within two working days after impoundment, the impounding agency shall send a notice by certified mail, return receipt requested, to the legal owner of the vehicle, at the address obtained from the department, informing the owner that the vehicle has been impounded. The notice shall also include notice of the opportunity for a poststorage hearing to determine the validity of the storage or to determine mitigating circumstances establishing that the vehicle should be released. The impounding agency shall be prohibited from charging for more than five days’ storage if it fails to notify the legal owner within two working days after the impoundment when the legal owner redeems the impounded vehicle. The impounding agency shall maintain a published telephone number that provides information 24 hours a day regarding the impoundment of vehicles and the rights of a legal owner and a registered owner to request a hearing. The notice shall include all of the following information:

(1) The name, address, and telephone number of the agency providing the notice.

(2) The location of the place of storage and description of the vehicle, that shall include, if available, the model or make, the manufacturer, the license plate number, and the mileage.
(3) The authority and purpose for the removal of the vehicle.

(4) A statement that, in order to receive a poststorage hearing, the owners, or their agents, shall request the hearing in person, writing, or by telephone within 10 days of the date appearing on the notice.

(b) The poststorage hearing shall be conducted within 48 hours of the request, excluding weekends and holidays. The public agency may authorize one of its officers or employees to conduct the hearing if that hearing officer is not the same person who directed the seizure of the vehicle.

(c) Failure of the legal and the registered owners, or their agents, to request or to attend a scheduled hearing shall satisfy the poststorage hearing requirement.

(d) The agency employing the person who directed the storage shall be responsible for the costs incurred for towing and storage if it is determined in the poststorage hearing that reasonable grounds for the storage are not established.

(e) Any period during which a vehicle is subjected to storage under an ordinance adopted pursuant to this section shall be included as part of the period of impoundment.

(f) The impounding agency shall release the vehicle to the registered owner or his or her agent prior to the end of the impoundment period under any of the following circumstances:

(1) The driver of the impounded vehicle was arrested without probable cause.

(2) The vehicle is a stolen vehicle.

(3) The vehicle is subject to bailment and was driven by an unlicensed employee of a business establishment, including a parking service or repair garage.

(4) The driver of the vehicle is not the sole registered owner of the vehicle and the vehicle is being released to another registered owner of the vehicle who agrees not to allow the driver to use the vehicle until after the end of the impoundment period.

(5) The registered owner of the vehicle was neither the driver nor a passenger of the vehicle at the time of the alleged violation, or was unaware that the driver was using the vehicle to engage in activities subject to Section 266h or 266i of, or subdivision (b) of Section 647 of, the Penal Code.

(6) A spouse, registered domestic partner, or other affected third party objects to the impoundment of the vehicle on the grounds that it would create a hardship if the subject vehicle is the sole vehicle in a household. The hearing officer shall release the vehicle where the hardship to a spouse, registered domestic partner, or other affected third party created by the impoundment of the subject vehicle, or the length of the impoundment, outweigh the seriousness and the severity of the act in which the vehicle was used.

(g) Notwithstanding any provision of law, if a motor vehicle is released prior to the conclusion of the impoundment period because the driver was arrested without probable cause, neither the arrested person nor the registered owner of the motor vehicle shall be responsible for the towing and storage charges.

(h) Except as provided in subdivision (g), the registered owner or his or her agent shall be responsible for all towing and storage charges related to the impoundment.

(i) A vehicle removed and seized under an ordinance adopted pursuant to this section shall be released to the legal owner of the vehicle or the legal owner’s agent prior to the end of the impoundment period if both of the following conditions are met:

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state, or is another person who is not the registered owner and holds a security interest in the vehicle.

(2) The legal owner or the legal owner’s agent pays all towing and storage fees related to the seizure and impoundment of the vehicle.

(j) (1) No lien sale processing fees shall be charged to the legal owner who redeems the vehicle prior to the 15th day of the impoundment period. Neither the impounding authority nor any person having possession of the vehicle shall collect from the legal owner as described in paragraph (1) of subdivision (i), or the legal owner’s agent, any administrative charges imposed pursuant to Section 22850.5, unless the legal owner voluntarily requested a poststorage hearing.

(2) A person operating or in charge of a storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing, storage, and related fees by a legal owner or registered owner or the owner’s agent claiming the vehicle. A credit card or debit card shall be in the name of the person presenting the card. For purposes of this section, “credit card” is as defined in subdivision (a) of Section 1747.02 of the Civil Code. Credit card does not include a credit card issued by a retail seller.

(3) A person operating or in charge of a storage facility described in paragraph (2) who violates paragraph (2) shall be civilly liable to the owner of the vehicle or the person who tendered the fees for four times the amount of the towing, storage, and related fees not to exceed five hundred dollars ($500).

(4) A person operating or in charge of the storage facility described in paragraph (2) shall have sufficient funds on the premises of the primary storage facility during normal business hours to accommodate, and make change for, a reasonable monetary transaction.

(5) Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies on rates.

(6) A failure by a storage facility to comply with any applicable conditions set forth in this subdivision shall not affect the right of the legal owner or the legal owner’s agent to retrieve the vehicle if all conditions required of the legal owner or legal owner’s agent under this subdivision are satisfied.

(k) (1) The legal owner or the legal owner’s agent shall present to the law enforcement agency, impounding agency, person in possession of the vehicle, or any person acting on behalf of those agencies, a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code, a release from the one responsible governmental agency, only if required by the agency, a government-issued photographic identification card, and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of repossession for the vehicle, a security agreement for the vehicle, or title, whether or not
paperless or electronic, showing proof of legal ownership for the vehicle. Any documents presented may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The law enforcement agency, impounding agency, or other governmental agency, or any person acting on behalf of those agencies, shall not require any documents to be notarized. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies may require the agent of the legal owner to produce a photocopy or facsimile copy of its repossession agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or to demonstrate, to the satisfaction of the law enforcement agency, impounding agency, or any person acting on behalf of those agencies that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

(2) Administrative costs authorized under subdivision (a) of Section 22850.5 shall not be charged to the legal owner of the type specified in paragraph (1) of subdivision (i) who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. A city, county, city and county, or state agency shall not require a legal owner or a legal owner’s agent to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner’s agent. The law enforcement agency, impounding agency, or other governmental agency, or any person acting on behalf of those agencies, shall not require any documents other than those specified in this paragraph. The legal owner or the legal owner’s agent shall be given a copy of any documents he or she is required to sign, except for a vehicle evidentiary hold log book. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies, or any person in possession of the vehicle, may photocopy and retain the copies of any documents presented by the legal owner or legal owner’s agent. The legal owner shall indemnify and hold harmless a storage facility from any claims arising out of the release of the vehicle to the legal owner or the legal owner’s agent and from any damage to the vehicle after its release, including the reasonable costs associated with defending any such claims.

(i) A legal owner, who meets the requirements for release of a vehicle pursuant to subdivision (i), or the legal owner’s agent, shall not be required to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner’s agent.

(m) (1) A legal owner, who meets the requirements for release of a vehicle pursuant to subdivision (i), or the legal owner’s agent, shall not release the vehicle to the registered owner of the vehicle or an agent of the registered owner, unless the registered owner is a rental car agency, until after the termination of the impoundment period.

(2) Prior to relinquishing the vehicle, the legal owner may require the registered owner to pay all towing and storage charges related to the seizure and impoundment.

(n) (1) A vehicle removed and seized pursuant to an ordinance adopted pursuant to this section shall be released to a rental car agency prior to the end of the impoundment period if the agency is either the legal owner or registered owner of the vehicle and the agency pays all towing and storage fees related to the seizure and impoundment of the vehicle.

(2) The owner of a rental vehicle that was seized under an ordinance adopted pursuant to this section may continue to rent the vehicle upon recovery of the vehicle. However, the rental car agency shall not rent another vehicle to the driver of the vehicle that was seized until the impoundment period has expired.

(3) The rental car agency may require the person to whom the vehicle was rented to pay all towing and storage charges related to the seizure and impoundment.

Local Abatement Procedure

22660. Notwithstanding any other provision of law, a city, county, or city and county may adopt an ordinance establishing procedures for the abatement and removal, as public nuisances, of abandoned, wrecked, dismantled, or inoperative vehicles or parts thereof from private or public property, and for the recovery, pursuant to Section 25845 or 38773.5 of the Government Code, or assumption by the local authority, of costs of administration and the removal.

Contents of Ordinance

22661. Any ordinance establishing procedures for the removal of abandoned vehicles shall contain all of the following provisions:

(a) The requirement that notice be given to the Department of Motor Vehicles within five days after the date of removal, identifying the vehicle or part thereof and any evidence of registration available, including, but not limited to, the registration card, certificates of ownership, or license plates.

(b) Making the ordinance inapplicable to (1) a vehicle or part thereof that is completely enclosed within a building in a lawful manner where it is not visible from the street or other public or private property or (2) a vehicle or part thereof that is stored or parked in a lawful manner on private property in connection with the business of a licensed dismantler, licensed vehicle dealer, or a junkyard. This exception shall not, however, authorize the maintenance of a public or private nuisance as defined under provisions of law other than this chapter.

(c) The requirement that not less than a 10-day notice of intention to abate and remove the vehicle or part thereof as a public nuisance be issued, unless the property owner and the owner of the vehicle have signed releases authorizing removal and waiving further interest in the vehicle or part thereof. However, the notice of intention is not required for removal of a vehicle or part thereof that is inoperable due to the absence of a motor, transmission, or wheels and incapable of being towed, is valued at less than two hundred dollars ($200) by a person specified in Section 22855, and is determined by the local agency to be a public nuisance presenting an immediate threat to public health or safety, provided that the property owner has signed a release authorizing removal and waiving further interest in the vehicle or part thereof. Prior to final disposition under Section 22662 of such a low-valued vehicle or part for which evidence of registration was recovered pursuant to subdivision (a), the local agency shall provide notice to the registered and legal owners of intent to dispose of the vehicle or part, and if the vehicle or part is not claimed and removed within 12 days after the notice is mailed, from a location specified in Section 22662, final disposition may proceed. No local agency or contractor thereof shall be liable.
for damage caused to a vehicle or part thereof by removal pursuant to this section.

This subdivision applies only to inoperable vehicles located upon a parcel that is (1) zoned for agricultural use or (2) not improved with a residential structure containing one or more dwelling units.

(d) The 10-day notice of intention to abate and remove a vehicle or part thereof, when required by this section, shall contain a statement of the hearing rights of the owner of the property on which the vehicle is located and of the owner of the vehicle. The statement shall include notice to the property owner that he or she may appear in person at a hearing or may submit a sworn written statement denying responsibility for the presence of the vehicle on the land, with his or her reasons for such denial, in lieu of appearing. The notice of intention to abate shall be mailed, by registered or certified mail, to the owner of the land as shown on the last equalized assessment roll and to the last registered and legal owners of record unless the vehicle is in such condition that identification numbers are not available to determine ownership.

(e) The requirement that a public hearing be held before the governing body of the city, county, or city and county, or any other board, commissioner, or official of the city, county, or city and county as designated by the governing body, upon request for such a hearing by the owner of the vehicle or the owner of the land on which the vehicle is located. This request shall be made to the appropriate public body, agency, or officer within 10 days after the mailing of notice of intention to abate and remove the vehicle or at the time of signing a release pursuant to subdivision (c). If the owner of the land on which the vehicle is located submits a sworn written statement denying responsibility for the presence of the vehicle on his or her land within that time period, this statement shall be construed as a request for hearing that does not require the presence of the owner submitting the request. If the request is not received within that period, the appropriate public body, agency, or officer shall have the authority to remove the vehicle.

(f) The requirement that after a vehicle has been removed, it shall not be reconstructed or made operable, unless it is a vehicle that qualifies for either horseless carriage license plates or historical vehicle license plates, pursuant to Section 5004, in which case the vehicle may be reconstructed or made operable.

(g) A provision authorizing the owner of the land on which the vehicle is located to appear in person at the hearing or present a sworn written statement denying responsibility for the presence of the vehicle on the land, with his or her reasons for the denial. If it is determined at the hearing that the vehicle was placed on the land without the consent of the landowner and that he or she has not subsequently acquiesced to its presence, then the local authority shall not assess costs of administration or removal of the vehicle against the property upon which the vehicle is located or otherwise attempt to collect those costs from the owner.

Disposition of Vehicles or Parts

22662. Vehicles or parts thereof may be disposed of by removal to a scrapyard, automobile dismantler’s yard, or any suitable site operated by a local authority for processing as scrap, or other final disposition consistent with subdivision (e) of Section 22661. A local authority may operate such a disposal site when its governing body determines that commercial channels of disposition are not available or are inadequate, and it may make final disposition of such vehicles or parts, or the local agency may transfer such vehicle or parts to another, provided such disposal shall be only as scrap.

Administration of Ordinance

22663. Any ordinance adopted pursuant to Section 22660 shall provide for administration of the ordinance by regularly salaried full-time employees of the city, county, or city and county, except that the removal of vehicles or parts thereof from property may be by any other duly authorized person. Any such authorized person may enter upon private property for the purposes specified in the ordinance to examine a vehicle or parts thereof, obtain information as to the identity of a vehicle, and remove or cause the removal of a vehicle or part thereof declared to be a nuisance pursuant to the ordinance.

Waiver: Reporting Requirements and Fees

22664. Any licensed dismantler or commercial enterprise acquiring vehicles removed pursuant to such ordinance shall be excused from the reporting requirements of Section 11520; and any fees and penalties which would otherwise be due the Department of Motor Vehicles are hereby waived, provided that a copy of the resolution or order authorizing disposition of the vehicle is retained in the dismantler’s or commercial enterprise’s business records.

Administration of Local Programs by Highway Patrol

22665. Notwithstanding Section or any other provision of law, the department may, at the request of a local authority, other than a service authority, administer on behalf of the authority its abandoned vehicle abatement and removal program established pursuant to Section 22660.

Regulations of Highway Patrol

22666. Whenever the department is administering a program pursuant to Section 22665, it shall by regulation establish procedures for the abatement and removal of vehicles that are identical to the requirements specified in Section 22661, except that the department shall provide by agreement with the requesting local authority for the conduct of a public hearing pursuant to subdivision (d) of Section 22661 by the local authority and for the reimbursement of the department for its costs of administration and removal which the local authority is authorized to recover from the property owner pursuant to Section 22660. Such regulations shall also provide for the administration of the regulations by regularly salaried, full-time personnel of the department, except that the removal of vehicles or parts thereof from property may be done by any other duly authorized person. Any such person may enter upon private property for the purposes specified in the regulations to examine a vehicle or parts thereof, obtain information as to the identity of a vehicle, and remove or cause the removal of a vehicle or part thereof declared to be a nuisance pursuant to the regulations.
The provisions of Sections 22662 and 22664 shall also apply to any vehicle removed by the department.

Abatement and Removal: Priorities

22667. In establishing procedures for the abatement and removal of abandoned vehicles, the department shall give priority to the removal of abandoned vehicles from corridors of the state highway system, from public lands and parks, and from river and wildlife areas.

Abandoned Vehicle Trust Fund: Prohibited Disbursements

22668. No local authority whose abandoned vehicle abatement and removal program is administered pursuant to Section 22665 shall be eligible for any disbursement from the Abandoned Vehicle Trust Fund pursuant to Section 22710.

Removal of Abandoned Vehicles

22669. (a) Any peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any other employee of the state, county, or city designated by an agency or department of the state or the board of supervisors or city council to perform this function, in the territorial limits in which the officer or employee is authorized to act, who has reasonable grounds to believe that the vehicle has been abandoned, as determined pursuant to Section 22523, may remove the vehicle from a highway or from public or private property.
(b) Any person performing a franchise or contract awarded pursuant to subdivision (a) of Section 22710, may remove a vehicle from a highway or place to which it has been removed pursuant to subdivision (c) of Section 22654 or from public or private property, after a determination by a peace officer, as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or other designated employee of the state, county, or city in which the vehicle is located that the vehicle is abandoned, as determined pursuant to Section 22523.
(c) A state, county, or city employee, other than a peace officer or employee of a sheriff's department or a city police department, designated to remove vehicles pursuant to this section may do so only after he or she has mailed or personally delivered a written report identifying the vehicle and its location to the office of the Department of the California Highway Patrol located nearest to the vehicle.
(d) Motor vehicles which are parked, resting, or otherwise immobilized on any highway or public right-of-way and which lack an engine, transmission, wheels, tires, doors, windshield, or any other part or equipment necessary to operate safely on the highways of this state, are hereby declared a hazard to public health, safety, and welfare and may be removed immediately upon discovery by a peace officer or other designated employee of the state, county, or city.

Lien Sale: Valuation

22670. (a) For lien sale purposes, the public agency causing the removal of the vehicle shall determine if the estimated value of the vehicle that has been ordered removed, towed, or stored is five hundred dollars ($500) or less, over five hundred dollars ($500) but four thousand dollars ($4,000) or less, or over four thousand dollars ($4,000).
(b) If the public agency fails or refuses to put a value on, or to estimate the value of, the vehicle within three days after the date of removal of the vehicle, the garage keeper specified in Section 22851 or the garage keeper’s agent shall determine, under penalty of perjury, if the estimated value of the vehicle that has been ordered removed, towed, or stored, is five hundred dollars ($500) or less, over five hundred dollars ($500) but four thousand dollars ($4,000) or less, or over four thousand dollars ($4,000).

Removal by Franchise or Contract

22671. A local authority may either issue a franchise or execute a contract for the removal of abandoned vehicles in accordance with the provisions of this chapter.

Service Authority for Abatement of Abandoned Vehicles

22710. (a) A service authority for the abatement of abandoned vehicles may be established, and a one dollar ($1) vehicle registration fee imposed, in a county if the board of supervisors of the county, by a two-thirds vote, and a majority of the cities having a majority of the incorporated population within the county have adopted resolutions providing for the establishment of the authority and imposition of the fee. The membership of the authority shall be determined by concurrence of the board of supervisors and a majority vote of the majority of the cities within the county having a majority of the incorporated population.
(b) The authority may contract and may undertake any act convenient or necessary to carry out a law relating to the authority. The authority shall be staffed by existing personnel of the city, county, or county transportation commission.
(c) (1) Notwithstanding any other provision of law, a service authority may adopt an ordinance establishing procedures for the abatement, removal, and disposal, as a public nuisance, of an abandoned, wrecked, dismantled, or inoperative vehicle or part of the vehicle from private or public property; and for the recovery, pursuant to Section 25845 or 38773.5 of the Government Code, or assumption by the service authority, of costs associated with the enforcement of the ordinance. Cost recovery shall only be undertaken by an entity that may be a county or city or the department, pursuant to contract with the service authority as provided in this section.
(2) (A) The money received by an authority pursuant to Section 9250.7 and this section shall be used only for the abatement, removal, or the disposal as a public nuisance of any abandoned, wrecked, dismantled, or inoperative vehicle or part of the vehicle from private or public property. The money received shall not be used to offset the costs of vehicles towed under authorities other than an ordinance adopted pursuant to paragraph (1) or when costs are recovered under Section 22850.5.
(B) The money received by a service authority pursuant to Section 9250.7 and this section that are unexpended in a fiscal year may be carried forward by the service authority for the abandoned vehicle abatement program in the following fiscal year as agreed upon by the service authority and its member agencies.
(d) (1) An abandoned vehicle abatement program and plan of a service authority shall be implemented only with the approval of the county and a majority of the cities having a majority of the incorporated population.

(2) (A) The department shall provide guidelines for an abandoned vehicle abatement program. An authority’s abandoned vehicle abatement plan and program shall be consistent with those guidelines, and shall provide for, but not be limited to, an estimate of the number of abandoned vehicles, a disposal and enforcement strategy including contractual agreements, and appropriate fiscal controls.

(B) The department’s guidelines provided pursuant to this paragraph shall include, but not be limited to, requiring each service authority receiving funds from the Abandoned Vehicle Trust Fund to report to the Controller on an annual basis pursuant to subdivision (c) of Section 9250.7, in a manner prescribed by the department, and pursuant to an approved abandoned vehicle abatement program.

(C) A service authority may carry out an abandoned vehicle abatement from a public property after providing a notice as specified by the local ordinance adopted pursuant to Section 22660 of the jurisdiction in which the abandoned vehicle is located and that notice has expired.

(3) After a plan has been approved pursuant to paragraph (1), the service authority shall, not later than August 1 of the year in which the plan was approved, submit it to the department for review, and the department shall, not later than October 1 of that same year, either approve the plan as submitted or make recommendations for revision. After the plan has received the department’s approval as being consistent with the department’s guidelines, the service authority shall submit it to the Controller.

(4) Except as provided in subdivision (e), the Controller shall not make an allocation for a fiscal year, commencing on July 1 following the Controller’s determination to suspend a service authority when a service authority has failed to comply with the provisions set forth in Section 9250.7.

(5) A governmental agency shall not receive funds from a service authority for the abatement of abandoned vehicles pursuant to an approved abandoned vehicle abatement program unless the governmental agency has submitted an annual report to the service authority stating the manner in which the funds were expended, and the number of vehicles abated. The governmental agency shall receive that percentage of the total funds collected by the service authority that is equal to its share of the formula calculated pursuant to paragraph (6).

(6) Each service authority shall calculate a formula for apportioning funds to each governmental agency that receives funds from the service authority and submit that formula to the Controller with the annual report required pursuant to paragraph (2). The formula shall apportion 50 percent of the funds received by the service authority to a governmental agency based on the percentage of vehicles abated by that governmental agency of the total number of abandoned vehicles abated by all member agencies, and 50 percent based on population and geographic area, as determined by the service authority. When the formula is first submitted to the Controller, and each time the formula is revised thereafter, the service authority shall include a detailed explanation of how the service authority determined the apportionment between per capita abatements and service area.

(7) Notwithstanding any other provision of this subdivision, the Controller may allocate to the service authority in the County of Humboldt the net amount of the abandoned vehicle abatement funds received from the fee imposed by that authority, as described in subdivision (b) of Section 9250.7, for calendar years 2000 and 2001.

(e) (1) A plan that has been submitted to the Controller pursuant to subdivision (d) may be revised pursuant to the procedure prescribed in that subdivision, including compliance with any dates described therein for submission to the department and the Controller, respectively, in the year in which the revisions are proposed by the service authority. Compliance with that procedure shall only be required if the revisions are substantial.

(f) For purposes of this section, “abandoned vehicle abatement” means the removal of a vehicle from public or private property by towing or any other means after the vehicle has been marked as abandoned by an official of a governmental agency that is a member of the service authority.

(g) A service authority shall cease to exist on the date that all revenues received by the authority pursuant to this section and Section 9250.7 have been expended.

(h) In the event of a conflict with other provisions of law, this section shall govern the disbursement of money collected pursuant to this section and from the Abandoned Vehicle Trust Fund for the implementation of the abandoned vehicle abatement program.

Amended Sec. 2, Ch. 389, Stats. 2007. Effective January 1, 2008.

**Abandoned Vehicles: Transport to Penal Institutions**

22711. Notwithstanding any other provision of law, the California Highway Patrol, any city, county, or city and county which has an abandoned vehicle abatement program, and any service authority established under Section 22710, upon satisfying all applicable reporting requirements provided in this chapter, may, with the consent of the Director of Corrections, transport any abandoned vehicle to, and dispose of any abandoned vehicle at, any institution under the jurisdiction of the director which has a program established pursuant to Section 2813.5 of the Penal Code.

**Article 2. Vehicle Disposition**

(Amended and renumbered, Ch. 1111, Stats. 1980. Effective January 1, 1981.)

**Storage of Vehicle**

22850. Whenever an officer or employee removes a vehicle from a highway, or from public or private property, unless otherwise provided, he shall take the vehicle to the nearest garage or other place of safety or to a garage designated or maintained by the governmental agency of which the officer or employee is a member, where the vehicle shall be placed in storage.

At the time of such removal, the officer or employee shall determine the amount of mileage on the vehicle.

**Vehicle Removal: Release to Owner**

22850.3. (a) A vehicle placed in storage pursuant to Section 22850 shall be released to the owner or person in control of the vehicle only if the owner or person furnishes, to
the law enforcement agency or employee who placed the vehicle in storage, satisfactory proof of current vehicle registration. The agency which caused the vehicle to be stored may, in its discretion, issue a notice to appear for the registration violation, if the two days immediately following the day of impoundment are weekend days or holidays.

(b) At every storage facility there shall be posted in a conspicuous place a notice to the effect that a vehicle placed in storage pursuant to Section 22850 may be released only on proof of current registration or, at the discretion of the impounding agency, upon the issuance of a notice to appear for the registration violation by the local agency which caused the vehicle to be stored, specifying the name and telephone number of that local agency. 

**Administrative Costs: Vehicle Impound**

22850.5. (a) A city, county, or city and county, or a state agency may adopt a regulation, ordinance, or resolution establishing procedures for the release of properly impounded vehicles and for the imposition of a charge equal to its administrative costs relating to the removal, impound, storage, or release of the vehicles. Those administrative costs may be waived by the local or state authority upon verifiable proof that the vehicle was reported stolen at the time the vehicle was removed.

(b) The following apply to any charges imposed for administrative costs pursuant to subdivision (a):

1. The charges shall only be imposed on the registered owner or the agents of that owner and shall not include any vehicle towed under an abatement program or sold at a lien sale pursuant to Sections 3068.1 to 3074, inclusive, of, and Section 22851 of, the Civil Code unless the sale is sufficient in amount to pay the lienholder’s total charges and proper administrative costs.

2. Any charges shall be collected by the local or state authority only from the registered owner or an agent of the registered owner.

3. The charges shall be in addition to any other charges authorized or imposed pursuant to this code.

4. No charge may be imposed for any hearing or appeal relating to the removal, impound, storage, or release of a vehicle unless that hearing or appeal was requested in writing by the registered or legal owner of the vehicle or an agent of that registered or legal owner. In addition, the charge may be imposed only upon the person requesting that hearing or appeal.

No administrative costs authorized under subdivision (a) shall be charged to the legal owner who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. No city, county, city and county, or state agency shall require a legal owner or a legal owner’s agent to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner’s agent. The impounding agency, or any person acting on behalf of the agency, shall not require the legal owner or the legal owner’s agent to produce any documents other than those specified in paragraph (3) of subdivision (f) of Section 14602.6 or paragraph (3) of subdivision (e) of Section 14602.7. The impounding agency, or any person acting on behalf of the agency, shall not require any documents to be notarized.

Amended Sec. 12, Ch. 192, Stats. 2007. Effective September 7, 2007.

**Lien on Stored Vehicle**

22851. (a) (1) Whenever a vehicle has been removed to a garage under this Chapter and the keeper of the garage has received the notice or notices as provided herein, the keeper shall have a lien dependent upon possession for his or her compensation for towing and for caring for and keeping safe the vehicle for a period not exceeding 60 days or, if an application for an authorization to conduct a lien sale has been filed pursuant to Section 3068.1 of the Civil Code within 30 days after the removal of the vehicle to the garage, 120 days and, if the vehicle is not recovered by the owner within that period or the owner is unknown, the keeper of the garage may satisfy his or her lien in the manner prescribed in this section. The lien shall not be assigned. Possession of the vehicle is deemed to arise when a vehicle is removed and is in transit, or when vehicle recovery operations or load salvage operations that have been requested by a law enforcement agency have begun at the scene.

(2) Whenever a vehicle owner returns to a vehicle that is in possession of a towing company prior to the removal of the vehicle, the owner may regain possession of the vehicle from the towing company if the owner pays the towing company the towing charges.

(b) No lien shall attach to any personal property in or on the vehicle. The personal property in or on the vehicle shall be given to the current registered owner or the owner’s authorized agent upon demand and without charge during normal business hours. Notwithstanding any other provision of law, normal business hours are Monday to Friday, inclusive, from 8 a.m. to 5 p.m., inclusive, except state holidays. A gate fee may be charged for returning property after normal business hours, weekends, and state holidays. The maximum hourly charge for nonbusiness hours releases shall be one-half the hourly tow rate charged for initially towing the vehicle, or less. The lienholder is not responsible for property after any vehicle has been disposed of pursuant to this chapter.

**Lien: Outstanding Parking Penalties**

22851.1. (a) If the vehicle is impounded pursuant to subdivision (i) of Section 22651 and not released as provided in that subdivision, the vehicle may be sold pursuant to this Chapter to satisfy the liens specified in Section 22851 and in subdivision (b) of this section.

(b) A local authority impounding a vehicle pursuant to subdivision (i) of Section 22651 shall have a lien dependent upon possession by the keeper of the garage for satisfaction of bail for all outstanding notices of parking violation issued by the local authority for the vehicle, when the conditions specified in subdivision (c) have been met. This lien shall be subordinate in priority to the lien established by Section 22851, and the proceeds of any sale shall be applied accordingly. Consistent with this order of priority, the term “lien,” as used in this Article and in Chapter 6.5 (commencing with Section 3067) of Title 14 of Part 4 of Division 3 of the Civil Code, includes a lien imposed by this subdivision. In any action brought to perfect the lien, where required by subdivision (d) of Section 22851.8 of this code, or by subdivision (d) of Section 3071 or subdivision (d) of Section 3072 of the Civil Code, it shall be a defense to the recovery of bail that the owner of the vehicle at the time of
impoundment was not the owner of the vehicle at the time of the parking offense.

(c) A lien shall exist for bail with respect to parking violations for which no person has answered the charge in the notice of parking violation given, or filed an affidavit of nonownership pursuant to and within the time specified in subdivision (b) of Section 41103.

Disposition of Low-Valued Vehicles Removed for Reasons Other than Abandonment

§22851.2. (a) Excepting a vehicle removed pursuant to Section 22669, if the vehicle is determined to have a value not exceeding five hundred dollars ($500) pursuant to Section 22670, the public agency that removed the vehicle shall do all of the following:

(1) Within 48 hours after removal of the vehicle, notify the Stolen Vehicle System of the Department of Justice in Sacramento of the removal.

(2) Prepare and give to the lienholder a report that includes all of the following:
   (A) The value of the vehicle estimated pursuant to Section 22670.
   (B) The identification of the estimator.
   (C) The location of the vehicle.
   (D) A description of the vehicle, including the make, year model, identification number, license number, state of registration, and, if a motorcycle, an engine number.
   (E) The statutory authority for storage.
   (b) If the vehicle is in a condition that there is no means of determining ownership, the public agency that removed the vehicle may give authorization to dispose of the vehicle. If authorization for disposal is not issued, a vehicle identification number shall be assigned prior to commencing the lien sale proceedings.

Disposition of Abandoned Low-Valued Vehicles

§22851.3. Whenever a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any other employee of a public agency authorized pursuant to Section 22669, removes, or causes the removal of, a vehicle pursuant to Section 22669 and the public agency or, at the request of the public agency, the lienholder determines the estimated value of the vehicle is five hundred dollars ($500) or less, the public agency that removed, or caused the removal of, the vehicle shall cause the disposal of the vehicle under this section, subject to all of the following requirements:

(a) Not less than 72 hours before the vehicle is removed, the peace officer or the authorized public employee has securely attached to the vehicle a distinctive notice which states that the vehicle will be removed by the public agency. This subdivision does not apply to abandoned vehicles removed pursuant to subdivision (d) of Section 22669 which are determined by the public agency to have an estimated value of three hundred dollars ($300) or less.

(b) Immediately after removal of the vehicle, the public agency which removed, or caused the removal of, the vehicle shall notify the Stolen Vehicle System of the Department of Justice in Sacramento of the removal.

(c) The public agency that removed, or caused the removal of, the vehicle or, at the request of the public agency, the lienholder shall obtain a copy of the names and addresses of all persons having an interest in the vehicle, if any, from the Department of Motor Vehicles either directly or by use of the California Law Enforcement Telecommunications System. This subdivision does not require the public agency or lienholder to obtain a copy of the actual record on file at the Department of Motor Vehicles.

(d) Within 48 hours of the removal, excluding weekends and holidays, the public agency that removed, or caused the removal of, the vehicle or, at the request of the public agency, the lienholder shall send a notice to the registered and legal owners at their addresses of record with the Department of Motor Vehicles, and to any other person known to have an interest in the vehicle. A notice sent by the public agency shall be sent by certified or first-class mail, and a notice sent by the lienholder shall be sent by certified mail. The notice shall include all of the following information:

(1) The name, address, and telephone number of the public agency providing the notice.

(2) The location of the place of storage and description of the vehicle which shall include, if available, the vehicle make, license plate number, vehicle identification number, and mileage.

(3) The authority and purpose for the removal of the vehicle.

(4) A statement that the vehicle may be disposed of 15 days from the date of the notice.

(5) A statement that the owners and interested persons, or their agents, have the opportunity for a poststorage hearing before the public agency that removed, or caused the removal of, the vehicle to determine the validity of the storage if a request for a hearing is made in person, in writing, or by telephone within 10 days from the date of notice; that, if the owner or interested person, or his or her agent, disagrees with the decision of the public agency, the decision may be reviewed pursuant to Section 11523 of the Government Code; and that during the time of the initial hearing, or during the time the decision is being reviewed pursuant to Section 11523 of the Government Code, the vehicle in question may not be disposed of.

(e) (1) A requested hearing shall be conducted within 48 hours of the request, excluding weekends and holidays. The public agency that removed the vehicle may authorize its own officers to conduct the hearing if the hearing officer is not the same person who directed the storage of the vehicle.

(2) Failure of either the registered or legal owner or interested person, or his or her agent, to request or to attend a scheduled hearing shall satisfy the poststorage validity hearing requirement of this section.

(f) The public agency employing the person, or utilizing the services of a contractor or franchiser pursuant to subdivision (b) of Section 22669, that removed, or caused the removal of, the vehicle and that directed any towing or storage, is responsible for the costs incurred for towing and storage if it is determined in the hearing that reasonable grounds to believe that the vehicle was abandoned are not established.

(g) An authorization for disposal may not be issued by the public agency that removed, or caused the removal of, the
vehicle to a lienholder who is storing the vehicle prior to the conclusion of a requested poststorage hearing or any judicial review of that hearing.

(h) If, after 15 days from the notification date, the vehicle remains unclaimed and the towing and storage fees have not been paid, and if no request for a poststorage hearing was requested or a poststorage hearing was not attended, the public agency that removed, or caused the removal of, the vehicle shall provide to the lienholder who is storing the vehicle, on a form approved by the Department of Motor Vehicles, authorization to dispose of the vehicle. The lienholder may request the public agency to provide the authorization to dispose of the vehicle.

(i) If the vehicle is claimed by the owner or his or her agent within 15 days of the notice date, the lienholder who is storing the vehicle may collect reasonable fees for services rendered, but may not collect lien sale fees as provided in Section 22851.12.

(j) Disposal of the vehicle by the lienholder who is storing the vehicle may only be to a licensed dismantler or scrap iron processor. A copy of the public agency’s authorization for disposal shall be forwarded to the licensed dismantler within five days of disposal to a licensed dismantler. A copy of the public agency’s authorization for disposal shall be retained by the lienholder who stored the vehicle for a period of 90 days if the vehicle is disposed of to a scrap iron processor.

(k) If the names and addresses of the registered and legal owners of the vehicle are not available from the records of the Department of Motor Vehicles, either directly or by use of the California Law Enforcement Telecommunications System, the public agency may issue to the lienholder who stored the vehicle an authorization for disposal at any time after the removal.

The lienholder may request the public agency to issue an authorization for disposal after the lienholder ascertains that the names and addresses of the registered and legal owners of the vehicle are not available from the records of the Department of Motor Vehicles either directly or by use of the California Law Enforcement Telecommunications System.

(l) A vehicle disposed of pursuant to this section may not be reconstructed or made operable, unless it is a vehicle that qualifies for either horseless carriage license plates or historical vehicle license plates, pursuant to Section 5004, in which case the vehicle may be reconstructed or made operable.

Lien: Higher Value Vehicle

22851.4. If the vehicle is determined to have a value exceeding five hundred dollars ($500) pursuant to Section 22670, the lien shall be satisfied pursuant to Sections 3067 to 3074, inclusive, of the Civil Code.

Lien: Low Value Vehicle

22851.6. (a) Lienholders who acquire a vehicle subject to Section 22851.2 shall satisfy their lien pursuant to Sections 22851.8 and 22851.10 if the vehicle has a value not exceeding five hundred dollars ($500), as determined pursuant to Section 22670.

(b) All forms required by Sections 22851.8 and 22851.10 shall be prescribed by the Department of Motor Vehicles. The language used in the notices and declarations shall be simple and nontechnical.

Notice by Lienholder: Low Value Vehicle

22851.8. (a) The lienholder shall, within 15 working days following the date of possession of the vehicle, make a request to the Department of Motor Vehicles for the names and addresses of all persons having an interest in the vehicle. A storage charge may not accrue beyond the 15-day period unless the lienholder has made a request to the Department of Motor Vehicles as provided for in this section.

(b) By certified mail with return receipt requested or by United States Postal Service Certificate of Mailing, the lienholder shall immediately, upon receipt of this information, send the following prescribed forms and enclosures to the registered owner and legal owner at their addresses of record with the Department of Motor Vehicles, and to any other person known to have an interest in the vehicle:

1. A completed form entitled “Notice of Intent to Dispose of a Vehicle Valued at $500 or Less.”

3. A return envelope preaddressed to the lienholder.

(c) All notices to persons having an interest in the vehicle shall be signed under penalty of perjury in the vehicle.

4. The following statements and information:

(A) The name of the lien.

(B) The facts concerning the claim that gives rise to the lien.

(C) The person has a right to a hearing in court.

(D) If a hearing in court is desired, a Declaration of Opposition form shall be signed under penalty of perjury and returned to the lienholder within 10 days of the date the notice form specified in paragraph (1) of subdivision (b) was mailed.

(E) If the Declaration of Opposition form is signed and mailed, the lienholder shall be allowed to dispose of the vehicle only if the lienholder obtains a court judgment or a subsequent release from the declarant or if the declarant cannot be served as described in subdivision (e).

(F) If a court action is filed, the declarant shall be notified of the lawsuit at the address shown on the Declaration of Opposition form, and the declarant may appear to contest the claim.

(G) The declarant may be liable for court costs if a judgment is entered in favor of the lienholder.

4. A statement that the lienholder may dispose of the vehicle to a licensed dismantler or scrap iron processor if it is not redeemed or if a Declaration of Opposition form is not signed and mailed to the lienholder within 10 days of the date the notice form specified in paragraph (1) of subdivision (b) was mailed.

(d) If the lienholder receives a completed Declaration of Opposition form within the time prescribed, the vehicle shall...
not be disposed of unless the lienholder files an action in court within 20 days of the date the notice form specified in paragraph (1) of subdivision (b) was mailed and a judgment is subsequently entered in favor of the lienholder or unless the declarant subsequently releases his or her interest in the vehicle. If a money judgment is entered in favor of the lienholder and the judgment is not paid within five days after becoming final, then the lienholder may dispose of the vehicle through a dismantler or scrap iron processor.

(e) (1) Service on the declarant in person or by certified mail, return receipt requested, signed by the addressee at the address shown on the Declaration of Opposition form, shall be effective for the serving of process.

(2) If the lienholder has served the declarant by certified mail, return receipt requested, at the address shown on the Declaration of Opposition form and the mail has been returned unclaimed, or if the lienholder has attempted to effect service on the declarant in person with a marshal, sheriff, or licensed process server and the marshal, sheriff, or licensed process server has been unable to effect service on the declarant, the lienholder may proceed with the judicial proceeding or proceed with the lien sale without a judicial proceeding. The lienholder shall notify the Department of Motor Vehicles of the inability to effect service on the declarant and shall provide the Department of Motor Vehicles with a copy of the documents with which service on the declarant was attempted. Upon receipt of the notification of unsuccessful service, the Department of Motor Vehicles shall send authorization of the sale to the lienholder and send notification of the authorization to the declarant. If service is effected on the declarant, the proof of service shall be submitted to the Department of Motor Vehicles with the documents specified in Section 22851.10.

**Disposal of Vehicle to Dismantler or Scrap Iron Processor**

22851.10. (a) A vehicle determined to have a value not exceeding five hundred dollars ($500) pursuant to Section 22670 that was stored pursuant to this chapter, and that remains unclaimed, or for which reasonable towing and storage charges remain unpaid, shall be disposed of only to a licensed dismantler or scrap iron processor not earlier than 15 days after the date the Notice of Intent to Dispose of a Vehicle Valued at $500 or Less form required pursuant to subdivision (b) of Section 22851.8 was mailed, unless a Declaration of Opposition form has been signed and returned to the lienholder.

(b) If the vehicle has been disposed of to a licensed dismantler or scrap iron processor, the lienholder shall forward the following forms and information to the licensed dismantler or scrap iron processor within five days:

(1) A statement, signed under penalty of perjury, that a properly executed Declaration of Opposition form was not received.

(2) A copy of the notice sent to all interested parties.

(3) A certification from the public agency that made the determination of value pursuant to Section 22670.

(4) The proof of service pursuant to subdivision (e) of Section 22851.8 or a copy of the court judgment, if any in favor of the lienholder entered pursuant to subdivision (d) of Section 22851.8.

(5) The name, address, and telephone number of the licensed dismantler or scrap iron processor who received the vehicle.

(6) The amount the lienholder received for the vehicle.

(c) A vehicle disposed of pursuant to this section shall not be reconstructed or made operable, unless it is a vehicle that qualifies for either horseless carriage license plates or historical vehicle license plates, pursuant to Section 5004, in which case the vehicle may be reconstructed or made operable.

**Lien-Sale Preparation Costs: Recovery**

22851.12. The lienholder may charge a fee for lien-sale preparations not to exceed seventy dollars ($70) in the case of a vehicle having a value determined to be four thousand dollars ($4,000) or less and not to exceed one hundred dollars ($100) in the case of a vehicle having a value determined to be greater than four thousand dollars ($4,000), from any person who redeems the vehicle prior to disposal or is sold through a lien sale pursuant to this chapter. These charges may commence and become part of the possessory lien when the lienholder requests the names and addresses of all persons having an interest in the vehicle from the department. Not more than 50 percent of the allowable fee may be charged until the lien sale notifications are mailed to all interested parties and the lienholder or the registration service agent has possession of the required lien processing documents. This charge shall not be made in the case of any vehicle redeemed prior to 72 hours from the initial storage.

**Notice to Owner: Poststorage Hearing**

22852. (a) Whenever an authorized member of a public agency directs the storage of a vehicle, as permitted by this chapter, or upon the storage of a vehicle as permitted under this section (except as provided in subdivision (f) or (g)), the agency or person directing the storage shall provide the vehicle’s registered and legal owners of record, or their agents, with the opportunity for a poststorage hearing to determine the validity of the storage.

(b) A notice of the storage shall be mailed or personally delivered to the registered and legal owners within 48 hours, excluding weekends and holidays, and shall include all of the following information:

(1) The name, address, and telephone number of the agency providing the notice.

(2) The location of the place of storage and description of the vehicle, which shall include, if available, the name or make, the manufacturer, the license plate number, and the mileage.

(3) The authority and purpose for the removal of the vehicle.

(4) A statement that, in order to receive their poststorage hearing, the owners, or their agents, shall request the hearing in person, writing, or by telephone within 10 days of the date appearing on the notice.

(5) The poststorage hearing shall be conducted within 48 hours of the request, excluding weekends and holidays. The public agency may authorize its own officer or employee to conduct the hearing if the hearing officer is not the same person who directed the storage of the vehicle.
(d) Failure of either the registered or legal owner, or his or her agent, to request or to attend a scheduled hearing shall satisfy the poststorage hearing requirement.

(e) The agency employing the person who directed the storage shall be responsible for the costs incurred for towing and storage if it is determined in the poststorage hearing that reasonable grounds for the storage are not established.

(f) This section does not apply to vehicles abated under the Abandoned Vehicle Abatement Program pursuant to Sections 22660 to 22668, inclusive, and Section 22710, or to vehicles impounded for investigation pursuant to Section 22655, or to vehicles removed from private property pursuant to Section 22658.

(g) This section does not apply to abandoned vehicles removed pursuant to Section 22669 that are determined by the public agency to have an estimated value of five hundred dollars ($500) or less.

**Loss of Possessory Lien**

22852.5. (a) Whenever the possessory lien upon any vehicle is lost through trick, fraud, or device, the repossession of the vehicle by the lienholder revives the possessory lien, but any lien so revived is subordinate to any right, title, or interest of any person under any sale, transfer, encumbrance, lien, or other interest acquired or secured in good faith and for value between the time of the loss of possession and the time of repossession.

(b) It is a misdemeanor for any person to obtain possession of any vehicle or any part thereof subject to a lien pursuant to the provisions of this Chapter by trick, fraud, or device.

(c) It is a misdemeanor for any person claiming a lien on a vehicle to knowingly violate any provision of this chapter.

**Notice to Department of Justice**

22853. (a) Whenever an officer or an employee removing a California registered vehicle from a highway or from public property for storage under this Chapter does not know and is not able to ascertain the name of the owner or for any other reason is unable to give notice to the owner as required by Section 22852, the officer or employee shall immediately notify, or cause to be notified, the Department of Justice, Stolen Vehicle System, of its removal. The officer or employee shall file a notice with the proprietor of any public garage in which the vehicle may be stored. The notice shall include a complete description of the vehicle, the date, time, and place from which the vehicle was removed, the amount of mileage on the vehicle at the time of removal, and the name of the garage or place where the vehicle is stored.

(b) Whenever an officer or an employee removing a vehicle not registered in California from a highway or from public property for storage under this Chapter does not know and is not able to ascertain the owner or for any other reason is unable to give the notice to the owner as required by Section 22852, the officer or employee shall immediately notify, or cause to be notified, the Department of Justice, Stolen Vehicle System. If the vehicle is not returned to the owner within 120 hours, the officer or employee shall immediately send, or cause to be sent, a written report of the removal by mail to the Department of Justice at Sacramento and shall file a copy of the notice with the proprietor of any public garage in which the vehicle may be stored. The report shall be made on a form furnished by that department and shall include a complete description of the vehicle, the date, time, and place from which the vehicle was removed, the amount of mileage on the vehicle at the time of removal, the grounds for removal, and the name of the garage or place where the vehicle is stored.

22854. The Department of Justice upon receiving notice under Section 22853 of the removal of a vehicle from a highway, or from public or private property, shall notify the registered and legal owner in writing at the addresses of such persons as shown by the records of the Department of Motor Vehicles, if the vehicle is registered in this state, of the removal of such vehicle, and give the name of the officer reporting such removal, the grounds upon which the removal was authorized and the location of the vehicle. If the vehicle is not registered in this state, the department shall make reasonable effort to notify the legal or registered owner of the removal and location of the vehicle. The notice to the registered or legal owner shall list the amount of mileage on the vehicle at the time of removal.

22854.5. Whenever an officer or employee of a public agency directs the storage of a vehicle under this chapter, the officer, employee, or agency directing that storage may notify the National Law Enforcement Telecommunication System by transmitting by any means available, including, but not limited to, electronic means, the vehicle identification number, the information listed in paragraphs (1), (2), and (3) of subdivision (b) of Section 22852, and the information described under Section 22853.

**Appraisers**

22855. The following persons shall have the authority to make appraisals of the value of vehicles for purposes of this chapter, subject to the conditions stated in this chapter:

(a) Any peace officer of the Department of the California Highway Patrol designated by the commissioner.

(b) Any regularly employed and salaried deputy sheriff, any reserve deputy sheriff listed under Section 830.6 of the
Penal Code, or any other employee designated by the sheriff of any county.
(c) Any regularly employed and salaried police officer, any reserve police officer listed under Section 830.6 of the Penal Code, or any other employee designated by the chief of police of any city.
(d) Any officer or employee of the Department of Motor Vehicles designated by the director of that department.
(e) Any regularly employed and salaried police officer, or reserve police officer, or other employee of the University of California Police Department designated by the chief of the department.
(f) Any regularly salaried employee of a city, county, or city and county designated by a board of supervisors or a city council pursuant to subdivision (a) of Section 22669.
(g) Any regularly employed and salaried police officer, or reserve police officer, or other employee of the police department of a California State University designated by the chief thereof.
(h) Any regularly employed and salaried security officer or other employee of a transit district security force designated by the chief thereof.
(i) Any regularly employed and salaried peace officer, or reserve peace officer, or other employee of the Department of Parks and Recreation designated by the director of that department.

Lien Sales: Liability Exclusion
22856. Notwithstanding any other provision of law, no cause of action for despoliation of evidence shall arise against any towing company that sells any vehicle at, or disposes of any vehicle after, a lien sale, unless the company knew, or should have known, that the vehicle will be needed as evidence in a legal action.

Chapter 11. Parking Lots
Offstreet Parking Facilities: Regulation by City of Los Angeles
22950. Any city having a population of over 2,000,000 inhabitants shall regulate offstreet parking facilities within its jurisdiction in a manner not inconsistent with any provisions of this chapter.
Street and Alley Parking
22951. No operator of any offstreet parking facility shall park the vehicle of a patron of the facility in any street or alley.
Towing or Removal: Violations
22952. Every person engaged in the operation of offstreet parking facilities is guilty of a violation, who:
(a) Tows or removes or authorizes the towing and removal of any vehicle within 24 hours of the expiration of the period for which a particular fee is charged. This subdivision shall not affect or limit any parking lot operator from charging parking fees in accordance with his posted schedule for the additional time such vehicle is parked.
(b) Tows or removes or authorizes the towing and removal of any vehicle when such parking facilities are held open for public use and there was no attendant on duty or other facilities permitting the patron to pay or remit the parking charges at the time such vehicle was first parked. This subdivision shall not affect or limit any parking lot operator from charging parking fees in accordance with his posted schedule for the time such vehicle is parked.
Removal Prohibited
22953. (a) An owner or person in lawful possession of private property that is held open to the public, or a discernible portion thereof, for parking of vehicles at no fee, or an employee or agent thereof, shall not tow or remove, or cause the towing or removal, of a vehicle within one hour of the vehicle being parked.
(b) Notwithstanding subdivision (a), a vehicle may be removed immediately after being illegally parked within 15 feet of a fire hydrant, in a fire lane, in a manner that interferes with an entrance to, or an exit from, the private property, or in a parking space or stall legally designated for disabled persons.
(c) Subdivision (a) does not apply to property designated for parking at residential property, or to property designated for parking at a hotel or motel where the parking stalls or spaces are clearly marked for a specific room.
(d) It is the intent of the Legislature in the adoption of subdivision (a) to avoid causing the unnecessary stranding of motorists and placing them in dangerous situations, when traffic citations and other civil remedies are available, thereby promoting the safety of the general public.
(e) A person who violates subdivision (a) is civilly liable to the owner of the vehicle or his or her agent for two times the amount of the towing and storage charges.
Amended Sec. 5, Ch. 609, Stats. 2006. Effective January 1, 2007.

Chapter 12. Public Offenses
Article 1. Driving Offenses
(Added Ch. 940, Stats. 1981. Effective January 1, 1982.)
Application of Chapter
23100. The provisions of this Chapter apply to vehicles upon the highways and elsewhere throughout the State unless expressly provided otherwise.
Reckless Driving
23103. (a) A person who drives a vehicle upon a highway in willful or wanton disregard for the safety of persons or property is guilty of reckless driving.
(b) A person who drives a vehicle in an offstreet parking facility, as defined in subdivision (c) of Section 12500, in willful or wanton disregard for the safety of persons or property is guilty of reckless driving.
(c) Except as otherwise provided in Section 40008, persons convicted of the offense of reckless driving shall be punished by imprisonment in a county jail for not less than five days nor more than 90 days or by a fine of not less than one hundred forty-five dollars ($145) nor more than one thousand dollars ($1,000), or by both that fine and imprisonment, except as provided in Section 23104 or 23105.
Amended Sec. 16, Ch. 682, Stats. 2007. Effective January 1, 2008.
Amended Sec. 2, Ch. 685, Stats. 2010. Effective January 1, 2011.
Guilty Plea to Lesser Charge

23103.5. (a) If the prosecution agrees to a plea of guilty or nolo contendere to a charge of a violation of Section 23103 in satisfaction of, or as a substitute for, an original charge of a violation of Section 23152, the prosecution shall state for the record a factual basis for the satisfaction or substitution, including whether or not there had been consumption of an alcoholic beverage or ingestion or administration of a drug, or both, by the defendant in connection with the offense. The statement shall set forth the facts that show whether or not there was a consumption of an alcoholic beverage or the ingestion or administration of a drug by the defendant in connection with the offense.

(b) The court shall advise the defendant, prior to the acceptance of the plea offered pursuant to a factual statement pursuant to subdivision (a), of the consequences of a conviction of a violation of Section 23103 as set forth in subdivision (c).

(c) If the court accepts the defendant’s plea of guilty or nolo contendere to a charge of a violation of Section 23103 and the prosecutor’s statement under subdivision (a) states that there was consumption of an alcoholic beverage or the ingestion or administration of a drug by the defendant in connection with the offense, the resulting conviction shall be a prior offense for the purposes of Section 23540, 23546, 23550, 23560, 23566, or 23622, as specified in those sections.

(d) The court shall notify the Department of Motor Vehicles of each conviction of Section 23103 that is required under this section to be a prior offense for purposes of Section 23540, 23546, 23550, 23560, 23566, or 23622.

(e) Except as provided in paragraph (1) of subdivision (f), if the court places the defendant on probation for a conviction of Section 23103 that is required under this section to be a prior offense for purposes of Section 23540, 23546, 23550, 23560, 23566, or 23622, the court shall order the defendant to enroll in an alcohol and drug education program licensed under Chapter 9 (commencing with Section 11836) of Part 2 of Division 10.5 of the Health and Safety Code and complete, at a minimum, the educational component of that program, as a condition of probation. If compelling circumstances exist that mitigate against including the education component in the order, the court may make an affirmative finding to that effect. The court shall state the compelling circumstances and the affirmative finding on the record, and may, in these cases, exclude the educational component from the order.

(f) (1) If the court places on probation a defendant convicted of a violation of Section 23103 that is required under this section to be a prior offense for purposes of Section 23540, 23546, 23550, 23560, 23566, or 23622, and that offense occurred within 10 years of a separate conviction of a violation of Section 23103, as specified in this section, or within 10 years of a conviction of a violation of Section 23152 or 23153, the court shall order the defendant to participate for nine months or longer, as ordered by the court, in a program licensed under Chapter 9 (commencing with Section 11836) of Part 2 of Division 10.5 of the Health and Safety Code, that consists of at least 60 hours of program activities, including education, group counseling, and individual interview sessions.

(2) The court shall revoke the person’s probation, except for good cause shown, for the failure to enroll in, participate in, or complete a program specified in paragraph (1).

(g) The Department of Motor Vehicles shall include in its annual report to the Legislature under Section 1821 an evaluation of the effectiveness of the programs described in subdivisions (e) and (f) as to treating persons convicted of violating Section 23103.

Reckless Driving: Bodily Injury

23104. (a) Except as provided in subdivision (b), whenever reckless driving of a vehicle proximately causes bodily injury to a person other than the driver, the person driving the vehicle shall, upon conviction thereof, be punished by imprisonment in the county jail for not less than 30 days nor more than six months or by a fine of not less than two hundred twenty dollars ($220) nor more than one thousand dollars ($1,000), or by both the fine and imprisonment.

(b) A person convicted of reckless driving that proximately causes great bodily injury, as defined in Section 12022.7 of the Penal Code, to a person other than the driver, who previously has been convicted of a violation of Section 23103, 23104, 23105, 23109, 23109.1, 23152, or 23153, shall be punished by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code, by imprisonment in the county jail for not less than 30 days nor more than six months or by a fine of not less than two hundred twenty dollars ($220) nor more than one thousand dollars ($1,000) or by both the fine and imprisonment.

Amended Sec. 17, Ch. 682, Stats. 2007. Effective January 1, 2008.
Amended Sec. 609, Ch. 15, Stats. 2011. Effective July 1, 2011.

Reckless Driving: Specified Injuries

23105. (a) A person convicted of reckless driving in violation of Section 23103 that proximately causes one or more of the injuries specified in subdivision (b) to a person other than the driver, shall be punished by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code, or by imprisonment in a county jail for not less than 30 days nor more than six months, or by a fine of not less than two hundred twenty dollars ($220) nor more than one thousand dollars ($1,000), or by both that fine and imprisonment.

(b) This section applies to all of the following injuries:

(1) A loss of consciousness.
(2) A concussion.
(3) A bone fracture.
(4) A protracted loss or impairment of function of a bodily member or organ.
(5) A wound requiring extensive suturing.
(6) A serious disfigurement.
(7) Brain injury.
(8) Paralysis.

(c) This section does not preclude or prohibit prosecution under any other provision of law.

Amended Sec. 609, Ch. 15, Stats. 2011. Effective July 1, 2011.

Speed Contests

23109. (a) A person shall not engage in a motor vehicle speed contest on a highway. As used in this section, a motor vehicle speed contest includes a motor vehicle race against another vehicle, a clock, or other timing device. For purposes of this section, an event in which the time to cover a prescribed route of more than 20 miles is measured, but where the vehicle does not exceed the speed limits, is not a speed contest.
(b) A person shall not aid or abet in any motor vehicle speed contest on any highway.

c) A person shall not engage in a motor vehicle exhibition of speed on a highway, and a person shall not aid or abet in a motor vehicle exhibition of speed on any highway.

d) A person shall not, for the purpose of facilitating or aiding or as an incident to any motor vehicle speed contest or exhibition upon a highway, in any manner obstruct or place a barricade or obstruction or assist or participate in placing a barricade or obstruction upon any highway.

e) (1) A person convicted of a violation of subdivision (a) shall be punished by imprisonment in a county jail for not less than 24 hours nor more than 90 days or by a fine of not less than three hundred fifty-five dollars ($355) nor more than one thousand dollars ($1,000), or by both that fine and imprisonment. That person shall also be required to perform 40 hours of community service. The court may order the privilege to operate a motor vehicle suspended for 90 days to six months, as provided in paragraph (8) of subdivision (a) of Section 13352. The person’s privilege to operate a motor vehicle may be restricted for 90 days to six months to necessary travel to and from that person’s place of employment and, if driving a motor vehicle is necessary to perform the duties of the person’s employment, restricted to driving in that person’s scope of employment. This subdivision does not interfere with the court’s power to grant probation in a suitable case.

(2) If a person is convicted of a violation of subdivision (a) and that violation proximately causes bodily injury to a person other than the driver, the person convicted shall be punished by imprisonment in a county jail for not less than 30 days nor more than six months or by a fine of not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000), or by both that fine and imprisonment.

(f) (1) If a person is convicted of a violation of subdivision (a) for an offense that occurred within five years of the date of a prior offense that resulted in a conviction of a violation of subdivision (a), that person shall be punished by imprisonment in a county jail for not less than four days nor more than six months, and by a fine of not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000).

(2) If the perpetration of the most recent offense within the five-year period described in paragraph (1) proximately causes bodily injury to a person other than the driver, a person convicted of that second violation shall be imprisoned in a county jail for not less than 30 days nor more than six months and by a fine of not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000).

(3) If the perpetration of the most recent offense within the five-year period described in paragraph (1) proximately causes serious bodily injury, as defined in paragraph (4) of subdivision (f) of Section 243 of the Penal Code, to a person other than the driver, a person convicted of that second violation shall be imprisoned in the state prison, or in a county jail for not less than 30 days nor more than one year, and by a fine of not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000).

(4) The court shall order the privilege to operate a motor vehicle of a person convicted under paragraph (1), (2), or (3) suspended for a period of six months, as provided in paragraph (9) of subdivision (a) of Section 13352. In lieu of the suspension, the person’s privilege to operate a motor vehicle may be restricted for six months to necessary travel to and from that person’s place of employment and, if driving a motor vehicle is necessary to perform the duties of the person’s employment, restricted to driving in that person’s scope of employment.

(5) This subdivision does not interfere with the court’s power to grant probation in a suitable case.

(g) If the court grants probation to a person subject to punishment under subdivision (f), in addition to subdivision (f) and any other terms and conditions imposed by the court, which may include a fine, the court shall impose as a condition of probation that the person be confined in a county jail for not less than 48 hours nor more than six months. The court shall order the person’s privilege to operate a motor vehicle to be suspended for a period of six months, as provided in paragraph (9) of subdivision (a) of Section 13352 or restricted pursuant to subdivision (f).

(h) If a person is convicted of a violation of subdivision (a) and the vehicle used in the violation is registered to that person, the vehicle may be impounded at the registered owner’s expense for not less than one day nor more than 30 days.

(i) A person who violates subdivision (b), (c), or (d) shall upon conviction of that violation be punished by imprisonment in a county jail for not more than 90 days, by a fine of not more than five hundred dollars ($500), or by both that fine and imprisonment.

(j) If a person’s privilege to operate a motor vehicle is restricted by a court pursuant to this section, the court shall clearly mark the restriction and the dates of the restriction on that person’s driver’s license and promptly notify the Department of Motor Vehicles of the terms of the restriction in a manner prescribed by the department. The Department of Motor Vehicles shall place that restriction in the person’s records in the Department of Motor Vehicles and enter the restriction on a license subsequently issued by the Department of Motor Vehicles to that person during the period of the restriction.

(k) The court may order that a person convicted under this section, who is to be punished by imprisonment in a county jail, be imprisoned on days other than days of regular employment of the person, as determined by the court.

(l) This section shall be known and may be cited as the Louis Friend Memorial Act.

Amended Sec. 661, Ch. 539, Stats. 2006. Effective January 1, 2007.
Amended Sec. 3, Ch. 193, Stats. 2009. Effective July 1, 2010.
Amended Sec. 2, Ch. 301, Stats. 2010. Effective January 1, 2011.
Amended Sec.611 Ch.15, Stats. 2011. Effective 04, 4, 2011.
Amended Sec. 64, Ch. 39, Stats. 2011. Effective 06, 30, 2011.

§23109.1

Speed Contests: Specified Injuries

23109.1. (a) A person convicted of engaging in a motor vehicle speed contest in violation of subdivision (a) of Section 23109 that proximately causes one or more of the injuries specified in subdivision (b) to a person other than the driver, shall be punished by imprisonment pursuant to subdivision (b) of Section 1170 of the Penal Code, or by imprisonment in a county jail for not less than 30 days nor more than six months, or by a fine of not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000), or by both that fine and imprisonment.

(b) This section applies to all of the following injuries:

(1) A loss of consciousness.
§23109.2. (a) (1) Whenever a peace officer determines that a person was engaged in any of the activities set forth in paragraph (2), the peace officer may immediately arrest and take into custody that person and may cause the removal and seizure of the motor vehicle used in that offense in accordance with Chapter 10 (commencing with Section 22650). A motor vehicle so seized may be impounded for not more than 30 days.

(2) (A) A motor vehicle speed contest, as described in subdivision (a) of Section 23109.

(B) Reckless driving on a highway, as described in subdivision (a) of Section 23103.

(C) Reckless driving in an offstreet parking facility, as described in subdivision (b) of Section 23103.

(D) Exhibition of speed on a highway, as described in subdivision (c) of Section 23109.

(b) The registered and legal owner of a vehicle removed and seized under subdivision (a) or their agents shall be provided the opportunity for a storage hearing to determine the validity of the storage in accordance with Section 22852.

(c) (1) Notwithstanding Chapter 10 (commencing with Section 22650) or any other provision of law, an impounding agency shall release a motor vehicle to the registered owner or his or her agent prior to the conclusion of the impoundment period described in subdivision (a) under any of the following circumstances:

(A) If the vehicle is a stolen vehicle.

(B) If the person alleged to have been engaged in the motor vehicle speed contest, as described in subdivision (a), was not authorized by the registered owner of the motor vehicle to operate the motor vehicle at the time of the commission of the offense.

(C) If the registered owner of the vehicle was neither the driver nor a passenger of the vehicle at the time of the alleged violation pursuant to subdivision (a), or was unaware that the driver was using the vehicle to engage in any of the activities described in subdivision (a).

(D) If the legal owner or registered owner of the vehicle is a rental car agency.

(E) If, prior to the conclusion of the impoundment period, a citation or notice is dismissed under Section 40500, criminal charges are not filed by the district attorney because of a lack of evidence, or the charges are otherwise dismissed by the court.

(2) A vehicle shall be released pursuant to this subdivision only if the registered owner or his or her agent presents a currently valid driver’s license to operate the vehicle and proof of current vehicle registration, or if ordered by a court.

(3) If, pursuant to subparagraph (E) of paragraph (1) a motor vehicle is released prior to the conclusion of the impoundment period, neither the person charged with a violation of subdivision (a) of Section 23109 nor the registered owner of the motor vehicle is responsible for towing and storage charges nor shall the motor vehicle be sold to satisfy those charges.

(d) A vehicle seized and removed under subdivision (a) shall be released to the legal owner of the vehicle, or the legal owner’s agent, on or before the 30th day of impoundment if all of the following conditions are met:

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state, or is another person, not the registered owner, holding a security interest in the vehicle.

(2) The legal owner or the legal owner’s agent pays all towing and storage fees related to the impoundment of the vehicle. No lien sale processing fees shall be charged to a legal owner who redeems the vehicle on or before the 15th day of impoundment.

(3) The legal owner or the legal owner’s agent presents foreclosure documents or an affidavit of repossession for the vehicle.

(e) (1) The registered owner or his or her agent is responsible for all towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5.

(2) Notwithstanding paragraph (1), if the person convicted of engaging in the activities set forth in paragraph (2) of subdivision (a) was not authorized by the registered owner of the motor vehicle to operate the motor vehicle at the time of the commission of the offense, the court shall order the convicted person to reimburse the registered owner for any towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5 incurred by the registered owner to obtain possession of the vehicle, unless the court finds that the person convicted does not have the ability to pay all or part of those charges.

(3) If the vehicle is a rental vehicle, the rental car agency may require the person to whom the vehicle was rented to pay all towing and storage charges related to the impoundment and any administrative charges authorized under Section 22850.5 incurred by the rental car agency in connection with obtaining possession of the vehicle.

(4) The owner is not liable for any towing and storage charges related to the impoundment if acquittal or dismissal occurs.

(5) The vehicle may not be sold prior to the defendant’s conviction.

(6) The impounding agency is responsible for the actual costs incurred by the towing agency as a result of the impoundment should the registered owner be absolved of liability for those charges pursuant to paragraph (3) of subdivision (c). Notwithstanding this provision, nothing shall prohibit impounding agencies from making prior payment arrangements to satisfy this requirement.
(f) Any period when a vehicle is subjected to storage under this section shall be included as part of the period of impoundment ordered by the court under subdivision (h) of Section 23109.

§23109.5.  (a) In any case charging a violation of subdivision (a) of Section 23109 and where the offense occurs within five years of one or more prior offenses which resulted in conviction of violation of subdivision (a) of Section 23109, the court shall not strike any prior conviction of those offenses for purposes of sentencing in order to avoid imposing, as part of the sentence or term of probation, the minimum time of imprisonment, as provided in subdivision (f) of Section 23109, or for purposes of avoiding revocation, suspension, or imprisonment, as provided in Section 13352 or 23109.

(b) In any case charging a violation of subdivision (a) of Section 23109, the court shall obtain a copy of the driving record of the person charged from the Department of Motor Vehicles and may obtain any records from the Department of Justice or any other source to determine if one or more prior convictions of the person for violation of subdivision (a) of Section 23109 have occurred within five years of the charged offense.

§23110.  (a) Any person who throws any substance at a vehicle or any occupant thereof on a highway is guilty of a misdemeanor.

(b) Any person who with intent to do great bodily injury maliciously and willfully throws or projects any rock, brick, bottle, metal or other missile, or projects any other substance capable of doing serious bodily harm at such vehicle or occupant thereof is guilty of a felony and upon conviction shall be punished by imprisonment in the state prison.

§23111.  No person in any vehicle and no pedestrian shall throw or discharge from or upon any road or highway or adjoining area, public or private, any lighted or nonlighted cigarette, cigar, match, or any flaming or glowing substance.

This section shall be known as the Paul Buzzo Act.

§23112.5.  (a) Any person who dumps, spills, or causes the release of hazardous material, as defined by Section 353, or hazardous waste, as defined by Section 25117 of the Health and Safety Code, upon any highway shall notify the Department of the California Highway Patrol or the agency having traffic jurisdiction for that highway of the dump, spill, or release, as soon as the person has knowledge of the dump, spill, or release and notification is possible. Upon receiving notification pursuant to this section, the Department of the California Highway Patrol shall, as soon as possible, notify the Office of Emergency Services of the dump, spill, or release, except for petroleum spills of less than 42 gallons from vehicular fuel tanks.

(b) Any person who is convicted of a violation of this section shall be punished by a mandatory fine of not less than two thousand dollars ($2,000).

§23112.7.  (a) (1) A motor vehicle used for illegal dumping of waste matter on public or private property is subject to impoundment pursuant to subdivision (c).

(2) A motor vehicle used for illegal dumping of harmful waste matter on public or private property is subject to impoundment and civil forfeiture pursuant to subdivision (d).

(b) For the purposes of this section, the following terms have the following meanings:

(1) “Illegal dumping” means the willful or intentional depositing, dropping, dumping, placing, or throwing of any waste matter onto public or private property that is not expressly designated for the purpose of disposal of waste matter. “Illegal dumping” does not include the discarding of small quantities of waste matter related to consumer goods and that are reasonably understood to be ordinarily carried on or about the body of a living person, including, but not limited to, beverage containers and closures, packaging, wrappers, wastepaper, newspaper, magazines, or other similar waste matter that escapes or is allowed to escape from a container, receptacle, or package.

(2) “Waste matter” means any form of tangible matter described by any of the following:

(A) All forms of garbage, refuse, rubbish, recyclable materials, and solid waste.

(B) Dirt, soil, rock, decomposed rock, gravel, sand, or other aggregate material dumped or deposited as refuse.

(C) Abandoned or discarded furniture; or commercial, industrial, or agricultural machinery, apparatus, structure, or other container; or a piece, portion, or part of these items.

(D) All forms of liquid waste not otherwise defined in or deemed to fall within the purview of Section 25117 of the Health and Safety Code, including, but not limited to, water-based or oil-based paints, chemical solutions, water contaminated with any substance rendering it unusable for irrigation or construction, oils, fuels, and other petroleum distillates or byproducts.

(E) Any form of biological waste not otherwise designated by law as hazardous waste, including, but not limited to, body parts, carcasses, and any associated container, enclosure, or wrapping material used to dispose of these matters.
§23113

A physical substance used as an ingredient in any process, now known or hereafter developed or devised, to manufacture a controlled substance specified in Section 11054, 11055, 11056, 11057, or 11058 of the Health and Safety Code, or that is a byproduct or result of the manufacturing process of the controlled substance.

3 “Harmful waste matter” is a hazardous substance as defined in Section 374.8 of the Penal Code; a hazardous waste as defined in Section 25117 of the Health and Safety Code; waste that, pursuant to Division 30 (commencing with Section 40000) of the Public Resources Code, cannot be disposed in a municipal solid waste landfill without special handling, processing, or treatment; or waste matter in excess of one cubic yard.

(c) (1) Whenever a person, who has one or more prior convictions of Section 374.3 or 374.8 of the Penal Code that are not infractions, is convicted of a misdemeanor violation of Section 374.3 of the Penal Code, or of a violation of Section 374.8 of the Penal Code, for illegally dumping waste matter or harmful waste matter that is committed while driving a motor vehicle of which he or she is the registered owner of the vehicle, or is the registered owner’s agent or employee, the court at the time of sentencing may order the motor vehicle impounded for a period of not more than six months.

(2) In determining the impoundment period imposed pursuant to paragraph (1), the court shall consider both of the following factors:

(A) The size and nature of the waste matter dumped.

(B) Whether the dumping occurred for a business purpose.

(3) The cost of keeping the vehicle is a lien on the vehicle pursuant to Chapter 6.5 (commencing with Section 3067) of Title 14 of Part 4 of Division 3 of the Civil Code.

(4) Notwithstanding paragraph (1), a vehicle impounded pursuant to this subdivision shall be released to the legal owner or his or her agent pursuant to subdivision (b) of Section 23592.

(5) The impounding agency shall not be liable to the registered owner for the release of the vehicle to the legal owner or his or her agent when made in compliance with paragraph (4).

(6) This subdivision does not apply if there is a community property interest in the vehicle that is owned by a person other than the defendant and the vehicle is the only vehicle available to the defendant’s immediate family that may be operated on the highway with a class A, class B, or class C driver’s license.

(d) (1) Notwithstanding Section 86 of the Code of Civil Procedure and any other provision of law otherwise prescribing the jurisdiction of the court based upon the value of the property involved, whenever a person, who has two or more prior convictions of Section 374.3 or 374.8 of the Penal Code that are not infractions, is charged with a misdemeanor violation of Section 374.3 of the Penal Code, or of a violation of Section 374.8 of the Penal Code, for illegally dumping harmful waste matter, the court with jurisdiction over the offense may, upon a motion of the prosecutor or the county counsel in a criminal action, declare a motor vehicle if used by the defendant in the commission of the violation, to be a nuisance, and upon conviction order the vehicle sold pursuant to Section 23596, if the person is the registered owner of the vehicle or the registered owner’s employee or agent.

(2) The proceeds of the sale of the vehicle pursuant to this subdivision shall be distributed and used in decreasing order of priority, as follows:

(A) To satisfy all costs of the sale, including costs incurred with respect to the taking and keeping of the vehicle pending sale.

(B) To the legal owner in an amount to satisfy the indebtedness owed to the legal owner remaining as of the date of the sale, including accrued interest or finance charges and delinquency charges.

(C) To recover the costs made, incurred, or associated with the enforcement of this section, the abatement of waste matter, and the deterrence of illegal dumping.

(3) A vehicle shall not be sold pursuant to this subdivision in either of the following circumstances:

(A) The vehicle is owned by the employer or principal of the defendant and the use of the vehicle was made without the employer’s or principal’s knowledge and consent, and did not provide a direct benefit to the employer’s or principal’s business.

(B) There is a community property interest in the vehicle that is owned by a person other than the defendant and the vehicle is the only vehicle available to the defendant’s immediate family that may be operated on the highway with a class A, class B, or class C driver’s license.

Removal of Material From Highway

23113. (a) Any person who drops, dumps, deposits, places, or throws, or causes or permits to be dropped, dumped, deposited, placed, or thrown, upon any highway or street any material described in Section 23112 or in subdivision (d) of Section 23114 shall immediately remove the material or cause the material to be removed.

(b) If the person fails to comply with subdivision (a), the governmental agency responsible for the maintenance of the street or highway on which the material has been deposited may remove the material and collect, by civil action, if necessary, the actual cost of the removal operation in addition to any other damages authorized by law from the person made responsible under subdivision (a).

(c) A member of the Department of the California Highway Patrol may direct a responsible party to remove the aggregate material described in subdivision (d) of Section 23114 from a highway when that material has escaped or been released from a vehicle.

(d) Notwithstanding any other provision of law, a government agency described in subdivision (b), the Department of the California Highway Patrol, or the employees or officers of those agencies, may not be held liable for any damage to material, to cargo, or to personal property caused by a negligent act or omission of the employee or officer when the employee or officer is acting within the scope and purpose of subdivision (b) or (c). Nothing in this subdivision affects liability for purposes of establishing gross negligence or willful misconduct. This subdivision applies to the negligent performance of a ministerial act, and does not affect liability under any provision of law, including liability, if any, derived from the failure to preserve evidence in a civil or criminal action.

Spilling Loads on Highways

23114. (a) Except as provided in Subpart I (commencing with Section 393.100) of Title 49 of the Code of Federal Regulations related to hay and straw, a vehicle shall not be driven or moved on any highway unless the vehicle is so constructed, covered, or loaded as to prevent any of its contents or load other than clear water or feathers from live birds from dropping, sifting, leaking, blowing, spilling, or otherwise escaping from the vehicle.

(b) (1) Aggregate material shall only be carried in the cargo area of a vehicle. The cargo area shall not contain any holes, cracks, or openings through which that material may escape, regardless of the degree to which the vehicle is loaded, except as provided in paragraph (2).

(2) Every vehicle used to transport aggregate materials, regardless of the degree to which the vehicle is loaded, shall be equipped with all of the following:

(A) Properly functioning seals on any openings used to empty the load, including, but not limited to, bottom dump release gates and tailgates.

(B) Splash flaps behind every tire, or set of tires, regardless of the position on the truck, truck tractor, or trailer.

(C) Center flaps at a location to the rear of each bottom dump release gate as to trucks or trailers equipped with bottom dump release gates. The center flap may be positioned directly behind the bottom dump release gate and in front of the rear axle of the vehicle, or it may be positioned to the rear of the rear axle in line with the splash flaps required behind the tires. The width of the center flap may extend not more than one inch from one sidewall to the opposite sidewall of the inside tires and shall extend to within five inches of the pavement surface, and may be not less than 24 inches from the bottom edge to the top edge of that center flap.

(D) Fenders starting at the splash flap with the leading edge of the fenders extending forward at least six inches beyond the center of the axle that cover the tops of tires not already covered by the truck, truck tractor, or trailer body.

(E) Complete enclosures on all vertical sides of the cargo area, including, but not limited to, tailgates.

(F) Shed boards designed to prevent aggregate materials from being deposited on the vehicle body during top loading.

(c) Vehicles comprised of full rigid enclosures are exempt only from subparagraphs (C) and (F) of paragraph (2) of subdivision (b).

(d) For purposes of this section, “aggregate material” means rock fragments, pebbles, sand, dirt, gravel, cobbles, crushed base, asphalt, and other similar materials.

(e) (1) In addition to subdivisions (a) and (b), a vehicle may not transport any aggregate material upon a highway unless the material is covered.

(2) Vehicles transporting loads composed entirely of asphalt material are exempt only from the provisions of this section requiring that loads be covered.

(3) Vehicles transporting loads composed entirely of petroleum coke material are not required to cover their loads if they are loaded using safety procedures, specialized equipment, and a chemical surfactant designed to prevent materials from blowing, spilling, or otherwise escaping from the vehicle.

(f) A person who provides a location for vehicles to be loaded with an aggregate material or other material shall provide a location for vehicle operators to comply with this section before entering a highway.

(1) A person is exempt from the requirements of this subdivision if the location that he or she provides for vehicles to be loaded with the materials described in this subdivision has 100 yards or less between the scale houses where the trucks carrying aggregate material are weighed and the point of egress to a public road.

(2) A driver of a vehicle loaded with aggregate material leaving locations exempted from the requirements of this subdivision is authorized to operate on public roads only until that driver is able to safely cover the load at a site near the location’s point of egress to the public road. Except as provided under paragraph (4) of subdivision (e), an uncovered vehicle described in this paragraph may not operate more than 200 yards from the point of egress to the public road.

Rubbish and Recycling Vehicles

23115. (a) No vehicle transporting garbage, swill, used cans or bottles, wastepapers, waste cardboard, ashes, refuse, trash, or rubbish, or any noisome, nauseous, or offensive matter, or anything being transported for disposal or recycling shall be driven or moved upon any highway unless the load is totally covered in a manner that will prevent the load or any part of the load from spilling or falling from the vehicle.

(b) Subdivision (a) does not prohibit a rubbish vehicle from being without cover while in the process of acquiring its load if no law, administrative regulation, or local ordinance requires that it be covered in those circumstances.

(c) Vehicles transporting wastepaper, waste cardboard, or used cans or bottles, are in compliance with subdivision (a) if appropriate binders including, but not limited to, bands, wires, straps, or netting are used to prevent the load, or any part of the load, from spilling or falling from the vehicle.

(d) This section does not apply to any vehicle engaged in transporting wet waste fruit or vegetable matter, or waste products to or from a food processing establishment.

Carrying Persons in the Back of a Motor Truck

23116. (a) No person driving a pickup truck or a flatbed motortruck on a highway shall transport any person in or on the back of the truck.

(b) No person shall ride in or on the back of a truck or flatbed motortruck being driven on a highway.

(c) Subdivisions (a) and (b) do not apply if the person in the back of the truck is secured with a restraint system. The restraint system shall meet or exceed the federal motor vehicle safety standards published in Sections 571.207, 571.209, and 571.210 of Title 49 of the Code of Federal Regulations.

(d) Subdivisions (a), (b), and (c) do not apply to any person transporting one or more persons in the back of a truck or
flatted motortruck owned by a farmer or rancher, if that vehicle is used exclusively within the boundaries of lands owned or managed by that farmer or rancher, including the incidental use of that vehicle on not more than one mile of highway between one part of the farm or ranch to another part of that farm or ranch.

(e) Subdivisions (a), (b), and (c) do not apply if the person in the back of the truck or the flatted is being transported in an emergency response situation by a public agency or pursuant to the direction or authority of a public agency.

As used in this subdivision, “emergency response situation” means instances in which necessary measures are needed in order to prevent injury or death to persons or to prevent, confine, or mitigate damage or destruction to property.

(f) Subdivisions (a) and (b) do not apply if the person in the back of the truck or flatted motortruck is being transported in a parade that is supervised by a law enforcement agency and the speed of the truck while in the parade does not exceed eight miles per hour.

Carrying Animal in Motor Truck

23117. (a) No person driving a motor vehicle shall transport any animal in the back of the vehicle in a space intended for any load on the vehicle on a highway unless the space is enclosed or has side and tail racks to a height of at least 46 inches extending vertically from the floor, the vehicle has installed means of preventing the animal from being discharged, or the animal is cross tethered to the vehicle, or is protected by a secured container or cage, in a manner which will prevent the animal from being thrown, falling, or jumping from the vehicle.

(b) This section does not apply to any of the following:

(1) The transportation of livestock.

(2) The transportation of a dog whose owner either owns or is employed by a ranching or farming operation who is traveling on a road in a rural area or who is traveling to and from a livestock auction.

(3) The transportation of a dog for purposes associated with ranching or farming.

Unlicensed Repossession: Tow Vehicle Impoundment:

23118. (a) (1) A magistrate presented with the affidavit of a peace officer establishing reasonable cause to believe that a vehicle, described by vehicle type and license number, is being used or operated in violation of Section 7502.1 of the Business and Professions Code shall issue a warrant or order authorizing any peace officer to immediately seize and cause the removal of the vehicle.

(2) The warrant or court order may be entered into a computerized database.

(3) Any vehicle so impounded may be impounded until such time as the owner of the property, or the person in possession of the property at the time of the impoundment, produces proof of licensure pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or proof of an exemption from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

(4) The impounding agency, within two working days of impoundment, shall send a notice by certified mail, return receipt requested, to the legal owner of the vehicle, at an address obtained from the department, informing the owner that the vehicle has been impounded and providing the owner with a copy of the warrant or court order. Failure to notify the legal owner within two working days shall prohibit the impounding agency from charging for more than 15 days impoundment when a legal owner redeems the impounded vehicle. The law enforcement agency shall be open to issue a release to the registered owner or legal owner, or the agent of either, whenever the agency is open to serve the public for regular, nonemergency business.

(b) (1) An impounding agency shall release a vehicle to the registered owner or his or her agent prior to the end of the impoundment period and without the permission of the magistrate authorizing the vehicle’s seizure under any of the following circumstances:

(A) When the vehicle is a stolen vehicle.

(B) When the vehicle was seized under this section for an offense that does not authorize the seizure of the vehicle.

(2) No vehicle may be released under this subdivision, except upon presentation of the registered owner’s or agent’s currently valid license to operate the vehicle, and proof of current vehicle registration, or upon order of the court.

(c) (1) Whenever a vehicle is impounded under this section, the magistrate ordering the storage shall provide the vehicle’s registered and legal owners of record, or their agents, with the opportunity for a poststorage hearing to determine the validity of the storage.

(2) A notice of the storage shall be mailed or personally delivered to the registered and legal owners within 48 hours after issuance of the warrant or court order, excluding weekends and holidays, by the person or agency executing the warrant or court order, and shall include all of the following information:

(A) The name, address, and telephone number of the agency providing the notice.

(B) The location of the place of storage and a description of the vehicle, which shall include, if available, the name or make, the manufacturer, the license plate number, and the mileage of the vehicle.

(C) A copy of the warrant or court order and the peace officer’s affidavit, as described in subdivision (a).

(D) A statement that, in order to receive their poststorage hearing, the owners, or their agents, are required to request the hearing from the magistrate issuing the warrant or court order in person, in writing, or by telephone, within 10 days of the date of the notice.

(3) The poststorage hearing shall be conducted within two court days after receipt of the request for the hearing.

(4) At the hearing, the magistrate may order the vehicle released if he or she finds any of the circumstances described in subdivision (b) or (e) that allow release of a vehicle by the impounding agency.

(5) Failure of either the registered or legal owner, or his or her agent, to request, or to attend, a scheduled hearing satisfies the poststorage hearing requirement.

(6) The agency employing the peace officer who caused the magistrate to issue the warrant or court order shall be
responsible for the costs incurred for towing and storage if it is determined in the poststorage hearing that reasonable grounds for the storage are not established.

(d) The registered owner or his or her agent is responsible for all towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5.

(e) A vehicle removed and seized under subdivision (a) shall be released to the legal owner of the vehicle or the legal owner’s agent prior to the end of the impoundment period and without the permission of the magistrate authorizing the seizure of the vehicle if all of the following conditions are met:

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or any other licensed financial institution legally operating in this state or is another person, not the registered owner, holding a security interest in the vehicle.

(2) (A) The legal owner or the legal owner’s agent pays all towing and storage fees related to the seizure of the vehicle. Except as specifically authorized by this subdivision, no other fees shall be charged to the legal owner or the agent of the legal owner. No lien sale processing fees shall be charged to the legal owner who redeems the vehicle prior to the 15th day of impoundment. Neither the impounding authority nor any person having possession of the vehicle shall collect from the legal owner of the type specified in paragraph (1), or the legal owner’s agent any administrative charges imposed pursuant to Section 22850.5 unless the legal owner voluntarily requested a poststorage hearing.

(B) A person operating or in charge of a storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing, storage, and related fees by a legal or registered owner or the owner’s agent claiming the vehicle. A credit card shall be in the name of the person presenting the card. “Credit card” means “credit card” as defined in subdivision (a) of Section 1747.02 of the Civil Code, except, for the purposes of this section, credit card does not include a credit card issued by a retail seller.

(C) A person operating or in charge of a storage facility described in subparagraph (B) who violates subparagraph (B) shall be civilly liable to the owner of the vehicle or to the person who tendered the fees for four times the amount of the towing, storage, and related fees, but not to exceed five hundred dollars ($500).

(D) A person operating or in charge of the storage facility shall have sufficient funds on the premises of the primary storage facility during normal business hours to accommodate, and make change in, a reasonable monetary transaction.

(E) Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies on rates.

3. (A) The legal owner or the legal owner’s agent presents to the law enforcement agency or impounding agency, or any person acting on behalf of those agencies, a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of repossession for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. The law enforcement agency, impounding agency, or any other governmental agency, or any person acting on behalf of those agencies, shall not require the presentation of any other documents.

(B) The legal owner or the legal owner’s agent presents to the person in possession of the vehicle, or any person acting on behalf of the person in possession, a copy of the assignment, as defined in subdivision (b) of Section 7500.1 of the Business and Professions Code; a release from the one responsible governmental agency, only if required by the agency; a government-issued photographic identification card; and any one of the following as determined by the legal owner or the legal owner’s agent: a certificate of repossession for the vehicle, a security agreement for the vehicle, or title, whether paper or electronic, showing proof of legal ownership for the vehicle. The person in possession of the vehicle, or any person acting on behalf of the person in possession, shall not require the presentation of any other documents.

(C) All presented documents may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The law enforcement agency, impounding agency, or any person in possession of the vehicle, or anyone acting on behalf of them, shall not require a document to be notarized. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies, may require the agent of the legal owner to produce a photocopy or facsimile copy of its repossession agency license or registration issued pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, to demonstrate, to the satisfaction of the law enforcement agency, impounding agency, or any person in possession of the vehicle, or anyone acting on behalf of them, that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

(D) No administrative costs authorized under subdivision (a) of Section 22850.5 shall be charged to the legal owner of the type specified in paragraph (1), who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. No city, county, city and county, or state agency shall require a legal owner or a legal owner’s agent to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner’s agent. The law enforcement agency, impounding agency, or any other governmental agency, or any person acting on behalf of those agencies, may not require any documents other than those specified in this paragraph. The law enforcement agency, impounding agency, or other governmental agency, or any person acting on behalf of those agencies, may not require any documents to be notarized. The legal owner or the legal owner’s agent shall be given a copy of any documents he or she is required to sign, except for a vehicle evidentiary hold logbook. The law enforcement agency, impounding agency, or any person acting on behalf of those agencies, or any person in possession of the vehicle, may photocopy and retain the copies of any documents presented by the legal owner or legal owner’s agent.
(4) A failure by a storage facility to comply with any applicable conditions set forth in this subdivision shall not affect the right of the legal owner or the legal owner’s agent to retrieve the vehicle, provided all conditions required of the legal owner or legal owner’s agent under this subdivision are satisfied.

(f) (1) A legal owner or the legal owner’s agent that obtains release of the vehicle pursuant to subdivision (e) shall not release the vehicle to the registered owner of the vehicle or the person who was listed as the registered owner when the vehicle was impounded or the person in possession of the vehicle at the time of the impound or any agents of the registered owner until the termination of the impoundment period.

(2) The legal owner or the legal owner’s agent shall not relinquish the vehicle to the registered owner or the person who was listed as the registered owner when the vehicle was impounded until the registered owner or that owner’s agent presents his or her valid driver’s license or valid temporary driver’s license to the legal owner or the legal owner’s agent. The legal owner or the legal owner’s agent or the person in possession of the vehicle shall make every reasonable effort to ensure that the licenses presented are valid and possession of the vehicle will not be given to the driver who was involved in the original impound proceeding until the expiration of the impoundment period.

(3) Prior to relinquishing the vehicle, the legal owner may require the registered owner to pay all towing and storage charges related to the impoundment and the administrative charges authorized under Section 22850.5 that were incurred by the legal owner in connection with obtaining the custody of the vehicle.

(4) Any legal owner who knowingly releases or causes the release of a vehicle to a registered owner or the person in possession of the vehicle at the time of the impound or any agent of the registered owner in violation of this subdivision shall be guilty of a misdemeanor and subject to a fine in the amount of two thousand dollars ($2,000) in addition to any other penalties established by law.

(5) The legal owner, registered owner, or person in possession of the vehicle shall not change or attempt to change the name of the legal owner or the registered owner on the records of the department until the vehicle is released from the impound.

(g) Notwithstanding any other provision of this section, the registered owner and not the legal owner shall remain responsible for any towing and storage charges related to the impoundment and the administrative charges authorized under Section 22850.5 and any parking fines, penalties, and administrative fees incurred by the registered owner.

(h) The law enforcement agency and the impounding agency, including any storage facility acting on behalf of the law enforcement agency or impounding agency, shall comply with this section and shall not be liable to the registered owner for the improper release of the vehicle to the legal owner or the legal owner’s agent provided the release complies with the provisions of this section. The legal owner shall indemnify and hold harmless a storage facility from any claims arising out of the release of the vehicle to the legal owner or the legal owner’s agent and from any damage to the vehicle after its release, including the reasonable costs associated with defending any such claims. A law enforcement agency shall not refuse to issue a release to a legal owner or the agent of a legal owner on the grounds that it previously issued a release.

Amended Sec. 11, Ch. 522, Stats. 2009. Effective January 1, 2010.

**Hand-Held Wireless Telephone: Prohibited use**

23120. No person shall operate a motor vehicle while using a wireless telephone unless that telephone is specifically designed and configured to allow hands-free listening and talking, and is used in that manner while driving.

(b) A violation of this section is an infraction punishable by a base fine of twenty dollars ($20) for a first offense and fifty dollars ($50) for each subsequent offense.

(c) This section does not apply to a person using a wireless telephone for emergency purposes, including, but not limited to, an emergency call to a law enforcement agency, health care provider, fire department, or other emergency services agency or entity.

(d) This section does not apply to an emergency services professional using a wireless telephone while operating an authorized emergency vehicle, as defined in Section 165, in the course and scope of his or her duties.

(e) This section does not apply to a person driving a school bus or transit vehicle that is subject to Section 23125.

(f) This section does not apply to a person while driving a motor vehicle on private property.

(g) This section shall become operative on July 1, 2011.

**Temple Width of Glasses**

23120. No person shall operate a motor vehicle while wearing glasses having a temple width of one-half inch or more if any part of such temple extends below the horizontal center of the lens so as to interfere with lateral vision.

Amended Sec. 11, Ch. 322, Stats. 2009. Effective January 1, 2010.

**Electronic Wireless Communications Device: Prohibited Use**

23123. (a) A person shall not drive a motor vehicle while using an electronic wireless communications device to write, send, or read a text-based communication, unless the electronic wireless communications device is specifically designed and configured to allow voice-operated and hands-free operation to dictate, send, or listen to a text-based communication, and it is used in that manner while driving.

(b) As used in this section “write, send, or read a text-based communication” means using an electronic wireless communications device to manually communicate with any person using a text-based communication, including, but not limited to, communications referred to as a text message, instant message, or electronic mail.

(c) For purposes of this section, a person shall not be deemed to be writing, reading, or sending a text-based communication if the person reads, selects, or enters a telephone number or name in an electronic wireless communications device for the purpose of making or receiving a telephone call or if a person otherwise activates or deactivates a feature or function on an electronic wireless communications device.
(d) A violation of this section is an infraction punishable by a base fine of twenty dollars ($20) for a first offense and fifty dollars ($50) for each subsequent offense.

(e) This section does not apply to an emergency services professional using an electronic wireless communications device while operating an authorized emergency vehicle, as defined in Section 165, in the course and scope of his or her duties.

Amended Sec. 1, Ch. 92, Stats. 2012. Effective January 1, 2013.

Wireless Telephone Use: Prohibition : Persons Under 18

23124. (a) This section applies to a person under the age of 18 years.

(b) Notwithstanding Sections 23123 and 23123.5, a person described in subdivision (a) shall not drive a vehicle while using a wireless telephone or an electronic wireless communications device, even if equipped with a hands-free device.

(c) A violation of this section is an infraction punishable by a base fine of twenty dollars ($20) for a first offense and fifty dollars ($50) for each subsequent offense.

(d) A law enforcement officer shall not stop a vehicle for the sole purpose of determining whether the driver is violating subdivision (b).

(e) Subdivision (d) does not prohibit a law enforcement officer from stopping a vehicle for a violation of Section 23123 or 23123.5.

(f) This section does not apply to a person using a wireless telephone or a mobile service device for emergency purposes, including, but not limited to, an emergency call to a law enforcement agency, health care provider, fire department, or other emergency services agency or entity.

(g) For the purposes of this section, “electronic wireless communications device” includes, but is not limited to, a broadband personal communication device, specialized mobile radio device, handheld device or laptop computer with mobile data access, pager, and two-way messaging device.

Amended Sec. 1, Ch. 754, Stats. 2013. Effective January 1, 2014.

Schoolbus or Transit Vehicle Drivers: Prohibition Against Use of Wireless Telephone

23125. (a) A person may not drive a schoolbus or transit vehicle, as defined in subdivision (g) of Section 99247 of the Public Utilities Code, while using a wireless telephone.

(b) This section does not apply to a driver using a wireless telephone for work-related purposes, or for emergency purposes, including, but not limited to, an emergency call to a law enforcement agency, health care provider, fire department, or other emergency services agency or entity.

(c) Notwithstanding any other provision of law, a violation of subdivision (a) does not constitute a serious traffic violation within the meaning of subdivision (i) of Section 15210.

Trails and Paths

23127. No person shall operate an unauthorized motor vehicle on any state, county, city, private, or district hiking or horseback riding trail or bicycle path that is clearly marked by an authorized agent or owner with signs at all entrances and exits and at intervals of not more than one mile indicating no unauthorized motor vehicles are permitted on the hiking or horseback riding trail, or bicycle path, except bicycle paths which are contiguous or adjacent to a roadway dedicated solely to motor vehicle use.

For the purpose of this section “unauthorized motor vehicle” means any motor vehicle that is driven upon a hiking or horseback riding trail without the written permission of an agent or the owner of the trail or path.

This section does not apply to the operation of an authorized emergency or maintenance vehicle on a hiking or horseback riding trail or bicycle path whenever necessary in furtherance of the purpose for which the vehicle has been classed as an authorized emergency vehicle. Any person who violates this section is guilty of a misdemeanor.

Snowmobiles

23128. It is unlawful for any person to operate a snowmobile in the following manner:

(a) On a highway except as provided in Section 38025.

(b) In a careless or negligent manner so as to endanger a person or property.

(c) For the purpose of pursuing deer or other game mammal with intent to harass such animals.

(d) For the purpose of violating Section 602 of the Penal Code.

Camper Exits

23129. No person shall drive a motor vehicle upon which is mounted a camper containing any passengers unless there is at least one unobstructed exit capable of being opened from both the interior and exterior of such camper.

Operation of Modified Motorized Bicycle

23135. It is unlawful for any person to operate upon a highway any vehicle which was originally manufactured as a motorized bicycle, as defined in Section 406, and which has been modified in such a manner that it no longer conforms to the definition of a motorized bicycle.

Article 1.3. Offenses by Persons Under 21 Years of Age Involving Alcohol

PAS Persons Under 21: Preliminary Screening Device

23136. (a) Notwithstanding Sections 23152 and 23153, it is unlawful for a person under the age of 21 years who has a blood-alcohol concentration of 0.01 percent or greater, as measured by a preliminary alcohol screening test or other chemical test, to drive a vehicle. However, this section shall not be a bar to prosecution under Section 23152 or 23153 or any other provision of law.

(b) A person shall be found to be in violation of subdivision (a) if the person was, at the time of driving, under the age of 21 years, and the trier of fact finds that the person had consumed an alcoholic beverage and was driving a vehicle with a blood-alcohol concentration of 0.01 percent or greater, as measured by a preliminary alcohol screening test or other chemical test.

(c) (1) Any person under the age of 21 years who drives a motor vehicle is deemed to have given his or her consent to a preliminary alcohol screening test or other chemical test for the purpose of determining the presence of alcohol in the
§23140

person, if lawfully detained for an alleged violation of subdivision (a).

(2) The testing shall be incidental to a lawful detention and administered at the direction of a peace officer having reasonable cause to believe the person was driving a motor vehicle in violation of subdivision (a).

(3) The person shall be told that his or her failure to submit to, or the failure to complete, a preliminary alcohol screening test or other chemical test as requested will result in the suspension or revocation of the person's privilege to operate a motor vehicle for a period of one year to three years, as provided in Section 13353.1.

Amended Sec. 18, Ch. 10, Stats. 1996. Effective February 9, 1996.

(Article 1.5. Juvenile Offenses Involving Alcohol
(Added Ch. 1105, Stats. 1986. Effective January 1, 1987.)

Alcohol: Persons Under 21

23140. (a) It is unlawful for a person under the age of 21 years who has 0.05 percent or more, by weight, of alcohol in his or her blood to drive a vehicle.

(b) A person may be found to be in violation of subdivision (a) if the person was, at the time of driving, under the age of 21 years and under the influence of, or affected by, an alcoholic beverage regardless of whether a chemical test was made to determine that person's blood-alcohol concentration and if the trier of fact finds that the person had consumed an alcoholic beverage and was driving a vehicle while having a concentration of 0.05 percent or more, by weight, of alcohol in his or her blood.

(c) Notwithstanding any provision of law to the contrary, upon a finding that a person has violated this section, the clerk of the court shall prepare within 10 days after the finding and immediately forward to the department an abstract of the court in which the finding is made. That abstract shall be a public record and available for public inspection in the same manner as other records reported under Section 1803.

Amended Sec. 32, Ch. 263, Stats. 2007. Effective January 1, 2008.

(Article 2. Offenses Involving Alcohol and Drugs
(Added Ch. 940, Stats. 1981. Effective January 1, 1982.)

Driving Under Influence of Alcohol or Drugs

23152. (a) It is unlawful for a person who is under the influence of any alcoholic beverage to drive a vehicle.

(b) It is unlawful for a person who has 0.08 percent or more, by weight, of alcohol in his or her blood to drive a vehicle.

For purposes of this article and Section 34501.16, percent, by weight, of alcohol in a person's blood is based upon grams of alcohol per 100 milliliters of blood or grams of alcohol per 210 liters of breath.

In any prosecution under this subdivision, it is a rebuttable presumption that the person had 0.08 percent or more, by weight, of alcohol in his or her blood at the time of driving the vehicle if the person had 0.08 percent or more, by weight, of alcohol in his or her blood at the time of the performance of a chemical test within three hours after the driving.

(c) It is unlawful for a person who is addicted to the use of any drug to drive a vehicle. This subdivision shall not apply to a person who is participating in a narcotic treatment program approved pursuant to Article 3 (commencing with Section 11875) of Chapter 1 of Part 3 of Division 10.5 of the Health and Safety Code.

(d) It is unlawful for a person who has 0.04 percent or more, by weight, of alcohol in his or her blood to drive a commercial motor vehicle, as defined in Section 15210.

In any prosecution under this subdivision, it is a rebuttable presumption that the person had 0.04 percent or more, by weight, of alcohol in his or her blood at the time of driving the vehicle if the person had 0.04 percent or more, by weight, of alcohol in his or her blood at the time of the performance of a chemical test within three hours after the driving.

(e) It is unlawful for a person who is under the influence of any drug to drive a vehicle.

(f) It is unlawful for a person who is under the combined influence of any alcoholic beverage and drug to drive a vehicle.

(g) This section shall become operative on January 1, 2014.

Driving Under Influence of Alcohol or Drugs Causing Injury

23153. (a) It is unlawful for a person, while under the influence of any alcoholic beverage to drive a vehicle and concurrently do any act forbidden by law, or neglect any duty imposed by law in driving the vehicle, which act or neglect proximately causes bodily injury to any person other than the driver.

(b) It is unlawful for a person, while having 0.08 percent or more, by weight, of alcohol in his or her blood to drive a vehicle and concurrently do any act forbidden by law, or neglect any duty imposed by law in driving the vehicle, which act or neglect proximately causes bodily injury to any person other than the driver.

In any prosecution under this subdivision, it is a rebuttable presumption that the person had 0.08 percent or more, by weight, of alcohol in his or her blood at the time of driving the vehicle if the person had 0.08 percent or more, by weight, of alcohol in his or her blood at the time of the performance of a chemical test within three hours after driving.

(c) In proving the person neglected any duty imposed by law in driving the vehicle, it is not necessary to prove that any specific section of this code was violated.

(d) It is unlawful for a person, while having 0.04 percent or more, by weight, of alcohol in his or her blood to drive a commercial motor vehicle, as defined in Section 15210, and concurrently do any act forbidden by law or neglect any duty imposed by law in driving the vehicle, which act or neglect proximately causes bodily injury to any person other than the driver.

In any prosecution under this subdivision, it is a rebuttable presumption that the person had 0.04 percent or more, by weight, of alcohol in his or her blood at the time of driving the vehicle if the person had 0.04 percent or more, by weight, of alcohol in his or her blood at the time of the performance of a chemical test within three hours after driving.

(e) It is unlawful for a person, while under the influence of any drug, to drive a vehicle and concurrently do any act forbidden by law, or neglect any duty imposed by law in driving the vehicle, which act or neglect proximately causes bodily injury to any person other than the driver.

(f) It is unlawful for a person, while under the combined influence of any alcoholic beverage and drug, to drive a vehicle and concurrently do any act forbidden by law, or neglect any duty imposed by law in driving the vehicle, which act or neglect proximately causes bodily injury to any person other than the driver.
proximately causes bodily injury to any person other than the driver.

(g) This section shall become operative on January 1, 2014. Amended Sec. 5, Ch. 753, Stats. 2012. Effective January 1, 2014.

### Driving Under the Influence of Alcohol While on Probation for Prior DUI

23154. (a) It is unlawful for a person who is on probation for a violation of Section 23152 or 23153 to operate a motor vehicle at any time with a blood-alcohol concentration of 0.01 percent or greater, as measured by a preliminary alcohol screening test or other chemical test.

(b) A person may be found to be in violation of subdivision (a) if the person was, at the time of driving, on probation for a violation of Section 23152 or 23153, and the trier of fact finds that the person had consumed an alcoholic beverage and was driving a vehicle with a blood-alcohol concentration of 0.01 percent or greater, as measured by a preliminary alcohol screening test or other chemical test.

(c) (1) A person who is on probation for a violation of Section 23152 or 23153 who drives a motor vehicle is deemed to have given his or her consent to a preliminary alcohol screening test or other chemical test for the purpose of determining the presence of alcohol in the person, if lawfully detained for an alleged violation of subdivision (a).

(2) The testing shall be incidental to a lawful detention and administered at the direction of a peace officer having reasonable cause to believe the person is driving a motor vehicle in violation of subdivision (a).

(3) The person shall be told that his or her failure to submit to, or the failure to complete, a preliminary alcohol screening test or other chemical test as requested will result in the suspension or revocation of the person's privilege to operate a motor vehicle for a period of one year to three years, as provided in Section 13353.1.

### Chemical Test Procedure

23158. (a) Notwithstanding any other provision of law, only a licensed physician and surgeon, registered nurse, licensed vocational nurse, duly licensed clinical laboratory scientist or clinical laboratory bioanalyst, person who has been issued a “certified phlebotomy technician” certificate pursuant to Section 1246 of the Business and Professions Code, unlicensed laboratory personnel regulated pursuant to Sections 1242, 1242.5, and 1246 of the Business and Professions Code, or certified paramedic, or hospital, laboratory, or clinic employing or utilizing the services of the licensed physician and surgeon, registered nurse, licensed vocational nurse, duly licensed clinical laboratory scientist or clinical laboratory bioanalyst, or clinical laboratory bioanalyst, person who has been issued a “certified phlebotomy technician” certificate pursuant to Section 1246 of the Business and Professions Code, unlicensed laboratory personnel regulated pursuant to Sections 1242, 1242.5, and 1246 of the Business and Professions Code, or certified paramedic, or hospital, laboratory, or clinic employing or utilizing the services of the licensed physician and surgeon, registered nurse, licensed vocational nurse, duly licensed clinical laboratory scientist or clinical laboratory bioanalyst, or clinical laboratory bioanalyst, person who has been issued a “certified phlebotomy technician” certificate pursuant to Section 1246 of the Business and Professions Code, unlicensed laboratory personnel regulated pursuant to Sections 1242, 1242.5, and 1246 of the Business and Professions Code, or certified paramedic, or hospital, laboratory, or clinic employing or utilizing the services of the licensed physician and surgeon, registered nurse, licensed vocational nurse, duly licensed clinical laboratory scientist or clinical laboratory bioanalyst, or clinical laboratory bioanalyst, person who has been issued a “certified phlebotomy technician” certificate pursuant to Section 1246 of the Business and Professions Code, unlicensed laboratory personnel regulated pursuant to Sections 1242, 1242.5, and 1246 of the Business and Professions Code, or any other person of his or her own choosing administer a test in addition to any test administered at the direction of a peace officer for the purpose of determining the amount of alcohol in the person's blood at the time alleged as shown by chemical analysis of his or her blood, breath, or urine. The failure or inability to obtain an additional test by a person does not preclude the admissibility in evidence of the test taken at the direction of a peace officer.

(c) Upon the request of the person tested, full information concerning the test taken at the direction of the peace officer shall be made available to the person or the person's attorney.

(d) Notwithstanding any other provision of law, no licensed physician and surgeon, registered nurse, licensed vocational nurse, duly licensed clinical laboratory scientist or clinical laboratory bioanalyst, person who has been issued a “certified phlebotomy technician” certificate pursuant to Section 1246 of the Business and Professions Code, unlicensed laboratory personnel regulated pursuant to Sections 1242, 1242.5, and 1246 of the Business and Professions Code, or certified paramedic, or hospital, laboratory, or clinic employing or utilizing the services of the licensed physician and surgeon, registered nurse, licensed vocational nurse, duly licensed clinical laboratory scientist or clinical laboratory bioanalyst, person who has been issued a “certified phlebotomy technician” certificate pursuant to Section 1246 of the Business and Professions Code, unlicensed laboratory personnel regulated pursuant to Sections 1242, 1242.5, and 1246 of the Business and Professions Code, or certified paramedic, or hospital, laboratory, or clinic employing or utilizing the services of the licensed physician and surgeon, registered nurse, licensed vocational nurse, duly licensed clinical laboratory scientist or clinical laboratory bioanalyst, or clinical laboratory bioanalyst, person who has been issued a “certified phlebotomy technician” certificate pursuant to Section 1246 of the Business and Professions Code, unlicensed laboratory personnel regulated pursuant to Sections 1242, 1242.5, and 1246 of the Business and Professions Code, or any other person of his or her own choosing administer a test in addition to any test administered at the direction of a peace officer for the purpose of determining the amount of alcohol in the person's blood at the time alleged as shown by chemical analysis of his or her blood, breath, or urine. The failure or inability to obtain an additional test by a person does not preclude the admissibility in evidence of the test taken at the direction of a peace officer.

(e) Notwithstanding any other provision of law, a person who has been issued a “certified phlebotomy technician” certificate pursuant to Section 1246 of the Business and Professions Code and who is authorized by this section to draw blood at the request and in the presence of a peace officer for purposes of determining its alcoholic content, may do so in a jail, law enforcement facility, or medical facility, with general supervision. The “certified phlebotomy technician” shall draw blood following the policies and procedures approved by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, appropriate to the location where the blood is being drawn and in accordance with state regulations.

(f) The Certified Phlebotomy Technician I or II shall carry a current, valid identification card issued by the State Department of Health Services, attesting to the technician’s name, certificate type, and effective dates of certification, when performing blood withdrawals.

(g) As used in this section, “general supervision” means that the supervisor of the technician is licensed under the Business and Professions Code as a physician and surgeon, physician assistant, clinical laboratory bioanalyst, registered nurse, or clinical laboratory scientist, and reviews the
competency of the technician before the technician may perform blood withdrawals without direct supervision, and on an annual basis thereafter. The supervisor is also required to review the work of the technician at least once a month to ensure compliance with venipuncture policies, procedures, and regulations. The supervisor, or another person licensed as a physician and surgeon, physician assistant, clinical laboratory bioanalyst, registered nurse, or clinical laboratory scientist, shall be accessible to the location where the technician is working to provide onsite, telephone, or electronic consultation, within 30 minutes when needed.

(h) Nothing in this section shall be construed as requiring the certified phlebotomy technician who is authorized to withdraw blood by this section at the request and in the presence of a peace officer for purposes of determining alcoholic content to be associated with a clinical laboratory or to be directly supervised after competency has been established.

(i) If the test given under Section 23612 is a chemical test of urine, the person tested shall be given such privacy in the taking of the urine specimen as will ensure the accuracy of the specimen and, at the same time, maintain the dignity of the individual involved.

(j) The department, in cooperation with the State Department of Health Services or any other appropriate agency, shall adopt uniform standards for the withdrawal, handling, and preservation of blood samples prior to analysis.

(k) As used in this section, “certified paramedic” does not include any employee of a fire department.

(l) Consent, waiver of liability, or the offering to, acceptance by, or refusal of consent or waiver of liability by the person on whom a test is administered, is not an issue or relevant to the immunity from liability for medical or law enforcement personnel or other facilities designated under subdivision (d).

The Legislature finds and declares that some patients or other persons residing in a social rehabilitation facility licensed pursuant to Chapter 3 (commencing with Section 1500) of Division 2 of the Health and Safety Code for the rehabilitation of persons who have abused alcohol or drugs, shall have a motor vehicle registered in the name of that patient or other person on or near the premises of that facility unless the person or operator of an operator’s license issued pursuant to this code which is not suspended or revoked.

Rehabilitation Facilities: Vehicles on Premises

23213. No patient or other person residing in a social rehabilitation facility licensed pursuant to Chapter 3 (commencing with Section 1500) of Division 2 of the Health and Safety Code for the rehabilitation of persons who have abused alcohol or drugs, shall have a motor vehicle registered in the name of that patient or other person on or near the premises of that facility unless the person or operator has an operator’s license issued pursuant to this code which is not suspended or revoked.

Enforcement Off the Highway

23215. The department may, but shall not be required to, provide patrol or enforce the provisions of Section 23152 for offenses which occur other than upon a highway.

Legislative Intent

23216. (a) The provisions of Sections 2, 6, 7, and 10 expressly apply to the provisions of this article, and, further, for any recidivist or enhancement purpose, reference to an offense by section number is a reference to the provisions contained in that section, insofar as they were renumbered by Chapter 940 of the Statutes of 1981 without substantive change, and those provisions shall be construed as restatements and continuations thereof and not as new enactments.

(b) Any reference in the provisions of this code to a separate violation of Section 23152 shall include a separate offense under Section 23102 or 23105, as those sections read prior to January 1, 1982.

(c) Any reference in the provisions of the Vehicle Code to a separate offense under Section 23153 shall include a separate offense under Section 23101 or 23106 as those sections read prior to January 1, 1982.

(d) The provisions of this section are to be given retroactive effect.

Legislative Declarations: Mandatory Minimum Penalties for Multiple Offenses

23217. The Legislature finds and declares that some repeat offenders of the prohibition against driving under the influence of alcohol or drugs, when they are addicted or when they have too much alcohol in their systems, may be escaping the intent of the Legislature to punish the offender with progressively greater severity if the offense is repeated one or more times within a 10-year period. This situation may occur when a conviction for a subsequent offense occurs before a conviction is obtained on an earlier offense.

The Legislature further finds and declares that the timing of court proceedings should not permit a person to avoid aggravated mandatory minimum penalties for multiple separate offenses occurring within a 10-year period. It is the intent of the Legislature to provide that a person be subject to enhanced mandatory minimum penalties for multiple offenses within a period of 10 years, regardless of whether the convictions are obtained in the same sequence as the offenses had been committed.

Nothing in this section requires consideration of judgment of conviction in a separate proceeding that is entered after the judgment in the present proceeding, except as it relates to violation of probation.

Nothing in this section or the amendments to Section 23540, 23546, 23560, 23566, 23622, or 23640 made by Chapter 1205 of the Statutes of 1984 affects the penalty for a violation of Section 23152 or 23153 occurring prior to January 1, 1985.

Drinking While Driving

23220. (a) No person shall drink any alcoholic beverage while driving a motor vehicle upon any highway or on any lands described in subdivision (b).

(b) As used in subdivision (a), “lands” means those lands to which the Chappie-Z’berg Off-Highway Motor Vehicle Law of 1971 (Division 16.5 (commencing with Section 38000)) applies as to off-highway motor vehicles, as described in Section 38001.

Drinking in Motor Vehicle

23221. (a) No driver shall drink any alcoholic beverage while in a motor vehicle upon a highway.

(b) No passenger shall drink any alcoholic beverage while in a motor vehicle upon a highway.

Possession of Marijuana or Open Container While Driving

23222. (a) No person shall have in his or her possession on his or her person, while driving a motor vehicle upon a highway or on lands, as described in subdivision (b) of Section 23220, any bottle, can, or other receptacle, containing any alcoholic beverage which has been opened, or a seal broken, or the contents of which have been partially removed.

(b) Except as authorized by law, every person who possesses, while driving a motor vehicle upon a highway or on lands, as described in subdivision (b) of Section 23220, not more than one avoirdupois ounce of marijuana, other than concentrated cannabis as defined by Section 11006.5 of the Health and Safety Code, is guilty of an infraction punishable by a fine of not more than one hundred dollars ($100).

Amended Sec. 2, Ch. 708, Stats. 2010. Effective January 1, 2011.

Possession of Open Container in Motor Vehicle

23223. (a) No driver shall have in his or her possession, while in a motor vehicle upon a highway or on lands, as described in subdivision (b) of Section 23220, any bottle, can, or other receptacle, containing any alcoholic beverage that has been opened, or a seal broken, or the contents of which have been partially removed.

(b) No passenger shall have in his or her possession, while in a motor vehicle upon a highway or on lands, as described in subdivision (b) of Section 23220, any bottle, can, or other receptacle containing any alcoholic beverage that has been opened or a seal broken, or the contents of which have been partially removed.

Possession of Alcohol in Vehicle: Person Under 21

23224. (a) No person under the age of 21 years shall knowingly drive any motor vehicle carrying any alcoholic beverage, unless the person is accompanied by a parent, responsible adult relative, any other adult designated by the parent, or legal guardian for the purpose of transportation of an alcoholic beverage, or is employed by a licensee under the Alcoholic Beverage Control Act (Division 9 (commencing with Section 23000) of the Business and Professions Code), and is driving the motor vehicle during regular hours and in the course of the person's employment. If the driver was unaccompanied, he or she shall have a complete defense if he or she was following, in a timely manner, the reasonable instructions of his or her parent, legal guardian, responsible adult relative or adult designee relating to disposition of the alcoholic beverage.

(c) If the vehicle used in any violation of subdivision (a) or (b) is registered to an offender who is under the age of 21 years, the vehicle may be impounded at the owner's expense for not less than one day nor more than 30 days for each violation.

(d) Any person under 21 years of age convicted of a violation of this section is subject to Section 13202.5.

(e) Any person convicted for a violation of subdivision (a) or (b) is guilty of a misdemeanor and shall be punished upon conviction by a fine of not more than one thousand dollars ($1,000) or by imprisonment in the county jail for not more than six months, or by both that fine and imprisonment.

Amended Sec. 1, Ch. 690, Stats. 1996. Effective January 1, 1997.

Storage of Opened Container

23225. (a) (1) It is unlawful for the registered owner of any motor vehicle to keep in a motor vehicle, when the vehicle is upon any highway or on lands, as described in subdivision (b) of Section 23220, any bottle, can, or other receptacle containing any alcoholic beverage that has been opened, or a seal broken, or the contents of which have been partially removed, unless the container is kept in the trunk of the vehicle.

(b) If the vehicle is not equipped with a trunk and is not an off-highway motor vehicle subject to identification, as defined in Section 38012, the bottle, can, or other receptacle described in paragraph (1) shall be kept in some other area of the vehicle that is not normally occupied by the driver or passengers. For the purposes of this paragraph, a utility compartment or glove compartment shall be deemed to be within the area occupied by the driver and passengers.

(c) If the vehicle is not equipped with a trunk and is an off-highway motor vehicle subject to identification, as defined in subdivision (a) of Section 38012, the bottle, can, or other receptacle described in paragraph (1) shall be kept in a locked container. As used in this paragraph, “locked container” means a secure container that is fully enclosed and locked by a padlock, key lock, combination lock, or similar locking device.

