Vehicle Equipment Guide

DEPARTMENT OF CALIFORNIA HIGHWAY PATROL

VEHICLE EQUIPMENT GUIDE

THIS PUBLICATION MAY BE PURCHASED FROM THE
CALIFORNIA HIGHWAY PATROL.

REVISED FEBRUARY 2019

LIBRARY DISTRIBUTION ACT

HPG 83.2

FOREWORD

The purpose of this guide is to provide training materials for vehicle inspection personnel and to establish standard inspection procedures to determine whether vehicles are equipped as required, brake systems are adequate, equipment is maintained in good condition and functions properly, compressed natural gas fuel systems are installed and maintained as required, and vehicles are safe for operation on the highway.

The objective of this guide is to obtain compliance with laws relating to vehicle equipment requirements and to achieve uniformity in vehicle inspection activities of the California Highway Patrol (CHP).

The CHP acknowledges the contributions of research organizations, manufacturers, and engineering and technical groups in the preparation of the guide. Illustrations and descriptive materials contained in copyrighted materials are reproduced in this guide by courtesy of the following organizations:
