LIBRARY DISTRIBUTION ACT

HPH 100.2

To California State Agency Facility Managers:

I would like to take this opportunity to reinforce the California Highway Patrol (CHP) commitment to crime prevention and security at your facility. The safety and security of your employees are of the utmost importance to the CHP, and we consider it a privilege to ensure the safety of our colleagues in their workplace.

This Crime Prevention and Security Handbook is provided to you as a guide in developing a Crime Prevention Plan (CPP). Through active participation in developing your own CPP, you will establish short-term and long-term goals designed to enhance crime prevention and security needs at your facility.

As you work through this handbook, please do not hesitate to contact your local CHP Area office for guidance. We are committed to providing the highest level of Safety, Service, and Security to our state agency colleagues.

Thank you for your participation and assistance in this endeavor.

Sincerely,

*S. A. Duryee, Commissioner
California Highway Patrol*