(b) Subdivision (a) is also applicable to a driver of a motor vehicle if the registered owner is not present in the vehicle.

(c) This section shall not apply to the living quarters of a housecar or camper.

Storage of Opened Container in Passenger Compartment

23226. (a) It is unlawful for any driver to keep in the passenger compartment of a motor vehicle, when the vehicle is upon any highway or on lands, as described in subdivision (b) of Section 23220, any bottle, can, or other receptacle containing any alcoholic beverage that has been opened, or a seal broken, or the contents of which have been partially removed.

(b) It is unlawful for any passenger to keep in the passenger compartment of a motor vehicle, when the vehicle is upon any highway or on lands, as described in subdivision (b) of Section 23220, any bottle, can, or other receptacle containing any alcoholic beverage that has been opened or a seal broken, or the contents of which have been partially removed.

(c) This section shall not apply to the living quarters of a housecar or camper.

Possession of Alcoholic Beverages: Exceptions

23229. (a) Except as provided in Section 23229.1, Sections 23221 and 23223 do not apply to passengers in any bus, taxicab, or limousine for hire licensed to transport passengers pursuant to the Public Utilities Code or proper local authority, or the living quarters of a housecar or camper.

(b) Except as provided in Section 23229.1, Section 23225 does not apply to the driver or owner of a bus, taxicab, or limousine for hire licensed to transport passengers pursuant to the Public Utilities Code or proper local authority.

(c) This section shall become operative on July 1, 1989.

Possession of Alcohol in Limousine: Passengers Under Age 21

23229.1. (a) Subject to subdivision (b), Sections 23223 and 23225 apply to any driver providing transportation services on a prearranged basis as a charter-party carrier of passengers, as defined in Section 5360 of the Public Utilities Code, when the driver of the vehicle transports any passenger under 21 years of age and fails to comply with the requirements of Section 5384.1 of the Public Utilities Code.

(b) For purposes of subdivision (a), it is not a violation of Section 23225 for any driver providing transportation services on a prearranged basis as a charter-party carrier of passengers that is licensed pursuant to the Public Utilities Code to keep any bottle, can, or other receptacle containing any alcoholic beverage in a locked utility compartment within the area occupied by the driver and passengers.

(c) In addition to the requirements of Section 1803, every clerk of a court in which any driver in subdivision (a) was convicted of a violation of Section 23225 shall prepare within 10 days after conviction, and immediately forward to the Public Utilities Commission at its office in San Francisco, an abstract of the record of the court covering the case in which the person was convicted. If sentencing is not pronounced in conjunction with the conviction, the abstract shall be forwarded to the commission within 10 days after sentencing, and the abstract shall be certified, by the person required to prepare it, to be true and correct. For the purposes of this subdivision, a forfeiture of bail is equivalent to a conviction.

Amended Sec. 3, Ch. 263, Stats. 2007. Effective January 1, 2008.
Amended Sec. 6, Ch. 461, Stats. 2012. Effective January 1, 2013.

Article 4 Ignition Interlock Device

Ignition Interlock Device Prohibitions

23247. (a) It is unlawful for a person to knowingly rent, lease, or lend a motor vehicle to another person known to have had his or her driving privilege restricted as provided in Section 13352, 23575, or 23700, unless the vehicle is equipped with a functioning, certified ignition interlock device. A person, whose driving privilege is restricted pursuant to Section 13352, 23575, or 23700 shall notify any other person who rents, leases, or loans a motor vehicle to him or her of the driving restriction imposed under that section.

(b) It is unlawful for any person whose driving privilege is restricted pursuant to Section 13352, 23575, or 23700 to request or solicit any other person to blow into an ignition interlock device or to start a motor vehicle equipped with the device for the purpose of providing the person so restricted with an operable motor vehicle.

(c) It is unlawful to blow into an ignition interlock device or to start a motor vehicle equipped with the device for the purpose of providing an operable motor vehicle to a person whose driving privilege is restricted pursuant to Section 13352, 23575, or 23700.

(d) It is unlawful to remove, bypass, or tamper with, an ignition interlock device.

(e) It is unlawful for any person whose driving privilege is restricted pursuant to Section 13352, 23575, or 23700 to operate any vehicle not equipped with a functioning ignition interlock device.

(f) Any person convicted of a violation of this section shall be punished by imprisonment in the county jail for not more than six months or by a fine of not more than five thousand dollars ($5,000), or by both that fine and imprisonment.

(g) (1) If any person whose driving privilege is restricted pursuant to Section 13352 is convicted of a violation of subdivision (e), the court shall notify the Department of Motor Vehicles, which shall immediately terminate the restriction and shall suspend or revoke the person's driving privilege for the remaining period of the originating suspension or revocation and until all reinstatement requirements in Section 13352 are met.

(2) If any person who is restricted pursuant to subdivision (a) or (l) of Section 23575 or Section 23700 is convicted of a violation of subdivision (e), the department shall suspend the person's driving privilege for one year from the date of the conviction.

(h) Notwithstanding any other provision of law, if a vehicle in which an ignition interlock device has been installed is impounded, the manufacturer or installer of the device shall have the right to remove the device from the vehicle during normal business hours. No charge shall be imposed for the removal of the device nor shall the manufacturer or installer be liable for any removal, towing, impoundment, storage, release, or administrative costs or penalties associated with the impoundment. Upon request, the person seeking to remove the device shall present documentation to justify removal of the device from the vehicle. Any damage to the vehicle resulting from the removal of the device is the responsibility of the person removing it.

Article 5 Alcohol and Drug Problem Assessment Program

Legislative Intent

23249.50. (a) The Legislature finds and declares all of the following:

1. Driving under the influence of an alcoholic beverage or a drug is a serious problem, constituting the largest group of misdemeanor violations in many counties.

2. Studies of first offenders have found that more than half of first offenders are alcoholics or problem drinkers. There are higher percentages of problem drinkers among second offenders than among first offenders.

3. As the link between the health and legal aspects of the problem has become recognized, the courts have sought more information on a presentence basis in determining the appropriate sentence.

4. Laws relating to driving under the influence of an alcoholic beverage or a drug allow the courts to order a
presentence investigation to determine whether a person can benefit from an education, training, or treatment program. The Legislature thus finds that, to adequately assess whether an individual arrested for driving under the influence of an alcoholic beverage or a drug is chemically dependent, it is important to develop and implement screening programs in order to continue to address the problem of driving under the influence of alcoholic beverages or drugs in the state.

(b) It is therefore the intent of the Legislature to establish an additional procedure to assist the courts in the use of presentence investigations of individuals convicted of driving under the influence of an alcoholic beverage or a drug and to enable the courts to make appropriate dispositions in these cases. As part of this process, the courts should obtain and consider a presentence investigation report detailing the defendant’s driving and criminal record, and, where possible, an alcohol or drug problem assessment report. In all cases, an alcohol or drug problem assessment report should be completed by qualified personnel prior to the determination of an education or treatment plan and subsequent sentencing by the courts.

CHAPTER 13. VEHICULAR CROSSINGS AND TOLL HIGHWAYS
(Amended Ch. 1241, Stats. 1992. Effective January 1, 1993.)

Application of Chapter

23250. All of the provisions of this code not inconsistent with the provisions of this Chapter shall be applicable to vehicular crossings and toll highways. This chapter shall control over any provision of this code inconsistent with this chapter.

Amended Sec. 72, Ch. 1154, Stats. 1996. Effective September 30, 1996.

Authority of the California Highway Patrol: Vehicular Crossings and Toll Highways

23251. (a) The Department of the California Highway Patrol shall provide for proper and adequate policing of all toll highways and all vehicular crossings to ensure the enforcement thereof of this code and of any other law relating to the use and operation of vehicles upon toll highways, highways, or vehicular crossings, and of the rules and regulations of the Department of Transportation in respect thereto, and to cooperate with the Department of Transportation to the end that vehicular crossings be operated at all times in a manner as to carry traffic efficiently. The authority of the Department of the California Highway Patrol is exclusive except as to the authority conferred by law upon the Department of Transportation in respect to vehicular crossings.

(b) Notwithstanding subdivision (a), a private operator of a toll highway may make temporary arrangements, not to exceed 30 days, for traffic law enforcement services with an agency that employs peace officers as described in Section 830.1 of the Penal Code, if the Department of the California Highway Patrol cannot fulfill its responsibilities as described in this section, as determined by the Secretary of the Business, Transportation and Housing Agency.

(c) The services provided by the Department of the California Highway Patrol for all toll highways that are operated by a private entity shall be reimbursed pursuant to Section 30809.1 of the Streets and Highways Code. If the private operator of a toll highway and the Department of the California Highway Patrol reach an impasse in negotiating an agreement for reimbursement, the Secretary of the Business, Transportation and Housing Agency shall assist in resolving the impasse.

Authority of Department of Transportation Personnel

23252. The chief of toll services, captains, lieutenants, and sergeants employed by the Department of Transportation shall have the powers and authority of peace officers as listed in Section 830.4 of the Penal Code while employed on any vehicular crossing or as may be necessary to the performance of their duties while not upon such vehicular crossing. Captains, lieutenants, and sergeants so employed shall wear, while on duty, a uniform which shall be distinctly different from that of the California Highway Patrol, to be specified by the Director of Transportation.

Obedience to Officers

23253. All persons in, or upon, any toll highway or vehicular crossing shall at all times comply with any lawful order, signal, or direction by voice or hand of any member of the California Highway Patrol or an employee of the Department of Transportation who is a peace officer.

Vehicular Crossing

23254. A “vehicular crossing” is any toll bridge or toll highway crossing and the approaches thereto, constructed or acquired by the Department of Transportation under the provisions of the California Toll Bridge Authority Act.

Approach

23255. An “approach” is that portion of a state highway leading to or from a toll bridge or toll highway crossing which lies between one end of the bridge or crossing and the nearest intersection of a highway with the state highway. A ramp or other structure designed exclusively for use in connection with a toll bridge or toll highway crossing shall not be deemed an intersecting highway but is a part of the approach.

Article 2. Towing on Vehicular Crossings

Unauthorized Towing; Maximum Towing Fee; Permits

23270. (a) No person shall commence to tow any vehicle or other object on any vehicular crossing unless authorized to do so by the Department of Transportation and unless the towing is done by means of a tow truck as defined in Section 615. No person, other than a member of the California Highway Patrol or an employee of the Department of Transportation employed by the California Highway Patrol, shall by means of pushing with another vehicle, propel any vehicle or object on a vehicular crossing. No person other than an employee of the Department of Transportation, shall, on any vehicular crossing, tow any vehicle or other object except a vehicle or object constructed and designed to be towed by a vehicle of a type similar to that being used for this purpose.

(b) The California Transportation Commission shall, by regulation, establish the maximum towing fee which may be charged by any person authorized to tow a vehicle pursuant to
§23271

Disposition of Towed Vehicles; Charges for Fuel

23272. When any vehicle or object on any vehicular crossing, upon which towing service is maintained, is stopped for any reason and is obstructing or may obstruct traffic, the vehicle or object shall be towed by the towing service either to the nearest property of the Department of Transportation designated for the parking or storing of vehicles, or to a suitable parking location on a public street or highway and thereupon left in the custody of the owner or operator of the vehicle or object, or his agent, or, if no owner, operator, or agent is present, or if an owner, operator, or agent so requests, to a public garage or off-street parking facility. The department may prescribe the limits within which the towing service shall be operated.

Notwithstanding the foregoing provisions, the department may furnish and deliver fuel to vehicles, the supply of which is exhausted, or change tires, and may charge a reasonable sum for the services and materials furnished or, if the department determines it safe and advisable, and the owner or operator of the vehicle or object so requests, it may be towed from the vehicular crossing. The Department of Transportation may prescribe and collect reasonable rates for towing services furnished.

Inapplicability of Tow Car Requirements

23273. Sections 24605, 25253, 27700, and 27907 do not apply to vehicles operated by the Department of Transportation pursuant to this article.

Article 3. Tolls and Other Charges

Signs

23300. The Department of Transportation shall erect appropriate signs at each entrance to a vehicular crossing to notify traffic that it is entering upon a vehicular crossing.

Toll on Crossings

23301. Except as provided in Section 23301.5, each vehicle that enters into or upon a vehicular crossing immediately becomes liable for those tolls and other charges as may from time to time be prescribed by the California Transportation Commission.

Emergency Vehicle Exemption from Tolls

23301.5. (a) An authorized emergency vehicle is exempt from any requirement to pay a toll or other charge on a vehicular crossing, toll highway, or high-occupancy toll (HOT) lane, including the requirements of Section 23301, if all of the following conditions are satisfied:

1. The authorized emergency vehicle is properly displaying an exempt California license plate, and is properly identified or marked as an authorized emergency vehicle, including, but not limited to, displaying an external surface-mounted red warning light, blue warning light, or both, and displaying public agency identification, including, but not limited to, “Fire Department,” “Sheriff,” or “Police.”

2. The vehicle is being driven while responding to or returning from an urgent or emergency call, engaged in an urgent or emergency response, or engaging in a fire station coverage assignment directly related to an emergency response.

(b) For purposes of this paragraph, an “urgent” response or call means an incident or circumstance that requires an immediate response to a public safety-related incident, but does not warrant the use of emergency warning lights. “Urgent” does not include any personal use, commuting, training, or administrative uses.

(c) Notwithstanding subparagraph (A), an authorized emergency vehicle, when returning from an urgent or emergency call, or from being engaged in an urgent or emergency response, or from engaging in a fire station coverage assignment directly related to an emergency response, shall not be exempt from any requirement to pay a toll or other charge imposed while traveling on a high-occupancy toll (HOT) lane.

3. The driver of the vehicle determines that the use of the toll facility shall likely improve the availability or response and arrival time of the authorized emergency vehicle and its delivery of essential public safety services.

(b) If the operator of a toll facility elects to send a bill or invoice to the public agency for the use of the toll facility by an authorized emergency vehicle, exempt pursuant to subdivision (a), the fire chief, police chief, county sheriff, head of the public agency, or his or her designee, is authorized to certify in writing that the authorized emergency vehicle was responding to or returning from an emergency call or response and is exempt from the payment of the toll or other charge in accordance with this section. The letter shall be accepted by the toll operator in lieu of payment and is a public document.

(c) An authorized emergency vehicle that does not comply with this section is not exempt from the requirement to pay a toll or other charge on a toll highway, vehicular crossing, or high-occupancy toll (HOT) lane. Upon information and belief of the toll operator that an authorized emergency vehicle is not in compliance with this section, the fire chief, police chief, county sheriff, head of the public agency, or his or her designee, upon the written request of the owner or operator of the toll facility, shall provide or otherwise make accessible to the toll operator the dispatch records or log books relevant to the time
Failure to Pay Tolls

costs shall be added above the posted pay-by-plate toll amount. payment, administrative costs shall be incorporated into the fees that will be imposed on the owner for pay-by-plate toll vehicle owner that specifies in advance any administrative except where the issuing agency has an agreement with a issuing agency's policies, or other methods of communication. advertising, public meeting or disclosure as required by the information on the issuing agency's Internet Web site, media Department of Transportation's approved signage, posting of information on how pay-by-plate toll payment works, toll amount in the same manner as it communicates other toll plate toll payment as described in subdivision (e) of section 23302. (a) (1) It is unlawful for a driver to fail to pay tolls or other charges, it is prima facie evidence of a violation of this section for a person to drive a vehicle onto any vehicular crossing or toll highway without either lawful money of the United States in the driver's immediate possession in an amount sufficient to pay the prescribed tolls or other charges due from that driver or a transponder or other electronic toll payment device associated

Pay-by-Plate Toll Payment

23302. (a) (1) It is unlawful for a driver to fail to pay tolls or other charges on any vehicular crossing or toll highway. Except as otherwise provided in subdivision (b), (c), or (d), it is prima facie evidence of a violation of this section for a person to drive a vehicle onto any vehicular crossing or toll highway without either lawful money of the United States in the driver's immediate possession in an amount sufficient to pay the prescribed tolls or other charges due from that driver or a transponder or other electronic toll payment device associated with a valid Automatic Vehicle Identification account with a balance sufficient to pay those tolls.

(2) Except as specified in paragraph (3), if a transponder or other electronic toll payment device is used to pay tolls or other charges due, the device shall be located in or on the vehicle in a location so as to be visible for the purpose of enforcement at all times when the vehicle is located on the vehicular crossing or toll highway. Where required by the operator of a vehicular crossing or toll highway, this requirement applies even if the operator offers free travel or nontoll accounts to certain classes of users.

(3) If a motorcyclist uses a transponder or other electronic toll payment device to lawfully enter a vehicle crossing or toll highway, the motorcyclist shall use any one of the following methods as long as the transponder or device is able to be read by the toll operator's detection equipment:

(A) Place the transponder or other electronic toll payment device in the motorcyclist's pocket.

(B) Place the transponder or other electronic toll payment device inside a cycle net that drapes over the gas tank of the motorcycle.

(C) Mount the transponder or other electronic toll payment device on license plate devices provided by the toll operator, if the toll operator provides those devices.

(D) Keep the transponder or other electronic toll payment device in the glove or storage compartment of the motorcycle.

(E) Mount the transponder or other electronic toll payment device on the windshield of the motorcycle.

(b) For vehicular crossings and toll highways that use electronic toll collection as the only method of paying tolls or other charges, it is prima facie evidence of a violation of this section for a driver to drive a vehicle onto the vehicular crossing or toll highway without a transponder or other electronic toll payment device associated with a valid Automatic Vehicle Identification account with a balance sufficient to pay those tolls.

(c) For vehicular crossings and toll highways where the issuing agency, as defined in Section 40250, permits pay-by-plate payment of tolls and other charges, in accordance with policies adopted by the issuing agency, it is prima facie evidence of a violation of this section for a driver to drive a vehicle onto the vehicular crossing or toll highway without at least one of the following:

(1) Lawful money of the United States in the driver's immediate possession in an amount sufficient to pay the prescribed tolls or other charges due from that person.

(2) A transponder or other electronic toll payment device associated with a valid Automatic Vehicle Identification account with a balance sufficient to pay those tolls.

(3) Valid vehicle license plates properly attached pursuant to Section 4850.5 or 5200 to the vehicle in which that driver enters onto the vehicular crossing or toll highway.

(d) For vehicular crossings and toll highways where the issuing agency, as defined in Section 40250, permits pay-by-plate payment of tolls and other charges in accordance with policies adopted by the issuing agency, and where electronic toll collection is the only other method of paying tolls or other charges, it is prima facie evidence of a violation of this section for a driver to drive a vehicle onto the vehicular crossing or toll highway without either a transponder or other electronic toll
payment device associated with a valid Automatic Vehicle Identification account with a balance sufficient to pay those tolls or valid vehicle license plates properly attached to the vehicle pursuant to Section 4850.5 or 5200 in which that driver enters onto the vehicular crossing or toll highway.

(e) As used in this article, “pay-by-plate toll payment” means an issuing agency’s use of on-road vehicle license plate identification recognition technology to accept payment of tolls in accordance with policies adopted by the issuing agency.

(f) This section does not require an issuing agency to offer pay-by-plate toll processing as a method for paying tolls.

Amended Sec. 1, Ch. 81, Stats. 2012. Effective January 1, 2013.

Toll Evasion: Penalties

23302.5. (a) No person shall evade or attempt to evade the payment of tolls or other charges on any vehicular crossing or toll highway.

(b) A violation of subdivision (a) is subject to civil penalties and is neither an infraction nor a public offense, as defined in Section 15 of the Penal Code. The enforcement of those civil penalties shall be governed by the civil administrative procedures set forth in Article 4 (commencing with Section 40250) of Chapter 1 of Division 17.

Amended Sec. 1, Ch. 81, Stats. 2012. Effective January 1, 2013.

Liens

23303. The Department of Transportation shall have a lien and may enforce such lien, as provided in Chapter 6.5 (commencing with Section 3067) of Title 14 of Part 4 of Division 3 of the Civil Code, for all tolls and charges provided by this chapter.

Article 4. Special Traffic Regulations

Animals, Vehicles, Bicycles, and Motorized Bicycles

23330. Except where a special permit has been obtained from the Department of Transportation under the provisions of Article 6 (commencing with Section 35780) of Chapter 5 of Division 15, none of the following shall be permitted on any vehicular crossing:

(a) Animals while being led or driven, even though tethered or harnessed.

(b) Bicycles, motorized bicycles, or motorized scooters, unless the department by signs indicates that bicycles, motorized bicycles, or motorized scooters, or any combination thereof, are permitted upon all or any portion of the vehicular crossing.

(c) Vehicles having a total width of vehicle or load exceeding 102 inches.

(d) Vehicles carrying items prohibited by regulations promulgated by the Department of Transportation.

Pedestrians

23331. Pedestrians shall not be permitted upon any vehicular crossing, unless unobstructed sidewalks of more than three feet in width are constructed and maintained and signs indicating that pedestrians are permitted are in place.

Trespass Prohibited

23332. It is unlawful for any person to be upon any portion of a vehicular crossing which is not intended for public use without the permission of the Department of Transportation. This section does not apply to a person engaged in the operation, maintenance, or repair of a vehicular crossing or any facility thereon nor to any person attempting to effect a rescue.

Stopping and Parking

23333. No vehicle shall stop, stand, or be parked in or upon any vehicular crossing except:

(a) When necessary to avoid injury or damage to persons or property.

(b) When necessary for the repair, maintenance or operation of a publicly owned toll bridge.

(c) In compliance with the direction of a member of the California Highway Patrol or an employee of the Department of Transportation who is a peace officer or with the direction of a sign or signal.

(d) In such places as may be designated by the Director of Transportation.

Adoption of Traffic Rules

23334. The Department of Transportation may adopt rules and regulations not inconsistent with this Chapter for the control of traffic on any vehicular crossing to aid and insure the safe and orderly flow of traffic, and shall, so far as practicable, notify the public of the rules and regulations by signs on the vehicular crossing.

Publication of Traffic Rules

23335. The Department of Transportation shall cause to be published and made available to the public at the tollgates of each vehicular crossing copies of those traffic laws and rules and regulations particularly applicable thereto.

Violation of Rules and Regulations

23336. It is unlawful to violate any rules or regulations adopted under Section 23334, notice of which has been given either by a sign on a vehicular crossing or by publication as provided in Section 23335.
DIVISION 11.5. SENTENCING FOR DRIVING WHILE UNDER THE INFLUENCE

CHAPTER 1. COURT IMPOSED PENALTIES: PERSONS LESS THAN 21 YEARS OF AGE

DUI Penalties for Persons Under 21 Years of Age

23500. This Chapter applies to the imposition of penalties and sanctions by the courts on persons who were less than 21 years of age at the time of the commission of the driving while under the influence offenses described in Chapter 12 (commencing with Section 23100) of Division 11.

Article 2. Penalties for a Violation of Section 23140

DUI Penalties for Persons Under 21 Years of Age: Driving-Under-the-Influence-Program

23502. (a) Notwithstanding any other provision of law, if a person who is at least 18 years of age is convicted of a first violation of Section 23140, in addition to any penalties, the court shall order the person to attend a program licensed under Section 11836 of the Health and Safety Code, subject to a fee schedule developed under paragraph (2) of subdivision (b) of Section 11837.4 of the Health and Safety Code.

(b) The attendance in a licensed driving-under-the-influence program required under subdivision (a) shall be as follows:

(1) If, within 10 years of the current violation of Section 23140, the person has not been convicted of a separate violation of Section 23140, 23152, or 23153, or of Section 23103, with a plea of guilty under Section 23103.5, or of Section 655 of the Harbors and Navigation Code, or of Section 191.5 of, or subdivision (a) of Section 192.5 of, the Penal Code, the person shall complete, at a minimum, the education component of that licensed driving-under-the-influence program.

(2) If the person does not meet the requirements of paragraph (1), the person shall complete, at a minimum, the program described in paragraph (1) of subdivision (c) of Section 11837 of the Health and Safety Code.

(c) The person’s privilege to operate a motor vehicle shall be suspended by the department as required under Section 13352.6, and the court shall require the person to surrender his or her driver’s license to the court in accordance with Section 13550.

(d) The court shall advise the person at the time of sentencing that the driving privilege will not be restored until the person has provided the department with proof satisfactory to the department that the person has successfully completed the driving-under-the-influence program required under this section.

Amended Sec. 32, Ch. 747, Stats. 2007. Effective January 1, 2008.

Article 3. Youthful Drunk Driver Visitation Program

Title

23509. This Article shall be known and may be cited as the “Youthful Drunk Driver Visitation Program Act.”

Legislative Intent: Visitation Program

23510. The Legislature finds and declares all of the following:

(a) Young drivers often do not realize the consequences of drinking alcohol or ingesting any other drugs, whether legal or not, and driving a motor vehicle while their physical capabilities to drive safely are impaired by those substances.

(b) Young drivers who use alcohol or other drugs are likely to become dependent on those substances and prompt intervention is needed to protect other persons, as well as the young driver, from death or serious injury.

(c) The conviction of a young driver for driving under the influence of an alcoholic beverage, a drug, or both, identifies that person as a risk to the health and safety of others, as well as that young driver, because of the young driver’s inability to control his or her conduct.

(d) It has been demonstrated that close observation of the effects on others of alcohol and other drugs, both chronic and acute, by a young driver convicted of driving under the influence has a marked effect on recidivism and should therefore be encouraged by the courts, prehospital emergency medical care personnel, and other officials charged with cleaning up the carnage and wreckage caused by drunk drivers.

(e) The program prescribed in this Article provides guidelines for the operation of an intensive program to discourage recidivism by convicted young drunk drivers.

Visitation Program: Defined

23512. For the purposes of this article, “program” means the Youthful Drunk Driver Visitation Program prescribed in this article.

Participation in Program as a Condition of Probation

23514. (a) If a person is found to be in violation of Section 23140, is convicted of, or is adjudged a ward of the juvenile court for, a violation of Section 21200.5, 23140, or 23152 punishable under Section 23536, or Section 23220, 23221, or 23222, subdivision (a) or (b) of Section 23224, or Section 23225 or 23226, and is granted probation, the court may order, with the consent of the defendant or ward, as a term and condition of probation in addition to any other term and condition required or authorized by law, that the defendant or ward participate in the program.

(b) The court shall give preference for participation in the program to defendants or wards who were less than 21 years of age at the time of the offense if the facilities of the program in the jurisdiction are limited to fewer than the number of defendants or wards eligible and consenting to participate.

(c) The court shall require that the defendant or ward not drink any alcoholic beverage at all before reaching the age of 21 years and not use illegal drugs.

Suitability for Program

23516. The court shall investigate and consult with the defendant or ward, defendant’s or ward’s counsel, if any, and any proposed supervisor of a visitation under the program,
and the court may consult with any other person whom the court finds may be of value, including, but not limited to, the defendant’s or ward’s parents or other family members, in order to ascertain that the defendant or ward is suitable for the program, that the visitation will be educational and meaningful to the defendant or ward, and that there are no physical, emotional, or mental reasons to believe the program would not be appropriate or would cause any injury to the defendant or ward.

**Court-Required Visitation**

23517. (a) To the extent that personnel and facilities are made available to the court, the court may include a requirement for supervised visitation by the defendant or ward to all, or any, of the following:

(1) A trauma facility, as defined in Section 1798.160 of the Health and Safety Code, a base hospital designated pursuant to Section 1798.100 or 1798.101 of the Health and Safety Code, or a general acute care hospital having a basic emergency medical services special permit issued pursuant to subdivision (c) of Section 1277 of the Health and Safety Code that regularly receives victims of vehicle accidents, between the hours of 10 p.m. and 2 a.m. on a Friday or Saturday night to observe appropriate victims of vehicle accidents involving drinking drivers, under the supervision of any of the following:

(A) A registered nurse trained in providing emergency trauma care or prehospital advanced life support.

(B) An emergency room physician.

(C) An emergency medical technician-paramedic or an emergency medical technician II.

(2) A facility that cares for advanced alcoholics, such as a chemical dependency recovery hospital, as defined in Section 1250.3 of the Health and Safety Code, to observe persons in the terminal stages of alcoholism or drug abuse, under the supervision of appropriately licensed medical personnel.

(3) If approved by the county coroner, the county coroner’s office or the county morgue to observe appropriate victims of vehicle accidents involving drinking drivers, under the supervision of the coroner or a deputy coroner.

(b) As used in this section, “appropriate victims” means victims whose condition is determined by the visitation supervisor to demonstrate the results of accidents involving drinking drivers without being excessively gruesome or traumatic to the probationer.

(c) If persons trained in counseling or substance abuse are made available to the court, the court may coordinate the visitation program or the visitations to appropriately licensed medical personnel.

(d) Any visitation shall include, before any observation of victims or disabled persons by the probationer, a comprehensive counseling session with the visitation supervisor at which the supervisor shall explain and discuss the experiences which may be encountered during the visitation in order to ascertain whether the visitation is appropriate for the probationer.

(e) If at any time, whether before or during a visitation, the supervisor of the probationer determines that the visitation may be or is traumatic or otherwise inappropriate for the probationer, or is uncertain whether the visitation may be traumatic or inappropriate, the visitation shall be terminated without prejudice to the probationer.

**Conference After Visitation**

23518. (a) The program may include a personal conference after the visitations described in Section 23517 between the sentencing judge or judicial officer or the person responsible for coordinating the program for the judicial district and the probationer, his or her counsel, and, if available, the probationer’s parents to discuss the experiences of the visitation and how those experiences may impact the probationer’s future conduct.

(b) If a personal conference described in subdivision (a) is not practicable, because of the probationer’s absence from the jurisdiction, conflicting time schedules, or other reasons, the program should provide for a written report or letter by the probationer to the court discussing the experiences and their impact on the probationer.

**Immunity from Liability**

23518.5. The county, a court, any facility visited pursuant to the program, the agents, employees, or contractors of the court, county, or facility visited pursuant to the program, and any person supervising a probationer during the visitation, is not liable for any civil damages resulting from injury to the probationer, or civil damages caused by the probationer, during, or from any activities relating to, the visitation, except for willful or grossly negligent acts intended to, or reasonably expected to result in, that injury or damage and except for workers’ compensation for the probationer as prescribed by law if the probationer performs community service at the facility as an additional term or condition of probation.

Article 4. Penalties for a Violation of Section 23152 or 23153

**Minors: Alcohol or Drug Education Program Required**

23520. (a) Whenever, in any county specified in subdivision (b), a judge of a juvenile court, a juvenile hearing officer, or referee of a juvenile court finds that a person has committed a first violation of Section 23152 or 23153, the person shall be required to participate in and successfully complete an alcohol or drug education program, or both of those programs, as designated by the court. The expense of the person’s attendance in the program shall be paid by the person’s parents or guardian so long as the person is under the age of 18 years, and shall be paid by the person thereafter. However, in approving the program, each county shall require the program to provide for the payment of the fee for the program in installments by any person who cannot afford to pay the full fee at the commencement of the program and shall require the program to provide for the waiver of the fee for any person who is indigent, as determined by criteria for indigency established by the board of supervisors. Whenever it can be done without substantial additional cost, each county shall require that the program be provided for juveniles at a separate location from, or at a different time of day than, alcohol and drug education programs for adults.
(b) This section applies only in those counties that have one or more alcohol or drug education programs certified by the county alcohol program administrator and approved by the board of supervisors. 
Amended Sec. 85, Ch. 149, Stats. 2003, Effective January 1, 2004.

**Minors: Out-of-State Offence**

23521. (a) Any finding of a juvenile court judge, juvenile hearing officer, or referee of a juvenile court of a commission of an offense in any state, territory, possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada that, if committed in this state, would be a violation of Section 23152, is a conviction of a violation of Section 23152 for the purposes of Sections 13352, 13352.3, 13352.4, and 13352.5, and the finding of a juvenile court judge, juvenile hearing officer, or referee of a juvenile court of a commission of an offense that, if committed in this state, would be a violation of Section 23153 is a conviction of a violation of Section 23153 for the purposes of Sections 13352 and 13352.3.

(b) This section shall become operative on September 20, 2005. 

**CHAPTER 2. COURT PENALTIES**

**Article 1. General Provisions**

**General Provisions**

23530. This Chapter applies to the imposition of penalties, sanctions, and probation upon persons convicted of violating driving while under the influence offenses that are set forth in Chapter 12 (commencing with Section 23100) of Division 11.

**Article 2. Penalties for a Violation of Section 23152**

**Penalty: First Conviction**

23536. (a) If a person is convicted of a first violation of Section 23152, that person shall be punished by imprisonment in the county jail for not less than 96 hours, at least 48 hours of which shall be continuous, nor more than six months, and by a fine of not less than three hundred ninety dollars ($390), nor more than one thousand dollars ($1,000).

(b) The court shall order that a person punished under subdivision (a), who is to be punished by imprisonment in the county jail, be imprisoned on days other than days of regular employment of the person, as determined by the court. If the court determines that 48 hours of continuous imprisonment would interfere with the person’s work schedule, the court shall allow the person to serve the imprisonment whenever the person is normally scheduled for time off from work. The court may make this determination based upon a representation from the defendant’s attorney or upon an affidavit or testimony from the defendant.

(c) The person’s privilege to operate a motor vehicle shall be suspended by the department under paragraph (1) of subdivision (a) of Section 13352 or Section 13352.1. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(d) Whenever, when considering the circumstances taken as a whole, the court determines that the person punished under this section would present a traffic safety or public safety risk if authorized to operate a motor vehicle during the period of suspension imposed under paragraph (1) of subdivision (a) of Section 13352 or Section 13352.1, the court may disallow the issuance of a restricted driver’s license required under Section 13352.4. 

**Conditions of Probation: First Conviction**

23538. (a) (1) If the court grants probation to person punished under Section 23536, in addition to the provisions of Section 23600 and any other terms and conditions imposed by the court, the court may impose as a condition of probation that the person pay a fine of at least three hundred ninety dollars ($390), but not more than one thousand dollars ($1,000). The court may also impose, as a condition of probation, that the person be confined in a county jail for at least 48 hours, but not more than six months.

(2) The court may impose, as a condition of probation that the person be punished under Section 23536, in addition to the provisions of Section 23600 and any other terms and conditions imposed by the court, the court may disallow the issuance of a restricted driver’s license required under Section 13352.4.

(b) In any county where the board of supervisors has approved, and the State Department of ( ) Health Care Services has licensed, a program or programs described in Section 11837.3 of the Health and Safety Code, the court shall also impose as a condition of probation that the person enroll in, participate in, and successfully complete a driving-under-the-influence program, licensed pursuant to Section 11836 of the Health and Safety Code, in the driver’s county of residence or employment, as designated by the court. For the purposes of this subdivision, enrollment in, participation in, and completion of an approved program shall be subsequent to the date of the current violation. Credit may not be given for any program activities completed prior to the date of the current violation.

(1) The court shall require a first offender whose blood-alcohol concentration was less than 0.20 percent, by weight, to participate for at least three months or longer, as ordered by the court, in a licensed program that consists of at least 30 hours of program activities, including those education, group counseling, and individual interview sessions described in Chapter 9 (commencing with Section 11836) of Part 2 of Division 10.5 of the Health and Safety Code.

(2) The court shall require a first offender whose blood-alcohol concentration was 0.20 percent or more, by weight, or who refused to take a chemical test, to participate for at least nine months or longer, as ordered by the court, in a licensed program that consists of at least 60 hours of program activities, including those education, group counseling, and individual interview sessions described in Chapter 9 (commencing with Section 11836) of Part 2 of Division 10.5 of the Health and Safety Code.
sessions described in Chapter 9 (commencing with Section 11836) of Part 2 of Division 10.5 of the Health and Safety Code.

(3) The court shall advise the person at the time of sentencing that the driving privilege shall not be restored until proof satisfactory to the department of successful completion of a driving-under-the-influence program of the length required under this code that is licensed pursuant to Section 11836 of the Health and Safety Code has been received in the department’s headquarters.

(c) (1) The court shall revoke the person’s probation pursuant to Section 23602, except for good cause shown, for the failure to enroll in, participate in, or complete a program specified in subdivision (b).

(2) The court, in establishing reporting requirements, shall consult with the county alcohol program administrator. The county alcohol program administrator shall coordinate the reporting requirements with the department and with the State Department of Health Care Services. That reporting shall ensure that all persons who, after being ordered to attend and complete a program, may be identified for either (A) failure to enroll in, or failure to successfully complete, the program, or (B) successful completion of the program as ordered.

Penalty: Second Offense Within Ten Years

23540. (a) If a person is convicted of a violation of Section 23152 and the offense occurred within 10 years of a separate violation of Section 23103, as specified in Section 23103.5, 23152, or 23153, that resulted in a conviction, that person shall be punished by imprisonment in the county jail for not less than 90 days nor more than one year and by a fine of not less than three hundred ninety dollars ($390) nor more than one thousand dollars ($1,000). The person’s privilege to operate a motor vehicle shall be suspended by the department pursuant to paragraph (3) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(b) In addition to the conditions specified in subdivision (a), the court shall require the person to do either of the following:

(1) Enroll and participate, for at least 18 months subsequent to the date of the underlying violation and in a manner satisfactory to the court, in a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code, as designated by the court. The person shall complete the entire program subsequent to, and shall not be given any credit for any program activities completed prior to, the date of the current violation. The program shall provide for persons who cannot afford the program fee pursuant to paragraph (2) of subdivision (b) of Section 11837.4 of the Health and Safety Code in order to enable those persons to participate.

(2) Enroll and participate, for at least 30 months subsequent to the date of the underlying violation and in a manner satisfactory to the court, in a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code. The person shall complete the entire program subsequent to, and shall not be given any credit for any program activities completed prior to, the date of the current violation.

(c) The court shall advise the person at the time of sentencing that the driving privilege shall not be restored until proof satisfactory to the Department of Motor Vehicles of successful completion of a driving-under-the-influence program of the length required under this code licensed pursuant to Section 11836 of the Health and Safety Code has been received in the department’s headquarters.

(d) Whenever, when considering the circumstances taken as a whole, the court determines that the person punished under this section would present a traffic safety or public safety risk if authorized to operate a motor vehicle during the period of suspension imposed under paragraph (3) of subdivision (a) of Section 13352, the court may disallow the issuance of a restricted driver’s license required under Section 13352.5.

(e) This section shall become operative on September 20, 2005.

Conditions of Probation: Second Offense Within Ten Years

23542. (a) (1) If the court grants probation to a person punished under Section 23540, in addition to the provisions of Section 23600 and any other terms and conditions imposed by the court, the court shall impose as conditions of probation that the person be confined in county jail and fined under either of the following:

(A) For at least 10 days, but not more than one year, and pay a fine of at least three hundred ninety dollars ($390), but not more than one thousand dollars ($1,000).

(B) For at least 96 hours, but not more than one year, and pay a fine of at least three hundred ninety dollars ($390), but not more than one thousand dollars ($1,000). A sentence of 96 hours of confinement shall be served in two increments consisting of a continuous 48 hours each. The two 48-hour increments may be served nonconsecutively.

(2) The person’s privilege to operate a motor vehicle shall be suspended by the department under paragraph (3) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

Penalty: Third Conviction Within Ten Years

23546. (a) If a person is convicted of a violation of Section 23152 and the offense occurred within 10 years of two separate violations of Section 23103, as specified in Section 23103.5, 23152, or 23153, or any combination thereof, that resulted in convictions, that person shall be punished by imprisonment in the county jail for not less than 120 days nor more than one year and by a fine of not less than three hundred ninety dollars ($390) nor more than one thousand dollars ($1,000).
($1,000). The person’s privilege to operate a motor vehicle shall be revoked by the Department of Motor Vehicles as required in paragraph (5) of subdivision (a) of Section 13352. The court shall require the person to surrender his or her driver’s license to the court in accordance with Section 13550.

(b) A person convicted of a violation of Section 23152 punishable under this section shall be designated as a habitual traffic offender for a period of three years, subsequent to the conviction. The person shall be advised of this designation pursuant to subdivision (b) of Section 13350.

Conditions of Probation: Third Conviction Within Ten Years

23548. (a) (1) If the court grants probation to any person punished under Section 23546, in addition to the provisions of Section 23600 and any other terms and conditions imposed by the court, the court shall impose as conditions of probation that the person be confined in the county jail for at least 120 days but not more than one year and pay a fine of at least three hundred ninety dollars ($390) but not more than one thousand dollars ($1,000).

(2) The person’s privilege to operate a motor vehicle shall be revoked by the department under paragraph (5) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(b) In addition to subdivision (a), if the court grants probation to any person punished under Section 23546, the court may order as a condition of probation that the person participate, for at least 30 months subsequent to the underlying conviction and in a manner satisfactory to the court, in a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code. In lieu of the minimum term of imprisonment specified in subdivision (a), the court shall impose as a condition of probation under this subdivision that the person be confined in the county jail for at least 30 days but not more than one year. The court shall not order the treatment prescribed by this subdivision unless the person makes a specific request and shows good cause for the order, whether or not the person has previously completed a treatment program pursuant to paragraph (4) of subdivision (b) of Section 23542 or paragraph (4) of subdivision (b) of Section 23562. In order to enable all required persons to participate, each person shall pay the program costs commensurate with the person’s ability to pay as determined pursuant to Section 11837.4 of the Health and Safety Code. No condition of probation required pursuant to this subdivision is a basis for reducing any other probation requirement in this section or Section 23600 or for avoiding the mandatory license revocation provisions of paragraph (5) of subdivision (a) of Section 13352.

(d) The court shall advise the person at the time of sentencing that the driving privilege may not be restored until the person provides proof satisfactory to the department of successful completion of a driving-under-the-influence program of the length required under this code that is licensed pursuant to Section 11836 of the Health and Safety Code.

(e) This section shall become operative on September 20, 2005.

Penalty: Fourth or Subsequent Conviction Within Ten Years

23550. (a) If a person is convicted of a violation of Section 23152 and the offense occurred within 10 years of three or more separate violations of Section 23103, as specified in Section 23103.5, or Section 23152 or 23153, or any combination thereof, that resulted in convictions, that person shall be punished by imprisonment pursuant to subdivision (b) of Section 1170 of the Penal Code, or in a county jail for not less than 180 days nor more than one year, and by a fine of not less than three hundred ninety dollars ($390) nor more than one thousand dollars ($1,000). The person’s privilege to operate a motor vehicle shall be revoked by the Department of Motor Vehicles pursuant to subdivision (b) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(b) A person convicted of a violation of Section 23152 punishable under this section shall be designated as a habitual traffic offender for a period of three years, subsequent to the conviction. The person shall be advised of this designation pursuant to subdivision (b) of Section 13350.

Penalties: Conviction Within 10 Years of Prior DUI Conviction

23550.5. (a) A person is guilty of a public offense, punishable by imprisonment in the state prison or confinement in a county jail for not more than one year and by a fine of not less than three hundred ninety dollars ($390) nor more than
one thousand dollars ($1,000) if that person is convicted of a violation of Section 23152 or 23153, and the offense occurred within 10 years of any of the following:

1. A separate violation of Section 23152 that was punished as a felony under Section 23550 or this section, or both, or under former Section 23175 or former Section 23175.5, or both.

2. A separate violation of Section 23153 that was punished as a felony.

3. A separate violation of paragraph (1) of subdivision (c) of Section 192 of the Penal Code that was punished as a felony.

(b) Each person who, having previously been convicted of a violation of subdivision (a) of Section 191.5 of the Penal Code, a felony violation of subdivision (b) of Section 191.5, or a violation of subdivision (a) of Section 192.5 of the Penal Code, is subsequently convicted of a violation of Section 23152 or 23153 is guilty of a public offense punishable by imprisonment in the state prison or confinement in a county jail for not more than one year and by a fine of not less than three hundred ninety dollars ($390) nor more than one thousand dollars ($1,000).

(c) The privilege to operate a motor vehicle of a person convicted of a violation that is punishable under subdivision (a) or (b) shall be revoked by the department pursuant to paragraph (7) of subdivision (a) of Section 13352, unless paragraph (6) of subdivision (a) of Section 13352 is also applicable, in which case the privilege shall be revoked under that provision. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(d) A person convicted of a violation of Section 23152 or 23153 that is punishable under this section shall be designated as a habitual traffic offender for a period of three years, subsequent to the conviction. The person shall be advised of this designation under subdivision (b) of Section 13350.

(e) The court may order as a condition of probation that the person be confined in the county jail for at least 30 days but not more than one year. The court shall not order the treatment prescribed by this subdivision unless the person makes a specific request and shows good cause for the order, whether or not the person has previously completed a treatment program pursuant to subdivision (b) of Section 23542 or paragraph (4) of subdivision (b) of Section 23562. In order to enable all required persons to participate, each person shall pay the program costs commensurate with the person's ability to pay as determined pursuant to Section 11837.4 of the Health and Safety Code. No condition of probation required pursuant to this subdivision is a basis for reducing any other probation requirement in this section or Section 23600 or for avoiding the mandatory license revocation provisions of paragraph (7) of subdivision (a) of Section 13352.

(f) In addition to Section 23600 and subdivision (a), if the court grants probation to any person punished under Section 23550 who has not previously completed a treatment program pursuant to subdivision (b) of Section 23542 or paragraph (4) of subdivision (b) of Section 23562, and unless the person is ordered to participate in, and complete, a program under subdivision (b), the court shall impose as a condition of probation that the person, subsequent to the date of the current violation, enroll in and participate, for at least 18 months and in a manner satisfactory to the court, in a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code, as designated by the court. The person shall complete the entire program subsequent to, and shall not be given any credit for program activities completed prior to, the date of the current violation. A person who has previously completed a 12-month or 18-month driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code shall not be eligible for referral pursuant to this subdivision unless a 30-month driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code is not available for referral in the county of the person’s residence or employment. A condition of probation required pursuant to this subdivision is not a basis for reducing any other probation requirement in this section or Section 23600 or for avoiding the mandatory license revocation provisions of paragraph (7) of subdivision (a) of Section 13352.

(d) The court shall advise the person at the time of sentencing that the driving privilege may not be restored until the person provides proof satisfactory to the department of successful completion of a driving-under-the-influence program of the length required under this code that is licensed pursuant to Section 11836 of the Health and Safety Code.

§23552

Conditions of Probation

23552. (a) (1) If the court grants probation to a person punished under Section 23550, in addition to the provisions of Section 23600 and any other terms and conditions imposed by the court, the court shall impose as conditions of probation that the person be confined in a county jail for at least 180 days but not more than one year and pay a fine of at least three hundred ninety dollars ($390) nor more than one thousand dollars ($1,000).

(2) The person’s privilege to operate a motor vehicle shall be revoked by the department under paragraph (7) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(b) In addition to subdivision (a), if the court grants probation to any person punished under Section 23550, the court may order as a condition of probation that the person participate, for at least 30 months subsequent to the underlying conviction and in a manner satisfactory to the court, in a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code. In lieu of the minimum term of imprisonment in subdivision (a), the court shall impose as a condition of probation under this subdivision that the person be confined in the county jail for at least 30 days but not more than one year. The court shall not order the treatment prescribed by this subdivision unless the person makes a specific request and shows good cause for the order, whether or not the person has previously completed a treatment program pursuant to subdivision (b) of Section 23542 or paragraph (4) of subdivision (b) of Section 23562. In order to enable all required persons to participate, each person shall pay the program costs commensurate with the person's ability to pay as determined pursuant to Section 11837.4 of the Health and Safety Code. No condition of probation required pursuant to this subdivision is a basis for reducing any other probation requirement in this section or Section 23600 or for avoiding the mandatory license revocation provisions of paragraph (7) of subdivision (a) of Section 13352.

(c) In addition to Section 23600 and subdivision (a), if the court grants probation to any person punished under Section 23550 who has not previously completed a treatment program pursuant to subdivision (b) of Section 23542 or paragraph (4) of subdivision (b) of Section 23562, and unless the person is ordered to participate in, and complete, a program under subdivision (b), the court shall impose as a condition of probation that the person, subsequent to the date of the current violation, enroll in and participate, for at least 18 months and in a manner satisfactory to the court, in a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code, as designated by the court. The person shall complete the entire program subsequent to, and shall not be given any credit for program activities completed prior to, the date of the current violation. A person who has previously completed a 12-month or 18-month driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code shall not be eligible for referral pursuant to this subdivision unless a 30-month driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code is not available for referral in the county of the person’s residence or employment. A condition of probation required pursuant to this subdivision is not a basis for reducing any other probation requirement in this section or Section 23600 or for avoiding the mandatory license revocation provisions of paragraph (7) of subdivision (a) of Section 13352.

(d) The court shall advise the person at the time of sentencing that the driving privilege may not be restored until the person provides proof satisfactory to the department of successful completion of a driving-under-the-influence program of the length required under this code that is licensed pursuant to Section 11836 of the Health and Safety Code.

Amended Sec. 3, Ch. 747, Stats. 2007. Effective January 1, 2008.
Amended Sec. 5, Ch. 193, Stats. 2009. Effective July 1, 2010.
Amended Sec. 4, Ch. 301, Stats. 2010. Effective January 1, 2011.
Amended Sec. 1, Ch. 509, Stats. 2014. Effective January 1, 2015.

The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following:
1. "prior"
2. "under"

Article 3. Penalties for a Violation of Section 23153

Penalties: First Conviction

23554. If any person is convicted of a first violation of Section 23153, that person shall be punished by imprisonment in the state prison, or in a county jail for not less than 90 days
nor more than one year, and by a fine of not less than three hundred ninety dollars ($390) nor more than one thousand dollars ($1,000). The person’s privilege to operate a motor vehicle shall be suspended by the Department of Motor Vehicles pursuant to paragraph (2) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

Conditions of Probation: First Conviction

23556. (a) (1) If the court grants probation to any person punished under Section 23554, in addition to the provisions of Section 23600 and any other terms and conditions imposed by the court, the court shall impose as a condition of probation that the person be confined in the county jail for at least five days but not more than one year and pay a fine of at least three hundred ninety dollars ($390) but not more than one thousand dollars ($1,000).

(2) The person’s privilege to operate a motor vehicle shall be suspended by the department under paragraph (2) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(b) (1) In a county where the county alcohol program administrator has certified, and the board of supervisors has approved, a program or programs, the court shall also impose as a condition of probation that the driver shall participate in, and successfully complete, an alcohol and other drug education and counseling program, established pursuant to Section 11837.3 of the Health and Safety Code, as designated by the court.

(2) In any county where the board of supervisors has approved and the State Department of ( ) Health Care Services has licensed an alcohol and other drug education and counseling program, the court shall also impose as a condition of probation that the driver shall participate in, and successfully complete, a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code, in the driver’s county of residence or employment, as designated by the court. For the purposes of this paragraph, enrollment in, participation in, and completion of, an approved program shall be subsequent to the date of the current violation. Credit may not be given to any program activities completed prior to the date of the current violation.

(3) The court shall refer a first offender whose blood-alcohol concentration was less than 0.20 percent, by weight, to participate for three months or longer, as ordered by the court, in a licensed program that consists of at least 30 hours of program activities, including those education, group counseling, and individual interview sessions described in Chapter 9 (commencing with Section 11836) of Part 2 of Division 10.5 of the Health and Safety Code.

(c) (1) The court shall revoke the person’s probation pursuant to Section 23602, except for good cause shown, for the failure to enroll in, participate in, or complete a program specified in subdivision (b).

(2) The court, in establishing reporting requirements, shall consult with the county alcohol program administrator. The county alcohol program administrator shall coordinate the reporting requirements with the department and with the State Department of ( ) Health Care Services. That reporting shall ensure that all persons who, after being ordered to attend and complete a program, may be identified for either (A) failure to enroll in, or failure to successfully complete, the program, or (B) successful completion of the program as ordered.

(d) The court shall advise the person at the time of sentencing that the driving privilege shall not be restored until the person has provided proof satisfactory to the department of successful completion of a driving-under-the-influence program of the length required under this code that is licensed pursuant to Section 11836 of the Health and Safety Code.

(e) This section shall become operative on September 20, 2005.

Amended Sec. 88, Ch. 22, Stats. 2013. Effective June 27, 2013.

Multiple Victims: Enhanced Penalty

23558. A person who proximately causes bodily injury or death to more than one victim in any one instance of driving in violation of Section 23153 of this code or in violation of Section 191.5 of, or subdivision (a) of Section 192.5 of, the Penal Code, shall, upon a felony conviction, and notwithstanding subdivision (g) of Section 1170.1 of the Penal Code, receive an enhancement of one year in the state prison for each additional victim. The enhanced sentence provided for in this section shall not be imposed unless the fact of the bodily injury to each additional victim is charged in the accusatory pleading and admitted or found to be true by the trier of fact. The maximum number of one year enhancements that may be imposed pursuant to this section is three.

Notwithstanding any other provision of law, the court may strike the enhancements provided in this section if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

Amended Sec. 34, Ch. 747, Stats. 2007. Effective January 1, 2008.

Penalty: Second Conviction Within Ten Years

23560. If a person is convicted of a violation of Section 23153 and the offense occurred within 10 years of a separate violation of Section 23103, as specified in Section 23103.5, 23152, or 23153 that resulted in a conviction, that person shall be punished by imprisonment in the state prison, or in a county jail for not less than 120 days nor more than one year, and by a fine of not less than three hundred ninety dollars ($390) nor more than five thousand dollars ($5,000). The person’s privilege to operate a motor vehicle shall be revoked by the Department of Motor Vehicles pursuant to paragraph (4) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

§23562

Conditions of Probation: Second Offense Within Ten Years

23562. If the court grants probation to a person punished under Section 23560, in addition to the provisions of Section 23600 and any other terms and conditions imposed by the court, the court shall impose as conditions of probation that the person be subject to either subdivision (a) or (b), as follows:

(a) Be confined in the county jail for at least 120 days and pay a fine of at least three hundred ninety dollars ($390), but not more than five thousand dollars ($5,000). The person’s privilege to operate a motor vehicle shall be revoked by the department under paragraph (4) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(b) All of the following apply:

(1) Be confined in the county jail for at least 30 days, but not more than one year.

(2) Pay a fine of at least three hundred ninety dollars ($390), but not more than one thousand dollars ($1,000).

(3) The privilege to operate a motor vehicle shall be revoked by the department under paragraph (4) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(4) Either of the following:

(A) Enroll and participate, for at least 18 months subsequent to the date of the underlying violation and in a manner satisfactory to the court, in a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code, if available in the county of the person’s residence or employment, as designated by the court. The person shall complete the entire program subsequent to, and shall not be given any credit for program activities completed prior to, the date of the current violation. The program shall provide for persons who cannot afford the program fee pursuant to paragraph (2) of subdivision (b) of Section 11837.4 of the Health and Safety Code in order to enable those persons to participate.

(B) Enroll and participate, for at least 30 months subsequent to the date of the underlying violation and in a manner satisfactory to the court, in a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code, if available in the county of the person’s residence or employment. The person shall complete the entire program subsequent to, and shall not be given any credit for program activities completed prior to, the date of the current violation.

(c) The court shall advise the person at the time of sentencing that the driving privilege shall not be restored until the person has provided proof satisfactory to the department of successful completion of a driving-under-the-influence program of the length required under this code that is licensed pursuant to Section 11836 of the Health and Safety Code.

(d) This section shall become operative on September 20, 2005.

Penalty: Third or Subsequent Conviction Within Ten Years

23566. (a) If a person is convicted of a violation of Section 23153 and the offense occurred within 10 years of two or more separate violations of Section 23103, as specified in Section 23103.5, or Section 23152 or 23153, or any combination of these violations, that resulted in convictions, that person shall be punished by imprisonment in the state prison for a term of two, three, or four years and by a fine of not less than one thousand fifteen dollars ($1,015) nor more than five thousand dollars ($5,000). The person’s privilege to operate a motor vehicle shall be revoked by the Department of Motor Vehicles pursuant to paragraph (6) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(b) If a person is convicted of a violation of Section 23153, and the act or neglect proximately causes great bodily injury, as defined in Section 12022.7 of the Penal Code, to any person other than the driver, and the offense occurred within 10 years of two or more separate violations of Section 23103, as specified in Section 23103.5, or Section 23152 or 23153, or any combination of these violations, that resulted in convictions, that person shall be punished by imprisonment in the state prison for a term of two, three, or four years and by a fine of not less than one thousand fifteen dollars ($1,015) nor more than five thousand dollars ($5,000). The person’s privilege to operate a motor vehicle shall be revoked by the Department of Motor Vehicles pursuant to paragraph (6) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(c) If a person is convicted under subdivision (b), and the offense for which the person is convicted occurred within 10 years of four or more separate violations of Section 23103, as specified in Section 23103.5, or Section 23152 or 23153, or any combination of these violations, that resulted in convictions, that person shall, in addition and consecutive to the sentences imposed under subdivision (b), be punished by an additional term of imprisonment in the state prison for three years.

The enhancement allegation provided in this subdivision shall be pleaded and proved as provided by law.

(d) A person convicted of Section 23153 punishable under this section shall be designated as a habitual traffic offender for a period of three years, subsequent to the conviction. The person shall be advised of this designation pursuant to subdivision (b) of Section 13350.

(e) A person confined in state prison under this section shall be ordered by the court to participate in an alcohol or drug program, or both, that is available at the prison during the person’s confinement. Completion of an alcohol or drug program under this section does not meet the program completion requirement of paragraph (6) of subdivision (a) of Section 13352, unless the drug or alcohol program is licensed under Section 11836 of the Health and Safety Code, or is a program specified in Section 8001 of the Penal Code.

Amended Sec. 6, Ch. 301, Stats. 2010. Effective January 1, 2011.
Conditions of Probation: Third or Subsequent Conviction Within Ten Years

23568. (a) If the court grants probation to a person punished under Section 23566, in addition to the provisions of Section 23600 and any other terms and conditions imposed by the court, the court shall impose as conditions of probation that the person be confined in the county jail for at least one year, that the person pay a fine of at least three hundred ninety dollars ($390) but not more than five thousand dollars ($5,000), and that the person make restitution or reparation pursuant to Section 1203.1 of the Penal Code. The person’s privilege to operate a motor vehicle shall be revoked by the department under paragraph (6) of subdivision (a) of Section 13352. The court shall require the person to surrender the driver’s license to the court in accordance with Section 13550.

(b) In addition to Section 23600 and subdivision (a), if the court grants probation to a person punished under Section 23566, the court shall impose as a condition of probation that the person enroll in and complete, subsequent to the date of the underlying violation and in a manner satisfactory to the court, an 18-month driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code or, if available in the county of the person’s residence or employment, a 30-month driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code, as designated by the court. The person shall complete the entire program subsequent to, and shall not be given any credit for program activities completed prior to, the date of the current violation. In lieu of the minimum term of imprisonment in subdivision (a), the court shall impose as a minimum condition of probation under this subdivision that the person be confined in the county jail for at least 30 days but not more than one year. Except as provided in this subdivision, if the court grants probation under this section, the court shall order the treatment prescribed by this subdivision, whether or not the person has previously completed a treatment program pursuant to subdivision (b) of Section 23542 or paragraph (4) of subdivision (b) of Section 23562. In order to enable all required persons to participate, each person shall pay the program costs commensurate with the person’s ability to pay as determined pursuant to Section 11837.4 of the Health and Safety Code. No condition of probation required pursuant to this subdivision is a basis for reducing any other probation requirement in this section or Section 23600 or for avoiding the mandatory license revocation provisions of paragraph (6) of subdivision (a) of Section 13352.

(c) The court shall advise the person at the time of sentencing that the driving privilege may not be restored until the person provides proof satisfactory to the department of successful completion of a driving-under-the-influence program of the length required under this code that is licensed pursuant to Section 11836 of the Health and Safety Code.

Minor Passenger: Enhanced Penalty

23572. (a) If any person is convicted of a violation of Section 23152 and a minor under 14 years of age was a passenger in the vehicle at the time of the offense, the court shall impose the following penalties in addition to any other penalty prescribed:

(1) If the person is convicted of a violation of Section 23152 punishable under Section 23536, the punishment shall be enhanced by an imprisonment of 48 continuous hours in the county jail, whether or not probation is granted, no part of which shall be stayed.

(2) If a person is convicted of a violation of Section 23152 punishable under Section 23540, the punishment shall be enhanced by an imprisonment of 10 days in the county jail, whether or not probation is granted, no part of which may be stayed.

(3) If a person is convicted of a violation of Section 23152 punishable under Section 23546, the punishment shall be enhanced by an imprisonment of 30 days in the county jail, whether or not probation is granted, no part of which may be stayed.

(4) If a person is convicted of a violation of Section 23152 which is punished as a misdemeanor under Section 23550, the punishment shall be enhanced by an imprisonment of 90 days in the county jail, whether or not probation is granted, no part of which may be stayed.

(b) The driving of a vehicle in which a minor under 14 years of age was a passenger shall be pled and proven.

(c) No punishment enhancement shall be imposed pursuant to this section if the person is also convicted of a violation of Section 273a of the Penal Code arising out of the same facts and incident.

Article 5. Additional Penalties and Sanctions

Ignition Interlock Device: Installation Requirement

23573. (a) The Department of Motor Vehicles, upon receipt of the court’s abstract of conviction for a violation listed in subdivision (j), shall inform the convicted person of the requirements of this section and the term for which the person is required to have a certified ignition interlock device installed. The records of the department shall reflect the mandatory use of the device for the term required and the time when the device is required to be installed pursuant to this code.

(b) The department shall advise the person that installation of an ignition interlock device on a vehicle does not allow the person to drive without a valid driver’s license.

(c) A person who is notified by the department pursuant to subdivision (a) shall, within 30 days of notification, complete all of the following:

(1) Arrange for each vehicle owned or operated by the person to be fitted with an ignition interlock device by a certified ignition interlock device provider under Section 13386.

(2) Notify the department and provide to the department proof of installation by submitting the “Verification of Installation” form described in paragraph (2) of subdivision (g) of Section 13386.

(3) Pay to the department a fee sufficient to cover the costs of administration of this section, including startup costs, as determined by the department.

(d) The department shall place a restriction on the driver’s license record of the convicted person that states the driver is...
restricted to driving only vehicles equipped with a certified ignition interlock device.

(e) (1) A person who is notified by the department pursuant to subdivision (a) shall arrange for each vehicle with an ignition interlock device to be serviced by the installer at least once every 60 days in order for the installer to recalibrate and monitor the operation of the device.

(2) The installer shall notify the department if the device is removed or indicates that the person has attempted to remove, bypass, or tamper with the device, or if the person fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device.

(f) The department shall monitor the installation and maintenance of the ignition interlock device installed pursuant to subdivision (a).

(g) (1) A person who is notified by the department, pursuant to subdivision (a), is exempt from the requirements of subdivision (c) if all of the following circumstances occur:

(A) Within 30 days of the notification, the person certifies to the department all of the following:

(i) The person does not own a vehicle.

(ii) The person does not have access to a vehicle at his or her residence.

(iii) The person no longer has access to the vehicle being driven by the person when he or she was arrested for a violation that subsequently resulted in a conviction for a violation listed in subdivision (j).

(iv) The person acknowledges that he or she is only allowed to drive a vehicle that is fitted with an operating ignition interlock device and that he or she is required to have a valid driver’s license before he or she can drive.

(v) The person is subject to the requirements of this section when he or she purchases or has access to a vehicle.

(B) The person’s driver’s license record has been restricted pursuant to subdivision (d).

(C) The person complies with this section immediately upon commencing ownership or operation of a vehicle subject to the required installation of an ignition interlock device.

(2) A person who has been granted an exemption pursuant to this subdivision and who subsequently drives a vehicle in violation of the exemption is subject to the penalties of subdivision (i) in addition to any other applicable penalties in law.

(h) This section does not permit a person to drive without a valid driver’s license.

(i) A person who is required under subdivision (c) to install an ignition interlock device who willfully fails to install the ignition interlock device within the time period required under subdivision (c) is guilty of a misdemeanor and shall be punished by imprisonment in the county jail for not more than six months or by a fine of not more than five thousand dollars ($5,000), or by both that fine and imprisonment.

(j) In addition to all other requirements of this code, a person convicted of any of the following violations shall be punished as follows:

(1) Upon a conviction of a violation of Section 14601.2, 14601.4, or 14601.5 subsequent to one prior conviction of a violation of Section 23103.5, 23152, or 23153, within a 10-year period, the person shall immediately install a certified ignition interlock device, pursuant to this section, in all vehicles owned or operated by that person for a term of one year.

(2) Upon a conviction of a violation of Section 14601.2, 14601.4, or 14601.5 subsequent to two or more prior convictions of a violation of Section 23103.5, 23152, or 23153, within a 10-year period, or one or more prior convictions of Section 14601.2, 14601.4, or 14601.5, within a 10-year period, the person shall immediately install a certified ignition interlock device, pursuant to this section, in all vehicles owned or operated by that person for a term of two years.

(3) Upon a conviction of a violation of Section 14601.2, 14601.4, or 14601.5 subsequent to three or more prior convictions of a violation of Section 23103.5, 23152, or 23153, within a 10-year period, or two or more prior convictions of Section 14601.2, 14601.4, or 14601.5, within a 10-year period, the person shall immediately install a certified ignition interlock device, pursuant to this section, in all vehicles owned or operated by that person for a term of three years.

(k) The department shall notify the court if a person subject to this section has failed to show proof of installation within 30 days of the department informing the person he or she is required to install a certified ignition interlock device.

(l) Subdivisions (j), (k), (m), (n), and (o) of Section 23575 apply to this section.

(m) The requirements of this section are in addition to any other requirements of law.

(n) This section shall become operative on July 1, 2009.

Added Sec. 4, Ch. 404, Stats. 2008. Operative July 1, 2009.

**Authorized and Mandatory Installation of Ignition Interlock Device**

23575. (a) (1) In addition to any other law, the court may require that a person convicted of a first offense violation of Section 23152 or 23153 install a certified ignition interlock device on any vehicle that the person owns or operates and prohibit that person from operating a motor vehicle unless that vehicle is equipped with a functioning, certified ignition interlock device. The court shall give heightened consideration to applying this sanction to a first offense violator with 0.15 percent or more, by weight, of alcohol in his or her blood at arrest, or with two or more prior moving traffic violations, or to persons who refused the chemical tests at arrest. If the court orders the ignition interlock device restriction, the term shall be determined by the court for a period not to exceed three years from the date of conviction. The court shall notify the Department of Motor Vehicles, as specified in subdivision (a) of Section 1803, of the terms of the restrictions in accordance with subdivision (a) of Section 1804. The Department of Motor Vehicles shall place the restriction in the person's records in the Department of Motor Vehicles.

(2) The court shall require a person convicted of a violation of Section 14601.2 to install an ignition interlock device on any vehicle that the person owns or operates and prohibit the person from operating a motor vehicle unless the vehicle is equipped with a functioning, certified ignition interlock device. The term of the restriction shall be determined by the court for a period not to exceed three years from the date of conviction. The court shall notify the Department of Motor Vehicles, as specified in subdivision (a) of Section 1803, of the terms of the restrictions in accordance with subdivision (a) of Section 1804.
The Department of Motor Vehicles shall place the restriction in the person's records in the Department of Motor Vehicles.

(b) The court shall include on the abstract of conviction or violation submitted to the Department of Motor Vehicles under Section 1803 or 1816 the requirement and term for the use of a certified ignition interlock device. The records of the department shall reflect mandatory use of the device for the term ordered by the court.

(c) The court shall advise the person that installation of an ignition interlock device to be serviced by the installer at least once every 60 days in order for the installer to recalibrate the device and monitor the operation of the device. The installer shall notify the department or the court if the person has complied with all of the requirements of this section.

(d) A person whose driving privilege is restricted by the court pursuant to this section shall arrange for each vehicle with an ignition interlock device to be serviced by the installer at least once every 60 days in order for the installer to recalibrate and monitor the operation of the device. The installer shall notify the court if the device is removed or indicates that the person has attempted to remove, bypass, or tamper with the device, or if the person fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device. There is no obligation for the installer to notify the court if the person has complied with all of the requirements of this article.

(e) The court shall monitor the installation and maintenance of an ignition interlock device restriction ordered pursuant to subdivision (a) or (l). If a person fails to comply with the court order, the court shall give notice of the fact to the department pursuant to Section 40509.

(f) (1) If a person is convicted of a violation of Section 23152 or 23153 and the offense occurred within 10 years of one or more separate violations of Section 23152 or 23153 that resulted in a conviction, or if a person is convicted of a violation of Section 23103, as specified in Section 23103.5, and is suspended for one year under Section 13353.3, the person may apply to the Department of Motor Vehicles for a restricted driver's license pursuant to Section 13352 or 13353.3 that prohibits the person from operating a motor vehicle unless that vehicle is equipped with a functioning ignition interlock device, certified pursuant to Section 13386. The restriction shall remain in effect for at least the remaining period of the original suspension or revocation and until all reinstatement requirements in Section 13352 or 13353.4 are met.

(2) Pursuant to subdivision (g), the Department of Motor Vehicles shall immediately terminate the restriction issued pursuant to Section 13352 or 13353.3 and shall immediately suspend or revoke the privilege to operate a motor vehicle of a person who attempts to remove, bypass, or tamper with the device, who has the device removed prior to the termination date of the restriction, or who fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device ordered pursuant to Section 13352 or 13353.3. The privilege shall remain suspended or revoked for the remaining period of the originating suspension or revocation and until all reinstatement requirements in Section 13352 or 13353.4 are met.

(g) A person whose driving privilege is restricted by the Department of Motor Vehicles pursuant to Section 13352 or 13353.3 shall arrange for each vehicle with an ignition interlock device to be serviced by the installer at least once every 60 days in order for the installer to recalibrate the device and monitor the operation of the device. The installer shall notify the Department of Motor Vehicles if the device is removed or indicates that the person has attempted to remove, bypass, or tamper with the device, or if the person fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device. There is no obligation on the part of the installer to notify the department or the court if the person has complied with all of the requirements of this section.

(h) Nothing in this section permits a person to drive without a valid driver's license.

(i) The Department of Motor Vehicles shall include information along with the order of suspension or revocation for repeat offenders informing them that after a specified period of suspension or revocation has been completed, the person may either install an ignition interlock device on any vehicle that the person owns or operates or remain with a suspended or revoked driver's license.

(j) Pursuant to this section, an out-of-state resident who otherwise would qualify for an ignition interlock device restricted license in California shall be prohibited from operating a motor vehicle in California unless that vehicle is equipped with a functioning ignition interlock device. An ignition interlock device is not required to be installed on any vehicle owned by the defendant that is not driven in California.

(k) If a person has a medical problem that does not permit the person to breathe with sufficient strength to activate the device, then that person shall only have the suspension option.

(l) This section does not restrict a court from requiring installation of an ignition interlock device and prohibiting operation of a motor vehicle unless that vehicle is equipped with a functioning, certified ignition interlock device for a person to whom subdivision (a) or (b) does not apply. The term of the restriction shall be determined by the court for a period not to exceed three years from the date of conviction. The court shall notify the Department of Motor Vehicles, as specified in subdivision (a) of Section 1803, of the terms of the restrictions in accordance with subdivision (a) of Section 1804. The Department of Motor Vehicles shall place the restriction in the person's records in the Department of Motor Vehicles.

(m) For the purposes of this section, “vehicle” does not include a motorcycle until the state certifies an ignition interlock device that can be installed on a motorcycle. Any person subject to an ignition interlock device restriction shall not operate a motorcycle for the duration of the ignition interlock device restriction period.

(n) For the purposes of this section, “owned” means solely owned or owned in conjunction with another person or legal entity. For purposes of this section, “operates” means operating a vehicle that is not owned by the person subject to this section.

(o) For the purposes of this section, “bypass” includes, but is not limited to, either of the following:

(1) A combination of failing or not taking the ignition interlock device rolling retest three consecutive times.

(2) An incidence of failing or not taking the ignition interlock device rolling retest, when not followed by an incidence of
§23575.1
—516—

Div. 11.5

passing the ignition interlock rolling retest prior to turning off the vehicle’s engine.

turning off the vehicle’s engine.

Amended Sec. 182, Ch. 102, Stats. 2012. Effective January 1, 2013.

Study: Effectiveness of Ignition Interlock Device Use

23575.1. The department may undertake a study and report its findings of that study to the Legislature on or before January 1, 2013, regarding the overall effectiveness of the use of ignition interlock devices (IID) to reduce the recidivism rate of first-time violators of Section 23152 or 23153. If the department exercises this authority, the study shall focus on those drivers who actually have an IID installed in their vehicles rather than on those who are subject to a judicial order to have an IID installed.

Exception for Operation of Vehicle

23576. (a) Notwithstanding Sections 23575 and 23700, if a person is required to operate a motor vehicle in the course and scope of his or her employment and if the vehicle is owned by the employer, the person may operate that vehicle without installation of an approved ignition interlock device if the employer has been notified by the person that his or her driving privilege has been restricted pursuant to Sections 23575 and 23700 and if the person has proof of that notification in his or her possession, or if the notice, or a facsimile copy thereof, is with the vehicle.

(b) A motor vehicle owned by a business entity that is all or partly owned or controlled by a person otherwise subject to Sections 23575 and 23700, is not a motor vehicle owned by the employer subject to the exemption in subdivision (a).

Chemical Testing: Refusal to Take or Failure to Complete: Enhanced Penalties

23577. (a) If any person is convicted of a violation of Section 23152 or 23153, and at the time of the arrest leading to that conviction that person willfully refused a peace officer’s request to submit to, or willfully failed to complete, the chemical test or tests pursuant to Section 23612, the court may impose the following penalties:

(1) If the person is convicted of a first violation of Section 23152, notwithstanding any other provision of subdivision (a) of Section 23538, the terms and conditions of probation shall include the conditions in paragraph (1) of subdivision (a) of Section 23538.

(2) If the person is convicted of a first violation of Section 23153, the punishment shall be enhanced by an imprisonment of 48 continuous hours in the county jail, whether or not probation is granted and no part of which may be stayed, unless the person is sentenced to, and incarcerated in, the state prison and the execution of that sentence is not stayed.

(3) If the person is convicted of a second violation of Section 23152, punishable under Section 23540, or a second violation of Section 23153, punishable under Section 23560, the punishment shall be enhanced by an imprisonment of 96 hours in the county jail, whether or not probation is granted and no part of which may be stayed, unless the person is sentenced to, and incarcerated in, the state prison and execution of that sentence is not stayed.

(4) If the person is convicted of a third violation of Section 23152, punishable under Section 23546, the punishment shall be enhanced by an imprisonment of 10 days in the county jail, whether or not probation is granted and no part of which may be stayed.

(5) If the person is convicted of a fourth or subsequent violation of Section 23152, punishable under Section 23550 or 23550.5, the punishment shall be enhanced by imprisonment of 18 days in the county jail, whether or not probation is granted and no part of which may be stayed.

(b) The willful refusal or failure to complete the chemical test required pursuant to Section 23612 shall be pled and proven.

Repeal Offenders: Mandatory Imprisonment

23580. (a) If any person is convicted of a violation of Section 23152 or 23153 and the offense was a second or subsequent offense punishable under Section 23540, 23546, 23550, 23550.5, 23560, or 23566, the court shall require that any term of imprisonment that is imposed include at least one period of not less than 48 consecutive hours of imprisonment or, in the alternative and notwithstanding Section 4024.2 of the Penal Code, that the person serve not less than 10 days of community service.

(b) Notwithstanding any other provision of law, except Section 2900.5 of the Penal Code, unless the court expressly finds in the circumstances that the punishment inflicted would be cruel or unusual punishment prohibited by Section 17 of Article I of the California Constitution, no court or person to whom a person is remanded for execution of sentence shall release, or permit the release of, a person from the requirements of subdivision (a), including, but not limited to, any work-release program, weekend service of sentence program, diversion or treatment program, or otherwise.

(c) For the purposes of this section, “imprisonment” means confinement in a jail, in a minimum security facility, or in an inpatient rehabilitation facility, as provided in Part 1309 (commencing with Section 1309.1) of Title 23 of the Code of Federal Regulations.

Speeding: Additional Penalty

23582. (a) Any person who drives a vehicle 30 or more miles per hour over the maximum, prima facie, or posted speed limit on a freeway, or 20 or more miles per hour over the maximum, prima facie, or posted speed limit on any other
street or highway, and in a manner prohibited by Section 23103 during the commission of a violation of Section 23152 or 23153 shall, in addition to the punishment prescribed for that person upon conviction of a violation of Section 23152 or 23153, be punished by an additional and consecutive term of 60 days in the county jail.

(b) If the court grants probation or suspends the execution of sentence, it shall require as a condition of probation or suspension that the defendant serve 60 days in the county jail, in addition and consecutive to any other sentence prescribed by this chapter.

(c) On a first conviction under this section, the court shall order the driver to participate in, and successfully complete, an alcohol or drug education and counseling program, or both an alcohol and a drug education and counseling program. Except in unusual cases where the interests of justice would be served, a finding making this section applicable to a defendant shall not be stricken pursuant to Section 1385 of the Penal Code or any other provision of law. If the court decides not to impose the additional and consecutive term, it shall specify on the court record the reasons for that order.

(d) The additional term provided in this section shall not be imposed unless the facts of driving in a manner prohibited by Section 23103 and driving the vehicle 30 or more miles per hour over the maximum, prima facie, or posted speed limit on a freeway, or 20 or more miles per hour over the maximum, prima facie, or posted speed limit on any other street or highway, are charged in the accusatory pleading and admitted or found to be true by the trier of fact. A finding of driving in that manner shall be based on facts in addition to the fact that the defendant was driving while under the influence of alcohol, any drug, or both, or with a specified percentage of alcohol in the blood.

Article 6. Additional Court-Imposed Orders and Directions

Impoundment of Vehicles

23592. (a) (1) Whenever a person is convicted of any of the following offenses committed while driving a motor vehicle of which he or she is the owner, the court, at the time sentence is imposed on the person, may order the motor vehicle impounded for a period of not more than six months for a first conviction, and not more than 12 months for a second or subsequent conviction:

(A) Driving with a suspended or revoked driver’s license.

(B) A violation of Section 2800.2 resulting in an accident or Section 2800.3, if either violation occurred within seven years of one or more separate convictions for a violation of any of the following:

(i) Section 23103, if the vehicle involved in the violation was driven at a speed of 100 or more miles per hour.

(ii) Section 23152.

(iii) Section 23153.

(iv) Subdivisions (a) and (b) of Section 191.5 of the Penal Code.

(v) Subdivision (c) of Section 192 of the Penal Code.

(vi) Subdivision (a) of Section 192.5 of the Penal Code.

(2) The cost of keeping the vehicle is a lien on the vehicle pursuant to Chapter 6.5 (commencing with Section 3067) of Title 14 of Part 4 of Division 3 of the Civil Code.

(b) Notwithstanding subdivision (a), a motor vehicle impounded pursuant to this section that is subject to a chattel mortgage, conditional sale contract, or lease contract shall be released by the court to the legal owner upon the filing of an affidavit by the legal owner that the chattel mortgage, conditional sale contract, or lease contract is in default and shall be delivered to the legal owner upon payment of the accrued cost of keeping the vehicle.

Amended Sec. 35, Ch. 747, Stats. 2007. Effective January 1, 2008.

Court Advisory: DWI Statement

23593. (a) The court shall advise a person convicted of a violation of Section 23103, as specified in Section 23103.5, or a violation of Section 23152 or 23153, as follows:

“You are hereby advised that being under the influence of alcohol or drugs, or both, impairs your ability to safely operate a motor vehicle. Therefore, it is extremely dangerous to human life to drive while under the influence of alcohol or drugs, or both. If you continue to drive while under the influence of alcohol or drugs, or both, and, as a result of that driving, someone is killed, you can be charged with murder.”

(b) The advisory statement may be included in a plea form, if used, or the fact that the advice was given may be specified on the record.

(c) The court shall include on the abstract of the conviction or violation submitted to the department under Section 1803 or 1816, the fact that the person has been advised as required under subdivision (a).

Impoundment of Vehicles

23594. (a) Except as provided in subdivision (b), the interest of any registered owner of a motor vehicle that has been used in the commission of a violation of Section 23152 or 23153 for which the owner was convicted, is subject to impoundment as provided in this section. Upon conviction, the court may order the vehicle impounded at the registered owner’s expense for not less than one nor more than 30 days.

If the offense occurred within five years of a prior offense which resulted in conviction of a violation of Section 23152 or 23153, the prior conviction shall also be charged in the accusatory pleading and if admitted or found to be true by the jury upon a jury trial or by the court upon a court trial, the court shall, except in an unusual case where the interests of justice would best be served by not ordering impoundment, order the vehicle impounded at the registered owner’s expense for not less than one nor more than 30 days.

If the offense occurred within five years of two or more prior offenses which resulted in convictions of violations of Section 23152 or 23153, the prior convictions shall also be charged in the accusatory pleading and if admitted or found to be true by the jury upon a jury trial or by the court upon a court trial, the court shall, except in an unusual case where the interests of justice would best be served by not ordering impoundment, order the vehicle impounded at the registered owner’s expense for not less than one nor more than 90 days.

For the purposes of this section, the court may consider in the interests of justice factors such as whether impoundment of the vehicle would result in a loss of employment of the offender or the offender’s family, impair the ability of the offender or the offender’s family to attend school or obtain medical care, result in the loss of the vehicle because of inability
to pay impoundment fees, or unfairly infringe upon community property rights or any other facts the court finds relevant. When no impoundment is ordered in an unusual case pursuant to this section, the court shall specify on the record and shall enter in the minutes the circumstances indicating that the interests of justice would best be served by that disposition.

(b) No vehicle which may be lawfully driven on the highway with a class C or class M driver’s license, as specified in Section 12804.9, is subject to impoundment under this section if there is a community property interest in the vehicle owned by a person other than the defendant and the vehicle is the sole vehicle available to the defendant’s immediate family which may be operated on the highway with a class C or class M driver’s license.

Vehicle Declared Nuisance: Sale of Vehicle

23596. (a) (1) Upon its own motion or upon motion of the prosecutor in a criminal action for a violation of any of the following offenses, the court with jurisdiction over the offense, notwithstanding Section 86 of the Code of Civil Procedure and any other provision of law otherwise prescribing the jurisdiction of the court based upon the value of the property involved, may declare the motor vehicle driven by the defendant to be a nuisance if the defendant is the registered owner of the vehicle:

(A) A violation of Section 191.5 of, or subdivision (a) of Section 192.5 of, the Penal Code.

(B) A violation of Section 23152 that occurred within seven years of two or more separate offenses of Section 191.5 of, or subdivision (a) of Section 192.5 of, the Penal Code, or Section 23152 or 23153, or any combination thereof, that resulted in convictions.

(C) A violation of Section 23153 that occurred within seven years of one or more separate offenses of Section 191.5 of, or subdivision (a) of Section 192.5 of, the Penal Code, or Section 23152 or 23153, that resulted in convictions.

(2) The court or the prosecutor shall give notice of the motion to the defendant, and the court shall hold a hearing before a motor vehicle may be declared a nuisance under this section.

(b) Except as provided in subdivision (g), upon the conviction of the defendant and at the time of pronouncement of sentence, the court with jurisdiction over the offense shall order a vehicle declared to be a nuisance pursuant to subdivision (a) to be sold. A vehicle ordered to be sold pursuant to this subdivision shall be surrendered to the sheriff of the county or the chief of police of the city in which the violation occurred. The officer to whom the vehicle is surrendered shall promptly ascertain from the department the names and addresses of all legal and registered owners of the vehicle and, within five days of receiving that information, shall send by certified mail a notice to all legal and registered owners of the vehicle other than the defendant, at the addresses obtained from the department, informing them that the vehicle has been declared a nuisance and will be sold or otherwise disposed of pursuant to this section and of the approximate date and location of the sale or other disposition. The notice shall also inform a legal owner of its right to conduct the sale pursuant to subdivision (c).

(c) The legal owner who is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed finance institution legally operating in this state, or the agent of that legal owner, may take possession and conduct the sale of the vehicle declared to be a nuisance if it notifies the officer to whom the vehicle is surrendered of its intent to conduct the sale within 15 days of the mailing of the notice pursuant to subdivision (b). Sale of the vehicle pursuant to this subdivision may be conducted at the time, in the manner, and on the notice usually given for the sale of repossessed or surrendered vehicles. The proceeds of a sale conducted by the legal owner shall be disposed of as provided in subdivision (e). A notice pursuant to this subdivision may be presented in person, by certified mail, by facsimile transmission, or by electronic mail. The agent of a legal owner acting pursuant to this subdivision shall be licensed, or exempt from licensure, pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code.

(d) If the legal owner or the agent of the legal owner does not notify the officer to whom the vehicle is surrendered of its intent to conduct the sale as provided in subdivision (c), the officer shall offer the vehicle for sale at public auction within 60 days of receiving the vehicle. At least 10 days but not more than 20 days prior to the sale, not counting the day of the sale, the officer shall give notice of the sale by advertising once in a newspaper of general circulation published in the city or county, as the case may be, in which the vehicle is located, that notice shall contain a description of the make, model, identification number, and license number of the vehicle and the date, time, and location of the sale. For motorcycles, the engine number shall also be included. If there is no newspaper of general circulation published in the county, notice shall be given by posting a notice of sale containing the information required by this subdivision in three of the most public places in the city or county in which the vehicle is located, and at the place where the vehicle is to be sold, for 10 consecutive days prior to and including the day of the sale.

(e) The proceeds of a sale conducted pursuant to this section shall be disposed of in the following priority:

1. To satisfy the costs of the sale, including costs incurred with respect to the taking and keeping of the vehicle pending sale.

2. To the legal owner in an amount to satisfy the indebtedness owed to the legal owner remaining as of the date of the sale, including accrued interest or finance charges and delinquency charges.

3. To the holder of a subordinate lien or encumbrance on the vehicle to satisfy any indebtedness so secured if written notification of demand is received before distribution of the proceeds is completed. The holder of a subordinate lien or encumbrance, if requested, shall reasonably furnish reasonable proof of its interest and, unless it does so on request, is not entitled to distribution pursuant to this paragraph.

4. To any other person who can establish an interest in the vehicle, including a community property interest, to the extent of his or her provable interest.

5. If the vehicle was forfeited as a result of a felony violation of subdivision (a) of Section 191.5 of, or subdivision (a) of Section 192.5 of, the Penal Code, or of Section 23153 that resulted in serious bodily injury to a person other than the
defendant, the balance, if any, to the city or county in which the violation occurred, to be deposited in its general fund.

(6) Except as provided in paragraph (5), the balance, if any, to the city or county in which the violation occurred, to be expended for community-based adolescent substance abuse treatment services.

The person conducting the sale shall disburse the proceeds of the sale as provided in this subdivision, and provide a written accounting regarding the disposition to all persons entitled to or claiming a share of the proceeds, within 15 days after the sale is conducted.

(f) If the vehicle to be sold under this section is not of the type that can readily be sold to the public generally, the vehicle shall be destroyed or donated to an eleemosynary institution.

(g) No vehicle shall be sold pursuant to this section in either of the following circumstances:

(1) The vehicle is stolen, unless the identity of the legal and registered owners of the vehicle cannot be reasonably ascertained.

(2) The vehicle is owned by another, or there is a community property interest in the vehicle owned by a person other than the defendant and the vehicle is the only vehicle available to the defendant’s immediate family that may be operated on the highway with a class 3 or class 4 driver’s license.

(h) The Legislature finds and declares it to be the public policy of this state that no policy of insurance shall afford benefits that would alleviate the financial detriment suffered by a person as a direct or indirect result of a confiscation of a vehicle pursuant to this section.

Amended Sec. 36, Ch. 747, Stats. 2007. Effective January 1, 2008.

Revocation: Third and Subsequent Conviction

§23597. (a) Notwithstanding Sections 13202.5, 13203, and 13352, a court may order a 10-year revocation of the driver’s license of a person who has been convicted of three or more separate violations of Section 23152 or 23153, the last of which is punishable under Section 23546, 23550, 23550.5, or 23566. When making this order, the court shall consider all of the following:

(1) The person’s level of remorse for the acts.

(2) The period of time that has elapsed since the person’s previous convictions.

(3) The person’s blood-alcohol level at the time of the violation.

(4) The person’s participation in an alcohol treatment program.

(5) The person’s risk to traffic or public safety.

(6) The person’s ability to install a certified ignition interlock device in each motor vehicle that he or she owns or operates.

(b) Upon receipt of a duly certified abstract of the record of the court showing the court has ordered a 10-year revocation of a driver’s license pursuant to this section, the department shall revoke the person’s driver’s license for 10 years, except as provided in subdivision (c).

(c) (1) Five years from the date of the last conviction of a violation of Section 23152 or 23153, a person whose license was revoked pursuant to subdivision (a) may apply to the department to have his or her privilege to operate a motor vehicle reinstated, subject to the condition that the person submits the “Verification of Installation” form described in paragraph (2) of subdivision (h) of Section 13386 and agrees to maintain the ignition interlock device as required under subdivision (g) of Section 23575. Notwithstanding Chapter 5 (commencing with Section 23700) or subdivision (f) of Section 23575, the ignition interlock device shall remain on the person’s motor vehicle for two years following the reinstatement of the person’s driving privilege pursuant to this section. (2) The department shall reinstate the person’s license pursuant to paragraph (1), if the person satisfies all of the following conditions:

(A) The person was not convicted of any drug- or alcohol-related offenses, under state law, during the driver’s license revocation period.

(B) The person successfully completed a driving-under-the-influence program, licensed pursuant to Section 11836 of the Health and Safety Code, following the date of the last conviction of a violation of Section 23152 or 23153.

(C) The person was not convicted of violating Section 14601, 14601.1, 14601.2, 14601.4, or 14601.5 during the driver’s license revocation period.

(3) The department shall immediately terminate the restriction issued pursuant to this section and shall immediately revoke the privilege to operate a motor vehicle of a person who attempts to remove, bypass, or tamper with the device, who has the device removed prior to the termination date of the restriction, or who fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device. The privilege shall remain revoked for the remaining period of the original revocation and until all reinstatement requirements are met.

(d) This section shall become operative on January 1, 2012. Added Sec. 8, Ch. 361, Stats. 2010. Effective January 1, 2012.

Article 7. Alternative to Alcohol or Drug Education Program

Live-in Alternative to Alcohol or Drug Education Program

23598. In lieu of the alcohol or drug education program prescribed by Section 23538, 23542, 23548, 23552, 23556, 23562, or 23568, a court may impose, as a condition of probation, that the person complete, subsequent to the underlying conviction, a program specified in Section 8001 of the Penal Code, if the person consents and has been accepted into that program. Acceptance into that program shall be verified by a certification, under penalty of perjury, by the director of the program.

CHAPTER 3. PROBATION

Sentencing: Minimum Probation Conditions

23600. (a) If any person is convicted of a violation of Section 23152 or 23153, the court shall not stay or suspend pronouncement of sentencing, and shall pronounce sentence in conjunction with the conviction in a reasonable time, including time for receipt of any presentence investigation report ordered pursuant to Section 23655.

(b) If any person is convicted of a violation of Section 23152 or 23153 and is granted probation, the terms and conditions of probation shall include, but not be limited to, the following:

(1) Notwithstanding Section 1203a of the Penal Code, a period of probation not less than three nor more than five
years; provided, however, that if the maximum sentence provided for the offense may exceed five years in the state prison, the period during which the sentence may be suspended and terms of probation enforced may be for a longer period than three years but may not exceed the maximum time for which sentence of imprisonment may be pronounced.

(2) A requirement that the person shall not drive a vehicle with any measurable amount of alcohol in his or her blood.

(3) A requirement that the person, if arrested for a violation of Section 23152 or 23153, shall not refuse to submit to a chemical test of his or her blood, breath, or urine, pursuant to Section 23612, for the purpose of determining the alcoholic content of his or her blood.

(4) A requirement that the person shall not commit any criminal offense.

(c) The court shall not absolve a person who is convicted of a violation of Section 23152 or 23153 from the obligation of paying the minimum fine imposed by law.

(d) In addition to any other provision of law, if any person violates paragraph (2) or (3) of subdivision (b) and the person had a blood alcohol concentration of over 0.04 percent as determined by a chemical test, the court shall revoke or terminate the person’s probation as provided by Section 23602, regardless of any other proceeding, and shall only grant a new term of probation of not more than five years on the added condition that the person be confined in the county jail for not less than 48 hours for each of these violations of probation, except in unusual cases where the interests of justice would best be served if this additional condition were not imposed.

Probation: Payment of Money

23601. (a) Except as provided in subdivision (c), an order to pay any fine, restitution, or assessment, imposed as a condition of the grant of probation or as part of a judgment of conditional sentence for a violation of Section 23152 or 23153, may be enforced in the same manner provided for the enforcement of money judgments.

(b) A willful failure to pay any fine, restitution, or assessment during the term of probation is a violation of the terms and conditions of probation.

(c) If an order to pay a fine as a condition of probation is stayed, a writ of execution shall not be issued, and any failure to pay the fine is not willful, until the stay is removed.

Penalty: Violation of Probation

23602. Except as otherwise expressly provided in this code, if a person has been convicted of a violation of Section 23152 or 23153 and the court has suspended execution of the sentence for that conviction and has granted probation, and during the time of that probation, the person is found by the court to have violated a required term or condition of that probation, the court shall revoke the suspension of sentence, revoke or terminate probation, and shall proceed in the manner provided in subdivision (c) of Section 1203.2 of the Penal Code.

Chapter 4. Procedures

Blood-Alcohol Level: Presumptions Affecting Burden of Proof

23610. (a) Upon the trial of any criminal action, or preliminary proceeding in a criminal action, arising out of acts alleged to have been committed by any person while driving a vehicle while under the influence of an alcoholic beverage in violation of subdivision (a) of Section 23152 or subdivision (a) of Section 23153, the amount of alcohol in the person’s blood at the time of the test as shown by chemical analysis of that person’s blood, breath, or urine shall give rise to the following presumptions affecting the burden of proof:

(1) If there was at that time less than 0.05 percent, by weight, of alcohol in the person’s blood, it shall be presumed that the person was not under the influence of an alcoholic beverage at the time of the alleged offense.

(2) If there was at that time 0.05 percent or more but less than 0.08 percent, by weight, of alcohol in the person’s blood, that fact shall not give rise to any presumption that the person was or was not under the influence of an alcoholic beverage, but the fact may be considered with other competent evidence in determining whether the person was under the influence of an alcoholic beverage at the time of the alleged offense.

(3) If there was at that time 0.08 percent or more, by weight, of alcohol in the person’s blood, it shall be presumed that the person was under the influence of an alcoholic beverage at the time of the alleged offense.

(b) Percent, by weight, of alcohol in the person’s blood shall be based upon grams of alcohol per 100 milliliters of blood or grams of alcohol per 210 liters of breath.

(c) This section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question of whether the person ingested any alcoholic beverage or was under the influence of an alcoholic beverage at the time of the alleged offense.

Implied Consent For Chemical Testing

23612. (a) (1) (A) A person who drives a motor vehicle is deemed to have given his or her consent to chemical testing of his or her blood or breath for the purpose of determining the alcoholic content of his or her blood, if lawfully arrested for an offense allegedly committed in violation of Section 23140, 23152, or 23153. If a blood or breath test, or both, are unavailable, then paragraph (2) of subdivision (d) applies.

(B) A person who drives a motor vehicle is deemed to have given his or her consent to chemical testing of his or her blood for the purpose of determining the drug content of his or her blood, if lawfully arrested for an offense allegedly committed in violation of Section 23140, 23152, or 23153. If a blood test is unavailable, the person shall be deemed to have given his or her consent to chemical testing of his or her urine and shall submit to a urine test.

(C) The testing shall be incidental to a lawful arrest and administered at the direction of a peace officer having reasonable cause to believe the person was driving a motor vehicle in violation of Section 23140, 23152, or 23153.
(D) The person shall be told that his or her failure to submit to, or the failure to complete, the required chemical testing will result in a fine, mandatory imprisonment if the person is convicted of a violation of Section 23152 or 23153, and (i) the suspension of the person’s privilege to operate a motor vehicle for a period of one year, (ii) the revocation of the person’s privilege to operate a motor vehicle for a period of two years if the refusal occurs within 10 years of a separate violation of Section 23103 as specified in Section 23103.5, or of Section 23140, 23152, or 23153 of this code, or of Section 191.5 or subdivision (a) of Section 192.5 of the Penal Code that resulted in a conviction, or if the person’s privilege to operate a motor vehicle has been suspended or revoked pursuant to Section 13353, 13353.1, or 13353.2 for an offense that occurred on a separate occasion, or (iii) the revocation of the person’s privilege to operate a motor vehicle for a period of three years if the refusal occurs within 10 years of two or more separate violations of Section 23103 as specified in Section 23103.5, or of Section 23140, 23152, or 23153 of this code, or of Section 191.5 or subdivision (a) of Section 192.5 of the Penal Code, or any combination thereof, that resulted in convictions, or if the person’s privilege to operate a motor vehicle has been suspended or revoked two or more times pursuant to Section 13353, 13353.1, or 13353.2 for offenses that occurred on separate occasions, or if there is any combination of those convictions, administrative suspensions or revocations.

(2) (A) If the person is lawfully arrested for driving under the influence of an alcoholic beverage, the person has the choice of whether the test shall be of his or her blood or breath and the officer shall advise the person that he or she has that choice. If the person arrested either is incapable, or states that he or she is incapable, of completing the chosen test, the person shall submit to the remaining test. If a blood or breath test, or both, are unavailable, then paragraph (2) of subdivision (d) applies.

(B) If the person is lawfully arrested for driving under the influence of any drug or the combined influence of an alcoholic beverage and any drug, the person has the choice of whether the test shall be of his or her blood or breath, and the officer shall advise the person that he or she has that choice.

(C) A person who chooses to submit to a breath test may also be requested to submit to a blood test if the officer has reasonable cause to believe that the person was driving under the influence of a drug or the combined influence of an alcoholic beverage and a drug and if the officer has a clear indication that a blood test will reveal evidence of the person being under the influence. The officer shall state in his or her report the facts upon which that belief and that clear indication are based. The officer shall advise the person that he or she is required to submit to an additional test. The person shall submit to and complete a blood test. If the person arrested is incapable of completing the blood test, the person shall submit to and complete a urine test.

(3) If the person is lawfully arrested for an offense allegedly committed in violation of Section 23140, 23152, or 23153, and, because of the need for medical treatment, the person is first transported to a medical facility where it is not feasible to administer a particular test of, or to obtain a particular sample of, the person’s blood or breath, the person has the choice of those tests, including a urine test, that are available at the facility to which that person has been transported. In that case, the officer shall advise the person of those tests that are available at the medical facility and that the person’s choice is limited to those tests that are available.

(4) The officer shall also advise the person that he or she does not have the right to have an attorney present before stating whether he or she will submit to a test or tests, before deciding which test or tests to take, or during administration of the test or tests chosen, and that, in the event of refusal to submit to a test or tests, the refusal may be used against him or her in a court of law.

(5) A person who is unconscious or otherwise in a condition rendering him or her incapable of refusal is deemed not to have withdrawn his or her consent and a test or tests may be administered whether or not the person is told that his or her failure to submit to, or the noncompletion of, the test or tests will result in the suspension or revocation of his or her privilege to operate a motor vehicle. A person who is dead is deemed not to have withdrawn his or her consent and a test or tests may be administered at the direction of a peace officer.

(b) A person who is afflicted with hemophilia is exempt from the blood test required by this section, but shall submit to, and complete, a urine test.

(c) A person who is afflicted with a heart condition and is using an anticoagulant under the direction of a licensed physician and surgeon is exempt from the blood test required by this section, but shall submit to, and complete, a urine test.

(d) (1) A person lawfully arrested for an offense allegedly committed while the person was driving a motor vehicle in violation of Section 23140, 23152, or 23153 may request the arresting officer to have a chemical test made of the arrested person’s blood or breath for the purpose of determining the alcoholic content of that person’s blood, and, if so requested, the arresting officer shall have the test performed.

(2) If a blood or breath test is not available under subparagraph (A) of paragraph (1) of subdivision (a), or under subparagraph (A) of paragraph (2) of subdivision (a), or under paragraph (1) of this subdivision, the person shall submit to the remaining test in order to determine the percent, by weight, of alcohol in the person’s blood. If both the blood and breath tests are unavailable, the person shall be deemed to have given his or her consent to chemical testing of his or her urine and shall submit to a urine test.

(e) If the person, who has been arrested for a violation of Section 23140, 23152, or 23153, refuses or fails to complete a chemical test or tests, or requests that a blood or urine test be taken, the peace officer, acting on behalf of the department, shall serve the notice of the order of suspension or revocation of the person’s privilege to operate a motor vehicle personally on the arrested person. The notice shall be on a form provided by the department.

(f) If the peace officer serves the notice of the order of suspension or revocation of the person’s privilege to operate a motor vehicle, the peace officer shall take possession of all driver’s licenses issued by this state that are held by the person. The temporary driver’s license shall be an endorsement stating whether he or she will submit to a blood or breath test and contain a notation of the test or tests chosen, and that, in the event of refusal to submit to a test or tests, the refusal may be used against him or her in a court of law.

(g) (1) The peace officer shall immediately forward a copy of the completed notice of suspension or revocation form and any
driver's license taken into possession under subdivision (f), with the report required by Section 13380, to the department. If the person submitted to a blood or urine test, the peace officer shall forward the results immediately to the appropriate forensic laboratory. The forensic laboratory shall forward the results of the chemical tests to the department within 15 calendar days of the date of the arrest.

(2) (A) Notwithstanding any other law, a document containing data prepared and maintained in the governmental forensic laboratory computerized database system that is electronically transmitted or retrieved through public or private computer networks to or by the department is the best available evidence of the chemical test results in all administrative proceedings conducted by the department. In addition, any other official record that is maintained in the governmental forensic laboratory, relates to a chemical test analysis prepared and maintained in the governmental forensic laboratory computerized database system, and is electronically transmitted and retrieved through a public or private computer network to or by the department is admissible as evidence in the department’s administrative proceedings. In order to be admissible as evidence in administrative proceedings, a document described in this subparagraph shall bear a certification by the employee of the department who retrieved the document certifying that the information was received or retrieved directly from the computerized database system of a governmental forensic laboratory and that the document accurately reflects the data received or retrieved.

(B) Notwithstanding any other law, the failure of an employee of the department to certify under subparagraph (A) is not a public offense.

(h) A preliminary alcohol screening test that indicates the presence or concentration of alcohol based on a breath sample in order to establish reasonable cause to believe the person was driving a vehicle in violation of Section 23140, 23152, or 23153 is a field sobriety test and may be used by an officer as a further investigative tool.

(i) If the officer decides to use a preliminary alcohol screening test, the officer shall advise the person that he or she is requesting that person to take a preliminary alcohol screening test to assist the officer in determining if that person is under the influence of alcohol or drugs, or a combination of alcohol and drugs. The person’s obligation to submit to a blood, breath, or urine test, as required by this section, for the purpose of determining the alcohol or drug content of that person’s blood, is not satisfied by the person submitting to a preliminary alcohol screening test. The officer shall advise the person of that fact and of the person’s right to refuse to take the preliminary alcohol screening test.

(b) The person shall also be advised that, because no breath sample is retained, the person will be given an opportunity to provide a blood or urine sample that will be retained at no cost to the person so that there will be something retained that may be subsequently analyzed for the alcoholic content of the person’s blood. If the person completes a breath test and wishes to provide a blood or urine sample to be retained, the sample shall be collected and retained in the same manner as if the person had chosen a blood or urine test initially.

(c) The person shall also be advised that the blood or urine sample may be tested by either party in any criminal prosecution. The failure of either party to perform this test shall place neither a duty upon the opposing party to perform the test nor affect the admissibility of any other evidence of the alcoholic content of the blood of the person arrested.

(d) No failure or omission to advise pursuant to this section shall affect the admissibility of any evidence of the alcoholic content of the blood of the person arrested.

Article 2. Prior and Separate Offenses

Vehicular Manslaughter: Separate Offense

23620. (a) For the purposes of this division, Section 13352, and Chapter 12 (commencing with Section 23100) of Division 11, a separate offense that resulted in a conviction of a violation of subdivision (f) of Section 655 of the Harbors and Navigation Code or of Section 191.5 of, or subdivision (a) of Section 192.5 of, the Penal Code is a separate offense of a violation of Section 23153.

(b) For the purposes of this division and Chapter 12 (commencing with Section 23100) of Division 11, and Section 13352, a separate offense that resulted in a conviction of a violation of subdivision (b), (c), (d), or (e) of Section 655 of the Harbors and Navigation Code is a separate violation of Section 23152.

Prior Convictions: Sentencing

23622. (a) In any case charging a violation of Section 23152 or 23153 and the offense occurred within 10 years of one or more separate violations of Section 23103, as specified in Section 23103.5, that occurred on or after January 1, 1982, 23152, or 23153, or any combination thereof, that resulted in convictions, the court shall not strike any separate conviction of those offenses for purposes of sentencing in order to avoid imposing, as part of the sentence or term of probation, the minimum time of imprisonment and the minimum fine, as provided in this chapter, or for purposes of avoiding revocation, suspension, or restriction of the privilege to operate a motor vehicle, as provided in this code.

(b) In any case charging a violation of Section 23152 or 23153, the court shall obtain a copy of the driving record of the person charged from the Department of Motor Vehicles and may obtain any records from the Department of Justice or any other source to determine if one or more separate violations of Section 23103, as specified in Section 23103.5, that occurred on or after January 1, 1982, 23152, or 23153, or any combination thereof, that resulted in convictions, have occurred within 10 years of the charged offense. The court may obtain, and accept as rebuttable evidence, a printout from the Department of

Breath and Chemical Testing: Advisement

23614. (a) In addition to the requirements of Section 23612, a person who chooses to submit to a breath test shall be advised before or after the test that the breath-testing equipment does not retain any sample of the breath and that no breath sample will be available after the test which could be analyzed later by that person or any other person.
Motor Vehicles of the driving record of the person charged, maintained by electronic and storage media pursuant to Section 1801 for the purpose of proving those separate violations.

(c) If any separate convictions of violations of Section 23152 or 23153 are reported to have occurred within 10 years of the charged offense, the court shall notify each court where any of the separate convictions occurred for the purpose of enforcing terms and conditions of probation pursuant to Section 23602.

Separate Convictions: Constitutional Challenge

23624. Only one challenge shall be permitted to the constitutionality of a separate conviction of a violation of Section 14601, 14601.2, 23152, or 23153, which was entered in a separate proceeding. When a proceeding to declare a separate judgment of conviction constitutionally invalid has been held, a determination by the court that the separate conviction is unconstitutional precludes any subsequent attack on constitutional grounds in a subsequent prosecution in which the same separate conviction is charged. In addition, any determination that a separate conviction is unconstitutional precludes any allegation or use of that separate conviction in any judicial or administrative proceeding, and the department shall strike that separate conviction from its records. Pursuant to Section 1803, the court shall report to the Department of Motor Vehicles any determination upholding a conviction on constitutional grounds and any determination that a conviction is unconstitutional.

This section shall not preclude a subsequent challenge to a conviction if, at a later time, a subsequent statute or appellate court decision having retroactive application affords any new basis to challenge the constitutionality of the conviction.

Effect of Conviction in Another Jurisdiction

23626. A conviction of an offense in any state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada that, if committed in this state, would be a violation of Section 23152 or 23153 of this code, or Section 191.5 of, subdivision (a) of Section 192.5 of, the Penal Code, is a conviction of Section 23152 or 23153 of this code, or Section 191.5 of, subdivision (a) of Section 192.5 of, the Penal Code for the purposes of this code.

(c) The court shall determine if the defendant has the ability to pay a penalty assessment. If the court determines that the defendant has the ability to pay a penalty assessment, the court may set the amount to be paid and order the defendant to pay that sum to the county in the manner in which the court believes reasonable and compatible with the defendant’s financial ability. In making a determination of whether a defendant has the ability to pay, the court shall take into account the amount of any fine imposed upon the defendant and any amount the defendant has been ordered to pay in restitution. If the court determines that the defendant does not have the ability to pay a penalty assessment, the defendant shall not be required to pay a penalty assessment.

(d) Five percent of the funds allocated to primary prevention programs to the school and the communities pursuant to subdivision (a) of Section 11802 of the Health and Safety Code shall be used to conduct an annual evaluation. The annual evaluation shall be conducted by the county superintendent of schools in counties where the program is operating in a single county or in the office of the county superintendent of schools in the county designated as the lead county in counties where the program is operating as a consortium of counties. The evaluation shall contain the following:

1. A needs assessment evaluation that provides specific data regarding the problem to be resolved.
2. A written report of the planning process outlining the deliberations, considerations, and conclusions following a review of the needs assessment.
3. An end of fiscal year accountability evaluation that will indicate the program’s continuing ability to reach appropriate program beneficiaries, deliver the appropriate benefits, and use funds appropriately.
4. An impact evaluation charged with the task of assessing the effectiveness of the program. Guidelines for the evaluation report format and the timeliness for the submission of the report shall be developed by the State Department of Education. Each county shall submit an evaluation report annually to the State Department of Education and the State Superintendent of Education shall write and submit a report to the Legislature and Governor.

County Alcohol and Drug Problem Assessment Programs

23646. (a) Each county alcohol program administrator or the administrator’s designee shall develop, implement, operate, and administer an alcohol and drug program assessment program pursuant to this article for each person described in subdivision (b). The alcohol and drug program assessment program may include a referral and client tracking component.

(b) (1) The court shall order a person to participate in an alcohol and drug program assessment program pursuant to this section and Sections 23647 to 23649, inclusive, and the related regulations of the State Department of Health Care Services, if the person was convicted of a violation of Section 23152 or 23153 that occurred within 10 years of a separate violation of Section 23152 or 23153 that resulted in a conviction.

(2) A court may order a person convicted of a violation of Section 23152 or 23153 to attend an alcohol and drug problem assessment program pursuant to this article.

(3) (A) The court shall order a person convicted of a violation of Section 23152 or 23153 who has previously been convicted of a violation of Section 23152 or 23153 that occurred more than 10 years ago, or has been previously convicted of a violation of subdivision (f) of Section 647 of the Penal Code, to attend and complete an alcohol and drug program assessment program under this article. In order to determine whether a previous conviction for a violation occurring more than 10 years ago exists, the court shall rely on state summary criminal history information, local summary history information, or records made available to the judge through the district attorney.

(B) If the program assessment recommends additional treatment, the court may order a person sentenced under either Section 23538 or 23556 to enroll, participate, and complete either of the programs described under paragraph (4) of subdivision (b) of Section 23542.

(c) The State Department of Health Care Services shall establish minimum specifications for alcohol and other drug problem assessments and reports.

Amended and renumbered from 23249.53 Sec. 32, Ch. 22, Stats. 1999. Effective July 1, 1999.

Participation in Program

23647. (a) Any person convicted of a violation of Section 23152 or 23153 who is required to participate in a county alcohol and drug program assessment program shall participate in that program.

(b) Any person convicted of a violation of Section 23103, as specified in Section 23103.5, in a judicial district that participates in a county alcohol and drug program assessment program pursuant to this article, may be ordered to participate in the program.

Report

23648. (a) Each county shall prepare, or contract to be prepared, an alcohol and drug program assessment report on each person described in subdivision (b) of Section 23646.

(b) The assessment report shall include, if applicable, a recommendation for any additional treatment and the duration of the treatment. The treatment shall be in addition to the education and counseling program required under Section 11837 of the Health and Safety Code. The assessment report shall be submitted to the court not more than 14 days after the date the assessment was conducted.

(c) Within 30 days of the receipt of the report, the court shall order the person to complete the recommendations set forth in the report in satisfaction of, and consistent with, the terms and conditions of probation. If the court elects not to order the completion of the recommended plan, the court shall specify on the record its reason for not adopting these recommendations.

(d) This section shall become operative on January 1, 2000.

Additional Assessments

23649. (a) Notwithstanding any other provision of law, in addition to any other fine or penalty assessment, there shall be levied an assessment of not more than one hundred dollars ($100) upon every fine, penalty, or forfeiture imposed and collected by the courts for a violation of Section 23152 or 23153 in any judicial district that participates in a county alcohol and drug problem assessment program. An assessment of not more than one hundred dollars ($100) shall be imposed and collected by the courts from each person convicted of a violation of Section 23103, as specified in Section 23103.5, who is ordered to participate in a county alcohol and drug problem assessment program pursuant to Section 23647.

(b) The court shall determine if the defendant has the ability to pay the assessment. If the court determines that the defendant has the ability to pay the assessment then the court may set the amount to be reimbursed and order the defendant to pay that sum to the county in the manner that the court determines is reasonable and compatible with the defendant's financial ability. In making a determination of whether a defendant has the ability to pay, the court shall take into account the amount of any fine imposed upon the defendant and any amount the defendant has been ordered to pay in restitution.

(c) Notwithstanding Section 1463 or 1464 of the Penal Code or any other provision of law, all moneys collected pursuant to this section shall be deposited in a special account in the county treasury and shall be used exclusively by the county alcohol program administrator or the administrator's designee to pay for the costs of developing, implementing, operating, maintaining, and evaluating alcohol and drug problem assessment programs.

(d) On January 15 of each year, the treasurer of each county that administers an alcohol and drug problem assessment program shall determine those moneys in the special account that were not expended during the preceding fiscal year, and shall transfer those moneys to the general fund of the county.

(e) Any moneys remaining in the special account, if and when the alcohol and drug problem assessment program is terminated, shall be transferred to the general fund of the county.

(f) The county treasurer shall annually transfer an amount of money equal to the county's administrative cost incurred pursuant to this section, as he or she shall determine, from the special account to the general fund of the county.

Rules and Guidelines

23650. The Office of Traffic Safety shall adopt rules and guidelines to implement Sections 23646 to 23649, inclusive.

Surrender of Suspended or Revoked License

23660. (a) If a person's privilege to operate a motor vehicle is required to be suspended or revoked by the department under other provisions of this code upon the conviction of an offense described in Article 2 (commencing with Section 23152) of Chapter 12 of Division 11, that person shall surrender each and every operator's license of that person to the court upon conviction. The court shall transmit the license or licenses required to be suspended or revoked to the department under Section 13550, and the court shall notify the department.

(b) This section does not apply to an administrative proceeding by the department to suspend or revoke the driving privilege of any person pursuant to other provisions of law.

(c) This section shall become operative on September 20, 2005.

Article 9. Delayed Suspensions and Revocations

Delayed Revocation or Suspension of Driving Privilege

23665. (a) If a person is convicted of a violation of Section 20001, or of Section 23152 or 23153 and is sentenced to one year in a county jail or more than one year in the state prison under Section 23540, 23542, 23546, 23548, 23550, 23550.5, 23552, 23554, 23556, 23558, 23560, 23562, 23566, or 23568, the court may postpone the revocation or suspension of the person's driving privilege until the term of imprisonment is served.

(b) This section shall become operative on September 20, 2005.

Article 1. Ignition Interlock Devices

Ignition Interlock Device Pilot Program

23700. (a) Notwithstanding any other provision of law, the Department of Motor Vehicles shall establish a pilot program in the Counties of Alameda, Los Angeles, Sacramento, and Tulare to reduce the number of first-time violations and repeat offenses of Sections 23152 and 23153, as follows:

(1) The Department of Motor Vehicles, upon receipt of the court's abstract conviction for a violation listed in paragraph (7), shall inform the convicted person of the requirements of this section, including the term for which the person is required to have a certified ignition interlock device installed. The records of the department shall reflect the mandatory use of the device for the term required and the time when the device is required to be installed by this code.

(2) The department shall advise the person that installation of an ignition interlock device on a vehicle does not allow the person to drive without a valid driver's license.

(3) Before a driver's license may be issued, reissued, or returned to a person after a suspension or revocation of that person's driving privilege that requires the installation of an ignition interlock device, a person who is notified by the department pursuant to paragraph (1) shall complete all of the following:

(A) Arrange for each vehicle owned or operated by the person to be fitted with an ignition interlock device by a certified ignition interlock device provider under Section 13386.

(B) Notify the department and provide to the department proof of installation by submitting the “Verification of Installation” form described in paragraph (2) of subdivision (g) of Section 13386.

(C) Pay the fee, determined by the department, that is sufficient to cover the costs of administration of this section.

(4) The department shall place a restriction on the driver’s license record of the convicted person that states the driver is restricted to driving only vehicles equipped with a certified ignition interlock device.

(5) (A) A person who is notified by the department pursuant to paragraph (1) shall arrange for each vehicle with an ignition interlock device to be serviced by the installer at least once every 60 days in order for the installer to recalibrate and monitor the operation of the device.

(B) The installer shall notify the department if the device is removed or indicates that the person has attempted to remove, bypass, or tamper with the device, or if the person fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device.

(6) The department shall monitor the installation and maintenance of the ignition interlock device installed pursuant to paragraph (1).

(7) A person is required to install an ignition interlock device for the applicable term as a condition of being issued a restricted driver's license, being reissued a driver's license, or having the privilege to operate a motor vehicle reinstated subsequent to a conviction for a violation or a suspension of a person’s driver’s license, as follows:

(A) A person convicted of a violation of Section 23152 shall be required to install an ignition interlock device, as follows:

(i) Upon a first offense, the person shall install an ignition interlock device in all vehicles owned or operated by that person for a mandatory term of five months.

(ii) Upon a second offense, the person shall install an ignition interlock device in all vehicles owned or operated by that person for a mandatory term of 12 months.

(iii) Upon a third offense, the person shall install an ignition interlock device in all vehicles owned or operated by that person for a mandatory term of 24 months.

(iv) Upon a fourth offense or any subsequent violation, the person shall install an ignition interlock device in all vehicles owned or operated by that person for a mandatory term of 36 months.

(B) A person convicted of a violation of Section 23153 shall install an ignition interlock device, as follows:

(i) Upon a first offense, the person shall install an ignition interlock device in all vehicles owned or operated by that person for a mandatory term of 12 months.

(ii) Upon a second offense, the person shall install an ignition interlock device in all vehicles owned or operated by that person for a mandatory term of 24 months.

(iii) Upon a third offense, the person shall install an ignition interlock device in all vehicles owned or operated by that person for a mandatory term of 36 months.

(iv) Upon a fourth offense or any subsequent violation, the person shall install an ignition interlock device in all vehicles owned or operated by that person for a mandatory term of 48 months.

(C) The terms prescribed in this paragraph shall begin once a person has provided to the department proof of installation pursuant to paragraph (2) of subdivision (b) of Section 13386 and upon restoration of the driving privilege pursuant to Section 13352.

(8) A person who is notified by the department, pursuant to this subdivision, is exempt from the requirements of this subdivision if within 30 days of the notification, the person certifies to the department all of the following:
(A) The person does not own a vehicle.

(B) The person does not have access to a vehicle at his or her residence.

(C) The person no longer has access to the vehicle being driven by the person at the time he or she was arrested for a violation that subsequently resulted in a conviction for a violation listed in this subdivision.

(D) The person acknowledges that he or she is only allowed to drive a vehicle that is fitted with a functioning ignition interlock device.

(E) The person acknowledges that he or she is required to have a valid driver’s license before he or she can drive.

(F) The person is subject to the requirements of this section when he or she purchases or has access to a vehicle.

(9) Subdivisions (j), (k), (m), (n), and (o) of Section 23575 apply to this section.

(10) If a person fails to comply with any of the requirements regarding ignition interlock devices, the mandatory term for which the ignition interlock device is required to be installed shall be reset by the department.

(b) (1) Every manufacturer and manufacturer’s agent certified by the department to provide ignition interlock devices, under Section 13386, shall adopt the following fee schedule that provides for the payment of the costs of the ignition interlock device by offenders subject to this chapter in amounts commensurate with that person’s income relative to the federal poverty level, as defined in Section 127400 of the Health and Safety Code:

(A) A person with an income at 100 percent of the federal poverty level and below is responsible for 10 percent of the cost of the ignition interlock device. The ignition interlock device provider is responsible for absorbing the cost of the ignition interlock device that is not paid by the person.

(B) A person with an income at 101 to 200 percent of the federal poverty level is responsible for 25 percent of the cost of the ignition interlock device. The ignition interlock device provider is responsible for absorbing the cost of the ignition interlock device that is not paid by the person.

(C) A person with an income at 201 to 300 percent of the federal poverty level is responsible for 50 percent of the cost of the ignition interlock device. The ignition interlock device provider is responsible for absorbing the cost of the ignition interlock device that is not paid by the person.

(D) All other offenders are responsible for 100 percent of the cost of the ignition interlock device.

(2) The cost of the ignition interlock device may only be raised annually equal to the Consumer Price Index.

(3) The offender’s income may be verified by presentation of that person’s current federal income tax return or three months of monthly income statements.

(c) This section does not permit a person to drive without a valid driver’s license.

(d) The requirements of this section are in addition to any other requirements of law.

(e) For the purposes of this section, “vehicle” does not include a motorcycle until the state certifies an ignition interlock device that can be installed on a motorcycle. A person subject to an ignition interlock device restriction shall not operate a motorcycle for the duration of the ignition interlock device restriction period.

(f) This section shall become operative on July 1, 2010.

NOTE: The preceding section shall remain in effect only until January 1, 2016, and as of that date is repealed.

Ignition Interlock Device Pilot Program: Conditional Implementation

23700.5. The department shall not implement Section 23700 if, by January 31, 2010, the department fails to obtain nonstate funds for the programming costs of the pilot program specified in Section 23700.

NOTE: The preceding section shall remain in effect only until January 1, 2016, and as of that date is repealed.

Study: Effectiveness of Ignition Interlock Device Pilot Program

23701. On or before January 1, 2015, the Department of Motor Vehicles shall report to the Legislature regarding the effectiveness of the pilot program authorized under this chapter in reducing the number of first-time violations and repeat offenses of Sections 23152 and 23153 in the Counties of Alameda, Los Angeles, Sacramento, and Tulare.

NOTE: The preceding section shall remain in effect only until January 1, 2016, and as of that date is repealed.

Ignition Interlock Device Pilot Program: Repeal

23702. This chapter shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

NOTE: The preceding section shall remain in effect only until January 1, 2016, and as of that date is repealed.
DIVISION 12. EQUIPMENT OF VEHICLES

CHAPTER 1. GENERAL PROVISIONS

Department 24000. Wherever in this division the word “department” occurs, it means the Department of the California Highway Patrol.

Application of Divisions 24001. This division and Division 13 (commencing at Section 29000), unless otherwise provided, applies to all vehicles whether publicly or privately owned when upon the highways, including all authorized emergency vehicles. Amended Ch. 973, Stats. 1972. Effective August 16, 1972.

Golf Cart 24001.5. A golf cart as defined in Section 345 shall only be subject to the provisions of this division which are applicable to a motorcycle. Amended Ch. 973, Stats. 1972. Effective August 16, 1972.

Vehicle Not Equipped or Unsafe 24002. (a) It is unlawful to operate any vehicle or combination of vehicles which is in an unsafe condition, or which is not safely loaded, and which presents an immediate safety hazard.
(b) It is unlawful to operate any vehicle or combination of vehicles which is not equipped as provided in this code. Amended Ch. 696, Stats. 1992. Effective September 15, 1992.

Farm Labor Vehicles: Unsafe Operation: Penalties 24002.5. (a) No person may operate a farm labor vehicle that is in a condition that presents an immediate safety hazard or in violation of Section 24004 or 31402.
(b) A violation of this section is a misdemeanor punishable by a fine of not less than one thousand dollars ($1,000) and not more than five thousand dollars ($5,000), or both that fine and a sentence of confinement for not more than six months in the county jail. No part of any fine imposed under this section may be suspended.
(c) As used in this section, an “immediate safety hazard” is any equipment violation described in subdivision (a) of Section 34506.4. Amended Sec. 2, Ch. 873, Stats. 2000. Effective January 1, 2001.

Vehicle With Unlawful Lamps 24003. No vehicle shall be equipped with any lamp or illuminating device not required or permitted in this code, nor shall any lamp or illuminating device be mounted inside a vehicle unless specifically permitted by this code. This section does not apply to:
(a) Interior lamps such as door, brake and instrument lamps, and map, dash, and dome lamps designed and used for the purpose of illuminating the interior of the vehicle.
(b) Lamps needed in the operation or utilization of those vehicles mentioned in Section 25801, or vehicles used by public utilities in the repair or maintenance of their service, or used only for the illumination of cargo space of a vehicle while loading or unloading.
(c) Warning lamps mounted inside an authorized emergency vehicle and meeting requirements established by the department. Amended Ch. 723, Stats. 1979. Effective January 1, 1980.

Unlawful Operation After Notice by Officer 24004. No person shall operate any vehicle or combination of vehicles after notice by a peace officer, as defined in Section 830.1 or subdivision (a) of Section 830.2 of the Penal Code, that the vehicle is in an unsafe condition or is not equipped as required by this code, except as may be necessary to return the vehicle or combination of vehicles to the residence or place of business of the owner or driver or to a garage, until the vehicle and its equipment have been made to conform with the requirements of this code.

The provisions of this section shall not apply to an employee who does not know that such notice has been issued, and in such event the provisions of Section 40001 shall be applicable. Amended Ch. 171, Stats. 1979. Effective January 1, 1980.

Sale, Transfer or Installation of Unlawful Equipment 24005. It is unlawful for any person to sell, offer for sale, lease, install, or replace, either for himself or as the agent or employee of another, or through such agent or employee, any glass, lighting equipment, signal devices, brakes, vacuum or pressure hose, muffler, exhaust, or any kind of equipment whatsoever for use, or with knowledge that any such equipment is intended for eventual use, in any vehicle, that is not in conformity with this code or regulations made thereunder. Amended Ch. 734, Stats. 1971. Operative May 3, 1972.

Uncertified Synthetic Rope or Webbing Strap Material 24005.5. It is unlawful for any person to sell or offer for sale for use on loads regulated by the department any type of synthetic fiber rope or webbing strap material unless it meets requirements established by the department. Amended Ch. 723, Stats. 1979. Effective January 1, 1980.

Name or Trademark 24006. No person shall sell or offer for sale either separately or as a part of the equipment of a new motor vehicle any equipment or device subject to requirements established by the department unless the equipment or device bears thereon the trademark or name and type or model designation under requirements established by the department and is accompanied by any printed instructions which may be required by the department as to the light source to be used with lamps, any particular methods of mounting or adjustment of lamps or other devices, and any other instructions as determined by the department necessary for compliance with this code. Amended Ch. 723, Stats. 1979. Effective January 1, 1980.

Responsibility of Dealer or Other Person Selling Motor Vehicle 24007. (a) (1) No dealer or person holding a retail seller’s permit shall sell a new or used vehicle that is not in compliance with this code and departmental regulations adopted pursuant to this code, unless the vehicle is sold to another dealer, sold for the purpose of being legally wrecked or dismantled, or sold exclusively for off-highway use.
(2) Paragraph (1) does not apply to any vehicle sold by either (A) a dismantler after being reported for dismantling pursuant to Section 11520 or (B) a salvage pool after obtaining
a salvage certificate pursuant to Section 11515 or a nonrepairable vehicle certificate issued pursuant to Section 11515.2.

(3) Notwithstanding paragraph (1), the equipment requirements of this division do not apply to the sale of a leased vehicle by a dealer to a lessee if the lessee is in possession of the vehicle immediately prior to the time of the sale and the vehicle is registered in this state.

(b) (1) Except as provided in Section 24007.5, no person shall sell, or offer or deliver for sale, to the ultimate purchaser, or to any subsequent purchaser a new or used motor vehicle, as those terms are defined in Chapter 2 (commencing with Section 39010) of Part 1 of Division 26 of the Health and Safety Code, subject to Part 5 (commencing with Section 43000) of that Division 26 which is not in compliance with that part and the rules and regulations of the State Air Resources Board, unless the vehicle is sold to a dealer or sold for the purpose of being legally wrecked or dismantled.

(2) Prior to or at the time of delivery for sale, the seller shall provide the purchaser a valid certificate of compliance or certificate of noncompliance, as appropriate, issued in accordance with Section 44015 of the Health and Safety Code.

(3) Paragraph (2) does not apply to any vehicle whose transfer of ownership and registration is described in subdivision (d) of Section 4000.1.

(4) Paragraphs (1) and (2) do not apply to any vehicle sold by either (A) a dismantler after being reported for dismantling pursuant to Section 11520 or (B) a salvage pool after obtaining a salvage certificate pursuant to Section 11515 or a nonrepairable vehicle certificate issued pursuant to Section 11515.2.

(c) (1) With each application for initial registration of a new motor vehicle or transfer of registration of a motor vehicle subject to Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, a dealer, the purchaser, or his or her authorized representative, shall transmit to the Department of Motor Vehicles a valid certificate of compliance or noncompliance, as appropriate, issued in accordance with Section 44015 of the Health and Safety Code.

(2) Notwithstanding paragraph (1) of this subdivision, with respect to new vehicles certified pursuant to Chapter 2 (commencing with Section 43100) of Part 5 of Division 26 of the Health and Safety Code, a dealer may transmit, in lieu of a certificate of compliance, a statement, in a form and containing information deemed necessary and appropriate by the Director of Motor Vehicles and the Executive Officer of the State Air Resources Board, to attest to the vehicle’s compliance with that chapter. The statement shall be certified under penalty of perjury, and shall be signed by the dealer or the dealer’s authorized representative.

(3) Paragraph (1) does not apply to a transfer of ownership and registration under any of the circumstances described in subdivision (d) of Section 4000.1.

Emergency Vehicles: Correction of Defects

24007.1. (a) The manufacturer of equipment used in the assembly of an authorized emergency vehicle, as defined in Section 165, used by a local public fire service agency shall, upon request of the fire department, reimburse the agency for the cost of repairs to the vehicle if (1) the repair was made to correct a manufacturer’s defect, and (2) the vehicle is placed on a safety-related recall to correct that defect.

(b) A final stage equipment manufacturer is deemed to be an original equipment manufacturer in the event of a warranty dispute with a local public fire service agency regarding the failure of component parts used in the assembly of the agency’s authorized emergency vehicle. As used in this section, “final stage equipment manufacturer” means the manufacturer who assembles the authorized emergency vehicle from one or more components supplied by other manufacturers.

(c) The Legislature finds and declares that local public fire service agencies of this state are entitled to safe and efficient use of their equipment, and that defects in emergency equipment, especially emergency vehicles, endanger the firefighters of California and the public they serve. It is the intent of the Legislature to ensure that these defects are repaired as expeditiously as possible and with no expense to the local public fire service agencies.

NOx Devices: Free Installation for Low-Income Elderly Persons

24007.2. If a dealer, or a person holding a retail seller’s permit, sells to an elderly low-income person, as defined in Section 39026.5 of the Health and Safety Code, a 1966 through 1970 model year motor vehicle which is not equipped, as required pursuant to Sections 43654 and 43656 of that code, with a certified device to control its exhaust emission of oxides of nitrogen, the dealer or such person, as the case may be, shall install the required certified device on the motor vehicle without cost to the elderly low-income person.

Sale by Auctioneer or Public Agency

24007.5. (a) (1) No auctioneer or public agency shall sell, at public auction, any vehicle specified in subdivision (a) of Section 24007, which is not in compliance with this code.

(2) Paragraph (1) does not apply to a vehicle sold under the conditions specified in subdivision (c), (d), (e), or (g) or is sold to a dealer or for the purpose of being wrecked or dismantled or is sold exclusively for off-highway use.

(b) Except with respect to the sale of a vehicle specified in paragraph (2) of subdivision (a), the consignor of any vehicle, specified in subdivision (b) of Section 24007, sold at public auction, shall provide the purchaser a valid certificate of compliance or certificate of noncompliance, as appropriate, issued in accordance with Section 44015 of the Health and Safety Code.

(c) Notwithstanding any other provision of this code, if, in the opinion of a public utility or public agency, the cost of repairs to a vehicle exceeds the value of the vehicle to the public utility or public agency, the public utility or public agency shall, as transferee or owner, surrender the certificates of registration, documents satisfactory to the Department of Motor Vehicles showing proof of ownership, and the license plates issued for the vehicle to the Department of Motor Vehicles. As used in this section, “public utility” means a public utility as described in Sections 218, 222, and 234 of the Public Utilities Code.

(d) The public utility or public agency having complied with subdivision (c) shall, upon sale of the vehicle, give to the
purchaser a bill of sale which includes, in addition to any other required information, the last issued license plate number.

(e) (1) Subdivisions (a) and (b) do not apply to any judicial sale, including, but not limited to, a bankruptcy sale, conducted pursuant to a writ of execution or order of court.

(2) Subdivision (b) does not apply to any lien sale if the lienholder does both of the following:

(A) Gives the notice required by subdivisions (a) and (b) of Section 5900.

(B) Notifies the buyer that California law requires that the buyer obtain a certificate of compliance or noncompliance and register the vehicle with the department, and that failure to comply will result in a lien against any vehicle owned by the buyer pursuant to Section 10876 of the Revenue and Taxation Code, enforceable pursuant to Section 10877 of the Revenue and Taxation Code and Article 6 (commencing with Section 9800) of Chapter 6 of Division 3. Receipt of the notice required by this subparagraph shall be evidenced by the signature of the buyer.

(f) The exceptions in this section do not apply to any requirements for registration of a vehicle pursuant to Section 4000.1, 4000.2, or 4000.3.

(g) Except as otherwise provided in subdivision (e), any public agency or auctioneer which sells, at public auction, any vehicle specified in subdivision (b) of Section 24007, which is registered to a public agency or a public utility, shall provide each bidder with a notice in writing that a certificate of compliance is required to be obtained, certifying that the vehicle complies with Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, before the vehicle may be registered in this state, unless the vehicle is sold to a dealer or for the purpose of being wrecked or dismantled or is sold exclusively for off-highway use. Prior to the sale of the vehicle, a public agency or public utility shall remove the license plates from the vehicle and surrender them to the department. The purchaser of the vehicle shall be given a bill of sale which includes, in addition to any other required information, the vehicle’s last issued license plate number.

Salvage Pool Requirements

24007.6. Except for vehicles sold to a dealer or for the purpose of being wrecked or dismantled or sold exclusively for off-highway use, a salvage pool shall do both of the following:

(a) Give the notice required by subdivisions (a) and (b) of Section 5900.

(b) Notify the buyer that California law requires that the buyer obtain a certificate of compliance or noncompliance and to register the vehicle with the department, and that failure to comply will result in a lien against any vehicle owned by the buyer pursuant to Section 10876 of the Revenue and Taxation Code, enforceable pursuant to Section 10877 of the Revenue and Taxation Code and Article 6 (commencing with Section 9800) of Chapter 6 of Division 3. Receipt of the notice required by this subparagraph shall be evidenced by the signature of the buyer.

Modification of Vehicles

24008. It is unlawful to operate any passenger vehicle, or commercial vehicle under 6,000 pounds, which has been modified from the original design so that any portion of the vehicle, other than the wheels, has less clearance from the surface of a level roadway than the clearance between the roadway and the lowermost portion of any rim of any wheel in contact with the roadway.

Frame and Floor Height

24008.5. (a) No person shall operate any motor vehicle with a frame height or body floor height greater than specified in subdivisions (b) and (c). (b) The maximum frame height is as follows:

Vehicle Type .............................................. Frame Height
(1) Passenger vehicles, except housecars ................. 23 inches
(2) All other motor vehicles, including
housecars, as follows:

<table>
<thead>
<tr>
<th>GVWR</th>
<th>Frame Height</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 4,500 pounds</td>
<td>27 inches</td>
</tr>
<tr>
<td>4,501 to 7,500 pounds</td>
<td>30 inches</td>
</tr>
<tr>
<td>7,501 to 10,000 pounds</td>
<td>31 inches</td>
</tr>
</tbody>
</table>

(c) The lowest portion of the body floor shall not be more than five inches above the top of the frame.

(d) The following definitions govern the construction of this section:

(1) “Frame” means the main longitudinal structural members of the chassis of the vehicle or, for vehicles with unitized body construction, the lowest main longitudinal structural members of the body of the vehicle.

(2) “Frame height” means the vertical distance between the ground and the lowest point on the frame, measured when the vehicle is unladen on a level surface at the lowest point on the frame midway between the front axle and the second axle on the vehicle.

(3) “GVWR” means the manufacturer’s gross vehicle weight rating, as defined in Section 390, whether or not the vehicle is modified by use of parts not originally installed by the manufacturer.

Manufacturer’s Name and GVW Rating

24009. No person shall sell or offer for sale a new motor truck, truck tractor, or bus that is not equipped with an identification plate or marking bearing the manufacturer’s name and the manufacturer’s gross vehicle weight rating of such vehicle.

Vehicle Rental Responsibility

24010. No person engaged in the rental of any vehicle, for periods of 30 days or less, shall rent, lease or otherwise allow the operation of such vehicle unless all of the following requirements are met:

(1) All necessary equipment required by this code and regulations adopted pursuant to this code for the operation of the vehicle upon a highway has been provided or offered to the lessee for his or her use.

(2) The vehicle conforms to all applicable federal motor vehicle safety standards established under the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. Sec. 1381 et seq.) and the regulations adopted under that act.
(3) The vehicle is mechanically sound and safe to operate within the meaning of Section 24002.

(b) In order to ensure compliance with this section, the department may conduct periodic inspections, without prior notice, of the business premises of persons engaged in the rental of vehicles for periods of 30 days or less and of the vehicles themselves, for the purpose of ascertaining that the vehicles are in compliance with this section. Any vehicle which is found not in compliance shall not be rented or leased until proof of full compliance with this section is made to the satisfaction of the department.

(c) The contract or rental agreement shall include the name of the person from whom the vehicle is rented, leased, or obtained, the address of that person's place of business in this state where the vehicle is rented, leased or delivered, and a statement of any required equipment refused by the person to whom the vehicle is rented, leased, or delivered.

Federal Safety Standard

24011. Whenever a federal motor vehicle safety standard is established under federal law (49 U.S.C. Sec. 30101 et seq.), no dealer shall sell or offer for sale a vehicle to which the standard is applicable, and no person shall sell or offer for sale for use upon a vehicle an item of equipment to which the standard is applicable, unless:

(a) The vehicle or equipment conforms to the applicable federal standard.

(b) The vehicle or equipment bears thereon a certification by the manufacturer or distributor that it complies with the applicable federal standards. The certification may be in the form of a symbol prescribed in the federal standards or, if there is no federal symbol, by a symbol acceptable to the department.

Amended Sec. 29, Ch. 615, Stats. 2004. Effective January 1, 2005.

Bumper Strength Notice

24011.3. (a) Every manufacturer or importer of new passenger vehicles for sale or lease in this state, shall affix to a window or the windshield of the vehicle a notice with either of the following statements, whichever is appropriate:

(1) “This vehicle is equipped with bumpers that can withstand an impact of 2.5 miles per hour with no damage to the vehicle’s body and safety systems, although the bumper and related components may sustain damage. The bumper system on this vehicle conforms to the current federal bumper standard of 2.5 miles per hour.”

(2) “This vehicle is equipped with a front bumper of a type that has been tested at an impact speed of here specify the appropriate number) miles per hour, and a rear bumper of a type that has been tested at an impact speed of (here specify the appropriate number) miles per hour, resulting in no damage to the vehicle’s body and safety systems and minimal damage to the bumper and attachment hardware. “Minimal damage to the bumper” means minor cosmetic damage that can be repaired with the use of common repair materials and without replacing any parts. The stronger the bumper, the less likely the vehicle will require repair after a low-speed collision. This vehicle exceeds the current federal bumper standard of 2.5 miles per hour.”

(b) The impact speed required to be specified in the notice pursuant to paragraph (2) of subdivision (a) is the maximum speed of impact upon the bumper of the vehicle at which the vehicle sustains no damage to the body and safety systems and only minimal damage to the bumper when subjected to the fixed barrier and pendulum impact tests, and when subjected to the corner impact test at not less than 60 percent of that maximum speed, conducted pursuant to Part 581 of Title 49 of the Code of Federal Regulations.

(c) (1) A manufacturer who willfully fails to affix the notice required by subdivision (a), or willfully misstates any information in the notice, is guilty of a misdemeanor, which shall be punishable by a fine of not more than five hundred dollars ($500). Each failure or misstatement is a separate offense.

(2) A person who willfully defaces, alters, or removes the notice required by subdivision (a) prior to the delivery of the vehicle, to which the notice is required to be affixed, to the registered owner or lessee, is guilty of a misdemeanor, which shall be punishable by a fine of not more than five hundred dollars ($500). Each willful defacement, alteration, or removal is a separate offense.

(d) For purposes of this section, the following terms have the following meanings:

(1) “Manufacturer” is any person engaged in the manufacture or assembly of new passenger vehicles for distribution or sale, and includes an importer of new passenger vehicles for distribution or sale and any person who acts for, or is under the control of, a manufacturer in connection with the distribution or sale of new passenger vehicles.

(2) “Passenger vehicle” means, notwithstanding Section 465, a motor vehicle subject to impact testing conducted pursuant to Part 581 of Title 49 of the Code of Federal Regulations.

(3) “No damage” means that, when a passenger vehicle is subjected to impact testing, conducted pursuant to the conditions and test procedures of Sections 581.6 and 581.7 of Part 581 of Title 49 of the Code of Federal Regulations, the vehicle sustains no damage to the body and safety systems.

(4) For purposes of paragraph (2) of subdivision (a) and subdivision (b), “minimal damage to the bumper and attachment hardware” means damage that can be repaired with the use of common repair materials and without replacing any parts. In addition, not later than 30 minutes after completion of each pendulum or barrier impact test, the bumper face bar shall have no permanent deviation greater than three-quarters of one inch from its original contour and position relative to the vehicle frame and no permanent deviation greater than three-eighths of one inch from its original contour on areas of contact with the barrier face or impact ridge of the pendulum test device, measured from a straight line connecting the bumper contours adjoining the contact area.

(5) The notice required by this section may be included in any notice or label required by federal law to be affixed to a window or windshield of the vehicle.

Amended Sec. 662, Ch. 538, Stats. 2006. Effective January 1, 2007.

Exhaust and Noise Emission Control Inspection

24011.7. (a) Nothing in Chapter 20.4 (commencing with Section 9889.50) of Division 3 of the Business and Professions Code, shall be construed as having any effect on the existing inspection program conducted by the department.
Rather, it is the intent of the Legislature that such program continue and that a cooperative relationship between the department and the Department of Consumer Affairs be established, under which the department can inform the Department of Consumer Affairs of the results and experiences of the department in order to provide data on exhaust and noise emission control device tampering and performance deterioration following mandatory inspections.

Compliance With Lighting Equipment Mounting Regulations

§24012. All lighting equipment or devices subject to requirements established by the department shall comply with the engineering requirements and specifications, including mounting and aiming instructions, determined and publicized by the department.

Statement of Minimum Octane Number of Gasoline for Motor Vehicle

§24013. No new motor vehicle shall be sold unless the seller provides the buyer with a statement of the minimum octane number of the gasoline for such vehicle.

Information Disclosure: Light Duty Truck Sales

§24013.5. (a) No dealer shall sell, offer for sale, or display for sale any new light duty truck with a manufacturer’s gross vehicle weight rating of 8,500 pounds or less unless there is securely affixed to the windshield or side window of the light duty truck a label on which the manufacturer has endorsed clearly, distinctly, and legibly, true and correct entries disclosing the following information concerning the light duty truck:

(1) The make, model, and serial or identification number or numbers.

(2) The retail price of the light duty truck as suggested by the manufacturer.

(3) The retail delivered price, as suggested by the manufacturer, for each accessory or item of optional equipment physically attached to the light duty truck at the time of its delivery to the dealer.

(4) The amount charged, if any, to the dealer for the assembly, preparation, or both, of the light duty truck.

(5) The total of the amounts specified pursuant to paragraphs (1) and (2) of subdivision (a) and paragraphs (1), (2) and (3) of subdivision (b).

Motorized Bicycle: Safety and Equipment Requirements

§24015. (a) Motorized bicycles shall comply with those federal motor vehicle safety standards established under the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. Sec. 1381, et seq.) which are applicable to a motor-driven cycle, as that term is defined in such federal standards. Such standards include, but are not limited to, provisions requiring a headlamp, taillamp, stoplamp, side and rear reflex reflectors, and adequate brakes.

(b) In addition to equipment required in subdivision (a), all motorized bicycles operated upon a highway shall be equipped with a mirror as required in subdivision (a) of Section 26709, a horn as required in Section 27000, and an adequate muffler as required in subdivision (a) of Section 27150.

(c) Except as provided in subdivisions (a) and (b), none of the provisions of this Chapter relating to motorcycles and motor-driven cycles, as defined in this code, shall apply to a motorized bicycle.

Motorized Bicycle Electric Motor: Safety and Equipment Requirements

§24016. (a) A motorized bicycle described in subdivision (b) of Section 406 shall meet the following criteria:

(2) Operate in a manner so that the electric motor is disengaged or ceases to function when the brakes are applied, or operate in a manner such that the motor is engaged through a switch or mechanism that, when released, will cause the electric motor to disengage or cease to function.

(b) All of the following apply to a motorized bicycle described in subdivision (b) of Section 406:

(1) No person shall operate a motorized bicycle unless the person is wearing a properly fitted and fastened bicycle helmet that meets the standards described in Section 21212.

(2) A person operating a motorized bicycle is subject to Sections 21200 and 21200.5.

(3) A person operating a motorized bicycle is not subject to the provisions of this code relating to financial responsibility,
district or on behalf of a school district.

(4) A motorized bicycle shall only be operated by a person 16 years of age or older.

(5) Every manufacturer of a motorized bicycle shall certify that it complies with the equipment and manufacturing requirements for bicycles adopted by the Consumer Product Safety Commission (16 C.F.R. 1512.1, et seq.).

(c) No person shall tamper with or modify a motorized bicycle described in subdivision (b) of Section 406 so as to increase the speed capability of the bicycle.

Transit Buses: Speedometer Requirements

24017. A transit bus operated by a motor carrier, who whose motor carrier is a private company or a public agency, that provides public transportation services shall be equipped with a speedometer that shall be maintained in good working order.

Transit Bus: Requirement for Two-way Communication Device

24018. (a) Every transit bus operated by a motor carrier, whether that motor carrier is a private company or a public agency, that provides public transportation services shall be equipped with a two-way communication device that enables the driver to contact the motor carrier in the event of an emergency. The two-way communication devices shall be maintained in good working order.

(b) For the purposes of this section, “two-way communication device” is a radio, cellular telephone, or other similar device permitting communication between the transit bus driver and personnel responsible for the safety of operations of the motor carrier, including, but not limited to, the motor carrier’s dispatcher.

(c) This section does not apply to buses operated by a school district or on behalf of a school district.

(d) The commissioner shall upon request grant a nonrenewable one year extension to any motor carrier to comply with the requirements of this section.

(e) Nothing in this section shall require a motor carrier to replace an existing two-way communication device that currently meets the requirements of this section.

Chapter 2. Lighting Equipment

Lighting During Darkness

24250. During darkness, a vehicle shall be equipped with lighted lighting equipment as required for the vehicle by this chapter.

Lighting Distance Requirements

24251. Any requirement in this chapter as to the distance from which any lighting equipment shall render a person or vehicle visible or within which any lighting equipment shall be visible shall apply during darkness, directly ahead upon a straight, level unlighted highway, and under normal atmospheric conditions, unless a different time, direction, or condition is expressly stated.

Lighting Equipment Requirements

24252. (a) All lighting equipment of a required type installed on a vehicle shall at all times be maintained in good working order. Lamps shall be equipped with bulbs of the correct voltage rating corresponding to the nominal voltage at the lamp socket.

(b) The voltage at any tail, stop, license plate, side marker or clearance lamp socket on a vehicle shall not be less than 5 percent of the design voltage of the bulb. Voltage tests shall be conducted with the engine operating.

(c) Two or more lamp or reflector functions may be combined, provided each function subject to requirements established by the department meets such requirements.

(1) No turn signal lamp may be combined optically with a stoplamp unless the stoplamp is extinguished when the turn signal is flashing.

(2) No clearance lamp may be combined optically with any taillamp or identification lamp.

Tail lamps Which Remain Lighted

24253. (a) All motor vehicles manufactured and first registered after January 1, 1970, shall be equipped so all taillamps are capable of remaining lighted for a period of at least one-quarter hour with the engine inoperative. This requirement shall be complied with by an energy storing system which is recharged by energy produced by the vehicle.

(b) All motorcycles manufactured and first registered after January 1, 1971, shall be equipped so all taillamps, when turned on, will remain lighted automatically for a period of at least one-quarter hour if the engine stops.

Mounting Height

24254. Whenever requirement is declared as to the mounted height of lamps or reflectors, the height shall be measured from the center of the lamp or reflector to the level surface upon which the vehicle stands when it is without a load.

Lighting Equipment: Illuminating Device

24255. (a) A vehicle may be equipped with a system to supplement the driver's visibility of the roadway to the front or rear of the vehicle during darkness. This system may incorporate an illuminating device that emits radiation predominantly in the infrared region of the electromagnetic spectrum and a display monitor to provide an image visible to the driver of the vehicle. The system, or any portion of it, shall not obstruct the vision of the driver, and shall not emit any glaring light visible in any direction or to any person. The illuminating device may be mounted inside the vehicle, if it is constructed and mounted so as to prevent any direct or reflected light, other than a monitorial indicator emitted from the device, from being visible to the driver.

(b) The system shall be operated only with the headlamps lighted. An illuminating device for the system shall be interlocked with the headlamp switch so that it is operable only when the headlamps are lighted.
Article 2. Headlamps and Auxiliary Lamps

Headlamps on Motor Vehicles

24400. (a) A motor vehicle, other than a motorcycle, shall be equipped with at least two headlamps, with at least one on each side of the front of the vehicle, and, except as to vehicles registered prior to January 1, 1930, they shall be located directly above or in advance of the front axle of the vehicle. The headlamps and every light source in any headlamp unit shall be located at a height of not more than 54 inches nor less than 22 inches.

(b) A motor vehicle, other than a motorcycle, shall be operated during darkness, or inclement weather, or both, with at least two lighted headlamps that comply with subdivision (a).

(c) As used in subdivision (b), “inclement weather” is a weather condition that is either of the following:

(1) A condition that prevents a driver of a motor vehicle from clearly discerning a person or another motor vehicle on the highway from a distance of 1,000 feet.

(2) A condition requiring the windshield wipers to be in continuous use due to rain, mist, snow, fog, or other precipitation or atmospheric moisture.

Amended Sec. 9, Ch. 311, Stats. 2006. Effective January 1, 2007.

Amended Sec. 43, Ch. 491, Stats. 2010. Effective January 1, 2011.

Dimmed Lights on Parked Vehicles

24401. Whenever any motor vehicle is parked or standing upon a highway any headlamp that is lighted shall be dimmed or on the lower beam.

Auxiliary Driving and Passing Lamps

24402. (a) Any motor vehicle may be equipped with not to exceed two auxiliary driving lamps mounted on the front at a height of not less than 16 inches nor more than 42 inches. Driving lamps are lamps designed for supplementing the upper beam from headlamps and may not be lighted with the lower beam.

(b) Any motor vehicle may be equipped with not to exceed two auxiliary passing lamps mounted on the front at a height of not less than 24 inches nor more than 42 inches. Passing lamps are lamps designed for supplementing the lower beam from headlamps and may also be lighted with the upper beam.

Foglamps

24403. (a) A motor vehicle may be equipped with not more than two foglamps that may be used with, but may not be used in substitution of, headlamps.

(b) On a motor vehicle other than a motorcycle, the foglamps authorized under this section shall be mounted on the front at a height of not less than 12 inches nor more than 30 inches and aimed so that when the vehicle is not loaded none of the high-intensity portion of the light to the left of the center of the vehicle projects higher than a level of four inches below the level of the center of the lamp from which it comes, for a distance of 25 feet in front of the vehicle.

(c) On a motorcycle, the foglamps authorized under this section shall be mounted on the front at a height of not less than 12 inches nor more than 40 inches and aimed so that when the vehicle is not loaded none of the high-intensity portion of the light to the left of the center of the vehicle projects higher than a level of four inches below the level of the center of the lamp from which it comes, for a distance of 25 feet in front of the vehicle.

Spotlamps

24404. (a) A motor vehicle may be equipped with not to exceed two white spotlamps, which shall not be used in substitution of headlamps.

(b) No spotlamp shall be equipped with any lamp source exceeding 32 standard candlepower or 30 watts nor project any glaring light into the eyes of an approaching driver.

(c) Every spotlamp shall be so directed when in use:

That no portion of the main substantially parallel beam of light will strike the roadway to the left of the prolongation of the left side line of the vehicle.

That the top of the beam will not strike the roadway at a distance in excess of 300 feet from the vehicle.

(d) This section does not apply to spotlamps on authorized emergency vehicles.

(e) No spotlamp when in use shall be directed so as to illuminate any other moving vehicle.

Maximum Number of Lamps

24405. (a) Not more than four lamps of the following types showing to the front of a vehicle may be lighted at any one time:

(1) Headlamps.

(2) Auxiliary driving or passing lamps.

(3) Fog lamps.

(4) Warning lamps.

(5) Spot lamps.

(6) Gaseous discharge lamps specified in Section 25258.

(b) For the purpose of this section each pair of a dual headlamp system shall be considered as one lamp.

(c) Subdivision (a) does not apply to any authorized emergency vehicle.

Multiple Beams

24406. Except as otherwise provided, the headlamps, or other auxiliary driving lamps, or a combination thereof, on a motor vehicle during darkness shall be so arranged that the driver may select at will between distributions of light projected to different elevations, and the lamps may, in addition, be so arranged that the selection can be made automatically.

Upper and Lower Beam

24407. Multiple-beam road lighting equipment shall be designed and aimed as follows:

(a) There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of at least 350 feet ahead for all conditions of loading.
(b) There shall be a lowermost distribution of light, or composite beam so aimed and of sufficient intensity to reveal a person or vehicle at a distance of at least 100 feet ahead. On a straight level road under any condition of loading none of the high intensity portion of the beam shall be directed to strike the eyes of an approaching driver.

**Beam Indicator**

24408. (a) Every new motor vehicle registered in this state after January 1, 1940, which has multiple-beam road lighting equipment shall be equipped with a beam indicator, which shall be lighted whenever the uppermost distribution of light from the headlamps is in use, and shall not otherwise be lighted.

(b) The indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped. Any such lamp on the exterior of the vehicle shall have a light source not exceeding two candlepower, and the light shall not show to the front or sides of the vehicle.

**Use of Multiple Beams**

24409. Whenever a motor vehicle is being operated during darkness, the driver shall use a distribution of light, or composite beam, directed high enough and of sufficient intensity to reveal persons and vehicles at a safe distance in advance of the vehicle, subject to the following requirements and limitations:

(a) Whenever the driver of a vehicle approaches an oncoming vehicle within 500 feet, he shall use a distribution of light or composite beam so aimed that the glaring rays are not projected into the eyes of the oncoming driver.

The lowermost distribution of light specified in this Article shall be deemed to avoid glare at all times regardless of road contour.

(b) Whenever the driver of a vehicle follows another vehicle within 300 feet to the rear, he shall use the lowermost distribution of light specified in this article.

Amended Ch. 37, Stats. 1965. Effective September 17, 1965.

**Single Beams**

24410. Headlamps arranged to provide a single distribution of light not supplemented by auxiliary driving lamps are permitted on motor vehicles manufactured and sold prior to September 19, 1940, in lieu of multiple-beam road lighting equipment if the single distribution of light complies with the following requirements and limitations:

(a) The headlamps shall be so aimed that when the vehicle is not loaded none of the high-intensity portion of the light shall at a distance of 25 feet ahead project higher than a level of five inches below the level of the center of the lamp from which it comes, and in no case higher than 42 inches above the level on which the vehicle stands at a distance of 75 feet ahead.

(b) The intensity shall be sufficient to reveal persons and vehicles at a distance of at least 200 feet.

**Auxiliary Lamps: Off-Highway Use**

24411. Notwithstanding any other provision of law, a vehicle may be equipped with not more than eight lamps for use as headlamps while the vehicle is operated or driven off the highway. The lamps shall be mounted at a height of not less than 16 inches from the ground, or more than 12 inches above the top of the passenger compartment, at any place between the front of the vehicle and a line lying on a point 40 inches to the rear of the seat occupied by the driver, shall be wired independently of all other lighting circuits, and, whenever the vehicle is operated or driven upon a highway, shall be covered or hooded with an opaque hood or cover, and turned off.

**Article 3. Rear Lighting Equipment**

**Taillamps**

24600. During darkness every motor vehicle which is not in combination with any other vehicle and every vehicle at the end of a combination of vehicles shall be equipped with lighted taillamps mounted on the rear as follows:

(a) Every vehicle shall be equipped with one or more taillamps.

(b) Every vehicle, other than a motorcycle, manufactured and first registered on or after January 1, 1969, shall be equipped with not less than two taillamps, except that trailers and semitrailers manufactured after July 23, 1973, which are less than 30 inches wide, may be equipped with one taillamp which shall be mounted at or near the vertical centerline of the vehicles. If a vehicle is equipped with two taillamps, they shall be mounted as specified in subdivision (d).

(c) Every vehicle or vehicle at the end of a combination of vehicles, subject to subdivision (a) of Section 22406 shall be equipped with not less than two taillamps.

(d) When two taillamps are required, at least one shall be mounted at the left and one at the right side respectively at the same level.

(e) Taillamps shall be red in color and shall be plainly visible from all distances within 500 feet to the rear except that taillamps on vehicles manufactured after January 1, 1969, shall be plainly visible from all distances within 1,000 feet to the rear.

(f) Taillamps on vehicles manufactured before or after January 1, 1969, shall be mounted not lower than 15 inches nor higher than 72 inches, except that a tow truck, in addition to being equipped with the required taillamps, may also be equipped with two taillamps which may be mounted not lower than 15 inches nor higher than the maximum allowable vehicle height and as far forward as the rearmost portion of the driver’s seat in the rearmost position. The additional taillamps on a tow truck shall be lighted whenever the headlamps are lighted.

**License Plate Lamp**

24601. Either the taillamp or a separate lamp shall be so constructed and placed as to illuminate with a white light the rear license plate during darkness and render it clearly legible from a distance of 50 feet to the rear. When the rear license plate is illuminated by a lamp other than a required taillamp, the two lamps shall be turned on or off only by the same control switch at all times.

**Fog Taillamps**

24602. (a) A vehicle may be equipped with not more than two red fog taillamps mounted on the rear which may be lighted, in addition to the required taillamps, only when atmospheric conditions, such as fog, rain, snow, smoke, or
dust, reduce the daytime or nighttime visibility of other vehicles to less than 500 feet.

(b) The lamps authorized under subdivision (a) shall be installed as follows:

(1) When two lamps are installed, one shall be mounted at the left side and one at the right side at the same level and as close as practical to the sides. When one lamp is installed, it shall be mounted as close as practical to the left side or on the center of the vehicle.

(2) The lamps shall be mounted not lower than 12 inches nor higher than 60 inches.

(3) The edge of the lens of the lamp shall be no closer than four inches from the edge of the lens of any stoplamp.

(4) The lamps shall be wired so they can be turned on only when the headlamps are on and shall have a switch that allows them to be turned off when the headlamps are on.

(5) A nonflashing amber pilot light that is lighted when the lamps are turned on shall be mounted in a location readily visible to the driver.

§24603. Every motor vehicle that is not in combination with any other vehicle and every vehicle at the end of a combination of vehicles shall at all times be equipped with stoplamps mounted on the rear as follows:

(a) Every such vehicle shall be equipped with one or more stoplamps.

(b) Every such vehicle, other than a motorcycle, manufactured and first registered on or after January 1, 1958, shall be equipped with two stoplamps, except that trailers and semitrailers manufactured after July 23, 1973, which are less than 30 inches wide, may be equipped with one stoplamp which shall be mounted at or near the vertical centerline of the trailer. If such vehicle is equipped with two stoplamps, they shall be mounted as specified in subdivision (d).

(c) Except as provided in subdivision (h), stoplamps on vehicles manufactured on or after January 1, 1969, shall be mounted not lower than 15 inches nor higher than 72 inches, except that a tow truck or a repossession’s tow vehicle, in addition to being equipped with the required stoplamps, may also be equipped with two stoplamps which may be mounted not lower than 15 inches nor higher than the maximum allowable vehicle height and as far forward as the rearmost portion of the driver’s seat in its rearmost position.

(d) Where two stoplamps are required, at least one shall be mounted at the left side and one at the right side, respectively, at the same level.

(e) Stoplamps on vehicles manufactured on or after January 1, 1979, shall emit a red light. Stoplamps on vehicles manufactured before January 1, 1979, shall emit a red or yellow light. All stoplamps shall be plainly visible and understandable from a distance of 300 feet to the rear both during normal sunlight and at nighttime, except that stoplamps on a vehicle of a size required to be equipped with clearance lamps shall be visible from a distance of 500 feet during those times.

(f) Stoplamps shall be activated upon application of the service (foot) brake and the hand control head for air, vacuum, or electric brakes. In addition, all stoplamps may be activated by a mechanical device designed to function only upon sudden release of the accelerator while the vehicle is in motion. Stoplamps on vehicles equipped with a manual transmission may be manually activated by a mechanical device when the vehicle is downshifted if the device is automatically rendered inoperative while the vehicle is accelerating.

(g) Any vehicle may be equipped with supplemental stoplamps mounted to the rear of the rearmost portion of the driver’s seat in its rearmost position in addition to the lamps required to be mounted on the rear of the vehicle. Supplemental stoplamps installed after January 1, 1979, shall be red in color and mounted not lower than 15 inches above the roadway. The supplemental stoplamp on that side of a vehicle toward which a turn will be made may flash as part of the supplemental turn signal lamp.

A supplemental stoplamp may be mounted inside the rear window of a vehicle, if it is mounted at the centerline of the vehicle and is constructed and mounted so as to prevent any light, other than a monitorial indicator emitted from the device, either direct or reflected, from being visible to the driver.

(h) Any supplemental stoplamp installed after January 1, 1987, shall comply with Federal Motor Vehicle Safety Standard No. 108 (49 C.F.R. 571.108). Any vehicle equipped with a stoplamp that complies with the federal motor vehicle safety standards applicable to that make and model vehicle shall conform to that applicable safety standard unless modified to comply with the federal motor vehicle safety standard designated in this subdivision.

§24604. Whenever the load upon any vehicle extends, or whenever any integral part of any vehicle projects, to the rear four feet or more beyond the rear of the vehicle, as measured from the taillamps, there shall be displayed at the extreme end of the load or projecting part of the vehicle during darkness, in addition to the required taillamp, two red lights with a bulb rated not in excess of six candlepower plainly visible from a distance of at least 500 feet to the sides and rear. At any other time there shall be displayed at the extreme end of the load or projecting part of the vehicle a solid red or fluorescent orange flag or cloth not less than 12 inches square.

§24605. A tow truck or an automobile dismantler’s tow vehicle used to tow a vehicle shall be equipped with and carry a taillamp, a stoplamp, and turn signal lamps for use on the rear of a towed vehicle.

(b) Whenever a tow truck or an automobile dismantler’s tow vehicle is towing a vehicle and a stoplamp and turn signal lamps cannot be lighted and displayed on the rear of the towed vehicle, the operator of the tow truck or the automobile dismantler’s tow vehicle shall display to the rear a stoplamp and turn signal lamps mounted on the towed vehicle, except as provided in subdivision (c). During darkness, if a taillamp on the towed vehicle cannot be lighted, the operator of the tow truck or the automobile dismantler’s tow vehicle shall display to the rear a taillamp mounted on the towed vehicle. No other lighting equipment need be displayed on the towed vehicle.

(c) Whenever any motor vehicle is towing another motor vehicle, stoplamps and turn signal lamps are not required on
the towed motor vehicle, but only if a stop lamp and a turn signal lamp on each side of the rear of the towing vehicle is plainly visible to the rear of the towed vehicle. This subdivision does not apply to driveaway-towaway operations.
Amended Sec. 12, Ch. 322, Stats. 2009. Effective January 1, 2010.

Backup Lamps

24606. (a) Every motor vehicle, other than a motorcycle, of a type subject to registration and manufactured on and after January 1, 1969, shall be equipped with one or more backup lamps either separately or in combination with another lamp. Any vehicle may be equipped with backup lamps.

(b) Backup lamps shall be so directed as to project a white light illuminating the highway to the rear of the vehicle for a distance not to exceed 75 feet. A backup lamp may project incidental red, amber, or white light through reflectors or lenses that are adjacent or close to, or a part of, the lamp assembly.

(c) Backup lamps shall not be lighted except when the vehicle is about to be or is backing or except in conjunction with a lighting system which activates the lights for a temporary period after the ignition system is turned off.

(d) Any motor vehicle may be equipped with a lamp emitting white light on each side near or on the rear of the vehicle which is designed to provide supplemental illumination in an area to the side and rear not lighted by the backup lamps. These lamps shall be lighted only with the backup lamps.

Reflectors on Rear

24607. Every vehicle subject to registration under this code shall at all times be equipped with red reflectors mounted on the rear as follows:

(a) Every vehicle shall be equipped with at least one reflector so maintained as to be plainly visible at night from all distances within 350 to 100 feet from the vehicle when directly in front of the lawful upper headlamp beams.

(b) Every vehicle, other than a motorcycle or a low-speed vehicle, manufactured and first registered on or after January 1, 1965, shall be equipped with at least two reflectors meeting the visibility requirements of subdivision (a), except that trailers and semitrailers manufactured after July 23, 1973, that are less than 30 inches wide, may be equipped with one reflector which shall be mounted at or near the vertical centerline of the trailer. If the vehicle is equipped with two reflectors, they shall be mounted as specified in subdivision (d).

(c) Every motortruck having an unladen weight of more than 5,000 pounds, every trailer coach, every camp trailer, every vehicle, or vehicle at the end of a combination of vehicles, subject to subdivision (a) of Section 22406, and every vehicle 80 or more inches in width manufactured on or after January 1, 1969, shall be equipped with at least two reflectors maintained so as to be plainly visible at night from all distances within 600 feet to 100 feet from the vehicle when directly in front of lawful upper headlamp beams.

(d) When more than one reflector is required, at least one shall be mounted at the left side and one at the right side, respectively, at the same level. Required reflectors shall be mounted not lower than 15 inches nor higher than 60 inches, except that a tow truck, in addition to being equipped with the required reflectors, may also be equipped with two reflectors which may be mounted not lower than 15 inches nor higher than the maximum allowable vehicle height and as far forward as the rearmost portion of the driver’s seat in the rearmost position. Additional reflectors of a type meeting requirements established by the department may be mounted at any height.

(e) Reflector on truck tractors may be mounted on the rear of the cab. Any reflector installed on a vehicle as part of its original equipment prior to January 1, 1941, need not meet the requirements of the department provided it meets the visibility requirements of subdivision (a).

(f) Area reflectorizing material may be used in lieu of the reflectors required or permitted in subdivisions (a), (b), (c), (d), and (e), provided each installation is of sufficient size to meet the photometric requirement for those reflectors.

Reflectors on Front and Sides.

24608. (a) Motortrucks, trailers, semitrailers, and buses 80 or more inches in width manufactured on or after January 1, 1968, shall be equipped with an amber reflector on each side at the front and a red reflector on each side at the rear. Any vehicle may be so equipped.

(b) Motortrucks, trailers, semitrailers, housecars, and buses 80 or more inches in width and 30 or more feet in length manufactured on or after January 1, 1968, shall be equipped with an amber reflector mounted on each side at the approximate midpoint of the vehicle. Any such vehicle manufactured prior to January 1, 1968, may be so equipped.

(c) Required reflectors on the sides of vehicles shall be mounted not lower than 15 inches nor higher than 60 inches. Additional reflectors of a type meeting requirements established by the department may be mounted at any height.

(d) Reflectors required or permitted in subdivisions (a) and (b) shall be so maintained as to be plainly visible at night from all distances within 600 feet to 100 feet from the vehicle when directly in front of lawful upper headlamp beams.

(e) Area reflectorizing material may be used in lieu of the reflectors required or permitted in subdivisions (a) and (b), provided each installation is of sufficient size to meet the photometric requirement for such reflectors.

Vehicle Reflectors

24609. (a) A vehicle may be equipped with white or amber reflectors that are mounted on the front of the vehicle at a height of 15 inches or more, but not more than 60 inches from the ground.

(b) A schoolbus may be equipped with a set of two devices, with each device in the set consisting of an amber reflector integrated into the lens of an amber light that is otherwise permitted under this code, if the set is mounted with one device on the left side and one on the right side of the vehicle, and with each device at the same level.

Multiple-Unit Truck Reflector

24610. A reflector placed on vehicles under Section 24609 which is of the button or other multiple-unit type shall contain not less than seven units with a total of not less than three square inches of reflecting surface. The red reflectors required may be separate units or a part of the red taillamps,
but in either event the reflector and taillamps shall comply with all of the requirements of Sections 24600, 24602, and 24609, and any reflector constituting an integral part of a taillamp shall comply with all photometric requirements applicable to a separate reflector.

Reflector on Rear: Exceptions

24611. Trailers that are equipped with red and white reflective sheeting or reflectors on both the sides and rear and displayed in accordance with federal Motor Vehicle Safety Standard regulations (49 C.F.R. 571.108) for trailers with a width of 80 inches or more and having a gross vehicle weight rating of over 10,000 pounds need not be equipped with the reflectors required by Section 24607 or 24608.

Added Sec. 37, Ch. 766, Stats. 1995. Effective January 1, 1996.

Conspicuity System Requirement

24612. (a) All trailers and semitrailers having an overall width of 80 inches or more and a gross vehicle weight rating of more than 10,000 pounds, and manufactured on or after December 1, 1993, except those designed exclusively for living or office use, and all truck tractors manufactured on or after July 1, 1997, shall be equipped with the conspicuity system specified in the federal Motor Vehicle Safety Standard No. 108 (49 C.F.R. 571.108). The conspicuity system shall consist of either retroreflective sheeting or reflex reflectors, or a combination of retroreflective sheeting and reflex reflectors, as specified in the federal standard applicable on the date of manufacture of the vehicle.

(b) Any trailer, semitrailer, or motor truck having an overall width of 80 inches or more and manufactured prior to December 1, 1993, and any truck tractor manufactured prior to July 1, 1997, may be equipped with the conspicuity system described in subdivision (a).

Slow-Moving Vehicle Emblem

24615. It is unlawful to operate upon a public highway any vehicle or combination of vehicles, which is designed to be used and is operated at a speed of 25 miles per hour or less, unless the rearmost vehicle displays a "slow-moving vehicle emblem," except upon vehicles used by a utility, whether publicly or privately owned, for the construction, maintenance, or repair of its own facilities or upon vehicles used by highway authorities or bridge or highway districts in highway maintenance, inspection, survey, or construction work, while such vehicle is engaged in work at the jobsite upon a highway. Any other vehicle or combination of vehicles, when operated at a speed of 25 miles per hour or less, may display such emblem. The emblem shall be mounted on the rear of the vehicle, base down, and at a height of not less than three nor more than five feet from ground to base. Such emblem shall consist of a truncated equilateral triangle having a minimum height of 14 inches with a red reflective border not less than 1/4 inches in width and a fluorescent orange center.

This emblem shall not be displayed except as permitted or required by this section.

Rear-facing Auxiliary Lamps

24616. (a) A motor vehicle may be equipped with one or two rear-facing auxiliary lamps. For the purposes of this section, a rear-facing auxiliary lamp is a lamp that is mounted on the vehicle facing rearward. That lamp shall meet the photometric and performance requirements of the Society of Automotive Engineers Standard J1424 for cargo lamps.

(b) A rear-facing auxiliary lamp may project only a white light, with the main cone of light projecting both rearward and downward. The main cone of light shall illuminate the road surface or ground immediately rearward of a line parallel to the rear of the vehicle for a distance not greater than 50 feet. The main cone of light may not project to the front or sides of the vehicle.

(c) A rear-facing auxiliary lamp may be activated only when the vehicle is stopped. A vehicle equipped with a rear-facing auxiliary lamp shall also be equipped with a system that allows activation of the lamp only when the vehicle is in the "park" setting, if the vehicle is equipped with an automatic transmission, or in the "neutral" setting with the parking brake engaged, if the vehicle is equipped with a manual transmission.

(d) A vehicle equipped with a rear-facing auxiliary lamp may have an activation switch accessible to the operator from the rear of the vehicle.

Added Sec. 20, Ch. 739, Stats. 2001. Effective January 1, 2002.

Yield Right of Way Sign: Transit Bus

24617. (a) A transit bus may be authorized to be equipped with a yield right-of-way sign on the left rear of the bus. The yield right-of-way sign may flash simultaneously with the rear turn signal lamps, but is not required to do so. The sign shall be both of the following:

(1) Designed to warn a person operating a motor vehicle approaching the rear of the bus that the bus is entering traffic.

(2) Illuminated by a red flashing light when the bus is signaling in preparation for entering a traffic lane after having stopped to receive or discharge passengers.

(b) This section does not require a transit agency to install the yield right-of-way sign described in subdivision (a).

(c) This section does not relieve the driver of a transit bus from the duty to drive the bus with due regard for the safety of all persons and property. This section does not exempt the driver of a transit bus from Section 21804.

(d) This section applies only to the Santa Cruz Metropolitan Transit District and the Santa Clara Valley Transportation Authority, if the governing board of the applicable entity approves a resolution, after a public hearing on the issue, requesting that this section be made applicable to it.

(e) A participating transit agency shall undertake a public education program to encourage motorists to yield to a transit bus when the sign specified in subdivision (a) is activated.

Added Sec. 1, Ch. 451, Stats. 2007. Effective January 1, 2008.

Article 4. Parking Lamps

Lighted Parking Lamps

24800. No vehicle shall be driven at any time with the parking lamps lighted except when the lamps are being used as turn signal lamps or when the headlamps are also lighted.

Visiblity Requirements of Signals

24952. A lamp-type turn signal shall be plainly visible and understandable in normal sunlight and at nighttime from a distance of at least 300 feet to the front and rear of the vehicle, except that turn signal lamps on vehicles of a size required to be equipped with clearance lamps shall be visible from a distance of 500 feet during such times.

Turn Signal Lamps

24953. (a) Any turn signal system used to give a signal of intention to turn right or left shall project a flashing white or amber light visible to the front and a flashing red or amber light visible to the rear.

(b) Side-mounted turn signal lamps projecting a flashing amber light to either side may be used to supplement the front and rear turn signals. Side-mounted turn signal lamps mounted to the rear of the center of the vehicle may project a flashing red light no part of which shall be visible from the front.

(c) In addition to any required turn signal lamps, any vehicle may be equipped with supplemental rear turn signal lamps mounted to the rear of the rearmost portion of the vehicle's seat in its rearmost position.

(d) In addition to any required or authorized turn signal lamps, any vehicle may be equipped with supplemental rear turn signal lamps that are mounted on, or are an integral part of, the outside rearview mirrors, so long as the lamps flash simultaneously with the rear turn signal lamps, the light emitted from the lamps is projected only to the rear of the vehicle and is not visible to the driver under normal operating conditions, except for a visual indicator designed to allow monitoring of lamp operation, and the lamps do not project a glaring light.

Article 6. Side and Fender Lighting Equipment

Clearance and Side-Marker Lamps

25100. (a) Except as provided in subdivisions (b) and (d), every vehicle 80 inches or more in overall width shall be equipped during darkness as follows:

1. At least one amber clearance lamp on each side mounted on a forward-facing portion of the vehicle and visible from the front and at least one red clearance lamp on each side mounted on a rearward-facing portion of the vehicle and visible from the rear.

2. At least one amber side-marker lamp on each side near the front and at least one red side-marker lamp on each side near the rear.

3. At least one amber side-marker lamp on each side at or near the center on trailers and semitrailers 30 feet or more in length and which are manufactured and first registered after January 1, 1962. Any such vehicle manufactured and first registered prior to January 1, 1962, may be so equipped.

4. At least one amber side-marker lamp mounted at approximate midpoint of housecars, motortrucks, and buses 30 or more feet in length and manufactured on or after January 1, 1969. Any such vehicle manufactured prior to January 1, 1969, may be so equipped.

5. Combination clearance and side-marker lamps mounted as side-marker lamps and meeting the visibility requirements for both types of lamps may be used in lieu of required individual clearance or side-marker lamps.

(b) The following vehicles when 80 inches or more in overall width and not equipped as provided in subdivision (a) shall be equipped during darkness as follows:

1. Truck tractors shall be equipped with at least one amber clearance lamp on each side on the front of the cab or sleeper and may be equipped with amber side-marker lamps on each side.

2. Truck tractors manufactured on or after January 1, 1969, shall be equipped with one amber side-marker lamp on each side near the front.

3. Pole or pipe dollies, or logging dollies, shall be equipped with at least one combination clearance and side-marker lamp on each side showing red to the front, side, and rear.
§25100.1

(4) Vehicles, except truck tractors, which are 80 inches or more in width over a distance not exceeding three feet from front to rear shall be equipped with at least one amber combination clearance lamp and side-marker lamp on each side visible from the front, side, and rear if the projection is near the front of the vehicle and at least one red lamp if the projection is near the rear of the vehicle.

(5) Towing motor vehicles engaged in the driveaway-towaway operations shall be equipped with at least one amber clearance lamp at each side on the front and at least one amber side-marker lamp on each side near the front.

(6) Towed motor vehicles engaged in driveaway-towaway operations shall be equipped with at least one amber side-marker lamp on each side of intermediate vehicles, and the rearmost vehicle shall be equipped with at least one red side-marker lamp on each side and at least one red clearance lamp on each side near the rear.

(7) Trailers and semitrailers designed for transporting single boats in a cradle-type mounting and for launching the boat from the rear of the trailer need not be equipped with front and rear clearance lamps provided amber clearance lamps showing to the front and red clearance lamps showing to the rear are located on each side at or near the midpoint between the front and rear of the trailer to indicate the extreme width of the trailer.

(c) Loads extending beyond the side of a vehicle where the overall width of the vehicle and load is 80 inches or more shall be equipped with an amber combination clearance and side-marker lamp on the side at the front and a red combination clearance and side-marker lamp on the side at the rear. In lieu of the foregoing requirement, projecting loads not exceeding three feet from front to rear at the extreme width shall be equipped with at least one amber combination clearance and side-marker lamp on the side visible from the front, side, and rear if the projection is near the front of the vehicle and at least one red lamp if the projection is near the rear of the vehicle.

(d) Clearance and side-marker lamps are not required on auxiliary dollies or on passenger vehicles other than a housecar.

(e) Clearance lamps shall be visible from all distances between 500 feet and 50 feet to the side of the vehicle, and side-marker lamps shall be visible from all distances between 500 feet and 50 feet to the side of the vehicle.

(f) Clearance lamps shall, so far as is practicable, be mounted to indicate the extreme width of the vehicle. Side-marker lamps shall be mounted not lower than 15 inches on vehicles manufactured on and after January 1, 1968. Combination clearance and side-marker lamps required on loads shall be mounted so the lenses project to the outer extremity of the vehicle or load.

Clearance Lamps: Ambulances

25100.1. Notwithstanding any other provisions of this code, an ambulance may be equipped with clearance and side-marker lamps.

Lamps on Sides of Vehicles

25102. In addition to the lamps otherwise permitted by this chapter, any motor vehicle may be equipped with lamps on the sides thereof, visible from the side of the vehicle but not from the front or rear thereof, which lamps, together with mountings or receptacles, shall be set into depressions or recesses in the body of the vehicle and shall not protrude beyond or outside the body of the vehicle. The light source in each of the lamps shall not exceed two candlepower and shall emit diffused light of any color, except that the color red is permitted only on authorized emergency vehicles.

Lamps on Sides of School Buses

25102.5. (a) A school bus may be equipped with lamps mounted so as to be visible from the sides of the bus which may be lighted, in addition to other required lights, when, and only when, atmospheric conditions such as fog, rain, snow, smoke, or dust, reduce the visibility of other vehicles to less than 500 feet.

(b) The type and mounting requirements of such lamps shall be established by regulations adopted by the department. The regulations shall be adopted by January 1, 1980.

Lamp on Projecting Load

25103. Whenever the load upon any vehicle extends from the left side of the vehicle one foot or more, there shall be displayed at the extreme left side of the load during darkness:

(a) An amber lamp plainly visible for 300 feet to the front and rear of the vehicle.

(b) An amber lamp at the front visible for 300 feet to the front and a red lamp at the rear plainly visible for 300 feet to the rear of the vehicle if the projecting load exceeds 120 inches in length.

The lamp shall not contain a bulb rated in excess of six candlepower.

Solid Red or Florescent Orange Flag on Wide Vehicles

25104. Any vehicle or equipment that requires a permit issued pursuant to Article 6 (commencing with Section 35780) of Chapter 5 of Division 15 because it is wider than permitted under Chapter 2 (commencing with Section 35100) of Division 15 shall display a solid red or fluorescent orange flag or cloth not less than 12 inches square at the extreme left front and left rear of the vehicle or equipment, if the vehicle or equipment is being operated other than during darkness.

Courtesy Lamps

25105. (a) Any motor vehicle may be equipped with running board or door-mounted courtesy lamps. The bulbs in the lamps shall not exceed six standard candlepower and shall emit either a green or white light without glare. The beams of the lamps shall not be visible to the front or rear of the vehicle.

(b) Any motor vehicle may be equipped with inside door-mounted red lamps or red reflectorizing devices or material visible to the rear of the vehicle when the doors are open. The bulbs in the lamps shall not exceed six standard candlepower.

(c) Any motor vehicle may be equipped with exterior lamps for the purpose of lighting the entrances and exits of the vehicles, which lamps may be lighted only when the vehicles are not in motion. The lamp source of the exterior lamps shall not exceed 32 standard candlepower, or 30 watts, nor project any glaring light into the eyes of an approaching driver.

Amended Sec. 1, Ch. 348, Stats. 1995. Effective January 1, 1996.
Side, Cowl, or Fender Lamps

25106. (a) Any motor vehicle may be equipped with lighted white or amber cowl or fender lamps on the front. Any vehicle may be equipped with not more than one amber side lamp on each side near the front, nor more than one red side lamp on each side near the rear. The light source of each such lamp shall not exceed four standard candlepower.

(b) Lamps meeting requirements established by the department for side-marker or combination clearance and side-marker lamps may be installed on the sides of vehicles at any location, but any lamp installed within 24 inches of the rear of the vehicle shall be red, and any lamp installed at any other location shall be amber.

Cornering Lamps on Fenders

25107. Any motor vehicle may be equipped with not more than two cornering lamps designed and of sufficient intensity for the purpose of revealing objects only in the direction of turn while the vehicle is turning or while the turn signal lamps are operating to signal an intention to turn. The lamps shall be designed so that no glaring light is projected into the eyes of an approaching driver.

Pilot Indicator

25108. (a) Any motor vehicle may be equipped with not more than two amber turn-signal pilot indicators mounted on the exterior. The light output from any indicator shall not exceed five candlepower unless a provision is made for operating the indicator at reduced intensity during darkness in which event the light output shall not exceed five candlepower during darkness or 15 candlepower at any other time. The center of the beam shall be projected toward the driver.

(b) Any vehicle may be equipped with pilot indicators visible from the front to monitor the functioning or condition of parts essential to the operation of the vehicle or of equipment attached to the vehicle that is necessary for protection of the cargo or load. The pilot indicators shall be steady-burning, having a projected lighted lens area of not more than three-quarters of a square inch and have a light output of not more than five candlepower. The pilot indicator may be of any color except red.

(c) Other exterior pilot indicators of any color may be used for monitoring exterior lighting devices, provided that the area of each indicator is less than 0.20 square inches, the intensity of each indicator does not exceed 0.10 candlepower, and the color red is not visible to the front.

(d) Any towed vehicle may be equipped with an exterior-mounted indicator lamp used only to indicate the functional status of an antilock braking system providing that either of the following conditions are met:

(1) The indicator lamp complies with the applicable requirements of the federal motor vehicle safety standards.

(2) The indicator lamp is designed and located so that it will be readily visible, with the assistance of a rearview mirror if necessary, to the driver of the towing motor vehicle and the indicator lamp has a light source not exceeding five candlepower. The light shall not show to the sides or rear of the vehicle and the indicator lamp may emit any color except red.

(e) Notwithstanding any other provision of law, any motor vehicle may be equipped with not more than two exterior-lighted data monitors that transmit information to the driver of the vehicle regarding the efficient or safe operation, or both the efficient and safe operation, of the vehicle.

(2) Data monitors shall comply with all of the following conditions:

(A) Be mounted to the vehicle in a manner so that they are readily visible to the driver of the vehicle when the driver is seated in the normal driving position. Data monitors shall not be designed to convey information to any person other than the driver of the vehicle.

(B) Be limited in size to not more than two square inches of lighted area each.

(C) Not emit a light brighter than reasonably necessary to convey the intended information.

(D) Not project a glaring light to the driver or, to other motorists, or to any other person.

(3) Data monitors may incorporate flashing or changing elements only as necessary to convey the intended information. Data monitors shall not resemble any official traffic-control device or required lighting device or be combined with any required lighting device.

(4) Data monitors may display any color, except that the color red shall not be visible to the front of the vehicle.

Amended Sec. 21, Ch. 739, Stats. 2001. Effective January 1, 2002.

Running Lamps

25109. Any motor vehicle may be equipped with two white or amber running lamps mounted on the front, one at each side, which shall not be lighted during darkness except while the motor vehicle is parked.

Added Ch. 858, Stats. 1965. Effective September 17, 1965.

Utility Flood and Loading Lamps

25110. (a) The following vehicles may be equipped with utility flood or loading lamps mounted on the rear, and sides, that project a white light illuminating an area to the side or rear of the vehicle for a distance not to exceed 75 feet at the level of the roadway:

(1) Tow trucks that are used to tow disabled vehicles may display utility floodlights, but only during the period of preparation for towing at the location from which a disabled vehicle is to be towed.

(2) Ambulances used to respond to emergency calls may display utility flood and loading lights, but only at the scene of an emergency or while loading or unloading patients.

(3) Firefighting equipment designed and operated exclusively as such may display utility floodlights only at the scene of an emergency.

(4) Vehicles used by law enforcement agencies or organizations engaged in the detoxification of alcoholics may display utility flood or loading lights when loading or unloading persons under the influence of intoxicants for transportation to detoxification centers or places of incarceration.

(5) Vehicles used by law enforcement agencies for mobile blood alcohol testing, drug evaluation, or field sobriety testing.

(6) Vehicles used by publicly or privately owned public utilities may display utility flood or loading lights when engaged in emergency roadside repair of electric, gas, telephone, telegraph, water, or sewer facilities.

(b) Lamps permitted under subdivision (a) shall not be lighted during darkness, except while the vehicle is parked,
§25250

nor project any glaring light into the eyes of an approaching driver.
Amended Sec. 132, Ch. 124, Stats. 1996. Effective January 1, 1997.

Article 7. Flashing and Colored Lights

Flashing Lights
25250. Flashing lights are prohibited on vehicles except as otherwise permitted.

Permitted Flashing Lights
25251. (a) Flashing lights are permitted on vehicles as follows:

(1) To indicate an intention to turn or move to the right or

left upon a roadway, turn signal lamps and turn signal exterior

pilot indicator lamps and side lamps permitted under Section

25106 may be flashed on the side of a vehicle toward which the

turn or movement is to be made.

(2) When disabled or parked off the roadway but within 10

feet of the roadway, or when approaching, stopped at, or

departing from, a railroad grade crossing, turn signal lamps

may be flashed as warning lights if the front turn signal lamps

at each side are being flashed simultaneously and the rear

turn signal lamps at each side are being flashed simultaneously.

(3) To warn other motorists of accidents or hazards on a

roadway, turn signal lamps may be flashed as warning lights

while the vehicle is approaching, overtaking, or passing the

accident or hazard on the roadway if the front turn signal

lamps at each side are being flashed simultaneously and the rear

turn signal lamps at each side are being flashed simultaneously.

(4) For use on authorized emergency vehicles.

(5) To warn other motorists of a funeral procession, turn

signal lamps may be flashed as warning lights on all vehicles

actually engaged in a funeral procession, if the front turn

signal lamps at each side are being flashed simultaneously and

the rear turn signal lamps at each side are being flashed simultaneously.

(b) Turn signal lamps shall be flashed as warning lights

whenever a vehicle is disabled upon the roadway and the

vehicle is equipped with a device to automatically activate the

front turn signal lamps at each side to flash simultaneously and

the rear turn signal lamps at each side to flash simultaneously, if the device and the turn signal lamps were

not rendered inoperative by the event which caused the vehicle

to be disabled.

(c) Side lamps permitted under Section 25106 and used in

conjunction with turn signal lamps may be flashed with the

turn signal lamps as part of the warning light system, as

provided in paragraphs (2) and (3) of subdivision (a).

(d) Required or permitted lamps on a trailer or semitrailer

may flash when the trailer or semitrailer has broken away

from the towing vehicle and the connection between the

vehicles is broken.

(e) Hazard warning lights, as permitted by paragraphs (2)

and (3) of subdivision (a) may be flashed in a repeating series

of short and long flashes when the driver is in need of help.

Warning Lights on Slow-Moving Implements of
Husbandry
25251.1. Any implement of husbandry displaying a
slow moving vehicle emblem, as defined in Section 24615, and
being operated at a speed of 25 miles per hour or less, may be
equipped with double-faced amber turn signals which may be
flashed simultaneously as warning lights.

Motorcycles: Headlamp Flasher
25251.2. Any motorcycle may be equipped with a
means of modulating the upper beam of the headlamp between
a high and a lower brightness at a rate of 200 to 280 flashes per
minute. Such headlamps shall not be so modulated during
darkness.

Turn Signal Warning Lights: Civil Liability
25251.3. No civil liability shall attach to any person for

the use or nonuse of turn signal lamps in the manner permitted

by paragraph (3) or (5) of subdivision (a) of Section 25251,

except for such civil liability as would attach for the use or

nonuse of any other device required by this Article or Article 8

(commencing with Section 25300).

Theft Alarm System
25251.4. Any motor vehicle may also be equipped with

a theft alarm system which flashes any of the lights required

or permitted on the motor vehicle and which operates as

specified in Article 13 (commencing with Section 28085) of

Chapter 5 of this division.

Deceleration Warning Lights
25251.5. (a) Any motor vehicle may also be equipped

with a system in which an amber light is center mounted on

the rear of a vehicle to communicate a component of deceleration

of the vehicle, and which light pulses in a controlled fashion at

a rate which varies exponentially with a component of

deceleration.

(b) Any motor vehicle may be equipped with two amber

lamps on the rear of the vehicle which operate simultaneously

with not more than four flashes within four seconds after the

accelerator pedal is in the deceleration position and which are

not lighted at any other time. The lamps shall be mounted at

the same height, with one lamp located on each side of the

vertical centerline of the vehicle, not higher than the bottom of

the rear window, or if the vehicle has no rear window, not

higher than 60 inches. The light output from each of the lamps

shall not exceed 200 candlepower at any angle horizontal or

above. The amber lamps may be used either separately or in

combination with another lamp.

(c) Any stoplamp or supplemental stoplamp required or

permitted by Section 24603 may be equipped so as to flash not

more than four times within the first four seconds after

actuation by application of the brakes.

Warning Lamps on Authorized Emergency Vehicles
25252. Every authorized emergency vehicle shall be

equipped with at least one steady burning red warning lamp

visible from at least 1000 feet to the front of the vehicle to be

used as provided in this code.
In addition, authorized emergency vehicles may display revolving, flashing, or steady red warning lights to the front, sides or rear of the vehicles.

### Flashing Headlamps on Authorized Emergency Vehicles

25252.5. (a) Every authorized emergency vehicle may be equipped with a system which flashes the upper-beam headlamps of the vehicle with the flashes occurring alternately from the front headlamp on one side of the vehicle to the front headlamp on the other side of the vehicle. The flashing of the headlamps shall consist only of upper-beam flashing, and not the flashing of any other light beam.

(b) “Upper-beam headlamp,” as used in this section, means a headlamp or that part of a headlamp which projects a distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of at least 350 feet ahead for all conditions of loading.

(c) The system provided for in subdivision (a) shall only be used when an authorized emergency vehicle is being operated pursuant to Section 21055.

### Warning Lamps on Tow Trucks

25253. (a) Tow trucks used to tow disabled vehicles shall be equipped with flashing amber warning lamps. This subdivision does not apply to a tractor-trailer combination.

(b) Tow trucks may display flashing amber warning lamps while providing service to a disabled vehicle. A flashing amber warning lamp upon a tow truck may be displayed to the rear when the tow truck is towing a vehicle and moving at a speed slower than the normal flow of traffic.

(c) A tow truck shall not display flashing amber warning lamps on a freeway except when an unusual traffic hazard or extreme hazard exists.

### Warning Lamps: Dismantlers’ Tow Vehicle

25253.1. An automobile dismantler’s tow vehicle used to tow a disabled vehicle may be equipped with flashing amber warning lamps.

A flashing amber warning lamp upon an automobile dismantler’s tow vehicle may be displayed to the rear when the automobile dismantler’s tow vehicle is towing a vehicle and moving at a speed slower than the normal flow of traffic.

### Warning Lights on Vehicles Operated by Personnel of Marshal’s Department

25254. In any county with a population of 250,000 or more persons, publicly owned vehicles operated by peace officer personnel of a marshal’s department, when actually being used in the enforcement of the orders of any court, including, but not limited to, the transportation of prisoners, may display flashing amber warning lights to the rear when such vehicles are necessarily parked upon a roadway and such parking constitutes a hazard to other motorists.

### Warning Lights on Highway Maintenance Vehicles

25256. Vehicles used by highway authorities or bridge and highway districts, and vehicles of duly authorized representatives thereof, used in highway maintenance, inspection, survey or construction work may display flashing amber warning lights to the front, sides or rear when such vehicles are parked or working on the highway.

### Schoolbus Warning Signal System

25257. (a) Every schoolbus, when operated for the transportation of schoolchildren, shall be equipped with a flashing red light signal system.

(b) (1) Every schoolbus manufactured on or after September 1, 1992, shall also be equipped with a stop signal arm. Any schoolbus manufactured before September 1, 1992, may be equipped with a stop signal arm.

(2) Any schoolbus manufactured on or after July 1, 1993, shall also be equipped with an amber warning light system, in addition to the flashing red light signal system. Any schoolbus manufactured before July 1, 1993, may be equipped with an amber warning light system.

(c) A stop signal arm is a device that can be extended outward from the side of a schoolbus to provide a signal to other motorists not to pass the bus because it has stopped to load or unload passengers, that is manufactured pursuant to the specifications of Federal Motor Vehicle Safety Standard No. 131, issued on April 25, 1991.

### Flashing Lights: Schoolbuses Transporting Disabled

25257.2. If a schoolbus is used for the transportation of persons of any age who are developmentally disabled, as defined by the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code), the amber light signal system, flashing red light signal system, and stop signal arm shall not be used other than as required by Sections 22112 and 22454.

### Flashing Lights: Schoolbuses

25257.5. To warn other motorists or pedestrians on a roadway during a backing maneuver, the operator of a schoolbus may flash turn signal lamps if the front turn signal lamps at each side are flashed simultaneously and the rear signal lamps at each side are flashed simultaneously.

### Schoolbuses: Additional Lights

25257.7. (a) A schoolbus may be equipped with a white strobe light mounted so as to be visible from the front, sides, or rear of the bus. The strobe light may only be lighted when visibility is reduced to 500 feet or less due to atmospheric conditions including, but not limited to, fog, rain, snow, smoke, or dust. Reduced visibility due to atmospheric conditions does not include the time of darkness from one-half hour after sunset to one-half hour before sunrise.

(b) The type and mounting requirements of strobe lights authorized by subdivision (a) shall be established by regulations adopted by the department by April 1, 1991. No schoolbus shall be equipped with a strobe light until the regulations are adopted.
§25258 —544— Div. 12

Authorized Emergency Vehicles: Additional Lights

25258. (a) An authorized emergency vehicle operating under the conditions specified in Section 21055 may display a flashing white light from a gaseous discharge lamp designed and used for the purpose of controlling official traffic control signals.

(b) An authorized emergency vehicle used by a peace officer, as defined in Section 830.1 of, subdivision (a), (b), (c), (d), (e), (f), (g), or (i) of Section 830.2 of, subdivision (n) of Section 830.3 of, subdivision (b) of Section 830.31 of, subdivision (a) or (b) of Section 830.32 of, Section 830.33 of, subdivision (a) of Section 830.36 of, subdivision (a) of Section 830.4 of, or Section 830.6 of, the Penal Code, in the performance of the peace officer’s duties, may, in addition, display a steady or flashing blue warning light visible from the front, sides, or rear of the vehicle.

(c) Except as provided in subdivision (a), a vehicle shall not be equipped with a device that emits any illumination or radiation that is designed or used for the purpose of controlling official traffic control signals.

Additional Warning Lights on Authorized Emergency Vehicles

25259. (a) Any authorized emergency vehicle may display flashing amber warning lights to the front, sides, or rear.

(b) A vehicle operated by a police or traffic officer while in the actual performance of his or her duties may display steady burning or flashing white lights to either side mounted above the roofline of the vehicle.

(c) Any authorized emergency vehicle may display not more than two flashing white warning lights to the front mounted above the roofline of the vehicle and not more than two flashing white warning lights to the front mounted below the roofline of the vehicle. These lamps may be in addition to the flashing headlamps permitted under Section 25252.5.

Disaster Service Workers: Flashing Amber Warning Lights

25259.1. (a) Any vehicle operated by a disaster service worker who has received training in accordance with subdivision (b) and used by that worker in the performance of emergency or disaster services ordered by lawful authority during a state of war emergency, a state of emergency, or a local emergency, as those terms are defined in Section 8558 of the Government Code, may display flashing amber warning lights to the front, sides, or rear while at the scene of the emergency or disaster.

(b) Any disaster service worker operating a vehicle that displays flashing amber warning lights shall receive a training course from the public agency, disaster council, or emergency organization described in Section 3101 of the Government Code concerning the safe operation of the use of flashing amber warning lights prior to operating a vehicle that displays flashing amber warning lights.

(c) A person operating a vehicle that is authorized to display flashing amber warning lights under this section shall either completely cover or remove those lights when the lights are not in use.

Warning Lights on Red Cross Vehicles

25259.5. An emergency response or disaster service vehicle owned or leased and operated by the American National Red Cross, or any Chapter or branch thereof, and equipped and clearly marked as a Red Cross emergency service or disaster service vehicle, may display flashing amber warning lights to the front, sides, or rear of the vehicle while at the scene of an emergency or disaster operation. Vehicles not used on emergency response shall not be included.

Warning Lights on Public Utility Vehicles

25260. (a) Public utility vehicles, and vehicles of duly authorized representatives of a public utility, actually engaged in the construction, removal, maintenance, or inspection of public utility facilities, including the cutting or trimming of trees immediately adjacent thereto, may display flashing amber warning lights to the front, sides, or rear when necessarily parked on a highway or when moving at a speed slower than the normal flow of traffic.

(b) Vehicles owned by public transit operators which provide assistance to a disabled district bus may display flashing amber warning lights to the front, sides, or rear when necessarily parked on a highway.

Warning Lights on Utility Vehicles

25260.1. Vehicles actually engaged in the construction, removal, maintenance, or inspection of any oil or gas pipeline may display flashing amber warning lights to the front, sides, or rear when necessarily parked on a highway or when necessarily moving at a speed slower than the normal flow of traffic.

Warning Lights on Personnel Aerial Lift Vehicle

25260.3. Any vehicle having personnel aerial lift equipment, actually engaged in the construction, removal, maintenance or inspection of any building, structure, or appurtenances thereto, including the cutting or trimming of trees immediately adjacent thereto, may display flashing amber warning lights to the front, sides, or rear when necessarily parked on a highway or when moving at a speed slower than the normal flow of traffic.

Warning Lamps: Hazardous Substance Spill Response Vehicle

25260.4. Any hazardous substance spill response vehicle, under contract to the Department of Transportation for the cleanup of hazardous substance spills, may display flashing amber warning lights to the front, sides, or rear of the vehicle while it is engaged in the actual cleanup of the spill. The warning lights shall be removed or covered with opaque material whenever the vehicle is not actually engaged in the cleanup of a hazardous substance at the scene of the spill.

Warning Lights on County Vehicles

25261. Vehicles used by a county or county department of agriculture and vehicles of duly authorized representatives thereof, actually engaged in weed control or pest detection, may display flashing amber warning lights to the front, sides,
or rear when necessarily parked on a highway or when moving at a speed slower than the normal flow of traffic.

**Warning Lights on Pilot Cars**

25270. Any pilot car required by the permit referred to in Section 35780 or 35790, or any vehicle or combination of vehicles subject to the permit if specified in the permit, shall be equipped with flashing amber warning lights to the front, sides or rear. The pilot car and any vehicles required by the permit to have flashing amber warning lights, shall display the flashing amber warning lights while actually engaged in the movement described in the permit. The warning lamps shall be removed or covered with opaque material whenever the pilot car is not escorting the movement described in the permit.

**Warning Lights on Vehicles Herding Livestock**

25270.5. Any motor vehicle engaged in, or aiding in, the herding of livestock along or across a public roadway may display flashing amber warning lights to the front, sides, or rear of the vehicle while it is stopped in the roadway near the livestock or proceeding with the livestock along the roadway.

**Warning Lamps: Animal Control Vehicles**

25271. Any publically owned vehicle or any vehicle operated by a corporation incorporated under Part 4 (commencing with Section 10400) of Division 2 of Title 1 of the Corporations Code for the purpose of the prevention of cruelty to animals, when used for removing dead animals, injured animals, or loose livestock, may, display flashing amber warning lights to the front or rear when necessarily parked on the roadway or when moving at a speed slower than the normal flow of traffic.

**Warning Lamps: Animal Control Vehicles**

25271.5. Any publicly owned vehicle used for the enforcement of animal control laws contained in a statute, local ordinance, or regulation may display flashing or revolving amber warning lights to the front, sides, or rear of the vehicle when actually engaged in the enforcement of those laws and when necessarily parked on a roadway or moving at a speed slower than the normal flow of traffic.

**Warning Lamps: Animal Control Vehicles**

25272. A motor vehicle used by a rural mail carrier may display flashing amber warning lights to the front and rear of the vehicle while the vehicle is necessarily stopped or stopping upon a roadway for the delivery of United States mail.

**Warning Lights on School District Vehicles**

25273. Any motor vehicle owned and operated by a school district with an average daily attendance in excess of 400,000 while being used to measure the distance from school to a school pupil’s residence may display a flashing amber warning light to the rear of the vehicle when moving at a speed substantially slower than the normal flow of traffic.

**Warning Lights on Cable Television Vehicles**

25274. Any vehicle owned by a cable television company and operated by employees, or duly authorized representatives, of a cable television company, when actually
engaged in the construction, removal, maintenance or inspection of cable television facilities, including but not limited to, the cutting or trimming of trees immediately adjacent thereto, may display flashing amber warning lights to the front, sides, or rear when necessarily parked on a highway or when moving at a speed slower than the normal flow of traffic.

For the purposes of this section, “cable television company” means any person engaged in the business of transmitting television programs by cable to subscribers for a fee.

**Warning Lamps on Trucks With Long Loads**

25275. Any truck or truck tractor which is primarily used in the transportation of loads specified in subdivision (a) of Section 35414, may be equipped with a flashing amber warning lamp. Such lamp may be displayed to the front, sides, or rear of the combination only when its length exceeds 75 feet and when an unusual traffic hazard exists.

**Buses: Crime Alarm Lights**

25275.5. Any bus operated either by a public agency or under the authority of a certificate of public convenience and necessity issued by the Public Utilities Commission may be equipped with a system of crime alarm lights. The system of crime alarm lights shall consist of the installation of additional lamp sources, not exceeding 32 standard candlepower or 30 watts, in the front and rear clearance lamps required or permitted by Section 25100. Such lamps shall be operated by a flasher unit or units that are not audible inside the bus.

When actuated, both rear crime alarm lights shall flash simultaneously and both front crime alarm lights shall flash simultaneously. Crime alarm lights shall be actuated only when a crime is in progress on board the bus or has recently been committed on board the bus.

**Warning Lights on Vehicles Transporting Mentally Retarded or Disabled Persons**

25276. (a) A motor vehicle designed for carrying more than eight persons, including the driver, owned by a private, nonprofit organization that provides training or other activities for persons who have intellectual or physical disabilities, or both, and that is certified by the Department of Rehabilitation or licensed by the State Department of Developmental Services, with respect to the providing of this training or other activities, may be equipped with a flashing amber light signal system.

(b) A motor vehicle, described in subdivision (a), may, while actually engaged in the transportation of persons described in subdivision (a) to or from a training or activity center operated by the organization, display the flashing amber lights of the system when necessarily parked upon a highway and in the process of loading or unloading persons.

(c) Subdivisions (a) and (b) apply to a motor vehicle that is rented, leased, or chartered by the organization.

**Warning Lights on Vehicles Enforcing Parking Laws**

25277. Any vehicle used by any police department, sheriff’s office, or other governmental agency for the purpose of enforcing parking laws contained in the Vehicle Code or in a local ordinance or regulation may display flashing or revolving amber warning lights to the front, sides, or rear of the vehicle when actually engaged in the enforcement of such laws and when either necessarily stopped on a street, or when moving at a speed slower than the normal flow of traffic.

**Warning Lights: Survey Vehicles**

25278. Any vehicle owned or operated by a land surveyor or civil engineer licensed to practice in this state may display flashing amber warning lights to the front, sides, or rear, if the vehicle is engaged in any phase of a project that requires surveying or surveying related activities to be performed on a highway, or in the vicinity of a highway, and the vehicle is parked on the highway or moving at a speed lower than the normal flow of traffic. The use of, or absence of, amber warning lights as authorized in this section shall not serve as the basis for any civil action, a defense to a civil action, or establish negligence as a matter of law or negligence per se for comparative fault purposes.

Amended Sec. 181, Ch. 91, Stats. 1995. Effective January 1, 1996.

**Warning Lights on Private Security Agency Vehicles**

25279. (a) Vehicular owned and operated by private security agencies and utilized exclusively on privately owned and maintained roads to which this code is made applicable by local ordinance or resolution, may display flashing amber warning lights to the front, sides, or rear, while being operated in response to emergency calls for the immediate preservation of life or property.

(b) (1) Vehicles owned by a private security agency and operated by personnel who are registered with the Department of Consumer Affairs under Article 3 (commencing with Section 7582) of Chapter 11.5 of Division 3 of the Business and Professions Code may be equipped with a flashing amber warning light system while the vehicle is operated on a highway, if the vehicle is in compliance with Section 27605 and is distinctively marked with the words “PRIVATE SECURITY” or “SECURITY PATROL” on the rear and both sides of the vehicle in a size that is legible from a distance of not less than 50 feet.

(2) The flashing amber warning light system authorized under paragraph (1) shall not be activated while the vehicle is on the highway, unless otherwise directed by a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code.

(c) A peace officer may order that the flashing amber warning light system of a vehicle that is found to be in violation of this section be immediately removed at the place of business of the vehicle’s owner or a garage.

(d) A flashing amber warning light system shall not be installed on a vehicle that has been found to be in violation of this section, unless written authorization is obtained from the Commissioner of the California Highway Patrol.

Amended Sec. 76, Ch. 1154, Stats. 1996. Effective September 30, 1996.

**Warning Lights on Garbage, Rubbish, or Refuse Vehicles**

25280. Vehicles operated by a local public entity, or pursuant to a permit, license, contract, or franchise with a local public entity, and used to collect and transport garbage, rubbish, or refuse may display flashing amber warning lights
to the front, sides, or rear while stopped upon a street and actually engaged in the collection of garbage, rubbish, or refuse, or while moving between stops at a speed not greater than 10 miles per hour.

**Warning Lights: Water Tender Vehicles**

25281. A privately owned or operated water tender vehicle, when used exclusively for contract emergency services provided to any public agency, may display flashing amber warning lights to the front, sides, or rear of the vehicle when necessarily parked on a highway or other public road, blocking or partially blocking a highway or other public road, traveling at a speed slower than the normal flow of traffic, or crossing or entering a highway or other public road. The flashing amber lights shall not be displayed when the water tender vehicle is traveling to or from an emergency at the normal speed and flow of traffic, except when the vehicle is traveling in escort with a fire engine or other authorized emergency vehicle. The lights shall be covered with an opaque material when not being displayed.

**Warning Lights: Contractors and Construction Companies**

25282. Any vehicle owned or operated by a contractor or a construction company licensed to operate in this state pursuant to the Business and Professions Code may display flashing amber warning lights to the front, sides, or rear, if the vehicle is engaged in any phase of a construction project performed on a highway, or in the vicinity of a highway, and the vehicle is parked on the highway or moving at a speed lower than the normal flow of traffic. The use of, or absence of, amber warning lights as authorized in this section shall not serve as the basis for any civil action, a defense to civil action, or establish negligence as a matter of law or negligence per se for comparative fault purposes.

Added Sec. 21, Ch. 10, Stats. 1996. Effective February 9, 1996.

### Article 8. Warning Lights and Devices

**Warning Devices on Disabled or Parked Vehicles**

25300. (a) Every vehicle which, if operated during darkness, would be subject to the provisions of Section 25100, and every truck tractor, irrespective of width, shall at all times be equipped with at least three red emergency reflectors. The reflectors need be carried by only one vehicle in a combination.

(b) During darkness, would be subject to the provisions of Section 25100, and every truck tractor, irrespective of width, shall at all times be equipped with at least three red emergency reflectors. The reflectors need be carried by only one vehicle in a combination.

(c) Every vehicle which is disabled upon the roadway or which is parked, stopped or standing at the site of work as described in Section 22512, warning devices shall be displayed as follows:

1. One at a distance of approximately 100 feet to the rear of the vehicle.
2. One at a distance of approximately 100 feet to the front of the vehicle in the center of the traffic lane occupied by such vehicle; and
3. One at a distance of approximately 100 feet to the front of the vehicle in the center of the traffic lane occupied by such vehicle.

(d) If disablement of any such vehicle occurs within 500 feet of a curve, crest of a hill, or other obstruction to view, the driver shall so place the reflectors in that direction as to afford ample warning to other users of the highway, but in no case less than 100 nor more than 500 feet from the disabled vehicle.

(e) The reflectors shall be displayed continuously during darkness while the vehicle remains disabled upon the roadway or parked or disabled within 10 feet thereof.

(f) Subdivisions (a), (c), (d), and (e) do not apply to a vehicle under either of the following circumstances:

1. Parked in a legal position within the corporate limits of any city.
2. Parked in a legal position upon a roadway bounded by adjacent curbs.

(g) In addition to the reflectors specified in subdivision (a), an emergency warning sign or banner may be attached to a vehicle which is disabled upon the roadway or which is parked or disabled within 10 feet of a roadway.

### Utility and Public Utility Vehicles

25301. When utility or public utility vehicles are parked, stopped or standing at the site of work as described in Section 22512, warning devices shall be displayed as follows:

(a) During daylight warning devices shall consist of either:

A warning flag or barricade striping on the front and rear of the vehicle.

A warning flag, sign, or barrier on the highway not more than 50 feet in advance of the vehicle and not more than 50 feet to the rear thereof, except that in zones where the speed limit is in excess of 25 miles per hour the 50-foot distance may be increased up to 500 feet from the vehicle as circumstances may warrant.

(b) During darkness the warning devices shall consist of either:

One or more flashing amber warning lights on the vehicle giving warning to approaching traffic from each direction.

A warning light, flare, fusee, or reflector on the highway not more than 50 feet in advance of the vehicle and not more than 50 feet to the rear thereof, except that in zones where the speed...
limit is in excess of 25 miles per hour the 50-foot distance may be increased up to 500 feet from the vehicle where circumstances may warrant.

(c) The provisions of subdivisions (a) or (b) do not prevent the display of both types of the warning devices during daylight or darkness.

(d) During either daylight or darkness, no warning device is necessary if the vehicle is equipped with the flashing warning lights visible to approaching traffic from each direction as provided in subdivision (b).

Use of Fusees

25305. (a) No person shall place, deposit, or display upon or adjacent to any highway any lighted fusee, except as a warning to approaching vehicular traffic or railroad trains, or both, of an existing hazard upon or adjacent to the highway or highway-railroad crossing.

(b) It is unlawful to use any fusee which produces other than a red light. The provisions of this subdivision shall not apply to any railroad, as defined in Section 229 of the Public Utilities Code.

Article 9. Commercial and Common Carrier Vehicles

Identification of Lamps and Signs

25350. Any passenger common carrier motor vehicle manufactured prior to January 1, 1968, may be equipped with green identification lamps. Any bus may be equipped with an illuminated termini sign, an illuminated identification sign, or any combination thereof, which shall not project any glaring light. Internally illuminated termini signs, identification signs, or any combination thereof, meeting the requirements of Section 25400 may be mounted inside a bus. Any commercial vehicle, other than a passenger common carrier motor vehicle, may be equipped with an illuminated identification sign upon the front thereof which shall not exceed 24 inches in length or 8 inches in width and which emits diffused white light without glare.

Identification Lamps

25351. (a) A commercial vehicle and, except as provided in subdivision (d), any other vehicle 80 or more inches in width may be equipped with identification lamps mounted on the front or rear. No part of any such lamps or their mountings on the front of a motor vehicle shall extend below the top of the windshield.

(b) Identification lamps on such vehicles manufactured prior to January 1, 1968, may exhibit either amber, green, or white light to the front and red light to the rear.

(c) Identification lamps on such vehicles manufactured on or after January 1, 1968, may exhibit only amber light to the front and red light to the rear.

(d) Identification lamps are not permitted on passenger vehicles, except housecars and ambulances, regardless of width.

Devices Affecting Traffic Control Signals

25352. Any bus operated by a publicly owned transit system on regularly scheduled service may be equipped with a device capable of sending a signal that interrupts or changes the sequence patterns of an official traffic control signal, under the following conditions:

(a) If such a device is a flashing gaseous discharge lamp, such lamp shall not emit a visible light exceeding an average of 0.0003 candela per flash of any color measured at a distance of 10 feet.

(b) Such device shall not be installed or used unless and until authorized on specific routes by either the Department of Transportation pursuant to Section 21350, or local authorities pursuant to Section 21351.

(c) Any bus or system operating under the conditions specified herein shall allow emergency vehicles operating pursuant to Section 25258 or 21055 to have priority in changing the sequence patterns of an official traffic control signal.

Illuminated Signs

25353. (a) Notwithstanding Sections 25400 and 25950, a bus operated by a publicly owned transit system on regularly scheduled service may be equipped with illuminated signs that include destination signs, route-number signs, run-number signs, public service announcement signs, or a combination thereof, visible from any direction of the vehicle, that emit any light color, other than the color red emitted from forward-facing signs, pursuant to the following conditions:

(1) Each illuminated sign shall emit diffused nonglaring light.

(2) Each illuminated sign shall be limited in size to a display area of not greater than 720 square inches.

(3) Each illuminated sign shall not resemble nor be installed in a position that interferes with the visibility or effectiveness of a required lamp, reflector, or other device upon the vehicle.

(4) Each illuminated sign shall display information directly related to public transit service, including, but not limited to, route number, destination description, run number, and public service announcements.

(5) The mixing of individually colored light emitting diode elements, including red, is allowed as long as the emitted color formed by the combination of light emitting diode elements is not red.

(b) (1) An illuminated sign may be operated as a dynamic message sign in a paging or streaming mode.

(2) The following definitions shall govern the construction of paragraph (1):

(A) “Paging,” meaning character elements or other information presented for a period of time and then disappearing all at once before the same or new elements are presented, is permitted if the display time of each message is between 2.7 and 10 seconds. Blanking times between each message shall be between 0.5 and 25 seconds.

(B) “Streaming,” meaning character elements or other information moving smoothly and continuously across the display, is permitted if the character movement time, from one end of the display to the other, is at least 2.7 seconds, and the movement time of the entire message does not exceed 10 seconds.

(c) A regulation adopted pursuant to this section shall comply with applicable federal law, including, but not limited
to, the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.).

City of Santa Monica: Illuminated Signs

25353.1. (a) Notwithstanding Sections 25400 and 25950, a bus operated by the City of Santa Monica’s publicly owned transit system, on regularly scheduled service, in addition to the illuminated signs described in section 25353, may also be equipped with illuminated signs that display advertising and that emit any light color, if all of the following conditions are met:

(1) Each illuminated sign displaying advertising shall emit diffused nonglaring light.

(2) Each illuminated sign displaying advertising shall be limited in size to a display area of not greater than 4,464 square inches.

(3) Each illuminated sign displaying advertising shall not resemble nor be installed in a position that interferes with the visibility or effectiveness of a required lamp, reflector, or other device upon the vehicle.

(4) Each illuminated sign displaying advertising shall only be placed on one or both sides of the vehicle, and shall not be placed in a forward-facing or rear-facing position, and no more than one such sign shall be placed on either side of any single vehicle.

(5) The mixing of individually colored light emitting diode elements, including red, is allowed in each illuminated sign displaying advertising as long as the emitted color formed by the combination of light emitting diode elements is not red.

(b) (1) An illuminated sign displaying advertising may be operated as a dynamic message sign in a paging or streaming mode. However, the electronic message sign display shall remain static while a bus is operating on a freeway as defined in Section 257 of the Streets and Highways Code.

(2) The following definitions shall govern the construction of paragraph (1):

(A) “Paging,” meaning character elements or other information presented for a period of time and then disappearing all at once before the same or new elements are presented, is permitted if the display time of each message is between 2.7 and 10 seconds. Blanking times between each message shall be between 0.5 and 25 seconds.

(B) “Streaming,” meaning character elements or other information moving smoothly and continuously across the display, is permitted if the character movement time, from one end of the display to the other, is at least 2.7 seconds, and the movement time of the entire message does not exceed 10 seconds.

(c) By July 1, 2016, the City of Santa Monica shall submit to the Legislature and to the department a report on the incidence of adverse impacts on roadway and pedestrian safety due to the utilization of illuminated signs on transit buses displaying advertising pursuant to this section, if any. The report shall be the product of a collaborative effort by Santa Monica law enforcement and transit officials, other local law enforcement officials in whose jurisdictions Santa Monica transit vehicles operate, and the department.

(d) The City of Santa Monica’s publicly owned transit system may, pursuant to subdivision (a), operate up to 25 buses with illuminated signs displaying advertising for two years, after which time the city may increase the number of buses with the signs to up to 30.

(e) This section shall remain in effect only until January 1, 2017, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2017, deletes or extends that date.

NOTE: The preceding section shall remain in effect only until January 1, 2017, and as of that date is repealed, unless a later enacted statute that is enacted before January 1, 2017, deletes or extends that date.

Illuminated Signs: Antelope Valley Transit Authority

25353.2. (a) Notwithstanding Sections 25400 and 25950, except as provided in subdivision (c), a bus operated by the Antelope Valley Transit Authority's publicly owned transit system, on regularly scheduled service, in addition to the illuminated signs described in Section 25353, may also be equipped with illuminated signs that display advertising and that emit any light color, if all of the following conditions are met:

(1) Each illuminated sign displaying advertising shall emit diffused nonglaring light.

(2) Each illuminated sign displaying advertising shall be limited in size to a display area of not greater than 4,464 square inches.

(3) Each illuminated sign displaying advertising shall not resemble nor be installed in a position that interferes with the visibility or effectiveness of a required lamp, reflector, or other device upon the vehicle.

(4) Each illuminated sign displaying advertising shall only be placed on one or both sides of the vehicle, and shall not be placed in a forward-facing or rear-facing position, and no more than one such sign shall be placed on either side of any single vehicle.

(5) The mixing of individually colored light-emitting diode elements, including red, is allowed in each illuminated sign displaying advertising as long as the emitted color formed by the combination of light-emitting diode elements is not red.

(b) (1) An illuminated sign displaying advertising may be operated as a dynamic message sign in a paging or streaming mode. However, the electronic message sign display shall remain static while a bus is operating on a freeway as defined in Section 257 of the Streets and Highways Code.

(2) The following definitions shall govern the construction of paragraph (1):

(A) “Paging,” meaning character elements or other information presented for a period of time and then disappearing all at once before the same or new elements are presented, is permitted if the display time of each message is between 2.7 and 10 seconds. Blanking times between each message shall be between 0.5 and 25 seconds.

(B) “Streaming,” meaning character elements or other information moving smoothly and continuously across the display, is permitted if the character movement time, from one end of the display to the other,
is at least 2.7 seconds, and the movement time of the entire message does not exceed 10 seconds.

(c) (1) On or before March 1, 2015, the Antelope Valley Transit Authority, if it elects to implement a pilot program pursuant to this section, shall determine whether the University of California, Irvine, has at least 12 transit buses equipped with illuminated signs that are operational pursuant to Section 25354. The Antelope Valley Transit Authority may implement the pilot program authorized by this section only if it determines that the University of California, Irvine, has less than 12 transit buses equipped with illuminated signs that are operational pursuant to Section 25354.

(d) If the Antelope Valley Transit Authority implements the pilot program pursuant to this section, it shall, by January 1, 2020, submit to the Legislature pursuant to Section 9795 of the Government Code, and to the department, a report on the incidence of adverse impacts on roadway and pedestrian safety due to the utilization of illuminated signs on transit buses displaying advertising pursuant to this section, if any. The report shall be the product of a collaborative effort by Antelope Valley law enforcement and transit officials, and other local law enforcement officials in whose jurisdictions Antelope Valley transit vehicles operate.

(e) The Antelope Valley Transit Authority's publicly owned transit system may, pursuant to subdivision (a), operate up to 25 buses with illuminated signs displaying advertising for two years, after which time the authority may increase the number of buses with the signs to up to 30.

(f) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

Added and repealed Sec. 1, Ch. 100, Stats. 2014. Effective January 1, 2015.
Repeal operative July 1, 2020.

NOTE: The preceding section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

University of California, Irvine: Illuminated Signs

25354. (a) Notwithstanding Sections 25400 and 25950, and except as provided in subdivision (c), a bus operated by the University of California, Irvine’s public transport system on regularly scheduled service, in addition to the illuminated signs described in Section 25353, may also be equipped with illuminated signs that display advertising and that emit any light color, if all of the following conditions are met:

1. Each illuminated sign displaying advertising emits diffused nonglaring light.
2. Each illuminated sign displaying advertising is limited in size to a display area of not greater than 4,464 square inches.
3. Each illuminated sign displaying advertising does not resemble, and is not installed in a position that interferes with the visibility or effectiveness of, a required lamp, reflector, or other device upon the vehicle.
4. Each illuminated sign displaying advertising is only placed on one or both sides of the vehicle, and is not placed in a forward-facing or rear-facing position, and no more than one such sign is placed on either side of any single vehicle.

5. The mixing of individually colored light emitting diode elements, including red, is allowed in each illuminated sign displaying advertising as long as the emitted color formed by the combination of light emitting diode elements is not red.

(b) (1) An illuminated sign displaying advertising may be operated as a dynamic message sign in a paging or streaming mode. However, the electronic message sign display shall remain static while a bus is operating on a freeway, as that term is defined in Section 257 of the Streets and Highways Code.

(2) The following definitions shall govern the construction of paragraph (1):

(A) “Paging,” meaning character elements or other information that is presented for a period of time and then disappears all at once before the same or new elements are presented, is permitted if the display time of each message is between 2.7 and 10 seconds. Blanking times between each message shall be between 0.5 and 25 seconds.

(B) “Streaming,” meaning character elements or other information moving smoothly and continuously across the display, is permitted if the character movement time, from one end of the display to the other, is at least 2.7 seconds, and the movement time of the entire message does not exceed 10 seconds.

(c) On or before March 1, 2014, the University of California, Irvine, if it elects to implement a pilot program pursuant to this section, shall determine whether the City of Santa Monica has at least 12 transit buses equipped with illuminated signs that are operational pursuant to Section 25353.1. The University of California, Irvine, may implement the pilot program authorized by this section only if it determines that the City of Santa Monica has less than 12 transit buses equipped with illuminated signs that are operational pursuant to Section 25353.1.

(d) If the University of California, Irvine implements the pilot program pursuant to this section, it shall submit a report to the Legislature and the department on the incidence of adverse impacts on roadway and pedestrian safety due to the utilization of illuminated signs on transit buses displaying advertising pursuant to this section, if any, by July 1, 2018. The report shall be the product of a collaborative effort between university law enforcement and transit officials, other law enforcement officials in whose jurisdictions the university’s transit vehicles operate, and the department. The report shall be submitted in compliance with Section 9795 of the Government Code.

(e) The University of California, Irvine’s public transport system may, pursuant to subdivision (a), operate up to 25 buses with illuminated signs displaying advertising for two years, after which time the city may increase the number of buses with the signs to up to 30.

(f) This section shall remain in effect only until January 1, 2019, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2019, deletes or extends that date.

Added Sec. 1, Ch. 133, Stats. 2013. Effective January 1, 2014.

NOTE: The preceding section shall remain in effect only until January 1, 2019, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2019, deletes or extends that date.
Article 10. Diffused Lights

**Lighting Requirements**

25400. (a) Any vehicle may be equipped with a lamp or device on the exterior of the vehicle that emits a diffused nonglaring light of not more than 0.05 candela per square inch of area.

(b) Any diffused nonglaring light shall not display red to the front, but may display other colors. A diffused nonglaring light shall not resemble nor be installed within 12 inches or in such position as to interfere with the visibility or effectiveness of any required lamp, reflector, or other device upon the vehicle.

(c) A diffused nonglaring lamp or device, other than a display sign authorized by subdivision (d), shall be limited in size to an area of 720 square inches and where any lease, rental, or donation is involved the installation of the lamp or device shall be limited to those vehicles operated either primarily within business or residential districts or municipalities, or between business districts, residential districts, and municipalities in close proximity.

(d) An internally illuminated sign emitting not more than 0.25 candela per square inch and possessing copy which does not contain a white background may be displayed on each side, but not on the front or rear, of a trolley coach or of a bus being operated in urban or suburban service as described in Section 35107 of this code.

**Diffused Lights Resembling Signs**

25401. No diffused nonglaring light on a vehicle shall resemble any official traffic control device.

Article 11. Acetylene Lamps

**Acetylene Lamps**

25450. Any motor vehicle, other than a motorcycle, equipped with lighted acetylene headlamps complies with the provisions of this code concerning lighted headlamps when it has two lighted acetylene headlamps of approximately equal candlepower mounted upon the front of the motor vehicle and fitted with clear plane glass fronts and bright six-inch spherical mirrors and standard acetylene five-eighths or three-quarters foot burners, not more and not less, projecting sufficient light ahead to reveal any vehicle, person or substantial object upon the roadway within 200 feet.

**Motorcycles**

25451. Any motorcycle equipped with one lighted acetylene headlamp complies with the provisions of this code concerning lighted headlamps on motorcycles when the acetylene headlamp is fitted with a clear plane glass front and a bright six-inch spherical mirror and a standard acetylene one-half or five-eighths foot burner, projecting sufficient light ahead to reveal any vehicle, person, or substantial object upon the roadway within a distance of 115 feet.

**Glare of Lights**

25452. No acetylene lamp shall emit any glaring light.

Article 12. Reflectorizing Material

**Use of Reflectorizing Material**

25500. (a) Area reflectorizing material may be displayed on any vehicle, provided: the color red is not displayed on the front; designs do not tend to distort the length or width of the vehicle; and designs do not resemble official traffic control devices, except that alternate striping resembling a barricade pattern may be used.

No vehicle shall be equipped with area reflectorizing material contrary to these provisions.

(b) The provisions of this section shall not apply to license plate stickers or tabs affixed to license plates as authorized by the Department of Motor Vehicles.

**Article 13. Headlamps on Motorcycles and Motor-Driven Cycles**

(Amended Ch. 923, Stats. 1970. Effective November 23, 1970.)

**Headlamps on Motorcycles**

25650. Every motorcycle during darkness shall be equipped with at least one and not more than two lighted headlamps which shall conform to the requirements and limitations of this division.

**Headlamps on Motorcycles Manufactured After 1978**

25650.5. Every motorcycle manufactured and first registered on and after January 1, 1978, shall be equipped with at least one and not more than two headlamps which automatically turn on when the engine of the motorcycle is started and which remain lighted as long as the engine is running. This section does not preclude equipping motorcycles used as authorized emergency vehicles with a switch to be used to turn off the headlamp during emergency situations or when the light would interfere with law enforcement, if the switch is removed prior to resale of the motorcycle.

**Headlamps on Motor-driven Cycles**

25651. The headlamp upon a motor-driven cycle may be of the single-beam or multiple-beam type, but in either event, when the vehicle is operated during darkness, the headlamp shall comply with the requirements and limitations as follows:

(a) The headlamp shall be of sufficient intensity to reveal a person or a vehicle at a distance of not less than 100 feet when the motor-driven cycle is operated at any speed less than 25 miles per hour and at a distance of not less than 200 feet when operated at a speed of 25 to not exceeding 35 miles per hour, and at a distance of 300 feet when operated at a speed greater than 35 miles per hour.

(b) In the event the motor-driven cycle is equipped with a multiple-beam headlamp, the upper beam shall meet the minimum requirements set forth above and the lowermost beam shall meet the requirements applicable to a lowermost distribution of light as set forth in subdivision (b) of Section 24407.

(c) In the event the motor-driven cycle is equipped with a single-beam lamp, it shall be so aimed that when the vehicle is loaded none of the high intensity portion of light, at a distance of 25 feet ahead, shall project higher than the level of the center of the lamp from which it comes.

§25800

Article 14. Vehicles Exempted

Special Mobile Equipment
25800. The provisions of Sections 24012, 24250, 24251, 24400 to 24404, inclusive, and Articles 3 (commencing with Section 24600), 4 (commencing with Section 24800), 5 (commencing with Section 24950), 6 (commencing with Section 25100), 9 (commencing with Section 25350), 11 (commencing with Section 25450), and 13 (commencing with Section 25650), shall not apply to special mobile equipment. Such equipment shall be subject to the provisions of Sections 24254, 25803, and 25950, and Article 12 (commencing with Section 25500).

Special Construction and Maintenance Equipment
25801. The provisions of Sections 24012, 24250, 24251, 24254, 24400 to 24404, inclusive, 24600 to 24604, inclusive, 24606 to 24610, inclusive, Section 25950, and Articles 4 (commencing with Section 24800), 5 (commencing with Section 24950), 6 (commencing with Section 25100), 9 (commencing with Section 25350), 11 (commencing with Section 25450), 12 (commencing with Section 25500), and 13 (commencing with Section 25650) shall not apply to special construction or maintenance equipment, nor to motor trucks equipped with snow removal or sanding devices, but shall apply to motor trucks and automobiles used independently of such equipment.

The provisions of Section 25803 shall be applicable to such equipment.

Vehicles Incidentally Operated Over Highway
25802. Sections 24002, 24005, 24250, 24251, 24400 to 24404, inclusive, 24600 to 24604, inclusive, 24606 to 24610, inclusive, Article 4 (commencing with Section 24800), Article 5 (commencing with Section 24950), Article 6 (commencing with Section 25100), Article 9 (commencing with Section 25350), Article 11 (commencing with Section 25450), and Article 13 (commencing with Section 25650) of Chapter 2 of this division, Chapter 3 (commencing with Section 26301), Chapter 4 (commencing with Section 26700), and Chapter 5 (commencing with Section 27000) of this division, and Chapter 2 (commencing with Section 29200), Chapter 3 (commencing with Section 29800), Chapter 4 (commencing with Section 30800), and Chapter 5 (commencing with Section 31301) of Division 13 do not apply to logging vehicles or any vehicle of a type subject to registration under this code that is not designed, used, or maintained for the transportation of persons or property and that is operated or moved over a highway only incidentally; but any such vehicle shall be subject to Sections 2800, 2806, 24004, 25260, 25803, 25950, 25952, 26457, 27454, 27602, 31500, and 40150, and to Article 12 (commencing with Section 25500) of Chapter 2 of this division.
Amended Sec. 133, Ch. 124, Stats. 1996. Effective January 1, 1997.

Lamps on Other Vehicles
25803. (a) All vehicles not otherwise required to be equipped with headlamps, rear lights, or reflectors by this Chapter shall, if operated on a highway during darkness, be equipped with a lamp exhibiting a red light visible from a distance of 500 feet to the rear of the vehicle. In addition, all of these vehicles operated alone or as the first vehicle in a combination of vehicles, shall be equipped with at least one lighted lamp exhibiting a white light visible from a distance of 500 feet to the front of the vehicle.

(b) A vehicle shall also be equipped with an amber reflector on the front near the left side and a red reflector on the rear near the left side. The reflectors shall be mounted on the vehicle not lower than 16 inches nor higher than 60 inches above the ground and so designed and maintained as to be visible during darkness from all distances within 500 feet from the vehicle when directly in front of a motor vehicle displaying lawful lighted headlamps undimmed.

(c) In addition, if a vehicle described in subdivision (a) or the load thereon has a total outside width in excess of 100 inches there shall be displayed during darkness at the left outer extremity at least one amber light visible under normal atmospheric conditions from a distance of 500 feet to the front, sides, and rear. At all other times there shall be displayed at the left outer extremity a solid red or fluorescent orange flag or cloth not less than 12 inches square.

Exemption for Historical Exhibition
25804. Notwithstanding any other provision of this code, original lighting equipment installed on a vehicle manufactured prior to January 1, 1946, need not meet the requirements established by the department when the vehicle is used primarily for the purpose of historical exhibition.

Lamps on Forklift Trucks
25805. Notwithstanding any other provision of this article, a forklift truck which is towed upon the highway at the end of a combination of vehicles shall at all times be equipped with at least one stop lamp mounted upon the rear of the vehicle and shall be equipped with lamp-type turn signals. Such vehicle shall, during the hours of darkness, be equipped with at least one taillamp and one red reflector mounted upon the rear of the vehicle and shall be equipped with clearance lamps if the vehicle is 80 or more inches in width.

Lamps and Sirens: Ambulances and Firetrucks
25806. Sections 24003 and 27002 shall not apply to the installation of warning lamps and sirens on ambulances or firetrucks which are used solely for demonstration purposes in the sales work of a licensed dealer, distributor, or vehicle manufacturer and shall not apply to ambulances or firetrucks being operated on a highway solely for the purpose of delivery from the licensee to a purchaser. Warning lamps shall be removed or covered with opaque material and the siren controls disabled whenever the vehicle is upon a highway.

Article 15. Light Restrictions and Mounting

Color of Lamps and Reflectors
25950. This section applies to the color of lamps and to any reflector exhibiting or reflecting perceptible light of 0.05 candela or more per foot-candle of incident illumination. Unless provided otherwise, the color of lamps and reflectors upon a vehicle shall be as follows:

(a) The emitted light from all lamps and the reflected light from all reflectors, visible from in front of a vehicle, shall be white or yellow, except as follows:
(1) Rear side marker lamps required by Section 25100 may show red to the front.

(2) The color of foglamps described in Section 24403 may be in the color spectrum from white to yellow.

(3) An illuminating device, as permitted under Section 24255, shall emit radiation predominantly in the infrared region of the electromagnetic spectrum. Any incidental visible light projecting to the front of the vehicle shall be predominantly yellow to white. Any incidental visible light projecting to the rear of the vehicle shall be predominantly red. Any incidental visible light from an illuminating device, as permitted under Section 24255, shall not resemble any other required or permitted lighting device or official traffic control device.

(b) The emitted light from all lamps and the reflected light from all reflectors, visible from the rear of a vehicle, shall be red except as follows:

(1) Stoplamps on vehicles manufactured before January 1, 1979, may show yellow to the rear.

(2) Turn signal lamps may show yellow to the rear.

(3) Front side marker lamps required by Section 25100 may show yellow to the rear.

(4) Backup lamps shall show white to the rear.

(5) The rearward facing portion of a front-mounted double-faced turn signal lamp may show amber to the rear while the headlamps or parking lamps are lighted, if the intensity of the light emitted is not greater than the parking lamps and the turn signal function is not impaired.

(6) A reflector meeting the requirements of, and installed in accordance with, Section 24611 shall be red or white, or both.

(c) All lamps and reflectors visible from the front, sides, or rear of a vehicle, except headlamps, may have any unlighted color, provided the emitted light from all lamps or reflected light from all reflectors complies with the required color. Except for backup lamps, the entire effective projected luminous area of lamps visible from the rear or mounted on the sides near the rear of a vehicle shall be covered by an inner lens of the required color when the unlighted color differs from the required emitted light color. Taillamps, stoplamps, and turn signal lamps that are visible to the rear may be white when unlighted on vehicles manufactured before January 1, 1974. Amended Sec. 4, Ch. 198, Stats. 2004. Effective January 1, 2005.

Direction of Beam

25951. Any lighted lamp or device upon a motor vehicle other than headlamps, spot lamps, signal lamps, or auxiliary driving lamps, warning lamps which projects a beam of light of an intensity greater than 300 candlepower shall be so directed that no part of the beam will strike the level of the roadway at a distance of more than 75 feet from the vehicle. Amended Ch. 1313, Stats. 1965. Effective September 17, 1965.

Lamps and Reflectors on Loads

25952. (a) Lamps, reflectors, and area reflectorizing material of a type required or permitted on a vehicle may be mounted on a load carried by the vehicle in lieu of, or in addition to, such equipment on the vehicle. Such equipment shall be mounted on the load in a manner that would comply with the requirements of this code and regulations adopted pursuant to this code if the load were an integral part of the vehicle.

(b) Lamps on vehicles carried as a load shall not be lighted unless such lamps are mounted in accordance with subdivision (a).

Article 16. Equipment Testing

(Repealed and added Ch. 723, Stats. 1979. Effective January 1, 1980.)

Vehicle Equipment

26100. (a) A person shall not sell or offer for sale for use upon or as part of the equipment of a vehicle any lighting equipment, safety glazing material, or other device that does not meet the provisions of Section 26104.

(b) A person shall not use upon a vehicle, and a person shall not drive a vehicle upon a highway that is equipped with, any lighting equipment, safety glazing material, or other device that is not in compliance with Section 26104.

(c) This section does not apply to a taillamp or stop lamp in use on or prior to December 1, 1935. Amended Sec. 44, Ch. 491, Stats. 2010. Effective January 1, 2011.

Modification of Vehicle Equipment

26101. (a) A person shall not sell or offer for sale for use upon or as part of the equipment of a vehicle any device that is intended to modify the original design or performance of any lighting equipment, safety glazing material, or other device, unless the modifying device meets the provisions of Section 26104.

(b) A person shall not use upon a vehicle, and a person shall not drive a vehicle upon a highway that has installed a device that is intended to modify the original design or performance of a lighting, safety glazing material, or other device, unless the modifying device complies with Section 26104.

(c) This section does not apply to a taillamp or stop lamp in use on or prior to December 1, 1935, or to lamps installed on authorized emergency vehicles. Amended Sec. 46, Ch. 491, Stats. 2010. Effective January 1, 2011.

Subsequent Regulations

26102. In the event any equipment in actual use meets the requirements of this code or a department regulation adopted pursuant to this code, a subsequent regulation shall not require the replacement of the equipment and shall be applicable only to equipment installed after the effective date of the regulation.

Regulations Adopted by Department

26103. (a) The department may adopt and enforce regulations establishing standards and specifications for lighting equipment listed in Section 375 and for safety belts, safety glazing material, safety helmets, sirens, tire traction devices, bunk stakes, and synthetic binders. The standards and specifications may include installation and aiming requirements.

(b) If there exists a Federal Motor Vehicle Safety Standard adopted pursuant to the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1381 et seq.) covering the same aspect of performance of a device, the provisions of that standard shall prevail over provisions of this code or regulations adopted pursuant to this code. Lamps, devices, and equipment certified by the manufacturer to meet applicable federal motor vehicle safety standards as original equipment on new vehicles
§26104

and the identical replacements for those items need not be certified to the department.

Required Laboratory Tests
26104. (a) Every manufacturer who sells, offers for sale, or manufactures for use upon a vehicle devices subject to requirements established by the department shall, before the device is offered for sale, have laboratory test data showing compliance with such requirements. Tests may be conducted by the manufacturer.
(b) The department may at any time request from the manufacturer a copy of the test data showing proof of compliance of any device with the requirements established by the department and additional evidence that due care was exercised in maintaining compliance during production. If the manufacturer fails to provide such proof of compliance within 30 days of notice from the department, the department may prohibit the sale of the device in this state until acceptable proof of compliance is received by the department.

Purchase of Equipment
26105. The department may purchase any equipment sold for use on vehicles and test or retest the same as to conformance with the requirements of this code and department regulations adopted pursuant to this code and any expense incurred in such purchase and test shall be a legal charge against the Motor Vehicle Fund.

Experimental Equipment Permits
26106. The department may issue a permit for the use of equipment for experimental purposes. The use of such equipment under the permit is not a violation of this code.

CHAPTER 3. BRAKES

Article 1. Brake Requirements

Motor Vehicles Over Seven Tons
26301. Any motor vehicle first registered in this state after January 1, 1940, shall be equipped with power brakes if its gross weight exceeds 14,000 pounds, except that any such vehicle having a gross weight of less than 18,000 pounds may, in lieu of power brakes, be equipped with two-stage hydraulic actuators of a type designed to increase braking effect of its brakes.

Emergency Brake System
26301.5. Every passenger vehicle manufactured and first registered after January 1, 1973, except motorcycles, shall be equipped with an emergency brake system so constructed that rupture or leakage-type failure of any single pressure component of the service brake system, except structural failures of the brake master cylinder body or effectiveness indicator body, shall not result in complete loss of function of the vehicle’s brakes when force on the brake pedal is continued.

Trailers
26302. (a) Every trailer or semitrailer, manufactured and first registered after January 1, 1940, and having a gross weight of 6,000 pounds or more and which is operated at a speed of 20 miles per hour or over shall be equipped with brakes.
(b) Every trailer or semitrailer manufactured and first registered after January 1, 1966, and having a gross weight of 3,000 pounds or more shall be equipped with brakes on at least two wheels.
(c) Every trailer or semitrailer manufactured after January 1, 1982, and equipped with air brakes shall be equipped with brakes on all wheels.
(d) Brakes required on trailers or semitrailers shall be adequate, supplemental to the brakes on the towing vehicle, to enable the combination of vehicles to comply with the stopping distance requirements of Section 26454.
(e) The provisions of this section shall not apply to any vehicle being used to support the boom or mast attached to a mobile crane or shovel.

Trailer Coaches and Camp Trailers
26303. Every trailer coach and every camp trailer having a gross weight of 1,500 pounds or more, but exclusive of passengers, shall be equipped with brakes on at least two wheels which are adequate, supplemental to the brakes on the towing vehicle, to enable the combination of vehicles to comply with the stopping distance requirements of Section 26454.

Breakaway Brakes
26304. (a) Power brakes on any trailer or semitrailer manufactured after December 31, 1955, operated over public highways and required to be equipped with brakes shall be designed to be automatically applied upon breakaway from the towing vehicle and shall be capable of stopping and holding such vehicle stationary for not less than 15 minutes.
(b) Every new truck or truck tractor manufactured after December 31, 1955, operated over public highways and used in towing a vehicle shall be equipped with service brakes capable of stopping the truck or truck tractor in the event of breakaway of the towed vehicle.

Auxiliary Dollies and Tow Dollies
26305. Any auxiliary dolly or tow dolly may be equipped with brakes.

Forklift Truck Brakes
26307. No forklift truck manufactured after January 1, 1970, shall be towed behind another vehicle unless it is equipped with brakes on the wheels of the rearmost axle when the forklift truck is in the towing position, which brakes shall be adequate, supplemental to the brakes on the towing vehicle, to enable the combination of vehicles to comply with the stopping distance requirements of Section 26454.

Service Brakes on All Wheels
26311. (a) Every motor vehicle shall be equipped with service brakes on all wheels, except as follows:
(1) Trucks and truck tractors manufactured before January 1, 1982, having three or more axles need not have brakes on the front wheels, except when such vehicles are equipped with at least two steerable axles, the wheels of one such axle need not be equipped with brakes.

(2) Any vehicle being towed in a driveaway-towaway operation.

(3) Any vehicle manufactured prior to 1930.

(4) Any two-axle truck tractor manufactured prior to 1964.

(5) Any sidecar attached to a motorcycle.

(6) Any motorcycle manufactured prior to 1966. Such motorcycle shall be equipped with brakes on at least one wheel.

(b) Any bus, truck, or truck tractor may be equipped with a manual or automatic means for reducing the braking effort on the front wheels. The manual means shall be used only when operating under adverse road conditions, such as wet, snowy, or icy roads.

(c) Vehieles and combinations of vehicles exempted in subdivisions (a) and (b) from the requirements of brakes on all wheels shall comply with the stopping distance requirements of Section 26454.

Article 2. Operation of Brakes

Required Brake Systems

26450. Every motor vehicle shall be equipped with a service brake system and every motor vehicle, other than a motorcycle, shall be equipped with a parking brake system. Both the service brake and parking brake shall be separately applied.

If the two systems are connected in any way, they shall be so constructed that failure of any one part, except failure in the drums, brakeshoes, or other mechanical parts of the wheel brake assemblies, shall not leave the motor vehicle without operative brakes.

Parking Brake System

26451. The parking brake system of every motor vehicle shall comply with the following requirements:

(a) The parking brake shall be adequate to hold the vehicle or combination of vehicles stationary on any grade on which it is operated under all conditions of loading on a surface free from snow, ice or loose material. In any event the parking brake shall be capable of locking the braked wheels to the limit of traction.

(b) The parking brake shall be applied either by the driver's muscular efforts, by spring action, or by other energy which is isolated and used exclusively for the operation of the parking brake or the combination parking brake and emergency stopping system.

(c) The parking brake shall be held in the applied position solely by mechanical means.

Brakes After Engine Failure

26452. All motor vehicles shall be so equipped as to permit application of the brakes at least once for the purpose of bringing the vehicle to a stop within the legal stopping distance after the engine has become inoperative.

Condition of Brakes

26453. All brakes and component parts thereof shall be maintained in good condition and in good working order. The brakes shall be so adjusted as to operate as equally as practicable with respect to the wheels on opposite sides of the vehicle.

Amended Ch. 2183, Stats. 1959. Effective September 18, 1959. Supersedes Ch. 675.

Control and Stopping Requirements

26454. (a) The service brakes of every motor vehicle or combination of vehicles shall be adequate to control the movement of and to stop and hold such vehicle or combination of vehicles under all conditions of loading on any grade on which it is operated.

(b) Every motor vehicle or combination of vehicles, at any time and under all conditions of loading, shall, upon application of the service brake, be capable of stopping from an initial speed of 20 miles per hour according to the following requirements:

Maximum Stopping Distance (feet)

1. Any passenger vehicle .............................................. 25
2. Any single motor vehicle with a manufacturer’s gross vehicle weight rating of less than 10,000 lbs. ....... 30
3. Any combination of vehicles consisting of a passenger vehicle or any motor vehicle with a manufacturer’s gross vehicle weight rating of less than 10,000 lbs. in combination with any trailer, semitrailer or trailer coach ............................................... 40
4. Any single motor vehicle with a manufacturer’s gross vehicle weight rating of 10,000 lbs. or more or any bus .............................................................. 40
5. All other combinations of vehicles ............................... 50

Determination of Vehicle Weight

26455. In respect to any motor vehicle designed, used or maintained primarily for the transportation of property which is not equipped with a plate or marker showing the manufacturer’s gross vehicle weight rating, for purposes of stopping distance requirements, the weight of a vehicle shall be determined as follows:

(a) Any motor vehicle having less than six wheels is the equivalent of a vehicle having a manufacturer’s gross vehicle weight rating of less than 10,000 pounds.

(b) Any motor vehicle having six wheels or more is the equivalent of a vehicle having a manufacturer’s gross vehicle weight rating of 10,000 pounds or more.

Stopping Tests

26456. Stopping distance requirement tests shall be conducted on a substantially level, dry, smooth, hard-surfaced road that is free from loose material and where the grade does not exceed plus or minus 1 percent. Stopping distance shall be measured from the instant brake controls are moved and from an initial speed of approximately 20 miles per hour. No test of brake performance shall be made upon a highway at a speed in excess of 25 miles per hour.

Exemptions

26457. Special mobile equipment, logging vehicles, equipment operated under special permit, and any chassis
without body or load are not subject to stopping distance requirements, but if any such vehicle or equipment cannot be stopped within 32 feet from an initial speed of 15 miles per hour, it shall not be operated at a speed in excess of that permitting a stop in 32 feet.

**Braking System: Towing Vehicles**

26458. (a) The braking system on every motor vehicle used to tow another vehicle shall be so arranged that one control on the towing vehicle shall, when applied, operate all the service brakes on the power unit and combination of vehicles when either or both of the following conditions exist:

1. The towing vehicle is required to be equipped with power brakes.
2. The towed vehicle is required to be equipped with brakes and is equipped with power brakes.

(b) Subdivision (a) shall not be construed to prohibit motor vehicles from being equipped with an additional control to be used to operate the brakes on the trailer or trailers.

(c) Subdivision (a) does not apply to any of the following combinations of vehicles, if the combination of vehicles meets the stopping distance requirements of Section 26454:

1. Vehicles engaged in driveaway-towaway operations.
2. Disabled vehicles, while being towed.
3. Towed motor vehicles.
4. Trailers equipped with inertially controlled brakes which are designed to be applied automatically upon breakaway from the towing vehicle and which are capable of stopping and holding the trailer stationary for not less than 15 minutes.

**Operation of Trailer Brakes**

26458.5. Pursuant to Section 26458, whenever a motor vehicle is equipped with an additional control to operate the brakes on a trailer, that control shall not be used in lieu of the service brake control, except in the case of failure of the service brake system.

**Article 3. Airbrakes**

**Adjustment and Use of Special Devices**

26502. (a) Airbrakes of every motor vehicle and combination of vehicles shall be so adjusted and maintained as to be capable of providing full service brake application at all times except as provided in subdivision (b) of Section 26311. A full service brake application shall deliver to all brake chambers not less than 90 percent of the air reservoir pressure remaining with the brakes applied.

(b) The department may by regulation authorize the use of special devices or systems to automatically reduce the maximum air pressure delivered to the brake chambers in order to compensate for load variation and to obtain balanced braking. Permitted systems shall be of the fail safe type and shall not increase the vehicle stopping distance.

**Safety Valve**

26503. Every motor vehicle equipped with airbrakes or equipped to operate airbrakes on towed vehicles shall be equipped with a standard type safety valve which shall be installed so as to have an uninterrupted connection with the air reservoir or tank. It shall be adjusted and maintained so that it will open and discharge the air system under any condition at a pressure of not to exceed 150 pounds per square inch and close and reseat itself at a point above the maximum air governor setting. The department may by regulation prescribe a higher maximum opening pressure for air pressure systems designed for, and capable of safely operating with, pressure safety valves with a higher opening pressure.

**Air Governor**

26504. The air governor cut-in and cut-out pressures of every motor vehicle equipped with airbrakes or equipped to operate airbrakes on towed vehicles shall be adjusted so that the maximum pressure in the air system and the minimum cut-in pressure shall be within limits prescribed by the department. In adopting regulations specifying such pressures the department shall consider the safe operating capacities of the various airbrake systems which are now or may be used on motor vehicles and shall be guided by the designed capabilities of those systems.

**Pressure Gauge**

26505. A motor vehicle equipped with airbrakes or equipped to operate airbrakes on towed vehicles shall be equipped with a pressure gauge of reliable and satisfactory construction and maintained in an efficient working condition, accurate within 10 percent of the actual air reservoir pressure, and visible and legible to a person when seated in the driving position.

Amended Sec. 46, Ch.491, Stats. 2010. Effective January 1, 2011

**Warning Device**

26506. (a) Every motor vehicle airbrake system used to operate the brakes on a motor vehicle or on a towed vehicle shall be equipped with a low air pressure warning device that complies with either the requirements set forth in the Federal Motor Vehicle Safety Standards in effect at the time of manufacture or the requirements of subdivision (b).

(b) The device shall be readily visible or audible to the driver and shall give a satisfactory continuous warning when the air supply pressure drops below a fixed pressure, which shall be not more than 75 pounds per square inch nor less than 55 pounds per square inch with the engine running. A gauge indicating pressure shall not satisfy this requirement.

**Check Valve**

26507. A check valve shall be installed and properly maintained in the air supply piping of every motor vehicle equipped with airbrakes, either between the air compressor and the first reservoir or tank immediately adjacent to the air intake of said reservoir, or between No. 1 reservoir (wet tank) and No. 2 reservoir (dry tank) immediately adjacent to the air intake of the No. 2 reservoir; provided, that the air supply for the brakes is not drawn from the No. 1 reservoir and that the No. 1 and No. 2 reservoirs are connected by only one pipeline.

Emergency Stopping System

26508. Every vehicle or combination of vehicles using compressed air at the wheels for applying the service brakes shall be equipped with an emergency stopping system meeting the requirements of this section and capable of stopping the vehicle or combination of vehicles in the event of failure in the service brake air system as follows:

(a) Every motor vehicle operated either singly or in a combination of vehicles and every towed vehicle shall be equipped with an emergency stopping system.

(b) Motor vehicles used to tow vehicles which use compressed air at the wheels for applying the service brakes shall be equipped with a device or devices with both a manual and automatic means of actuating the emergency stopping system on the towed vehicle as follows:

1. The automatic device shall operate automatically in the event of reduction of the service brake air supply of the towing vehicle to a fixed pressure which shall be not lower than 20 pounds per square inch nor higher than 45 pounds per square inch.

2. The manual device shall be readily operable by a person seated in the driver’s seat, with its emergency position or method of operation clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means.

(c) Motor vehicles manufactured prior to 1964 shall be deemed to be in compliance with subdivisions (e) and (f) when equipped with axle-by-axle protected airbrakes using a separate air tank system for each of at least two axles, provided that each system independently meets all other requirements of this section. Each system shall be capable of being manually applied, released, and reapplied from the driver’s seat but shall not be capable of being released from the driver’s seat after any reapplication unless there is available a means which can be applied from the driver’s seat to stop and hold the vehicle or combination of vehicles.

(d) Towed vehicles shall be deemed to be in compliance with this section when:

1. The towed vehicle is equipped with a no-bleed-back relay-emergency valve or equivalent device, so designed that the supply reservoir used to provide air for the brakes is safeguarded against backflow of air from the reservoir through the supply line.

2. The brakes are applied automatically and promptly upon breakaway from the towing vehicle and maintain application for at least 15 minutes, and

3. The combination of vehicles is capable of stopping within the distance and under the conditions specified in subdivisions (k) and (l).

(e) If the service brake system and the emergency stopping system are connected in any way, they shall be so constructed that a failure or malfunction in any one part of either system, including brake chamber diaphragm failure but not including failure in the drums, brakeshoes, or other mechanical parts of the wheel brakes, shall not leave the vehicle without one operative stopping system capable of complying with the performance requirements in subdivision (k).

(f) Every emergency stopping system shall be designed so that it cannot be released from the driver’s seat after any reapplication unless immediate further application can be made from the driver’s seat to stop and hold the vehicle or combination of vehicles. The emergency stopping system may also be applied automatically.

(g) No vehicle or combination of vehicles upon failure of the service brake air system shall be driven on a highway under its own power except to the extent necessary to move the vehicles off the roadway to the nearest place of safety.

(h) No vehicle or combination of vehicles shall be equipped with an emergency stopping system that creates a hazard on the highway, or increases the service brake stopping distance of a vehicle or combination of vehicles, or interferes in any way with the application of the service brakes on any vehicle or combination of vehicles.

(i) Any energy-storing device which is a part of the emergency stopping system shall be designed so that it is recharged or reset from the source of compressed air or other energy produced by the vehicle, except that energy to release the emergency stopping system may be produced by the driver’s muscular effort from the driver’s seat. No device shall be used which can be set to prevent automatic delivery of air to protected air supply reservoirs of motor vehicle emergency stopping systems when air is available in the service brake air supply system.

(j) Any vehicle manufactured on or after January 1, 1964, which uses axle-by-axle protected airbrakes as the emergency stopping system shall use a separate air tank system for each axle, except that motor vehicles equipped with a dual or tandem treadle valve system need have no more than two protected air tanks in such system, one for each valve.

(k) Every motor vehicle or combination of vehicles, at all times and under all conditions of loading, upon application of the emergency stopping system, shall be capable of:

1. Developing a stopping force that is not less than the percentage of its gross weight tabulated herein for its classification.

2. Decelerating in a stop from 20 miles per hour at not less than the feet per second per second tabulated herein for its classification, and

3. Stopping from a speed of 20 miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the emergency stopping system control begins.

§26520

C. Single-motor
vehicle with 3 or
more axles
manufactured
prior to 1964.

12.1 4.0 120

(l) Tests for deceleration and stopping distance shall be
made on a substantially level, dry, smooth, hard surface that
is free from loose material and where the grade does not exceed
plus or minus 1 percent. No test of emergency stopping system
performance shall be made upon a highway at a speed in excess
of 25 miles per hour.

(m) The provisions of this section shall not apply to:

(1) Auxiliary dollies, special mobile equipment, or special
construction equipment.

(2) Motor vehicles which are operated in a driveaway-
towaway operation and not registered in this State.

(3) Disabled vehicles when being towed.

(4) Vehicles which are operated under a one-trip permit as
provided in Section 4003.

(5) Vehicles which because of unladen width, length, height
or weight may not be moved upon the highway without the
permit specified in Section 35780.

(n) The emergency stopping system requirements specified
in subdivision (k) shall not apply to a vehicle or combination of
vehicles being operated under a special weight permit nor to
any overweight authorized emergency vehicle operated under
the provisions of Section 35002.

(o) Every owner or lessee shall instruct and require that
the driver be thoroughly familiar with the requirements of this
section. The driver of a vehicle or combination of vehicles
required to comply with the requirements of this section shall
be able to demonstrate the application and release of the
emergency system on the vehicle and each vehicle in the
combination.

Article 4. Vacuum Brakes
(Added Ch. 386, Stats. 1963. Effective September 20, 1963)

Vacuum Gauge

26520. Motor vehicles required to be equipped with
power brakes and which are equipped with vacuum or vacuum-
assisted brakes shall be equipped with a properly maintained
vacuum gauge of reliable and satisfactory construction, accurate
within 10 percent of the actual vacuum in the supply
reservoir, and visible and legible to the driver at all times.

This section shall not apply to a two-axle motor truck
operated singly.

Warning Device

26521. Motor vehicles required to be equipped with
power brakes and equipped with vacuum or vacuum-assisted
brakes and motor vehicles used to tow vehicles equipped with
vacuum brakes or vacuum-assisted brakes shall be equipped
with either an audible or visible warning signal to indicate
readily to the driver when the vacuum drops to eight inches of
mercury and less. A vacuum gauge shall not be deemed to meet
this requirement.

Check Valve

26522. Vehicles required to be equipped with power
brakes and equipped with vacuum or vacuum-assisted brakes
shall have a check valve installed and properly maintained in
the vacuum system between the source of vacuum and the
vacuum reserve.

CHAPTER 4. WINDSHIELDS AND MIRRORS

Windshields: Exception

26700. (a) Except as provided in subdivision (b), a
passenger vehicle, other than a motorcycle, and every bus,
motortruck or truck tractor, and every firetruck, fire engine or
other fire apparatus, whether publicly or privately owned,
shall be equipped with an adequate windshield.

(b) Subdivision (a) does not apply to any vehicle issued
identification plates pursuant to Section 5004 which was not
required to be equipped with a windshield at the time it was
first sold or registered under the laws of this state, another
state, or foreign jurisdiction.

Safety Glazing Material

26701. (a) No person shall sell, offer for sale, or operate
any motor vehicle, except a motorcycle, manufactured after
January 1, 1936, unless it is equipped with safety glazing
material wherever glazing materials are used in interior
partitions, doors, windows, windshields, auxiliary wind
 deflectors or openings in the roof.

(b) No person shall sell or offer for sale any camper
manufactured after January 1, 1968, nor shall any person
operate a motor vehicle registered in this state which is
equipped with that camper, unless the camper is equipped
with safety glazing materials wherever glazing materials are
used in outside windows and doors, interior partitions, and
openings in the roof.

(c) No person shall operate a motorcycle manufactured
after January 1, 1969, equipped with a windshield containing
glazing material unless it is safety glazing material.

(d) No person shall sell, offer for sale, or operate any motor
vehicle equipped with red, blue, or amber translucent
aftermarket material in any partitions, windows, windshields,
or wind deflectors.

(e) No person shall sell, offer for sale, or operate any trailer
coach manufactured after January 1, 1977, that is capable of
being towed with a fifth-wheel device unless the trailer coach
is equipped with safety glazing materials wherever glazing
materials are used in windows or doors, interior partitions,
and openings in the roof.

Replacement of Glazing Material

26703. (a) No person shall replace any glazing
materials used in interior partitions, doors, windows, or
openings in the roof in any motor vehicle, in the outside
windows, doors, interior partitions, or openings in the roof of
any camper, or in windows, doors, interior partitions, or
openings in the roof of a trailer coach capable of being towed with a fifth-wheel device, with any glazing material other than safety glazing material.

(b) No person shall replace any glazing material used in the windshield, rear window, auxiliary wind deflectors, or windows to the left and right of the driver with any material other than safety glazing material.

**Safety Glazing Specifications**

26704. Wherever the term “safety glazing material” is used in this article, it means safety glazing material of a type meeting requirements established by the department.

**Motorcycle Windshields**

26705. On or after January 1, 1969, no person shall sell or offer for sale for use upon or as part of the equipment of a motorcycle any motorcycle windshield unless the glazing material used therein is safety glazing material.

**Windshield Wipers**

26706. (a) Every motor vehicle, except motorcycles, equipped with a windshield shall also be equipped with a self-operating windshield wiper.

(b) Every new motor vehicle first registered after December 31, 1949, except motorcycles, shall be equipped with two such windshield wipers, one mounted on the right half and one on the left half of the windshield, except that any motor vehicle may be equipped with a single wiper so long as it meets the wiped area requirements in Federal Motor Vehicle Safety Standards Governing Windshield Wiping and Washing Systems.

(c) This section does not apply to snow removal equipment equipped with adequate manually operated windshield wipers.

**Condition and Use of Windshield Wipers**

26707. Windshield wipers required by this code shall be maintained in good operating condition and shall provide clear vision through the windshield for the driver. Wipers shall be operated under conditions of fog, snow, or rain and shall be capable of effectively clearing the windshield under all ordinary storm or load conditions while the vehicle is in operation.

**Material Obstructing or Reducing Driver’s View**

26708. (a) (1) A person shall not drive any motor vehicle with any object or material placed, displayed, affixed, or applied upon the windshield or side or rear windows.

(2) A person shall not drive any motor vehicle with any object or material placed, displayed, affixed, or applied in or upon the vehicle that obstructs or reduces the driver’s clear view through the windshield or side windows.

(3) This subdivision applies to a person driving a motor vehicle with the driver’s clear vision through the windshield, or side or rear windows, obstructed by snow or ice.

(b) This section does not apply to any of the following:

(1) Rearview mirrors.

(2) Adjustable nontransparent sun visors that are mounted forward of the side windows and are not attached to the glass.

(3) Signs, stickers, or other materials that are displayed in a seven-inch square in the lower corner of the windshield farthest removed from the driver, signs, stickers, or other materials that are displayed in a seven-inch square in the lower corner of the rear window farthest removed from the driver, or signs, stickers, or other materials that are displayed in a five-inch square in the lower corner of the windshield nearest the driver.

(4) Side windows that are to the rear of the driver.

(5) Direction, destination, or terminus signs upon a passenger common carrier motor vehicle or a schoolbus, if those signs do not interfere with the driver’s clear view of approaching traffic.

(6) Rear window wiper motor.

(7) Rear trunk lid handle or hinges.

(8) The rear window or windows, if the motor vehicle is equipped with outside mirrors on both the left- and right-hand sides of the vehicle that are so located as to reflect to the driver a view of the highway through each mirror for a distance of at least 200 feet to the rear of the vehicle.

(9) A clear, transparent lens affixed to the side window opposite the driver on a vehicle greater than 80 inches in width and that occupies an area not exceeding 50 square inches of the lowest corner toward the rear of that window and that provides the driver with a wide-angle view through the lens.

(10) Sun screening devices meeting the requirements of Section 26708.2 installed on the side windows on either side of the vehicle’s front seat, if the driver or a passenger in the front seat has in his or her possession a letter or other document signed by a licensed physician and surgeon certifying that the person must be shaded from the sun due to a medical condition, or has in his or her possession a letter or other document signed by a licensed optometrist certifying that the person must be shaded from the sun due to a visual condition. The devices authorized by this paragraph shall not be used during darkness.

(11) An electronic communication device affixed to the center uppermost portion of the interior of a windshield within an area that is not greater than five inches square, if the device provides either of the following:

(A) The capability for enforcement facilities of the Department of the California Highway Patrol to communicate with a vehicle equipped with the device.

(B) The capability for electronic toll and traffic management on public or private roads or facilities.

(12) A portable Global Positioning System (GPS), which may be mounted in a seven-inch square in the lower corner of the windshield farthest removed from the driver or in a five-inch square in the lower corner of the windshield nearest to the driver and outside of an airbag deployment zone, if the system is used only for door-to-door navigation while the motor vehicle is being operated.

(13) (A) A video event recorder with the capability of monitoring driver performance to improve driver safety, which may be mounted in a seven-inch square in the lower corner of the windshield farthest removed from the driver, in a five-inch square in the lower corner of the windshield nearest to the driver and outside of an airbag deployment zone, or in a five-inch square mounted to the center uppermost portion of the interior of the windshield. As used in this section, “video event
§26708.2 —560—

Div. 12

“video event recorder” means a video recorder that continuously records in a digital loop, recording audio, video, and G-force levels, but saves video only when triggered by an unusual motion or crash or when operated by the driver to monitor driver performance.

(B) A vehicle equipped with a video event recorder shall have a notice posted in a visible location which states that a passenger’s conversation may be recorded.

(C) Video event recorders shall store no more than 30 seconds before and after a triggering event.

(D) The registered owner or lessee of the vehicle may disable the device.

(E) The data recorded to the device is the property of the registered owner or lessee of the vehicle.

(F) When a person is driving for hire as an employee in a vehicle with a video event recorder, the person’s employer shall provide unedited copies of the recordings upon the request of the employee or the employee’s representative. These copies shall be provided free of charge to the employee and within five days of the request.

(14) (A) A video event recorder in a commercial motor vehicle with the capability of monitoring driver performance to improve driver safety, which may be mounted no more than two inches below the upper edge of the area swept by the windshield wipers, and outside the driver’s sight lines to the road and highway signs and signals. Subparagraphs (B) to (F), inclusive, of paragraph (13) apply to the exemption provided by this paragraph.

(B) Except as provided in subparagraph (C), subparagraph (A) shall become inoperative on the following dates, whichever date is later:

(i) The date that the Department of the California Highway Patrol determines is the expiration date of the exemption from the requirements of paragraph (1) of subdivision (c) of Section 393.60 of Title 49 of the Code of Federal Regulations, as renewed in the notice of the Federal Motor Carrier Safety Administration on pages 21791 and 21792 of Volume 76 of the Federal Register (April 18, 2011).

(ii) The date that the Department of the California Highway Patrol determines is the expiration date for a subsequent renewal of an exemption specified in clause (i).

(C) Notwithstanding subparagraph (B), subparagraph (A) shall become operative on the date that the Department of the California Highway Patrol determines is the effective date of regulations revising paragraph (1) of subdivision (c) of Section 393.60 of Title 49 of the Code of Federal Regulations to allow the placement of a video event recorder at the top of the windshield on a commercial motor vehicle.

(e) Notwithstanding subdivision (a), transparent material may be installed, affixed, or applied to the front side windows, located to the immediate left and right of the front seat if the following conditions are met:

(1) The material has a minimum visible light transmittance of 88 percent.

(2) The window glazing with the material applied meets all requirements of Federal Motor Vehicle Safety Standard No. 205 (49 C.F.R. 571.205), including the specified minimum light transmittance of 70 percent and the abrasion resistance of AS-14 glazing, as specified in that federal standard.

(3) The material is designed and manufactured to enhance the ability of the existing window glass to block the sun’s harmful ultraviolet A rays.

(4) The driver has in his or her possession, or within the vehicle, a certificate signed by the installing company certifying that the windows with the material installed meet the requirements of this subdivision and the certificate identifies the installing company and the material’s manufacturer by full name and street address, or, if the material was installed by the vehicle owner, a certificate signed by the material’s manufacturer certifying that the windows with the material installed according to manufacturer’s instructions meet the requirements of this subdivision and the certificate identifies the material’s manufacturer by full name and street address.

(5) If the material described in this subdivision tears or bubbles, or is otherwise worn to prohibit clear vision, it shall be removed or replaced.

Sun Screening Devices: Requirements

26708.2. Sun screening devices permitted by paragraph (10) of subdivision (b) of Section 26708 shall meet the following requirements:

(a) The devices shall be held in place by means allowing ready removal from the window area, such as a frame, a rigid material with temporary fasteners, or a flexible roller shade.

(b) Devices utilizing transparent material shall be green, gray, or a neutral smoke in color and shall have a luminous transmittance of not less than 35 percent.

(c) Devices utilizing nontransparent louvers or other alternating patterns of opaque and open sections shall have an essentially uniform pattern over the entire surface, except for framing and supports. At least 35 percent of the device area shall be open and no individual louver or opaque section shall have a projected vertical dimension exceeding 1/16 inch.

(d) The devices shall not have a reflective quality exceeding 35 percent on either the inner or outer surface.

Transparent Materials

26708.5. (a) No person shall place, install, affix, or apply any transparent material upon the windshield, or side or rear windows, of any motor vehicle if the material alters the color or reduces the light transmittance of the windshield or side or rear windows, except as provided in subdivision (b), (c), or (d) of Section 26708.
(b) Tinted safety glass may be installed in a vehicle if (1) the glass complies with motor vehicle safety standards of the United States Department of Transportation for safety glazing materials, and (2) the glass is installed in a location permitted by those standards for the particular type of glass used.

Exemptions: Peace Officers

26708.7. Notwithstanding any other law, a vehicle operated and owned or leased by a federal, state, or local agency, department, or district, that employs peace officers, as defined by Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, for use by those peace officers in the performance of their duties, is exempt from California law, and regulations adopted pursuant thereto, prohibiting or limiting material that may be placed, displayed, installed, affixed, or applied to the side or rear windows, commonly referred to as window tinting or glazing.

Added Sec. 1, Ch. 171, Stats. 2012. Effective January 1, 2013.

Mirrors

26709. (a) Every motor vehicle registered in a foreign jurisdiction and every motorcycle subject to registration in this state shall be equipped with a mirror so located as to reflect to the driver a view of the highway for a distance of at least 200 feet to the rear of such vehicle.

Every motor vehicle subject to registration in this state, except a motorcycle, shall be equipped with not less than two such mirrors, including one affixed to the left-hand side.

(b) The following described types of motor vehicles, of a type subject to registration, shall be equipped with mirrors on both the left-and right-hand sides of the vehicle so located as to reflect to the driver a view of the highway through each mirror for a distance of at least 200 feet to the rear of such vehicle:

(1) A motor vehicle so constructed or loaded as to obstruct the driver's view to the rear.

(2) A motor vehicle towing a vehicle and the towed vehicle or load thereon obstructs the driver's view to the rear.

(3) A bus or trolley coach.

(c) The provisions of subdivision (b) shall not apply to a passenger vehicle when the load obstructing the driver's view consists of passengers.

Defective Windshields and Rear Windows

26710. It is unlawful to operate any motor vehicle upon a highway when the windshield or rear window is in such a defective condition as to impair the driver's vision either to the front or rear.

In the event any windshield or rear window fails to comply with this code the officer making the inspection shall direct the driver to make the windshield and rear window conform to the requirements of this code within 48 hours. The officer may also arrest the driver and give him notice to appear and further require the driver or the owner of the vehicle to produce in court satisfactory evidence that the windshield or rear window has been made to conform to the requirements of this code.

Eyeshades on Bus or Trolley Coach

26711. Every bus or trolley coach, except those first registered prior to January 1, 1960, and engaged in urban and suburban service as defined in Section 35107, shall be equipped with movable eyeshades of sufficient size to shade the eyes of the operator of a bus or trolley coach while it is being driven facing the sun.

Defroster Required

26712. Every passenger vehicle used or maintained for the transportation of persons for hire, compensation, or profit shall be equipped with a defrosting device which is adequate to remove snow, ice, frost, fog, or internal moisture from the windshield.

CHAPTER 5. OTHER EQUIPMENT

Horns or Warning Devices

27000. (a) A motor vehicle, when operated upon a highway, shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than 200 feet, but no horn shall emit an unreasonably loud or harsh sound. An authorized emergency vehicle may be equipped with, and use in conjunction with the siren on that vehicle, an air horn that emits sounds that do not comply with the requirements of this section.

(b) A refuse or garbage truck shall be equipped with an automatic backup audible alarm that sounds on backing and is capable of emitting sound audible under normal conditions from a distance of not less than 100 feet or shall be equipped with an automatic backup device that is in good working order, located at the rear of the vehicle and that immediately applies the service brake of the vehicle on contact by the vehicle with any obstruction to the rear. The backup device or alarm shall also be capable of operating automatically when the vehicle is in neutral or a forward gear but rolls backward.

(c) A refuse or garbage truck, except a vehicle, known as a rolloff vehicle, that is used for the express purpose of transporting waste containers such as open boxes or compactors, purchased after January 1, 2010, shall also be equipped with a functioning camera providing a video display for the driver that enhances or supplements the driver's view behind the truck for the purpose of safely maneuvering the truck.

(d) (1) A construction vehicle with a gross vehicle weight rating (GVWR) in excess of 14,000 pounds that operates at, or transports construction or industrial materials to and from, a mine or construction site, or both, shall be equipped with an automatic backup audible alarm that sounds on backing and is capable of emitting sound audible under normal conditions from a distance of not less than 200 feet.

(2) As used in this subdivision, "construction vehicle" includes, but is not limited to, all of the following:

(A) A vehicle designed to transport concrete, cement, clay, limestone, aggregate material as defined in subdivision (d) of Section 23114, or other similar construction or industrial material, including a transfer truck or a tractor trailer combination used exclusively to pull bottom dump, end dump, or side dump trailers.

(B) A vehicle that is a concrete mixer truck, a truck with a concrete placing boom, a water tank truck, a single engine
§27001

Adequate Muffler Required

27150. (a) Every motor vehicle subject to registration shall at all times be equipped with an adequate muffler in constant operation and properly maintained to prevent any excessive or unusual noise, and no muffler or exhaust system shall be equipped with a cutout, bypass, or similar device.

(b) Except as provided in Division 16.5 (commencing with Section 38000) with respect to off-highway motor vehicles subject to identification, every passenger vehicle operated off the highways shall at all times be equipped with an adequate muffler in constant operation and properly maintained so as to meet the requirements of Article 2.5 (commencing with Section 27200), and no muffler or exhaust system shall be equipped with a cutout, bypass, or similar device.

(c) The provisions of subdivision (b) shall not be applicable to passenger vehicles being operated off the highways in an organized racing or competitive event conducted under the auspices of a recognized sanctioning body or by permit issued by the local governmental authority having jurisdiction.

Exhaust Systems: Whistle-Tip Prohibition

27150.3. (a) A person may not modify the exhaust system of a motor vehicle with a whistle-tip.

(b) A person may not operate a motor vehicle if that vehicle’s exhaust system is modified in violation of subdivision (a).

(c) A person may not engage in the business of installing a whistle-tip onto a motor vehicle’s exhaust system.

(d) For purposes of subdivisions (a) and (c), a “whistle-tip” is a device that is applied to, or is a modification of, a motor
vehicle’s exhaust pipe for the sole purpose of creating a high-pitched or shrieking noise when the motor vehicle is operated. Added Sec. 1, Ch. 432, Stats. 2003. Effective January 1, 2004.

Sale of Noncomplying Exhaust System

27150.5. Any person holding a retail seller’s permit who sells or installs an exhaust system, or part thereof, including, but not limited to, a muffler, in violation of Section 27150.1 or 27150.2 or the regulations adopted pursuant thereto, shall thereafter be required to install an exhaust system, or part thereof, including, but not limited to, a muffler, which is in compliance with such regulations upon demand of the purchaser or registered owner of the vehicle concerned, or to reimburse the purchaser or registered owner for the expense of replacement and installation of an exhaust system, or part thereof, including, but not limited to, a muffler, which is in compliance, at the election of such purchaser or registered owner. 

Dismissal of Prosecution

27150.7. A court may dismiss any action in which a person is prosecuted for operating a vehicle in violation of Section 27150 or 27151 if a certificate of compliance has been issued by a station pursuant to Section 27150.2, or if the defendant had reasonable grounds to believe that the exhaust system was in good working order and had reasonable grounds to believe that the vehicle was not operated in violation of Section 27150 or 27151. 

Modification of Exhaust Systems: Sound Level in Compliance

27151. (a) No person shall modify the exhaust system of a motor vehicle in a manner which will amplify or increase the noise emitted by the motor of the vehicle so that the vehicle is not in compliance with the provisions of Section 27150 or exceeds the noise limits established for the type of vehicle in Article 2.5 (commencing with Section 27200). No person shall operate a motor vehicle with an exhaust system so modified. 

(b) For the purposes of exhaust systems installed on motor vehicles with a manufacturer’s gross vehicle weight rating of less than 6,000 pounds, other than motorcycles, a sound level of 95 dBA or less, when tested in accordance with Society of Automotive Engineers Standard J1169 May 1998, complies with this section. Motor vehicle exhaust systems or parts thereof include, but are not limited to, nonoriginal exhaust equipment. 

Exhaust Pipes

27152. The exhaust gases from a motor vehicle shall not be directed to the side of the vehicle between 2 feet and 11 feet above the ground.

Exhaust Products

27153. No motor vehicle shall be operated in a manner resulting in the escape of excessive smoke, flame, gas, oil, or fuel residue.

The provisions of this section apply to motor vehicles of the United States or its agencies, to the extent authorized by federal law. 

Motor Vehicle Exhaust Standards

27153.5. (a) No motor vehicle first sold or registered as a new motor vehicle on or after January 1, 1971, shall discharge into the atmosphere at elevation of less than 4,000 feet any air contaminant for a period of more than 10 seconds which is:

(1) As dark or darker in shade as that designated as No. 1 on the Ringelmann Chart, as published by the United States Bureau of Mines, or

(2) Of such opacity as to obscure an observer’s view to a degree equal to or greater than does smoke described in paragraph (1) of this subdivision.

(b) No motor vehicle first sold or registered prior to January 1, 1971, shall discharge into the atmosphere at elevation of less than 4,000 feet any air contaminant for a period of more than 10 seconds which is:

(1) As dark or darker in shade than that designated as No. 2 on the Ringelmann Chart, as published by the United States Bureau of Mines, or

(2) Of such opacity as to obscure an observer’s view to a degree equal to or greater than does smoke described in paragraph (1) of this subdivision.

(c) The provisions of this section apply to motor vehicles of the United States or its agencies, to the extent authorized by federal law. 

Gases and Fumes

27154. The cab of any motor vehicle shall be reasonably tight against the penetration of gases and fumes from the engine or exhaust system. The exhaust system, including the manifold, muffler, and exhaust pipes shall be so constructed as to be capable of being maintained and shall be maintained in a reasonably gastight condition.

Fuel Tank Caps

27155. No motor vehicle shall be operated or parked upon any highway unless the filling spout for the fuel tank is closed by a cap or cover of noncombustible material. 

Gross Polluter: Air Pollution Control Device

27156. (a) No person shall operate or leave standing upon a highway a motor vehicle that is a gross polluter, as defined in Section 39032.5 of the Health and Safety Code.

(b) No person shall operate or leave standing upon a highway a motor vehicle that is required to be equipped with a motor vehicle pollution control device under Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code or any other certified motor vehicle pollution control device required by any other state law or any rule or regulation adopted pursuant to that law, or required to be equipped with a motor vehicle pollution control device pursuant to the National Emission Standards Act (42 U.S.C. Secs. 7521 to 7550, inclusive) and the standards and regulations adopted pursuant to that federal act, unless the motor vehicle is equipped with the required motor vehicle pollution control device that is correctly installed and in operating condition. No person shall disconnect, modify, or alter any such required device.

(c) No person shall install, sell, offer for sale, or advertise any device, apparatus, or mechanism intended for use with, or as a part of, a required motor vehicle pollution control device...
§27156.1

Auxiliary Gasoline Fuel Tanks

27156.1. The installation, prior to January 1, 1974, of an auxiliary gasoline fuel tank for use on a 1973 or earlier model year motor vehicle, which vehicle is required, pursuant to Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code or the National Emissions Standards Act (42 U.S.C., Secs. 1857f-1 to 1857f-5, inclusive), to be equipped with a fuel system evaporative loss control device, shall not be deemed a violation of Section 27156 of this code. As used in this section, the term “auxiliary gasoline fuel tank,” has the same meaning as defined in subdivision (b) of Section 43834 of the Health and Safety Code.

Vehicle Emission Standards: 1955 Through 1965 Model Year Motor Vehicles

27156.2. Notwithstanding any other provision of law, any publicly owned authorized emergency vehicle operated by a peace officer, as defined in Section 830 of the Penal Code, any authorized emergency vehicle, as defined in Section 165 and used for fighting fires or responding to emergency fire calls pursuant to paragraph (2) of subdivision (c) or (d) of that section, and any publicly owned authorized emergency vehicle used by an emergency medical technician-paramedic, as defined in Section 1797.84 of the Health and Safety Code, is exempt from requirements imposed pursuant to California law and the regulations adopted pursuant thereto for motor vehicle pollution control devices.

Vehicle Emission Standards: Exemptions

27156.3. Notwithstanding any other provision of law, any motor vehicle of mosquito abatement, vector control, or pest abatement districts or agencies, any authorized emergency vehicle as defined in Section 165, except subdivision (f) thereof, and any ambulance used by a private entity under contract with a public agency, is exempt from requirements imposed pursuant to California law and the regulations adopted pursuant thereto for motor vehicle pollution control devices.

Amended and renumbered, Ch. 466, Stats. 82. Effective January 1, 1983.

Vehicle Pollution Emission Regulations

27157. The State Air Resources Board, after consultation with, and pursuant to the recommendations of, the commissioner, shall adopt such reasonable regulations as it determines are necessary for the public health and safety regarding the maximum allowable emissions of pollutants from vehicles upon a highway. Such regulations shall apply only to vehicles required by Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code or any federal law or regulation to be equipped with devices or systems to control emission of pollutants from the exhaust and shall not be stricter than the emission standards required of that model year motor vehicle when first manufactured.

Amended Ch. 373, Stats. 1979. Effective January 1, 1980.

Certificates of Compliance; Vehicle Inspection

27158. After notice by a traffic officer that a vehicle does not comply with any regulation adopted pursuant to Section 27157, no person shall operate, and no owner shall permit the operation of, such vehicle for more than 30 days thereafter unless a certificate of compliance has been issued for such vehicle in accordance with the provisions of Section 9889.18 of the Business and Professions Code or unless the department has checked the vehicle and determined that the vehicle has been made to comply with such regulation adopted pursuant to Section 27157. A certificate of compliance issued for such vehicle shall, for a period of one year from date of issue, constitute proof of compliance with any regulations adopted pursuant to Section 27157 provided that no required pollution control device has been disconnected, modified, or
altered or has been adjusted by other than a licensed installer in a licensed motor vehicle pollution control device installation and inspection station subsequent to the issuance of the certificate of compliance. The provisions of this section shall apply to the United States and its agencies to the extent authorized by federal law.

Certificates of Compliance or Inspection: 1955 Through 1965 Model Year Motor Vehicles

27158.5. After notice by a traffic officer that a motor vehicle does not comply with any standard adopted pursuant to Section 27157.5, no person shall operate, and no owner shall permit the operation of, such motor vehicle for more than 30 days thereafter unless a certificate of compliance has been issued for such vehicle in accordance with the provisions of Section 9889.18 of the Business and Professions Code or unless the department has checked the vehicle and determined that the vehicle has been made to comply with such standard adopted pursuant to Section 27157.5. A certificate of compliance issued for such vehicle shall, for a period of one year from date of issue, constitute proof of compliance with the standards determined pursuant to Section 27157.5.

Article 2.5. Noise Limits

Diesel Vehicles: Excessive Pollution: Removal from Service

27159. Any uniformed member of the California Highway Patrol may order a vehicle stored when it is located within the territorial limits in which the member may act if requested by a representative of the State Air Resources Board to remove the vehicle from service pursuant to subdivision (f) of Section 44011.6 of the Health and Safety Code. All towing and storage fees for a vehicle removed under this section shall be paid by the owner.

Vehicle Registration and Sale Prohibitions

27200. (a) The Department of Motor Vehicles shall not register on a dealer's report of sale a new motor vehicle, except an off-highway motor vehicle subject to identification as provided in Division 16.5 (commencing with Section 38000), which produces a maximum noise exceeding the applicable noise limit at a distance of 50 feet from the centerline of travel under test procedures established by the Department of the California Highway Patrol.
(b) The Department of Motor Vehicles may accept a dealer's certificate as proof of compliance with this article.
(c) Test procedures for compliance with this Article shall be established by the Department of the California Highway Patrol, taking into consideration the test procedures of the Society of Automotive Engineers.
(d) No person shall sell or offer for sale a new motor vehicle, except an off-highway motor vehicle subject to identification as provided in Division 16.5 (commencing with Section 38000), which produces a maximum noise exceeding the applicable noise limit specified in this article, and for which noise emission standards or regulations have not been adopted by the Administrator of the Environmental Protection Agency pursuant to the Noise Control Act of 1972 (P.L. 92-574).
(e) No person shall sell or offer for sale a new motor vehicle, except an off-highway motor vehicle subject to identification as provided in Division 16.5 (commencing with Section 38000), which produces noise that exceeds or in any way violates the noise emission standards or regulations adopted for such a motor vehicle by the Administrator of the Environmental Protection Agency pursuant to the Noise Control Act of 1972 (P.L. 92-574).
(f) As used in this section, the term "register" is equivalent to the term "licensing" as used in Section 6(e)(2) of the Noise Control Act of 1972 (P.L. 92-574).

Pre-1970 Motorcycle Limit

27201. For the purposes of Section 27200, the noise limit of 92 dbA shall apply to any motorcycle manufactured before 1970.

Motorcycle Limits

27202. For the purposes of Section 27200, the following noise limits shall apply to any motorcycle, other than a motor-driven cycle, manufactured:
(1) After 1969, and before 1973 ......................... 88 dbA
(2) After 1972, and before 1975 ......................... 86 dbA
(3) After 1974, and before 1986 ......................... 83 dbA
(4) After 1985 ................................................................ 80 dbA

Federal Noise Emissions Label

27202.1. (a) Notwithstanding any other law, a person shall not park, use, or operate a motorcycle, registered in the State of California, that does not bear the required applicable federal Environmental Protection Agency exhaust system label pursuant to Subparts D (commencing with Section 205.150) and E (commencing with Section 205.164) of Part 205 of Title 40 of the Code of Federal Regulations. A violation of this section shall be considered a mechanical violation and a peace officer shall not stop a motorcycle solely on a suspicion of a violation of this section. A peace officer shall cite a violation of this section as a secondary infraction.
(b) A violation of this section is punishable as follows:
(1) For a first conviction, by a fine of not less than fifty dollars ($50), nor more than one hundred dollars ($100).
(2) For a second or subsequent conviction, by a fine of not less than one hundred dollars ($100), nor more than two hundred fifty dollars ($250).
(c) (1) The notice to appear issued or complaint filed for a violation of this section shall require that the person to whom the notice to appear is issued, or against whom the complaint is filed, produce proof of correction pursuant to Section 40150.
(2) Upon producing proof of correction to the satisfaction of the court, the court may dismiss the penalty imposed pursuant to subdivision (b) for a first violation of this section.
(d) (1) This section is applicable to a person operating a motorcycle that is manufactured on or after January 1, 2013, or a motorcycle with aftermarket exhaust system equipment that is manufactured on or after January 1, 2013.
(2) Penalties imposed pursuant to this section are in addition to penalties imposed pursuant to any other applicable laws or regulations.
(3) This section does not supersede, negate, or otherwise alter any other applicable laws or regulations. 
Added Sec. 1, Ch. 407, Stats. 2010. Effective January 1, 2011.

Snowmobile Limit

27203. For the purposes of Section 27200, the noise limit of 82 dBa shall apply to any snowmobile manufactured after 1972.

Limits for Vehicles Exceeding 5,999 Pounds Gross Vehicle Weight

27204. For the purposes of Section 27200, the following noise limits shall apply to any motor vehicle within the specified manufacturer's gross vehicle weight rating and date of manufacture:

<table>
<thead>
<tr>
<th>GVWR-Pounds</th>
<th>Date of Manufacture</th>
<th>Noise Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Over 6,000</td>
<td>after 1967 and before 1973</td>
<td>88</td>
</tr>

</tbody>
</table>

Limits for Other Vehicles

27206. For the purposes of Section 27200, the following noise limits shall apply to any other motor vehicle, not specified in this article, manufactured:

(1) After 1967, and before 1973 ......................... 86 dBa
(2) After 1972, and before 1975 ......................... 84 dBa
(3) After 1974 ............................................ 80 dBa

Limit for Governor-Equipped Vehicles Exceeding 10,000 Pounds

27207. No motor vehicle with a gross vehicle weight rating of more than 10,000 pounds and equipped with an engine speed governor shall produce a sound level exceeding 88 dBa, measured on an open site at a distance of 50 feet from the longitudinal centerline of the vehicle, when its engine is accelerated from idle with wide open throttle to governed speed with the vehicle stationary, transmission in neutral, and clutch, if any, engaged. Test procedures for compliance with this section shall be established by the department, taking into consideration the procedures of the United States Department of Transportation. The procedures may provide for measuring at other distances, in which case the measurement shall be corrected so as to provide for measurements equivalent to the noise limit established by this section measured at 50 feet.

by concentrating excessive force on the lower torso. Because children carry a disproportionate amount of body weight above the waist, they are more likely to sustain those injuries. Shoulder harnesses may be available that can be retrofitted in this vehicle. For more information call the Auto Safety Hotline at 1-800-424-9393.”

(2) The notice shall remain affixed to the vehicle pursuant to paragraph (1) at all times that the vehicle is for sale.

(3) The notice is not required to be affixed to any vehicle equipped with both a lap belt and a shoulder harness for the driver and one passenger in the front seat of the vehicle and for at least two passengers in the rear seat of the vehicle.

(b) (1) In addition to the requirements of subdivision (a), and subject to paragraph (3) and subdivision (c), the dealer shall affix, to one rear seat lap belt buckle of every used passenger vehicle of a model year of 1972 to 1990, inclusive, that has a rear seat, a notice, printed in 10-point type, that reads as follows:

“WARNING: While use of all seat belts reduces the chance of ejection, failure to install and use shoulder harnesses with lap belts can result in serious or fatal injuries in some crashes. Shoulder harnesses may be available that can be retrofitted in this vehicle. For more information, call the Auto Safety Hotline at 1-800-424-9393.”

(2) The notice shall remain affixed to the vehicle pursuant to paragraph (1) at all times that the vehicle is for sale.

(3) The message is not required to be affixed to any vehicle either equipped with both a lap belt and a shoulder harness for at least two passengers in the rear seat or having no rear seat lap belts.

(c) A dealer is not in violation of subdivision (b) unless a private nonprofit entity has furnished a supply of the appropriate notices suitable for affixing as required free of charge or, having requested a resupply of notices, has not received the resupply.

(d) The department shall furnish, to a nonprofit private entity for purposes of this section, for a fee not to exceed its costs in so furnishing, at least once every six months, a list of all licensed dealers who sell used passenger vehicles.

Mandatory Seat Belt Law

27315. (a) The Legislature finds that a mandatory seatbelt law will contribute to reducing highway deaths and injuries by encouraging greater usage of existing manual seatbelts, that automatic crash protection systems that require no action by vehicle occupants offer the best hope of reducing deaths and injuries, and that encouraging the use of manual safety belts is only a partial remedy for addressing this major cause of death and injury. The Legislature declares that the enactment of this section is intended to be compatible with support for federal motor vehicle safety standards requiring automatic crash protection systems and should not be used in any manner to rescind federal requirements for installation of automatic restraints in new cars.

(b) This section shall be known and may be cited as the Motor Vehicle Safety Act.

(c) (1) As used in this section, “motor vehicle” means a passenger vehicle, a motortruck, or a truck tractor, but does not include a motorcycle.

(2 ) For purposes of this section, a “motor vehicle” also means a farm labor vehicle, regardless of the date of certification under Section 31401.

(d) (1) A person shall not operate a motor vehicle on a highway unless that person and all passengers 16 years of age or over are properly restrained by a safety belt. This paragraph does not apply to the operator of a taxicab, as defined in Section 27908, when the taxicab is driven on a city street and is engaged in the transportation of a fare-paying passenger. The safety belt requirement established by this paragraph is the minimum safety standard applicable to employees being transported in a motor vehicle. This paragraph does not preempt more stringent or restrictive standards imposed by the Labor Code or another state or federal regulation regarding the transportation of employees in a motor vehicle.

(2) For purposes of this section the phrase, “properly restrained by a safety belt” means that the lower (lap) portion of the belt crosses the hips or upper thighs of the occupant and the upper (shoulder) portion of the belt, if present, crosses the chest in front of the occupant.

(3) The operator of a limousine for hire or the operator of an authorized emergency vehicle, as defined in subdivision (a) of Section 165, shall not operate the limousine for hire or authorized emergency vehicle unless the operator and any passengers eight years of age or over in the front seat, are properly restrained by a safety belt.

(4) The operator of a taxicab shall not operate the taxicab unless any passengers eight years of age or over in the front seat, are properly restrained by a safety belt.

(e) A person 16 years of age or over shall not be a passenger in a motor vehicle on a highway unless that person is properly restrained by a safety belt. This subdivision does not apply to a passenger in a sleeper berth, as defined in subdivision (x) of Section 1201 of Title 13 of the California Code of Regulations.

(f) An owner of a motor vehicle, including an owner or operator of a taxicab, as defined in Section 27908, or a limousine for hire, operated on a highway shall maintain safety belts in good working order for the use of the occupants of the vehicle. The safety belts shall conform to motor vehicle safety standards established by the United States Department of Transportation. This subdivision, however, does not require installation or maintenance of safety belts if it is not required by the laws of the United States applicable to the vehicle at the time of its initial sale.

(g) This section does not apply to a passenger or operator with a physically disabling condition or medical condition that would prevent appropriate restraint in a safety belt, if the condition is duly certified by a licensed physician and surgeon or by a licensed chiropractor who shall state the nature of the condition, as well as the reason the restraint is inappropriate. This section also does not apply to a public employee, if the public employee is in an authorized emergency vehicle as defined in paragraph (1) of subdivision (b) of Section 165, or to a passenger in a seat behind the front seat of an authorized emergency vehicle as defined in paragraph (1) of subdivision (b) of Section 165 operated by the public employee, unless required by the agency employing the public employee.
§27315.1 —568— Div. 12

(h) Notwithstanding subdivision (a) of Section 42001, a violation of subdivision (d), (e), or (f) is an infraction punishable by a fine of not more than twenty dollars ($20) for a first offense, and a fine of not more than fifty dollars ($50) for each subsequent offense. In lieu of the fine and any penalty assessment or court costs, the court, pursuant to Section 42005, may order that a person convicted of a first offense attend a school for traffic violators or another court-approved program in which the proper use of safety belts is demonstrated.

(i) In a civil action, a violation of subdivision (d), (e), or (f), or information of a violation of subdivision (h), does not establish negligence as a matter of law or negligence per se for comparative fault purposes, but negligence may be proven as a fact without regard to the violation.

(j) If the United States Secretary of Transportation fails to adopt safety standards for manual safety belt systems by September 1, 1989, a motor vehicle manufactured after that date for sale or sold in this state shall not be registered unless it contains a manual safety belt system that meets the performance standards applicable to automatic crash protection devices adopted by the United States Secretary of Transportation pursuant to Federal Motor Vehicle Safety Standard No. 208 (49 C.F.R. 571.208) as in effect on January 1, 1985.

(k) A motor vehicle offered for original sale in this state that has been manufactured on or after September 1, 1989, shall comply with the automatic restraint requirements of Section S4.1.2.1 of Federal Motor Vehicle Safety Standard No. 208 (49 C.F.R. 571.208), as published in Volume 49 of the Federal Register, No. 138, page 29009. An automobile manufacturer that sells or delivers a motor vehicle subject to this subdivision, and fails to comply with this subdivision, shall be punished by a fine of not more than five hundred dollars ($500) for each sale or delivery of a noncomplying motor vehicle.

(l) Compliance with subdivision (j) or (k) by a manufacturer shall be made by self-certification in the same manner as self-certification is accomplished under federal law.

(m) This section does not apply to a person actually engaged in delivery of newspapers to customers along the person’s route if the person is properly restrained by a safety belt prior to commencing and subsequent to completing delivery on the route.

(n) This section does not apply to a person actually engaged in collection and delivery activities as a rural delivery carrier for the United States Postal Service if the person is properly restrained by a safety belt prior to stopping at the first box and subsequent to stopping at the last box on the route.

(o) This section does not apply to a driver actually engaged in the collection of solid waste or recyclable materials along that driver’s collection route if the driver is properly restrained by a safety belt prior to commencing and subsequent to completing the collection route.

(p) Subdivisions (d), (e), (f), (g), and (h) shall become inoperative immediately upon the date that the United States Secretary of Transportation, or his or her delegate, determines to rescind the portion of the Federal Motor Vehicle Safety Standard No. 208 (49 C.F.R. 571.208) that requires the installation of automatic restraints in new motor vehicles, except that those subdivisions shall not become inoperative if the secretary’s decision to rescind that Standard No. 208 is not based, in any respect, on the enactment or continued operation of those subdivisions.

Mandatory Seatbelt Law: Three-Wheeled Motor Vehicle

27315.1. Section 27315 applies to any person in a fully enclosed three-wheeled motor vehicle that is not less than seven feet in length and not less than four feet in width, and has an unladen weight of 900 pounds or more.

Safety Belts: Law Enforcement Vehicles

27315.3. (a) As used in this section, “passenger motor vehicle” means a passenger vehicle as defined in Section 465 and a motortruck as defined in Section 410 of less than 6,001 pounds unladen weight, but does not include a motorcycle as defined in Section 400.

(b) Every sheriff’s department and city police department and the Department of the California Highway Patrol shall maintain safety belts in good working order for the use of occupants of a vehicle that it operates on a highway for the purpose of patrol. The safety belts shall conform to motor vehicle safety standards established by the United States Department of Transportation. This subdivision does not, however, require installation or maintenance of safety belts where not required by the laws of the United States applicable to the vehicle at the time of its initial sale.

(c) Notwithstanding subdivision (a) of Section 42001, a violation of subdivision (b) is an infraction punishable by a fine, including all penalty assessments and court costs imposed on the convicted department, of not more than twenty dollars ($20) for a first offense, and a fine, including all penalty assessments and court costs imposed on the convicted department, of not more than fifty dollars ($50) for each subsequent offense.

(d) (1) For a violation of subdivision (b), in addition to the fines provided for pursuant to subdivision (c) and the penalty assessments provided for pursuant to Section 1464 of the Penal Code, an additional penalty assessment of two dollars ($2) shall be levied for a first offense, and an additional penalty assessment of five dollars ($5) shall be levied for any subsequent offense.

(2) All money collected pursuant to this subdivision shall be utilized in accordance with Section 1464 of the Penal Code.

(e) In a civil action, a violation of subdivision (b) or information of a violation of subdivision (c) shall not establish negligence as a matter of law or negligence per se for comparative fault purposes, but negligence may be proven as a fact without regard to the violation.

(f) Subdivisions (b) and (c) shall become inoperative immediately upon the date that the Secretary of the United States Department of Transportation, or his or her delegate, determines to rescind the portion of the Federal Motor Vehicle Safety Standard No. 208 (49 C.F.R. 571.208) that requires the installation of automatic restraints in new passenger motor vehicles, except that those subdivisions shall not become inoperative if the secretary’s decision to rescind Standard No. 208 is not based, in any respect, on the enactment or continued operation of those subdivisions or subdivisions (d) to (h), inclusive, of Section 27315.

Seat Belts: Law Enforcement Agency Policy

27315.5. All law enforcement agencies shall, not later than January 1, 1991, establish a policy and issue an order, in writing, which states whether or not their officers are required to wear seat belts. When a law enforcement agency is developing a safety belt policy, the agency shall consider the officer's safety, comfort, and convenience.

Schoolbuses: Passenger Restraint Systems: Definition

27316. (a) Unless specifically prohibited by the National Highway Transportation Safety Administration, all schoolbuses purchased or leased for use in California shall be equipped at all designated seating positions with a combination pelvic and upper torso passenger restraint system, if the schoolbus is either of the following:

(1) Type 1, as defined in paragraph (1) of subdivision (b) of Section 1201 of Title 13 of the California Code of Regulations, and is manufactured on or after July 1, 2005.

(2) Type 2, as defined in paragraph (2) of subdivision (b) of Section 1201 of Title 13 of the California Code of Regulations, and is manufactured on or after July 1, 2004.

(b) For purposes of this section, a “passenger restraint system” means any of the following:

(1) A restraint system that is in compliance with Federal Motor Vehicle Safety Standard 209, for a type 2 seatbelt assembly, and with Federal Motor Vehicle Safety Standard 210, as those standards were in effect on the date the schoolbus was manufactured.

(2) A restraint system certified by the school pupil activity bus manufacturer that is in compliance with Federal Motor Vehicle Safety Standard 222 and incorporates a type 2 lap/shoulder restraint system.

(c) No person, school district, or organization, with respect to a schoolbus equipped with passenger restraint systems pursuant to this section, may be charged for a violation of this code or any regulation adopted thereunder requiring a passenger to use a passenger restraint system, if a passenger on the school bus fails to use or improperly uses the passenger restraint system.

(d) It is the intent of the Legislature, in implementing this section, that school pupil transportation providers work to prioritize the allocation of schoolbuses purchased, leased, or contracted for on or after July 1, 2004, for type 2 schoolbuses, or on or after July 1, 2005, for type 1 schoolbuses, to ensure that elementary level schoolbus passengers receive first priority for new schoolbuses whenever feasible.

School Pupil Activity Bus: Passenger Restraint System

27316.5. (a) Unless specifically prohibited by the National Highway Transportation Safety Administration, all type 2 school pupil activity buses, manufactured on or after July 1, 2004, purchased or leased for use in California shall be equipped at all designated seating positions with a combination pelvic and upper torso passenger restraint system.

(b) For purposes of this section, a “passenger restraint system” is either of the following:

(1) A restraint system that is in compliance with Federal Motor Vehicle Safety Standard 209, for a type 2 seatbelt assembly, and with Federal Motor Vehicle Safety Standard 210, as those standards were in effect on the date that the school pupil activity bus was manufactured.

(2) A restraint system certified by the school pupil activity bus manufacturer that is in compliance with Federal Motor Vehicle Safety Standard 222 and incorporates a type 2 lap/shoulder restraint system.

(c) No person, school district, or organization, with respect to a type 2 school pupil activity bus equipped with passenger restraint systems pursuant to this section, may be charged for a violation of this code or any regulation adopted thereunder requiring a passenger to use a passenger restraint system, if a passenger on the school pupil activity bus fails to use or improperly uses the passenger restraint system.

Vehicle Air Bags: Prohibitions

27317. A person who installs, reinstalls, rewires, tampers with, alters, or modifies for compensation, a vehicle’s computer system or supplemental restraint system, including, but not limited to, the supplemental restraint system’s on-board system performance indicators, so that it falsely indicates the supplemental restraint system is in proper working order, or who knowingly distributes or sells a previously deployed air bag or previously deployed air bag component that will no longer meet the original equipment manufacturing form or function for proper operation, is guilty of a misdemeanor punishable by a fine of up to five thousand dollars ($5,000) or by imprisonment in a county jail for up to one year, or by both the fine and imprisonment.

Amended Sec. 1, Ch. 97, Stats. 2012. Effective January 1, 2013.

Article 3.3. Child Safety Belt and Passenger Restraints Requirements

Child Passenger Restraint System: Requirements for Children 8 Years of Age or Younger

27360. (a) Except as provided in Section 27363, a parent, legal guardian, or driver shall not transport on a highway in a motor vehicle, as defined in paragraph (1) of subdivision (c) of Section 27315, a child or ward who is under eight years of age, without properly securing that child in a rear seat in an appropriate child passenger restraint system meeting applicable federal motor vehicle safety standards.

(b) Subdivision (a) does not apply to a driver if the parent or legal guardian of the child is also present in the motor vehicle and is not the driver.

Amended Sec. 15, Ch. 345, Stats. 2014. Effective January 1, 2015.

The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following “(d)”

Child Passenger Restraint System: Safety Belts: Requirements

27360.5. (a) A parent, legal guardian, or driver shall not transport on a highway in a motor vehicle, as defined in paragraph (1) of subdivision (c) of Section 27315, a child or ward who is eight years of age or older, but less than 16 years of age, without properly securing that child or ward in an appropriate child passenger restraint system or safety belt meeting applicable federal motor vehicle safety standards.

(b) Subdivision (a) does not apply to a driver if the parent or legal guardian of the child is also present in the motor vehicle and is not the driver.

Added Sec. 6, Ch. 474, Stats. 2011. Effective January 1, 2012.
§27360.6. Child Passenger Restraint System: Penalties and Fines

(a) (1) For a conviction under Section 27360 or 27360.5, a first offense is punishable by a fine of one hundred dollars ($100), except that the court may reduce or waive the fine if the defendant establishes to the satisfaction of the court that he or she is economically disadvantaged, and the court, instead, refers the defendant to a community education program that includes, but is not limited to, education on the proper installation and use of a child passenger restraint system for children of all ages, and provides certification to the court of completion of that program. Upon completion of the program, the defendant shall provide proof of participation in the program. If an education program on the proper installation and use of a child passenger restraint system is not available within 50 miles of the residence of the defendant, the requirement to participate in that program shall be waived. If the fine is paid, waived, or reduced, the court shall report the conviction to the department pursuant to Section 1803.

(2) The court may require a defendant described under paragraph (1) to attend an education program that includes demonstration of proper installation and use of a child passenger restraint system and provides certification to the court that the defendant has presented for inspection a child passenger restraint system that meets applicable federal safety standards.

(b) (1) A second or subsequent conviction under Section 27360 or 27360.5 is punishable by a fine of two hundred fifty dollars ($250), no part of which may be waived by the court, except that the court may reduce or waive the fine if the defendant establishes to the satisfaction of the court that he or she is economically disadvantaged, and the court, instead, refers the defendant to a community education program that includes, but is not limited to, education on the proper installation and use of child passenger restraint systems for children of all ages, and provides certification to the court of completion of that program. Upon completion of the program, the defendant shall provide proof of participation in the program. If an education program on the proper installation and use of a child passenger restraint system is not available within 50 miles of the residence of the defendant, the requirement to participate in that program shall be waived. If the fine is paid, waived, or reduced, the court shall report the conviction to the department pursuant to Section 1803.

(2) The court may require a defendant described under paragraph (1) to attend an education program that includes demonstration of proper installation and use of a child passenger restraint system and provides certification to the court that the defendant has presented for inspection a child passenger restraint system that meets applicable federal safety standards.

(c) Notwithstanding any other law, the fines collected under this section shall be allocated as follows:

(1) (A) Sixty percent to health departments of local jurisdictions where the violation occurred, to be used for a community education and assistance program that includes, but is not limited to, demonstration of the proper installation and use of child passenger restraint systems for children of all ages and assistance to economically disadvantaged families in obtaining a restraint system through a low-cost purchase or loan. The county or city health department shall designate a coordinator to facilitate the creation of a special account and to develop a relationship with the court system to facilitate the transfer of funds to the program. The county or city may contract for the implementation of the program. Prior to obtaining possession of a child passenger restraint system pursuant to this subdivision, a person shall attend an education program that includes demonstration of proper installation and use of a child passenger restraint system.

(B) As the proceeds from fines become available, county or city health departments shall prepare and maintain a listing of all child passenger restraint low-cost purchase or loaner programs in their counties, including a semiannual verification that all programs listed are in existence. Each county or city shall forward the listing to the Office of Traffic Safety in the Business, Transportation and Housing Agency and the courts, birthing centers, community child health and disability prevention programs, county clinics, prenatal clinics, women, infants, and children programs, and county hospitals in that county, who shall make the listing available to the public. The Office of Traffic Safety shall maintain a listing of all of the programs in the state.

(2) Twenty-five percent to the county or city for the administration of the community education program.

(3) Fifteen percent to the city, to be deposited in its general fund except that, if the violation occurred in an unincorporated area, this amount shall be allocated to the county for purposes of paragraph (1).

Amended Sec. 7, Ch. 474, Stats. 2011. Effective January 1, 2012

Notice to Appear for Violation

27361. A law enforcement officer reasonably suspecting a violation of Section 27360 or 27360.5, or both of those sections, may stop a vehicle transporting a child appearing to the officer to be within the age specified in Section 27360 or 27360.5. The officer may issue a notice to appear for a violation of Section 27360 or 27360.5.

Amended Sec. 8, Ch. 474, Stats. 2011. Effective January 1, 2012.

Child Passenger Seat Restraints: Compliance

27362. (a) A manufacturer, wholesaler, or retailer shall not sell, offer for sale, or install in a motor vehicle, a child passenger restraint system that does not conform to all applicable federal motor vehicle safety standards on the date of manufacture. Responsibility for compliance with this section shall rest with the individual selling the system, offering the system for sale, or installing the system. A person who violates this section is guilty of a misdemeanor and shall be punished as follows:

(1) Upon a first conviction, by a fine not exceeding four hundred dollars ($400), or by imprisonment in a county jail for a period of not more than 90 days, or both.

(2) Upon a second or subsequent conviction, by a fine not exceeding one thousand dollars ($1,000), or by imprisonment in a county jail for a period of not more than 180 days, or both.

(b) The fines collected for a violation of this section shall be allocated as follows:

(1) (A) Sixty percent to the county or city health department where the violation occurred, to be used for a child passenger restraint low-cost purchase or loaner program which shall include, but not be limited to, education on the proper installation and use of a child passenger restraint system. The county health department shall designate a coordinator to
facilitate the creation of a special account and to develop a relationship with the superior court to facilitate the transfer of funds to the program. The county may contract for the implementation of the program. Prior to obtaining possession of a child passenger restraint system pursuant to this section, a person shall receive information relating to the importance of utilizing that system.

(B) As the proceeds from fines become available, county health departments shall prepare and maintain a listing of all child passenger restraint low-cost purchase or loaner programs in their counties, including a semiannual verification that all programs listed are in existence. Each county shall forward the listing to the Office of Traffic Safety in the Business, Transportation and Housing Agency and the courts, birthing centers, community child health and disability prevention programs, and county hospitals in that county, who shall make the listing available to the public. The Office of Traffic Safety shall maintain a listing of all of the programs in the state.

(2) Twenty-five percent to the county for the administration of the program.

(3) Fifteen percent to the city, to be deposited in its general fund except that, if the violation occurred in an unincorporated area, this amount shall be allocated to the county for purposes of paragraph (1).

Exemptions

27363. (a) The court may exempt from the requirements of this article any class of child by age, weight, or size if it is determined that the use of a child passenger restraint system would be impractical by reason of physical unfitness, medical condition, or size. The court may require satisfactory proof of the child’s physical unfitness, medical condition, or size and that an appropriate special needs child passenger restraint system is not available.

(b) In case of a life-threatening emergency, or when a child is being transported in an authorized emergency vehicle, if there is no child passenger restraint system available, a child may be transported without the use of that system, but the child shall be secured by a seatbelt.

(c) A child weighing more than 40 pounds may be transported in the backseat of a vehicle while wearing only a lap safety belt when the backseat of the vehicle is not equipped with a combination lap and shoulder safety belt.

(d) Notwithstanding Section 27360, a child or ward under eight years of age who is four feet nine inches in height or taller may be properly restrained by a safety belt, as defined in paragraph (2) of subdivision (d) of Section 27315, rather than by a child passenger restraint system.

(e) Notwithstanding Section 27360, a child or ward under eight years of age may ride properly secured in an appropriate child passenger restraint system meeting applicable federal motor vehicle safety standards in the front seat of a motor vehicle under any of the following circumstances:

1. There is no rear seat.
2. The rear seats are side-facing jump seats.
3. The rear seats are rear-facing seats.
4. The child passenger restraint system cannot be installed properly in the rear seat.
5. All rear seats are already occupied by children seven years of age or under.
6. Medical reasons necessitate that the child or ward not ride in the rear seat. The court may require satisfactory proof of the child’s medical condition.

(f) Notwithstanding subdivision (e), a child shall not be transported in a rear-facing child passenger restraint system in the front seat of a motor vehicle that is equipped with an active frontal passenger airbag.

Child Passenger Seat Restraints: Information Requirements

27363.5. (a) A public or private hospital, clinic, or birthing center shall, at the time of the discharge of a child, provide to and discuss with the parents or the person to whom the child is released, if the child is under eight years of age, information on the current law requiring child passenger restraint systems, safety belts, and the transportation of children in rear seats.

(b) A public or private hospital, clinic, or birthing center shall also provide to and discuss with the parent or person to whom the child is released, if the child is under eight years of age, information on the current law requiring child passenger restraint system requirements, installation, and inspection. Pursuant to this subdivision, the hospital, clinic, or birthing center does not have any additional obligation to provide patients with any assistance relating to child passenger restraint systems, other than providing the contact information as set forth in this subdivision. This contact information may include the following:

1. Call 1-866-SEAT-CHECK or visit www.seatcheck.org to find a nearby location.
2. Telephone number of the local office of the Department of the California Highway Patrol.
4. The Internet Web site for the State Department of Public Health’s child passenger restraint system safety inspection locator.

(c) A public or private hospital, clinic, or birthing center shall not be responsible for the failure of the parent or person to whom the child is released to properly transport the child.

Legislative Intent

27364. (a) It is the intent of the Legislature, in enacting this article, to insure that children, who are, because of their tender years, helpless dependent passengers, are provided with the safest transportation possible.
§27365

(b) It is the further intent of the Legislature to stress and communicate to all drivers in this state the importance of using child passenger restraint systems.

(c) Nothing in this Article shall be construed to extend application of these provisions to a class of children other than the class of children herein specified.

Amended Sec. 9, Ch. 512, Stats. 1995. Effective January 1, 1996.

Car Rental Agencies: Child Restraint Systems: Notice

27365. (a) (1) A car rental agency in California shall inform each of its customers of Section 27360 by posting, in a place conspicuous to the public in each established place of business of the agency, a notice not smaller than 15 by 20 inches which states the following:

“CALIFORNIA LAW REQUIRES ALL CHILDREN UNDER 8 YEARS OF AGE TO BE TRANSPORTED IN THE REAR SEAT OF THE VEHICLE IN A CHILD RESTRAINT SYSTEM. THIS AGENCY IS REQUIRED TO PROVIDE FOR RENTAL OF A CHILD RESTRAINT SYSTEM IF YOU DO NOT HAVE A CHILD RESTRAINT SYSTEM YOURSELF.”

(2) The posted notice specified in paragraph (1) is not required if the car rental agency’s place of business is located in a hotel that has a business policy prohibiting the posting of signs or notices in any area of the hotel. In that case, a car rental agency shall furnish a written notice to each customer that contains the same information as required for the posted notice.

(b) Every car rental agency in California shall have available for, and shall, upon request, provide for rental to, adults traveling with children under eight years of age, child passenger restraint systems that are certified by the manufacturer to meet applicable federal motor vehicle safety standards for use by children, are in good and safe condition, with no missing original parts, and are not older than five years.

(c) A violation of this section is an infraction punishable by a fine of one hundred dollars ($100).

Child Passenger Restraint Systems: Duties of Department

27366. (a) The department shall do the following:

(1) Prepare and disseminate materials for the purpose of educating the public about the importance of using passenger restraints for infants and children under 15 years of age. These materials shall include, but are not limited to, audiovisual aids and written materials that explain the effects of motor vehicle accidents on infants and children and the reduction in risk of injury or death as a result of the utilization of passenger restraints for infants and children.

(2) As funding is available, produce and administer a billboard campaign stressing the importance of utilizing child passenger restraint systems and instructing the public on where to obtain those systems.

(b) The department, the Office of Traffic Safety, and the State Department of Health Services shall meet annually to coordinate, share information about, and outline the programs that each organization is pursuing in the area of child passenger restraint systems.

Amended Sec. 10, Ch. 512, Stats. 1995. Effective January 1, 1996.

Child Passenger Restraint System: Three-Wheeled Motor Vehicle

27368. This Article applies to child passengers in a fully enclosed three-wheeled motor vehicle that is not less than seven feet in length and not less than four feet in width, and has an unladen weight of 900 pounds or more.

Article 3.4. Emergency Exits for Charter-Party Carriers of Passengers

Charter Party Carriers: Emergency Exits

27375. (a) Any person who operates a ( ) 1 modified ( ) 2 limousine shall ensure that the vehicle has at least two rear side doors and one or two rear windows, as specified in paragraph (1), that the rear seat passengers or all passengers of the vehicle may open from the inside of the vehicle in case of any fire or other emergency that may require the immediate exit of the passengers of the vehicle. A limousine subject to this section shall be equipped with both of the following:

(1) (A) Except as provided in subparagraph (B), at least two rear push-out windows that are accessible to all passengers. At least one push-out window shall be located on each side of the vehicle, unless the design of the limousine precludes the installation of a push-out window on one side of the vehicle, in which case the second push-out window shall instead be located in the roof of the vehicle.

(B) If the design of the limousine precludes the installation of one push-out window on a side of the vehicle, one push-out window shall instead be located in the roof of the vehicle.

(C) The Department of the California Highway Patrol shall establish, by regulation, standards to ensure that window exits are operable and sufficient in emergency situations for limousine passengers. The department shall ensure that these regulations comply with any applicable federal motor vehicle safety standards.

(2) At least two rear side doors that are accessible to all passengers and that may be opened manually by any passenger. At least one rear side door shall be located on each side of the vehicle. For ( ) 1 modified ( ) 2 limousines, on or after July 1, 2015, at least one of these side doors shall be located near the driver’s compartment and another near the back of the vehicle. These side doors shall comply with any applicable federal motor vehicle safety standards as deemed necessary by the Department of the California Highway Patrol.

(b) In the case of ( ) 1 a fire or other emergency that requires the immediate exit of the passengers from the limousine, the driver of the limousine shall unlock the doors so that the rear side doors can be opened by the passengers from the inside of the vehicle.

(c) An owner or operator of a limousine shall do all of the following:

(1) Instruct all passengers on the safety features of the vehicle prior to the beginning of any trip, including, but not limited to, instructions for lowering the partition between the driver and passenger compartments and for communicating with the driver by the use of an intercom or other onboard or wireless device.

(2) Disclose to the contracting party and the passengers whether the limousine meets the safety requirements described in this section.
(3) If paragraph (3) of subdivision (d) applies, the owner or operator of a limousine shall further disclose to the contracting party and the passengers that the limousine does not meet the safety requirements required in subdivision (a) regarding vehicle escape options because of its exempt status, and therefore may pose a greater risk to passengers should emergency escape be necessary.

(d) (1) Subdivision (a) shall apply to all limousines modified 2 before 1970.

(2) Subdivision (a) shall, beginning January 1, 2016, apply to all vehicles that met the definition of modified limousine, as described in subdivision (b) of Section 378, that were modified prior to July 1, 2015.

(3) Except as provided in paragraph (4), subdivision (a) shall not apply to any limousine manufactured (before 1970 that has an active transportation charter-party carrier (TCP) number that was issued by the commission as of August 15, 2013.

(4) Subdivision (a) shall apply to all limousines manufactured (before 1970 if it was modified (after August 15, 2013.

Amended Sec. 14, Ch. 860, Stats. 2014. Effective September 30, 2014.
The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following:
1. “limousine, as defined in subdivision (i) of Section 5371.4 of the Public Utilities Code, in any city, county, or city and county, that has been”
2. “or extended for purposes of increasing vehicle length in an amount sufficient to accommodate additional passengers”
3. “vehicles”
4. “any”
5. “limousines”
6. “apply to all limousines”
7. “were”
8. “prior to”
9. “and”
10. “charter-party”
11. “is”

Article 3.5. Headsets and Earplugs

Wearing of Headsets or Earplugs

27400. A person operating a motor vehicle or bicycle may not wear a headset covering, or earplugs in, both ears. This prohibition does not apply to any of the following:

(a) A person operating authorized emergency vehicles, as defined in Section 165.

(b) A person engaged in the operation of either special construction equipment or equipment for use in the maintenance of any highway.

(c) A person engaged in the operation of refuse collection equipment who is wearing a safety headset or safety earplugs.

(d) A person wearing personal hearing protectors in the form of earplugs or molds that are specifically designed to attenuate injurious noise levels. The plugs or molds shall be designed in a manner so as to not inhibit the wearer’s ability to hear a siren or horn from an emergency vehicle or a horn from another motor vehicle.

(e) A person using a prosthetic device that aids the hard of hearing.

Article 4. Tires

Thickenes of Solid Tire

27450. When any vehicle is equipped with any solid tire, the solid tire shall have a minimum thickness of resilient rubber as follows:

(a) If the width of the tire is three inches but less than six inches, one inch thick.

(b) If the width of the tire is six inches but not more than nine inches, 1/14 inches thick.

(c) If the width of the tire is more than nine inches, 1/2 inches thick.

Measurement of Solid Tire

27451. The rubber of a solid tire shall be measured between the surface of the roadway and the nearest metal part of the base flange to which the tire is attached at the point where the concentrated weight of the vehicle bears upon the surface of the roadway.

Condition of Solid Tire

27452. The required thickness of rubber shall extend evenly around the entire periphery of the tire. The entire solid tire shall be securely attached to the channel base and shall be without flat spots or bumpy rubber.

Dual Solid Tires

27453. There shall not be an average difference greater than 1/8 inch between the outside diameters of each single tire composing a dual solid rubber tire.

Protuberances on Tires: Exceptions

27454. A tire on a vehicle upon a highway shall not have on its periphery any block, stud, flange, cleat, ridge, bead, or any other protuberance of metal or wood that projects beyond the tread of the traction surface of the tire.

This section does not apply to any of the following:

(a) Tire traction devices of reasonable size used to prevent skidding when upon wet surfaces or when upon snow or ice.

(b) Pneumatic tires that have embedded therein wire not to exceed 0.075 of an inch in diameter and that are constructed so that under no conditions will the percentage of metal in contact with the roadway exceed 5 percent of the total tire area in contact with the roadway, except that during the first 1,000 miles of use or operation of the tire, the metal in contact with the roadway may exceed 5 percent of the tire area in contact with the roadway, but shall in no event exceed 20 percent of the area.

(c) Vehicles operated upon unimproved roadways when necessary in the construction or repair of highways.

(d) Traction engines or tractors when operated under the conditions of a permit first obtained from the Department of Transportation.

(e) (1) Pneumatic tires containing metal-type studs of tungsten carbide or other suitable material that are inserted or constructed so that under no condition will the number of studs or the percentage of metal in contact with the roadway exceed 3 percent of the total tire area in contact with the roadway, between November 1 and April 30 of each year. Each vehicle may be equipped year-round with tires that have studs that retract pneumatically or mechanically when not in use, if the studs are retracted between May 1 and October 31 of each year. A tire on a vehicle shall not be worn to a point at which the studs protrude beyond the tire tread when retracted.

(2) The commissioner, after consultation with the Department of Transportation, may extend the period during which the studded pneumatic tires may be used with studs
deployed or inserted in areas of the state for the protection of the public because of adverse weather conditions.

(f) Pneumatic tires used on an authorized emergency vehicle, as defined in Section 165, containing metal-type studs of tungsten carbide or other suitable material, if the studs are inserted or constructed so that under no conditions will the number of studs or the percentage of metal in contact with the roadway exceed 3 percent of the total tire area in contact with the roadway. Notwithstanding subdivision (e), authorized emergency vehicles are permitted the unrestricted use of studded pneumatic tires throughout the year.

Inner Tubes

27455. (a) On and after January 1, 1975, no person shall sell or offer for sale an inner tube for use in a radial tire unless, at the time of manufacture, the tube valve stem is colored red or is distinctly marked in accordance with rules and regulations adopted by the department, taking into consideration the recommendations of manufacturers of inner tubes.

(b) No person shall install an inner tube in a radial tire unless the inner tube is designed for use in a radial tire.

Tire Traction Device

27459. No person shall operate any motor vehicle, trailer or semitrailer upon any portion of a highway without tire traction devices when that portion of the highway is signed for the requirement of tire traction devices. In any case where a passenger vehicle or motortruck having an unladen weight of 6,000 pounds or less may be required by the Department of Transportation or local authorities to be equipped with tire traction devices, the devices shall be placed on at least two drive wheels, or the department or local authorities may provide, in the alternative, that the vehicle may be equipped with snow-tread tires on at least two drive wheels when the weather and surface conditions at the time are such that the stopping, tractive, and cornering abilities of the snow-tread tires are adequate. The snow-tread tires shall be of a type and design manufactured for use on snow as a replacement for tire chains or tire traction devices, shall be in good condition, and shall bear the marking of M, S, M/S, or other marking indicating that the tire was manufactured for use on snow, or, in the case of tires purchased before January 1, 1987, shall either bear the markings or, in the opinion of the inspecting officer, comply with the tread pattern requirements of Section 558.

Tire Traction Devices: Noncomplying

27459.5. (a) No person shall sell, offer for sale, lease, install, or replace on a vehicle for use on a highway, any tire traction devices which are not in compliance with requirements specified in Section 605.

(b) Every manufacturer who sells, offers for sale or manufactures for use upon a vehicle, tire traction devices subject to the requirements of Section 605 shall, before the device is offered for sale, have laboratory test data showing compliance with those requirements. Tests may be conducted by the manufacturer.

Four-Wheel Drive Vehicles With Snow-Tread Tires

27460. Any passenger vehicle or motor truck having an unladen weight of 6,500 pounds or less and equipped with four-wheel drive and with snow-tread tires on all four drive wheels may be operated upon any portion of a highway without tire traction devices, notwithstanding the fact that the highway is signed for the requirement of those devices and provided that tire traction devices for at least one set of drive wheels are carried in or upon the vehicle. The snow tire treads shall meet the requirements specified in Section 27459 of this code, and such vehicle shall not, when so operated, tow another vehicle except as may be necessary to move a disabled vehicle from the roadway.

No person shall use those tires on four-wheel drive vehicles in place of tire traction devices whenever weather and roadway conditions at the time are such that the stopping, tractive and cornering abilities of the tires are not adequate or whenever the Department of Transportation or local authorities, in their respective jurisdictions, place signs prohibiting their operation unless equipped with tire traction devices.

Sale of Recut or Regrooved Tires

27460.5. No person shall knowingly sell or offer or expose for sale any motor vehicle tire except a commercial vehicle tire, or any motor vehicle equipped with any tire except a commercial vehicle tire, which has been recut or regrooved. For purposes of this section a recut or regrooved tire is an unretreaded or unrecapped tire into which new grooves have been cut or burned.

Use of Recut or Regrooved Tires

27461. No person shall cause or permit the operation of and no driver shall knowingly operate any motor vehicle except a commercial vehicle, on any street or highway, which is equipped with one or more recut or regrooved tires. For purposes of this section a recut or regrooved tire is an unretreaded or unrecapped tire into which new grooves have been cut or burned.

Tread Depth of Pneumatic Tires

27465. (a) No dealer or person holding a retail seller's permit shall sell, offer for sale, expose for sale, or install on a vehicle axle for use on a highway, a pneumatic tire when the tire has less than the tread depth specified in subdivision (b). This subdivision does not apply to any person who installs on a vehicle, as part of an emergency service rendered to a disabled vehicle upon a highway, a spare tire with which the disabled vehicle was equipped.

(b) No person shall use on a highway a pneumatic tire on a vehicle axle when the tire has less than the following tread depth, except when temporarily installed on a disabled vehicle as specified in subdivision (a):

(1) One thirty-second (1/32) of an inch tread depth in any two adjacent grooves at any location of the tire, except as provided in paragraphs (2) and (3).

(2) Four thirty-second (4/32) of an inch tread depth at all points in all major grooves on a tire on the steering axle of any motor vehicle specified in Section 34500, and two thirty-second
of an inch tread depth at all points in all major grooves on all other tires on the axles of these vehicles.

(3) Six thirty-second (6/32) of an inch tread depth at all points in all major grooves on snow tires used in lieu of tire traction devices in posted traction device control areas.

(c) The measurement of tread depth shall not be made where tie bars, humps, or fillets are located.

(d) The requirements of this section shall not apply to implements of husbandry.

(e) The department, if it determines that such action is appropriate and in keeping with reasonable safety requirements, may adopt regulations establishing more stringent tread depth requirements than those specified in this section for those vehicles defined in Sections 322 and 545, and may adopt regulations establishing tread depth requirements different from those specified in this section for those vehicles listed in Section 34500.

§27500. Pneumatic Tire Standard Regulations

(a) The department may adopt regulations relating to standards for pneumatic tires of a vehicle type as it determines necessary to provide for public safety.

(b) In adopting these regulations, the department shall consider as evidence of generally accepted standards, the rules and regulations which have been adopted by the Federal Highway Administration and Rubber Manufacturers Association.

§27501. Pneumatic Tires Which Do Not Conform to Regulations

(a) No dealer or person holding a retail seller's permit shall sell, offer for sale, expose for sale, or install on a vehicle for use on a highway, a pneumatic tire which is not in compliance with regulations adopted pursuant to Section 27500. This subdivision shall not apply to any person who installs on a vehicle, as part of an emergency service rendered to a vehicle upon a highway, a spare tire with which such disabled vehicle was equipped.

(b) No person shall use on a highway a pneumatic tire which is not in conformance with such regulations.

Amended Ch. 70, Stats. 1976. Effective March 26, 1976.

§27502. Sale of Tires Not Conforming to Noise Standards Prohibited

27502. No dealer or person holding a retail seller's permit shall sell, offer for sale, expose for sale, or install on a vehicle for use on a highway, a tire which is not in compliance with regulations adopted pursuant to Section 27503.

Added Ch. 1197, Stats. 1971. Operative one year after the regulations adopted pursuant to Section 27503.

§27503. Adoption of Regulations: Noise Standards for Tires

27503. (a) The commissioner, after public hearings, shall adopt regulations setting noise standards for pneumatic tires. Such standards shall be the lowest level of noise consistent with economic and technological feasibility and with public safety as stated in the regulations adopted pursuant to Section 27500. Such standards may be adopted for each tire-vehicle type combination. The regulations may require the manufacturer to prove to the commissioner that the tire meets the standards, subject to such inspection as the commissioner prescribes. The regulations shall be filed with the Legislature eight months after the federal study on tire noise is available, and shall become operative one year after such filing.

(b) It is the intent of the Legislature in enacting this section that the commissioner shall consider recommendations of the United States Department of Transportation before developing independent standards for tire noise.

Article 5. Fenders, Ornaments, and Television

Fenders and Mudguards

27600. No person shall operate any motor vehicle having three or more wheels, any trailer, or semitrailer unless equipped with fenders, covers, or devices, including flaps or splash aprons, or unless the body of the vehicle or attachments thereto afford adequate protection to effectively minimize the spray or splash of water or mud to the rear of the vehicle and all such equipment or such body or attachments thereto shall be at least as wide as the tire tread. This section does not apply to those vehicles exempt from registration, trailers and semitrailers having an unladen weight of under 1,500 pounds, or any vehicles manufactured and first registered prior to January 1, 1971, having an unladen weight of under 1,500 pounds.

Television

27602. (a) A person shall not drive a motor vehicle if a television receiver, a video monitor, or a television or video screen, or any other similar means of visually displaying a television broadcast or video signal that produces entertainment or business applications, is operating and is located in the motor vehicle at a point forward of the back of the driver's seat, or is operating and the monitor, screen, or display is visible to the driver while driving the motor vehicle.

(b) Subdivision (a) does not apply to the following equipment when installed in a vehicle:

(1) A vehicle information display.

(2) A global positioning display.

(3) A mapping display.

(4) A visual display used to enhance or supplement the driver's view forward, behind, or to the sides of a motor vehicle for the purpose of maneuvering the vehicle.

(5) A television receiver, video monitor, television or video screen, or any other similar means of visually displaying a television broadcast or video signal, if that equipment satisfies one of the following requirements:

(A) The equipment has an interlock device that, when the motor vehicle is driven, disables the equipment for all uses except as a visual display as described in paragraphs (1) to (4), inclusive.

(B) The equipment is designed, operated, and configured in a manner that prevents the driver of the motor vehicle from viewing the television broadcast or video signal while operating the vehicle in a safe and reasonable manner.

(6) A mobile digital terminal that is fitted with an opaque covering that does not allow the driver to view any part of the display while driving, even though the terminal may be operating, installed in a vehicle that is owned or operated by any of the following:
(A) An electrical corporation, as defined in Section 218 of the Public Utilities Code.
(B) A gas corporation, as defined in Section 222 of the Public Utilities Code.
(C) A sewer system corporation, as defined in Section 230.6 of the Public Utilities Code.
(D) A telephone corporation, as defined in Section 234 of the Public Utilities Code.
(E) A water corporation, as defined in Section 241 of the Public Utilities Code.
(F) A local publicly owned electric utility, as defined in Section 224.3 of the Public Utilities Code.
(G) A city, joint powers agency, or special district, if that local entity uses the vehicle solely in the provision of sewer service, gas service, water service, or wastewater service.

(c) Subdivision (a) does not apply to a mobile digital terminal installed in an authorized emergency vehicle or to a motor vehicle providing emergency road service or roadside assistance.

(d) Subdivision (a) does not apply to a mobile digital terminal installed in a vehicle when the vehicle is deployed in an emergency to respond to an interruption or impending interruption of electrical, natural gas, telephone, sewer, water, or wastewater service, and the vehicle is owned or operated by any of the following:

(1) An electrical corporation, as defined in Section 218 of the Public Utilities Code.
(2) A gas corporation, as defined in Section 222 of the Public Utilities Code.
(3) A sewer system corporation, as defined in Section 230.6 of the Public Utilities Code.
(4) A telephone corporation, as defined in Section 234 of the Public Utilities Code.
(5) A water corporation, as defined in Section 241 of the Public Utilities Code.
(6) A local publicly owned electric utility, as defined in Section 224.3 of the Public Utilities Code.
(7) A city, joint powers agency, or special district, if that local entity uses the vehicle solely in the provision of sewer service, gas service, water service, or wastewater service.

27603. When a motor vehicle formerly used as a schoolbus is sold to any person and is used exclusively for purposes other than the transportation of pupils pursuant to Article 3 (commencing with Section 39830) of Chapter 5 of Part 23 of the Education Code, it shall be painted by the purchaser a color different from that prescribed by the Department of the California Highway Patrol for schoolbuses before it is operated on any street or highway other than to have the vehicle painted or moved to a place of storage.

The provisions of this section shall not apply where the ownership of a schoolbus is transferred to a nonprofit organization under a contractual arrangement under which the ownership is required to be retransferred to the original owner within 90 days of the date of the original transfer.

27604. When a motor vehicle, painted, as required by Section 40800, and formerly used in the enforcement of the provisions of Division 10 (commencing with Section 20000) or 11 (commencing with Section 21000), is sold to any person and is used for purposes other than law enforcement, the vehicle shall be painted or partially painted by the seller or agency formerly using such vehicle so that it will no longer resemble a vehicle complying with Section 40800 and any insignia or other marking of the vehicle identifying it as a traffic law enforcement vehicle shall be removed by the seller or agency formerly using such vehicle before it shall be operated on any street or highway, other than to have the vehicle moved to be painted or to a place of storage.

The provisions of this section do not apply to former law enforcement vehicles, without insignia, which are painted one solid color, or which are used exclusively for movie or television production and display signs stating “movie car” prominently on the doors, or which are motorcycles, as defined in Section 400, without insignia.

27605. No person shall own or operate a motor vehicle painted in the manner described in Section 40800 to resemble a motor vehicle used by a peace officer or traffic officer on duty for the primary purpose of enforcing the provisions of Division 10 (commencing with Section 20000) or Division 11 (commencing with Section 21000) pursuant to Section 40800.

The provisions of this section shall not apply to vehicles which are painted one solid color or to vehicles first registered on or before January 1, 1979. These provisions shall not apply to vehicles which are any of the following:

(a) Owned by vehicle manufacturers or dealers.
(b) Used by law enforcement agencies in the enforcement of the provisions of Division 10 (commencing with Section 20000) or Division 11 (commencing with Section 21000).
(c) Owned by persons or companies who use the vehicles exclusively for movie or television production and display signs stating “movie car” prominently on the doors.
(d) Owned by persons or companies who use the vehicles exclusively for funeral escort purposes.

27606. (a) No person shall own or operate a motor vehicle which is equipped with a light bar, or facsimile thereof, to resemble a motor vehicle used by a peace officer or traffic officer while on duty within that jurisdiction for the primary purpose of enforcing Division 10 (commencing with Section 20000) or Division 11 (commencing with Section 21000) pursuant to Section 40800.

(b) For purposes of this section the following definitions apply:

(1) A “light bar” means any light or device affixed to or mounted upon the roof of a vehicle and extending the width of the roof, or a substantial portion thereof, which emits amber, red, or blue, or any combination of those lights.

27606. When a motor vehicle, painted, as required by Section 40800, and formerly used in the enforcement of the provisions of Division 10 (commencing with Section 20000) or 11 (commencing with Section 21000), is sold to any person and is used for purposes other than law enforcement, the vehicle shall be painted or partially painted by the seller or agency formerly using such vehicle so that it will no longer resemble a vehicle complying with Section 40800 and any insignia or other marking of the vehicle identifying it as a traffic law enforcement vehicle shall be removed by the seller or agency formerly using such vehicle before it shall be operated on any street or highway, other than to have the vehicle moved to be painted or to a place of storage.

The provisions of this section do not apply to former law enforcement vehicles, without insignia, which are painted one solid color, or which are used exclusively for movie or television production and display signs stating “movie car” prominently on the doors, or which are motorcycles, as defined in Section 400, without insignia.

27605. No person shall own or operate a motor vehicle painted in the manner described in Section 40800 to resemble a motor vehicle used by a peace officer or traffic officer on duty for the primary purpose of enforcing the provisions of Division 10 (commencing with Section 20000) or Division 11 (commencing with Section 21000) pursuant to Section 40800.

The provisions of this section shall not apply to vehicles which are painted one solid color or to vehicles first registered on or before January 1, 1979. These provisions shall not apply to vehicles which are any of the following:

(a) Owned by vehicle manufacturers or dealers.
(b) Used by law enforcement agencies in the enforcement of the provisions of Division 10 (commencing with Section 20000) or Division 11 (commencing with Section 21000).
(c) Owned by persons or companies who use the vehicles exclusively for movie or television production and display signs stating “movie car” prominently on the doors.
(d) Owned by persons or companies who use the vehicles exclusively for funeral escort purposes.

(e) Motorcycles, as defined in Section 400, without insignia.

27606. (a) No person shall own or operate a motor vehicle which is equipped with a light bar, or facsimile thereof, to resemble a motor vehicle used by a peace officer or traffic officer while on duty within that jurisdiction for the primary purpose of enforcing Division 10 (commencing with Section 20000) or Division 11 (commencing with Section 21000) pursuant to Section 40800.

(b) For purposes of this section the following definitions apply:

(1) A “light bar” means any light or device affixed to or mounted upon the roof of a vehicle and extending the width of the roof, or a substantial portion thereof, which emits amber, red, or blue, or any combination of those lights.
§27803  Safety Helmet Regulations

27802. (a) The department may adopt reasonable regulations establishing specifications and standards for safety helmets offered for sale, or sold, for use by drivers and passengers of motorcycles and motorized bicycles as it determines are necessary for the safety of those drivers and passengers. The regulations shall include, but are not limited to, the requirements imposed by Federal Motor Vehicle Safety Standard No. 218 (49 C.F.R. Sec. 571.218) and may include compliance with that federal standard by incorporation of its requirements by reference. Each helmet sold or offered for sale for use by drivers and passengers of motorcycles and motorized bicycles shall be conspicuously labeled in accordance with the federal standard which shall constitute the manufacturer’s certification that the helmet conforms to the applicable federal motor vehicle safety standards.

(b) No person shall sell, or offer for sale, for use by a driver or passenger of a motorcycle or motorized bicycle any safety helmet which is not of a type meeting requirements established by the department.

Article 6. Tow Trucks

Required Equipment

27700. (a) Tow trucks shall be equipped with and carry all of the following:
(1) One or more brooms, and the driver of the tow truck engaged to remove a disabled vehicle from the scene of an accident shall remove all glass and debris deposited upon the roadway by the disabled vehicle which is to be towed.
(2) One or more shovels, and whenever practical the tow truck driver engaged to remove any disabled vehicle shall spread dirt upon that portion of the roadway where oil or grease has been deposited by the disabled vehicle.
(3) One or more fire extinguishers of the dry chemical or carbon dioxide type with an aggregate rating of at least 4-B, C units and bearing the approval of a laboratory nationally recognized as properly equipped to make the approval.
(b) A person licensed as a repossession agency pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code is exempt from this section.

Article 7. Motorcycles

Passengers: Equipment and Usage

27800. It is unlawful for a driver of a motorcycle or a motorized bicycle to carry any other person thereon, except on a seat securely fastened to the machine at the rear of the driver and provided with footrests, or in a sidecar attached to a motorcycle and designed for the purpose of carrying a passenger. Every passenger on a motorcycle or a motorized bicycle shall keep his feet on the footrests while such vehicle is in motion.

Seat and Handlebar Position

27801. A person shall not drive a two-wheel motorcycle that is equipped with either of the following:
(a) A seat so positioned that the driver, when sitting astride the seat, cannot reach the ground with his or her feet.
(b) Handlebars so positioned that the hands of the driver, when upon the grips, are more than six inches above his or her shoulder height when sitting astride the seat.

Identification Required

§ 27900. (a) Every motor vehicle or combination of vehicles used to carry the property of others for hire or used to carry passengers for hire, any truck or truck tractor having three or more axles or any truck tractor with a semitrailer, and all commercial motor vehicles, as defined in subdivision (c) of Section 34601, shall have displayed on both sides of each vehicle or on both sides of one of the vehicles in each combination of vehicles the name or trademark of the person under whose authority the vehicle or combination of vehicles is being operated.

(b) A vehicle or combination of vehicles listed in subdivision (a) that is operated under a rental agreement with a term of not more than 30 calendar days shall meet all of the following requirements:

(1) Have displayed on both sides of each vehicle or on both sides of one of the vehicles in each combination of vehicles the name or trademark of the lessor.

(2) Have displayed on both sides of each vehicle or on both sides of one of the vehicles in each combination of vehicles any of the following numbers issued to the lessor:

(A) The carrier identification number issued by the United States Department of Transportation.

(B) A valid operating authority number.

(C) A valid motor carrier of property number.

(3) Have in the vehicle or combination of vehicles a copy of the rental agreement entered into by the lessor and the vehicle operator.

(B) The rental agreement shall be available for inspection immediately upon the request of any authorized employee of the department or any regularly employed and salaried police officer or deputy sheriff, or any reserve police officer or reserve deputy sheriff listed in Section 830.6 of the Penal Code.

(C) If the rented vehicle or combination of vehicles is operated in conjunction with a commercial enterprise, the rental agreement shall include the operator’s carrier identification number or motor carrier of property permit number.

(c) A vehicle or combination of vehicles that is in compliance with Section 390.21 of Title 49 of the Code of Federal Regulations shall be deemed to be in compliance with subdivision (b).

(d) All names, trademarks, and other identifiers for companies no longer in business, no longer operating with the same name, or no longer operating under the same operating authority, shall be removed from or covered over on every motor vehicle or combination of vehicles listed in subdivision (a), within 60 days from the change of company ownership or operation. Those vehicles or combinations of vehicles shall be remarked pursuant to subdivision (a) before they may be operated on the highways.

Name and Trademark

§ 27901. The display of the name or trademark shall be in letters in sharp contrast to the background and shall be of such size, shape, and color as to be readily legible during daylight hours from a distance of 50 feet.

This section does not prohibit additional displays not inconsistent with this article.

Exemption

§ 27902. Section 27900 does not apply to any motor vehicle having an unladen weight of 6,000 pounds or less or to any vehicle towed by such motor vehicles, or to any motor vehicle operating under manufacturers, dealers, or transporters special plates, or to any motor vehicle operated by a passenger stage corporation subject to the jurisdiction of the Public Utilities Commission.

Designation of Cargo

§ 27903. (a) Subject to Section 114765 of the Health and Safety Code, any vehicle transporting any explosive, blasting agent, flammable liquid, flammable solid, oxidizing material, corrosive, compressed gas, poison, radioactive material, or other hazardous materials, of the type and in quantities that require the display of placards or markings on the vehicle exterior by the United States Department of Transportation regulations (49 C.F.R., Parts 172, 173, and 177), shall display the placards and markings in the manner and under conditions prescribed by those regulations of the United States Department of Transportation.

(b) This section does not apply to the following:

(1) Any vehicle transporting not more than 20 pounds of smokeless powder or not more than five pounds of black sporting powder or any combination thereof.

(2) An authorized emergency vehicle as defined in paragraph (1) of subdivision (b) of Section 165, operated by a peace officer as defined in Sections 830.1 and 830.2 of the Penal Code, when transportation is required within the scope and course of law enforcement explosives detection or removal duties, provided one of the following conditions applies:

(A) The law enforcement agency operating the vehicle complies with regulations adopted by the California Highway Patrol pursuant to subdivision (b) of Section 34501, notwithstanding Section 34500 and subdivision (a) of Section 34501.

(B) The peace officer possesses an exemption issued by the commissioner, who may require additional transportation restrictions as deemed appropriate.

Pilot Cars

§ 27904. There shall be displayed in a conspicuous place on both the right and left sides of a pilot car a sign showing the name of the company which owns or operates the pilot car. The name shall contrast with the background and shall be of a size, shape, and color as to be readily legible during daylight hours from a distance of 50 feet. Additional markings which do not interfere with the legibility of the name may also be displayed.

Pilot Cars

§ 27904.5. Subject to Section 35783.5, a pilot car shall display neat, clean, and legible signs containing the word “OVERSIZE.” The words “OVERSIZE LOAD,” “WIDE LOAD,” or “LONG LOAD” may be substituted as applicable. The sign shall be a minimum of 48 inches above the ground and shall be legible at 45 degrees from either side when read from the front or rear. The sign shall have a bright yellow background with a
minimum projected area of 440 square inches. The lettering shall be black with a 1-inch minimum brush stroke width and a 6-inch minimum letter height.

Fire Departments

27905. It is unlawful to display on a vehicle any sign with the words “fire” or “fire department” thereon, except on vehicles owned and operated by a regularly organized fire department, fire district, forestry service, or the State Fire Marshal’s Office, and on the privately owned vehicles of any regular member of any such fire departments.

Schoolbuses

27906. (a) Every schoolbus, while being used for the transportation of school pupils at or below the 12th-grade level shall bear upon the front and rear of the bus a plainly visible sign containing the word “schoolbus” in letters not less than eight inches in height. The letters on schoolbus signs shall be of proportionate width.

Exempt as provided in subdivision (b), no other vehicle shall display a sign containing the word “schoolbus.”

(b) Notwithstanding subdivision (a), a schoolbus which is also used to transport persons of any age who are developmentally disabled, as defined by the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code), may display a sign containing the word “schoolbus” while transporting those persons to or from vocational, prevocational, or work training centers sponsored by the State Department of Developmental Services.

(c) Every schoolbus, when operated for the transportation of school pupils at or below the 12th-grade level, shall bear upon the rear of the bus, below the rear windows, a plainly visible sign containing the words “Stop When Red Lights Flash” in letters not less than six inches in height. The letters on schoolbus signs shall be of proportionate width.

Youth Buses

27906.5. Every youth bus, when operated for the transportation of school pupils, shall bear, upon the front and rear of the youth bus, a plainly visible sign containing the words “YOUTH BUS” in letters not less than eight inches in height. The letters on youth bus signs shall be of proportionate width and the letters shall be in sharp contrast to the background.

Taxicab Signs

27908. (a) In every taxicab operated in this state there shall be a sign of heavy material, not smaller than 6 inches by 4 inches, or such other size as the agency regulating the operation of the taxicab provides for other notices or signs required to be in every taxicab, securely attached and clearly displayed in view of the passenger at all times, providing in letters as large as the size of the sign will reasonably allow, all of the following information:

(1) The name, address, and telephone number of the agency regulating the operation of the taxicab.

(2) The name, address, and telephone number of the firm licensed or controlled by the agency regulating the operation of the taxicab.

(b) In the event more than one local regulatory agency has jurisdiction over the operation of the taxicab, the notice required by paragraph (1) of subdivision (a) shall provide the name, address, and telephone number of the agency having jurisdiction in the area where the taxicab operator conducts its greatest volume of business; or, if this cannot readily be ascertained, the agency having jurisdiction in the area where the taxicab operator maintains its offices or primary place of business, provided that the operator conducts a substantial volume of business in such area; or, if neither of the foregoing provisions apply, any agency having jurisdiction of an area where the taxicab operator conducts a substantial volume of business.

(c) As used in this section, “taxicab” means a passenger vehicle designed for carrying not more than eight persons, excluding the driver, and used to carry passengers for hire. “Taxicab” shall not include a charter-party carrier of passengers within the meaning of the Passenger Charter-party Carriers’ Act, Chapter 8 (commencing with Section 5351) of Division 2 of the Public Utilities Code.

Transporting Liquefied Petroleum or Natural Gas

27909. Any vehicle which carries liquefied petroleum gas fuel or natural gas, in a tank attached to a vehicle, in any concealed area, including trunks, compartments, or under the vehicle, shall display on the exterior of the vehicle the letters “CNG,” “LNG,” or “LPG,” whichever type fuel is utilized, in block letters at least one inch high. The letters shall be of contrasting color and shall be placed as near as possible to the area of the location of the tank. Any vehicle fueled by liquefied petroleum gas fuel or by natural gas may also comply with this section by displaying on each side of the vehicle the lettering “LPG” at least 0.25 inch high indicating that the vehicle is fueled by liquefied petroleum gas or natural gas. It is unlawful to dispense liquefied petroleum gas fuel or natural gas into any tank in a concealed area of any vehicle registered in California, unless the vehicle complies with the requirements of this section.

Enforcement of Commercial Vehicle Registration Act: CHP Study

§27910. The Department of the California Highway Patrol shall initiate a 12-month study to determine an effective means to enforce the provisions of the Commercial Vehicle Registration Act of 2001. The Department of the California Highway Patrol, after consultation with representatives from the Department of Transportation, the Board of Equalization, the Department of Motor Vehicles, and the commercial vehicle industry, shall provide, on or before July 1, 2003, recommendations to the Legislature for actions to be taken to ensure compliance with that act.

Article 9. Refrigeration Equipment

(Added Ch. 1335, Stats. 1961. Effective September 15, 1961.)

Refrigerator Vans

28000. Every refrigerator van equipped with one or more doors designed to lock automatically upon closure shall have at least one door which can be opened from inside the van as an emergency means of exit.

For the purposes of this article, “refrigerator van” means any motor truck, semitrailer, or trailer, with a fully enclosed cargo body having an enclosed volume of 15 cubic feet or more, which utilizes a mechanical refrigeration system to reduce the temperature within the enclosed portion of the vehicle to 32 degrees Fahrenheit or less, or which provides refrigeration by the use of dry ice.

Article 10. Odometers

(Added Ch. 1109, Stats. 1967. Effective November 8, 1967.)

True Mileage Driven

28050. It is unlawful for any person to advertise for sale, to sell, to use, or to install on any part of a motor vehicle or on an odometer in a motor vehicle any device which causes the odometer to register any mileage other than the true mileage driven. For the purposes of this section the true mileage driven is that mileage driven by the car as registered by the odometer within the manufacturer’s designed tolerance.

Operation With Nonfunctional Odometer Prohibited

28050.5. It is unlawful for any person with the intent to defraud to operate a motor vehicle on any street or highway knowing that the odometer of such vehicle is disconnected or nonfunctional.

Unlawful to Alter Indicated Mileage

28051. It is unlawful for any person to disconnect, turn back, or reset the odometer of any motor vehicle with the intent to alter the number of miles indicated on the odometer gauge.

Device to Turn Back or Reset Odometer

28051.5. It is unlawful for any person to advertise for sale, to sell, or to use, any device designed primarily for the purpose of turning back or resetting the odometer of any motor vehicle to reduce the number of miles indicated on the odometer gauge.

New Motor Vehicle Warranty: Mileage

28052. If a manufacturer, distributor, or dealer of a new motor vehicle makes any warranty to the purchaser of, and with respect to, a new motor vehicle which is based on the amount of miles that the motor vehicle is driven, only those miles which the motor vehicle has been driven on and after the date that the motor vehicle has first been sold as new to the purchaser shall be considered for purposes of the warranty.

The mileage indicated upon the odometer of the motor vehicle on the date that the motor vehicle is first sold as new to the purchaser shall, for purposes of the warranty, be the mileage upon which the warranty shall commence.

Nothing in this section shall be construed to relieve any person of any criminal punishment to which he would otherwise be subject under Section 28051.

The provisions of this section shall apply only to motor vehicles which are sold on or after the effective date of this section.

Repair of Odometer: Required Information

28053. (a) Nothing in this Article prevents the service, repair, or replacement of an odometer, if the mileage indicated thereon remains the same as before the service, repair, or replacement. If the odometer is incapable of registering the same mileage as before the service, repair, or replacement, the odometer shall be adjusted to read zero and a notice in writing shall be attached to the left doorframe of the vehicle by the person performing the service, repair, or replacement specifying the mileage prior to the service, repair or replacement of the odometer and the date on which it was serviced, repaired, or replaced.

(b) No person shall fail to adjust an odometer or affix a notice regarding the adjustment as required by subdivision (a).

(c) No person shall, with intent to defraud, remove or alter any notice affixed to a vehicle pursuant to subdivision (a).

Article 11. Fire Extinguishers

Recreational Vehicles and Campers

28060. (a) No person shall sell or offer for sale a new recreational vehicle or new camper which is equipped with cooking equipment or heating equipment, and no dealer or person holding a retail seller’s permit shall sell or offer for sale a used recreational vehicle or a used camper which is equipped with cooking or heating equipment, unless such new or used vehicle or new or used camper is equipped with at least one fire extinguisher, filled and ready for use, of the dry chemical or carbon dioxide type with an aggregate rating of at least 4-B:C units, which meets the requirements specified in Section 13162 of the Health and Safety Code.

(b) The operator of a recreational vehicle, or a vehicle to which a camper is attached, which recreational vehicle or camper is equipped with a fire extinguisher as required by subdivision (a), shall carry such fire extinguisher in such recreational vehicle or camper and shall maintain the fire extinguisher in an efficient operating condition.

(c) As used in this section:
(1) “Cooking equipment” means a device designed for cooking which utilizes combustible material, including, but not limited to, materials such as charcoal or any flammable gas or liquid, and “heating equipment” means a device designed for heating which utilizes combustible material, including, but not limited to, materials such as charcoal or any flammable gas or liquid.

(2) “Recreational vehicle” has the same meaning as defined in Section 18010.5 of the Health and Safety Code.

Modified Limousines

28062. (a) A modified limousine shall be equipped with two readily accessible and fully charged fire extinguishers having at least a 2A10BC 5 pound rating and maintained in efficient operating condition. One fire extinguisher shall be securely mounted in the driver’s compartment and at least one shall be accessible to the passengers.

(b) The driver or operator of a modified limousine shall notify the passengers of the location of each fire extinguisher prior to the commencement of any trip.

Article 12. Camper Signaling Devices

Camper Signaling Device

28080. (a) Every motor vehicle upon which a camper is mounted shall be equipped with an audible or visual signaling device which can be activated from inside the camper and which is constructed so as to allow any person inside the camper to gain the attention of the driver of the motor vehicle. In no event shall a horn, as required by Section 27000, be used to violate any provision of this Article or to fail to have any required equipment in good working order.

(b) Any motor vehicle upon which a camper is mounted if a person is able to move between the cab portion of the motor vehicle and the camper.

(c) Any motor vehicle upon which a camper is mounted, which motor vehicle is equipped with a sliding or removable rear window which can be opened or removed by a person inside such camper.

When Signaling Device Not Required

28081. The provisions of Section 28080 shall not apply to either of the following:

(a) Any motor vehicle upon which a camper is mounted if a person is able to move between the cab portion of the motor vehicle and the camper.

(b) Any motor vehicle upon which a camper is mounted, which motor vehicle is equipped with a sliding or removable rear window which can be opened or removed by a person inside such camper.

Article 13. Theft Alarm System

Authorized Systems

28085. Any motor vehicle may be equipped with a theft alarm system which flashes the lights of the vehicle, or sounds an audible signal, or both, and which operates as follows:

(a) The system may flash any of the lights required or permitted on the vehicle.

(b) The system may sound an audible signal.

(c) No vehicle shall be equipped with a theft alarm system which emits the sound of a siren.

Cellular Telephone Operating Instructions

28090. Every renter of a motor vehicle with cellular radio telephone equipment shall provide the person who rents the motor vehicle with written operating instructions concerning the safe use of the equipment. The equipment shall also be clearly labeled with operating instructions concerning the safe use of the equipment.

Penalty

28103. It is unlawful and an infraction for any person to violate any provision of this Article or to fail to have any required equipment in good working order.

Article 16. Methanol or Ethanol Fueled Vehicles

Antisiphoning Device

28110. As used in this article, “antisiphoning device” means a device which prevents the removal by suction of fuel from a motor vehicle.

Required Equipment

28111. Except as otherwise provided in Section 28112, any 1993 and later model-year vehicle which is capable of operating on methanol or ethanol and is imported into the state, or sold, purchased, leased, rented, or acquired in the state, shall be equipped with an antisiphoning device.

Regulations

28112. Notwithstanding subdivision (a) of Section 28111, the State Air Resources Board may adopt regulations providing for exemptions from antisiphoning device requirements for categories of vehicles of 1993 and later model-years which it determines not susceptible to siphoning.

Air Quality Standards: Light and Medium-Duty Vehicles

28113. (a) Every light-duty and medium-duty motor vehicle operated for compensation to transport persons in an air quality management district or air pollution control district, which does not meet all applicable state ambient air quality standards, shall be a low-emission vehicle, as defined by regulation of the State Air Resources Board. If the vehicle is capable of operating on more than one fuel, it shall be operated within any nonattainment area to the maximum extent practicable either on the designated clean fuel on which the low-emission vehicle was certified or on any other fuel designated by the State Air Resources Board as a substitute fuel for the designated clean fuel. Any air quality management district or air pollution control district may adopt regulations for the enforcement of this section which are consistent with regulations of the State Air Resources Board.

(b) As used in this section, “motor vehicle operated for compensation to transport persons” includes a taxi cab, bus, airport shuttle vehicle, transit authority or transit district vehicle, or a vehicle owned by a private entity providing transit service under contract with a transit district or transportation authority.

(c) As used in this section, “light-duty” has the same meaning as defined in Section 39035 of the Health and Safety Code.

(d) As used in this section, “medium-duty” has the same meaning as defined in Section 39037.5 of the Health and Safety Code.

(e) This section applies to all new light-duty motor vehicles purchased on or after January 1, 1997, and to all new or replacement engines purchased on or after January 1, 1996, for use in heavy-duty vehicles.

Article 17. Jamming Devices

Jamming: Electronic Speed-Measuring Devices

28150. (a) No vehicle shall be equipped with any device that is designed for, or is capable of, jamming, scrambling, neutralizing, disabling, or otherwise interfering with radar, laser, or any other electronic device used by a law enforcement agency to measure the speed of moving objects.

(b) No person shall use, buy, possess, manufacture, sell, or otherwise distribute any device that is designed for jamming, scrambling, neutralizing, disabling, or otherwise interfering with radar, laser, or any other electronic device used by a law enforcement agency to measure the speed of moving objects.

(c) Except as provided in subdivision (d), a violation of subdivision (a) or (b) is an infraction.

(d) When a person possesses four or more devices in violation of subdivision (b), the person is guilty of a misdemeanor.

(e) Notwithstanding any other provision of law, a person who has a valid federal license for operating the devices described in this section may transport one or more of those devices if the license is carried in the vehicle transporting the device at all times when the device is being transported.

Air Quality Standards: Heavy Duty Vehicles

28114. (a) Every heavy-duty vehicle operated by a transit authority or transit district, or owned by a private entity providing transit service under contract with a transit district or transportation authority, and used to transport persons for compensation shall meet the emission standards adopted by the State Air Resources Board pursuant to Section 43806 of the Health and Safety Code.

(b) As used in this section, “heavy-duty” has the same meaning as defined in Section 39033 of the Health and Safety Code.

(c) This section applies to all new heavy-duty motor vehicles purchased on or after January 1, 1996, and all new or replacement engines purchased on or after January 1, 1996, for use in heavy-duty vehicles.

DIVISION 13. TOWING AND LOADING EQUIPMENT

CHAPTER 1. TOWING EQUIPMENT

Application of Chapter

§29000. Unless specified, this Chapter does not apply to tow trucks or to the drawbar or other connection between a motor vehicle and a pole or pipe dolly or logging dolly or to any lawful trailer used as a pole or pipe dolly.

§29001. The upper and lower halves of every fifth wheel connecting device on any semitrailer and truck-tractor or auxiliary dolly shall be securely affixed to the vehicles to prevent shifting of the device on the vehicle to which it is attached.

§29002. Every fifth wheel mechanism, including adapters, shall be equipped with a locking device which will not permit the upper and lower halves to be separated without the operation of a positive manual release. The manual release shall be designed, installed, and maintained so that it cannot be accidentally operated. Automatic locking devices on fifth wheels designed and constructed to be readily separable are required on any vehicle first required to be registered in this state after January 1, 1954.

§29003. (a) Every hitch or coupling device used as a means of attaching the towed and towing vehicles shall be properly and securely mounted and be structurally adequate for the weight drawn. The mounting of the hitch or coupling device on the towing and towed vehicle shall include sufficient reinforcement or bracing of the frame to provide sufficient strength and rigidity to prevent undue distortion of the frame.

§29004. (a) (1) Except as required under paragraph (2), a towed vehicle shall be coupled to the towing vehicle by means of a safety chain, cable, or equivalent device in addition to the regular drawbar, tongue, or other connection.

§29005. When one vehicle is towing another, the drawbar or other connection shall not exceed 15 feet.
Coupling of Towed Vehicles

29006. (a) No person shall operate a vehicle towing another motor vehicle upon a freeway unless the towing vehicle is coupled to the towed vehicle by a rigid structure attached securely to both vehicles by nonrigid means.

(b) The requirements of subdivision (a) are not applicable to a vehicle towing a motor vehicle which has been disabled and is being towed from the point of disablement to the nearest and most accessible exit from the freeway.

Driveaway-Towaway Operations

29007. The requirements of Section 29004 shall not apply to vehicles engaged in driveaway-towaway operations if all the following conditions are met:

(a) The towed vehicle has one end supported by the towing vehicle.

(b) The towed vehicle is secured to the towing vehicle by a device designed and constructed as to be readily demountable and to perform the functions of a fifth-wheel-type connection.

(c) The fifth-wheel-type connection device is securely affixed to the vehicles to prevent shifting of the device on the vehicles to which it is attached.

(d) The fifth-wheel-type connection device provides a means of variation of inclination between the towing and towed vehicle due to vertical curvatures of the highway. Such means shall not depend upon either the looseness or deformation of the connection or the vehicles to provide for such variation.

Trailer Supporting Truck Crane Boom

29008. Sections 29004 and 29005 shall not apply to trailers or dollies used to support booms attached to truck cranes if the following conditions are met:

(a) The trailer or dolly is connected to the boom by a pin, coupling device, or fifth wheel assembly.

(b) The trailer is secured to the boom with a chain, cable, or equivalent device of sufficient strength to control the trailer or dolly in case of failure of the connection consisting of a pin, coupling device, or fifth wheel assembly.

Amended Sec. 664, Ch. 538, Stats. 2006. Effective January 1, 2007.

Dolly Supporting Special Construction Equipment

29009. The requirements of Section 29004 do not apply to a dolly used to support a portion of special construction equipment, as defined in Section 565, which, due to its size or weight is being operated under the authority of a permit issued by the Department of Transportation, if the dolly is secured to the construction equipment, and the construction equipment is secured to the towing vehicle, by chain, cable, or equivalent devices of sufficient strength to control the construction equipment and dolly.

Chapter 5. Transporting Other Loads

Article 1. Hazardous Materials

Caldecott Tunnel Restriction

31301. (a) No person shall transport any explosive substance, flammable liquid, liquefied petroleum gas or poisonous gas in a tank truck, trailer, or semitrailer through the Caldecott Tunnel located on State Highway, Route 24, near the Alameda-Contra Costa County boundary, connecting Oakland with Contra Costa County in the East Bay area at any time other than between the hours of 3 a.m. to 5 a.m.

(b) The Department of Transportation may, in compliance with the requirements of Article 1 (commencing with Section 22400) of Division 11, determine and declare a reduced speed limit, lower than the maximum speed of 55 miles per hour, found most appropriate for traffic safety between the hours of 3 a.m. and 5 a.m.

(c) Nothing in this section shall be construed as a limitation or restriction on the power of the Department of Transportation, conferred by any other provision of law, to adopt regulations with regard to the movement of vehicles, including, but not limited to, tank truck vehicles transporting any cargo specified under subdivision (a) through the Caldecott Tunnel.

If, pursuant to any such other law, the Department of Transportation adopts or amends regulations after the effective date of this section, which adopted or amended regulations govern the movement of vehicles subject to subdivision (a), then on the operative date of those regulations, this section shall no longer be operative.

Hazardous Waste and Materials: Transportation Requirements: Penalties

31303. (a) The provisions of this section apply to the highway transportation of hazardous materials and hazardous waste for which the display of placards or markings is required pursuant to Section 27903. This section does not apply to hazardous materials being transported on specified routes pursuant to Section 31616 or 33000.

(b) Unless restricted or prohibited pursuant to Section 31304, the transportation shall be on state or interstate highways which offer the least overall transit-time whenever practicable.

(c) The transporter shall avoid, whenever practicable, congested thoroughfares, places where crowds are assembled, and residence districts as defined in Section 515.

(d) Vehicles used for the transportation shall not be left unattended or parked overnight in a residence district as defined in Section 515.

(e) When transporting hazardous waste pursuant to Section 25169.3 of the Health and Safety Code, all provisions of the waste hauler transportation safety plan, as approved by the Department of Toxic Substances Control, shall be complied with.

(f) Transportation which deviates from the routes required by this section shall not be excused on the basis of operating convenience.

(g) Notwithstanding subdivisions (b) and (e), vehicles engaged in the transportation may also use any of the following highways:

(1) Highways which provide necessary access to local pickup or delivery points consistent with safe vehicle operation.

(2) Highways which provide reasonable access to fuel, repairs, rest, or food facilities that are designed and intended to accommodate commercial vehicle parking, when that access is consistent with safe vehicle operation and when the facility is within one-half road mile of points of entry or exit from the state or interstate highway being used.
§31307

(3) Highways restricted or prohibited pursuant to this section when no other lawful alternative exists.

(h) This section shall become operative on January 1, 1987.

Additional Requirements

§31304. (a) The transportation of hazardous materials and hazardous waste for which the display of placards or markings is required pursuant to Section 27903 may be restricted or prohibited, by the Department of the California Highway Patrol, after consultation with the Department of Transportation, with regard to state or interstate highways, or by a city or county by ordinance or resolution, after formal notice to the Department of the California Highway Patrol and with the concurrence of their appropriate transportation planning agency defined in Section 29532 of the Government Code, with regard to specified highways under their control, if all of the following requirements are met:

(1) The respective highway is appreciably less safe than a reasonable alternate highway as determined by using either of the following criteria:

(B) The Department of the California Highway Patrol or the city or county, whichever has jurisdiction pursuant to subdivision (a), determines that the respective highway is located within the watershed of a drinking water reservoir which meets all of the following requirements:

(i) The reservoir is owned or operated by a public water system, as defined in Section 116275 of the Health and Safety Code.

(ii) The reservoir has a capacity of at least 10,000 acre feet.

(iii) The reservoir directly serves a water treatment plant, as defined in Section 116275 of the Health and Safety Code.

(iv) The reservoir is impounded by a dam, as defined in Section 6002 of the Water Code.

(v) The reservoir’s shoreline is located within 500 feet of the highway.

(2) The restriction or prohibition on the use of the highway pursuant to this section is not precluded or preempted by federal law.

(3) The restriction or prohibition does not eliminate necessary access to local pickup or delivery points consistent with safe vehicle operation; does not eliminate reasonable access to fuel, repairs, rest, or food facilities that are designed and intended to accommodate commercial vehicle parking, when that access is consistent with safe vehicle operation and when the facility is within one-half road mile of points of entry or exit from the state or interstate highway being used; or does not restrict or prohibit the use of highways when no other lawful alternative exists.

(4) Written concurrence has been obtained from affected surrounding jurisdictions, including, but not limited to, state agencies, counties, cities, special districts, or other political subdivisions of the state, that the proposed restriction or prohibition is not incompatible with through transportation. If written concurrence is not granted by one of the affected surrounding jurisdictions, that action may be appealed to the appropriate transportation planning agency for final resolution.

(5) The highway is posted by the agency responsible for highway signs on that highway in conformity with standards of the Department of Transportation.

(6) A list of the routes restricted or prohibited is submitted to the Department of the California Highway Patrol.

(7) The highway is included in a list of highways restricted or prohibited pursuant to this section which is published by the Department of the California Highway Patrol and is available to interested parties for not less than 14 days.

(b) Notwithstanding any prohibition or restriction adopted pursuant to subdivision (a), deviation from restricted or prohibited routes is authorized in an emergency or other special circumstances with the concurrence of a member of the agency having traffic law enforcement authority for the highway.

Preemption of Local Restrictions

§31305. (a) Upon receipt of a written petition from a local jurisdiction or motor carrier adversely affected by a restriction or prohibition adopted pursuant to Section 31304, the Department of the California Highway Patrol may preempt any local restriction or prohibition that, in its opinion, is not compatible with reasonable and necessary access or the use of highways when no other lawful alternative exists as provided for in paragraph (3) of subdivision (a) of that section, or through transportation as provided for in paragraph (4) of subdivision (a) of that section.

(b) Upon receipt of a written petition from a local jurisdiction or motor carrier adversely affected by a preemption issued pursuant to subdivision (a), the Department of the California Highway Patrol, after holding a public hearing, shall render a decision upholding or denying the petition.

(c) This section shall become operative on January 1, 1987.

List of Restricted Highways

§31306. (a) A list of highways restricted or prohibited pursuant to subdivision (a) of Section 31304 shall be published or updated by the Department of the California Highway Patrol semiannually.

(b) This section shall become operative on January 1, 1987.

Unlawful Operation: Penalties

§31307. (a) It is unlawful for the owner of any vehicle or the authorized agent of the owner to drive, or to direct or knowingly permit the driving of, the vehicle in violation of Section 31303 or 31304. Violation of any of these sections is a misdemeanor punishable as follows:

(1) For a first violation, a fine not exceeding five hundred dollars ($500), imprisonment in the county jail not exceeding 60 days, or both the fine and imprisonment.

(2) For a second violation within a 12-month period, a fine not exceeding one thousand dollars ($1,000), imprisonment in the county jail not exceeding 60 days, or both the fine and imprisonment.

(3) For a third or subsequent violation within a 12-month period, a fine not exceeding two thousand five hundred dollars
§31308

($2,500), imprisonment in the county jail not exceeding 120 days, or both the fine and imprisonment.

(b) Additionally, upon recommendation of the Department of the California Highway Patrol, three or more violations of these sections constitute grounds for suspension or revocation of registration, or denial of an application for registration under Section 25163 of the Health and Safety Code by the State Department of Toxic Substances Control. Proceedings in these cases shall be subject to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) This section shall become operative on January 1, 1987.

Operation of Other Law

§31308. (a) Nothing contained in Section 31303 or 31304 shall be deemed to exempt any person subject to these sections from other provisions of this code.

(b) This section shall become operative on January 1, 1987.

Hazardous Materials: Transportation: Placards

§31309. Notwithstanding Section 34500 and subdivision (a) of Section 34501, the transportation of hazardous materials in a manner requiring that placards be displayed on the transporting vehicle pursuant to Section 27903, shall comply with regulations adopted by the California Highway Patrol pursuant to subdivision (b) of Section 34501.

Article 2. Vehicles Transporting Workmen

(Added Ch. 1019, Stats. 1968. Operative July 1, 1969.)

Equipment Required

§31400. Trucks used primarily or regularly for the transportation of workmen shall be:

(a) Equipped with seats securely fastened to the vehicle.

(b) Equipped, if a motortruck, with a railing or other suitable enclosure on the sides and end of the vehicle not less than 46 inches above the floor of the vehicle.

(c) Equipped with steps, stirrups, or other equivalent devices so placed and arranged that the vehicle may be safely mounted and dismounted.

Farm Labor Vehicles: Regulations: Inspections

§31401. (a) The department shall adopt regulations designed to promote the safe operation of farm labor vehicles described in Section 322, including, but not limited to, vehicular design, equipment, passenger safety, and seating.

(b) The department shall inspect every farm labor vehicle required under subdivision (b) of Section 34501 as follows:

(1) The owner or operator of a farm labor vehicle that has a current inspection certificate pursuant to Section 31401 shall make the request for inspection not later than four weeks prior to the expiration date of the certificate.

(2) The owner or operator of a farm labor vehicle required to have its initial inspection shall make the request for inspection not later than three business days prior to the requested date.

(c) In no event shall the owner or operator of a farm labor vehicle allow the operation of a farm labor vehicle without the proper certification requirements specified under Section 31401.

Operation of Unsafe Farm Labor Vehicles: Penalties

§31402. (a) No person may operate any farm labor vehicle except as may be necessary to return the unladen vehicle or combination of vehicles to the residence or place of business of the owner or driver, or to a garage, after notice by the department to the owner that the vehicle is in an unsafe condition or is not equipped as required by this code, or any regulations adopted thereunder, until the vehicle and its equipment have been made to conform with the requirements of this code, or any regulations adopted thereunder, and approved by the department.

(b) (1) A person who operates a farm labor vehicle in violation of this section while the vehicle is in a condition that presents an immediate safety hazard is guilty of a misdemeanor punishable by a fine of not less than one thousand dollars ($1,000) and not more than five thousand dollars ($5,000), or both that fine and a sentence of confinement for not more than
six months in the county jail. No part of any fine imposed under this subdivision may be suspended.

(2) As used in this subdivision, an “immediate safety hazard” is any equipment violation described in subdivision (a) of Section 31401 or Section 31405, including any violation of a regulation adopted pursuant to that provision or those provisions.

(c) Any member of the Department of the California Highway Patrol may impound a farm labor vehicle operated in violation of this section pursuant to Section 34506.4. A farm labor vehicle shall not be impounded unless a member of that department determines that a person has failed to comply with subdivision (a) or a person fails to comply with a lawful out-of-service order, as described in subdivision (b) of Section 2800.

Mechanic Certification of Farm Labor Vehicle

§31403. A farm labor vehicle known to an owner, farm labor contractor, or driver, to be unsafe, or not equipped as required by this code, or any regulations adopted thereunder, shall not be used for transporting any passengers until it is examined and repaired or equipped as required by this code, or any regulations adopted thereunder, and certified by a competent mechanic to be safe and lawfully equipped.

Farm Labor Vehicles: Penalty for Violation of Regulations

§31404. Any person who operates, or any owner or farm labor contractor who knowingly allows the operation of, a farm labor vehicle in violation of subdivision (b) or (d) of Section 31401 or Section 31402 or 31403 is guilty of a misdemeanor. When a person has been convicted of willfully violating those provisions, the person shall, in addition, be fined not less than one thousand dollars ($1,000) for each violation, and no part of the fine may be suspended. If passengers are in the vehicle at the time of the violation, the person shall, in addition, be fined five hundred dollars ($500) for each passenger, not to exceed a total of five thousand dollars ($5,000) for each violation, and no part of this fine may be suspended. As used in this section, the terms “knowingly” and “willfully” have the same meaning as prescribed in Section 7 of the Penal Code.

Amended Sec. 4, Ch. 556, Stats. 1999. Effective September 29, 1999.

Farm Labor Vehicles: Seatbelt Equipment

§31405. (a) Except as authorized under paragraph (1) of subdivision (e), every farm labor vehicle issued an inspection certificate under Section 31401 shall be equipped at each passenger position with a Type 1 or Type 2 seatbelt assembly, conforming to the specifications set forth in Section 571.209 of Title 49 of the Code of Federal Regulations, that is anchored to the vehicle in a manner that conforms to the specifications of Section 571.210 of Title 49 of the Code of Federal Regulations.

(b) Except as authorized under paragraph (1) of subdivision (e), the department may not issue an initial inspection certificate under Section 31401 to any farm labor vehicle that is not equipped with a seatbelt assembly at each passenger position, as described in subdivision (a).

(c) The owner of a farm labor vehicle shall maintain all seatbelt assemblies and seatbelt assembly anchorages required under this section in good working order for the use of passengers.

(d) Except as authorized under paragraph (1) of subdivision (e) or subdivision (d) of Section 23116, no person may operate a farm labor vehicle on a highway unless that person and all passengers are properly restrained by a seatbelt assembly that conforms to this section.

(e) (1) Until January 1, 2007, this section does not apply to a farm labor vehicle that meets the definition in subdivision (a) of Section 233, meets all state and federal standards for safety and construction, and is not currently required to have seatbelts.

(2) On or after January 1, 2007, any farm labor vehicle that meets the conditions set forth in paragraph (1) shall be equipped at each passenger position with a seatbelt assembly as described in subdivision (a), unless exempted from this requirement under the regulations promulgated under Section 31401.

(f) The department shall adopt regulations to implement this section.

Farm Labor Vehicles: Passenger Seating

§31406. (a) No person may be transported in a farm labor vehicle that does not have all passenger seating positions in compliance with Section 571.207 of Title 49 of the Code of Federal Regulations, as that provision exists now or may hereafter be amended.

(b) No person may install a seat or seating system in a farm labor vehicle unless that seat or seating system is in compliance with Section 571.207 of Title 49 of the Code of Federal Regulations, as that provision exists now or may hereafter be amended.

(c) This section shall become operative on March 31, 2002.

Farm Labor Vehicles: Transporting of Tools

§31407. All cutting tools or tools with sharp edges carried in the passenger compartment of a farm labor vehicle shall be placed in securely latched containers that are firmly attached to the vehicle. All other tools, equipment, or materials carried in the passenger compartment shall be secured to the body of the vehicle to prevent their movement while the vehicle is in motion. Under no circumstances shall those tools, equipment, or materials obstruct an aisle or an emergency exit.

Farm Labor Vehicles: Headlamps

§31408. No person may operate a farm labor vehicle on a highway unless both headlamps required under Section 24400 are lighted, regardless of the time of day.

Farm Labor Vehicles: publicly Owned or Operated: Requirements

§31409. Notwithstanding paragraph (2) of subdivision (c) of Section 322, any vehicle owned or operated by or for a public transit system that is purchased with funds appropriated pursuant to Item 2660-103-0046 of Section 2.00 of the Budget Act of 2000 (Chapter 52 of the Statutes of 2000) or pursuant to Section 5309 of Title 49 of the United States Code and is used
to transport farmworkers for any farmworker transportation program shall comply with the farm labor vehicle provisions contained in, and the regulations promulgated under, this chapter, relating to the following:

(a) (1) Annual farm labor vehicle inspection and certification.

(2) Following initial certification, the inspection and certification of buses designed, used, or maintained for carrying more than 15 persons, including the driver, shall be conducted during the inspection required by subdivision (c) of Section 34501.

(b) Seatbelt installation.

(c) Illumination of headlamps.

(d) Storage and securing of tools in passenger compartments.

Article 7. Tank Containers
(Added Ch. 1580, Stats. 1963. Effective September 15, 1963.)

Regulations Governing
31540. (a) The department shall adopt and enforce such regulations as it determines are necessary for public safety regarding the transportation of:

(1) Freight van or tank containers which can be removed from the running gear or chassis of a truck or trailer, and

(2) Collapsible containers used to transport liquids on flatbed vehicles.

(b) It is unlawful to fail to comply with any provision of the regulations adopted by the department.

Article 8. Waste Tires

Used or Waste Tire Haulers
31560. (a) A person operating a vehicle, or combination of vehicles, in the transportation of 10 or more used tires or waste tires, or a combination of used tires and waste tires totaling 10 or more, as defined in Section 42950 of the Public Resources Code, shall be registered with the California Integrated Waste Management Board, unless specifically exempted, as provided in Chapter 19 (commencing with Section 42950) of Part 3 of Division 30 of the Public Resources Code and in regulations adopted by the board to implement that chapter.

(b) It is unlawful and constitutes an infraction for a person engaged in the transportation of 10 or more used tires or waste tires, or a combination of used tires and waste tires totaling 10 or more, to violate a provision of this article or Section 42951 of the Public Resources Code.

DIVISION 14. TRANSPORTATION OF EXPLOSIVES

Explosives Defined

31600. For the purposes of this division “explosive” or “explosives” means any substance, or combination of substances, the primary or common purpose of which is detonation or rapid combustion and which is capable of a relatively instantaneous or rapid release of gas and heat. “Explosive” or “explosives” includes, but is not necessarily limited to, explosives as defined in Section 12000 of the Health and Safety Code, and any of the following:

(a) Dynamite, nitroglycerine, picric acid, lead azide, fulminate of mercury, black powder, smokeless powder, propellant explosives, detonating primers, blasting caps, commercial boosters, ammonium nitrate-fuel oil mixture (blasting agent), or any explosives as defined in Section 841 of Title 18 of the United States Code and published pursuant to Section 555.23 of Title 27 of the Code of Federal Regulations, when transported in a combined load with any explosive, as defined in this section.

(b) Substances determined to be division 1.1, 1.2, 1.3, or 1.6 explosives as classified by the United States Department of Transportation.

(c) “Explosive” or “explosives” does not include small arms ammunition or any other division 1.4 explosive.

(d) This division shall not apply to special fireworks classified by the United States Department of Transportation as division 1.2 or 1.3 explosives when those special fireworks are regulated by and in conformance with Part 2 (commencing with Section 12500) of Division 11 of the Health and Safety Code.

(e) Nothing in this Chapter supersedes any regulations for the transportation of hazardous materials as defined in Section 2402.7 or as regulated in Division 14.1 (commencing with Section 32000).

Application of Division

31601. (a) This division shall apply to the operation of any motor vehicle on any highway, and to the operation and parking of any vehicle on any property designated pursuant to this division as a safe stopping place for the purpose of transporting any explosive in any amount when the transportation is rendered as a delivery service or for hire, or in any other event for the purpose of transporting any explosive or a combined load of any explosive and ammonium nitrate-fuel oil mixture (blasting agent) in an amount in excess of 1,000 pounds. The transportation of quantities of explosives of 1,000 pounds or less, or other than on a public highway, is governed by Division 11 (commencing at Section 12000) of the Health and Safety Code. Notwithstanding other provisions of this section, a license required by Section 31602 may be used to transport quantities of less than 1,000 pounds of explosives if all other requirements of this division are met.

(b) It is the legislative intention in enacting this division and with particular reference to requiring licenses for transportation of explosives as set forth herein that such provisions shall apply uniformly throughout the State of California and that such license to be obtained from the Department of the California Highway Patrol, as provided in Chapter 2.5 (commencing with Section 2500) of Division 2, shall be in lieu of any requirement for any license to be obtained by any such owner from any local authority within the state.

License: Routes to Be Used

31602. (a) It is a misdemeanor for any owner of a vehicle to drive or permit the driving of the vehicle on any public highway for the purpose of transporting any explosive as defined herein and within the scope of Section 31601 unless the owner then holds a valid license for the transportation of explosives as provided in this division, except such persons as are expressly exempted in this division.

(b) It is a misdemeanor for the owner, or authorized agent of the owner, of any vehicle transporting explosives to drive, or to permit the driving of the vehicle, or for the driver to drive such vehicle, upon any public highway, not designated in regulations adopted by the Department of the California Highway Patrol as a route for the transportation of explosives, unless the use of the highway is required to permit delivery of, or the loading of, explosives at a point not on a highway designated as a route for the transportation of explosives, or unless the use of the highway is required to permit the vehicle to proceed to, and return from, a point designated as an inspection stop pursuant to this division.

(c) It is a misdemeanor for the driver of any vehicle transporting explosives to stop at any place not designated as a safe stopping place unless the vehicle is disabled or except when necessary to avoid conflict with other traffic or to comply with the orders of a peace officer or an official traffic control device. A safe stopping place is any location designated by the Department of the California Highway Patrol where the driver may stop for food, fuel or other necessary reasons and any location designated by the Department of the California Highway Patrol as a safe parking place, a safe stopping place, or as an inspection stop for purposes of this division.

(d) In the event the owner of a vehicle leases the same to be used in the transportation of explosives for which a license is required, the lessee shall be deemed the owner for the purposes of this division.

Inspection of Vehicle Transporting Explosives

31607. (a) Any person operating or permitting the operation of a vehicle or combination of vehicles used in the transportation of explosives and subject to this division shall make or cause to be made an inspection of every said vehicle or combination of vehicles as hereinafter set forth.

(b) Such inspection as called for in Section 31608 shall be made immediately preceding the actual transportation of explosives by the vehicle and whenever there is an interchange of any vehicle operating in combination with any other vehicle in the transportation of explosives.

(c) Inspection of tires and brakes shall also be made en route at suitable intervals, off the roadway, at inspection stops established by the Department of the California Highway Patrol, at regular stops, terminal points, or driver-change points.

Scope of Inspection
31608. The inspection of a vehicle required under subdivision (b) of Section 31607 shall include inspection of the following:
(a) Brakes and the brake system.
(b) The ignition and lighting systems.
(c) All tires on the equipment.
(d) All supplemental equipment as required by Section 31610.

Record of Inspection
31609. Every person operating a vehicle or combination of vehicles in the transportation of explosives subject to this division shall complete a record of every inspection which is required under Sections 31607 and 31608 in such form as approved by the Department of the California Highway Patrol showing the time and place of every inspection. The person making the inspection shall certify the fact in the record. The forms may be based upon the type used by the United States Department of Transportation. The record of every inspection shall be made at the time such inspection is conducted.

Requirements in Respect to Equipment
31610. Every vehicle or combination of vehicles used in the transportation of explosives and subject to this division, in addition to any other equipment required by law, shall be equipped and maintained as required by this section.
(a) Brakes and the brake system shall be maintained in good and safe operating condition.
(b) The ignition and lighting systems shall be maintained in good operating condition.
(c) All tires shall be in good condition, properly matched and inflated. Except as may be necessary to cause immediate replacement, no vehicle shall be driven unless all tires in actual use on the vehicle are properly inflated.
(d) Fire extinguishers and other safety equipment prescribed by regulations adopted by the department pursuant to subdivision (f) of Section 34500 and 34501 shall be carried in each vehicle or combination of vehicles.
(e) No flare, fuse, oil lantern, or any signal device producing a flame shall be carried upon any vehicle or combination of vehicles.

Instructions to Drivers
31611. Every owner of a vehicle used in the transportation of explosives and subject to this division shall make available in each vehicle the latest map showing the routes which are to be used for the transportation of explosives which has been furnished for the vehicle by the Department of the California Highway Patrol, a list of the safe stopping places prescribed by the regulations of the Department of the California Highway Patrol for vehicles transporting explosives. The owner shall require that the driver be thoroughly familiar with the provisions of this division before operating any vehicle in the transportation of explosives.

Shipping Instructions
31612. Persons operating vehicles, or combinations of vehicles, in the transportation of explosives and subject to this division, shall not accept any explosives for transportation unless the shipment is accompanied by a bill of lading or other shipping paper supplied by the shipper, showing the kind of explosives and bearing a statement that they have been packaged, labeled and marked in accordance with regulations of the United States Department of Transportation, and the bill of lading or other shipping paper shall be carried in the vehicle while en route and shall be displayed upon demand of any member of the California Highway Patrol or any police officer of a city who is on duty for the exclusive or main purpose of enforcing the provisions of this code.

Certain Cargoes Prohibited
31613. There shall not be included in any cargo of explosives any flammable liquids, acids, or corrosive liquids, oxidizers, or combustible materials, other than the explosives themselves, which may have such characteristics. Blasting caps or detonators shall not be transported upon the same vehicle with other explosives, nor shall electric blasting caps be transported upon any vehicle equipped with a radio transmitter. The foregoing provisions of this section shall be subject to such exceptions as are permitted by the United States Department of Transportation loading chart for cargoes of explosives.

Traffic Laws Applicable to Transportation of Explosives
31614. The following provisions shall apply to any vehicle transporting explosives subject to this division:
(a) When transporting explosives through or into a city or any other congested area for which a route has not been designated by the Department of the California Highway Patrol, drivers shall follow such routes as may be prescribed or established by local authorities.
(b) Where routes are not prescribed by local authority, every driver of a vehicle transporting explosives shall avoid, so far as practicable, and, where feasible, by rearrangement of routes, driving into or through congested thoroughfares, places where crowds are assembled, streetcar tracks, tunnels, viaducts, and dangerous crossings.
(c) No driver or other person in charge of any vehicle on any public or private property shall permit any explosive to be loaded into, or on, or to be unloaded from any motor vehicle with the engine running, and, whenever any loading operation is in progress, the parking brake on the motor vehicle shall be securely set and all reasonable precautions taken to prevent movement of the motor vehicle during loading or unloading.
(d) No driver or other person in charge of such vehicle shall operate or permit the operation of any vehicle transporting explosives unless all of that portion of the lading which consists of explosives is contained entirely within the body of the motor vehicle or within the horizontal outline thereof, without overhang or projection of any part of the load, and if such motor vehicle has a tailboard or tailgate it shall be closed and secured in place during such transportation.
(e) Every motor vehicle transporting explosives shall have either a closed body or have the explosive cargo covered with a fire- and water-resistant tarpaulin, and in either event, care
shall be taken to protect the load from moisture and sparks. Subject to other exceptions as are permitted by the United States Department of Transportation regulations, explosives may be transported on flat-bed vehicles if the explosive portion of the load on each vehicle is packed in fire- and water-resistant containers or covered with a fire- and water-resistant tarpaulin.

(f) No person shall operate any vehicle transporting explosives past any fire of any kind burning on or near the highway until the driver ascertains that such passing can be made with safety.

(g) No motor vehicle transporting explosives shall be left unattended upon any street or highway except in extreme emergency. The vehicle shall be deemed attended whenever a driver or person in charge thereof is in or upon the vehicle or is in a position to observe the vehicle at all times. The driver or person in charge of a vehicle transporting explosives may, however, leave the vehicle unattended at any place designated as a safe parking place on the list of safe stopping places prepared by the Department of the California Highway Patrol unless conditions exist, which are known to the driver, which make it unreasonable to do so.

(h) No driver or other person shall smoke or light any match or otherwise have or produce any fire or flame while in, upon, or near any vehicle transporting explosives.

(i) No person shall transport any explosives in a passenger vehicle, or bus, which is subject to this division.

31615. Nothing contained in this division shall be deemed to exempt any vehicle transporting explosives and subject to this division, or the owner or any other person, from other provisions of this code, but all such other provisions relating to the driving and movement of vehicles, the size, weight, and equipment thereof, shall be deemed to apply as applicable to each and every vehicle engaged in transporting explosives subject to this division.

Designation of Routes

31616. The Department of the California Highway Patrol, after consultation with the officials having the responsibility for the prevention and suppression of fire in communities through which routes for the transportation of explosives pass, representatives of transportation companies concerned, explosives manufacturers, and the State Fire Marshal shall, by regulation, designate the routes in this state which are to be used for the transportation of explosives. The Department of the California Highway Patrol shall prepare for distribution to persons engaged in the transportation of explosives, maps which clearly indicate the routes, as established in regulations, which are to be used for the transportation of explosives. The Department of the California Highway Patrol shall prepare for distribution to persons engaged in the transportation of explosives a list of locations of required inspection stops, safe parking places, and safe stopping places and shall revise the list to keep it current. Notwithstanding any other provision of law, regulations adopted pursuant to this section shall be adopted in accordance with Chapter 3.5 (commencing with Section 11346) of Part 1 of Division 3 of Title 2 of the Government Code, except that, for the purposes of subdivision (a) of Section 11346.4 of the Government Code, the public comment period shall be 30 days, and the regulations shall become effective upon filing with the Secretary of State.

Review of Route Regulations

31616.5. Notwithstanding Section 11349.3 of the Government Code, the review by the Office of Administrative Law of regulations adopted pursuant to Section 31616 shall be completed within 15 days after the regulations have been submitted to the Office of Administrative Law for review.

Emergency Changes

31617. In the event of an emergency, the Department of the California Highway Patrol is authorized to suspend or change any designated route for the transportation of explosives or to temporarily designate new or additional routes for such transportation. The Department of the California Highway Patrol shall, unless the nature of the emergency makes it impracticable to do so, consult with local fire officials in the area or areas affected before making any such changes or new designations. If the changes or new designations are made before they can be discussed with those officials, the Department of the California Highway Patrol shall immediately notify the appropriate officials of his action.

The change in or new designation of routes shall not be effective for more than 90 days from the date of such action, unless the Department of the California Highway Patrol determines that the change or new designation should become permanent, in which case the Department of the California Highway Patrol shall, within the 90-day period, initiate action to make the change or new designation permanent in accordance with the provisions of Section 31616 and in which case the emergency change or designation shall remain in effect until superseded by a regulation of the Department of the California Highway Patrol.

Violation: Misdemeanor

31618. Where not specifically provided otherwise, it is a misdemeanor for any person to violate any provision of this division. Every person convicted of a misdemeanor for a violation of any of the provisions of this division shall be punished as follows:

(a) For a first violation, by a fine of not less than one thousand dollars ($1,000), or by imprisonment for not more than six months, or by both and imprisonment.

(b) For a second or subsequent violation, by a fine of not less than two thousand dollars ($2,000) or by imprisonment for not more than six months, or by both fine and imprisonment.

Smokeless Powder

31619. When not in conflict with any local ordinance pertaining to the transportation of explosives, it shall be lawful to transport smokeless powder in an amount not exceeding 100 pounds if packed in containers prescribed by the United States Department of Transportation upon a highway not designated by the Department of the California Highway Patrol as a route for the transportation of explosives.

§31620

Waiver or Suspension of Requirement

31620. The Department of the California Highway Patrol, upon application of any interested party, with the concurrence of the fire chief or chiefs in the area or areas affected, and if he determines that such action may be taken without jeopardizing the public safety, may suspend, or waive compliance with, the whole or any part of the requirements of this division insofar as they apply to the delivery or transportation of explosives in sparsely populated, unincorporated areas or in any area where there may be practical difficulties or unnecessary or unreasonable hardship in carrying out the provisions of this division. No person shall be charged with any crime for any violation of the provisions of this division when such a suspension or waiver by the Department of the California Highway Patrol is in effect in the area in which the alleged violation occurs.

§32001  
(Added Ch. 860, Stats. 1981. Effective January 1, 1982.)

CHAPTER 1. LICENSING

License to Transport Hazardous Material

32000.5. (a) A motor carrier who directs the transportation of an explosive and a motor carrier who directs the transportation of a hazardous material, who is required to display placards pursuant to Section 27903, and a motor carrier who transports for a fee in excess of 500 pounds of hazardous materials for a carrier who, within the previous three years, has been issued an unsatisfactory rating as a result of an inspection conducted pursuant to Section 34501, 34501.12, or 34520, if the motor carrier has corrected the unsatisfactory rating before applying for the license to transport hazardous materials. 

Amended Sec. 1, Ch. 514, Stats. 2007. Effective January 1, 2008. 

Inspection of Containers: Requirements for Transporting

32001. (a) (1) Any authorized employee of the department may inspect any sealed or unsealed vehicle, container, or shipment subject to this division in maintenance facilities, terminals, or other public or private property to ascertain the quantity and kind of hazardous material and to ensure compliance with the provisions of this code and regulations adopted pursuant to this code. 

(2) If a seal is opened for inspection, the department shall resell any vehicle, container, or shipment prior to further transportation. 

(b) Unless specifically stated, nothing contained in this division shall be deemed to exempt any vehicle transporting a hazardous material subject to this division or the operator or any other person from other provisions of this code.

(c) No motor carrier shall direct the transportation of any shipment of a hazardous material in any vehicle unless all of the following are complied with:

(1) The vehicle is equipped as required by this code and applicable regulations adopted pursuant to law.

(2) The shipment complies with laws and regulations pertaining to the shipment or transportation of hazardous material.

(3) The motor carrier holds a valid license for the transportation of hazardous materials.

(4) (A) A vehicle or combination of vehicles required to display placards pursuant to Section 27903 is equipped with a two-way communication device, maintained in good working order, that enables the driver to contact the personnel responsible for the safety operations of the motor carrier in the event of an emergency.

(B) For the purposes of this section, “two-way communication device” means a radio, cellular telephone, or other similar device that permits communication between the driver and personnel responsible for the safety operations of the motor carrier.

(5) (A) The enclosed cargo body, when the display of placards is required pursuant to Section 27903, shall be locked and remain locked during transit of the hazardous materials so as to prevent any unauthorized entry and shall be opened only during loading, unloading, or at the direction of a peace officer, an authorized employee of the department, or a person authorized pursuant to Section 25185 of the Health and Safety Code.
§32002

(B) A driver transporting hazardous material in a locked cargo body shall verify that all locks are in place if the vehicle has been left unattended for any length of time. Each driver shall make a notation in his or her log book of the time and date that the verification occurred.

(C) For the purposes of this section, “cargo body” means a fully enclosed area that is an integral part of the vehicle and designed to encapsulate the entire load, such as a van body or an intermodal freight container, and does not mean a tank or flatbed type of vehicle.

(d) The commissioner may issue exemptions from the provisions of this section.

(e) Nothing in this section shall limit the ability of other state or local agencies to carry out their regulatory, enforcement, or emergency response duties under other provisions of law.

Regulations: Penalty for Violation

32002. (a) The commissioner may adopt any regulations that are necessary to administer this division. It is a misdemeanor for any motor carrier to violate this division or regulations adopted pursuant to this division.

(b) Notwithstanding subdivision (a), it is unlawful for the motor carrier or the person who directs the driver to operate a vehicle transporting hazardous material, when that transportation requires a license pursuant to this division, to cause the operation of the vehicle unless the motor carrier holds a valid license for the transportation of hazardous materials. A violation of this subdivision shall be punished as follows:

1. For a first violation, by a fine of not less than two thousand dollars ($2,000).
2. For a second or subsequent violation, by a fine of not less than four thousand dollars ($4,000).

Suspension of License: Hearing

32002.5. (a) The commissioner may temporarily suspend a license to haul hazardous material prior to any hearing, when, in the commissioner’s opinion, the action is necessary to prevent an imminent and substantial danger to the public health. The commissioner shall notify the holder of the license of the temporary suspension and the effective date thereof and, at the same time, shall serve the person with an accusation. Upon receipt of a notice of defense to the accusation, the commissioner shall set the matter for a hearing which shall be held as soon as possible, but not later than 10 days after receipt of the notice of defense. The temporary suspension shall remain in effect until the hearing is completed and the commissioner has made a final determination on the merits, which, in any event, shall be made within 10 days after the completion of the hearing. If the determination is not transmitted within 10 days after the hearing is completed, the temporary suspension is of no further effect.

(b) The commissioner shall suspend a license to transport hazardous material of a person or motorcarrier, for a period of at least 90 days but not more than 180 days, if the holder of the license permits the transportation of fissile class III shipments or highway route controlled quantity radioactive materials, as defined in Subpart I (commencing with Section 173.401) of Part 173 of Title 49 of the Code of Federal Regulations, by a person who does not possess a license of the appropriate class and an attached radioactive materials driver’s certificate or an endorsement issued under Article 6 (commencing with Section 15275) of Chapter 7 of Division 6.

Fees: Deposit and Use

32003. (a) All fees collected by the department pursuant to the issuance or renewal of a license for the transportation of hazardous material shall be deposited in the Motor Vehicle Account of the State Transportation Fund.

(b) All moneys collected from these fees shall be used for the support of the hazardous materials inspection and licensing program of the department upon appropriation therefor by the Legislature.

Injunctions

32004. Any violation of any provision of this division may be enjoined in a civil action brought by the Attorney General in the name of the people of the State of California, upon request of the department, except that it shall not be necessary to show lack of adequate remedy at law or to show irreparable damage or loss.

CHAPTER 2. NOTIFICATION OF ROUTES

Route Notification

32050. (a) Prior to the transport of anhydrous hydrazine, methylhydrazine, dimethylhydrazine, Aerozine 50, fuming nitric acid, liquid fluorine, or nitrogen tetroxide in bulk packaging, except when that packaging contains only residue, outside the confines of a facility where that material was used or stored, or prior to the delivery of that bulk material to a carrier for transport, each carrier shall provide advance notification, in writing, of the shipment, to the department, which, in turn, shall notify the sheriff of each county and police chief of each city in which is located the proposed route. Notification shall be made through the Department of Justice’s California Law Enforcement Telecommunications System. The sheriffs and police chiefs shall, in turn, make timely notification to the fire chiefs within their respective jurisdictions through a mutually agreed upon communications system.

(b) Subdivision (a) applies only to the extent that it does not conflict with federal law.

(c) For the purposes of this section, the following definitions apply:

1. “Bulk packaging” has the same meaning as defined in Section 171.8 of Title 49 of the Code of Federal Regulations.
2. “Fire chief” means the fire chief of each county and city fire department and the fire chief of each fire protection district serving a population greater than 15,000 in which is located the proposed route. This paragraph does not apply to any fire chief of a fire department or fire protection district that is composed of 50 percent or more volunteer firefighters.
3. “Residue” has the same meaning as defined in Section 171.8 of Title 49 of the Code of Federal Regulations.

Amended Sec. 135, Ch. 124, Stats. 1996. Effective January 1, 1997.
Required Information

32051. (a) Each advance notification required by Section 32050 shall contain all of the following information:

(1) The name, address, and emergency telephone number of the manufacturer, shipper, carrier, and receiver of the shipment.

(2) A current copy of a material data safety sheet, as designated by the department, regarding the material.

(3) If the shipment is originating within California, the point of origin of the shipment and the 48-hour period during which departure of the shipment is estimated to occur, the destination of the shipment within California, and the 48-hour period during which the shipment is estimated to arrive.

(4) If the shipment is originating outside of California, the point of origin of the shipment and the 48-hour period during which the shipment is estimated to arrive at the state boundary, the destination of the shipment within California, and the 48-hour period during which the shipment is estimated to arrive.

(5) A telephone number and address for current shipment information.

(b) The department shall design a standard notification form to include all of the information specified in subdivision (a) and shall make these forms available by April 1, 1989.

Notification Periods

32052. (a) The notification required by Section 32050 shall reach the department at least 72 hours before the beginning of the 48-hour period during which departure of the shipment of any material designated in Section 32050 is estimated to occur, and the department shall notify the sheriffs and the police chiefs as specified in subdivision (a) of Section 32050 at least 36 hours before the beginning of the 48-hour departure period specified in subdivision (a) of Section 32051, who shall notify the fire chiefs, as provided in Section 32050. A copy of the notification shall be retained by the department for three years.

(b) The carrier shall also notify, by telephone or telegram, the department if there are any changes in the scheduling of a shipment, in the routes to be used for shipment, or any cancellation of a shipment. The department shall, in turn, notify the sheriffs and the police chiefs specified in subdivision (a) of Section 32050 that would be affected by these changes in the scheduling of a shipment, in the routes to be used for a shipment, or the cancellation of a shipment, who shall notify the fire chiefs, as provided in Section 32050. The department shall maintain for three years a record of each telegram and telephonic notification.

Unlawful Transportation: Civil Penalties

32053. (a) Any carrier who violates Section 32050, 32051, or 32052, in addition to any other penalty provided by law, is subject to a civil penalty of not less than five hundred dollars ($500) or more than one thousand dollars ($1,000) for each violation. For purposes of this section, each day of a continuing violation is a separate violation.

(b) When establishing the amount of the civil penalty, the court shall consider, in addition to other relevant circumstances, all of the following:

(1) The extent of the harm caused by the violation.
(2) The persistence of the violation.
(3) The number of prior violations by the same violator.
(4) The deterrent value of the penalty based on the financial resources of the violator.

DIVISION 14.3. TRANSPORTATION OF INHALATION HAZARDS

Legislative Intent

32100. It is the intent of the Legislature, in enacting this division, to create a special category of inhalation hazards and poison gases and to establish special safeguards for their transportation.

These materials are highly toxic, spread rapidly, and require rapid and widespread evacuation if there is loss of containment or a fire. For these reasons, the Legislature intends to more rigorously restrict and otherwise control the transportation of these materials.

Application of Division

32100.5. This division applies to the transportation of inhalation hazards in bulk packaging, except when that packaging contains only residue.

Definitions

32101. As used in this division:

(a) “Inhalation hazard” means any material defined as “Poison A” pursuant to Section 173.326 of Title 49 of the Code of Federal Regulations or for which a “Poison-Inhalation Hazard” or “Inhalation Hazard” shipping paper description is required pursuant to Section 172.203 of Title 49 of the Code of Federal Regulations.

(b) “Bulk packaging” means the same as defined in Section 171.8 of Title 49 of the Code of Federal Regulations.

(c) “Residue” means the same as defined in Section 171.8 of Title 49 of the Code of Federal Regulations.

(d) “Inspection stop” means any location designated as such in regulations adopted pursuant to this division or any safe stopping place.

(e) “Safe parking place” means any loading or unloading facility or motor carrier terminal where the driver may safely and lawfully park and leave the vehicle unattended when authorized by the owner or person in charge of the facility or terminal.

(f) “Safe stopping place” means any place designated by the department pursuant to this division where a driver may stop for food, fuel, or any other necessary reason, provided the vehicle is attended at all times. A vehicle is “attended” when the driver or person in charge of it is awake and occupies any part of it except the sleeper berth, or is within 100 feet of the vehicle and has an unobstructed view of it.

Regulations: Penalty for Violations

32102. (a) The department may adopt any regulations that are necessary to administer this division. It is a misdemeanor for any person to violate this division or regulations adopted pursuant to this division.

(b) The department shall, by regulation, designate through routes in this state which are to be used for the transportation of inhalation hazards. The department may also designate separate through routes for the transportation of inhalation hazards composed of any chemical rocket propellant specified in Section 32050. The Department of Transportation shall assist the department in developing the recommended routes. The department shall hold public hearings in each field operation division of the department in which are located proposed routes. In recommending the through routes, the department shall do both of the following:

1) Perform a risk assessment which shall include, but not be limited to, consideration of the population density, capabilities of the emergency response personnel near the proposed routes, and the safety of the roadways.

2) Consult with officials having the responsibility for the prevention and suppression of fire in communities in which are located the proposed routes, the representatives of persons engaged in the transportation of inhalation hazards, manufacturers of inhalation hazards, and the State Fire Marshal.

The department shall prepare for distribution to persons engaged in the transportation of inhalation hazards maps which clearly indicate the routes which are to be used for the transportation of inhalation hazards.

(d) The department shall prepare for distribution to persons engaged in the transportation of inhalation hazards a list of locations of required inspection stops and safe stopping places and shall revise the list to keep it current.

(e) Until other routes are designated by the department for the transportation of chemical rocket propellants pursuant to subdivision (b), the designated through routes for the transportation of chemical rocket propellants to Vandenberg Air Force Base shall be those routes designated in the letter of agreement between the department and the United States Department of the Air Force executed in 1992.

Required Maps

32103. (a) Every motor carrier shall make available in each vehicle used in the transportation of inhalation hazards the latest map showing the routes to be used for the transportation of inhalation hazards and a list of the safe stopping places and inspection stops for vehicles transporting inhalation hazards as prescribed by regulations of the department. The carrier shall require that the driver be thoroughly familiar with this division before operating any vehicle in the transportation of inhalation hazards.

(b) This section shall become operative on January 1, 1992.

Unlawful Route or Stop

32104. (a) It is unlawful for the motor carrier or its authorized agent to drive or to permit the driving of any vehicle transporting inhalation hazards, or for the driver to drive the vehicle, upon any public highway not designated in regulations adopted by the department as a route for the transportation of inhalation hazards. This subdivision shall not apply when the use of the highway is required (1) to permit delivery of, or the loading of, inhalation hazards at a point not on a highway designated as a route for the transportation of inhalation hazards, or (2) to permit the vehicle to proceed to, and return from, an inspection stop, safe stopping place, or safe parking place.

(b) It is unlawful for the driver of any vehicle transporting inhalation hazards to stop at any place other than a safe stopping place, safe parking place, or an inspection stop unless the vehicle is disabled or except when necessary to avoid
conflict with other traffic or to comply with the orders of a peace officer or an official traffic control device.

(c) This section shall become operative on January 1, 1992.

Prohibited Areas and Required Inspections

32105. (a) Unless there is no practicable alternative, every driver of a vehicle transporting inhalation hazards shall avoid, by prearrangement of routes, driving into or through heavily populated areas, congested thoroughfares, or places where crowds are assembled. Operating convenience is not a basis for determining whether it is practicable to operate a vehicle in accordance with this subdivision.

(b) No vehicle transporting inhalation hazards shall be left unattended upon any street or highway.

(c) Inspection of the following items of equipment shall be made immediately preceding the actual transportation of an inhalation hazard:
   (1) Brakes and the brake system.
   (2) Steering, connection devices, and lighting systems.
   (3) All tires.
   (4) All supplemental equipment as required by Section 32106.

(d) En route inspection of tires and brakes on vehicles transporting inhalation hazards shall be performed at the following locations:
   (1) At an inspection stop at least every four hours or 150 miles traveled, whichever occurs first, or as close thereto as is practicable, depending upon the proximity of those inspection stops.
   (2) Regardless of elapsed time or miles traveled, at the top of and prior to descending any grade upon which the Department of Transportation has declared a speed limit for trucks of less than 55 miles per hour as provided by Section 22407. The inspection shall be made off the roadway.
   (3) Regardless of elapsed time or miles traveled, at any location designated in regulations of the department as a required inspection stop.
   (e) (1) Every person operating a vehicle transporting an inhalation hazard shall complete a record of every inspection which is required pursuant to this section in the form approved by the department showing the time and place of every inspection.
   (2) The record of every inspection shall be made at the time the inspection is conducted.
   (3) The person making the inspection shall certify the fact in the record.

(f) This section shall become operative on January 1, 1992.

Other Required Equipment

32107. Every vehicle, or combination of vehicles, transporting an inhalation hazard shall contain a self-contained breathing apparatus and equipment capable of immediate communication with emergency personnel.

Application of Other Laws

32109. Nothing in this division exempts any vehicle transporting inhalation hazards and subject to this division, or the owner or any other person, from other provisions of this code. All those other provisions relating to the driving and movement of vehicles, and the size, weight and equipment thereof, shall apply as applicable to each and every vehicle engaged in transporting inhalation hazards subject to this division.

Required Equipment and Maintenance

32106. Every vehicle used in the transportation of an inhalation hazard, in addition to any other equipment required by law, shall be equipped and maintained as required by this section.

(a) Brakes and the brake system shall be maintained in good and safe operating condition.

(b) Steering, connection devices, and lighting systems shall be maintained in good operating condition.

(c) All tires shall be in good condition, properly matched and inflated. Except as may be necessary to cause immediate replacement, no vehicle shall be driven unless all tires in actual use on the vehicle are properly inflated.

(d) Fire extinguishers and other safety equipment prescribed by regulations adopted by the department pursuant to Section 34501 shall be carried in each vehicle or combination of vehicles.

§33000

DIVISION 14.5. TRANSPORTATION OF RADIOACTIVE MATERIALS

Radioactive Materials

33000. Subject to the provisions of Section 114765 of the Health and Safety Code, the Department of the California Highway Patrol, after consulting with the State Department of Health Services, shall adopt regulations specifying the time that shipments may occur and the routes that are to be used in the transportation of cargoes of hazardous radioactive materials, as are defined in regulations of the State Department of Health Services.

Spent Radioactive Fuel: Notification

33002. (a) Prior to the transport of any hazardous radioactive materials containing cargoes of commercially produced, spent radioactive fuel outside the confines of a facility where that material was used or stored, or prior to the delivery of these materials to a carrier for transport, each carrier shall provide advance notification, in writing, of the shipment to the Department of the California Highway Patrol, which, in turn, shall notify all of the following persons:

(1) The fire chiefs of each city and county fire department and the fire chiefs of each fire protection district serving a population greater than 15,000, which city, county, or fire protection district is located along the proposed route. The Department of the California Highway Patrol, however, shall notify only those fire chiefs who have requested, in writing, to be so notified. A fire chief may revoke this request, in writing, at any time.

This paragraph does not apply to any fire chief of a fire department or fire protection district that is composed of 50 percent or more volunteer firefighters.

(2) The police chiefs of each city where surface transportation would occur along the proposed route.

(b) Subdivision (a) applies only to the extent that it does not conflict with federal law.

(c) Each advance notification shall contain the following information:

(1) The name, address, and telephone number of the shipper, carrier, and receiver of the shipment.

(2) If the shipment originates within California, the point of origin of the shipment and the 48-hour period during which departure of the shipment is estimated to occur, the destination of the shipment within California, and the 48-hour period during which the shipment is estimated to arrive.

(3) If the shipment originates outside of California, the point of origin of the shipment and the 48-hour period during which the shipment is estimated to arrive at state boundaries, the destination of the shipment within California, and the 48-hour period during which the shipment is estimated to arrive.

(4) A telephone number and address for current shipment information.

(d) The Department of the California Highway Patrol shall design a standard notification form to include all of the information specified in subdivision (c) and shall make these forms available by April 1, 1984.

(e) The notification is required to reach the Department of the California Highway Patrol at least 72 hours before the beginning of the 48-hour period during which departure of the shipment is estimated to occur, and the Department of the California Highway Patrol shall notify the fire chiefs who have requested notification and the police chiefs specified in subdivision (a) at least 36 hours before the beginning of this 48-hour period. A copy of the notification shall be retained by the Department of the California Highway Patrol for three years.

(f) The carrier shall also notify, by telephone or telegram, the Department of the California Highway Patrol if there are any changes in the scheduling of a shipment, in the routes to be used for a shipment, or any cancellation of a shipment. The Department of the California Highway Patrol shall, in turn, notify the fire chiefs who have requested notification and the police chiefs specified in subdivision (a) who would be affected by these changes in the scheduling of a shipment, in the routes to be used for a shipment, or the cancellation of a shipment. The Department of the California Highway Patrol shall maintain for three years a record of each telegram and telephonic notification.

(g) Any person or agency that receives any information pursuant to this section shall not disseminate or reveal this information to any other person, state agency, city, county, or local agency unless the person or agency determines that disseminating or revealing this information is necessary to protect the public health and safety or the environment.

(h) The Governor shall appoint the fire chiefs eligible to request notification, as specified in paragraph (1) of subdivision (a), as the designated representatives of the Governor pursuant to paragraph (1) of subsection (c) of Section 73.21 of Title 10 of the Code of Federal Regulations for the purpose of receiving information classified as safeguards information pursuant to Part 73 of Title 10 of the Code of Federal Regulations.

(i) Any carrier who violates this section, in addition to any penalty provided by law, is subject to a civil penalty of not more than five hundred dollars ($500) for each violation. For purposes of this section, each day of a continuing violation is a separate and distinct violation.

When establishing the amount of civil liability pursuant to this subdivision, the court shall consider, in addition to other relevant circumstances, the following:

(1) The extent of the harm caused by the violation.

(2) The persistence of the violation.

(3) The number of prior violations by the same violator.

(4) The deterrent value of the penalty based on the financial resources of the violator.

DIVISION 14.7. FLAMMABLE AND COMBUSTIBLE LIQUIDS
(Amended Ch. 825, Stats. 1977. Effective January 1, 1978.)

Article 1. Administration
(Amended Ch. 1106, Stats. 1967. Effective November 8, 1967.)

Legislative Intent

34000. It is the intent of the Legislature to provide additional protection to the public and reduce the risk of possible hazards in the highway transportation of hazardous waste and of flammable and combustible liquids in tank vehicles. It is further the intent of the Legislature that the Department of the California Highway Patrol shall place as a high priority the random inspection of cargo tanks and hazardous waste transport vehicles and containers for compliance with this code.

Application of Division

34001. The provisions of this division refer to vehicles having a cargo tank and to hazardous waste transport vehicles and containers, as defined in Section 25167.4 of the Health and Safety Code, that are operating on highways within this state.

Uniform Regulation

34002. (a) It is the legislative intention that the regulations adopted by the commissioner pursuant to this division shall apply uniformly throughout the State of California, and no state agency, city, county, or other political subdivision of this state, including, but not limited to, a chartered city, county and city, or county, shall adopt or enforce any ordinance or regulation which is inconsistent with this division.

(b) No other state agency, city, county, or other public agency of this state, including, but not limited to, a chartered city, county, or county, shall enforce any provisions regarding the design and construction of any cargo tank subject to this division, regardless of the location of the cargo tank, or the area of operation of the cargo tank, within this state.

Definitions

34003. As used in this division:

(a) “Cargo tank” means any tank having a volumetric capacity in excess of 120 gallons that is used for the transportation of flammable liquids or combustible liquids. “Cargo tank” includes pumps, meters, valves, fittings, piping, and other appurtenances attached to a tank vehicle and used in connection with the flammable liquids or combustible liquids being transported in the cargo tank except that the volumetric capacity refers to the capacity of the container portion of a cargo tank.

“Cargo tank” does not include any of the following:

(1) Any tank used only to carry fuel necessary for the operation of the vehicle or any equipment of the vehicle.

(2) Any tank containing not more than 120 gallons of residue. For purposes of this paragraph, residue means the liquid material remaining after a tank has been unloaded to the maximum extent practicable through the normal discharge opening.

(3) Any intermodal portable tank, meeting United States Department of Transportation IM 101 or IM 102 Specification transported as part of an interstate shipment when operated within a 25-mile radius of its ocean port or railroad terminal loading or unloading facility.

(4) Any tank meeting the requirements of Title 49 of the Code of Federal Regulations, with a volumetric capacity of less than 500 gallons used to transport flammable or combustible liquids, except a portable tank used to transport an inhalation hazard as defined in subdivision (a) of Section 32101.

(5) Any tank designated by the United States Department of Transportation as a “single trip container” or “nonreusable container,” marked and used as such, with a volumetric capacity of less than 500 gallons.

(6) Any vehicle that is registered in any other state and is used for refueling aircraft while operating in this state pursuant to a contract with this state or the United States for the conduct of fire suppression or other emergency-related activities.

(b) “Tank vehicle” means any truck, trailer, or semitrailer equipped with a cargo tank which is used for the transportation of flammable liquids or combustible liquids within this state.

(c) “Flammable liquids” and “combustible liquids” mean those liquids as defined by the regulations adopted by the commissioner pursuant to Section 2402.7.

Application

34004. The provisions of this division shall apply equally to new as well as existing cargo tanks.

Trap Wagon and Spray Rig

34005. The provisions of this division shall not apply to a trap wagon or spray rig when empty or when transporting not more than 1,000 gallons of flammable liquids or combustible liquids to accomplish the basic function of such vehicle. For the purpose of this section, “trap wagon” and “spray rig” have the same meaning of those terms as defined in Section 36005.

Exemption: Wine

34006. The provisions of this division shall not apply to “wine,” as defined by Section 23007 of the Business and Professions Code, or any other aqueous solution, having an alcoholic content less than, or equal to, 24 percent by volume. This exemption applies only if the nonalcohol portion of the aqueous solution does not fall within the definition of flammable or combustible liquid.

Article 2. Regulations
(Amended Ch. 1106, Stats. 1967. Effective November 8, 1967.)

Cargo Tanks, Fire Auxiliary Equipment, and Tank Vehicle Regulations

34019. (a) The commissioner shall adopt reasonable regulations with respect to the following:

(1) The design, construction, and structural safety of cargo tanks and fire auxiliary equipment.

(2) To the extent permitted by federal law, the stability of tank vehicles.

(b) For intrastate shipments in this state, the commissioner shall, as soon as feasible, incorporate any new United States...
Department of Transportation standards concerning interstate shipments.

**Department of Transportation: Regulations**

34020.5. (a) The Department of Transportation, after consultation with the Department of the California Highway Patrol, the State Fire Marshal, and affected local agencies, and following a public hearing subject to Section 21109.5, may regulate the time when tank vehicles may travel through a tunnel on state highways.

(b) In evaluating the use of a tunnel on a state highway, the Department of Transportation shall conduct a traffic and engineering survey which includes an analysis of the relative risks to public safety in determining the feasibility of reasonable alternative routes.

(c) For the purposes of this section, a tunnel is a horizontal passage enclosed on the sides and top containing a roadway of a length of not less than 300 feet.

(d) No prohibition or restriction adopted pursuant to this section shall be effective until appropriate signs have been posted giving notice thereof to drivers approaching the tunnel.

**Existing Cargo Tanks**

34021. The regulations adopted by the commissioner shall make reasonable allowances for cargo tanks in existence when the regulations become effective. No allowance shall, however, be made for any cargo tank which because of its design or construction constitutes a distinct hazard to life or property.

**Standards**

34022. In adopting the regulations, the commissioner shall consider, as evidence of generally accepted safety standards, the publications of the National Fire Protection Association and the United States Department of Transportation.

**Administrative Procedure**

34024. The regulations adopted by the commissioner pursuant to this division shall be adopted, amended, and repealed in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

**Article 4 Enforcement**

(Added Ch. 1106, Stats. 1967. Effective November 8, 1967.)

**Inspection**

34060. The commissioner shall provide for the establishment, operation, and enforcement of random on- and off-highway inspections of cargo tanks and hazardous waste transport vehicles and containers. The commissioner shall also provide training in the inspection of cargo tanks and hazardous waste transport vehicles and containers to employees of the department whose primary duties include the enforcement of laws and regulations relating to commercial vehicles and who, thereafter, are required to perform random inspections of cargo tanks and hazardous waste transport vehicles and containers to determine whether or not the cargo tanks and hazardous waste transport vehicles and containers are designed, constructed, and maintained in accordance with the regulations adopted by the commissioner pursuant to this code and Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code.

**Certificate of Inspection**

34060.5. Any required pressure, vacuum, or hydrostatic testing of a cargo tank shall be performed, or be caused to be performed, by the carrier, operator, or consultant who shall certify in writing that the cargo tank meets the requirements of the United States Department of Transportation, the State Air Resources Board, and the commissioner. An authorized representative of the department may observe or require these tests. Records of these certifications shall be maintained at the carrier’s place of business.

**Cargo Tanks: Hazardous Waste Transport Vehicles and Containers: Inspection Report**

34061. The department shall compile data and annually publish a report relating to the level of cargo tank and hazardous waste transport vehicle and container inspections conducted during the previous year. The data included in the report shall include, but need not be limited to, all of the following:

(a) The number of inspections conducted.

(b) The number of violations recorded.

(c) The number of on-highway incidents involving cargo tanks and hazardous waste transport vehicles and containers that were reported to the Office of Emergency Services under Section 8574.17 of the Government Code.
Amended Sec. 296, Ch. 618, Stats. 2010. Effective January 1, 2011.
Amended Sec. 526 Ch. 352 Stats. 2013. Effective July 1, 2013.

**Inspection Authority**

34064. Any duly authorized employee of the department may inspect cargo tanks and hazardous waste transport vehicles and containers, or the appurtenances and equipment thereof, in terminals, yards, or similar places, as often as may be necessary for the purpose of ascertaining and causing to be corrected any conditions likely to cause damage to any personal or real property or injury or death to any person or animal or any violation of the provisions or intent of this division. Any duly authorized employee of the department may enter upon private property to conduct those inspections. The owner, lessee, bailee, manager, or operator of that property shall permit any duly authorized employee of the department to enter the property and inspect cargo tanks and hazardous waste transport vehicles and containers for the purpose stated in this division.
Amended Sec. 36, Ch. 539, Stats. 1996. Effective January 1, 1997.

**Article 5 Violations**

(Added Ch. 1106, Stats. 1967. Effective November 8, 1967.)

**Violation a Misdemeanor**

34100. A violation of this division or of any regulation adopted by the commissioner pursuant to this division is a misdemeanor. No person shall operate a tank vehicle upon a highway in violation of this division or of any regulation adopted by the commissioner pursuant to this division.
Amended and renumbered (from 34102) Sec. 40, Ch. 539, Stats. 1996. Effective January 1, 1997.
DIVISION 14.8. SAFETY REGULATIONS  
(Added by Ch. 2148, Stats. 1963.)

Required Regulations

34500. The department shall regulate the safe operation of the following vehicles:
(a) Motortrucks of three or more axles that are more than 10,000 pounds gross vehicle weight rating.
(b) Truck tractors.
(c) Buses, schoolbuses, school pupil activity buses, youth buses, farm labor vehicles, modified limousines, and general public paratransit vehicles.
(d) Trailers and semitrailers designed or used for the transportation of more than 10 persons, and the towing motor vehicle.
(e) Trailers and semitrailers, pole or pipe dollies, auxiliary dollies, and logging dollies used in combination with vehicles listed in subdivision (a), (b), (c), or (d). This subdivision does not include camp trailers, trailer coaches, and utility trailers.
(f) A combination of a motortruck and a vehicle or vehicles set forth in subdivision (e) that exceeds 40 feet in length when coupled together.
(g) A truck, or a combination of a truck and any other vehicle, transporting hazardous materials.
(h) Manufactured homes that, when moved upon the highway, are required to be moved pursuant to a permit as specified in Section 35780 or 35790.
(i) A park trailer, as described in Section 18009.3 of the Health and Safety Code, that, when moved upon a highway, is required to be moved pursuant to a permit pursuant to Section 35780.
(j) Any other motortruck not specified in subdivisions (a) to (h), inclusive, or subdivision (k), that is regulated by the Department of Motor Vehicles, Public Utilities Commission, or United States Secretary of the Department of Transportation, but only for matters relating to hours of service and logbooks of drivers.
(k) A commercial motor vehicle with a gross vehicle weight rating of 26,001 or more pounds or a commercial motor vehicle of any gross vehicle weight rating towing a vehicle described in subdivision (e) with a gross vehicle weight rating of more than 10,000 pounds, except combinations including camp trailers, trailer coaches, or utility trailers. For purposes of this subdivision, the term “commercial motor vehicle” has the meaning defined in subdivision (b) of Section 15210.

Regulation of Tour Buses

34500.1. In addition to the duties imposed by Section 34500, the department shall regulate the safe operation of tour buses.

Emergency Vehicles: Exemption

34500.2. No additional inspection shall be required under this division on any vehicle which is owned and operated by a public agency and is used for responding to and returning from an emergency, as defined in subdivision (e) of Section 35002, during the duration of the emergency, as determined by the public agency if an inspection pursuant to Section 1215 of Title 13 of the California Code of Regulations has been completed on the vehicle within the past 24 hours. Any vehicle used in responding to an emergency shall be inspected immediately upon the termination of the emergency.

Cargo Securement Standards

34500.3. (a) The department shall adopt rules and regulations that are designed to promote the safe operation of vehicles, regarding cargo securement standards. The regulations adopted pursuant to this section shall be consistent with the securement regulations adopted by the United States Department of Transportation in Part 393 (commencing with
§34500.4

—602—

Div. 14.8

(3) Pursuant to the safety inspection program, the department shall conduct an inspection of each terminal of a charter-party carrier of passengers and passenger stage corporation that operates modified limousines at least once every 13 months.

(3) The department shall adopt emergency regulations for purposes of this subdivision. The adoption by the department of regulations implementing this section shall be deemed to be an emergency and necessary to avoid serious harm to the public peace, health, safety, or general welfare for purposes of Sections 11346.1 and 11349.6 of the Government Code, and the department is hereby exempted from the requirement that it describe facts showing the need for immediate action to the Office of Administrative Law. The emergency regulations shall remain in effect for no more than one year, by which time final regulations shall be adopted.

(4) (A) The department shall adopt regulations to establish an inspection fee to be collected every 13 months, based on the number of modified limousines operated by a single charter-party carrier or passenger stage corporation. The fee shall be in an amount sufficient to offset the costs to administer the inspection program and shall not be used to supplant or support any other inspection program conducted by the department. The fee shall be in addition to any other required fee. When developing the regulations, the department shall consider measures that increase efficiencies to limit the financial impact to charter-party carriers of passengers and passenger stage corporations subject to the fee. The department shall promulgate the regulations in consultation with appropriate interested parties.

(B) The fee structure established pursuant to this subdivision shall apply to modified limousines that are required to undergo a safety inspection pursuant to this section.

(C) The fee established pursuant to this subdivision shall be collected by the Public Utilities Commission and deposited into the Motor Vehicle Account in the State Transportation Fund to cover the costs of the inspections conducted by the department.

(5) The department shall transmit to the Public Utilities Commission inspection data of modified limousine terminals inspected pursuant to this program, as specified in the program regulations.

(c) Regulations adopted pursuant to this section shall be consistent with the established inspection program administered by the department for buses pursuant to this division.

Modified Limousine Terminal Safety Inspections

34500.4. (a) Not later than July 1, 2016, the Department of the California Highway Patrol shall implement a program to conduct safety inspections of modified limousine terminals that are operated by passenger stage corporations pursuant to Article 2 (commencing with Section 1031) of Chapter 5 of Part 1 of Division 1 of the Public Utilities Code or by charter-party carriers of passengers pursuant to the Passenger Charter-party Carriers’ Act (Chapter 8 (commencing with Section 5351) of Division 2 of the Public Utilities Code).

(b) (1) The inspection program shall include, but is not limited to, the safe operation of the vehicle, the installation of safety equipment, the retention of maintenance logs, accident reports, and records of driver discipline, compliance with federal and state motor vehicle safety standards, the examination of a preventative maintenance program, and, if ownership of the modified limousine has been transferred, the transmission of relevant safety and maintenance information of the limousine.

(2) Pursuant to the safety inspection program, the department shall conduct an inspection of each terminal of a charter-party carrier of passengers and passenger stage corporation that operates modified limousines at least once every 13 months.

(3) The department shall adopt emergency regulations for purposes of this subdivision. The adoption by the department of regulations implementing this section shall be deemed to be an emergency and necessary to avoid serious harm to the public peace, health, safety, or general welfare for purposes of Sections 11346.1 and 11349.6 of the Government Code, and the department is hereby exempted from the requirement that it describe facts showing the need for immediate action to the Office of Administrative Law. The emergency regulations shall remain in effect for no more than one year, by which time final regulations shall be adopted.

(4) (A) The department shall adopt regulations to establish an inspection fee to be collected every 13 months, based on the number of modified limousines operated by a single charter-party carrier or passenger stage corporation. The fee shall be in an amount sufficient to offset the costs to administer the inspection program and shall not be used to supplant or support any other inspection program conducted by the department. The fee shall be in addition to any other required fee. When developing the regulations, the department shall consider measures that increase efficiencies to limit the financial impact to charter-party carriers of passengers and passenger stage corporations subject to the fee. The department shall promulgate the regulations in consultation with appropriate interested parties.

(B) The fee structure established pursuant to this subdivision shall apply to modified limousines that are required to undergo a safety inspection pursuant to this section.

(C) The fee established pursuant to this subdivision shall be collected by the Public Utilities Commission and deposited into the Motor Vehicle Account in the State Transportation Fund to cover the costs of the inspections conducted by the department.

(5) The department shall transmit to the Public Utilities Commission inspection data of modified limousine terminals inspected pursuant to this program, as specified in the program regulations.

(c) Regulations adopted pursuant to this section shall be consistent with the established inspection program administered by the department for buses pursuant to this division.

Commercial Motor Vehicle: Definition

34500.5. For purposes of this division, the term “commercial motor vehicle” has the same meaning as defined in subdivision (b) of Section 15210.

the transportation of inmates or prisoners outside the county in which the agency is located, if that agency would otherwise be required, by existing law, to maintain driving logs.

(2) The department may adopt rules and regulations relating to commercial vehicle safety inspection and out-of-service criteria. In adopting the rules and regulations, the commissioner may consider the commercial vehicle safety inspection and out-of-service criteria adopted by organizations such as the Commercial Vehicle Safety Alliance, other intergovernmental safety group, or the United States Department of Transportation. The commissioner may provide departmental representatives to that alliance or other organization for the purpose of promoting the continued improvement and refinement of compatible nationwide commercial vehicle safety inspection and out-of-service criteria.

(3) The commissioner shall appoint a committee of 15 members, consisting of representatives of industry subject to the regulations to be adopted pursuant to this section, to act in an advisory capacity to the department, and the department shall cooperate and confer with the advisory committee so appointed. The commissioner shall appoint a separate committee to advise the department on rules and regulations concerning wheelchair lifts for installation and use on buses, consisting of persons who use the wheelchair lifts, representatives of transit districts, representatives of designers or manufacturers of wheelchairs and wheelchair lifts, and representatives of the Department of Transportation.

(4) The department may inspect any vehicles in maintenance facilities or terminals, as well as any records relating to the dispatch of vehicles or drivers, and the pay of drivers, to assure compliance with this code and regulations adopted pursuant to this section.

(b) The department, using the definitions adopted pursuant to Section 2402.7, shall adopt regulations for the transportation of hazardous materials in this state, except the transportation of materials which are subject to other provisions of this code, that the department determines are reasonably necessary to ensure the safety of persons and property using the highways. The regulations may include provisions governing the filling, marking, packing, labeling, and assembly of, and containers that may be used for, hazardous materials shipments, and the manner by which the shipper attests that the shipments are correctly identified and in proper condition for transport.

(c) At least once every 13 months, the department shall inspect every maintenance facility or terminal of any person at any time operates any bus. If the bus operation includes more than 100 buses, the inspection shall be without prior notice.

(d) The commissioner shall adopt and enforce regulations which will make the public or private users of any bus aware of the operator’s last safety rating.

(e) It is unlawful and constitutes a misdemeanor for any person to operate any bus without the inspection specified in subdivision (c) having been conducted.

(f) The department may adopt regulations restricting or prohibiting the movement of any vehicle from a maintenance facility or terminal if the vehicle is found in violation of this code or regulations adopted pursuant to this section.

§34501.2 Certification of Wheelchair Lifts

A manufacturer or distributor of wheelchair lifts for buses, schoolbuses, youth buses, and general public transit vehicles, regardless of capacity, shall, prior to the distribution of the wheelchair lift model in California, provide to the Department of the California Highway Patrol proof of certification from an independent laboratory or registered mechanical engineer of this state that the wheelchair lift model complies with the California and any federal law and the regulations adopted pursuant thereto.

Limitations: Driving Hours

(a) The regulations adopted under Section 34501 for vehicles engaged in interstate or intrastate commerce shall establish hours-of-service regulations for drivers of those vehicles that are consistent with the hours-of-service regulations adopted by the United States Department of Transportation in Part 395 of Title 49 of the Code of Federal Regulations, as those regulations now exist or are hereafter amended.

(b) The regulations adopted under Section 34501 for vehicles engaged in intrastate commerce that are not transporting hazardous substances or hazardous waste, as those terms are defined by regulations in Section 171.8 of Title 49 of the Code of Federal Regulations, as those regulations now exist or are hereafter amended, shall have the following exceptions:

1. The maximum driving time within a work period shall be 12 hours for a driver of a truck or truck tractor, except for a driver of a tank vehicle with a capacity of more than 500 gallons transporting flammable liquid, who shall not drive for more than 10 hours within a work period.

2. A motor carrier shall not permit or require a driver to drive, nor shall any driver drive, for any period after having been on duty for 80 hours in any consecutive eight days.

3. (A) A driver employed by an electrical corporation, as defined in Section 218 of the Public Utilities Code, a local publicly owned electric utility, as defined in Section 224.3 of that code, a gas corporation, as defined in Section 222 of that code, a telephone corporation, as defined in Section 234 of that code, or a public water district as defined in Section 20200 of the Water Code, is exempt from all hours-of-service regulations while operating a public utility or public water district vehicle.

(B) A driver hired directly as a contractor by an electrical corporation, a local publicly owned electric utility, a gas corporation, a telephone corporation, a water corporation, or a public water district, as those entities are defined in subparagraph (A), or as a subcontractor hired directly by the original contractor, is exempt from all hours-of-service regulations while operating a vehicle for the purpose of restoring utility service during an emergency on behalf of the entity that hired the original contractor. The driver shall maintain a driver’s record of duty status and shall keep a duplicate copy in his or her possession when driving a vehicle subject to this chapter. These records shall be presented immediately upon request by any authorized employee of the department, or any police officer or deputy sheriff.
§34501.3

(C) For purposes of subparagraph (B), “emergency” means a sudden, unexpected occurrence involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property, or essential public services. “Unexpected occurrence” includes, but is not limited to, fires, floods, earthquakes or other soil or geologic movements, riots, accidents, inclement weather, natural disaster, sabotage, or other occurrence, whether natural or man-made, that interrupts the delivery of essential services, such as electricity, medical care, sewer, water, telecommunication, and telecommunication transmissions, or otherwise immediately threatens human life or public welfare.

(4) Any other exceptions applicable to drivers assigned to governmental fire suppression and prevention, as determined by the department.(5) A driver employed by a law enforcement agency, as defined in Section 390.3(d)(2) of Title 49 of the Code of Federal Regulations, as that section now exists or is hereafter amended, during an emergency or to restore the public peace.

(c) The regulations adopted under Section 34501 for vehicles engaged in the transportation of farm products in intrastate commerce shall include all of the following provisions:

(1) A driver employed by an agricultural carrier, including a carrier holding a seasonal permit, or by a private carrier, when transporting farm products from the field to the first point of processing or packing, shall not drive for any period after having been on duty 16 hours or more following eight consecutive hours off duty and shall not drive for any period after having been on duty for 112 hours in any consecutive eight-day period, except that a driver transporting special situation farm products from the field to the first point of processing or packing, or transporting livestock from pasture to pasture, may be permitted, during one period of not more than 28 consecutive days or a combination of two periods totaling not more than 28 days in a calendar year, to drive for not more than 12 hours during any workday of not more than 16 hours. A driver who thereby exceeds the driving time limits specified in paragraph (2) of subdivision (b) shall maintain a driver’s record of duty status, and shall keep a duplicate copy in his or her possession when driving a vehicle subject to this chapter. These records shall be presented immediately upon request by any authorized employee of the department, or any police officer or deputy sheriff.

(2) Upon the request of the Director of Food and Agriculture, the commissioner may, for good cause, temporarily waive the maximum on-duty time limits applicable to any eight-day period when an emergency exists due to inclement weather, natural disaster, or an adverse economic condition that threatens to disrupt the orderly movement of farm products during harvest for the duration of the emergency. For purposes of this paragraph, an emergency does not include a strike or labor dispute.

(3) For purposes of this subdivision, the following terms have the following meanings:

(A) “Farm products” means every agricultural, horticultural, viticultural, or vegetable product of the soil, honey and beeswax, oilseeds, poultry, livestock, milk, or timber.

(B) “First point of processing or packing” means a location where farm products are dried, canned, extracted, fermented, distilled, frozen, ginned, eviscerated, pasteurized, packed, packaged, bottled, conditioned, or otherwise manufactured, processed, or preserved for distribution in wholesale or retail markets.

(C) “Special situation farm products” means fruit, tomatoes, sugar beets, grains, wine grapes, grape concentrate, cotton, or nuts.

Amended Sec. 17, Ch. 345, Stats. 2014. Effective January 1, 2015.
The 2014 amendment added the italicized material.

Motor Carriers: Unlawful Schedule

§34501.3. (a) No motor carrier shall schedule a run or permit or require the operation of any motor vehicle subject to this division between points within a period of time which would do either of the following:

(1) Necessitate the vehicle being operated at speeds greater than those prescribed by this code.

(2) Require the driver of the vehicle to exceed the applicable maximum hours of service.

(b) A logbook of a driver, which reflects a trip or trips between points within a period of time which would have necessitated excessive speed to complete, shall give rise to a rebuttable presumption that the driver exceeded the lawful speed limit.

(c) For a violation of paragraph (2) of subdivision (a), a first offense is punishable by a fine of not more than one thousand dollars ($1,000), a second offense by a fine of not more than two thousand five hundred dollars ($2,500), and a third or subsequent offense by a fine of not more than five thousand dollars ($5,000).

Violation: Logbook Requirements

§34501.4. Any driver subject to the hours of service limitations and logbook requirements of this division, who is unable to produce upon request of a representative of the department any driver’s logbook or is only able to produce an incomplete driver’s log book for the prior 24-hour period, is rebuttably presumed to be in violation of the hours of service limitations in Sections 34501 and 34501.2.

Vehicle Safety Regulations

§34501.5. (a) The Department of the California Highway Patrol shall adopt reasonable rules and regulations which, in the judgment of the department, are designed to promote the safe operation of vehicles described in Sections 38045 and 82321 of the Education Code and Sections 5445 and 34500 of this code. The Commissioner of the California Highway Patrol shall appoint a committee of 11 members to act in an advisory capacity when developing and adopting regulations affecting school pupil transportation buses and school pupil transportation operations. The advisory committee shall consist of 11 members appointed as follows:

(1) One member of the State Department of Education.

(2) One member of the Department of Motor Vehicles.

(3) One member of the Department of the California Highway Patrol.

(4) One member who is employed as a schoolbus driver.

(6) Two members who are schoolbus contractors, one of whom shall be from an urban area of the state and one of whom shall be from a rural area of the state, as determined by the department.
(7) Two members who are representatives of school districts, one of whom shall be from an urban area of the state and one of whom shall be from a rural area of the state, as determined by the department.

(8) One professionally licensed member of the American Academy of Pediatrics.

(9) One member representing school pupil transportation operations other than schoolbus operations.

(b) The department shall cooperate and confer with the advisory committee appointed pursuant to this section prior to adopting rules or regulations affecting school pupil transportation buses and school pupil transportation operations.

Schoolbuses: Reduced Visibility

34501.6. The governing board of a local educational agency that provides for the transportation of pupils shall adopt procedures that limit the operation of schoolbuses when atmospheric conditions reduce visibility on the roadway to 200 feet or less during regular home-to-school transportation service. Operational policies for school activity trips shall give schoolbus drivers discretionary authority to discontinue schoolbus operation if the driver determines that it is unsafe to continue operation because of reduced visibility.

Regulations: Wheelchair Lifts

34501.7. (a) Any rules or regulations adopted pursuant to Section 34501 for the construction, testing, or certification of wheelchair lifts for installation and use on buses shall take into consideration the costs of implementing the regulations and shall be reviewed and brought up to date by the department annually.

(b) This section shall become operative on July 1, 1987.

Driver Records and Log Books: Location

34501.10. The employer of any person required to keep log books, records of physical examination, and other driver records as may be required by the Department of the California Highway Patrol, the Department of Motor Vehicles, the Department of Toxic Substances Control, or the State Department of Health Services, shall register with the Department of the California Highway Patrol the address where the log books and other records are available for inspection.

Inspection of Maintenance Facility or Terminal

34501.12. (a) Notwithstanding Section 408, as used in this section and Sections 34505.5 and 34505.6, “motor carrier” means the registered owner of a vehicle described in subdivision (a), (b), (e), (f), or (g) of Section 34500, except in the following circumstances:

(1) The registered owner leases the vehicle to another person for a term of more than four months. If the lease is for more than four months, the lessee is the motor carrier.

(2) The registered owner operates the vehicle exclusively under the authority and direction of another person. If the operation is exclusively under the authority and direction of another person, that other person may assume the responsibilities as the motor carrier. If not so assumed, the registered owner is the motor carrier. A person who assumes the motor carrier responsibilities of another pursuant to subdivision (b) shall provide to that other person whose motor carrier responsibility is so assumed, a completed copy of a departmental form documenting that assumption, stating the period for which responsibility is assumed, and signed by an agent of the assuming person. A legible copy shall be carried in each vehicle or combination of vehicles operated on the highway during the period for which responsibility is assumed. That copy shall be presented upon request by an authorized employee of the department. The original completed departmental form documenting the assumption shall be provided to the department within 30 days of the assumption. If the assumption of responsibility is terminated, the person who had assumed responsibility shall so notify the department in writing within 30 days of the termination.
(b) (1) A motor carrier may combine two or more terminals that are not subject to an unsatisfactory compliance rating within the last 36 months for purposes of the inspection required by subdivision (d), subject to all of the following conditions:

(A) The carrier identifies to the department, in writing, each terminal proposed to be included in the combination of terminals for purposes of this subdivision prior to an inspection of the designated terminal pursuant to subdivision (d).

(B) The carrier provides the department, prior to the inspection of the designated terminal pursuant to subdivision (d), a written listing of all its vehicles of a type subject to subdivision (a), (b), (e), (f), or (g) of Section 34500 that are based at each of the terminals combined for purposes of this subdivision. The listing shall specify the number of vehicles of each type at each terminal.

(C) The carrier provides to the department at the designated terminal during the inspection all maintenance records and driver records and a representative sample of vehicles based at each of the terminals included within the combination of terminals.

(2) If the carrier fails to provide the maintenance records, driver records, and representative sample of vehicles pursuant to subparagraph (C) of paragraph (1), the department shall assign the carrier an unsatisfactory terminal rating and require a reinspection to be conducted pursuant to subdivision (h).

(3) For purposes of this subdivision, the following terms have the following meanings:

(A) “Driver records” includes pull notice system records, driver proficiency records, and driver timekeeping records.

(B) “Maintenance records” includes all required maintenance, lubrication, and repair records and drivers’ daily vehicle condition reports.

(C) “Representative sample” means the following, applied separately to the carrier’s fleet of motortrucks and truck tractors and its fleet of trailers:

<table>
<thead>
<tr>
<th>Fleet Size</th>
<th>Representative Sample</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 or 2</td>
<td>All</td>
</tr>
<tr>
<td>3 to 8</td>
<td>3</td>
</tr>
<tr>
<td>9 to 15</td>
<td>4</td>
</tr>
<tr>
<td>16 to 25</td>
<td>6</td>
</tr>
<tr>
<td>26 to 50</td>
<td>9</td>
</tr>
<tr>
<td>51 to 90</td>
<td>14</td>
</tr>
<tr>
<td>91 or more</td>
<td>20</td>
</tr>
</tbody>
</table>

(c) Each motor carrier who, in this state, directs the operation of, or maintains, a vehicle of a type described in subdivision (a) shall designate one or more terminals, as defined in Section 34515, in this state where vehicles can be inspected by the department pursuant to paragraph (4) of subdivision (a) of Section 34501 and where vehicle inspection and maintenance records and driver records will be made available for inspection.

(d) (1) The department shall inspect, at least every 25 months, every terminal, as defined in Section 34515, of a motor carrier who, at any time, operates a vehicle described in subdivision (a).

(2) The department shall place an inspection priority on those terminals operating vehicles listed in subdivision (g) of Section 34500.

(3) As used in this section and in Sections 34505.5 and 34505.6, subdivision (f) of Section 34500 includes only those combinations where the gross vehicle weight rating of the towing vehicle exceeds 10,000 pounds, but does not include a pickup truck, and subdivision (g) of Section 34500 includes only those vehicles transporting hazardous material for which the display of placards is required pursuant to Section 27903, a license is required pursuant to Section 32000.5, or for which hazardous waste transporter registration is required pursuant to Section 25163 of the Health and Safety Code. Historical vehicles, as described in Section 5004, vehicles that display special identification plates in accordance with Section 5011, implements of husbandry and farm vehicles, as defined in Chapter 1 (commencing with Section 36000) of Division 16, and vehicles owned or operated by an agency of the federal government are not subject to this section or to Sections 34505.5 and 34505.6.

(e) (1) It is the responsibility of the motor carrier to schedule with the department the inspection required by subdivision (d). The motor carrier shall submit an application form supplied by the department, accompanied by the required fee contained in paragraph (2), for each terminal the motor carrier operates. This fee shall be submitted within 30 days of establishing a terminal. All fees submitted under paragraph (2) are nonrefundable.

(2) (A) The fee for each terminal is set forth in the following table:

<table>
<thead>
<tr>
<th>Terminal fleet size</th>
<th>Required fee per terminal</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>$270</td>

<td>1,165</td>
</tr>
<tr>
<td>91 or more</td>
<td>1,870</td>
</tr>
</tbody>
</table>

(B) In addition to the fee specified in subparagraph (A), the motor carrier shall submit an additional fee of three hundred fifty dollars ($350) for each of its terminals not previously inspected under the section.

(3) Except as provided in paragraph (5), the inspection term for each inspected terminal of a motor carrier shall expire 25 months from the date the terminal receives a satisfactory compliance rating, as specified in subdivision (h). Applications and fees for subsequent inspections shall be submitted not earlier than nine months and not later than seven months before the expiration of the motor carrier’s then current inspection term. If the motor carrier has submitted the inspection application and the required accompanying fees, but the department is unable to complete the inspection within...
the 25-month inspection period, then no additional fee shall be required for the inspection requested in the original application.

(4) All fees collected pursuant to this subdivision, including delinquency fees, shall be deposited in the Motor Vehicle Account in the State Transportation Fund. An amount equal to the fees collected shall be available for appropriation by the Legislature from the Motor Vehicle Account to the department for the purpose of conducting truck terminal inspections and for the additional roadside safety inspections required by Section 34514.

(5) To avoid the scheduling of a renewal terminal inspection pursuant to this section during a carrier’s seasonal peak business periods, the current inspection term of a terminal that has paid all required fees and has been rated satisfactory in its last inspection may be reduced by not more than nine months if a written request is submitted by the carrier to the department at least four months prior to the desired inspection month, or at the time of payment of renewal inspection fees in compliance with paragraph (3), whichever date is earlier. A motor carrier may request this adjustment of the inspection term during any inspection cycle. A request made pursuant to this paragraph shall not result in a fee proration and does not relieve the carrier from the requirements of paragraph (3).

(6) Failure to pay a fee required by this section, within the appropriate timeframe, shall result in additional delinquent fees as follows:

(A) For a delinquency period of more than 30 days and less than one year, the penalty is 60 percent of the required fee.

(B) For a delinquency period of one to two years, the penalty is 80 percent of the required fee.

(C) For a delinquency period of more than two years, the penalty is 160 percent of the required fee.

(7) Federal, state, and local public entities are exempt from the fee requirement of this section.

(f) It is unlawful for a motor carrier to operate a vehicle subject to this section without having submitted an inspection application and the required fees to the department as required by subdivision (e) or (h).

(g) (1) It is unlawful for a motor carrier to operate a vehicle subject to this section after submitting an inspection application to the department, without the inspection described in subdivision (d) having been performed and a safety compliance report having been issued to the motor carrier within the 25-month inspection period or within 60 days immediately preceding the inspection period.

(2) It is unlawful for a motor carrier to contract or subcontract with, or otherwise engage the services of, another motor carrier, subject to this section, unless the contracted motor carrier has complied with this section. A motor carrier shall not contract or subcontract with, or otherwise engage the services of, another motor carrier until the contracted motor carrier provides certification of compliance with this section. This certification shall be completed in writing by the contracted motor carrier. The certification, or a copy thereof, shall be maintained by each involved party for the duration of the contract or the period of service plus two years, and shall be presented for inspection immediately upon the request of an authorized employee of the department.

(h) (1) An inspected terminal that receives an unsatisfactory compliance rating shall be reinspected within 120 days after the issuance of the unsatisfactory compliance rating.

(2) A terminal’s first required reinspection under this subdivision shall be without charge unless one or more of the following is established:

(A) The motor carrier’s operation presented an imminent danger to public safety.

(B) The motor carrier was not in compliance with the requirement to enroll all drivers in the pull notice program pursuant to Section 1808.1.

(C) The motor carrier failed to provide all required records and vehicles for a consolidated inspection pursuant to subdivision (b).

(3) If the unsatisfactory rating was assigned for any of the reasons set forth in paragraph (2), the carrier shall submit the required fee as provided in paragraph (4).

(4) Applications for reinspection pursuant to paragraph (3) or for second and subsequent consecutive reinspections under this subdivision shall be accompanied by the fee specified in paragraph (2) of subdivision (e) and shall be filed within 60 days of issuance of the unsatisfactory compliance rating. The reinspection fee is nonrefundable.

(5) When a motor carrier’s Motor Carrier of Property Permit or Public Utilities Commission operating authority is suspended as a result of an unsatisfactory compliance rating, the department shall not conduct a reinspection for permit or authority reinstatement until requested to do so by the Department of Motor Vehicles or the Public Utilities Commission, as appropriate.

(i) It is the intent of the Legislature that the department make its best efforts to inspect terminals within the resources provided. In the interest of the state, the Commissioner of the California Highway Patrol may extend for a period, not to exceed six months, the inspection terms beginning prior to July 1, 1990.

(j) Except as provided in paragraph (5), to encourage motor carriers to attain continuous satisfactory compliance ratings, the department may establish and implement an incentive program consisting of the following:

(1) After the second consecutive satisfactory compliance rating assigned to a motor carrier terminal as a result of an inspection conducted pursuant to subdivision (d), and after each consecutive satisfactory compliance rating thereafter, an appropriate certificate, denoting the number of consecutive satisfactory ratings, shall be awarded to the terminal, unless the terminal has received an unsatisfactory compliance rating as a result of an inspection conducted in the interim between the consecutive inspections conducted under subdivision (d), or the motor carrier is rated unsatisfactory by the department following a controlled substances and alcohol testing program inspection. The certificate authorized under this paragraph shall not be awarded for performance in the administrative review authorized under paragraph (2). However, the certificate shall include a reference to any administrative reviews conducted during the period of consecutive satisfactory compliance ratings.

(2) Unless the department’s evaluation of the motor carrier’s safety record indicates a declining level of compliance, a terminal that has attained two consecutive satisfactory
§34501.12  (a) Vehicles and the operation thereof, subject to this section, are those described in subdivision (a), (b), (e), (f), (g), (j), or (k) of Section 34500.

(b) It is unlawful for a motor carrier to operate any vehicle of a type described in subdivision (a) without identifying to the department all terminals, as defined in Section 34515, in this state where vehicles may be inspected by the department pursuant to paragraph (4) of subdivision (a) of Section 34501 and where vehicle inspection and maintenance records and driver records will be made available for inspection. Motor carriers shall make vehicles and records available for inspection upon request by an authorized representative of the department. If a motor carrier fails to provide vehicles and records, an unsatisfactory terminal rating shall be issued by the department.

(1) The number of vehicles that will be selected for inspection by the department at a terminal shall be based on terminal fleet size and applied separately to a terminal fleet of power units and trailers, according to the following schedule:

<table>
<thead>
<tr>
<th>Fleet Size</th>
<th>Representative Sample</th>
</tr>
</thead>

(2) The lessor of any vehicle described in subdivision (a) shall make vehicles available for inspection upon request of an authorized representative of the department in the course of inspecting the terminal of the lessee. This section does not affect whether the lessor or driver provided by the lessor is an employee of the authorized carrier lessee, and compliance with this section and its attendant administrative requirements does not imply an employee-employer relationship.

(c) (1) The department may inspect any terminal, as defined in Section 34515, of a motor carrier who, at any time, operates any vehicle described in subdivision (a).

(2) The department shall adopt rules and regulations establishing a performance-based truck terminal inspection selection priority system. In adopting the system's rules and regulations, the department shall incorporate methodologies consistent with those used by the Federal Motor Carrier Safety Administration, including those related to the quantitative analysis of safety-related motor carrier performance data, collected during the course of inspection or enforcement contact by authorized representatives of the department or any authorized federal, state, or local safety official, in categories, including, but not limited to, driver fatigue, driver fitness, vehicle maintenance, and controlled substances and alcohol use. The department shall also incorporate other safety-related motor carrier performance data in this system, including citations and accident information. The department shall create a database to include all performance-based data specified in this section that shall be updated in a manner to provide real-time information to the department on motor
carrier performance. The department shall prioritize for selection those motor carrier terminals never previously inspected by the department, those identified by the inspection priority selection system, and those terminals operating vehicles listed in subdivision (g) of Section 34500. The department is not required to inspect a terminal subject to inspection pursuant to this section more often than once every six years, if a terminal receives a satisfactory compliance rating as a result of a terminal inspection conducted by the department pursuant to this section or Section 34501, or if the department has not received notification by the system of a motor carrier operating while exceeding the threshold of the inspection selection priority system. Any motor carrier that is inspected and receives less than a satisfactory compliance rating, or that falls below the threshold of the selection priority system, shall be subject to periodic inquiries and inspections as outlined in subdivision (f), and these inquiries and inspections shall be based on the severity of the violations.

(3) As used in this section and Section 34505.6, subdivision (f) of Section 34500 includes only those combinations where the gross vehicle weight rating of the towing vehicle exceeds 10,000 pounds, but does not include a pickup truck or any combination never operated in commercial use, and subdivision (g) of Section 34500 includes only those vehicles transporting hazardous material for which the display of placards is required pursuant to Section 27903, a license is required pursuant to Section 32000.5, or for which hazardous waste transporter registration is required pursuant to Section 25163 of the Health and Safety Code. Notwithstanding Section 5014.1, vehicles that display special identification plates in accordance with Section 5011, historical vehicles, as described in Section 5004, implements of husbandry and farm vehicles, as defined in Chapter 1 (commencing with Section 36000) of Division 16, and vehicles owned or operated by an agency of the federal government are not subject to this section or Section 34505.6.

(d) It is unlawful for a motor carrier to operate, or cause to be operated, any vehicle which is subject to this section, Section 34520, or Division 14.85 (commencing with Section 34600), unless the motor carrier is knowledgeable of, and in compliance with, all applicable statutes and regulations.

(e) It is unlawful for a motor carrier to contract or subcontract with, or otherwise engage the services of, another motor carrier, subject to this section, unless the contracted motor carrier has complied with subdivision (d). A motor carrier shall not contract or subcontract with, or otherwise engage the services of, another motor carrier until the contracted motor carrier provides certification of compliance with subdivision (d). This certification shall be completed in writing by the contracted motor carrier in a manner prescribed by the department. The certification, or a copy of the certification, shall be maintained by each involved party for the duration of the contract or the period of service plus two years, and shall be presented for inspection immediately upon the request of an authorized employee of the department. The certifications required by this subdivision and subdivision (b) of 34620 may be combined.

(f) (1) An inspected terminal that receives an unsatisfactory compliance rating shall be reinspected by the department within 120 days after the issuance of the unsatisfactory compliance rating.

(2) When a motor carrier’s Motor Carrier of Property Permit or Public Utilities Commission operating authority is suspended as a result of an unsatisfactory compliance rating, the department shall not conduct a reinspection for permit or authority reinstatement until requested to do so by the Department of Motor Vehicles or the Public Utilities Commission, as appropriate.

(g) A motor carrier issued an unsatisfactory terminal rating may request a review of the rating within five business days of receipt of the notification of the rating. The department shall conduct and evaluate the review within 10 business days of the request.

(h) The department shall publish performance-based inspection completion data and make the data available for public review.

(i) This section shall be known, and may be cited, as the Basic Inspection of Terminals Program or BIT program.

(j) This section shall become operative on January 1, 2016.

Amended Sec. 6, Ch. 500, Stats. 2013. Effective January 1, 2016.

§34501.14

Unsatisfactory Rating Notification

34501.13. If the inspection of a carrier facility, maintenance facility, or terminal of any person who operates a schoolbus results in an unsatisfactory terminal rating by the department, the department shall notify the school board of the district that is responsible for the terminal.

Grape Gondolas: Inspection

34501.14. (a) Notwithstanding Section 34501.12, for purposes of this division, safety inspections of grape gondolas are governed by this section.

(b) Every registered owner of a grape gondola shall submit an application and the fee specified in subdivision (g) to the department for the initial inspection required by this section. The initial application shall be submitted on or before July 1, 1993. The inspection term for a grape gondola shall expire 25 months from the date the department conducts the inspection, and issues a certificate indicating the gondola has passed the inspection, and every 25 months thereafter. Applications and fees for subsequent inspections and certificates shall be submitted not later than seven months before the expiration of the then current inspection term. If the registered owner has submitted the inspection application and the required accompanying fees, but the department is unable to complete the inspection within the 25-month inspection period, then no additional fee shall be required for the inspection requested in the original application.

(c) On and after July 1, 1993, no person may operate any grape gondola without having submitted an inspection application and the required fees to the department as required by this section.

(d) On and after January 1, 1995, no person may operate any grape gondola, without the inspection described in subdivision (e) having been performed and a certificate having been issued to the owner.

(e) The safety inspection undertaken pursuant to this section shall be limited to an inspection of the brake system, steering, lights, connections, wheels and tires, frame, and suspension.
(f) For purposes of undertaking the inspection of grape gondolas under this section, the department shall schedule all inspections at one central location during a continuous eight-week period every odd-numbered year with at least two days of each week during that eight-week period devoted to the actual inspection. If the gondola does not pass its first inspection, it may be reinspected during the eight-week period at no additional cost.

(g) Fees shall be established by the department in an amount equal to the actual costs incurred by the department in carrying out this section, but not to exceed twenty-five dollars ($25) for each inspection or reinspection.

(h) As used in this section, “grape gondola” means a motor vehicle which has been permanently altered and is attached to a grape tank by two means. The first mean is by use of a kingpin on the trunk which is centered through a turntable assembly on the tank. The second means of attachment is through the use of a pair of horizontal crossarms between the drive axle and the rear tank axle. The tank is designed to pivot off of the chassis on two support arms during dumping, and is further designed to be specifically compatible with dumping facilities of the wineries.

(i) This section only applies to a grape gondola that is used under all of the following conditions:
   (1) For 60 days or less during any calendar year.
   (2) For not more than 500 miles in any calendar year.
   (3) Only for the transportation of grapes.

Out-of-Service Order

34501.15. (a) The regulations adopted pursuant to Section 34501 shall require that any driver of a commercial motor vehicle, as defined in Section 15210, be ordered out of service for 24 hours if the driver is found to have 0.01 percent or more, by weight, of alcohol in his or her blood.

(b) This section shall become operative on January 1, 1992, and shall remain operative until the director determines that federal regulations adopted pursuant to the Commercial Vehicle Safety Act of 1986 (49 U.S.C. Sec. 2701 et seq.) do not require the state to implement the prohibitions and requirements in paragraphs (1) and (2) of subdivision (a).

(c) The director shall submit a notice of the determination under subdivision (c) to the Secretary of State, and this section shall be repealed upon the receipt of that notice.

NOTE: The preceding section shall remain in effect until notice to the contrary is received from the Secretary of State.

Paratransit Vehicles: Safety Inspection Requirements

34501.17. (a) All paratransit vehicles shall be regularly and systematically inspected, maintained, and lubricated by the owner or operator in accordance with the manufacturer’s recommendations, or more often if necessary to ensure the safe operating condition of the vehicle. The maintenance shall include, at a minimum, in-depth inspection of the vehicle’s brake system, steering components, lighting system, and wheels and tires, to be performed at intervals in accordance with the manufacturer’s recommendations.

(b) All owners or operators of paratransit vehicles shall document each systematic inspection, maintenance, and lubrication and repair performed for each vehicle subject to this section. Required records shall include service performed, the name of the person performing the service, the date that the service was performed, and the odometer reading of the vehicle at the time of the service. The records shall be maintained for the period that the vehicle is in service at the place of business in this state of the owner or operator of the vehicle, and shall be presented upon demand to any authorized representative of the department. The odometer of a paratransit vehicle shall be maintained in proper working order.

NOTE: The preceding section shall remain in effect until notice to the contrary is received from the Secretary of State.

Motor Carriers: Replacement of Drivers: Required Inspection

34501.18. (a) Every motor carrier regularly employing more than 20 full-time drivers shall report to the department whenever it replaces more than half of its drivers within a 30-day period. Within 21 days of receipt of that report, the department shall inspect the motor carrier to ensure that the motor carrier is complying with all safety of operations requirements, including, but not limited to, controlled substances testing and hours-of-service regulations. The reporting requirement of this subdivision does not apply to a motor carrier who, through normal seasonal fluctuations in the business operations of the carrier, or through termination of a contract for transportation services, other than a collective
bargaining agreement, replaces drivers in one geographical location with drivers in another geographical location.

(b) For the purposes of subdivision (a), “employing” means having an employer-employee relationship with a driver or contracting with an owner-operator, as described in Section 34624, to provide transportation services for more than 30 days within the previous year.

(c) For the purposes of subdivision (a), “full-time” means that the driver is on-duty with the motor carrier for an average of 30 hours or more per week during the course of his or her employment or contract with the motor carrier.

$34505.1$  
(a) Upon determining that a tour bus( ) carrier or modified limousine carrier has either (1) failed to maintain any vehicle used in transportation for compensation in a safe operating condition or to comply with the Vehicle Code or with regulations contained in Title 13 of the California Code of Regulations relative to motor carrier safety, and, in the department’s opinion, that failure presents an imminent danger to public safety or constitutes such a consistent failure as to justify a recommendation to the Public Utilities Commission or the( ) United States Department of Transportation or (2) failed to enroll all drivers in the pull notice system as required by Section 1808.1, the department shall recommend to the Public Utilities Commission that the carrier’s operating authority be suspended, denied, or revoked, or to the ( ) United States Department of Transportation that appropriate administrative action be taken against the carrier’s ( ) interstate operating authority, whichever is appropriate. For purposes of this subdivision, two consecutive unsatisfactory compliance ratings for an inspected terminal assigned because the tour bus ( ) carrier or modified limousine carrier failed to comply with the periodic report requirements of Section 1808.1 or the cancellation of the ( ) carrier’s enrollment by the Department of Motor Vehicles for nonpayment of required fees ( ) may be determined by the department to be a consistent failure. However, when recommending denial of an application for new or renewal authority, the department need not conclude that the carrier’s failure presents an imminent danger to public safety or that it constitutes a consistent failure. The department need only conclude that the carrier’s compliance with the safety-related matters described in paragraph (1) of subdivision (a) is sufficiently unsatisfactory to justify a recommendation for denial. The department shall retain a record, by ( ) carrier, of every recommendation made pursuant to this section.

(b) Before transmitting a recommendation pursuant to subdivision (a), the department shall notify the carrier in writing of all of the following:

(1) That the department has determined that the carrier’s safety record is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a suspension, revocation, or denial of the carrier’s operating authority by the( ) Public Utilities Commission or the ( ) United States Department of Transportation, as appropriate.

( ) (3) That the carrier may request a review of the determination by the department within five days of its receipt of the notice required under this subdivision. If a review is requested by the carrier, the department shall conduct and
evaluate that review prior to transmitting any notification pursuant to subdivision (a).

Amended Sec. 18, Ch. 860, Stats. 2014. Effective September 30, 2014.

The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following:

1. “operator”
2. “Interstate Commerce Commission”
3. “Federal Highway Administration Office of Motor Carriers,”
4. “operator’s”
5. “is”
6. “California”
7. “Interstate”
8. “Commerce Commission”

§34505.5. (a) Every motor carrier operating any vehicle described in subdivision (a), (b), (e), (f), or (g) of Section 34500, except those vehicles exempted under Section 34501.12, shall, as a part of the systematic inspection, maintenance, and lubrication services required of all motor carriers, require the vehicle or vehicles for which it is responsible pursuant to Section 34501.12 to be inspected at least every 90 days, or more often if necessary to ensure safe operation. Vehicles which are out of service for periods greater than 90 calendar days are not required to be inspected at 90-day intervals if they are inspected before operation on the highway. This inspection shall include, but not be limited to, all of the following:

(1) Brake adjustment.
(2) Brake system components and leaks.
(3) Steering and suspension systems.
(4) Tires and wheels.
(5) Vehicle connecting devices.

(b) No vehicle subject to this section shall be operated on the highway other than to a place of repair until all defects listed during the inspection conducted pursuant to subdivision (a) have been corrected and attested to by the signature of the motor carrier’s authorized representative.

(c) Records of inspections conducted pursuant to subdivision (a) shall be kept at the motor carrier’s terminals, as designated in accordance with Section 34501.12. The records shall be retained by the motor carrier for two years, and shall be made available for inspection upon request by any authorized employee of the department. Each record shall include, but not be limited to, all of the following:

(1) Identification of the vehicle, including make, model, license number, company vehicle number, or other means of positive identification.
(2) Date and nature of each inspection and any repair performed.
(3) Signature of the motor carrier’s authorized representative attesting to the inspection and to the completion of all required repairs.

(d) Printouts of inspection and maintenance records maintained in computer systems shall be accepted in lieu of signed inspection or repair records if the printouts include the information required in paragraphs (1) and (2) of subdivision (c).

(e) Notwithstanding subdivisions (a) to (d), inclusive, records of 90-day inspections need not be retained in California for interstate vehicles which are not physically based in California. However, when these vehicles are present in California, they are subject to inspection by the department. If the inspection results indicate maintenance program deficiencies, the department may require the motor carrier to produce the maintenance records or copies of those records for inspection within 10 working days.

(f) This section shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

Amended and repealed Sec. 7, Ch. 500, Stats. 2013. Effective January 1, 2014.

NOTE: The preceding section shall remain in effect only until January 1, 2016, at which time the following section becomes operative.

§34505.5. (a) Every motor carrier operating any vehicle described in subdivision (a), (b), (e), (f), (g), (j), or (k) of Section 34500, except those vehicles exempted under Section 34501.12, shall, as a part of the systematic inspection, maintenance, and lubrication services required of all motor carriers, require the vehicle or vehicles for which it is responsible pursuant to Section 34501.12 to be inspected at least every 90 days, or more often if necessary to ensure safe operation. Vehicles which are out of service for periods greater than 90 calendar days are not required to be inspected at 90-day intervals if they are inspected before operation on the highway. This inspection shall include, but not be limited to, all of the following:

(1) Brake adjustment.
(2) Brake system components and leaks.
(3) Steering and suspension systems.
(4) Tires and wheels.
(5) Vehicle connecting devices.

(b) No vehicle subject to this section shall be operated on the highway other than to a place of repair until all defects listed during the inspection conducted pursuant to subdivision (a) have been corrected and attested to by the signature of the motor carrier’s authorized representative.

(c) Records of inspections conducted pursuant to subdivision (a) shall be kept at the motor carrier’s terminals, as designated in accordance with Section 34501.12. The records shall be retained by the motor carrier for two years, and shall be made available for inspection upon request by any authorized employee of the department. Each record shall include, but not be limited to, all of the following:

(1) Identification of the vehicle, including make, model, license number, company vehicle number, or other means of positive identification.
(2) Date and nature of each inspection and any repair performed.
(3) Signature of the motor carrier’s authorized representative attesting to the inspection and to the completion of all required repairs.

(d) Printouts of inspection and maintenance records maintained in computer systems shall be accepted in lieu of signed inspection or repair records if the printouts include the information required in paragraphs (1) and (2) of subdivision (c).

(e) Notwithstanding subdivisions (a) to (d), inclusive, records of 90-day inspections need not be retained in California for interstate vehicles which are not physically based in California. However, when these vehicles are present in California, they are subject to inspection by the department. If the inspection results indicate maintenance program deficiencies, the department may require the motor carrier to...
produce the maintenance records or copies of those records for inspection within 10 working days.

(f) This section shall become operative on January 1, 2016.

Added Sec. 8, Ch. 500, Stats. 2013. Effective January 1, 2016.

Motor Carriers of Property and Motortrucks: Failure to Meet Requirements

34505.6. (a) Upon determining that a motor carrier of property who is operating any vehicle described in subdivision (a), (b), (e), (f), (g), or (k) of Section 34500, or any motortruck of two or more axles that is more than 10,000 pounds gross vehicle weight rating, on a public highway, has done any of the following, the department shall recommend that the Department of Motor Vehicles suspend or revoke the carrier’s motor carrier permit, or for interstate operators, the department shall recommend to the Federal Motor Carrier Safety Administration that appropriate administrative action be taken against the carrier:

(1) Failed to maintain any vehicle of a type described above in a safe operating condition or to comply with the Vehicle Code or with applicable regulations contained in Title 13 of the California Code of Regulations, and, in the department’s opinion, that failure presents an imminent danger to public safety or constitutes a consistent failure so as to justify a suspension or revocation of the motor carrier’s motor carrier permit.

(2) Failed to enroll all drivers in the pull-notice system as required by Section 1808.1.

(3) Failed to submit any application or pay any fee required by subdivision (e) or (h) of Section 34501.12 within the timeframes set forth in that section.

(b) Upon determining that a household goods carrier, or a household goods carrier transporting used office, store, or institution furniture and fixtures under its household goods carrier permit issued under Section 5137 of the Public Utilities Code, operating any vehicle described in subdivision (a), (b), (e), (f), (g), or (k) of Section 34500 on a public highway has done any of the following, the department shall recommend that the Public Utilities Commission deny, suspend, or revoke the carrier’s operating authority, or for interstate operators, the department shall recommend to the Federal Motor Carrier Safety Administration that appropriate administrative action be taken against the carrier:

(1) Failed to maintain any vehicle used in transportation for compensation in a safe operating condition or to comply with the Vehicle Code or with applicable regulations contained in Title 13 of the California Code of Regulations, and, in the department’s opinion, that failure presents an imminent danger to public safety or constitutes a consistent failure so as to justify a suspension, revocation, or denial of the motor carrier’s operating authority.

(2) Failed to enroll all drivers in the pull-notice system as required by Section 1808.1.

(3) Failed to submit any application or pay any fee required by subdivision (e) or (h) of Section 34501.12 within the timeframes set forth in that section.

(c) For purposes of this section, two consecutive unsatisfactory compliance ratings for an inspected terminal assigned because the motor carrier failed to comply with the periodic report requirements of Section 1808.1 or the cancellation of the carrier’s enrollment by the Department of Motor Vehicles for the nonpayment of required fees is a consistent failure. The department shall retain a record, by operator, of every recommendation made pursuant to this section.

(d) Before transmitting a recommendation pursuant to subdivision (a), the department shall notify the carrier in writing of all of the following:

(1) That the department has determined that the carrier’s safety record or compliance with Section 1808.1 or subdivision (e) or (h) of Section 34501.12 is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a suspension, revocation, or denial of the carrier’s motor carrier permit by the Department of Motor Vehicles, suspension, revocation, of the motor carrier’s operating authority by the California Public Utilities Commission, or administrative action by the Federal Motor Carrier Safety Administration.

(3) That the carrier may request a review of the determination by the department within five days of its receipt of the notice required under this subdivision. If a review pursuant to this paragraph is requested by the carrier, the department shall conduct and evaluate that review prior to transmitting any notification pursuant to subdivision (a) or (b).

(e) Upon receipt of a written recommendation from the department that a motor carrier permit or operating authority be suspended, revoked, or denied, the Department of Motor Vehicles or Public Utilities Commission, as appropriate, shall, pending a hearing in the matter pursuant to Section 34623 or appropriate Public Utilities Commission authority, suspend the motor carrier permit or operating authority. The written recommendation shall specifically indicate compliance with subdivision (d).

(f) This section shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

Amended and repealed Sec. 9, Ch. 500, Stats. 2013. Effective January 1, 2014.

NOTE: The preceding section shall remain in effect only until January 1, 2016, at which time the following section becomes operative.

34505.6. (a) Upon determining that a motor carrier of property who is operating any vehicle described in subdivision (a), (b), (e), (f), (g), (j), or (k) of Section 34500, or any motortruck of two or more axles that is more than 10,000 pounds gross vehicle weight rating, on a public highway, has done either of the following, the department shall recommend that the Department of Motor Vehicles suspend or revoke the carrier’s motor carrier permit by the California Department of Motor Vehicles or Public Utilities Commission, or administrative action by the Federal Motor Carrier Safety Administration that appropriate administrative action be taken against the carrier:

(1) Failed to maintain any vehicle of a type described above in a safe operating condition or to comply with the Vehicle Code or with applicable regulations contained in Title 13 of the California Code of Regulations, and, in the department’s opinion, that failure presents an imminent danger to public safety or constitutes a consistent failure so as to justify a suspension or revocation of the motor carrier’s motor carrier permit.
(2) Failed to enroll all drivers in the pull-notice system as required by Section 1808.1.

(b) Upon determining that a household goods carrier, or a household goods carrier transporting used office, store, or institution furniture and fixtures under its household goods carrier permit issued under Section 5137 of the Public Utilities Code, operating any vehicle described in subdivision (a), (b), (e), (f), (g), (j), or (k) of Section 34500 on a public highway, has done either of the following, the department shall recommend that the Public Utilities Commission deny, suspend, or revoke the carrier’s operating authority, or, for interstate operators, the department shall recommend to the Federal Motor Carrier Safety Administration that appropriate administrative action be taken against the carrier:

(1) Failed to maintain any vehicle used in transportation for compensation in a safe operating condition or to comply with the Vehicle Code or with applicable regulations contained in Title 13 of the California Code of Regulations relative to motor carrier safety, and, in the department’s opinion, that failure presents an imminent danger to public safety or constitutes a consistent failure so as to justify a suspension, revocation, or denial of the motor carrier’s operating authority.

(2) Failed to enroll all drivers in the pull-notice system as required by Section 1808.1.

(c) For purposes of this section, two consecutive unsatisfactory compliance ratings for an inspected terminal assigned because the motor carrier failed to comply with the periodic report requirements of Section 1808.1 or the cancellation of the carrier’s enrollment by the Department of Motor Vehicles for the nonpayment of required fees is a consistent failure. The department shall retain a record, by operator, of every recommendation made pursuant to this section.

(d) Before transmitting a recommendation pursuant to subdivision (a), the department shall notify the carrier in writing of all of the following:

(1) That the department has determined that the carrier’s safety record or compliance with Section 1808.1 is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a suspension, revocation, or denial of the carrier’s motor carrier permit by the Department of Motor Vehicles, suspension, revocation, or denial of the carrier’s operating authority by the California Highway Patrol, suspension, revocation, or denial of the carrier’s operating authority by the California Public Utilities Commission, or administrative action by the Federal Motor Carrier Safety Administration.

(3) That the carrier may request a review of the determination by the department within five days of its receipt of the notice required under this subdivision. If a review pursuant to this paragraph is requested by the carrier, the department shall conduct and evaluate that review prior to transmitting any notification pursuant to subdivision (a).

(e) Upon receipt of a written recommendation from the department that a motor carrier permit or operating authority be suspended, revoked, or denied, the Department of Motor Vehicles or Public Utilities Commission, as appropriate, shall, pending a hearing in the matter pursuant to Section 34623 or appropriate Public Utilities Commission authority, suspend the motor carrier permit or operating authority. The written recommendation shall specifically indicate compliance with subdivision (d).

(f) This section shall become operative on January 1, 2016.

Added Sec. 10, Ch. 500, Stats. 2013. Effective January 1, 2016.

Recommended Suspension: Failure to Comply

34505.7. (a) Upon determining that a private carrier of passengers, as defined in Section 4001 of the Public Utilities Code, has either (1) failed to maintain any vehicle of the carrier in a safe operating condition or to comply with the Vehicle Code or with regulations contained in Title 13 of the California Code of Regulations relative to motor carrier safety, and, in the department’s opinion, the failure presents an imminent danger to public safety or constitutes such a consistent failure as to justify a recommendation to the Public Utilities Commission, or (2) failed to enroll all drivers in the pull notice system as required by Section 1808.1, the department shall make a written recommendation to the Public Utilities Commission that the carrier’s registration be suspended. Two consecutive unsatisfactory terminal ratings assigned for failure to comply with the periodic report requirements in Section 1808.1, or cancellation of an employer’s enrollment by the Department of Motor Vehicles for nonpayment of fees, constitutes a consistent failure. The department shall retain a record, by operator, of every recommendation made pursuant to this section.

(b) Before transmitting a recommendation pursuant to subdivision (a), the department shall give written notice to the carrier of all of the following:

(1) That the department has determined that the carrier’s safety record is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a suspension or revocation of the carrier’s registration by the California Public Utilities Commission.

(3) That the carrier may request a review of the determination by the department within five days of its receipt of the notice required by this subdivision. If a review pursuant to this paragraph is requested by the carrier, the department shall conduct and evaluate that review prior to transmitting any notification pursuant to subdivision (a).

(c) Commercial vehicle inspection facilities along the border of Mexico, including those in Calexico and Otay Mesa, shall be staffed at all times by a California Highway Patrol inspector whenever those facilities are open to the public. The California Highway Patrol shall also assign, as staffing permits, a commercial inspector to control truck traffic entering the United States at the Tecate border crossing.

Amended Sec. 52, Ch. 1042, Stats. 1996. Effective September 29, 1996.

Intermodal Roadability Inspections Program

34505.9. (a) An ocean marine terminal that receives and dispatches intermodal chassis may conduct the intermodal roadability inspection program, as described in this section, in lieu of the inspection required by Section 34505.5, if the terminal meets all of the following conditions:

(1) More than 1,000 chassis are based at the ocean marine terminal.

(2) The ocean marine terminal, following the two most recent consecutive inspections required by Section 34501.12, has received satisfactory compliance ratings, and the terminal
has received no unsatisfactory compliance ratings as a result of any inspection conducted in the interim between the consecutive inspections conducted under Section 34501.12.

(3) Each intermodal chassis exiting the ocean marine terminal shall have a current decal and supporting documentation in accordance with Section 396.17 of Title 49 of the Code of Federal Regulations.

(4) The ocean marine terminal’s intermodal roadability inspection program shall consist of all of the following:

(A) Each time an intermodal chassis is released from the ocean marine terminal, the chassis shall be inspected. The inspection shall include, but not be limited to, brake adjustment, brake system components and leaks, suspension systems, tires and wheels, vehicle connecting devices, and lights and electrical system, and shall include a visual inspection of the chassis to determine that it has not been tampered with.

(B) Each inspection shall be recorded on a daily roadability inspection report that shall include, but not be limited to, all of the following:

(i) Positive identification of the intermodal chassis, including company identification number and vehicle license plate number.

(ii) Date and nature of each inspection.

(iii) Signature, under penalty of perjury, of the ocean marine terminal operator or an authorized representative that the inspection has been performed.

(iv) The inspector shall affix a green tag to a chassis that has passed inspection and a red tag to a chassis that has failed inspection. The tag shall contain the name of the inspector and the date and time that the inspection was completed and shall be placed in a conspicuous location so that it may be viewed from the rear of the vehicle. The tag shall be provided by the marine terminal operator and shall meet specifications determined by the Department of the California Highway Patrol. The provisions of this subparagraph shall also be applicable to an intermodal chassis inspected by a marine terminal operator pursuant to Section 34505.5.

(C) Records of each inspection conducted pursuant to subparagraph (A) shall be retained for 90 days at the ocean marine terminal at which each chassis is based and shall be made available upon request by any authorized employee of the department.

(D) Defects noted on any intermodal chassis shall be repaired, and the repairs shall be recorded on the intermodal chassis maintenance file, before the intermodal chassis is released from the control of the ocean marine terminal. No vehicle subject to this section shall be released to a motor carrier or operated on the highway other than to a place of repair until all defects listed during the inspection conducted pursuant to subparagraph (A) have been corrected and attested to by the signature of the operator’s authorized representative.

(E) Records of maintenance or repairs performed pursuant to the inspection in subparagraph (A) shall be maintained at the ocean marine terminal for two years and shall be made available upon request of the department. Repair records may be retained in a computer system if printouts of those records are provided to the department upon request.

(F) Individuals performing ocean marine terminal roadability inspections pursuant to this section shall be qualified, at a minimum, as set forth in Section 396.19 of Title 49 of the Code of Federal Regulations. Evidence of each inspector’s qualification shall be retained by the ocean marine terminal operator for the period during which the inspector is performing intermodal roadability inspections.

(b) The records maintained pursuant to paragraphs (C) and (E) of subdivision (a) and Section 34505.5 shall be made available during normal business hours to any motor carrier or driver or the authorized representative thereof who has been engaged to transport an intermodal container on a chassis inspected pursuant to this section or Section 34505.5 from the ocean marine terminal.

(c) Any citation issued for the violation of any state or federal law related to the defective condition of an intermodal chassis subject to inspection pursuant to this section or Section 34505.5, that is not owned by that motor carrier or commercial driver, shall be issued to the entity responsible for the inspection and maintenance of the intermodal chassis, unless the officer determines that the defective condition of the intermodal chassis was caused by the failure of the driver to operate a commercial motor vehicle in a safe manner.

(d) Any provision contained in a contract between the registered owner or lessee of an intermodal chassis subject to inspection pursuant to this section, or any other entity responsible for the inspection and maintenance of the intermodal chassis, and any motor carrier or any contract between a motor carrier and another motor carrier engaged to transport an intermodal container on a chassis subject to inspection pursuant to this section that contains a hold harmless or indemnity clause concerning defects in the physical condition of that chassis shall be void as against public policy. This subdivision shall not apply to damage to the intermodal chassis caused by the negligent or willful failure of the motor carrier to operate a commercial motor vehicle in a safe manner.

(e) Following a terminal inspection in which the department determines that an operator of an ocean marine terminal has failed to comply with the requirements of this section, the department shall conduct a reinspection within 120 days as specified in subdivision (b) of Section 34501.12. If the terminal fails the reinspection, the department shall direct the operator to comply with the requirements of Section 34505.5 until eligibility to utilize the inspection program described in this section is reestablished pursuant to subdivision (a). If any inspection results in an unsatisfactory rating due to conditions presenting an imminent danger to the public safety or due to the operator’s repeated failure to inspect and repair intermodal chassis pursuant to this section, the department shall immediately forward a recommendation to the Department of Motor Vehicles to suspend the operator’s motor carrier property permit, and forward a recommendation to the Federal Motor Carrier Safety Administration for administrative or other action deemed necessary against the carrier’s interstate operating authority, pursuant to Section 34505.6 or 34505.7.

(f) Any driver who believes that an intermodal chassis is in an unsafe operating condition may request that the chassis be reinspected by the entity responsible for the inspection and maintenance of the chassis pursuant to this section or Section
§34505.10. The request for reinspection, any corrective action taken, or the reason why corrective action was not taken shall be recorded in the intermodal chassis maintenance file.

(g) No commercial driver shall be threatened, coerced, or otherwise retaliated against by any ocean marine terminal operator for contacting a law enforcement agency with regard to the physical condition of an intermodal chassis or for requesting that the intermodal chassis be reinspected or repaired.

(h) For the purposes of this section, the following definitions shall apply:

(1) “Intermodal chassis” means a trailer designed to carry intermodal freight containers.

(2) “Ocean marine terminal” means a terminal, as defined in Section 34515, located at a port facility that engages in the loading and unloading of the cargo of oceangoing vessels.

(i) Nothing in this section shall relieve a commercial driver or commercial motor carrier of any duty imposed by state or federal law related to the safe operation of a commercial motor vehicle.

(j) Nothing in this section shall affect the rights, duties, and obligations set forth in Section 2802 of the Labor Code.

Retention of Records: Contract Transportation Services

34505.10. Motor carriers who contract or subcontract transportation service for other motor carriers shall retain all required records relating to the dispatch of vehicles and drivers and the pay of drivers that are not required to be retained by the carrier for whom the contracted or subcontracted service is performed.

Violations: Misdemeanors

34506. It is a misdemeanor to fail to comply with any rule or regulation adopted by the Department of the California Highway Patrol pursuant to Section 34501, 34501.5, 34508, or 34513 regarding any of the following:

(a) Hours of service of drivers.

(b) Hazardous material transportation.

(c) Schoolbus construction, design, color, equipment, maintenance, or operation.

(d) Youth bus equipment, maintenance, or operation.

(e) Tour bus equipment, maintenance, or operation.

(f) Equipment, maintenance, or operation of any vehicle described in subdivision (a), (b), (d), (e), (f), or (g) of Section 34500.

(g) Equipment, maintenance, or operation of any school pupil activity bus.

Violations: Infractions

34506.3. Except as otherwise provided in this division, it is an infraction to fail to comply with any rule or regulation adopted by the department pursuant to this division.

Removal or Impounding of Certain Unsafe Vehicles

34506.4. (a) Any member of the Department of the California Highway Patrol may remove from the highway and have placed in a storage facility, any vehicle described in subdivision (a) of Section 22406, subdivision (g) of Section 34500, and any motortruck with a gross vehicle weight rating of more than 10,000 pounds, which is in an unsafe condition.

(b) Any member of the Department of the California Highway Patrol may impound any farm labor vehicle operated in violation of subdivision (b) of Section 2800, subdivision (a) of Section 24002.5, or subdivision (a) of Section 31402, subject to the following requirements:

(1) A farm labor vehicle impounded for a first violation of subdivision (b) of Section 2800, subdivision (a) of Section 24002.5, or subdivision (a) of Section 31402 may be released within 24 hours upon delivery to the impounding authority of satisfactory proof that the vehicle will be lawfully moved or transported to a place of repair.

(2) A farm labor vehicle shall be impounded for not less than 10 days for a second violation of subdivision (b) of Section 2800, subdivision (a) of Section 24002.5, or subdivision (a) of Section 31402, or any combination of two of those provisions, if the original equipment or maintenance violation has not been repaired to comply with existing law. The farm labor vehicle shall be released after 10 days upon delivery to the impounding authority of satisfactory proof that the vehicle has been repaired to comply with existing law, or upon delivery to the impounding agency of satisfactory proof that the vehicle will be lawfully moved or transported to a place of repair.

(3) A farm labor vehicle shall be impounded for not less than 30 days for a third or subsequent violation of subdivision (b) of Section 2800, subdivision (a) of Section 24002.5, or subdivision (a) of Section 31402, or any combination of three or more of those provisions, if the original equipment or maintenance violation has not been repaired to comply with existing law. The farm labor vehicle shall be released after 30 days upon delivery to the impounding authority of satisfactory proof that the vehicle has been repaired to comply with existing law, or upon delivery to the impounding agency of satisfactory proof that the vehicle will be lawfully moved or transported to a place of repair.

(c) All towing and storage fees for a vehicle removed under this section shall be paid by the owner.

Farm Labor Vehicles: Forfeiture

34506.5. (a) A farm labor vehicle is subject to forfeiture as a nuisance if it is driven on a highway in violation of subdivision (b) of Section 2800, subdivision (a) of Section 24002.5, or subdivision (a) of Section 31402 and has been impounded for a second or subsequent time pursuant to paragraph (3) of subdivision (b) of Section 34506.4.

(b) (1) A registered or legal owner of record at the time of impoundment may request a hearing to determine the validity of the impoundment pursuant to paragraph (1) or (2) of subdivision (n) of Section 14607.6.

(2) If it is determined that the necessary repairs had been completed and the farm labor vehicle complied with existing laws at the time of impoundment, the agency employing the person who directed the impoundment shall be responsible for the costs incurred for towing and storage.

(c) Procedures established in subdivisions (e), (f), (g), (h), (i), (j), (k), (l), (o), (p), (q), (r), (t), (u), and (v) of Section 14607.6 shall be utilized for the forfeiture of an impounded farm labor vehicle.

§34507.6

Display of Symbol

34507. To assist the department in enforcing this division, a vehicle that is subject to this division and to the jurisdiction, control, and regulation of the Department of Motor Vehicles, the Public Utilities Commission, or the United States Secretary of the Department of Transportation shall have displayed prominently a distinctive identifying symbol as required by Section 34507.5.

Carrier Identification Number

34507.5. (a) A motor carrier, as defined in Section 408, a motor carrier of property, and a for-hire motor carrier of property, as defined in Section 34601, shall obtain a carrier identification number from the department. Application for a carrier identification number shall be on a form furnished by the department. Information provided in connection with an application for a carrier identification number shall be updated by a motor carrier upon request from the department.

(b) The carrier identification number assigned to the motor carrier under whose operating authority or motor carrier permit the vehicle or combination of vehicles is being operated shall be displayed on both sides of each vehicle, or on both sides of at least one motor vehicle in each combination of the following vehicles:

1. Each vehicle set forth in Section 34500.
2. A motortruck of two or more axles that is more than 10,000 pounds gross vehicle weight rating.
3. Any other motortruck or motor vehicle used to transport property for compensation.
(c) A vehicle or combination of vehicles listed in subdivision (b) that is operated under a rental agreement with a term of not more than 30 calendar days shall meet all of the following requirements:
1. Have displayed on both sides of each vehicle or on both sides of one of the vehicles in each combination of vehicles the name or trademark of the lessor.
2. Have displayed on both sides of each vehicle or on both sides of one of the vehicles in each combination of vehicles any of the following numbers issued to the lessor:
   A. The carrier identification number issued by the United States Department of Transportation.
   B. A valid operating authority number.
   C. A valid motor carrier of property number.
3. (A) Have in the vehicle or combination of vehicles a copy of the rental agreement entered into by the lessor and the vehicle operator.
   (B) The rental agreement shall be available for inspection immediately upon the request of an authorized employee of the department, a regularly employed and salaried police officer or deputy sheriff, or a reserve police officer or reserve deputy sheriff listed pursuant to Section 830.6 of the Penal Code.
   (C) If the rented vehicle or combination of vehicles is operated in conjunction with a commercial enterprise, the rental agreement shall include the operator’s carrier identification number or motor carrier of property permit number.
   (d) A vehicle or combination of vehicles that is in compliance with Section 390.21 of Title 49 of the Code of Federal Regulations shall be deemed to be in compliance with subdivision (c).

(e) This section does not apply to any of the following vehicles:
1. A vehicle described in subdivision (f) of Section 34500, that is operated by a private carrier as defined in subdivision (d) of Section 34601, if the gross vehicle weight rating of the towing vehicle is 10,000 pounds or less, or the towing vehicle is a pickup truck, as defined in Section 471. This exception does not apply to a vehicle combination described in subdivision (k) of Section 34500.
2. A vehicle described in subdivision (g) of Section 34500, that is operated by a private carrier as defined in subdivision (d) of Section 34601, if the hazardous material transportation does not require the display of placards pursuant to Section 27903, a license pursuant to Section 32000.5, or hazardous waste hauler registration pursuant to Section 25163 of the Health and Safety Code.
3. A historical vehicle, as described in Section 5004, and a vehicle that displays special identification plates in accordance with Section 5011.
4. An implement of husbandry as defined in Chapter 1 (commencing with Section 36000) of Division 16.
5. A vehicle owned or operated by an agency of the federal government.
6. A pickup truck, as defined in Section 471, and a two-axle daily rental truck with a gross vehicle weight rating of less than 26,001 pounds, when operated in noncommercial use.

(f) Subdivision (b) does not apply to the following:
1. A vehicle that displays a valid identification number assigned by the United States Secretary of the Department of Transportation.
2. A vehicle that is regulated by, and that displays a valid operating authority number issued by, the Public Utilities Commission, including a household goods carrier as defined in Section 5109 of the Public Utilities Code.
3. A for-hire motor carrier of passengers.
4. The display of the carrier identification number shall be in sharp contrast to the background, and shall be of a size, shape, and color that it is readily legible during daylight hours from a distance of 50 feet.
5. The carrier identification number for a company no longer in business, no longer operating with the same name, or no longer operating under the same operating authority, identification number, or motor carrier permit shall be removed before sale, transfer, or other disposal of a vehicle marked pursuant to this section.

Bus: Carrier Identification Number

34507.6. (a) Every operator of transportation service which is exempt from regulation as a charter-party carrier of passengers pursuant to subdivision (k) or (l) of Section 5353 of the Public Utilities Code, and which furnishes that transportation service in a bus, shall obtain a carrier identification number from the Department of the California Highway Patrol. Application for a carrier identification number shall be on a form furnished by the Department of the California Highway Patrol.
(b) (1) The carrier identification number so obtained by the operator shall be displayed on both sides of each bus used in that transportation service.

(2) The display of the carrier identification number shall be in sharp contrast to the background, and shall be of a size, shape, and color as to be readily legible during daylight hours from a distance of at least 50 feet.

(3) The carrier identification number shall be removed before the sale, transfer, or other disposal of the bus.

Additional Regulations: Schoolbuses

§34508. The Department of the California Highway Patrol shall adopt and enforce rules and regulations relating to the equipment, maintenance, construction, design, color, and operation of schoolbuses.

Vanpool Vehicles: Equipment and Inspection

§34509. Vanpool vehicles, as defined in Section 668, and vanpool vehicles when used for purposes other than traveling to and from a work location and transporting not more than 10 persons including the driver, shall be exempt from the regulations adopted pursuant to Section 34501, except that the following shall apply:

(a) The vanpool vehicle shall be equipped with an operable fire extinguisher which is of the dry chemical or carbon dioxide type with an aggregate rating of at least 4-B:C and which is securely mounted and readily accessible.

(b) The vanpool vehicle shall be equipped with a first aid kit, conforming to the minimum requirements for schoolbuses. First aid kits shall be readily visible, accessible, and plainly marked “First Aid Kit.”

(c) The vanpool vehicle shall be regularly and systematically inspected, maintained, and lubricated in accordance with the manufacturer’s recommendations, or more often if necessary to ensure the safe operating condition of the vehicle. The maintenance shall include, as a minimum, an in-depth inspection of the vehicle’s brake system, steering components, lighting system, and wheels and tires, to be performed at intervals of not more than every six months or 6,000 miles, whichever occurs first.

(d) Operators of vanpool vehicles shall document each systematic inspection, maintenance, and lubrication and repair performed for each vehicle under their control. Required records shall include services performed, the person performing the service, the date, and the mileage on the vehicle at the time of the repair. The records shall be maintained with the vehicle for one year, and shall be presented upon demand to any authorized representative of the California Highway Patrol.

(e) Vanpool vehicles being operated pursuant to the exemptions specified in this section shall display, upon the rear and sides of the vehicle, a sign or placard, clearly visible and discernible for a distance of not less than 50 feet, indicating that the vehicle is being used as a vanpool vehicle.

Display of Shipping Papers

§34510. Persons operating vehicles, or combinations of vehicles, in the transportation of hazardous material and subject to this division, shall carry in the vehicle while on route any shipping papers required to accompany the vehicle in accordance with regulations adopted pursuant to Section 2402. The bill of lading or other shipping paper shall be displayed upon demand of any member of the California Highway Patrol or any police officer of a city who is on duty for the exclusive or main purpose of enforcing the provisions of this code.

Amended Sec. 8, Ch. 504, Stats. 2001. Effective January 1, 2002.

Construction Trucking Services Brokers: Surety Bond

§34510.5. (a) (1) A broker of construction trucking services, as defined in Section 3322 of the Civil Code, shall not furnish construction transportation services to any construction project unless it has secured a surety bond of not less than fifteen thousand dollars ($15,000) executed by an admitted surety insurer. The surety bond shall ensure the payment of the claims of a contracted motor carrier of property in dump truck equipment if the broker fails to pay the contracted motor carrier within the time period specified in paragraph (1) of subdivision (a) of Section 3322 of the Civil Code.

(2) (A) A broker of construction trucking services annually shall provide written evidence of the broker’s valid surety bond to a third-party nonprofit organization that is related to the industry and regularly maintains a published database of bonded brokers or post a current copy of the surety bond on the broker’s Internet Web site.

(B) When a copy of a surety bond is provided to a third-party nonprofit organization, the broker shall notify the third-party nonprofit organization if at any time the surety bond is cancelled or expired. When a copy of the surety bond is posted on the broker’s Internet Web site, the broker shall remove the copy of the surety bond from his or her Internet Web site if at any time the surety bond is cancelled or expired.

(C) A third-party nonprofit organization shall not charge a broker for posting evidence of a valid surety bond or limit the posting of the bond only to the organization’s members.

(D) A third-party nonprofit organization shall not be liable for any damages caused by the publication of any information provided pursuant to this paragraph that is erroneous or outdated.

(b) A broker of construction trucking services shall not hire, or otherwise engage the services of, a motor carrier of property to furnish construction transportation services unless the broker provides, prior to the commencement of work each calendar year, written evidence of the broker’s valid surety bond to any person that hires, or otherwise engages the services of, the broker to furnish construction transportation services and also to the hired motor carrier of property.

(c) A broker of construction trucking services who furnishes construction transportation services in violation of this section is guilty of a misdemeanor and subject to a fine of up to five thousand dollars ($5,000).

(d) In any civil action brought against a broker of construction trucking services by a motor carrier of property in dump truck equipment with whom the broker contracted during any period of time in which the broker did not have a surety bond in violation of this section, the failure to have the bond shall create a rebuttable presumption that the broker failed to pay to the motor carrier the amount due and owing.
(e) For purposes of this section, “a broker of construction trucking services” does not include a facility that meets all the following requirements:

1. Arranges for transportation services of its product.
2. Primarily handles raw materials to produce a new product.
3. Is a rock product operation (such as an “aggregate” operation), a hot mixing asphalt plant, or a concrete, concrete product, or Portland cement product manufacturing facility.
4. Does not accept a fee for the arrangement.
5. For the purposes of this section, “written evidence of the broker’s valid surety bond” includes a copy of the surety bond, a certificate of insurance, a continuation certificate, or other similar documentation originally issued from the surety that includes the surety’s and broker’s name, the bond number, and the effective and expiration dates of the bond.

Added Sec. 1, Ch. 429, Stats. 2010. Effective January 1, 2011.
Amended Sec. 197, Ch. 76, Stats. 2013. Effective January 1, 2014.

Civil Action: Safety Regulations Violations

34511. Any violation of any provision of this division or regulation adopted pursuant thereto may be enjoined in a civil action brought by the Attorney General in the name of the people of the State of California, upon request of the department, except that it shall not be necessary to show lack of adequate remedy at law or to show irreparable damage or loss.

The department may not submit a request for civil action and the Attorney General may not bring an action pursuant to this section unless the person charged with a violation of this division or regulation adopted pursuant thereto fails to take corrective action after being notified of the violation by the department, in writing, on at least two occasions over a 60-day period. Prior to the submission of the department’s request for civil action, the person charged shall receive, at his or her request, a departmental hearing on the matter and the department’s request for civil action shall be forwarded by the department to, and approved by, the Commissioner of the California Highway Patrol.

Regulations: Tour Buses: Equipment and Maintenance

34513. The department shall adopt rules and regulations relating to the equipment and maintenance of tour buses.

Roadside Vehicle Safety Inspections

34514. (a) Beginning with the 1990-91 fiscal year, the department shall, upon appropriation of the requisite funds by the Legislature, annually conduct additional roadside vehicle safety inspections of vehicles described in Section 34501.12. These roadside inspections shall be in addition to the maintenance facility and terminal inspections required by that section, and over and above the number of roadside vehicle safety inspections conducted during the 1987-88 fiscal year.

(b) It is the intent of the Legislature that, beginning with the 1990-91 fiscal year, funds are to be appropriated to the department annually, for the purposes of subdivision (a), from the Motor Vehicle Account in the State Transportation Fund, to the extent that sufficient funds are collected pursuant to Section 34501.12.

Maintenance Facility or Terminal

34515. (a) As used in this division and in regulations adopted pursuant to this division, “maintenance facility or terminal” means any place or places where a vehicle of a type listed in Section 34500 is regularly garaged or maintained, or from which it is operated or dispatched. “Maintenance facility or terminal” may include a private business or residence.

(b) For the purpose of the inspections required by Section 34501.12, “terminal” means the location or locations in this state that are designated by a motor carrier, where subject vehicles may be inspected by the department pursuant to paragraph (4) of subdivision (a) of Section 34501, and where vehicle maintenance and inspection records and drivers’ records will be made available for inspection.

(c) This section shall remain in effect until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

Amended and repealed Sec. 11, Ch. 500, Stats. 2013. Effective January 1, 2014.

NOTE: The preceding section shall remain in effect only until January 1, 2016, at which time the following section becomes operative.

34515. (a) As used in this division and in regulations adopted pursuant to this division, “maintenance facility or terminal” means any place or places where a vehicle of a type listed in Section 34500 is regularly garaged or maintained, or from which it is operated or dispatched. “Maintenance facility or terminal” includes a private business or residence.

(b) For the purpose of the inspections conducted pursuant to Section 34501.12, “terminal” means the location or locations in this state that are designated by a motor carrier, where subject vehicles may be inspected by the department and where vehicle maintenance and inspection records and drivers’ records will be made available for inspection.

(c) This section shall become operative on January 1, 2016.

Added Sec. 12, Ch. 500, Stats. 2013. Effective January 1, 2016.

Transportation of Food Products

34516. (a) No person shall use or arrange for the use of a refrigerated motor vehicle, tank truck, dry van, or other motor vehicle, to provide transportation of food products for human consumption if the vehicle has been used to transport solid waste destined for landfills, or if precluded from use in accordance with subdivision (c).

(b) A violation of this section is a misdemeanor.

(c) If, pursuant to a federal statute having the same purposes as the act which added this section to the Public Utilities Code during the 1990 portion of the 1989-90 Regular Session, the United States Secretary of Transportation publishes a list of categories of solid waste or hazardous substances which he or she determines make food unsafe as a result of having been transported in a refrigerated motor vehicle, tank truck, dry van, or other motor vehicle also used to transport food products for human consumption, subdivisions (a) and (b) apply to those substances.

(d) A person or corporation charged with a violation of this section may avoid liability upon a showing by clear and convincing evidence that the transportation alleged to violate this section did not in fact endanger the public health, due to
the specific protective or remedial actions taken by the person or corporation charged.

**Foreign Vehicles: Operation Outside Commercial Zone**

34517. (a) With respect to a commercial motor vehicle from another country, a person shall not operate the vehicle outside the boundaries of a designated commercial zone unless the required operating authority from the United States Secretary of the Department of Transportation has first been obtained.

(b) A violation of subdivision (a) is an infraction punishable by a fine of one thousand dollars ($1,000).

(c) Notwithstanding subdivision (b), a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, shall issue a citation for a violation of subdivision (a) to the driver of the vehicle and order the driver of the vehicle to return the vehicle to its country of origin. The peace officer may impound a vehicle cited pursuant to this section and its cargo until the citation and all charges related to the impoundment are cleared. The impoundment charges are the responsibility of the vehicle’s owner.

(d) As used in this section, “designated commercial zone” means a commercial zone, as defined in Part 372 (commencing with Section 372.101) of Title 49 of the Code of Federal Regulations.

**Foreign Motor Carriers**

34518. (a) A foreign motor carrier or foreign private motor carrier required to have a certificate of registration issued by the United States Secretary of the Department of Transportation pursuant to Part 368 (commencing with Section 368.1), or required to be registered pursuant to Part 365 (commencing with Section 365.101), of Title 49 of the Code of Federal Regulations shall not do any of the following:

1. Operate in this state without the required certificate in the vehicle.
2. Operate beyond the limitations or restrictions specified in the certificate as issued.
3. Refuse to show the certificate upon request of a peace officer.
4. Provide point-to-point transportation services, including express delivery services, within the United States for goods other than international cargo.

(b) A motor carrier required to be registered with the United States Secretary of the Department of Transportation pursuant to Section 13902 of Title 49 of the United States Code, Part 365 (commencing with Section 365.101), Part 390 (commencing with Section 390.1), or Section 392.9a of Title 49 of the Code of Federal Regulations shall not do any of the following:

1. Operate in this state without the required registration.
2. Operate beyond the limitations or restrictions specified in its registration.
3. Operate in this state without the required operating authority.
4. A violation of subdivision (a) or (b) is an infraction punishable by a fine of one thousand dollars ($1,000).

(d) A member of the Department of the California Highway Patrol may impound a vehicle operated in violation of subdivision (a) or (b) and its cargo, until the citation and all charges related to the impoundment are cleared. The impoundment charges are the responsibility of the vehicle’s owner.

(e) (1) A motor carrier granted permanent operating authority pursuant to subdivision (a) shall not operate a vehicle on a highway, unless the vehicle is inspected by a Commercial Vehicle Safety Alliance-certified inspector every three months and displays a current safety inspection decal attesting to the successful completion of those inspections for at least three years after receiving permanent operating authority.

2. Paragraph (1) does not apply to a motor carrier granted authority to operate solely in a commercial zone on the United States-Mexico International Border.

(f) As used in this section “limitations” or “restrictions” include definitions of “commercial zones,” “municipality,” “contiguous municipalities,” “unincorporated area,” and “terminal areas,” in Part 372 (commencing with Section 372.101) of Title 49 of the Code of Federal Regulations.

**Motor Carriers and Drivers: Controlled Substances and Alcohol Use Testing**

34520. (a) Motor carriers and drivers shall comply with the controlled substances and alcohol use, transportation, and testing requirements of the United States Secretary of Transportation as set forth in Part 382 (commencing with Section 382.101) of, and Sections 392.5(a)(1) and 392.5(a)(3) of, Title 49 of the Code of Federal Regulations.

(b) (1) A motor carrier shall make available for inspection, upon the request of an authorized employee of the department, copies of all results and other records pertaining to controlled substances and alcohol use and testing conducted pursuant to federal law, as specified in subdivision (a), including those records contained in individual driver qualification files.

2. For the purposes of complying with the return-to-duty alcohol or controlled substances test requirements, or both, of Section 382.309 of Title 49 of the Code of Federal Regulations and the followup alcohol or controlled substances test requirements, or both, of Section 382.311 of that title, the department may use those test results to monitor drivers who are motor carriers.

3. Evidence derived from a positive test result in the possession of a motor carrier shall not be admissible in a criminal prosecution concerning unlawful possession, sale, or distribution of controlled substances.

(c) A drug or alcohol testing consortium, as defined in Section 382.107 of Title 49 of the Code of Federal Regulations, shall mail a copy of all drug and alcohol positive test result summaries to the department within three days of the test. This requirement applies only to drug and alcohol positive tests of those drivers employed by motor carriers who operate terminals within this state.

(d) A transit agency receiving federal financial assistance under Section 3, 9, or 18 of the Federal Transit Act, or under Section 103(e)(4) of Title 23 of the United States Code, shall comply with the controlled substances and alcohol use and testing requirements of the United States Secretary of
Transportation as set forth in Part 655 (commencing with Section 655.1) of Title 49 of the Code of Federal Regulations.

(e) The owner-operator shall notify all other motor carriers with whom he or she is under contract when the owner-operator has met the requirements of subdivision (c) of Section 15242. Notwithstanding subdivision (i), a violation of this subdivision is an infraction.

(f) Except as provided in Section 382.301 of Title 49 of the Code of Federal Regulations, an applicant for employment as a commercial driver or an owner-operator seeking to provide transportation services and meeting the requirements of subdivision (b) of Section 34624, may not be placed on duty by a motor carrier until a preemployment test for controlled substances and alcohol use meeting the requirements of the federal regulations referenced in subdivision (a) have been completed and a negative test result has been reported.

(g) An applicant for employment as a commercial driver or an owner-operator, seeking to provide transportation services and meeting the requirements of subdivision (b) of Section 34624, may not be placed on duty by a motor carrier until the motor carrier has completed a full investigation of the driver’s employment history meeting the requirements of the federal regulations cited under subdivision (a). Every motor carrier, whether making or receiving inquiries concerning a driver’s history, shall document all activities it has taken to comply with this subdivision.

(h) A motor carrier that utilizes a preemployment screening service to review applications is in compliance with the employer duties under subdivisions (e) and (f) if the preemployment screening services that are provided satisfy the requirements of state and federal law and the motor carrier abides by any findings that would, under federal law, disqualify an applicant from operating a commercial vehicle.

(i) It is a misdemeanor punishable by imprisonment in the county jail for six months and a fine not to exceed five thousand dollars ($5,000), or by both the imprisonment and fine, for a person to willfully violate this section. As used in this subdivision, “willfully” has the same meaning as defined in Section 7 of the Penal Code.

(j) This section does not apply to a peace officer, as defined in Section 830.1 or 830.2 of the Penal Code, who is authorized to drive vehicles described in Section 34500, or to a firefighter, as defined in subdivision (f) of Section 15250.6, who is authorized to operate firefighting equipment as defined in subdivision (g) of Section 15250.6, if that peace officer or firefighter is participating in a substance abuse detection program within the scope of his or her employment.

§34520.5

Paratransit Vehicles: Employers and Drivers: Program Participation Requirements

34520.5. (a) All employers of drivers who operate paratransit vehicles, and the drivers of those vehicles, who are not otherwise required to participate in a testing program of the United States Secretary of Transportation, shall participate in a program consistent with the controlled substances and alcohol use and testing requirements of the United States Secretary of Transportation as set forth in Part 382 (commencing with Section 382.101), Part 653 (commencing with Section 653.1), or Part 654 (commencing with Section 654.1) of Title 49 of the Code of Federal Regulations.

(b) Section 34520 is applicable to any controlled substances or alcohol testing program undertaken under this section.

(c) The employer of a paratransit vehicle driver shall participate in the pull notice system defined in Section 1808.1.

School Transportation Vehicles: Testing Requirement

34520.3. (a) For the purposes of this section, a “school transportation vehicle” is a vehicle that is not a schoolbus, school pupil activity bus, or youth bus, and is used by a school district or county office of education for the primary purpose of transporting children.

(b) A school district or county office of education that employs drivers to drive a school transportation vehicle, and the driver of those vehicles, who are not otherwise required to participate in a testing program of the United States Secretary of Transportation, shall participate in a program that is consistent with the controlled substances and alcohol use and testing requirements of the United States Secretary of Transportation that apply to schoolbus drivers and are set forth in Part 382 (commencing with Section 382.101) of, and Sections 392.5(a)(1) and (3) of, Title 49 of the Code of Federal Regulations.

DIVISION 14.85. MOTOR CARRIERS OF PROPERTY PERMIT ACT

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

Designation of Division
34600. This division shall be known and may be cited as the Motor Carriers of Property Permit Act.

Added Sec. 53, Ch. 1042, Stats. 1996. Effective September 29, 1996.

Definitions
34601. (a) As used in this division, “motor carrier of property” means any person who operates any commercial motor vehicle as defined in subdivision (c). “Motor carrier of property” does not include a household goods carrier, as defined in Section 5109 of the Public Utilities Code, a household goods carrier transporting used office, store, and institution furniture and fixtures under its household goods carrier permit pursuant to Section 5137 of the Public Utilities Code, persons providing only transportation of passengers, or a passenger stage corporation transporting baggage and express upon a passenger vehicle incidental to the transportation of passengers.

(b) As used in this division, “for-hire motor carrier of property” means a motor carrier of property as defined in subdivision (a) who transports property for compensation.

(c) (1) As used in this division, except as provided in paragraph (2), a “commercial motor vehicle” means any self-propelled vehicle listed in subdivisions (a), (b), (f), (g), and (k) of Section 34500, any motortruck of two or more axles that is more than 10,000 pounds gross vehicle weight rating, and any other motor vehicle used to transport property for compensation.

(2) As used in this division, “commercial motor vehicle” does not include any of the following:

(A) Vehicles identified in subdivision (f) of Section 34500, if the gross vehicle weight rating of the towing vehicle is 10,000 pounds or less.

(B) Vehicles identified in subdivision (g) of Section 34500, if the hazardous material transportation does not require the display of placards under Section 27903, a license under Section 32000.5, or a hazardous waste transporter registration under Section 25163 of the Health and Safety Code, and the vehicle is not operated in commercial use.

(C) Vehicles operated by a household goods carrier, as defined in Section 5109 of the Public Utilities Code, under the household goods carrier permit pursuant to Section 5137 of that code.

(D) Vehicles operated by a household goods carrier to transport used office, store, and institution furniture and fixtures under its household goods carrier permit pursuant to Section 5137 of the Public Utilities Code.

(E) Pickup trucks as defined in Section 471, if the conditions in subparagraphs (A) and (B) are also met.

(F) Two-axle daily rental trucks with a gross vehicle weight rating of less than 26,001 pounds, when operated in noncommercial use.

(G) Motortrucks or two-axle truck tractors, with a gross vehicle weight rating of less than 26,001 pounds, operated solely to tow a camp trailer, trailer coach, fifth-wheel travel trailer, trailer designed to transport watercraft, or utility trailer. Vehicle combinations described in this subparagraph are not subject to Section 27900, 34501.12, or 34507.5.

(H) Motortrucks or two-axle truck tractors, with a gross vehicle weight rating of less than 16,001 pounds, operated singly in noncommercial use.

(d) For purposes of this chapter, “private carrier” means a motor carrier of property, who transports only his or her own property, including, but not limited to, the delivery of goods sold by that carrier.

(e) This section shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

NOTE: The preceding section remained in effect only until January 1, 2016, at which time the following section becomes operative.

34601. (a) As used in this division, “motor carrier of property” means any person who operates any commercial motor vehicle as defined in subdivision (c). “Motor carrier of property” does not include a household goods carrier, as defined in Section 5109 of the Public Utilities Code, a household goods carrier transporting used office, store, and institution furniture and fixtures under its household goods carrier permit pursuant to Section 5137 of the Public Utilities Code, persons providing only transportation of passengers, or a passenger stage corporation transporting baggage and express upon a passenger vehicle incidental to the transportation of passengers.

(b) As used in this division, “for-hire motor carrier of property” means a motor carrier of property as defined in subdivision (a) who transports property for compensation.

(c) (1) As used in this division, except as provided in paragraph (2), a “commercial motor vehicle” means any self-propelled vehicle listed in subdivisions (a), (b), (f), (g), and (k) of Section 34500, any motortruck of two or more axles that is more than 10,000 pounds gross vehicle weight rating, and any other motor vehicle used to transport property for compensation.

(2) As used in this division, “commercial motor vehicle” does not include any of the following:

(A) Vehicles identified in subdivision (f) of Section 34500, if the gross vehicle weight rating of the towing vehicle is 10,000 pounds or less.

(B) Vehicles identified in subdivision (g) of Section 34500, if the hazardous material transportation does not require the display of placards under Section 27903, a license under Section 32000.5, or a hazardous waste transporter registration under Section 25163 of the Health and Safety Code, and the vehicle is not operated in commercial use.

(C) Vehicles operated by a household goods carrier, as defined in Section 5109 of the Public Utilities Code, under the household goods carrier permit pursuant to Section 5137 of that code.

(D) Vehicles operated by a household goods carrier to transport used office, store, and institution furniture and fixtures under its household goods carrier permit pursuant to Section 5137 of the Public Utilities Code.

(E) Pickup trucks as defined in Section 471, if the conditions in subparagraphs (A) and (B) are also met.

(F) Two-axle daily rental trucks with a gross vehicle weight rating of less than 26,001 pounds, when operated in noncommercial use.
(G) Vehicles never operated in commercial use, including motortrucks or two-axle truck tractors, with a gross vehicle weight rating of less than 26,001 pounds, when operated singly, or, when used to tow a camp trailer, trailer coach, fifth-wheel travel trailer, trailer designed to transport watercraft, or a utility trailer, never operated in commercial use. Vehicle combinations described in this subparagraph are not subject to Section 27900, 34501.12, or 34507.5.

(d) For purposes of this chapter, “private carrier” means a motor carrier of property, who transports only his or her own property, including, but not limited to, the delivery of goods sold by that carrier.

(e) This section shall become operative on January 1, 2016.

Motor Carriers Permit Fund

34602. As used in this division, “fund” means the Motor Vehicle Account in the State Transportation Fund.

Motor Carriers Permit Application

34621. (a) The fee required by Section 7232 of the Revenue and Taxation Code shall be paid to the department
§34622 —624—

Suspension of the Motor Carrier Permit

34623. (a) The Department of the California Highway Patrol has exclusive jurisdiction for the regulation of safety of operation of motor carriers of property.

(b) The motor carrier permit of a motor carrier of property may be suspended for failure to do any of the following:

(1) Maintain any vehicle of the carrier in a safe operating condition or to comply with this code or with applicable regulations contained in Title 13 of the California Code of Regulations, if that failure is either a consistent failure or presents an imminent danger to public safety.

(2) Enroll all drivers in the pull notice system as required by Section 34501.12, unless otherwise exempted.

(3) For a nonserious violation, the time recommended to the department by the Department of the California Highway Patrol, or that the required reinspection of its terminal and vehicles by the Department of the California Highway Patrol, which shall perform a reinspection within a reasonable time, or shall verify receipt of the application or fee. Following the term of a suspension imposed under Section 34670, the department shall reinstate a carrier’s motor carrier permit suspended or both the application and fee. Following the term of a suspension imposed under Section 34670, the department shall perform a reinspection within a reasonable time, or shall verify receipt of the application or fee as required by Section 34623.5.

(2) A motor carrier whose motor carrier permit is suspended for failure to submit any application or to pay any fee required by Section 34501.12 shall present proof of having submitted that application or have paid that fee to the Department of the California Highway Patrol before applying for reinstatement of its motor carrier permit.

(3) The department shall deposit all reinstatement fees collected from motor carriers of property pursuant to this section in the fund. Upon receipt of the fee, the department shall forward a request to the Department of the California Highway Patrol, which shall perform a reinspection within a reasonable time, or shall verify receipt of the application or fee as required by Section 34623.5.

(4) Whenever the department suspends the permit of any carrier pursuant to subdivision (b), (e), or paragraph (3) of subdivision (i), the department shall furnish the carrier with written notice of the suspension and shall provide for a hearing upon initial application for a motor carrier permit and for annual renewal.

(b) An application for an original or a renewal motor carrier permit shall contain all of the following information:

(1) The full name of the motor carrier; any fictitious name under which it is doing business; address, both physical and mailing; and business telephone number.

(2) Status as individual, partnership, owner-operator, or corporation, and officers of corporation and all partners.

(3) Name, address, and driver’s license number of owner-operator.

(4) California carrier number, number of commercial motor vehicles in fleet, interstate or intrastate operations, State Board of Equalization, federal Department of Transportation or the Federal Motor Carrier Safety Administration number, as applicable.

(5) Transporter or not a transporter of hazardous materials or petroleum.

(6) Evidence of financial responsibility.

(7) Evidence of workman’s compensation coverage, if applicable.

(8) Carrier certification of enrollment in the biennial inspection of terminals (BIT) program under subdivisions (e) and (h) of Section 34501.12, unless otherwise exempted.

(9) Carrier certification of enrollment in a controlled substance and alcohol use and testing (CSAT) program required under Section 34520, unless otherwise exempted.

(10) Any other information necessary to enable the department to determine whether the applicant is entitled to a permit.

Amended Sec. 2, Ch. 66, Stats. 2007. Effective January 1, 2008.

Exempt Vehicles

34622. This chapter does not apply to any of the following:

(a) Vehicles described in Section 5004 or 5011, and those that are exempt from vehicle registration fees.

(b) A household goods carrier transporting used office, store, and institution furniture and fixtures under its household goods carrier permit pursuant to Section 5137 of the Public Utilities Code.

Amended Sec. 16, Ch. 500, Stats. 2013. Effective January 1, 2014.

Suspension of the Motor Carrier Permit

34623. (a) The Department of the California Highway Patrol has exclusive jurisdiction for the regulation of safety of operation of motor carriers of property.

(b) The motor carrier permit of a motor carrier of property shall be suspended for failure to either (1) comply with the requirements of federal law described in subdivision (a) of Section 34520 of the Vehicle Code, or (2) make copies of results and other records available as required by subdivision (b) of that section. The suspension shall be as follows:

(1) For a serious violation, which is a willful failure to perform substance abuse testing in accordance with state or federal law:

(A) For a first offense, a mandatory five-day suspension.

(B) For a second offense within three years of a first offense, a mandatory three-month suspension.

(C) For a third offense within three years of a first offense, a mandatory one-year suspension.

(2) For a nonserious violation, the time recommended to the department by the Department of the California Highway Patrol.

(3) For the purposes of this subdivision, “willful failure” means any of the following:

(A) An intentional and uncorrected failure to have a controlled substances and alcohol testing program in place.

(B) An intentional and uncorrected failure to enroll an employed driver into the controlled substances and alcohol testing program.

(C) A knowing use of a medically disqualified driver, including the failure to remove the driver from safety-sensitive duties upon notification of the medical disqualification.

(D) An attempt to conceal legal deficiencies in the motor carrier’s controlled substances and alcohol testing program.

(4) The department, pending a hearing in the matter pursuant to subdivision (f), may suspend a carrier’s permit.

(e) (1) A motor carrier whose motor carrier permit is suspended pursuant to subdivision (b), (c), or paragraph (3) of subdivision (i), may obtain a reinstatement to the department and paying a reinstatement fee as required by Section 34623.5.

(2) A motor carrier whose motor carrier permit is suspended for failure to submit any application or to pay any fee required by Section 34501.12 shall present proof of having submitted that application or have paid that fee to the Department of the California Highway Patrol before applying for reinstatement of its motor carrier permit.

(3) The department shall deposit all reinstatement fees collected from motor carriers of property pursuant to this section in the fund. Upon receipt of the fee, the department shall forward a request to the Department of the California Highway Patrol, which shall perform a reinspection within a reasonable time, or shall verify receipt of the application or fee as required by Section 34623.5.

(f) Whenever the department suspends the permit of any carrier pursuant to subdivision (b), (e), or paragraph (3) of subdivision (i), the department shall furnish the carrier with written notice of the suspension and shall provide for a hearing upon initial application for a motor carrier permit and for annual renewal.

(b) An application for an original or a renewal motor carrier permit shall contain all of the following information:

(1) The full name of the motor carrier; any fictitious name under which it is doing business; address, both physical and mailing; and business telephone number.

(2) Status as individual, partnership, owner-operator, or corporation, and officers of corporation and all partners.

(3) Name, address, and driver’s license number of owner-operator.

(4) California carrier number, number of commercial motor vehicles in fleet, interstate or intrastate operations, State Board of Equalization, federal Department of Transportation or the Federal Motor Carrier Safety Administration number, as applicable.

(5) Transporter or not a transporter of hazardous materials or petroleum.

(6) Evidence of financial responsibility.

(7) Evidence of workman’s compensation coverage, if applicable.

(8) Carrier certification of enrollment in the biennial inspection of terminals (BIT) program under subdivisions (e) and (h) of Section 34501.12, unless otherwise exempted.

(9) Carrier certification of enrollment in a controlled substance and alcohol use and testing (CSAT) program required under Section 34520, unless otherwise exempted.

(10) Any other information necessary to enable the department to determine whether the applicant is entitled to a permit.

Amended Sec. 2, Ch. 66, Stats. 2007. Effective January 1, 2008.
within a reasonable time, not to exceed 21 days, after a written request is filed with the department. At the hearing, the carrier shall show cause why the suspension should not be continued. Following the hearing, the department may terminate the suspension, continue the suspension in effect, or revoke the permit. The department may revoke the permit of any carrier suspended pursuant to subdivision (b) at any time that is 90 days or more after its suspension if the carrier has not filed a written request for a hearing with the department or has failed to submit a request for reinstatement pursuant to subdivision (e).

(g) Notwithstanding any other provision of this code, no hearing shall be provided when the suspension of the motor carrier permit is based solely upon the failure of the motor carrier to maintain satisfactory proof of financial responsibility as required by this code, or failure of the motor carrier to submit an application or to pay fees required by Section 34501.12.

(h) A motor carrier of property may not operate a commercial motor vehicle on any public highway in this state during any period its motor carrier of property permit is suspended pursuant to this division.

(i) (1) A motor carrier of property whose motor carrier permit is suspended pursuant to this section or Section 34505.6, which suspension is based wholly or in part on the failure of the motor carrier to maintain any vehicle in safe operating condition, may not lease, or otherwise allow, another motor carrier to operate the vehicles of the carrier subject to the suspension, during the period of the suspension.

(2) A motor carrier of property may not knowingly lease, operate, dispatch, or otherwise utilize any vehicle from a motor carrier of property whose motor carrier permit is suspended, which suspension is based wholly or in part on the failure of the motor carrier to maintain any vehicle in safe operating condition.

(3) The department may immediately suspend the motor carrier permit of any motor carrier that the department determines to be in violation of paragraph (2).

(j) This section shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or amends and repealed Sec. 17, Ch. 500, Stats. 2013. Effective January 1, 2014.

NOTE: The preceding section shall remain in effect only until January 1, 2016, at which time the following section becomes operative.

§34623. (a) The Department of the California Highway Patrol has exclusive jurisdiction for the regulation of safety of operation of motor carriers of property.

(b) The motor carrier permit of a motor carrier of property may be suspended for failure to do either of the following:

(1) Maintain any vehicle of the carrier in a safe operating condition or to comply with this code or with applicable regulations contained in Title 13 of the California Code of Regulations, if that failure is either a consistent failure or presents an imminent danger to public safety.

(2) Enroll all drivers in the pull-notice system as required by Section 1808.1.

(c) The motor carrier permit of a motor carrier of property shall be suspended for failure to either (1) comply with the requirements of federal law described in subdivision (a) of Section 34520 of the Vehicle Code, or (2) make copies of results and other records available as required by subdivision (b) of that section. The suspension shall be as follows:

(1) For a serious violation, which is a willful failure to perform substance abuse testing in accordance with state or federal law:

(A) For a first offense, a mandatory five-day suspension.

(B) For a second offense within three years of a first offense, a mandatory three-month suspension.

(C) For a third offense within three years of a first offense, a mandatory one-year suspension.

(2) For a nonserious violation, the time recommended to the department by the Department of the California Highway Patrol.

(3) For the purposes of this subdivision, “willful failure” means any of the following:

(A) An intentional and uncorrected failure to have a controlled substances and alcohol testing program in place.

(B) An intentional and uncorrected failure to enroll an employed driver into the controlled substances and alcohol testing program.

(C) A knowing use of a medically disqualified driver, including the failure to remove the driver from safety-sensitive duties upon notification of the medical disqualification.

(D) An attempt to conceal legal deficiencies in the motor carrier’s controlled substances and alcohol testing program.

(d) The department, pending a hearing in the matter pursuant to subdivision (f), may suspend a carrier’s permit.

(e) (1) A motor carrier whose motor carrier permit is suspended pursuant to subdivision (b) may obtain a reinspection of its terminal and vehicles by the Department of the California Highway Patrol by submitting a written request for reinstatement to the department and paying a reinstatement fee as required by Section 34623.5.

(2) The department shall deposit all reinstatement fees collected from motor carriers of property pursuant to this section in the fund. Upon receipt of the fee, the department shall forward a request to the Department of the California Highway Patrol, which shall perform a reinspection within a reasonable time, or shall verify receipt of the application or fee or both the application and fee. Following the term of a suspension imposed under Section 34670, the department shall reinstate a carrier’s motor carrier permit suspended under subdivision (b) upon notification by the Department of the California Highway Patrol that the carrier’s safety compliance has improved to the satisfaction of the Department of the California Highway Patrol, unless the permit is suspended for another reason or has been revoked.

(f) Whenever the department suspends the permit of any carrier pursuant to subdivision (b), (c), or paragraph (3) of subdivision (f), the department shall furnish the carrier with written notice of the suspension and shall provide for a hearing within a reasonable time, not to exceed 21 days, after a written request is filed with the department. At the hearing, the carrier shall show cause why the suspension should not be continued. Following the hearing, the department may terminate the suspension, continue the suspension in effect, or revoke the permit. The department may revoke the permit of any carrier suspended pursuant to subdivision (b) at any time that is 90
days or more after its suspension if the carrier has not filed a written request for a hearing with the department or has failed to submit a request for reinstatement pursuant to subdivision (e).

(g) Notwithstanding any other provision of this code, a hearing shall not be provided if the suspension of the motor carrier permit is based solely upon the failure of the motor carrier to maintain satisfactory proof of financial responsibility as required by this code.

(h) A motor carrier of property may not operate a commercial motor vehicle on any public highway in this state during any period its motor carrier of property permit is suspended pursuant to this division.

(i) (1) A motor carrier of property whose motor carrier permit is suspended pursuant to this section or Section 34505.6, which suspension is based wholly or in part on the failure of the motor carrier to maintain any vehicle in safe operating condition, may not lease, or otherwise allow, another motor carrier to operate the vehicles of the carrier subject to the suspension, during the period of the suspension.

(2) A motor carrier of property may not knowingly lease, operate, dispatch, or otherwise utilize any vehicle from a motor carrier of property whose motor carrier permit is suspended, which suspension is based wholly or in part on the failure of the motor carrier to maintain any vehicle in safe operating condition.

(3) The department may immediately suspend the motor carrier permit of any motor carrier that the department determines to be in violation of paragraph (2).

(j) This section shall become operative on January 1, 2016.

Amended Sec. 1, Ch. 58, Stats. 2013. Effective January 1, 2016.

Suspension of Motor Carrier Permit: Franchise Tax Board or Board of Equalization Delinquencies

34623.1. The motor carrier permit of a licensee may be suspended pursuant to Section 494.5 of the Business and Professions Code if a licensee’s name is included on a certified list of tax delinquencies provided by the State Board of Equalization or the Franchise Tax Board pursuant to Section 7063 or Section 19195, respectively of the Revenue and Taxation Code.

Motor Carrier Permit Reinstatement Fee

34623.5. Except as provided under subdivision (c) of Section 34630 and subdivision (d) of Section 34640, before a permit may be reissued after a suspension is terminated, there shall, in addition to any other fees required by this code, be paid to the department a fee of one hundred fifty dollars ($150).

Amended Sec. 1, Ch. 58, Stats. 2007. Effective January 1, 2008.

Owner-Operators

34624. (a) The department shall establish a classification of motor carrier of property known as owner-operators.

(b) As used in this section and in Sections 1808.1 and 34501.12, an owner-operator is a person who meets all of the following requirements:

(1) Holds a class A or class B driver’s license or a class C license with a hazardous materials endorsement.

(2) Owns, leases, or otherwise operates not more than one power unit and not more than three towed vehicles.

(3) Is required to obtain a permit as a motor carrier of property by the department under this division.

(c) (1) As used in this section, “power unit” is a motor vehicle described in subdivision (a), (b), (g), (f), or (k) of Section 34500, or a motortruck of two or more axles that is more than 10,000 pounds gross vehicle weight rating, but does not include those vehicles operated by household goods carriers, as defined in Section 5109 of the Public Utilities Code or persons providing transportation of passengers. A “towed vehicle” is a nonmotorized vehicle described in subdivision (d), (e), (f), or (k) of that section.

(2) As used in this section, subdivision (f) of Section 34500 includes only those combinations where the gross vehicle weight rating of the towing vehicle exceeds 11,500 pounds, and subdivision (g) of Section 34500 includes only those vehicles transporting hazardous materials for which the display of placards is required pursuant to Section 27903, a license is required pursuant to Section 32000.5, or for which a hazardous waste transporter registration is required pursuant to Section 25163 of the Health and Safety Code.

(d) The department, upon suspending or revoking the driving privilege of an owner-operator shall also suspend the owner-operator’s motor carrier permit, unless the owner-operator, within 15 days, shows good cause why the permit should not be suspended.

(e) Every motor carrier who is within the classification established by this section is responsible for notifying all other motor carriers with whom he or she is under contract when the status of the motor carrier changes so that he or she is no longer within the classification established by this section.

(f) This section shall not be construed to change the definition of “employer,” “employee,” or “independent contractor” for any other purpose.

Amended Sec. 6, Ch. 774, Stats. 2002. Effective September 20, 2002.

Chapter 3. Insurance

Financial Responsibility

34630. (a) A motor carrier permit shall not be granted to any motor carrier of property until there is filed with the department proof of financial responsibility in the form of a currently effective certificate of insurance, issued by a company licensed to write that insurance in this state or by a nonadmitted insurer subject to Section 1763 of the Insurance Code, if the policy represented by the certificate meets the minimum insurance requirements contained in Section 34631.5. The certificate of insurance or surety bond shall provide coverage with respect to the operation, maintenance, or use of any vehicle for which a permit is required, although the vehicle may not be specifically described in the policy, or a bond of surety issued by a company licensed to write surety bonds in this state, or written evidence of self-insurance by providing the self-insured number granted by the department on a form approved by the department.

(b) Proof of financial responsibility shall be continued in effect during the active life of the motor carrier permit. The certificate of insurance shall not be cancelable on less than 30 days’ written notice from the insurer to the department except in the event of cessation of operations as a permitted motor carrier of property.
(c) Whenever the department determines or is notified that the certificate of insurance or surety bond of a motor carrier of property will lapse or be terminated, the department shall suspend the carrier’s permit effective on the date of lapse or termination unless the carrier provides evidence of valid insurance coverage pursuant to subdivision (a).

(1) If the carrier’s permit is suspended, the carrier shall pay a reinstatement fee as set forth in Section 34623.5, and prior to conducting on-highway operations, present proof of financial responsibility pursuant to subdivision (a) in order to have the permit reinstated.

(2) If the evidence provided by the carrier of valid insurance coverage pursuant to subdivision (a) demonstrates that a lapse in coverage for the carrier’s operation did not occur, the reinstatement fee shall be waived.

Amended Sec. 2, Ch. 58, Stats. 2007. Effective January 1, 2008.

Proof of Financial Responsibility

34631. The proof of financial responsibility required under Section 34630 shall be evidenced by the deposit with the department, covering each vehicle used or to be used under the motor carrier permit applied for, of one of the following:

(a) A certificate of insurance, issued by a company licensed to write insurance in this state, or by a nonadmitted insurer subject to Section 1763 of the Insurance Code, if the policies represented by the certificate comply with Section 34630 and the rules promulgated by the department pursuant to Section 34604.

(b) A bond of a surety company licensed to write surety bonds in the state.

(c) Evidence of qualification of the carrier as a self-insurer as provided for in subdivision (a) of Section 34630. However, any certificate of self-insurance granted to a motor carrier of property shall be limited to serve as proof of financial responsibility under paragraphs (1) and (2) of subdivision (a) of Section 34631.5 minimum limits only and shall not be acceptable as proof of financial responsibility for the coverage required pursuant to paragraph (3) or (4) of subdivision (a) of Section 34631.5.

(d) Evidence on a form that indicates that coverage is provided by a charitable risk pool operating under Section 5005.1 of the Corporations Code, if the registered owner of the vehicle is a nonprofit organization that is exempt from taxation under paragraph (3) of subsection (c) of Section 501 of the United States Internal Revenue Code. The form shall include all of the following:

(1) The name and address of the motor carrier.

(2) The name and address of the charitable risk pool providing the policy for the motor carrier.

(3) The policy number, effective date, and liability limits of the policy.

(4) A statement from the charitable risk pool that the policy meets the requirements of Section 34631.5.

Minimum Level of Financial Responsibility: Emergency Moves at Direction of Peace Officer

34631.5. (a) (1) Every motor carrier of property as defined in Section 34601, except those subject to paragraph (2), (3), or (4), shall provide and thereafter continue in effect adequate protection against liability imposed by law upon those carriers for the payment of damages in the amount of a combined single limit of not less than seven hundred fifty thousand dollars ($750,000) on account of bodily injuries to, or death of, one or more persons, or damage to or destruction of, property other than property being transported by the carrier for any shipper or consignee whether the property of one or more than one claimant in any one accident.

(2) Every motor carrier of property, as defined in Section 34601, who operates only vehicles under 10,000 pounds GVWR and who does not transport any commodity subject to paragraph (3) or (4), shall provide and thereafter continue in effect adequate protection against liability imposed by law for the payment of damages caused by bodily injuries to or the death of any person; or for damage to or destruction of property of others, other than property being transported by the carrier, in an amount not less than three hundred thousand dollars ($300,000).

(3) Every intrastate motor carrier of property, as defined in Section 34601, who transports petroleum products in bulk, including waste petroleum and waste petroleum products, shall provide and thereafter continue in effect adequate protection against liability imposed by law upon the carrier for the payment of damages for personal bodily injuries (including death resulting therefrom) in the amount of not less than five hundred thousand dollars ($500,000) on account of bodily injuries to, or death of, one person; and protection against a total liability of those carriers on account of bodily injuries to, or death of more than one person as a result of any one accident, but subject to the same limitation for each person in the amount of not less than one million dollars ($1,000,000); and protection in an amount of not less than two hundred thousand dollars ($200,000) for one accident resulting in damage to or destruction to property other than property being transported by the carrier for any shipper or consignee, whether the property of one or more than one claimant; or a combined single limit in the amount of not less than one million two hundred thousand dollars ($1,200,000) on account of bodily injuries to, or death of, one or more persons or damage to or destruction of property, or both, other than property being transported by the carrier for any shipper or consignee whether the property of one or more than one claimant in any one accident.

(4) Except as provided in paragraph (3), every motor carrier of property, as defined in Section 34601, that transports any hazardous material, as defined by Section 353, shall provide and thereafter continue in effect adequate protection against liability imposed by law on those carriers for the payment of damages for personal injury or death, and damage to or destruction of property, in amounts of not less than the minimum levels of financial responsibility specified for carriers of hazardous materials by the United States Department of Transportation in Part 387 (commencing with Section 387.1) of Title 49 of the Code of Federal Regulations. The applicable minimum levels of financial responsibility required are as follows:
§34632

Commodity Transported:  | Combined Limit | Single Limit | Coverage
---|---|---|---
(A) Oil listed in Section 172.101 of Title 49 of the Code of Federal Regulations; hazardous waste, hazardous materials and hazardous substances defined in Section 171.8 of Title 49 of the Code of Federal Regulations and listed in Section 172.101 of Title 49 of the Code of Federal Regulations, but not mentioned in (C) or (D). | $1,000,000 | |  

(b) (1) The protection required under subdivision (a) shall be evidenced by the deposit with the department, covering each vehicle used or to be used in conducting the service performed by each motor carrier of property, an authorized certificate of public liability and property damage insurance, issued by a company licensed to write the insurance in the State of California, or by a nonadmitted insurer subject to Section 1763 of the Insurance Code.

(2) The protection required under subdivision (a) by every motor carrier of property engaged in interstate or foreign transportation of property in or through California, shall be evidenced by the filing and acceptance of a department authorized certificate of insurance, or qualification as a self-insurer as may be authorized by law.

(3) A certificate of insurance, evidencing the protection, shall not be cancelable on less than 30 days’ written notice to the department, the notice to commence to run from the date notice is actually received at the office of the department in Sacramento.

(4) Every insurance certificate or equivalent protection to the public shall contain a provision that the certificate or equivalent protection shall remain in full force and effect until canceled in the manner provided by paragraph (3).

(5) Upon cancellation of an insurance certificate or the cancellation of equivalent protection authorized by the Department of Motor Vehicles, the motor carrier permit of any motor carrier of property, shall stand suspended immediately upon the effective date of the cancellations.

(6) No carrier shall engage in any operation on any public highway of this state during the suspension of its permit.

(7) No motor carrier of property, whose permit has been suspended under paragraph (5) shall resume operations unless and until the carrier has filed an insurance certificate or equivalent protection in effect at the time and that meets the standards set forth in this section. The operative rights of the complying carriers shall be reinstated from suspension upon the filing of an insurance certificate or equivalent protection.

(8) In order to expedite the processing of insurance filings by the department, each insurance filing made should contain the insured’s California carrier number, if known, in the upper right corner of the certificate.

(c) (1) Notwithstanding any other provision of law, the operator of a for-hire tow truck who is in compliance with subdivision (a) may perform emergency moves, irrespective of the load carried aboard the vehicle being moved.

(2) For the purposes of paragraph (1), an “emergency move” is limited to one or more of the following activities:

(A) Removal of a disabled or damaged vehicle or combination of vehicles from a highway.

(B) Removal of a vehicle or combination of vehicles from public or private property following a traffic collision.

(C) Removal of a vehicle or combination of vehicles from public or private property to protect public health, safety, or property.

(D) Removal of a vehicle or combination of vehicles from any location for impound or storage, at the direction of a peace officer.

(3) The authority granted under paragraph (1) applies only to the first one-way carriage of property from the scene of the emergency to the nearest safe location. Any subsequent move of that property shall be subject to subdivision (a), including, but not limited to, a requirement that the for-hire tow truck operator have a level of liability protection that is adequate for the commodity being transported by the towed vehicle or combination of vehicles.

(4) Any transportation of property by an operator of a for-hire tow truck that is not an emergency move, as authorized under paragraph (1), shall be subject to subdivision (a), including, but not limited to, a requirement that the for-hire tow truck operator have a level of liability protection that is adequate for the commodity being transported by the towed vehicle or combination of vehicles.

Verification of Vehicles Used By Motor Carriers

34632. (a) Every motor carrier of property shall furnish the department annually, as specified by the department, a list, prepared under oath, of all vehicles, described in Section 34601, used in transportation during the preceding year.

(b) If the carrier’s insurer informs the department that the carrier has failed to obtain insurance coverage for any vehicle reported on the list, the department shall, in addition to any other applicable penalty provided in this division, suspend the carrier’s permit.

Added Sec. 53, Ch. 1042, Stats. 1996. Effective September 29, 1996.
**Motor Carriers' Employees**

34633. Every motor carrier of property with a carrier fleet of 20 or more commercial motor vehicles as defined in Section 34601 shall, under oath, file annually a report with the department indicating the number, classification, and compensation of all employees and owner-operator drivers hired or engaged during the reporting period. The department shall submit a copy of the report to the administrator of the corporation’s workers' compensation self-insurance plan if the corporation is self-insured, or to the carrier's workers' compensation insurer if the carrier's workers' compensation protection is provided by a policy or policies of insurance.

*Added Sec. 53, Ch. 1042, Stats. 1996. Effective September 29, 1996.*

**Suspension of Motor Carrier Permit For Worker's Compensation Violation**

34634. (a) Upon receipt of a stop order issued by the Director of Industrial Relations pursuant to Section 3710.1 of the Labor Code, the department shall determine whether the motor carrier of property has filed a false statement relative to workers' compensation insurance coverage, in violation of statute, or rules or orders of the department. If, after notice and opportunity to be heard, the department determines that there has been a violation of statute, or rules or orders of the department, the department shall, in addition to any other applicable penalty provided in this division, suspend the carrier's permit.

(b) Upon notification from the Director of Industrial Relations that a final judgment has been entered against any motor carrier of property as a result of an award having been made to an employee pursuant to Section 3716.2 of the Labor Code, the department shall, 30 days from the date the carrier is mailed the notice pursuant to subdivision (c), revoke the carrier's permit unless the judgment has been satisfied or has been discharged in accordance with the bankruptcy laws of the United States or the carrier requests a hearing pursuant to subdivision (c).

(c) Within seven days of notification from the Director of Industrial Relations that a final judgment has been entered against any motor carrier of property as a result of an award having been made to an employee pursuant to Section 3716.2 of the Labor Code, the department shall furnish to the carrier named in the final judgment written notice of the right to a hearing regarding the revocation of the permit and the procedure to follow to request a hearing. The notice shall state that the department is required to revoke the carrier’s permit pursuant to subdivision (b) after 30 days from the date the notice is mailed unless the carrier provides proof that the judgment is satisfied or has been discharged in accordance with the bankruptcy laws of the United States and the department has been so notified seven days prior to the conclusion of the 30-day waiting period. The carrier may request a hearing within 10 days from the date the notice is sent by the department. The request for the hearing shall stay the revocation. The hearing shall be held within 30 days of the receipt of the request. If the department finds that an unsatisfied judgment exists concerning a debt arising under Section 3717 of the Labor Code, the department shall immediately revoke the carrier's permit.

*Added Sec. 53, Ch. 1042, Stats. 1996. Effective September 29, 1996.*

**Worker’s Compensation Required**

34640. (a) A motor carrier permit shall not be granted to any motor carrier of property until one of the following is filed with the department:

1. A certificate of workers' compensation coverage for its employees issued by an admitted insurer.
2. A certificate of consent to self-insure issued by the Director of Industrial Relations, and the identity of the administrator of the carrier's workers' compensation self-insurance plan.
3. A statement, under penalty of perjury, stating that, in its operations as a motor carrier of property, it does not employ any person in any manner so as to become subject to the workers' compensation laws of this state.

(b) The workers' compensation certified under paragraph (1) of subdivision (a) shall be effective until canceled. The insurer shall provide to the motor carrier of property and to the department a notice of cancellation not less than 30 days in advance of the effective date.

(c) If, after filing the statement described in paragraph (3) of subdivision (a), the carrier becomes subject to the workers' compensation laws of this state, the carrier shall promptly notify the department that the carrier is withdrawing its statement under paragraph (3) of subdivision (a), and shall simultaneously file the certificate described in either paragraph (1) or (2) of subdivision (a).

(d) Whenever the department determines or is notified that the certificate of workers’ compensation insurance or certification to self-insure a motor carrier of property will lapse or be terminated, the department shall suspend the carrier's permit effective on the date of the lapse or termination, unless the motor carrier provides evidence of valid insurance coverage pursuant to subdivision (a).

(1) If the carrier's permit is suspended, the carrier shall pay a reinstatement fee as set forth in Section 34671, and prior to conducting on-highway operations, present proof of valid insurance coverage pursuant to subdivision (a) in order to have the permit reinstated.

(2) If the evidence provided by the carrier of valid insurance coverage pursuant to subdivision (a) demonstrates that a lapse in coverage for the carrier’s operation did not occur, the reinstatement fee shall be waived.

*Amended Sec. 3, Ch. 58, Stats. 2007. Effective January 1, 2008.*

**Operation of Vehicle After Suspension of Permit**

34660. (a) A motor carrier of property, after its motor carrier permit has been suspended by the department, who continues to operate as a motor carrier, either independently or for another motor carrier, is guilty of a misdemeanor, punishable by a fine of not more than two thousand five hundred dollars ($2,500), or by imprisonment in the county jail for not more than three months, or by both that fine and imprisonment.

(b) Each violation of this section is a separate and distinct offense, and, in the case of a continuing violation, each day's continuance of operation as a carrier in violation of this section is a separate and distinct offense.
(c) Upon finding that a motor carrier of property is willfully violating this section after being advised that it is not operating in compliance with the laws of this state, the court may issue an injunction to stop the carrier’s continued operation.

(d) A member of the Department of the California Highway Patrol may impound a vehicle or combination of vehicles operated by a motor carrier of property, when the vehicle or combination of vehicles isfound upon a highway, any public lands, or an offstreet parking facility and the motor carrier is found to be in violation of this section or of subdivision (a) of Section 34620. For purposes of this subdivision, the vehicle shall be released to the registered owner or authorized agent only after the registered owner or authorized agent furnishes the Department of the California Highway Patrol with proof of current registration, a currently valid driver’s license of the appropriate class to operate the vehicle or combination of vehicles, and proof of compliance with this division. The registered owner or authorized agent is responsible for all towing and storage charges related to the impoundment.

Penalties For Violations of the Motor Carriers of Property Permit Act

34661. Any person or corporation who violates any provision of this division is guilty of a misdemeanor, punishable by a fine of not more than two thousand five hundred dollars ($2,500), or by imprisonment in the county jail for not more than three months, or by both that fine and imprisonment.

Added Sec. 53, Ch. 1042, Stats. 1996. Effective September 29, 1996.

Motor Carrier Sanctions

34670. Any violation of Division 14.8 (commencing with Section 34500) or any violation that results in a suspension or revocation of the motor carrier permit pursuant to Section 34505.6 or 34623, or subdivision (d) of Section 34624, in addition to any other penalties, shall be sanctioned as follows:

(a) If there have been no prior sanctions imposed on the permitholder, the permit shall be suspended for 30 days.

(b) If the permit had been suspended once prior in the previous 36 months, the permit shall be suspended for 60 days.

(c) If the permit had been previously suspended two or more times in the previous 36 months, the permit shall be suspended for 90 days, and a fine of one thousand five hundred dollars ($1,500) shall be imposed.

Reinstatement Fee

34671. Except as provided under subdivision (c) of Section 34630 and subdivision (d) of Section 34640, a motor carrier permit suspended or revoked under the provisions of this code shall not be reinstated until a fee of one hundred fifty dollars ($150) has been paid, and the motor carrier permitholder has met all requirements for the issuance of a permit.

Amended Sec. 4, Ch. 58, Stats. 2007. Effective January 1, 2008.

Dishonored Checks

34672. If a motor carrier permit is paid for by a check that is dishonored by the bank, the permit shall be canceled. The department shall notify the carrier that the check was dishonored and that the permit will be canceled 30 days from the date of notification if the applicant does not make restitution. If the applicant does not make restitution for the dishonored check, and pay the dishonored check fee within 30 days of the notice, the application for a motor carrier permit shall be canceled.

Amended Sec. 18, Ch. 825, Stats. 2001. Effective January 1, 2002.
DIVISION 14.9. MOTOR VEHICLE DAMAGE CONTROL
(Added Ch. 598, Stats. 1971.)

CHAPTER 1. SHORT TITLE

Name of Act
34700. This division may be cited as the Greene-Harmer Motor Vehicle Damage Control Act.

CHAPTER 2. GENERAL PROVISIONS AND DEFINITIONS

Passenger Vehicle Defined
34710. As used in this division, “passenger vehicle” means any motor vehicle defined in Section 465, except any of the following motor vehicles:
(a) Motorcycles.
(b) Housecars.
(c) Specially constructed vehicles.
(d) Motor vehicles equipped with four-wheel drive.
(e) Motor vehicles constructed on a truck chassis.
(f) Motor vehicles operated for hire, compensation, or profit.
(g) Makes of motor vehicles of a model year manufactured or sold in California in quantities of less than 2,000 units for each such model year.
(h) Motor vehicles designed and constructed by the manufacturer of such vehicles, for off-highway use, as determined by the Department of Motor Vehicles.

Energy-Absorption System
34715. (a) No new passenger vehicle, except a passenger vehicle certified by its manufacturer as having been manufactured prior to September 1, 1973, shall be sold or registered on and after September 1, 1973, unless it has a manufacturer’s warranty that it is equipped with an appropriate energy-absorption system that meets the requirement for energy absorption systems set by the National Highway Traffic Safety Administration.

CHAPTER 3. DEPARTMENTAL ACTION

Injunction for Violation
34725. Any violation of any provisions of this division may be enjoined in a civil action brought by the Attorney General in the name of the people of the State of California, upon request of the Department of Motor Vehicles, except that it shall not be necessary to show lack of adequate remedy at law or to show irreparable damage or loss.
§35000

DIVISION 15. SIZE, WEIGHT, AND LOAD

CHAPTER 1. GENERAL PROVISIONS

Application of Division

35000. The provisions of this division refer exclusively to the size and weight of, and loads upon, vehicles when operated upon the highways.

Snow Removal Devices

35001. The provisions of this division, except those requiring a permit for overweight loads, do not apply to motor trucks equipped with snow removal devices.

Authorized Emergency Vehicles: Exemption

35002. (a) (1) This division does not apply to an authorized emergency vehicle owned or operated by a governmental agency while being used in responding to and returning from emergency fire calls, while being moved from place to place in anticipation of emergency fire calls, when used during training in any fire service application or during fire prevention activities, or when vehicles ordinarily used for those purposes are necessarily transported for vehicle maintenance, repair, or service. This subdivision only applies to vehicles purchased prior to January 1, 1994. Vehicles purchased on January 1, 1992, to and including December 31, 1993, shall meet the applicable requirements of Standards 1901 to 1904, inclusive, of the National Fire Protection Association, as those standards were in effect on December 31, 1991.

(2) All vehicles described in paragraph (1) first purchased on or after January 1, 1994, shall comply with the applicable permit requirements adopted by the Department of Transportation.

(3) For purposes of this section, “purchased” means the date that the operating agency enters into a contract to purchase the vehicle.

(b) All vehicles described in subdivision (a) purchased on or after January 1, 1994, shall meet the following requirements:

(1) It shall be the responsibility of the manufacturer to provide a gross axle weight rating (GAWR), gross combined weight rating (GCWR), and gross vehicle weight rating (GVWR), adequate to carry a full water tank with the allowance for personnel and miscellaneous equipment, including hose load, shown in the table below:

<table>
<thead>
<tr>
<th>Personnel</th>
<th>Misc. Equipment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pumper</td>
<td>1,200 lbs.</td>
</tr>
<tr>
<td>Light attack apparatus</td>
<td>600 lbs.</td>
</tr>
<tr>
<td>Water towers</td>
<td>1,200 lbs.</td>
</tr>
<tr>
<td>Aerial platforms with ground ladders</td>
<td>1,200 lbs.</td>
</tr>
<tr>
<td>Aerial ladders with ground ladders</td>
<td>1,200 lbs.</td>
</tr>
</tbody>
</table>

Fire apparatus shall be weighed and certified by the manufacturer to determine compliance with the table above prior to acceptance by the purchaser. Apparatus and chassis manufacturers shall furnish certification of the gross vehicle weight rating (GVWR), gross combined weight rating (GCWR), and gross axle weight rating (GAWR) on a nameplate affixed to the apparatus.

(2) A fire apparatus exceeding 31,000 pounds gross vehicle weight rating (GVWR) shall be equipped with a retarder.

(3) For purposes of this section, a “fire apparatus” is a vehicle designed, maintained, and used under emergency conditions to transport personnel and equipment, or for the suppression of fires or mitigation of other hazardous situations, consistent with the 2009 edition of Standard 1901 of the National Fire Protection Association.

(4) Notwithstanding the weight exemption provided for in Chapter 7 of Division 2 of Title 21 of the California Code of Regulations, effective on July 2, 2010, nor any other provision of law, a fire apparatus vehicle is prohibited from towing or hauling any other vehicle or equipment while operating under an overweight permit.

(5) This chapter and Chapter 7 of Division 2 of Title 21 of the California Code of Regulations do not limit the discretion of the department or a local government to deny an application for an overweight permit on the basis of good cause.

(c) A vehicle owned, operated, or rented by a public agency that is being used in responding to or returning from an emergency, may be operated as required, if a reasonable effort is first made by the agency to obtain verbal permission from an authorized officer or employee of the agency having jurisdiction of the highways used, and, upon termination of the emergency, when the vehicle is returning from the site of the emergency, the public agency either obtains a permit at the location of the emergency or makes a reasonable effort to obtain verbal permission from an authorized officer or employee of the agency having jurisdiction of the highways used, and obtains a written permit for that use pursuant to Section 35780 not later than three days after the date of the emergency. As used in this subdivision, “emergency” means a condition that poses an imminent threat of loss of property or a hazard to life, as determined by the public agency charged with responsibility to respond thereto.

(d) A governmental agency operating an authorized emergency vehicle or other vehicle subject to this section is liable to the governmental agency having jurisdiction of a state or county highway for the damage to the highway or a highway structure caused by the operation of the vehicle of a size or weight of vehicle or load exceeding that specified in this division. The cost of repair of the damage is a proper charge against the support fund of the governmental agency operating the oversize or overweight vehicle.

(e) Neither the state nor an agency thereof is liable for damage to a highway or highway structure caused by vehicles operated, pursuant to this section, by or on behalf of a local authority or any other local governmental entity.

Booms, Masts, Machinery, and Other Equipment

35003. For the purpose of this division, booms, masts, machinery or other equipment which is not attendant to the efficient operation of the body of the vehicle but which may be attached to the body or chassis or connected with the driving mechanism, shall be regarded as a load.

Added Ch. 12, Stats. 1968. Effective November 13, 1968.
 CHAPTER 2. WIDTH

Total Outside Width

§35100. (a) The total outside width of any vehicle or its load shall not exceed 102 inches, except as otherwise provided in this chapter.

(b) Notwithstanding any other provision of law, safety devices which the Secretary of Transportation determines to be necessary for the safe and efficient operation of motor vehicles shall not be included in the calculation of width as specified in subdivision (a).

(c) Any city or county may, by ordinance, prohibit a combination of vehicles of a total width in excess of 96 inches upon highways under its jurisdiction. The ordinance shall not be effective until appropriate signs are erected indicating the streets affected.

Width Measurement

§35100.1. For purposes of subdivision (a) of Section 35100, the following apply:

(a) The metric equivalent of 102 inches, 2.6 meters, meets the requirement of Section 35100.

(b) The width measurement of any vehicle with side walls shall be made from the outside wall of the two opposite sides of the vehicle.

Cotton Module Mover: Width

§35100.5. The total outside width of a cotton module mover operated on the highways pursuant to Section 35555 and the load thereon shall not exceed 130 inches in width. However, a county board of supervisors, with respect to any or all county highways within its jurisdiction or any portion thereof, may by resolution prohibit or limit the operation of cotton module movers exceeding the maximum width specified in Section 35100.

Pneumatic Tires: Maximum Width: Performance Standards

§35101. When any vehicle is equipped with pneumatic tires, the maximum width from the outside of one wheel and tire to the outside of the opposite outer wheel and tire shall not exceed 108 inches, but the outside width of the body of the vehicle or the load thereon shall not exceed 102 inches.

Vehicles manufactured, reconstructed, or modified after the effective date of amendments to this section enacted during the 1983 portion of the 1983-84 Regular Session of the Legislature, to utilize the 102 inch maximum width dimension, shall be equipped with axles, tires, and wheels of sufficient width to adequately and safely stabilize the vehicle. The Department of the California Highway Patrol shall conduct tests relating to the dynamic stability of vehicles utilizing body widths over 96 inches, up to and including 102 inches, to determine the necessity for establishing performance standards under the authority of Section 34500. Such standards if established shall be consistent with width standards established by or under the authority of the United States Department of Transportation.

Loose Loads

§35102. When any vehicle carries a load of loosely piled agricultural products such as hay, straw, or leguminous plants in bulk but not crated, baled, boxed, or sacked, such load of loosely piled material and any loading racks retaining the same shall not exceed 120 inches in width.

Recreational Vehicles: Appurtenance

§35103. (a) A vehicle used for recreational purposes may exceed the maximum width established under Section 35100 if the excess width is attributable to an appurtenance, excluding a safety device, that does not exceed six inches beyond either sidewall of the vehicle.

(b) For the purposes of subdivision (a), an appurtenance is an integral part of a vehicle and includes, but is not limited to, awnings, grab handles, lighting equipment, cameras, and vents. An appurtenance may not be used as a load carrying device.

Vehicles Limited to 120-Inch Width

§35104. The limitations as to width do not apply to the following vehicles except that these vehicles shall not exceed a width of 120 inches:

(a) Special mobile equipment.

(b) Special construction or highway maintenance equipment.

(c) Motor vehicles designed for, and used exclusively to, haul feed for livestock that are exempted from registration by subdivision (c) of Section 36102, except when operated on a highway during darkness.

Chartered Cities

§35105. Any city organized under a freeholders’ charter may by ordinance permit a total outside width of vehicle and load in excess of the limits set forth in Sections 35100, 35101, 35102, 35104, and 35106 when the vehicle is used exclusively within the boundary limits of the city.

Motor Coaches and Buses

§35106. (a) Motor coaches or buses may have a maximum width not exceeding 102 inches.

(b) Notwithstanding subdivision (a), motor coaches or buses operated under the jurisdiction of the Public Utilities Commission in urban or suburban service may have a maximum outside width not exceeding 104 inches, when approved by order of the Public Utilities Commission for use on routes designated by it. Motor coaches or buses operated by common carriers of passengers for hire in urban or suburban service and not under the jurisdiction of the Public Utilities Commission may have a maximum outside width not exceeding 104 inches.

Urban and Suburban Service Defined

§35107. “Urban and suburban service” means a service performed in urban or suburban areas, or between municipalities in close proximity, except that:

(a) The one-way route mileage of the service shall not be more than 50 miles.
(b) Designated motor coach routes over state highways outside limits of incorporated cities where the one-way route mileage is over 25 miles, but does not exceed 50 miles, shall be approved by the Department of Transportation.

Projecting Lights, Mirrors, or Devices

§35109. Lights, mirrors, or devices which are required to be mounted upon a vehicle under this code may extend beyond the permissible width of the vehicle to a distance not exceeding 10 inches on each side of the vehicle.

Projecting Equipment

§35110. (a) Door handles, hinges, cable cinchers, chain binders, aerodynamic devices, ( ) 1 holders for the display of placards warning of hazardous materials, and a tarping system and all nonproperty carrying devices or components thereof, may extend three inches on each side of the vehicle.

(b) For purposes of this section, “aerodynamic” ( ) 2 device means a device that uses technologies that minimize drag and improve airflow over an entire tractor-trailer vehicle. These include gap fairings that reduce turbulence between the tractor and trailer, side skirts that minimize wind under the trailer, and rear fairings that reduce turbulence and pressure drop at the rear of the trailer, provided that these devices shall not adversely impact the vehicle’s swept width and turning characteristics and that the primary purpose of the device is not for advertising.

(c) (1) For purposes of this section, “a tarping system” means a movable device used to enclose the cargo area of flatbed semitrailers or trailers. (2) Subdivision (a) applies to all component parts of a tarping system, including the following:

(A) The transverse structure at the front of the vehicle to which the sliding walls and roof of the tarp mechanism are attached, provided the structure is not also intended or designed to comply with Section 393.106 of Title 49 of the Code of Federal Regulations. The transverse structure may be up to 108 inches wide if properly centered so that neither side extends more than three inches beyond the structural edge of the vehicle.

(B) The side rails running the length of the vehicle.

(C) The rear doors, provided the only function of the rear doors is to seal the cargo area and anchor the sliding walls and roof.

(D) The “wings” designed to close the gap between a headerboard designed to comply with Section 393.106 of Title 49 of the Code of Federal Regulations and the movable walls and roof of a tarping system, provided they are add-on pieces designed to bear only the load of the tarping system itself and are not integral parts of the load-bearing headerboard structure.

(d) For purposes of this section, a “headerboard designed to comply with Section 393.106 of Title 49 of the Code of Federal Regulations” is load bearing and does not exceed 102 inches in width.

Amended Sec. 1, Ch. 727, Stats. 2012. Effective January 1, 2013.

Amended Sec. 1, Ch. 133, Stats. 2014. Effective January 1, 2015.

The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following:
1. “and”
2. “devices” means devices using “

Lights on Passenger Vehicles

§35111. No passenger vehicle shall be operated on any highway with any load carried thereon extending beyond the line of the fenders on its left side or more than six inches beyond the line of the fenders on its right side.

Amended Ch. 120, Stats. 1961. Effective September 15, 1961.

Chapter 3. Height

Maximum Height: Exceptions

§35250. No vehicle or load shall exceed a height of 14 feet measured from the surface upon which the vehicle stands, except that a double-deck bus may not exceed a height of 14 feet, 3 inches. Any vehicle or load which exceeds a height of 13 feet, 6 inches, shall only be operated on those highways where deemed to be safe by the owner of the vehicle or the entity operating the bus.

Hydraulic Boom or Mast: Restraint

§35251. (a) A boom or mast which is designed to be raised and lowered by hydraulic mechanisms and which is a constituent part of or an attachment to a vehicle or machine, shall be securely chained or otherwise restrained to ensure compliance with Section 35250 while the vehicle or machine is being transported as a load or driven upon any highway.

(b) Subdivision (a) does not apply when the configuration and design of the hydraulic boom effectively restrain the movement of the boom during transit.

Vertical Clearance Measuring Device

§35252. (a) A pilot car may operate a vertical clearance measuring device with a height in excess of 14 feet when escorting a permitted overheight load. The pilot car may also operate the vertical clearance measuring device when surveying a route for a permitted overheight load.

(b) Any vertical measuring device used by a pilot car shall be designed and operated so as to avoid any damages to overhead structures. The measuring device shall be securely affixed to the pilot car, and shall be operated in a manner that does not create a hazard to surrounding traffic.

(c) The operator of the pilot car shall not reduce the vehicle’s speed more than 20 miles per hour below the posted speed limit on the roadway to measure overhead clearance, nor exit the vehicle to measure the clearance of overhead structures from a vantage point on or above the roadway.

Chapter 4. Length

Maximum Vehicle Length: General Limitation

§35400. (a) A vehicle may not exceed a length of 40 feet.

(b) This section does not apply to any of the following:

(1) A vehicle used in a combination of vehicles when the excess length is caused by auxiliary parts, equipment, or machinery not used as space to carry any part of the load, except that the combination of vehicles shall not exceed the length provided for combination vehicles.

(2) A vehicle, when the excess length is caused by any parts necessary to comply with the fender and mudguard regulations of this code.
(3) (A) An articulated bus or articulated trolley coach that does not exceed a length of 60 feet.

(B) An articulated bus or articulated trolley coach described in subparagraph (A) may be equipped with a folding device attached to the front of the bus or trolley if the device is designed and used exclusively for transporting bicycles. The device, including any bicycles transported thereon, shall be mounted in a manner that does not materially affect efficiency or visibility of vehicle safety equipment, and shall not extend more than 36 inches from the front body of the bus or trolley coach when fully deployed. The handlebars of a bicycle that is transported on a device described in this subparagraph shall not extend more than 42 inches from the front of the bus.

(4) A semitrailer while being towed by a motortruck or truck tractor, if the distance from the kingpin to the rearmost axle of the semitrailer does not exceed 40 feet for semitrailers having two or more axles, or 38 feet for semitrailers having one axle if the semitrailer does not, exclusive of attachments, extend forward of the rear of the cab of the motortruck or truck tractor.

(5) A bus or house car when the excess length is caused by the projection of a front safety bumper or a rear safety bumper, or both. The safety bumper shall not cause the length of the vehicle to exceed the maximum legal limit by more than one foot in the front and one foot in the rear. For the purposes of this chapter, “safety bumper” means any device that is fitted on an existing bumper or which replaces the bumper and is constructed, treated, or manufactured to absorb energy upon impact.

(6) A schoolbus, when the excess length is caused by the projection of a crossing control arm. For the purposes of this chapter, “crossing control arm” means an extendable and retractable device fitted to the front of a schoolbus that is designed to impede movement of pupils exiting the schoolbus directly in front of the schoolbus so that pupils are visible to the driver while they are moving in front of the schoolbus. An operator of a schoolbus shall not extend a crossing control arm while the schoolbus is in motion. Except when activated, a crossing control arm shall not cause the maximum length of the schoolbus to be extended by more than 10 inches, inclusive of any front safety bumper. Use of a crossing control arm by the operator of a schoolbus does not, in and of itself, fulfill his or her responsibility to ensure the safety of students crossing a highway or private road pursuant to Section 22112.

(7) A bus, when the excess length is caused by a device, located in front of the front axle, for lifting wheelchairs into the bus. That device shall not cause the length of the bus to be extended by more than 18 inches, inclusive of any front safety bumper.

(8) A bus, when the excess length is caused by a device attached to the rear of the bus designed and used exclusively for the transporting of bicycles. This device may be up to 10 feet in length, if the device, along with any other device permitted pursuant to this section, does not cause the total length of the bus, including any device or load, to exceed 50 feet.

(9) A bus operated by a public agency or a passenger stage corporation, as defined in Section 226 of the Public Utilities Code, used in transit system service, other than a schoolbus, when the excess length is caused by a folding device attached to the front of the bus which is designed and used exclusively for transporting bicycles. The device, including any bicycles transported thereon, shall be mounted in a manner that does not materially affect efficiency or visibility of vehicle safety equipment, and shall not extend more than (1) 40 inches from the front body of the bus when fully deployed. The handlebars of a bicycle that is transported on a device described in this paragraph shall not extend more than (2) 46 inches from the front of the bus. A device described in this paragraph may not be used on a bus that, exclusive of the device, exceeds 40 feet in length or on a bus having a device attached to the rear of the bus pursuant to paragraph (8).

(10) (A) A bus of a length of up to 45 feet when operating on those highways specified in subdivision (a) of Section 35401.5. The Department of Transportation or local authorities, with respect to highways under their respective jurisdictions, may not deny reasonable access to a bus of a length of up to 45 feet between the highways specified in subdivision (a) of Section 35401.5 and points of loading and unloading for motor carriers of passengers as required by the federal Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102-240).

(B) A bus operated by a public agency and on those highways specified in subparagraph (A) may be equipped with a folding device attached to the front of the bus that is designed and used exclusively for transporting bicycles. The device, including all bicycles transported thereon, may be mounted in a manner that does not materially affect efficiency or visibility of vehicle safety equipment, and may not extend more than 36 inches from the front body of the bus when fully deployed. The handlebars of a bicycle that is transported on a device described in this subparagraph may not extend more than 42 inches from the front of the bus. The total length of the bus, including the folding device or load, may not exceed 48.5 feet. A Route Review Committee, established under this subparagraph, shall review the routes where a public agency proposes to operate a 45-foot bus equipped with a (front-mounted) bicycle rack. The Route Review Committee shall be comprised of one member from the public agency appointed by the general manager of the public agency; one member who is a traffic engineer and is employed and selected by the public agency that has jurisdiction over the largest proportional share of routes among all affected agencies; and one member appointed by the labor organization that is the exclusive representative of the bus drivers of the public agency. If there is no exclusive representative of the bus drivers, a bus driver member shall be chosen by a majority vote of the bus drivers employed by the agency. The members of the Route Review Committee shall be selected not more than 30 days after receipt of a public agency proposal to equip a 45-foot bus with a (front-mounted) bicycle rack. The review shall include a field review of the proposed routes. The purpose of the Route Review Committee is to ensure the safe operation of a 45-foot bus that is equipped with a (front-mounted) bicycle rack. The Route Review Committee, by a unanimous vote, shall make a determination of which routes are suitable for the safe operation of a 45-foot bus that is equipped with a (front-mounted) bicycle rack. These determinations shall be consistent with the operating requirements specified in subparagraph (A). It is the intent of the Legislature that the field review required under this subparagraph include consultation with traffic engineers from affected public agencies that have jurisdiction over segments...
of the route or routes under review, to ensure coordination with all ( ) affected state and local public road agencies that may potentially be impacted due to the operation of a 45-foot bus with a ( ) front-mounted bicycle rack.

(11) (A) A house car of a length of up to 45 feet when operating on the National System of Interstate and Defense Highways or when using those portions of federal aid primary system highways that have been qualified by the United States Secretary of Transportation for that use, or when using routes appropriately identified by the Department of Transportation or local authorities, with respect to highways under their respective jurisdictions.

(B) A house car described in subparagraph (A) may be operated on a highway that provides reasonable access to facilities for purposes limited to fuel, food, and lodging when that access is consistent with the safe operation of the vehicle and when the facility is within one road mile of identified points of ingress and egress to or from highways specified in subparagraph (A) for use by that vehicle.

(C) As used in this paragraph and paragraph (10), "reasonable access" means access substantially similar to that authorized for combinations of vehicles pursuant to subdivision (c) of Section 35401.5.

(D) Any access route established by a local authority pursuant to subdivision (d) of Section 35401.5 is open for access by a house car of a length of up to 45 feet. In addition, local authorities may establish a process whereby access to services by house cars of a length of up to 45 feet may be applied for upon a route not previously established as an access route. The denial of a request for access to services shall be only on the basis of safety and an engineering analysis of the proposed access route. In lieu of processing an access application, local authorities, with respect to highways under their jurisdiction, may provide signing, mapping, or a listing of highways, as necessary, to indicate the use of these specific routes by a house car of a length of up to 45 feet.

(e) The Legislature, by increasing the maximum permissible kingpin to rearmost axle distance to 40 feet effective January 1, 1987, as provided in paragraph (4) of subdivision (b), does not intend this action to be considered a precedent for any future increases in truck size and length limitations.

(f) Any transit bus equipped with a folding device installed on or after January 1, 1999, that is permitted under subparagraph (B) of paragraph (3) of subdivision (b) or under paragraph (9) of subdivision (b) shall be additionally equipped with any of the following:

(1) An indicator light that is visible to the driver and is activated whenever the folding device is in an extended position.

(2) Any other device or mechanism that provides notice to the driver that the folding device is in an extended position.

(3) A mechanism that causes the folding device to retract automatically from an extended position.

(e) (1) A person may not improperly or unsafely mount a bicycle on a device described in subparagraph (B) of paragraph (3) of subdivision (b), or in paragraph (9) or (10) of subdivision (b).

(2) Notwithstanding subdivision (a) of Section 23114 or subdivision (a) of Section 24002 or any other provision of law, when a bicycle is improperly or unsafely loaded by a passenger onto a transit bus, the passenger, and not the driver, is liable for any violation of this code that is attributable to the improper or unlawful loading of the bicycle.

Amended Sec. 1, Ch. 310, Stats. 2014. Effective January 1, 2015.

The 2014 amendment added the italicized material, and at the points indicated, deleted the following:

1. “36”
2. “42”
3. “F.L.”
4. “Front mounted”
5. “effected”

Exception: Cotton Module Mover

35400.5. Subdivision (a) of Section 35400 does not apply to a motortruck used solely as a cotton module mover and which does not exceed 48 feet in length.

Exceptions: Fifth-Wheel Travel Trailers

35400.6. (a) Subdivision (a) of Section 35400 does not apply to a fifth-wheel travel trailer that does not exceed the following lengths:

(1) Forty-eight feet in length from the foremost point of the trailer to the rear extremity of the trailer.

(2) (A) For a fifth-wheel travel trailer with a single axle, 38 feet in length from the kingpin to the rearmost axle.

(B) For a fifth-wheel travel trailer with two or more axles, 40 feet in length from the kingpin to the rearmost axle.

(b) A manufacturer of a fifth-wheel travel trailer described by subdivision (a) shall include in the delivery documents the information necessary to register that fifth-wheel travel trailer, including its overall length pursuant to paragraph (1) of subdivision (a) and a declaration that its length is in compliance with subparagraph (A) or subparagraph (B) of paragraph (2) of subdivision (a). The dealer may reject acceptance of the fifth-wheel travel trailer if this documentation is not provided.

Added Sec. 1, Ch. 548, Stats. 2013. Effective January 1, 2014.

Alameda-Contra Costa Transit District: Bus Bicycle Racks

35400.7. (a) Notwithstanding Section 35400, the Alameda-Contra Costa Transit District created pursuant to Part 1 (commencing with Section 24501) of Division 10 of the Public Utilities Code may install a folding device attached to the front of a bus that is designed and used exclusively for transporting bicycles if the following conditions are met:

(1) The device does not extend more than 40 inches from the front body of the bus when fully deployed.

(2) The device, including all bicycles transported thereon, is mounted in a manner that does not materially affect efficiency or visibility of vehicle safety equipment.

(3) The handlebars of a bicycle that is transported on a device described in this subdivision does not extend more than 40 inches from the front of the bus.

(b) (1) The Alameda-Contra Costa Transit District shall establish a route review committee prior to the installation of the initial folding device, pursuant to subdivision (a), on a bus that is 45 feet in length. The purpose of the committee is to ensure the safe operation of a 45-foot bus that is equipped with a front-mounted bicycle rack.

(2) The committee established pursuant to this subdivision shall perform an initial review of the routes on which the district proposes to operate a 45-foot bus equipped with a front-mounted bicycle rack. The review shall include a field
review of the proposed routes. It is the intent of the Legislature that the field review required under this paragraph include consultation with traffic engineers from affected public agencies that have jurisdiction over segments of the route or routes under review, to ensure coordination with all affected state and local public road agencies that may potentially be impacted due to the operation of a 45-foot bus with a front-mounted bicycle rack.

(3) By unanimous vote of all voting members, the committee shall make a determination of the routes that are suitable for the safe operation of a 45-foot bus that is equipped with a front-mounted bicycle rack.

(4) Upon any proposal to make substantive changes or additions to approved routes, those changes shall be subject to review and certification pursuant to paragraph (2) prior to being approved by the committee.

(5) The members of the committee shall be selected not more than 30 days after receipt of the district proposal to equip a 45-foot bus with a front-mounted bicycle rack and shall be comprised of the following members:

(A) One member from the district who shall be appointed by the district’s general manager and who shall be a voting member of the committee.

(B) One member who is a traffic engineer selected by the district and who shall be a voting member of the committee.

(C) One member appointed by the labor organization that is the exclusive representative of the busdrivers of the district.

(D) One member appointed by the governing board who shall be a representative of the bicycling community and who shall reside in the district. This member shall be a nonvoting member of the committee.

(c) If a folding device is installed pursuant to subdivision (a), the Alameda-Contra Costa Transit District shall submit a report to the Assembly Committee on Transportation and the Senate Committee on Transportation and Housing on or before December 31, 2014. The report shall include a summary of any incidents where the size of the folding devices was a factor, and a summary of the mobility improvements these folding devices provide.

§35400.8

Sacramento Regional Transit District: Bicycle Transportation

35400.8. (a) Notwithstanding Section 35400, the Sacramento Regional Transit District, created pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code as a joint powers agency, may install a folding device attached to the front of a bus that is designed and used exclusively for transporting bicycles if the following conditions are met: (1) The device does not extend more than 40 inches from the front body of the bus when fully deployed.

(2) The device, including all bicycles transported on the device, is mounted in a manner that does not materially affect efficiency or visibility of vehicle safety equipment.

(3) The handlebars of a bicycle that is transported on a device described in this subdivision do not extend more than 46 inches from the front of the bus.

(b) For purposes of this section, “district” means the Sacramento Regional Transit District.

(c) (1) The district shall establish a route review committee prior to the installation of the initial folding device, pursuant to subdivision (a), on a bus that is 45 feet in length. The purpose of the committee is to ensure the safe operation of a 45-foot bus that is equipped with a front-mounted bicycle rack.

(2) The committee established pursuant to this subdivision shall perform an initial review of the routes on which the district proposes to operate a 45-foot bus equipped with a front-mounted bicycle rack. The review shall include a field review of the proposed routes, including consultation with licensed traffic engineers from affected public agencies that have jurisdiction over segments of the route or routes under review in order to ensure coordination with all affected state and local public road agencies that may potentially be impacted due to the operation of a 45-foot bus with a front-mounted bicycle rack.

(3) (A) By unanimous vote of all members, the committee shall make a determination of the routes that are suitable for the safe operation of a 45-foot bus that is equipped with a front-mounted bicycle rack.

(B) Before conducting a vote pursuant to subparagraph (A), the committee shall obtain certification approved by a licensed traffic engineer that all proposed routes are safe for travel by 45-foot buses equipped with the bicycle racks specified in subdivision (a).

(4) Upon any proposal to make substantive changes to additions to approved routes, those changes shall be subject to review and certification pursuant to paragraph (2) prior to being approved by the committee.

(5) The members of the committee shall be selected not more than 30 days after receipt of the district’s proposal to equip a 45-foot bus with a front-mounted bicycle rack and shall be comprised of the following members:

(A) One member from the district who shall be appointed by the district’s general manager and who shall be a voting member of the committee.

(B) One member who is a representative of the bicycling community and who shall reside within the area of the district who shall be a voting member of the committee.

(C) One member appointed by the labor organization that is the exclusive representative of the busdrivers of the district who shall be a representative of the bicycling community.

(D) One member appointed by the governing board who shall be a representative of the bicycling community and who shall reside in the district. This member shall be a nonvoting member of the committee.

(e) If a folding device is installed pursuant to subdivision (a), the district shall submit a report in compliance with Section 9795 of the Government Code to the Assembly Committee on Transportation and the Senate Committee on Transportation and Housing on or before December 31, 2018. The report shall include a summary of any vehicular or traffic incidents where the size of the folding device was a factor, and
Gold Coast Transit: Bicycle Transportation

35400.9. (a) Notwithstanding Section 35400, Gold Coast Transit (GCT), created pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code as a joint powers agency, may install a folding device attached to the front of a bus that is designed and used exclusively for transporting bicycles if all of the following conditions are met:

(1) The device does not extend more than 40 inches from the front body of the bus when fully deployed.

(2) The device, including all bicycles transported on the device, is mounted in a manner that does not materially affect efficiency or visibility of vehicle safety equipment.

(3) The handlebars of a bicycle that is transported on a device described in this subdivision do not extend more than 46 inches from the front of the bus.

(b) (1) GCT shall establish a route review committee prior to the installation of the initial folding device, pursuant to subdivision (a), on a bus that is 45 feet in length. The purpose of the committee is to ensure the safe operation of a 45-foot bus that is equipped with a front-mounted bicycle rack.

(2) The committee established pursuant to this subdivision shall perform an initial review of the routes on which GCT proposes to operate a 45-foot bus equipped with a front-mounted bicycle rack. The review shall include a field review of the proposed routes. It is the intent of the Legislature that the field review required under this paragraph include consultation with licensed traffic engineers from affected public agencies that have jurisdiction over segments of the route or routes under review, to ensure coordination with all affected state and local public road agencies that may potentially be impacted due to the operation of a 45-foot bus with a front-mounted bicycle rack.

(3) (A) By unanimous vote of all voting members, the committee shall make a determination of the routes that are suitable for the safe operation of a 45-foot bus that is equipped with a front-mounted bicycle rack.

(B) Before conducting a vote pursuant to subparagraph (A), the committee shall obtain certification approved by a licensed traffic engineer that all proposed routes are safe for travel by 45-foot buses equipped with the bicycle racks specified in subdivision (a).

(4) Upon any proposal to make substantive changes or additions to approved routes, those changes shall be subject to review and certification pursuant to paragraph (2) prior to being approved by the committee.

(5) The members of the committee shall be selected not more than 30 days after receipt of the GCT proposal to equip a 45-foot bus with a front-mounted bicycle rack and shall be comprised of the following members:

(A) One member from GCT who shall be appointed by GCT’s general manager and who shall be a voting member of the committee.

(B) One member who is a licensed traffic engineer selected by the governing board of GCT and who shall be a voting member of the committee.

(C) One member appointed by the labor organization that is the exclusive representative of the busdrivers of GCT. If there is no exclusive representative of the busdrivers employed by GCT, this member shall be chosen by a majority vote of the busdrivers employed by GCT. This member shall be a voting member of the committee.

(D) One member appointed by the governing board of GCT who shall be a representative of the bicycling community and who shall reside within the area of GCT’s jurisdiction. This member shall be a nonvoting member of the committee.

(e) If a folding device is installed pursuant to subdivision (a), GCT shall submit a report in compliance with Section 9795 of the Government Code to the Assembly Committee on Transportation and the Senate Committee on Transportation and Housing on or before December 31, 2017. The report shall include a summary of any vehicular or traffic incidents where the size of the folding devices was a factor, and a summary of the mobility improvements that these folding devices provide.

Added Sec. 1, Ch. 95, Stats. 2013. Effective January 1, 2014.
or semitrailers of the maximum kingpin to rearmost axle distances permitted under Section 35400, may, by ordinance, establish lesser distances consistent with the maximum distances that the highway or highway portion can sustain, except that a city or county may not restrict the kingpin to rearmost axle measurement to less than 38 feet on those highways or highway portions. A city or county considering the adoption of an ordinance shall consider, but not be limited to, consideration of, all of the following:

1. A comparison of the operating characteristics of the vehicles to be limited as compared to operating characteristics of other vehicles regulated by this code.
2. Actual traffic volume.
3. Frequency of accidents.
4. Any other relevant data.

In addition, the city or county may appoint an advisory committee consisting of local representatives of those interests that are likely to be affected and shall consider the recommendations of the advisory committee in adopting the ordinance. The ordinance may not be effective until appropriate signs are erected indicating the highways or highway portions affected by the ordinance.

This subdivision shall only become operative upon the adoption of an enabling ordinance by a city or county.

(f) Whenever, in the judgment of the Department of Transportation, a state highway cannot, in consideration of public safety, sustain the operation of trailers or semitrailers of the maximum kingpin to rearmost axle distances permitted under Section 35400, the director, in consultation with the Department of the California Highway Patrol, shall compile data on total traffic volume, frequency of use by vehicles covered by this subdivision, accidents involving these vehicles, and other relevant data to assess whether these vehicles are a threat to public safety and should be excluded from the highway or highway segment. The study, containing the conclusions and recommendations of the director, shall be submitted to the Secretary of the Business, Transportation and Housing Agency. Unless otherwise notified by the secretary, the director shall hold public hearings in accordance with the procedures set forth in Article 3 (commencing with Section 35660) of Chapter 5 for the purpose of determining the maximum kingpin to rear axle length, which shall be not less than 38 feet, that the highway or highway segment can sustain without unreasonable threat to the safety of the public. Upon the basis of the findings, the Director of Transportation shall declare in writing the maximum kingpin to rear axle lengths which can be maintained with safety upon the highway.

Following the declaration of maximum lengths as provided by this subdivision, the Department of Transportation shall erect suitable signs at each end of the affected portion of the highway and at any other points that the Department of Transportation determines to be necessary to give adequate notice of the length limits.

The Department of Transportation, in consultation with the Department of the California Highway Patrol, shall compile traffic volume, geometric, and other relevant data, to assess the maximum kingpin to rearmost axle distance of vehicle combinations appropriate for those state highways or portion of highways, affected by this section, that cannot safely accommodate trailers or semitrailers of the maximum kingpin to rearmost axle distances permitted under Section 35400. The department shall erect suitable signs appropriately restricting truck travel on those highways, or portions of highways.

Combination of Vehicles: Exceptions

35401.1. A combination of vehicles operated pursuant to Section 35400 or 35401 with a kingpin to rearmost axle measurement of greater than 38 feet but not more than 40 feet may be operated on those highways under the jurisdiction of local authorities only where it is deemed to be safe by the owner of the vehicle or the person operating the vehicle and where its operation is not specifically prohibited by local ordinance pursuant to subdivision (d) of Section 35401.

Combination of Vehicles: Additional Exceptions

35401.3. (a) Notwithstanding subdivisions (a) and (b) of Section 35401, a combination of vehicles designed and used to transport motor vehicles, camper units, or boats, which consists of a motortruck and stinger-steered semitrailer, shall be allowed a length of up to 70 feet if the kingpin is at least 3 feet behind the rear drive axle of the motortruck. This combination shall not be subject to subdivision (a) of Section 35411, but the load upon the rear vehicle of the combination shall not extend more than 6 feet 6 inches beyond the allowable length of the vehicle.

(b) A combination of vehicles designed and used to transport motor vehicles, camper units, or boats, which consists of a motortruck and stinger-steered semitrailer, shall be allowed a length of up to 75 feet if all of the following conditions are maintained:

1. The distance from the steering axle to the rear drive axle of the motortruck does not exceed 24 feet.
2. The kingpin is at least 5 feet behind the rear drive axle of the motortruck.
3. The distance from the kingpin to the rear axle of the semitrailer does not exceed 34 feet except that the distance from the kingpin to the rear axle of a triple axle semitrailer does not exceed 36 feet.

This combination shall not be subject to subdivision (a) of Section 35411, but the load upon the rear vehicle of the combination shall not extend more than 6 feet 6 inches beyond the allowable length of the vehicle.

Combination of Vehicles: Additional Exceptions

35401.5. (a) A combination of vehicles consisting of a truck tractor and semitrailer, or of a truck tractor, semitrailer, and trailer, is not subject to the limitations of Sections 35400 and 35401, when operating on the Dwight D. Eisenhower National System of Interstate and Defense Highways or when using those portions of federal-aid primary system highways that have been qualified by the United States Secretary of Transportation for that use, or when using routes appropriately identified by the Department of Transportation or local authorities as provided in subdivision (c) or (d), if all of the following conditions are met:
(1) The length of the semitrailer in exclusive combination with a truck tractor does not exceed 48 feet. A semitrailer not more than 53 feet in length shall satisfy this requirement when configured with two or more rear axles, the rearmost of which is located 40 feet or less from the kingpin or when configured with a single axle which is located 38 feet or less from the kingpin. For purposes of this paragraph, a motortruck used in combination with a semitrailer, when that combination of vehicles is engaged solely in the transportation of motor vehicles, camper units, or boats, is considered to be a truck tractor.

(2) Neither the length of the semitrailer nor the length of the trailer when simultaneously in combination with a truck tractor exceeds 28 feet 6 inches.

(b) Subdivisions (b), (d), and (e) of Section 35402 do not apply to combinations of vehicles operated subject to the exemptions provided by this section.

(c) Combinations of vehicles operated pursuant to subdivision (a) may also use highways not specified in subdivision (a) that provide reasonable access to terminals and facilities for purposes limited to fuel, food, lodging, and repair when that access is consistent with the safe operation of the combinations of vehicles and when the facility is within one road mile of identified points of ingress and egress to or from highways specified in subdivision (a) for use by those combinations of vehicles.

(d) The Department of Transportation or local authorities may establish a process whereby access to terminals or services may be applied for upon a route not previously established as an access route. The denial of a request for access to terminals and services shall be only on the basis of safety and an engineering analysis of the proposed access route. If a written request for access has been properly submitted and has not been acted upon within 90 days of receipt by the department or the appropriate local agency, the access shall be deemed automatically approved. Thereafter, the route shall be deemed open for access by all other vehicles of the same type regardless of ownership. In lieu of processing an access application, the Department of Transportation or local authorities with respect to highways under their respective jurisdictions may provide signing, mapping, or a listing of highways as necessary to indicate the use of specific routes as terminal access routes. For purposes of this subdivision, “terminal” means either of the following:

(1) A facility where freight originates, terminates, or is handled in the transportation process.

(2) A facility where a motor carrier maintains operating facilities.

(e) Nothing in subdivision (c) or (d) authorizes state or local agencies to require permits of terminal operators or to charge terminal operators fees for the purpose of attaining access for vehicles described in this section.

(f) Notwithstanding subdivision (d), the limitations of access specified in that subdivision do not apply to licensed carriers of household goods when directly in route to or from a point of loading or unloading of household goods, if travel on highways other than those specified in subdivision (a) is necessary and incidental to the shipment of the household goods.

(g) (1) Notwithstanding Sections 35400 and 35401, a combination of vehicles consisting solely of a truck tractor semitrailer combination with a kingpin to rearmost axle measurement limit of not more than 46 feet, a trailer length of not more than 56 feet, and used exclusively or primarily in connection with motorsports, may operate on the routes identified in subdivision (a) as well as on any other routes authorized for that purpose by the Department of Transportation in consultation with the Department of the California Highway Patrol when issued a permit as set forth in paragraph (3). As used in this subdivision, “motorsports” means an event, and all activities leading up to that event, including, but not limited to, administration, testing, practice, promotion, and merchandising, that is sanctioned under the auspices of the member organizations of the Automobile Competition Committee for the United States.

(2) (A) The Department of Transportation shall conduct field tests of the truck tractor semitrailer combination authorized under paragraph (1) for motorsport trucks with a trailer length of not more than 56 feet to evaluate their performance on transition routes connecting to the Auto Club Speedway in Fontana.

(B) (i) The Legislature finds and declares that the Department of Transportation established the existing transition routes described in subparagraph (A) based on records from the 1990s.

(ii) The Department of Transportation shall update the transition routes to reflect road projects completed since the 1990s and shall update the transition routes every five years thereafter.

(iii) The Department of Transportation shall develop new transition routes, as necessary, for the truck tractor semitrailer combination authorized under paragraph (1) for motorsport trucks with a trailer length of not more than 56 feet.

(C) The Department of Transportation shall, no later than January 1, shall submit a report to the Legislature, in compliance with Section 9795 of the Government Code, that includes the results of the field tests for the Auto Club Raceway in Pomona, the Sonoma Raceway, and the Auto Club Speedway in Fontana, an overview of the related roadway improvements identified and made, and in consultation with the Department of the California Highway Patrol, a recommendation as to whether the maximum 56 foot trailer length should be reauthorized.

(D) Notwithstanding Section 10231.5 of the Government Code, the requirement for submitting a report under this paragraph is inoperative on January 1, 2019.

(3) Permits for a combination of vehicles consisting solely of a truck tractor semitrailer combination with a kingpin to rearmost axle measurement limit of not more than 46 feet, a trailer length of not more than 56 feet, for use exclusively or primarily in connection with motorsports, to operate on the routes identified in subdivision (a) as well as on any other routes authorized for that purpose, as provided in paragraph (1), shall be issued by the Department of Transportation, pursuant to Article 6 (commencing with Section 35780) of Chapter 5. The permit requirement for travel on a specific route to or from the Auto Club Raceway in Pomona, the Sonoma...
Raceway, or the Auto Club Speedway in Fontana, shall apply only until field tests for each of those raceways by the Department of Transportation determine that no additional projects need to be performed on the specific route, or, if projects are required to be performed on the specific route, until those projects are completed.

(h) The Legislature finds and declares both of the following:
(1) In authorizing the use of 53-foot semitrailers, it is the intent of the Legislature to conform with Section 31111(b)(1)(C) of Title 49 of the United States Code by permitting the continued use of semitrailers of the dimensions as those that were in actual and legal use on December 1, 1982, and does not intend this action to be a precedent for future increases in the parameters of any of those vehicles that would adversely affect the turning maneuverability of vehicle combinations.
(2) In authorizing the department to issue special transportation permits for motorsports, it is the intent of the Legislature to conform with Section 31111(b)(1)(F) of Title 49 of the United States Code. It is also the intent of the Legislature that this action not be a precedent for future increases in the distance from the kingpin to the rearmost axle of semitrailers and trailers that would adversely affect the turning maneuverability of vehicle combinations.

Amended Sec. 1, Ch. 786, Stats. 2014. Effective January 1, 2015.
Amended Sec. 1, Ch. 786, Stats. 2014. Effective January 1, 2015.
Amended Sec. 1, Ch. 786, Stats. 2014. Effective January 1, 2015.

The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following:
1. "enroute"
2. "Patrol."
3. "(d)"
4. "(A)"
5. "shall conduct a field test of the tractor truck semitrailer combination authorized under paragraph (1) for motorsport trucks with a trailer length of 56 feet to evaluate their performance on various segments of the National Network and transition routes. The Department of Transportation"
7. "test and a recommendation, in" 
8. "(B)"
10. "This subdivision shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date."

Combination Vehicles: Access Limits: Exception

35401.7. (a) The limitations of access specified in subdivision (d) of Section 35401.5 do not apply to licensed carriers of livestock when those carriers are directly en route to or from a point of loading or unloading of livestock on those portions of State Highway Route 101 located in the Counties of Del Norte, Humboldt, and Mendocino from its junction with State Highway Route 1 near Leggett north to the Oregon border, if the travel is necessary and incidental to the shipment of the livestock.

(b) The exemption allowed under this section does not apply unless all of the following conditions are met:
(1) The length of the truck tractor, in combination with the semitrailer used to transport the livestock, does not exceed a total of 70 feet.
(2) The distance from the kingpin to the rearmost axle of the semitrailer does not exceed 43 feet.
(3) The length of the semitrailer does not exceed a total of 48 feet.
(c) The exemption allowed under this section does not apply to travel conducted on the day prior to, or on the day of, any federally recognized holiday.
(d) (1) Because the improvements in Richardson Grove that will allow the combination of vehicles described in Section 35401.5 to fully operate on all portions of State Highway Route 101 located in the Counties of Del Norte, Humboldt, and Mendocino are ongoing and not yet completed, this section shall remain in effect only until both of the following conditions are satisfied:
(A) All route improvements in Richardson Grove are completed without restraint, including, but not limited to, judicial or injunctive restraints.
(B) The Director of Transportation determines that the combination of vehicles described in Section 35401.5 is authorized to operate on all portions of State Highway Route 101 located in the Counties of Del Norte, Humboldt, and Mendocino. When the director makes the determination described in this subparagraph, the director shall post a declaration on the Internet Web site of the Department of Transportation.
(2) This section is repealed as of the date that the declaration described in subparagraph (B) of paragraph (1) is posted on the Department of Transportation's Internet Web site.
(3) The declaration described in subparagraph (B) of paragraph (1) shall state that it is being made pursuant to this section.
(e) (1) If prior to the completion of the route improvements in Richardson Grove as described in paragraph (1) of subdivision (d), the Director of Transportation determines that the only adjustment to State Route 101 possible to accommodate the truck sizes allowed to travel on portions of State Highway Route 101, pursuant to subdivisions (a) and (b), is the removal of any tree that has a diameter of 42 inches or greater, measured outside the bark, at 12 inches above ground on the side adjacent to the highest ground level, the director shall notify the Secretary of State of that determination.
(2) If prior to the completion of the route improvements in Richardson Grove as described in paragraph (1) of subdivision (d), the Director of Transportation determines that safety improvements to the portion of State Highway Route 101 described in subdivision (a) have resulted in the reclassification of the entire segment as a terminal access route pursuant to subdivision (d) of Section 35401.5, the directors shall notify the Secretary of State of that determination.

Amended Sec. 1, Ch. 449, Stats. 2006. Effective January 1, 2007.
Amended Sec. 1, Ch. 449, Stats. 2007. Effective January 1, 2008.
Amended Sec. 1, Ch. 126, Stats. 2014. Effective January 1, 2015.
Amended Sec. 1, Ch. 126, Stats. 2014. Effective January 1, 2015.
Amended Sec. 1, Ch. 126, Stats. 2014. Effective January 1, 2015.
Amended Sec. 1, Ch. 126, Stats. 2014. Effective January 1, 2015.
Amended Sec. 1, Ch. 126, Stats. 2014. Effective January 1, 2015.
Amended Sec. 1, Ch. 126, Stats. 2014. Effective January 1, 2015.

Extension Devices

35402. (a) Any extension or device, including any adjustable axle added to the front or rear of a vehicle, used to increase the carrying capacity of a vehicle shall be included in measuring the length of a vehicle, except that a drawbar shall
§35403

not be included in measuring the length of a vehicle but shall be included in measuring the overall length of a combination of vehicles.

(b) Notwithstanding subdivision (a), extensions of not more than 18 inches in length on each end of a vehicle or combination of vehicles used exclusively to transport vehicles shall not be included in measuring the length of a vehicle or combination of vehicles when the vehicles are loaded.

(c) Notwithstanding subdivision (a), an extension of not more than 18 inches in length on the last trailer in a combination of vehicles transporting loads shall not be included in measuring the length of a vehicle or combination of vehicles when the vehicles are loaded. Additionally, an extension of not more than 18 inches in length on the front of the first trailer in a combination of vehicles transporting loads shall not be included in measuring the length of a vehicle or combination of vehicles when the vehicles are loaded.

(d) Notwithstanding subdivision (a), any extension or device which is not used to carry any load and which does not exceed three feet in length, added to the rear of a vehicle, and is used exclusively for pushing the vehicle or a combination of vehicles, which vehicle or combination of vehicles is designed and used exclusively to transport earth, sand, gravel, and similar materials, shall be included in measuring the length of the vehicle but shall not be included in measuring the overall length of the combination of vehicles.

(e) Notwithstanding subdivision (a), a truck semitrailer combination, but not a truck tractor and semitrailer combination, may use a sliding fifth wheel, or a truck tractor, semitrailer, trailer, and a truck-trailer combination may use a sliding drawbar, to extend the length of the combination by not more than 2 feet 6 inches while traveling 35 miles per hour or less on any highway, except a freeway. These provisions shall apply, however, to freeway onramps and offramps and freeway connectors. The sliding fifth wheel or drawbar when extended shall not be included in measuring the overall length of the combination of vehicles if the pivot point of the semitrailer connection is more than two feet to the rear of the center of the rearmost axle of the motortruck or if the distance from the pivot point to the center of the rearmost axle of the semitrailer does not exceed 34 feet.

Combinations of vehicles permitted by this subdivision shall be in compliance with the weight limits provided in Article 1 (commencing with Section 35550) of Chapter 5 whenever any drawbar or sliding fifth wheel is extended, contracted, or in any intermediate position as provided for by this subdivision.

Safety Devices

35403. Safety devices which are required to be mounted upon a vehicle pursuant to provisions of this code, may extend beyond the permissible length of a vehicle, or a combination of vehicles, to a distance not exceeding 10 inches.

Prohibiting Highway Use; Vehicle Size

35404. Any county having a population in excess of 4,000,000 and having within its limits a natural island with an area in excess of 20,000 acres may, by ordinance, prohibit the use of any highway or lane, hereafter established in unincorporated area thereon, (1) by any vehicle exceeding an overall length of 170 inches and an overall width of 65 inches, or (2) by any such vehicle and all vehicles driven by internal combustion engines. Notwithstanding the provisions of Section 906 of the Streets and Highways Code, no such ordinance shall be enacted unless the board of supervisors shall have theretofore adopted, by a four-fifths vote, a resolution determining that the public convenience and necessity require that such highway or lane have a width of 35 feet or less and a roadway width of 22 feet or less.

Any ordinance enacted pursuant to this section shall be subject to Sections 35718 to 35720, inclusive, of this code and shall not apply to authorized emergency vehicles.

Maximum Vehicle Length: Aerodynamic Devices

35405. (a) An aerodynamic device that extends no more than five feet beyond the rear of a vehicle shall not be included in measuring the length of the vehicle or combination of vehicles, if both of the following conditions are met:

(1) The device does not have the strength, rigidity, or mass to damage a vehicle, or injure a passenger in a vehicle, that strikes the vehicle equipped with the device from the rear.

(2) The device does not obscure tail lamps, turn signals, marker lamps, identification lamps, or any other required safety devices, including, but not limited to, hazardous materials placards or conspicuity markings.

(b) For purposes of this section, “aerodynamic device” has the same meaning as defined in Section 35110.

Added Sec. 2, Ch. 133, Stats. 2014. Effective January 1, 2015.

Loads

35406. (a) Except as provided in subdivision (b), the load upon any vehicle operated alone, or the load upon the front vehicle of a combination of vehicles, shall not extend more than three feet beyond the foremost part of the front tires of the vehicle or the front bumper of the vehicle, if it is equipped with a front bumper.

(b) When the load is composed solely of vehicles, the load upon the front vehicle of a combination of vehicles shall not extend more than four feet beyond the foremost part of the front tires of the vehicle or the front bumper of the vehicle, if it is equipped with a front bumper.

Booms and Masts

35407. Section 35406 does not apply to the booms or masts of shovels, cranes or water well drilling and servicing equipment carried upon a motor vehicle if the following conditions are met:

(a) The booms or masts shall not extend more than two-thirds of the wheelbase beyond the front tires of such vehicle.

(b) The projecting structure or attachments thereto shall be securely held in place to prevent dropping or swaying.

(c) No part of the structure which extends beyond the front tires shall be less than seven feet from the roadway.
(d) The driver’s vision shall not be impaired by the projecting or supporting structure.
Amended Ch. 816, Stats. 1959. Effective September 18, 1959.

Heel-Boom Log Loader
35407.5. Section 35406 and subdivisions (a) and (d) of Section 35407 do not apply to the booms or masts of a self-propelled heel-boom log loader first sold in this state prior to January 1, 1988, if all of the following conditions are met:
(a) A system of mirrors or other view enhancements permits the driver to see in any area blocked from view.
(b) The log loader is operated together with a four wheeled lead vehicle which remains a reasonable distance ahead to guide the movement of the log loader.
(c) Two-way radio communication equipment is maintained in good working condition on the log loader and the pilot car, and is used between those vehicles during movement upon any highway.

Front Bumper
35408. In no event shall a front bumper on a motor vehicle be constructed or installed so as to project more than two feet forward of the foremost part of either the fenders or cab structure or radiator, whichever extends farther toward the front of such vehicle.

Front Mounted Platform
35409. (a) Any motor vehicle used for the purpose of taking photographs, motion pictures, or television pictures or for teaching safe driving may be equipped with a dismountable platform or other device extending forward of either the fenders or cab structure or radiator, whichever extends farther toward the front of such vehicle, for a distance not exceeding five feet while such vehicle is in use for such purpose.
(b) Any device used for the sole purpose of teaching safe driving, as provided in subdivision (a), shall be of a type authorized by the Department of the California Highway Patrol and the Department of Motor Vehicles.

Projections to the Rear
35410. The load upon any motor vehicle alone or an independent load only upon a trailer or semitrailer shall not extend to the rear beyond the last point of support for a greater distance than that equal to two-thirds of the length of the wheelbase of the vehicle carrying such load, except that the wheelbase of a semitrailer shall be considered as the distance between the rearmost axle of the towing vehicle and the rearmost axle of the semitrailer.

Combination of Vehicles: Loads
35411. (a) Except as provided in subdivision (b), the load upon any combination of vehicles shall not exceed 75 feet measured from the front extremity of the front vehicle or load to the rear extremity of the last vehicle or load.
(b) The load upon any combination of vehicles operating pursuant to Section 35401 or 35401.5, when the overall length of the combination of vehicles exceeds 75 feet, shall be confined within the exterior dimensions of the vehicles.

Load Exemptions
35414. (a) Except where a load can be transported consistent with the limitations on vehicle and load length specified in other sections of this chapter, the limitations of this Chapter as to length of vehicles do not apply when only poles, timbers, pipes, integral structural materials, or single unit component parts, including, but not limited to, missile components, aircraft assemblies, drilling equipment, and tanks not exceeding 80 feet in length are being transported upon any of the following:
(1) Upon a pole or pipe dolly or otherwise lawful trailer used as a pole or pipe dolly in connection with a motor vehicle.
(2) Upon a semitrailer, except for the limitations provided in Section 35410.
(3) Upon a semitrailer and a pole or pipe dolly used in connection with a truck tractor to haul flexible integral structural material.
(b) Poles and the tools and materials incidental to the work to be performed may be transported on a pole or pipe dolly or otherwise lawful semitrailer used as a pole or pipe dolly, transporting not more than three poles not exceeding 80 feet in length and when used by public utility companies or local public agencies engaged in the business of supplying electricity or telephone service, by the Department of Transportation, or by a licensed contractor in the performance of work for a utility, the department, or a local public agency, when such transportation is between a storage yard and job location where such tools and materials are to be used, in which event the limitations of this Chapter as to length of vehicles and loads shall not apply.

CHAPTER 5. WEIGHT

Article 1. Axle Limits

Maximum Weight on Single Axle or Wheels
35550. (a) The gross weight imposed upon the highway by the wheels on any one axle of a vehicle shall not exceed 20,000 pounds and the gross weight upon any one wheel, or wheels, supporting one end of an axle, and resting upon the roadway, shall not exceed 10,500 pounds.
(b) The gross weight limit provided for weight bearing upon any one wheel, or wheels, supporting one end of an axle shall not apply to vehicles the loads of which consist of livestock.
(c) The maximum wheel load is the lesser of the following:
(1) The load limit established by the tire manufacturer, as molded on at least one sidewall of the tire.
(2) A load of 620 pounds per lateral inch of tire width, as determined by the manufacturer’s rated tire width as molded on at least one sidewall of the tire for all axles except the steering axle, in which case paragraph (1) applies.
Amended Sec. 82, Ch. 1154, Stats. 1996. Effective September 30, 1996.

Computation of Allowable Gross Weight
35551. (a) Except as otherwise provided in this section or Section 35551.5, the total gross weight in pounds imposed on the highway by any group of two or more consecutive axles shall not exceed that given for the respective distance in the following table:
Distance in feet between the extremes of any group of 2 or more consecutive axles

| Distance in feet between the extremes of any group of 2 or more consecutive axles |
|----------------------------------|---|---|---|---|---|---|---|---|---|---|
| 2 axles                        | 3 axles | 4 axles | 5 axles | 6 axles | 2 axles | 3 axles | 4 axles | 5 axles | 6 axles |
| 4 axles | 34,000 | 34,000 | 34,000 | 34,000 | 34,000 | 40 axles | 40,000 | 60,000 | 68,500 | 70,000 |
| 5 axles | 34,000 | 34,000 | 34,000 | 34,000 | 34,000 | 41 axles | 40,000 | 60,000 | 69,500 | 72,000 |
| 6 axles | 34,000 | 34,000 | 34,000 | 34,000 | 34,000 | 42 axles | 40,000 | 60,000 | 70,000 | 73,280 |
| 7 axles | 34,000 | 34,000 | 34,000 | 34,000 | 34,000 | 43 axles | 40,000 | 60,000 | 70,500 | 73,280 |
| 8 axles | 34,000 | 34,000 | 34,000 | 34,000 | 34,000 | 44 axles | 40,000 | 60,000 | 71,500 | 73,280 |
| 9 axles | 39,000 | 42,500 | 42,500 | 42,500 | 42,500 | 45 axles | 40,000 | 60,000 | 72,000 | 76,000 |
| 10 axles | 40,000 | 43,500 | 43,500 | 43,500 | 43,500 | 46 axles | 40,000 | 60,000 | 72,500 | 76,500 |
| 11 axles | 40,000 | 44,000 | 44,000 | 44,000 | 44,000 | 47 axles | 40,000 | 60,000 | 73,500 | 77,500 |
| 12 axles | 40,000 | 45,000 | 50,000 | 50,000 | 50,000 | 48 axles | 40,000 | 60,000 | 74,000 | 78,000 |
| 13 axles | 40,000 | 45,500 | 50,500 | 50,500 | 50,500 | 49 axles | 40,000 | 60,000 | 74,500 | 78,500 |
| 14 axles | 40,000 | 46,500 | 51,500 | 51,500 | 51,500 | 50 axles | 40,000 | 60,000 | 75,500 | 79,000 |
| 15 axles | 40,000 | 47,000 | 52,000 | 52,000 | 52,000 | 51 axles | 40,000 | 60,000 | 76,000 | 80,000 |
| 16 axles | 40,000 | 48,000 | 52,500 | 52,500 | 52,500 | 52 axles | 40,000 | 60,000 | 76,500 | 80,000 |
| 17 axles | 40,000 | 48,500 | 53,500 | 53,500 | 53,500 | 53 axles | 40,000 | 60,000 | 77,500 | 80,000 |
| 18 axles | 40,000 | 49,500 | 54,000 | 54,000 | 54,000 | 54 axles | 40,000 | 60,000 | 78,000 | 80,000 |
| 19 axles | 40,000 | 50,000 | 54,500 | 54,500 | 54,500 | 55 axles | 40,000 | 60,000 | 78,500 | 80,000 |
| 20 axles | 40,000 | 51,000 | 55,500 | 55,500 | 55,500 | 56 axles | 40,000 | 60,000 | 79,500 | 80,000 |
| 21 axles | 40,000 | 51,500 | 56,000 | 56,000 | 56,000 | 57 axles | 40,000 | 60,000 | 80,000 | 80,000 |
| 22 axles | 40,000 | 52,500 | 56,500 | 56,500 | 56,500 | 58 axles | 40,000 | 60,000 | 80,000 | 80,000 |
| 23 axles | 40,000 | 53,000 | 57,500 | 57,500 | 57,500 | 59 axles | 40,000 | 60,000 | 80,000 | 80,000 |
| 24 axles | 40,000 | 54,000 | 58,000 | 58,000 | 58,000 | 60 axles | 40,000 | 60,000 | 80,000 | 80,000 |
| 25 axles | 40,000 | 54,500 | 58,500 | 58,500 | 58,500 | 26 axles | 40,000 | 55,500 | 59,500 | 59,500 |
| 27 axles | 40,000 | 56,000 | 60,000 | 60,000 | 60,000 | 28 axles | 40,000 | 57,000 | 60,500 | 60,500 |
| 29 axles | 40,000 | 57,500 | 61,500 | 61,500 | 61,500 | 30 axles | 40,000 | 58,500 | 62,000 | 62,000 |
| 31 axles | 40,000 | 59,000 | 62,500 | 62,500 | 62,500 | 32 axles | 40,000 | 60,000 | 63,500 | 63,500 |
| 33 axles | 40,000 | 60,000 | 64,000 | 64,000 | 64,000 | 34 axles | 40,000 | 60,000 | 64,500 | 64,500 |
| 35 axles | 40,000 | 60,000 | 65,500 | 65,500 | 65,500 | 36 axles | 40,000 | 60,000 | 66,000 | 66,000 |
| 37 axles | 40,000 | 60,000 | 66,500 | 66,500 | 66,500 | 38 axles | 40,000 | 60,000 | 67,500 | 67,500 |
| 39 axles | 40,000 | 60,000 | 68,000 | 68,000 | 68,000 | (b) In addition to the weights specified in subdivision (a), two consecutive sets of tandem axles may carry a gross weight of 34,000 pounds each if the overall distance between the first and last axles of the consecutive sets of tandem axles is 36 feet or more. The gross weight of each set of tandem axles shall not exceed 34,000 pounds and the gross weight of the two consecutive sets of tandem axles shall not exceed 68,000 pounds.

(c) The distance between axles shall be measured to the nearest whole foot. When a fraction is exactly six inches, the next larger whole foot shall be used.

(d) Nothing contained in this section shall affect the right to prohibit the use of any highway or any bridge or other structure thereon in the manner and to the extent specified in Article 4 (commencing with Section 35700) and Article 5 (commencing with Section 35750) of this chapter.

(e) The gross weight limits expressed by this section and Section 35550 shall include all enforcement tolerances.

Alternate Method of Computation of Allowable Gross Weight

3551.5. (a) The provisions of this section shall apply only to combinations of vehicles which contain a trailer or
Each vehicle in such combination of vehicles, and every such combination of vehicles, shall comply with either Section 35551 or with subdivisions (b), (c), and (d) of this section.

(b) The gross weight imposed upon the highway by the wheels on any one axle of a vehicle shall not exceed 18,000 pounds and the gross weight upon any one wheel, or wheels, supporting one end of an axle and resting upon the roadway, shall not exceed 9,500 pounds, except that the gross weight imposed upon the highway by the wheels on any front steering axle of a motor vehicle shall not exceed 12,500 pounds. The gross weight limit provided for weight bearing upon any one wheel, or wheels, supporting one end of an axle shall not apply to vehicles the loads of which consist of livestock. The following vehicles are exempt from the front axle weight limits specified in this subdivision:

1. Trucks transporting vehicles.
2. Trucks transporting livestock.
3. Dump trucks.
4. Cranes.
5. Buses.
6. Transit mix concrete or cement trucks, and trucks that mix concrete or cement at, or adjacent to, a jobsite.
7. Motor vehicles that are not commercial vehicles.
8. Vehicle operated by any public utility furnishing electricity, gas, water, or telephone service.
9. Trucks or truck tractors with a front axle at least four feet to the rear of the foremost part of the truck or truck tractor, not including the front bumper.
10. Trucks transporting garbage, rubbish, or refuse.
11. Trucks equipped with a fifth wheel when towing a semitrailer.
12. Tank trucks which have a cargo capacity of at least 1,500 gallons.
13. Trucks transporting bulk grains or bulk livestock feed.

(c) The total gross weight with load imposed on the highway by any group of two or more consecutive axles of a vehicle in such combination of vehicles or of such combination of vehicles where the distance between the first and last axles of the two or more consecutive axles is 18 feet or less shall not exceed that given for the respective distances in the following table:

<table>
<thead>
<tr>
<th>Distance in feet between first and last axles of group</th>
<th>Allowed load in pounds on group of axles</th>
</tr>
</thead>
<tbody>
<tr>
<td>12</td>
<td>36,400</td>

</tbody>
</table>

(d) The total gross weight with load imposed on the highway by any vehicle in such combination of vehicles or of such combination of vehicles where the distance between the first and last axles is more than 18 feet shall not exceed that given for the respective distances in the following table:
§35552

### Vehicles Transporting Logs

35552. (a) This section applies only to trucks and vehicle combinations while transporting loads composed solely of logs.

(b) One set of tandem axles of such a truck or vehicle combination shall be deemed to be in compliance with Section 35551 if the total gross weight of 34,000 pounds on such a set that is permitted by Section 35551 is not exceeded by more than 1,500 pounds. In addition, such a truck and vehicle combination that has two consecutive sets of tandem axles shall be deemed to be in compliance with Section 35551 if such consecutive sets of tandem axles do not carry a combined total gross weight of more than 69,000 pounds, if the total gross weight on any one such set does not exceed 35,500 pounds, and if the overall distance between the first and last axle of such consecutive sets of tandem axles is 34 feet or more. All such truck and vehicle combinations shall be subject to all other provisions of Section 35551 or any other provision made applicable to the total gross weight of such a truck or vehicle combination in lieu of Section 35551.

(c) The gross weight limits expressed in this section shall include all enforcement tolerances.

(d) If any total gross weight permitted by this section is exceeded, the allowed weight in pounds set forth in subdivision (a) of Section 35551 shall be the maximum permitted weight for purposes of determining the amount of fine for such violation as specified in the table in Section 42030; except that, whenever the violation is for exceeding the total gross weight for two consecutive sets of tandem axles, and if the overall distance between the first and last axle of such sets is 34 feet or more, the allowed weight on the two consecutive sets shall be 68,000 pounds.

(e) This section shall have no application to highways which are a part of the National System of Interstate and Defense Highways (as referred to in subdivision (a) of Section 108 of the Federal-aid Highway Act of 1956).

This section may be cited as the Christensen-Belotti Act. Amended Ch. 249, Stats. 1970. Effective June 19, 1976.

### Exemptions

35553. The provisions of this Article shall not apply to any vehicle in the immediate vicinity of an unloading or loading area while actually preparing for or in the process of unloading or loading, provided any overload is incidental to and necessitated by such action and provided that such action does not occur on a bridge or highway structure.

This section shall have no application to highways which are a part of the national system of interstate and defense highways (as referred to in subdivision (a) of Section 108 of the Federal-aid Highway Act of 1956).

### Gross Weight Limit for Bus Axle

35554. (a) (1) Notwithstanding Section 35550, the gross weight on any one axle of a bus shall not exceed 20,500 pounds.

(2) A transit bus procured through a solicitation process pursuant to which a solicitation was issued before January 1, 2013, or ( ) through a solicitation process pursuant to subdivision (d) is not subject to this subdivision.

(b) A transit bus is not subject to Section 35550.

(c) A transit bus shall not operate on the Dwight D. Eisenhower System of Interstate and Defense Highways in excess of the weight limitation for transit buses specified in federal law.

(d) (1) A publicly owned or operated transit system or an operator of a transit system under contract with a publicly owned or operated transit system shall not procure, through a solicitation process pursuant to which a solicitation is issued on or after January 1, 2013, a transit bus whose gross weight on any single axle exceeds 20,500 pounds except as follows:

(A) It may procure and operate a new bus whose gross weight exceeds 20,500 pounds on any single axle that is of the same or lesser gross weight per axle than the bus it is replacing.

(B) It may procure and operate a new transit bus whose gross weight exceeds 20,500 pounds on any single axle in order to incorporate a fleet class expansion or a new fleet class into its inventory if its governing board adopts a finding...
at a public hearing that the fleet class expansion or change in fleet classes is necessary to address a need to serve a new or existing market pursuant to its most recently adopted short-range transit plan, or to meet a federal, state, or regional statutory or regulatory requirement, and includes a consideration of vehicle needs and fleet size.

(2) If the governing board of the publicly owned or operated transit system holds a public hearing to consider a procurement made pursuant to subparagraph (A) or (B) of paragraph (1), the board shall provide written notice to those cities and counties on whose roads the bus would travel of the public hearing at which this procurement is to be considered and shall place in the public record any comment of concern the board receives about the procurement.

(3) For purposes of this subdivision, “fleet class” means a group of transit buses designated by a publicly owned or operated transit system or an operator under contract with a publicly owned or operated transit system that owns those transit buses, if the transit buses have a combination of two or more of the following similar defining characteristics:

(A) Length.
(B) Seating capacity.
(C) Number of axles.
(D) Fuel or power system.
(E) Width.
(F) Structure.
(G) Equipment package.

(e) This section shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

Amended Sec. 3, Ch. 771, Stats. 2012. Effective January 1, 2013. Repeal operative January 1, 2015. Amended Sec. 1, Ch. 263, Stats. 2014. Effective January 1, 2015. The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following:
1. “though”
2. “exceeding 20,500 pounds”
3. “2015.”

NOTE: The preceding section section shall remain in effect only until January 1, 2016, and as of that date is repealed, at which time the following section becomes operative.

35554. (a) (1) Notwithstanding Section 35550, the gross weight on any one axle of a bus shall not exceed 20,500 pounds.

(2) A transit bus procured through a solicitation process pursuant to which a solicitation was issued before January 1, 2013, is not subject to this subdivision.

(b) A transit bus is not subject to Section 35550.

(c) This section shall become operative on January 1, ( ) 2016.

Amended Sec. 4, Ch. 771, Stats. 2012. Effective January 1, 2015. Amended Sec. 2, Ch. 263, Stats. 2014. Effective January 1, 2015. The 2014 amendment added the italicized material, and at the point(s) indicated, deleted the following “2015.”

Gross Weight Limit for Cotton Module Mover

35555. (a) During the period commencing September 15 of each year and ending March 15 of the following year, the weight limitations of Section 35551 do not apply to any cotton module mover or any truck tractor pulling a semitrailer that is a cotton module mover, when operated as follows:

(1) LATERALLY across a state highway at grade of the state highway.

(2) UPON any county highway within the Counties of Butte, Colusa, Fresno, Glenn, Imperial, Kern, Kings, Madera, Merced, Riverside, Sacramento, San Benito, San Bernardino, San Joaquin, Stanislaus, Sutter, Tehama, Tulare, Yolo, and Yuba, except as prohibited or limited on county highways or portions thereof by resolution of the county board of supervisors having jurisdiction.

(b) A cotton module mover may be operated upon a state highway within the counties and during the period set forth in subdivision (a) if all of the following are met:

(1) The operator is in possession of a driver’s license of the class required for operation of the mover.

(2) The mover is operated in compliance with Sections 24002 and 24012; Article 1 (commencing with Section 24250) of, Article 3 (commencing with Section 24600) of, Article 4 (commencing with Section 24800) of, Article 5 (commencing with Section 24950) of, Article 6 (commencing with Section 25100) of, Article 7 (commencing with Section 25350) of, Article 8 (commencing with Section 25450) of, Chapter 2 of Division 12; and Article 2 (commencing with Section 26450) and Article 3 (commencing with Section 26502) of Chapter 3 of Division 12.

(3) The mover does not exceed the maximum allowable gross axle weight for tandem axles set forth in Section 35551 by more than 6,000 pounds.

(4) The operator of a mover that exceeds the maximum allowable gross axle weight for tandem axle vehicles as set forth in Section 35551 shall possess a commercial driver’s license as defined in subdivision (a) of Section 15210.

(c) This section does not apply to those highways designated by the United States Department of Transportation as national network routes.

Vehicle Weight Certificates and Records

35557. (a) Only upon request to, and approval by, and in accordance with regulations adopted by, the Director of Food and Agriculture, all of the following are available for inspection by district attorneys and are subject to legal process for admission in any criminal or civil proceeding arising out of a violation of this chapter:

(1) Vehicle weight certificates issued on or after January 1, 1984, pursuant to Chapter 7 (commencing with Section 12700), Chapter 7.3 (commencing with Section 12740), and Chapter 7.7 (commencing with Section 12770) of Division 5 of the Business and Professions Code.

(2) Other records of vehicle weight relating to those certificates.

(3) Copies of those certificates and records.

(b) All certificates, records, and copies thereof, issued before January 1, 1984, shall not be available for inspection and are not admissible in any criminal or civil proceedings arising out of a violation of this chapter.

Vehicles: Axle Weight Scales

35558. Any person or business which has an axle weight scale at its loading facilities shall, upon the request of the driver, weigh any load being transported for that person or business before the vehicle leaves the loading facility. In a port facility, this requirement only applies if the scale is located in outbound lanes. The request to weigh shall be based upon a reasonable assumption that the load is overweight.

Article 1.5. Intermodal Weight Determination Program

Legislative Intent

35580. (a) The Legislature finds and declares that a substantial number of container trailers using California highways exceed weight limitations authorized for California highways. Intermodal container trailers are containers which have been unloaded from ships or trains and placed on truck chassis, or are piggyback trailers unloaded from trains, for subsequent transport upon the highways. Container trailers are usually loaded by shippers in other states or foreign countries where gross and axle weight restrictions imposed by this code are of no concern to the loader. These loading practices often result in overweight vehicles traveling on California highways, which contributes to highway deterioration.

(b) The Legislature further finds and declares that the continued growth of intermodal transportation within the United States and the Pacific Rim makes it important for California to initiate a program to allow intermodal freight to be weighed at major terminal locations prior to operation on the highways, to ensure that these vehicles are within the established weight limits. The Legislature finds that the imposition of heavy fines and assessments is one means of reducing the number of overweight vehicles on the highways. A more effective, and preferable, alternative is to assure that intermodal container trailers are properly loaded at the outset by the party responsible for loading goods into the container trailer, so that vehicles meet weight requirements prior to their operation on the highways.

Intermodal Weighing Facilities

35581. (a) The Department of Transportation, in cooperation with the Department of the California Highway Patrol, shall develop a plan for implementing or identifying new or existing scale facilities at major intermodal terminals which may serve as intermodal weighing facilities for weighing commercial vehicles which transport intermodal freight, prior to their entry onto any highway which is not specifically exempted from weight limitations by a local authority. The plan shall include consideration of options for financing the construction of required intermodal weighing facilities. The plan shall be submitted to the Legislature not later than August 1, 1989.

(b) The Department of Transportation may enter into agreements with local authorities or private entities to provide for exemption from weight restrictions for short distance movement to an intermodal weighing facility.

Article 2. Tire Limits

Solid Tires

35600. The gross weight upon a solid tire upon a vehicle shall not exceed 600 pounds upon any inch of the channel base width of such tire.

Metal Tires

35601. The gross weight of any vehicle and load resting upon any metal tire in contact with the roadway shall not exceed 500 pounds upon any inch of the width of such tire but this limitation shall not apply to traction engines or tractors, the propulsive power of which is not exerted through wheels resting upon the roadway but by means of a flexible band or chain, known as a movable track, when the portions of the movable tracks in contact with the surface of the roadway present plane surfaces.

Article 3. Limit Changes on State Highways

Increases

35650. The Department of Transportation, whenever it determines after an engineering investigation that any highway under its jurisdiction will with safety to itself sustain vehicles and loads weighing more than the maximum weight limits set forth in this code, shall have authority to declare and to fix a weight limit for the highway greater than the maximum weight limit set forth in this code. Thereafter it shall be lawful to operate or move vehicles and loads of a gross weight upon the highways designated, equal to but not in excess of the maximum weight limit fixed by the department.

Decreases

35651. Whenever in the judgment of the Department of Transportation any state highway will not with safety to itself sustain the maximum weights permitted under this code for the highway, the department shall determine, after a public hearing, the maximum weight which the highway will sustain.

Notice of Hearing

35652. The Department of Transportation shall give notice of the time and place of the hearing by posting a notice in the county seat of each county in which any affected portion of the highway is located and shall also post copies of the notice at intervals of not more than one mile along said highway and a notice at each end of the affected portion thereof. Notice of the hearing shall be given for not less than 10 days and the hearing shall be held at the county seat of the county in which the affected highway is situated or at some other place convenient to the portion of the highway affected.

Hearing

35653. The hearing shall be conducted by one or more engineers appointed by the Director of Transportation. The engineers shall hear all evidence presented at the time and place mentioned in the notice and shall report findings made in writing to the Director of Transportation. Upon the basis of the findings, the Director of Transportation shall declare that the maximum weight which can be maintained with safety upon the state highway. In no event shall the weight be less than 16,000 pounds.

Erection of Signs

35654. Following the declaration of maximum weight as provided in this article, the Department of Transportation shall erect suitable signs at each end of the affected portion of the highway and at such other points as the department deems necessary to give adequate notice of the weight limits.

Violation of Decreased Restriction

35655. (a) No person shall drive a vehicle on any state highway when the weight of the vehicle and load is greater
than the maximum weight which the highway will sustain. Violations of this subdivision shall be punished in accordance with the schedule of fines set forth in Section 42030.

(b) Upon the trial of any person charged with a violation with respect to signs erected under Section 35654, proof of the determination and the maximum weight by the Department of Transportation and the existence of the signs constitutes prima facie evidence of the maximum weight which the state highway will sustain.

Interstate Route 580: Prohibited Vehicles: Weight Limit

35655. (a) Notwithstanding this Article or any other provision of law, no vehicle, as described in Sections 410 and 655, with a gross weight of 9,000 pounds or more, shall be operated on the segment of Interstate Route 580 (I-580) that is located between Grand Avenue in the City of Oakland and the city limits of the City of San Leandro. This subdivision does not apply to passenger buses or paratransit vehicles.

(b) The Department of Transportation shall erect suitable signs at each end of the portion of highway described in subdivision (a) and at any other points that the department deems necessary to give adequate notice of the weight limit imposed under this section.

State Route 2: Prohibited Vehicles: Three or More Axles and Weight Limit

35655.6. (a) Except as provided in subdivision (b), a person shall not drive a commercial vehicle with three or more axles, or a gross vehicle weight or a combined gross weight of 9,000 pounds or more, on the segment of State Route 2 (SR-2) that is located between Interstate Route 210 (I-210) in the City of La Canada Flintridge and County Route N4 (Big Pine Highway) in the County of Los Angeles.

(b) Subdivision (a) does not apply to any of the following vehicles:

(1) An authorized emergency vehicle.
(2) A vehicle operated by a publicly or privately owned public utility.
(3) A vehicle operated by a government agency.
(4) A transit bus servicing facilities accessible only from that portion of State Route 2 specified in subdivision (a).
(5) A tow truck providing assistance to a vehicle that is accessible only from that portion of State Route 2 specified in subdivision (a).
(6) A commercial vehicle making deliveries to or from, or servicing, property that is either of the following:
(A) Located within the city limits of the City of La Canada Flintridge.
(B) Is accessible only from the portion of State Route 2 specified in subdivision (a).
(7) A commercial vehicle involved in a motion picture, commercial, or television production conducting motion picture, commercial, or television production activities in areas that are accessible only from that portion of State Route 2 specified in subdivision (a).
(c) A person who violates this section shall, upon conviction, be punished by a fine pursuant to subdivision (a) of Section 42030 or one thousand dollars ($1,000), whichever is greater.
(d) The Department of Transportation shall erect suitable signs at each end of the portion of State Route 2 specified in subdivision (a) and any other points that the department deems necessary to give adequate notice of the prohibition pursuant to this section.

Added Sec. 1, Ch. 147, Stats. 2009. Effective August 5, 2009.

Article 4. Local Authorities

Increases

35700. (a) The legislative body of any county or city may by ordinance permit the operation and moving of vehicles and loads upon highways under their respective jurisdictions of a maximum gross weight in excess of the maximum gross weight of vehicles and loads specified in this code.
(b) This section does not apply to state highways.

Special Permits: Overweight Vehicles

35700.5. (a) The Department of Transportation, upon adoption of an ordinance or resolution that is in conformance with the provisions of this section by the City of Carson, the City of Long Beach, and the City of Los Angeles, covering designated routes, may issue a special permit to the operator of a vehicle, combination of vehicles, or mobile equipment, permitting the operation and movement of the vehicle, combination, or equipment, and its load, on the 3.66-mile portion of State Route 47 and State Route 103 known as the Terminal Island Freeway, between Willow Street in the City of Long Beach and Terminal Island in the City of Long Beach and the City of Los Angeles, and on the 2.4-mile portion of State Highway Route 1, that is between Sanford Avenue in the City of Los Angeles and Harbor Avenue in the City of Long Beach, if the vehicle, combination, or equipment meets all of the following criteria:

(1) The vehicle, combination of vehicles, or mobile equipment is used to transport intermodal cargo containers that are moving in international commerce.
(2) The vehicle, combination of vehicles, or mobile equipment, in combination with its load, has a maximum gross weight in excess of the maximum gross weight limit of vehicles and loads specified in this chapter, but does not exceed 95,000 pounds gross vehicle weight.
(3) (A) The vehicle, combination of vehicles, or mobile equipment conforms to the axle weight limits specified in Section 35550.
(B) The vehicle, combination of vehicles, or mobile equipment conforms to the axle weight limits in Section 35551, except as specified in subparagraph (C).
(C) Vehicles, combinations of vehicles, or mobile equipment that impose more than 80,000 pounds total gross weight on the highway by any group of two or more consecutive axles, exceed 60 feet in length between the extremes of any group of two or more consecutive axles, or have more than six axles shall conform to weight limits that shall be determined by the Department of Transportation.
(b) The permit issued by the Department of Transportation shall be required to authorize the operation or movement of a vehicle, combination of vehicles, or mobile equipment described in subdivision (a). The permit shall not authorize the movement of hazardous materials or hazardous wastes, as those terms are defined by local, state, and federal law. The following criteria shall be included in the application for the permit:

(1) A description of the loads and vehicles to be operated under the permit.
(2) An agreement wherein each applicant agrees to be responsible for all injuries to persons and for all damage to real or personal property of the state and others directly caused by or resulting from the operation of the applicant’s vehicles or combination of vehicles under the conditions of the permit. The applicant shall agree to hold harmless and indemnify the state and all its agents for all costs or claims arising out of or caused by the movement of vehicles or combination of vehicles under the conditions of the permit.

(3) The applicant shall provide proof of financial responsibility that covers the movement of the shipment as described in subdivision (a). The insurance shall meet the minimum requirements established by law.

(4) An agreement to carry a copy of the permit in the vehicle at all times and furnish the copy upon request of an employee of the Department of the California Highway Patrol or the Department of Transportation.

(5) An agreement to place an indicia, developed by the Department of Transportation, in consultation with the Department of the California Highway Patrol, upon the vehicle identifying it as a vehicle possibly operating under this section. The indicia shall be displayed in the lower right area of the front windshield of the power unit. The Department of Transportation may charge a fee to cover the cost of producing and issuing this indicia.

(c) The permit issued pursuant to subdivision (a) shall be valid for one year. The permit may be canceled by the Department of Transportation for any of the following reasons:

(1) The failure of the applicant to maintain any of the conditions required pursuant to subdivision (b).

(2) The failure of the applicant to maintain a satisfactory rating, as required by Section 34501.12.

(3) A determination by the Department of Transportation that there is sufficient cause to cancel the permit because the continued movement of the applicant’s vehicles under the permit would jeopardize the safety of the motorists on the roadway or result in undue damage to the highways listed in this section.

(d) This section does not authorize an applicant or holder of a special permit under subdivision (a) to operate a vehicle or combination of vehicles in excess of the maximum gross weight limit of vehicles and loads specified in this chapter outside of the designated corridors identified in subdivision (a). A violation of this subdivision shall result in the revocation of the permit.

(e) The Department of Transportation may charge a fee to cover the cost of issuing a permit pursuant to subdivision (a). Amended Sec. 2, Ch. 298, Stats. 2011. Effective January 1, 2012

Decreases by Local Authorities

§35701. (a) Any city, or county for a residence district, may, by ordinance, prohibit the use of a street by any commercial vehicle or by any vehicle exceeding a maximum gross weight limit, except with respect to any vehicle which is subject to Sections 1031 to 1036, inclusive, of the Public Utilities Code, and except with respect to vehicles used for the collection and transportation of garbage, rubbish, or refuse using traditionally used routes in San Diego County when the solid waste management plan prepared under Section 66780.1 of the Government Code is amended to designate each traditionally used route used for the purpose of transporting garbage, rubbish, or refuse which intersects with a local or regional arterial circulation route contained within a city or county’s traffic circulation element and which provides access to a solid waste disposal site.

(b) The ordinance shall not be effective until appropriate signs are erected indicating either the streets affected by the ordinance or the streets not affected, as the local authority determines will best serve to give notice of the ordinance.

(c) No ordinance adopted pursuant to this section after November 10, 1969, shall apply to any state highway which is included in the National System of Interstate and Defense Highways, except an ordinance which has been approved by a two-thirds vote of the California Transportation Commission.

(d) The solid waste management plan prepared under Section 66780.1 of the Government Code by San Diego County may designate the traditionally used routes.

(e) "Traditionally used route," for purposes of this section, means any street used for a period of one year or more as access to or from a solid waste disposal site.

Approval of Ordinance

§35702. No ordinance proposed under Section 35701 is effective with respect to any highway which is not under the exclusive jurisdiction of the local authority enacting the ordinance, or, in the case of any state highway, until the ordinance has been submitted by the governing body of the local authority to, and approved in writing by, the Department of Transportation. In submitting a proposed ordinance to the department for approval, the governing body of the local authority shall designate therein, an alternate route for the use of vehicles, which route shall remain unrestricted by any local regulation as to weight limits or types of vehicles so long as the ordinance proposed shall remain in effect. The approval of the proposed ordinance by the Department of Transportation shall constitute an approval by it of the alternate route so designated.

Commercial Vehicles

§35703. No ordinance adopted pursuant to Section 35701 shall prohibit any commercial vehicles coming from an unrestricted street having ingress and egress by direct route to and from a restricted street when necessary for the purpose of making pickups or deliveries of goods, wares, and merchandise from or to any building or structure located on the restricted street or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of any building or structure upon the restricted street for which a building permit has previously been obtained.

Public Utility Construction or Repair Vehicle

§35704. No ordinance adopted pursuant to Section 35701 to decrease weight limits shall apply to any vehicle owned by a public utility or a licensed contractor while necessarily in use in the construction, installation, or repair of any public utility.

Highway User Tax Funds, Expenditure on City Streets

§35705. Section 35701 shall not be applicable to any city street on which money from the State Highway Account in the
State Transportation Fund has been or is used for construction or maintenance except in such cases as the legislative body of the city, after notice and hearing, determines to reduce weight limits on such streets. Notice of the hearing shall be published as provided in Section 6064 of the Government Code. The notice shall advise all interested parties that they may submit written and oral objections to the proposed action and shall designate a time and place for presentation of such objections. The time for submission of objections shall not expire, and the hearing may not be held, less than 60 days after the first publication of notice. The hearing shall be held before the legislative body of the city. All objections shall be considered and interested parties shall be afforded an adequate opportunity to be heard in respect to their objections.

Unimproved County Highways

35706. Boards of supervisors in their respective counties may by ordinance reduce the permissible weight of vehicles and loads upon unimproved county highways or upon county bridges.

Improved County Highways

35707. Boards of supervisors in their respective counties may by ordinance reduce the permissible weights upon improved highways only which by reason of deterioration will be destroyed unless the weight limits are reduced, but no such reduction shall extend for a period of more than 90 days unless actual repair of the highway is begun within that time and thereafter continuously carried on to completion.

For the purposes of this section, an improved county highway means a highway paved with cement concrete or asphaltic concrete, or a highway with a roadway of hard surface not less than four inches thick made up of a mixture of rock, sand, or gravel bound together by an artificial binder other than natural soil.

Ordinances Subject to Approval

35708. In the event any person protests in writing to the clerk of the board of supervisors within 15 days after the adoption of an ordinance reducing the permissible gross weight upon an improved highway, the reduction in weight shall not become final until the Department of Transportation after a hearing approves the action of the board of supervisors in making such reduction.

Hearing

35709. The hearing shall be held in the county in which the highway is located within 25 days after a request therefor, and shall be conducted by one or more engineers of the Department of Transportation to be designated by the Director of Transportation. The engineers shall hear all evidence presented and report their findings in writing to the director. Such director shall, upon the basis of the findings, declare in writing the approval or disapproval of the reduction.

Signs on Unimproved County Highways

35710. Whenever any weight limit different from those specified in this code is fixed in accordance with Section 35706 or 35707, the board of supervisors shall cause signs indicating the weight so fixed to be erected at all entrances to the highway upon which the permissible gross weight is altered.

Delivery Routes

35711. No ordinance adopted pursuant to Section 35706 or 35707 or 35712 shall prohibit any commercial vehicle from using any county highway by direct route to or from a state highway for the purpose of delivering or loading for transportation goods, wares, or merchandise.

Highways Closed to Commercial Vehicles

35712. (a) Any county may, by ordinance, prohibit the use of any highway located in an unincorporated residential or subdivision area by any commercial vehicle exceeding a gross weight of 14,000 pounds.

(b) Any county of the third class, as defined by Section 28024 of the Government Code, or of the ninth class, as defined by Section 28030 of the Government Code, may, by ordinance, prohibit the use of any highway located in an unincorporated residential or subdivision area by any commercial vehicle exceeding a gross weight of 5,000 pounds.

(c) This section does not apply to a vehicle operated by, or on behalf of, a public utility in connection with the installation, operation, maintenance, or repair of its facilities.

Amended Sec. 72, Ch. 877, Stats. 1998. Effective January 1, 1999.

Signs; Alternate Route

35713. No ordinance closing a highway under Section 35712 or 35715 is effective until appropriate signs are erected indicating either the highways affected by the ordinance or the highways not affected as the county may determine will best serve to give notice of the ordinance, nor shall any ordinance be effective with respect to any county highway unless the board of supervisors designates in the ordinance an alternate route for the use of the vehicles which shall remain unrestricted by any local regulation as to commercial vehicles so long as the ordinance proposed shall remain in effect.

Exemptions

35714. No ordinance adopted pursuant to Section 35712 shall be effective with respect to:

(a) Any vehicle which is subject to the provisions of Article 2 (commencing with Section 1031) of Chapter 5 of Part 1 of Division 1 of the Public Utilities Code.

(b) Any highway, any portion of which is also under the jurisdiction of a city, unless the consent of the governing body of the city is first obtained.

(c) Any commercial vehicle coming from an unrestricted highway having ingress and egress by direct route to and from the restricted highway when necessary for the purpose of making pickups or deliveries of goods, wares, and merchandise from or to any building or structure located on the restricted highway or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of any building or structure upon the restricted highway for which a building permit has previously been obtained.

(d) The operation of ambulances or hearses.

(e) Any vehicle owned, operated, controlled, or used by a public utility in connection with the construction, installation, operation, maintenance, or repair of any public utility facilities.
§35715

(f) Any state highway, until the proposed ordinance has been submitted by the board of supervisors of the county to and approved in writing by the Department of Transportation. In submitting a proposed ordinance to the department for approval, the board of supervisors shall designate therein, an alternate route for the use of the vehicles which shall remain unrestricted by any local regulation as to commercial vehicles so long as the ordinance proposed shall remain in effect. The approval of the proposed ordinance by the Department of Transportation shall constitute an approval by the department of the alternate route so designated.

(g) Vehicles operated as an incident to any industrial, commercial or agricultural enterprise conducted within the boundaries of the unincorporated residential subdivision area.

Amended Sec. 73, Ch. 877, Stats. 1998. Effective January 1, 1999.

Highway Restriction: Nevada County

35715. (a) The County of Nevada may by ordinance prohibit the use of Northwoods Boulevard in such county by any commercial vehicle exceeding a gross weight specified in the ordinance.

(b) No ordinance adopted pursuant to this section shall be effective with respect to:

(1) Any commercial vehicle coming from an unrestricted highway having ingress and egress by direct route to and from the restricted highway when necessary for the purpose of making pickups or deliveries of goods, wares, and merchandise from or to any building or structure located on the restricted highway or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of any building or structure upon the restricted highway for which a building permit has previously been obtained.

(2) The operation of ambulances or hearses.

(3) Any vehicle owned, operated, controlled, or used by a public utility in connection with the construction, installation, operation, maintenance, or repair of any public utility facilities.

Highway Restriction: Tuolumne County

35715.1. (a) The County of Tuolumne may by ordinance prohibit the use of Old Priest Grade in that county by a vehicle or combination of vehicles that exceeds a weight limit of 7,500 pounds or more. The weight limit shall be determined by the County Board of Supervisors and specified in the ordinance.

(b) An ordinance adopted pursuant to this section is not effective with respect to the following:

(1) A vehicle or combination of vehicles coming from an unrestricted highway having ingress and egress by direct route to and from the restricted highway when necessary for the purpose of making pickups or deliveries of goods, wares, and merchandise from or to any building or structure located on the restricted highway or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of a building or structure upon the restricted highway for which a building permit has previously been obtained.

(2) The operation of ambulances, hearses, or vehicles providing emergency roadside services or roadside assistance.

(3) A vehicle or combination of vehicles owned, operated, controlled, or used by a public utility in connection with the construction, installation, operation, maintenance, or repair of a public utility facility.

Licensed Contractors and Highway Carriers

35716. No ordinance adopted by a city to decrease weight limits shall apply to any vehicle owned, leased, operated or controlled by any licensed contractor while necessarily in use in the construction, maintenance, or repair of a public works project, or by any highway carrier regulated by the Public Utilities Commission while transporting any materials to or from a public works project, when the bids were opened prior to the adoption of the ordinance unless an alternate direct route is provided substantially within and by the city enacting the ordinance.

Defective Roadways

35717. Notwithstanding any provision to the contrary, any county may by ordinance prohibit the use of any street, road or highway by any commercial vehicle exceeding a maximum gross weight of 14,000 pounds if, by accepted engineering standards, the street, road or highway cannot support such vehicle.

Added Ch. 1732, Stats. 1959. Effective September 18, 1959.

 Signing Required

35718. No ordinance adopted pursuant to Section 35717 shall be effective until appropriate signs are erected indicating either the streets, roads or highways affected by the ordinance or the streets, roads or highways not affected, as the board of supervisors may determine will best serve to give notice of the ordinance.

Added Ch. 1732, Stats. 1959. Effective September 18, 1959.

Intercounty Streets

35719. No ordinance adopted pursuant to Section 35717 shall be effective with respect to any street, road or highway which connects with, or is a continuation of, any street, road or highway of an adjoining county unless the board of supervisors of each county in which the street, road or highway is a through highway, by concurrent action and like limitation, prohibit the use of such street, road or highway pursuant to this section.

Added Ch. 1732, Stats. 1959. Effective September 18, 1959.

Vehicles Exempt

35720. No ordinance adopted pursuant to Section 35717 shall be effective with respect to:

(a) Any vehicle which is subject to the provisions of Article 2 (commencing with Section 1031) of Chapter 5 of Part 1 of Division 1 of the Public Utilities Code or any farm labor vehicle.

(b) Any street, road or highway which is not under the exclusive jurisdiction of the board of supervisors enacting such ordinance, except as otherwise provided in Section 35719, or, in the case of any state highway, until such proposed ordinance has been submitted by the board of supervisors to and approved in writing by the Department of Transportation. In submitting such a proposed ordinance to the department for approval, the board of supervisors shall designate therein, an alternate route or routes for the use of such vehicles which shall remain unrestricted by any local regulation as to weight limits or
types of vehicles so long as the ordinance proposed shall remain in effect. The approval of such proposed ordinances by the Department of Transportation shall constitute an approval by the department of such alternate route or routes so designated.

(c) Any commercial vehicle coming from an unrestricted street, road or highway having ingress and egress by direct route to and from such restricted streets, roads, and highways when necessary for the purpose of making pickups or deliveries of goods, wares and merchandise from or to any building or structure located on such restricted streets, roads or highways or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling or construction of any building or structure upon such restricted street, road or highway for which a building permit, if required, has previously been obtained therefor, or vehicles, machinery, or construction equipment used in connection with the construction, repair or maintenance of such restricted street or public works projects located thereon.

(d) Any vehicle operated as an incident to any industrial, commercial or agricultural enterprise conducted upon any such street, road or highway.

(e) Any vehicle owned, operated, controlled, or used by a public utility or licensed contractor in connection with the construction, installation, operation, maintenance, or repair of any public utility facilities or public works projects.

(f) The operation of ambulances or hearses.

Notice and Hearing

§35721. No ordinance shall be adopted pursuant to Section 35717 except upon notice and hearing in the manner prescribed in this section.

Notice of hearing shall be published as prescribed in Section 6064 of the Government Code. The notice shall advise all interested parties that they may submit written or oral objections to the proposed action and shall designate a time and place for presentation of such objections. The time for submission of objections shall not expire, and the hearing may not be held, less than 60 days after the first publication of notice. The hearing shall be held before the board of supervisors and interested parties shall be afforded an adequate opportunity to be heard with respect to their objections.

§35750. (a) The Department of Transportation may, in the manner provided in Section 35751, determine the maximum weight of vehicle and load, lower than the maximum weight otherwise permitted under this code which a bridge or other structure with safety to itself will sustain.

(b) The city council or the board of supervisors of a city or county with a population of 1,100,000 or more, as determined by the 1970 federal decennial census, may, in the manner provided in Section 35751, determine the maximum weight of vehicle and load, lower than the maximum weight otherwise permitted under this code which a bridge or other structure under its jurisdiction with safety to itself will sustain.

Investigation and Hearing

§35751. (a) The Department of Transportation or the city council or board of supervisors of a city or county with a population of 1,100,000 or more, as determined by the 1970 federal decennial census, as the case may be, shall make an engineering investigation and hold a public hearing whenever such a determination appears necessary.

(b) Notice of the time and place of the hearing shall be posted upon the bridge or other structure at least five days before the date fixed for the hearing. Upon the basis of the investigation and all evidence presented at the hearing, the department or the city council or board of supervisors, as the case may be, shall determine by order in writing the maximum weight of vehicle and load which the bridge or other structure with safety to itself will sustain.

(c) With respect to any bridge or other structure not under its jurisdiction, the department shall not proceed under subdivisions (a) and (b) unless it first receives a request to do so from the city council or the board of supervisors having jurisdiction over the bridge or other structure.

Maximum Weights; Signs

§35752. Thereupon, the authority having jurisdiction over the bridge or other structure shall erect and maintain suitable signs specifying the maximum weight so determined, at a distance of not more than 500 feet from each end of the bridge or other structure or any approach thereto.

The standards and specifications for such signs shall be established in accordance with Section 21400 of this code.

Violation of Decreased Restrictions

§35753. (a) No person shall drive a vehicle over any bridge, causeway, viaduct, trestle, or dam constituting a part of a highway when the weight of the vehicle and load thereon is greater than the maximum weight which the bridge or other structure with safety to itself will sustain. Violations of this subdivision shall be punished in accordance with the schedule of fines set forth in Section 42030.
§35754
(b) Upon the trial of any person accused with a violation with respect to a weight restriction sign erected pursuant to Section 35752, proof of the determination of the maximum weight by the Department of Transportation and the existence of the weight restriction signs constitute prima facie evidence of the maximum weight which the bridge or other structure with safety to itself will sustain.

Maximum Weights on Bridges Under Local Jurisdiction
35754. Whenever, in the opinion of a local authority, a bridge under its jurisdiction is in a dangerous or weak condition, it may temporarily erect suitable signs at all entrances to such bridge specifying the maximum weight which it believes the bridge with safety to itself will sustain. The maximum weight limit so fixed and posted shall remain in effect for not more than 90 days.

Maximum Weights on State Highway Bridges
35755. Whenever a state highway bridge is in a dangerous or weak condition, the Department of Transportation may temporarily erect suitable signs at all entrances to such bridge specifying the maximum weight which the bridge may safely sustain. Under no circumstances shall the maximum weight limit so fixed and posted pursuant to this section remain in effect more than 90 days.

Article 6. Permits and Agreements
Permits for Variances
35780. (a) The Department of Transportation or local authorities, with respect to highways under their respective jurisdictions, may, at their discretion upon application and if good cause appears, issue a special permit authorizing the applicant:

(1) To operate or move a vehicle or combination of vehicles or special mobile equipment of a size or weight of vehicle or load exceeding the maximum specified in this code.

(2) To use corrugations on the periphery of the movable tracks on a traction engine or tractor, the propulsive power of which is not exerted through wheels resting upon the roadway but by means of a flexible band or chain.

(3) Under emergency conditions, to operate or move a type of vehicle otherwise prohibited hereunder, upon any highway under the jurisdiction of the party granting the permit and for the maintenance of which the party is responsible.

(4) To operate or move a vehicle or combination of vehicles transporting loads composed of logs only for the purpose of crossing a highway from one private property to another without complying with any or all of the equipment requirements of Division 12 (commencing with Section 24000) and Division 13 (commencing with Section 29000). These crossings shall be as near to a right angle to the roadway as is practical and shall not include any travel parallel to the roadway. The Department of Transportation shall determine standards and conditions upon which permits shall be issued and any permit not in compliance with those standards and conditions shall be invalid, except that a permit may contain more restrictive conditions if the issuing authority deems it appropriate.

(b) Under conditions prescribed by the Department of Transportation or the local authority, the Department of Transportation or local authority may accept applications made by, and issue permits directly to, an applicant or permit service by any of the following processes:

(1) In writing.

(2) By an authorized facsimile process.

(3) Through an authorized computer and modem connection.

Permit for Park Trailers
35780.3. A permit issued under Section 35780 for the movement of a park trailer, as described in Section 18009.3 of the Health and Safety Code, shall not be issued except to transporters, or licensed manufacturers and dealers.

Permit for Exceeding Maximum Width
35780.5. (a) Notwithstanding Section 320.5, the Department of Transportation or a local authority, with respect to highways under their respective jurisdictions, may, upon application, issue a special permit authorizing the applicant to operate or move a vehicle carrying a load, lying in the horizontal position, of stacked trusses or wall panels that are used as single width components in the manufacture of a finished product, that exceeds the maximum width specified by this code, if the load does not exceed 12 feet in width and the permittee complies with the regulations of the Department of Transportation or a local authority, as the case may be, governing the transportation of these loads.

(b) Under conditions prescribed by the Department of Transportation or the local authority, the Department of Transportation or local authority may accept applications and issue permits directly to an applicant or permit service, by any of the following processes:

(1) In writing.

(2) By an authorized facsimile process.

(3) Through an authorized computer and modem connection.

(c) The special permit allowed pursuant to this section shall, under conditions prescribed by the Department of Transportation or a local authority, be granted on either a per trip or annual basis.

(d) As used in this section, “truss” means a designed and manufactured assemblage of structural elements typically arranged in a triangle or combination of triangles to form a rigid framework and used as a structural support in buildings.

(e) As used in this section, “wall panel” means a designed and manufactured assemblage of structural elements constructed in the same manner as site-built walls to form a rigid framework and used as a structural support in buildings, which may have attached various types of sheathing products including wood structural panels, foam panels, and gypsum board that do not exceed more than one foot beyond the main structural elements.

Amended Sec. 3, Ch. 514, Stats. 2007. Effective January 1, 2008.

Application for Permit: Standard Permit Form
35781. The Department of Transportation shall develop a standard application form and a standard permit form for the application for, and the issuance of, a permit. The
standard permit form may be used as the standard application form. The application for a permit shall specifically describe the vehicle and load to be operated or moved and the particular highways over which permit to operate is requested, and whether the permit is requested for a single trip or for continuous operation. Local authorities shall use the standard application form and the standard permit form developed by the Department of Transportation. The standard application form and the standard permit form shall be developed in cooperation with representatives of local government and the commercial trucking industry.

**Issuance, Withholding, or Restricting Permit**

35782. (a) The Department of Transportation or a local authority may issue or withhold the permit at its discretion, or, if the permit is issued, do any of the following when necessary to protect against injury to the road, foundations, surfaces, or structures:

1. Limit the number of trips.
2. Establish seasonal or other time limitations within which the vehicle or vehicles described may be operated on the highways indicated.
3. Otherwise limit or prescribe conditions of operation of the vehicle.

(b) The Department of Transportation or a local authority may not require the posting of a bond as a condition of the issuance of a permit, except that a requirement of extra insurance or other financial security may be imposed as a condition for a permit for unusually large or heavy loads that pose a substantial risk to public facilities.

(c) Except as provided in subdivision (b), the Department of Transportation or a local authority may not require proof of financial responsibility in an amount greater than that required for compliance with Section 16500.5 as a condition of the permit, and shall accept evidence of financial responsibility that complies with Section 16020.

**Possession of Permit**

35783. Every permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection of any peace officer, traffic officer, authorized agent of the Department of Transportation, or any other officer or employee charged with the care or protection of such highways.

**Removal or Covering of Warning Signs**

35783.5. Warning signs required by the terms of a permit shall either be removed from the vehicle or covered from the view of other motorists whenever the vehicle is operating without the load that required the permit.

**Violation of Permit: Misdemeanor: Exception**

35784. (a) Except as provided in subdivision (b), it is unlawful for any person to violate any of the terms or conditions of any special permit.

(b) In an incorporated city where compliance with the route described in a special permit would result in a violation of local traffic regulations, the permittee may detour from the prescribed route. A detour under this subdivision shall be made only on nonresidential streets.

(c) If a violation under subdivision (a) consists of an extralegal load not being on the route described in the special permit, and the violation is directly caused by the action of an employee or the supervision of, or by the action of any independent contractor working for, a permittee subject to this section, the employee or independent contractor the violation is guilty of a misdemeanor. This subdivision applies only if the employee or independent contractor has been provided written direction on the route to travel and has not been directed to take a different route by a peace officer.

(d) The guilt of an employee or independent contractor under subdivision (c) shall not extend to the permittee employing that person unless the permittee is separately responsible for an action causing the violation.

(e) A violation of equipment requirements contained in Division 12 (commencing with Section 24000), by any person operating a pilot car shall not be considered a violation of any terms or conditions of a special permit under subdivision (a).

(f) (1) Any person convicted of a violation of the terms and conditions of a special permit shall be punished by a fine not exceeding five hundred dollars ($500) or by imprisonment in the county jail for a period not exceeding six months, or by both that fine and imprisonment.

(2) In addition, if the violation involves weight in excess of that authorized by the permit, an additional fine shall be levied as specified in Section 42030 on the amount of weight in excess of the amount authorized by the permit.

**Violation: Extralegal Load**

35784.5. (a) Any person convicted of transporting an extralegal load on a highway, or causing or directing the operation of or driving on a highway any vehicle or combination of vehicles for which a permit is required pursuant to this article, without having obtained a permit issued in accordance with this article, shall be punished by a fine not exceeding five hundred dollars ($500) or by imprisonment in the county jail for a period not exceeding six months, or by both that fine and imprisonment.

(b) If the violation involves excess weight, an additional fine shall be levied as specified in Section 42030 on the amount of weight in excess of that authorized pursuant to this chapter.

**Hauling of Saw Logs**

35785. (a) The axle weight limitations imposed in Sections 35550 and 35551 shall not apply to the transportation of a single saw log which does not exceed 8 feet in diameter and 21 feet in length or 6 feet in diameter and 33 feet in length, if such log is hauled on a combination of vehicles consisting of a three-axle truck and a two-axle logging dolly under permit issued by the Department of Transportation or by local authorities with respect to highways under their respective jurisdictions. Such permit may be granted for not more than thirty (30) days and may be revoked upon notice by the department or local authorities, as the case may be.

(b) When so transported, the vehicle shall not be operated over any bridge or causeway at a speed of more than 15 miles per hour on the highway at more than 25 miles per hour, on
Use of Truck Booster Power Units

35786. Truck booster power units may be used to aid in propelling or moving any motor truck or lawful combination of motor vehicles upon a highway upon an ascending or descending grade, subject to the following conditions:

(a) A permit for such operation must be obtained as provided in this article.

(b) The truck booster power unit shall be operated only on such highways and at such times and according to such conditions and requirements as may be specified in the permit.

Issuance of Truck Booster Power Unit Permit

35787. The Department of Transportation or local authority, as the case may be, shall issue a truck booster power unit permit only if in its opinion the proposed operation would not tend to endanger the traveling public or to damage the highway, bridge or any highway structure.

The Department of Transportation and local authorities, in issuing a permit, may make such conditions and requirements as in their opinion are necessary or desirable for the safety of the traveling public and of the highway, including bridges and other highway structures.

Agreements for Transporting Loads

35788. Upon application to the Director of Transportation for permission to use and operate on highways private or contract vehicles for the purpose of hauling loads which weigh in excess of the maximum load weight limits, the director may enter into an agreement with the applicant, permitting such overloads, specifying protective restrictions and providing for the payment of a financial contribution for the issuance of such permission, except that the overload shall not exceed 25 percent of the maximum load weight limitation, in pounds, set forth in this code. The agreement shall not permit the applicant to transport such excess weight loads on highways for distances exceeding 75 miles. All contributions received by the Department of Transportation shall be used for the construction, improvement, or maintenance of the highway designated in the permission to operate overweight loads. Sections 188 and 188.8 of the Streets and Highways Code does not apply to contributions received pursuant to this section, and any expenditures of the contributions by the department shall be credited against amounts required to be expended pursuant to Sections 188 and 188.8 of the Streets and Highways Code.

This section does not apply to highways which are a part of the National System of Interstate and Defense Highways.

Building Mover’s Notice to Railroad

35789. Any housemoving contractor or other person who by contract or otherwise moves or transports a dwelling house or other building across railroad tracks shall furnish to the division or district superintendent of the railroad company operating such tracks written notice of intention to make such movement at least 36 hours prior to doing so. The written notice of intention to make such a movement shall contain the name of the street, highway or road over which such dwelling house or other building will be moved across the railroad tracks, the approximate time of day such movement will be made and such other information as may be necessary to enable the railroad company to take precautionary measures to avoid a collision by a train with such dwelling house or other building.

Overwidth Manufactured Homes: Legislative Findings

35789.5. (a) The Legislature finds and declares all of the following:

1. Current restrictions on the movement on the highways of manufactured homes in excess of 14 feet in width has caused the closure of some manufactured housing manufacturing facilities, that have, in turn, relocated to other states in order to compete with interstate commerce.

2. Those restrictions on the movement of manufactured homes could cause the closure of at least three more manufacturing facilities within the next 12 months, thereby laying off some 500 employees, while at the same time those manufacturing facilities relocate to other states.

3. The Department of Transportation has a policy allowing permitted loads in excess of 14 feet in width for the general trucking industry and the boating industry.

4. The Legislature supports allowing the movement on the highways of manufactured homes in excess of 14 feet in width, with appropriate safeguards, because this policy will result in both of the following:

(A) Enable the manufactured housing industry to produce homes for export to other states, thereby keeping jobs within the state and benefiting the state’s economy.

(B) Permit the building of manufactured homes with eaves, which provide structural and aesthetic benefits to the homes.

(b) The Legislature further finds and declares that allowing the movement on the highways of manufactured homes that are 16 feet in width, with appropriate safeguards, will benefit the state’s economy and will allow production of more affordable and aesthetic manufactured homes.

Overwidth Manufactured Homes

35790. (a) The Department of Transportation or local authorities with respect to highways under their respective jurisdictions may, upon application in writing and if good cause appears, issue a special or annual permit in writing authorizing the applicant to move any manufactured home in excess of the maximum width but not exceeding 14 feet in total width, exclusive of lights and devices provided for in Sections 35109 and 35110, upon any highway under the jurisdiction of the party granting the permit.

(b) A public agency, in the exercise of its discretion in granting permits for the movement of overweight manufactured homes, and in considering the individual circumstances of each case, may use merchandising or relocation of residence as a basis for movement for good cause.

(c) (1) The application for a special permit shall specifically describe the manufactured home to be moved and the particular highways over which the permit to operate is requested.

(2) The application for an annual permit shall specifically describe the power unit to be used to tow the overweight manufactured homes and the particular highways over which
the permit to operate is requested. The annual permit shall be subject to all of the conditions of this section and any additional conditions imposed by the public agency.

(d) The Department of Transportation or local authority may establish seasonal or other time limitations within which a manufactured home may be moved on the highways indicated, and may require an undertaking or other security as it deems necessary to protect the highways and bridges from injury or to provide indemnity for any injury resulting from the operation.

(e) Permits for the movement of manufactured homes under this section shall not be issued except to transporters or licensed manufacturers and dealers and only under the following conditions:

(1) The manufactured home for which the permit is issued shall comply with Sections 35550 and 35551.

(2) In the case of a permit issued on an individual or repetitive trip basis, the applicant has first received the approval of a city or county if the trip will include movement on streets or highways under the jurisdiction of the city or county. The application for such a permit shall indicate the complete route of the proposed move and shall specify all cities and counties that have approved the move. This paragraph shall not be construed to require the Department of Transportation to verify the information provided by an applicant with respect to movement on streets or highways under local jurisdiction.

(3) It is a violation of any permit, which is issued by the Department of Transportation and authorizes a move only on a state highway, for that move to be extended to a street or highway under the jurisdiction of a city or county unless the move has been approved by the city or county.

(f) The Department of Transportation, in cooperation with the Department of the California Highway Patrol, or the local authority may establish additional reasonable permit regulations as they may deem necessary in the interest of public safety, which regulations shall be consistent with this section.

(g) Every permit, the consent form or forms as required by Section 18099.5 of the Health and Safety Code, and a copy of the tax clearance certificate, certificate of origin, or dealer's notice of transfer, when the certificate or notice is required to be issued, shall be carried in the manufactured home or power unit to which it refers and shall be open to inspection by any peace officer or traffic officer, any authorized agent of the Department of Transportation, or any other officer or employee charged with the care and protection of the highways.

(h) It is unlawful for any person to violate any of the terms or conditions of any permit.

Amended Sec. 135, Ch. 124, Stats. 1996. Effective January 1, 1997.

§35790.1

Overwidth Manufactured Homes: Additional Requirements for Movement on Highway

35790.1. In addition to the requirements and conditions contained in Section 35790 and notwithstanding any other provision of law, all of the following conditions and specifications shall be complied with to move any manufactured home, as defined in Section 138007 of the Health and Safety Code, that is in excess of 14 feet in total width, but not exceeding 16 feet in total width, exclusive of lights and devices provided for in Sections 35109 and 35110, upon any highway under the jurisdiction of the entity granting the permit:

(a) For the purposes of width requirements under this code, the overall width of manufactured housing specified in this section shall be the overall width, including roof overhang, eaves, window shades, porch roofs, or any other part of the manufactured house that cannot be removed for the purposes of transporting upon any highway.

(b) Unless otherwise exempted under this code, all combinations of motor vehicles and manufactured housing shall be equipped with service brakes on all wheels. Service brakes required under this subdivision shall be adequate, supplemental to the brakes on the towing vehicle, to enable the combination of vehicles to comply with the stopping distance requirements of Section 26454.

(c) In addition to the requirements contained in Section 26304, the breakaway brake device on any manufactured housing unit equipped with electric brakes shall be powered by a wet cell rechargeable battery that is of the same voltage rating as the brakes and has sufficient charge to hold the brakes applied for not less than 15 minutes.

(d) Notwithstanding any other provision of this code, the weight imposed upon any tire, wheel, axle, drawbar, hitch, or other suspension component on a manufactured housing unit shall not exceed the manufacturer’s maximum weight rating for the item or component.

(e) In addition to the requirements in subdivision (d), the maximum allowable weight upon one manufactured housing unit axle shall not exceed 6,000 pounds, and the maximum allowable weight upon one manufactured housing unit wheel shall not exceed 3,000 pounds.

(f) Manufactured housing unit tires shall be free from defects, have at least 2/32 of an inch tread depth, as determined by tire tread wear indicators, and shall comply with specifications and requirements contained in Section 3280.904(b)(8) of Title 24 of the Code of Federal Regulations.

(g) Manufactured housing unit manufacturers shall provide transporters with a certification of compliance document, certifying the manufactured housing unit complies with the specifications and requirements contained in subdivisions (d), (e), and (f). Each certification of compliance document shall identify, by serial or identification number, the specific manufactured housing unit being transported and shall be signed by a representative of the manufacturer. Each transporter of manufactured housing units shall have in his or her immediate possession a copy of the certification of compliance document and shall make the document available upon request by any member of the Department of the California Highway Patrol, any authorized employee of the Department of Transportation, or any regularly employed and salaried municipal police officer or deputy sheriff.

(h) Manufactured housing unit dealers shall provide transporters with a certification of compliance document, specifying that all modifications, equipment additions, or loading changes by the dealer have not exceeded the gross vehicle weight rating of the manufactured housing unit or the axle and wheel requirements contained in subdivisions (d), (e), and (f). Each certification of compliance document shall identify, by serial or identification number, the specific manufactured housing unit being transported and shall be
§35790.4

The Legislature finds and declares that current restrictions on the movement of combinations of manufactured homes have unduly restricted the ability of the California manufactured housing industry to meet the needs of the consumer in this state.

The Legislature further finds and declares that the improved movement of manufactured homes, with appropriate safeguards, will benefit the state’s economy and will allow production of more affordable and aesthetic manufactured homes.

Manufactured Home: Overlength Permits

35790.5. (a) A permit issued pursuant to Section 35790 may authorize an exemption from length limitations otherwise applicable to vehicles and combinations of vehicles for the transportation of more than one unit of a manufactured home if all of the following conditions are met:

(1) The units are parts of a manufactured home that, when completed, connect two or more modular units.

(2) The units are mounted or loaded on a single vehicle or chassis in a manner so that their narrowest dimension represents the loaded width on the highway.

(3) The units are loaded in tandem only with respect to length, and the dimension from the front of the forward unit to the rear of the last unit does not exceed the length of vehicles in combination that would otherwise be permitted under this section.

(b) Applications for permits issued pursuant to this section shall specifically describe the manufactured home units to be moved and shall include a written statement of good cause satisfying the requirements of this section.

(c) Permits, other than annual permits, issued pursuant to this section shall describe the particular highways over which the permit is valid and shall be subject to all of the conditions of this Article and any additional conditions imposed by the public agency issuing the permit.

Manufactured Home: Overheight Permits

35790.6. A permit issued pursuant to Section 35780 or 35790 may authorize an exemption from the height limitations in Section 35250 for manufactured homes, including manufactured homes with a height in excess of 15 feet, measured from the surface upon which the vehicle stands, if the proposed route can accommodate the vehicle.

Single Permit

35791. The Department of Transportation and any local authority may, with respect to such highways as may be agreed upon under their respective jurisdictions which traverse any area within the boundaries of the local authority, contract for the issuance by either authority of a single permit authorizing the operation or movement of a vehicle or a combination of vehicles or special mobile equipment in the...
same manner as if each authority had issued separate permits
pursuant to Section 35780.

Permit Fee

35795. (a) (1) The Department of Transportation
may charge a fee for the issuance of permits pursuant to this
article.

(2) The fee established by the Department of Transportation
pursuant to this section shall be established by a regulation
adopted pursuant to Chapter 4.5 (commencing with Section
11371) of Part 1 of Division 3 of Title 2 of the Government Code,
and shall be calculated to produce a total estimated revenue
that is not more than the estimated total cost to that department
for administering this article.

(3) Special services necessitated by unusually large or
heavy loads requiring engineering investigations, or other
services, may be billed separately for each permit.

(4) The funds collected by the Department of Transportation
pursuant to this subdivision shall be deposited in the State
Highway Account in the State Transportation Fund.

(b) (1) Local authorities may charge a fee for the issuance
of permits pursuant to this article. However, the fee established
by a local authority pursuant to this section shall be established
by ordinance or resolution adopted after notice and hearing.
The fee shall be calculated to produce a total estimated revenue
that is not more than the estimated total cost incurred by the
local authority in administering its authority under this
Article and shall not exceed the fee developed by the
Department of Transportation pursuant to subdivision (a).
The fee for the issuance of permits shall be developed in
consultation with representatives of local government and the
commercial trucking industry. Notice of the hearing shall be
by publication as provided in Section 6064 of the Government
Code. The hearing shall be held before the legislative body of
the local authority. All objections shall be considered and
interested parties shall be afforded an adequate opportunity
to be heard in respect to their objections.

(2) Special services necessitated by unusually large or
heavy loads requiring engineering investigations, escorts, tree
trimming, or other services, excluding services necessary to
provide the notification required under this section and
services that are within the scope of the local authority’s
ordinary duty to provide, shall be billed separately for each
permit.

(3) For purposes of determining whether, under paragraph
(2), special services are necessitated by an unusually large or
heavy load, a local authority shall be governed by the criteria
set forth in subdivision (b) of Section 1411.3 of Title 21 of the
California Code of Regulations.

(c) Nothing in this section shall limit or restrict the
application of Section 35782.
Amended Sec. 1, Ch. 242, Stats. 2006. Effective January 1, 2007.

Delegation by Local Authorities to Road Commissioner

35796. Any or all of the powers granted to local
authorities in this Article may, by ordinance or resolution, be
delegated by such local authorities to the road commissioner
or to such other local official as may be performing functions
substantially the same as a road commissioner in the county
or municipality enacting such ordinance or resolution.
**DIVISION 16. IMPLEMENTS OF HUSBANDRY**

**CHAPTER 1. DEFINITIONS**

(Added Ch. 2149, Stats. 1963. Effective September 20, 1963.)

**Implement of Husbandry Defined**

36000. An “implement of husbandry” is a vehicle which is used exclusively in the conduct of agricultural operations.

An implement of husbandry does not include a vehicle if its existing design is primarily for the transportation of persons or property on a highway, unless specifically designated as such by some other provision of this code.

**Implement of Husbandry Exemplified**

36005. An implement of husbandry includes, but is not limited to, all of the following:

(a) A lift carrier or other vehicle designed and used exclusively for the lifting and carrying of implements of husbandry or tools used exclusively for the production or harvesting of agricultural products, when operated or moved upon a highway.

(b) A trailer of the tip-bed type when used exclusively in the transportation of other implements of husbandry or tools used exclusively for the production or harvesting of agricultural products.

(c) A trailer or semitrailer having no bed, and designed and used solely for transporting a hay loader or swather.

(d) A spray or fertilizer applicator rig used exclusively for spraying or fertilizing in the conduct of agricultural operations. This subdivision does not apply to anhydrous ammonia fertilizer applicator rigs which have a transportation capacity in excess of 500 gallons.

(e) (1) A trailer or semitrailer that has a maximum transportation capacity in excess of 500 gallons, but not more than 1,000 gallons, used exclusively for the transportation and application of anhydrous ammonia, if the vehicle is either equipped with operating brakes or is towed upon a highway by a motortruck that is assigned a manufacturer’s gross vehicle weight rating of 3/4 ton or more.

(2) These vehicles are subject to Section 24603 if the stoplamps of the towing vehicle are not clearly visible.

(3) For purposes of this subdivision, a combination of vehicles is limited to two vehicles in tandem.

(f) A nurse rig or equipment auxiliary to the use of and designed or modified for the fueling, repairing, or loading of an applicator rig or an airplane used for the dusting, spraying, fertilizing, or seeding of crops.

(g) A row duster.

(h) A wagon or van used exclusively for carrying products of farming from one part of a farm to another part thereof, or from one farm to another farm, and used solely for agricultural purposes, including any van used in harvesting alfalfa or cotton, which is only incidentally operated or moved on a highway as a trailer.

(i) A wagon or portable house on wheels used solely by shepherds as a permanent residence in connection with sheep raising operations and moved from one part of a ranch to another part thereof or from one ranch to another ranch, which is only incidentally operated or moved on a highway as a trailer.

(j) Notwithstanding subdivision (f) of Section 36101, a trap wagon, as defined in Section 36016, moved from one part of a ranch to another part of the same ranch or from one ranch to another, which is only operated or moved on a highway incidental to agricultural operations. The fuel tank or tanks of the trap wagon shall not exceed 1,000 gallons total capacity.

(k) Any vehicle that is operated upon a highway only for the purpose of transporting agricultural products and is in no event operated along a highway for a total distance greater than one mile from the point of origin of the trip.

(l) A portable honey-extracting trailer or semitrailer.

(m) A fertilizer nurse tank or trailer that is not self-propelled and which is moved unladen on the highway and auxiliary to the use of a spray or fertilizer applicator rig.

(n) Any cotton trailer when used on the highways for the exclusive purpose of transporting cotton from a farm to a cotton gin, and returning the empty trailer to such farm, except that Section 5014 shall apply to such trailers.

(o) A truck tractor or truck tractor and semitrailer combination specified in this subdivision which is owned by a farmer and operated on the highways, (1) only incidental to a farming operation, (2) not for compensation, and (3) for a distance of not more than two miles (on the highway) each way. This subdivision applies only to truck tractors with a manufacturer’s gross vehicle weight rating over 10,000 pounds that are equipped with all-wheel drive and off-highway traction tires on all wheels, and only to semitrailers used in combination with such a truck tractor and exclusively in production or harvesting of tomatoes. The vehicles specified in this subdivision shall not be operated in excess of 25 miles per hour on the highways.

(p) An all-terrain or utility-terrain vehicle used exclusively in agricultural operations.

**Implement of Husbandry: Definition of Farm Trailer**

36010. A “farm trailer” is either of the following:

(a) A trailer or semitrailer owned and operated by a farmer in the conduct of agricultural operations, and used exclusively to transport agricultural products upon the highway to the point of first handling and return.

(b) A trailer or semitrailer equipped with rollers on the bed, with a frame not taller than 10 inches high, and with a gross vehicle weight rating of 10,000 pounds or less, that is owned, rented, or leased by a farmer and operated by that farmer in the conduct of agricultural operations, used exclusively to transport fruit and vegetables upon the highway to the point of first handling and return, and that was manufactured and in use prior to January 1, 1997. These vehicles may also be operated on the highways without a load for the purposes of delivering a rented or leased vehicle to the renting or leasing farmer’s farm, or returning empty to the owner’s premises.

**Implement of Husbandry: Automatic Bale Wagon Defined**

36011. An “automatic bale wagon” is a motor vehicle capable of transporting property on a highway and equipped with apparatus specifically designed to pick up single bales of...
hay or straw from a field and to load and unload baled hay or straw.

**Implement of Husbandry: Cotton Module Mover Defined**

36012. A “cotton module mover” is a motortruck, semitrailer, or a truck tractor, in combination with a semitrailer, that is equipped with a self-loading bed and is designed and used exclusively to transport field manufactured cotton modules to a cotton gin.

**Implement of Husbandry: Farm Tractor Used for Towing**

36015. “Implement of husbandry” includes any farm tractor, otherwise an implement of husbandry used upon a highway to draw a farm trailer carrying farm produce, or to draw any trailer or semitrailer carrying other implements of husbandry, between farms, or from a farm to a processing or handling point and returning with or without the trailer.

**Definition of Load**

36017. For the exclusive purpose of this division, empty bins, pallets, and tiedown straps shall not be considered a load when transported within the parameters of agricultural operations. Any farm trailer or other vehicle transporting these items shall continue to be regulated pursuant to this division. The total outside width of any of the transported items shall not exceed 102 inches.

**Chapter 2. Registration of Implements of Husbandry**

(Added Ch. 2149, Stats. 1963. Effective September 20, 1963.)

**Implements of Husbandry Exempt**

36100. Implements of husbandry which are only incidentally operated or moved over a highway and implements of husbandry listed in Section 36005 or 36015 are exempt from registration.

**Farm Vehicles: Identification Required**

36101. The following farm vehicles are exempt from registration, if they have and display an identification plate as specified in Section 5014, and the vehicles shall not be deemed to be implements of husbandry and they shall be subject to all equipment and device requirements as if registered:

(a) A motor vehicle of a size so as to require a permit under Section 35780 owned and operated by a farmer, designed and used exclusively for carrying, or returning empty from carrying, feed and seed products of farming, and used on a highway between one part of a farm to another part of that farm or from one farm to another farm.

(b) A vehicle equipped with a water tank owned by a farmer and used exclusively to service his or her own implements of husbandry.

(c) A water tank truck that is owned by a farmer, not operated for compensation, and used extensively in the conduct of agricultural operations, when used exclusively (1) for sprinkling water on dirt roads providing access to agricultural fields or (2) transportation of water for irrigation of crops or trees.

(d) (1) A cotton module mover, as defined in Section 36012.

(2) In order to maintain the exemption from registration granted under this subdivision for a truck tractor, when combined with a semitrailer, the owner of that truck tractor shall not operate it during the exemption period in any manner other than as a cotton module mover, as defined in Section 36012, and shall do all of the following:

(A) Register the vehicle with the department before operating it as a commercial motor vehicle.

(B) Apply to the department on a yearly basis for any renewal of the exemption from registration.

(3) Exemption from registration under this subdivision does not exempt a truck tractor, when combined with a semitrailer, operating as a cotton module mover pursuant to Section 36012 and this subdivision from the applicable safety requirements of this code or any regulation adopted pursuant to any statute, including, but not limited to, equipment standards, driver licensing requirements, maximum driving and on-duty hours provisions, log book requirements, drug and alcohol testing, maintenance of vehicles, and any driver or vehicle standards specified in Division 14.8 (commencing with Section 34500).

(4) Truck tractors exempt from registration under this subdivision are subject to the fees imposed under Sections 9250, 9250.8, and 9250.13, and to any other vehicle fees that are imposed by statute on or after January 1, 1998, that are deposited in the Motor Vehicle Account.

(e) A trailer that is equipped with a plenum chamber for the drying of agricultural commodities.

(f) Except as provided in subdivision (j) of Section 36005, a trap wagon, as defined in Section 36016, that is equipped with a fuel tank or tanks. The fuel tank or tanks shall not exceed 3,000 gallons total capacity.

(g) A forklift truck, operated by a farmer not for compensation. For purposes of this section, a hay-squeeze shall be deemed a forklift.

(h) A truck tractor or truck tractor and semitrailer combination specified in this subdivision that is owned by a farmer and operated on the highways only incidental to a farming operation and not for compensation. This subdivision applies only to truck tractors with a manufacturer’s gross vehicle weight rating over 10,000 pounds that are equipped with all-wheel drive and off-highway traction tires on all wheels, and only to semitrailers used in combination with that truck tractor and exclusively in the production or harvesting of melons. The vehicles specified in this subdivision shall not be operated in excess of 25 miles per hour on the highways.

The Commissioner of the California Highway Patrol may, by regulation, prohibit the vehicles specified in this subdivision from operating on specific routes. These vehicles shall not be operated laden on the highway for more than two miles from the point of origin and shall not be operated for more than 30 miles unladen on the highway from the point of origin. These vehicles shall not be operated for more than 15 miles unladen.
 §36102 —662— Div. 16

on the highway from the point of origin, unless accompanied by an escort vehicle to the front, and an escort vehicle to the rear.

(i) A motor vehicle specifically designed for, and used exclusively in, an agricultural operation for purposes of carrying, or returning empty from carrying, silage that is operated by a farmer, an employee of the farmer, or a contracted employee of the farmer between one part of a farm to another part of that farm or from one farm to another farm, on a highway for a distance not to exceed 20 miles from the point of origin of the trip. This subdivision does not include a vehicle that is used for the transportation of silage for retail sales.

For the purposes of this subdivision, “silage” includes field corn, sorghum, grass, legumes, cereals, or cereal mixes, either green or mature, converted into feed for livestock.

Amended Sec. 74, Ch. 877, Stats. 1998. Effective January 1, 1999.

Other Farm Vehicles: Identification Required

36102. The following vehicles are exempt from registration if they have and display identification plates, as specified in Section 5014; and these vehicles, except when operated pursuant to subdivision (k) of Section 36005, shall not be deemed to be implements of husbandry and they shall be subject to all equipment and device requirements as if registered:

(a) An automatic bale wagon operated unladen on a highway.

(b) An automatic bale wagon when transporting baled hay or straw for a distance of not more than five continuous road miles on a highway from one parcel of property owned, leased, or controlled by a farmer to another parcel of property owned, leased, or controlled by such farmer.

(c) A motor vehicle which is designed for, and used exclusively to, haul feed for livestock and which is owned and operated exclusively by a farmer or an employee of a farmer. A vehicle exempted by this subdivision may be operated only on those highways that are maintained by local authorities, only pursuant to a permit issued as provided in Section 35780 by the local authority having jurisdiction over the highways used, and only for a distance of not more than five continuous road miles from one parcel of property owned, leased, or controlled by the farmer to another parcel of property owned, leased, or controlled by the farmer. This subdivision does not apply to transportation for compensation.

Implement of Husbandry: Certain Trailers Exempt

36105. A trailer or semitrailer owned and used exclusively by a farmer to haul his or her own implements of husbandry, portable sanitary facility, shade trailer, or tools used exclusively for the production or harvesting of agricultural products is exempt from registration.

Farm Vehicle: Identification Required

36109. “Farm trailers,” as defined in Section 36010, having a gross weight of 10,000 pounds or less, are exempt from registration except that Section 5014 shall apply to such trailers.

Identification Plates

36115. (a) Any person who owns an implement of husbandry which is exempt from registration may obtain an identification plate as provided in Section 5014 for the implement.

(b) The department shall issue an identification plate as applied for to any manufacturer or dealer of an implement of husbandry which is exempt from registration as provided in Section 5016.5. That manufacturer or dealer may obtain more than one plate.

Identification Plate: Application

36130. (a) On and after January 1, 1986, original applications for identification plates on vehicles specified in Division 16 (commencing with Section 36000) shall be submitted pursuant to Section 5014 or Section 5016.5.

(b) Effective January 1, 1986, identification plates that expired on December 31, 1983, shall not be eligible for renewal. Applicants shall apply for identification plates pursuant to Section 5014 or Section 5016.5.

(c) Commencing with 1987 renewals, all expiring identification plates are canceled and owners of vehicles defined in Division 16 (commencing with Section 36000), that are required to display these plates, shall submit applications pursuant to Section 5014 or Section 5016.5.

CHAPTER 3. DRIVERS’ LICENSES

(Added Ch. 2149, Stats. 1963. Effective September 20, 1963.)

Implement of Husbandry Operation

36300. Any person, while driving or operating an implement of husbandry incidentally operated or moved over a highway is not required to obtain a driver’s license; except that the driver of any farm tractor while being used to draw a farm trailer carrying farm produce between farms or from a farm to a processing or handling point and return, and the driver of an automatic bale wagon which is being operated as specified in Section 36102, but is not being operated as provided in subdivision (k) of Section 36005, shall be in possession of a driver’s license of the appropriate class other than a junior permit.

Implement of Husbandry: Driver’s License Required

36305. The driver of any implement of husbandry shall possess a valid class C driver’s license when operating a combination of vehicles at a speed in excess of 25 miles per hour or towing any implement of husbandry as specified in subdivision (d), (e), or (f) of Section 36005.

CHAPTER 4. SPEED LAWS

(Added Ch. 2149, Stats. 1963. Effective September 20, 1963.)

Lift-Carrier Limit

36400. No person shall move or drive a lift-carrier or other vehicle designed and used exclusively for the lifting and carrying of implements of husbandry or tools used exclusively for the production or harvesting of agricultural products at a speed in excess of 35 miles per hour.

### Chapter 5. Equipment of Implements of Husbandry

(Added Ch. 2149, Stats. 1963. Effective September 20, 1963.)

**Exemptions and Requirements**

36500. The provisions of Sections 24012, 24250, 24251, 24400 to 24404, inclusive, and Articles 3 (commencing with Section 24600), 4 (commencing with Section 24800), 5 (commencing with Section 24950), 6 (commencing with Section 25100), 9 (commencing with Section 25350), 11 (commencing with Section 25450), and 13 (commencing with Section 25650) of Chapter 2 of Division 12 shall not apply to implements of husbandry. Such vehicles shall be subject to the provisions of Sections 24254, 24615, 25803, and 25950, and Article 12 (commencing with Section 25500) of Chapter 2 of Division 12. Amended Ch. 618, Stats. 1972. Effective March 7, 1973.

**Lighting Requirements**

36505. Farm tractors as defined in Section 36015, and trailers displaying an identification plate, as provided for in Section 36115 or 36130, when operated during darkness shall not be exempted from the provisions of Sections 24400 and 25100. Amended Sec. 139, Ch. 124, Stats. 1996. Effective January 1, 1997.

**New Implement of Husbandry**

36508. After July 1, 1970, no new implement of husbandry designed or intended by the manufacturer to be operated or moved at a speed not in excess of 25 miles per hour shall be sold in this state unless it is equipped by the manufacturer with a slow-moving vehicle emblem as prescribed by Section 24615, and such an emblem shall thereafter be displayed and maintained on such implement of husbandry while the implement is able to be operated upon a public highway. Amended Ch. 549, Stats. 1969. Effective November 10, 1969. Supersedes Ch. 632.

**Warning Lights or Flags**

36509. (a) An implement of husbandry, a farm vehicle, or any vehicle escorting or towing an implement of husbandry or farm vehicle, may display flashing amber warning lamps or flashing amber turn signals:

1. When the vehicle is required to display a “slow moving vehicle” emblem as defined in Section 24615.
2. When the width, length, height, or speed of the vehicle may cause a hazard to other traffic on the highway.

(b) An implement of husbandry, a farm vehicle, or any vehicle towing an implement of husbandry or farm vehicle, when the load upon the vehicle exceeds 120 inches in width, shall display either:

1. Flashing amber warning lamps.
2. Flashing amber turn signals.
3. During daylight hours, red flags, each of which shall be not less than 16 inches square, mounted at the left and right outer extremities of the vehicle or load whichever has the greater horizontal dimension. Added Ch. 973, Stats. 1986. Effective January 1, 1987.

**Stopping Distance Requirements**

36510. Implements of husbandry are not subject to stopping distance requirements contained in Section 26454, but if any such vehicle cannot be stopped within 32 feet from an initial speed of 15 miles per hour, it shall not be operated at a speed in excess of that permitting a stop in 32 feet. Added Ch. 2149, Stats. 1963. Effective September 20, 1963.

### Chapter 6. Size, Weight and Load of Implements of Husbandry

(Added Ch. 2149, Stats. 1963. Effective September 20, 1963.)

**Width Exemptions and Limitations**

36600. (a) The limitations as to width as set forth in Chapter 2 (commencing with Section 35100) of Division 15 do not apply to implements of husbandry incidentally operated, transported, towed, or otherwise moved over a highway.

(b) Notwithstanding subdivision (a), when an implement of husbandry is transported or moved over a highway which is a part of the National System of Interstate and Defense Highways (as referred to in Section 108 of the Federal-Aid Highway Act of 1956) as a load on another vehicle, if the load exceeds 102 inches in width, the vehicle and load shall not be operated for a distance in excess of 25 miles from the point of origin of the trip. The operator of the transporting vehicle shall be a farmer or a person regularly employed by a farmer or farm corporation, and the operator transporting the load shall have in his or her immediate possession a writing signed by the farmer or farm corporation agent which states the origin and destination of the trip.

(c) Notwithstanding subdivision (a), when an implement of husbandry is transported or moved over any other highway as a load on another vehicle, if the load exceeds 120 inches in width, the vehicle and load shall not be operated for a distance in excess of 25 miles from the point of origin of the trip. The operator of the transporting vehicle shall be a farmer or a person employed by a farmer or farm corporation, and the operator transporting the load shall have in his or her immediate possession a writing signed by the farmer or farm corporation agent which states the origin and destination of the trip.

**Width Exemption: Trailers and Semitrailers**

36605. The limitations as to width, as set forth in Chapter 2 (commencing with Section 35100) of Division 15, do not apply to any trailer or semitrailer, including lift carriers and tip-bed trailers, used exclusively for the transportation of implements of husbandry or tools used exclusively for the production or harvesting of agricultural products by farmers or implement dealers, except as follows:

1. With respect to any trailer or semitrailer transporting a grain-harvesting combine, that vehicle shall not exceed a width of 144 inches.
2. With respect to any other vehicle described in this section, that vehicle, or the load on that vehicle when that load consists of tools, shall not exceed a width of 120 inches.
3. With respect to any trailer or semitrailer described in subdivision (c) of Section 36005, that vehicle, when towed upon...
a highway shall not exceed a width of 174 inches and shall be subject to subdivisions (b) and (c) of Section 36600.

**Width Exemption: Automatic Bale Wagons**

36606. (a) The limitations as to width, as set forth in Chapter 2 (commencing with Section 35100) of Division 15, do not apply to automatic bale wagons while operated as specified in Section 36102, except that such vehicles or the load thereon may not exceed 120 inches in width.

(b) This section shall have no application to highways which are a part of the National System of Interstate and Defense Highways (as referred to in subdivision (a) of Section 108 of the Federal-Aid Highway Act of 1956).

**Height Exemptions and Limitations**

36610. (a) The limitations as to height of vehicles contained in Chapter 3 (commencing with Section 35250) of Division 15 do not apply to implements of husbandry incidentally operated, transported, towed, or otherwise moved over a highway.

(b) Notwithstanding subdivision (a), when an implement of husbandry is transported or moved over a highway as a load on another vehicle and the load exceeds 14 feet in height, the vehicle and load shall not be operated for a distance in excess of 25 miles from the point of origin of the trip. The operator of the transporting vehicle shall be a farmer or a person regularly employed by a farmer or farm corporation, and the operator transporting the vehicle shall have in his or her immediate possession a writing signed by the farmer or farm corporation agent which states the origin and destination of the trip.

**Length Exemption**

36615. The limitations as to length of vehicles contained in Chapter 4 (commencing with Section 35400) do not apply to implements of husbandry operated or moved over a highway incidental to agricultural operations. Notwithstanding Section 36626, when an implement of husbandry is operated in a combination of vehicles that exceeds the length requirements of Section 35401, the combination is limited to two vehicles in tandem.

**Towing More Than One Vehicle**

36625. The provisions of Section 21715 do not apply to any vehicle drawing or towing unladen implements of husbandry.

**Towing Two Cotton Trailers**

36626. Notwithstanding the provisions of Section 21715, a motor truck with an unladen weight of not less than 3,500 pounds and a gross weight of not less than 4,200 pounds may tow a combination of two cotton trailers operated on the highways for the exclusive purpose of transporting cotton from a farm to a cotton gin and returning the empty trailers to such farm. Extra weight or ballast may be added to meet the requirements of this section and shall be in the form of 100-pound bags of sand.

**Towing Two Almond Trailers**

36627. Notwithstanding the provisions of Section 21715, a motor truck with an unladen weight of not less than 3,500 pounds and a gross weight of not less than 4,200 pounds may tow a combination of two almond trailers operated on the highways for the exclusive purpose of transporting almonds from a farm to an almond huller and returning the empty trailers to such farm. Extra weight or ballast may be added to meet the requirements of this section and shall be in the form of 100-pound bags of sand.

**Application of Other Provisions**

36700. All implements of husbandry, farm trailers or any other vehicles subject to the provisions of this division, and any owner, operator or driver of such vehicles, shall also comply with and be subject to all other provisions of this code which are not in conflict with the specific provisions contained in this division.

**Automatic Bale Wagon: Operation During Darkness**

36705. No automatic bale wagon exceeding 96 inches in width or carrying a load in excess of 100 inches in width may be operated on any highway during darkness.

**Application of Division**

36800. The provisions of this division, unless otherwise provided, apply to all vehicles, whether publicly or privately owned, when upon the highways.

DIVISION 16.5. OFF-HIGHWAY VEHICLES

CHAPTER 1. GENERAL PROVISIONS

Name of Act
38000. This division may be cited as the Chappie-Z’berg Off-Highway Motor Vehicle Law of 1971.

Applicability of Provisions
38001. (a) Except as otherwise provided, this division applies to off-highway motor vehicles, as defined in Section 38006, on lands, other than a highway, that are open and accessible to the public, including any land acquired, developed, operated, or maintained, in whole or in part, with money from the Off-Highway Vehicle Trust Fund, except private lands under the immediate control of the owner or his or her agent where permission is required and has been granted to operate a motor vehicle. For purposes of this division, the term “highway” does not include fire trails, logging roads, service roads regardless of surface composition, or other roughly graded trails and roads upon which vehicular travel by the public is permitted.

(b) Privately owned and maintained parking facilities that are generally open to the public are exempt from this division, unless the facilities are specifically declared subject to this division by the procedure specified in Section 21107.8.

Off-Highway Motor Vehicle Defined
38006. As used in this division, an “off-highway motor vehicle” is any of the following:

(a) A motor vehicle subject to the provisions of subdivision (a) of Section 38010.

(b) A motor vehicle registered under Section 4000, when such motor vehicle is operated on land to which this division has application.

(c) A motor vehicle owned or operated by a nonresident of this state, whether or not such motor vehicle is identified or registered in a foreign jurisdiction, when such motor vehicle is operated on lands to which this division has application.

Course of Instruction
38007. The Off-Highway Motor Vehicle Recreation Division of the Department of Parks and Recreation shall adopt courses of instruction in off-highway motor vehicle safety, operation, and principles of environmental preservation by January 1, 2005. For this purpose the division shall consult with the Department of the California Highway Patrol and other public and private agencies or organizations. The division shall make this course of instruction available directly, through contractual agreement, or through volunteers authorized by the division to conduct a course of instruction.

CHAPTER 2. REGISTRATION OF OFF-HIGHWAY VEHICLES; ORIGINAL AND RENEWAL OF IDENTIFICATION; ISSUANCE OF CERTIFICATES ISSUANCE OF OWNERSHIP

Article 1. Motor Vehicles Subject to Identification

Issuance and Display of Identification Plates
38010. (a) Except as otherwise provided in subdivision (b), every motor vehicle specified in Section 38012 that is not registered under this code because it is to be operated or used exclusively off the highways, except as provided in this division, shall be issued and display an identification plate or device issued by the department.

(b) Subdivision (a) does not apply to any of the following:

1. Motor vehicles specifically exempted from registration under this code, including, but not limited to, motor vehicles exempted pursuant to Sections 4006, 4010, 4012, 4013, 4015, 4018, and 4019.

2. Implements of husbandry.

3. Motor vehicles owned by the state, or any county, city, district, or political subdivision of the state, or the United States.

4. Motor vehicles owned or operated by, or operated under contract with a utility, whether privately or publicly owned, when used as specified in Section 22512.

5. Special construction equipment described in Section 565, regardless of whether those motor vehicles are in connection with highway or railroad work.

6. A motor vehicle with a currently valid special permit issued under Section 38087.5 that is owned or operated by a nonresident of this state and the vehicle is not identified or registered in a foreign jurisdiction. For the purposes of this paragraph, a person who holds a valid driver’s license issued by a foreign jurisdiction is presumed to be a nonresident.

7. Commercial vehicles weighing more than 6,000 pounds unladen.

8. Any motorcycle manufactured in the year 1942 or prior.

9. Four-wheeled motor vehicles operated solely in organized racing or competitive events upon a closed course when those events are conducted under the auspices of a recognized sanctioning body or by permit issued by the local governmental authority having jurisdiction.

10. A motor vehicle with a currently valid identification or registration permit issued by another state.

Definitions
38012. (a) As used in this division, “off-highway motor vehicle subject to identification” means a motor vehicle subject to subdivision (a) of Section 38010.

(b) As used in this division, “off-highway motor vehicle” includes, but is not limited to, the following:

1. A motorcycle or motor-driven cycle, except for any motorcycle that is eligible for a special transportation identification device issued pursuant to Section 38088.

2. A snowmobile or other vehicle designed to travel over snow or ice, as defined in Section 557.

3. A motor vehicle commonly referred to as a sand buggy, dune buggy, or all-terrain vehicle.

4. A motor vehicle commonly referred to as a jeep.

5. A recreational off-highway vehicle as defined in Section 500.
§38013  Identification, Identification Certificate Defined

38013. Unless otherwise provided, the terms "identification" and "identification certificate" shall have the same meaning as the terms "registration" and "registration card," respectively, as used in Division 3 (commencing with Section 4000).

Closed Course Defined

38014. As used in this division, "closed course" includes, but is not limited to, a speedway, racetrack, or a prescribed and defined route of travel on or off a highway that is closed to all motor vehicles other than those of participants. A closed course is one which is not available at any time for vehicular access by the general public.

Identification Requirements: Violations

38020. Except as otherwise provided in this division, (1) a person shall (2) not operate or leave standing (3) an off-highway motor vehicle subject to identification under this code (4) that is not registered under the provisions of Division 3 (commencing with Section 4000), unless it is identified under the provisions of this chapter. A violation of this section is an infraction. Riding in violation of seasons established by Section 2412(f) and 2415 of Title 13 of the California Code of Regulations constitutes a violation of this section. This section shall not apply to the operation, transportation, or leaving standing of an off-highway vehicle pursuant to a valid special permit.

Exemption: Special Permit

38021. (a) A manufacturer, dealer, or distributor, or his agent, owning or lawfully possessing any off-highway motor vehicle of a type otherwise required to be identified hereunder may operate or use such vehicle without an identification certificate and plate or device upon condition that each such vehicle is accompanied by a special permit issued to the manufacturer, dealer, or distributor as provided in this division.

(b) Persons licensed pursuant to Article 1 (commencing with Section 11700) of Chapter 4 of Division 5 need not obtain such a permit provided the vehicle is operated or used under special plates issued to the licensee.

Motorcycles: Transportation on Highway

38022. Notwithstanding the provisions of Section 4000, motorcycles issued a special transportation identification device pursuant to Section 38088 may be transported upon a highway to and from a closed course.

Operation on Highway

38025. In accordance with subdivision (c) of Section 4000, a motor vehicle issued a plate or device pursuant to Section 38160 may be operated or driven upon a highway but only as follows:

(a) On a two-lane highway, only to cross the highway at an angle of approximately 90 degrees to the direction of the roadway and at a place where a quick and safe crossing may be made, or only when the roadway is not maintained by snow removal equipment and is closed to motor vehicles that are subject to registration pursuant to Division 3 (commencing with Section 4000), or only to cross a highway in the manner specified in subdivision (b).

(b) With respect to the crossing of a highway having more than two lanes, or a highway having limited access, a motor vehicle may cross a highway but only at a place designated by the Department of Transportation or local authorities with respect to a highway under their respective jurisdictions as a place where a motor vehicle, or specified types of motor vehicle, may cross a highway, and a vehicle shall cross the highway only at that designated place and only in a quick and safe manner.

(c) The Department of Transportation and local authorities with respect to a highway under their respective jurisdictions may designate, by the erection of an appropriate sign of a type approved by the Department of Transportation, a place where a motor vehicle, or specified type of motor vehicle, may cross a highway having more than two lanes or having limited access.

(d) A motor vehicle identified pursuant to Section 38010 may be towed upon a highway, but not driven, if the vehicle displays a plate or device issued pursuant to Section 38160.

(e) A motorcycle identified pursuant to Section 38010 may be pushed upon a highway, but not ridden, if the motorcycle has displayed upon it a plate or device issued pursuant to Section 38160.

(f) A peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may operate or drive an off-highway vehicle identified pursuant to Section 38010 upon a highway in an emergency response situation.

Designating Highways: Combined Use

38026. (a) In addition to Section 38025 and after complying with subdivision (c) of this section, if a local authority, an agency of the federal government, or the Director of Parks and Recreation finds that a highway, or a portion of a highway, under the jurisdiction of the authority, agency, or the director, as the case may be, is located in a manner that provides a connecting link between off-highway motor vehicle trail segments, between an off-highway motor vehicle recreational use area and necessary service facilities, or between lodging facilities and an off-highway motor vehicle recreational facility and if it is found that the highway is designed and constructed so as to safely permit the use of regular vehicular traffic and also the driving of off-highway motor vehicles on that highway, the local authority, by resolution or ordinance, agency of the federal government, or the Director of Parks and Recreation, as the case may be, may designate that highway, or a portion of a highway, for combined use and shall prescribe rules and regulations therefor. A highway, or portion of a highway, shall not be so designated for a distance of more than three miles, except as provided in Section 38026.1. A freeway shall not be designated under this section.
(b) The Off-Highway Motor Vehicle Recreation Commission may propose highway segments for consideration by local authorities, an agency of the federal government, or the Director of Parks and Recreation for combined use.

(c) Prior to designating a highway or portion of a highway on the motion of the local authority, an agency of the federal government, or the Director of Parks and Recreation, or as a recommendation of the Off-Highway Motor Vehicle Recreation Commission, a local authority, an agency of the federal government, or the Director of Parks and Recreation shall notify the Commissioner of the California Highway Patrol, and shall not designate any segment pursuant to subdivision (a) which, in the opinion of the commissioner, would create a potential traffic safety hazard.

(d) (1) A designation of a highway, or a portion of a highway, under subdivision (a) shall become effective upon the erection of appropriate signs of a type approved by the Department of Transportation on and along the highway, or portion of the highway.

(2) The cost of the signs shall be reimbursed from the Off-Highway Vehicle Trust Fund, when appropriated by the Legislature, or by expenditure of funds from a grant or cooperative agreement made pursuant to Section 5090.50 of the Public Resources Code.

County of Inyo: Designating Highways: Off-Highway Motor Vehicles

38026.1. (a) Except as provided in subdivision (e), the County of Inyo may establish a pilot project to designate combined-use highways on unincorporated county roads in the county for no more than 10 miles so that the combined-use highways can be used to link existing off-highway motor vehicle trails and trailheads on federal Bureau of Land Management or United States Forest Service lands, and to link off-highway motor vehicle recreational-use areas with necessary service and lodging facilities, in order to provide a unified system of trails for off-highway motor vehicles, preserve traffic safety, improve natural resource protection, reduce off-highway vehicle trespass on private land, and minimize impacts on county residents.

(b) The pilot project shall do all of the following:

(1) Prescribe a procedure for highway, road, or route selection and designation. The procedure shall be approved by a vote of a majority of the Inyo County Board of Supervisors.

(2) Prescribe a procedure for the county to remove a combined-use designation, including a designation that is removed as a result of the conclusion of the pilot program.

(3) In cooperation with the Department of Transportation, establish uniform specifications and symbols for signs, markers, and traffic control devices to control off-highway motor vehicles, including, but not limited to, the following:

(A) Devices to warn of dangerous conditions, obstacles, or hazards.

(B) Designations of the right-of-way for regular vehicular traffic and off-highway motor vehicles.

(C) A description of the nature and destination of the off-highway motor vehicle trail.

(D) Warning signs for pedestrians and motorists of the presence of off-highway motor vehicle traffic.

(4) Require that off-highway motor vehicles subject to the pilot project meet the safety requirements of federal and state law regarding proper drivers’ licensing, helmet usage, and the requirements pursuant to Section 38026.5.

(5) Prohibit off-highway motor vehicles from traveling faster than 35 miles per hour on highways designated under this section.

(6) Include an opportunity for public comment at a public hearing held by the county in order to evaluate the pilot project.

(c) The pilot project may include use of a state highway, subject to the approval of the Department of Transportation, or any crossing of a highway designated pursuant to Section 38025.

(d) (1) By selecting and designating a highway for combined use pursuant to this section, the County of Inyo agrees to defend and indemnify the state against any and all claims, including legal defense and liability arising from a claim, for any safety-related losses or injuries arising or resulting from use by off-highway motor vehicles of a highway designated as a combined-use highway by the Inyo County Board of Supervisors pursuant to this section.

(2) This subdivision does not alter the requirements of subdivision (e).

(e) The County of Inyo shall not designate a highway for combined use pursuant to this section unless the Commissioner of the Department of the California Highway Patrol finds that designating the highway for combined use would not create a potential traffic safety hazard.

(f) Not later than January 1, 2016, the County of Inyo, in consultation with the Department of the California Highway Patrol, the Department of Transportation, and the Department of Parks and Recreation, shall prepare and submit to the Legislature a report evaluating the pilot project, and containing both of the following:

(1) A description of the road segments designated to allow combined use for over three miles, as approved or adopted by a majority vote of the members of the Inyo County Board of Supervisors.

(2) An evaluation of the overall safety and effectiveness of the pilot project, including its impact on traffic flows, safety, off-highway vehicle usage on existing trails, incursions into areas not designated for off-highway vehicle usage, and nonmotorized recreation.

(3) A description of the public comments received at a public hearing held by the county in regards to an evaluation of the pilot project.

(g) (1) A report submitted pursuant to subdivision (f) shall be submitted in compliance with Section 9795 of the Government Code.

(2) This section shall remain in effect only until January 1, 2017, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2017, deletes or extends that date.

NOTE: The preceding section becomes inoperative on January 1, 2017, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2017, deletes or extends that date.
Operation on Designated Highways

38026.5. (a) In accordance with subdivision (c) of Section 4000, a motor vehicle issued a plate or device pursuant to Section 38160 may be operated or driven on a local highway, or a portion of the local highway, that is designated pursuant to Section 38026 or 38026.1 if the operation is in conformance with this code and the vehicle complies with off-highway vehicle equipment requirements specified in this division.

(b) Notwithstanding subdivision (a), it is unlawful for a person using an off-highway vehicle on a combined-use highway to do any of the following:

(1) Operate an off-highway motor vehicle on the highway during the hours of darkness.

(2) Operate a vehicle on the highway that does not have an operational stoplight.

(3) Operate a vehicle on the highway that does not have rubber tires.

(4) Operate a vehicle without a valid driver’s license of the appropriate class for the vehicle operation in possession.

(5) Operate a vehicle on the highway without complying with Article 2 (commencing with Section 16020) of Chapter 1 of Division 7.

Amended Sec. 5, Ch. 532, Stats. 2011. Effective January 1, 2012

Movement of Motor-Driven Cycles Adjacent to a Highway

38027. Motor-driven cycles issued a plate or device pursuant to Section 38160 may be moved, by nonmechanical means only, adjacent to a roadway, in such a manner so as to not interfere with traffic upon the highway, only for the purpose of gaining access to, or returning from, areas designed for the operation of off-highway vehicles, when no other route is available. The Department of Transportation or local authority may designate access routes leading to off-highway parks as suitable for the operation of off-highway vehicles, if such access routes are available to the general public only for pedestrian and off-highway motor vehicle travel.

Off-Highway Vehicles Delivered to Dealer

38030. Notwithstanding the provisions of Section 38020, an unidentified off-highway motor vehicle subject to identification may be left standing upon a highway or public or private property adjacent to the place of business of a dealer of such motor vehicles when done so in connection with the loading and unloading or storage of such vehicles to be used in the dealer’s business, unless already prohibited by law.

Article 2. Original Identification

Application for Identification

38040. Application for the original identification of a motor vehicle, other than a motorcycle, required to be identified pursuant to this division shall be made by the owner to the department upon the appropriate form furnished by it and shall contain all of the following:

(a) The true, full name, business or residence and mailing address, and the driver’s license or identification card number, if any, of the owner and the legal owner, if any.

(b) The name of the county in which the owner resides.

(c) A description of the vehicle, including the following, insofar as it may exist:

(1) The make, model, and type of body.

(2) The vehicle identification number or any other number as may be required by the department.

(d) Information as may reasonably be required by the department to enable it to determine whether the vehicle is lawfully entitled to identification.

Application for Identification: Motorcycle

38041. Application for the original identification of a motorcycle shall be made by the owner to the department upon the appropriate form furnished by it, and shall contain:

(a) The true, full name, business or residence and mailing address, and the driver’s license or identification card number, if any, of the owner and the legal owner, if any.

(b) The name of the county in which the owner resides.

(c) A description of the motorcycle including the following data insofar as it may exist:

(1) The make and type of body.

(2) The motor and frame numbers recorded exactly as stamped on the engine and frame, respectively, by the manufacturer, and any other identifying number of the motorcycle as may be required by the department.

(3) The date first sold by a manufacturer or dealer to a consumer.

(d) Such information as may reasonably be required by the department to enable it to determine whether the vehicle is lawfully entitled to identification.

(e) The department shall maintain a cross-index file of motor and frame numbers identified with it.

The application shall be accompanied by a tracing, tape lift, or photograph of the motor or frame numbers, or where the facsimile of the motor or frame numbers cannot be obtained, a verification of the numbers shall be required.

Coownership of Off-Highway Vehicle

38045. Ownership of title to an off-highway motor vehicle subject to identification under this division may be held by two (or more) coowners as provided in Section 682 of the Civil Code, except that:

(a) A vehicle may be identified in the names of two (or more) persons as coowners in the alternative by the use of the word “or.” A vehicle so identified in the alternative shall be deemed to be held in joint tenancy. Each coowner shall be deemed to have granted to the other coowners the absolute right to dispose of the title and interest in the vehicle. Upon the death of a coowner, the interest of the decedent shall pass to the survivor as though title or interest in the vehicle was held in joint tenancy, unless a contrary intention is set forth in writing upon the application for identification.

(b) A vehicle may be identified in the names of two (or more) persons as coowners in the alternative by the use of the word “and” and shall thereafter require the signature of each coowner or his personal representative to transfer title to the
vehicle, except where title to the vehicle is set forth in joint tenancy, the signature of each coowner or his personal representative shall be required only during the lifetime of the coowners, and upon death of a coowner title shall pass to the surviving coowner.

(d) The department may adopt suitable abbreviations to appear upon the certificate of identification and certificate of ownership to designate the manner in which title to the vehicle is held if set forth by the coowners upon the application for identification.

Undertaking or Bond

38050. In the absence of the regularly required supporting evidence of ownership upon application for identification or transfer of a vehicle, the department may accept an undertaking or bond which shall be conditioned to protect the department and all officers and employees thereof and any subsequent purchaser of the vehicle, any person acquiring a lien or security interest thereon, or the successor in interest of such purchaser or person against any loss or damage on account of any defect in or undisclosed claim upon the right, title, and interest of the applicant or other person in and to the vehicle.

Return and Surrender of Undertaking or Bond

38055. In the event the vehicle is no longer identified in this state and the currently valid certificate of ownership is surrendered to the department, the bond or undertaking shall be returned and surrendered at the end of three years or prior thereto.

Change of Address

38060. (a) Whenever any person, after making application for identification of an off-highway motor vehicle subject to identification, or after the identification either as owner or legal owner, moves or acquires a new address different from the address shown in the application or upon the certificate of ownership or identification certificate, that person shall, within 10 days thereafter, notify the department of his or her old and new addresses.

(b) Any owner having notified the department as required in subdivision (a), shall immediately mark out the former on the face of the certificate and write with pen and ink or type the new on the face of the certificate immediately below the former address and initial the entry.

Amended Ch. 466, Stats. 1982. Effective January 1, 1983.

Article 3. Evidences of Identification

Issuance of Certificate of Ownership and Identification Certificate

38070. The department, upon identifying an off-highway motor vehicle subject to identification, shall issue a certificate of ownership to the legal owner and an identification certificate to the owner, or both to the owner if there is no legal owner.

Contents of Identification Certificate

38075. (a) The identification certificate shall contain upon the face thereof the date issued, the name and residence or business or mailing address of the owner and of the legal owner, if any, the identification number to the vehicle, and a description of the vehicle as complete as that required in the application for the identification of a vehicle.

(b) The director may modify the form, arrangement, and information appearing on the face of the identification certificate and may provide for standardization and abbreviation of fictitious or firm names thereon whenever he finds that the efficiency of the department will be promoted thereby, except that general delivery or post office box numbers shall not be permitted as the address of the identified owner unless there is no other address.

Contents of Certificate of Ownership

38076. The certificate of ownership shall contain:

(a) Not less than the information required upon the face of the identification certificate.

(b) Provision for notice to the department of a transfer of the title or interest of the owner or legal owner.

(c) Provision for application for transfer of identification by the transferee.

Use and Display on Vehicles of Copies of Report of Sale Form and Identification Devices

38080. (a) The department may authorize, under Section 4456, dealers licensed under Article 1 (commencing with Section 11700) of Chapter 4 of Division 5 to use numbered copies of the report-of-sale form and corresponding temporary identification devices upon off-highway motor vehicles subject to identification that they sell.

(b) Off-highway motor vehicles subject to identification that are purchased from dealers not required to be licensed under Article 1 (commencing with Section 11700) of Chapter 4 of Division 5, or that are specially constructed by the owner or owners, may be operated off-highway, as provided by this division, without an identification plate or device or identification certificate, provided a receipt or other suitable device issued by the department is displayed upon the vehicle evidencing an application has been made and appropriate fees paid pursuant to this division, until the identification plate or device and identification certificate are received from the department.

Identification Certificate Kept with Vehicle

38085. (a) Every owner upon receipt of an identification certificate shall maintain the same or a facsimile copy thereof with the vehicle for which it is issued at all times when the vehicle is operated or transported.

(b) The provisions of this section do not apply when an identification certificate is removed from the vehicle for the purpose of application for renewal or transfer of identification.

Special Permits for Manufacturers, Dealers, and Distributors

38087. (a) Upon payment of the fees specified in Section 38231, the department may issue to manufacturers, dealers, distributors, or their agents, a special permit to operate or use for the purpose of delivery, demonstration, or
display, off-highway motor vehicles otherwise required to be identified under this division.

(b) Special permits issued pursuant to this section shall expire at midnight on the 30th day of June in the second calendar year following the year of issuance of such permit.

Off-Highway Nonresident Special Operating Permit

§38087.5. (a) Upon payment of the fee specified in Section 38231.5, the Department of Parks and Recreation may issue to a nonresident of this state a special permit to operate an off-highway motor vehicle otherwise required to be identified under this chapter.

(b) Special permits issued under this section shall expire on December 31 in the year of their issuance.

Motorcycle Used in Racing

§38088. (a) Upon payment of the fee specified in Section 38232, the department shall issue to the owner of a motorcycle, which the owner has certified as being used exclusively in racing events on a closed course, a special transportation identification device for the purpose of identifying the motorcycle while it is being transported upon a highway to and from racing events on a closed course. Such device may be either a plate or a sticker, whichever is determined by the department to be the most appropriate.

(b) Such device is nonrenewable, nontransferable, and becomes invalid when the vehicle for which it was issued is sold or dismantled.

(c) A certificate of ownership may not be issued in conjunction with a special transportation identification device.

Stolen, Lost, or Damaged Certificate of Ownership

§38090. If any identification certificate or identification plate or device is stolen, lost, mutilated or illegible, the owner of the vehicle for which the same was issued, as shown by the records of the department, shall immediately make application for and may, upon furnishing information satisfactory to the department, obtain a duplicate or substitute or new identification under a new number, as determined to be most advisable by the department. An application for a duplicate identification certificate is not required in conjunction with any other application.

Stolen, Lost, or Damaged Certificate of Ownership

§38095. If any certificate of ownership is stolen, lost, mutilated or illegible, the legal owner or, if none, the owner of the vehicle for which the same was issued as shown by the records of the department shall immediately make application for and may, upon furnishing information satisfactory to the department, obtain a duplicate.

Applicability of Registration Provisions

§38100. The provisions of Sections 4458, 4460, 4461, 4462, 4463, and 4464 shall be fully applicable to motor vehicles identified under this division and the terms “identification” and “identification certificate” shall have the same meaning as the terms “registration” and “registration card,” respectively, as used in those sections.

Certificates of Ownership

§38110. Certificates of ownership shall not be renewed but shall remain valid until suspended, revoked, or canceled by the department for cause or upon transfer of any interest shown therein.

Expiration Date

§38115. Every motor vehicle identification and identification certificate issued pursuant to this division shall expire at midnight on the 30th day of June in the second calendar year following the year of issuance of such certificate. The department may upon payment of the proper fees renew such identification.

Application for Renewal

§38120. (a) Application for renewal of identification of off-highway motor vehicles subject to identification shall be made by the owner not later than midnight of the 30th day of June of the expiration year. The application shall contain the true, full name and driver’s license or identification card number, if any, of the owner.

(b) Whenever any application for identification or transfer of ownership of an off-highway motor vehicle subject to identification is filed with the department between June 1 and June 30 of the year of expiration, the application shall be accompanied by the full renewal fees in addition to any other fees then due and payable.

(c) Whenever an application for identification or transfer of ownership of an off-highway motor vehicle subject to identification is filed with the department between January 1 and May 31 of the year of expiration, the application may be accompanied by full renewal fees in addition to any other fees then due and payable, which renewal fees shall be for the two-year period following June 30th of the year in which paid.

Off-Highway Vehicles: Certification of Nonoperation

§38121. (a) Prior to the expiration of the identification of an off-highway motor vehicle, if that identification is not to be renewed prior to its expiration, the owner of the vehicle shall file, under penalty of perjury, a certification that the vehicle will not be operated, used, or transported on public property or private property in a manner so as to subject the vehicle to identification during the subsequent identification period without first making an application for identification of the vehicle, including full payment of all fees. The certification of nonoperation is valid until the identification is renewed under subdivision (c).

(b) Each certification of nonoperation filed pursuant to subdivision (a) shall be accompanied by a filing fee of fifteen dollars ($15).

(c) An application for renewal of identification, whether or not accompanied by an application for transfer of title to, or any interest in, the vehicle, shall be submitted to the department with payment of the required fees for the current identification period and without penalty for delinquent payment of fees imposed under this code if the department receives the application on or before the date the vehicle is first operated, used, or transported on public property or private
Operation Pending Renewal

38130. When application for identification of an off-highway motor vehicle subject to identification has been made as required by this division, the vehicle may be operated pursuant to this division until the new indicia of current identification have been received from the department on condition that there be displayed on the vehicle the identification plate or device and validating device, if any, issued to the vehicle for the previous identification term.

Grounds Permitting Refusal of Identification

38150. The department may refuse the identification or renewal or transfer of identification of an off-highway motor vehicle subject to identification in any of the following circumstances:

(a) If the department is satisfied that the applicant is not entitled thereto under this code.

(b) If the applicant has failed to furnish the department with information required in the application or reasonable additional information required by the department.

(c) If the department determines that the applicant has made or permitted unlawful use of any identification certificate, certificate of ownership, identification plates, or other identifying indicia.

Article 6. Identification Plate or Device

Issuance of Identification Plates

38160. The department, upon identifying an off-highway motor vehicle subject to identification, shall issue to the owner a suitable identification plate or device which is capable of being attached to the vehicle in such a manner so as not to endanger the operator or passengers of the vehicle, and which shall identify the vehicle for which it is issued for the period of its validity.

Design of Identification Plates

38165. (a) The department shall determine the size, color, and letters or number of the plate or device issued pursuant to this division and the life of the series of plate or device issued, but in no event less than six years. The design of the plate or device shall have the identification number as the most prominent feature of the device. During the intervening identification periods for which the plate or device is issued, the department shall make a tab, sticker, or other device to indicate the term for which such plate or device will be valid.

(b) On or before July 1, 2009, the department, in conjunction with the Division of Off-Highway Motor Vehicle Recreation of the Department of Parks and Recreation, shall report to the Assembly Committee on Water, Parks and Wildlife and the Senate Committee on Natural Resources and Water, regarding recommendations to improve the identification of off-highway motor vehicles. At a minimum, the report shall examine the benefits and challenges of all of the following:

(1) Using multiple identification stickers for each vehicle.

(2) Using large-print identifying numbers or letters.

(3) Various identifying devices, such as license plates and stickers.

(4) Requiring license plates or other device alternatives for certain off-highway vehicle types.

(5) Including a unique number for special nonresident permits issued under Section 38087.5.

(c) In preparing the report, the department and the Division of Off-Highway Motor Vehicle Recreation shall work with vehicle manufacturers to evaluate feasibility.

Amended Sec. 23, Ch. 541, Stats. 2007. Effective January 1, 2008.

Validation of Certificate

38135. The department may, upon renewing of an identification of off-highway motor vehicles subject to identification, issue a new identification certificate or may endorse or authorize the endorsement of a receipt or validation upon payment of the required fees. The receipt or validation to be stamped upon the identification certificate last issued for the vehicle during the preceding period, or upon a potential identification certificate issued near the close of the preceding period, which identification certificate so endorsed or validated shall constitute the identification certificate for the ensuing two-year period. If the identification certificate and potential identification certificate are unavailable, a fee as specified in Section 38260 shall be paid.

Article 5. Refusal of Identification

Grounds Requiring Refusal of Identification

38145. The department shall refuse the identification or renewal or transfer of identification of an off-highway motor vehicle subject to identification upon any of the following grounds:

(a) That the application contains any false or fraudulent statement.

(b) That the required fee has not been paid.

§38170. (a) Every off-highway motor vehicle subject to identification shall have displayed upon it the identification number assigned to the vehicle for which it is issued, together with the word “California” or the abbreviation “CAL” and the year number for which it is issued or a suitable device issued by the department for validation purposes, which device shall contain the year for which it is issued.

(b) The identification plate or device shall at all times be securely fastened to the vehicle for which it is issued and shall be mounted or affixed in a position to be clearly visible, and shall be maintained in a condition so as to be clearly legible. No covering shall be used on the identification plate or device.

(c) All identification plates or devices issued on or after January 1, 1996, shall be displayed as follows:

1. On the left fork leg of a motorcycle, either horizontal or vertical, and shall be visible from the left side of the motorcycle.
2. On the left quadrant of the metal frame member of sand rails, rail-type buggies, and dune buggies, visible from the rear of the vehicle.
3. On the left rear quadrant on permanent plastic or metal frame members of all-terrain vehicles, visible from the rear of the vehicle.
4. On the left tunnel on the back quadrant of snowmobiles.

Article 7. Dismantling of Off-Highway Motor Vehicles

Application of Other Provisions Pertaining to Dismantling of Vehicles

38180. Chapter 3 (commencing with Section 11500) of Division 5 shall be applicable to off-highway motor vehicles subject to identification, except as provided in this article.

Subsequent Identification of Previously Dismantled or Salvaged Vehicles

38185. No off-highway motor vehicle subject to identification which has been reported dismantled or sold as salvage may be subsequently identified until it has been inspected by the department.

Article 8. Transfers of Title or Interest

Transfer of Title to Off-Highway Vehicles

38195. The provisions of Chapter 2 (commencing with Section 5600) of Division 3 shall be applicable to off-highway motor vehicles subject to identification, and the terms “registration,” “registration card,” and “registered” as used therein, shall apply to the terms “identification,” “identification certificate,” and “identified,” respectively, except that Sections 5901, 5902, 5903, 5904, 5906, and 6052 shall not apply.

Notice of Transfer by Dealers

38200. (a) Every licensed dealer upon transferring by sale, lease, or otherwise any off-highway motor vehicle subject to identification, whether new or used, of a type subject to identification under this division, shall, not later than the end of the fifth calendar day thereafter, not counting the day of sale, lease, or other transfer, give written notice of the transfer to the department upon an appropriate form provided by it; but a dealer need not give the notice when selling or transferring a new unidentified off-highway motor vehicle subject to identification to another dealer.

A “sale” shall be deemed completed and consummated when the purchaser of that vehicle has paid the purchase price, or, in lieu thereof, has signed a purchase contract or security agreement, and taken physical possession or delivery of that vehicle.

(b) Every dealer of off-highway motor vehicles subject to identification who is not licensed with the department, and who engages only in the sale of vehicles of a type not properly equipped for operation upon the highway and that are restricted to off-highway operation or use, shall comply with the provisions of Section 5900, or such regulations as the director determines are necessary to carry out the provisions of this division.

Application for Transfer

38205. Whenever any person has received as transferee a properly endorsed certificate of ownership, he or she shall, within 10 days thereafter, endorse the ownership certificate as required and forward the ownership certificate with the proper transfer fee and, if required under Section 38120, any other fee due and thereby make application for transfer of identification. The certificate of ownership shall contain a space for the applicant’s driver’s license or identification card number, and the applicant shall furnish that number, if any, in the space provided.

Notice of Transfer to Dealer Not Required

38210. When the transferee of an off-highway motor vehicle subject to identification is a dealer who holds such vehicle for resale, the dealer is not required to make application for transfer, but upon transferring his title or interest to another person he shall comply with this division.

Payment of Use Tax

38211. (a) The department shall withhold identification of or the transfer of ownership of any vehicle subject to identification under this division until the applicant pays to the department the use tax measured by the sales price of the vehicle as required by the Sales and Use Tax Law, together with penalty, if any, unless the purchaser presents evidence on a form prescribed by the State Board of Equalization that sales tax will be paid by the seller or that use tax has been collected by the seller or that the State Board of Equalization finds that no use tax is due. If the applicant so desires, he may pay the use tax and penalty, if any, to the department so as to secure immediate action upon his application for identification or transfer of ownership, and thereafter he may apply through the Department of Motor Vehicles to the State Board of Equalization under the provisions of the Sales and Use Tax Law for a refund of the amount so paid.

(b) The department shall transmit to the State Board of Equalization all collections of use tax and penalty made under this section. This transmittal shall be made at least monthly, accompanied by a schedule in such form as the department and board may prescribe.

(c) The State of Board of Equalization shall reimburse the department for its costs incurred in carrying out the provisions
of this section. Such reimbursement shall be effected under agreement between the agencies, approved by the Department of Finance.

(d) In computing any use tax or penalty thereon under the provisions of this section dollar fractions shall be disregarded in the manner specified in Section 9559 of this code. Payment of tax and penalty on this basis shall be deemed full compliance with the requirements of the Sales and Use Tax Law insofar as they are applicable to the use of vehicles to which this section relates.

Article 9. Identification Fees

Off-Highway Motor Vehicle: Identification: Service Fee

38225. (a) A service fee of seven dollars ($7) shall be paid to the department for the issuance or renewal of identification of off-highway motor vehicles subject to identification, except as expressly exempted under this division.

(b) In addition to the service fee required by subdivision (a), a special fee of thirty-three dollars ($33) shall be paid at the time of payment of the service fee for the issuance or renewal of an identification plate or device.

(c) All money transferred pursuant to Section 8352.6 of the Revenue and Taxation Code, all fees received by the department pursuant to subdivision (b), and all day use, overnight use, or annual or biennial use fees for state vehicular recreation areas received by the Department of Parks and Recreation shall be deposited in the Off-Highway Vehicle Trust Fund, which is hereby created. There shall be a separate reporting of special fee revenues by vehicle type, including four-wheeled vehicles, all-terrain vehicles, motorcycles, and snowmobiles. All money shall be deposited in the fund, and, upon appropriation by the Legislature, shall be allocated according to Section 5090.61 of the Public Resources Code.

(d) Any money temporarily transferred by the Legislature from the Off-Highway Vehicle Trust Fund to the General Fund shall be reimbursed, without interest, by the Legislature within two fiscal years of the transfer.

(e) This section shall remain in effect only until January 1, 2018, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2018, deletes or extends that date. Any unencumbered funds remaining in the Off-Highway Vehicle Trust Fund on January 1, 2018, shall be transferred to the General Fund.

Amended Sec. 58, Ch. 77, Stats. 2006. Effective January 1, 2008.

NOTE: The preceding section shall remain in effect only until January 1, 2018, and as of that date is repealed.

Additional Service Fee

38225.4. In addition to the service fees specified in subdivision (a) of Section 38225, as amended by Section 6 of Chapter 964 of the Statutes of 1992, a fee of three dollars ($3) shall be paid at the time of issuance or renewal of identification of off-highway motor vehicles subject to identification, except as expressly exempted under this division. The department shall deposit the fee received under this section in the Vehicle Account in the State Transportation Fund. The money deposited in the account pursuant to this section shall be available, upon appropriation by the Legislature, for expenditure to offset the costs of maintaining the uniformed field strength of the Department of the California Highway Patrol.

Publisher’s Note - Fees described in this section are subject to change pursuant to Section 1678.

Additional Service Fee

38225.5. In addition to the service fees specified in Section 38225, a fee of three dollars ($3) shall be paid at the time of issuance or renewal of identification of off-highway vehicles subject to identification, except as expressly exempted under this division. The department shall deposit the fee received under this section in the Motor Vehicle Account in the State Transportation Fund. The money deposited in the account pursuant to this section shall be available, upon appropriation by the Legislature, for expenditure to offset the costs of increasing the uniformed field strength of the Department of the California Highway Patrol beyond its 1994 staffing level and those costs associated with maintaining this new level of uniformed field strength and carrying out those duties specified in subdivision (a) of Section 830.2 of the Penal Code.

Publisher’s Note - Fees described in this section are subject to change pursuant to Section 1678.

Additional Fee: In Lieu Tax

38230. In addition to the fees imposed by Section 38225, there shall be paid a four-dollar ($4) fee for the issuance or renewal of identification for every off-highway motor vehicle subject to identification. The fee imposed by this section is in lieu of all taxes according to value levied for state or local purposes.

Fees for Special Permits

38231. The fees for a special permit issued under Section 38087 shall be the prevailing identification fees as set forth in Sections 38225 and 38230 and shall be deposited and distributed as are identification fees under this chapter.

Off-Highway Nonresident Special Operating Permit Fee

38231.5. (a) The fee for a special permit issued under Section 38087.5 shall be not less than twenty dollars ($20), as established by the Department of Parks and Recreation. The Department of Parks and Recreation may adjust the special permit fee for a permit issued to a nonresident of this state under Section 38087.5, as necessary, to recover the costs of this program. After deducting its administrative and vendor costs, the Department of Parks and Recreation shall deposit the fees received under this section in the Off-Highway Vehicle Trust Fund. Money in the fund shall be allocated, upon appropriation, as provided in Sections 5090.50 and 5090.64 of the Public Resources Code.

(b) The Department of Parks and Recreation shall print the special permits required by Section 38087.5 and shall supervise the sale of those permits throughout the state.

(c) The Department of Parks and Recreation shall either distribute and sell the special permits directly or contract with vendors according to rules and regulations established by that department. The vendors shall receive a commission in an
amount not to exceed 5 percent of the fee imposed pursuant to subdivision (a) for each special permit sold. The Department of Parks and Recreation may solicit the participation of qualified retail commercial enterprises engaged in the sale or rental of off-highway vehicles, equipment, accessories, or supplies to act as authorized vendors of the special permits and may authorize local and federal agencies that provide off-highway vehicle opportunities to act as authorized vendors of the special permits.

**Fee: Special Transportation Identification**

38232. A special fee of fifteen dollars ($15) shall be paid to the department for the issuance of a special transportation identification device issued pursuant to Section 38088 and shall be deposited in the Motor Vehicle Account in the Transportation Tax Fund. The fee is in lieu of the fees provided in Section 38225.

**Publisher’s Note - Fees described in this section are subject to change pursuant to Section 1678.**

**Report and Deposit of Fees**

38235. All money collected by the department under Section 38230 shall be reported monthly to the Controller and at the same time be deposited in the State Treasury to the credit of the Off-Highway License Fee Fund, which is hereby created.

Amended Sec. 5, Ch. 970, Stats. 1995. Effective January 1, 1996. Supersedes Sec. 2, Ch. 403.

**Allocation and Use of Fees**

38240. (a) The Controller shall allocate the fees collected under Section 38230 in July and January of each fiscal year to cities and counties based upon the proportional estimated off-highway motor vehicle use and related activity within the respective jurisdictions pursuant to the report described in subdivision (d) of Section 5090.15 of the Public Resources Code.

(b) The funds collected under Section 38230 shall be used for the purposes set forth in Sections 5090.50 and 5090.64 of the Public Resources Code.

(c) In addition to the purposes set forth in subdivision (b), funds received by a city or county pursuant to this section may be expended for facilities located outside the limits of the city or county if both of the following conditions are met:

1. The funds are expended for the purposes of acquiring, developing, and constructing trails, areas, or other facilities for the use of off-highway motor vehicles.

2. The funds are expended pursuant to an agreement with the city in which the facility is located or with the county in which the facility is located if the facility is located in an unincorporated territory.

(d) This section shall become operative on January 1, 2006.

**Delinquency of Fees**

38245. Whenever an off-highway motor vehicle subject to identification is operated or transported in this state without the fees required by this division having first been paid, the fee is delinquent.

**Penalties**

38246. (a) A penalty shall be added upon any application for renewal of identification made on or after the day following the expiration date, except as provided in Section 4605, 38121, or 38247.

(b) If the fee specified in subdivision (a) or (b) of Section 38255 is not paid within 10 days after the fee becomes delinquent, a penalty shall be assessed.

(c) If renewal fee penalties have not accrued and the ownership of the vehicle is transferred, the transferee has 20 days from the date of transfer to pay the identification fees that become due without payment of any penalties that would otherwise be required under subdivision (a) or to file a certificate of nonoperation pursuant to subdivision (a) of Section 38121, if the vehicle will not be operated, used, or transported on public property or private property in a manner so as to subject the vehicle to identification during the subsequent identification period without first making application for identification of the vehicle, including full payment of all fees.

(d) Except as otherwise provided in this section, if any fee is not paid within 20 days after the fee becomes delinquent, a penalty shall be assessed.

**Waiver of Penalties and Registration Fees**

38247. (a) When a transferee or purchaser of a vehicle applies for transfer of identification, as provided in Section 38205, and it is determined by the department that penalties accrued prior to the purchase of the vehicle, and that the transferee or purchaser was not cognizant of the nonpayment of the fees for identification for the current or prior identification years, the department may waive the identification penalties upon payment of the fees for identification due.

(b) Other provisions of this code notwithstanding, the director may at his discretion investigate into the circumstances of any application for identification to ascertain if penalties had accrued through no fault or intent of the owner. Provided such circumstances prevail, the director may waive any penalties upon payment of the fees for identification then due.

(c) When a transferee or purchaser of a vehicle applies for transfer of identification of a vehicle, and it is determined by the department that fees for identification of the vehicle for any year are unpaid and due, that such fees became due prior to the purchase of the vehicle by the transferee or purchaser and that the transferee or purchaser was not cognizant of the fact that such fees were unpaid and due, the department may waive such fees and any penalty thereon when the identification fees due for the vehicle for the current year are paid.

(d) Upon the transfer of a vehicle for which fees for identification and any penalties thereon are unpaid and due, such fees and penalties are, notwithstanding the provisions of Article 6 (commencing with Section 9800) of this chapter, the personal debt of the transferor of the vehicle who did not pay such fees and penalties when they became due or accrued. Such fees and penalties may be collected by the department in an appropriate civil action if the department has waived such fees and penalties pursuant to subdivision (c).

§38301.3. Notwithstanding subdivision (d) of Section 5008 of the Public Resources Code, or any other provision of state law, and to the extent authorized under federal law, a person who violates a state or federal regulation that prohibits entry of a motor vehicle into all or portions of an area designated as a federal or state wilderness area is guilty of a public offense and shall be punished as follows:

(a) Except as provided in subdivisions (b) and (c), the offense is an infraction punishable by a fine not exceeding fifty dollars ($50).

(b) For a second offense committed within seven years after a prior violation for which there was a conviction punishable under paragraph (1), the offense is an infraction punishable by a fine not exceeding seventy-five dollars ($75).

(c) For a third or subsequent offense committed within seven years after two or more prior violations for which there were convictions punishable under this section, the offense is an infraction punishable by a fine not exceeding one hundred fifty dollars ($150). In addition to the fine, the court may assess costs sufficient to repair property damage resulting from the violation.

punishable by a fine not exceeding two hundred twenty-five dollars ($225).

(c) (1) For a third or subsequent offense committed within seven years after two or more prior violations for which there were convictions punishable under this section, the offense is a misdemeanor punishable by a fine not exceeding three hundred dollars ($300) or by imprisonment in the county jail not exceeding 90 days, or by both that fine and imprisonment.

(2) In addition to the fine imposed under paragraph (1), the court may order impoundment of the vehicle used in the offense under the following conditions:

(A) The person convicted under this subdivision is the owner of the vehicle.

(B) The vehicle is subject to Section 4000 or 38010.

(3) The period of impoundment imposed pursuant to this subdivision shall be not less than one day nor more than 30 days. The impoundment shall be at the owner’s expense.

Violation of Special Regulations: Penalties

38301.5. Every person convicted of violating a local ordinance which is adopted by a city with a population over 2,000,000 persons pursuant to Section 38301 and which prohibits entry into all or portions of an area designated by ordinance as a mountain fire district shall be punished as follows:

(a) Except as provided in subdivisions (b) and (c), the offense is an infraction punishable by a fine not exceeding one hundred fifty dollars ($150).

(b) For a second offense committed within one year of a prior violation for which there was a conviction punishable under subdivision (a), the offense is punishable as an infraction by a fine not exceeding two hundred fifty dollars ($250).

(c) (1) For a third or subsequent offense committed within one year of two or more prior violations for which there were convictions punishable under this section, the offense is punishable as a misdemeanor by a fine not exceeding one thousand dollars ($1,000) or by imprisonment in the county jail for not less than 90 days, or by both that fine and imprisonment. Additionally, the court may order impoundment of the vehicle used in the offense under the following conditions:

(A) The person convicted under this subdivision is the owner of the vehicle.

(B) The vehicle is subject to Section 4000 or 38010.

(3) For a third or any subsequent conviction, a fine of not less than fifty dollars ($50) or more than seventy-five dollars ($75) and by impoundment of the vehicle at the owner’s expense.

Unlawful to Place Unauthorized Signs

38302. It is unlawful for any person to place or erect any sign, signal, or traffic control device for off-highway traffic upon public lands unless authorized by law.

Article 2. Operating Controls

Ability to Reach and Operate Controls

38304. The operator of an off-highway motor vehicle shall be able to reach and operate all controls necessary to safely operate the vehicle.

Ability to Reach and Operate Controls: Persons Under 14

38304.1. (a) Neither a parent or guardian of a child who is under 14 years of age, nor an adult who is authorized by the parent or guardian to supervise that child, shall grant permission to, or knowingly allow, that child to operate an off-highway motor vehicle in a manner that violates Section 38304.

(b) A person convicted of a violation of subdivision (a) is punishable as follows:

(1) For a first conviction, the court shall impose a fine of thirty-five dollars ($35).

(2) For a second conviction, a fine of not less than thirty-five dollars ($35) or more than fifty dollars ($50).

(3) For a third or any subsequent conviction, a fine of not less than fifty dollars ($50) nor more than seventy-five dollars ($75).

Basic Speed Law

38305. No person shall drive an off-highway motor vehicle at a speed greater than is reasonable or prudent and in no event at a speed which endangers the safety of other persons or property.

Prima Facie Speed Limit

38310. The prima facie speed limit within 50 feet of any campground, campsite, or concentration of people or animals shall be 15 miles per hour unless changed as authorized by this code and, if so changed, only when signs have been erected giving notice thereof.

Starting Parked Vehicles

38312. No person shall place in motion an off-highway motor vehicle that is stopped, standing, or parked until such movement can be made with reasonable safety.

Turning Movements

38314. No person shall turn an off-highway motor vehicle from a direct course or move right or left until such movement can be made with reasonable safety.

Article 5. Reckless Driving

Reckless Driving

38316. (a) It is unlawful for any person to drive any off-highway motor vehicle with a willful and wanton disregard for the safety of other persons or property.

(b) Any person who violates this section shall, upon conviction thereof, be punished by imprisonment in the county jail for not less than five days nor more than 90 days or by fine of not less than fifty dollars ($50) nor more than five hundred dollars ($500) or by both such fine and imprisonment, except as provided in Section 38317.

Reckless Driving Causing Bodily Injury

38317. Whenever reckless driving of an off-highway motor vehicle proximately causes bodily injury to any person, the person driving the vehicle shall, upon conviction thereof, be punished by imprisonment in the county jail for not less than 30 days nor more than six months or by fine of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000) or by both such fine and imprisonment.

Throwing Substances at Off-Highway Motor Vehicles

38318. (a) Any person who throws any substance at an off-highway motor vehicle or occupant thereof is guilty of a misdemeanor and shall be punished pursuant to Section 42002 by a fine of not more than one thousand dollars ($1,000) or by imprisonment in the county jail for not more than six months, or by both the fine and imprisonment.

(b) Any person who, with intent to do great bodily injury, maliciously and willfully throws or projects any rock, brick, bottle, metal, or other missile, projects any other substance capable of doing serious bodily harm, or discharges a firearm at an off-highway motor vehicle or occupant thereof is guilty of a felony.

Malicious Acts

38318.5. (a) Any person who maliciously removes or alters trail, danger, or directional markers or signs provided for the safety or guidance of off-highway motor vehicles is guilty of a misdemeanor and shall be punished pursuant to Section 42002 by a fine of not more than one thousand dollars ($1,000) or by imprisonment in the county jail for not more than six months, or by both the fine and imprisonment.

(b) Any person who, with intent to do great bodily injury (1) proximately causes great bodily injury to any person as a result of acts prohibited by subdivision (a), or (2) erects or places any cable, chain, rope, fishing line, or other similar material which is unmarked or intentionally placed, or both, for malicious purpose is guilty of a felony.

(c) Any person convicted under subdivision (a) or (b) shall, if the violation proximately causes one or more adverse environmental impacts, also be liable in civil damages for the cost of mitigation, restoration, or repair thereof, in addition to any other liability imposed by law.

Operation Causing Damage

38319. No person shall operate, nor shall an owner permit the operation of, an off-highway motor vehicle in a manner likely to cause malicious or unnecessary damage to the land, wildlife, wildlife habitat or vegetative resources.

Throwing, Depositing, or Dumping Matter

38320. (a) No person shall throw or deposit, nor shall the registered owner or the driver, if such owner is not then present in the vehicle, aid or abet in the throwing or depositing, upon any area, public or private, any bottle, can, garbage, glass, nail, offal, paper, wire, any substance likely to injure or kill wild or domestic animal or plant life or damage traffic using such area, or any noisome, nauseous or offensive matter of any kind.

(b) No person shall place, deposit or dump, or cause to be placed, deposited or dumped, any rocks or dirt in or upon any area, public or private, without the consent of the property owner or public agency having jurisdiction over the area.

(c) Any person who violates this section shall, upon conviction thereof, be punished by a fine of not less than fifty dollars ($50). No part of such fine shall be suspended. The court may permit the fine required by this section to be paid in installments if the court determines that the defendant is unable to pay the fine in one lump sum.

Removal of Material

38321. (a) Any person who drops, dumps, deposits, places, or throws, or causes or permits to be dropped, dumped, deposited, placed, or thrown, upon any area, any material described in Section 38320, shall immediately remove the material or cause it to be removed.

(b) If such person fails to comply with the provisions of this section, the governmental agency responsible for the maintenance of the area, or the property owner of the land on which the material has been deposited, may remove such material and collect, by civil action, if necessary, the actual cost of the removal operation in addition to any other damages authorized by law from the person who did not comply with the requirements of this section.

CHAPTER 6. EQUIPMENT OF OFF-HIGHWAY VEHICLES

Applicability of Provisions

38325. The provisions of this Chapter shall apply to all off-highway motor vehicles, as defined in Section 38006, when operated in areas in which this division has application.

Vehicle Not Equipped or Unsafe

38330. It is unlawful to operate any vehicle or combination of vehicles which is in an unsafe condition, which is not equipped as required by this Chapter or the equipment regulations of the governmental agency having jurisdiction over public lands, or which is not safely loaded.

Article 2. Lighting Equipment

Headlamps

38335. When operated from one-half hour after sunset to one-half hour before sunrise, each motor vehicle shall be equipped with at least one lighted white headlamp directed toward the front of the vehicle. Such lamp shall be of an intensity sufficient to reveal persons and vehicles at a distance of at least 200 feet.

Taillamps

38345. When operated from one-half hour after sunset to one-half hour before sunrise, each motor vehicle which is not in combination with any other vehicle shall be equipped with
at least one lighted red taillamp which shall be clearly visible from the rear.

(a) Every such vehicle or vehicles at the end of a combination of vehicles shall be equipped with one lighted red taillamp when operated from one-half hour after sunset to one-half hour before sunrise.

Prohibition: Warning Lights

38346. A person shall not display a flashing or steady burning red or blue warning light on an off-highway motor vehicle except as permitted by Section 21055 or when an extreme hazard exists.

Article 3. Brakes

Service Brakes Required

38355. (a) Except as provided in subdivision (b), every motor vehicle shall be equipped with a service brake system which is in good working order and adequate to control the movement of, and to stop and hold to the limit of traction of, such vehicle or combination of vehicles under all conditions of loading and upon any grade on which it is operated.

(b) Any motor vehicle, such as an air-cushioned vehicle, which is unable to comply with the requirements of this section due to the method of operation, is exempt, if the operator is able to exercise safe control over the movement of such vehicle.

Article 4. Equipment

Mufflers and Exhaust Systems

38365. (a) Every off-highway motor vehicle, as defined in Section 38006, shall at all times be equipped with an adequate muffler in constant operation and properly maintained so as to meet the requirements of Section 38370, and no muffler or exhaust system shall be equipped with a cutout, bypass, or similar device.

(b) The provisions of subdivision (a) shall not be applicable to vehicles being operated off the highways in an organized racing or competitive event upon a closed course or in a hill climb or drag race, which is conducted under the auspices of a recognized sanctioning body and by permit issued by the local governmental authority having jurisdiction.

Spark Arrester

38366. (a) Notwithstanding Section 4442 of the Public Resources Code, and except for vehicles with mufflers as provided in Article 2 (commencing with Section 27150) of Chapter 5 of Division 12, no person shall use, operate, or allow to be used or operated, any off-highway motor vehicle, as defined in Section 38006, on any forest-covered land, brush-covered land, or grass-covered land unless the vehicle is equipped with a spark arrester maintained in effective working order.

(b) A spark arrester affixed to the exhaust system of a vehicle subject to this section shall not be placed or mounted in such a manner as to allow flames or heat from the exhaust system to ignite any flammable material.

(c) A spark arrester is a device constructed of nonflammable materials specifically for the purpose of removing and retaining carbon and other flammable particles over 0.0232 of an inch in size from the exhaust flow of an internal combustion engine or which is qualified and rated by the United States Forest Service.

(d) Subdivision (a) shall not be applicable to vehicles being operated off the highway in an organized racing or competitive event upon a closed course, which is conducted under the auspices of a recognized sanctioning body and by permit issued by the fire protection authority having jurisdiction.

Noise Limits

38370. (a) The Department of Motor Vehicles shall not identify any new off-highway motor vehicle, which is subject to identification and which produces a maximum noise level that exceeds the following noise limit, at a distance of 50 feet from the centerline of travel, under test procedures established by the Department of the California Highway Patrol.

(1) Any such vehicle manufactured before January 1, 1973 ......................................................... 92dBA

(2) Any such vehicle manufactured on or after January 1, 1973, and before January 1, 1975............... 88dBA

(3) Any such vehicle manufactured on or after January 1, 1975, and before January 1, 1986............. 86dBA

(4) Any such vehicle manufactured on or after January 1, 1986..................................................... 82dBA

(b) The department may accept a dealer’s certificate as proof of compliance with this section.

(c) Test procedures for compliance with this section shall be established by the Department of the California Highway Patrol, taking into consideration the test procedures of the Society of Automotive Engineers.

(d) No person shall sell or offer for sale any new off-highway motor vehicle which is subject to identification and which produces a maximum noise level that exceeds the noise limits in subdivision (a), and for which noise emission standards or regulations have not been adopted by the Administrator of the Environmental Protection Agency pursuant to the Federal Noise Control Act of 1972 (P.L. 92-574).

(e) No person shall sell or offer for sale any new off-highway motor vehicle which is subject to identification and which produces a noise level that exceeds, or in any way violates, the noise emission standards or regulations adopted for such a motor vehicle by the Administrator of the Environmental Protection Agency pursuant to the Federal Noise Control Act of 1972 (P.L. 92-574).

(f) As used in this section, the term “identify” is equivalent to the term “licensing” as used in Section 6(e)(2) of the Federal Noise Control Act of 1972 (P.L. 92-574).

(g) Any off-highway motor vehicle, when operating pursuant to Section 38001, shall at all times be equipped with a silencer, or other device, which limits noise emissions to not more than 101dBA if manufactured on or after January 1, 1975, or 105dBA if manufactured before January 1, 1975, when measured from a distance of 20 inches using test procedures established by the Society of Automotive Engineers under Standard J-1287. This subdivision shall only be operative until January 1, 2003.

(h) On and after January 1, 2003, off-highway motor vehicles, when operating pursuant to Section 38001, shall at
all times be equipped with a silencer, or other device, which limits noise emissions.

(1) Noise emissions of competition off-highway vehicles manufactured on or after January 1, 1998, shall be limited to not more than 96dBA, and if manufactured prior to January 1, 1998, to not more than 101dBA, measured from a distance of 20 inches using test procedures established by the Society of Automotive Engineers under Standard J-1287, as applicable. Noise emissions of all other off-highway vehicles shall be limited to not more than 96dBA if manufactured on or after January 1, 1986, and not more than 101dBA if manufactured prior to January 1, 1986, when measured from a distance of 20 inches using test procedures established by the Society of Automotive Engineers under Standard J-1287, as applicable.

(2) The Off-Highway Motor Vehicle Recreation Division of the Department of Parks and Recreation shall evaluate and reassess the dates specified in paragraph (1) and include the findings and recommendations in the noise report required in subdivision (a) of Section 5090.32 of the Public Resources Code.

(i) Off-highway vehicle manufacturers or their agents prior to the sale to the general public in California of any new off-highway vehicle model manufactured after January 1, 2003, shall provide to the Off-Highway Motor Vehicle Recreation Division of the California Department of Parks and Recreation rpm data needed to conduct the J-1287 test, where applicable.

**Prohibition: Use of Siren**

38395. (a) An off-highway motor vehicle, except an authorized emergency vehicle, shall not be equipped with a siren.

(b) A person driving an off-highway motor vehicle, except the driver of an authorized emergency vehicle as permitted by 21055, shall not use a siren.

Additional Equipment

38396. (a) Because of specialized conditions such as fire hazard, public safety or other circumstances, any local authority, or state or federal agencies having control over public lands may require that vehicles being operated off highway be equipped with additional equipment.

(b) When such additional equipment is required in a specific location, the governmental agency having jurisdiction over that location shall insure that such regulations are posted in a manner that operators of off-highway motor vehicles using those locations will be aware of the special requirements.

**Article 5. Emission Control Equipment**

**Pollution Control Device**

38398. No person shall operate or maintain in a condition of readiness for operation any off-highway motor vehicle which is required to be equipped with a motor vehicle pollution control device under Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code or with any other certified motor vehicle pollution control device required by any other state law or any rule or regulation adopted pursuant to such law, or required to be equipped with a motor vehicle pollution control device pursuant to the Clean Air Act (42 U.S.C. 1857 et seq.) and the standards and regulations promulgated thereunder, unless it is equipped with the required motor vehicle pollution control device which is correctly installed and in operating condition. No person shall disconnect, modify, or alter any such required device. Notwithstanding Section 43107 of the Health and Safety Code, this section shall apply only to off-highway motor vehicles of the 1978 or later model year.

**Modification Devices**

38399. No person shall install, sell, offer for sale, or advertise any device, apparatus, or mechanism intended for use with, or as a part of, any required off-highway motor vehicle pollution control device or system which alters or modifies the original design or performance of any such motor vehicle pollution control device or system.

**Imposition of Penalty for Willful Violation**

38392. When the court finds that a person has willfully violated any provision of this article, such person shall be fined the maximum amount that may be imposed for such an offense, and no part of the fine may be suspended.

“Willfully”, as used in this section, has the same meaning as the meaning of that word prescribed in Section 7 of the Penal Code.

**Operation after Notice**

38393. No person shall operate an off-highway motor vehicle after notice by a traffic officer or other authorized public officer that such vehicle is not equipped with the required motor vehicle pollution control device which alters or modifies the original design or performance of any such device.

**Proof of Correction**

38394. The notice to appear issued or complaint filed for a violation of any provision of this Article shall require that the person to whom the notice to appear is issued or against whom the complaint is filed produce proof of correction pursuant to Section 40150.

**Modification Devices: Exceptions to Prohibition**

38395. This Article shall not apply to an alteration, modification, or modifying device, apparatus, or mechanism found by resolution of the State Air Resources Board either:

(a) To not reduce the effectiveness of any required off-highway motor vehicle pollution control device; or

(b) To result in emissions from any such modified or altered off-highway vehicle which are at levels which comply with existing state or federal standards for that model year of the vehicle being modified or converted.

**Federally Owned Off-Highway Vehicles**

38396. The provisions of this Article apply to off-highway motor vehicles of the United States or its agencies, to the extent authorized by federal law.

Applicability

38397. Except as provided in Section 38390, this Article shall be applicable to all off-highway motor vehicles, whether or not subject to identification pursuant to this division and without limitation by the exceptions contained in Section 38001, and to all off-highway motor vehicles operated or maintained in a condition of readiness for operation on private or public property.

CHAPTER 7. ALL-TERRAIN VEHICLES

Off-Highway Vehicle Safety Education Committee

38500. The Off-Highway Vehicle Safety Education Committee is hereby established. The committee consists of the Commissioner of the California Highway Patrol, the Deputy Director of Parks and Recreation for Off-Highway Vehicles, the Director of Motor Vehicles, or their designees, and a member of the Off-Highway Motor Vehicle Recreation Commission appointed by the members of the commission. The committee shall receive staff assistance in its operations from the Off-Highway Motor Vehicle Recreation Division in the Department of Parks and Recreation.

Duties of Committee

38500.1. The Off-Highway Vehicle Safety Education Committee shall meet periodically to perform all of the following:

(a) Develop minimum criteria for certification as an approved all-terrain vehicle safety training organization. The criteria shall include, but not be limited to, the following:

(1) Curriculum and materials for training instructors to teach all-terrain vehicle operation and safety.

(2) Curriculum and materials for training all-terrain vehicle safety.

(3) Curriculum for teaching responsible use of off-highway vehicles with respect to environmental considerations, private property restrictions, off-highway vehicle operating laws, including noise and spark arrestor laws, and prohibitions against operating off-highway vehicles under the influence of alcohol or drugs.

(4) Record keeping and insurance requirements to satisfy the requirements of Sections 11103.1 and 11108.

(b) Upon presentation to the committee of a proposed program by an applicant to become an approved all-terrain vehicle safety training organization, the committee shall determine whether the applicant’s program meets the minimum criteria and, if approved, shall recommend the organization for licensing pursuant to Section 11105.6.

Safety Certificates

38501. (a) An all-terrain vehicle safety training organization, commencing on January 1, 1989, shall issue an all-terrain vehicle safety certificate furnished by the department to any individual who successfully completes a course of instruction in all-terrain vehicle operation and safety as approved and certified by the Off-Highway Vehicle Safety Education Committee.

(b) The department shall charge a fee not to exceed three dollars ($3) for each all-terrain vehicle safety certificate issued by an all-terrain vehicle safety training organization to each person completing a course of instruction from an all-terrain vehicle safety instructor using the approved course of instruction of the all-terrain vehicle safety training organization. The amount of the fee shall be determined by the department and shall be sufficient to defray the actual costs incurred by the department for administering and monitoring this program.

(c) An all-terrain vehicle safety training organization shall not charge a fee in excess of the fee charged by the department pursuant to subdivision (b) for furnishing an all-terrain vehicle safety certificate. An organization may charge a fee not to exceed three dollars ($3) in addition to the fee charged by the department for the issuance of a duplicate certificate and shall provide a duplicate certificate if requested by the person who completed the course.

Monitoring

38502. The department, on and after July 1, 1988, may monitor any all-terrain vehicle safety training organization or any all-terrain vehicle safety instructor without advance notice. The monitoring may include, but is not limited to, the instruction provided, business practices, and records required by Section 11108.

Conditions for Operating: Minors

38503. No person under the age of 18 years, on and after January 1, 1990, shall operate an all-terrain vehicle on public lands of this state unless the person satisfies one of the following conditions:

(a) The person is taking a prescribed safety training course under the direct supervision of a certified all-terrain vehicle safety instructor.

(b) The person is under the direct supervision of an adult who has in their possession an appropriate safety certificate issued by this state, or issued under the authority of another state.

(c) The person has in possession an appropriate safety certificate issued by this state or issued under the authority of another state.

Conditions for Operating: Additional Requirements

38504. No person under 14 years of age, on and after January 1, 1990, shall operate an all-terrain vehicle on public lands of this state unless the person satisfies one of the conditions set forth in Section 38503 and, in addition, is accompanied by and under the direct supervision of a parent or guardian or is accompanied by and under the direct supervision of an adult who is authorized by the parent or guardian.

Violation of Operating Conditions: Fines

38504.1. (a) Neither a parent or guardian of a child who is under 14 years of age, nor an adult who is authorized by the parent or guardian to supervise that child shall grant permission to, or knowingly allow, that child to operate an all-terrain vehicle in a manner that violates Section 38504.

(b) A person convicted of a violation of subdivision (a) is punishable as follows:

(1) For a first conviction, the court shall either impose a fine of one hundred twenty-five dollars ($125) or order the person to take or retake and complete an all-terrain vehicle safety training course pursuant to Section 38501. If ordered to take or retake and complete the safety training course, the person shall provide the court a copy of the all-terrain vehicles safety certificate issued as a result of that completion.

(2) For a second conviction, a fine of not less than one hundred twenty-five dollars ($125) nor more than two hundred fifty dollars ($250).

(3) For a third or any subsequent conviction, a fine of not less than two hundred fifty dollars ($250) nor more than five hundred dollars ($500).

Added Sec. 1, Ch. 190, Stats. 2006. Effective January 1, 2007.

Court Ordered Safety Training Course

38504.2. If a person under 14 years of age was not properly supervised or accompanied in accordance with Section 38504, and the parent or guardian of that child or the adult who was authorized by the parent or guardian to supervise or accompany that child is in violation of Section 38504.1, upon a conviction pursuant to Section 38504, the court may order that child to attend and complete the all-terrain vehicle safety training course accompanied by the person who violated Section 38504.1. If so ordered, the child under 14 years of age shall provide the court a copy of the all-terrain vehicle safety certificate issued as a result of that completion.

Added Sec. 2, Ch. 190, Stats. 2006. Effective January 1, 2007.

Safety Helmet Required

38505. No person, on and after January 1, 1989, shall operate, ride, or be otherwise propelled on an all-terrain vehicle on public lands unless the person wears a safety helmet meeting requirements established for motorcycles and motorized bicycles, pursuant to Section 27802.

Passengers Prohibited

38506. No operator of an all-terrain vehicle may carry a passenger when operating on public lands.

However, the operator of an all-terrain vehicle, that is designed for operation off of the highway by an operator with no more than one passenger, may carry a passenger when operating on public lands.

Chapter 8. RECREATIONAL OFF-HIGHWAY VEHICLES

Minimum Age Requirements

38600. A person operating a recreational off-highway vehicle shall be at least 16 years of age, or be directly supervised in the vehicle by a parent or guardian or by an adult authorized by the parent or guardian.

Safety Helmet Required

38601. A person shall not operate, or allow a passenger in, a recreational off-highway vehicle on public lands unless the person and the passenger are wearing safety helmets meeting the requirements established for motorcycles and motorized bicycles pursuant to Section 27802.

Amended Sec. 1, Ch. 355, Stats. 2014. Effective January 1, 2015.

The 2014 amendment added the italicized material.
DIVISION 16.6. AUTONOMOUS VEHICLES
(Added Sec. 2, Ch. 570, Stats. 2012. Effective Jan. 01, 2013.)

Autonomous Vehicles

38750. (a) For purposes of this division, the following definitions apply:

(1) “Autonomous technology” means technology that has the capability to drive a vehicle without the active physical control or monitoring by a human operator.

(2) (A) “Autonomous vehicle” means any vehicle equipped with autonomous technology that has been integrated into that vehicle.

(B) An autonomous vehicle does not include a vehicle that is equipped with one or more collision avoidance systems, including, but not limited to, electronic blind spot assistance, automated emergency braking systems, park assist, adaptive cruise control, lane keep assist, lane departure warning, traffic jam and queuing assist, or other similar systems that enhance safety or provide driver assistance, but are not capable, collectively or singularly, of driving the vehicle without the active control or monitoring of a human operator.

(3) “Department” means the Department of Motor Vehicles.

(4) An “operator” of an autonomous vehicle is the person who is seated in the driver’s seat, or, if there is no person in the driver’s seat, causes the autonomous technology to engage.

(5) A “manufacturer” of autonomous technology is the person as defined in Section 470 that originally manufactures a vehicle and equips autonomous technology on the originally completed vehicle or, in the case of a vehicle not originally equipped with autonomous technology by the vehicle manufacturer, the person that modifies the vehicle by installing autonomous technology to convert it to an autonomous vehicle after the vehicle was originally manufactured.

(b) An autonomous vehicle may be operated on public roads for testing purposes by a driver who possesses the proper class of license for the type of vehicle being operated if all of the following requirements are met:

(1) The autonomous vehicle is being operated on roads in this state solely by employees, contractors, or other persons designated by the manufacturer of the autonomous technology.

(2) The driver shall be seated in the driver’s seat, monitoring the safe operation of the autonomous vehicle, and capable of taking over immediate manual control of the autonomous vehicle in the event of an autonomous technology failure or other emergency.

(3) Prior to the start of testing in this state, the manufacturer performing the testing shall obtain an instrument of insurance, surety bond, or proof of self-insurance in the amount of five million dollars ($5,000,000), and shall provide evidence of the insurance, surety bond, or self-insurance to the department in the form and manner required by the department pursuant to the regulations adopted pursuant to subdivision (d).

(c) Except as provided in subdivision (b), an autonomous vehicle shall not be operated on public roads until the manufacturer submits an application to the department, and that application is approved by the department pursuant to the regulations adopted pursuant to subdivision (d). The application shall contain, at a minimum, all of the following certifications:

(1) A certification by the manufacturer that the autonomous technology satisfies all of the following requirements:

(A) The autonomous vehicle has a mechanism to engage and disengage the autonomous technology that is easily accessible to the operator.

(B) The autonomous vehicle has a visual indicator inside the cabin to indicate when the autonomous technology is engaged.

(C) The autonomous vehicle has a system to safely alert the operator if an autonomous technology failure is detected while the autonomous technology is engaged, and when an alert is given, the system shall do either of the following:

(i) Require the operator to take control of the autonomous vehicle.

(ii) If the operator does not or is unable to take control of the autonomous vehicle, the autonomous vehicle shall be capable of coming to a complete stop.

(D) The autonomous vehicle shall allow the operator to take control in multiple manners, including, without limitation, through the use of the brake, the accelerator pedal, or the steering wheel, and it shall alert the operator that the autonomous technology has been disengaged.

(E) The autonomous vehicle’s autonomous technology meets Federal Motor Vehicle Safety Standards for the vehicle’s model year and all other applicable safety standards and performance requirements set forth in state and federal law and the regulations promulgated pursuant to those laws.

(F) The autonomous technology does not make inoperative any Federal Motor Vehicle Safety Standards for the vehicle’s model year and all other applicable safety standards and performance requirements set forth in state and federal law and the regulations promulgated pursuant to those laws.

(G) The autonomous vehicle has a separate mechanism, in addition to, and separate from, any other mechanism required by law, to capture and store the autonomous technology sensor data for at least 30 seconds before a collision occurs between the autonomous vehicle and another vehicle, object, or natural person while the vehicle is operating in autonomous mode. The autonomous technology sensor data shall be captured and stored in a read-only format by the mechanism so that the data is retained until extracted from the mechanism by an external device capable of downloading and storing the data. The data shall be preserved for three years after the date of the collision.

(2) A certification that the manufacturer has tested the autonomous technology on public roads and has complied with the testing standards, if any, established by the department pursuant to subdivision (d).

(3) A certification that the manufacturer will maintain, an instrument of insurance, a surety bond, or proof of self-insurance as specified in regulations adopted by the department pursuant to subdivision (d), in an amount of five million dollars ($5,000,000).

(d) (1) As soon as practicable, but no later than January 1, 2015, the department shall adopt regulations setting forth requirements for the submission of evidence of insurance, surety bond, or self-insurance required by subdivision (b), and the submission and approval of an application to operate an autonomous vehicle pursuant to subdivision (c).

(2) The regulations shall include any testing, equipment, and performance standards, in addition to those established
for purposes of subdivision (b), that the department concludes are necessary to ensure the safe operation of autonomous vehicles on public roads, with or without the presence of a driver inside the vehicle. In developing these regulations, the department may consult with the Department of the California Highway Patrol, the Institute of Transportation Studies at the University of California, or any other entity identified by the department that has expertise in automotive technology, automotive safety, and autonomous system design.

(3) The department may establish additional requirements by the adoption of regulations, which it determines, in consultation with the Department of the California Highway Patrol, are necessary to ensure the safe operation of autonomous vehicles on public roads, including, but not limited to, regulations regarding the aggregate number of deployments of autonomous vehicles on public roads, special rules for the registration of autonomous vehicles, new license requirements for operators of autonomous vehicles, and rules for revocation, suspension, or denial of any license or any approval issued pursuant to this division.

(4) The department shall hold public hearings on the adoption of any regulation applicable to the operation of an autonomous vehicle without the presence of a driver inside the vehicle.

(e) (1) The department shall approve an application submitted by a manufacturer pursuant to subdivision (c) if it finds that the applicant has submitted all information and completed testing necessary to satisfy the department that the autonomous vehicles are safe to operate on public roads and the applicant has complied with all requirements specified in the regulations adopted by the department pursuant to subdivision (d).

(2) Notwithstanding paragraph (1), if the application seeks approval for autonomous vehicles capable of operating without the presence of a driver inside the vehicle, the department may impose additional requirements it deems necessary to ensure the safe operation of those vehicles, and may require the presence of a driver in the driver's seat of the vehicle if it determines, based on its review pursuant to paragraph (1), that such a requirement is necessary to ensure the safe operation of those vehicles on public roads. The department shall notify the Legislature of the receipt of an application from a manufacturer seeking approval to operate an autonomous vehicle capable of operating without the presence of a driver inside the vehicle and approval of the application. Approval of the application shall be effective no sooner than 180 days after the date the application is submitted.

(f) Nothing in this division shall limit or expand the existing authority to operate autonomous vehicles on public roads, until 120 days after the department adopts the regulations required by paragraph (1) of subdivision (d).

(g) Federal regulations promulgated by the National Highway Traffic Safety Administration shall supersede the provisions of this division when found to be in conflict with any other state law or regulation.

(h) The manufacturer of the autonomous technology installed on a vehicle shall provide a written disclosure to the purchaser of an autonomous vehicle that describes what information is collected by the autonomous technology equipped on the vehicle. The department may promulgate regulations to assess a fee upon a manufacturer that submits an application pursuant to subdivision (c) to operate autonomous vehicles on public roads in an amount necessary to recover all costs reasonably incurred by the department.

§39000

DIVISION 16.7. REGISTRATION AND LICENSING OF BICYCLES
(Amended Ch. 1250, Stats. 1975. Effective January 1, 1976.)

Bicycle Defined

39000. “Bicycle,” for the purposes of this division, means any device upon which a person may ride, which is propelled by human power through a system of belts, chains, or gears having either two or three wheels (one of which is at least 20 inches in diameter) or having a frame size of at least 14 inches, or having four or more wheels.

Licenses and Registration Forms

39001. (a) The department shall procure and distribute bicycle license indicia and registration forms to all counties and cities which have adopted a bicycle licensing ordinance or resolution. Those counties and cities shall issue the indicia and registration form to the owner of any new bicycle, and may, upon request of the owner, issue an indicia and registration form to the owner of any bicycle which complies with Section 39007.

(b) The director shall design the bicycle license indicia and registration form described in subdivision (a), and shall establish procedures for the distribution of the indicia and registration form to counties and cities. The indicia shall be adhesive, durable, flexible, and of a size to permit it to be affixed to the front of the seat tube of the bicycle frame. Each indicia shall bear a unique license number and shall be permanently assigned to a bicycle. Each registration form shall comply with Section 39005.

(c) Bicycle licenses shall be renewed uniformly throughout the state on January 1 of the third year following the year of registration. Renewal of a bicycle license shall be indicated by a supplementary adhesive device affixed parallel to, and above or below, the indicia, with the expiration date showing.

License Requirement

39002. (a) A city or county, which adopts a bicycle licensing ordinance or resolution, may provide in the ordinance or resolution that no resident shall operate any bicycle, as specified in the ordinance, on any street, road, highway, or other public property within the jurisdiction of the city or county, as the case may be, unless the bicycle is licensed in accordance with this division.

(b) It is unlawful for any person to tamper with, destroy, mutilate, or alter any license indicia or registration form, or to remove, alter, or mutilate the serial number, or the identifying marks of a licensing agency’s identifying symbol, on any bicycle frame licensed under this division.
Amended Sec. 8, Ch. 674, Stats. 1996. Effective January 1, 1997.

Issuance to Owner

39003. If a city or county has or adopts a bicycle licensing ordinance or resolution, indicia and a copy of the registration form obtained from the department shall be issued to the owner by the city or county or other licensing agency designated by it.

Fees

39004. Each licensing agency, by ordinance or resolution, may adopt rules and regulations for the collection of license fees. Revenues from license fees shall be retained by the licensing city or county and shall be used for the support of such bicycle ordinance or resolution, and may be used to reimburse retailers for services rendered. In addition, fees collected shall be used to improve bicycle safety programs and establish bicycle facilities, including bicycle paths and lanes, within the limits of the jurisdiction.

The fees required to be paid pursuant to this division are as follows:

(a) For each new bicycle license and registration certificate, the sum shall not exceed four dollars ($4) per year or any portion thereof.

(b) For each transfer of registration certificate, the sum shall not exceed two dollars ($2).

(c) For each replacement of a bicycle license or registration certificate, the sum shall not exceed two dollars ($2).

(d) For each bicycle license renewal, the sum shall not exceed two dollars ($2) per year.

Records

39005. Cities and counties having a bicycle licensing ordinance or resolution shall maintain records of each bicycle registered. Such records shall include, but not be limited to, the license number, the serial number of the bicycle, the make and type, of the bicycle, and the name and address of the licensee.

Records shall be maintained by the licensing agency during the period of validity of the license or until notification that the bicycle is no longer to be operated.

Information Required Upon Retail Sale

39006. (a) Each bicycle retailer and each bicycle dealer shall supply to each purchaser preregistration form provided by the licensing agency and shall include on the sales check or receipt given to the purchaser, a record of the following information: name of retailer, address of retailer, year and make of the bicycle, serial number of bicycle if delivered to the purchaser in an assembled state, general description of the bicycle, name of purchaser, and address of purchaser. A copy of the preregistration form shall be filled out and forwarded by the purchaser to the appropriate licensing agency within 10 days from the date of sale.

(b) For the purposes of this division, a bicycle dealer is any person who sells, gives away, buys, or takes in trade for the purpose of resale, more than five bicycles in any one calendar year, whether or not such bicycles are owned by such person. “Bicycle dealer” also includes agents or employees of such person.
Serial Numbers

39007. After December 31, 1976, no bicycle retailer shall sell any new bicycle in this state unless such bicycle has legibly and permanently stamped or cast on its frame a serial number, no less than one-eighth inch in size, and unique to the particular bicycle of each manufacturer. The serial number only shall be stamped or cast in the head of the frame, either side of the seat tube, the toeplate or the bottom sprocket (crank) housing. Amended Ch. 1250, Stats. 1975. Effective January 1, 1976.

Recordation of Transfer

39008. (a) Whenever any person sells or otherwise disposes of a bicycle, he shall endorse upon the registration certificate previously issued for such bicycle a written transfer of same, setting forth the name, address, telephone number of the transferee, date of transfer, and signature of the transferrer, and shall deliver the registration certificate, so endorsed, to the licensing agency within 10 days. (b) Any person who purchases or otherwise acquires possession of a bicycle shall within 10 days of taking possession apply for the transfer of license to his own name. Cities and counties may establish rules and regulations to govern and enforce the provisions of this section. Amended Ch. 1250, Stats. 1975. Effective January 1, 1976.

Notification of Change of Address; Duplicate License or Registration Form

39009. (a) Whenever the owner of a bicycle licensed pursuant to an ordinance or resolution of a city or county changes his address, he shall within 10 days notify the appropriate licensing agency of the old and new address. (b) In the event that any bicycle license indicia or registration form issued pursuant to the provisions of this division is lost, stolen, or mutilated, the licensee of such bicycle shall immediately notify the licensing agency and, within 10 days after such notification, shall apply to the licensing agency for a duplicate license indicia or registration form. Thereupon, the licensing agency shall issue to such licensee a replacement indicia or registration form upon payment to the licensing agency of the appropriate fee. Amended Ch. 1250, Stats. 1975. Effective January 1, 1976.

Fines: Limitations

39011. No fine imposed for any violation of an ordinance or resolution, which is adopted pursuant to this division, shall exceed ten dollars ($10). Amended Ch. 1092, Stats. 1983. Effective September 26, 1983. Operative January 1, 1984.
DIVISION 17. OFFENSES AND PROSECUTION

CHAPTER 1. OFFENSES

Article 1. Violation of Code

Infractions

§40000.1. Except as otherwise provided in this article, it is unlawful and constitutes an infraction for any person to violate, or fail to comply with any provision of this code, or any local ordinance adopted pursuant to this code.

Felons and Offenses Punishable Either as Felonies or Misdemeanors; Violation of Court Order Punishable as Contempt

§40000.3. A violation expressly declared to be a felony, or a public offense which is punishable in the discretion of the court, either as a felony or misdemeanor, or a willful violation of a court order which is punishable as contempt pursuant to subdivision (a) of Section 42003, is not an infraction.

Misdemeanors

§40000.5. A violation of any of the following provisions shall constitute a misdemeanor, and not an infraction:

(a) Section 20, relating to false statements.

(b) Section 27, relating to impersonating a member of the California Highway Patrol.

(c) Section 31, relating to giving false information.

Paragraph (3) of subdivision (a), or subdivision (b), or both, of Section 221, relating to proper evidence of clearance for dismantling.

Misdemeanors

§40000.6. A violation of any of the following is a misdemeanor, and not an infraction:

(a) Subdivision (b) of Section 1808.1, relating to enrollment in the pull notice system.

(b) Subdivision (i) of Section 1808.1, relating to employment of disqualified drivers.

Misdemeanors

§40000.7. A violation of any of the following provisions is a misdemeanor, and not an infraction:

(1) Section 2416, relating to regulations for emergency vehicles.

(2) Section 2800, relating to failure to obey an officer’s lawful order or submit to a lawful inspection.

(3) Section 2800.1, relating to fleeing from a peace officer.

(4) Section 2801, relating to failure to obey a firefighter’s lawful order.

(5) Section 2803, relating to unlawful vehicle or load.

(6) Section 2813, relating to stopping for inspection.

(7) Subdivisions (b), (c), and (d) of Section 4461 and subdivisions (b) and (c) of Section 4463, relating to disabled person placards and disabled person and disabled veteran license plates.

(8) Section 4462.5, relating to deceptive or false evidence of vehicle registration.

(9) Section 4463.5, relating to deceptive or facsimile license plates.

(10) Section 5500, relating to the surrender of registration documents and license plates before dismantling may begin.

(11) Section 5506, relating to the sale of a total loss salvage vehicle, or of a vehicle reported for dismantling by a salvage vehicle rebuilder.

(12) Section 5753, relating to delivery of certificates of ownership and registration when committed by a dealer or any person while a dealer within the preceding 12 months.

(13) Section 5901, relating to dealers and lessor-retailers giving notice.

(14) Section 5901.1, relating to lessors giving notice and failure to pay fee.

(15) Section 8802, relating to the return of canceled, suspended, or revoked certificates of ownership, registration cards, or license plates, when committed by any person with intent to defraud.

(16) Section 8803, relating to return of canceled, suspended, or revoked documents and license plates of a dealer, manufacturer, remanufacturer, transporter, dismantler, or salesman.

(b) This section shall become operative on January 1, 2001.

Amended Sec. 26, Ch. 709, Stats. 2010. Effective January 1, 2011.

Misdemeanors

§40000.8. A violation of any of the following provisions is a misdemeanor, and not an infraction:

(a) Section 9872, relating to the registration of vessels.

(b) Section 9872.1, relating to unidentified vessels.

Misdemeanors

§40000.9. A violation of any of the following provisions shall constitute a misdemeanor, and not an infraction:

(a) Division 5 (commencing with Section 11100), relating to occupational licensing and business regulations.

(b) Section 12500, subdivision (a), relating to unlicensed drivers.

(c) Section 12515, subdivision (b), relating to persons under 21 years of age driving, and the employment of those persons to drive, vehicles engaged in interstate commerce or transporting hazardous substances or wastes.

(d) Section 12517, relating to a special driver’s certificate to operate a schoolbus or school pupil activity bus.

(e) Section 12517.45, relating to a special driver’s certificate and vehicle inspection for the transportation of pupils to or from school-related activities by a passenger charter-party carrier as defined in subdivision (k) of Section 545.

(f) Section 12519, subdivision (a), relating to a special driver’s certificate to operate a farm labor vehicle.

(11) Section 5506, relating to the sale of a total loss salvage vehicle, or of a vehicle reported for dismantling by a salvage vehicle rebuilder.

(12) Section 5753, relating to delivery of certificates of ownership and registration when committed by a dealer or any person while a dealer within the preceding 12 months.

(13) Section 5901, relating to dealers and lessor-retailers giving notice.

(14) Section 5901.1, relating to lessors giving notice and failure to pay fee.

(15) Section 8802, relating to the return of canceled, suspended, or revoked certificates of ownership, registration cards, or license plates, when committed by any person with intent to defraud.

(16) Section 8803, relating to return of canceled, suspended, or revoked documents and license plates of a dealer, manufacturer, remanufacturer, transporter, dismantler, or salesman.

(b) This section shall become operative on January 1, 2001.

Amended Sec. 26, Ch. 709, Stats. 2010. Effective January 1, 2011.

Misdemeanors

§40000.8. A violation of any of the following provisions is a misdemeanor, and not an infraction:

(a) Section 9872, relating to the registration of vessels.

(b) Section 9872.1, relating to unidentified vessels.

Misdemeanors

§40000.9. A violation of any of the following provisions shall constitute a misdemeanor, and not an infraction:

(a) Division 5 (commencing with Section 11100), relating to occupational licensing and business regulations.

(b) Section 12500, subdivision (a), relating to unlicensed drivers.

(c) Section 12515, subdivision (b), relating to persons under 21 years of age driving, and the employment of those persons to drive, vehicles engaged in interstate commerce or transporting hazardous substances or wastes.

(d) Section 12517, relating to a special driver’s certificate to operate a schoolbus or school pupil activity bus.

(e) Section 12517.45, relating to a special driver’s certificate and vehicle inspection for the transportation of pupils to or from school-related activities by a passenger charter-party carrier as defined in subdivision (k) of Section 545.

(f) Section 12519, subdivision (a), relating to a special driver’s certificate to operate a farm labor vehicle.
Subdivision (a) or (b) of Section 23224, relating to persons under 21 years of age knowingly driving, or being a passenger in, a motor vehicle carrying any alcoholic beverage.

Section 23253, relating to directions on toll highways or vehicular crossings.

Section 23332, relating to trespassing.

Section 24002.5, relating to unlawful operation of a farm vehicle.

Section 24011.3, relating to vehicle bumper strength notices.

Section 27150.1, relating to sale of exhaust systems.

Section 27362, relating to child passenger seat restraints.

Section 28050, relating to true mileage driven.

Section 28050.5, relating to nonfunctional odometers.

Section 28051, relating to resetting odometers.

Section 28051.5, relating to devices to reset odometers.

Subdivision (d) of Section 28150, relating to possessing four or more jamming devices.

§40000.20

Misdemeanors

40000.13. A violation of any of the following provisions is a misdemeanor, and not an infraction:

(a) Section 16560, relating to interstate highway carriers.
(b) Sections 20002 and 20003, relating to duties at accidents.
(c) Section 21200.5, relating to riding a bicycle while under the influence of an alcoholic beverage or any drug.
(d) Subdivision (b) of Section 21651, relating to wrong-way driving on divided highways.
(e) Section 22520.5, a second or subsequent conviction of an offense relating to vending on or near freeways.
(f) Section 22520.6, a second or subsequent conviction of an offense relating to roadside rest areas and vista points.

(g) This section shall become operative on the date that the Secretary of State receives the notice from the Director of Transportation as described in Section 5205.5.

Amended Sec. 6, Ch. 609, Stats. 2006. Effective January 1, 2007.

Misdemeanors

40000.14. A violation of subdivision (b) or (c) of Section 21367 is an infraction, except as follows:

(a) A willful violation is a misdemeanor.
(b) A willful violation committed in a manner exhibiting a wanton disregard for the safety of persons is a misdemeanor punishable by imprisonment in the county jail for not more than one year.

Misdemeanors

40000.15. A violation of any of the following provisions shall constitute a misdemeanor, and not an infraction:

Subdivision (g), (j), (k), (l), or (m) of Section 22658, relating to unlawfully towed or stored vehicles.
Sections 23103 and 23104, relating to reckless driving.
Section 23109, relating to speed contests or exhibitions.
Subdivision (a) of Section 23110, relating to throwing at vehicles.
Section 23152, relating to driving under the influence.
Subdivision (b) of Section 23222, relating to possession of marijuana.

Subdivision (a) or (b) of Section 23224, relating to persons under 21 years of age knowingly driving, or being a passenger in, a motor vehicle carrying any alcoholic beverage.

Section 23253, relating to directions on toll highways or vehicular crossings.

Section 23332, relating to trespassing.

Section 24002.5, relating to unlawful operation of a farm vehicle.

Section 24011.3, relating to vehicle bumper strength notices.

Section 27150.1, relating to sale of exhaust systems.

Section 27362, relating to child passenger seat restraints.

Section 28050, relating to true mileage driven.

Section 28050.5, relating to nonfunctional odometers.

Section 28051, relating to resetting odometers.

Section 28051.5, relating to devices to reset odometers.

Subdivision (d) of Section 28150, relating to possessing four or more jamming devices.

Amended Sec. 6, Ch. 609, Stats. 2006. Effective January 1, 2007.

Misdemeanors

40000.16. A second or subsequent violation of Section 23114, relating to preventing the escape of materials from vehicles, occurring within two years of a prior violation of that section is a misdemeanor, and not an infraction.

Misdemeanors

40000.18. A violation of subdivision (b) of Section 31401 or Section 31402 or Section 31403, relating to farm labor vehicles, is a misdemeanor and not an infraction.

Misdemeanors

40000.19. A violation of any of the following provisions is a misdemeanor, and not an infraction:

(a) Section 31303, relating to transportation of hazardous waste.
(b) Division 14 (commencing with Section 31600), relating to transportation of explosives.
(c) Division 14.1 (commencing with Section 32000), relating to the transportation of hazardous material.
(d) Division 14.3 (commencing with Section 32100), relating to transportation of inhalation hazards.
(e) Division 14.5 (commencing with Section 33000), relating to transportation of radioactive materials.
(f) Division 14.7 (commencing with Section 34001), relating to flammable liquids.

Misdemeanors

40000.20. A third or subsequent violation of Section 23225, relating to the storage of an opened container of an alcoholic beverage, or Section 23223, relating to the possession of an open container of an alcoholic beverage, by a driver of a vehicle used to provide transportation services on a prearranged basis, operating under a valid certificate or permit pursuant to the Passenger Charter-party Carriers’ Act (Chapter 8 (commencing with Section 5351) of Division 2 of the Public Utilities Code), is a misdemeanor.

Amended Sec. 198, Ch. 76, Stats. 2013. Effective January 1, 2014.
§40000.21  A violation of any of the following provisions is a misdemeanor, and not an infraction:
(a) Subdivision (a) of Section 34506, relating to the hours of service of drivers.
(b) Subdivision (b) of Section 34506, relating to the transportation of hazardous materials.
(c) Subdivision (c) of Section 34506, relating to school buses.
(d) Subdivision (d) of Section 34506, relating to youth buses.
(e) Section 34505 or subdivision (e) of Section 34506, relating to tour buses.
(f) Section 34505.5 or subdivision (f) of Section 34506, relating to vehicles described in subdivisions (a) to (g), inclusive, of Section 34500.

Misdemeanors

40000.22. (a) A violation of subdivision (e) of Section 34501, subdivision (f) of Section 34501.12, or subdivision (c) of Section 34501.14, relating to applications for inspections, is a misdemeanor and not an infraction.
(b) A violation of Division 14.85 (commencing with Section 34600), relating to motor carriers of property, is a misdemeanor and not an infraction.
(c) This section shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends that date.

NOTE: The preceding section remained in effect only until January 1, 2016, at which time the following section becomes operative.

40000.22. (a) A violation of subdivision (e) of Section 34501, subdivision (b) or (d) of Section 34501.12, or subdivision (c) of Section 34501.14, relating to applications for inspections, is a misdemeanor and not an infraction.
(b) A violation of Division 14.85 (commencing with Section 34600), relating to motor carriers of property, is a misdemeanor and not an infraction.
(c) This section shall become operative on January 1, 2016.

Misdemeanors

40000.24. A violation of any of the following provisions shall constitute a misdemeanor and not an infraction:
(a) Subdivision (c) of Section 38301.5, relating to unauthorized operation of a vehicle within a mountain fire district.
(b) Section 38316, relating to reckless driving.
(c) Section 38317, relating to reckless driving with injury.
(d) Subdivision (a) of Section 38318 or subdivision (a) of Section 38318.5, relating to off-highway vehicles.
(e) Section 38319, relating to protection of the environment.
(f) Section 38320, relating to the depositing of matter.

Misdemeanors

40000.25. A violation of any of the following provisions shall constitute a misdemeanor, and not an infraction:
Section 40005, relating to owner’s responsibility.
Section 40504, relating to false signatures.
Section 40508, relating to failure to appear or to pay fine.
Section 40519, relating to failure to appear.
Section 40614, relating to use of a fictitious name.
Section 40616, relating to a willful violation of a notice to correct.

Misdemeanors

40000.26. A violation of subdivision (g) of Section 34501.12 or subdivision (d) of Section 34501.14, relating to inspections, is a misdemeanor and not an infraction.

Misdemeanor: Three or More Violations

40000.28. Any offense which would otherwise be an infraction is a misdemeanor if a defendant has been convicted of three or more violations of this code or any local ordinance adopted pursuant to this code within the 12-month period immediately preceding the commission of the offense and such prior convictions are admitted by the defendant or alleged in the accusatory pleading. For this purpose, a bail forfeiture shall be deemed to be a conviction of the offense charged.

This section shall have no application to violations by pedestrians.

Misdemeanor

40000.61. A violation of Section 1808.45, relating to unauthorized disclosure of department records, is a misdemeanor, and not an infraction.

Misdemeanors

40000.65. A violation of Section 2430.5 or 2432, relating to emergency road service, is a misdemeanor and not an infraction.

Misdemeanor

40000.70. A violation of Section 23112.5, relating to notification of an on-highway hazardous material or hazardous waste spill, is a misdemeanor and not an infraction.
Misdemeanor

40000.77. A violation of Article 7 (commencing with Section 2570) of Chapter 2.5 of Division 2, relating to transportation of school pupils, is a misdemeanor, not an infraction.

Owner’s Responsibility: Fine

40001. (a) It is unlawful for the owner, or any other person, employing or otherwise directing the driver of any vehicle to cause the operation of the vehicle upon a highway in any manner contrary to law.

(b) It is unlawful for an owner to request, cause, or permit the operation of any vehicle that is any of the following:

(1) Not registered or for which any fee has not been paid under this code.

(2) Not equipped as required in this code.

(3) Not in compliance with the size, weight, or load provisions of this code.

(4) Not in compliance with the regulations promulgated pursuant to this code, or with applicable city or county ordinances adopted pursuant to this code.

(5) Not in compliance with the provisions of Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code and the rules and regulations of the State Air Resources Board.

(c) Any employer who violates an out-of-service order, that complies with Section 396.9 of Title 49 of the Code of Federal Regulations, or who knowingly requires or permits a driver to violate or fail to comply with that out-of-service order, is guilty of a misdemeanor.

(d) An employer who is convicted of allowing, permitting, requiring, or authorizing a driver to operate a commercial motor vehicle in violation of any statute or regulation pertaining to a railroad-highway grade crossing is subject to a fine of not more than ten thousand dollars ($10,000).

(e) Whenever a violation is chargeable to the owner or lessee of a vehicle pursuant to subdivision (a) or (b), the driver shall not be arrested or cited for the violation unless the vehicle is registered in a state or country other than California, or unless the violation is for an offense that is clearly within the responsibility of the driver.

(f) Whenever the owner, or lessee, or any other person is prosecuted for a violation pursuant to this section, the court may, on the request of the defendant, take appropriate steps to make the driver of the vehicle, or any other person who directs the loading, maintenance, or operation of the vehicle, a codefendant. However, the court may make the driver a codefendant only if the driver is the owner or lessee of the vehicle, or the driver is an employee or a contractor of the defendant who requested the court to make the driver a codefendant. If the codefendant is held solely responsible and found guilty, the court may dismiss the charge against the defendant.

(g) In any prosecution under this section, it is a rebuttable presumption that any person who gives false or erroneous information in a written certification of actual gross cargo weight has directed, requested, caused, or permitted the operation of a vehicle in a manner contrary to law in violation of subdivision (a) or (b), or both.

Prosecution of Persons Owning or Controlling Vehicles

40002. (a) If there is a violation of Section 40001, an owner or any other person subject to Section 40001, who was not driving the vehicle involved in the violation, may be mailed a written notice to appear. An exact and legible duplicate copy of that notice when filed with the court, in lieu of a verified complaint, is a complaint to which the defendant may plead “guilty.”

(2) If, however, the defendant fails to appear in court or does not deposit lawful bail, or pleads other than “guilty” of the offense charged, a verified complaint shall be filed which shall be deemed to be an original complaint, and thereafter proceedings shall be had as provided by law, except that a defendant may, by an agreement in writing, subscribed by the defendant and filed with the court, waive the filing of a verified complaint and elect that the prosecution may proceed upon a written notice to appear.

(3) A verified complaint pursuant to paragraph (2) shall include a paragraph that informs the person that unless he or she appears in the court designated in the complaint within 21 days after being given the complaint and answers the charge, renewal of registration of the vehicle involved in the offense may be precluded by the department, or a warrant of arrest may be issued against him or her.

(b) (1) If a person mailed a notice to appear pursuant to paragraph (1) of subdivision (a) fails to appear in court or deposit bail, a warrant of arrest shall not be issued based on the notice to appear, even if that notice is verified. An arrest warrant may be issued only after a verified complaint pursuant to paragraph (2) of subdivision (a) is given the person and the person fails to appear in court to answer that complaint.

(2) If a person mailed a notice to appear pursuant to paragraph (1) of subdivision (a) fails to appear in court or deposit bail, the court may give by mail to the person a notice of noncompliance. A notice of noncompliance shall include a paragraph that informs the person that unless he or she appears in the court designated in the notice to appear within 21 days after being given by mail the notice of noncompliance and answers the charge on the notice to appear, or pays the applicable fine and penalties if an appearance is not required, renewal of registration of the vehicle involved in the offense may be precluded by the department.

(c) A verified complaint filed pursuant to this section shall conform to Chapter 2 (commencing with Section 948) of Title 5 of Part 2 of the Penal Code.

(d) (1) The giving by mail of a notice to appear pursuant to paragraph (1) of subdivision (a) or a notice of noncompliance pursuant to paragraph (2) of subdivision (b) shall be done in a manner prescribed by Section 22.

(2) The verified complaint pursuant to paragraph (2) of subdivision (a) shall be given in a manner prescribed by Section 22.

Amended Sec. 2 and added Sec. 3, Ch. 452, Stats. 2007. Effective January 1, 2008.
Amended Sec. 202, Ch. 326, Stats. 2010. Effective January 1, 2011.

Notice to Department: Failure to Appear

40002.1. (a) Whenever a person has failed to appear in the court designated in the notice to appear or a verified complaint specified in Section 40002, following personal service of the notice of noncompliance or deposit in the mail...
pursuant to Section 22, the magistrate or clerk of the court may give notice of that fact to the department.

(b) Whenever matter is adjudicated, including a dismissal of the charges upon forfeiture of bail or otherwise, the magistrate or clerk of the court hearing the matter shall immediately do all of the following:

(1) Endorse a certificate to that effect.

(2) Provide the person or the person’s attorney with a copy of the certificate.

(3) Transmit a copy of the certificate to the department.

(c) A notice of noncompliance shall not be transmitted to the department pursuant to subdivision (a) if a warrant of arrest has been issued on the same offense pursuant to subdivision (b) of Section 40002. A warrant of arrest shall not be issued pursuant to subdivision (b) of Section 40002 if a notice of noncompliance has been transmitted to the department on the same offense pursuant to this section, except that, when a notice has been received by the court pursuant to subdivision (c) of Section 4766 or recalled by motion of the court, a warrant may then be issued.

Amended Sec. 4, Ch. 452, Stats. 2007. Effective January 1, 2008.

**Prosecution of Employees**

40003. Whenever an employee is prosecuted for a violation of any provision of this code, or regulations promulgated pursuant to this code, relating to the size, weight, registration, equipment, or loading of a vehicle while operating a vehicle he was employed to operate, and which is owned by his employer, the court shall on the request of the employee take appropriate proceedings to make the owner of the vehicle a codefendant. In the event it is found that the employee had reasonable grounds to believe that the vehicle operated by him as an employee did not violate such provisions, and in the event the owner is found guilty under the provisions of Section 40001, the court may dismiss the charges against the employee.

In those cases in which the charges against the employee are dismissed, the abstract of the record of the court required by Section 1803 shall clearly indicate that such charges were dismissed and that the owner of the vehicle was found guilty under Section 40001.

**Period for Commencing Criminal Action**

40004. (a) The period for commencing criminal action against any person having filed or caused to be filed any false, fictitious, altered, forged or counterfeit document with the Department of Motor Vehicles or the Department of the California Highway Patrol shall, if the offense is a misdemeanor, expire one year from time of discovery of such act.

(b) The period for commencing criminal action against any person having filed or caused to be filed any false, fictitious, altered, forged or counterfeit document with the Department of Motor Vehicles or the Department of the California Highway Patrol shall, if the offense is a felony, expire three years from time of discovery of such act.

(c) The time allowed for commencing criminal proceedings as provided in subdivisions (a) and (b) of this section shall not extend beyond five years from the date of commission of the act.

**Employer’s Failure**

40005. Whenever a driver is cited for a violation of any provision of this code, or regulations promulgated pursuant to this code, relating to the size, weight, equipment, registrations, fees, or loading of a vehicle, while operating a vehicle he was employed or otherwise directed to operate, and which is not owned by him, and the driver gives the citation to the owner or any other person referred to in Section 40001, if the owner or other person undertakes to answer the charge or otherwise to cause its disposition without any further action by the driver and then fails to act in accordance with the undertaking as a consequence of which a warrant is issued for the arrest of the driver, the owner or other person is guilty of a misdemeanor.

**Towed Vehicle; Owner Responsibility**

40006. Whenever a disabled vehicle, being taken to a repair shop, garage, or other place of storage, is being towed upon a highway by a tow car and the vehicle is determined to be in violation of subdivision (a) of Section 4000, the violation shall be charged as prescribed in Section 40001.

**Occupational Licensing: Penalties**

40007. Division 5 (commencing with Section 11100) does not preclude the application of any other statutory provision which is applicable to any act violating any provision of Division 5.

**Interference With Driver or Mechanism, Following Too Closely, And Reckless Driving: Stalking**

40008. (a) Notwithstanding any other provision of law, except as otherwise provided in subdivision (c), any person who violates Section 21701, 21703, or 23103, with the intent to capture any type of visual image, sound recording, or other physical impression of another person for a commercial purpose, is guilty of a misdemeanor and not an infraction and shall be punished by imprisonment in a county jail for not more than six months and by a fine of not more than two thousand five hundred dollars ($2,500).

(b) Notwithstanding any other provision of law, except as otherwise provided in subdivision (c), any person who violates Section 21701, 21703, or 23103, with the intent to capture any type of visual image, sound recording, or other physical impression of another person for a commercial purpose and who causes a minor child or children to be placed in a situation in which the child’s person or health is endangered, is guilty of a misdemeanor and not an infraction and shall be punished by imprisonment in a county jail for not more than one year and by a fine of not more than five thousand dollars ($5,000).

(c) Pursuant to Section 654 of the Penal Code, an act or omission described in subdivision (a) or (b) that is punishable in different ways by different provisions of law shall be punished under the provision that provides for the longest potential term of imprisonment, but in no case shall the act or omission be punished under more than one provision. An acquittal or conviction and sentence under any one provision bars a prosecution for the same act or omission under any other provision.

Amended Sec. 5, Ch. 685, Stats. 2010. Effective January 1, 2011.
Article 2. Procedure on Equipment and Registration Violations

Proof of Correction

40150. Whenever any vehicle or combination of vehicles is found to be in an unsafe mechanical condition or is not equipped as required by this code, and a notice to appear is issued or a complaint filed for such violation, the notice to appear or the complaint may require that the person to whom the notice to appear is issued or against whom the complaint is filed shall produce in court satisfactory evidence that the vehicle or its equipment has been made to conform with the requirements of this code.

Lighting Equipment

40151. (a) Whenever any lighting equipment or device does not meet requirements established by the Department of the California Highway Patrol, the officer making the inspection shall direct the driver to remove the lighting equipment or device within 24 hours.

(b) Whenever any lighting equipment or device meets requirements established by the department but by reason of faulty adjustment or otherwise fails to comply with this code, the officer making the inspection shall direct the driver to make it comply with this code within 48 hours.

Unregistered Vehicle: Compliance

40152. (a) Whenever any vehicle or combination of vehicles is found to be not registered as required by this code, and a notice to appear is issued or a complaint is filed for that violation, the person to whom the notice to appear is issued or against whom the complaint is filed shall produce in court satisfactory evidence that the vehicle or combination of vehicles has been registered or has had the appropriate fees paid, or has been reduced to junk, to conform with the requirements of this code. The court shall not dismiss the offense until that evidence is produced.

(b) A four-day, nonresident commercial trip permit of the type authorized in Section 4004 may not be accepted as evidence of registration compliance as required in subdivision (a) of this section.

Amended Sec. 83, Ch. 1154, Stats. 1996. Effective September 30, 1996.

Article 3. Procedure on Parking Violations

(Amended Ch. 1938, Stats. 1986. Effective January 1, 1987.)

Parking Violation: Procedure

40200. (a) Any violation of any regulation that is not a misdemeanor governing the standing or parking of a vehicle under this code, under any federal statute or regulation, or under any ordinance enacted by local authorities is subject to a civil penalty. The enforcement of those civil penalties shall be governed by the civil administrative procedures set forth in this article.

(b) Except as provided in Section 40209, the registered owner and driver, rentee, or lessee of a vehicle cited for any violation of any regulation governing the parking of a vehicle under this code, under any federal statute or regulation, or under any ordinance enacted by a local authority shall be jointly liable for parking penalties imposed under this article, unless the owner can show that the vehicle was used without consent of that person, express or implied. An owner who pays any parking penalty, civil judgment, costs, or administrative fees pursuant to this Article shall have the right to recover the same from the driver, rentee, or lessee.

(c) The driver of a vehicle who is not the owner thereof but who uses or operates the vehicle with the express or implied permission of the owner shall be considered the agent of the owner to receive notices of parking violations served in accordance with this Article and may contest the notice of violation.

Unlawful Use of Disabled Placard or Plates: Notice of Violation

40200.1. A person shall not be subject to both a notice of parking violation and a notice to appear for the same violation.

Allocation of Parking Penalties

40200.3. (a) All parking penalties collected by the processing agency, which may be the issuing agency, including process service fees and fees and collection costs related to civil debt collection, shall be deposited to the account of the issuing agency, except that those sums attributable to the issuance of a notice of parking violation by a peace officer of the Department of the California Highway Patrol shall be deposited in the account in the jurisdiction where the violation occurred, and except those sums payable to a county pursuant to Chapter 12 (commencing with Section 76000) of Title 8 of the Government Code and that portion of any parking penalty which is attributable to an increase in the parking bail amount effective between September 16, 1988, and July 1, 1992, inclusive, pursuant to Section 1463.28 of the Penal Code. Those funds attributable to this increase in bail shall be transferred to the county treasurer and deposited in the general fund. Any increase in parking penalties effective after July 1, 1992, shall accrue to the benefit of the issuing agency.

(b) The processing agency shall prepare a report at the end of each fiscal year setting forth the number of cases processed, and all sums received and distributed, together with any other information that may be required by the issuing agency or the Controller. This report is a public record and shall be delivered to each issuing agency. Copies shall be made available, upon request, to the county auditor, the Controller, and the grand jury.

Amended Ch. 72, Ch. 305, Stats. 1996. Effective January 1, 1997.

Processing Notices: Processing Agency

40200.4. (a) The processing agency shall deposit with the county treasurer all sums due the county as the result of processing a parking violation not later than 45 calendar days after the last day of the month in which the parking penalty was received.

(b) Except as provided in subdivisions (c) and (d), if a court within a county has been processing notices of parking violations and notices of delinquent parking violations for a city, a district, or any other issuing agency, the issuing agency and the county shall provide in an agreement for the orderly transfer of the processing activity as soon as possible but not later than January 1, 1994. The agreement shall permit the court to phase out, and the issuing agency to phase in, or transfer, personnel, equipment, and facilities that may have been acquired or need to be acquired in contemplation of a long-term commitment to processing of notices of parking

violations and notices of delinquent parking violations for the issuing agency under this article. The court shall transfer the processing function for parking citations issued by the Department of the California Highway Patrol to the processing agency in the city or county where the violation occurred.

(c) If Contra Costa County or San Mateo County, or a court in either county, had a contract in effect on January 1, 1992, to process notices of parking violations and notices of delinquent parking violations for a city, district, or other issuing agency within the particular county or counties, the county may continue to provide those services to the issuing agencies pursuant to the terms of the contract and any amendments thereto, to and including June 30, 1996, after which Section 40200.5 shall govern any contracts entered into for these services.

(d) San Francisco Municipal Court employees engaged in processing notices of parking violations and the positions of those employees shall be transferred to equivalent civil service positions in the City and County of San Francisco.

(e) No court employee shall be terminated or otherwise released from employment as a result of the transfer of processing notices of parking violations and notices of delinquent parking violations from the courts to the issuing agencies.

(f) As used in this article, “parking penalty” includes the fine authorized by law, including assessments authorized by this article, any late payment penalty, and costs of collection as provided by law.

Amended Sec. 73, Ch. 305, Stats. 1996. Effective January 1, 1997.

Contract for Processing Notices

40200.5. (a) Except as provided in subdivision (c) of Section 40200.4, an issuing agency may elect to contract with the county, with a private vendor, or with any other city or county processing agency, other than the Department of the California Highway Patrol or other state law enforcement agency, within the county, with the consent of that other entity, for the processing of notices of parking violations and notices of delinquent parking violations, prior to filing with the court pursuant to Section 40230.

If an issuing agency contracts with a private vendor for processing services, it shall give special consideration to minority business enterprise participation in providing those services. For purposes of this subdivision, “special consideration” has the same meaning as specified in subdivision (c) of Section 14838 of the Government Code, as it relates to small business preference.

(b) A contract entered pursuant to subdivision (a) shall provide for monthly distribution of amounts collected between the parties, except those amounts payable to a county pursuant to Chapter 12 (commencing with Section 76000) of Title 8 of the Government Code and amounts payable to the Department of Motor Vehicles pursuant to Section 4763 of this code.

(c) If a contract entered into pursuant to subdivision (a) includes the provision of qualified examiners or administrative hearing providers, the contract shall be based on either a fixed monthly rate or on the number of notices processed and shall not include incentives for the processing entity based on the number of notices upheld or denied or the amount of fines collected.

Issuing Agency: Duties: Processing Agency Defined

40200.6. (a) If a contract is entered into pursuant to Section 40200.5, for the purposes of this article, “processing agency” means the contracting party responsible for the processing of the notices of parking violations and notices of delinquent parking violations.

(b) The governing body of the issuing agency shall establish written policies and procedures pursuant to which the contracting party shall provide services.

(c) The issuing agency shall be responsible for all actions taken by contracting parties and shall exercise effective oversight over the parties. “Effective oversight” includes, at a minimum, an annual review of the services of the processing agency and a review of complaints made by motorists using the services of the processing agency. The issuing agency shall establish procedures to investigate and resolve complaints by motorists about any processing agency.

(d) Subdivision (c) does not apply to an issuing agency that is a law enforcement agency if the issuing agency does not also act as the processing agency.

Recall of Parking Citation Hold

40200.8. The parking processing agency shall notify the department and recall any hold on the registration of a vehicle that it filed with the department in connection with a parking citation if the processing agency is awarded a civil judgment for the citation pursuant to subdivision (b) or (c) of Section 40220, or if the processing agency has granted a review of the issuance of the citation pursuant to Section 40200.7 or Section 40215.

Amended Sec. 41, Ch. 766, Stats. 1995. Effective January 1, 1996.

Notice of Parking Violation

40202. (a) If a vehicle is unattended during the time of the violation, the peace officer or person authorized to enforce parking laws and regulations shall securely attach to the vehicle a notice of parking violation setting forth the violation, including reference to the section of this code or of the Public Resources Code, the local ordinance, or the federal statute or regulation so violated; the date; the approximate time thereof; the location where the violation occurred; a statement printed on the notice indicating that the date of payment is required to be made not later than 21 calendar days from the date of citation issuance; and the procedure for the registered owner, lessee, or renter to deposit the parking penalty or, pursuant to Section 40215, contest the citation. The notice of parking violation shall also set forth the vehicle license number and registration expiration date if they are visible, the last four digits of the vehicle identification number, if that number is readable through the windshield, the color of the vehicle, and, if possible, the make of the vehicle. The notice of parking violation, or copy thereof, shall be considered a record kept in the ordinary course of business of the issuing agency and the processing agency and shall be prima facie evidence of the facts contained therein.

(b) The notice of parking violation shall be served by attaching it to the vehicle either under the windshield wiper or in another conspicuous place upon the vehicle so as to be easily observed by the person in charge of the vehicle upon the return of that person.
(c) Once the issuing officer has prepared the notice of parking violation and has attached it to the vehicle as provided in subdivisions (a) and (b), the officer shall file the notice with the processing agency. Any person, including the issuing officer and any member of the officer’s department or agency, or any peace officer who alters, conceals, modifies, nullifies, or destroys, or causes to be altered, concealed, modified, nullified, or destroyed the face of the remaining original or any copy of a citation that was retained by the officer, for any reason, before it is filed with the processing agency or with a person authorized to receive the deposit of the parking penalty, is guilty of a misdemeanor.

(d) If, during the issuance of a notice of parking violation, without regard to whether the vehicle was initially attended or unattended, the vehicle is driven away prior to attaching the notice to the vehicle, the issuing officer shall file the notice with the processing agency. The processing agency shall mail, within 15 calendar days of issuance of the notice of parking violation, a copy of the notice of parking violation or transmit an electronic facsimile of the notice to the registered owner.

(e) If, within 21 days after the notice of parking violation is attached to the vehicle, the issuing officer or the issuing agency determines that, in the interest of justice, the notice of parking violation should be canceled, the issuing agency, pursuant to subdivision (a) of Section 40215, shall cancel the notice of parking violation or, if the issuing agency has contracted with a processing agency, shall notify the processing agency to cancel the notice of parking violation pursuant to subdivision (a) of Section 40215. The reason for the cancellation shall be set forth in writing.

If, after a copy of the notice of parking violation is attached to the vehicle, the issuing officer determines that there is incorrect data on the notice, including, but not limited to, the date or time, the issuing officer may indicate in writing, on a form attached to the original notice, the necessary correction to allow for the timely entry of the notice on the processing agency’s data system. A copy of the correction shall be mailed to the registered owner of the vehicle.

(f) Under no circumstances shall a personal relationship with any officer, public official, or law enforcement agency be grounds for cancellation.

Notice of Penalty

40203. The notice of parking violation shall be accompanied by a written notice of the amount of the parking penalty due for that violation, the address of the person authorized to receive a deposit of the parking penalty, a statement in bold print that payments of the parking penalty for the parking violation may be sent through the mail, and instructions on obtaining information on the procedures to contest the notice of parking violation.

Amended Sec. 8, Ch. 734, Stats. 1995. Effective January 1, 1996.

Establishment and Collection of Penalty

40203.5. (a) The schedule of parking penalties for parking violations and late payment penalties shall be established by the governing body of the jurisdiction where the notice of violation is issued. To the extent possible, issuing agencies within the same county shall standardize parking penalties.

(b) Parking penalties under this article shall be collected as civil penalties.

(c) (1) Notwithstanding subdivision (a) the penalty for a violation of Section 22507.8 or an ordinance or resolution adopted pursuant to Section 22511.57 shall be not less than two hundred fifty dollars ($250) and not more than one thousand dollars ($1,000).

(2) The issuing agency may suspend the imposition of the penalty in paragraph (1), if the violator, at the time of the offense, possesses but failed to display a valid special identification license plate issued pursuant to Section 5007 or a distinguishing placard issued pursuant to Section 22511.55 or 22511.59.

(3) A penalty imposed pursuant to this subdivision may be paid in installments if the issuing agency determines that the violator is unable to pay the entire amount in one payment.

Amended Sec. 6, Ch. 415, Stats. 2009. Effective January 1, 2010.

Additional Assessment

40203.6. (a) In addition to an assessment levied pursuant to any other law, an additional assessment equal to 10 percent of the penalty established pursuant to Section 40203.5 shall be imposed by the governing body of the jurisdiction where the notice of parking violation is issued for a civil violation of any of the following:

(1) Subdivisions (b), (c), and (d) of Section 4461.

(2) Subdivision (c) of Section 4463.

(3) Section 22507.8.

(4) An ordinance or resolution adopted pursuant to Section 22511.57.

(5) Section 22522.

(b) An assessment imposed pursuant to this section shall be deposited with the city or county where the violation occurred.

Payment of Penalty

40204. If the parking penalty is received by the person authorized to receive the deposit of the parking penalty and there is no contest as to that parking violation, the proceedings under this Article shall terminate.

Contesting Penalty

40205. If a person contests the parking violation, the processing agency shall proceed in accordance with Section 40215.

Notice of Delinquent Violations

40206. (a) If the payment of the parking penalty is not received by the person authorized to receive a deposit of the parking penalty by the date fixed on the notice of parking violation under Section 40202, the processing agency shall deliver to the registered owner a notice of delinquent parking violation.

(b) Delivery of a notice of delinquent parking violation under this section may be made by personal service or by first-class mail addressed to the registered owner, as shown on records of the Department of Motor Vehicles.

Copy of Original Notice of Violation

40206.5. (a) Within 15 days of a request, by mail or in person, the processing agency shall mail or otherwise provide to any person who has received a notice of delinquent parking violation, or his or her agent, a photostatic copy of the original notice of parking violation or an electronically produced facsimile of the original notice of parking violation. The issuing agency may charge a fee sufficient to recover the actual cost of providing the copy, not to exceed two dollars ($2). Until the issuing agency complies with a request for a copy of the original notice of parking violation, the processing agency may not proceed pursuant to subdivision (i) of Section 22651, Section 22651.7, or Section 40220.

(b) If the description of the vehicle on the notice of parking violation does not substantially match the corresponding information on the registration card for that vehicle and the processing agency is satisfied that the vehicle has not been incorrectly described due to the intentional switching of license plates, the processing agency shall, on written request of the person cancel the notice of parking violation without the necessity of an appearance by that person.

(c) For purposes of this section, a copy of the notice of parking violation may be a photostatic copy or an electronically produced facsimile.

Contents of Notice of Delinquent Violation

40207. (a) The notice of delinquent parking violation shall contain the information specified in subdivision (a) of Section 40202, subdivision (a) of Section 40241, or subdivision (a) of Section 40248, as applicable, and Section 40203, and, additionally shall contain a notice to the registered owner that, unless the registered owner pays the parking penalty or contests the citation within 21 calendar days from the date of issuance of the citation or 14 calendar days after the mailing of the notice of delinquent parking violation or completes and files an affidavit of nonliability that complies with Section 40208 or 40209, the renewal of the vehicle registration shall be contingent upon compliance with the notice of delinquent parking violation. If the registered owner, by appearance or by mail, makes payment to the processing agency within 21 calendar days from the date of issuance of the citation or 14 calendar days after the mailing of the notice of delinquent parking violation, the parking penalty shall consist solely of the amount of the original penalty. Additional fees, assessments, or other charges shall not be added.

(b) This section shall become operative on January 1, 2016.

Affidavit of Nonliability

40208. The notice of delinquent parking violation shall contain, or be accompanied with, an affidavit of nonliability and information of what constitutes nonliability, information as to the effect of executing the affidavit, and instructions for returning the affidavit to the issuing agency.

Affidavit of Nonliability: Vehicle Sold or Transferred

40209. If the affidavit of nonliability is returned to the processing agency within 30 calendar days of the mailing of the notice of delinquent parking violation together with the proof of a written lease or rental agreement between a bona fide rental or leasing company, and its customer which identifies the rentee or lessee and provides the driver’s license number, name, and address of the rentee or lessee, the processing agency shall serve or mail to the rentee or lessee the notice of delinquent parking violation. If payment is not received within 21 calendar days from the date of issuance of the citation or 14 calendar days after the mailing of the notice of delinquent parking violation, the processing agency may proceed against the rentee or lessee pursuant to Section 40220.

Amended Sec. 8, Ch. 1156, Stats. 1996. Effective January 1, 1997.

Affidavit of Nonliability: Leased or Rented Vehicle

40209. If the affidavit of nonliability is returned to the processing agency within 30 calendar days of the mailing of the notice of delinquent parking violation together with the proof of a written lease or rental agreement between a bona fide rental or leasing company, and its customer which identifies the rentee or lessee and provides the driver’s license number, name, and address of the rentee or lessee, the processing agency shall serve or mail to the rentee or lessee the notice of delinquent parking violation. If payment is not received within 21 calendar days from the date of issuance of the citation or 14 calendar days after the mailing of the notice of delinquent parking violation, the processing agency may proceed against the rentee or lessee pursuant to Section 40220.

Amended Sec. 8, Ch. 1156, Stats. 1996. Effective January 1, 1997.

Affidavit of Nonliability: Vehicle Sold or Transferred

40210. (a) If the affidavit of nonliability is returned and indicates that the registered owner served has made a bona fide sale or transfer of the vehicle and has delivered possession of the vehicle to the purchaser prior to the date of the alleged violation, the processing agency shall obtain verification from the department that the registered owner has complied with Section 5602.

(b) If the registered owner has complied with Section 5602, the processing agency shall cancel the notice of delinquent parking violation or violations with respect to the registered owner.

(c) If the registered owner has not complied with Section 5602, the processing agency shall inform the registered owner that the citation shall be paid in full or contested pursuant to Section 40215 unless the registered owner delivers evidence within 15 days of the notice that establishes that the transfer of ownership and possession of the vehicle occurred prior to the date of the alleged violation. If the registered owner does not
Processing of Delinquent Parking Violations

40211. (a) If the registered owner, or an agent of the registered owner, or a rentee or lessee who was served with the notice of delinquent parking violation pursuant to Section 40206 or Section 40209, or any other person who presents the notice of parking violation or notice of delinquent parking violation after the notice of delinquent parking violation has been issued for delivery under Section 40206, deposits the parking penalty with a person authorized to receive it, the processing agency shall do both of the following:

(1) Deliver a copy of one of the following: the notice of delinquent parking violation issued under Section 40206; a true and correct abstract containing the information set forth in the notice of parking violation if the citation was issued electronically; or an electronically reproduced listing of the citation information presented in a notice of delinquent parking violation to the person and record the name, address, and driver’s license number of the person actually given the copy in the records of the issuing agency.

For the purposes of this paragraph, a copy of the notice of delinquent parking violation may be a photostatic copy.

(2) Determine whether the notice of delinquent parking violation has been filed with the department pursuant to subdivision (b) of Section 40220 or a civil judgment has been entered pursuant to Section 40220.

(b) If the notice of delinquent parking violation has not been filed with the department or judgment entered and payment of the parking penalty, including any applicable assessments, is received, the proceedings under this Article shall terminate.

(c) If the notice of delinquent parking violation has been filed with the department, has been returned under subdivision (b) or (c) of Section 4760 or Section 4764, and payment of the parking penalty together with the administrative service fee of the processing agency for costs of service and any applicable assessments is received, the proceedings under this Article shall terminate.

(d) If the notice of delinquent parking violation has been filed with the department and has not been returned under Section 4760, 4762, and 4764, and payment of the parking penalty for, and any applicable costs of, service in connection with civil debt collection, is received by the processing agency, the processing agency shall do all of the following:

(1) Deliver a certificate of payment to the registered owner, the agent, the lessee, or the rentee or other person making the payment.

(2) Immediately transmit the payment information to the department in the manner prescribed by the department.

(3) Terminate proceedings on the notice of delinquent parking violation.

(4) Transmit for deposit all parking penalties and assessments in accordance with law.

§40215

Contesting Parking Violation: Procedure

40215. (a) For a period of 21 calendar days from the issuance of a notice of parking violation or 14 calendar days from the mailing of a notice of delinquent parking violation, exclusive of any days from the day the processing agency receives a request for a copy or facsimile of the original notice of parking violation pursuant to Section 40206.5 and the day the processing agency complies with the request, a person may request an initial review of the notice by the issuing agency. The request may be made by telephone, in writing, or in person. There shall be no charge for this review. If, following the initial review, the issuing agency is satisfied that the violation did not occur, that the registered owner was not responsible for the violation, or that extenuating circumstances make dismissal of the citation appropriate in the interest of justice, the issuing agency shall cancel the notice of parking violation or notice of delinquent parking violation. The issuing agency shall advise the processing agency, if any, of the cancellation. The issuing agency or the processing agency shall mail the results of the initial review to the person contesting the notice, and, if following that review, cancellation of the notice does not occur, include a reason for that denial, notification of the ability to request an administrative hearing, and notice of the procedure adopted pursuant to subdivision (b) for waiving prepayment of the parking penalty based upon an inability to pay.

(b) If the person is dissatisfied with the results of the initial review, the person may request an administrative hearing of the violation no later than 21 calendar days following the mailing of the results of the issuing agency’s initial review. The request may be made by telephone, in writing, or in person. The person requesting an administrative hearing shall deposit the amount of the parking penalty with the processing agency. The issuing agency shall adopt a written procedure to allow a person to request an administrative hearing without payment of the parking penalty upon satisfactory proof of an inability to pay the amount due. After January 1, 1996, an administrative hearing shall be held within 90 calendar days following the receipt of a request for an administrative hearing, excluding time tolled pursuant to this article. The person requesting the hearing may request one continuance, not to exceed 21 calendar days.

(c) The administrative hearing process shall include the following:

(1) The person requesting a hearing shall have the choice of a hearing by mail or in person. An in-person hearing shall be conducted within the jurisdiction of the issuing agency. If an issuing agency contracts with an administrative provider, hearings shall be held within the jurisdiction of the issuing agency or within the county of the issuing agency.
§40220

(2) If the person requesting a hearing is a minor, that person shall be permitted to appear at a hearing or admit responsibility for the parking violation without the necessity of the appointment of a guardian. The processing agency may proceed against the minor in the same manner as against an adult.

(3) The administrative hearing shall be conducted in accordance with written procedures established by the issuing agency and approved by the governing body or chief executive officer of the issuing agency. The hearing shall provide an independent, objective, fair, and impartial review of contested parking violations.

(4) (A) The issuing agency’s governing body or chief executive officer shall appoint or contract with qualified examiners or administrative hearing providers that employ qualified examiners to conduct the administrative hearings. Examiners shall demonstrate those qualifications, training, and objectivity necessary to conduct a fair and impartial review. An examiner shall not be employed, managed, or controlled by a person whose primary duties are parking enforcement or parking citation, processing, collection, or issuance. The examiner shall be separate and independent from the citation collection or processing function. An examiner’s continued employment, performance evaluation, compensation, and benefits shall not, directly or indirectly, be linked to the amount of fines collected by the examiner.

(B) Examiners shall have a minimum of 20 hours of training. The examiner is responsible for the costs of the training. The issuing agency may reimburse the examiner for those costs. Training may be provided through (i) an accredited college or university, (ii) a program conducted by the Commission on Peace Officer Standards and Training, (iii) American Arbitration Association or a similar established organization, or (iv) through any program approved by the governing board of the issuing agency, including a program developed and provided by, or for, the agency. Training programs may include topics relevant to the administrative hearing, including, but not limited to, applicable laws and regulations, parking enforcement procedures, due process, evaluation of evidence, hearing procedures, and effective oral and written communication. Upon the approval of the governing board of the issuing agency, up to 12 hours of relevant experience may be substituted for up to 12 hours of training. In addition, up to eight hours of the training requirements described in this subparagraph may be credited to an individual, at the discretion of the governing board of the issuing agency, based upon training programs or courses described in (i) to (iv), inclusive, that the individual attended within the last five years.

(5) The officer or person who issues a notice of parking violation shall not be required to participate in an administrative hearing. The issuing agency shall not be required to produce any evidence other than the notice of parking violation or copy thereof and information received from the Department of Motor Vehicles identifying the registered owner of the vehicle. The documentation in proper form shall be prima facie evidence of the violation.

(6) The examiner’s decision following the administrative hearing may be personally delivered to the person by the examiner or sent by first-class mail, and, if the notice is not cancelled, include a written reason for that denial.

(7) Following a determination by the examiner that a person has committed the violation, the examiner may, consistent with the written guidelines established by the issuing agency, allow payment of the parking penalty in installments, or an issuing agency may allow for deferred payment or allow for payments in installments, if the person provides evidence satisfactory to the examiner or the issuing agency, as the case may be, of an inability to pay the parking penalty in full. If authorized by the governing board of the issuing agency, the examiner may permit the performance of community service in lieu of payment of a parking penalty.

(d) The provisions of this section relating to the administrative appeal process do not apply to an issuing agency that is a law enforcement agency if the issuing agency does not also act as the processing agency.

Disposition of Delinquent Parking Violation

40220. Except as otherwise provided in Sections 40221 and 40222, the processing agency shall proceed under only one of the following options in order to collect an unpaid parking penalty:

(a) File an itemization of unpaid parking penalties and service fees with the department for collection with the registration of the vehicle pursuant to Section 4760.
